# Draft Bill Faces Fight In Senate

By H. L. SCHWARTZ III  
Associated Press Writer  
WASHINGTON — (AP) — The Senate planned to take up the draft-extension bill today with stiff fights in prospect over a \$2-billion military pay raise and language aimed at hastening U. S. withdrawal from Vietnam.

# Calley Won't Testify In Capt. Medina Trial

By KATHRYN JOHNSON  
Associated Press Writer  
FT. McPHERSON, Ga. — (AP) — Lt. William L. Calley Jr., the first American to be convicted in the My Lai massacre, has been advised by his attorney to refuse to testify today in the trial of his former commander, Capt. Ernest L. Medina.

# Forerunners Of A Trend College Graduates Toil As Laborers

By ANN BLACKMAN  
Associated Press Writer  
WASHINGTON — (AP) — Three years ago Dan Diello wanted to be a philosophy teacher when he was graduated from the University of Illinois. Instead, he is a janitor. Jeffrey Plack, a 21-year-old San Franciscoan, studied premed at Berkeley then graduated as a history major, Class of '71. Today, he's a machinist. John Blumberg of Orange, N. J., is a Lehigh alum who has a master's degree in engineering. Recently, he gave up a \$14,000-a-year civilian job with the Navy and plans to buy a farm in Canada.

He said the \$67.50 a week he earns "is plenty to cover my expenses."  
Asked why he took the job, Plack said, "First of all, there's difficulty in getting a white-collar job. And what you have to go through isn't worth it. I'm not ready to get into the grind. I don't know if I ever will."

# Want maximum comfort at minimum cost from your electric air conditioner?

## Try these hints.

**It's summertime. And you'll enjoy your air conditioner even more if you follow these hints. They'll help keep the price of summer comfort at a cool minimum.**

- Give your air conditioning unit (or system) an annual check-up. Like a person, an air conditioner needs a periodic "physical." And the best time to call your serviceman is early, before his "rush" season.
- Keep the filter clean. The more dirt a filter accumulates, the less efficient your unit becomes and the higher your operating costs.
- Shrubbery helps shade the home, but should be kept away from the intake grill. Intruding air sucks leaves against the grill, choking off the air and decreasing the efficiency of your air conditioner.
- Use outside shading or inside drapes to shut out sun heat. An insulated ceiling also helps keep heat from getting in. So does a properly ventilated attic. White roof tile and pastel masonry well-paints reflect the sun's heat and reduce the cost of operation.
- Exhaust fans in the bathroom and kitchen will push heat and humidity outside and help keep you cooler inside. Cook the sameless electric way. An electric range is a cook's appliance. It heats your food, not your home.
- Set your thermostat for the highest comfortable temperature. If your family is away from home for most of the day, it's more economical to turn off your air conditioner during that time.

**HOW TO ECONOMIZE AND STILL GET MORE ENJOYMENT FROM YOUR electric air-conditioner**

Get your free copy of the booklet "How to Economize and Still Get More From Your Electric Air Conditioner". Available, once again, at your appliance dealer or local FPL office.

# Class For Women In Self Defense

By DONNA ESTES  
LONGWOOD — One hundred and fifty Seminole County women are participating in a self-defense course sponsored by the sheriff's department, according to Duane Harrell, chief deputy and coordinator of the program, and more can join. "We will accept all women who are interested and there is no age limit either way," Harrell said as he reported the next session will be a lecture at 7:30 p.m. Sept. 23 at the educational building of First Baptist Church of Longwood. Use of the facility has been donated by Rev. Jack Lindsay, pastor of the church.

There are three phases to the program, Harrell said. Films made in the Orlando and Tampa areas showing the complete gamut of self defense from the kinds of locks which should be used on doors to safety hints for the home and methods of defending oneself against an attacker.

The second phase will have actual physical training where the individual is taught how to fight off an attacker and the third will be training in the use of firearms. The chief deputy said the idea is not to make marksmen of the women but rather to teach them the safe handling of weapons. He noted, however, that all the women who participated in a recent class at the Longwood rifle range would have qualified in marksmanship.

The deputy said the hope is to halt the increase in crimes against women. Those participating also will be taught what to do in the case of "peeping Toms," etc.

Those wishing to be included in the program may call Harrell at the sheriff's department in Sanford. One of the lecturers scheduled during the program is Dr. Jack Lanahan, retired FBI agent and instructor at Seminole Junior College.

By KATHY NIBLACK  
CASSELLBERRY — A new development in the city's attempt to buy the CASSUCO (Casselberry and South Seminole Utilities Company) system came last night when the City Council authorized the mayor and full Council to become negotiating agents in the matter.

Negotiations between CASSUCO and the city had been handled for almost a year by the city's Utility Authority. Negotiations between these two parties, however, recently reached a standstill, and Authority chairman Thomas Freeman suggested the matter be turned over to the Council. CASSUCO also had indicated it is no longer interested in negotiating with the Utility Authority.

Councilman Thomas Napier was somewhat concerned last night about the Council "taking over" from the Authority. "I would like to see the city obtain the CASSUCO system as soon as possible if it's in the best interest of the city," he said. "But I think the city should consider the Authority's position."

He suggested the Council obtain a report from the Authority before "ramrodding" into the situation. Napier was the only member of the Council voting against authorization of the Council as negotiating agents.

Councilman William Grier pointed out the Council's entrance into the situation was "not due to the incapability of the Utility Authority." He said, "They have just gone their limit as far as funds and negotiations go."

Councilman John Leighty expressed his desire for the Council to enter the situation. "It's time for the city to do something," he said. "If we can't do anything, we'll drop it."

# Order Returning To Attica Prison; Nine Hostages, 28 Convicts Killed

By DEN DEFORREST and BRIAN R. KING  
Associated Press Writers  
ATTICA, N.Y. (AP) — Order has returned to Attica State Prison after bloody clashes in which the arsenal of a small army of peace officers and National Guard troops was pitted against the baseball bats, knives and gasoline bombs of rebellious convicts. Thirty-seven men died.

SIX INJURED IN TWO-CAR ACCIDENT  
SGT. WILLIAM ROBBINS (left) of the Seminole County Sheriff's Department and Trooper Terry McIntyre of the Florida Highway Patrol examine the scene of an accident a mile and a half east of Sanford on SR 46 at 7 p.m. last night. Ira Stanell Thomas, driver of this 1968 Ford Torino, and three passengers were all injured. The car was struck from the rear by a car driven by Arthur William Willbanks, Rt. 1 Box 142 A, Sanford. Related photo page 1B. (Gary Taylor Photo)

By BILL SCOTT  
Navy physicians based at Orlando Naval Training Center started manning the Seminole Memorial Hospital emergency room at 7 p.m. Monday and, according to Dr. John Johnson, hospital chief of staff, the "physicians on duty did an excellent job."

Dr. Johnson said Dr. Clyde Meade staffed the medical center's emergency room in accord with an agreement reached between a group of Navy doctors and the hospital trustees which takes the burden of hospital doctors operating the emergency room on a call basis.

"Sanford doctors still will be on call" on a daily 7 a.m. to 7 p.m. basis Monday through Friday but the nighttime handling of accident victims and other patients will be the job of 15-20 Navy doctors, who will "moonlight" here.

The service physicians will receive \$10 an hour or 75 percent of the regular doctor's charges, whichever is greater for taking turns at the Sanford hospital.

When a 24-hour emergency room staffing now being done by the hospital staff also will be in the presence of the Navy doctors, who will begin "duty hours" starting at 7 p.m. Monday and lasting until 7 a.m. Monday.

Trustees meeting Monday authorized Robert Bessner, hospital administrator, to enter into a 90-day contract with the Navy doctors, after a mutually agreeable pact was worked out between the two groups.

# Residents Opposing Oviedo's Tax Stand

By LIZ MATHEUX  
OVIEDO — A large delegation of residents, primarily from Mead Manor, was present at the special called meeting of City Council Monday night held to set mead agenda and review the budget for the coming year.

One resident stated the millage is "as high or higher than it is in Orlando" and questioned rather than raise millage or keep at present level why it could not be reduced to six or even five mills because of the recent reassessment of property.

A lively discussion followed between members of the assembly and Council Dr. John Abbott, chairman of the psychology department at Florida Technological University, said he had chosen Oviedo because of its location and he and his family were satisfied with the surroundings in Oviedo but he wanted to see some returned values for the tax money spent. Action was continued until 7:00 p. m. today when

SAIGON (AP) — Sen. George McGovern, D-S.D., escaped shaken but unharmed tonight from a barrage of rocks and fire bombs hurled against a church where he was meeting with a group of students and political dissenters.

# N. Orlando Approves County Plan

By MARION BETHEA  
NORTH ORLANDO — Expressing the sentiment of a cooperative effort between the county and municipalities, Village Council last night unanimously approved a motion by Councilman Charles Kelley that the village participate with Seminole County and become a member of the Seminole Development Board.

Mayor Granville Brown explained to Council the board will be entirely funded by the county, which had been a point of contention previously by the municipalities.

Mayor Brown continued that he believes the appointment of an individual to represent the village to be advantageous since "North Orlando has a lot of territory in which to bring in business." He further explained the County Commission will appoint the board members from among names submitted by municipalities. The next scheduled meeting of the board, he said, is Sept. 21.

Edward Ferguson, who is a member of the Village Planning and Zoning Board, was named to represent the municipality.

In another matter, Council tabled until Monday acceptance of an ordinance on first reading which will delete intent to annex road right-of-way on SR 43A. Annexation will begin at the intersection of U. S. 17-92 and encompass SR 43A Casselberry. It was stated this city owns a triangle of approximately 10 feet opposite the Colomades.

Mayor Brown questioned Village Attorney Thomas Freeman as to how the city could begin annexation at the intersection of U. S. 17-92, when Longwood has annexed this section. Kelley said it is his opinion that Longwood has not annexed that right-of-way.

Freeman said that cartographer, Miss Barbara Dampier, had researched the legalities but he would conduct the matter.

# Dear Abby: By Abigail Van Buren

DEAR ABBY: We are in our sixties and have been married only three months. This is my second marriage, and his, too. We have a lovely apartment, however, mirrors and pictures are still on the floor, resting against the walls because my husband refuses to have them hung. He is afraid if the large mirror in the hall will come down on his head. He refuses to let me put up the usual decorative things around, removing them to a corner of the dining room on the floor. I have made several attempts to put these things out, only to find that he has removed them, so I have just given up. A beautiful rubber tree was thrown out because it was an "excess."

What sort of problem do you think I have on my hands, Abby? I would like to know how to cope with it? He wants me to invite people over, but I am reluctant because the place looks as though I have moved in only last week.

Desperately Unhappy  
DEAR UNHAPPY: If your husband is hung up on hanging things for fear they will come down on his head, assure him that there are professionals who can hang them safely.

If he still refuses, and you wish to refuse to keep decorative objects in sight where they belong, and consider the possibility that his mind isn't functioning properly, all big problems were

once small. Get your husband to his doctor for a checkup.

DEAR ABBY: Our daughter was recently married at a beautiful church wedding, and this is what happened: We planned on 210 guests for a sit-down wedding dinner. We engaged a fine catering service and had placecards for everyone. Well, 44 extra guests showed up!

Thirty had received invitations but failed to reply to our R. S. V. P. to let us know they were coming. And we had 14 children who were not invited but were brought by their parents.

Of course there were no places for 44 extra, but some stayed anyway and ate in the kitchen, and some got mad and left in a huff.

Abby, when an invitation is addressed to Mr. and Mrs., don't they know their children are not included? And shouldn't people know enough to respond to Mr. & Mrs. P. Invitations? Please print this. A lot of folks need educating.

Lovely Wedding—  
DEAR UNHAPPY: Distraught Mother  
DEAR LOVELY: R. S. V. P. invitations are ignored out of laziness—not ignorance. And those who take their own time to respond along are beyond educating.

DEAR ABBY: "UNDEER 20" in Loma Linda stated in his letter that he could not have gotten his master of science degree without free clinics, government loans and food stamps.

# Jacoby On Bridge Jacoby and Son

The first rule for proper use of Blackwood is that you don't bid Blackwood unless you know what to do with your partner's response.

This first rule expands to the following: Only use Blackwood when you intend to bid six if your partner's response shows that your side holds three aces.

Further expansion points out the inadvisability of using Blackwood when you have a worthless doubleton in an unbid suit.

Another good Blackwood rule is not to use it too often. South's fourth trump call is an example of this. He did have the right type of hand to try Blackwood except that it wasn't quite strong enough. North had

# Worry Clinic By Dr. Crane

By George W. Crane, CASE R-562: Dr. Andrew C. Ivy is the world's leading physiologist.

He was certified to our State Department by our AMA as the greatest medical scientist in this country when the State Department wanted to send such a man to the November trial of German doctors after World War II.

"Dr. Crane," I was asked recently, "can you give us a simple outline of this crazy job because that Dr. Ivy has championed as a treatment for cancer?"

"And with President Nixon asking for \$200 million of taxes for new cancer research, why don't they test Dr. Ivy's 'cancer first'?"

To answer that last question first, it is the usual jealousy of the bureaucrats at the home offices of the AMA and FDA which has stymied the widespread testing of Carrel's.

Official medicine also opposes Dr. Jenner's analysis of vaccines, as well as Louis Pasteur, Semmelweis, et al.

As both a member of the AMA and also president of the tax-exempt Ivy Cancer Foundation for the past 16 years, I can give you laymen's so-

# Horoscope Forecast

Wednesday, Sept. 15, 1971  
GENERAL TENDENCIES: A change now taking place in your life gives you a chance to see things in a much better light which could lead to greater success in the days ahead. Avoid arguments and avoid new beginnings philosophically. You have much energy to use but be sure it is used wisely or trouble ensues.

ARIES (Mar. 21 to Apr. 19): Any new beginnings with associates should be on the creative side. You have good ideas and can do much with them. Avoid one who has radical ideas and could get you into a great deal of trouble.

TAURUS (Apr. 20 to May 20): You have many duties to perform but try to balance your time so that you can easily handle both those at home and in business. A co-worker has radical ideas. Keep them off and clean both the covers and outside but how can I clean them so they will shine but not be water-spotted?—ROSE

DEAR POLLY—A padded horse box makes a good mean-

# We The Women: By Betty Canary

Autumn is here. I know there are those who quibble and point to the date on the calendar but no matter. Autumn arrives the same day children first board the beautiful buses.

And, during the first glow of the autumnal season, women turn to meditation. Thoughts are such philosophical musings as, "The flies are going but so are the flowers."

Once she gets this out of her system she can unpack sweaters and snow pants, all of which she has saved for five years in hopes that some glorious day will fit somebody. After this month-long, she then returns these items to the attic.

Next comes paying P.T.A. dues and making a note on the calendar reminding oneself that this year a turkey must be ordered before Nov. 23rd. Then, presumably, mother has some time for herself.

What The Average Woman does at this point is traditionally of the self-help nature. Some sign up for refresher courses at college or high school. Others plunge into bridge lessons. Some buy a jar biggie and begin making face cream and begin making their collection of old photographs in an attempt to sort out memories. (Is THAT Ralph Johnson?) Many begin making lists about Fall Housecleaning. Personally, my goal at this time of year is always the same. I clean drawers in as attempt to reach my lifetime goal of stowed along the way.

Today, for example, I got to the second kitchen drawer and found my box marked, Recipes I've Never Finished. Reading the first card said, "First, kill the eel, then, crapping it firmly behind the head, plunge it into..."

Any sensible woman spends her spare time taking naps.

# Polly's Pointers By Polly Cramer

Polly's Problem  
DEAR POLLY—I have had plastic slipcovers on my furniture for five years and have always cleaned them with vinegar and water but now they need a more thorough cleaning. I want to take these covers off and clean both the inside and outside but how can I clean them so they will shine but not be water-spotted?—ROSE

# Highlights TV Time Previews

SEPT. 14, 1971  
7:30-8:30 NBC. Special Premiere Movie: "The Priest Killer" NBC Tuesday night lineup will feature the veteran "Ironside" at 7:30 and newcomer "Sarge," starring George Kennedy, at 8:30 and to launch the new season, the network will feature the veteran work put characters together for a special movie that will be shown tonight, Raymond Burr, as the wheelchair-confined Chief Ironside, and Kennedy, as the former police sergeant who is the former police combine their efforts to solve the murder of a young, activist priest who is killed on the altar of his new church. Subsequently, two more movies are featured. Well-known character, Ripley social obligations and does some interesting tonight.

SCOPPIO (Oct. 23 to Nov. 21): You have some activities to attend to, so start on them early instead of doing so much on the last day. Focus on ambition instead of going on a tangent. Take it easy. The hand would collapse on the rocks of the distribution.

SAGITTARIUS (Nov. 22 to Dec. 21): You have good friends whose ideas are excellent. Go along with them and wait benefits in the future. An associate disturbs you and changes the picture.

CAPRICORN (Dec. 22 to Jan. 20): Responsibilities can be handled efficiently, though you may think you are spending too much money. Mate wants you to attend a social affair. He will be to do so. Show that you are wise.

AQUARIUS (Jan. 21 to Feb. 19): You have a new plan in mind and want to discuss it with associates, so get together and brainstorm. Attend especially in the evening, and state your aims to right people.

PISCES (Feb. 20 to Mar. 20): Be more willing to accept change when property is concerned since it is for the better. Study new systems early so that you can function efficiently. Give more attention to family in evening.

IF YOUR CHILD IS BORN TODAY... he or she will be one of those delightful young people with magnetic charm, but who will need assistance of others in order to function well. There is apt to be a lifetime of changing associates because of the National Health Institute, as much as education, as desired and sports that help your youngster to be well balanced. Give religious training, for an interesting time. What you do of your life is largely up to YOU!

Carroll Righter's Individual Forecast for your sign for October is now ready. For your copy send your birthdate and \$1 to Carroll Righter Forecast (name of newspaper), Box 629, Hollywood, Calif. 90028.

## Give Your Home A Lift

Is your furniture looking depressed—do you get depressed when you look at it—when you try to polish away all those defects which have come with long use and possibly some abuse?

Why don't you give yourself, your home and your furniture a fall lift by taking that abused item down to Bix refinishing shop? Richard J. Schill is the owner and operator of this shop, located just south of the Highway 17-92 and Hwy. 436 Intersection in Fern Park.

Schill is real honest-to-goodness craftsman—one of the few who will finish and refinish what you will find in any shop. He is highly trained and has had long years of experience. He served an apprenticeship for four years before opening his own antique refinishing shop in New Jersey. He owned that shop for 20 years.

Then he became a Bix dealer. Bix is a nationwide chain of professional furniture refinishing shops. There are 160 shops exclusively in Florida and they deal in the franchise and they deal in refinishing and re-upholstering pre-finished wood.

Once he became associated with Bix, Schill engaged in more intensive study in the Bix Process Training Centers in New Jersey and in St. Petersburg.

Once in Florida, and he was finished with the cold north country, Schill decided to remain in Florida and he became the only Bix franchise dealer in Central Florida.

He specializes in antiques and seems to derive great pleasure from rediscovering the beauty of long hidden wood grains and bringing out its highlights. He removes the base pigment on antiques to restore the wood to its original natural finish.

His method employs no dye or other caustic material. The process is a Bix exclusive, very fine finish removers developed by Bix in their laboratories as used.

If you are one of those do-it-yourselfers, however, and if you want to be sure that you are doing the right thing the right way, Schill will advise you in this regard if you ask.

We repeat, he is a very nice man. Some of the pointers he gives are these: Don't forget to wear rubber gloves.

And if you wear shorts, you will be sorry—jokes, friends.

Some of the pointers he gives are these: Don't forget to wear rubber gloves.

For the protection of your floors or carpets, or your grass, be sure to spread papers under the item you are refinishing.

For those priceless antiques or other furniture which need refinishing, or repairing, take it to Bix and rest assured that it will come out looking lovelier and richer than you could ever have imagined.

RICHARD SCHILL, at work on a rocker made in the late 1800s . . . a work-runner of the modern platform rocker on cast iron swivels.

Down in the Winter Park Mall, is "the Place"—the place where there is a couple who can make happiness happen.

It is called Caribbean Cruises and the couple is Mr. and Mrs. John Schlenk. John is the owner and director and his wife, Judy, is the invaluable other half of this team.

Everybody already knows John but Judy just recently became actively involved with the business having been busy raising her family of two charming young daughters, Jessica, 5, and Diana, 3, to school age.

A wonderfully delightful and wonderful conversationalist, and world traveler, Judy can personalize any place in the world for you because more than likely, she already has been there.

She is a native of "jolly old England" and here in the Deep South—her accent is purely musical.

Easter holiday bookings are also being accepted now. And John says, "Book early, please. If you want the best accommodations, call with an understanding, of course, you must plan ahead." Air Bahamas has the least expensive fare for a trip to Europe—from Nassau to Luxembourg.

There is a common misconception that it costs more to purchase tickets from travel agents or to have trips planned by these travel consultants in the cruise offices.

JUDY SCHLENK, of Caribbean Cruises, can map out a weekend in Florida or a world-wide cruise, whatever it is you may desire.

**'Phone Co., U.S. Still Are At Odds**

OCALA, Fla. (AP)—The Florida Telephone Corp. criticized the Nixon Administration for hiking dividends one cent after the wage-price freeze was announced, said Monday it would consider rolling back its 1972 first-quarter dividend.

But company president Max E. Wetstein stressed the utility, while prepared to cooperate with the Administration and the Com. of Living Council, had not committed itself in any way.

Wetstein's statement contrasted with an announcement Monday in Washington Monday by U.S. Treasury Secretary John B. Connally who said the company had pledged to reduce its dividends in the first quarter.

Last week, Connally criticized the company for failing to reduce its first-quarter dividend, which he said the firm demonstrated recalcitrance.

Quite unusual but useful for her job, is a degree in geography from Nottingham University. It prepared John for answering all sorts of questions from interested clients of Caribbean Cruises.

Of course, she is an excellent traveler and recommends trips whether aboard ship or airplane.

She met John, who now, on a ship in the Caribbean and they were married in Barbados. Isn't that romantic? Well—for good music festival, a trip supposed to be romantic?

And the ports of call are as appropriate: Martinique, St. Thomas, St. Croix, Curacao, La Guira, Montego Bay, Australia.

She is great when you are with someone special.

## See 'All Counties' For Service

Just north of SR 434, on 17-92, is a brand new red, white and blue building. This is the new home of All Counties Volkswagen Service and Repairs.

Leroy Riha and Richard Tillman, two quiet, self-assured young men who know the business of diagnosis and repair of troubles that beset a Volkswagen, are engaged in the operation of this repair service establishment.

According to Riha, "We visited in Central Florida several times. The lure of the sunshine from 'the old' himself, together with the sunshine in the hearts of the people in this area, was just too much to resist. Business opportunities are much greater for our line of service here in Seminole County than they were in Miami, which is our former home."

Leroy and wife, Bonnie Sue, have two children, Jimmy, 7, and Dawn, 4. They live in Altamonte Springs. He was in Volkswagen business in Miami for six years, a business he started building beach buggies, which he sold himself in Miami. He and his wife, Bobbi, have two children, Christopher, 9, and Gary, 2.

Both these young men already have made efforts to become involved in their communities, having joined the South Seminole Jaycees and their wives expect to become active in the South Seminole Jayceettes.

Business already is going great for these men. They provide pickup and delivery on all major work. They offer a six-month or 6,000-mile guarantee on all major engine work.

The young wife having her car tuned up and otherwise checked before leaving to go join her husband in North Carolina, asked, "Why does it smell like it's burning up?" Riha replied, "You are either going too slow or using the wrong gear—these are two common reasons for the heating problem. But I will check to see if you might have an oil leak in the block." What Riha meant? "Well, it will mean a more extensive repair, but don't worry. Come look—I will show you what I mean."

Whereupon, he showed the her trouble was that and she had nothing to worry about.

This kind of personalized service—interested, unharried and authoritative, is the much needed by customers, women in particular, who don't have a mechanical flare.

In addition, however, to the routine business of repairs, All Counties Volkswagen has in fiberglass Baha kits and fiberglass flared fenders front and back (these take off 10 to 15 pounds for each fender of a car. Riha still builds done buggies (trail type) on order.

So, if you and your little VW have a problem or if you just want to meet some exceptionally nice new residents of Seminole County—well, go by All Counties Volkswagen on 17-92 just north of SR 434 and say "hello" to Leroy and Richard. You will be glad you did.

**NEW HOME of Leroy Riha's and Richard Tillman's "All Counties Volkswagen" is located on U.S. 17-92, at SR 434, in Longwood.**

This business is independent from any national connection with Volkswagen. Their service, guarantee and price is better. They carry an excellent stock of parts and those not stocked are available within minutes and I saw this proved while doing a tune up for a young service wife some extra parts were needed and Richard was out and back in a flash with the necessary parts to complete the job.

Tune-ups are by appointment and you will get a free compression test which Riha says is good prevention maintenance.

If you have questions, Riha and Tillman invite you to ask.

## Vacation Plans By An Expert

The carriers with which Caribbean bus business are the top drawer—only the best for C. C. clients. Some of the carriers have facilities for caroling for small children and in Lausanne, Switzerland, there is a boarding camp for children of travelers who wish to hit the ski trail or the tour circuit.

And speaking of the ski trail—how would you like to go on a Ski Christmas in Europe? What an opportunity to combine your ski vacation with an unforgettable Christmas eve and the gay New Year's festivities in merry old Europe, high up in the Alps! The price is reasonable and Caribbean is booking now for this fantastic holiday.

Easter holiday bookings are also being accepted now. And John says, "Book early, please. If you want the best accommodations, call with an understanding, of course, you must plan ahead." Air Bahamas has the least expensive fare for a trip to Europe—from Nassau to Luxembourg.

There is a common misconception that it costs more to purchase tickets from travel agents or to have trips planned by these travel consultants in the cruise offices.

Caribbean recommends package trips rather than individual trips if economics is a factor because groups travel for less. Schlenk also can arrange an entertainment trip to New York or to Europe. He will get tickets for the best shows for you and all other arrangements will be handled expertly as well.

Students tours are planned to the most minute detail so that parents need have no worry. It is vitally important that holiday tours be booked as far in advance as is possible.

Now don't you think that these are all marvelous reasons why you should not waste another moment in deciding to take a trip? Just say where you might like to visit and let John and Judy Schlenk do the rest. You are in good hands with Caribbean Cruises, located in the Winter Park Mall. You don't have to go down—just call 645-2000 (this toll talk from Seminole) so call and talk and ask as many questions as you want to ask. You will be so glad you did.

Editorial Comment

# Beautification Including 'Love-Bug' Destruction

Ever on the alert to point with pride or view with alarm when affairs in Sanford-Seminole merit such attention, we are reverting to our policy of comment on the yet-unresolved challenge of beautification in our nature-blessed area.

Already there is every evidence that the tourist visitor and home-seeker will be here in larger numbers and greater variety than ever before.

The lure of Walt Disney World is being appraised as so powerful that nothing less than a horde of folks bound for that Central Florida attraction will fill and overflow our highways, our restaurants, our motels and hotels and our camping grounds.

Now for the "view with alarm" department. Our target is an insect infestation which is popularly referred to as the "love-bug."

For the second time this year motorists are being blinded by bug-covered windshields and headlights are being dimmed by these sticky intruders.

Where the pests are most abundant, the blight is almost unendurable.

Is it not time that those who have the facilities for determining the cause of this pestiferous manifestation get about doing something?

For it is just plain common sense that the visitor, or who comes here while the love-bugs are in tandem flight and finds his safety imperilled will have little occasion to enjoy the beautification which is, happily, taking place in degrees.

There is, of course, the possibility that these physically harmless intruders will "pack their tents like the Arabs and silently steal away." But that they are a present and future menace to the development of Central Florida's role as a prime need not be denied and should be accepted as a prime need of the various levels of government.

Natural growth is something which the climate and terrain of Sanford-Seminole fosters in a very large degree. Happily it applies to the great trees

the ornamental shrubs and the property planted and maintained flower gardens.

But when beautification is the standard of comparison, then this growth also must be accepted as producing the wild abundance of grasses, shrubs and even trees which do nothing to enhance and a great deal to mar the scene.

Throughout this county there are stretches along the highways, state roads and local lanes where not only do these outlay growths destroy the aesthetic, but they are safety hazards of no small order.

"Why, many drivers along these ways wonder, 'Doesn't somebody do something about this?'" A good question. But the answer is hidden in the overlapping, conflicting and mysterious web of various authorities which exist within this county.

Indeed, it is just one more — and quite simple — example of what is taking place throughout the county and critical situations than beautification.

But beautification must be given a higher rating

than ever this tourist season. Make no mistake about it. Sanford-Seminole is going to play host to thousands, where it had been hundreds.

Antoists will be rolling along I-4 and U.S. 17-92. There will be the auto-train bringing visitors by train from Arlington, Va., to Sanford and hauling their autos along with them.

A renewed marina in Sanford will be attracting boaters and will be playing a more and more effective part as Seminole County's St. Johns River and Lake Monroe achieve the importance that they deserve.

Residents of this county will have the opportunity to play a significant part in the beautification and welcome to tourists development. Of course, taking good care of their homes is one. The other is to express the hospitality which guests should receive, on and off the highways.

As for the love-bugs — the "back of our hand to you!"

## Youthful Drivers

The National Transportation Safety Board has thrown cold water on the notion that the greatest threat to the life of young men in America is getting drafted and being sent to Vietnam. A greater threat seems to lie in getting the keys to the family car.

"Driving and riding with other young drivers constitute the greatest hazard to survival which American youth must pass successfully to reach adulthood," the board said in reporting some disheartening statistics on our traffic death toll.

Placing some young men in control of an automobile seems to trigger irresponsible behavior. Certainly a motor vehicle holds great fascination as the annual crime report issued by the Federal Bureau of Investigation last week shows.

Fully 75 per cent on our auto thefts are committed by persons under 21, and the number of those thefts is rising four times faster than the number of cars on the road.

The transportation safety board has concluded that reform in driver licensing laws may be the only solution. The board suggests a system of monitoring the behavior of newly-licensed drivers, perhaps with a probationary period threatening the loss of a license for recklessness.

Our country has adopted the principle that persons at 18 are responsible enough to enjoy the privilege of voting. Our accident statistics indicate that too many of them are not responsible enough to enjoy the privilege of driving.

### To Get World in Balance

By BRUCE HOSSAT

WASHINGTON (NEA) — "They may now be closer to an ultimate equilibrium with the environment than are the industrialized nations . . . (They) may be in a better condition for surviving forthcoming environmental and economic pressures . . ."

"If one of the several forces strong enough to cause a collapse of world population does arise, the underdeveloped countries might suffer far less than their share of the decline because cause economies with less territorial concentration, no Communist activities in South Vietnam. . ."

We are especially grateful for the detailed account of an accident involving Trooper John Greene, which appeared in your paper on August 30, 1971. This report by Mr. George Gary Taylor and Mr. George Crossley resulted in Troopers C. L. Tomlinson, Jr. and C. E. DePay being selected as "Law Enforcement Officers of the Year" by the Sanford-Seminole Jaycees. The account of the awards being presented by the Jaycees was printed September 6, 1971.

We are also appreciative of the photographs taken and copies sent to us by Mr. Taylor concerning an accident occurring in Volusia County where a fatality (Stroud) was involved.

It has been our pleasure to have both Mr. Taylor and Mr. Crossley observe our activities in detail while riding with our troopers. Their dedication to duty and cooperative attitude has been commendable.

Again, thank all of you for thinking of us and I assure you we will be most grateful for your continued support.

K. Boatright, Sergeant Florida Highway Patrol DeLand, Florida  
Mr. Gary Taylor  
Mr. George Crossley

## Letters to the Editor

### Troopers Happy

Editor, Herald:

On behalf of the staff in DeLand and Troopers in Seminole County, I express our deepest thanks to your paper for the coverage of our activities in your area.

We are especially grateful for the detailed account of an accident involving Trooper John Greene, which appeared in your paper on August 30, 1971. This report by Mr. George Gary Taylor and Mr. George Crossley resulted in Troopers C. L. Tomlinson, Jr. and C. E. DePay being selected as "Law Enforcement Officers of the Year" by the Sanford-Seminole Jaycees. The account of the awards being presented by the Jaycees was printed September 6, 1971.

We are also appreciative of the photographs taken and copies sent to us by Mr. Taylor concerning an accident occurring in Volusia County where a fatality (Stroud) was involved.

It has been our pleasure to have both Mr. Taylor and Mr. Crossley observe our activities in detail while riding with our troopers. Their dedication to duty and cooperative attitude has been commendable.

## Appreciation

Editor, Herald:

We who have just completed the RETRO-sponsored courses in Environmental Control Technology at Florida Technological University wish to express our high regard for the program and for the faculty and staff at FTU responsible for its fruition.

We also hope by this letter to make the public more aware of the dual purpose of the RETRO program: to produce trained personnel in the field of Environmental Control by utilizing the existing professional training and expertise of former aerospace scientists and engineers, and to provide new

## Bus Schedule

September 9, 1971  
EDITOR, HERALD:

I would like to take this opportunity to thank you for the service provided the people of Seminole County in publishing the bus schedule and for every effort made to improve communication between the school system and the people of our county.

We continue to solicit your support and understanding of the problems related to the schools.

John Angel

## Point Of View

### Looking At Fall TV Fare

By DON FREEMAN

Copley News Service HOLLYWOOD — "You can't put a part of your life in storage and begin a brand-new one . . . You remember your own mistakes. You remember when you were scolded by a parent being you wish you could be punished again . . . Now I promise to listen to you. If we really listen to each other, then maybe here on earth our own souls will touch."

Very effective, those words, as they are, spoken in his first column by George Kennedy in the title role of "Sarge," a police detective who resumes his seminary training for the priesthood after his bride is murdered.

"Sarge" is a new NBC series which had its genesis in one of Universal's two-hour "World Premiere" movies and I must say it's an interesting concept. More and more, these TV movies are serving as pilot films for series ventures, which may or may not prove deceiving. A good movie offers to guarantee that the series which it inspires will boast the same tone and quality.

It is the nature of any pilot film that it serve as exposition for what will follow and that the characters be established. In "Sarge" they have a character with some depth — an ex-Marine, a merchant seaman, a cop turned priest in his late 40s.

He's a guy, in short, who's been around. And George Kennedy is exceptionally well cast

## Don Oakley Says:

### Ash Beautifies Mine Scars

By DON OAKLEY

NEA Editorials

More than 600,000 acres of unreclaimed strip-mined coal lands and refuse piles exist like great scars in the big strip-mining states of Pennsylvania, West Virginia, Ohio, Illinois and Kentucky.

These spoil areas are very acidic and virtually devoid of nutrients required by vegetation. Erosion is a problem because rain water tends to run off instead of soaking in.

There is also much ugliness. At the same time, blight-causing plants in the United States are producing alkaline fly ash (soot) at the rate of 30 million tons a year. Some of it goes into making bricks, concrete and asphalt paving, but such uses consume only a small fraction of the an-

### Nixon Ignores GOP Threats

By MICHAEL O'CONNOR

Copley News Service

WASHINGTON — With the unanimous consent of closest advisers, including himself, President Nixon has chosen to ignore threats to his political prime from right and left factions of the Republican Party.

The first was from Rep. Paul McCloskey, R-Calif., who wants to challenge Mr. Nixon in primary next year. The second was from Sen. Barry Goldwater, R-Ariz., who has been the most vocal of the Young Americans for Freedom, a group of young conservatives who decided recently they would not actively support the President's reelection effort.

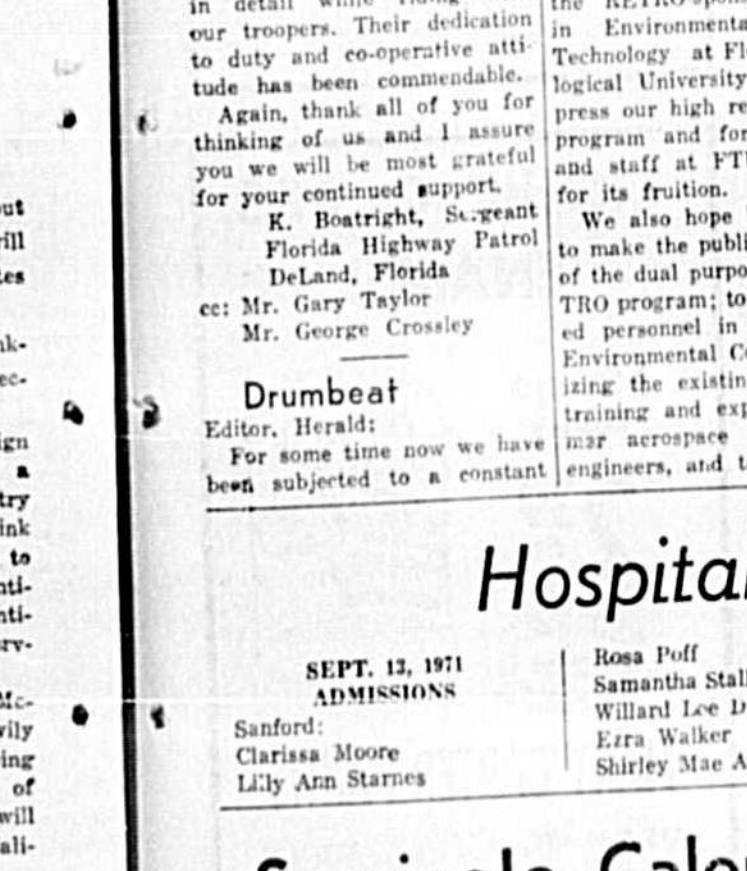

Mr. Nixon's public statements show that he intends to follow the lead of other presidents in putting the office above politics. Aside from the personal political, the President also received strong advice that the YAF and McCloskey movements were not serious threats to his candidacy.

Sources in the White House who expect to play a major role in the 1972 campaign, however, indicate Mr. Nixon may not be able to regain a role of complete restraint next year. Although assured of re-election, Mr. Nixon does not seem to have any potential embarrassments which could have an effect on the general election campaign.

One centers on an as yet unmade decision on the presidential strategy in primaries where McCloskey will run. In some cases, such as Ohio and California, there will be local and popular Republican leadership tickets which are pledged to the President. Use of this tactic — to avoid a direct confrontation within the party for the sake of only a few delegate votes — is considered politically savvy.

McCloskey does not figure to

# All Should Pay 'Fair Share' Askew Stumps For Tax Act

MIAMI BEACH (AP) — Governor Reubin Askew said Monday the time had come for Florida to start paying its "fair share" in Florida just as it does in all other states where he said corporate profits taxes are levied.

"Each citizen and each corporation doing business in Florida should pay a fair share, no more and no less," Askew told the State Association of County Commissioners.

Askew, on the stump for his corporate income tax which has to be approved by voters Nov. 2, warned against "distortion" designed to defeat the tax if it were not passed.

"Under the present system, the citizens pay more and the big corporations pay less." As he said, "I would like to invite them to help those of us in state and local government by providing a fair share of tax revenue with which we can meet our pollution problems effectively."

Askew said GM paid the State of New York \$8 million in corporate profits taxes in 1969, yet paid Florida only \$1,200 because the state lacked a corporate profits tax.

"And yet, the basic price of a Chevrolet in Florida is just as high as in New York," he said.

Askew said 43 other states levy a tax on corporate profits, so what Florida is doing by not taxing "is helping other states while we neglect our own."

However, the governor said he was "strongly opposed" to any effort to allow a personal income tax in Florida.

"A personal income tax could never be levied in Florida without another vote of the people themselves," said Askew. "And that is as it should be. I would be strongly opposed to any effort to place a personal income tax on the people."

# Operations By State DOT Criticized By House Unit

By RICH OPPEL

Associated Press Writer TALLAHASSEE, Fla. (AP) — A House subcommittee released an 18-page report critical of Transportation Department activities ranging from the purchase of a \$75 million in rights-of-way for \$30 million in rights-of-way to the purchase of a \$133 million in rights-of-way for \$100 million.

The report by subcommittee Chairman Marjorie Harris, D-Miami, Monday night.

The subcommittee head, Rep. Vernon Holloway, D-Miami, said he hoped the "exceptions" have been corrected by the department and "better use" of gasoline tax funds will be forthcoming. He said no legislation was planned.

State Transportation Secretary Edward A. Mueller said he had not seen the report, but said some of the criticisms already had been answered.

Holloway said he was most bothered by the agency's release of \$8 million in checks to its district office for the purpose of appraising property owners and inviting them to sell immediately needed rights-of-way by "waiving in their face" the purchase of a certificate of the agency's Port Lauderdale office, and what it called the department's "pony express" system of delivering paychecks by call instead of mail.

Mueller said he had asked for a corporate manager and for a fiscal management study which could have brought to light the "psychic" problems, but lawmakers cut it out of his request.

Holloway said department employees are using less bulk rate gas and buying more at retail prices on credit cards. The percentage has risen by 7 per cent to 31.8 over the last three years, he said.

But Mueller said employees are traveling more after office hours, when the state fuel pumps are closed.

Other criticisms cited by Holloway's group included the purchase of desks costing \$735 and \$893 for the department's executive suite. The secretary said Holloway "made a point of this a year ago."

Blow continued that it seems that everytime the city has extreme need for land the Casselberry family interests come through with the assistance needed.

In recent years the family interests have donated a city hall site, property for a city hall building, a walking area for school children of Casselberry Elementary and South Seminole Middle School to get them off South Winter Park Drive, property to allow realignment of Lake Kathryn Circle and now this new tract of land.

# Casselberry Solves City Building Puzzle

By DONNA ESTES

CASSELBERRY — Largest stumbling block to the city's relocating its municipal main office site was developed before the city's Mayor Curtis Blow believed themselves to be within the city's bounds. This was found not to be the case when the city wanted to build a new city hall on the site of the old city hall, which was located on the site of the old city hall, which was located on the site of the old city hall.

During very high water period the sea has suffered from septic tank problems. The Watts Farm area was developed before the city's Mayor Curtis Blow believed themselves to be within the city's bounds. This was found not to be the case when the city wanted to build a new city hall on the site of the old city hall, which was located on the site of the old city hall.

The city's time ago ago located its maintenance building at the intersection of the city's main office site was developed before the city's Mayor Curtis Blow believed themselves to be within the city's bounds. This was found not to be the case when the city wanted to build a new city hall on the site of the old city hall, which was located on the site of the old city hall.

Mayor Blow said he has been able to obtain for the city a piece of land together with a drainage easement which will enable the city not only to relocate the maintenance facility but also afford a new playground for the city's children. Mayor Blow said it will be necessary to expand a minimum amount of money for conversion.

# 1,100-Acre Project Annexation Is Sought

CASSELBERRY — Representatives of the loosely formed syndicate headed by developer Richard Bond met with the City Council in work session to reveal plans for the 1,100-acre development known as Sterling Park and seeking annexation to the city.

The planned unit development, to be bounded on the northeast by Camellot, on the west and on the south by Summer Street, reaches to Red Bug and Tusculwilla Roads.

Although the city has no ordinance permitting planned unit development (PUD) the municipality's planning board is to begin working on the special zoning designation at a meeting Tuesday night.

It was revealed that plans are to have construction of houses in the development begin soon after the first of the year and development completed in three to four years, Jesse Graham, representing planner, King Helle, said.

Graham said existing zoning of the land ranges from agricultural to residential to multi-family with 90 per cent of the tract designated R-1A. First part of the development will be on the section of property adjacent to Summer Street.

In addition planning is under way to create a 1.2 million-gallon per day sewage treatment facility ultimately with the first module at the plant to treat 300,000 gallons daily. Spray method will be used for disposal.

Graham said following development the School Board will be offered sites for schools at a land cost. Sixty per cent of the site is wooded and efforts will be made to retain the natural beauty as much as possible. In addition 22 acres are being set aside for an eagle's nest on the property.

# Death Toll Likely To Increase Order Returns To Prison; 37 Dead

**Continued From Page 1**  
A group of lawyers, doctors, nurses and legal assistants was turned away at a prison gate at 3 a.m. when they attempted to prevent the federal court order. State correction officials in Albany said they would answer the order at a hearing today in Buffalo.

William E. Hellerstein, New York City, told newsmen the group turned away felt it was necessary to "get the court into this mess" to head off possible reprisals against the subdued rebels.

State Correction Commissioner Russell G. Oswald, who ordered the assault, said an investigation had showed that two of the slain hostages had been killed prior to the time state police, guards, sheriff's deputies and National Guardmen moved into to smash the rebellion by some 1,200 prisoners. He would not say how much earlier the two had died.

Oswald said that the convicts, who had armed themselves with bats, home-made knives and tear gas grenade launchers, had been continuing to make other crude weapons.

"To delay the act in any longer would not only jeopardize innocent lives but would threaten the security of the entire correctional system of this state," Oswald said.

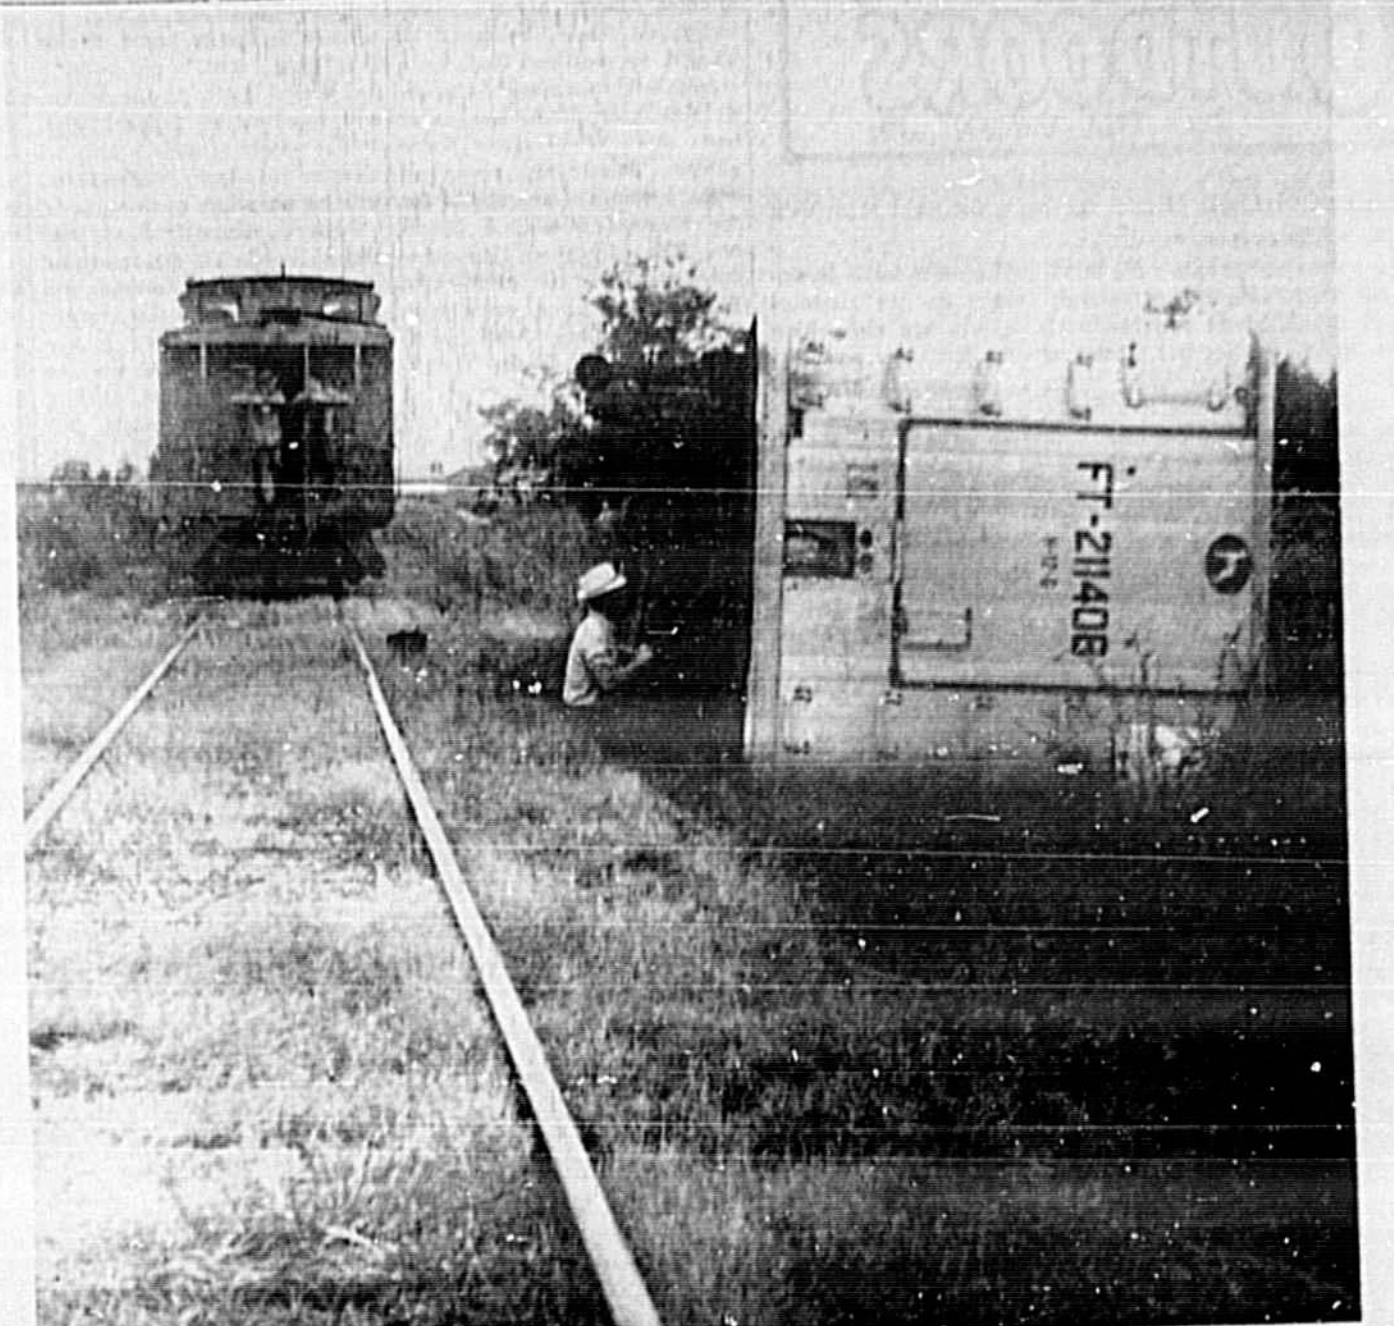

The attack plan had the approval of Gov. Nelson A. Rockefeller after the state's attorney general, Richard J. Abner, had called the assault a "monstrous act."

Officials never seem to learn that patience is a virtue and in this case would have been a life saver," he said. "There would have been room for negotiations if it took six months, or a year."

Kunster was a member of a 24-man special mediation team formed at the request of the rebels. More than 130 prisoners were injured or wounded in the fighting Monday. Three state troopers were hurt and treated in area hospitals.

Richard Smith, a Buffalo school teacher who volunteered medical skills acquired as a medic in Vietnam, predicted after seeing the injured that the death toll would rise.

Reports from Vietnamese said Laotian government forces had launched a major drive to recapture the town of Pak Sont on the Bolovens Plateau in southern Laos. Fighting was described as intense and field reports said North Vietnamese forces were holding the strategic town despite heavy U.S. and Laotian air strikes.

A PIGGY-BACK truck trailer, loaded with frozen orange juice concentrate, "rocked out" of a Seaboard Coast Line flat car between Eustis and Tavares Monday. There were no injuries but extensive damage was caused to the trailer and contents. The train was en route from Umatilla to Sanford. (Rupert Chastain Photo)

## Angered Vietnamese Firebombing GI Cars

By GEORGE ESPER  
Associated Press Writer  
SAIGON (AP) — Angered by the killing of a Vietnamese youth by an American soldier, Vietnamese on motorcycles firebombed at U.S. vehicles in Hue in a new wave of anti-American demonstrations, U.S. officers reported today.

In Saigon, a U.S. Navy petty officer was severely burned after two youths on a motorcycle hurled a homemade bomb into his pickup truck, outside Navy headquarters. It was the third firebombing of American vehicles there in five days.

Also in Saigon, a group of disabled South Vietnamese veterans demonstrated in front of the U.S. Embassy for improved benefits, and a group called Catholics for Peace urged the removal of American "occupation troops" from Vietnam. No incidents were reported.

Field reports said five firebombs were hurled at U.S. military police vehicles and trucks and cars belonging to American civilian contractors during a four-hour demonstration Monday night in Hue. About 90 Hue University students staged another demonstration this morning. U.S. officials said it was peaceful.

No American injuries were reported in the Hue demonstrations. The city was placed off limits to GIs.

U.S. officers said the disturbances were triggered by the fatal shooting of Bao Dung, 17, and the wounding of Pham Nhat, 13, who was in satisfactory condition with an arm wound in a Vietnamese hospital.

The officers said the youths allegedly tried to steal soft drinks or beer from the back of a truck driven by an American soldier whose name was not disclosed.

The U.S. Command in Saigon said the GI was in custody and an investigation was under way.

On the war front, South Vietnamese headquarters reported a series of small patrol clashes in the 13,500-man South Vietnamese drive below the western flank of the demilitarized zone. It said 31 enemy were killed and 42 burkers were destroyed. South Vietnamese losses were put at three killed and three wounded.

## North Orlando Joins County Aged Council

By MARION BETHEA  
NORTH ORLANDO—Village Council on Monday voted appropriation of \$500 to become a member of the newly formed Seminole Advisory Council for the Aged.

Mayor Granville Brown, who attended the initial meeting of the neophyte group, explained it is under the leadership of Seminole Junior College and has, as its goal, assistance of the aged in educational pursuits.

However, he stated, the primary objective is to "eliminate loneliness."

Mayor Brown stressed that the council will be federally funded in the amount of 75 per cent for the first year, 50 per cent for the second year and 40 per cent for the third. Later, he said, the council will become self supporting.

Funding will be a maximum of \$25,000, he said, and since the cost would be prorated by the city and county, it would be minimal, he contended.

Councilman Charles Kelly contended that the municipal budget is "stretched to the limit," that council had spent considerable time balancing the budget, which would be "thrown off balance."

Mayor Brown, obviously upset by council's vacillation, castigated Kelly by noting, "You're getting in the same rut as you were in last year . . . you're wanting to stay in your own cocoon and not bother with outside activities."

He went on to say that the money would be disbursed for instructors for the aged and that should the cost approximate \$20,000, federal funds would be \$15,000 with the remaining \$5,000 split among the six area municipalities and the County Commission. Funding, he said is upon a per capita basis, and since North Orlando is the smallest municipality, its contribution should be the smallest.

Councilman Herbert Fox queried as to whether the monetary investment would be "worth it" and this was the proverbial "straw" to the mayor's ire as he maintained, "If only one person is taken out of loneliness and despair, it will be well worth it."

Roller skating lessons are now offered to the retarded through the Seminole County Association for Retarded Children, Inc. (SCARC) each Wednesday 8-6 p.m.

Parents are urged to contact Mrs. Patricia Quigley, director for social activities, at 322-0997, for information on how to enroll retarded children.

John Shihard, trustee, indicated the county should buy the facility and the hospital would operate it.

Trustees adopted a split-fee arrangement which entails the purchase of separate bills to patients involved in the use of the hospital's pathological department.

The action came after A. A. Hartman and Steve Sutherland, representing Blue Cross-Blue Shield hospitalization insurance, Jack Greene, hospital auditor, and Jack Monahan, Florida Hospital Association, explained the costs involved in the purchase of the hospital's pathology department.

In the past the hospital has charged for clinical work and for the pathologist all in one bill.

Greene told trustee Chairman Charles Lansing he had examined the pathology department's costs and had arrived at a \$230,000 per cent of laboratory fees for actual costs, for which the insurance firm would be billed.

The fee charged by the pathologist is not included in this cost. Lansing explained on a narrow examination of a bone marrow examination for \$18 based on Greene's \$238 figures, which were later rounded off at 63 per cent.

The pathologist, whether it be Dr. G. V. Garay, hospital pathologist, or Dr. Fred Ionata, former hospital pathologist, and still a member of the hospital's medical staff, would bill separately for the remaining 37 per cent or in this particular case for \$12.

Lansing explained that since Dr. Garay works on a set salary, the hospital would bill for Dr. Garay's fee.

The Seminole County Association for Retarded Children (SCARC) will hold its fall meeting on Wednesday, Sept. 22, at 7:30 p.m. in the Casselberry City Hall.

## Of Seminole Nursing Lodge Hospital Nixes Purchase

By BILL SCOTT  
Rejection of a move to join with Seminole County in the purchase of Seminole Lodge nursing home was voted 4-1 by Seminole Memorial Hospital trustees last night.

The hospital sought to have the hospital join in the purchase of the nursing home as a joint holding center for mental incompetents and as a regular patient facility.

On the vote, the trustees, except Dr. Harold Miller, voted to withdraw their support for a joint hospital-county purchase. Reason given for the decision was lack of sufficient funds to pay for the 60 per cent share of the \$235,000 facility and do other planned hospital renovations.

John Shihard, trustee, indicated the county should buy the facility and the hospital would operate it.

Trustees adopted a split-fee arrangement which entails the purchase of separate bills to patients involved in the use of the hospital's pathological department.

The action came after A. A. Hartman and Steve Sutherland, representing Blue Cross-Blue Shield hospitalization insurance, Jack Greene, hospital auditor, and Jack Monahan, Florida Hospital Association, explained the costs involved in the purchase of the hospital's pathology department.

In the past the hospital has charged for clinical work and for the pathologist all in one bill.

Greene told trustee Chairman Charles Lansing he had examined the pathology department's costs and had arrived at a \$230,000 per cent of laboratory fees for actual costs, for which the insurance firm would be billed.

The fee charged by the pathologist is not included in this cost. Lansing explained on a narrow examination of a bone marrow examination for \$18 based on Greene's \$238 figures, which were later rounded off at 63 per cent.

The pathologist, whether it be Dr. G. V. Garay, hospital pathologist, or Dr. Fred Ionata, former hospital pathologist, and still a member of the hospital's medical staff, would bill separately for the remaining 37 per cent or in this particular case for \$12.

Lansing explained that since Dr. Garay works on a set salary, the hospital would bill for Dr. Garay's fee.

The Seminole County Association for Retarded Children (SCARC) will hold its fall meeting on Wednesday, Sept. 22, at 7:30 p.m. in the Casselberry City Hall.

**AROUND THE CLOCK**  
By JOHN A. SPOLSKI  
\*Continued From Page 1 into the Sports Stadium, and refused.  
A non-partisan group was organized to "investigate" and found that there was harassment being directed towards the owners of the popular entertainment center . . . and that Orange County wanted to construct their county-owned stadium.  
Did you take note of the printed interviews of parents and others using the phrase "needs to be replaced," etc.  
What would or could a replacement do that isn't being done right now at the Sports Stadium? (Has a smelly smell of politics entering the air, folks . . .)  
Bound to be an explosion at today's County Commission meeting — revolving around Seminole Memorial Hospital.  
And although it isn't too apparent right now, don't be surprised to see a Grand Jury investigate the hospital affair!

**BARBS**  
By PHIL PASTORET  
One quick way to become a pessimist is to have an optimist working next to you all day.  
Be always on your toes, and you'll have the dandiest pair of aching ankles in town.  
Invite all the in-laws to the party and there'll always be plenty of food for the gang.  
Leaving well-enough alone is something most everyone else won't let you do.

**FUNNY BUSINESS**  
By Roger Bollen  
— DON'T TRY A LITTLE OFF THE SHOULDER.

**Roller Skating**  
Roller skating lessons are now offered to the retarded through the Seminole County Association for Retarded Children, Inc. (SCARC) each Wednesday 8-6 p.m.  
Parents are urged to contact Mrs. Patricia Quigley, director for social activities, at 322-0997, for information on how to enroll retarded children.

**ARTHUR WILLIAMS** Willbanks and his wife Lena were injured when their car struck the rear of a vehicle driven by Ira Stancil Thomas. Willbanks was charged with "Failure to have vehicle under control" by Trooper Terry McIntyre of the Florida Highway Patrol. He was assisted by Sgt. Williams Robbins and deputy Bill Hogan of the Seminole County Sheriff's Department. The accident occurred at 7 p.m. last night on Silt 46 east of Sanford. Both cars were termed total losses.
