SANFORD, FLORIDA

THE GROWERS LEAGUE

Much Important Work To Be Begun Soon As Organization Is Completed

Encourage Mr. Hamner By Helping Complete The Work He Is Doing Without Any Charge For His Services

Have you joined the League yet? Never before in the history of the state have the Florida growers been more highly favored in the matter of having an able man who would give his time and attention to the organization of this badly needed association.

Growers who were at Tampa on April 17th recognized the fact that the League could save the growers of the state hundreds of thousands of dollars every year. The report of the secretary of the old Growers and Shippers Protective Association showed that over TWO MILLION dollars had been saved the growers of the state, at an expense of less than \$10,000. Comparatively few growers were members of the old association, and EVERY grower in the state received the same benefit of the work of the old association.

The committee selected at the growers' meeting on April 17th selected Mr. Hamner as managing secretary to perfect the organization. He is doing a GREAT work for which he is not receiving one cent of pay. He is devoting his time, labor and private funds to launch the League in a progressive, up-to-date manner, so that it will be an assured success. EVERY grower of fruit or vegetables is EXPECTED to do his part in organizing this League. He will get the benefits of its work, and funds expended. He cannot dodge receiving the benefits.

There is not a shipping community in this state that does NOT NEED the League. Membership is only ONE DOLLAR. Every shipping point must certainly have at least ONE public spirited man, who will give a little of his time to get his neighbors together some night SOON, and get their names on a list, as members of a local branch, and send it with each man's dollar to B. L. Hamner, Gas Building, Tampa. THAT IS THE WAY to help along this GREAT work. The News hopes every shipping point will get busy this week and send in their memberships. COURAGE Mr. Hamner.

The League is not a private affair by any means. Mr. Hamner did not originate the idea. It is solely and purely a growers' organization to handle all matters of mutual interest and benefit to the growers such as freight and express rates, tariff and other questions of importance that should be taken up by organizations, not by individuals. Individuals cannot accomplish much alone. Neither can Mr. Hamner. If growers could only realize his hard, difficult task they would quickly rally to his assistance and PULL along with him as suggested.

The League is not a profit making body. It will have no politics. As soon as it is organized there will be an election of officers for the first year and the gentlemen who have been assisting in the work of organizing will retire after turning the League over to the duly elected officers. Mr. Hamner will retire. He will not take any office, but his advice or assistance will be cheerfully given at any time. His heart is in the work of making the League what it should be, THE BEST organization of its kind in the United States. He feels he will have done his duty as a citizen, and to the growers of the state.

Just take a minute, Mr. Grower, and sit down in the shade, and ask yourself this question: "Would I spend MY time and MONEY, and work day and night to organize a league of growers, like Mr. Hamner is doing, without being paid ONE CENT for doing it?" Well, that IS JUST WHAT HE IS DOING. Have YOU sent your dollar in yet? Better do it, hey? Oh, yes, I do not want my neighbors to do all this kind of work.

YOU cannot invest one dollar to better advantage. You can go to sleep at night and know your interests will be taken care of. If you have been reading The News regularly you know the railroads are asking for increased freight rates. Do YOU want to pay higher rates? The League MUST be in shape this fall to contest the railroads' claims. The League can get lower rates from Jacksonville north. YOU are paying at least ten cents per crate too much to both the Clyde Line and the Merchants and Miners Transportation Co. These companies are owned by cold blooded financiers who are SQUEEZING THOUSANDS OF DOLLARS EVERY SEASON out of YOU AND YOUR NEIGHBORS, who have sat still and let the companies bleed you.

The League CAN and WILL get you JUST rates from Jacksonville north. Do not simply say, "Oh, yes, that's so," and let it go at that. Stick your dollar in an envelope and send it to Mr. Hamner and WISH HIM LUCK. Get busy and make the League STRONG in NUMBERS. That is what the transportation companies like to see. They WILL deal with STRONG organizations but they merely smile at weak ones MAKE THE LEAGUE STRONG.—Florida Growers News.

Pertinent.

It is the fashion in England to attach to houses names that in many instances are absurd or misleading—as "Applecol," where the only trees are figs; but, as this London Chronicle story shows, fitness and humor sometimes govern the choice. A retired Indian civil servant, on his return to England, yielded to his wife's importunities, and said that she might have a new house. "But mind," he emphasized, "it must not cost above three thousand pounds." It cost double that amount, as houses have a way of doing, and when it came time to name the place, the owner had considerable fine masculine feeling to put into it, so, not wholly in memory of India, he called it: "Myora Place."

Shooting From Aeroplanes.

Aeroplanes shooting parties are becoming all the go in France. One great drawback to the new sport has developed, the difficulty in finding the birds or hares after they are shot. To help out in this most aggravating emergency Vedrines is perfecting a new kind of landing frame or chassis, which will enable an aeroplane to come to earth without a shock. Ved-

ries has become a busy gunner's air guide and from his present headquarters at Etampes he takes out daily parties of flying sportsmen. They shoot in surrounding districts and rarely fail to provide a fine game dinner of partridges and other delicacies of the hunting season.

Old Trade Route to Europe.

The great desert of Gobi, that is partly in China, partly in Manchuria, partly in Mongolia, is the oldest transportation line in existence. It has a caravan route over which tea and silk-laden camels have traveled toward Europe for three thousand years and yet from the time when Kublai Khan made the Russian railroad paralyzed it by the competition of steam no one of the merchants who traveled over it turned either to the right or to the left to tell Europe and the Occident of the wonders or the terrors of that unknown land.—Argonaut.

Chorus Girl's First Thought.

Kenneth McGaffey of New York, at a meeting of the Chicago chapter of the Friars recently, told a short story descriptive of the many calls upon the theatrical profession for "benefits" of this or that sort. "Scene is a hall bedroom or Broadway," said Mr. McGaffey. "Two chorus girls are just waking up. One reaches out and gets the morning paper, sees the headlines, and gasps: 'My, Masie, just see this!' she says. The paper says John D. Rockefeller and Andy Carnegie are both dying. 'What do you think of that?' 'O, Gee, two more benefits,' remarks Masie, as she turns over for another 'forty winks.'"

Worth Knowing.

Never throw away pieces of lemon after they have been squeezed with the lemon squeezer, for they come in handy for removing stains from the hands and elsewhere. Dipped into salt they will scour copper kettles nicely and remove stains from brasswork. Lemon like this will take stains, dirt and odor from pans and kettles as nothing else will. The odors of fish and onions can thus be easily removed.

Amusements in Utopia.

After supper they bestow one hour in play; in summer in their gardens; in winter in their common halls, where they dine and sup. There they exercise themselves in music or else in honest and wholesome communication. Dice play and such other foolish and pernicious games they know not. But they use games not much unlike the chess. The one is the battle of numbers, wherein one number stealthily away another. The other is wherein vices fight with virtues as it were in battle array, or a set field. In the which game is very properly shared both the strife and the discord that vices have among themselves, and again their unity and concord against virtue, and also what vices be repugnant to what virtues; with what

power and strength they assail them openly; by what wiles and subtlety they assault them secretly; with what help the virtues resist and overcome the puissance of the vices; by what craft they frustrate their purposes, and, finally, by what sleight or means the one getteth the victory.—Sir Thomas More.

Handel in England.

"Handel is not a mere composer in England; he is a sacred institution. When his 'Messiah' is performed the audience stands up, as if in church, while the 'Hallelujah Chorus' is being sung. It is the nearest sensation to the Elevation of the Host known to English Protestants. Every three years there is a Handel festival, at which his oratorios are performed by 4,000 excoitants, collected from all the choirs in England. The effect is horrible; and everybody declares it sublime. Many of the songs in these oratorios were taken by Handel from his operas and set to pious words; for example, 'Requiesce il cigno madre; non piange pip' has become 'Lord, Remember David; teach him to know thy ways.' If any one in England were to take the song from the oratorio and set it back again to secular words he would probably be prosecuted for blasphemy."—George Bernard Shaw in Ainslee's.

Going Down.

"This high cost of living problem is getting to be something terrible," observed Mrs. Nutley. "Everything is getting higher." "Oh, I don't know," replied her husband, soothingly. "There's your opinion of me, for instance, and my opinion of you, and our mutual opinion of our neighbors, and the neighbors' opinion of both of us."

Historic Relic in English Church.

The church of the little village of Iken, Suffolk, England, possesses what is probably the rarest alms dish to be found in England. Inlaid in the center of the woodwork is a piece of the bell metal which was saved from the great fire at York Minster, when the famous bell there was entirely destroyed some years ago.

Genius.

Something immortal happens, when man brings love to a thirsting woman. . . . The children of women who hunger after spiritual things—these are the children of genius and drama. These who go out alone and full of yearning to find "the white presences among the hills."—Will Livingston Comfort.

Practical Boy.

Little Harold, aged five years, was visiting his aunt. While at dinner the grown-ups were talking and paying little or no attention to little Harold. He was ready and waiting for his dessert, and to attract the others' attention he said: "Please, Aunt Mame, is that pie an ornament?"

Unique Symbol on Gravestone. The gravestone between Kenebunport and Cape Poge of one Tri-Train Tapley exhibits an uncommon and yet most sensible idea. Affixed to the stone in a silver case is inclosed an old-fashioned daguerrotype of the young man, protected from the elements by a cover. One with such a name ought certainly to have been a lover of books.

Current Growing a Greek Monopoly. Many efforts have been made to grow so-called Greek currants in other countries, but always without success, and these very small, very sweet and seedless grapes continue to be a monopoly of certain districts in Greece, where they constitute the chief agricultural industry. The yield in an average year is about 150,000 tons.

Easy Marks.

Some men haven't any more caution when they happen to get a little money, than to show it to the family.—New York Press.

Too Often True.

You never miss the levee till the water runs high.—New Orleans Picayune.

Underground Streams Not Made For Sewerage

And Orlando Must Devise Some Other Dumping Ground

Sanford And Other Cities In Artesian Water Belt Will Not Stand For Sewerage

Orlando is putting in an extensive sewerage system, one that will embrace the entire city. The sewerage will flow into a so-called septic tank where it is supposed to be purified and from there will go into the deep wells. For many years these deep wells have been used in Orlando for private sewerage disposal and heretofore there has been no dissenting voice raised against the practice of some of the interior towns disposing of sewerage in this manner...

San water supply might not possibly in any way seriously pollute said waters, yet, we do feel, from an aesthetic point of view, that the people of this locality should arbitrarily be compelled to submit to the pollution and contamination of their drinking water supply with decomposed excrement and sterilized urine, which from a scientific point of view may be germinally free, which fact, however, we do not concede, and...

WHEREAS, in the vicinity of Orlando there are numerous fresh water lakes ample in area for the outlet and drainage of the system of septic tank sewerage now being installed by the City of Orlando; and...

WHEREAS, we, as members of the City Council of the City of Sanford, Florida, are charged with the welfare and protection of the health and well being of our people...

THEREFORE, BE IT RESOLVED, by the City Council of the City of Sanford, Florida, that the City of Sanford does hereby most seriously protest to the drainage of any sewerage system by the City of Orlando into the subterranean water supply of the State of Florida...

Be it further resolved, that in the event of the fact that a permit has already been granted to the City of Orlando by the State Board of Health, that the State Board of Health reconsider its action in this respect and revoke said permit as provided for in the act protecting the purity of the underground water of the State of Florida...

WHEREAS, the City of Orlando is located twenty three miles southwest of the City of Sanford, and is about twenty eight feet higher in altitude; and...

WHEREAS, we are reliably informed that the overflow, or drainage from septic tanks is not free from infection and uncleaned, but is germinally effected, poisonous, polluted and noxious, unless a filtration plant is used in connection with said septic tanks...

WHEREAS the City of Orlando is located twenty three miles southwest of the City of Sanford, and is about twenty eight feet higher in altitude; and...

WHEREAS, as is shown by the Geological survey of the State of Florida, the subterranean waters of this portion of the State flow in an easterly direction, showing that the artesian water supply of Sanford, which is used for drinking purposes by at least eighty five percent of the citizens of this City, and which is used exclusively by those people living within a radius of ten miles of the city limits, is of necessity from the same subterranean flow that passes beneath the City of Orlando; and...

WHEREAS, we are informed by a unanimous report of the physicians of this City that in their opinion the drainage of the entire sewerage system of the City of Orlando, which has a population of about seven thousand people with the subterranean water supply will contaminate and pollute the said subterranean water supply, and cause same to become unfit for drinking purposes, and to be a menace to the health of the people of this community; and...

WHEREAS, even though the drainage of the entire sewerage system of the City of Orlando into said subterranean water supply might not possibly in any way seriously pollute said waters, yet, we do feel, from an aesthetic point of view, that the people of this locality should arbitrarily be compelled to submit to the pollution and contamination of their drinking water supply with decomposed excrement and sterilized urine...

Who Pays The Freight On The Farm Products

Newspapers Are Taking Active Interest In Question

Payment For Service Makes Prices To Consumer Almost Prohibitive

The great question that is agitating the mind of the general public and especially the people of this section where such a great quantity of winter garden stuff is grown is where does all the money go that the farmer has to pay before his stuff is placed on market and the ultimate consumer at the other end is asking the same question as to the result. It is safe to assert that the common carriers get the money and from the statement of one railroad in Florida the Sanford lands give up every season over \$800 per acre to the railroads for hauling vegetables to market...

Whether they are really getting it or not I've known of men who always knocked the handle off the quart measure in which they ran the vinegar from the keg just so they could run their fat thumb down into the measure so as to "lift it" and the four quarts would be about a gill short of full measure. Yet the buyer was satisfied because he saw the stuff measured! And I have seen a meat slicer hold his hand carefully on the scale just hard enough to weigh a pound and five ounces up to the pound and a half that was called for and paid for...

But times are changing. As a general thing now every family has scales that are accurate to a hair and when goods are carried home or delivered it is but a moment's work to see how the weight tallies up. And then after there are many errors, so people tell me, a change of dealers is made. Nothing is hid—just the change made—that's all...

One Bill Road tells a story on a woman—a very good, conscientious woman—who had a neighbor that frequently borrowed tea and had a habit of returning less than she borrowed. The good, conscientious woman hit upon a scheme that worked well. She bought a pound can of tea, put it on a shelf and never used a bit of it. When the borrower came the tea was taken from that can; when the tea was returned it was dumped in the can. And when one day the woman came to borrow there was found to be less than half a cup full of the stuff. Then the good woman told her neighbor that as soon as she brought back the pound she already had there'd be plenty to lend her. And Bill Road said the weight of short weight returns never went back!

Donegan Adds a Tooth The people of Seminole county, the making of which Senator Arthur E. Donegan had much to do, possess among many others, the splendid trait of gratitude, as was fully exemplified at the big celebration pulled off at Sanford on the 14th, when they presented Senator Donegan with an elegant watch chain in the shape of a tooth. The watch chain was made of gold and was a very valuable one. It was presented to Senator Donegan in a most fitting manner that demonstrated his list of accomplishments...

Returned to table form here is cost by where the money went in this case: Consumer paid \$16.32 Farmer got \$ 9.94 Freight .50 Hauling .50 Commission .50 Dressing 1.92 Retailer's profit 2.88 Total \$16.32 \$16.32

In this case, at least, the consumer has an itemized bill, and it is mighty seldom he gets one—that is, one that tells him where the money goes. Most of them merely tell him what he bought and what he is expected to pay for. The prices charged along the line to not seem to be exorbitant for the service rendered, but it does seem as if all of the service ought not to be necessary. Sixty-four per cent is a good deal to pay for merely getting goods from the producer to the consumer, there being no manufacturing cost between in this instance...

But the consumer pays—pays for hens, for getting them from the farmer to himself, and for the farmer's heavier taxes in addition to his own.

Light Weight Doesn't Pay

Those Cincinnati people have a way to make ice companies deliver the goods. When the trust in that city refused to give patrons the quantity of ice they paid for but shrunk off a few pounds from each nickel's worth the city immediately went into the ice business and not only gave the full amount purchased but just a little bit more. After a little of that sort of work the trust proceeded to injure a few injunctions—and then agreed that they would no longer attempt to cheat the people but would give them a square deal. If the people think they are getting a square deal they feel all right...

Sanford Will Bond For Greater Improvements

Small Issue Now Wanted Will Put City On Better Basis

Election To Be Held For Voting Bonds To Refund The Floating Indebtedness Of The City At the last meeting of the city council the ordinance providing for the issue of bonds to the amount of \$50,000 was passed and the date for the election will be made as soon as mayor Spencer is able to attach his signature to the call. This means that the bonds will be issued to refund the outstanding and existing floating indebtedness of the city. This will place the city upon a much better basis and should this issue carry will mean that the bulk heading of the lake will take place later for with the present indebtedness placed in better shape through bonds the city will be enabled to take on larger improvements...

There is no doubt about the freeholders voting for the bonds as every citizen of Sanford whether taxpayer or not fully recognizes the need of this small issue of bonds. In fact the majority of them want a larger issue but the aldermen were playing safe and did not care to plunge the city into a larger indebtedness upon the eve of their going out of office. Sanford needs the issue in many ways and should this small issue carry now there will be many improvements made that could never be made under present conditions. Sanford's bonded indebtedness considering her taxable values and the many improvements already made is small as compared with the other cities and the \$50,000 issue will make but a slight difference in the assessment of millage. We are just the time when a few dollars can be spent in improvements and it is up to the people now to make a larger city and a better city and the bonds must be floated to make these improvements later. The small issue now asked for will only get ready for the improvements to follow...

Every Week Bridge Club Mrs. C. M. Vance was the charming hostess of the Every Week Bridge Club on Friday afternoon. Two tables of bridge were played, one of which was a great table. Mrs. W. R. Anno made the high score in the first table with 100 points. Mrs. Vance's guests were Mrs. W. R. Anno, Mrs. W. D. Holden, Mrs. A. P. Connelly, Mrs. Cruse Barnes, Mrs. Foster-Lewis, Mrs. G. I. Smith, Mrs. T. A. Neal...

The Melting of Snow The following wedding invitation indicates that R. G. Snow, formerly with John Nix & Co. and well known in Sanford has at last decided to settle down to a life of married happiness. Mr. and Mrs. Perry McCrelous Adams request the honor of your presence at the marriage of their daughter, Rosa May to Mr. Russell Greene Snow on the evening of Wednesday, the thirtieth of July, at nine o'clock, 211 West Palm street, Fitzgerald, Georgia.

Will Declare A Dividend It has become a well established fact that the well known and enterprising firm of D. A. Caldwell & Sons have interest of Seminole County and Sanford at heart, and to show it in part they are preparing to declare a dividend with all of their customers by putting on a profit sharing sale, which will begin Friday of this week July 18th, and every one whether near or distant will receive the usual courteous treatment at this sale for which this firm is noted.

Picnic at Enterprise The girls of the Junior Auxiliary of the Episcopal church, in the care of Mrs. B. F. Whitner, Jr., directress and Mrs. J. W. Dickens, assistant directress of the auxiliary enjoyed a delightful all day picnic at Enterprise Friday with several other young friends. The launch trip to and from Enterprise was one of the "pleasanteest" features of the occasion. The party went over on the early morning boat, and after finding a suitable place to spend the day in the company of nature, pretty scenes and lovely...

Chilson-Gresham Miss Lola E. Gresham and Charles E. Chilson, were united in marriage at the Congregational parsonage last Sunday night by Rev. F. P. Strong, the pastor. The wedding was performed in the presence of a few friends of the contracting parties after which the happy couple left for a short trip to Paola, where they will remain. The bride formerly taught school at Paola and has many friends in Seminole county. The groom is a resident of Paola and is well and favorably known and the friends of the young couple wish them all the happiness that the world can hold.

WANTS STEAMSHIP LINE Editor, Sanford Herald, Dear Sir: I have read with much interest your article on the New Steamship Line for the St. Johns river traffic between Sanford and Jacksonville, and your allusion to the trolley line that will be built from Sanford to Kissimmee which will mean the extension, through the progressive cities and towns as far south as Tampa. If for no other purpose the new county of Seminole has been severed from Orange County at the steamship line and the proposed trolley line materializes the tide of progress for South Florida can never be stemmed and the high cost of living will be a thing of the past. Fifteen years ago I wrote to the Clyde Line Steamship Company the suggestion that their company construct a trolley line as proposed and that it could react as the greatest southern feeder to their line. I received an answer stating that they had contemplated doing so but that they thought that the proper time had not then arrived. Today the time has arrived and if the creation of the new county of Seminole carry out the line of conviction the new county was not created in vain but will react as one of the greatest blessings ever bestowed on the inhabitants of the peninsula of Florida and to the entire state, for what benefits a part benefits the whole. There is a problem now of solution and should be solved at once. Delays are dangerous and if delayed outside capital will step in and harvest the whole crop, and the high cost of living will, once more be advanced for the lack of energy and progressiveness. God forbid. N. H. Fogg, Altamonte Springs.

Appointment of Teachers At the meeting of the Board of Public Instruction July 15th, the following appointment of teachers for white schools were made for Seminole county: Sassafras: N. J. Perkin, Principal. Miss Clara Guild. Miss M. A. Tetherly. Miss Lillian Gibson. J. R. Wilkman. Miss Flora Walker. Mrs. Geo. B. Dickinson. Mrs. C. L. Polk. Mrs. E. N. Luke. Miss Nellie Furen. Miss Carrie Ensminger. Miss Nita Moore. Miss Clara Millen. Miss Edith Stewart. Mrs. E. W. Dunn. Miss Lillie Farnsworth. Miss Penelope Leffler. Miss Ruby Wilson. Miss Charlotte Kates. Longwood: Miss Sarah Crawford. Miss Lillian Watts. Altamonte Springs: Miss Estelle Hyer. Chuluota: Miss Pearl Hunter, Principal. Miss Lillie Mathers. Gabriella: Miss Kate Mathers. Other appointments will be made and announced later. J. F. McKINNON, Secretary Board Public Instruction.

Installing Macebees Lewis Irbey is in the city getting candidates for the organizing of a lodge of Macebees in Sanford and is meeting with so much encouragement that the lodge will hold the first meeting on night this week and install the officers. Dr. Ira Malnes is assisting Mr. Irbey in the work of obtaining candidates.

THE SANFORD HERALD

Published Every Tuesday and Friday Morning By THE HERALD PRINTING COMPANY

Subscription Price, \$2.00 a Year in Advance

Joe Humphries, editor of the Bradenton Journal and a Conservative Democrat

Col. J. D. Calhoun has landed the plum as Tampa as Deputy Collector.

The press of the State will gladly welcome back from his summer wanderings "Uncle Joe" Dixon.

While in Tampa we told Editor R. J. Holly, of the Sanford Herald, that he would be elected vice-president of the Florida Press Association.

It seemed too great an honor to be bestowed upon the humble editor of the Herald and we so stated to Bro. Walton.

We will have to hand it to the Orlando Sentinel. It is one of the neatest, brightest and best dailies in the state and we wish to commend them upon their good judgment in eliminating advertising from the front page.

The Herald wishes to thank Chairman Woodruff and each member of the board of County Commissioners for their kind words spoken in behalf of the paper at their last meeting.

NEWSPAPER MEN IN OFFICE

President Wilson has taken a great liking to newspaper men. He has a newspaper editor and owner, Josephus Daniels, as Secretary of the Navy.

Bryan Poetry Paid Hendersonville, N. C., July 14.—William J. Bryan, secretary of state, declared here today that his salary as member of President Wilson's cabinet was not sufficient to meet his expenses.

"As this is my first chautauqua lecture since becoming a member of the cabinet," said Secretary Bryan, "it may not be out of place to say that I find it necessary to lecture in order to supplement the salary which I receive from the government."

Shore Dinner at the Sea Side Inn Daytona Beach, Fla., July 20th.—Sea Food of all kinds. Barbequed Pig and Chicken Pie. Be sure to spend that Sunday on the Beach and stop at the Se Side Inn.

MRS. CELESTE HINKS, 94-76 Proprietor,

Filed for Record Allan H. White and wife to A. F. Bourlay.

T. F. F. Hawkins and wife to H. A. Vivian. L. H. Roberts and wife to H. A. Peashman.

Munger Land Co. to John E. Burchard. Munger Land Co. to John E. Burchard.

Not Unreasonable. "Boy wanted for sausages," runs an announcement in a butcher's shop at Harlesden. It sounds unappetizing, yet no doubt a boy is the proper accompaniment for the mashed.—Lordsdon Opinion.

Wanted Land and Husband. She could plow and do all the farm work, and if she got land she would get a husband, was the contention of a young woman who applied recently to the land board of Heathcote, Victoria, Australia.

Had a Good Start. "Pillsbury is living ahead of his income." "You are right. If Pillsbury were to stand still for five years, I don't believe his income would overtake him."—Birmingham Age-Herald.

Best Test of Man. The keenest test of a man comes when he has attained; the struggle to attain keeps him strong, but the line of least resistance soon shows itself in success.—Hugh Black.

Daily Thought. There is yet no culture, no method of progress known to man, that is so rich and complete as that which is ministered by a truly great friendship.—Phillips Brooks.

Kansas Solomon. King Solomon had nothing on a Centralia justice of the peace before whom a colored man and brother was being tried for stealing a chicken. The prosecuting witness thought it was his fowl, but was not willing to swear. It being near sundown the local Solomon let the hen loose and watched her going home to roost. Result, the negro was fined \$50.—Kansas City Journal.

Practical Flower Holder. A simple and practical flower holder is made of green rubberized silk, the shade of natural leaves, and is outlined with a green wire. When worn, it effectually prevents the penetration of any moisture to the gown. The wire edge permits of shaping the holder to the bouquet proper, and the latter is then attached to the corsage or whatever else desired.

Trespassing. A street car and an automobile had had an altercation which ended with the latter, in a more or less battered condition, lodged on the fender of the former. A little boy and his mother happened along just as it was over, and when the youngster saw them he cried out in glee: "Oh, look, there's an auto standing on that street car's mustache!"

Laying Matting. When laying matting, it is not always necessary to cut it in order to fit corners and alcoves. It may be better to do so in very small spaces, but often moltening the matting is found to be better than cutting. Softened thus, it can then be bent without breaking, and makes a neat, substantial edge.

Orator Slightly Mixed. A former senator of the United States was addressing a meeting in his home town to celebrate the appropriation by the legislature of funds for the erection of a new state capitol. "My fellow citizens," said he, "we will build here the greatest eplaph under God's green footstool."

Much Coal in Formosa. Coal is second in value among the mineral productions of Formosa. There are fifteen seams of coal extending from the north coast to Toen and Schinehiku perfectures. There are four varieties, anthracite, black-brown, and two varieties of brown.

Treating Burns and Scalds. Burns and scalds should be treated with glycerine and flour, the latter well heaped over the affected part. Then tie round a linen bandage to exclude the air. If cotton wool is handy it is better to use for this purpose than linen.

Holland's Busiest Man. On a sign over a barber's shop at Stierum, Holland, "Barent Wonters lends donkeys on hire like his father, kills pigs, smokes hams, and occupies himself with all kinds of swinish detail work; also shaves and cuts hair, except on Sundays."

Exhibit. "So now he has a breach of promise on his hands and the woman is showing letters of his saying he'd do all sorts of things for her." "Wye—" "Sort of promissory note, eh?" "Ere—" "Yes, with the accent on the 'sorry.'"

Bar Moving Pictures. Brookline, Mass., said to be the richest town in the world per capita, does not permit moving pictures. The children of wealthy parents must find other amusement. They know nothing of the delights of the "movies."

Cornered. "Tommy, this is the second time you have asked to be let off to go to your grandmother's funeral." "I know it, sir, but I got two grandmothers, sir."

Woman's Watch. The reason a woman is a woman is because if her watch has a beautiful monogram engraved on the back she doesn't care whether it keeps time or not.—Galveston News.

Contradictory. Queer things, these alleged wise saws. "Know thyself," for instance. On the other hand, "familiarity breeds contempt." How do you dope that out?

"Dangerously Well." Lord Byron, in reference to a lady he thought ill of, writes: "Lady—has been dangerously ill, but it may console you to learn that she is dangerously well again."

Pleasantry of Astronomy. One thing at least baseball has done for the country. It has settled the question of the time when spring comes.—New York Evening Mail.

Everlasting. Things gained are gone, but great things done endure.—Algernon Swinburne.

Irrigation in Australia. Australia is irrigating more than two million acres of grazing lands with artesian wells.

For Future Happiness OPEN AN ACCOUNT WITH THE PEOPLES BANK OF SANFORD CAPITAL SURPLUS AND PROFITS \$45,000.00 The Largest Resources and Financial Backing of any Bank in Seminole County. Doing Things by Halves. An old woman of enormous size hailed a tram-car, and with considerable difficulty managed to climb up and get a seat inside.

Wonderful Uses of Corn. But the most remarkable thing about corn is the new products that have been derived from it, the many new uses which science and American genius have created for it.

Child's Constancy. If only we realized it, if only we cultivated it more, we could see with clear-eyed vision that all of a child's original nature breathes constancy.

Altruistic. Mrs. Flitterby—"So you are on the visiting committee of your social workers' society. I should think you'd find it dreadfully irksome making all those long calls."

Considerate Wife. "I shall use the money you gave me to spend on my birthday, John," said the wife, tenderly.

Firm Stand. "Have you decided what appointment you will ask for?" "No," replied the applicant for appointment.

Won't Stand for That. Mrs. Fitzwill (socially inclined)—"My dear, I have picked out a husband for you." Her daughter—"Very well, but I tell you emphatically that when it comes to buying the wedding dress I'll select the material myself."

How to Deserve a Monument. The man who succeeds in perfecting an invention that will keep wrinkles away may be sure that the idea will willingly subscribe to a fund for the purpose of providing him with a splendid monument.

Rebuked. The deacon's wife wanted to jot down the text, and leaning over to her scapegrace nephew she whispered: "Have you a card about you?" "You can't play in chapel," was the solemn replying answer.

All in a Bunch. Mary aged 6, was intently watching a very stout woman a fellow passenger in a street car.

To Take Stains From Hands. To take stains from hands, use half cupful of coarse cornmeal and one cupful of strong vinegar.

Daily Thought. The foundation of that steadfastness and constancy which we seek in friendship is sincerity.

The Better Method. "De man dit tries to please everybody," said Uncle Eben, "ain't gine to git along nigh so well as de man who squares up to de world an' gits everybody tryin' to please him."

The Way Today. "You say you hope to become engaged to a suffragette?" "Well, I'm going to submit the question to a referendum consisting of her two sisters and her parents."

Right Kind of a Job. Try to get a job as important they will say you have handed in your resignation if you get fired.

Book Cover of Human Skin. Leather from human skin formed the covering of a book which was recently sold at a Berlin, Germany, auction for \$42.75.

Daily Thought. Riches take wings, comforts vanish, hope withers away, but loves stays with us. Love is God.—Law Wallace.

Choir Couldn't See It. The choir of a village church had sung an anthem in fine style, with all its might and strength.

History of the Key. The key was one of the first things invented by man. The primitive key was probably a thorn or splinter.

Won Papa's Dollar. Martha's school report card had very low marks. Her father promised her a dollar if she got a hundred in anything.

All Fishermen Know That. There may be as good fish in the sea as ever were caught, but a lot depends on the bait.

Queer Old Superstition. According to an old English superstition, bread baked on Christmas eve will never become moldy.

Good Definition of Conceit. A conceited man is like a boot minus the sole—he is important in his own mind, without understanding.

SANFORD LODGES. Sanford Lodge No. 27, I. O. O. F. Meets every Monday at 7:30 p.m. in Imperial Theatre.

Seminole Chapter No. 2 Order Eastern Star. Meets every second and fourth Friday in month for one who has been his Star in the last or cordially invited to visit the chapter.

BIG JULY SALE AT

1/3 To 1/2 Off

WOODRUFF & WATSON

1/3 To 1/2 Off

Great Savings Here for Quick Buyers of Men's, Young Men's and Boy's Clothing, Shoes, Hats and Furnishings, at Our July Sale;---1-3 Off All Clothing--1-2 Off Straw Hats

BUY NOW AND SAVE MONEY

A late season and a big stock of goods in our store are the causes of these reductions. We find that we are carrying larger lines than we need at this time of the year,--we must reduce stock quickly. Ordinarily a sale of this kind would not be held until a month or more later, but unusual conditions prevail now, and we cannot afford to wait. Profits and even cost prices have been disregarded; it's simply a question of quick cash sales with us now. So,--here's your chance,--right at the beginning of hot weather--to get your Summer or Vacation Outfit at less than maker's cost. Bear in mind that these are our regular line of goods,--Men's and Young Men's Fine clothing from Schloss Bros. & Co.; Furnishings, Shoes, Hats, Etc., from makers of equally high grade. Come and see! Original price-tickets unchanged; figure the reductions for yourself, 1-3 off all Clothing; 1-2 off all Straw Hats, other things in proportion.

SALE STARTS FRIDAY JULY 18

THE SANFORD HERALD

IN SANFORD--Life Is Worth Living

ON TUESDAYS AND FRIDAYS

Strings Of Barges Fill Upper St. Johns

Brady's Big Contract For Ties Makes More Business

Well Known Sanford Contractor Has Five Years Job Supplying Lumber

There is big business going on now in the St. Johns River, especially the upper St. Johns where an army of men are busy getting ready for the big timbering season of the East, under the direction of Contractor E. E. Brady of this city.

Few people in Florida know the extent of this immense deal for cross ties or that it will take this same army of men some five years to get the timber all cut from the thousands of acres of virgin timber land that line the shores of the upper St. Johns, Lake Harney and the Oklawaha.

About one year ago the East Florida Land Company purchased some twenty thousand acres of land in this section and desiring to sell the land for small farms and orange groves was anxious to get the timber cut in these days but it is worth something these days but the man who will reap the profits of this immense tract is upon the plan of selling the timber for cross ties. A deal was made with the Montgomery Co. to take all the timber for cross ties and the contract was given to E. E. Brady to have the ties cut and delivered to the water's edge. This is some contract when the idea of labor and the scope of the work is investigated. All the timber cut is for ties used for this purpose. The limbs and small stuff are used for firewood and the hardwood is also used for ties. The timber is placed upon barges and towed to Jacksonville where it is loaded on schooners northbound and taken for ballast in the hands of the large railroad systems of the East.

Seven barges were taken to Tampa yesterday to be filled. Each barge holds 3000 ties and nine barges will leave the woods for Jacksonville tomorrow. This activity along all lines in river traffic has given an impetus to business and there are many rumors of new steamship lines and other boats for the St. Johns river trade.

Club Wants Suggestion

At a recent meeting of the Y. M. C. Club the club members adopted a resolution that they would like to have suggestions from the members of the club as to what they would like to have for a picnic on the river. The suggestions should be sent to the Y. M. C. Club, Sanford, Fla., by July 18th.

Delightful Day

Miss Jessie Long, her cousins, Misses Lettie and Annie Harold of Gainesville, who are her guests, Miss Muriel Harold and Rev. E. M. Browne, were guests of Rev. J. F. McKinnon from Orlando to Clay Springs on a delightful picnic.

The party went to Orlando on the early train, where they were met by Mr. McKinnon with his auto. The trip through the country to the springs was very much enjoyed. Several parties from the Clay Springs section were also spending the day at the springs. Mr. McKinnon's guests joined in a delightful basket dinner, enjoyed in picnic style. Refreshing bathing in the spring added to the pleasure of the day and the charming surroundings of the lovely springs and surroundings. The Sanford party returned Tuesday evening.

Death of John H. Castle

Tomorrow afternoon at his late home in Center street will be held privately the funeral of John H. Castle, who expired at 2 o'clock Sunday morning, after an illness of some months' duration which had forced him to his bed about two weeks ago.

Other People's Opinion Regarding This Great Work

What Looks Like A Mountain Range A Male Hill Waged

The idea of bulk heading the St. Johns river has been the subject of much discussion among people and year after year the idea is reduced to facts. It is a very simple and concrete proposition. Many towns and villages in Florida have solved the question of bulkheading and many cities have accomplished this feat and realized a net profit thereby.

The Herald being interested in the idea of bulkheading the St. Johns river has endeavored to give the people's opinions on the subject. One day gives the plan of Dr. Gossman, who has traveled extensively in America and has been over the greater part of Florida and who writes under the head of

Bulkheads I Have Met

Up in little old New York, we have looked about the water front of New York and Van Hook's were selling some strings and Dutch canal and beginning to lay the bulkheads. The first one was the Island of Manhattan, extending into the East river, the second one was the Dutch farmers' wives kept their geese and ducks in the water in the city and the third one was the water front of the city.

Pleasant Social Afternoon

The Ladies Aid Society of the Presbyterian church gave one of their regular "Bible days" at the handsome home of Mrs. J. H. Castle, Sanford, Fla., Tuesday afternoon.

Death of Doc Castle

A letter from Mrs. Hultinger bears the sad intelligence of the death of J. H. Castle, her father, formerly known as Doc Castle, who died at his home in Sanford, Fla., Tuesday afternoon.

City Officials Arrested

Daytona Beach, Fla., July 17. True to a factional fight among politicians here, a warrant was sworn out yesterday against the town clerk and the members of the city council, charging them with having tampered with the registration books, striking off names unlawfully and refusing to produce a hearing of the charges is set for tomorrow.

The allegations are that the officers altered and falsified the records and refused to register those who oppose a new bond issue unless they produce their last tax receipts and their deeds to property, while those in favor were not required to produce these documents.

The battle seems to be over the proposition to issue another series of bonds for \$20,000 when it is charged that the sinking fund to redeem former issues has been spent unlawfully.

Bulk Heading Lake Front Will Make Sanford Great

Other People's Opinion Regarding This Great Work

What Looks Like A Mountain Range A Male Hill Waged

Here we have beautiful Lake Monroe to look at and to pollute with sewage. Merchant vessels from the northern waters should be constantly seen at the Sanford docks. With dock facilities ships need not be invited. They will come. With the lake bulkheaded Sanford will no longer be held down by Jacksonville and her proposed industries tipped in the bud, as has been the case in the past. Florida's metropolis has long ago recognized the commercial strategic position of Sanford and Sanford has suffered because of this knowledge and the prompt action of the business interests of our sister city on the mouth of the St. Johns.

Conjunct to other property somewhat similar, the bulkheading of the Monroe lake front is a simple matter. The opening of the lake will give ground in bulkhead the bulkheading. Only the simplest machinery is necessary. No tools, no men, and no money are required. The necessary capital to procure the labor will be made, which will bring a revenue to the city. A hundred foot bulkhead can be put in place in a few days. The cost of the bulkhead will be a hundred thousand dollars. The city will own all the land between the bulkhead and the lake. The bulkhead will be a barrier to the lake and will prevent the lake from flooding the city. The bulkhead will also prevent the lake from being used for navigation. The bulkhead will also prevent the lake from being used for recreation. The bulkhead will also prevent the lake from being used for industry.
