

## Ohio Wesleyan's Aerial Attack To Worry Tars

### Five Capable Pass Receivers Make Up Strong Offensive

DELAWARE, O., Nov. 15.—Rollins' college must check Ohio Wesleyan's powerful passing attack if the Tar Hoppers defeat the Battling Bishops when the latter make their first trip to the deep south next week to meet Rollins at Orlando on Friday night, Nov. 17.

The Bishops not only possess one of the best passing offenses in college football in Bert Brooks' fullback, but these five receivers count 'em rapid catches. Amongst the standouts are Little Jimmy Rector, 100-pound end, whose running catch of a Brooks pass gave Ohio Wesleyan its winning touchdown on the 20 to 16 upset over Miami of Ohio on homecoming day.

But opponents should not stop paying Rector they have helped the Bishop's aerial bombardment, they are not taken for granted. In fact, the Bishops' receivers were compelled to run a great deal of the time, for the other four Bishops were completed and went for 117 yard.

But these statistics show that the Methodists literally till the air with precision pretty often, too. They have averaged 22 passes per game with 13 being completed for 50 yards.

The Ohio Wesleyan squad will leave by train next Wednesday and will step off in Jacksonville Thursday night, returning the trip to Orlando Friday morning. Gibson Wright, Ohio Wesleyan University, Delaware, Ohio.

### THIS CURIOUS WORLD

### Local Group Attend Orlando Drug Meet

Dr. O. H. Meyers of the Touchon Drug Company and clerks, Albert Kelly and Ned Yancey attended the state-wide Retail convention held in Orlando yesterday afternoon and last night.

Approximately 100 proprietors and sales people from Rexall stores over the state gathered for the one-day affair. Matters pertaining to the management of stores and store technique were discussed at the convention.

### LOSES PELA FOR FREEDOM

TALLAHASSEE, Fla., Nov. 15.—Pete Kunkel lost a pelota freedom in the Supreme Court yesterday from a life sentence for murder. He was convicted of killing Lemora Crosswell, his former wife who he claimed threatened his life.

He struck three to earn the first touchdown himself, two to add a three and one eight yard gain for the six points.

The Bishop's long thrower passed the ball with Brooks twice. This is from the South. The Bishop's receivers were compelled to run a great deal of the time, for the other four Bishops were completed and went for 117 yard.

But these statistics show that the Methodists literally till the air with precision pretty often, too. They have averaged 22 passes per game with 13 being completed for 50 yards.

The Ohio Wesleyan squad leaves by train next Wednesday and will step off in Jacksonville Thursday night, returning the trip to Orlando Friday morning. Gibson Wright, Ohio Wesleyan University, Delaware, Ohio.

### Leslie Harnage Leads Baby Hatters To Win Over Tars

BULLY FIELD, DELAND, Fla., Nov. 15.—Leslie Harnage, point, the Hatters got the ball on their 20-yard line. Harnage, the backfield man for Central High School in Sanford and the Sanford Senior High Blackcat, yesterday beat the Stetson Freshmen to a 14 to 10 win over the Baby Red Foxes on Bullied Field.

Harnage passed to Ed Hughes, end, for a touchdown only two yards before the first half ended.

An intercepted pass thrown by Kenney of the Tars paved the way for a set up for the Baby Hatters as Ben Smith passed the ball out of the air on the Bullied 10-yard line and used the Baby Tars eight yard line.

On the first play, Smith tapped on the line when he'd been tackled to crash over. Harnage faded back and showed up to Hughes who snared it in the end zone.

Shortly after the second half began, the Baby Hatters countered another hard drive and scored the second touchdown. Following an early exchange on

the Bullied 20-yard line, Harnage got the ball on their 20-yard line. Harnage began showing then road driving power and then the funds have been allotted, according to Charles K. Dodd, consulting engineer.

Hids are now being received and will be opened Nov. 23, with work scheduled to get underway by Dec. 15. Dodd said. The project, designed to provide Sarasotans in unserved sections with soft water, will employ about 250 men for about five months.

## Statesmen Avow Against Colonial Demands Of Nazis

Jews Fear Outbreak Of Further Attacks On Heels Of President's Statement

Jan Smuts Hits Colonial Talk

States South Africa Will Fight Before Giving Up Territory

Jews In Germany Fearing Further Anti-Semitic Outbursts Today While That Nation And Germany's Colonial Demands Convinced the Statesmen of Four Other Countries.

Premier Daladier of France, colonial and dominions Secretary Malcolm MacDonald of Great Britain and General Jan Christian Smuts, commander of the Union of South Africa's war forces, all declared against giving back Germany's war-lost colonies.

The United States Embassy in Berlin sent a note to the German Foreign Office protesting last week's destruction of American Jews' property. The United States government reserved the right to take further action in the matter.

Bitter Nazi newspaper attacks on what it termed the American Jews followed President Roosevelt's statement that he "could easily believe" the anti-Jewish violence in Germany.

Daladier replied, in answer to various questions, that the French government had not even considered cession of colonies to Germany. MacDonald told the House of Commons his government authorized the announcement it "did not contemplate the transfer of any territory under British administration."

General Smuts, speaking at Maritzburg, South Africa, said the Union of South Africa would fight before relinquishing her mandate over Southwest Africa.

The German-Jewish commanded the British cabinet's attention as awaited reaction to a plan attributed to U. S. Ambassador Joseph Kennedy for exodus of most of Germany's 600,000 Jews to North and South America and

Antlers Will Hold Annual Banquet At Elks Club Tonight

The fifth annual Fathers and Sons Banquet of the local Antlers Lodge of the B. P. O. E., 1211, will be held tonight at 7:00 o'clock at the Elks Club.

The program tonight is one of the four ceremonial functions scheduled during the year by the Antler Grand Lodge here. The local Antler Lodge was organized in 1934 with Hollis Phillips as the first Exalted Antler.

The local organization is expecting the Exalted Antlers and members of the advisory councils of Dayton Beach and New Smyrna to be present tonight and being solicitations from their respective judges.

Approximately 75 persons are expected to attend the affair. The committee of women assisting Exalted Antler Herman Behols and his Antler Committee are Mrs. Henry Thurston, Mrs. Roy Tillis, Mrs. Her Packard, Mrs. William Johnson, Mrs. M. J. Lodge, Mrs. A. S. Pack and Mrs. E. C. Echols.

## Explanation Of State Chemist Celery Plan Testifies At Given Growers Citrus Hearing

Clayton Says Co-Operation Is Keynote To Success Of Vegetable Experiment

A thorough explanation of the celery acreage control program was given at a general meeting of growers and shippers in the Court House last night by H. G. Clayton, administrative officer in charge of the AAA in Florida and R. S. Dennis, state AAA representative supervisor.

Mr. Clayton, in tracing the history of the program, explained that if the growers do not co-operate with the year's program, it will be impossible to continue it for another year, since it is being conducted as an experiment. However, he added, if the program proves a success payment for leaving out acreage may be made by the Agricultural Adjustment Administration.

Along with the petition signed by a large number of growers, Mr. Clayton said he asked that every grower chosen by the National Agricultural Conference after it was decided to experiment with acreage control in a vegetable crop with a definite problem.

Choosing a 20-acre farm as an example, Mr. Clayton explained that the actual computation of payment is made on the number of crates produced rather than the number of acres left out. If the acreage goal of the 20-acre farm is 12 acres and the grower complies fully with the program, he will be paid 2 1/2 cents per crate for the celery he produces. It was pointed out, on the basis of the state average of 100 crates per acre last season, this would give the growers \$1200 per acre. 17 times this amount would give the grower \$201 for leaving out the three acres or an average of six per acre.

Mr. Dennis explained that Seminole County's goal had been set at 1,000 acres while the state's quota is \$6,000. He explained that it is a relatively simple matter to determine the quota for the state and the participating counties but added that for the individual growers it is more difficult. The method to be used in determining the goals of growers, he said, will be 15 percent of an average for three preceding seasons.

Mr. Dennis explained that Seminole County's goal had been set at 1,000 acres while the state's quota is \$6,000. He explained that it is a relatively simple matter to determine the quota for the state and the participating counties but added that for the individual growers it is more difficult.

The method to be used in determining the goals of growers, he said, will be 15 percent of an average for three preceding seasons.

Chadwick made public at a conference of the legion department commanders and adjutants a letter he had sent to Miss Perkins.

The letter quoted resolutions passed at the Legion convention in Los Angeles in September demanding Bridges' deportation and charging labor officials had failed to enforce the immigration laws.

Mr. Engel met with Mayor Edward Higgins yesterday afternoon but nothing was definitely settled as Charles Bradshaw, owner and president of the San-Ford Baseball Association, was out of town. It has been rumored that Mr. Bradshaw might have a hookup with the Atlanta Crackers so Mr. Engel thought it would be wise to contact Mr. Bradshaw first.

Mr. Engel stated that he would like to train here in Sanford and that he would also like to have a working agreement with the local athletic organization.

He decided that if plans were made for his coming here he would probably bring approximately 40 or 45 men to Sanford. He was looking over hotel rates yesterday morning but made no statement as to where the club would make its headquarters. Mr. Engel and Mr. Broxton plan to stay about three days in Sanford before returning to Chattanooga. Both Engel and Broxton viewed the Municipal Park yesterday.

WASHINGTON (AP)—Mary Pickford told the National Women's Press Club recently that Hitler is "mad as a March hare" and that the United States must "arm to the teeth" to protect democracy.

## Newly Planted Golf Greens Opened For Play At Sanford Country Club

With the opening of the newly planted greens at the Sanford Country Club the rounds of play showed a considerable increase over previous weeks during the weekend, according to Manager A. C. Fort who stated that those playing the course had spoken highly of the improvements which have been made.

Making the course one or more times during last week were:

G. D. Workman, H. H. Colman, J. L. Ingley, Otto Goldwell, E. F. Housholder, E. J. Toll, Palmer Eastwood, C. G. Whittington, B. C. Moore, F. D. Scott, Roy Symes, Fred Bell, Joe Mors, Ralph Stewart, Raymond Lundquist, John Cole, Karslile Housholder, and E. M. Laney.

Dr. G. S. Selman, Dr. D. G.

Westbrook Says Arsenated Fruit Is Not Mature Even If It Passes Tests

Westbrook says the arsenic which has been used in fruit is not effective against insects of the citrus industry. Agricultural Commissioner Frank Westbrook, in charge of the Bureau of Entomology at Winter Haven, said he stands by the findings of the Florida Citrus Commission.

Mr. Westbrook has just finished the citrus experiment which was conducted in the fall of the year. He found that the results of the experiment were not conclusive.

Mr. Westbrook said the results of the experiment were not conclusive. He found that the results of the experiment were not conclusive. He found that the results of the experiment were not conclusive.

**BIBLE VERSE FOR TODAY**

**WEEK THE 48TH** Shake thyself from the dust, arise, and go down to Jerusalem; loose thyself from the bands of thy neck; O captive daughter of Zion. Isa 4:22.

**MARIA INTO MARY**

From spirit  
Long have I bounded up and down  
Bedded the sholt and scraped the rust,  
Knotted my brow in such like frown.

At pretty fault of warts and dust—  
Ah, I have counted every crag—

And as I drudged I heard a call—  
"See, Mary, here thy better part!"

Then I let loose and drift full  
And felt the beating of thy heart—

Lord, hast Thou set me too apart?  
Shall I live in the darkling wood  
And hear my brother birds to bed?

Shall I live by the spirit's food  
Sun-bake and star-dust make my bread—  
Feed as the prophets once were fed?

**Better to beg my bread and rove**  
Then turn a soul into a slave;  
A thief, a pokey boy? If love  
Be Industry's alternative  
Let me be idle, Lord, and live—

—MARGARET M. ZOGRAHAM

**COUNTERPOINT**  
(From Spirit)

Accept the heart—  
Let body wait its turn.  
He burns less singly than  
The heart can burn.

His rocket will descend  
A sunburst shower,  
Unless he waits for heart  
To call the hour,

Accept the heart  
And body will impart  
His sweet incense service  
To the heart.

—MARY BALLARD DURYEE,

The absence of cool weather so far this Fall has dulled enthusiasm for hunting among local timbermen, but it is easy to say that the opening day will find no diminution in the number of shot gun shells consumed.

The intricate system maintained by the government to warn against hurricanes has been discontinued for the season. Florida was warned, and prepared and was passed up by a hurricane that laid waste to New England which was caught unawares.

The greens at the Sanford Country Club have been re-opened following work of sowing ryegrass. They are in excellent condition, and even if a person does not play golf, the appearance of these beautiful areas of greenward is sufficient to attract sight-seers.

The re-organization of the old Tennis Club is an excellent thing for Sanford. Any awakening of interest in sports and any effort towards providing facilities for our people to participate in athletics is a reassuring and healthy sign. We would all be better off if we would go to the tennis court, the golf course, the fishing stream, or the woods to hunt instead of standing on the corner boasting about "conditions."

Sanford spirits might have been described as being "down in the dump" last summer but during the last thirty days there has been a noticeable trend of public opinion towards the optimistic side. We are approaching a winter season that offers every opportunity for greater advancement. Florida stands to have its greatest tourist winter, and Sanford, with its mind made up to attract tourists, will be fully prepared this winter. Mr. Owen of the Florida Pub-

**Start Early**

"Do your Christmas shopping early," is a trite expression. It is not only well to advise the public to make up its mind, and do its purchasing before the last minute comes, but it is also wise for the merchant to encourage early Christmas shopping in order to assure the maximum of purchases and to thwart appeals which will be made from stores in neighboring towns.

It is common sense that at the Christmas sport is generated the buying spirit, which is closely allied to the Yuletide season, will be accelerated and our business then will reap greater rewards.

There can be no doubt that Orlando stores will put on the pressure they can to lure Sanford customers, and it behoves us to get the jump on them. The sooner we begin to put up Christmas decorations, lighting effects, etc., and the sooner we begin to charm up enthusiasm over Christmas, the more the public will buy.

There is no way of estimating how many purchases are lost because tardy shoppers just didn't have time to get everything done. This isn't entirely the fault of the shopper, for it is the duty of the merchant to keep him away from the public in an effort to stimulate early hopping. The campaign should be so vigorous that no one could offer the excuse of insufficient time.

The best way to stop the trek to Orlando is to let the people know that we have just as good products here at home, that our prices are "right," and that we are anxious to make sales. And the best way, we feel, to do this is to advertise the facts.

**Teach The Young Safety**

Realizing that no commodity finds such a poor market as a regulation given to young people, the director of the Amusement Parks and Playgrounds Association, Stan Bouchard, and Constable Arthur Lefebvre of the Traffic Bureau have adopted a new system which has attained remarkable results in curtailing accidents involving children.

According to a report from Canada's metropolis, the two men are believed to have done more in a few months to guard children than others have accomplished in years.

For the past three years Constable Lefebvre has been making the rounds of Montreal, talking to classes of boys and girls about traffic safety, and how they should conduct themselves on the street. He made a special safety traffic movie film which shows the right and the wrong way to cross streets.

"Three years ago before this educational work was commenced there were 1,706 children involved in Montreal street accidents. The next year there were 36, the year following 47."

Such a record cannot help but make us stop and think. It reaffirms strongly our belief that the main hope in reducing traffic accidents lies in teaching the young people in our schools the fundamental principals of safety and doing it in such a manner that the children will look upon the instruction not as work but as a game.

**OVIEDO**

Mr. and Mrs. George W. Ross of Ft. Myers were visiting friends in Oviedo Sunday.

The Methodist Church observed its annual homecoming day Sunday. There were people present from Trenton, N. J., to Bradenton, and a large number from Orlando, Orlando and other nearby towns. At the close of the noon service they served a picnic dinner to some 300 or 350 people. After an hour of social visiting among friends the congregation assembled in the church auditorium and enjoyed a love feast and the singing of "old time church songs."

At the Baptist Church, Sunday night, Pastor Day preached a sermon on "True Patriotism." After the sermon the ordinance of baptism was administered by the pastor.

W. A. Ward made a business trip to Orlando Monday.

The election passed off quietly Tuesday with little interest shown by a large number of our citizens. Mr. and Mrs. D. A. Deardorff of Valdosta, Ga., arrived Tuesday. They are the guests of Mr. Deardorff's sisters, Mrs. A. D. Covington and Mrs. Orien Hunt.

P. M. Jones has arranged for "Old Glory" to fly from the post office to the city in the future.

**OH, SAY CAN YOU SEE!****Post Election Conclusions**

WASHINGTON, Nov. 16.—(UPI)—

Now that the election has definitely taken place Republians are going to take their Republians to the experts who know their cause and economic and who can tell them what they gave up in conclusion.

When the 72nd Congress comes to town in January, President Roosevelt may well propose in general terms to broaden his domestic and foreign policies and offer protective legislation or the militant theory that the best defense is an offense. Actually that means no offering of vital laws, but an alert defensive stance, backed by the power of the presidential veto.

The revitalized Republican minority must take the offensive, possibly aided by immigrant Democrats from the South and West. Otherwise the forces of Wagner charges that AFL craft workers are unfairly penalized. The President is pictured by some of his advisers as opposed to any amendment that would slow up the unionizing process that has so far taken 10 million of the nation's 50 million wage earners under the protective wings of the Wagner law.

There are six timely and important policies of the government available for purposes of political issue-building—national defense, farm control, labor and unemployment relief.

Naturally the Republicans will fire away at all of them occasionally, but the experts see their heavy salvo relieved for now by employment relief and labor.

The reason: the November swing was distinctly toward the conservative side of the political spectrum. Of all New Deal reforms, labor and unemployment relief swung furthest toward the radical side.

Here are the six big issues for the new congress in January—and for 1940—streamlined by experts in the fields:

**Unemployment Relief**

The federal government should turn the relief problem over to the states and cities under a federal aid program, modeled after the federal highway and social security blueprints. States would match federal aid dollar for dollar, a special federal fund would supply extra money for states unable to keep up with the procession. Republicans say (a) that the government relief effort has been pouring money into communists groups and Democratic political machines, (b) that the responsibilities of states and cities should be increased to end the trend toward "national dictatorship," and (c) that the states should raise more money for relief.

**Democrat**

Some New Dealers suspect the Republican swing out west was due to the vote of farmers and "malcontents."

The New Deal farm planners figure 40 percent of the farmers are malcontents—mostly those who did not participate in the 1933 crop control program.

They note that the administration's combination system of the ever-normal granary loans, and control of crop through quotas. Why offer an immediate program of their own, when political history says that no party has yet carried the farm bill any distance at all?

**Democrat**

Some New Dealers suspect the Republican swing out west was due to the vote of farmers and "malcontents."

The New Deal farm planners figure 40 percent of the farmers are malcontents—mostly those who did not participate in the 1933 crop control program.

They note that the administration's combination system of the ever-normal granary loans, and control of crop through quotas. Why offer an immediate program of their own, when political history says that no party has yet carried the farm bill any distance at all?

**Republican**

President Roosevelt will probably act on the theory that if it fails to renew it he probably change the vision of the fallow field to hold that threat against inflationary nations with a reasonable profit of our exports and markets. The President might try throwing tax revenue into the pockets of the two competing wings of labor. Proposed amendments would permit employers to invoke the law, prevent union coercion and impose financial penalties on recklessness.

**Democrat**

President Roosevelt has publicly agreed with AFL's conservative William Green that the administration's policy should be constantly re-examine the Wagner act to keep it from becoming a burden on agriculture, or both, lasting 10 days or longer, before either the employees or the railroads can invoke the nation's basic transportation law.

**Social Security**

The Republican party, in contrast to social security, is committed to sound economy in matters of principal and of importance are the long-term financial experts expect the Republicans to sponsor a drive to cover all the classes of old people, the present law overlooks,即 farm workers, domestic servants, agricultural workers, sailors, and government employees. They will now renew their former efforts to expand the old age reserve account in the treasury on the ground that it represents half-side will be very sure of public opinion before tying up transportation.

Here's what happened this year:

On May 12, one six months ago the railroads announced their intention to cut wages 14 per cent on July 1. The workers objected. Then the National Mediation Board came into the picture. That meant more conferences. When they failed to produce a settlement, the mediation board suggested arbitration. The workers balked.

On August 31 the board notified the President that its services had been finally rejected under the law, that froze the dispute right where it was for 30 days.

Nearly four months had already passed without a wage or strike and another month of peace was assured.

Then the President, acting under the law, appointed an emergency board to investigate further. The emergency board conferred with both sides and held hearings at which both sides had their say in public.

On October 29, the emergency board reported to the President that it found no ground for a wage cut. Again, automatically, the law provides another 30 days, ending on November 28, during which final period no strike or wage cut can mar the smooth performance of railroad service.

Meanwhile, the public has been and is being bombarded with the facts or opinions of any group with a mind to speak up. This has been going on for six months. If any large section of the public had suspected skullduggering.

Money And Taxes

Intimating that the Republicans would incidentally provide political spending for all these new Republican governors, the Democrats propose to retain any alteration of the WPA relief pattern under which Federal Relief Director Harry Hopkins shifts quotas of men and federal money from state to state as he thinks they are needed.

That would add fuel to their argument that they want to end

**Public Opinion Wields Power in Influencing U.S.A.****It Was Chief Factor in Halting Threatened Rail Strike**

By MORGAN BEATTY

WASHINGTON, Nov. 16—

If you would understand the power of public opinion in the United States, have a look at the kind of bargaining that took place in the negotiations of the railroads.

So in 1934, before the mediation law was passed, the Railways Act of 1934 was amended to afford the railroads a chance to bargain.

Public opinion must be strong.

This powerful state of affairs has been the rule of the railroad industry ever since Congress passed the little understood Railway Labor Act of 1936.

That law is so constructed that the American public, the railroad industry and every individual dispute threatening to interrupt the service of the railroads. This year's strike that hasn't happened is a perfect example of how the public does its work.

Here's how the act works in general.

It makes it a criminal offense to interfere with the organization of employes into unions or brotherhoods that assure representation before the railroads' management and management.

Every dispute goes through a painstaking series of conferences or hearings, or both, lasting 90 days or longer, before either the employes or the railroads can invoke the nation's basic transportation law.

For all these conferences and hearings, mean newspaper headlines and editorials, and create discussion. John Citizen gets to know what's going on. And the big back of the law was that if the public knew all the facts, it would decide the winner of a strike or lockout and that therefore each side would be very sure of public opinion before tying up transportation.

Here's what happened this year:

On May 12, one six months ago the railroads announced their intention to cut wages 14 per cent on July 1. The workers objected. Then the National Mediation Board came into the picture. That meant more conferences. When they failed to produce a settlement, the mediation board suggested arbitration. The workers balked.

On August 31 the board notified the President that its services had been finally rejected under the law, that froze the dispute right where it was for 30 days.

Nearly four months had already passed without a wage or strike and another month of peace was assured.

Then

## Social And Personal Activities

MARY MAXWELL, Society Editor

### Social Calendar

**WEDNESDAY**  
The regular monthly business meeting of the Congregation Beth Israel will be held at the Jewish Community Center at 8:00 o'clock.

**THURSDAY**

Seminole County Federation of Women's Clubs will hold a meeting at the Longwood Civic Center from 10:00 A. M. to 1:00 P. M. Guest speaker at 2:00 P. M. will be Dr. Helen Cole of Nantucket, Mass., and Winter Park state chairman of international relations. Members of all federated clubs in the County are invited.

Seminole Chapter No. 1 of the S. S. will hold its regular meeting at the Masonic Hall at 10:00 A. M. All past patrons and guests with be honored.

**FRIDAY**  
St. Hildegard Chapter, Women's Auxiliary of the Holy Cross Church will attend Communion at 9:00 A. M. which will be celebrated by the Rev. and Martin Baum.

The Brotherhood of the First Baptist Church will meet at 12:15 P. M. at the Valdez Hotel.

Dorcas Circle of the First Baptist Community Church will hold its annual afternoon luncheon and bazaar on the church lawn corner of County Club and Upala Roads at 2:00 P. M. until 6:00 P. M.

A nature walk sponsored by the Sanford Garden Club will be held at corner of Sanford and Geneva Avenues at 7:00 A. M. All members of the club are urged to attend and bring their friends. Public is also invited.

Salle Harrison Chapter of the D. A. R. will hold its twentieth anniversary meeting at the home of Mrs. Martin Baum, 818 Palmetto Avenue, with Mrs. J. H. Root and Mrs. A. L. Betts as hosts.

The Ladies Auxiliary of United National Association of Post Office clerks will meet at the home of Mrs. Ed Lambert, Palmetto Avenue, at 8:00 o'clock.

**SATURDAY**

Turkey dinner from 5:00 to 8:00 P. M. at the Episcopal Parsonage served by the Women's Council of the Christian Church.

**MONDAY**

A mission study class of the W. M. S. of the First Baptist Church will be held at 10:00 A. M. in the church annex. The book "For This Cause" by Isabelle Coleman will be taught. All Baptist church women are urged to attend. A covered-dish luncheon will be served.

**PLAN NATURE WALK**

The Sanford Garden Club is sponsoring a "nature walk" Friday morning. Members and their friends who are interested in attending are asked to meet at the corner of Sanford and Geneva Avenues at 7:00 o'clock. The public is also invited.

### Church Young People Meet Tuesday Night

The Young People's League of the First Methodist Church had a meeting last night with Misses Denoux, Anna and Gwendolyn Hayes, hostesses in their home on Ninth Street.

The meeting was called together by the president, Randolph Priest. Business was carried on as usual under Plans were made for a hay ride to be given next month and it was announced that the next union meeting would be held in Daytona Beach on Dec. 12.

The following committee appointed worship committee, Mrs. Donna Morgan, chairman; Mrs. E. Evans and Randall Priest, admission committee, Mrs. Chapman, chairman; Mrs. Ferguson, Miss Gordon, Miss Betty Alderman and Mrs. Helen Quarterman; evangelism committee, Miss Mary Holden, Miss Helen Kane, Miss Evelyn Ferguson and Miss Gwendolyn Hayes; decoration committee, Miss Carolyn Schenck, chairman; Mrs. Duncan, Franklin Bingham and Jimmie Reardon; social service committee, Miss Dorothy Hays, chairman; Miss Irene Williams, Miss Betty Alderman and Jimmie Reardon; leader committee, Mrs. Randall Priest, chairman; Walter Wood, Miss Mary Holden and Miss Sheila Williams.

At the close of the meeting a social hour was offered and refreshments were served. Contests were won by Miss Helen Quarterman, Miss Helen Shucker, and Mr. and Mrs. Don.

Those present were: Mrs. and Mr. Don Urey, Mr. and Mrs. Priest, Miss Quarterman, Miss Lydia Ferguson, Miss Mary Holden, Miss Betty Alderman, Miss Chapman, Miss Essie Evans, Mrs. Shumaker, Miss Charlotte Oliver, Miss Iris Schaefer, Miss Irene Williams, Miss Sheila Williams, Franklin Bingham, Jimmie Reardon, and Mr. and Mrs. Duncan.

Mr. and Mrs. E. A. Vining, former pastor of the First Methodist Church, and Mr. and Mrs. Randolph Priest, chairman of the First Methodist Church, turned to the visitors after spending a few days here with her parents, Mr. and Mrs. A. Vining.

Among those in attendance were Frank Morgan, Mrs. Frank Morgan, Mrs. John T. Johnson, Mrs. McLean, Mr. and Mrs. Harry and Mrs. McLean, Mr. and Mrs. Don.

Mr. and Mrs. C. A. McRae, local leaders of the Boy Scouts, were present.

Mr. and Mrs. E. A. Vining, student at the State College for Women in Tallahassee, spent a weekend at the apartment of his parents, Mr. and Mrs. J. O. Adams.

Miss Francis Hughey and Mr. and Mrs. E. Bradley, Mr. and Mrs. Henry English, Mr. and Mrs. Edward Kelsey, Miss Anna Beville, Mrs. J. W. Poll, Mrs. E. B. Smith, Mrs. Charles A. Strickland, Mrs. Julie Peeler, and Mrs. Ellen Betts.

Also, Mrs. H. A. Beck, Mrs. Myron Smith, Mrs. I. A. Tate, Mrs. S. C. Graham, Mrs. George Stuart, Mrs. J. E. Stempel, Mrs. J. W. Vickery, Miss Tina Vickery, Mrs. Jessie Bradley, Mrs. L. L. Floyd, Mrs. L. S. Wilkins, Mrs. G. N. Bates, Mrs. Louis E. Garner, Mrs. Homer W. Little, Mrs. Herman Morris, Mrs. J. P. Holtzclaw, and Miss Loren Franklin.

A bread and yeast-raised pastry seems to keep fresh almost indefinitely if promptly cooled to 30 degrees Centigrade in a carbonic acid atmosphere. German scientists find.

Mr. and Mrs. W. L. Hughey had as their dinner guests on Armistice Day Miss Francis M. Hughey of Miami, Mr. and Mrs. Purdy, Mrs. Florence Wells, Miss Esther Louise Hughey, Eugene St. John, Mrs. and son, Lewis L. Hughey, and son, Lewis L. Hughey Jr.

## 'Gators To Be Underdogs In Game With Tech

### Jackets' Powerhouse Expected To Overpower Floridians

GAINESVILLE, Nov. 16.—It would take an extraordinary person to see anything hopeful in Florida's grid assignment this week in Atlanta.

Georgia Tech's sensational 11-11 tie with Alabama last Saturday speaks its own powerful eloquence in behalf of the Yellow Jackets, and bodes no joy for supporters of the Florida Gators.

Then too, no Florida team has been able to win from Tech on Grant Field since that memorable afternoon in 1936 when an underdog Gator eleven rose up in an amazing way to route the Jackets 5 to 7.

In fact, Georgia Tech took that defeat so much to heart that it has been tough on the four Florida teams that have played in Atlanta since that never-to-be-forgotten November 25 full game.

At home, since 1930, Florida has not done so poorly against Tech, winning 13 to 12 in 1931, and losing 6-0 in 1932 and 12-0 last year, but up in Atlanta the Gators have had it mighty tough, beaten 23 to 0 in 1931; 19 to 7 in 1933; 20 to 6 in 1935 and 38 to 11 in 1936.

The last two times were mighty bad for Florida, the jackets putting up a total of 77 points, and

## Local Man Attends Dairy Short Course Held In Gainesville

James Bradford is attending the short course being conducted by the Dairy Department, University of Florida, Gainesville. The course is open to all operators of milk and ice cream plants, and is under the direction of Professor L. M. Thurston, dairy technologist, assisted by Prof. A. D. Burke, head of the dairy department, Auburn, Ala. Prof. Burke is considered one of the leading authorities on the manufacturing of ice cream in the country.

During the past week, the morning sessions were devoted to lectures on the production, testing, composition, and pasteurization of milk, the making of cul-

tivating the Gators meanwhile to 20.

Tech's own 1938 powerhouse tradition, as well as the Grant Field jinx, combine to offer no promising picture for the Orange and Blue this week.

Georgia Tech was good enough to play a 11 to 6 game with the nation's No. 1 team, Notre Dame, and those who saw the game say the Jackets played well enough to have earned a tie, or possibly to gain a victory in that tilt. They held the unbeaten, unscorched on Duke team to a 6-6 win, and beat Auburn, the team that last Saturday wallowed L. S. U.

The dopesters say Florida is in position to get one of its worst beatings in years in Atlanta Saturday.

It might be said of Paul Christman that he has a fine grip on football. The 202-pound sophomore passed, punted, and piloted the University of Missouri Tigers into national spotlight.

## Few Objections Made To Proposed Project

BRADENTON, Nov. 16.—(AP)

Scattering objections from farmers to the city's proposal to construct a weir dam across the Braden river at Osprey as part of its plan to give Bradenton soft water were voiced at a public hearing yesterday at the city hall conducted by army engineers from the Jacksonville division office.

Also in attendance at the sessions are Prof. John M. Scott, chief milk inspector, inspectors Alex G. Shaw of Tampa, and Dr. H. H. Rothe of Gainesville.

James Bradford is a graduate of the Seminole High School in the Class of 1937, and since that time has been connected with the Seminole Creamery Co.

The objections, made in oral form, dealt primarily with possible damage that might be done farm lands by backed water but most of the objectives seemed satisfied when told the department's permission to construct the dam would not relieve the city of any responsible for damage that might result from its construction. Others favoring the proposal urged that permission for the work be granted.

The engineers made it plain the government was interested only to the extent of navigation in the river and the testimony in Supreme Court.

## Tennis Devotees Ohio Wesleyan's Re-Organize Club, Bishops Plan To Select Officers Use New Offense

### Plans Are Made For Placing Courts In Playing Condition

The Sanford Tennis Club was reorganized last night when a large number of tennis enthusiasts met Wednesday afternoon on its 1,200-acre trip to Orlando, where on Friday night the Battling Bishops will meet Rollins College in an intersectional game.

The group will have the two courts at the Water Plant for their use. The City and the NYA are going to rebuild the two courts and they will be ready about February. However, the local organization is making plans to get permission to play on the courts.

Seminole High School.

The club elected its officers last night and R. A. Smith was named president with Dr. T. F. McDaniel as vice-president and Miss Margaret Wright as secretary and treasurer.

G. L. Ash, city recreational director, spoke during the meeting and reported that the city and NYA were going to help with the upkeep. The city will turn the courts over to the Tennis Club and the NYA will keep two boys there to do the work.

The club decided to have two divisions of the organization, the senior division and the junior division. The junior section will be made up of youngsters between the age of 12 and 16 year old.

The members present last night decided to limit the club to 100 members, 25 junior members and 75 senior members. The present officers will serve for six months and it was also planned to hold the next meeting on Nov. 29.

### ACCEPTS APPOINTMENT

WASHINGTON.—(AP)—The War Department announced An drew Jackson Brooks, Jr., 919 East Gadsden St., Pensacola, had accepted appointment as second lieutenant, infantry reserve, in the officers' reserve corps.

Brooks has thrown 129 of the 180 passes attempted by the Bishops this year. Of the 180, a total of 81 have been completed. While Brooks has averaged better than 500 on his throws, the other passers have only a 115 percentage, but Gaither still thinks it is better to use an occasional ineffective slinger than to force Brooks to take all the punishment that passers receive.

Brooks missed one entire game because of injury and played only a few minutes in another, so his remarkable record was rung up in six of the Bishops' eight games. This means, then, an average of better than 10 completed passes for more than 100 yards in each game in which he has participated. It is no wonder that

**EX-CUBAN NEAR DEATH**  
NEW YORK—(UPI)—Gerardo Machado, former President of Cuba, died last night in Doctors Hospital, while Colonel Eugenio Batista, who led the revolt which overthrew him, toured New York. Machado was taken to the hospital about a week ago.

## Judge Denies Mistrial Move In Bribe Case

Defense Asks Retrial On Grounds Of Infringement Upon Religious Freedom

Expert Implicates Power Firm Head

Grady Says Compromise In Rate Case Suggested By Banks

MIAMI, Nov. 17.—(AP)—A defense motion for a mistrial based on the infringement of constitutional freedom was denied by Circuit Judge W. M. Murphy today after the prosecution argued that Thomas E. Grady, electric rate experts charged with soliciting a bribe, what claim he would make on a particular Sunday.

Grady took the witness stand for the second day to continue his testimony after denying that he solicited the bribe and charging that Bryan C. Daniels, president of the Florida Light and Power Company, on whose word he and two other city officials were indicted, had himself suggested a \$300,000 payment to compromise a rate case.

The rate expert told a jury that on one Sunday when he was alleged by the prosecution to have been in the Florida Keys he actually was in Miami attending church.

County Senator Robert B. Taylor interrupted to ask what church he attended.

The defense counsel leaned up to demand a mistrial, asserting the question was in violation of Grady's constitutional right of religious free dom.

"I asked the question as a preface to an attempt to impeach Grady's testimony," Taylor asserted.

The court upheld him and denied the motion.

## Bestiality Of Pagan Hitler Is Attacked At Meet

BOSTON, Nov. 17.—(UPI)—Comdemnation of the "bestiality" of "the Pagan Hitler" was expressed yesterday by the Massachusetts governor's council.

The attack was made in a resolution recommended by Governor Herbert and adopted by his council of one Jew and seven Gentiles. Simultaneously, Harvard and Simmons college students at mass demonstration wired resolutions to President Roosevelt supporting his criticism of the anti-Semitic drive in Germany.

Praising Roosevelt for championing the cause of the German Jews, the resolution of the governor's council read:

"The world must rally to the side of our noble President who demands justice and fair play for the victims of Nazi barbarism and an opportunity for them to resettle elsewhere with the help of the great nations of every continent."

The student demonstrations, sponsored by the American Student Union and addressed by faculty and student body members, urged Roosevelt to help Jewish refugees find homes in the United States and Great Britain.

PATROLMAN LAGUARDIA ON DUTY

## Lookouts To Hold Spring Training Here

President Of Chattanooga Outfit Makes Final Arrangements With C. E. Bradshaw

CHATTANOOGA, Tenn., Nov. 17.—(UPI)—President of the Chattanooga Outfit, C. E. Bradshaw, has made final arrangements with the Cincinnati Reds to hold their spring training here next year.

Bradshaw left Cincinnati yesterday morning to attend the annual meeting of the National League, which is to be held here Saturday. He will be accompanied by the general manager of the Reds, George Kell, and by the world champion manager of the Boston Braves, Fred Haney.

The Lookouts will remain in town about two weeks before starting their regular season, before the opening of the Southern League.

Tommy Jeff, general manager of the Lookouts, said the team will be housed in the Hotel Dixie, which has been recently renovated.

## Senator Murphy Slight Industrial Says Arsenic Use Decline Forecast Is Detrimental For Early 1939

Roberts Testifies On Note Of Caution Injected Into Business Optimism

WASHINGTON, Nov. 17.—(UPI)—A prominent federal economist forecast today a note of caution for business in early 1939, but said the economy expected a high and sustained industrial downturn in the first quarter of 1939, followed by the expansion of industry in the second quarter.

Sen. George W. Norris, Democrat of Nebraska, told the Senate Select Committee on Small Business yesterday that the economy was likely to expand in the first quarter of 1939, followed by a period of stagnation and then a sustained industrial downturn in the second quarter.

He estimated that industrial production as measured by the Federal Reserve Board is now back to 100 percent of the 1924-25 average, up 20 points from the 1938 low of 60 in May and 12 points higher than a year ago.

Sen. Norris characterized the economic process used in early 1938 as a fraud on the public.

Mr. Roberts in his testimony outlined the results of an experiment conducted while he was employed at the Werner Brügel laboratory of the Inspectorate Bureau and said that the principal effect of arsenic when used on the trees was to reduce the acidic acid content. He reiterated the assertions of George Westbrook, Jr., chemist who testified previously, that although the arsenated fruit would pass the maturity test, the fruit is immature and lacks the proper acid which is essential to the distinctive flavor of the fruit.

The chemist also testified that although arsenic is present as an impurity in copper sulphate material, it is not present in sufficient quantities to be detected.

Demonstration Group Elects Its Officers

Mrs. B. D. Gray of Longwood was elected president of the Seminole County Council of Home Demonstration Clubs at a quarterly meeting Tuesday in the Geneva Community House, home demonstration agent Mrs. Gladys Kendall reported today.

Others named to offices for the coming year were Mrs. Joe Avent of Longwood, first vice president; Mrs. J. W. Yarborough of Geneva, second vice president; and Mrs. R. B. Radford of Forest City, secretary and treasurer.

Plans were discussed for an exhibit some time near Christmas to display the achievements of the senior clubs. The value of keeping more accurate records of demonstration work was stressed by Mrs. Kendall who said representatives from all the clubs of the county were present for the meeting.

### ELECTION LAW PROBE

ALBANY, N. Y.—(UPI)—Gov. Lehman ordered last night a special Supreme Court investigation of the election law in Albany County, a campaign target of his defeated Republican gubernatorial opponent, Thomas E. Dewey.

## Zoo Will Undergo Renovation, Repairs

NANTES, France.—(UPI)—The national congress of the General Confederation of Labor, representing 5,000,000 workers, yesterday adopted a motion opposing the Daladier government's economic and financial decrees promulgated last Saturday.

A few cages are to be constructed to house the cub and other animals which are expected to be added to the present collection.

J. C. Calhoun, operator of the information booth and also the registrations, said this morning that approximately 400 non-residents have visited the zoo and that hundreds more are expected with the next month.

JAPANESE TANK BLOCKS OPEN DOOR

## TVA Navigation Kennedy Rules Season Is Figure Too High, Not Open For Coot Hunting Engineer States

Committee Told Yardstick Damaging Private Competition

WASHINGTON, Nov. 17.—(UPI)—A committee of the Senate Select Committee on Small Business, headed by Sen. George W. Norris, has voted to oppose the TVA navigation plan, calling it too high for the private coot hunting season.

Edward E. Housholder, engineer of the Commonwealth and Southern Electric, told the committee yesterday that the TVA navigation committee's figure of \$100 million for the coot hunting season would be too high for the private coot hunting season.

Speaking on the issue, Sen. Norris, who is chairman of the TVA navigation committee, said: "I do not believe that the coot hunting season would be too high for the private coot hunting season."

He said the cost of the TVA navigation project was too high and power rates too high for the private coot hunting season.

Mr. Housholder stated that in order to achieve success in the formation of effective habits, it is essential and important that whereby good habits might be formed.

Mr. Housholder declared the expression "I wish I had my time to live over again" is most common among elderly persons. He asserted that a definite goal to work toward is essential to prevent this regret.

As rules for success, the speaker said the choice of good habits is one of the essentials.

"Never let an excuse distract from the course being pursued; seize every opportunity to advance the goal which you have resolved to achieve and always keep the faculty of effort alive by doing daily some of the things in the routine of duty which you do not like to do," the attorney concluded.

Visitors at the meeting, presided over by President S. J. Dix, were Jackson Lodge, H. K. Carter of Tallahassee, John Robinson of Lake Wales, and L. Frank of Philadelphia.

C. Russell Mason, chairman of the boys and girls committee, gave a report on the activities of that committee which included the Boy Scout Board of Review which was held last Monday night.

### JERRY JONES BARNETT

LOS ANGELES—(UPI)—The Federal grand jury declined yesterday to indict Mrs. Anna Louise Barnett on charges of robbing officers who evicted her recently from the colonial inn belonging to the estate of her late husband, Jackson Barnett, multimillionaire Creek Indian.

### G-MEN NAB OPIUM CARGO

NEW YORK—(UPI)—Treasury officers last night reported seizure of 850 five-gal tins of opium valued at \$25,000 aboard the British freighter Silver Queen. They questioned the captain, first mate, chief engineer and five of the crew. The second boatman, Tain Ho-Zon, was charged with attempting to smuggle.

## Slain German Diplomat Gets Martyr's Burial

Von Rath Funeral Held As Jews Plan Mass Exodus From vengeance Of Nazis

Semites Suggest Plans For Refuge

Washington Asked To Mortgage German Immigration Quota

Dr. Von Rath, German diplomat who was slain by a Jew, was given a military funeral today when 100 German Jews, whom his death brought Nazi vengeance, suggested a way for the United States to aid their mass emigration.

Prisoners here in Berlin suggested to Washington that annual German immigration quota of 25,000 for the last three years and accept 100,000 annually.

Practically seeking refuge from Nazi law against them, the semites that many Americans accepted in Palestine, numbering 100,000, would be aided by action with collaboration.

Another authority in London said the British government had agreed to let the U.S. operate a similar plan to Joseph P. Kennedy, U.S. ambassador to Great Britain. The "Kennedy Plan" has been described authoritatively as "leading for an effort to remove the majority of Germany's 600,000 citizens to North and South America and parts of the British Empire and Netherlands."

At Washington, the greatest concern accorded in recent history, involving total American trade of \$15,000,000 a year, was ready for signature by the United States, Great Britain and Canada.

In Spain, dissident forces began their new offensive in an attempt to capture sources of hydroelectric power after having been driven back to the central bank of the Ebro River.

The Spanish and their allies had fought hard for months.

## Fifth Annual Father, Sons Banquet Is Held By Antler Lodge B. P. O. E.

The fifth annual Father and Son Banquet of the Antler Lodge B. P. O. E. was held yesterday in the hall of the Antler Lodge, when approximately 100 fathers and their sons, a number of local lodges, participated.

The banquet was preceded yesterday by the Antler Antler Lodge which met in the hall of the Antler Lodge. The dinner was for men, and the ladies of the Antler Lodge were invited to the Antler Lodge.

Following the banquets, five lodges, various amount of money were presented to the Antler Lodge.

The chairman of the Antler Lodge, Mr. Frank G. Jones, presiding in the Antler Lodge, said the Antler Lodge was the largest in the state.

The Antler Lodge, which was organized in 1924, has a membership of 100.

The principal address of the

### NYA Supervisor Lays Plans For Ball Park

C. E. Campbell, district supervisor of the National Youth Administration, was in Sanford yesterday visiting R. A. Goodspeed, local director of the NYA, in regard to the construction of the local diamond ball park.

Mr. Campbell said blueprints and plans would arrive here in time for a crew of 15 or 20 boys to begin work Monday morning.

About 40 boys will be on the project during the month, 20 the first two weeks and 20 the second two weeks.

INSURANCE HEAD NAMED NEWARK, N. J.—(UPI)—Franklin D'Oliver was elected president of the Prudential Insurance Company of America yesterday, filling the vacancy created by the death of Edward D. Duffield two months ago.

GENERAL WEATHER

Generally fair and mild tonight and Friday, considerable local fog in north and central portions tonight; slightly warmer on extreme east-central coast tonight.
