## Millions Of Americans Aid Food Program

### Few Restaurants Reported Protesting Not Serving Eggs; Distilleries Kick

By ASSOCIATED PRESS  
Egg prices climbed today in big wholesale markets as the nation's consumers observed the first eggless and poultryless Thursday requested by President Truman in the campaign to save food for Europe. Egg prices advanced fully a cent a dozen in the New York and Chicago wholesale markets. Extra fancy heavy-weight whites brought 68 to 69 cents a dozen in New York and U. S. Extra No. 2 sold at 58 to 60 cents in Chicago.

By ASSOCIATED PRESS  
Millions of Americans who are joining in support of President Truman's food conservation program scratched poultry and eggs off their menus today.

Today was the first eggless and poultryless Thursday since Truman's request for full support of all citizens in the campaign to save food and although surveys indicated that the nation's first Meatless Tuesday received only token observance, more widespread cooperation was predicted today. Most restaurants as well as many housewives said the notice for a Meatless Tuesday was too short and their menus had been planned. Leaders in three major farm organizations—the American Farm (Continued on Page Eight)

## AFL Counsel Has Stroke Blasting Taft-Hartley Act

SAN FRANCISCO, Oct. 9 (AP)—Death of 56-year-old Joseph A. Padway, general counsel of the American Federation of Labor, threw the AFL convention into a prospective showdown over John L. Lewis' refusal to sign an anti-Communist oath.

Padway was fatally stricken midway in a long and violent attack on the Taft-Hartley Act on the convention platform yesterday. He died less than eight hours later in Stamford Hospital, shocking the 700 delegates and AFL leaders who had cheered his remarks without knowing he had sustained a stroke on the speaker's platform.

The chunky attorney, in ill health for some time, also seemed weary of the seriousness of his condition. He wisecracked about his clumsiness in twice knocking (Continued on Page Eight)

## Freight Rate Hike Costs Florida \$900,000

ORLANDO, Oct. 9 (AP)—Fruit and vegetable freight rate booms, which will add approximately \$900,000 to Florida shippers' grocers' bills during the first four months of the current season, have been authorized. Secretary of Agriculture John A. O'Rourke of the Growers and Shippers League of Florida said.

The increase, approved by the Interstate Commerce Commission, averages \$89.48 per car on Florida fresh citrus, \$25.52 on vegetables, and \$66.25 on canned citrus. O'Rourke said. The new rates will be effective on three days notice from the railroads.

The 10 percent increase, O'Rourke said, is for an emergency period until general cases now before the Commission can be disposed of.

## BANK HOLDUP

WEST GROVE, Pa., Oct. 9 (AP)—Two men with sawed-off shotguns today held up the National Bank and Trust Company of West Grove and made off with about \$30,000.

## GUNMAN WOUNDED

FINDLAY, O., Oct. 9 (AP)—An unidentified gunman was wounded today by police after he escaped from the police station and held them off for more than an hour by threatening to kill Pastor John Evans Knox of Trinity Episcopal Church.

## IWO JIMA HIT

QUAM, Oct. 9 (AP)—A typhoon accompanied by destructive 160-mile-an-hour winds swirled over Iwo Jima today, blotting out communications with the small Army cavalry garrison on that tiny island battleground of World War II.

## U. S. Rocket Planes Reported Flying At 1,700 Miles Per Hour

By ROBERT S. BALL  
(Staff Correspondent of The Detroit News)  
(Copyright, 1947, by the Detroit News)

CLEVELAND, Oct. 9 (AP)—American rocket planes have crashed the sonic barrier at blistering speeds in the neighborhood of 1,700 miles an hour, a high government official revealed today.

The flights have been carried on for months from a lonely island off the Virginia Coast, where the National Advisory Committee for Aeronautics (NACA) has a small experimental station.

This disclosure of American progress in the field of supersonic flight, which is flight faster than the speed of sound, was prompted by publication Wednesday of accounts from England of the 900-mile-an-hour flight of pilotless rocket craft.

As in the English experiments, the American rocket ships are launched at high altitudes from a fast-flying bomber. Their controls are pre-set to send them diving into the sea after a flight of 20 to 30 miles.

Telemetering devices installed in the robot-automatically transmitted data to observers aloft and on the ground. Radar also is used to track the rocket plane throughout its brief but sensational flight.

"It will not be many months before we have a piloted aircraft break through the sonic barrier (780 miles an hour at 30,000 feet), although he will be flying a turbo-jet plane with a rocket boost," the government spokesman said.

WASHINGTON, Oct. 9 (AP)—Air Force experts already are planning automatic flight experiments with jet fighters and larger transports now that the push button system has proved itself in an 8,000-mile, round trip to England.

Officials from Wright Field and the Clinton county air base here are upwilling to discuss such projects for quotation, but they (Continued on Page Eight)

## France Defends, Russia Hits U. S. Foreign Policy

NEW YORK, Oct. 9 (AP)—French Foreign Minister Georges Bidault wound up his three weeks visit in the United States today after blasting the new Communist International organization in Europe as a "blunder" and an "obstacle" to peace.

Bidault expressed belief that, although French Communists had joined the nine-nation Communist "Informant Bureau," the organization would not dictate the affairs of France.

The French Foreign Minister made his declaration in an interview last night, as he prepared to board a plane this morning for Paris. He had been in the United States as head of the French delegation to the United Nations Assembly and also for consultations with Secretary of State Marshall on France's economic difficulties.

"Naturally, the affairs of France will not be decided in Belgrade or any other place," he declared. "They will be decided in Paris according to the rules of democracy."

Asked whether he felt that present difficulties in Europe, including the situation in Berlin, (Continued on Page Eight)

## Bidault Says Formation Of Comintern Communist Blunder

WASHINGTON, Oct. 9 (AP)—Undersecretary of State William Clayton today said he believes normal trade relations between eastern and western Europe will be resumed as soon as production can be built up. He told reporters he does not believe the flow of goods in channels that are centuries old will be blocked by political differences between the eastern and western nations.

The undersecretary, who recently returned from the international trade conference at Geneva and the Marshall Plan talks at Paris, told reporters that production in the big problem. He said that once the eastern European countries begin to have a normal output of goods, mainly food and raw materials, western countries will be able to buy from them.

WASHINGTON, Oct. 9 (AP)—The State Department admitted today that so far it is stumped for means to prevent a threatened collapse of France's dollar purchasing power within the next week.

Herve Alphand, chief of economic affairs for the French Foreign Ministry, said his country will have to stop buying essential wheat, coal, and fats around Oct. 15 unless outside help is forthcoming immediately.

"We are really facing a tragic (Continued on Page Five)

## Red Journalists Are Stoned By D.P.'s

DUESSELDORF, Germany, Oct. 9 (AP)—Seven Soviet journalists touring the British zone here protested to U. S. General Sir Brian Robertson, British zone commander, that they were stoned during a visit to a Displaced Persons camp yesterday near Hannover.

Asserting the British gave them inadequate protection, the journalists said that German displaced persons hurled stones as the party was leaving the camp in automobiles. One journalist suffered a cut face as a rock smashed through an automobile window, the Russians said.

The journalists added that while they were walking through the camp Displaced Persons scratched a red star off the license plate of one of the automobiles parked near the camp.

British officials on the scene promised a full investigation, the journalists said.

## ARMED RESISTANCE

BEIRUT, Lebanon, Oct. 9 (AP)—The exiled Mufti of Jerusalem, Haj Amin El Husseini, arrived here yesterday for sessions of the Arab League Council called to discuss Arab armed resistance to any Jewish national state in Palestine.

## HAIL DAMAGES CROPS

LEVELLAND, Tex., Oct. 9 (AP)—Hail caused in less than an hour an estimated \$2,000,000 damage to crops, buildings and residences in the Levelland area yesterday. No one was seriously injured, but several persons were hit by the falling hailstones. The hail, accompanied by 2 1/2 inches of rain, fell 40 minutes.

## MARTS TO CLOSE

NEW YORK, Oct. 9 (AP)—Financial and commodity exchanges throughout the United States will be closed Monday, Oct. 13, in observance of Columbus Day.

## CIO Boycott Of NLRB Said To Be Crumbling

### Convention To Limit Action To Blast; Pickets Are Arrested At Struck Plant

WASHINGTON, Oct. 9 (AP)—A blanket 5 percent increase in rents in the Louisville, Ky., area and removal of ceiling in part of one South Dakota area were approved today by Housing Expediter Frank R. Creedon. It was the first action under a section of the new rent control law allowing blanket increases.

Creedon acted upon recommendation of local rent advisory boards created under the Rent Control Extension Act of last Congress. Simultaneously, he approved continued controls on Charleston, W. Va., Duluth, Minn., Superior, Wis., St. Petersburg, Fla., and New Castle, Ind., as recommended by boards there.

Complete decontrol was approved for Lawrence County, S. D., with the exception of the city of Spearfish. This, and the 5 percent increase in Jefferson County, Ky., which includes Louisville, became effective today.

The rent control law provided for creation of local advisory boards in some 600 rent control areas. These boards were empowered to recommend (1) increases in rents, (2) discontinuance of controls, or (3) continued controls without increases.

Creedon is required by the law to act within 30 days on any recommendation made to him, with largely in the hands of local boards. Thus, the speed of any future actions under this section of the law will depend on the local boards.

The housing expediter's announcement emphasized that approved rent increases may be applied only "at the time and in the manner provided by lease provisions of local and state laws."

"Landlords and tenants who have entered into a voluntary written lease agreement since the housing and rent act of 1947 are not subject to any subsequent actions which provide for blanket increases or for decontrol of a defense rental area," the housing expediter said. "Such leases are subject to the law, must continue at the agreed-upon rent at least until December 31, 1948."

He was referring to a section of the rent control law which allows rent increases up to 15 percent (Continued on Page Eight)

## U. S. Sees Early French Collapse Without Relief

### Nation May Have To Stop Buying Food And Fuel By Oct. 15

WASHINGTON, Oct. 9 (AP)—Undersecretary of State William Clayton today said he believes normal trade relations between eastern and western Europe will be resumed as soon as production can be built up. He told reporters he does not believe the flow of goods in channels that are centuries old will be blocked by political differences between the eastern and western nations.

The undersecretary, who recently returned from the international trade conference at Geneva and the Marshall Plan talks at Paris, told reporters that production in the big problem. He said that once the eastern European countries begin to have a normal output of goods, mainly food and raw materials, western countries will be able to buy from them.

WASHINGTON, Oct. 9 (AP)—The State Department admitted today that so far it is stumped for means to prevent a threatened collapse of France's dollar purchasing power within the next week.

Herve Alphand, chief of economic affairs for the French Foreign Ministry, said his country will have to stop buying essential wheat, coal, and fats around Oct. 15 unless outside help is forthcoming immediately.

"We are really facing a tragic (Continued on Page Five)

## City Registration Books Open To 10/25

Only one week remains, until Oct. 16, for candidates to qualify to announce for the office of city commissioner in the Nov. 4 primary election. It was announced this morning by City Manager H. N. Bayer.

"So far, he said, no one has yet qualified to run to succeed Mayor H. J. Gut and George Bishop as commissioner.

Candidates who wish to vote, but have not at any time registered have until Oct. 25 to do so, said Mr. Bayer. Veterans who were registered prior to entering the service are not required to re-register, he declared.

Requirements for registration are that a person must be 21 years of age and have resided in the state for 12 months and in Sanford for at least six months. Registration to distribute to voters at 238 miles an hour west of El Paso.

## Location Of Children's Homes Will Be Shown On New School Spot Maps

The making of spot maps to indicate the home of every child enrolled in each school unit was discussed by Supt. T. W. Lawton with principals and supervisors at a meeting held yesterday at the office of Miss Ruth Hand, county school supervisor, at the Junior High School, Miss Hand presided.

The spot maps are part of the survey of the county required by the State Department of Education prior to distribution of state money for capital outlay. W. A. Tague was chosen as chairman for the survey for rural schools and B. O. Steele for city schools, Miss Hand reported.

Mrs. J. G. Mitchell was directed to contact civic clubs relative to observance of American Education week.

It was announced that Miss Mary Boote, specialist in school studies, will be there during the week of Oct. 18 to assist teachers in securing more adequate maps and globes in the schools. She will speak at the county (Continued on Page Eight)

## Rent Increase Granted Under Control Law

### Request Is Okeyed By Housing Expediter; Lumber Prices Hit By Senate Group

By MAX HALL  
BOSTON, Oct. 9 (AP)—The CIO boycott of the National Labor Relations Board was crumbling fast today. The CIO convention here next week is almost certain to avoid any policy that would encourage a continuation of that boycott.

Instead, the convention will make a strenuous attack on the Taft-Hartley Labor Law, but will state that each of the 41 CIO unions must decide for itself whether to file complaints and petitions before the reorganized NLRB under the new law.

Those facts became clear as leaders of the CIO held committee meetings to prepare for the convention.

Reporters learned that the top officers of the CIO, president, secretary-treasurer, and vice-presidents, came to an agreement last night on the general substance of a policy statement on CIO use of the NLRB.

Meanwhile in New York, one of the firms that consolidate merchandise shipments here for movement to stores throughout the country complained to the National Labor Relations Board about the strike of more than 1,000 truck drivers employed by the Railway Express Company.

Barnum S. Stern, counsel for Fast Service Shipping Terminals, Inc., announced last night that it had filed charges of illegal secondary boycott and an appeal for an injunction.

The striking union, Local 808 of the International Brotherhood of Teamsters, promptly announced it had sent telegrams to Charles T. Bouda, regional NLRB director, and Robert N. Denham, NLRB general counsel, asking that the charges be dismissed on grounds the union is subject to the Railway Labor Act and outside NLRB jurisdiction.

Ames in Louisville, Ky., Jefferson county police arrested several pickets, an International Union representative and ordered the removal of automobile road blocks at the strike-bound International Harvester Company plant here today.

Met. Fred Hunter, assistant county police chief, said Lloyd (Continued on Page Eight)

## 53 Persons Narrowly Miss Death In Plane

### EL PASO, Tex., Oct. 9 (AP)—Capt. Charles Sisto of Los Angeles today said 53 persons in a looping airliner missed death by 500 feet yesterday and that margin was because his head bumped in button and shut off three engines.

The 35-year-old pilot told reporters in a hotel room interview that a terrific dive into which the craft plunged yesterday otherwise would have been speeded up so that the ship would have hit the ground instead of looping.

The 48 passengers and five crew were tossed about and injured, but none was seriously injured. Most continued on their original trips to Los Angeles. Sisto said he did not know what caused the American Airlines DC-4 to dive yesterday as it was cruising at 238 miles an hour west of El Paso.

## 10 CENT FAGS

RICHMOND, Va., Oct. 9 (AP)—Cigarettes to sell for 10 cents a pack were evaded today in the testimony of a witness in a case before a congressional sub-committee on the economic report as it brought its three-day hearings here to a close.

Flanagan said this sale price would be possible under terms of a bill now before Congress which would provide a graduated tax in place of the present straight 7 cents a pack.

## ROAD-BIDS

TALLAHASSEE, Oct. 9 (AP)—James H. Craggs Construction Company of Ocala today submitted an apparent low bid of \$465,000 for construction of 2.25 miles of a 61-foot super highway through the city of Daytona Beach. The State Road Department also received bids for about 60 miles of road and bridge improvements in 12 other counties.

## DRIVERS LICENSES

Judge R. W. Ware today reported that 16 late applications for drivers licenses had been made after Oct. 1. Total applications are 300 more than last year, he said.

Due to co-operation by the Herald in publicizing the sale of licenses, he declared, there were no long lines of applicants this year and nobody had to wait as long as 15 minutes to get a license. He was assisted in issuing licenses by Mrs. Letta Fowler, Mrs. W. B. Elberse and Mrs. C. A. Shiner.

## Resentment Grows To U. S.-Russian Secrecy

### Stenstrom Reveals Plans Of Giants Club At Jaycee Meet

"The Giants are taking over lock stock and barrel with no strings attached," Julian Stenstrom told the Seminole County Junior Chamber of Commerce at its noon luncheon meeting at the Maxwell Inn today.

"The Giants are going to own and operate the Sanford Celery Factory in the Florida State League for the next five years in connection with their school and training camp in Sanford. They are going to get all the equipment of the Sanford club, and they will also be presented with the contract of some 15 ball players in addition to the uniforms, bats and balls," Stenstrom stated.

"We have one man to thank for interceding in bringing the Giants to Sanford," Stenstrom added. "That man is John Kilder, 1947 manager of the Celery Feds, who contacted and presented the plan of training camp and school to Carl Hurrell, chief of the Giant farm system," Stenstrom asserted. "Much credit is also due Mr. Edward Higgins of the Senior Chamber of Commerce who assisted ably in completing the negotiations," he added.

Gordon Bradley, secretary of the organization, presented a check for \$200 to Mr. E. J. Curlett and Mr. Randall Chase for the Fernand-Lightfoot Memorial Hospital Association to use on the maternity section of the hospital.

Bradley stated that the Jaycees are contemplating placing four signs on the DeLand highway between the Lake Monroe bridge and the city limits, maintaining the city and welcoming tourists. Two signs are to be placed south of the city.

The board of directors of the organization voted to publish the City Budget in connection with the "Get Out The Vote Campaign" so that the people of the city could see where the money is going in the city expenditures.

Jack Morrison, Vincent Peck and Marvin Butcher have been appointed as a committee to assist Clifford Ables on the voting campaign.

Clarke Kettle of the Vocational Rehabilitation Service of the State Department of Education, highlighted the work of the organization in assisting the physically handicapped in obtaining employment and training through government and state sponsored agency.

## Jail Sentences Are Urged For Law Violators

### Leon County Grand Jury Attacks Jooks Near Tallahassee

TALLAHASSEE, Oct. 9 (AP)—A Leon County grand jury today recommended a policy of tough treatment for Tallahassee jooks which it said were bringing a lawless element and a bad influence on minors and Florida State University students.

The grand jury, in its presentment, recommended that judges legally try Leon County "jooks" the advantage of imposing jail sentences rather than fines on persons convicted of violations of the liquor laws.

In the past, jail sentences have only rarely been given, even when the defendant has been convicted repeatedly.

The grand jury also recommended prohibition of two roadside restaurants south of Tallahassee at which one was called the "Fights recently, however, it returned a first degree murder indictment against Jimmy Branch on one count and a second degree murder indictment against William Strickland in another.

If present laws permit, the grand jury said, all jooks should be required to close at midnight to 7 A. M. and if there are no laws by which closing hours can be enforced it urged the 1948 legislature to take such action to make it possible.

The grand jury said that it found jooks are "and as being frequented by minors and persons who are frequently being harassed by the police."

It stated that there are frequent fights and gambling in jooks and that these are encouraged and games of chance conducted at them.

"At least one case of attempted rape" in addition to the two killings has been reported recently at such establishments, the jury said.

It commended efforts of State (Continued on Page Eight)

## Pope Approves Force To Uphold The Law

VATICAN CITY, Oct. 9 (AP)—Pope Pius told a subcommittee of the Army and Navy Committee of the U. S. House of Representatives yesterday that "law and order may at times have need of the 'strong arm of force.'"

"Some enemies of justice can be brought to term only by force," the Pontiff said. "The law is upheld by the 'strong arm of force.'"

But force should be held always in check by law and order and exercised only in its defense. "Nor is any man law unto himself," he said.

"If that principle were everywhere accepted, a sense of security among peoples" (Continued on Page Eight)

## Lauderdale Urges Removal Of Dam

FORT LAUDERDALE, Oct. 9 (AP)—Residents of the west Fort Lauderdale section threatened "drastic action" unless a new dam in the south fork of the north New River ceases a "wild spread" of its water.

The Broward county drainage district board called a meeting at the dam early this afternoon of all interested parties, including nearly 300 families whose homes were reported under water in a 15-mile area of Fort Lauderdale.

Army engineers at Jacksonville said they had no objection to the dam's removal if a request was made by the Broward Drainage District.

## Negro Tries Stick-up Injures Policeman

POPULAR BLUFF, Mo., Oct. 9 (AP)—A negro man armed with a sawed-off shotgun, entered police headquarters here today and after announcing "this is a stick-up" shot and critically wounded Police Officer B. J. Bragg and fired another shot which hit the ceiling. A third charge jammed in the gun. The negro then fled and dropped his shotgun as a special officer James Dunn fired a volley at him. Bragg was taken to a hospital where doctors said the charge struck the right side of his face.

L. W. Schroeder of St. Louis, who was in the police chief's office at the time of the shooting, said the negro carried the gun under his coat, thrown over his right arm. He dropped his coat and hat as he turned to flee.

## MRS. DUTIA DIES

WASHINGTON, Oct. 9 (AP)—President and Mrs. Truman, the White House said today, are joining messages of sympathy to President Dutra of Brazil on the death of Mrs. Dutra.

## THE WEATHER

Partly cloudy through Friday. Widely scattered thunderstorms. Gentle to moderate variable winds.

### Iowa Farmer Takes Trip Aboard To See What Europe Is Really Like

By HAL BOYLE  
 GARNER Iowa, Oct. 9—(AP)—Big-headed Jack Dethmers, comfortably well in the black, rich soil of Iowa, went abroad to see how the farmers of other lands were faring.

He was one of 22 curious Iowa farmers who paid out \$1,500 apiece for a month-long air trip to see European conditions first hand.

Dethmers has come back appalled

already." The six-foot farmer, who worked his own way from hired hand, was considerably shocked at caste and class barriers in European lands which make it difficult for men to better their lot. Summing up his memories of Europe's distressed he said:

"They can't understand why we were so lucky to have been born here and they so unlucky to have been born in Europe."

He told with a look of wonder on his face of hungry Germans searching potato fields that had already been harvested.

"They pick up potatoes no bigger than a pea," he said. "But I suppose when one is hungry he'll pick up anything."

Dethmers said the English farmers generally were trying to deal honorably through regular trade channels, but that in France the farmers attempted to sell their entire crop on the black market. But the French have thrown in the towel compared to the English. The French beg for help and make no bones about it. The English still have their pride. They say "we'll get along," and they hate the thought of charity.

Of the eight countries visited he said, England was the only one in which money didn't count against the rationing rules. He recalled how one Scottish family politely turned his invitation to take them out to dinner.

"He has no clothes to wear for going out," the elderly wife told him, "and even if we did it would be just for one meal and we'd have to come back to our world rations. But would you remember us just a little bit at Christmas?"

Dethmers brought back a conviction that European farming methods are outmoded and will have to be changed before machinery can be used well.

"They don't use the manpower and tools they have efficiently," he said. "Even large farms are cut up into small, irregular pieces."

"In England they complained of lack of manpower, but they had 58 men working on one 1,300-acre farm. One farm had ten hogs and all one man did was take care of them."

Commenting on Germany, Dethmers said:

"You can see everything you need to see in one day. It is all blown to pieces."

He met a group of German mavers and asked:

"Why don't we see any young or middle-aged German men around—are they all working in the mines or factories instead of on the farms?"

"All of our young men," said one maver, shaking his head, "are under the sod between here and Stalingrad."

COL. GEN. A. A. ZHDANOV ANNA PAUKER

AT A SECRET MEETING IN POLAND, the Communist leaders of nine European countries formed a new Communist International (Comintern). A manifesto issued after the meeting indicated that the establishment of the "Information Bureau" in Belgrade, Yugoslavia, was a measure directed against the Marshall Plan and to fight "United States imperialism." Among those attending the conference were Col. Gen. A. Zhdanov of Russia and Anna Pauker of Romania. (International)

#### Rural Common Sense

By Spud Johnson

Complacency, or the theory that "it won't happen to me" is responsible for a large part of the losses from farm fires in the United States, we are told by fire and safety specialists who have studied the matter. This theory leads to carelessness and that, in turn, invites disaster.

The United States Department of Agriculture says that 90 percent of all fires are due to carelessness, and thus 90 percent of all farm fires can be prevented. Farmers in some states, notably Iowa, have demonstrated the fact that fire prevention can and will reduce needless toll they take in property, the number of farm fires and the loss of life.

Usually fires just don't start unless someone has helped set the stage for them—someone has been careless. And there are almost innumerable forms which this carelessness can take: It may be an oily rag thrown where it will later ignite or be ignited. It may be the curled shingles on a roof-tinder waiting for a stray spark. It may be a chimney in bad repair. It may be some gasoline or kerosene carelessly stored. It may be defective electrical wiring that should have been replaced. It may be that we let the children play with matches.

Inspection to locate fire hazards—or simply keeping our eyes open as we go about the place—is the first step in fire prevention. But removing these hazards is the number one job of fire prevention. A good job of preventing fires will go a long way toward removing the need to fight them.

And the cost of preventing fires is small compared to that of fighting them, no matter how you look at it.

#### Grocery Purchased

By Charles Gormley

The former Roberts Grocery at East Second Street and Magnolia Avenue has been purchased by Charles Gormley. It is now known as Sunshine Markets and new improvements are being added and will be operated as a cash and carry store.

A complete line of frozen foods has been added, there is a new vegetable bin with reflecting mirror, also a new fruit and vegetable bin with cooling coils back of the mirror. This produces a flow of cool air around the produce constantly.

In the meat department, a tenderizer, which cubes steaks, has been installed. New fish and meat cases will be installed soon, Mr. Gormley said. He is a Navy veteran and spent more than two years in the Pacific area.

VELVET BEAN CROP  
 Ocala, Fla.—Morton County negro farmers have a good crop of velvet beans this season, according to E. P. Smith, negro farm agent. A large portion of the crop is being harvested for seed, but there will be a good supply for feed purposes also.

CLUB HOUSE IMPROVED  
 Inverness, Fla.—A new fence was recently built around the grounds of the Pleasant Grove home demonstration club house and a new roof was put on the house also, according to Miss Doris Turner, Citrus County home agent.

### Cattleman Gets \$60,000 Check But Is Still Worried

By HAL HOYLE  
CLEAR LAKE, Iowa, Oct. 9 (AP)—A farmer here recently received \$60,000—the largest single check ever issued to a cattle feeder in this state—yet today he doesn't know whether it is worthwhile to stay in business.

That is the dilemma of J. D. Richardson and, many another, a career of taking range-fed western cattle and fattening them into top grade heavy beef.

"I've been feeding cattle for 25 years and darned if I know what to do," said Richardson, a tall blue-eyed farmer son of a farmer. "And others like him are being scared into reduced activity by the high price of grain, the food-fuel that ripens lean, grass-fed steers into the juicy, fat-grained steers that command a premium in metropolitan markets.

"A fellow doesn't know whether it's worth bothering about," said Richardson. "They've got us over a barrel."

He figures that he can buy an 800-pound steer for \$210 but that it will cost him a dollar a day for 300 or more days to feed it the corn and protein needed to plump it into a 1400-pound target for the butcher.

"It makes it cost me \$516, not counting the hay it eats or my own overhead and labor costs," he said. "Nor does it include any interest for my money.

But such a steer, if sold on the present high Chicago market of about \$39 a hundredweight, would fetch him only \$300.

"There is just no way you can figure it out on pencil and paper," said Richardson. "It looks like a feeder is licked before he starts."

"He has no inclination to go ahead and buy steers and gamble on the possibility that their sale price at the stockyard will be higher a year from now because he believes it is already too high.

"You can't get Americans away from eating meat. They just don't want corn mush in this country. But I don't think the consuming public can buy any more for meat and I don't blame them if they won't."

"City folks sometimes blame the farmer for these high prices but the farmer didn't ask for them. We'd be a lot better off if the prices stayed low. Now we're out on a limb."

Richardson got his check of \$60,000 for 128 high grade steers. "I figure that if I buy a hundred at the present price to fatten," he said, "they could lose me the price of the feed plus \$15,000, plus the cost of my labor."

So what is he to do? Well, he owns a 480-acre farm of which 280 acres is in corn. So if the price of range fed steers at Omaha drops enough to make it worth while to take a change, he said he might buy 75 steers—about half for meat and half to fatten. "I've seen the bottom drop out twice," he said soberly.

But the farm, after a quarter of a century, would be lonesome without beef cattle around and he can largely feed them with his own corn, the corn he could sell now for a nice profit if he chose to.

"I never sold a bushel of corn in my life though," he said. "I always have to buy from neighbors to feed my cattle."

Local livestock farmers are transfixed. "I don't know what to do," he said. "I feel his own case is typical.

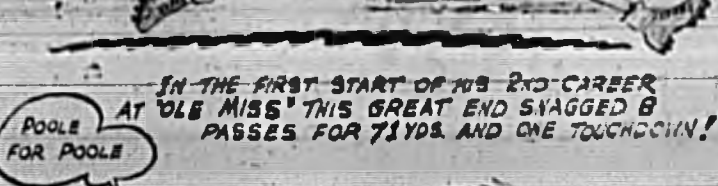

"So there won't be as much beef to eat in this country next year as before—that's for sure," said Richardson.

"The thing that would ease up the situation would be for us to cut the shipping grant," he said. "That would bring the price down. But I guess that isn't the way a lot of other people feel about it."

### CAREER MAN FOR THE SECOND TIME

#### BARNEY POOLE

AFTER GAINING ALL-AMERICA RATING WITH THE UNBEATEN ARMY TEAMS OF 1944, '45 AND '46, IS BACK AT MISSISSIPPI WHERE HE BEGAN HIS VARSITY CAREER IN 1942.

IN THE FIRST START OF HIS 2ND CAREER AT OLE MISS THIS GREAT END SNAGGED 8 PASSES FOR 71 YDS AND ONE TOUCHDOWN!

HE RALLS FROM ONE OF THE GREATEST FOOTBALL FAMILIES IN THE SOUTH—THE POOLLES OF GLOSTER, MISSISSIPPI—AT ONE TIME THERE WERE 5 POOLLES, COUNTING BROTHERS AND COUSINS, PLAYING SIMULTANEOUSLY FOR MISSISSIPPI.

### Battle Over Oath On Communism By Unions Not Over

By JAMES MARLOW  
WASHINGTON, Oct. 9 (AP)—The storm over the Lewis-Taft-Hartley Communist oath in the new labor law has quieted down. But it may not be ended.

The new law, the Taft-Hartley act, is carried out by the five-man National Labor Relations Board and its general counsel, Robert Denham. For union which wants the law protection and help from the board must do certain things laid down by the law. One of them is this:

An oath that they're not Communists must be taken by the "officials" of any national or international labor organization, which are in an affiliate or constituent union. (The quoted matter is from the law.)

What does that mean? Exactly what union officers have to take the non-Communist oath? Denham said it means this:

1. The officers of any local union seeking the law's protection and the officers of the national union of which the local is a part.
  2. And the officers of the AFL and CIO, the big organizations made up of more than 140 unions, must also take the oath.
- That ruling of Denham's created a storm among labor leaders. Tuesday the labor board overruled Denham by announcing:
- The AFL and CIO officers don't have to take the oath. It must be taken only by the officers of local and national unions.
- Denham bowed to the board and said he'd accept as final its decision overruling him.
- Because of Denham's ruling, yesterday when the board stepped in, this had happened:
- Not one of the 140 unions with 13,000,000 in the AFL and CIO was under the board's protection because:
- None of the AFL or CIO officers had taken the oath so no local or national AFL or CIO union could

get help from the board. The CIO officers had just not taken the oath, quietly. There was a big row, though, in the AFL. Some of the AFL officers were willing to take the oath—John L. Lewis, the AFL officers, refused to take the oath.

Lewis is no Communist. His refusal was part of his general opposition to the whole Taft-Hartley Act.

It caused bitterness among some of the AFL officers who wanted to sign. Some threatened to take their unions out of the AFL.

So it would seem, at first glance, that the board's ruling and Denham's willingness to go along with the board make the law's path smoother.

There is still a program for the officers of the AFL and it's due to this:

There are about 1,500 "federal local" unions which don't belong to any national unions but are tied in directly with AFL. Can they get the board's protection if their officers swear they're not Communists? Or, since they're tied in directly with the AFL, will the AFL officers have to swear any way before those "federal locals" can get board help? Denham and the board may have

to decide that one. If the board decides the AFL officers have to sign, then—

The quarrel between Lewis and the AFL officers who want to sign probably will remain hot and one now can tell the outcome.

There's another point. The board said it didn't think that Congress when it passed the law, meant to force AFL and CIO officers to swear.

But Congress, when it returns in January, may think otherwise and want to change the act and clearly that AFL and CIO officers "must swear."

And there's this point. In spite of Denham and the board, some employer may decide to think the top AFL and CIO leaders must swear they're Communists before any employer has to deal with an AFL or CIO union.

If this happens that employer will force his case into federal courts to get a ruling from a judge. Once it gets into court, the question is sure to go on up through the courts to the Supreme Court for a final answer.

(Note: Congress' purpose in putting the Lewis-Taft-Hartley act in the law was to drive Communists out of jobs as union leaders.

No union with a Communist

officer can't get board help. So a union deprived of board help for Black Mountain, N.C., where it had a Communist officer, they plan to spend a vacation.

### Forbes, Ghaul Are Listed Among Top Grid Performers

NEW YORK, Oct. 9. (AP)—Although his team has lost two of its first three games, Bobby Gage of Clemson is the individual ground gaining leader among all the college football players of the country at this early stage in the 1947 season.

Statistics released today by the National Collegiate Athletic Bureau show that Gage has accounted for a total of 646 yards in 81 plays against Presbyterian, Boston College and Wake Forest.

Of that total, he picked up 435 yards on 19 completed forward passes, four of which went for touchdowns. He also carried the ball 32 times and gained 201 yards.

Rex Olsen of Brigham Young stands second among the leaders in combined rushing and passing, having gained 480 yards on 74 plays. Olsen's record of completing 42 of 65 attempted passes for a total of 490 yards places him at the head of the nation's passers.

His pace in the aerial department is far ahead of that at the same stage last year, when Bob De Moss of Purdue led the field at the end of three games with 23 completions in 61 attempts.

Charlie Conerly of Mississippi ranks third in total offense with 454 yards on 94 plays. Hill Williams of Idaho is fourth with 423 yards on 95 plays and John Caputo of Utah State fifth with 408 on 83.

Norm Van Brocklin of Oregon, Bobby Layne of Texas, Harry Gilmer of Alabama, Fred Enke of Arizona and Jimmy Nutter of Wichita round out the top ten individual leaders in that order.

Nutter, 160-pound freshman, leads the runners with 349 yards in three games, although he has carried the ball only 21 times. Other rushing leaders are Ed Smith of Texas Mines, with 311 yards on 49 carries; Bobby Forbes of Florida, with 278 yards on 27 carries; En Holland of Arkansas, 264 on 27, and Johnny Graves of California, 236 on 25.

Behind Olsen in the passing department comes Conerly with 36 completions, followed by Gene Bourder of Montana State with 31, Van Brocklin with 28 and Jimmy Bowden of Texas Mines and Johnny Rauch of Georgia with 23 each.

Harry Ghaul of Miami is the top punter to date, with an average of 44.8 yards on 12 kicks in two games, while Barney Probst of Mississippi heads the pass receivers, having caught 17 forwards, three of which were for touchdowns.

### Attendance At Pro Grid Games Heading For All-Time High

CHICAGO, Oct. 9. (AP)—The two-year old All-American Football Conference appears to be a husky, vigorous youngster and the venerable National League also is robust in its 28th season if attendance figures to date are any criterion.

An unofficial survey shows that the All-American circuit, nearing the halfway point in its 1947 schedule, may welcome its 1,000,000th customer Sunday. The National League, with play only two weeks old, appears heading toward an all-time attendance record.

Before the 1947 season opened both of the league's commissioners, Bert Bell of the National Football League and Jonas H. Ingram of the All-American, announced 2,000,000 spectators as the goal.

In 22 games, the All-American is averaging about a 40,770 average with 877,084 in attendance. If the 1947 season is as good as Sunday's games at Buffalo, Cleveland, San Francisco and New York, the million mark will be attained. In 56 games last year the All-American reported 1,370,998 spectators, an average of 24,499.

In 11 games this season the National League has attracted 340,241 clients, an average of 31,476, but New York's Polo Grounds and Chicago's Wrigley Field have not yet started to operate. The New York Giants wait until Oct. 19 for their home opener while the Philadelphia Eagles and the Chicago Bears are being built.

In 1946 the National League attracted 1,752,125 in 55 games. It should better that figure in 1947 with a 56-game schedule. The circuit's largest crowd to date was the 51,123 which saw the Chicago Cardinals whip the Chicago Bears last Sunday at Comiskey Park. The Boston Yanks have drawn 41,488 for two games.

Total attendance for both league's last year was 3,109,133.

### Exhibition Tennis Matches Scheduled At Mayfair Courts

Exhibition tennis matches by members of the Rohna College tennis team, which includes two South American champion players, are scheduled to take place at the Mayfair Inn courts at 2:00 o'clock Sunday afternoon. It was announced today by Lind Weber, manager of the Inn. Charles Morrison will umpire the matches.

Two single matches and one doubles match will be played under the direction of Ed Copeland, team coach.

In the singles, Buddy Behrens of El Paso, national junior champion, will play Henrique Buse of Lima Peru, Eastern Intercollegiate champion and Peruvian national champion. Ricardo Balbiers of Santiago, Chile and Chilean national champion and Brazilian national champion will play Ed Copeland. Mr. Copeland of Dayton Beach is among the first 20 professional players of the country and was semi-finalist in the Professional Lawn Tennis Association Tournament this year.

### Attendance At Pro Grid Games Heading For All-Time High

CHICAGO, Oct. 9. (AP)—The two-year old All-American Football Conference appears to be a husky, vigorous youngster and the venerable National League also is robust in its 28th season if attendance figures to date are any criterion.

## COMMENTS from the SIDELINES

By ARTHUR HECKWITH, JR.

### GRID PREDICTIONS

The football parade marches in to another week of glorious pickup encounters and this week has as many hard to pick contests as any week thus far this year.

One of the toughest contests in the country this week will be played by the Illinois-Illinois contest which is being rated as a natural. We will go along with the mighty Army team, although the contest is going to be no push over. The Illinois eleven led the most outstanding player on their squad when Buddy Young turned pro, so we will say Army by not more than a touchdown.

Vanderbilt is rated as the tenth best ball club in the nation this week, and Mississippi will not change the picture a bit on Saturday. Vandy is our choice.

The Navy gridder has made a poor showing this year, but we think that they are going to be a much improved team when they meet the Duke Blue Devils Saturday, so we place our vote on the Middie.

Notre Dame will crush Purdue and Villanova will top Holy Cross. Penn will wallop Dartmouth and we pick Columbia to nip Yale.

This is a long shot, but there is a real possibility that the Tulane Green Wave will upset the powerful Rice eleven. Tulane will be a little revengeful when they meet the Owls which will be looking back on the 20 to 0 beating placed on them by Georgia Tech eleven last Saturday. We pick Tulane to bounce back.

Georgia Tech will roll over V. M. I. and North Carolina will find trouble in defeating Wake Forest, but we think they will have it over the Tennessee rivals.

The powerful Southern Cal aggregation will edge Ohio State and Wisconsin will trim California. Arkansas will beat Baylor and SMU will down the Oklahoma Aggies.

Texas will trim Oklahoma and Missouri will nip Colorado. We pick Minnesota over Northwestern, Michigan over Pitt and Alabama over Duquesne.

Indiana will nip Iowa and Rutgers will trim Princeton. St. Mary's over Washington, UCLA will wallop Oregon and Oregon State will top Idaho.

### PASS FLIPPER

By Jack Sords

### Gators Given Chance With Auburn, Minus Famed Travis Tidwell

BIRMINGHAM, Ala., Oct. 9. (AP)—It will be the battle of the sophomores when the Florida Gators and the Auburn Tigers meet at Montgomery, Ala., Saturday in a Southeastern Conference football game which offers the victor a chance to get back some of its former gridiron laurels.

Both clubs are lacking in experience, but are long on players with two more years of eligibility. Auburn won last year, 47 to 12, and would be favored again if it wasn't for Travis Tidwell's ankle, broken last spring in a baseball game.

Tidwell will be in there, for brief intervals of pass throwing, but he no longer is the running threat which helped make him the nation's No. 1 back in total offense in 1946.

For once, the rival coaches are not saying the other fellow will win.

Auburn's Carl Voyles says the game "should be rated a toss-up." Florida's Bear Wolf says, "We'll be in good shape physically and give it the best we have."

The Gators lost their twelfth

### Progress Report On Kentucky Football Is Expected Saturday

LEXINGTON, Ky., Oct. 9. (AP)—Out of the Georgia-Kentucky football party here Saturday night is expected to come a progress report on Kentucky's rebuilding program, and anything less than a two-touchdown defeat for the Wildcats is supposed to indicate "progress."

Publicists have jumped on this angle to tag the game a "Rebuild-ers vs. Wreckers" affair. Georgia has proved its wrecking abilities in a surprise 35-19 verdict over Louisiana State last week-end.

That surprise eliminated the Bulldogs' chances of pulling any more such surprises right away, because everything the Georgians do successfully now will be "expected." Any surprises in this week's pairing would have to be supplied by Kentucky.

Georgia Coach Wally Butts, never known to sit comfortably in the favorite's seat, admonished his players and the public not to look too lightly upon the Kentucky skirmish, however.

"Our scouts tell us that Kentucky is one of the smartest teams in the nation and will act quickly to take advantage of any mistakes you make," he said. "I'm afraid our inexperienced backs will continue to make mistakes costly to us."

Kentucky Coach Paul Bryant, who enjoys the underdog role as much as the next coach, retorted: "But he (Butts) doesn't have to play inexperienced backs like we do."

Butt's statement continued: "Kentucky is potentially a great team and we are expecting them to be great against us, especially since they're playing before a home crowd."

And Bryant:

"A lot of people have said Kentucky is potentially a great team, but potentials don't get you any touchdowns in this league."

Sharing the Southeastern Conference slate this week-end will

### Gators Given Chance With Auburn, Minus Famed Travis Tidwell

BIRMINGHAM, Ala., Oct. 9. (AP)—It will be the battle of the sophomores when the Florida Gators and the Auburn Tigers meet at Montgomery, Ala., Saturday in a Southeastern Conference football game which offers the victor a chance to get back some of its former gridiron laurels.

Both clubs are lacking in experience, but are long on players with two more years of eligibility. Auburn won last year, 47 to 12, and would be favored again if it wasn't for Travis Tidwell's ankle, broken last spring in a baseball game.

Tidwell will be in there, for brief intervals of pass throwing, but he no longer is the running threat which helped make him the nation's No. 1 back in total offense in 1946.

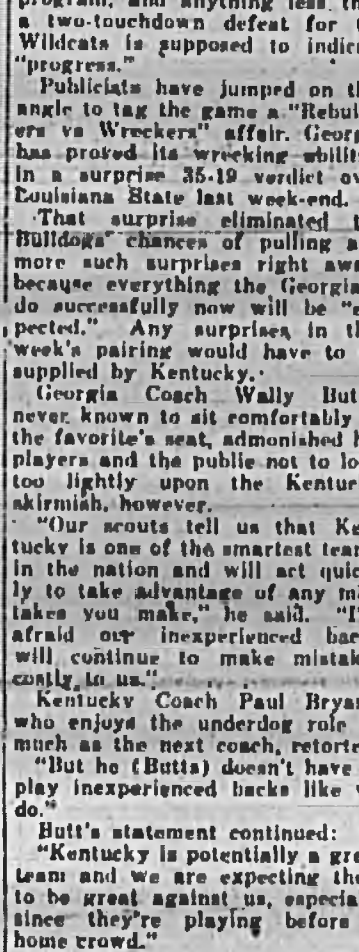

For once, the rival coaches are not saying the other fellow will win.

Auburn's Carl Voyles says the game "should be rated a toss-up." Florida's Bear Wolf says, "We'll be in good shape physically and give it the best we have."

The Gators lost their twelfth

### Gators Given Chance With Auburn, Minus Famed Travis Tidwell

BIRMINGHAM, Ala., Oct. 9. (AP)—It will be the battle of the sophomores when the Florida Gators and the Auburn Tigers meet at Montgomery, Ala., Saturday in a Southeastern Conference football game which offers the victor a chance to get back some of its former gridiron laurels.

Both clubs are lacking in experience, but are long on players with two more years of eligibility. Auburn won last year, 47 to 12, and would be favored again if it wasn't for Travis Tidwell's ankle, broken last spring in a baseball game.

Tidwell will be in there, for brief intervals of pass throwing, but he no longer is the running threat which helped make him the nation's No. 1 back in total offense in 1946.

For once, the rival coaches are not saying the other fellow will win.

Auburn's Carl Voyles says the game "should be rated a toss-up." Florida's Bear Wolf says, "We'll be in good shape physically and give it the best we have."

The Gators lost their twelfth

be a showdown battle between the two upstart elevens, Vanderbilt and Mississippi at Nashville, and what shapes up as a battle of two of the tall-enders, Florida and Auburn at Auburn, Ala.

Other games will take place in league foes. Duquesne will play Alabama at Tuscaloosa, Ala.; Georgia Tech will take on V.M.I. at Atlanta; LSU will attempt to come back against Texas A. & M. at Baton Rouge, La.; Mississippi State will go to California to play the University of San Francisco; Tennessee will take on Chattanooga at Knoxville, and Tulane will tackle Rice at Houston, Tex.

## "My Society"

Scores of thousands of its members call it "my society" when they speak about the Woodmen of the World.

And that's correct . . . the society belongs to them to provide them safe, sound, legal reserve life insurance protection at cost, and to mutually promote their welfare and happiness by its fraternal, social and civic activities.

Learn how you can make this "your society" to build financial security for you and your loved ones, and to enjoy the many "plus" benefits it offers. The local Woodmen field representative will gladly give you complete information.

### Leo Is Happy Over Meet With Rickey

NEW YORK, Oct. 9. (AP)—Leo Durocher flew back to the West Coast today leaving behind the impression that he was in the good graces of his boss, Branch Rickey, and that his chances of regaining his old job as manager of the Brooklyn Dodgers were better than fair.

Boarding a plane at Lufthansa Airport for Los Angeles last night, Durocher, whose season-long suspension ended with the last outpour of the World Series, was his old wise-cracking, loquacious self, jovial and smiling as he good-bied those who had met him at the airport.

Durocher revealed for the take-off, Durocher revealed that he had a three and a half hour conference with the Dodger president and was "very happy with the result."

### Kynes To Captain Gators Saturday

GAINESVILLE, Fla., Oct. 9. (AP)—Coach Ray Wolf planned to ease up on his Florida football squad today after putting the Gator gridmen through a rough two-hour session yesterday in preparation for Auburn.

Jimmy Kynes, sophomore center from Marianna, was chosen as game captain for Saturday's encounter.

While there are still a few minor but easy to reopen injuries scattered throughout the backfield, the Gators are expected to be in pretty good physical shape.

### No Bitterness In This GI Who Gave Both His Legs

By HAL BOYLE  
CARRVILLE, IA. (AP)—The war didn't leave Ralph Neapel a leg of his own to stand on, but he has less bitterness than any ex-soldier I ever met.

He is a tanned, stocky farm youth who lost both legs in a battle action in Germany that won him the nation's highest honor—the Congressional Medal of Honor—and he thinks life has been good to him.

"People treat me okay," he said. "I have nothing to feel sorry for. But I do feel a little funny sometimes because I get so much better a break than a lot of other fellows did who came back."

The people of Iowa contributed \$16,000 to start him off again in civilian life with a home of his own and a nest egg. Uncle Sam gave him a new pair of legs, a car and a pension. He married his childhood sweetheart, Jean, and they have a plump, brown-eyed daughter eight months old.

He studiously has refused to let the fact he is an amputee affect his mental outlook. When he got his first pair of artificial legs, he said:

"I just want to see the look on the face of the first dog that bites me."

He pasted a beer label on each leg and told friends with a grin: "The company pays me a quarter a day to advertise their beer."

Now he can walk as much as five blocks without using a cane or halting to rest. He works part-time selling electric appliances and driving a tractor on his mother's farm. He wants most of all to get a job doing some real work.

"I've wanted to do that all my life," he said, "ever since I was a small boy on a farm. There's an exam coming up soon, but there'll probably be 30 to 40 other veterans apply, too. If I don't make it—well, I'll just try something else."

He likes to mow the lawn and do other chores he ever had with the wash—to keep down his weight, which has climbed 25 pounds since his return from hospitals where he underwent seven operations.

"That's real handy around the house," said his wife. "They will like to dance but Ralph said he had given up jitterbugging. Not because of his artificial underpinning—that's not stop him."

"I'm just getting too old for that kind of thing," he said grumpily. "I'll be 24 this Halloween."

His mind rarely goes back to that day in December, 1944, near Berlin, Germany, when a tank shell blew off by a tank shell. He dragged himself back to his machine gun, killed 20 attacking German infantrymen and routed a Nazi tank.

"Once in a while I have a dream," he said, "and I get ringing in my ears like someone rang a bell near me—but that's all."

"What I do think of often though is what has happened to the wounded soldiers of other armies—the Germans and the Russians—and the others. I know they haven't been treated as well as we have."

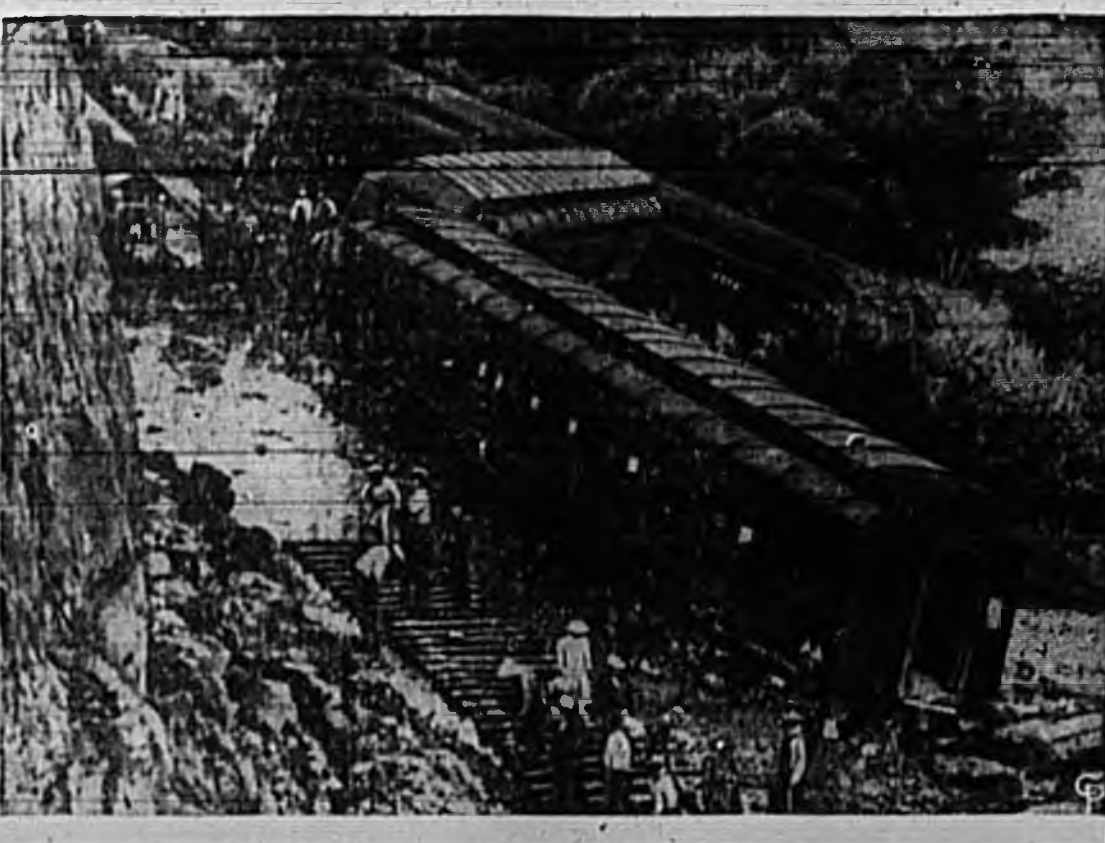

I asked him what it was that had made him crawl back to his machine gun and keep on fighting on that rainy, battle-fogged day that already seems so long ago and far away. The question bothered him.

"None of these," he said slowly. "Did you ever back out of a drive-way and see a car coming down the street and know you were going to hit but for some reason you still kept on backing out? I guess that is what it was like most."

Padway Dies  
(Continued from Page One)  
the race from the speaker's stand, and stopped talking only when California Federation President John Shelley insisted he wanted to make an announcement. Padway introduced Shelley.

Then the British-born labor lawyer slumped in a chair, fumbled for his high-blood-pressure pills, dropped a glass of water, and grabbed for his fluttering papers. Finally, his friend, Daniel J. Tobin, head of the Teamsters, passed from the convention floor that Padway's report on the legal fight over the Tail-Hartley Act be continued Friday afternoon.

The convention was recessed for lunch and Padway was half-carried to a waiting automobile. Fen of the delegates saw that President William Green, visibly shaken when informed of the attorney's passing, said: "Judge Padway died as he lived, fighting for the cause of labor."

THE WRECKED PASSENGER COACHES of a Spokane Express train lie scattered on a mountainside near Maryhill, Washington, after the train was derailed by rocks washed on the tracks by a flash flood. The engineer was killed and a score of passengers were injured, several of them seriously. (International Soundphoto)

### U. S. Foreign Policy

(Continued from Page One)  
less alleviated, would strengthen Communism, he replied. "It is obvious that misery and hunger will lead to revolt."

Meanwhile, the government-controlled Polish press in Warsaw stepped up the anti-American tone of its editorials and is broadening its propaganda offensive to include "reactionary priests" and Catholic newspapers supporting the American conception of "democracy."

The newspaper, *Glos Ludu*, which usually reflects the views of Vice Premier Wladyslaw Gollub, one of the signers of the International Communist declaration, assailed a "priest agitator" in one of Warsaw's leading churches who, it said, told a special congregation of polytechnical students "the government today has bread in one hand and a club in the other."

Some papers carried banner headlines purporting to tell of "economic crises" in the United States and portraying the country as near catastrophe. *Glos Ludu* published a cartoon showing President Truman awarding Germany a new island as "Miss Europe."

In Moscow, a Pravda commentator accused the United States of trying to hamstring Soviet-Italian relations and of trying to influence the Italian parliament against granting oil concessions to Russia.

The article, which occupied almost a half page in the Communist organ, said: "The Iranian public of late has noticed increasing activity of various American representatives in Iran directed toward turning Iran into a weapon of American policy."

"Iran at present is flooded with various American consuls, spies, and instructors. The American policy looking toward the economic and political enslavement of Iran cannot be successful because an Iranian revolution is inevitable."

The article, which occupied almost a half page in the Communist organ, said: "The Iranian public of late has noticed increasing activity of various American representatives in Iran directed toward turning Iran into a weapon of American policy."

### Rocket Plane

(Continued from Page One)  
acknowledged their existence today after the C-54 Skymaster had successfully completed the final test from Stephenville, N.F., 1,500 miles away.

The C-54, second in the series of push button planes, is unique in that it combines all the mechanical applications of control available in planes of that type. Officials regard it as an interesting specimen because it has been rigged through an electronic brain to reform in proper sequence all flight steps from takeoff to landing.

CLEVELAND, Oct. 9, (AP)—United States Navy jet engine tests have recorded speeds in excess of 1,400 miles an hour, officials who could not be named acknowledged today in commenting on British estimates that one of their engines reached 900 miles an hour in a drop test.

If the British plane represents their highest achievement to date they are behind both the Navy and the National Advisory Committee for Aeronautics, which now has under way an extensive drop test program with ram jet engines, with speeds expected to reach up to 2,000 miles an hour.

Taskie John Tyson of Mississippi State gave the best line performance of the Orange Bowl series in the 1947 classic, in the opinion of experts who have seen all 19 games.

### Food Program

(Continued from Page One)  
Bureau Federation, the National Grange, and the National Council of Farm Cooperatives have promised Mr. Truman "100 per cent cooperation" in the campaign to conserve grain supplies.

A nation wide survey indicated that while some restaurants were complying by banning eggs at breakfast others were serving them and orders for bacon and sausage as substitutes increased.

In most places the consumer indicated a general spirit of cooperation but it was too early to predict how the request, made to save food for Europe and lower prices at home, would affect the housewife's budget.

In Washington, D. C. most restaurants served eggs for breakfast and the Carlton Hotel, where Charles Luckman, chairman of the Citizens Food Committee, lives, took them off the menu but served eggs if demanded.

In Cleveland some restaurants had eggs as usual, some had them if ordered upon, and some had none. One manager said: "So we don't have meat on Tuesday. What happens, people eat eggs. And then we don't have eggs on Thursday. What happens? People eat meat."

In Boston fruit and produce exchange admitted the eggless and poultryless plan as "ridiculous and unnecessary," but said it will cooperate.

In New York mixed reaction was reported as one cafeteria resumed serving eggs after many customers walked out and survey indicated competing restaurants were serving the food. Full compliance was expected next week, however. Corned beef hash and creamed cheese and jelly appeared to be the main staples.

In Chicago the restaurant association met to decide on action in the program, and the association said many restaurant patrons were protesting the limitation of food and that the protest was beginning to reflect the customer's attitude that time.

An estimate that a distillery shutdown would throw 100,000 persons out of work and a prediction that union officials would try to avert it were made in Frankfort, Ky. today by John E. McKiernan of Louisville, a distillery union official.

McKiernan, vice president and international representative of the Distillery, Rectifying and Wine Workers Union of America, (A. F. L.), proposed a 120-day period of 50 per cent production instead of the planned 60-day complete shutdown.

"Charity should begin at home," he said, asserting that a 120-day 50 per cent curtailment "would accomplish the same thing," and that workers could remain employed during the shutdown.

A complete shutdown, he said, would throw 7,000 union workers out in Kentucky, not including office personnel, guards and others.

### Reenactment Grows

(Continued from Page One)  
-ign minister of Saudi Arabia. The prince is a leader of the Arab bloc opposing partition of the Holy Land.

Representatives of Russia and the United States remained silent during today's discussion of Palestine. They already had been sent their views as soon as urged by several speakers to pre-emptible.

An authoritative source said the United States expected to make its opening Palestine statement Saturday. Russia declined to indicate when she would speak, but a high United Nations official said the Soviet delegation had said definitely it would wait until after it had heard the U. S. statement.

A member of the Soviet delegation insisted that Russia's policy was not yet firm as to whether she would support proposals to partition Palestine or the plan for a federalized bi-national union.

### School Spot Maps

(Continued from Page One)  
ed that many principals and teachers are attending the Stetson University night and Saturday classes. Also they are attending extension classes sponsored by the University of Florida or taking correspondence courses.

Miss Mildred Babcock, art supervisor, outlined plans for a poster contest on night conservation sponsored by the State Council for the Blind.

After a brief discussion on grading and on reporting pupil progress, said Miss Hand, it was agreed to send an informal note to parents of beginners stating the progress of the child for the first six weeks of the school term.

Present were Supt. Lawton, Mrs. Babcock, Lery Nickels, Mrs. Leroy Nickels, Miss Pearl Bates, Mrs. Olga Cochran, W. A. Tague, Mrs. Marion St. John, Mrs. J. C. Mitchell, E. J. Laney, Hermet E. Morris, B. C. Steele and R. E. True.

### Rents Raised

(Continued from Page One)  
James, international representative of the CIO-Farm Equipment Unit in exchange for leases running through 1949.

The present rent control law expires next Feb. 25. After that date, all rent controls will end unless congress acts to continue controls.

Meanwhile in Washington, Senator McCarthy (R-Wis.) said that lumber prices "have skyrocketed higher than any other building material, and a Senate-Committee has assigned two investigators to see what can be done about it."

He made that comment to reporters when asked about exceptions taken by the Southern Wholesale Lumber Association to what he termed "severe criticism" from McCarthy of lumber dealers.

The Senator is vice chairman of a joint congressional committee investigating housing.

Robert F. Darrah, secretary-manager of the association, disclosed at Birmingham, Ala., last night that the committee making chance to appear before it, and reply to an assertion by McCarthy that Congress might have to "crack down" on profits of middle men in the lumber business.

### Scientists Make Preparations To Disintegrate Hurricane

WASHINGTON, Oct. 9 (AP)—Military and civilian scientists are now ready to sprinkle a little dry ice experimentally on the tail of the first young hurricane that comes along, a joint Army-Navy announcement said today.

Scientists of the Army Signal Corps, the Office of Naval Research and the General Electric Company, whose laboratory men were the first to demonstrate the precipitation of clouds by dropping pellets of dry ice through them, will make the experiment.

The services said they "are standing by awaiting an alert which will take them flying into the heart of the first suitable incipient hurricane many hundreds of miles away from the United States."

Three aircraft—two B-17s and one B-29—will be used, with one of the Flying Fortresses doing the dry ice "seeding" of clouds and the other two planes carrying observers.

"We are in far too preliminary a state to think of stopping a hurricane," said one of the scientists. "At this point we are interested only in seeing and recording any effects the dry-ice technique will have."

Ready to take off from their home stations and head for the hurricane belt when the order comes are Samuel Sline, Belmar, N. J., the Signal Corps expert; Lieut. Comdr. Daniel Rex, Wichita, Kan., representing the office of Naval Research, and Vincent Shafer and Dr. Irving Langmuir of the General Electric, co-discoverers of the dry-ice technique.

The airplanes will be flown by Capt. Clarence N. Chamberlain, Jr., Matawan, N. J.; Capt. Jack Williams, Dayton, Ohio, and Lieut. James A. Ashcraft, Prattville, Ark., all of the air force.

Two enlisted men will be the first to open fire on a hurricane by operating the dry-ice dispenser. They are the Navy's Aerographa Mate Edwin R. Millan, Tillamook, Ore., and the Army's T/S Charles E. Hall of Bay Nienette, Ala.

### Sail Sentences

(Continued from Page One)  
Attorney William D. Hopkins to close one of the clubs at which a killing took place and recommended that the court grant the case of the other club and asked officers to check closely into alleged sale of beer to minors in a third.

The grand jury also urged Leon county "individual citizens" to give more active support to law enforcement officers of the state and county.

It said residents should make known their desire to have the law actively enforced, report violations of the law and offer to testify in court to those violations and should attend sessions of the courts in order to observe the efforts at law enforcement.

### CIO Boycott

(Continued from Page One)  
Workers were arrested on charges of inciting to riot as a result of a speech he made to several hundred strikers this morning.

James, also arrested near the plant yesterday on complaint of police that he interfered with the arrest of a striker, was held under \$5,000 bond. "Police" arrested 300 to 400 strikers assembled outside the company plant today.

"I think there are enough men here to handle any situation," James told the workers.

Major Hauler and a detachment of county police were at the scene. Hauler interrupted James' talk to the strikers.

"Take him away, boys," the assistant chief commanded. James was placed in a patrol car and taken to police headquarters.

football game. Ole Miss claims a 12-7 victory. Arkansas still lists it as a 1-0 decision for the Porkers. . . . Reporters covering the 1947 World Series did some record breaking of their own when they telegraphed 2,000,000 words to newspapers and wire services throughout the country. Last year's high mark was only 2,641,086 words. . . . The third (or fourth) game in the series was worth 508,570 words alone, mostly superlatives.

Dotz All Brothers  
During the recent Oklahoma-Detroit football game, John Rapacz, Bronco center, said something in Polish in Detroit, quick-ly back Gene Malinowski, who replied in the same language. The translation, given later, went like this: Rapacz, "that play isn't going anywhere today." Malinowski, "Well, I've got to try it, haven't I?" . . . Score of a recent high school football game in Oklahoma -- Blanchard 52, Davis 0. . . how those boys do get around!

Over two-thirds of the body weight of human beings is water.

A GOOD THING FOR A RAINY DAY

From where I sit... by Joe Marsh  
How to Tell You're Getting Old  
Doc Walters gave me this formula: It's a sure-fire sign you're getting old when you resent other people having a good time.  
And the Doc means it hasn't much to do with age. There are old folks in our town who get a big kick out of seeing other people enjoy themselves—seems to keep them young in spirit, with a twinkle in their eyes!  
Add there are some others who resent the young folks going to parties who feel that community games and dances are just a waste of time; or who criticize temperate people for enjoying a mellow glass of beer with friends.  
They're often well-intentioned folks, too. But from where I sit, the minute we criticize our neighbors for enjoying wholesome pleasures—like a game of horseback, a glass of beer, or an afternoon's fishing—it's a sure sign we're growing old (in spirit anyway) no matter what our age is.  
Joe Marsh

## Plea Is Made For Food To Be Rationed

### Group Says Only Way To Assist Europe; Anderson Supports Meatless Tuesdays

WASHINGTON, Oct. 10 (AP)—The National Planning Association said today the government "should be prepared to ration food to American consumers" in order to hold prices down while making huge shipments to Europe.

As a starter the association suggested reducing the consumption of bread by one-third between now and the next wheat harvest.

Such rationing, the association said in a statement prepared for the House Agriculture Committee, is the only way to insure "the dual objective of making more food available to Europe and averting another price explosion in the farm-food sector."

The association describes itself as a non-profit, non-political organization devoted to "planning by Americans in agriculture, business, labor and government. Its suggestions were part of an outline of a proposed long range farm policy, a subject now under study by the agriculture committee of both House and Senate.

Meanwhile, Secretary of Agriculture Anderson said that "certainly he agrees with President Truman on the 'vital importance' of going without meats on Tuesday and poultry and eggs on Thursday. Reporters piled him with questions about his attitude toward the program because some of his remarks at a news conference in Chicago yesterday were interpreted by some reporters as depreciating the prospective actual food saving from meatless and eggless days.

It was on the basis of remarks attributed to Anderson there that President Truman was asked at White House news conference today (Continued on Page 2)

## College Enrollments Reported As 500,000 More Than Last Year

CINCINNATI, Oct. 10 (AP)—Total enrollment in the nation's colleges this fall probably will hit 2,500,000, an increase of 500,000 over the same semester last year and 50 percent more than the 1932 prewar fall peak, Dr. Raymond Walters, president of the University of Cincinnati, predicted today.

Dr. Walters, nationally known statistician of higher education, said preliminary statistics on full and part-time enrollment received from 120 colleges and universities show a "decided drop in the inflow of new veterans but an overflowing reservoir of total collegiate students," he continued.

"As compared with the first-time invasion of the colleges a year ago, there are fewer freshmen veterans of World War II on the campus this fall, the decreases ranging in general from 10 to 75 percent.

"However, a remarkably high proportion of the 1,900,000 veterans who entered college last year with federal payment of their tuition and subsistence did good academic work and have returned to upper classes this fall."

Dr. Walters made these comments on current full-time attendance by geographical sections:

"The colossus of the Pacific coast, University of California, reports 10 percent fewer freshmen veterans than last year but its grand total of 44,000 full-time students will exceed the 40,800 total of 1946, with 23,000 currently at Berkeley, 16,000 at Los Angeles and 6,000 on other campuses of the University.

"On the Atlantic coast, Colum-

## 10 Are Killed As Building In Chicago Burns

### Fire Believed Of Incendiary Origin Razes Apartment In Early A. M. Hours

CHICAGO, Oct. 10 (AP)—Ten persons, including six children and four women, were killed and more than a dozen others were injured early today in a fire which swept through a crowded four-story apartment building on the city's northeast side.

All of the dead and injured in the blaze, which police and fire officials said appeared to have been of incendiary origin, were negroes. Fourteen were hospitalized.

Firemen searched the smoldering ruins of the 16-apartment building after early reports had placed the death toll as high as 20.

More than 250 persons were reported to have been in the building at 240 West 45th street when the blaze broke out under a stairway on the first floor and spread quickly through the roof.

Fire Commissioner Michael J. Corigan said a charred can that smelled strongly of kerosene was found in the stairwell. He believed that the fire had been deliberately started.

Police griped the tenants as the flames mounted rapidly up the stairs, penetrating all 16 flats. At least one woman was killed and four other persons were injured as they plunged out of windows before firemen reached the burning structure.

Five tenants leaped into the firemen's landing net before a part of it was torn by the impact of a heavy man. A minute later a woman jumped into the net and was killed. Other tenants fled down the stairs or descended on a fire escape.

Two women and six children perished by suffocation or were fatally burned in third and fourth floor apartments. The dead children included two boys about 3 and 5, and four girls ranging in age from 2 to 15.

## U.N. Police Force Proposed For Use In Palestine Fight

### Gen. Clay Says Democracy Is On Defensive

WASHINGTON, Oct. 10 (AP)—General Lucius D. Clay, governor of the American zone in Germany, said today that Democracy is on the defensive in Europe and "nothing can survive by being permanently on the defensive."

Clay is back here to attend U. S. British conferences on occupation zone problems.

In an interview with reporters, he emphasized his belief that economic stability in Europe would be followed quickly by political stability.

"The 'little people' of Europe," said the general, "live under one of two terrors—'terror of a police state or 'terror of hunger and cold, and as long as they are in terror it's going to be pretty damned hard to establish a democracy."

He explained:

"At the present moment we are striving desperately in Central Europe to create conditions favorable to our concept of government, to a democracy in which no individual is assured of the preservation of his fundamental rights.

"In two and a half years Western Europe has been struggling with great difficulty to regain economic self-sufficiency. It has failed to do so because its economic output does not suffice.

"For this reason, he contended, Germany's industrial output must be raised to a point where she is self-sustaining through exports.

Gen. Clay in Europe, he said, would mean that in carrying on commerce "people everywhere" (Continued on Page 2)

## To Confer On Russian Situation

ARRIVING IN WASHINGTON by plane from Europe for conferences with President Truman and top officials of the State and National Defense Departments are U. S. Ambassador to Russia, W. Averell Harriman (left) and Lt. Gen. Lucius D. Clay (right), commander of American occupation forces in Germany. In rear is Robert D. Murphy, political adviser to Clay. The conferences are being held to discuss means of combating the Russian move to block the Marshall Plan. (International)

## U. S. To Deliver Policy Statement On Partition Saturday; Russia Is Undecided

LAKE SUCCESS, Oct. 10 (AP)—Generalissimo proposed today that the United Nations Assembly create a small country military force to be used against any "force which takes aggression against the people of Palestine." The Generalissimo delegate did not mention the Arab League nations forces now reported moving toward the Palestine borders.

However, he placed the proposal before the Assembly's 57-nation Palestine committee less than 24 hours after the Arab League Council announced in Beirut, Lebanon, that the seven Arab states had agreed to move troops to the Palestine borders.

Dr. Jorge Garcia Granados, chief delegate of Guatemala, made his demands after delivering a bitter attack on the exiled Mufti of Jerusalem, who joined yesterday in the Arab troop decision.

Garcia Granados, referring to the Mufti by name, declared "it is not possible for anyone to refrain from condemning his unambiguously, his cruelty, or the violent, unrelenting means that he employs on the destruction of human life that he practices."

The Generalissimo, departed from his prepared text to say he had asked from news dispatches that the Mufti was back in Beirut.

The debate before the General Assembly's 57-nation Palestine committee was resumed amid these developments.

A spokesman for the United States delegation said delegate Harold V. Johnson would deliver the American policy statement of Palestine tomorrow forenoon.

Dr. Herbert V. Evans, of Guatemala, said he was aware of developments abroad but expressed the belief that the Palestine debate would continue "in an orderly way."

A Soviet spokesman said (Continued on Page 2)

## Top AFL Leaders Strip John Lewis Of Important Job

### 15 Man Council Decides To Abolish Vice Presidents

SAN FRANCISCO, Oct. 10 (AP)—Top AFL leaders slapped down a defiant John L. Lewis today by voting to strip him and 12 other vice presidents of the "office" in the federation by which he was able to bar the door of the National Labor Relations Board to 1,500 tiny local unions.

Though not a "Red" sympathizer himself, Lewis refused to sign the affidavit required by the Taft-Hartley Act disavowing Communism. Unions whose officers don't sign, cannot use the National Labor Relations Board.

The little federal locals, with 300,000 members need the NLRB's protective facilities most among the AFL's big family of unions. Their national "officers" are the council members.

The 15-man council, over the opposition of Lewis, voted to do away with the offices of vice president, leaving only President William Green and Secretary (Continued on Page 2)

## U. S. Soldiers Are Unharmed By Two Jima Storm

### Typhoon Reaches 170 Miles Per Hour But No Deaths Result

IWO JIMA, Oct. 10 (AP)—Wind-weary American servicemen and their dependents emerged from storm shelters early this morning after 36 hours concealment from a vicious typhoon which howled across the battlefield island at speeds reaching 170 miles an hour. Correspondents flying here from Japan found no casualties or injuries among the servicemen and 24 dependent families stationed here.

But damage to installations was extensive. The winds smashed like giant hands on scores of buildings, tipped out the island's communications system and smashed the flagpole off Mt. Suribachi, linked in history with the U. S. Marines who captured this once-time Japanese bastion.

Major Strenv W. Nielsen, Knoxville, Tenn., the island's engineering officer, said roughly that the storm's havoc left at least six months' but the island commander, Col. Raleigh Macklin of Ottawa, Kans., was thankful (Continued on Page 2)

## Small Hurricane Is Reported In Caribbean Sea

### MIAMI, Oct. 10 (AP)—A hurricane hunting plane reported today that the winds in a tropical storm now centered in the northern Caribbean Sea are about 60 miles from Miami had increased to 50 to 60 miles an hour. The plane was piloted by Lt. Col. Arthur H. S. Wright, Jr., of the Army Air Corps, who was on duty at Miami. The storm was not received in Miami because of poor radio reception. The storm was placed by the plane at latitude 19.5, longitude 84.1, slightly farther north than the position given in a 10:15 A. M. advisory which estimated the winds at 30 to 40 miles an hour. It is expected to reach the vicinity of western Cuba late tonight. MIAMI, Oct. 10 (AP)—A tropical storm (Continued on Page 2)

## Bank's Labor Policies Blamed For Strike

### NEW ORLEANS, Oct. 10 (AP)—Labor policies of an "eastern investment banking house" are to blame for continuation of the four and a half month old strike of employees of the Southern Bell Telephone and Telegraph Co., it was charged today by the Americanized Association of Street Car, Electric Railway and Motor Coach Employees of America (AEM) representing the strikers. It was denied by a company official, who, asking that his name not be used, pointed out that the union staged frequent strikes against the company which began four years ago by Ben, official Industrial Loan Company, of Newark, N. J.

## Chinese Leaders Hail Bullitt's Plan For Relief

### U. S. Loan Of Over Billion Dollars To China Is Proposed

NANKING, Oct. 10 (AP)—Chinese leaders generally acclaimed today a \$1,500,000,000 U. S. aid program for China proposed by William C. Bullitt, former ambassador to Russia and France.

Government Information Director Hollington Tong said Bullitt's article in Life Magazine "is most timely and thought provoking."

"It is certain to help clear away any existing misunderstandings concerning the striking 'Aid'."

The Chinese also praised Bullitt's leader reaction in that Bullitt opened a discussion which is certain to attract wide attention in China and America.

Bullitt also proposed that Generalissimo Chiang Kai-shek be given the (Continued on Page 2)

## American Aid To Europe Is Called

### Soviet Economist Denies Truman Doctrine Post-War Aid

LAKE SUCCESS, Oct. 10 (AP)—A. A. Antonin, chief economist on the Soviet Union delegation to the United Nations Assembly's economic committee, today said that all forms of American aid to other countries were merely "a policy of direct exploitation for the economic and political enslavement of the countries which receive the aid."

Antonin, 47, said he was speaking in the Soviet Union's annual session of the National Economic Council, which is now in session in Moscow.

Antonin said the Soviet Union has no objection to the United States' policy of "economic and technical assistance" to other countries, but he said that such aid should be based on "mutual benefit" and "equality of exchange."

Antonin said that the Soviet Union has no objection to the United States' policy of "economic and technical assistance" to other countries, but he said that such aid should be based on "mutual benefit" and "equality of exchange."

## Krider And Lodge Throw Hats Into Commission Ring

John Krider, manager of the American Oil Company's plant here, and M. J. Lodge, grocery store owner and former city commissioner, qualified this afternoon to run for the office of city commissioner by the Nov. 4 primary election to succeed Mayor H. J. Gut and Commissioner George Bishop.

Mr. Krider, who during the past year has served as manager of the Sanford Baseball team, and who was largely instrumental in inducing the New York Giants to establish their farm training camp at the Municipal Airport this winter, declined to make any positive statements as to what he would do if elected as a commissioner.

"I will have to see what the problems are before I decide what to do," he said, "so that I can thoroughly familiar with what am to do upon. He pointed out that his home is here and that he was for anything that would help Sanford progress.

Mr. Lodge, who has previously served three terms as a commissioner, declared today that he felt that his former experience as a commissioner could help the city and that he wishes to see Sanford progress.

## 1912 Model T Ford Attracts Attention

A 1912 Model T Ford touring car, parked on First Street by V. A. Wheelless of Longwood, attracted considerable attention yesterday afternoon. It had an Iowa 1947 tag.

Especially interested were the youths who had never seen an automobile with high pressure wheels, oil side and rear lights, carbide generator for front head lights and rubber bulb to hook the horn.

Mr. Wheelless lived at Cresco, Iowa, for many years and ran a body shop. He said that he has owned the Ford for 25 years.

Earl Evans, a G. P. Grocery store manager, obligingly cranked the car for him. It started on the second turn and Mr. Wheelless and his family proudly drove away.

## Rev. John Branscomb To Address Rotary

The Rotary Club meeting Monday will be featured by an address by the Rev. John Branscomb, D. D. of the First Methodist Church of Orlando. He has been a member of the Kiwanis Club for over 16 years and is a former president of the Kiwanis Club of Tampa where he served several years as pastor of the First Methodist Church.

He is also the author of the column "The Amen Corner" which appears every Sunday in the Orlando Sentinel-Star.

## \$343 Taken In Week From Parking Meters

Receipts from parking meters during the past week made quite a pile of pennies and nickels on a table in the office of Miss Ellen Hoy, city tax collector. The collections had a value of \$343.09. During the week before the meter total was \$344.98, but this did not include Sanford Avenue.

Half of the parking meter receipts go to the M. H. Hodges Company, and at the present rate will be paid up by Aug. 1, 1948. After that time, said City Manager H. N. Sayer, the full amount of collections will go to the City.

## Election Of New School Trustees On Nov. 4 Arranged By School Board

The County Board of Public Instruction yesterday approved outlay of \$6,646 to pay for transportation of pupils during September. Of this amount, said Supt. T. W. Lawton, \$2,900 was for salaries of drivers, the remainder going for gasoline, oil, tires and bus repairs.

Designation of school board member districts and planning for an election of trustees on Nov. 4, was presented by the Board's attorney, Fred R. Wilson, and was approved. Three trustees will be elected by county-wide vote, no two of whom are to reside in any board member's district.

Districts designated are: No. 1, east Sanford; No. 2, Lake Mary, Longwood, Altamonte and surrounding area; No. 3, Oviedo, Blavia and Goldensrod; No. 4, Chulocka and Geneva; No. 5, west Sanford.

Since a new school member districts have been added, two new members who will serve until January, 1949, will be appointed by Governor Caldwell in the near future. This will result in a five member school board instead of the three member board consisting of L. E. Jordan, J. A. Blalock and Walter Haynes who will continue to serve their terms of office.

The Board voted to recommend

## Police Officers Are Taking FBI Course

Members of the Sanford police force under Chief Roy G. Williams, and County deputies under Sheriff P. A. Mero are all going back to school, and if they learn their lessons well, will be presented with diplomas by the Federal Bureau of Investigation.

The classes will be held during two hour periods on afternoons starting Oct. 14 and continuing through Oct. 31. C. B. Carson of the FBI is directing the school. Instruction will be by FBI personnel, by a local judge and by a Red Cross instructor.

The officers will receive instruction by L. O. Prior (FBI) on Tuesday in police courtesy and public relations. Other subjects will be the technique and mechanics of arrest, searches for missing persons by Paul Stoddard of the FBI; note taking and reports by J. R. Smith of the FBI; laboratory and scientific aids for investigators by E. H. Huff for the FBI; first aid by local Red Cross instructor; fingerprinting by L. O. Prior and firearms by Frank Dougherty, FBI. A local judge will outline the laws relating to arrests.

## Vid To Physically Handicapped Related At Lions' Luncheon

During the past 10 years more than 5,000 physically handicapped people have been rehabilitated through the State Department of Education's service and have been enabled to find profitable employment. Ralph K. Hood, vocational rehabilitation counselor, today told the Lions Club at the Tourist Center.

Prior to this service the total income of these aided amounted to about one million dollars a year, he declared, and since rehabilitation it has totalled six million dollars.

At present, the district office in Orlando has 10 men and women on their books for rehabilitation and job finding.

He cited a number of cases where physically handicapped civilians, old and young, colored and white, had been aided physically and enabled to find profitable employment. He was introduced by Dick Elsherry.

President Gordon Brisson of Rotary and Tom Hoonerville of the Orlando Lions Club were welcomed as guests. Lion Jack Morrison, was directed by Richard Deas, who presided, to make further investigations regarding the site for the Lions Thanksgiving dance.

## FOUND GUILTY

FOLKSTON, Ga., Oct. 10 (AP)—Wayne F. Woodruff, Jacksonville shipyard worker, today was convicted of the murder of Myron D. Suberland, Jacksonville sportsman, and sentenced to die in the electric chair Nov. 14.

## BACK FIRE

SANTIAGO, Chile, Oct. 10 (AP)—Police reported that shots were fired early today at the Soviet embassy, breaking shattered glass windows of the second floor apartment occupied by an attacking automobile and sounded as if fired by a machine gun, the report said. The shooting came about 24 hours after a government statement reporting Communist activities.

## Assard Is Elected Head Of Riding Club

Jack Assard, local life insurance agent, was elected president of the Dusty Boots and Saddle Club at a special meeting held Thursday evening at the home of Mrs. Edward Cameron on South Cameron Avenue. Of the Club's 8 members, 30 were present.

Other officers elected were: George Pittard of Lake Monroe, first vice president; D. L. Hendricks of Lake Mary, second vice president; Mrs. Herman Harriott, secretary; Mrs. A. L. Banker, assistant secretary; Miss Norma Hyland, treasurer.

## MARSHALL PLAN

PARIS, Oct. 10 (AP)—A cartoon in the independent L'Espresso magazine today depicted a French family at dinner. One of the children asks: "what are we having for dessert?"

"I am going to read you the Marshall Plan," the father replied.

The independently leftist Copbet pictured two American business men in an office.

"Have some gum," the first man says, offering a package.

"No, thank you," replies the other, "Europe first."

## V F W MEETING

Post 3223 of the Veterans of Foreign Wars will meet Monday evening at 7:00 o'clock at the Legion Hall, E. D. Scott will preside. The coming VFW convention in Orlando will be discussed. A report on the meeting of Sept. 22 at the Bayfair Inn will be given.

## ST. PETERSBURG, Oct. 10

(AP)—The Coastal Petroleum Company of this city, which started a test drilling last summer about three miles north of Cedar Keys in Levy county, today announced the discovery of 437 feet of a 30-foot stratum of wood-bine sand, the chief source of oil production in the east Texas field.

## TRACTORS ARRIVE

Roy Britt of the Britt Tractor Co. reported that eight tractors were unloaded Wednesday at the First Street crossing of the A.C.L. railroad. These will be distributed in Seminole, Lake, Orange and Volusia counties, he stated, and indicate much farm activity in these sections.

## TRUCKS ARRIVE

Post 3223 of the Veterans of Foreign Wars will meet Monday evening at 7:00 o'clock at the Legion Hall, E. D. Scott will preside. The coming VFW convention in Orlando will be discussed. A report on the meeting of Sept. 22 at the Bayfair Inn will be given.

## FOUND GUILTY

FOLKSTON, Ga., Oct. 10 (AP)—Wayne F. Woodruff, Jacksonville shipyard worker, today was convicted of the murder of Myron D. Suberland, Jacksonville sportsman, and sentenced to die in the electric chair Nov. 14.

## PADWAY FUNERAL

MILWAUKEE, Oct. 10 (AP)—Funeral services for Joseph Padway, general counsel of the American Federation of Labor, who died in San Francisco after suffering a stroke, will be held here Tuesday.

## FOUND GUILTY

FOLKSTON, Ga., Oct. 10 (AP)—Wayne F. Woodruff, Jacksonville shipyard worker, today was convicted of the murder of Myron D. Suberland, Jacksonville sportsman, and sentenced to die in the electric chair Nov. 14.

## BUILDING PERMITS

Joe Moss has obtained a city permit to erect two dwellings of concrete block construction on Scott Avenue near Fourth Street. One is estimated at \$9,000 and the other at \$7,000 in cost.

## TAFT PLEADED

CINCINNATI, Oct. 10 (AP)—Senator Taft (R-O) said today the Republican outlook for victory in the presidential election next year was "even better than it was in 1946."
