

JAPAN'S POSITION ON CHINA IS BEING OUTLINED TODAY BY SEVERAL OF THE POWERS

Would Like to See Set of Rules and Principles

AMERICA IS READY

TO INSIST THAT RATIO OF SHIPS JUNKED IS ABSOLUTELY CORRECT AT HUGHES SAYS

WASHINGTON, Nov. 19.—Precise attitude of Japan toward China and toward armament limitation is becoming more and more...

WASHINGTON, Nov. 19.—Japan's position on China's proposals is being authoritatively outlined this way:

Japan would like to see the conference adopt a set of principles which, if guaranteed Japan's "right of existence" would generally and especially insure for China her territorial and, in so far as possible, her complete administrative integrity.

Japan for the moment has no broad program to apply to China, believing that if she sought to impose a broad platform it would lay her open to suspicion as possibly concealing some hidden purpose.

As suggestions arise Japan will explain her own views which include a well defined limit concerning China beyond which he spokesmen say she will not go.

As Japan and China are members of the League of Nations and have subscribed to making public all treaties, she is ready to refrain from secret treaties but doubts the practicability of having China participate in new treaties concerning that country.

Great Britain is officially on record as willing to abandon the spheres of influence and exclusive territorial privileges in China; France has already indicated her willingness to do so.

December First if They Can Be Completed in Time

REVISE SHOP CRAFT

WAGE SCHEDULES AND WILL AFFECT APPROXIMATELY 500,000 MEN

CHICAGO, Nov. 19.—The United States railroad labor board announced last night that the new working rules for the six shop crafts probably will be completed and issued in time to become effective December 1.

Issuance of the rules, under a recent decision of the board, paves the way for consideration of requests which may be filed by the roads for revision of the shop and craft wage schedules.

The new shop craft rules will affect approximately 500,000 men on all class one railroads in the country. Only 94 railroads are directly concerned in the present case, the others not having their submissions in proper shape when the case was taken up, but board members anticipate that all the class one railroads will probably carry out the decision without further hearings.

The board's statement issued last night said: "Such satisfactory progress during the past week has been made in the consideration of rules and working conditions for the six shop crafts that it is altogether probable that these rules will be completed and will become effective December 1."

The board members said last night that the new rules have been practically completed in less than five months, while the national agreement, which they supersede required the attention of railways, government and labor representatives and experts for seven months before it was completed.

The labor board's work on the rules was interrupted by the threatened railroad strike which was averted October 27. A few days previously the board had announced that no further wage reductions for any class of employees would be considered by the board until working rules and agreements in dispute for that class of employees had been passed on.

The board, it was indicated, last night, will next take up for consideration the rules and working conditions for the maintenance of way employees. There are a large number of disputed questions regarding these rules already before the board and statisticians have prepared most of the cases for presentation.

The national agreement, which the new rules will displace, was the first brought before the railroad administration in January, 1919. It was submitted to a committee of 28 men, 14 representatives of the employees and 14 of the roads. This committee considered the rules for four months, after which the findings were reviewed by the national board on railway wages and working conditions. The railway administration then passed on the rules.

Steps for revision of the national agreements before the labor board were taken April 16, 1920, after the railroads and their employees had finished preliminary negotiations both as to wages and rules and working conditions without reaching any agreement. The board hastened the decision by ordering further conferences between employees and roads on rules and working conditions. The results were reported back to the board, which in July began the work of formulating new rules.

KIWANIS CLUB WENT TO ORLANDO AT BIG MEET

ORLANDO CLUB RECEIVED ITS CHARTER LAST NIGHT

The Sanford Kiwanis Club had the time of their young lives at Orlando last night when they went to that city to help the Orlando Club receive their charter. The members from this city had such a good time they could not tell about it and the following is clipped from the Orlando Sentinel:

"The Orlando Country Club was the scene of one of the most brilliant affairs ever held in this popular social center last evening when the Orlando Kiwanis Club was presented with the International charter of Kiwanis. Governor E. G. Branch, of the Florida and Alabama District of Kiwanis, representing the International, made the charter presentation, and W. C. Esington, president of the Orlando Kiwanis Club, accepted it on behalf of the local club. For the occasion the Orlando Club was beautifully decorated with streamers of yellow chrysanthemums, ferns and potted plants, and about the long banquet table were grouped the members of the Orlando Kiwanis Club, their wives, friends and visiting Kiwanians and their wives from Tampa and Sanford. A cabaret show from Jacksonville, engaged for the occasion, wound up the splendid program which preceded an elaborate ball. Hartzell's orchestra furnished the music for the evening.

"Sanford sent a delegation of forty from the 'baby' Kiwanis Club of the state, who made things hum at every opportunity in their section of the banquet hall. At every opportunity this lively delegation, which had prepared a program of snappy songs greeting their brother organization in Orlando, radiated the Kiwanis spirit, and when Forest Lake arose to express in words what a pleasure it was to partake of the hospitality and good fellowship of the Orlando Kiwanis Club and gather from Orlandoites the inspiration which had helped to build Florida's Seventh City, he was greeted with a storm of applause.

"Though not so strong in number as the delegation from Sanford, the Tampa Kiwanians are just as strong in spirit. It remained for Tampa, the 'granddaddy' organization of Kiwanis, to produce the first lady Kiwanian in the state, Mrs. Judge Peacock, who won her audience by the charm of

her manner when she acknowledged the pleasure she found at being with the Orlando Kiwanis Club on the night of nights in the history of their organization. She brought forth a burst of merriment when she apologized for not being a speech-maker due to the fact that her husband, being a lawyer, always monopolized all of the speech-making in her household.

"Honest John' McWhorter of the Tampa Tribune, and president of the Tampa Kiwanis club, when introduced by Toastmaster Buckmaster, arose to congratulate the Orlando Kiwanis club and to cite the growth and ideals of Kiwanis. He stated that Tampa Kiwanis had now a membership of 75 and that their luncheons were never 'dend' affairs. In pointing to the motto, 'We build,' he stated that before building it was always necessary to have a plan, and said that the Orlando Kiwanis Club would have no trouble to build if they looked ahead, found the needs and recognized the possibilities of their city, and moved ahead together.

"Sanford is the largest city on Lake Monroe," said Hon. Forest Lake, to awaken a storm of merriment, 'We come to bring you greetings from the 'Baby' Kiwanis club of the state,' he continued, "and to wish you the success you deserve. It is always an inspiration to us from Sanford to visit Orlando, a city which stands as a monument to its splendid citizenship," he finished."

Frank Miller also made a stirring talk about Sanford and Kiwanis and the spirit that builds cities.

The Sanford crowd returned home at a late hour with the feeling that Orlando and Sanford were two of the best cities in the state.

SUGAR MILL CONSTRUCTION TO COMMENCE

FOR LAUDERDALE, Nov. 18.—Announcement has come from the officials of the Pennsylvania Sugar Co., that the corporation is to start at once on the construction of a million dollar sugar mill on the corporation's holdings in Broward county. The corporation now owns 100,000 acres of land along the Miami canal, nearly all of which is in Broward county.

The corporation's original purchase was 62,200 acres along the canal and north of the Miami and Davie canals. Since then the corporation made a number of purchases just south of the junction of these canals, and the latest purchase is in townships 51 and 52, range 38. A considerable portion of this last purchase is in Dade, county just south of the Broward county line.

ST. LAWRENCE PROJECT GETS DIRECT ATTACK

SAVANNAH, Ga., Nov. 18.—Governor Nathan L. Miller, of New York, in an address before the Atlantic Deeper Waterways convention denounced the proposed St. Lawrence ship canal project as involving an unwarranted expenditure of \$200,000,000 by the United States as "criminal foolishness" in wasting millions sadly needed for other improvements and as an attempt to realize an "impossible dream."

The governor declared that the tax burden would be increased in order to provide what was only an experiment and asserted that the prime necessity was to improve first our own ports and waterways instead of promoting a project in a foreign country. He affirmed that the New York state barge canal could, if properly utilized, carry all the 10,000,000 tons of grain which annually would seek a water outlet from the west.

He asserted that no unprejudiced person competent to speak on the subject believed that ocean-going vessels would ever navigate such a waterway as the proposed St. Lawrence ship canal. The governor declared that a threat had been conveyed to him that opposition to the St. Lawrence canal would result in retaliation of the 18 states composing the Great Lakes-St. Lawrence Tidewater association. It might seem a waste of effort, he said, to speak in opposition to the project, as the association had announced that if the 18 states approved the project, favorable action would be taken on it by congress this year.

Nearly \$100,000 had been appropriated by the states in the Tidewater association to promote the campaign and bring pressure to bear on congress, he said. He added that the Charleston and Jacksonville chambers of commerce had suggested lining up with the Great Lakes-St. Lawrence Tidewater association on a principle of reciprocity. The governor pointed out that there was danger to the country on the promotion of public undertakings on a basis of reciprocity between sectional interests and declared such a method precluded a fair consideration of any undertaking on its merits.

ASSOCIATED DAILIES TO HOLD CONVENTION

MIAMI, Nov. 18.—From present indications the convention of the Associated Dailies of Florida will be held here Saturday and Sunday, will be a great success. Many of the daily newspaper owners, editors and managers, and their "better halves," are expected to attend and partake of the Magic City hospitality.

Hotel Urney will be headquarters, and the business session Saturday will be held there.

The banquet will take place at 8 o'clock Saturday night at the El Seville, serving a complete Spanish menu. At this function will occur most of the felicitations, including a speech by Ed Howe, the country philosopher. Sunday will be devoted to a cruise. Whether it will be to Bimini or down among the Florida keys will depend upon the weather.

Daily newspapers of Miami will be hosts of the convention.

FRANCE WILLING TO GIVE UP TERRITORY IN BEHALF OF CHINA

WASHINGTON, Nov. 18.—The French attitude in a general way toward the Far Eastern proposals of China was set forth after a two hour conference between Premier Briand and other members of the delegation today as follows:

First: France desires earnestly to aid China in realizing her aspirations, territorial, political and commercial.

Second: France would give up Kouang Tchou, which she leased from China in 1898, provided Great Britain gave up Wei Heiwei and Japan, Shantung, leased by the Germans at the same time, and the Port Arthur peninsula.

Third: France would not be unwilling to surrender her extra territorial privileges were other powers willing to do the same. France gave up these privileges in Japan in 1900 and was in negotiation with Turkey to give them up there in 1916, when war came. However, the French feel that extra territoriality should be maintained until it is clear that the Chinese republic can give adequate security and justice to foreigners.

Fourth: The French colony of Indo-China did not belong to China but to Annam. Consequently Indo-China, the great French colony, with 25,000,000 inhabitants, does not come into the question, according to the French point of view. If, however, some question should be raised as to the rectification of the 900 mile Chinese frontier, the French government would be willing to discuss the boundary.

Fifth: France approaches the discussions of Far Eastern questions in sympathy with Japan's need for expansion and for raw material, and, desires, under all circumstances, to take a conciliatory and pacific role.

Sixth: France is for open dealings of the powers with China and against any secret negotiations.

CONGREGATIONAL SCOUTS ENJOY WIENNIE ROAST.

Last Friday evening, on the water front a wiennie roast was greatly enjoyed by all the members of the Congregational troop of Boy Scouts. A large bonfire gave the light for the games that were played at the opening of the roast. Speeches were made by the new members of the troop. A talk was then given by Assistant Scoutmaster Dr. Burhans, which strongly held the interest of the whole troop. It was a looking forward to some new troop amusement that will probably be on hand in the near future. Two hikes were planned to take place the morning following Thanksgiving. One under Patrol Leader Shipp, a 14-miles hike, and the other under Patrol Leader Dorner, a shorter troop hike. After the roast, Scoutmaster Bolly congratulated the new members entering the troop—telling them of the backing that was behind the troop. Diarmisal followed the singing of a few songs and the "Star Spangled Banner."

SENATOR TRAMMELL INTRODUCES BILL TO AID THE SEMINOLES.

WASHINGTON, Nov. 10.—It having been brought to his attention by friends in Florida that there is more or less suffering among the Seminole Indians of his state, Senator Park Trammell has introduced in the senate a bill providing for an appropriation of \$25,000 "for the relief of the distress among the Seminole Indians of their civilization, hospitalization and education."

Senator Trammell states that while the federal government has been generous in the extreme in caring for the Indians of the west that the appropriations for the Florida Indians has heretofore been very meagre. The last appropriation bill carried only \$5,000 for the Seminole Indians although Senator Trammell made an effort to have it increased to \$10,000 "certainly the United States government," says Senator Trammell, "should see that there is no suffering among the Indians of his state and that ample provision should also be made for their civilization and education."

In the reports received by Senator Trammell from Florida it is stated that some of the Indians are actually suffering for the want of food, and but for a few kind hearted cowboys who have furnished provisions for the older Indians and the badly nourished children, there would be starvation among some of them.

DATA ON FLORIDA HIGHWAYS.

JACKSONVILLE, Nov. 19.—The Jacksonville Automobile Club has decided to call a special meeting of representatives of various Florida cities and towns to seek concerted action in the preparation of a map and data on all highways into Florida. The information would be compiled for free distribution to tourists. Speakers at the meeting here declared tourists are being given erroneous advice regarding roads into Jacksonville and that it was feared much tourist travel would be lost. The members of the committee which was given full authority to call the general meeting at an early date are C. S. L'Engle, R. L. Blagg, George J. Avent and A. V. Snell.

Don't forget that the Daily and Weekly Herald will have Christmas editions that will be the greatest advertising mediums ever presented to your notice. And we want every business house in Seminole county to be represented.

Same old story every day—some one looking for a home, some one looking for a store room, some one looking for a warehouse. We need money for investments.

With so many for the office of railroad commission made vacant by death, you can't make Governor Hardee believe that there are only 6,000 men in Florida out of work.

The Herald is glad to note the development of the Lake Mary section. It is one of the best fruit growing sections of our wonderful county and only needs pushing to bring it to the front.

That German musical who says American has produced no great music has never heard the ring of a \$5 gold piece thrown over the counters of the Herald for a year's subscription to this paper.

The editor of the Jax Met took a boat trip to Sanford the other day and he now advises all to "see Florida first." Jacksonville people should take heed and visit their friends in a sister state.

The Tampa Tribune says: "A minister's salary should enable him to live like a gentleman." If the reverse ratio worked and gentlemen lived like a minister there would be little doing six days in a week.

Henry Ford is trying to do something for the people in the Muscle Shoals plant. The government will never let him have that plant—mark our words. Our government does not want to do anything for the benefit of the people.

Jimmy Mears, of the Tourist Bureau, of Tampa, said a mouthful when he advised "rooms for rent"ers to shave about 10 per cent off last year's prices. Already most every resort town is jollying itself that the tourist crowd is the largest ever but those who have furnished rooms for rent sing another tune.

Only four more days till Thanksgiving. Do your shopping in that time, or you will not have the turkey and the trimmings. And we opine that while the turkey may roost as high as ever, the trimmings will be cut down considerably, as the prices are falling, the freight rates are down ten per cent, and everything is getting down to nearly the pre war basis—nearly, does not mean that they are.

"445 cases of booze were destroyed here Armistice night," says the New Smyrna Breeze. There was almost that much destroyed here, but nothing was said about it. The Breeze goes on to explain, however, that the liquor was burned in the streets by the revenue officers, but that "two cases were saved for the revenue officers and two cases were saved for the local officers, "for evidence." Two cases each should be evidence enough, and by the time they have tasted the contents of two cases, each, the officers should know whether it is liquor or "hootch."

After you visit the state and see them all you will come back to Seminole county and say: "Here is the fruit growing, here are the vegetables growing, here are the greatest developments along every line and at Sanford is the city that offers most to the man of means as a place for investment." And Seminole county can deliver the goods. This county is not an experiment, it is an actual fact and shows the truth of every assertion in the growing stuff. And our water transportation shows what the future holds in the way of wholesale houses and factories and big business of all kinds.

President Harding is already getting alarmed over the growing popularity of Secretary Hughes, and yesterday the press despatches carried the big news that President Harding had conceived the peace conference while yachting on the Chesapeake and driving the boat into a quiet nook, had scratched the wonderful document on a piece of bark, with the hind foot of a graveyard rabbit. It will now be a constant "ruckus" between Hughes and Harding 'a la Wilson-Brynn vaudeville of several years ago, and result in the overwhelming defeat of the Republican party at the next general election. Hughes is the biggest man in the Republican ranks today, but not big enough to be elected president with all the opposition that he will have. Watch it.

FORTUNATE FLORIDA

Florida enjoys the unique distinction of being known throughout the country as the most prosperous state in the union. Visitors from the north

JUST KIDS—A Dilemma! By Ad Carter

say that it is currently reported that Florida has suffered nothing, as yet, from the industrial depression that has the great manufacturing states in its grip, that there is no unemployment here, and that "business as usual" is the watchword.

Upon their arrival their first step is to verify these statements. They can hardly believe the evidence of their own eyes. They marvel at the immense amount of building construction in all Florida cities. They are amazed at the general air of prosperity. By what miracle have traditional relations been reversed, making a southern state show abounding evidences of prosperity while the northern states are groaning under the burden of hard times?

Of course we understand the causes of this phenomenon. Florida's welfare is based upon different conditions. It is not dependent upon factories so much as upon its fields, its groves, its resorts and other things not affected by conditions which govern in the north. Its prosperity is as nearly stable as anything earthly can ever hope to be.

But the important point in this connection is the valuable publicity thus secured. It is worth millions as advertising, and yet it costs nothing. It takes care of itself.

Florida has but one per cent of the population of America; but it has something for all of the other 99 per cent, and its big task heretofore has been to get them interested. Now they are all talking Florida, and the effect upon the future population, wealth, industry and developmental trend of the state is beyond calculation.—Lakeland Telegram.

TEN PER CENT FREIGHT REDUCTION AND CROPS.

While the announced ten per cent reduction in freight rates on farm products will be received gratefully by the producers and consumers alike, still it is but a short step in the direction of restoring pre-war rates, if such will ever be possible.

Freight rates on farm commodities shipped by Florida average an increase of seventy per cent since the beginning of the war and a ten per cent reduction is not going to affect a tremendous saving as compared to the loss caused by the average increase.

Florida's freight bill amounts to many millions of dollars annually. This is on farm products alone. The prevalent high rates on citrus fruits, truck and other crops have often been found to be almost prohibitory. Frequently a grower is not able to realize from a carload shipment enough money to pay the freight. As a result of this condition the great consuming public is deprived of wholesome and cheap fruits and truck crops.

The railroad rates should be so arranged that the farm products can get to market. It must be conceded, perhaps, that the railroads themselves would be glad to have the rates so arranged that they could guarantee the easy and free movement of all crops to market. But this of course cannot be accomplished without a general readjustment.

The ten per cent reduction is going to result in the saving of a large sum of money annually to Florida growers. The growers of all other states, likewise, will be benefited. But the reduction is admittedly entirely inadequate and insufficient to meet the needs and it is to be hoped that this ten per cent is merely the forerunner of other reductions.—Jacksonville Metropolis.

FOREST LAKE CANDIDATE FOR CITY COMMISSION

TO THE QUALIFIED ELECTORS OF SANFORD:

It is with a deep sense of duty that I have consented to become a candidate for the office of City Commissioner of the City of Sanford, but when 796 of my fellow-townsmen request it, I know of nothing else to do.

Having been thus nominated I hereby announce that I am a candidate for the office of City Commissioner at the ensuing election to be held on the 6th day of December next, and pledge myself, if elected, to an impartial and conscientious performance of the duties of the office for the advancement of our city and the welfare of its people.

I want here to express my appreciation for the splendid petitions filed placing me in nomination.

Very sincerely,
196-tfc FOREST LAKE.

THE WEATHER

For Florida: Local rains tonight or Sunday; cooler Sunday and in north portion tonight; frost probably in north portion Sunday night.

Weather report says storms approaching.

Tampa was represented here yesterday by H. F. Phipps.

A. Tishler, of New York, was registered at the Valdez yesterday.

J. T. Briwn, of Atlanta, was in the city yesterday transacting business.

J. B. Banks, of Atlanta, was in the city yesterday on a business mission.

C. P. Barron, of Atlanta, was among the out of state visitors here yesterday.

H. G. Moore, of Rochester, N. Y., is spending some time here on a business mission.

Earl Greenridge, of Boston, Mass., was among the out of state business visitors here yesterday.

But here in Sanford, with the sun shining and the temperature at 88, it does not seem like storms.

Max L. Drexler, of New York, made his headquarters at the Valdez while in the city on business.

H. C. Berry, of Cleveland, was registered at the Valdez yesterday while attending business here.

C. P. Fairbank, of Gardner, Mass., was in the city yesterday mingling with friends and attending to business.

George Steinhauer and H. Rosenkrother, of St. Louis, Mo., are spending the week-end here at the Valdez.

H. D. Leach, of Cleveland, Ohio, was registered at the Valdez yesterday while in the city attending to business.

The many friends of Cruse Barnes are glad to see him out again, after being confined to his bed with a gripple.

Miss A. D. Mitchell, of Oviedo, the efficient Seaboard agent and the correspondent for the Herald, is in the city today on a shopping tour, and visiting her many friends.

Edgar A. Ball wants all those who

SANFORD'S TEMPERATURE

Well, the old bulb thought it was summer again yesterday and tried to do the acrobatic stunt and go out the top of the tube just like it did in the merry months of July and August. However, the weather is fine at that although a trifle warm and not good for the lettuce and celery. Weather report says storms and such like on the Atlantic coast from Hatteras north which will mean cooler weather for Florida. Let her come. We are prepared for it and instead of wearing one suit of b. v. d.'s we will wear two suits. Anyhow, isn't it nice weather?

are interested to know that when they want dance music or concerts of any kind that he has a real orchestra composed of real musicians and he can furnish music at any time. Patronize your home orchestras and you can get good music at reasonable rates and keep your money at home.

Col. H. J. Dame, a prominent legal light of Okechochee, was a welcome visitor at this office this afternoon, enroute home from a business trip to Inverness.

Mr. and Mrs. Al Lilja have arrived home from Jacksonville where they attended the state fair, the big Shriner's doings, and everything. While at the fair, they were pleased to note that the Sanford Daily Herald had taken a blue ribbon for having the best first page among all the six column dailies in the State of Florida.

Mrs. R. J. Holly, Mrs. A. M. Phillips, and Mrs. James Sharon, are expected home today from Gainesville, where they have been attending the state convention of the Florida Federation of Woman's Clubs. They made the trip in Mrs. Holly's Ford limousine and report a fine time.

The Daily Herald wants every little item that is "afloat." You might not think it is important but we want it just the same. Don't go away or come back without letting the Daily Herald know about it. All of this co-operation on your part will help us make a big paper.

Mr. and Mrs. T. A. Vincent, of Vero, and Mrs. E. G. Tynor, arrived in the city last night from Jacksonville, where they have been for some time and will be the guests of Mrs. R. J. Holly.

The many Sanford friends of Mrs. C. H. Dinglee are delighted to have her here for a few days as she is making a flying trip to Jacksonville and return but stopped off for a few days to see her friends here. Mrs. Dinglee however says that she will return some time soon and make her friend a real visit. Mr. and Mrs. Dinglee were among the dearly beloved citizens of Sanford where they resided for eighteen years and they are always welcome here. They are now residing at D'nedin where Mr. Dinglee is engaged in the orange business.

LIQUOR CASES IN MUNICIPAL COURT.

The municipal court has been the scene of a hard fought battle for the past two days in the liquor cases that have been brought in through the means of an out of town spotter who laid around here for some time getting the evidence and then turned in the offenders. Like all other liquor cases, this one took up much time and attention in the court, and the convictions secured will probably break up this particular branch that have been active for some time to come. City Attorney Herring represented the city of Sanford, and Attorneys Thedford and Wilkinson represented the defendants. The following cases were disposed of. Judge Maine, presiding:

Frank Blair, selling intoxicating liquors, convicted. Penalty, 90 days in jail.

Gene Oglesby, same charge, convicted; fine \$250 and cost, or 90 days.

Jack Gilney, same charge, convicted, fine \$125 and cost or 60 days.

Tom Sutton, Mrs. Tom Sutton, Mrs. C. M. Hilliard, Chas. Gleason, discharged for lack of evidence.

It is said that the cases of Oglesby and Gilney will be carried to a higher court.

RAISING FINE LIMES AT LAKE MARY.

Lake Mary is one of the finest parts of Seminole county, with orange groves and farms and peaceful and prosperous people, and Lake Mary is beginning to feel the impulse of development, thanks to the efforts of several live wire real estate men, who have moved in there lately, and also the efforts of the good people who have been living there and who recognize the time as being ripe for development. The Herald office is the recipient of a box of nice limes today, the gift of Mrs. H. C. Durant, the able correspondent of the Weekly Herald, and a little lady who is greatly interested in the upbuilding of her community. The limes are large and fine, and if Lake Mary can raise such limes as these, there is no need of sending to the Florida keys for them.

CREAM CLEARS A STUFFED-UP HEAD
Instantly Opens Every Air Passage—Clears Throat Too.

If your nostrils are clogged and your head is stuffed because of nasty catarrh or a cold, apply a little pure, antiseptic cream into your nostrils. It penetrates through every air passage, soothing and healing swollen, inflamed membranes and you get instant relief.

Try this. Get a small bottle of Ely's Cream Balm at any drug store. Your clogged nostrils open right up; your head is clear; no more yawning or snuffling. County fifty. All the stuffiness, dryness, struggling for breath is gone. You feel fine.—Adv.
