# Merging Firms Plan Seminole Plant

By BILL SCOTT  
 An electronics firm now being formed with merger of two corporations soon will announce plans for construction of a plant on 80 acres of land on SR 13 between Geneva and Chuluota.  
 Official announcement is expected after merger of Mechtrom Corporation and Orlando Corporation of Alliance, Ohio.  
 Merger is expected to be completed some time after first of year, according to information revealed today by Herb Asmann, an official with Mechtrom Corporation.  
 Asmann informed further that voting proxies were still out and deal would not be completed until December.  
 An informed source, who refused to be identified, said the new facility would employ approximately 150 persons at start with gradual increases as the firm's business warrants.  
 Source also said the Ohio Mechtrom, Wylie, of Cleveland, Ohio, who resides in Sanford during the winter, for a reported \$85,000 cash purchase price.  
 Declining to comment on the construction date, Robbins, when contacted by long distance telephone, would only say, "It could be a year away."  
 Sanford attorney William Hutchison handled the transaction and the land sale was recorded in Seminole County court house.  
 Hutchison revealed that 80 acres of the land had been rezoned for industrial with the remaining still listed as residential.  
 The Orlando Mechtrom Corporation now employs 68 persons in electronic communications work and expects to announce plans for atomic waste removal equipment in the near future.  
 The Alliance plant employs 70 workers engaged in making electronic controls for the paving industry.

### School To Cost \$656,000

NEW SPRING LAKE Elementary School near Weathersfield, shown here in architect's rendering, will feature "pod" type construction which will allow movement to all areas without having to go outdoors. Construction on the complex, estimated to cost \$656,152, is tentatively slated to begin in January. (Herald Photo)

### Building Starts In January

By MARYANN MILES  
 Construction on the new prototype Spring Lake Elementary School near Weathersfield is tentatively scheduled to begin in January. Costs have been estimated at \$656,152. Architects are Schweizer Associates of Winter Park.  
 Each building in the complex will consist of six "pods," or classrooms, designed to accommodate a minimum of four classes, or 120 pupils. Each pod will have a small reading area behind a raised stage with a minimum of four carrels for separate study in the kindergarten and first grade areas.  
 In the pod, screens can be used to separate the students as desired. Architects also point out that this new system allows teachers to observe each other's teaching methods.  
 The entire building is designed for movement from one area to another without having to go outside.  
 Connected with each pod will be an art and science seminar room large enough to adequately hold 25 students, which can be locked off completely from remainder of the pod. All furnishings in the school will be movable.  
 A satellite type lunchroom service will be provided, such as presently being used in all portable schools. Under this system, food is prepared at another location and transported to the school where the children pick it up and return to their individual pods to eat under the supervision of teachers and aides.  
 A teacher station will be located at each pod and each building of the school will have garden areas shared by two pods. Access to the outdoor areas, or playgrounds, will be through the science and art seminar rooms.  
 Spring Lake Elementary is located on 20 acres of land on SR 436 west of Interstate 4. The county has approved building of an access road.  
 Spring Lake School opened this year, with classes held in temporary buildings.

THE RED FEATHER is only 50 per cent red. Pretty Cathy Augusto, of Seminole High DCT, splashes on the paint to bring the United Fund Red Feather to the half-way mark. UF workers are driving to reach the \$40,000 goal before the final report dinner Friday evening at the House of Steak. (Herald Photo)

### White Way OK'd

By DONNA ESTES  
 "White Way" project of providing street lighting on U.S. 17-92 from Interstate 4 around the lakefront to the Sanford city limits is on its way today, more than two years after the project was first recommended by the Seminole County Chamber of Commerce.  
 The County Commission unanimously adopted a resolution Board calling for materials costs of the improvement to be paid out of the seventh cent of the gas tax money in the county's secondary road funds.  
 Cost of the materials was estimated at \$23,000. In the cooperative effort, City of Sanford will supply costs of installation and maintenance of the lights.  
 Material costs rose some \$8,000 over first estimates when it was found federal requirements called for use of break-away poles to be erected 14 feet off the pavement or permanent poles 30 feet off the pavement. It was first believed prestressed concrete poles, 10 feet off the pavement would be sufficient.  
 Indications are that the State Road Department will approve the county's request to earmark the county's secondary road money for the "White Way" project.  
 In other business, the Commission instructed county maintenance department to look into problems with the grand jury room at the courthouse and make recommendations of improvements. Gordon Meyer, chairman of the grand jury, told the board of the inconvenience being experienced by the jury in the room with leaking air-conditioners and very hard chairs.  
 Heard S. O. Dornhery, assistant tax assessor, report taxable property income for the 1968 taxroll totals \$532,000. Estimates had earlier placed value of taxable property in county at \$250 million.  
 Rejected bids on some \$180,000 worth of equipment for various county departments.

### Mercury Topples In North, South

By THE ASSOCIATED PRESS  
 Freezing weather nipped much of the eastern half of the country today and scattered frost into the Deep South as well.  
 Snow flurries or a mixture of rain and snow added to the wintry flavor from Upper Michigan to the central Appalachians. Four inches of snow covered the Marquette area of Upper Michigan's Lake Superior shore.  
 Temperatures topped into the 30s across Illinois, Kentucky and Ohio. In contrast, much of the West early for this time of year. Winter morning temperatures in the 40s were scattered over the Rockies and the Pacific Northwest registered overnight lows in the 20s.  
 A Pacific storm bearing down on the Northwest was expected to bring rain and high winds to that region, however. Winds up to 40 miles an hour lashed portions of northern California, Oregon and Washington before departing.  
 Some early morning reports: Boston 50 partly cloudy, New York 49 cloudy, Philadelphia 40 partly cloudy, Washington 44 cloudy, Atlanta 39 clear, Miami 66 clear, Detroit 39 clear, Chicago 41 partly cloudy, Minneapolis-St. Paul 36 cloudy, St. Louis 33 clear, Kansas City 38 clear, Dallas 52 clear, Denver 47 clear, Phoenix 62 clear, Los Angeles 39 partly cloudy, San Francisco 36 partly cloudy, Seattle 34 cloudy, Anchorage 13 clear, Honolulu 77 clear.

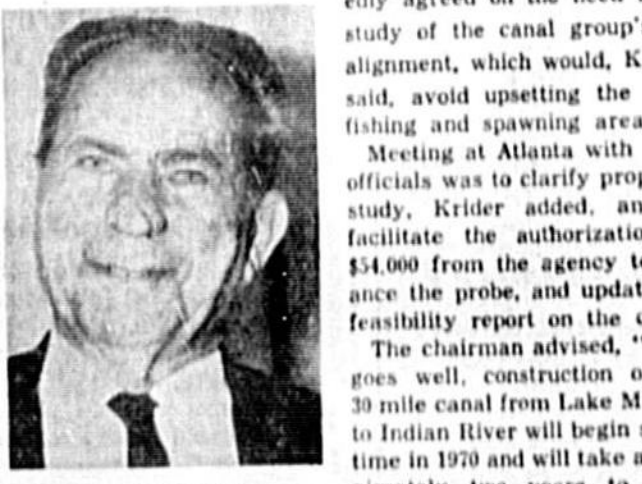

**Workshop Slated**  
 A tri-county Humphrey-Mack workshop for Orange, Seminole and Osceola counties will be held at 8 p.m. Thursday in the ballroom at the Robert Meyer Hotel, 131 East Washington, Orlando, to make plans for the final phase of the campaign.  
 It is expected that a taped or telephone message will be received from Vice President Humphrey.  
 Accommodations for attendance at the workshop are being made for in excess of 250 persons.

**Trucker Injured**  
 A Winter Park trucker in "satisfactory" condition at Florida Sanitarium and Hospital with injuries suffered when a load of iron pipe shifted and crashed forward into the vehicle's cab.  
 Hospital authorities confirmed today that Jack Holland was admitted with multiple injuries after the Monday mishap occurred on SR 436 at Forest City.

**Demos Meet**  
 Mrs. Pae Oates, immediate past president of the Democratic Women's Club of Florida, will be guest speaker at the meeting of the Seminole County Democratic Association scheduled for 8 p.m. today at the Democratic headquarters in Fern Park. Public is invited to attend.

### Canal Construction Seen In 1970

A request that U. S. Corps of Engineers make a study of St. Johns Indian River Canal District's alignment of canal from Lake Monroe to Lake Harney and, according to Krider, the engineers have indicated a willingness to make the study.  
 A Corps spokesman today told the Herald the U. S. Engineers are investigating the situation to determine whether special authority would be required in order to study the feasibility of such a by-pass canal. Engineers said it expects to determine within a week whether special Congressional action will be required in order for the Corps to make the study.  
 Krider and Scott met with Col. John P. Fitzhugh, district engineer, yesterday and report they had notified Gov. Claude Kirk of the death of R. C. Brady, canal district treasurer from Titusville. This was necessary, Krider added, because the Governor will have to appoint a successor from Brevard County.  
 In another action, the group re-elected officers and named W. A. Patrick, of Sanford, to replace Brady as district treasurer.  
 Officers re-elected to new one-year terms included: Krider, chairman; Mrs. Lois Blaylock, vice chairman; S. O. Shindler Jr., secretary, and Mack N. Cleveland Jr., attorney.  
 Krider told the gathering that...

### Shrimp Farms Seen In State

TALLAHASSEE, Fla. (AP)—Gov. Claude Kirk and officials of Akima International Inc. announced today the firm is ready to begin commercial shrimp farming, a development they said could have international impact.

"I think this is one of the most important things we've got going here in Florida," Kirk said at a news conference.

Work of the company, based in Panama City, could put Florida squarely in the world shrimp market and reverse a situation that now sees the United States importing 70 per cent of its shrimp, Kirk said.

Akima International has been experimenting with cultivated shrimp which are hatched and grown under controlled conditions.

The company uses a Japanese process. The U.S. State Dept. would be the first nation outside of Japan to develop and sell cultivated shrimp.

A laboratory has been established in Panama City by the company. Company officials said today they had searched nationwide for a location for six to seven months.

"We feel our selection was wise," said President Mike Albin.

Now the company needs unpolluted water acreage, Albin said. He said large bodies of salt water—such as St. Andrews Sound—are needed.

Kirk showed samples of cultivated shrimp. One showed a seventh generation shrimp that can be grown under controlled conditions. It appeared at least seven times larger than the normal size.

"There's no question in our mind. We're going to feed the world," Kirk said.

Albin said the company hopes to have the cultivated shrimp on the market by next fall.

"That depends on how soon we can get some water acreage," he said.

Kirk said the company's work would in no way harm the shrimp industry and would, in fact, provide more work for shrimp trawlers.

Albin said shrimp trawler operators are excited over the prospects.

### Second Fire Hall Looms At Deltona

By MILBRED HANLEY  
Plans are in the making for a second fire station and hall in Deltona, according to an announcement coming from a recent meeting of the Volunteer Fire Department.

It is reported that Deltona Corporation will make available property located on an eight-acre plot on Providence Boulevard, north of Ft. Smith Boulevard, for the purpose. The offer comes in response to a request from the department for a site in the third housing area.

Officers re-elected for the coming year at the meeting were Leroy Roth, president; Gene Neuhelm, vice president; and Sam Casten, treasurer. Officers serving will be Howard James, recording secretary; Charles Dugan, financial secretary; and Harvey Day, three year trustee. Stanley Gardner and Jack Levinson are the trustees.

Those welcomed into the association as associate members included Sidney Simons, Ralph Alger, Harris E. Goodman, Harry Ingram, Lemuel Charles and Jerry Jesse.

Monthly dinners will be sponsored on the second Sunday of each month, with serving to be from 1 until 6 p.m. The dinners will take place at the Community Center and menu will be file mignon, baked potato, vegetable salad, roll and butter, beverage and sherbet. Tickets may be purchased in advance or at the door. Proceeds earned will go into the building fund for the new station.

### 3 Unhurt In Mishap

A car-train collision at Forest City caused \$1,000 damages to an automobile driven by Jim Hiram Bell of Apopka.

According to Trooper L. P. Tompkins, who investigated the mishap, the Seminole Coastline train struck the vehicle broadside as it attempted to cross railroad while traveling south on SR 41.

Trooper Tompkins reported no apparent injuries to Bell or his two female companions, who were reportedly shaken up after the train, traveling slow, collided and pushed the car along the tracks.

Train was traveling east near Hi-Across plant when accident occurred.

### Flag To Fly Over P. O.

COCKEYSVILLE, Md. (AP)—After two years, the American flag may soon be flying over the post office in this town of 2,500 persons.

U.S. Rep. Clarence D. Long said in a newsletter to constituents in Baltimore County Sunday that the Post Office Department has agreed to move the flagpole away from power lines which had prevented hoisting the flag.

### New Mexico Law Illegal

SANTA FE, N.M. (AP)—A New Mexico law requiring a candidate for Congress to live in his congressional district has been ruled unconstitutional.

The State Supreme Court said congressional candidates can live anywhere in the state and seek office from either of the two districts. This is the first year the state has been divided into two districts. New Mexicans previously voted on their two candidates at large.

SWIM HEAD  
MEXICO CITY (AP)—Jaavier Deste of Mexico was elected president of the International Amateur Swimming Federation for a four-year term Sunday.

PAID POLITICAL ADV. BY ROBERT G. PETREE, DEMOCRAT

THE INQUIRING REPORTER  
By CAROL JAQUES  
Question: There are 53 candidates for county office in the Nov. 5 election. How many can you name?  
Christy Harp, Longwood  
I know at least 25 of the candidates. There are the ones I'm not particularly interested in. I'm not particularly interested in the Justice of Peace race in the Oviedo area and places like that because they're not in my district.  
Percy White, Longwood  
I know at least 12. I've had reasons to meet these and know them personally.  
Pat Ransbottom, Sanford  
Personally, I know Henry Schumacher and Ernie Cowley but I'm familiar with about 15 of the candidates by name only. Mr. Cowley was my band director when I was in school.  
Arletta Cowley, Loch Arthur  
I know eight. This year is of the utmost importance and I'm interested in both sides. It's important to know who and what you're voting for with the turmoil we're in today.  
Florence Holcombe, Oak Avenue, Sanford  
I know about 13 by name only. I don't know any of the candidates personally with the exception of Ernie Cowley. I knew Mr. Cowley when I was going to school.  
Milton E. Smith, Sanford  
I'm familiar with about 25. I guess, I am more familiar with some, though, more than others.  
Mrs. William Ramsey, 1521 Clark Drive, Casselberry  
I'm not very familiar with the county candidates except the bill boards and signs that are along the highways. The presidential race, you can see and read more about than the county.

United Fund Shortchanged  
Editor, Herald:  
We have received a letter from one of the United Fund supporters who lives in Casselberry and works in Orange County. He explained that his UP contribution amounted to \$100 under a payroll deduction plan. When he asked that this be sent to the United Fund of Seminole County instead of being placed in the United Appeal of Orange County, he was told "... It can't be done."

Our reply to this loyal supporter is attached:

Dear ———

Thank you for your thoughtful letter and taking the time to write it to us. You are entirely right on all counts and getting designated United Fund of Seminole County contributions under payroll deductions from neighboring counties has always been a real problem.

In an attempt to let the residents of South Seminole County become aware of the situation we wrote a letter to the Editor of the Orlando Sentinel-Star on October 11, 1968 as follows: (which has not been published)

Dear Sir: The United Fund of Seminole County is using this method of expressing our appreciation for the fine work you are doing in support of our United Fund of Seminole County. It is significant that both fund-raising campaigns are conducted at a great expense and we acknowledge the fact that much of the publicity that you give to the United Appeal is also a great assistance to us in Seminole County.

We congratulate the United Appeal for the fine work they are doing, particularly this year when they are stressing Fair Share.

For the past several years the United Fund of Seminole County has been attempting to progress upon all of the residents of Seminole County the importance of their directing their contributions to the United Fund of Seminole County. It is generally accepted that many Seminole County residents are employed in Orange County, particularly by the Martin Company, but to date the United Fund of Seminole County has failed to successfully impress upon Seminole County citizens working for Martin the advantages of having their contributions channeled through our United Fund. We may be missing a "fair share" for your fine support and please keep it up.

(Wendell L. Springfield, UP president, signed the letter to Mr. — and we are pleased to print it as an indication of one of the obstacles met in the way of Seminole County in raising the needed UP dollars and a pat on the back to our Casselberry friend.)

Much Ado About...  
Editor, Herald:  
Most people believe that fairy tales begin with "Once upon a time." However, there are a lot of fairy tales that begin with "If I am elected." In this particular fairy tale, there are three little sports who became involved on a merry-go-round that will eventually take one of them to the top of the ferris wheel.

The three little sports have houses of straw, wood and brick and the wolves will blow down the houses of straw and wood on Pick Your Little Sport Day, thus leaving a great big sport to sit on the top of the ferris wheel.

Now the three little sports were named Tricky Dicky, Georgia Fergie and Humpty Dumpty, and they lived in a place called the United Republic of a Milkcow.

In the land of Milkcow there were many different kinds of people. Some good, some bad, some old, some young, some happy, some unhappy, some smart and some dumb.

The main trouble with the people was that they did not like one another. So they decided to choose a leader from one of the country's three political parties.

This way, the people would have a leader and a political party to blame for all their troubles instead of having the blame where it should be, on the people themselves.

The Republican Party chose Humpty Dumpty, for he was a friend of Lyndy Bird and Chicken Little and they figured a bird lover was most likely to succeed.

However, according to the latest chicken plot, Humpty Dumpty is due a great fall. The Republican Party chose Tricky Dicky because he had never been chosen anything and he promised them everything and he had an impressive dress and also, he was a friend of General Eisenhower.

However, according to the latest Fox Ball, Tricky Dicky is due for a great landing. The Milkcow Protest Party chose Georgia Fergie because he came out of nowhere and he seemed like a voice in the wilderness crying out against the people about are: The Milkcow is due to cry. The terrible poverty, increase of crime, lack of education, riots and demonstrations, danger of inflation, dislike of citizens of Milkcow for one another, foreign aid, defense, space program.

So the three little sports began to travel the land of Milkcow, promising the people to end the war in Charleville, to end poverty, to end crime, to increase education, to stop riots and demonstrations.

Philosophy: This letter to have run and lost, than never to have run at all.

Final Words: For those who would misinterpret the true meaning of this particular fairy tale, let it be known that it conveys that although certain polls do indicate that Tricky Dicky will be elected, it isn't necessarily so!

# Constitutional Revision Debate Continues

What was to be expected in connection with the state constitutional revision to be submitted to voters on Nov. 5 has taken place.

There has been organizational support and organizational opposition. Conscientious members of these organizations have taken contrary views.

In short, we would repeat what was stated in a prior editorial on this important subject—individual effort to understand and individual judgment to guide are indispensable.

The proposed revisions of the 1885 constitution as submitted on the ballot are divided into three sections. No. 1 is the "basic document"; No. 2 is "Revision of Article VIII, local government"; and No. 3 is "Revision of Article VI, suffrage and elections"; and No. 3 is "Revision of Article VIII, local government."

There have been at least three formal actions which have come to our attention that are helpful in assessing these revisions. One is the vote of the board of governors of The Florida Bar which approved the revisions.

Marshall M. Criser, bar president, stated this as follows: "Florida most certainly needs an improved constitution to meet the complexities of our modern society and to provide for Florida's future as a fast growing and more urbanized state."

"The Board of Governors has given careful study to the proposed constitution and has concluded, by a vote of 85 to 7, to support its adoption."

Mr. Criser's further words, however, help to disclose the doubts which are held by many prominent, respected and experienced lawyers. "It is acknowledged that this is not a great new constitution for Florida. . . . However it is a better constitution than the one we have now. It represents a substantial improvement and a step forward."

But this is the very home that sticks in the throat of those who are willing to wait a little longer and take action on a constitution which will not have been conceived and born in the political travail of the last two years.

Our own Seminole County Bar Association has voted against these revisions. Feelings expressed by some of our leading lawyers follow along the doubt inherent in Mr. Criser's words.

Without the complexities of legal language and without any of the niceties which are involved, they deplore the submission of these revisions to voters at this time and in this manner and under current conditions.

Strong support for a "yes" vote on these revisions is offered by the League of Women Voters of Seminole County. In making this plea, the local league is in step with the state league.

Mrs. Walter Churchill, state league president, urges this support in an editorial in "The Florida Voter." Again, however, the surfacing of a less than optimum constitutional revision is apparent.

The League recognizes that the package on the ballot is not without shortcomings and fails to include many needed reforms. Purists will condemn it as a document filled with compromise and expediency and will point with justifiable disappointment to the vital areas of taxation and judicial reform.

While sympathizing with this point of view the League chooses a more practical standpoint on the basis of its supportive action.

Of course these two citations even from such important and responsible bodies as have been quoted do not and should not be taken as anything more than indications that even the best informed have divided judgments.

In our earlier editorial we suggested that a negative vote on No. 1—the basic document and affirmative votes on No. 2 and No. 3 seemed to us to be the wisest course to pursue.

This still seems to us to be logical. The opposition to acceptance of the revision of the "basic document" is entirely too important and too large in size to permit any other conclusion.

(Editor's Note: An illuminating debate on these revisions will take place tonight over WTRR with speaker of the House Ralph Turlington of Alachua County and Rep. Joseph G. Kennedy, Jr. of Duval County taking part.)

By THE ASSOCIATED PRESS  
Sen. Eugene J. McCarthy, a leading antiwar Democrat, once said he could not endorse Hubert H. Humphrey for president, but he did endorse today, a McCarthy aide says.

"It's just a matter of degree and extent," Jerry Eller, McCarthy's administrative aide, said Monday in reporting McCarthy would make the announcement at a Washington news conference.

Republican Richard M. Nixon, meanwhile, has urged voters to give him a decisive "mandate for change" in the election week from today, Humphrey said in Cleveland.

Nixon said Monday the next president must bring an honorable settlement to the Vietnam war and he cannot accomplish that goal if he is elected only for the next four years. "To hold the peace together and end the arm race," he said.

"To convince our adversaries and our allies that the great American people stand united behind that leader," Nixon said in Albany, N.Y., "he must have their clear vote of confidence in November."

Humphrey backers said early in the campaign they counted on a Nixon "mandate" to help the work that must be done," he said.

Humphrey told workers in Pittsburgh the question they should ask about Wallace is whether he can do the job.

"Can he really run the government?" Humphrey asked in prepared remarks. "Can he keep our economy strong? Can he keep the workers on overtime and off unemployment lines?"

"He couldn't do it in Alabama and I say he couldn't do it as the President of the United States."

Wallace asserted in Beauvoir, Tex., that neither of the major party candidates would represent the South.

"We can't nominate a south-

side since Y. Agnew said the New York Times "pulled the major booster of the campaign" in charging him with conflict of interest as Maryland governor, and denounced the Times' special one by one.

But the Times reprinted the editorial containing the statements Monday night and said Nixon's defense that "there are old" "makes them not one whit the less valid."

—Sen. Edmund S. Muskie, the Democratic vice presidential candidate, said in Los Angeles the answer to America's social problems "is to reverse our field and to begin to trust each other once more."

—Curtis E. LeMay, the American Independent vice presidential candidate, said in Des Moines U.S. troops should pursue the enemy into Laos and Cambodia, sanctuaries. He said failure to do so is a major reason the war continues.

### Carlton's Best

We believe that the election of Judge Vassar R. Carlton to the State Supreme Court (Group B) on Nov. 5th would serve the best interests of Floridians who are convinced that a record of experience and a long-time devotion to law is essential.

Election to the exalted post of Supreme Court Justice is a grave and important decision for voters to make with a minimum of emotion and partisan loyalty and a maximum of reason and impartiality.

Judge Carlton is a Democrat. We endorsed him in the primaries and are happy to do so again. This editorial comment is made in the same approach to the candidate that has guided prior selections for endorsement.

Search them all and there is the reliance on proven performance and capacity plus exposure to like obligations in similar public office. Endorsements have gone to Vice President Hubert H. Humphrey, former Gov. LeRoy Collins and State Representative Bill Chappell for president, U.S. senator and U.S. representative.

Judge Carlton, however, stands even higher when the legal stature of his Republican opponent for this supreme court seat is viewed. For Judge Carlton, our neighbor who lives in Titusville, has 27 years as a respected and highly-regarded jurist to his credit.

He has practiced law since 1937 and held judicial offices since 1939. Highly regarded by lawyers, Judge Carlton is recognized for his knowledge of Florida constitutional law. For his fair and impartial decisions and his judicial temperament.

Supreme Court Justice Wade Hopping is Carlton's Republican opponent. Election of Justice Hopping comes about through a curious combination of appointments by Governor Claude Kirk, retirement of Justice Aho Adams and a remarkable co-operation by the calendar which brings the Republican aspirant to plead for election as an incumbent.

For even his most enthusiastic supporters must be somewhat embarrassed to ask for votes on the basis of a legal record which is short in time and which lists no prior experience as a judge.

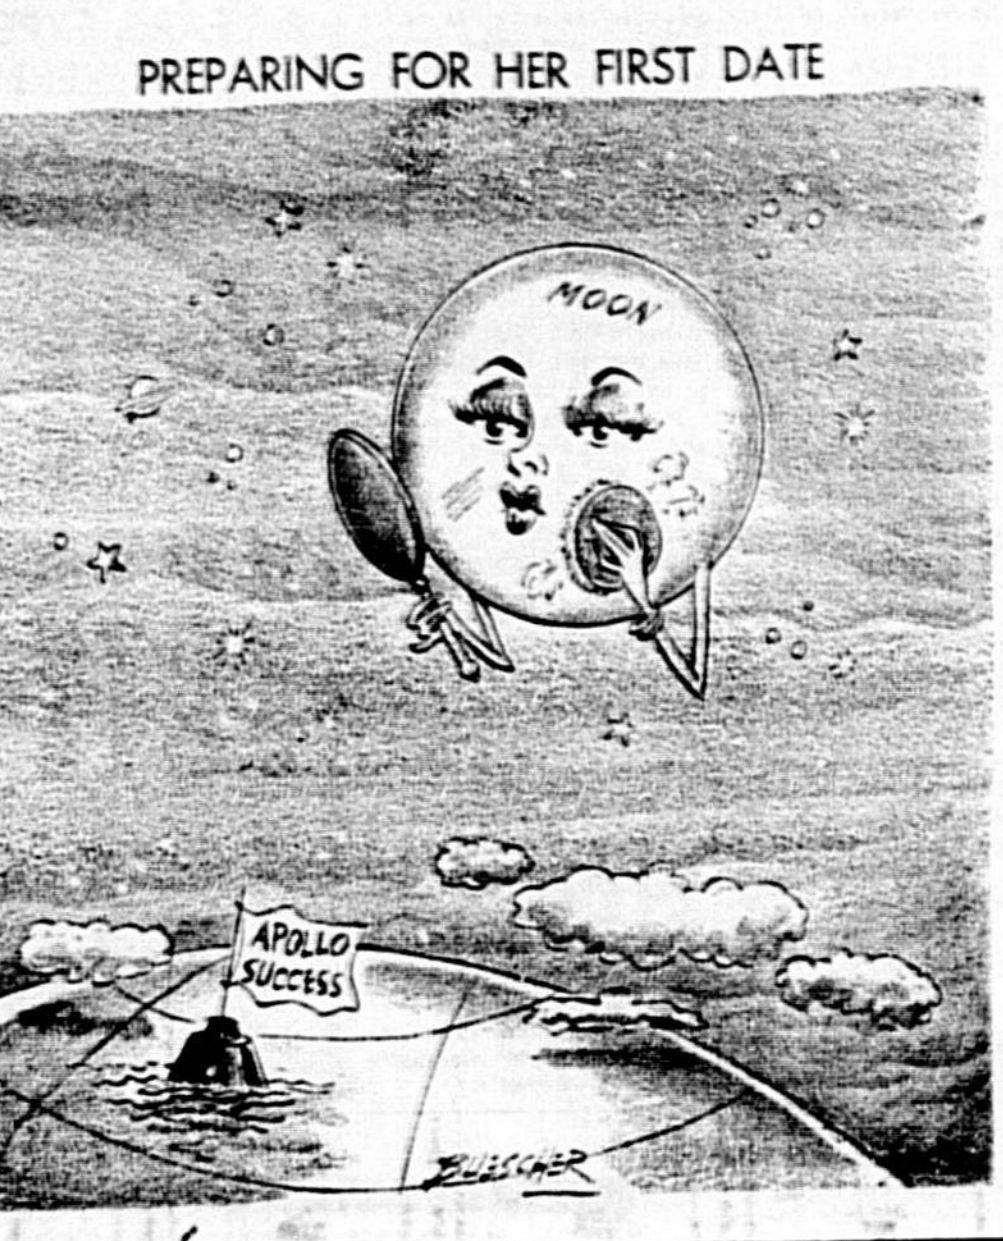

We do not feel it necessary to expand on this comment. Let the records stand. And let it be remembered that election to a supreme court seat is traditionally for more than the specific period. Re-election is the rule rather than the exception.

But do not be misled by the fact that Mr. Hopping is an incumbent Supreme Court Justice. He was not elected. He was a Kirk appointee who came out of the governor's office three months ago to don the robes of a chief justice.

"Vote for Judge Carlton, group B, for the good of the law, the courts and Florida!"

### Is It Futile?

Often we hear a citizen bitterly say, "All that politician is interested in is votes." "If it's a businessman, 'all he wants is profits.'" "It's a winning team—an ambitious girl, a husband . . . and so on. What else, we wonder, would one expect a profitless business is a failure. A voteless politician is out of office. A voteless businessman is a fraud without a man . . . an editor without an idea . . . where will it all end?"—Charleston (S. C.) News and Courier.

### US And Soviet Space Goals

WASHINGTON—U. S. space officials are so elated over the success of the Apollo 7 spacecraft in its 163 orbits of the earth that they are considering shooting for the moon before the end of this year.

In their 11-day, four-and-a-half-million mile flight around the earth, astronauts Schirra, Eisele, and Cunningham completed the tasks assigned them with almost perfect precision.

The new Apollo 8 is being tested on the launching pad at Cape Canaveral. If Apollo 8 performs as well as Apollo 7, a new group of astronauts should be able to fly the mooncraft to and around the moon and back to earth sometime close to Christmas.

That feat would raise new hopes that the first man on the moon will be an American.

This was a main purpose of the much advertised race with the Russians for the "first man" undertaken in President Kennedy's administration.

But many things have changed since we began to put billions of American dollars into the space contest with the Soviet Union.

The principal change may be that the Soviets have decided that the moon effort is not worth the huge investment in money and men involved.

Many Western space experts believe that the Russians have fixed their sights on large, distant stars rather than on earth's own small moon satellite. These men speculate the real Russian goals are probably Mars and Venus.

Astronomer Sir Bernard Lovell, director of the highly respected Jodrell Bank Observatory in England, states that moon shots raise a low priority in Russia today. Sir Bernard usually knows whereof he speaks. Some of our brightest space astronomers agree with him.

There are differing views, however, as to why the Soviets made this decision—if they have made it.

### Crane's Worry Clinic: About Sales Psychology

By GEORGE W. CRANE  
Ph. D., M. D.  
CASE 11-11, Clark D., aged 28, is a college senior.

"Dr. Crane," he asked, "what is required to become a star salesman?"

"And is there any truth to the old saying that some people are just 'born salesmen' while others are not?"

In the usual selling field, as in the insurance, the upper 25% of the salesmen account for 75% of the total insurance sold.

That means the lower 75% sell only about 25%.

Why this marked difference? Well, the same ratio holds true in kindred selling fields, such as religion and school teaching. Only about 25% of most of the clergy are superb speakers who can attract an audience laugh or cry at will.

Likewise, only about 25% of our professors make their courses so interesting that the students don't have to force their bored attention to the lectures.

Selling thus involves reasonably high intelligence, but many geniuses in I. Q. still don't sell nor make an interesting sermon nor dramatic education.

And you are not a "born salesman," for salesmanship is a learned art.

Star salesmanship involves these salient factors:

- (1) Keen understanding of Applied Psychology.
- (2) Skillful use of audience participation.
- (3) Skillful use of audience participation.
- (4) Dominance of the sales situation.

This involves both psychology and physiology.

Use of the "Reversible Why" permits the salesman to steer the interview.

Bubbling vitality lets the salesman unconsciously infuse the prospects with his magnetic personality, either by high pressure or low pressure selling.

### H. L. Hunt Says: Cuba Exports Communism

Although many government spokesmen and commentators in the mass media avoid discussing Cuba wherever possible, that country still exists and is still under the iron grip of communism. Those people can no longer pretend that Castro is an "agrarian reformer" interested in the welfare of the Cubans, but they still try to ignore the obvious aggression of Castro-led communists throughout the hemisphere.

Recently Venezuela formally charged Cuba with aggression before the Organization of American States after Castroite guerrillas kidnapped and murdered a government official.

On another occasion, Peres declared that "the time for a settlement and revolution has come" and called for the uniting of Latin America "through armed struggle."

This aggressive action gives clear indication of the nature of Castro's regime. Further information comes from the thousands of Cuban refugees who stream into our country in search of freedom. They give vivid testimony to the deplorable conditions existing in a once prosperous country.

The policy of ignoring Castro's Cuba has obviously not contributed to the stability and well-being of Latin America.

### Goldwater's Voice Needed!

By RICHARD WILSON  
PROXIMA LILI — Barry Goldwater is a relaxed and interesting man as he tries to get back into the United States Senate, where he belongs. His eyes and mind are so focused on the problems of Arizona but it makes him feel sad, he says, that the issue he tried to raise in 1964 should now take such a prominent part in the campaign of 1968.

The chickens have come home to roost and Goldwater is not elated about this. He says that he merely wishes that Lyndon Johnson would have debated with him the realities of the Vietnam War and crime in the streets. Then perhaps some of the mistakes of the last four years could have been avoided.

Former Senator Goldwater no longer has the thoughts about forming a conservative party which he expressed after his defeat in 1964. He is urging Arizonians not to vote for George Wallace. His reason is expressed after search shows that if the Wallace third party candidacy throws the election into the House of Representatives there will be political chaos requiring the passage of new enabling legislation before a president and vice-president could be elected.

A couple of months ago Goldwater urged his old friend, Gen. Curtis LeMay not to run for vice-president on the Wallace ticket. LeMay agreed not to run but said he would vote for Wallace only to change his mind later much to Goldwater's regret.

Goldwater, the campaigner, sounds much like the Goldwater of old. We are spending too much, the government is too highly centralized, the individual must be freer and more self-reliant.

There is little effort to re-define the new conservatism which outlawed Goldwater in

CHRISTIAN CHURCHES of Florida, meeting in annual convention in Orlando last week, named officers for the 1968 Convention. In the foreground are (from left) Richard L. Marshall, minister of Sanford Christian Church, secretary; Gene Helmsy of West Oak Ridge Christian Church, Orlando, treasurer; Palma L. Bennett, First Christian Church, Merritt Island, vice president; and C. Curtis Hess, Central Christian Church, St. Petersburg, president. More than 7,000 members of Christian Churches registered for the convention and more than 1,000 were in attendance for the sessions in spite of bad weather caused by Hurricane Gladys.

### Goblins Expected Again

Halloween is one of the oldest and most interesting holidays. Some of its traditions date from the pre-Christian era in England when Druids met each other on Oct. 31 to worship the Lord of the Dead and appease spirits believed to be visiting the earth that night. From then on, goblins have been associated with what later became All Hallow (or Hallow) Eve, then Halloween.

### Deltona Honor Roll Named

Home roll students for the first six-week grading period at Deltona Junior High School have been named by Principal Wayne A. Wyatt. In the sixth grade are Michele Frankiewicz, Charles Kallner, Allen Peterfield, Donna Semones and Gordon Wilson. Eighth graders were Cathy Bates, Cynthia Leisberg, Donna Peters and Cheryl Walcott. Those in the seventh grade were Candice Brogan, Mary Burdman, Laurie Caldwell, Steven Chamberlain, Lisa Davis, Deborah Drey, Joyce Farris, Nancy Galloway, Martin Hestbeck, Winnie Johnson, Moultrie Jones, Kevin Kowalski, Robert Kravall and Laura Mastan.

### Necessity Is The Mother ...

WALLACE H. HALL, Air Force Major, says he is keeping the field operational around the clock. Vandals destroyed the light covers on the runway 'dogleg' and he found that 100-pound incendiary bombs have hit the runway light fixtures.

The record shows that Ken Plante gets things done! He engineered the bill that enabled Florida Turnpike Bonds to be sold at nationally competitive rates. Plante understands the workings of your state government.

## The Olympics: To Be Or Not To Be

(Murray Olderman, NFA Executive Editor, is a long-time observer of the sports scene and has most recently focused his sights on the controversial Olympic games in Mexico, their impact and their future.)

(First of a Series.)

By MURRAY OLDERMAN  
Newspaper Enterprise Assoc.

MEXICO CITY — (NEA) — The time may have come to re-examine the Olympic ideal, to compare the merits of the athletic competition against the foregoing politics and politicalism that has pervaded the games. Drastic amendment of the Olympics as an international spectacle — or even their abolition — are possibilities to be given serious consideration.

On the victor's stand at the Estadio Olimpico in the late afternoon glow of Oct. 16, the American flag was raised at the north end of the stadium while loudspeakers trumpeted the United States national anthem. An Australian athlete, second in the 800-meter run, stood at attention on the right side of the podium, bear crew. Two Americans — Tommie Smith and John Carlos — bowed their heads to the ground and raised black-gloved fists to the skies in defiance.

"We swear that we will take part in the Olympic Games in fair competition, respecting the regulations which govern them and with the desire to participate in the true spirit of sportsmanship for the honor of our country and for the glory of sports," — Olympic athletes oath.

"This is me," said Douglas F. Roby, president of the U.S. Olympic Committee, "was a sacrifice. It was like desecrating an altar of the church during the worship of the Lord. It was completely out of place, a childish and immature act, and 200 million people saw it throughout the world."

**KNEE DEEP in OUTDOORS**  
 by BILL VINCENT JR.

The specks have really been hitting good this past week on live minnows and catch 'em with artificial lures, but the catches seem to be hitting best in deeper water, with the catches averaging about 30 to 80 specks per boat.

Roger Davis, owner of the Rod's Bait Shop, landed a nice 8 1/2 pound bass while in the St. Johns this past week, using the purple worm.

Roger also reports that Ed Stout and Tom McDowell got some real nice bass — 8, 6, 7 and 8 pounds. Some real beauties. They went fishing in the channel of the St. Johns using weighted lures.

Davis also reports that the specks only have tiny roe. So, it will be close to another month before they start on the beds or maybe six weeks.

Jim Crowe reports that the bream and the specks are hitting real well in his area. The cat fish are biting also but not real base action.

Jim and Joan Hoesing of the local Western Auto Store went down to Tampa this past week to attend a big fishing tackle show. They said the tackle and displays were really impressive to look at.

Local taxidermist Dick Dove had open house at his place this past weekend. If you didn't make it over, Dick still has all of the displays up to see, some real beautiful work.

With the major portion of the hunting season to open on Saturday, Nov. 8, time is running out to check that most needed equipment. So, make sure that it is in excellent working condition.

\*\*\*\*\*

Talked with Richard Van Camp at the Black Hammock Fly Camp in Lake Jessup early this morning and the speck fishin' report is really great with large catches being reported. The biggest speck weighed in at two pounds, and the same report comes from Lake Jessup also that the specks will probably go on the beds in about a month to six weeks.

\*\*\*\*\*

There has been a lot of talk about a local fisherman who has been really catching the specks with over 100 reported this year. But he won't talk about it, so we got busy and found out for ourselves. He's caught these specks in Lake Monroe. So, don't say there aren't any fish in the lake.

When using shiners for big black bass, hook both lips and troll slowly along the shore line. This will keep the bait alive and from drowning, and produce real active results.

\*\*\*\*\*

Forest Supervisor R. J. Reibold of the U. S. Forest Service announced in Tallahassee today that regulations on camping equipment used on the National Forests have been modified. Reibold said that the regulations were modified to prevent undue hardship on hunters who had traditionally camped together during the hunting season.

Under the modified regulations Reibold said that temporary structures would be permitted under certain conditions when authorized by the District Forest Ranger in writing. He said that the authorization would be for a specified period of time only and that the camper would have to agree to remove the structure by the termination date. District Forest Rangers will be able to authorize structures of pole or sawed lumber frame covered with polyethylene plastic, canvas or sheet plywood. Materials such as sheet metal, roll or metal roofing, felt, alkali, etc., will not be authorized.

Last summer the Forest Service issued regulations limiting camping equipment on the National Forests to tents, trailers and self-propelled camping vehicles, because hunters had for years constructed temporary shelters, many of them unsightly, and abandoned them after the hunting season. The cleanup of these camps had become a heavy expense to the Forest Service. The new regulations were intended to prevent this unnecessary expense.

Several hunters expressed a desire to be permitted to erect temporary structures with the provision that they be removed at the end of the hunting season. Supervisor Reibold said that the regulations were modified to allow structures with the provision that they be cleaned up at the end of the season.

## Starr Makes Difference . . .

# Green Bay Bulldogs Cowboys

By DENNE H. FREEMAN  
 Associated Press Sports Writer  
 DALLAS (AP) — Take it from the previously unbeaten Dallas Cowboys and former Green Bay coach, Vince Lombardi, there's absolutely nothing wrong with the world champion Packers.

With Monday night's 28-17 victory over Dallas before a national television audience, the Packers shot into a tie for the Central Division lead of the National Football League with the trail — each with 3-3-1 records.

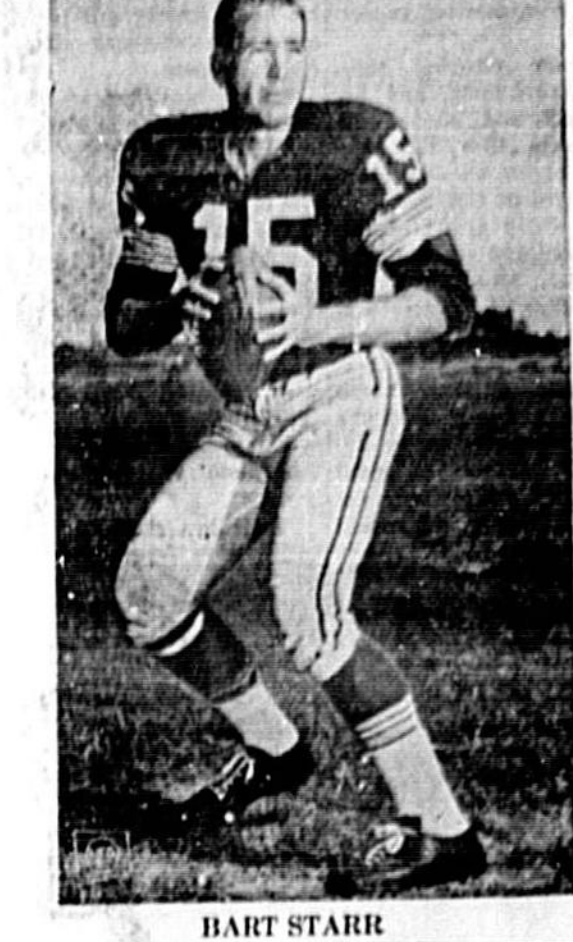

Lombardi said, "I never had any doubts" about Green Bay coming back from a series of early season reversals.

Dallas Coach Tom Landry said, "They made the big plays. Bart Starr was just great."

Starr, who only last week was on the sidelines for most of the game against Los Angeles with a pulled bicep muscle, rifled four touchdown passes and completed 17 of 23 passes for 266 yards.

He hit Mary Fleming on scoring tosses of three and 32 yards and tossed four touchdowns to yards to Carroll Dale and five yards to Boyd Dowler.

Dallas quarterback Don Meredith, who suffered a broken nose when he was tackled by Willis Davis, threw touchdown passes of 18 yards to Bob Hayes and 21 yards to Craig Bohannon. He had three throws intercepted and completed but 13 of 30 for 219 yards.

BART STARR

## Florida Gators Hit By Injuries; Eight Starters Sidelined

By THE ASSOCIATED PRESS  
 The badly crippled Florida Gators limped through practice Monday minus eight starters, including All American Larry Smith.

Smith, one of the nation's leading runners, suffered a sprained arch, bruised knee and pulled shoulder and neck last Saturday as the Gators fouled to a 14-14 tie with Vanderbilt.

"Our injury situation is severe," said Coach Ray Graves, adding that he hopes Smith will be the only starter to miss this week's game with Auburn.

Graves was met the only unhappy coach in the Southeast. For instance, there was Alabama Coach Paul "Bear" Bryant, who made some changes in his lineup and ankle and thigh. Alabama's Mike Walker was back his job as No. 1 right defensive tackle and will start against Vanderbilt Saturday.

Miami Coach Charlie Tate, embarrassed by last week's defeat by Auburn, put his offensive line through a grueling drill.

Florida State's star star quarterback, Ron Sellers, was not expected to have been injured in the South Carolina game, but he was out for practice Monday and is expected to play against Virginia Tech Saturday.

## Florida Gators Hit By Injuries; Eight Starters Sidelined

The injury was a freak thing," said Meredith. "I'm sure he (Davis) didn't mean to." Davis was assessed a 15-yard penalty for grabbing the face mask on the play.

"I didn't think Meredith was as effective after he got hurt," said Landry. "But it was a must game for us if there ever was one. No question about this being our best game of the year."

Landry said Baynham's fumble in the fourth period was the play that killed the Cowboys. Ray Nitschke, Packers linebacker, fell on the ball at the Dallas 25 with Green Bay ahead 21-17. Starr immediately converted the break into a touchdown with a payoff pass to Dowler.

Dallas' record dropped to 6-1, which is good enough for a game lead over New York in the Capitol Division.

## Cowboys Pace Sanford Flag Football Race

By THE ASSOCIATED PRESS  
 The Bulldogs won their first game of the season as they edged the Rams 6 to 0. The only score of the game came on a 6 yard run by Mark Neuman of the Bulldogs. Both teams played well on defense.

The Bulldogs were led by Charlie Taylor, Tommy Lively, Jimmy Rose and Dan Bejelin. The Rams were led by Gary Fry, Nicky Mergo, Ronnie Williams and Doug Wagner.

Cowboys 18 — Packers 12  
 The Cowboys stayed atop the pack as they defeated the Packers 18 to 12. Pat Crimmins led the way for the Cowboys as he ran 20 yards for the Cowboys first score and then passed 6 yards to Mark Russel and 18 yards to Mark Whigham for the other two scores. The Packers made down several threats to preserve the win. The Jayhawks team play was led by Walt Zoull passed 20 yards to Teddy Miller and 7 yards to Marty Morgan, Danny Boyd, Randy Foster for the touchdowns.

## Athletic Rule Planned For Colleges

ST. LOUIS (AP) — An amendment aimed at curbing the "intensity of recruiting" among prep athletes, probably will be considered by the National Collegiate Athletic Association.

Marcel L. Plant, president of the NCAA and a member of the faculty at the University of Michigan, said the amendment is likely to be on the agenda for the NCAA's annual convention at Los Angeles in January.

Plant is in St. Louis for the three-day meeting of the NCAA Council.

The controversial amendment was approved last year by a slim margin. Plant said he has noted increased opposition to the change.

"This seems the one question that is going to generate the most heat. One motion is to amend the rule to restate the rule for schools with over 1,250 male students," Plant said.

Plant said roundtable discussions on ways to reduce college athletic expenses would be held at the Los Angeles convention.

He said high school recruiting is a part of the expense question.

The awards dilemma—how valuable a gift an amateur athlete may receive—will be discussed today.

"For you give an athlete a watch, a color television, or a couple of color televisions."

## Mavericks Go

By THE ASSOCIATED PRESS  
 The Jones boys and Jack Moreland were the spoilers for New Orleans in the Houston Mavericks' American Basketball Association season debut.

Jones and Moreland each scored 24 points and Steve Jones added 21 as the Buccaneers toppled the Mavericks 115-106 Monday night in Houston.

All ABA teams and all National Basketball Association teams were idle.

# Yanks Rain Heavy Blows On N. Vietnam

SAIGON (AP) — American warplanes and warships, including B-52 bombers and the battle group USS Enterprise, attacked North Vietnam's southern part Monday with the heaviest blows in nearly a month, U.S. military spokesmen reported.

There were clearing skies across the panhandle, and Air Force, Navy and Marine jet fighters bombed five B-52 missions, the largest number since 143 were logged on Oct. 1.

The attacking crews continued to concentrate on road and river traffic, disrupting the southward flow of supplies and material, a U.S. spokesman said.

Assessment of their bomb damage shows at least 25 trucks and 19 supply boats either destroyed or heavily damaged. There were numerous fires and secondary explosions were touched off.

In addition, storage facilities and bunkers were struck, and a road bridge was destroyed. A tactical fighter-bomber on the average carries about two tons of bombs. A B-52 is loaded with 36 tons of bombs. The B-52s failed to knock out all of the anti-aircraft guns. The New Jersey, the world's only active battleship, was called in and trained its huge 16-inch guns on the enemy positions. Marine pilots reported that the battleship's 2,700-pound shells destroyed one anti-aircraft site and silenced another.

Even tactical fighter-bombers can't knock them out but a concentration of B-52 strikes can.

Meanwhile 30 B-52 bombers, carrying a bomb load roughly equivalent to that of 430 fighter-bombers, dropped 800 tons of bombs on enemy gun positions along the southern edge of North Vietnam.

Striking northwest of the allied combat bases at Con Thien and Gio Linh, the B-52s touched off 27 secondary explosions and sent columns of smoke 4,000 feet into the air.

The attacking crews continued to concentrate on road and river traffic, disrupting the southward flow of supplies and material, a U.S. spokesman said.

# McCarthy Supports Hubert H. Humphrey

WASHINGTON (AP) — Sen. Eugene J. McCarthy said today he would vote for Vice President Hubert H. Humphrey for president, and would not seek re-election to the Senate in 1970 or the Democratic presidential nomination in 1972.

(Earlier story on page 5A.)

McCarthy, the Minnesota Democrat who was defeated for the 1968 Democratic nomination by Humphrey, in announcing that he would vote for Humphrey, said that "those who have waited for this statement of my position do so with confidence."

He also said, however, that Humphrey's position on key issues "falls short of what I think it should be."

And he made clear he still holds bitter memories of the Democratic nominating convention in Chicago.

He said that he was announcing his own plans to make it clear his endorsement "is in no way intended to restate me in the good graces of the Democratic party leaders nor in any way to suggest my having forgotten or condoned the things that happened both before Chicago and since."

Referring to the youths and others who supported him in the presidential nomination, McCarthy said he had "asked them to test the established political processes of the Democratic party."

But McCarthy has said that four positions would be relatively close to his stand.

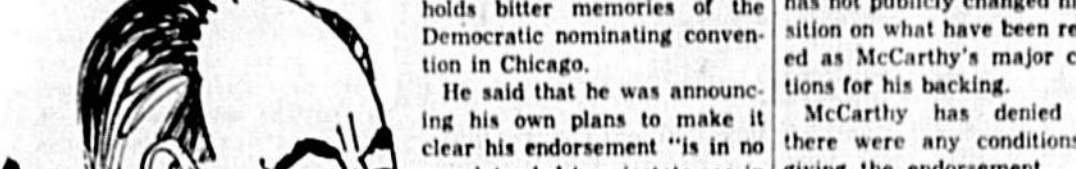

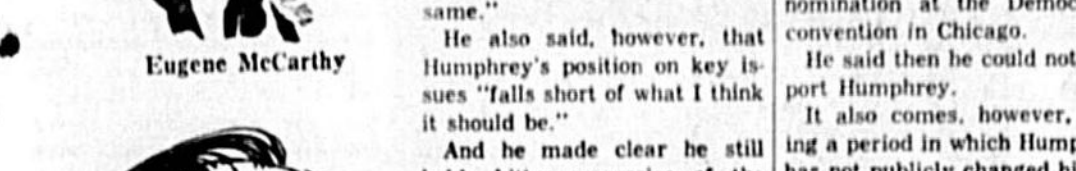

These include a halt to the bombing of North Vietnam, the formation of a coalition government of the government of South Vietnam, reform of the U.S. military draft and reform of the Democratic party.

Humphrey has suggested reform of the party and the draft. He has said he would go along with a bombing halt if U.S. troops can be adequately protected. He has skirted the issue of including the Viet Cong in any coalition government of the South, but has said he is for free elections.

In the past week, however, the Democratic candidate has had to be careful with public statements on Vietnam in view of President Johnson's new efforts to de-escalate the war.

McCarthy endorsed Sen. Edmund Muskie of Maine as the Democratic vice presidential candidate on Oct. 12 while in Los Angeles. But he said the matter of endorsing Humphrey was an open question.

Then Oct. 15 in Santa Barbara, Calif., McCarthy said Humphrey had moved in his direction on the Vietnam war but will have to "come a little bit farther" to get his support.

WASHINGTON (AP) — Gen. Lyman Lemnitzer, supreme allied commander in Europe, said today that the Pentagon's "Big Lift" strategy of routing troops from the United States to the ground in Europe is "no substitute for forces actually on the ground."

He said Gen. Earle G. Wheeler, chairman of the Joint Chiefs of Staff, agrees.

Under McNamara's dual-basing concept of U.S. military aid to Europe, sizable U.S. forces have been withdrawn from NATO territory to the United States with the proviso that they would fly back in any emergency.

Lemnitzer said the Soviet invasion of Czechoslovakia showed that NATO forces must be available on the ground in Europe "if they are expected to conduct an effective forward defense."

The four-star general told the Association of the United States Army Monday that the invasion demonstrated how rapidly the Warsaw Pact can move in Europe.

One reason for the withdrawal was the high cost of sustaining

"GET OUT AND VOTE" is the message conveyed by John Sanford, Sanford Herald compositor, as he wheels his station wagon around Seminole County. Quoting Andy Gump, Johnny says that "I wear no man's collar," meaning that he plays no political favorites but urges all to exercise their right of franchise.

# U. S. Warned Of Crisis Strategy

WASHINGTON (AP) — Gen. Lyman Lemnitzer, supreme allied commander in Europe, said today that the Pentagon's "Big Lift" strategy of routing troops from the United States to the ground in Europe is "no substitute for forces actually on the ground."

He said Gen. Earle G. Wheeler, chairman of the Joint Chiefs of Staff, agrees.

# Stag Film Shocks TV Viewers

PALM DESERT, Calif. (AP) — Without warning, a stag film flashed across home television screens in four Coachella Valley resort communities.

The shocking movie early Sunday lasted 15 minutes, according to some estimates.

Authorities don't know how many people saw it. Several dozen telephoned police.

In nearby Palm Springs, police received between 30 and 40 calls.

"There was no particular bitterness," police Sgt. Jim Wall said. "People just wanted to tell—and confirm—that they had seen."

The show was seen in the fashionable desert resort communities of Palm Springs, Rancho Mirage, Indian Wells and Palm Desert.

It was 1 a.m., and the unscheduled film started rolling when the channel of one of Palm Desert's two area stations was to end its telecasting day. Wall said the cowering nudists—men and women—were uninhibited.

Chuck Jenkins, chief engineer of Coachella Valley Television, a cable service, said he had determined somebody tapped into its cable. He said the film apparently was shown in this way, by someone with very sophisticated electronics equipment.

Jenkins said his firm's equipment was not used. The cable service has about 10,000 subscribers.

# Bogus Cash Is Charged

JACKSONVILLE, Fla. (AP)—Two men identified as Vicente Santomas, 23, of Holly Hills and Manuel Ledro Rabassa, 45, of Miami were jailed Monday on federal counterfeiting charges.

Both were arrested Monday by a New Smyrna Beach constable on charges involving the passing of two \$20 counterfeit bills, one at a Daytona Beach service station, said Secret Service agent-in-charge Forrest G. Guthrie of Jacksonville.

He indicated a bond was set at \$7,500 each. The prisoners received a hearing Monday night before U.S. Commissioner John Hughes at Daytona Beach and were removed to the Duval jail.

DR. ANTHONY J. BOROWSKI, newly elected director of First Bank of Deltona (left), is shown with Charles S. Johnson, president of the bank.

# Bank Of Deltona Elects Director

By MILDRED HANEY

Board of directors of First Bank of Deltona have elected Dr. Anthony J. Borowski to serve as a director for the ensuing year, Charles S. Johnson, bank president, has announced.

Dr. Borowski served as administrator of the Barboursville Children's Hospital from 1954 until 1967, and during part of that time also was a director for the Burdett Oxygen Company of Cleveland, Ohio.

He holds a bachelor of arts degree, master of science in public health engineering, and doctor of science in public health from the University of Michigan. He also attended the University of Chicago, School of Hospital Administration, where he received a degree of master of business and hospital administration.

Dr. Borowski is active in civic and community affairs and presently is president of the Deltona Medical Arts, Inc., president of Providence Plaza, general chairman of the tournaments for the Deltona Golf and Country Club, and a member of Kiwanis.

He and his wife reside at 1740 S. Lorraine Drive, Deltona, and are the parents of two daughters, both married to physicians, and have seven grandchildren.

# Sanford Tops Deltona Team

By MILDRED HANEY

The Deltona Shuffleboard Club was topped recently when the Sanford team met them in competition at Elmore Courts in Deltona, with Sanford emerging the victor by a score of 18-6. However, the Deltona club amassed a score of 16 against Sanford's 29 in the playoff before game was called due to rain.

Two teams were eligible to represent Deltona in the playoff due to a tie between the team of Jack Levinson and Sally Narsico and the team of Fred Drew and Irene Logan, with the decision as to which team to represent the Deltona club being decided through toss of a coin.

Return match with Sanford is slated for 2 p.m. Thursday at the Sanford courts.

# Bill Chappell Believes...

"... Any housewife can tell you that the cost of living is skyrocketing and its hurting the average American family... We need a return to fiscal responsibility on the part of our federal government as the first step in combating this menace..."

### Luncheon Honors Bride, Attendants

By PAT BRATTON

A recent frat party given in honor of Miss Ann Ridenour of Orlando was the bridesmaids' luncheon given by Mrs. Merrill Stacy and Mrs. James Partin. The luncheon was held at the home of Mrs. Stacy in Mead Manor on the patio overlooking the swimming pool.

The table was overlaid with a lovely cut-work Chinese linen cloth owned by Mrs. Partin. The table was centered with a colorful arrangement of croton leaves.

Each guest had a place card shaped like a bell, with turquoise ribbon, the color of the bridesmaids' wedding dresses. Miss Ridenour was presented with a lovely corsage of purple cymbidium orchids and a gift of several pieces of her chosen china pattern.

Enjoying the event with the honoree were: Mrs. John S. Ridenour, mother of the bride; Mrs. Alan L. Moore, Ypsilanti, Mich., mother of the groom; Miss Joanne Ridenour, sister of the honoree, maid of honor; Miss Stephanie Ridenour, sister of the honoree, bridesmaid; Mrs. Ann Moore, Ypsilanti, sister of the groom, bridesmaid; Miss Anne Martin, Atlanta, bridesmaid; Miss Pat Mathews, Orlando, bridesmaid; and Miss Marcella Ansley, Apopka, Junior bridesmaid.

To eliminate the possibility of shock from a damp concrete floor, placers a rubber mat in front of the fuse box in your basement.

EXCITEMENT REIGNED for three pretty ushers at last Friday's concert when talented guitarist, Frederic Hand, made his appearance in Sanford to open the 1968-69 concert season. Posing with the star are, from left, Debby Moore, Judy Boone and Debby Baker.

## Country Store To Feature Museum

One of the many attractions at the Country Store, to be staged at the Garden Center, Saturday, Nov. 2, will be a Museum of the Past. This part of the store, sponsored by Camellia Circle, will feature a collection of articles from the past.

Many interesting items from the seventeenth century to the early nineteenth century will be on exhibit. Of particular interest to Sanforadians will be many pictures of Sanford in the early days.

Bottles, dishes, maps, bibles, from dolls, coffee grinders and interesting documents will be displayed. Items in the sewing category such as an 1809 sampler and a covert hat made in 1864 will be among the items.

The museum will be open from 10 a.m. to 8 p.m. and there will be a small admission charge. Plan now to attend the Country Store and be sure to see the interesting Museum of the Past.

**Bezoar**  
Seminole County Extension Homemakers Club will have their annual Christmas Bazaar from 9 a.m. until 4 p.m. Saturday in front of Public Market in Sanford Plaza. Handmade gifts, novelties and Christmas decorations that are different will be on sale. The public is invited to support the project.

MRS. LOUIS TEMPLE tries out an antique shoe shine chair that will be on display along with many other interesting antiques and articles from the past in the special Museum sponsored by Camellia Circle members at the Country Store, Nov. 2 at the Garden Center. Two other circle members, helping to collect items are Mrs. G. Andrew Speer, left and Mrs. Don Flamm. The old fashioned butter churn, shown in the picture will also be on display.

## Use That Nail File For Defense

OTTAWA (AP) — An article on self-defense for women in the current edition of The Canadian Nurse tells how a woman should react if, despite her precautions, she finds herself confronted by a thief, rapist or murderer.

Mrs. A. L. Graham, an editorial assistant for the publication, says police departments differ in their opinions about what a woman should do in individual situations. But they generally agree she should surrender her possessions without resistance, and fight like a tiger when her life is at stake.

For her article, she has drawn on information in a dozen publications dealing with the subject.

**SPEED BEST WEAPON**  
"As a woman, your most lethal weapon is speed," Mrs. Graham writes.

"If you think your assailant means business, your only chance is to defend yourself quickly and decisively.

Mrs. Graham warns, however, that it is illegal in places to carry an offensive weapon or anything designed to be used as a weapon. And a woman should keep in mind that the fact that a weapon could be wrested from her and turned against her.

Dr. Paul Douglas, who is affiliated with the Political Science Department of Rollins College, introduced his guest, Dr. Akira Kono, from the University of Yokohama, in Tokyo. Japan. Dr. Kono, an interested guest, has recently arrived in America and this was his first political meeting. He is one of the architects in charge of designing the Expo, to be held in Tokyo in 1970.

A red, white and blue color theme was used in decorations for the reception. The center-

piece was a large, ornate chandelier. The room was decorated with white and blue streamers and bunting. The music was provided by a live band. The reception was a great success and all enjoyed the evening.

## Bridal Shower Honors Sharon Jones

MISS SHARON JONES, bride-elect, was complimented with a recent kitchen shower at the home of Miss Joyce Jones. Left to right at the refreshment table are Mrs. Robert Jones, co-hostess, the honoree Miss Sharon Jones, and Joyce Jones.

Miss Sharon Jones, bride-elect of Deltona, was guest of honor at a recent kitchen shower at the home of Miss Joyce Jones, in Flora Heights, Sanford, Co-hostess was her mother, Mrs. Robert Jones.

A pink and white color theme was used in the decor, including pink mums and tiger lilies in a spinning wheel container and an arrangement of pink mums in a miniature replica of a white milk glass pitcher and bowl set, in the party area.

The gift table was adorned with a rose tree, entwined with white ribbon bows and two white crepe paper wedding bells. The refreshment table was overlaid with a white lace cloth, over pink and the centerpiece was a beautiful arrangement of pink and white carnations in a white milk glass container featuring three spiral cones with pink carnations flowing from each cone. Ferns were artistically woven throughout the arrangement. Silver and crystal appointments were used.

Refreshments of fruit punch, nuts, mints and strawberry cake were served by the hostesses. A hostess gift of a Conningware serving dish, Mrs. Charles Jones, mother of the honoree, also received a pink corsage.

Prizes were awarded to winners of two bridal games. Other invited guests were Mrs. Robert Denham, Janice Knight, Tom Yon, Mike John, Richard Bavel, Joseph Orsini, Claudine Case, Vincent Marzitta, Clarence Collins, Frank Geiss, Jack Wepler and Miss Barbara Geiss.

## Mirror Is Tonic For Dull Wall

CHICAGO (NFS) — Handsomely framed decorative mirrors reflect a charm and versatility that can brighten any room in the home.

The most effective use of a decorative mirror depends largely on how well it relates to the rest of the room. Interior designer Mary Ann Willis. So the first consideration must be selecting a frame style that complements other furnishings.

Homemakers can find a wide range of choices in the many mirrors made by Arabesque, the Traverse City, Mich., accessories firm. Mrs. Willis serves as decorating consultant.

The current collections include museum reproductions that replicate the work of such famous designers as Sheraton and Chippendale, as well as styles from the French Empire, Italian Renaissance, Neoclassic, and American Colonial periods.

The frames of these plate glass mirrors are exacting replicas of hand-carved designs, approximately finished to simulate the carved plaster and woods of past centuries.

In hanging a mirror, always remember that the glass will reflect whatever it "sees" and try to make sure the resulting picture will be attractive from any point in the room. Miss Willis advised:

In a foyer or entrance hall, where a mirror's purpose is both decorative and useful, it should be hung at comfortable adult eye level above some sort of chest or console where a woman can place her handbag while checking her appearance.

In the living or dining room, where mirrors are primarily ornamental, the proper placement depends on other accessories and furnishings, as well as available wall space.

DR. LUIS PEREZ, who spoke on Communism at a recent meeting of Pilot Club of Sanford, was introduced by program chairman, Mary Ferguson.

## Family Leaves For Norway

Lt. and Mrs. Steve Bingham and young son, Glenn, have left for their new assignment in Norway after a week's visit at home with his parents, Mr. and Mrs. Frank Bingham of 2320 Hibiscus Ed., Casselberry.

A U.S. Navy pilot, Lt. Bingham will be assigned to the staff of the Allied Forces in the North Atlantic with headquarters at Oslo for the next two or three years.

## Miss Valorie Shea And Randall J. Floyd Exchange Vows

MRS. RANDALL JOE FLOYD

## Do You Know Dance Manners?

By VIVIAN BROWN  
AP Newsfeatures Writer

NEW YORK (AP) — First dance fever grips lots of young people early in the school year. What is the right thing to do at a dance? An 18-year-old sister of a 14-year-old and four of her girl friends were heard advising the younger girl on how to get along with boys. Their advice, they say, boils down to this: Avoid conflict, be sincere, treat him like a man! The girls are cool types, although their advice might sound a little old-fashioned.

Should you accept a little minute date to a dance? Why not assume you are the first he called, they told her. After all, don't talk yourself out of fun.

What do you do when you finish a dance with a boy at a school dance? You thank him as he returns you to your friends. What can you talk about to a strange boy — "I get very nervous," little Sis explained.

Begin the conversation and let him take over, they advise. For example, "Are you going out for sports?" If his reply is negative, say something like, "Oh, you are the studious type. If he doesn't bite on one of those you aren't going to make much headway. If he begins to talk, he won't stop, but let's hope that his mother didn't advise HIM to ask the questions, the girls said.

If he returns with me to my friends, should I introduce him? Not obligatory, the girls say, but if he lingers you might say, do you know Joe Smith or whatever his name is.

What do I do if my partner is such a terrible dancer that I can't bear it? You must finish the dance, they advised. If he comments about it, pretend you haven't noticed.

**Grandma's Shining Hour**  
Ironing, extra shopping, and other unfinished chores. Keep a Family Circle reader from giving her three sons the attention they sought when they came home from school. There was fighting and confusion almost every afternoon until she thought of making this time "Grandma's hour."

**1x2**  
means 1 column by 2 inches. Too small for an ad to be noticed or effective? You're reading this one!

By JANE CASSILBERRY  
Miss Valorie D. Shea, daughter of Rev. and Mrs. Darwin Shea of Casselberry, became the bride of Randall J. Floyd of Orlando, in a candlelight ceremony, Sunday, Oct. 27, 1968, at 3:45 p.m. at Ursula Presbyterian Church.

He is the son of Ralph Floyd of Waukegan, Ill., and Mrs. Arvel Mays of Orlando.

Rev. Shea, who is pastor of the historic Ursula church, officiated at the double ring service.

Baskets of white gladioli, chrysanthemums, and d. carnations decorated the altar. Selections of nuptial music were played by organist Howard Fleming.

The bride chose for her wedding a lovely traditional gown of white lace over peau de soie. The second neckline and train were accented with pearls and iridescent sequins. Her illusion veil was attached to a crown of pearls and tulle. She carried a cascade bouquet of white gladioli.

The matron of honor, Mrs. Lance K. Knowles of Waynesboro, Va., sister of the bride, wore a floor length gown of light blue satin with bodice of turquoise blue velvet. Bridesmaid, Miss Patricia Ann Willis of Pensacola, Fla., wore a gown of identical styling in compli-

mentary shades of lighter blue and both carried bouquets of yellow roses and carnations. Their veils of blue net were attached to blue circled hats.

Gary Floyd was best man for his brother and ushers were brothers of the bride, Darwin A. Shea, Jr., and Daniel B. Shea.

The mother of the bride wore a floor length gown of turquoise blue lace trimmed with fur at the neckline and sleeves. She wore a corsage of yellow roses.

The groom's mother wore a striking full-length gown of pink brocade and matching coat with corsage of pink carnations.

A reception was held following the wedding at the home of the bride's parents at 831 North Triple Drive.

The bride's book was kept by Miss Judi Beauchamp of Jacksonville. Assisting at the reception were Miss Gail Hanson of Sanford, Miss Sandra Howe, Casselberry; and Miss Sandra Langford, Orlando.

The three-tiered wedding cake was flanked by candelabra and the silver coffee service and crystal punch bowl. The serving table was decorated with the wedding bouquets.

For her going-away outfit, the bride chose a navy blue shift with navy and white plaid jacket, and white gladioli corsage. Immediately following the reception, the couple left for a wedding trip to Northern Florida.

Upon their return they will make their home in Winter Park. Out-of-town guests included Miss June Lusk, aunt of the bride, of Bellflower, Calif.; Mr. and Mrs. Aubrey Shea of St. Cloud, grandparents of the bride; Mr. and Mrs. James Joe Floyd of Daytona Beach, Mr. and Mrs. Alfred Hunt of Casselberry, and David Beauchamp of Jacksonville.

## Deltona Star Club Plans For Holiday Season

By MILDRED HANEY  
Deltona Star Club held its election of office of treasurer, Oct. 25, at the Deltona Community Center.

The meeting was opened with Mr. Don Euvard, accompanied by Mrs. George McWilliams at the piano, singing "Sunrise and Sunset" and "Impossible Dream" from the well known musical show.

Mrs. Don Euvard of Deltona and Mr. and Mrs. Corcoran of Cincinnati, Ohio, were guests.

Mrs. Charles Moltres was unanimously elected treasurer. Mrs. H. Neuhaus was the installing officer. Newly appointed were Mrs. Anita Klesch, historian, and Mrs. George Jatho, publicity.

A combination Thanksgiving and Christmas Party is planned for the Nov. 22 meeting. Husbands and wives of members are invited. A game, Gobble Wobble, was played at the October meeting and prizes were awarded. Luncheon was served at noon by Mrs. O. Hubbard, chairman, assisted by Mrs. W. Melrose, Mrs. L. Hill-ton, Mrs. W. Harr, Mrs. E. Goodson and Mrs. C. Sturtevant.

## Lou Temple Has 'Business On Wheels'

Lou Temple, lifetime resident of the Sanford area, has been operating his "unique business sales, repair and installation, wheels" for about 18 years. Lou operates completely from his truck.

"Since commercial equipment is so big, it's impractical to move to make a minor repair, thus, everything needed to make the repair is at home on the truck," Lou explained.

Lou recently installed one of the dairies a 3,500, 1,500 and two 1,000-gallon dairy farm tanks used to cool the milk.

**Fog, Smog Cover L. A.**  
LOS ANGELES (AP) — Fog closed International Airport again Sunday, and airliner flights were diverted to suburban fields. The heavy mist had forced similar steps.

At the same time smog, after a first-stage alert on Friday, reached near-alert conditions with a recording of 4 part of ozone per million parts of air.

A first-stage smog alert, in which motorists are urged to do only emergency driving, is called when the ozone count reaches 4 part.

Seminole County has been equalized in tax assessments in the State of Florida by the census of government recently completed by the U. S. Census Bureau. The report shows the level of assessment is well within the requirements of the state just value law.

Well known Republican picked up a raft of Democratic literature this week. Said he had promised to work for certain Democratic exchanges for work for her favorite of five-holders.

Two of the three canvassers of the some 2,000 absentee ballots next Wednesday week will be participants in the election, namely Supervisor of Elections Camilla Bruce and County Judge Wallace Hall. Other canvasser is supposed to be County Commission Chairman John Alexander or his designee. It is expected Alexander will designate Commissioner Robert Parker.

Photostat of a letter reputed to have been received by the School Board this past May putting the county on notice that beginning with the school year in 1969 the county will be divided into school zones with all schools integrated or phased out is being circulated widely in the county. According to the letter, there will be no more all Negro schools in Seminole County in September, 1969 or federal funds will cease.

City of Casselberry has received its second candidate for the City Council in the District of a municipal election in the person of Richard Wira, of the city zoning board. First runner up to qualify was Sam Gordon. Seats up are those currently held by Councilmen Donald Wilson, Charles Woodruff and Eugene Ellis. Deadline for qualifying is 5 p.m. this Friday.

Qualifying deadline is 5 p.m. Monday in the city of Altamonte Springs where two seats on the City Council are up in the December elections. Two candidates have qualified to date, Gordon. Left for the district four post currently occupied by Charles Robinson and Charles Moore for the district three and occupied presently by Robert Rogers.

All is quiet, meanwhile, in Longwood as far as the upcoming city elections are concerned. Offices open include those of city clerk, tax collector, mayor and two seats on the City Council.

One would believe political candidates would keep their business at home... in order to lure voters. Some do. But some far from their printing out of Seminole County... as far away as Hialeah.

Some may raise a legal question if George Wallace carries the state of Florida. The presidential candidate is listed as George Wallace Party instead of "American Independent Party." And the vice presidential candidate is listed as Marvin Griffin instead of Curtis LeMay. Cami Bruce says "that was orders from Tallahassee."

## County Gets Ambulance Service

### Stop-Gap Measure Approved

By DONNA ESTES  
Stop-gap measure to insure ambulance service for residents of Seminole County was approved by the County Commission yesterday afternoon.

WILLIAM CHAPPELL, Democratic nominee for U. S. representative, made a final swing through Seminole County today before the general election. He was accompanied by Sanford's Douglas Stenstrom, who went down in defeat to Chappell in the party primary. The two campaigned in Seminole and Volusia Counties today. This morning they visited Sanford and are pictured with County Commissioner John Alexander and County Judge Wallace Hall. From left to right: Stenstrom, Chappell, Alexander, and Hall.

## Telephone Aide Dies In Mishap

By BILL SCOTT  
Information from last night's meeting of the Seminole Port Authority indicates positive action toward the authority's application for a \$650,000 grant from the Economic Development Administration may be forthcoming later in the week.

Application was forwarded Oct. 1 to Commerce Department after a session by local port officials at the federal agency's Hawthorne (Ala.) office.

Granting of the additional funds, together with a \$900,000 loan from U.S. Department of Housing and Urban Development (HUD) and the port's own \$250,000 would bring the total funds available for port construction to \$1.8 million.

Port Administrator F. E. Broussard III said information relative to the authority's grant may be known later today, after a scheduled session between federal officials and local interests.

In other port news, a 402 in the county's assessing and taxing of the authority caused some concern and critical comments among several port officials, when a tax bill for \$11,068.79 was presented.

The administrator said he had received the request for that amount from Mary Earle Walker, county tax assessor, for three fiscal years beginning Oct. 1, 1965, through Oct. 1, 1968.

Authority also was a billed \$1,144.25 from Troy Ray, tax collector, for commissions due his office for some period.

Port Secretary Harold H. Kaster objected to the way the bills were presented since the request from assessor's office did not spell out what the charges represented.

## AP 'Sees' Chappell Victory

Associated Press today predicted that Democrat William Chappell "probably" will win the U. S. Representative seat in Congress for the Fourth (11th) District of Florida, over Republican William Herlong.

The following information was "lifted" from a lengthy resume by AP of all the Congressional races in Florida in the Nov. 6 general election.

The ballot is divided into six columns.

First column shows the Electors for President and Vice President: Republican Party—Richard M. Nixon, Spiro T. Agnew; Democratic Party—Hubert H. Humphrey, Edmund S. Muskie; George Wallace Party—George C. Wallace, Marvin Griffin.

Chappell argues that his 12 year experience as Seminole County prosecutor qualifies him for the office.

Herlong, who recently quit the Democratic party to register Republican, was Lake County campaign manager for Kirk in 1966. He terms himself a "responsible conservative" and says he'll help steer the county away from socialism and toward constitutional government.

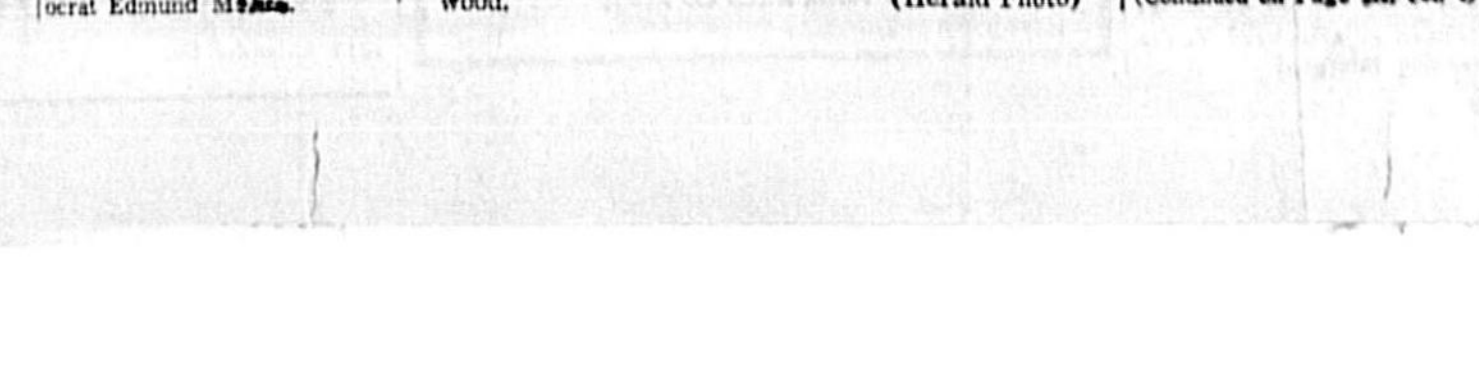

Unless Herlong's political name is more helpful than expected Chappell probably will win.

**Nix Change**  
Seminole County Bar Association today went on record as opposing the proposed state constitution revision to be voted on next Tuesday.

The law group stated that it approves in principle a revision of the State Constitution but "the proposed 1968 Constitution to be submitted to the voters Tuesday does not accomplish the revision required, that it contains provisions which do not deserve the support of the voters and the association disapproves and urges all voters to vote against its adoption."

**At St. Pete**  
ST. PETERSBURG (AP) — Spiro T. Agnew, Republican vice presidential candidate, is scheduled to appear before a rally here today in a speech at least partly aimed at offsetting an earlier campaign visit by Democrat Edmund Muskie.

**BATMAN** flew in today to oversee Halloween activities tomorrow evening and to make sure all the good little witches and goblins are protected from evil spoofs and ghosts. In real life, Batman is Jerry Thayer, son of Mr. and Mrs. William Thayer, Longwood. (Herald Photo)

## Record Vote Turnout Pictured Here Tuesday

Sample ballots for next Tuesday's election are available in the office of Supervisor of Elections Camilla Bruce at the courthouse or the South Seminole branch.

With some 28,500 persons registered to vote in the general election, a turnout of 70 per cent is expected.

In addition, the converted voting machines will be used in the 33 precincts of the county.

The ballot is divided into six columns.

First column shows the Electors for President and Vice President: Republican Party—Richard M. Nixon, Spiro T. Agnew; Democratic Party—Hubert H. Humphrey, Edmund S. Muskie; George Wallace Party—George C. Wallace, Marvin Griffin.

Chappell argues that his 12 year experience as Seminole County prosecutor qualifies him for the office.

Herlong, who recently quit the Democratic party to register Republican, was Lake County campaign manager for Kirk in 1966. He terms himself a "responsible conservative" and says he'll help steer the county away from socialism and toward constitutional government.

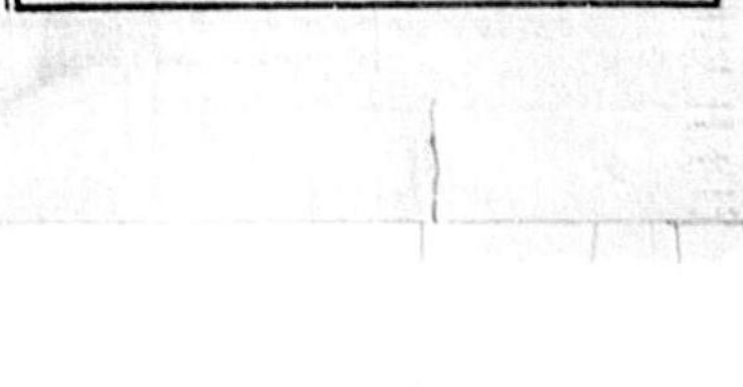

Unless Herlong's political name is more helpful than expected Chappell probably will win.

**Contest Deadline Thursday**  
Sanford-Seminole Jaycees remind all Seminole County children in grades 1 through 6 to submit their entries in the Christmas Parade theme contest. Deadline is Thursday.

Entries should be mailed to the Jaycees, P.O. Box 1142, in Sanford or brought to the Jaycee Building at 127 French Avenue.

The contest winner will receive a \$25 savings bond and have the honor of riding in the Christmas Parade on Dec. 3.

**Guest Speaker**  
State School Supt. Floyd G. Christie will be guest speaker at the Sanford-Kiwiana Club November 6, a tea which will feature Seminole County Schools, including Seminole Junior College. At 2:30 p.m. he will address all teachers and principals at Sanford Civic Center.
