

THE SANFORD HERALD

IN THE HEART OF THE WORLD'S GREATEST VEGETABLE SECTION

VOLUME XIII SANFORD, FLORIDA, FRIDAY, MARCH 24, 1922 NUMBER 32

EXPLORED WATERWAY ST. JOHNS TO INDIAN RIVER ---CHAMBER OF COMMERCE

W. T. Donnelly and Party Went Thru What Will be the Canal

CONNECTING LINK

THAT WILL BE FUTURE INLAND WATER HIGHWAY THROUGH THE STATE OF FLORIDA

In pursuance of the general policy which Mr. William T. Donnelly, consulting engineer of New York City, has adopted of making himself personally familiar by actual observation of the entire Atlantic Deeper Waterway, from Maine to Florida, there was organized at Sanford an expedition to go over the existing waterway and ground involved in a possible extension by river and canal of a water highway connecting the St. Johns and Indian rivers. The party consisted of the following members: William T. Donnelly, consulting engineer of New York City; Fred T. Williams, civil engineer, Sanford, Florida; Frank Tracy, of New York City; Capt. Jere Sluker, and Mate Matt Harasti, assisted by Dick Strevell, of Geneva, who joined the party at Lake Harney.

A start was made from Sanford at 7:00 a. m. March 19th, the outfit consisting of the power boat "Dawn, Jr." towing a skiff to which a Callee outboard motor had been attached for navigating through waters of the St. Johns at extreme low water. The party arrived at Osteen Ferry at 8:00 a. m., at Geneva bridge at 8:25, at Lemon Bluff at 9:05 and Osceola at 10:05. The river from Lemon Bluff to Osceola is very picturesque and is recommended to all Sanford people as a most delightful camping ground.

On entering Lake Harney, strong south winds were encountered which made the spray fly. The party arrived at Geneva dock at 11:05 and landed for lunch which was enjoyed under an excellent shelter provided by Sanford people for picnic parties. The enjoyment of the lunch was added to by a contribution of oranges and grapefruit by County Commissioner Endor Curt.

At Geneva dock, Dick Strevell, of Geneva, joined the party as local pilot for Lake Harney and upper St. Johns river.

Departure for the upper river was made at 12:50 p. m. and the entrance to the St. Johns at the upper end of Lake Harney was reached at 2:10 p. m., where the water was found to be so low that transfer was made from the "Dawn Jr." to a flat boat with outboard motor and the party divided, Capt. Sluker and Mate Harasti returning to Sanford with the launch. The party then continued up the St. Johns through Puzzle Lake, which was found to fully warrant its name. Through this district, the St. Johns winds and twists, divides and reunites through a flat valley from two to four miles wide, now an open grass country, formerly said to have been covered entirely with dense growth of wild cane. At 2:40 Titusville bridge was passed, 4:30 Heifer Mound and at 6:00 p. m. the party arrived at Bunk Baxter's the one oasis in the wilderness. Here a substantial supper was provided by Mrs. Baxter, after which pipes were lit up and stories exchanged with the "guardian of the wilderness" who for eighteen years has held an outpost and entertained many sportsmen and wanderers who have courageously ventured into this far land.

The next morning owing to a very low stage of water, it was decided to divide the party. Mr. Fred Williams and Mr. Dick Strevell leaving at 9:15 proceeded by water up Salt Lake Run, entered Lake Ruth at 9:40 a. m., where the water was found so shallow as to require poling the boat, and at 10:00 a. m. entered Lufman Lake, where poling was again resorted to. After crossing this lake, they entered Snake Creek at 10:45 and poled their way through, arriving at Big Salt Lake one-half hour later. Big Salt Lake was found to have about 2 1/2 feet of water but with such an amount of grass as to make progress difficult. After crossing this lake, they proceeded up Shad Creek poling their way on account of shallow water and entered Little Salt Lake at 12:20 p. m. They found this lake free from grass with 2 1/2 feet of water, and ar-

FORD BELIEVES HE WILL WIN IN SHOALS DISPUTE

Henry Ford, the Detroit automobile wizard, who passed through Orlando yesterday enroute to Fort Myers where he will spend a two weeks' vacation with his close friend, Thomas A. Edison, the inventor, told local citizens who greeted him at the Atlantic Coast Line station that he expected to win in his fight to get possession of the government nitrate plants at Muscle Shoals, Alabama.

The statement made here by Mr. Ford is said to be the first definite utterance he has made regarding the outcome of the controversy which has arisen over the terms of his contract now before congress.

Mr. Ford observed that fertilizer plants seemed to be liberally scattered along the railroads near Orlando and inquired if a great deal of fertilizer was used in this section of the state. He was informed by Al Douglas, local Ford distributor, that such was the case.

"Well, I expect to get those plants over in Alabama and make fertilizer cheap," Mr. Ford said, adding that there was a great deal of money being spent to prevent realization of his hopes. "Money won't do everything and I believe public sentiment will force acceptance of my offer," he concluded.

The manufacturer was traveling in his private car which was attached to the 415 train over the Atlantic Coast Line.—Orlando Sentinel.

Bathing suit: The alibi used to get a shape into the public prints.

Arrived at the landing on the east side at 12:30, took thirty minutes for lunch and made the return trip to Geneva dock on Lake Harney by 7:30 p. m., and from there returned overland to Sanford.

The old residents will remember that this route was at one time one of the main highways of Florida. Steamers ascending the St. Johns, proceeded up through this chain of small lakes to the landing referred to, where their goods were transferred, and carried across to the India river. The explorers are of the opinion that the future is bound to see this ancient highway opened again and modernized to become one of the principle arteries of trade through Florida.

The land on each side of the St. Johns and that adjoined to the above small chain of lakes extending eastward to within four and a half miles of Titusville, was carefully observed by the land party consisting of Mr. Donnelly and Mr. Tracy, who proceeded via mule express at the rate of three miles an hour, making the trip to Titusville by land in something more than four hours where they were met by Mr. Donnelly's auto and returned the same day to Sanford via New Smyrna.

Mr. Donnelly wishes to state that the trip convinced him in every way of the entire practicability of making a modern, up-to-date water highway from Sanford to Titusville on the Indian River, and that in his judgment the expense comparatively speaking would be very small. This water highway would adequately drain several hundred thousand acres of rich agricultural land, and in this connection it should be understood that the area referred to is part of the upper St. Johns Drainage district, survey of which was recently completed by Isham Randolph & Co., for the Board or Supervisors of the Upper St. Johns Drainage District, and that a canal or water highway constructed by and at the expense of the general government, would very greatly facilitate and reduce the cost of the drainage project.

Mr. Donnelly wishes to express his thanks and appreciation on behalf of himself and his friend, Mr. Tracy, for the entertainment received from Mr. and Mrs. Baxter and the assistance rendered by the other members of the party on this exploring expedition which was also a very novel and enjoyable outing.

WILLIAM T. DONNELLY, March 22nd, 1922.

OKLAHOMA'S GOVERNOR INDICTED FOR BRIBERY IN CONNECTION WITH BANK

Placed State Funds in Okmulgee Bank When it Was Insolvent

(By The Associated Press) OKMULGEE, Okla., March 23.—Governor Robertson, of Oklahoma, and several officials of the Okmulgee Banks are under bond today for trial on indictments alleging illegal transactions involving two local banking institutions. Governor Robertson is charged specifically with accepting \$25,000 bribe to place \$150,000 of state funds in the former Guaranty State Bank to prevent the closure when the bank was known to have been insolvent.

TIDAL WAVE IN VENICE INUNDATE ENTIRE CITY; WATER THREE FEET DEEP

Public Squares Are Flooded in the Beautiful City of Canals

(By The Associated Press) LONDON, March 23.—A Central News dispatch from Venice says a tidal wave late last night inundated the city, the water rising to a depth of more than three feet in some of the public squares.

GOVERNOR OF LOUISIANA SUPPRESSES K. K.

CALLS ON OFFICERS TO SUPPRESS KLAN FOR VARIOUS ACTIONS

(By The Associated Press) BATON ROUGE, March 23.—Governor Parker today issued an appeal to law officers of Louisiana to suppress "With an iron hand the evil of Ku Kluxism wherever it raises its head." He said this action was taken in view of reported complaints which have come to him from various sections of the state.

LUMBER COMPANY LOSES BIG PLANT AT ARCADIA BY FIRE

(By The Associated Press) ARCADIA, March 23.—A fire originating in the boiler room of the Arcadia Lumber Company early today destroyed the plant and other buildings. The severing of electric wires threw the city in darkness. The loss is estimated at fifty thousand dollars, which was partly covered by insurance.

GOVERNMENT TOLERATES NO VIOLENCE IN STRIKE OF THE COAL MINERS

(By The Associated Press) WASHINGTON, March 23.—Warning that the federal government would tolerate no violence to prevent coal production during the threatened coal strike was issued today by Attorney General Daugherty.

NO RECEIVER APPOINTED FOR FELLSMORE BANK SAYS COMPTROLLER

(By The Associated Press) TALLAHASSEE, March 23.—State Comptroller's office said today no receiver would be appointed for the State Bank of Fellsmore until the examiner now working on the books makes his report. The bank was closed last Thursday. Directors Tuesday voted to request Amos to appoint R. E. Mudge receiver.

PASSAGE OF BONUS BILL BY THE HOUSE IS CERTAIN TODAY WITH SUSPENSION

Of Rules Which Broke up the Party Lines on the Vote on Suspension

WASHINGTON, March 23.—The passage of the four billion dollar bonus bill by the house before adjournment was made certain today with the adoption of a resolution providing for consideration of the measure under suspension of rules. The vote on the resolution was 221 to 121 and was without roll call. Breaking of party lines on the vote for suspension of resolution was noted. Many Democrats who voted in the negative on this motion are counted upon to support the bonus bill on the final vote and leaders are confident that more than two-thirds majority required under the rules, would be obtained. The house immediately after the motion was adopted launched into four hours of debate.

MINERS AND OPERATORS IN MEETING TODAY TO HALT IMPENDING STRIKE

POSTOFFICE DEFECTS DUE PARCEL POST

ACCORDING TO DATA COLLECTED BY POSTAL COMMISSION

(By The Associated Press) WASHINGTON, March 23.—Responsibility for deficits incurred by the Postoffice Department were attributed largely to the parcel post system according to data collected by a joint postal commission which is conducting an investigation into costs of handling mail.

HOUSE FAVORS BIG REDUCTION IN THE ARMY

MUCH DISCUSSION OVER ARMY IN THE INSULAR POSSESSIONS

(By The Associated Press) WASHINGTON, March 23.—The house gave its approval yesterday to a provision of the army appropriation bill which would require the reduction by July of the regular army enlisted strength to 115,000 men and then proceeded to enter upon a prolonged discussion of whether congress should direct the return to the United States of certain troops stationed in China, Hawaii, the Panama Canal Zone and on the Rhine, Secretary Weeks has already ordered the withdrawal of the troops from the Rhine. The bill provides that before the beginning of the coming fiscal year approximately 6,500 troops stationed in Hawaii, 2,000 men on duty in the Canal Zone and the entire force of 600 garrisoned in China as well as all but 500 men and officers in the army of occupation in Germany must be brought back to continental United States.

WELL KNOWN ENGINEER HERE TESTING THE WATER TO SOFTEN CITY SUPPLY

George Maines, consulting engineer of Daytona is in the city testing the water of different wells with the view of rendering a report for the City Commission relative to softening the present city water or obtain water that can be softened. He is testing the well on the Pace place corner Melonville and Celery avenue today, and expects to make several tests all over the city before leaving. The Pace well is 535 feet deep and is probably one of the deepest in this section. This well will be tested by degrees in the effort to find soft water as higher strata. Sanford officials want soft water and are determined to have it for this city.

DUBLIN, March 22.—It was officially announced that the Irish Republican army convention holding of which recently was forbidden by Arthur Griffith, president of the Dail Eireann, would be held in Dublin Sunday as arranged. Announcement was taken here to mean a definite split in the Republican army has come.

WANT MORE SPEED FROM MOTORISTS CROSSING CAUSEWAY

MIAMI, March 23.—Motorists crossing the causeway connecting this city and Miami Beach, under the obsolete 15 miles an hour ordinance, have been asked to awaken to the times and increase their speed to 25 miles per hour, the modern regulation.

Street Committeeman John H. Levi brought the matter before the city council, asserting that traffic on the causeway was becoming congested because of the unfamiliarity with the new ordinance. He requested that publicity be given the increased speed limit and to this end was authorized to place a sign at the approach of the causeway notifying the motorists that he could run 25 miles an hour.

An Eleventh Hour Attempt to Stop Nation-Wide Strike Behind

LOCKED DOORS

HOPE STILL HOLDS OUT THAT TIE UP OF INDUSTRIES CAN BE AVERTED

(By The Associated Press) NEW YORK, March 23.—In an eleventh hour attempt to halt the preparation for a nation-wide strike in the coal industry, the Arbitration Committee of the Anthracite Miners and Operators, met behind locked doors here today.

INDIANAPOLIS, March 23.—Without hope apparently of developments forestalling the coal strike set for April 1, officials of the United Mine Workers of America last night declared that the miners were ready for a general suspension of many weeks duration. None, however, would predict how long the walkout would continue, asserting that their fight could continue indefinitely.

POLITICIANS NEED TO BE DRESSED DOWN, FORD TELLS LAKE LAND FOLK

LAKE LAND, March 23.—The politicians need dressing down and they will get it and some of them should be replaced by priests and preachers, Henry Ford said between trains here yesterday in commenting on a statement by Thomas A. Edison, at Jacksonville Tuesday night that "too much politics" would prevent the Detroit manufacturers' acquisition of the Muscle Shoals property.

Mr. Ford said he considered Mr. Edison's remarks on the subject "very appropriate." He referred to the seating of Senator Nowberry, of Michigan, as an evidence that politicians should be swept into the discard.

Mr. Ford was greeted upon his arrival here by a large portion of Lakeland's citizenry. He appeared on the observation platform of his private car and the crowd was formed into a line which passed by to shake hands with the manufacturer. He continued his trip after a short stay here to Fort Myers.

As the train pulled out of the station Mr. Ford shouted that his proposal to take over the Mussel Shoals project was "up to Congress."

STATE LOSES WITNESS AND POSTPONES POLK COUNTY AUTO CASES

BARTOW, March 23.—(Special)—The automobile thievery cases scheduled to come up yesterday in the circuit court here was postponed until today because of the inability to place J. M. Lee sentenced to three years from Hardee county after confessing to the theft of several cars, on the stand as the state's chief witness against other alleged members of the gang under indictment in Polk county. These are T. Hart Kentsen, prominent attorney of Lakeland and J. G. Flynn and Malthy Bryant also of that city. The cases will probably be continued throughout the day.

The men were arrested last September after a code book said to belong to Flynn had been found in which the numbers of several cars were found resulting in the recovery of the cars.

CHIEF WITNESS IN TEX RICKARD TRIAL A FORGER AND BURGLAR

(By The Associated Press) NEW YORK, March 23.—12-year-old Nellie Gasko, chief corroborating witness for the state in the trial of Tex Rickard, charged with criminal assault on a 15-year-old girl, admitted under cross examination today that she had forged checks and committed burglary.

The small nations are not permitted to share in the conference of big ones, but their monopoly of deference is undisturbed.

LONGWOOD

Mrs. A. Y. Fuller attended the Baptist Seminole Association held in Sanford March 8th.

Mrs. E. E. Hardy was the gracious hostess Thursday evening when she entertained at 50¢ at her home in South Longwood, there being three tables of players. Those invited were Mr. and Mrs. White, Mrs. Noyes, Miss Dunbar, Mr. and Mrs. J. S. Dinkel, Miss Olive Dinkel, Messrs. John and Ralph Ranger and E. S. Miller.

Mr. and Mrs. B. C. Hartley and children of Groveland were guests of Mr. and Mrs. Jack Hartley.

Mr. and Mrs. Tullis were visitors in Sanford Saturday.

Mr. and Mrs. C. W. Entzinger and Mr. and Mrs. Bill Satcher were visitors in Sanford Friday.

Miss Omah Allen spent the week-end with her parents Mr. and Mrs. Bill Allen.

J. S. Dinkel, Mr. Wadebrook and Mr. Musanti motored to Winter Haven Monday.

The Maine tourists had a most enjoyable Baked Bean Supper picnic at Palm Springs Wednesday. Those present were: Mr. and Mrs. Geo. Clark, Miss Clark, Mr. and Mrs. Blanchard, Mr. and Mrs. Frank Noyes and son, Mr. and Mrs. George Smith, Mrs. Myra Farrington, Mr. and Mrs. F. H. Ranger, Mr. and Mrs. E. E. Hardy, Mr. and Mrs. Will Greene, Messrs. John and Ralph Ranger, William Woodcock and Jutkins.

The school bus had the misfortune to run into another car one day last week which did quite a bit of damage to the bus and two of the children received slight injuries.

Mr. and Mrs. Frank Topliff of Orlando were calling on the Fullers Sunday afternoon.

C. H. Corn and Miss Ruth and Miss Olive Dinkel were visitors in Orlando Tuesday afternoon.

Miss Lella Fuller will leave Sunday to attend the State Musical Convention to be held in Miami March 20-23rd.

ENTERPRISE

Among the recent guests at Benson Springs Inn are Mr. and Mrs. W. C. Corey of Rochester, Minn.; R. W. Harthaway and wife of Duluth; W. T. Cumming of Spring Valley, Minn.; Mrs. Fred Stewith Miller of Hayward West Virginia and W. H. Brokaw of Orlando.

Mrs. L. M. Wright and little daughter Bertha left Friday for Lakeland where they expect to spend several days with Mr. Wright.

Mrs. Watjen and Mr. and Mrs. Chas. Cochran left for their home in Washington, Ind., on Thursday after spending sometime with relatives here.

Dr. F. S. DeLong exhibited five live alligators as the result of a days shooting on the lake. One of the alligators measured nine feet and five inches.

Dr. and Mrs. F. S. DeLong and Mrs. Alfred Rider left today for an extended trip on the coast.

Miss Emma Tucker returned Saturday after holding a series of Bible readings in Mangate county.

Mr. Willie Dickins of Waycross, Ga., was the guest of friends here Sunday.

OVIEDO

Mr. and Mrs. J. H. Haigh and son Chester left Tuesday for a motor trip down the East Coast.

Mrs. L. E. Wright, Miss Virginia Wright, Mrs. Frank Morris and Mrs. W. E. Young spent Tuesday afternoon in Sanford.

Miss Mabel Swope returned to St. Augustine Monday after a two weeks visit to her parents.

Mrs. T. W. Lawton chaperoned her Sunday school class and a few invited guests on a moonlight picnic at White's Wharf Friday night. The most of the supper was cooked on the lake shore and a most delightful evening was spent.

Mrs. Julia Williams of Crystal Springs spent the week-end with her daughter, Mrs. W. B. Englett.

The packing houses closed last week, after finishing the last of the grapefruit the latter part of the week.

A mass meeting of the voters has been called for Friday night to discuss some good roads matters, principally a draw bridge at Osteen Ferry. The meeting will be held at the school house at 8 o'clock and all voters are urged to be present.

A fishing party composed of H. B. McCall, J. N. Thompson, B. F. Wheeler, R. L. Wheeler and Emmett McCall of Lakeland are spending the week camping at the Prairie.

J. C. Lawton of Miami spent Sunday in Oviedo.

Mr. and Mrs. S. W. Swope and son Frances spent Monday in Sanford.

Miss Katherine Lawton spent Friday night and Saturday at Rollins College the guest of Miss Elizabeth Colton.

The regular meeting of the U. D. C. was postponed Tuesday on account of sickness among the members or their families.

There is an exhibition at the office of O. P. Swope a most beautiful picture of Mr. Swope's celery field, showing this vegetable in every stage of cultivation from the young plants just set out to the trucks loaded with packed crates ready for market. The picture is not only a delight to the eyes, but is proof of fact that Oviedo has wonderful prospects ahead of it if the proper developments are made.

A few weeks ago the Black Hammock Garden Co., had an exhibition a crate of celery that brought forth exclamation of wonder and admiration from all who saw it. The crate which was of standard size was fully packed with fifteen stalks of celery, each one perfect in development and most beautifully bleached. A crate of celery ordinarily contains from four to ten dozen stalks which shows that Messrs. John Robertson and Bob King are "some" celery growers. This crate was a first prize winner, only it didn't happen to grow at the time of the Orlando fair.

Mrs. L. E. Jordan and baby left Wednesday for a visit to her sister at Starke, Fla.

C. A. Brannon, formerly Flagman on S. A. L., between Oviedo and Orlando has been promoted to conductor with headquarters for the present in Tampa.

UPSALA AND GRAPEVILLE

Mrs. Ballinger was in to see Mrs. V. C. Collier Thursday.

Minnie Beck attended a party at Mrs. Schelle Malnes in Sanford on Thursday.

Mrs. Anna DeForest was in Jacksonville for the week end for treatment for her eyes.

Seymour Pritchard returned home Thursday from Tavares where he has been helping take care of Mrs. Benton's young grove and then expects to spend a few days at Daytona with his wife and friends.

Mrs. Nyland and her brother, Axel Lundquist, of Lake Mary, were Sunday callers at the home of Mr. and Mrs. August Swanson.

Happy Jack's wife has been ill with chills and fever in Jacksonville and has not heard from him yet. We understand he had gotten as far as Orange City on the 5th.

Mrs. Paul Keely and her aunt, Mrs. Heacock and daughter of Daytona, who are visiting her, were guests on the 9th at the home of Mrs. Barney Beck, who was assisted by his mother, Mrs. Westerdick in entertaining them. Little Pearl Glidewell, of the West Side, has been staying with Mrs. Westerdick for a few days.

Forest West received a telegram from their school at Ottumwa, Tenn., on Thursday desiring them to come and take charge of their large agricultural work in which he has been engaged for 15 years, but he dislikes to give up their little home here, all of them liking Florida.

Mrs. Alma Neese and children returned home on Thursday afternoon after a pleasant visit spent with friends at Fort Ogden and Punta Gorda. Since her return she has been helping in caring for her sister's family, Mrs. Tolar, all having been vaccinated and Mrs. Tolar was quite ill.

Gilbert Ericson returned to school having been absent for a week from straining a muscle of the heart in too rough play at school.

Mr. and Mrs. Gant and children, of Sanford, were among those visiting at the home of Mr. and Mrs. West, while Mrs. Westerdick and niece Miss Hazel Pritchard and innie Beck called Hazel Pritchard and Minnie Beck called to see the little new comer. In fact about all the near neighbors have called, as is usual with us.

We understand there is to be a church social at Paola on the night of the 17th. Hope some of our folks can attend and help in a good cause.

Glad to have Jesse Lee and wife and babies back with us for Sunday school again last Sunday.

Charles Cramer kindly brought out Rev. Clark for Tuesday evening, the Reverend taking supper with them and we had a nice little meeting. They were at his home Friday evening.

We are sorry to learn that Professor Podmore and wife and baby, have moved from Brother Clarke's to Win-

ter Park to be near his work at the college.

There is a wonderful growth and bloom putting out on the orange trees.

A. J. Livingston, living near Ashland City, Tennessee, says: "I feel like going from house to house and telling the people about Tanlac.—Union Pharmacy.—Adv.

PAOLA POINTS

Mr. and Mrs. Ben Smith of the Sanford Heights spent the day with their mother, Mrs. B. W. Smith Sunday.

Mr. and Mrs. A. A. Hicks went to Orlando Saturday.

Mr. and Mrs. Minchew and children were callers at the Smith home Sunday afternoon.

Mr. Bona of Orlando was a visitor at the Sunday school Sunday.

Mrs. Kate Stafford and children of Monroe spent the day with her aunt Mrs. N. B. Stafford Monday.

Mr. and Mrs. Burnett were visitors across the Wekiwa river Sunday afternoon.

Beulah Stafford spent the day with her aunt Mrs. Z. Stafford at Monroe Sunday.

We think Mr. George Smith attended the pillau at Mr. and Mrs. Cleveland's Wednesday evening.

Mr. T. W. Lawton and Mr. Glyder were visitors at the school Tuesday afternoon. Mr. Glyder seemed to be well pleased with the school grounds.

We hope everybody will attend the supper at the school grounds Friday evening that is given by the Ladies Aid. It will be for the benefit of the church and the Ladies Aid.

Bible Class will be at the home of Mr. and Mrs. C. C. Pearson Thursday evening.

We are very glad to know that little Leslie Minchew is improving from his recent illness.

George Hacks has been sick for the last few days with the fever.

Don't let that sour stomach sour your disposition and make your life miserable, while Tanlac is ready to give you relief. Get it now.—Union Pharmacy.—Adv.

WEATHER - CROP CONDITIONS

In Florida for the Week Ending March 14, 1922.

Temperature: The forepart of the week was cold over the interior of the extreme north and the western divisions, temperature being in the 30's during the first day of the week. Light frost occurred at a few stations in the peninsula. The middle and last days of the week were warmer than the seasonal.

Precipitation: The rainfall was less than usual, except over small areas, and droughty conditions continued over much of the south, some portions of the Everglades district having had no rain of moment for from four to six weeks. All regular stations reported a deficiency, except Tampa. The greatest amount reported was 1.2 inches at DeFuniak Springs. No rain occurred at some stations.

Condition of Crops: On the whole the week's weather was favorable for the seeding, germination, and growth of all crops, except much of the southern division, where precipitation has been insufficient for more than a month. Low lands in the west were too wet for several days, but uplands were worked and the planting of corn, melons, truck, and some cotton was advanced satisfactorily. Much work of a similar nature was carried on in the northern and upper central counties. Early corn and melons were worked, and both crops made good progress. Peanuts were planted generally. Citrus trees are in fine condition, and there is a profuse bloom over most of the belt. Large shipments of truck, especially tomatoes were made from the southern division. Some small shipments of new Irish potatoes were made from the potato belt of St. Johns and Putnam counties. Tobacco seed beds are in good condition. The highways are good, except, possibly in the extreme west.

HORATIO BOTTOMLY BRITISH PUBLISHER ACCUSED OF GRAFT

LONDON, March 16.—The case against Horatio Bottomly, member Parliament and former Publisher of John Bull, was renewed today. He is charged with having converted to his own use five thousand pounds of sterling belonging to the Victory Bond Club.

L. D. JONES IS DEAD.

ORLANDO, March 16.—L. D. Jones a prominent citizen of Winter Garden, and a former general manager of the Florida Citrus exchange, died at his residence Tuesday morning. Mr. Jones has been in ill health for several months.

CONFIDENCE MEN GET SEVEN YEARS IN OLD ORANGE

Two of the four alleged confidence men arrested here last Wednesday, John King, 73, and William Banks, 51, were convicted yesterday in criminal court of a charge of attempting to defraud, and sentenced to serve seven years in the state penitentiary at Raiford by Judge T. Picton Warlow. Defense Attorney H. F. Mohr announced that an appeal would be taken to the supreme court.

W. H. Negel, 32, and Harry Haynes, 29, the younger division of the quartet were acquitted.

The four men were arrested by Chief of Detectives Frank Gordon and Detective Pierce upon complaint of M. R. Sweeton, of Haddentown, N. J., who told Chief of Police Vessel that he had found a pocketbook in Eola Park containing a code and other papers which led him to believe that the wallet had been "planted" by the alleged confidence men.

The conviction yesterday scored by County Solicitor W. M. Murphy, Jr., is said to be the first obtained under the so-called "wire tappers law" enacted at the last session of the legislature, charged with similar offenses, but their release on bond has been followed on each occasion by forfeiture.

Mr. Murphy said yesterday that he believed King was an "old head" at the confidence game. His name is said to be Harry Furey, and advices have been received here to the effect that he is under indictment in Memphis, Tenn., in connection with the swindling of a man named Carter, late in 1920, who claims to have lost \$28,000 through fake market transactions.

The county solicitor expressed the belief that King may have at one time been associated with the regular confidence men's organization, but because of his advanced age, been cast aside by the band. This reason is given by authorities for the failure of outsiders to furnish the ten thousand dollar bond in which each of the men were held by Judge Warlow.

Advices received here from Postoffice Inspector Tafel stated that both King and Banks had been in trouble before in various northern cities, but this information was not submitted to the jury.—Orlando Sentinel.

RUPTURE EXPERT BE AT ORLANDO

SEELEY, FAMOUS IN THIS SPECIALTY CALLED TO ORLANDO

F. H. Seeley, of Chicago and Philadelphia, the noted truss expert, will personally be at the San Juan Hotel, and will remain in Orlando Saturday only, March 25th, from 9 a. m. till 3 p. m. Mr. Seeley says: "The Spermatic Shield will not only retain any case of rupture perfectly, but contracts the opening in 10 days on the average case. Being a vast advancement over all former methods—emphasizing instantaneous effects immediately appreciable and withstanding any strain or position no matter the size or location. Large or difficult cases, or incisional ruptures (following operations) specially solicited. This instrument received the only award in England and in Spain, producing results without surgery, injections, medical treatments or prescriptions. Mr. Seeley has documents from the United States Government, Washington, D. C., for inspection. He will be glad to demonstrate without charge or fit them if desired. Business demands prevent stopping at any other place in this section. P. S.—Every statement in this notice has been verified before the Federal and State Courts.—F. H. Seeley. Home Office, 117 No. Dearborn St., Chicago. 31-1tp

"National Wine Week" starts in France today. But this does not mean so much to the boys who were over there for Palm Beach is not so worse.

Notice of Application for Tax Deed Under Section 575 of the General Statutes of the State of Florida. Notice is hereby given that G. S. Crawford, purchaser of Tax Certificate No. 32, dated the 2nd day of June, A. D. 1919, has filed said certificate in my office, and has made application for Tax Deed to issue in accordance with law. Said certificate embraces the following described property situated in Seminole County, Florida, to-wit: N 1/4 Lot 3, W. I. Leavitt's Sub-Div. The said land being assessed at the date of the issuance of such certificate in the name of S. W. Wright. Unless said certificate shall be redeemed according to law Tax Deed will issue thereon on the 22nd day of April, A. D. 1922.

WITNESS my official signature and seal this the 17th day of March, A. D. 1922.

(SEAL) E. A. DOUGLASS, Clerk Circuit Court, Seminole County, Florida. By: A. M. WEEKS, D. C. 31-6tc

WOMEN VOTERS ARE URGED TO REGISTER FOR PRIMARY BY DEMOCRATIC COMMITTEE

Women Must Register Now to Participate in Democrat Primary

DEFINE DEMOCRATS

EVERY PRECINCT IN COUNTY SHOULD SEE THAT EVERY WOMAN REGISTERS

At a meeting of the Seminole County Democratic Executive Committee the following resolutions were read and adopted:

Whereas, The Women of the land are now by law, authorized to qualify as and be electors, and

Whereas, at a meeting of the State Democratic Executive Committee held in Jacksonville, Fla., February 23rd, 1922, by resolution the said committee urged the several County Executive Committees to use every effort to have the white women of the several counties register as Democrats and take part in the party politics and Democratic primary.

Now, Therefore, Be It Resolved by the County Democratic Executive Committee of Seminole County, Florida, that it is the sense of this meeting that all white women be and they are hereby invited and urged to register, as members of the Democratic party of Florida, and to take part in the party politics and also the Democratic Primary, and

Be It Further Resolved, that each member of this committee be and each member is hereby appointed as a committee of one to lend such aid, assistance and instruction as may be necessary to have every white woman in his respective precinct register as a Democrat, and take part in the party, politics and Democratic primary, and

Be It Further Resolved that in addition to spreading a copy of these resolutions on the minutes of this meeting that a copy be furnished to the Sanford Herald with a request that the same be published.

Whereas, since the last meeting of this committee a general election has been held, and

Whereas, this committee is reliably informed that certain candidates throughout the state, who stood for the Democratic nomination in the last Democratic primary, and who in such primary lost the nomination, but, notwithstanding this defeat participated in the general election as candidates for election, and as opponents of the regular Democratic nominees, and

Whereas, if the Democratic party is to stand as a party and is to represent the true principles of party politics, such practice by alleged Democrats must be discontinued:

Now, Therefore, Be It Resolved by the Seminole County Democratic Executive Committee in session assembled this the 20th day of March, 1922,

First: That the action of defeated candidates in the Democratic primary in standing for election, against their successful opponents, in the general election be and the same is most strongly condemned, as being non-Democratic and unfair.

Second: That a copy of this resolution be spread on the minutes of this meeting and a copy furnished to the press of the state.

Be It Resolved by the County Democratic Executive Committee of Seminole County, Florida, that the terms and conditions on which legal electors shall be declared and taken as proper members of the Democratic party of Seminole County, Florida, and entitled to vote in the primary election on the first Tuesday after the first Monday in June, 1922, as members of the said party, shall be as follows:

First: That they are white persons.

Second: That they believe in the principles of the Democratic party, and will support and vote for the nominees of said party in the ensuing general election.

Third: And that such electors are registered as Democrats according to the provisions of Section 14, Chapter 6469, Laws of Florida, 1913.

ASKS LABOR BOARD BE FIRED

(By The Associated Press)
NEW YORK, March 21.—Basing their demand on charges that the railroad labor board has submitted their members to "unfair treatment" through "improper divisions," the eastern federation of the Brotherhood of Railway and Steamship Clerks, Freight Handlers, Express and Station Employees yesterday petitioned President Harding, and congress to abolish the body. The organization represented approximately 85,000 employes of twenty eastern railroads.

HOLD WIFE FOR MURDER AT DELAND

AUTHORITIES BELIEVE SHE WAS ACCESSORY WITH NEGRO

DELAND, March 18.—Mrs. Alice E. Shields was remanded for trial on a charge of murder in the first degree, following a preliminary hearing here yesterday before a justice of the peace growing out of the killing of her husband early last month.

A negro, Pete Smith, arrested shortly after Shields had supposedly met his death from ambush while returning with Mrs. Shields from DeLand to St. Cloud, near here, at night, is charged with the actual killing.

Circumstantial evidence at yesterday's hearings was to the effect that Mrs. Shields conspired with the negro to effect her husband's death. It was brought out that she was driving the car at the time and that she suddenly brought it to a stop in the road to avoid striking an obstacle. Shields alighted from the machine to remove the obstruction and was shot through the head with a shotgun. His head was virtually blown to pieces.

Mrs. Shields was arrested several days ago when Assistant State Attorney Mott acted upon a communication from the "Committee of Investigation, Ku Klux Klan," offering a solution of the affair.

The Shields formerly lived at Wichita, Kans.

POTATO SHIPPING BEGINS; MARKETS BEGINNING TO OPEN

Shipping of spring potatoes out of the Hastings section began yesterday when about sixty barrels went forward from Federal Point. They were consigned by R. G. Gray, Mr. Hubbard and Mr. Atkinson. The price received for these will not be known until returns are received from the brokers. It is expected, however, that the price will open up as high as \$12 as Bermudas are selling now for \$16 in some markets. A carload from West Palm Beach yesterday were sold for \$10 f. o. b. Palm Beach.

Hastings is beginning to take on a hustling air which always precedes the opening of the potato season. State Organizer J. Reed Curry, of the Florida Citrus Exchange, arrived in Palatka yesterday, accompanied by Samuel George, former manager of the office at Hastings, and R. J. Kepler. Mr. Curry said that the offices at Hastings will be opened Monday and will be under the direct management of the Volusia County Citrus exchange, of which R. J. Kepler is manager. He will be in full charge at Hastings.

"Our operations at Hastings and in the potato belt last year seems to have given very satisfactory returns to the growers and we have numerous letters and inquiries as to whether our office would be opened this season," said Mr. Curry. "There has already been large acreages, signed up with our office and by such substantial growers in your community as H. O. Hamm and Thos. M. Waldron, men who have always profited by using the exchange. The deal will be a big one this year and there is a greater need for proper distribution, the secret of getting profits for the growers, and we think the exchange has the facilities for bringing that success to the growers"—Palatka News.

WHEATLEY ACQUITTED IN CRIMINAL COURT

Winter Garden Doctor and Bekemeyer Both Found "Not Guilty."

Dr. C. I. Wheatley, a Winter Garden physician, was acquitted yesterday in criminal court of a charge of manslaughter in connection with the finding of the body of an infant in the woods near Winter Garden several weeks ago. Henry S. Bekemeyer, of Winter Garden, charged with being an accessory, was also found not guilty.

Testimony introduced at the trial tended to show that the operation said to have been performed by Dr. Wheatley was not illegal under the circumstances, and statements to this effect were substantiated by the principal witnesses for the prosecution. It was further proved that the infant was still born.

County Solicitor Murphy was assisted by W. L. Tilden in the prosecution, the defense being represented by C. P. Dickinson.—Orlando Sentinel.

FLORIDA IS FIRST—

- In diversity of food products.
- In value per acre of farm products.

SULPHUR WILL KILL RED SPIDERS ON CROPS

GAINESVILLE, March 21.—Sulphur is the most formidable weapon with which to meet the red spiders now reported as on the war path in various parts of the state with nefarious designs on peas, strawberries, phor plants, according to Professor J. beans, citrus, cotton, violets and camellias. Watson, of the Florida Experiment Station.

Infested plants become gray and dried up in appearance, according to Professor Watson, and finally turn yellow and die. Strawberries turn brown and remain small and hard. If examined closely infested plants, particularly the under sides of the leaves, are found covered with a web of fine silk under which the minute yellowish mites can be seen with the naked eye. Under a good lens one can readily discern the eight-legged adults which are from red to green in color, the bright red eggs, and the white skins which were cast off when the spiders molted.

Free sulphur is one of the best remedies for the pests which although slower in action than some of its compounds, has longer staying qualities. Either the free sulphur or its compounds should be applied dry or in the form of a spray, Professor Watson says.

Three parts of sulphur to one of hydrated lime makes a good composition, according to the professor, and the lime may be had by adding four gallons of water to 100 pounds of quick lime. Best effects are attained by applying the dust in the early morning or at night, as it sticks to the plant better.

PLANT CITY GREAT STRAWBERRY CENTER SHIPS 106 CARS

(By The Associated Press)
PLANT CITY, March 20.—Plant City has shipped twenty-nine percent of its strawberry crop this season by freight and the freight movement alone thus far has totalled 106 cars. Total shipments of berries up to the first of the week, both by freight and express amounted to 1,598,897 quarts, which netted the growers \$537,694 gross. Fourteen solid cars of berries represented shipments last week.

The citrus fruit movements from here this season amounted to 715 cars, 686 of them in solid car shipments and the balance in small lot shipments by express. In addition to large quantities of small lot shipments by express, vegetables forwarded, principally cabbage, have amounted to 34 cars thus far.

If the government can't eliminate the middleman, it can benefit business by eliminating the official middleman.

FLORIDA O. K. FOR FOOD CROPS OF ALL KINDS

STATE IS SELF-SUPPORTING AND CAN SUPPLY OTHER STATES

(By The Associated Press)

GAINESVILLE, March 20.—Florida apparently will have enough this summer and fall to feed itself and supply a generous portion of food to those parts of the country which are not self-supporting, if the semi-monthly report of the Federal Bureau of Crop Estimates here on crop conditions during the first fifteen days of March can be taken as an indication of the prospects. The report, issued under date of March 15, follows:

"The state as a whole has had favorable weather for early crops and planting. Rain is needed in some sections of Central and South Florida.

"General planting of corn is in progress. Stand and condition of early plantings throughout the Southern part of the state are good.

"Oats are making good growth and furnishing excellent grazing.

"Planting of rice is underway. There will be a big increase in acreage in some sections.

"Cotton planting is well advanced. All indications point to a considerable increase in the acreage of Sea Island cotton over last year.

"Condition of Irish potatoes continues excellent. More sweet potatoes have been bedded out than usual.

"Farmers are getting in early peas, sorghum and other crops for green forage. Pasture continues to improve and is generally good.

"Transplanting of tobacco to the field has started.

"Citrus trees are showing heavy bloom and growth.

"Fat hogs are moving to market with the higher range of prices. Conditions of cattle is improving with better range conditions.

"Truck crops, especially watermelons, were damaged through Central Florida by high winds.

"Increase of the peanut acreage is indicated by early plantings."

SENATOR FLETCHER URGES REDUCTION IN FREIGHT RATES

March 16, 1922.

Honorable Duncan U. Fletcher, United States Senate.

My Dear Senator:

Referring to the letters, petitions and resolutions filed by you with the Commission, urging reductions in freight rates on agricultural products from Florida:

The Commission, under the law, is not given authority to make reductions in rates except after hearing on a formal complaint, at which it is shown that such rates are unjust, unreasonable, or otherwise in violation of the Interstate Commerce Act.

Under date of December 11, 1922, the Commission began a general investigation, docket 18293, for the purpose of determining whether, and to what extent, if any, further general reductions in the rates, fares and charges of carriers by railroad applicable in interstate or foreign commerce law can lawfully be required by order or orders of the Commission under Section 1 or other provisions of the Interstate Commerce Act, upon any commodities or description of traffic. The taking of testimony in this investigation was concluded March 4th, and oral argument was had before the full commission from March 8th to March 13th, inclusive. The testimony is now being considered by the Commission in conference, and in view of the great importance of the matters involved in this proceeding, the Commission will announce its findings at the earliest possible date.

In this connection, I might add that during the course of the hearings in this investigation considerable testimony was offered setting forth in detail the general conditions with which the fruit and vegetable shippers of Florida are now confronted. Mr. F. C. W. Kramer, Jr., testified at length on behalf of the cabbage growers of Florida, and Mr. I. T. Williams and Mr. D. Dow offered testimony on behalf of the fruit and vegetable shippers of Florida. Mr. J. H. Tench of the Railroad Commission of the State of Florida also testified and placed in evidence certain exhibits comparing freight and refrigeration charges on citrus fruits, cabbage and vegetables from Palmetto, Florida, to New York, Boston, Cincinnati and a number of other points.

Very truly yours,
G. B. MCGINTY,
Secretary.

Plans are being formulated for the building of two meat packing plants at Fort Lauderdale.

MILLION KLANSMEN TO SEE THAT NEGRO IS RETURNED

HICKORY, N. C., March 18.—Speaking before a large audience in Hickory Thursday night, Dr. Arthur Talmadge Abernathy, of Asheville, lecturer for the Ku Klux Klan, referred to a case in which, he said, Governor Morrison was refused extradition of a negro by Canada and asserted that one million klansmen from Maine to Texas have been pledged to see that the negro is returned to North Carolina for trial. "And this will happen in the next ninety days," he added.

While Dr. Abernathy did not mention the name of the man he said was sought by the authorities of this state, the audience understood him to refer to Matthew Bullock, wanted at Norfolk on a charge of attempted murder growing out of a race riot at that place about a year ago. Bullock was recently given his liberty by Judge Snyder, at Hamilton, Ont., where he was arrested when Governor Morrison refused to send witnesses to Canada to testify at his extradition hearing.

Dr. Abernathy had been discussing the efforts he said the Ku Klux Klan were making to assist the officers in enforcing the law. He referred to a case in Asheville, in which he said a negro was sent to the roads through the efforts of the Klan and told of two white women being escorted out of that city by klansmen.

Save your back!
Put a Columbia "Hot Shot" Ignition Battery under the front seat of your Ford, and use its current for sure-fire ignition while starting. Full ignition power instantly, regardless of weather. The Columbia "Hot Shot" No. 1461 fits under the front seat—put it there today.

Columbia Dry Batteries for all purposes are sold by electricians, auto supply shops, and garages, hardware and general stores, and implement dealers. Insist upon Columbia.

That Irish stew is starting up
again and it looks like trouble in Ire-
land will never be settled.

If Florida had people in congress
that would fight for our rights the
St. Johns river would soon get all that
is coming in the way of improvements.

Lloyd George wants a vote of con-
fidence. If we were as big as Lloyd
George we would either run England
as formerly or step down and out and
ask no questions.

A Tampa "teed off" in the golf
tournament in Orlando says dispatch.
He sure is lucky to have tea during
this peevish and feverish moment of
the prohibition drive.

The old Mississippi river is rising
again. Florida has no danger from
the rise of the St. Johns river. What
a wonderful stream it is and what ad-
vantages over all other rivers.

Our golf links and country club are
coming and next winter will see many
of the notables of the country coming
to Sanford to play golf. Many who
would never come here for any other
purpose.

A banker in Miami has been ar-
rested for assisting the bootleggers. We
do not think he will ever come to
trial. He will have an alibi. No good
banker is ever caught without an
alibi and in Miami they have them
by the boatload.

COME OUT, CANDIDATES

The State Democratic Executive
Committee has met, the County Exe-
cutive Committee has met and it is
now the 22nd day of March or there-
abouts and high time that some good
men announced—or good women—for
the various offices that are to be
filled. This is one of the off years
for candidates as very few are to run
this time and the excitement is so in-
tense that you cannot notice it. The
biggest race will probably be for rep-
resentative from the county of Semi-
nole and as yet no one has announced
for this office. It may be that the
office will go begging for want of
candidates. The other offices will
cause little or no excitement and there
seems to be no candidate for congress
from the Fourth district as yet altho
one is mentioned who might come
from Orlando to enter the lists with
the present incumbent, W. J. Sears.
Mr. Sears may not feel like running
without any opposition and he has
said nothing. It seems that people are
too busy to talk politics and the cam-
paign promises to be anything but ex-
citing. The primary is on June 6th,
some time off yet but not too far off
to have a few candidates around.
There may be some tall skirmishing
for office of county commissioner but
no intimation has been heard yet that
the present board will be candidates
and only William Kilboe, of the Fifth
District, has been mentioned. Maybe
in the next few days some of the
saviors of the country will come for-
ward and make their wishes known.
And then there are the ladies. They
can vote and they can run for office
and while there are hardly any of-
fices that they may want this time
there may be one or two of our pub-
lic spirited ladies who would like to
go to Tallahassee and show those bold
legislators something about framing
laws for Florida. With the ladies in
the hustings it would be lively at least
and lend color to an otherwise very
tame affair.

STATE PRESS MEETING

(George E. Hosmer in the Braden-
town Journal)
We believe the executive commit-
tee of the Florida State Press Asso-
ciation has made a mistake in calling
the meeting of the association for
March 31 and April 1. These are two
days that most newspaper men like to
be at home. They want to see that all
their bills are made out on the last of
the month, and as many of them col-
lected as possible on the first of the
month. This meeting should be large-
ly attended, for many matters of im-
portance will be taken up at it. The
question of the attitude of the state
press on a number of important mat-
ters will be under discussion, and we
believe the association should do, as
the South Florida Press Association

has already done, take action in favor
of the enactment of a state-wide law
to prevent stock running at large. Also
in favor of conservation of state re-
sources, like timber, game and wild
birds. The proper publicity of all ex-
penditures of public funds is another
measure that the state association
should do something about. Candi-
dates for the legislature should be se-
lected that favor these measures, and
the newspapers get behind the mat-
ters and put them over. It therefore
is important that there be just as
large an attendance as possible. We
would like to see every newspaper in
the state represented at the meeting,
but we fear that the dates chosen will
mean that there will be a small attend-
ance. Instead, it would be better to
postpone the dates one week, if such a
thing is possible.

Ed. Note: Dear George, the dates
have been changed to April 7 and 8;
you are a mind reader and an optimist.
—Lakeland Telegram.

Ed. Note again: Dear Jarge: The
dates have been changed on account of
your mind being deranged. You are
a gentleman and a scholar and a judge
of good liquor.

THE VENICE OF FLORIDA

The nights have been too cool this
winter every time we have a band
concert on the lake front to really en-
joy the lake as it should be enjoyed
but in the summer time, in the
spring and in the fall the lake front
concerts will be enjoyed and the peo-
ple will really begin to appreciate the
lake. You hear much about the
Venice of America, meaning Los An-
geles, but Sanford could be made
and will be made the Venice of Florida
and in the future years the Venice of
America if all the plans can be car-
ried out for beautifying the lake
front. Lake Monroe is one of the
beauty spots of this section of the
state but Sanford has never given any
assistance to nature in her efforts to
make the lake beautiful. With the
present contemplated improvements of
the boat basin, the white way and the
paved boulevard a fine start will be
made toward bringing out the latent
charms and advantages of this fine
lake that is worth millions with the
improvements and worth nothing
without them. If the proper back-
ground was given the pavilion and the
new dock and the boat basin the vis-
itors to the city would get a better
perspective and their first impressions
would be lasting ones.

At the headwaters of the St. Johns,
with the Upper St. Johns hardly dis-
covered and the possibility of the canal
into the ocean from the St. Johns,
with all the beautiful tributaries in
lakes and rivers that abound in this
section it would be a small matter to
make Sanford the Venice of Florida.

MODERN YOUNG FOLKS AFRAID
OF MARRIAGE

Here we have been talking about
young folks flying into the face of
difficulties without number on getting
married now and calling attention to
the fact that older folks cannot live
on present low wages and the high
cost of living and here comes the
Jacksonville Metropolis and knocks
the whole business into a cocked hat
in the following:

"It takes nerve to marry these days,
an Omaha minister says.

"Each generation in the past has
had the same idea about their particu-
lar time. So will future generations.
"As a matter of fact, however, it
requires less nerve to shoulder family
responsibilities today than ever be-
fore. Civilization is a featherbed,
now than in the past. We only im-
agine economic problems are easier to meet
agine they are harder.

"Travel back, in imagination, to
your ancestor, the cavaman. To be-
gin with, had to win his bride by fight-
ing in ga rival. The lover with strongest
muscles, sharpest teeth or longest-
handed war club emerged alive and
claimed the bride. After marriage,
father had to protect his family
against raiding, murderous outlaws
and monster beasts that modern man
encounters only in nightmares and de-
lirium tremens. Oh, yes, it took less
nerve to marry in those days.

"Go back eve nas short a period as
50 years, to the terrible panic that
followed the civil war. It took real
nerve to marry in those days with the
country disorganized, infested with
outlaws, and the average person about
\$10 from the breadline.

"In fiction and in history one can
still read of the hardships endured by
the pioneers who settled the mountain
districts and crossed the plains in
prairie schooners. A young couple in
those days though nothing of ventur-
ing into the uncharted wilderness with
only an axe, a rifle, a bundle of bed-
ding, copper cooking utensils, an iron
kettle and maybe a luxury like a clock
or horse or cow. They got along all
right, too—conquered the barren wild-
erness and handed it down to their
children in the form of fertile fields
and wooded clearings.

"Compared with past generations,
even the poorest modern brides and

grooms have easy times. The trouble
is young folks today want to start
where 'the old folks left off.' They
want their new house to be full of
furniture and a 1922 model automo-
bile in the garage.

"Civilization, the featherbed, has
accustomed us to soft ways of living
—that's why most of us imagine it
takes Spartan nerve to brave the econ-
omic problems of married life in mod-
ern times."

GOLDEN RULE IN BUSINESS

As long as there is "so much hu-
man nature about mankind" selfish-
ness will play a star part in every
department of life. But while human
perfection is unattainable, human
progress, is not only possible and
practical, but is enjoined as a duty by
the very laws of our being as well as
by the dictates of religion.

Progress is the law of life. To
stand still means to deteriorate. We
must go forward if we would not go
backward. Nature is a strict disciplin-
arian, but she is as just as she is
severe. She as truly rewards the
faithful and industrious, as she pun-
ishes the slothful.

With a spirit as utterly catholic as
it is impersonal, she inspires human-
ity by her example; she "plays no
favorites." All persons must stand
upon their feet—must be the archi-
tect of their own fortunes, under
Providence, the captains of their own
souls.

That humanity is reacting to this
severe primitive law of life and that
this influence is permeating many
phases of life is noticeable on every
hand. The great was not without
its compensations. It was an object
lesson of the necessity of service to
others as a corollary to true service
to ourselves. Then came the broader
view, the inspiration and beauty of
service, the recognition of the on-
eness of humanity and the develop-
ment of true idealism. While the
roots of it may have been grounded
in the soil of material necessity, yet
its flower and fruit contained many
blessings for humanity and the sweet
fragrance of it all reaches to the
very throne of Love itself.

That war, while it had its appar-
ent demoralizations, continued the
deep moral and spiritual lesson, that
"no man liveth unto himself"—that
big lesson of life, the universal kin-
ship of humanity, the brotherhood of
all the races of men, is apparent.

This lesson led directly as by
wireless, to the consideration and
practice of the "golden rule," in ev-
eryday life. Where else could it
lead? The practical results are seen
in many ways, but perhaps in none
more significantly than in the organiza-
tion of the numerous clubs among
all sorts of business and professional
men. The remarkable thing about
these organizations is that while they
are ostensibly for business and social
purposes, they are in fact the em-
bodiment of a broader and more
beneficent purpose—a closer sym-
pathy among all our people and the up-
lift of humanity everywhere.

Great crisis naturally have the
effect of great dangers—for that
is what they are. They inspire sym-
pathy through mutual peril—"one
touch of nature" that "makes the
whole world kin." Such experiences
humanize humanity—tend to restore
its true perspective, its real relation
to life.

Let us not be alarmed or disheart-
ened. The world is growing wiser
and better. Despite a discordant note
here and there, sometimes inspired by
ignorance but more often by selfish-
ness, there is a wider recognition of
the beauty as well as the duty in-
volved in the golden rule than ever
before since the dawn of civilization.
—The Rotarian.

TEACH THEM THRIFT.

The banks are making strong ef-
forts to teach the children thrift, the
government is making efforts, the
schools and even the churches are as-
sisting in the good work and it is bear-
ing fruit. Savings banks and other
means of awakening the children and
even the grown people to the advan-
tages of saving the pennies has arou-
sed spendthrift America as nothing
else would have done.

"Teach the American children thrift
and you will develop a higher stand-
ard of citizenship in coming genera-
tions," said Mrs. Mary E. La Rocca,
delegate to the National Fraternal
congress at Chicago. Thrift is a
character builder. It makes for bet-
ter morals and higher ideals.

Mrs. La Rocca is supreme guardian
of the Supreme Forest Woodmen Cir-
cle whose 10,000 members, mostly
women, have launched an educational
campaign that will drive forcibly
home to America's children the les-
sons of thrift, patriotism, obedience
to parents and service to follow-man.
Junior circles are being formed of
children who will elect their own of-
ficers and administer their own af-
fairs under direction of an adult su-
pervisor.

"Europe teaches its children thrift

from the toddling age. Later they
are taught the related responsibilities
of life," Mrs. La Rocca continued. "In
America where more happy conditions
obtain and where opportunities are
brighter there is a tendency toward
extravagance and waste. This ten-
dency may be found even among kin-
dergarten children with their exces-
sive lollypop allowances, and it is
growing more and more conspicuous
among so-called "flappers" of high
schools with their luxurious frocks
and silken hose.

"Nor is extravagance" the fault of
children. It is due largely to exam-
ples set by parents. It is due to the
lack of proper teaching of thrift."

Mrs. Elmira D. Vasth, New Orleans,
La., one of the 18 women comprising
the board of directors, and Mrs. Dora
Alexander Talley, supreme clerk, Om-
aha, Nebr., are leaders in the junior
circle movement. Both have had long
experience in educational and welfare
work. At the twenty-seventh annual
convention in May plans will be com-
pleted for carrying the thrift cam-
paign into every state.

AN AMERICAN'S CREED

Copyright by Charles W. Miller.
Vicksburg (Miss.) Herald

He that walketh righteously,
and speaketh uprightly; he that
despisteth the gain of oppres-
sions, that shaketh his hands
from holding of bribes, and
stoppeth his ears from hear-
ing of blood, and shutteth his
eyes from seeing evil; He shall
dwell on high; his place of de-
fense shall be the munitions of
rock; bread shall be given
him; his waters shall be sure.
—(Isa xxxiii; 15, 16.) And
who is he that will harm you,
ye be followers of that which
is good? (I Peter iii, 13.) Blessed
are they which do hunger
and thirst after righteousness;
for they shall be filled. Blessed
are the merciful; for they shall
obtain mercy. Blessed are the
pure in heart; for they shall see
God. Blessed are the peace-
makers; for they shall be called
the children of God.—(Math-
v, 8-9.) Keep yourselves in
the love of God, looking for the
mercy of our Lord Jesus Christ
Unto eternal life.—(Jude 21)
Here is the patience of the
saints here are they that keep
the commandments of God, and
the faith of Jesus. And I heard
a voice from Heaven saying unto
me, Write, Blessed are the dead
which die in the Lord from
henceforth; Yes, saith the Spir-
it that they may rest from
their labours; and their works
do follow them.—Rev. xiv: 12,
13.)

PULL FOR THE RIVER.

The Herald would like to say to the
Florida representatives at Washing-
ton that if you will just get us the
proper amount of appropriations for
the St. Johns river you need never
bother your heads about cheaper
freight rates for this part of Florida.
The question of railroads will never
enter our minds again and we will
just forget about them from this time
on. With the deep water in the St.
Johns river, with our own line of
ships from Sanford to New York,
with a broad road from Sanford to
Orlando, with a trolley line from San-
ford to Tampa the railroads can go
right along and make their rates as
high or as low as they please—we
will never even ask about their health.
And all joking aside this part of
Florida wants to know just what our
representation in congress is going to
do about the river? There has been
nothing done in the past six years and
the excuse was the lack of tonnage.
Now we have the tonnage but there
is nothing said about it in Washing-
ton. We wonder if our representa-
tives in Washington know there is a
St. Johns river and a Central Florida
Water Traffic League?

COMPARISON OF RATES

In this issue is a letter from S. J.
Sligh, president of the Central Florida
Water Traffic League in which he
gives actual figures and shows the
difference in handling and the big sav-
ing by water. It is useless for the
shippers to longer ignore this impor-
tant item in their business lives. While
the growers here are running to and
fro trying to get in their crops, to
bring them to maturity and then to
sell them they are losing sight of the
octopus that is lying in the offing
ready to eat up their profits—the rail-
road rates. Unless the freight rates
can be lowered there is no need of
growing either fruits or oranges and
the so-called high prices that you hear
so much about will all be a joke next
season. There may be high prices for
fruits and vegetables but you people
will never get the money. There will
be another raise in freight rates about
that time and your fruits and veget-
ables will be swallowed up in the
maw of the greedy monster that
seems to know no end in demand-

more and more of your hard earned
money. It is high time the merchants
and shippers and the growers and the
various associations in Sanford look
heed of this important item—by far
the most important that you have to
confront. All your safeguards for
the crops, all your cold storage, all
your co-operative methods, all your
ideas about growing and shipping and
selling go for nothing unless you can
get a reduction in freight by taking
up the water shipments and this
means joining the Central Florida
Water Traffic League. It is most sur-
prising the lack of interest that the
people here show in this important
matter. It is high time the people
who are mostly interested took a
part in this idea of putting on a new
boat line and getting the rate to
which they are entitled.

Henry Ford will not get Muske-
Shoals, says Thomas Edison. All
right, Tom. You are only telling
them what the Herald said six months
ago but we will tell them something
else. Henry had better get it or the
Republican party will be leader than
the investigation of the Ku Klux by
the New York World—and that is
"Rawther dead."

Luke Rielly Says, "The Rat Died Be-
fore Reaching the River."

"Since moving near the river 2
years ago, we've always used RAT-
SNAP. Watched a vicious water rat,
nibbling at RAT-SNAP outside the
house. About 15 minutes later he
darted off for the water, to cool his
burning stomach, but he died before
reaching it." Three sizes, 8c, 6c,
\$1.35. Sold and guaranteed by Ball
Hardware Co.—Adv.

Notice of Application for Tax Deed
Under Section 575 of the General
Statutes of the State of Florida
Notice is hereby given that G. S.
Crawford, purchaser of Tax Certifi-
cate No. 32, dated the 2nd day of
June, A. D. 1919, has filed said certi-
ficate in my office, and has made ap-
plication for Tax Deed to issue in ac-
cordance with law. Said certificate

embraces the following described prop-
erty situated in Seminole County,
Florida, to-wit: N 1/4 Lot 3, W. P.
Leavitt's Sub-Div. The said land be-
ing assessed at the date of the issue
of such certificate in the name of
S. W. Wright. Unless said certificate
shall be redeemed according to law
Tax Deed will issue thereon on the
22nd day of April, A. D. 1922.

WITNESS my official signature and
seal this the 17th day of March, A.
D. 1922.

(SEAL) E. A. DOUGLASS,
Clerk Circuit Court,
Seminole County, Florida.
By: A. M. WEEKS, D. C.

FOR SALE OR LEASE—One 20 acre,
one 10 acre Sanford ave. walking
distance to city. Two lots corner
Center and Elm ave. Two lots west
side Palmetto ave., 50 ft. from Ele-
venth St. Make offer. B. T. Corey,
owner, 115 N. Spring St., Los Ange-
les, Calif.
288ft; 29-12

PROPERTY OWNERS
TAKE NOTICE

The law provides that "If tax-
es upon real estate shall not be
paid before the first day of April
of any year, the Tax Collector
shall advertise and sell."

This is to notify all concerned
that the requirements of law will
be complied with and the Tax
Books will positively be closed
on April first as provided by law
and all lands on which taxes
have not been paid will be ad-
vertised and executions issued
for unpaid personal property
taxes.

INTERESTING DATA ABOUT CELERY AND HOW IT IS BEING GROWN AND SHIPPED

The following article in the Florida Magazine by J. C. Hutchison, manager of the Sanford Truck Growers, Inc., is interesting:

Yes, moving with promptness and despatch—to old customers,—new customers,—to established centers and to new distributing and consuming markets.

Among the thousands of carloads shipped out of the state this season, several have been consigned to California, from Mahabes and Seminole Counties, this supply being for the purpose of relieving the dearth of California celery caused by the loss through unusually low temperatures.

To the markets already established the Florida celery gives the satisfaction and returns that inspire increased planting.

Celery is a magic word in the territorial spots of the state known as celery centers, and which, in several sections, hold sway over the agricultural industry.

From the days of early seed planting until the time when thousands of cars speed northward to the ready markets, the very atmosphere of the celery fields is animated with intense thrift and keen anticipation of the yield and the remuneration which is soon to follow.

Celery is grown in all sections of the state, but in some areas environment and soil conditions seem more conducive to the production of this golden bleached product, and in these sections intensive specialization has produced phenomenal results.

The growing of celery in Florida is close to scientific perfection. With yields up to 1,000 crates, and averaging 800 crates per acre, it is easily assumed that the Florida soil is one hundred per cent adaptable, and the methods of culture in vogue are proportionately good.

The Sanford Farmers' Exchange has recently installed a pre-cooling plant of large proportions. To this plant comes the celery grower, and here is left the product of his labor.

The system takes charge of the celery, wages, grades, packs and passes it on to the cooling rooms. Here it is reduced in temperature, taking from it the accumulated heat of sun and handling, and fitting it for its long journey by scientific cooling methods.

It enters the car at just the right temperature. Loss through excessive service, uncertain variation of temperature, re-icing, and the spoilage resulting, is reduced to a minimum.

Through the vigilance of the Florida celery farmer and his association, when a crate of Florida celery reaches the market it is in prime condition, has the crispness that proper handling insures, and the freshness and original flavor has been retained.

The consuming public is keen to take advantage of these improvements and it means a greater consumption of this health-giving vegetable to deliver it right after it has been so splendidly grown.

This year is not recognized as a

are being realized and producers are happily inclined. From a comparatively small acreage a few years ago the celery industry has leaped forward in rapid strides. Even with a light yield, this season's output promises to exceed thirty-two hundred cars from the Sanford community. Measured in dollars and cents, this means \$2,688,000.00 gross from an investment of approximately \$860,000.00, or \$500.00 per acre.

The celery producer is a busy man, but his work is usually completed with a highly satisfactory ending.

He plans early. Beginning in August, and sometimes in July, the celery producer plants his seed. From that moment his mind is constantly anticipating the ripening fields and splendid harvest. During September and October he is busy transplanting the tender plants to the open field. These he places in rows thirty inches apart, setting the plants about three to four inches from each other. In this way he sets about 29,000 celery slips to the acre.

Prior to the transplanting period he has carefully prepared the soil for the inception of the plants. The smooth, sandy loam has been nicely plowed during the summer months. Fertilizer is carefully placed over the plowed land, and then, by means of a harrow is thoroughly mixed with the soil. Commercial fertilizer composed largely of potash, phosphate acid and ammonia is used, and approximately four tons are spread to the acre. The harrowing process produces a field which is smooth and glossy and completely pulverized.

Seventeen hundred acres surrounding Sanford are this year under cultivation, while large areas in Manatee county have been similarly prepared. When these vast tracts, tightly knit together, acre on acre, begin to burst forth in pale green, with the thousands upon thousands of long rows showing symmetrically in the golden sunlight, there is a scene that attracts and is possibly responsible for alluring many farmers to Florida. He who has never beheld such a mid-winter scene, nor breathed the odor of growing celery, is practically incapable of producing an imaginative picture of the beauty and charm of it all.

The bleaching process begins about ten days prior to harvest. Long strips of bleaching paper are run down the sides of each row, and during this boxing period the celery becomes well prepared for the commercial market.

The harvest season is at its height in February. It is during this period that the entire country seems to be alive with toiling workers. Everywhere activity of the most aggressive nature is shown. Crates and box cars and transportation vehicles mix and mingle with the song of the harvesting machines and the hurry and bustle of the laborers.

The harvesting machine, now in general use, looks somewhat similar to a plow. Its two wheels straddle each row of celery and, as the machine is propelled from one end to the other, the knives, which are attached to the wheels, neatly and quickly cut the bunches of celery close to the ground.

Ten inch crates are used for packing, and about 336 crates are loaded to each refrigerating car.

The celery fields of Florida are practically immune from any effects of cold weather. A temperature as low as 16 or 17 degrees above zero, if sustained for several days, would prove disastrous, but such a phenomenon is almost removed from the realm of the probable.

The co-operative market plan is largely used in celery sections. The growers combine their shipments and load solid cars, which in turn are sold by the co-operative organizations, which, in reality, is the growers' organization. By this co-operative marketing plan the grower secures the highest price the market affords at all times at a small item of cost, necessary to the operation and maintenance of the association.

It must not be imagined that the Florida celery grower, even after a phenomenal dividend producing year, is contented to sit idly by until the following season.

Nature, his closest ally, has made it possible, literally speaking, that every month shall be a growing month, and no sooner has his celery been harvested when he turns his thrifty hand to further diversification.

It is this diversification that has made it possible for hundreds of Florida truck growers to erect large stately homes on their farms that contain every element of the comfort, convenience and elegance of many mansions that grace the boulevards of our large cities.

While Seminole county has always been a pioneer in the Florida celery situation, but even so, it has not been so many years ago that the growing of this product upon a real commercial scale was practically extinct.

But what a contrast today. Thousands of acres now glisten in the warm Florida sunshine where but

filled with bird life and wild game.

It might be in order to say a few words relative to a question that has been asked many, many times.

"Do you think I could grow celery?" Assuredly yes.

We have in our midst cotton growers from the Carolinas, apple growers from New York, corn growers from Iowa, and wheat growers from far western Canada. They have all made a success at celery growing.

With the helpful suggestion and close co-operation from the Growers' Association, with the personal assistance of our splendid county agent, and the invaluable advice and bulletins so gladly furnished by the department of agriculture, at Gainesville, celery growing has been raised to a standard of scientific perfection available to all who are willing to apply themselves.

Many stories could be told of the phenomenal success of some, but lack of space prevents.

To those that read this article and feel at some future date a desire to join this army of truck and celery growers, let me say that this narrative was by no means written to allure, but merely to assure.

While in Florida you have the advantage of nature's greatest gifts—soil, water and climate—nevertheless it is those who display good judgment, practice thrift, and work hard who receive the benefit of that which has made the Celery City famous, and justifiably called "The City Substantial."

Ask Your Soldier Boy How "Cooties" Got Such a Hold

He'll tell you that the battlefronts of Europe were swarming with rats, which carried the dangerous vermin and caused our men misery. Don't let rats bring disease into your home. When you see the first one get RAT-SNAP. That will finish them quick. Three sizes, 35c, 65c, \$1.25. Sold and guaranteed by Ball Hardware Co.—Adv.

ENTERPRISE

Services were conducted at the Methodist Chapel Sunday morning by Rev. J. R. Cason, agent for the orphanage. The evening service was conducted by the pastor, Rev. W. T. Bencher.

On Friday afternoon the ball team from Lake Helen school, crossed bats with the Enterprise team resulting in a victory for the Enterprise team. Both teams did some good work but the boys on the visiting team were so much smaller than the home team that it wasn't an equal matched team. During and after the game ice cream, candy and cake were sold, netting the piano fund of \$22.

Mrs. L. M. Wright and little daughter, Bertha, returned from Lakeland Monday where they have been visiting Mr. Wright.

Fred Murray, family and guests, Mr. and Mrs. H. A. Watt, and Miss Hazel Lee, spent the week end at Daytona Beach.

Mr. and Mrs. Adolph DeBary and guest returned to their homes in New York City on Monday after several weeks spent at their winter home here.

Joe Davis and family, of DeLand, were visiting relatives here Sunday.

The Woman's Foreign Missionary Society will meet at the Inn on Thursday afternoon.

Miss Emma Tucker left on Saturday for Camilla, Ga., where she will hold a series of meetings.

Mrs. H. G. Brook, superintendent of the Methodist Orphanage, left yesterday for Jacksonville where she will spend a few days transacting business.

Miss Sarah Davis, of DeLand, and Miss Mildred Crompton, of Indiana, arrived yesterday for a few days with Miss Davis' grandmother.

Mrs. Curley, of Rockledge, spent a few days at her little home here last week. She was accompanied by some friends from New York, Tom Cullen, and Mr. Acker, of Connecticut, who have spent several winters in Enterprise.

Mr. Sisson and daughter, Mrs. F. A. Dollison, of Kansas City, Mo., will leave for their home on Friday.

Mrs. W. T. Brown will leave the Inn on Thursday for her home in Indianapolis, Ind.

Mr. Acker was the dinner guest of Mr. and Mrs. Henry Murray on Thursday evening. Mrs. Henry Murray has received word from the Cochran family that they are on their way again for their home in Washington, Ind., after several days delay in Huntersville, Ala. All travel was held up there on account of high water and bad roads.

Dr. and Mrs. L. L. Seaman left on Monday for a few days in St. Petersburg before returning to their home in New York.

LAKE MARY

Mr. and Mrs. George Wilson and cousin Miss Ardell Hines spent the week-end at Daytona Beach.

Mr. T. A. Greenleaf made a business trip to DeLand and Orange City Tuesday.

Mr. and Mrs. John Reese of Orlando were Sunday visitors here.

N. H. Braddock returned to his work at Key West Tuesday after spending the week-end here with his family.

Mrs. Harriet Phillips is having a nice six-room house built on Crystal Lake, Wilbur avenue.

Mrs. E. A. Quigg and Mrs. Anna Swanson were shopping in Sanford Wednesday.

Mr. and Mrs. Jerry Rowe accompanied by Mr. and Mrs. Fred Smith and Mr. Crosby motored to Daytona Beach Wednesday.

Mr. and Mrs. Frank Evans are making a three weeks visit at Winter Haven.

Mrs. Etta Newman is spending the week in St. Petersburg with friends.

Mr. and Mrs. Charles Brown left Tuesday for their home at Seabrook, N. H., they expect to return early in the fall.

Rev. C. L. Hill Crathern of Hollis, N. H., made Mr. Greenleaf a visit this week. He is touring the state speaking in behalf of the near east relief.

Miss Mary K. Bullock of Fall River, Mass., is a guest at the hotel here.

George Phillips has four acres of peppers and beans planted that are coming on fine.

Mr. and Mrs. Hays and Mrs. Mellon, Mrs. Joseph Langford and Mr. and Mrs. Ellsworth Brown took an auto-trip to Ovelto, Geneva and Chuluota last week and reported considerable improvements and building at all three places.

Mrs. Joseph Langford has just had her new bungalow painted white with green trimmings.

Dr. George Fellous has just finished painting his five-room bungalow on Lake Crystal.

There has been twenty new buildings gone up here this winter and prospects of a dancing-pavillion being put up on the shores of Lake Mary in the near future.

Happy Tourists at Lake Mary I want to tell you one thing there's some big fish in Lake Crystal. I went with Fred the other day and my line hadn't been in the water two minutes before I had a bite I pulled and pulled and the gradually came along. Fred says you've got a wallop, and he was. He would weigh 20 pounds.

I have just been reading my Northern paper, they have pneumonia, they have the Flu, and all kinds of colds. They have spent from \$10 to \$500 for wood and coal. They have slipped on the ice and have had dislocated shoulders, sprained ankles, broken arms, and a few other minor things like frozen noses, cheeks and ears. They have waded to the waist in deep snows and faced into the chilling blasts from the northwest. Now notice the difference. Two winters I have spent in Florida, two happy and pleasant winters of my life. I have spent hours in sunshine that gives health and strength. Every day I have fresh grapefruit and oranges and also all the fresh vegetables I want for the table. You haven't got to worry about wood or coal or frozen water pipes. Florida is the paradise of the world. Her people are congenial and will do everything in their power to make you happy. When people get their eyes open and find what a mine lays at their feet of wealth, health, and prosperity, then Florida will become the mecca of thousands upon thousands of people. She will come into her own and be the one great state of the Upland.

"Tanic did what everything else failed to do." Thousands have said it. So will you. Union Pharmacy.—Adv.

Apparently there is some law forbidding display windows to show a lady's slipper larger than a No. 3A.

START TOMORROW AND KEEP IT UP EVERY MORNING

Get into the Habit of Drinking a Glass of Hot Water Before Breakfast

Millions of folks bathe internally now instead of loading their system with drugs. "What's an inside bath?" you say. Well, it is guaranteed to perform miracles according to hot water enthusiasts.

There are vast numbers of men and women who, immediately upon arising in the morning, drink a glass of hot water with a teaspoonful of limestone phosphate in it. This is a very excellent health measure. It is intended to flush the stomach, liver, kidneys and intestines of the previous day's waste, sour bile and indigestible material left over in the body which if not eliminated every day, become food for the millions of bacteria which infest the bowels, the quick result is poisons and toxins which are then absorbed into the blood causing headache, bilious attacks, foul breath, bad taste, colds, stomach trouble, kidney misery, sleeplessness, impure blood and all sorts of ailments.

People who feel good one day and badly the next, but who simply can not get feeling right are urged to obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to make anyone a real crank on the subject of internal sanitation.—Adv.

BURNED BODY, DEAD SEVEN DAYS, FOUND

(By The Associated Press) WELAKA, Fla., March 22.—The body of Christopher Gaston, sixty-four, a highly respected citizen of Naahus, about seventeen miles from here, was found yesterday in the woods some distance from his home. When found the body was lying face down. The clothing had been entirely burned off and the body was badly charred in places. It is thought that he had been dead about seven days.

Undoubtedly he had met his death while fighting a woods fire. The body was buried yesterday afternoon at Welaka.

The Herald for Post Cards.

IF KIDNEYS ACT BAD TAKE SALTS

Says Backache is Sign You Have Been Eating Too Much Meat.

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well known authority. Meat-forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve your bowels; removing all the body's urinous waste, else you have backache, sick headache, dizzy spells, your stomach sours, tongue is coated and when the weather is bad rheumatic twinges. The urine is cloudy full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician or get from your pharmacist about four ounces of Jad Salts; take a tablespoon in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful, effervescent lithia-water drink.—Adv.

DEATHS

DEATH OF EDWARD KNIGHT Edward Knight died in Denver Colorado on the 15th of March after a lingering illness of several years. He was 27 years of age at the time of his death and was a former resident of this city where he was an employee of the Southern Bell Telephone Co. He enlisted in the army during the war and shortly after his discharge it was found that he had contracted tuberculosis and he was sent to Colorado to a government sanitarium for treatment but he never fully recovered his strength and passed away after three years of struggling against the dread disease.

He leaves a mother and father here, Mr. and Mrs. A. H. Knight, who reside on the West Side and a sister, Mrs. Zittrower, to mourn his loss. The funeral occurred at the home of his parents yesterday (Tuesday) afternoon at five o'clock, Rev. Burhans, of the Congregational church officiating and interment being made in Lake View cemetery. d-a-w

Two teaspoonful of Tanlac in a little water taken three times a day just before meals will make you eat better, feel better, sleep better and work better. Union Pharmacy.—Adv.

The building of the Fort National Bank at Bradentown is about completed, the work has been started on the new Methodist church.

OPEN NOSTRILS! END A COLD OR CATARRH How To Get Relief When Head and Nose are Stuffed Up.

Count fifty! Your cold in head or catarrh disappears. Your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more snuffling, hawking mucous discharge, dryness or headache, no struggling for breath at night.

Get a small bottle of Ely's Cream Balm from your druggist and apply a little of this fragrant antiseptic cream in your nostrils. It penetrates through every air passage of the head, soothing and healing the swollen or inflamed mucous membrane, giving you instant relief. Head colds and catarrh yield like magic. Don't stay stuffed-up and miserable. Relief is sure.—Adv.

Tanlac is the result of years of study, experimentation and research by some of the world's greatest chemists. Hence its merit. Union Pharmacy.—Adv.

Indigestion Many persons, otherwise vigorous and healthy, are bothered occasionally with indigestion. The effects of a disordered stomach on the system are dangerous, and prompt treatment of indigestion is important. "The only medicine I have needed has been something to aid digestion and clean the liver," writes Mr. Fred Ashby, a McKinney, Texas, farmer. "My medicine is Thedford's Black-Draught for indigestion and stomach trouble of any kind. I have never found anything that touches the spot like Black-Draught. I take it in broken doses after meals. For a long time I tried pills, which griped and didn't give the good results. Black-Draught liver medicine is easy to take, easy to keep, inexpensive." Get a package from your druggist today—Ask for—and insist upon Thedford's—the only genuine. Get it today.

COUNTY COMMISSIONERS PROCEEDINGS FOR MARCH

Sanford, Fla., March 7, 1922.
Hon Board of County Commissioners in and for Seminole County, Fla., met in regular session at 10 o'clock A. M. Present: Chairman; L. A. Brumley, and Comrs.: L. P. Hagan, C. W. Entzinger, O. P. Swope, and E. Curlett, with V. E. Douglass, Deputy Clerk, Geo. A. DeCottas, Attorney, and C. M. Hand, sheriff, in attendance. Minutes of last regular meeting held Feb. 7th, A. D., 1922, were read and approved.

Mr. K. R. Murrell, appeared before the board in reference to the payment of his personal taxes. No action taken.

Mr. H. H. Pattishall, appeared before the board in reference to road leading to the cemetery in Geneva, and filed a petition requesting a road as follows: Begin at a point about 15 chs. E. of NW Cor. of SW 1-4 of NW 1-4 of Sec. 22-20-82, at a street as shown by map of Chase & Co. Add. to Geneva, Run south to sub-div. line thence E along said sub-div. to Cemetery. On motion of Comr. O. P. Swope, 2nd, by Comr. C. W. Entzinger, and carried, the above petition is hereby rejected.

Motion of Comr. E. Curlett, 2nd by Comr. O. P. Swope, and carried. Mr. H. H. Pattishall is hereby instructed to take down fence and open old road to Geneva Cemetery, same to be opened within 30 days from this date.

Mr. Forrest Lake appeared before the Board in reference to contract and bond of Maule & Snyder.

Mr. Gordon and Mr. Brown appeared before the Board in reference to closing road near Paola known as Brown's road. Motion of Comr. O. P. Swope, 2nd by Comr. E. Curlett, and carried. Mr. Gordon, is requested not to close the road leading into the Brown property until a satisfactory road has been agreed upon by the parties concerned.

Motion of Comr. O. P. Swope, 2nd by Comr. C. W. Entzinger, and carried. Chairman L. A. Brumley, and Comr. L. P. Hagan are hereby appointed a committee to confer with the interested parties in reference to the Brown road.

Notary Public Bonds of Sara Warren Easterby, and S. A. B. Wilkinson, were approved.

Motion of Comr. L. P. Hagan, 2nd by Comr. C. W. Entzinger, and carried. Contractors Maule and Snyder are hereby granted an extension of 10 days in which to file their bond and sign contract.

The following Firearm Bonds were approved and license ordered issued: Allen Gayle and C. M. Borry.

Motion of Comr. C. W. Entzinger, 2nd by Comr. E. Curlett, and carried. The Atlantic Coast Line Railroad

Co., are hereby instructed to put in a drain tile just south of the Seminole Crates Co's mill.

Motion of Comr. O. P. Swope, 2nd by Comr. L. P. Hagan, and carried. Mr. W. S. Price is hereby instructed to put in extra studding all around the new Convict Stockade, and to put in nine gauge woven wire all around the cage, and to install iron bars at all windows and doors, and also to install one extra toilet in each Stockade, all this work to be done under the supervision of Supt. J. M. Wynn. Mr. Price is also instructed to put up one cypress water tank and tower.

Deputy Sheriff Bond of J. M. Vickory was approved.

Clerk of the Board is instructed to write to Osceola Cypress Co., requesting their check for \$125.00 to balance due on this donation of \$250.00 for road work to Osceola.

Motion of L. P. Hagan, 2nd by C. W. Entzinger, and carried. Clerk of this Board is instructed to draw a warrant for \$2000.00 on the Fine & Forfeiture Fund, and transfer same to the Road and Bridge Fund.

Motion of Comr. O. P. Swope, 2nd by Comr. C. W. Entzinger and carried. Contractors Maule and Snyder, are hereby instructed to commence work on the new hard surfaced roads, on the road from Oviedo to the Orange County Line. Voting yea: O. P. Swope, C. W. Entzinger and L. A. Brumley; Voting Nay: L. P. Hagan and E. Curlett.

Motion of Comr. O. P. Swope, 2nd by Comr. C. W. Entzinger and carried. Attorney Geo. A. DeCottas, is instructed to appear before the board of county commissioners of Volusia County as Attorney for this board on March 9th, and request that Seminole County be given a franchise to build and operate a toll bridge at Osceola Ferry, same to be made a free bridge when it has paid for itself.

Motion of Comr. C. W. Entzinger, 2nd by Comr. O. P. Swope and carried. The bill of Smith & Co., for lumber for the Geneva bridge, is referred to Comr. E. Curlett.

Motion of Comr. O. P. Swope, 2nd by Comr. E. Curlett, and carried. The Clerk of the Board is instructed to not allow chairs or any furniture belonging to Seminole county to leave the Court House.

Motion of Comr. C. W. Entzinger, 2nd by O. P. Swope, and carried. The Clerk of this Board is instructed to notify Band Master, that unless he can close up Court House and turn out light in basement at night, as requested, that the permit allowing the use of same will be rescinded.

Motion of Comr. O. P. Swope, 2nd by Comr. C. W. Entzinger, and carried. The Clerk of this Board is instructed to notify the Trustees of the Elks Lodge to move what furniture, Etc., they have in the basement. Other communications were received, read and ordered filed.

Reports of the several County Officials were read, and ordered filed.

All warrants paid during the month of February were ordered cancelled off record.

Resolution calling for election and regarding building of roads printed elsewhere were adopted.

PAPER TO RADIO NEWS

(By The Associated Press)
RICHMOND, Va., March 21.—The Times-Dispatch Publishing Company, which publishes the Times-Dispatch (morning) and the Evening Dispatch will begin today the installation of the first public service radio broadcasting station in Virginia. A twenty-four hour service will be accorded within a radius of 800 to 500 miles embracing Virginia and North Carolina.

Largest Potato Shipping Season Florida Ever Had is Prospect

Preparations are now under way for what promises to be the largest potato shipping season Florida has ever had. The acreage planted to new potatoes in Florida this year is estimated by the United States Department of Agriculture at 24,800 acres. This is an increase of 49.8 per cent over the 1921 acreage of 16,600 acres.

As heretofore a field station of the United States Department of Agriculture will be maintained at Hastings for the purpose of keeping the growers and shippers informed of daily market conditions and prices in the large consuming markets to which Florida potatoes are shipped. Daily advice regarding shipments to market from other producing sections will also be available. This information will enable the distributors to regulate shipments so that the demand in the various markets can be properly met.

Florida produces the first new potatoes to appear on Eastern markets. There is practically no competition and the crop is readily disposed of. Last year 1945 carloads were marketed. The quantity would have been much larger had not excessively dry weather affected the yield. In 1920 more than 3,845 carloads were marketed. New York is the largest single market and received 615 carloads last year. Philadelphia received 250 cars; Chicago 141 cars; Pittsburg, 105 cars; Cincinnati 100 cars; Baltimore 61 cars. Primary destinations of the entire crop numbered more than 65 cities.

Florida new potatoes brings high prices as compared with old stock production costs and heavy losses resulting from excessively rainy and dry weather. The hazard of weather damage is ever present and necessitates the planting of considerably more potatoes than are marketed.

Last year the general average production for the season was only about 30 barrels per acre on account of the unusually dry weather. Also prices of labor and fertilizer were high at planting time; freight rates were high, acreage had been reduced and there was a large supply of old stock on the markets. In 1920 a heavy rainfall continuing for twelve hours on May 18 caused an estimated damage to the crop of approximately \$1,000,000 in the Hastings section alone. There has also been a sixteen-inch rain in February just after a large portion of the crop had been planted, and about two-thirds of the entire acreage in the Hastings district had to be replanted.

Hastings located on the Florida East Coast Railway, 66 miles south of Jacksonville, and 10 miles east of Palatka, is the center of activity, and practically the entire crop is marketed by distributors located at that point. The larger portion of the crop is marketed by distributors on a five per cent commission. The distributors have selling contracts with the growers in consideration of advances made for seed and fertilizer during the growing season.

The spaulding rose is the only variety grown in the Hastings section. Farther south Irish cobbler are produced. On the West Coast some blues triumphs and Irish Cobblers are grown. The double-head barrel is the standard container. When barrels cannot be obtained sacks containing 150 pounds net are used, although these containers are not suitable for stock that is not fully matured and firm. Crates of various sizes are also used to a limited extent.

POST OFFICE
BILL PASSED
THE SENATE

(By The Associated Press)
WASHINGTON, March 21.—The postoffice appropriation bill, carrying \$623,778,000, was passed late yesterday by the Senate after a heated fight. The measure carries \$63,309,000 more than was passed by the House, \$50,000,000 of the increase going for federal highway aid.

The bill also carries provisions for rearing to service the New York pneumatic mail tubes and for continuing the New York to San Francisco air mail service. The vote on the tubes amendment was 36 to 19 and came after a bitter attack had been made on the proposition by several Democrats. The \$50,000,000 was accepted by the Senate without debate and without a roll call.

A fight centering around postoffice appointments, originating early in the discussion of the bill, resulted just before adjournment of the Senate in the introduction by Senator Harrison, Democrat, Mississippi, of a resolution calling on the President to supply the Senate with the number of executive orders he has issued removing postoffices from civil service classification. The resolution went over under the rules.

The fight which culminated in the

TROLLEY LINE PLANNED FROM SANFORD TO PLANT CITY BY ORLANDO CAPITALISTS

Would Form Connecting Link With St. Johns River Boat Line

The following from the Orlando Reporter-Star will prove most interesting to Sanford people who are just now vitally interested in lowering the freight rate by water transportation: "Plans are maturing for an inter-urban electric trolley line to connect five of the principle South Florida cities.

"This arresting fact was made public today through a news source, and later Frank J. Ryan, who is one of the leading spirits in connection with the erection here of the hotel Menendez granted the Reporter-Star an interview and talked at length on the subject.

"The project is being fathered by Mr. Ryan and J. F. Ange, the latter the president of the Bank of Orange and head of the Orange Hotel.

"Mr. Ryan declared that the proposal to build an inter-urban electric line has been gone into thoroughly, that he has discussed the project with bankers, citrus growers, farmers and merchants throughout all central Florida, and that the venture has met with unqualified approval.

"It is proposed to build the road from Sanford through Orlando to Plant City; and two other spurs would connect this city with Daytona and Tavares.

"The milk in the coconut of the project is high freight rates, and the plan is being pushed on the basis that at Sanford the line would connect with river traffic on the St. Johns, which means a water rate to and from the east, which according to Mr. Ryan will be the greatest boon central Florida could possibly enjoy.

"Discussing freight rates Mr. Ryan said: "Railroad rates, as everybody knows, as so high as to constitute a handicap to all business. A million dollars worth of strawberries were grown this year at Plant City and were shipped in many instances, I am informed, at an actual loss owing to excessive freight charges.

"These charges affect us all, but the merchant and the shipper most of all. By giving to the citrus growers of the citrus belt the advantages of a water haul rate to market would mean a wonderful thing to that industry. And to give the merchants the benefit of the rate on merchandise coming into this section would confer another boon.

"So that it would be at the outset more upon the freight haul than the passenger haul that we would count for economic support. But consider what inter-urban service would do in enhancing land values in the sections which were traversed, and consider the possibilities of town building along the lines.

"Those of us who travel know what trolley service has done toward the development of rural New England. The city of Des Moines, Iowa, has grown from a population of sixty thousand people to two hundred thousand in little more than ten years, due to trolley service.

"All of central New York state has been developed by the same agency.

"In my opinion South Florida has reached the stage where this development is a practical proposition. Hard roads are essential to the upbuilding of a country, and the automobile will do much, and has played a wonderful part in our development, but in the last analysis it is the trolley line which has interlocked interior America and made it the solid country it is."

"Mr. Ryan said that if the line goes as far south as Plant City, undoubtedly the Tampa trolley service will be extended to that point to make an intersection, which will mean the road will run 'from water to water' right through the heart of South Florida.

"Commenting upon the cost of the project, he said he estimated the line could be built in its entirety for from twelve to fifteen million dollars. The manner of its building will be thru a giant company, and it is planned for the stock to be taken up by those who will be served by the enterprise, the merchants and growers of the sections through which it passes."

The eyes seldom see temptation when the nose is pressed firmly against the grindstone.

Harrison resolution was precipitated by an amendment increasing the number of postal inspectors, a move which Mr. Harrison charged was to make more places for Republicans. The debate quickly entered the subject of postmaster appointments and the President was charged with having removed the Marlon, Ohio, office from civil service by executive order so that he could appoint the postmaster in his home town.

ANDREWS' OPINION APPLIES ONLY TO GEORGE ATZ CASE

Local Judge Upholds Seizure of Liquor Without Search Warrant in One Instance Because of Peculiar Facts.

Judge Charles O. Andrews, in discussing yesterday, his opinion which upheld the decision of the county court of Lake county in the case of George Atz, who was convicted on a charge of having illegal possession of liquor, declared that his ruling applied only to "the facts in this case" and not in a general way to the application of the law governing seizure of liquor under a search warrant. In substance the opinion held as follows:

"... (1) did not disclose a violation of the constitutional rights of Atz, the evidence showing that the place where the liquor was seized was not the private residence, nor place of business, nor a taking from the person, nor was the liquor described classed as property in this state; nor was there a seizure except by consent of Atz.

"(2) The opinion further holds that the courts of this state have never adhered to the rule that a person on trial could wait till the taking of testimony at the trial before objecting to the evidence as being inadmissible because procured by the state in an unauthorized way, for example, by an unlawful search and seizure. The facts in this case did not fall within section 22 of the declaration of rights of our constitution securing to the rights of the people "in their person, houses, papers and effects against unreasonable searches and seizures."

The above provision of the constitution has been amply provided for by statute and any unlawful search of property or persons, or seizure without lawful warrant will not be approved, but condemned, if brought properly to attention by legal proceedings in the seventeenth judicial circuit.—Orlando Sentinel.

CARPET GRASS A GOOD PASTURE GRASS

"One of the most urgent needs of the Florida cattleman is a good perennial grass that may be inexpensively established on outover lands where the presence of roots and stumps makes the use of the plow too difficult," to quote one of the prominent range cattlemen of this state.

Specialists of the College of Agriculture, Gainesville, answer, "Carpet grass meets this need wherever soil and moisture conditions are right. It is not exactly as to type of soil but requires a fairly good supply of soil moisture. It thrives on much of our flatwoods lands and on locations that do not become too dry. Carpet grass will probably be found more satisfactory for the undrained flatwoods soils of Florida than Bermuda."

In planting carpet grass, sow at the

rate of five or six pounds of seed to the acre where the native grasses have been burned off or closely grazed. Seedings may be made at any time from April until July, providing there is an abundance of moisture.

On large pastures where its success is not fully assured, it is well to restrict seedings to small, select areas, and, if these are successful, seed will be produced which will be distributed by stock to other parts of the range.

PENN'S SPELLS

CHEWING TOBACCO

Penn's spells quality. Why?

Because—
Penn's is packed airtight in the patented new container—the quality is sealed in.

So Penn's is always fresh—an entirely new idea for chewing tobacco.

Have you ever really chewed fresh tobacco?

Buy Penn's the next time. Try it. Notice the fine condition.

And after that, use fresh chewing tobacco—Penn's.

Kiddies' Colds Can Be Eased Quickly

Dr. King's New Discovery will do that very thing, easily and quickly. Don't say "Poor little kiddie, I wish I knew what to do for you!" When the cough first comes, give a little Dr. King's New Discovery as directed, and it will soon be eased.

It's a good family cough and cold remedy, too. Loosens up the phlegm, clears up the cough, relieves the congestion. No harmful drugs. For fifty years a standard remedy for colds, coughs, grippe. At your druggist, 60c a bottle.

Dr. King's New Discovery For Colds and Coughs

Constipated? Here's Relief! Cleanse the system, with Dr. King's Pills. They prompt (and bile flow, stir up the lazy liver and get at the root of the trouble. All druggists, 25c.

PROMPT! WON'T CRIPPE Dr. King's Pills

DEVVOE

Marble Floor Finish

Wear! Wear! Wear!
but it never touches the wood

POUNDING heels, kicking toes, and banging furniture legs never reach the fibres of a floor varnished with Devvoe Marble Floor Finish.

Its deep rich glow adds beauty to the room. Its smoothness makes cleaning easy. Its toughness keeps dust and germs out of the pores of the wood.

What a great help to good house-keeping is a floor finished with Devvoe Marble Floor Finish Varnish.

Extremely durable. Easy to apply! Devvoe Products are time-tested and proven, backed by the 168 years' experience of the oldest paint manufacturing concern in the U.S. Founded 1754.

BALL HARDWARE CO.

A Drop-Seat Coverall That Hides The Buttons

After years of experimenting we've produced the garment you've been waiting for. A drop-seat Coverall with re-inforced band that conceals the buttons and protects the body.

"Panama" COMFORT COVERALLS

are made from best pre-shrunk material by skilled Union workers; and no sliver is the drop-seat concealed that there can be no objection to their appearance. Roomy, and will not bind or rip. Iron-clad guarantee. Ask your dealer.

Kahn Mfg. Co., Mobile, Ala.

SHIPPING BY WATER MADE BIG SAVING ACTUAL FIGURES GIVEN

S. J. Sligh Makes Comparison Between Rail and Water

DIFFERENT GRADES OF CITRUS FRUITS COULD BE SHIPPED IF RATES WERE MADE REASONABLE

The following figures from S. J. Sligh, president of the Central Florida Water Traffic League, are most interesting:

Please note enclosed papers which are self-explanatory. You will notice this covers a shipment of 900 boxes of second grade grapefruit shipped by Clyde Line, and also what the car would have net, had it gone all rail. As a matter of fact this grapefruit is what we call second grade which stock is rough and rusty, but heavy and juicy and eats as good as any grapefruit. Fully twenty to thirty per cent of the crop runs this grade. On account of the extreme high rate of freight, as a rule, this stock does not pay packing charges. This fruit would never be picked if it were not mixed up with the better looking fruit on the trees. It is all picked together and graded in the packing house. After the fruit is picked and hauled to the packing house it costs about 65c a box to put it up. If we had the same rate of freight as we did in 1917, this second grade grapefruit would all be shipped, and we could get something out of it. But with the present rate, thousands of boxes are being thrown away every day.

You will also note the difference in the Clyde shipment of 44 crates of eggplant to New York, and if we shipped it by express we would only have received \$60.95. The extreme express rate is simply wholesale robbery, and the service is anything but good. We have noticed this season in particular when we hauled goods to Sanford and shipped by Clyde Line, it would beat the express and the entire shipment would be delivered at one time. Very often, express shipments are delivered in part one day, and the balance of the shipment will show up from one to two days later, or we have had them deliver one shipment of express goods in three different lots. The question is how long can the growers of this state stand these extreme freight and express

rates? The key to the situation is to ship by water whenever possible. We want every grower and every citrus man to be on hand at our meeting in Orlando March 24, 1933, to be held in the court house at 7:30 p. m. We will have some very able speakers with us.

Hon. C. D. Haines will be at this meeting, and says he has something good to tell us.

Comparison of net proceeds on car of second grade grapefruit shipped to New York by Clyde Line, and net proceeds if shipment had gone via rail to New York:

Table with 2 columns: Item and Amount. Rows include 900 boxes grapefruit sold New York, Freight via Clyde, Cartage, Commission, 900 boxes grapefruit sold New York, All rail freight, Cartage, Commission.

Had this shipment gone all rail instead of Clyde, shipper would have only received \$210.80 instead of \$308.60. The high freight rate is causing hundreds of thousands of boxes of grapefruit to be thrown away each year, as fully twenty to thirty per cent of the grapefruit runs what we call second grade, rough and rusty but full of juice and as good eating as any fruit.

Comparison of Clyde and express shipment of 44 crates of eggplants:

Table with 2 columns: Item and Amount. Rows include 44 crates eggplant sold New York, Freight via Clyde, Cartage, Commission, 44 crates eggplant sold New York, Express, Cartage, Commission.

Shipper received \$108.39 instead of \$60.95 had shipment been made by express. Furthermore if goods are shipped so as to make boat connections, they will arrive on the market quicker than express shipments, and be delivered in one lot, whereas the express company invariably will deliver part of a lot one day and the balance one or two days later.

BIG DIVERSITY FLORIDA CROPS IS EVIDENT

ELIMINATION OF UNSATISFACTORY LABOR AND UNNECESSARY EXPENSES IS PROGRAM

GAINESVILLE, March 18.—Greater diversity of crops is evident in the state's agricultural activities so far this year with a more than well balanced program of cultivation and fertilization and the elimination of unsatisfactory labor and unnecessary expense, according to the Federal Bureau of Crop Experimentation here. Weather conditions have been generally favorable for early truck crops and preparation for the state's big staple crops, with farm work everywhere progressing on schedule time.

There has been a general increase in the acreage planted to the major truck crops in their usual territory which has been further augmented by the tendency of the average farmer to include a limited acreage of one or more of the truck crops in his farming operations this year. Plowing and the general preparation of ground for planting was seventy-two per cent complete on March 1, somewhat more than the usual percentage at that time. Spring planting, was slightly behind last year but about up to the average for March 1.

The condition of the citrus fruits and early prospects for the season of 1932-1933 are closely related just at this time to the crop now being harvested. For oranges, including tangerines, prospects were declared to be almost ideal. The 1921-22 crop was comparatively light and more than the usual percentage is off of the trees at this time. The vitality of bearing trees is above average, early growth and bloom are good and physical conditions, cultivation, spraying and fertilization have had careful attention.

The grapefruit situation, while generally favorable so far as bloom, growth and physical conditions are concerned, is complicated by the volume of fruit from the 1921-22 crop still on the trees.

The acreage in Irish potatoes this spring is estimated at 25,000 as compared with 17,000 acres last year and 23,000 in 1930. The largest increase is in the Hastings territory, including St. Johns, Putnam and Flagler counties, but a general increase has taken place all over the state wherever the crop is grown commercially. The conditions of the crop on March 1 was 91% of normal compared with 90% a year ago and 70% two years ago.

Florida farmers have plenty of corn in their cribs to last until the new crop comes in, forty-two of last year's crop, some 4,800,000 bushels, remaining on the farms on March 1st.

Production of oats last year was low and much less than the usual quantity remains on the farms at this time. Ten per cent, 59,000 bushels, was all that farmers had on hand on March 1. A year ago the stock on hand at this time was 125,000 bushels and two years ago 96,000 bushels.

Condition of pineapples on March 1 was unusually high, 90% of normal, compared with 82% a year ago and 76% in 1920.

EAST SANFORD

Richard Shamp who has been the guest of his aunt, Mrs. R. C. Long for some time has returned to his home in New Martinsville, West Virginia.

Fred A. Stewart of Willoughby, O., who is touring Florida was a caller at the Ellsworth home on Boardall ave., recently.

Mrs. Anna Robertson of Waterboro South Carolina came here last week to remain some time with her brother Louis Kinard and other relatives.

Mr. and Mrs. J. W. Risor have had as their guest, their son Lester W. of Nashville and now Mrs. Risor's sister, Mrs. O. W. Stolten, also of Nashville is their guest.

Mrs. W. A. Raynor of Celery ave., has been quite ill. We are pleased to say the last report heard, was favorable.

Mr. and Mrs. C. E. Charpening, their daughter, Mrs. Byron Squire and three lovely little children, Misses Helen and Aloys Charpening and Carl Charpening and Mr. and Mrs. A. Cornally enjoyed a motoring party Sunday over the hills and far away in Lake County with a picnic dinner at Tavara.

Robert Grier went fishing last Saturday over at Lake Golden and can tell the biggest fish story of the season as he caught a 9-pound trout with his hook and line. This is a true

story as Walter Dresser weighed the fish.

Mrs. Ella Ingram Irish has sold her house and farm on the corner of Cameron road and Miller ave., to Mr. and Mrs. J. W. Corley. Mr. and Mrs. Irish will move to Pahokee to reside. They lived there for a while some years ago.

Mrs. M. A. Jackson was brought home from the hospital on Wednesday on the way to recovery from the auto accident of some weeks ago.

Dr. and Mrs. James Purvis have gone back to Tampa for the summer months, after growing a crop of celery at their place in Cameron city this winter.

Mr. and Mrs. Ashley Purvis and little daughter Winona, drove to Tampa last Sunday. Mr. Purvis returned home Monday. Mrs. Purvis and daughter will remain for a weeks visit.

The death of Mr. and Mrs. F. F. Dornor's little son Fred, came as a great shock to everyone. All East Sanford grieves with the stricken parents at the death of their darling little son. Many and beautiful were the flowers brought to place on the little fellows grave.

Mr. John Pesole, has our sympathy as he is wearing his right arm in a sling, result of being kicked by his Ford.

The whippoorwills have been singing their sad evening song for a week now.

REFUSE MYERS FREEDOM

MIAMI, March 21.—Motion to discharge J. D. Myers from custody for the alleged embezzlement of \$54,000 in securities of the Continental National Bank of Salt Lake City, Utah, in 1914, was denied by Judge H. P. Brannin yesterday afternoon at Habeas Corpus proceedings, and Myers, Milton D. Joseph, as he was identified, was ordered remanded to the custody of the sheriff. This was the fourth of habeas corpus proceedings in his behalf. An appeal on a writ of error will be taken to the supreme court, during which Myers will be held here.

PROPERTY OWNERS TAKE NOTICE

The law provides that "If taxes upon real estate shall not be paid before the first day of April of any year, the Tax Collector shall advertise and sell."

This is to notify all concerned that the requirements of law will be complied with and the Tax Books will positively be closed on April first as provided by law and all lands on which taxes have not been paid will be advertised and executions issued for unpaid personal property taxes.

JNO. D. JINKINS Tax Collector, Seminole County

FOR SALE—Tomato plants, any quantity, for prompt delivery.—Chase & Co., Phone 536. 28-tfc

FOR SALE—15 acres, 10 tilled, 4 room house, barn, 4 wells, \$9,000. Terms.—H. B. Lewis. Phone 340 or 391 31-4tc

See H. B. Lewis, before buying your farm. Can save you money. 31-4tc

WANTED—Men or women to take orders for genuine guaranteed hotspots for men, women and children. Eliminates darning. \$40.00 a week full time. \$1.00 an hour spare time. Experience unnecessary.—International Bookbinding Mills, Norristown Pa. 29-101b

Notice of Application for Tax Deed Under Section 575 of the General Statutes of the State of Florida

Notice is hereby given that Chujuota C. Barton, purchaser of Tax Certificate No. 499, dated the 21st day of June, A. D. 1918, has filed said certificate in my office, and has made application for Tax Deed to issue in accordance with law. Said certificate embraces the following described property situated in Seminole County, Florida, to-wit: Lots 4, 5, and 6, Block D, Chujuota. The said land being assessed at the date of the issuance of such certificate in the name of Kissimmee Valley Construction Co. Unless said certificate shall be redeemed according to law Tax Deed will issue thereon on the 15th day of April, A. D. 1933.

Witness my official signature and seal this 10th day of March, A. D. 1933. (SEAL) E. A. DOUGLASS, Clerk Circuit Court, Seminole County, Fla. By: A. M. WEEKS, D. C.

Notice of Application for Tax Deed Under Section 575 of the General Statutes of the State of Florida

Notice is hereby given that Geo. D. Bishop, purchaser of Tax Certificate No. 135, dated the 21st day of June, A. D. 1918, has filed said certificate in my office, and has made application for Tax Deed to issue in accordance with

law. Said certificate embraces the following described property situated in Seminole County, Florida, to-wit: Beg at intersection of E line of Sanford Ct. with W line of Sec. 21, Twp. 19, Range 32 E., Run N. 1/4 Sec. 21, E. 1/4 Sec. 21, E. 1/4 Sec. 21, West to beg. (Less N. 1/4 Sec. 21, Acres 2.57. The said land being assessed at the date of the issuance of such certificate in the name of Unknown. Unless said certificate shall be redeemed according to law Tax Deed will issue thereon on the 15th day of April, A. D. 1933.

Witness my official signature and seal this 10th day of March, A. D. 1933. (SEAL) E. A. DOUGLASS, Clerk Circuit Court, Seminole County, Fla. By: A. M. WEEKS, D. C.

Notice is hereby given that we, William H. Belding and Florence Belding, on the 10th day of April, A. D. 1921, at 10 o'clock a. m. will make application to the Judge of the Circuit Court of the Seventh Judicial Circuit of the State of Florida, at DeLand, Florida, of wherever the court may then be, for an order authorizing the adoption of an unnamed infant child whose parents are unknown.

Dated this 10th day of March, A. D. 1933. WILLIAM H. BELDING, FLORENCE BELDING.

Notice of MASTER'S SALE

Isabel L. Waring, et al, Defendants. Notice is hereby given that under and by virtue of a decree of foreclosure the sale entered in the above cause on the 20th day of February, A. D. 1932, I, Scheille Maines, an Special Master in Chancery, on Monday, April 24, 1933, in front of the Court House door at Sanford, Florida will offer for sale and sell to the highest and best bidder for cash during the legal hours of sale the following described land and personal property situate in the County of Seminole and State of Florida, more particularly described as follows, to-wit: Begin at the Southwest corner of Church street and East Lake Avenue in the Town of Longwood, run thence South 300 feet, West 400 feet, North 300 feet, thence East 400 feet to the point of beginning, being the property known as the Longwood Hotel, and all the following personal property contained in the said hotel and used in connection with the operation thereof, to-wit: All furniture, fixtures, and contents, including, but not limited to, bedsteads, bedding, cooking utensils and other personal property contained in said hotel.

Terms: Cash. Purchaser to pay for deed. SCHELLE MAINES, Special Master in Chancery.

Notice of Application for Tax Deed Under Section 575 of the General Statutes of the State of Florida

Search Warrants Get Hard Wallop From Andrews

Andrews Rules Liquor May Be Seized in Establishments Without Them

An important decision and one which may have widespread effect on the enforcement of the prohibition laws was handed down Saturday in Circuit Court here by Judge Charles O. Andrews, ruling on the appeal of the Atz case brought here from the county court of Lake county.

Atz was convicted in Lake county some time ago on a charge of illegal possession of liquor, but appealed the case on the ground that the officer who arrested him did not have search warrant and therefore could not seize liquor said to have been found in Atz's establishment.

Judge Andrews, in his decision, holds that a search warrant in cases of this kind is not required and the finding of the lower court is upheld. Other courts, including the federal court at Tampa, have repeatedly thrown out cases where liquor was seized without a search warrant and there is considerable speculation as to whether the precedent established by Judge Andrews will be followed by other judges.—Orlando Sentinel.

FELLSMERE BANK IS SHORT SOME \$36,000

FELLSMERE, Fla., March 18.—The state bank of Fellsmere failed to open for business yesterday, C. H. Piffard, president of the institution announcing that the board of directors, because of the discovery of a shortage of approximately \$36,000 in the accounts of B. D. Atkinson, the cashier, had deemed it advisable to close it pending reorganization.

Atkinson died in a hospital in St. Augustine February 24 of injuries received when he fell under a train at Sebastian while attempting to board it to go to Jacksonville on a business trip.

Mr. Piffard stated that he first discovered the discrepancy in the accounts of the cashier and that when he called it to the attention of Atkinson the day before he was fatally injured, the cashier could not explain the shortage.

The state comptroller at the request of the bank officials sent an examiner here and Mr. Piffard stated that the examiner had confirmed the shortage of approximately \$36,000. The bank is capitalized at \$25,000 and the latest statement showed the deposits to be \$107,000.

Capitol Removal Committees Are Named at Meet

LAKELAND, Fla., March 20.—The committee selected at the meeting of representatives from various cities throughout south Florida held in Ocala Monday, the 18th, was appointed to name working committees for the organization of the Capitol Removal Association which will seek to have the capitol removed from Tallahassee to some more central location, met here Saturday.

The committee named by the committee on committees were as follows:

Credentials—E. W. Davis, Orlando; O. P. Swope, Oviedo; Dr. A. L. Isler, Clermont.

Membership—C. H. Jordan, Crescent City; J. H. Lord, Sarasota; W. F. Stovall, Tampa.

Publicity—Bob Holly, Sanford; T. E. Fitzgerald, Daytona; J. E. Worthington, Lake Wales.

Legislation—L. C. Massey, Orlando; A. R. Carver, Lakeland; J. E. Wideman, West Palm Beach.

Nomination of Permanent Officers—C. H. Froese, Brooksville; J. J. Parlah, Titusville; George W. Scofield, Inverness.

Finance—L. L. Bean, Fort Meade; George R. Riley, Palatka; W. P. Franklin, Fort Myers.

Constitution and By-Laws—R. L. Anderson, Jr., Ocala; W. E. Walsh, Miami Beach; Isaac Van Horn, Haines City.

The report of the committee which met here Saturday will be submitted at the meeting in Orlando at 2 p. m. April 5, when permanent organization of the Removal Association will be effected.

Members of the committee who attended the meeting here Saturday were: Thomas J. Appleyard, Jr., of Lakeland, chairman; W. T. Gray, Ocala; N. P. Howell, Orlando, and J. V. Walton, of Palatka, who acted as substitute for William Hart, of Palatka, who could not be present.
