House Passes Control Bill By Voice Vote

Also Approves Bill To Draft Doctors; Vinson Says Draft Age To Be Raised

WASHINGTON, Sept. 1.—(AP)—Congress sent to the White House today a bill giving President Truman broad powers to control prices, wages, credit and strategic materials. Both the Senate and House passed the compromise measure on voice votes. The House acted first. President Truman is expected to approve the bill speedily, but not before his fire-side chat to the nation tonight on the Korean war situation emergency.

WASHINGTON, Sept. 1.—(AP)—The House gave quick approval today to a bill giving President Truman broad powers to control the domestic economy and curb war-borne inflation.

There was no roll call on passage, only a shout of "Ayes." Before that vote, a motion to send the bill back to committee was defeated 155-59-20 on a standing vote.

The House action sent the bill on to the Senate where leaders aimed to get it to President Truman before nightfall when he is scheduled to deliver an address to the nation on home front mobilization.

The House also passed a bill to permit drafting male doctors and dentists through the age of 50 years who are not in the reserves.

The action came on a voice vote shortly after Senate and House conferees agreed on a compromise. The bill now goes to the Senate.

In addition to doctors and dentists, the bill applies to four categories of "allied specialists"—veterinarians, optometrists, pharmacists and osteopaths.

Chairman Vinson (D-Ga.) said the House Armed Services Committee in January will consider raising the age of the draft from 25 to 35 years.

He said the committee also will consider extending the draft to veterans, especially those who are single.

At present veterans with 90 days active service are exempt. Vinson said yesterday that fathers up to age 20 would soon be drafted on Page 10.

Average Old Age Pension Will Be Increased To \$46

Increases in Social Security benefits of 65 to 100 percent will result from the signing by President Truman of the 1950 amendments to the Social Security Act, and will affect 6,578 persons in six central Florida counties, Seminole included.

Beneficiaries in the area under the jurisdiction of the Orlando Field Office who under the former law would have received \$113,000 during September, will receive about \$234,600 or an immediate increase of some \$121,600 in the area, said Paul K. Weaver, Social Security administrator.

These automatic increases for September are scheduled to reach local beneficiaries during the first week in October.

As an example, said Mr. Weaver, the average primary benefit of approximately \$26 a month for a retired worker will be increased to about \$46. A widow with two children who had been receiving \$58 a month will now receive about \$110 altogether.

Any individual now 65 or more who has at least six "quarters of coverage", roughly a year and a half, may be immediately eligible for monthly benefit payments.

Under the new law the amount of earnings which a beneficiary may make in a month, and still accept his insurance payment for that month, is raised from \$14.99 to \$60. This applies to beneficiaries under 75. After reaching 75 he may have any amount of earnings and still accept his insurance checks, Mr. Weaver stated.

The Trumans Attend Ball Game

PRESIDENT AND MRS. HARRY S. TRUMAN are photographed with Clark Griffith, president of the Washington Senators, as they watch the Senators-Detroit Tigers game in Washington. This was the Chief Executive's first visit to the ball park since the opening day game. The local players won by a score of 5 to 4.

Hurricane Could Affect Labor Day Weekend Holiday

Normal Weather And 20 MPH Winds Are Expected Sunday

MIAMI, Sept. 1.—(AP)—Planning a long Labor Day weekend? Then keep in touch with Weather Bureau hurricane advisors. That's Chief Norton's advice. Norton is chief storm forecaster in the Miami Weather Bureau.

"Florida's weather through Sunday will be about normal, with showers and fresh winds of about 20 miles an hour. That much of the Labor Day weekend should be all right for outings."

"Persons planning longer trips should keep in mind the fact that a dangerous hurricane is about 1,400 miles off the coast with no intention of spreading alarm, but merely as a matter of good common sense, this storm should be watched."

"I am not warning Florida against the hurricane at this time, it is too far away. But I cannot say which direction the storm will follow. It could begin to affect Florida weather Monday or Tuesday."

"Persons who will be at beaches or camps in exposed areas should be prepared to keep themselves informed of Weather Bureau hurricane advisories. I suggest they carry a radio and be prepared to take necessary precautions should the occasion arise."

Norton said the pressure setup (Continued on Page 10)

Boy Convicted In Holdup Killing Case

LONG BEACH, Calif., Sept. 1.—(AP)—Eighteen-year-old Truman Cook, who told of planning crimes in notes passed in a classroom stands convicted today of second degree murder in the slaying of a liquor store proprietor during an attempted holdup.

Cook testified that his girl, Peggy Hyman, and Muriel (Pickles) Downs, 18, were his confederates. The two girls are awaiting action by juvenile authorities.

A jury of 11 women and one man returned the verdict last night after deliberating nearly 11 hours. Cook also was convicted of attempted robbery and of armed robbery. Second degree murder and robbery carry a sentence of five years to life and attempted robbery one to 20 years. Cook will be sentenced next Tuesday.

Mrs. Pauline Catania, mother-in-law of the slain man, Dominick Calarco, screamed in the courtroom: "He should have gone to the penitentiary for life! He killed my boy!"

SALES TAXES
TALLAHASSEE, Sept. 1.—(AP)—Florida's collections from its 3 percent sales tax started back on the increase last month after a mid-summer slump.

Comptroller C. M. Gay said August collections on July sales totaled \$2,367,267, just about what had been anticipated.

Haman, 35 Miles From Pusan, Falls As Reds Climb Over Dead To Advance

Malik Returns To UN Group As Jebb Takes Over

New President Asks South Korean John M. Chang To Attend

LAKE SUCCESS, Sept. 1.—(AP)—British Sir Gladwyn Jebb took over the presidency of the U. N. Security Council today but Jakob A. Malik came back to continue his anti-American propaganda campaign as Russia's delegate.

The Soviet representative, who completed his month as president last night, had refused to say in advance whether he would continue to attend the Council meetings or resume his boycott which he ended to take the presidency.

The answer came a few minutes before today's session when he showed up with his advisers. Asked how he felt to be coming back as the Soviet delegate and not as president, he said:

"I have finished my job. I have no obligations. He then was asked whether he intended to speak this afternoon. "We will be having discussions," he said, "and I am not a believer in silence."

The Council convened at 2:46 P.M. (E.S.T.). The Council quickly adopted its agenda without discussion and Jebb then invited South Korean Ambassador John M. Chang to take a place at the table. Malik immediately challenged the chair.

It was this question of Korean representation that snarled the Council in a month-long procedural wrangle during Malik's presidency. Malik had initially proposed that both North and South Korea must be invited. The non-Communist countries contended that North Korea was deterring a U. N. cease-fire order and, therefore, was not entitled to be invited.

Malik said the United States and "those who play the same game" are making a monstrous distortion of the U. N. Charter by not asking both North and South Korea to send representatives. He insisted that the government of the United States is the aggressor in Korea and "thus the aggressor is here but the victim (North Korea) is not here."

The Council chamber again was jammed to capacity as it was called to order for the past month at all meetings. (Continued on Page 10)

Water Carnival To Be Held Saturday

Red Cross swimming certificate will be awarded to the winners who have passed their tests, Saturday morning at the Municipal Pool in connection with the Water Carnival which begins at 10 o'clock, Mrs. P. J. Single, instructor, announced today. The classes were sponsored by the Red Cross and the City Recreation Department.

Events at the carnival will include races in four divisions, and ribbons will be awarded to winners.

A swimming and diving exhibition will be given by Alvin Peterson, Dan Hoffman and Gilman Ward. Some slapstick clowning will be shown by David Heater, Cecil Koons, Walter Graham and Gilman Ward. A group of beginners will give a swimming exhibition.

Music and a speaker system will be furnished by the Radio Hospital. Activities will be directed by the City Recreation Department.

Six Year Old Child Amazes Piano Tuner With Sense Of Musical Pitch

A little six year old Sanford girl with an uncanny sense of musical pitch recently amazed a piano tuner by telling him that he was not tuning her piano to the same pitch as the piano of her music teacher, Miss Margaret Davis.

The little girl, Allison Cecil Lee, is the daughter of Mr. and Mrs. J. L. Lee, 1108 Park Avenue, and the piano tuner is Harry Weston, well known pianist and composer.

"It is true that I am not tuning the piano to 440 pitch as in older pianos it is dangerous to stretch the strings too much or they will break, and therefore most tuners place the pitch of such pianos a half tone lower," said Mr. Weston.

Little "Dee" as she is nicknamed, amazed Mr. Weston with her ability to play correctly and to play the piano to the pitch of such pianos a half tone lower. (Continued on Page Two)

Josh White Hits Pro-Red Stand Of Singer Robeson

Nathan Witt Refuses To Tell Committee If He Is A Commie

WASHINGTON, Sept. 1.—(AP)—Josh White, Negro ballad singer, and today's Tam Robeson spoke "in unison" in his statement that Negroes wouldn't fight for their country against Soviet Russia.

"I stand ready to fight Russia as my enemy of America," White declared in a statement to the House Un-American Activities Committee. Robeson, he added, is "holding himself" when he tries to speak for all fellow Negroes.

He said he admires Robeson as an actor and singer but "I feel as if the help he's been giving the people who despise America."

White told the committee he has been played for a sucker by Communist groups he entertained before learning of their political beliefs.

He said he learned "the hard way" that it is easy to be fooled because "I see good words in their lips but they are covering up bad intentions. But for simple folk who don't know the art of turning words inside out, it takes time to catch on."

That that's not Communist, even if Communists try to use it for their own foul ends," he added.

Nathan Witt, former government official, refused to tell the committee whether he is or has been a Communist. He also refused to answer most other questions put to him.

Witt was named by Lee Pressman, former CIO head, as a Communist work as a sometime fellow member of a Communist cell in Washington.

Two years ago, after he had been named as a Communist by Whittaker Chambers, Witt also refused to answer questions. (Continued on Page 10)

Andrew Carraway Agency Moves Into Its New Location

The Andrew Carraway Agency has moved next door to the new and attractive headquarters at 114 North Park Avenue.

It is located at the former site of Frank's Tavern, and the structure has been completely rebuilt by Fred Tyson, contractor.

Established here in 1940, the business has been located in the Pappert Block. During the three years Mr. Carraway, present mayor of Sanford, was away in service as a lieutenant in the Navy, Mrs. Carraway operated the agency. She still assists in the office and is an agent in her own right.

A. B. Peterson, operator of the St. John Realty Co., has moved with Mr. Carraway to the new location, and his desk is located in the large front office. Mr. Peterson established the company soon after finishing his work as a coordinator for the Seminole County Defense Council.

Mrs. Carraway has her desk in the front office, together with Mrs. Charles Ward, secretary. Mr. Carraway occupies an inner office. The new office, (Continued on Page 10)

Many World War II Vets Fight Again In Battle Against Reds

MIAMI, Sept. 1.—(AP)—Eighty "very important" Dade county gambling kings were indicted by the grand jury today on charges of operating gambling homes.

The names of the eight persons will not be made public until their arrest or surrender.

Special Grand Jury Counsel Robert H. Green told reporters: "This is only the beginning. There are many who were indicted are not small fry gamblers."

Nineteen members of the 35-man grand jury probing gambling and corruption in the county filed into Circuit Judge Marshall P. Wisheart's office at 10 A. M. today and the sealed indictments were presented to the court.

The indictments charged each of the eight men with 14 counts of operating gambling homes.

It was two months ago that the grand jury seized a bulky group of records of the notorious Miami Beach S. & G. Bookie Syndicate which does a \$24,000,000 a year bookie business at Miami Beach.

The jury is believed to have been pressing a thorough investigation of the S. & G. Syndicate's unrelenting operations at Miami.

The grand jury also has seized the records of the ABC News Agency, the Tepee Club and Club 86.

About today's indictments given today:

"There should be no excuse for the prosecution of these cases not to be successful. The indictments are based on strong cases against each individual mentioned."

The indictments now go to the county solicitor's office where the indictments will be prepared for the county office presumably will prosecute the cases in criminal court.

Each count carries a maximum penalty of three years in jail and \$10,000 fine.

NEW YORK
CHICAGO, Sept. 1.—(AP)—The Veterans of Foreign Wars today chose New York City for their 1951 national convention. The dates are Aug. 26 to 31.

The VFW convention time and place committee had recommended the California delegation, however, withdrew the bid, saying a sampling of opinion among this year's delegates showed most favored New York for 1951.

THE WEATHER

Warm and partly cloudy through Saturday with local showers and thunderstorms southeast coast and in extreme south portion and elsewhere in afternoon.

Entire Front Blazes With Taegu In Danger As Final Offensive Is Begun

These Yanks Bring 'Em In Alive

TOKYO, Saturday, Sept. 2.—(AP)—South Korean Reds, crumpling past mounting heaps of their own dead, hammered on a 12-mile front in American Second Division defenses near the southern end of the Korean front today.

Grim young Americans dug into high ground east of Yongson during the night and waited for Saturday's renewed onslaught. Sixteen miles farther southwest, with moving U. S. tanks and 25th Division Infantry troops, they launched a counterattack that temporarily blunted the Reds' massive assault on that southern sector of the defense beachhead in Korea.

TOKYO, Sept. 1.—(AP)—Storming forward over piles of their own dead, Korean Reds today knifed two links out of the chain of American defenses in a continuous, massive assault. It is their greatest attack of the Korean war.

Haman, 35 miles west of the United Nations lifeline port of Pusan, fell to wildly shouting Red infantry. The North Koreans advanced behind Russian-made tanks in the teeth of a mass Allied aerial and artillery counterblow.

That was on the extreme south end of the front. It thundered into Haman at midnight Thursday on a 10-mile stretch from the winding Yeokong River west of Legu to the sea. There U. S. divisions were locked in battle on the central sector.

General MacArthur's intelligence officers said a second major Red offensive against another portion of the beachhead was still possible. He added that the largest mass of enemy infantry still is presumed to be in the Wargwan area.

Sportsmen's Assn. Protests Ruling In Every Day Hunt

Members of the Seminole Sportsmen's Association at a meeting at the Tourist Center today voiced objection to the Fish and Game Commission's ruling for every-day hunting in the Fifth District, as well as throughout the state.

President Peter Lansing told the members that so far had attended the meeting and voted on the matter, that the district had not yet fought against every-day hunting through lack of strength.

Mr. Lansing stated that the Commission had asked for a recommendation of John P. Deane, chief of the biologists, to allow commercial fishermen to be allowed to take speckled perch, bluegill and other fish, a report that had resulted in much protest among the sportsmen.

He declared that the Commission would not act on this report until it had been studied by a 14-man committee representing all branches of sport and commercial fishing.

Mr. Lansing urged members to attend a meeting Saturday and Sunday at the Florida Wildlife Federation at the Tourist Hotel, Daytona Beach. A number of speakers will talk on many items vital to sportsmen, he said.

It was voted to request the permit table, benches, and the Park Lumber had been torn from buildings there by persons wanting to make fires. As a result signs will be placed prohibiting fire or about the people grounds. Other signs will point out available overnight camping grounds.

FRIDAY, SEPT. 1, 1950
TODAY'S BIBLE VERSE
 The needle-eye rate was small and fibers had to be spun and pressed slowly. Gluttony and ungodliness are disgraced when humanity has so many needs unsatisfied. Wealth is a feast, but appetites are for more. Disgrace them, careful sowing people, even though they grow rich; it is easier for a camel to go through a needle's eye than for a rich man to enter the kingdom of God.—Matt. 19:24.

Harry Bridges has been kicked out of the CIO for being too Red. And when the CIO thinks a man is too Red he must be pretty Red.

Two hurricanes were fired at us this week from the Caribbean area. Both missed, one going up one side, one the other. But there up another is brewing near Puerto Rico.

Marshal Rodolfo Graziani, once Fascist No. 2 man, has been released from prison after serving 14 months of a 19 year sentence. He can be thankful he still has his head on. Any other convict in the world would have had him shot on sight.

There is one precious metal which the United States seems to have adequately stocked. No, it is not manganese, vanadium, or uranium, or anything like that so vital, so necessary to national defense. It is gold, billions of dollars worth of gold, all buried at Fort Knox. Too bad some scientist or inventor can't find some use for it.

A Chester, Pa. nurse gave a three year old child a pistol. Thinking she said that it was a toy. Many say nurse can't tell the difference between a toy pistol and a real one should, in our opinion, have his head exploded. At least, she has no business working as a baby sitter. And, as might have been expected, the child shot her.

President Truman has asked Congress for \$140,000,000 to establish government office facilities outside of Washington, just in case. Of course they will be established near enough Washington so that government workers can commute to their offices and continue to live in Washington, it says here. However, if Washington is bombed, we don't know just how many of them will be left to commute.

The policy of increasing newspaper rates through union action to raise wages as well as the rise in cost of raw materials is resulting in newspaper consolidations all over the country to such an alarming degree that Gerald Johnson in the Atlantic Monthly predicts monopolistic news-gathering publications without benefit of editorial pages, but supplemented by four stacked throw-aways of nothing but editorials. How these throw-aways will be financed is not made clear.

The city of Jacksonville jails a man for being a card carrying Communist in what appears to be a violation of the ex post facto provisions of the Constitution. The House of Representatives in Washington votes 354 to 20 for enactment of even more elastic anti-Communist laws than the President recommended. America is in a mood to tolerate Communist sabotage or interference in the coming months, no matter how heinous we have been toward their destructiveness during the past 15 years. We have seen from Jacob Malik's obstructive maneuvers in the Security Council during the past month just how uncooperative, how insufferable some Communists can be toward any organization for the preservation of world peace. We are beginning to realize that their moon-brench throwing extends with unbridled competence into every foreign business in which they may be concerned. It is impossible to do business with them.

There is nothing unusual about the story of Bushman and...

Strange Political Team

It really did happen. Jasper McLevy, Socialist mayor of Bridgeport, has agreed to run for governor of Connecticut on the new Independence Party ticket, whose candidate for senator is Miss Vivian Kellems of Mystic, a manufacturer. She has figured in the news for her stubborn opposition to the income withholding tax. Her repeated refusals to pay it have led only to a little withholding on the part of Uncle Sam, who has ignored her standing and collected from her bankers.

Miss Kellems' opposition to the income tax and to both New Deal and Fair Deal brought her this year some support, but not enough for the Republican nomination for senator. Presumably the votes she gets as an independent will come chiefly from Republicans, making her possibly an indirect and unintended ally of the Democrats.

The puzzle is, what is McLevy doing in her company? His acceptance has infuriated the old-time Socialists. They argue that he has no right to accept the nomination of another party, and especially of such a party as this one. It will not soothe them to read the endorsement by the local party chairman, Nelson A. Parker, a former Republican candidate against McLevy. Parker calls McLevy "the best Republican mayor Bridgeport has had in many years". As at least a nominal Socialist, McLevy may wish that Parker had not said that.

If there is much dissatisfaction with both parties in Connecticut, the strange McLevy-Kellems combination might get a fair number of votes. If the formula succeeds locally, it might encourage trials on a national scale. A comparable ticket might include the veteran 50 lister, Norman Thomas, for president, and Senator Kenneth Wherry, Republican whip in the upper house, for vice-president.

Live Long And Like It

Who would like to live to 110 or 120? This may become a common experience, the National Conference on Aging was told by Dr. Martin L. Gumpert, who specializes in the medical problems of old age. Medical and public health advances are steadily lengthening the average span of human life, so that before long centenarians may become frequent. Is this desirable prospect without drawbacks?

A present it may not seem so. Most old people have little with which to occupy their time, unless they have had the foresight to develop a hobby. They also have little or no money, and must depend on support by the state or the charity of relatives. Even the most devoted of descendants might be appalled at the prospect of supporting a grandparent for the 50 years between retirement at 70 and death at 120.

Longer life also is no guarantee of freedom from falling sight and hearing and enfeeblement of the mind. Jonathan Swift, more than 200 years ago, envisioned this development in "Gulliver's Travels". He described a race of "struldbrugs", doomed to immortality, and leading a ghastly existence of complete physical and mental helplessness.

The Stranded Cat

The rescue of a stranded cat from a tree or a telephone pole is an expression of one of the traits which lift man above the other animals. It is an expression of an inherent sympathy for the troubles and pains of others, a sympathy strong enough to prompt the act of rescue despite difficulties. It does not matter if the one in trouble may be some other person who will never be seen again, or a creature which may not even be capable of gratitude.

Let a cat climb to the top of a tree or a pole and be unable to descend. The police or the fire department will send rescue squads to get it down. Let an inquisitive puppy be caught within a wall. Men will tear a hole in the wall, if necessary, to get it out. Men will risk their own necks to save an animal which has fallen into the water or into a hole.

Congressman Herlong Reports

Congress is meeting early and late and on Saturdays in an effort to clear up all necessary and emergency legislation. The Speaker wants us to adjourn by Labor Day. I am afraid that if we try to meet two fast adjournments with a purely legislative program, we may have some ill-advised legislation.

THE NATION TODAY

Washington, Sept. 1.—(AP)—People employed on farms but not farm-owners or operators—come under the Social Security program, starting Jan. 1, 1951.

The program is intended to protect regular farm employees so that, if they work at farming long enough, they can get a pension at 65, or, if they die, benefits for their survivors.

In fact, this program will work best for those who stay steadily with one employer. It penalizes those who shift around, changing employers. Why?

Because every time a farm worker goes to work for a new boss he must work approximately two quarters to get credit for one toward his pension. This will cap the rates, but first remember:

1. He must start out, work continuously for one employer for one quarter, for which he gets no credit toward a pension and therefore is not taxed. This is simply a preliminary quarter.

2. After that he gets credit for each quarter in which he works at least 60 days. Suppose he falls to work that much in some subsequent quarter. He'll get credit for that one, too, but then he must work the whole quarter over again. Here's an illustration:

Jones goes to work for Smith in the first quarter of 1951. He works that quarter and 60 days of the second quarter, earning at least \$50 a quarter.

For that first, or preliminary, quarter Jones gets no credit toward the total number of quarters he works for Smith and gets no pension. But he gets credit for the second quarter.

In the third quarter of 1951 Jones fails to work at least 60 days. He gets credit for it, just the same. But then the whole thing starts over again, just as if he were going to work for a new boss.

He works the fourth quarter of 1951 (which would count toward his credit because it has now become only a preliminary quarter) and then works the first quarter of 1952 for at least 60 days. He gets credit for that first quarter of 1952.

You can see what this means: If Jones works two quarters (six months) for Smith and gets credit only for the second quarter and switches over to Brown, Jones has to start all over again, working a preliminary quarter, then 60 days in the next one and gets credit only for that second one.

Once a worker gets credit for a quarter, of course, he never loses it. It stays in his record. Next time he gets credit for a quarter, it's added to the first one. But, since he'll need a minimum number of quarters to get a pension, the fewer he has, the better he gets for a pension.

HOPING FOR A BULL'S-EYE

THE WORLD TODAY

Winston Churchill's disclosure (confirmed by the government) that a British factory is producing for Russia tools suitable for the repair of military tanks, is a disturbing commentary on an international practice.

This isn't confined to Britain, however. It is a common practice by many countries. America supplied Japan with oil and iron for the Kaiser for World War I. And most other nations have pursued or are pursuing similar tactics.

However, that doesn't lessen the danger of the custom. Of course Britain and Russia aren't at war in the accepted sense of the word. There has been no formal declaration of hostilities, but the so-called "cold war" in which the major powers are engaged is one of the most devastating conflicts of history.

Even now a contingent of Scots Highland troops are beginning to arrive in Korea to join MacArthur's forces. These are the famous soldiers who were called "Ladies From Hell" by the Germans.

Their food: the man who creates the farmer's vegetables for market; the man whose job is keeping the machinery repaired (but whose someone calls in for an occasional repair job); and domestic servants in a farm home, like cooks.

There's another new program which covers domestic servants in non-farm homes but farm-owners are not under that program. They're grouped with farm workers.

But practically everybody connected with farm work—on or off the farm—is now under Social Security. For example, a farmer's son who works in a cannery—commercial cannery, putting up farm products—would be classified as a farm worker and so would not be under Social Security.

Now they are no longer considered farm workers. But, since that automatically makes them employes in commerce or industry, they come under Social Security.

Events At Daytona Expected To Draw Big Monday Crowd

DAYTONA BEACH, Sept. 1.—(Special)—The four days of special events scheduled for the long Labor Day week-end at Daytona Beach are expected to attract a record crowd to the city, comparable to the 100,000 visitors who inundated the city during its Fourth of July Festival.

Each spot of the week-end activities, of course, is the "Miss Southern" Bathing Beauty Pageant which has been set up to rival the "Miss Dixie" title contests held on the Fourth of July at Daytona Beach.

The report of Daytona has found bathing beauty parades in its regular amphitheater on the beach boardwalk the last "sure-fire" method of attracting out-of-town visitors from nearby cities as well as the normal tourist visitor.

The half-mile long boardwalk will also be the center of many other activities during the four days of festivities.

Twenty-two Southern belles from Georgia, Alabama, South Carolina and Florida have already entered the "Miss Southland" contest. The winner will be chosen at 2 P. M. Saturday at the Beach Bandshell, and crowned later that evening at the Pier Casino by Frank Roache, of Miami, President of the Florida State Federation of Labor.

Among other major events on the week-end schedule are a torch-light parade Friday night, fireworks display from Riverfront Saturday night, and a labor gathering at Riverfront Park with Roache as guest speaker on Saturday night, followed by the coronation ball.

A horse show on the beach is scheduled at 2 P. M. Sunday, and a junk car race on the beach at noon Monday following the traditional Labor Day parade at 11 A. M.

Child Prodigy

(Continued From Page One) Dede kept calling to her to hit C. It was then I found out she could name any note.

She doesn't have to be told to practice at the piano, but like any other normal, healthy child of her age, likes vigorous exercise on her tricycle, and playing with her sister and neighbor children.

Mrs. Lee is the former Emma Winn, who is known throughout the section for her extraordinary ability. Mrs. Lee is a chief dispatcher of the Atlantic Coast Line Railroad.

they knew these things were there before they left America. It should not act superior, I found the notes very receptive at any gesture of good will.

Twenty-Nine Special Jobs Listed By FSES

Twenty-nine special jobs were listed in the Job Inventory released by the Florida State Employment Service, according to Robert Rumbley, Manager of the Sanford office.

Supervisory personnel being recruited by the Employment Service include such jobs as quarry foreman, building foreman and laundry superintendent. Other special jobs of this type are also listed. All the positions require experience.

Technical openings such as civil and mechanical engineers, electrical, mechanical and structural draftsmen are also listed in the Job Inventory. Mr. Rumbley said: "Also included are jobs for painter, upholsterer, book-binding maker, electroplater, sign painter and generator armature winder repairman."

For these and other special jobs listed with the Florida State Employment Service, contact the Sanford office at 114 South Palmto Avenue.

FOREIGN RELATIONS

JACKSONVILLE, Sept. 1.—(AP)—America would have better foreign relations if more people were like Mrs. Thurston Roberts. Rep. Charles E. Bennett says so and says the State Department endorses her idea, too.

Mrs. Roberts, a prominent Florida clubwoman and her husband is president of a Motor Finance Company. They have just returned from an European tour.

Said Mrs. Roberts: "Americans going abroad should not criticize but try to understand trials and tribulations of others because

Community Missions Studied By Baptists

FRIDAY
The regular business meeting of the American Legion Auxiliary Unit 83 will meet at the Legion Hut at 8:00 P. M.

MONDAY
The Philathea Class of the First Presbyterian Church will meet at 8:00 P. M. with Mrs. W. M. McKinnon at 901 Magnolia Avenue.

The First Baptist Church sponsored a conference Monday on "Community Missions" held by Mrs. Clifford Walker, State Woman's Missionary Union Community Missions Chairman of Jacksonville.

The Seminole Baptist Association is composed of 27 churches and the Women's Missionary Union of these churches were invited to attend the conference.

The meeting opened at 11:00 o'clock with Mrs. A. J. Peterson, Association President presiding. Mrs. Peterson is also the president of the Women's Missionary Union of the First Baptist Church.

Mrs. W. D. Gardner, Community Missions Chairman of the local Women's Missionary Union introduced Mrs. Walker who was the main speaker of the day. The conference was followed by a round table discussion on community missions.

Sixty-nine members and a number of visitors were present, among them being Mrs. N. Ruth Clark, a home missionary from Kentucky. A covered dish fellowship luncheon was enjoyed at noon.

TUESDAY
The Daughters of Wesley Sunday School Class will meet at Mr. Kinley Hall for its regular business and social meeting. Mrs. A. H. Winn, Mrs. Margaret Edwards, Mrs. Pauline Howard, Mrs. A. A. Hunter, Mrs. J. M. McMaskell and Miss Ruth Hand will act as hosts.

The Fidelis Class of the First Baptist Church will meet at the home of Mrs. L. E. Garner on West Sixteenth Street at 8:00 P. M. with Group Five as hosts.

The regular meeting of the Friendship League of the Congregational Church will meet with Mrs. R. K. Evans, 705 Magnolia Avenue, at 2:30 P. M.

Duxbury School Of Dancing Opens Soon

The Duxbury School of Dancing in the Welska Building will open Sept. 11 for dancing. Mrs. A. B. Duxbury announced today. The classes will include instruction in lap, ballet and waltz dancing, and is available to children of three years of age and up.

The floor of the studio has been improved and repaired and redecorating is in progress. New bars have been installed for ballet practice, and furniture has been added. The piano has been tuned and Mrs. J. H. Hunkenshien, formerly of Cincinnati, Ohio, will be the new pianist for the practice sessions.

Never hold down on fruits and vegetables when you are dieting. Eat a variety of these nutrient-rich foods, including potatoes. A medium-sized potato has no more calories than a big orange or apple.

Eastern Star Picnic Is Held In Geneva

The annual Robert Morris Memorial Eastern Star picnic which was held at the home of the worthy Patron W. L. Seig on Lake Hazey, was transferred to the Community Hall in Geneva on account of the rain, Wednesday afternoon.

The host and the hostess, Mr. and Mrs. Seig, furnished fried fish and fresh puppies to complete a meal of covered dishes from the other members.

Mrs. L. M. Tyne and Frank Talbot were chairman of the refreshment committee. Others assisting besides Mr. and Mrs. Seig, were Mrs. Edith Galt, Mrs. Tommy McLain, Mrs. Logan and Mrs. W. G. Killen, Mrs. Yutes and Mrs. David Speer.

Mrs. R. C. Maxwell, program chairman, gave an interesting talk on the life of Robert Morris, founder of the order. More than 50 members and their families enjoyed the occasion.

Personals

Ted Jones and family left yesterday by auto for a weekend trip to West Palm Beach and Miami.

Miss Peggy Farrell of Key West arrived yesterday to attend the Fitts-Clingenspeel wedding.

Miss Peggy Wilson has returned to her home after spending the summer at Camp Manitowick in Connecticut.

The meeting opened at 11:00 o'clock with Mrs. A. J. Peterson, Association President presiding. Mrs. Peterson is also the president of the Women's Missionary Union of the First Baptist Church.

Mrs. W. D. Gardner, Community Missions Chairman of the local Women's Missionary Union introduced Mrs. Walker who was the main speaker of the day. The conference was followed by a round table discussion on community missions.

Sixty-nine members and a number of visitors were present, among them being Mrs. N. Ruth Clark, a home missionary from Kentucky. A covered dish fellowship luncheon was enjoyed at noon.

Lucille Weightman Weds James Chestnut

Miss F. Lucille Weightman, daughter of Mr. and Mrs. Carl Eisenbauer, of Williamsport, Pa., was married on Aug. 17 to James E. Chestnut, son of Mr. and Mrs. James Chestnut of Sanford. The double ring ceremony was performed at 4:30 o'clock at the Christian and Missionary Alliance Church by Rev. Glenn E. Smith.

Tall baskets of white gladioluses and chrysanthemums against a background of palms and other greenery formed the setting. Upright tapers in etched and tapered cast a soft glow throughout the church. Prior to the ceremony, a program of nuptial music was rendered by Miss Lydia Wiebhold, pianist. Included were "Clair de Lune" by Debussy, "Adagio" from "Moonlight Sonata" by Beethoven and "Trauerzeit" by Schumann.

The traditional wedding marches were also used. Miss Frances Stuck of Winter Garden sang "Heaven and 'At Dawning" before the wedding party entered the church and after the exchange of vows she sang "The Lord's Prayer" while the couple left.

The bride entered the church on the arm of her father, who gave her in marriage. Her bridal gown was midnight, slipper satin. The fitted bodice came to a point at the waist and was attached to a full skirt which ended in a long train. Small buttons extended from the high neckline to the waist. The small collar was covered with a design of seed pearls.

Her finger-tip veil of sheer bridal tulle fell from a coronet of orange blossoms. She carried a white little topped with a white orchid from which fell streamers of ribbon, orange blossoms and tuberoses. Her only ornament was a rhinestone necklace, a gift of the bridegroom.

Young Wesleyans Have Monthly Meet

The Young Wesleyan Class of the First Methodist Church had its monthly meeting Monday evening at the home of Mr. and Mrs. Robert Barker with Mr. and Mrs. Park Tyler as co-hosts.

Park Tyler, the class president, called the meeting to order and the election of officers was held with Woodrow Cash elected president, John Williams, secretary and Mrs. Max Fendon treasurer.

Mrs. Ashley Jones, Mrs. Max Fendon, Bill Castle and Blake Sawyer will serve as a committee to plan a special party for the September meeting to install the newly elected officers.

Delicious refreshments consisting of ice cream, cake and punch were served in the following order: Mrs. Castle, Mr. and Mrs. Ashley Jones, Mr. and Mrs. Bill Castle, Mr. and Mrs. Blake Sawyer, Mrs. Carl Wade, Mrs. Max Fendon.

Longwood

By MRS. J. H. MINICK

Under the auspices of American Legion and Post and the Auxiliary a benefitazaar will be put on at the Longwood Hotel Friday beginning at 1:00 in the afternoon. Buffet supper will be served at 5:00 o'clock throughout the evening. There will be dancing and games. The public is invited.

Teachers appointed at Longwood school for this year are: Max Hartley, Eddie Kreitzer, Eleanor Winkley, Pauline Gramham, Hazel Hunt, Tracie Wells, Hattie M. Nunnally, Mary Grant, Ford, Elizabeth Nellie Ann Thurgood, Hugh Carlson, Jim Payne, E. S. Douglas, Betty Bohaly.

Mr. and Mrs. James Chestnut, whose marriage took place at the Christian and Missionary Alliance Church. Mrs. Chestnut is the daughter of Mr. and Mrs. Carl Eisenbauer of Williamsport, Pa. Mr. Chestnut is the son of Mr. and Mrs. James Chestnut of Sanford.

Sixty-nine members and a number of visitors were present, among them being Mrs. N. Ruth Clark, a home missionary from Kentucky. A covered dish fellowship luncheon was enjoyed at noon.

Mrs. Harry Hansen Honored With Party

Complimenting her sister, Mrs. Harry Hansen, of Hollywood, Mrs. L. E. Garner entertained at her home on West Sixteenth Street last night with a cannoli party.

Hibiscus in shades of rose and pink were effectively used to decorate the living room and dining room of the Carter home. For seating high Mrs. D. K. McNeil presented a novel Revlon lipstick pen and the guest of honor was presented with a necklace.

Late in the evening the hostess served refreshments of ice cream and cake. She was assisted by Page and Roger Garret.

Those enjoying the party were: Mrs. Hansen, Mrs. Gordon Swarth, Mrs. Broughton Watkins, Mrs. Herman Echols, Mrs. Elmer Echols, Mrs. Verne C. Mosinger, Mrs. Bill Tyler, and Mrs. Garnet Tyler.

Mr. and Mrs. True Honored By Faculty

The faculty of Sanford Junior High School entertained their principal, R. E. True, and Mrs. True at a barbecue Monday night at the home of Mr. and Mrs. Hot Cochran in Lake Mary.

Those present with Mr. and Mrs. True were Mr. and Mrs. Raymond Hall, Mr. and Mrs. Horace Cochran, Mr. and Mrs. Leo Samuels and daughter, Carol, Mr. and Mrs. Jack Burney, Mr. and Mrs. H. W. Ginter and son, Humbley and son Bobby, Mr. and Stephen, Mr. and Mrs. Robert Ginter, Mrs. Jeanie Harmon, Miss Georgina Hart, Mrs. W. G. Fleming, and G. L. Simpsonfield.

Giants Bow To Leesburg In Final Game By Score Of 3-2

Chadderton Puts On A Big Show For The Packer Followers; Series Begins Today

The Sanford Giants, with the outfielders pitching and the pitchers playing the outfield, suffered a 3 to 2 defeat last night by the Leesburg packers in the final game for both teams.

Giant Manager Ed Levy put on a show for the Leesburg fans last night since it had no bearing on the final outcome of the standings. Levy, who has appeared in several relief roles on the mound this year elected himself for the starting mound duties and hurled five innings of scintillating ball before calling on rookie Charlie Tedesco to relieve him.

Tedesco retired the Packers in order in the sixth inning and was pulled in the seventh in favor of Fred Chadderton so that the Packers would have a chance.

With men on first and second with none away in the bottom of the eighth inning Chadderton made a brilliant pick off at second with shortstop Marcel Packer making the put out. Chadderton, misplaying at the great assistance by Packer, proceeded to walk to second base and congratulate him by a warm handshake.

Chadderton was charged with the loss when he walked in the winning run in the bottom of the ninth inning.

The Shaughnessy play-offs begin tonight when the Gainesville G-Men go to Orlando to tackle the league leaders and the Deland Red Hats journey to Daytona to take on the second place Islanders.

ORLANDO—DELAND
The Deland Red Hats, who opened the season with a win, closed it on a successful note last night, beating the pennant-winning Senators, 5-3 before 902 Tinker Field fans. Roy Outen's four-hit pitching and four Orlando errors made the win possible.

SAINTS—G-MEN
The Gainesville G-Men employed seven pitchers in different positions but the St. Augustine Saints were playing ball while the G's were just playing, as the 8 to 3 score indicated.

George Frath won his 16th game and Pete Pichan drove in

FOREIGN THREAT . . . By Alan Maver

UPSETS ARE NOTHING NEW TO THIS SURPRISE WINNER OF TWO DAVIS CUP SINGLES MATCHES AGAINST AUSTRALIAN ELIMINATED FRANKIE PARKER AT WIMBLEDON IN 1948!

Chicks And Pels Scrap For South League's Top Rung

By ASSOCIATED PRESS
With Atlanta running away with the Southern Association pennant race and threatening to become the first 100-game winning team in 11 seasons, the best place to find suspense is on the fringe of the first division.

In fourth place last night the Memphis Chicks must have heard a loud danger signal because the Chicks turned about and persecuted their tormentors twice.

Memphis whipped New Orleans in both games of a doubleheader 2-1 and 2-4 and put two more runs between its fourth place and the Pelicans' fifth place.

The victories evened the series but they have another round coming tonight.

In the seventh inning of last night's opening game, Memphis put together a walk, an error and two singles for the winning run.

Rocky Kramich hit a grand slam homer in the second game and that alone would have been enough to tie New Orleans.

Atlanta slaughtered Chattanooga twice—8-1 and 9-1—for victories Nos. 88 and 89. The Crackers have 13 more games to play and victories in 11 would make them the first southern team to win 100 games since 1940.

That season Nashville won 101, Memphis won 101 in 1932 but did not win a pennant. Chattanooga had an 802 better percentage that season. The most ever won was 104. Memphis made mockery of the Southern in 1921 and 1924 with 104 each time.

Atlanta slaughtered Chattanooga twice—8-1 and 9-1—for victories Nos. 88 and 89. The Crackers have 13 more games to play and victories in 11 would make them the first southern team to win 100 games since 1940.

Gil Hodges Proves Self To Be Strongest Man In National Loop

By JOE REICHLER
Associated Press Sports Writer
Gil Hodges, called by many the strongest man in the National League, has just about proved it.

The husky Brooklyn first baseman hit four home runs last night to record a feat performed only five times before in major league baseball. Hodges' walloping of four separate Boston Braves pitchers temporarily shared attention with the hot American League pennant race.

It happened at Ebbets Field as the Dodgers trounced the Braves 19-3 to gain a halfgame on the idle Philadelphia Phillies. The Phillies still lead the National League by six games.

In the American League, Detroit's stumbling Tigers blew a 2-1 game to Washington and dropped two games behind the American League leaders, the New York Yankees, victorious over Cleveland, 7-5.

The five other major leaguers with four home runs in the record book are Bobby Lewis, 1891 Boston Nationals; Ed Delephanty, 1896 Philadelphia Nationals; Lou Gehrig, 1932 New York Yankees; Chuck Klein, 1936 Philadelphia Phillies; and Pat Seery, 1948 Chicago White Sox.

Hodges also squallied the major league record for total bases in a game—17. The slugger came up six times, singling and grounding out when he didn't connect for the circuit, and drove in nine runs.

Hodges now is even with his entire 1949 output of home runs—23.

Gil's fourth round-tripper made it 153 for the Brooklyn team, smashing the club's of 152 last season.

The American League battle saw Boston's blistering Red Sox climb to within a half game of second-place Detroit with a 4-3 decision over the Chicago White Sox. It was the bean-town band's 16th victory in 17 games.

Cleveland in bowing to the Yankees and losing the entire four-game series, fell five games off the pace. The Indians are fourth.

Hodges' runs by Johnny Mize, Cliff Mauer, Yogi Berra and Phil Rizzuto, contributed to the Indians' sixth straight loss. They all came off 20-game Bob Lemon.

Tommy Byrne started for the Yankees and gained his 14th victory although relieved in the late stages.

The Tigers were victimized by Gene Bearden, who won his third game of the season, Art Houtteman limited the victory to five runs and three straight in the third inning gave Washington both its runs.

Boston's Clyde Volmer walked on four straight balls by Bill Pierce in the ninth, forcing home the winning Red Sox run. Ellis Kinder came in as relief pitcher and got credit for the victory, his 13th this year.

The only other American League competition saw the Philadelphia Athletics and the St. Louis Browns split. The Browns won the open 4-3, and the A's the nightcap, 3-2.

In the only other National League game, the New Giants squeezed out a 2-1 victory over the St. Louis Cardinals for fourth place. Jim Hearn, the Giants' bargain-basement pitching sensation, checked up his seventh triumph in limiting the Pirates to four hits.

Charleston About To Lose Playoff Spot

By ASSOCIATED PRESS
Charleston's chances for a South Atlantic League playoff spot suffered badly last night and it looks as if the Rebels will continue to suffer until near the end of the season.

Columbus whipped Charleston 3-1 in the first game of a proposed doubleheader. The second game was called off and Columbus spent the rest of the night in the first division. Charleston's next assignment is against league foe Macon in Macon while Columbus defends its newly won first division spot at home against the weak Augusta Tigers.

The Charleston-Columbus game was called in the fifth because of wet grounds after Pete Bryant of Columbus and Bob Masters of Charleston had pitched four-inning.

When the ground is snow-covered, mix sand with bird seed for birds need to eat gravel.

College Football Goes In Training Under War Shadow

NEW YORK, Sept. 1.—College football moved in today with its snap, callisthenics and a whole batch of new problems, but it had to scrap for attention.

While thousands of muscled young athletes lined up for crisp, crisp, crisp, throughout the state, the country's attention focused on GI Hodges' home run spree, the brisk American League baseball race and a worsening Korean situation.

The Korean war cast an ominous shadow across the practice fields as every major conference except the Big Ten launched fall seasons. The Big Ten football with Notre Dame's independent status and championships, doesn't begin until Sept. 6.

Right now it appears the draft will not matter all that much to college football. But of things get much worse, once again, college football may be more of a spirit than an sport for some time.

The sport faced the 1950 season with other economy-sized weapons—television, for one, vigorously opposed by many of the media institutions; the NCAA Study Code, for another, which threatened college tanks with a war.

The television problem hasn't been tackled by colleges as a body. Many of the big games will be shown on the radio and broadcast. Many of the smaller schools expect to suffer.

The Sanitary Code has struck hardest at the Deep South where two Dixie powers, North Carolina and South Carolina, have been in the early fall when egg prices are best.

The NCAA tried to end the violators but failed in a suit on the convention floor. The college athletes nevertheless still count to impose sanctions.

These institutions, some of which have since complied with the code, are going about with their football schedules as usual.

The three big powers of last year, Notre Dame, Oklahoma and Army, are expected to continue work on long success streaks.

The Irish haven't been beaten in 34 games. The Sooner have won 21 in a row and Army has gone 20 games without a setback.

Ginger Rogers

or a \$5,000 fine. Judge Wisniewski said a \$5,000 bond would be set for each when arrested.

TALLAHASSEE, Sept. 1.—Governor Warren said today testimony before the U. S. Senate Crime Committee does not give him grounds to suspend Dade County Sheriff Jimmy Sullivan. If a grand jury indicts Sullivan, however, he will be suspended, the Governor said.

In a letter to J. H. Younger, head of the Miami Crime Commission, Warren said the State Supreme Court has ruled a sheriff cannot be suspended for a cause that existed prior to his present term of office.

The Governor also wrote that under Florida's Constitution a Governor may suspend a sheriff.

Far West Dominates Girls Golf Tourney

BUFFALO, N. Y., Sept. 1.—The Far West was in for a sure winner today as two of its young stars tangled for the title of Princess of American Golf.

Pat Lester, a lean 16-year-old from Seattle, ruled a slight favorite over Mary Kathryn (Mickey) Wright of La Jolla, Calif., in the 18-hole final of the second annual USGA Junior Girls Golf Championship.

Miss Lester, the Western union girls golfer, shipped over Atlantic Country Club's 5633-yard, par 76 course in a pouring rain yesterday to knock out Alice Marie Ehrhart of Speedway, Ind., in the semifinals, 9 and 8.

Miss Wright, a blonde 15-year-old and big for her age, eliminated Katherine McKinnon of West Palm Beach, Fla., 2 and 1 in her bracket.

Fat was even just when she ended her match on the 10th green, Mickey, the Southern California Junior Girls champ, was only three over when she closed hers out on the 17th.

The youngsters' scores were all the more remarkable because of the soaked condition of the course. The start of the matches was delayed an hour and a half by the driving rain.

He listed these as malfeasance, misfeasance, neglect of duty, commission of a felony, drunkenness and incompetency.

"I have read the testimony taken by the Kefauver committee," Warren said. "The testimony does not prove any of the six constitutional causes exist for suspension of Sheriff Sullivan."

"If proof is presented that any of these causes exists Sheriff Sullivan will be suspended," Warren told Younger that if Sullivan is guilty of misconduct in office "it may be assumed that the Dade County Grand Jury will indict him."

The Miami Crime Commission demanded the suspension of Sullivan after the Senate committee reported Sullivan must share responsibility for the operation of the powerful S. and G. bookmaking syndicate.

The commission also said Sullivan's explanation of his increase in wealth from \$2,500 in 1944 to over \$70,000 in 1947 was "vague and evasive."

Korean War

(Continued From Page One)

made the deepest penetration in 18 hours of furious battle. The Second Division was forced back beyond the point where the Reds crossed a bridgehead two weeks ago. That bridgehead was wiped out by the U. S. 24th Division.

The GIs made an orderly retreat to a point west of Yongson. Then they dug in and prepared to counterattack.

Heavy fighting was reported also at Songjin, a hamlet bordering a rice paddy four miles east of the Nakdong and about four miles south of Yongson.

Further north, the U. S. First Cavalry Division was in action against another Red concentration. There were no details of the action in that sector.

On the northeast end of the 120-mile beachhead from the Korean Republics made gains north of Pohang against light Red resistance. Kigye, nine miles northwest of Pohang, was taken by the South Koreans.

South Koreans also gained a mile on the coastal road between four and five miles north of Pohang. No 2 United Nations part on the east coast.

The Reds crossed the Nakdong at Songjin, a hamlet bordering a rice paddy four miles east of the Nakdong and about four miles south of Yongson.

Sixteen trucks loaded with gasoline for North Korean tanks were turned into blazing towers of flame. Six troop-laden barges were hit while trying to cross the Nakdong.

Five tanks were reported damaged in addition, pilots said their rockets knocked out three others.

A later dispatch from a correspondent said American casualties on the extreme southern front were described as moderate to heavy.

With American and Australian fighters also shooting up Red factories, hundreds of planes were tearing over the swaying battlements.

"They couldn't have hit us at a better time," commented Brig. General George Harth of Washington. "The enemy's command of the 25th Division 'We were really ready for them'."

Another spokesman said: "We've got them out in the open now."

Nation's Food Supply Is More Adequate Than Before Other Wars

By JAMES E. LAWSON
 TOPEKA, Kan., Sept. 1.—(AP)—What about this country's food supply in the event of another global war?

The head man of agriculture in Kansas, one of the nation's greatest food-producing states, believes it could be even more adequate than in World Wars I and II.

Roy Freeland, secretary of the State Board of Agriculture, says three intangibles, "weather, loyalty and prices," have important roles in food production. Beyond these, however, Freeland finds several factors which make the production outlook appear stronger at this time than in the year preceding the other wars.

Mindful of the "black blizzards" of the dirty thirties, when dust storms laid Kansas' major industry flat on its back, he realizes the folly of long range crop predictions.

But Freeland has seen Kansas come back from its dismal position of the 30's to where it now is producing annually enough wheat to supply the bread needs of a ten million man army for almost five years.

It also is producing each year enough livestock to provide the same size army with meat for almost a year and enough milk and eggs for six months.

Kansas' great comeback after an extended dry period ending in 1941 is attributed by Freeland in no small way to an extended wet period apparently still in full swing.

Already in the ground is sufficient moisture to assure another great wheat crop with the cooperation of the weather and insects next spring and early summer.

Supplies of underground water used to irrigate forage and truck crops are in the best shape they've been since the state start of keeping water records back in the 30's.

Pastures and forage supplies are favorable and animal inventories remain high to assure huge meat production.

Beyond the moisture situation which has particularly benefited Kansas, Freeland says the same factors contributing to Kansas' great production outlook also prevail in a general way in other states.

Kansas production has been at or above the wartime average without wartime loyalty incentives. Freeland believes, because of increased demand and high prices, improved farming practices and greater mechanization.

In Kansas, the number of tractors has increased from less than 90,000 prior to World War II to an estimated 150,000 at the present time. A tractor enables a farmer and his son to farm 160 acres of land, Freeland said.

Another important factor in increased production, Freeland added, is the rapidly growing use of fertilizers and agricultural chemicals. In the first half of 1950, Kansas farmers used 65,487 tons of fertilizer against 12,848 tons in all of 1941. Use of agricultural chemicals also is hitting a new peak each year.

In war, both fertilizers and chemicals may not be available because of military demands but the one indispensable is the weather, Freeland said.

At THE CHURCHES

All Church Notices must be presented at the Herald office on the day before publication.

Sanford Ministerial Association
 Rev. H. L. Zimmerman, President
 Joe C. Crews, Sec. - Treas.

FIRST CHRISTIAN CHURCH
 1607 Sanford Avenue
 J. Randall Farris, Minister
 "A Peculiar People" is the sermon subject chosen by the Minister for the morning service at the First Christian Church. There will be no evening service this week.
 The Church School will begin its worship and study at 9:45 A. M. Midweek Bible study and prayer Wednesday 8:00 P. M.

FIRST METHODIST CHURCH
 J. E. McKinley, Minister
 Mrs. P. R. Stephenson, H. R. E.
 9:45 A. M. Church School
 A class for every age
 11:00 A. M. Morning Worship
 Sermon Topic: "Holy Communion"
 7:00 P. M. Youth Fellowship Service
 8:00 P. M. Evening Worship
 Sermon Topic: "You—A Majority"

MORNING DEVOTIONS
 The Morning Devotions Program will be in charge of Dr. W. P. Brooks, pastor of the First Baptist Church throughout next week.
 Morning Devotions is a program presented by Radio Station WTRR in cooperation with the Sanford Ministerial Association. It is heard daily at 8:30 A. M. and on Saturday evening at 7:15. The Saturday program is a School Lesson.

CHRISTIAN & MISSIONARY ALLIANCE
 Park Avenue and Fourth Street
 Glenn E. Smith, Pastor
 10:00 A. M. Bible School
 Mr. A. Weibold, Supt.
 11:00 A. M. Morning Worship
 Pastor's subject "Can You Look Up?"
 11:45 A. M. Communion Service
 All are welcome
 8:00 P. M. Evening Service
 An informal service for all ages. All are invited.

FIRST CHURCH OF CHRIST, SCIENTIST
 300 East Second Street
 Sunday School 9:45 A. M.
 Morning Service 11:00 A. M.
 Wednesday Service 8:00 P. M.
 Reading Room Tuesdays and Fridays 3:00 to 5:00 P. M.
 "Man" is the subject of the Lesson-Sermon which will be read in Churches of Christ, Scientist, throughout the world on Sunday, September 3.
 The Golden Text is: "Blessed is the man that walketh not in the counsel of the ungodly, nor standeth in the way of sinners, nor sitteth in the seat of the scornful. But his delight is in the law of the Lord; and in his law doth he meditate day and night" Ps. 1:1, 2).
 Among the citations which comprise the Lesson-Sermon is the God created man in his own image, in the image of God created he him; male and female created he them" (Gen. 1:27).
 The Lesson-Sermon also includes the following passages from the Christian Science textbook "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "God expresses in man the infinite idea forever developing itself, broadening and rising high and higher from a boundless sea in the infinitude of Truth, we know no more of man than the divine image; and (Gen. 1:26-28).

Retailers' Group Said Reconciled To State Sales Tax

TALLAHASSEE, Sept. 1.—(AP)—The Florida State Retailers Association has come to believe the public and merchants are reconciled to the sales tax it fought so long.

Lloyd F. Gahr of Orlando, president of the association, told Governor Warren on today in a letter suggesting that he call a conference of legislators and business men to discuss improvements to the 1949 law.

"It is our conviction that the public generally, as well as the merchants of Florida, are reconciled to retail sales tax as a permanent part of our state's tax structure," Gahr said.

"It is highly desirable, therefore, that Florida have the very best sales tax law possible, from the standpoint of equally, revenue production, simplicity, administration and enforcement."

"I am sure you will concur in the statement that our present sales tax is subject to much justifiable criticism and that on the basis of experience now gained, greatly improved sales tax legislation can be effected at the 1951 session of the legislature."

The decision of the Retailers Association to seek modification rather than outright repeal of the sales tax takes away the most powerful element of the group that might want to do away with the levy entirely.

The Retailers Association, made up mostly of the Florida merchants, led the fight for years against any form of sales tax.

Gahr told the legislature that since "tremendous pressures are being brought to bear during the hectic days of a legislative session a well defined sales tax program can best be formulated before the legislature convenes."

He suggested the Governor, Senate president and House Speaker join in calling a preliminary conference to make recommendations "looking toward major improvements" in the sales tax.

He said "such a conference might well include representatives of the House and Senate, representatives of the major interests that are affected, either directly or indirectly, by the state sales tax."

Governor Warren was not in his office and could not be reached immediately for comment on Gahr's proposal.

County Schools

(Continued From Page One)
 class room, a small space furnished like a living room in which to learn to entertain, and a well furnished kitchen.

The kitchen is really five unit kitchens combined in one, and is equipped with the latest in sinks, cabinets, ranges and refrigerators. Four more electric ranges, a gift from the Florida Power and Light Co., are expected soon said Rumsch.

Registration was over 400 and expected to pass the 500 mark at the school, said Mr. Morris.

The Junior High School hallways offices and classrooms all have a bright "look" to them. The hallway is especially attractive with its pastel shade of green. Floors gleam with new paint. Ceiling downstairs are sand absorbing ceiling. The only part of the school that is familiar "old look" is the auditorium.

Enrollment at the school appears to be about normal, said Principal R. E. True. Among the new teachers are Mrs. Horace Cochran, who taught for a number of years at the Lake Mary School, and H. P. Gordie, who will teach physical education, history and industrial arts. He is a 1950 graduate of Stetson University and was formerly a star pitcher at West Palm Beach High School.

Although the Sanford Grammar School still has its familiar red brick appearance outside, it has a light new look inside with white hallways, walls. The music room at the west end of the school has been painted a shade of green, and new green colored blackboards have been installed there. It is believed that these will be more restful to pupils' eyes than the time honored black board.

Enrollment is heavy at the school from advance indications from the fact that the "war babies" are reaching grammar school age, said Principal B. C. Steele.

Mrs. D. C. Gaches, president of P. T. A. and Mrs. Whatley, former secretary, yesterday with a membership drive among mothers. Fathers are urged also to join, said Mrs. Gaches. As a result of this statement, Joyce, President of the P. T. A., and not less all of the work to the mothers.

The PTA has 62 members, but the goal is for more than 200, said Mrs. Gaches.

Control Bill

(Continued From Page One)
 said his refusal was based on "the constitutional privilege against self-incrimination."

Two other former government workers, John Abt and Charles Kramer, waited to follow Witt on the measure that will be needed to meet war expenses.

An excess profits levy, he said, is "inescapable" and added: "We are going to have an enormous tax increase. We are going to have more war taxes than ever before has been anticipated."

"Every citizen is going to have to bear his part. None will be sheltered from taxation."

There was some hope that the huge tax bill could be handled quickly.

The House voted to take a 10-day informal labor day vacation. It agreed to meet on Tuesday and Thursday of next week for "no business" sessions, however, because it can't quit for more than three days at a time without Senate approval. It will reconvene for work on Monday, Sept. 11.

The roll call vote confirmed an earlier vote.

By its action the Senate adopted an amendment sponsored by Chairman George (D-Ga.) of the Senate Finance Committee. This calls for Congress to take up an excess profits levy next January, with the tax retroactive to Oct. 1 or July 1, 1950.

Sponsors of the excess profits levy had been trying to write it into the Administration's \$4,500,000,000 tax bill. They wanted the tax in the bill right now—and they wanted it to be 85 percent with July 1, 1950, as the starting collection date.

Senator Millikin (R-Colo.), who

Security Council

(Continued From Page One)
 U. N. Secretary-General Trygve Lie, who returned to his home country of Norway, was back at the council table.

Stomach Trouble

H. K. Ring, D. C.
 There are two types of stomach troubles: that in which the stomach is a pathological pathology and that which is strictly functional. Chiropractic does not depend upon a correct diagnosis of the trouble.

It matters not whether the condition is gastritis or dyspepsia. The chiropractor knows exactly what is wrong with the stomach and therefore nerves supplying the stomach with energy from the brain are falling in their misplacement.

Because the nervous system is so vital to health, the spine must be in normal alignment also it will pinch spinal nerves and thus disturb function or lower resistance of some part of the body, resulting in disease of some nature.

Therefore, the chiropractor knows in the case of the stomach troubles that a vertebra has become misaligned causing nerves to fall in their mission. A spinal adjustment is necessary to release pinched nerves. This done, allowing the time and patience, nature makes repairs. adv.

LABOR DAY

In Unity There Is Strength—
To Protect the Peace of the World,
To Promote the Progress of America
To Produce Prosperity for Sanford.

The Sanford Herald

VOLUME XXXII Established 1908 SANFORD, FLORIDA MONDAY, SEPT. 1, 1950 Associated Press Leased Wire No. 9

THE WEATHER
Considerable cloudiness and showers in north and central portions this afternoon and in north portion tonight and Tuesday, otherwise partly cloudy with widely scattered local showers.

Labor Pledges Big Effort To Stop Commies

Secretary Tobin Says Russian Worker Labors Five Times As Long To Earn Food
CHICAGO, Sept. 1—(AP)—William Green, president of the American Federation of Labor said today the Korean war is "merely the opening skirmish of a global struggle which may break out into open warfare at any time." He told a Labor Day rally at Soldier Field that "Korea gave us the warning and the opportunity to get ready for any serious contingency of the future."

BIRMINGHAM, Ala., Sept. 4—(AP)—CIO President Philip Murray today pledged organized labor to a maximum effort against Communism and aggression, but warned that American workers will not carry the whole load.

Murray declared, "super-profits must be taken from the defense effort, but, so far, Congress has made scant progress in this direction."

"Congress will fail to meet its responsibility to the people if it permits these special interests to convert our mobilization program into a guarantee of exorbitant profits for the few," he said.

Murray made the remarks in a Labor Day speech prepared for delivery over an American broadcasting company radio network at 2:30 P.M. (CST). He was in Birmingham to take part in the celebration of Labor Day.

Meanwhile in Boston Secretary of Labor Tobin said the Russian worker has to toil five to seven times as long as the American worker to earn the same amount.

Stranded Steamer With 300 Aboard Towed To Safety

SEATTLE, Sept. 4—(AP)—A quickly-made blinker signal sped the rescue early today of an excursion boat and its 300 passengers.

The 120-ton Virginia V was stranded and blacked out in Puget Sound after a boiler tube blew out, cutting off all power.

The vessel was towed into Lake Union and berthed safely 2 1/2 hours after it blinked its first call for aid. It broke down 10 miles north of Seattle.

None of its passengers were injured.

Two Seattle young men, who had learned blinker signaling in the U. S. Navy, quickly improvised a blinker light and attracted the fishing boat, Marpet. They are Jim Murphy and Jack Gioretti, who were passengers on the Virginia V.

Another passenger, Frank Harth, Seattle, went aboard the Marpet and radioed for aid.

Early reports had the veteran Puget Sound ship drifting and listing heavily. But Capt. James Henshaw, skipper of the Fom Launch and Tugboat Co. tug 18, said only a slight list was apparent when his crew put a line aboard. The Virginia V's engines were not operating.

All of the passengers, on route back from a day's outing in the San Juan Islands, were reported in "high spirits."

The initial alarm, received by the Marine telephone operator and relayed to the Coast Guard, sent more than half dozen Coast Guard craft and auxiliary vessels into action. Harbor patrol craft and a Coast Guard plane from the Whidbey Island naval air station also sped to the scene. Numerous small pleasure craft circled the stricken ship as word of the alarm sounded.

BATTLE KILLED
W. E. Fryer shot and killed a 7 foot colossus with a shot from his automobile last night.

At 8 Saturday morning at White Beach Road off South Sanford Avenue. It had 14 rattles. A week before he had killed two rattlers, one with 11, the other with 12 rattles.

Labor Day, 1950, once again finds the sword of freedom being reshaped and tempered in the great American Arsenal of Democracy.

Ford Motor Co. Signs Contract Boosting Wages

DETROIT, Sept. 4—(AP)—The Ford Motor Co. boosted the wages of its 126,000 plant workers today and otherwise made history in a new five-year labor contract.

Ford, last of the auto industry's "big three" to fall in line in the march to higher pay levels, did it in an unprecedented manner.

On this mid-century Labor Day the company junked one contract with the CIO United Auto Workers and agreed to a brand new one.

Its major terms:

1. An eight-cent hourly cost of living increase to 110,000 production workers. This would be subject to reduction in event of fall in living costs.
2. Hitching the wage to the cost of living in that respect duplicating the famed General Motors precedent.
3. An increase in worker pensions from \$100 monthly to \$125, including Social Security.
4. A four cents flat annual hourly increase for four years of the contract.
5. A 13-cent-an-hour increase for 16,000 skilled workers, subject to reduction.

Ford and the union reached the agreement after a 10-day strike.

Paintings Of Iris Gay Flowers Attract Favorable Attention

By WILLARD CONNOLLY
The paintings of Miss Iris Gay Flowers, daughter of Mr. and Mrs. C. M. Flowers of Celery Avenue, have attracted the favorable attention of noted art critics at Woodstock, N. Y., where during the past three months she has been attending the program of the Woodstock Artists' Association.

The Woodstock Herald in an article on Aug. 19, stated: "From over 300 paintings at the Woodstock Art Gallery the distinguished jury of five, Eugene Speicher, Herman Morse, Henry Mattson, Konrad Kramer and Alfio Faggi selected the works of 41 artists. Three students are represented in their selections."

"Two of these students, Ann Webber and Gay Flowers are pupils of the well-known painter, Lucile Blanch.

"Says Mrs. Blanch, "They both worked with me at Wesleyan Conservatory in Georgia where I teach in the winter. Both girls showed what I felt was outstanding ability. I encouraged them to come to Woodstock for the summer and work with me. It has been very rewarding to myself, Ann Webber and Gay Flowers to receive this honor."

Miss Flowers attracted favorable attention in three of the Art Conference Shows this summer, and was the only student accepted (Continued on Page Two)

Things Must Be Getting Better; Army's Sense Of Humor Improves

By HAL BOYLE
WITH UNITED STATES TROOPS IN KOREA (AP)—The war in Korea hasn't produced much humor.

The tomfoolery and practical jokes that brightened the gloom of the second World War have been notably absent from this campaign.

Just why no one seems to know—but everyone comments on it. It may be because even the lightest heart can't find anything funny after fighting a two-month action of tragic retreats and defensive stands.

It may be the mood of the troops. They didn't come to Korea resigned to a long-tough war of battles as did the soldiers of the last war. They thought they would only have to make a hard shove of force, the North Koreans (Continued on Page Two)

Records Show Rise In Accidents After Five Years Driving

By FRANK CAREY
Associated Press Release Reporter
STATE COLLEGE, Pa., Sept. 4—(AP)—You'd better be particularly wary of accidents six to eight years after learning to drive an automobile.

This was indicated today in a report of a federal government study of driving records of a group of chauffeurs and truck drivers seeking government jobs.

A team of U. S. Civil Service Commission psychologists said the drivers' histories showed that length of driving experience corresponded with improvement of driving records—up through five years of experience.

"Then, for some reason not yet understood," the report said, "the accident frequency rate rises very sharply during the sixth, seventh and eighth years of experience, then drops again, so that those of our eligibles who had nine (Continued on Page Two)

troops. They didn't come to Korea resigned to a long-tough war of battles as did the soldiers of the last war. They thought they would only have to make a hard shove of force, the North Koreans (Continued on Page Two)

Farmers To Meet Tuesday To Plan Auction Market

Members of the Seminole County Growers Group will meet Tuesday night at 7:30 o'clock at the Farmers Building to discuss the establishment here of an auction market under their own supervision. One Maloney, farm bureau (Continued on Page Two)

Weekend Traffic Deaths Slightly Below Prediction

By ASSOCIATED PRESS
Traffic deaths were occurring at the rate of one about every 11 minutes, or a total of 435 for the three-day weekend.

The National Safety Council had predicted the death rate would be at the rate of one about every 11 minutes, or a total of 435 for the three-day weekend.

The peak of travel was expected to be reached late today when the celebrants again pour onto the highways in the homebound mass movement. The safety council predicted that 36,000,000 cars would hit the highways in the three-day period.

Beside the 250 killed in traffic mishaps, 39 others had died in miscellaneous accidents, and 34 persons had drowned.

The death toll by states with traffic, drownings and miscellaneous listed in that order: Alabama 14 0 0; Arizona 5 0 0; Arkansas 5 0 0; California 20 (Continued on Page Two)

LEAD STOLEN

MIAMI, Sept. 4—(AP)—Burglar inflicted a heavy loss on the Miami Typsetting Co. yesterday.

Owner Frank H. Streifery told police someone carted away 90 pounds of lead ingots worth \$300 (Continued on Page Two)

NEGRO SHOT

James Pope, Negro, was shot and killed near May's Kitchen at Midway shortly after midnight last night by Mae Baker, Negro, Sheriff P. A. Maro announced this morning.

The Negro has been jailed on a charge of first degree murder. No motive has yet been established for the shooting said Sheriff Maro.

Allied Lines Cracked In Threat To Taegu; Atrocities Continue

Girl Communist Kills Eleven Bound American Prisoners With Russian Tommygun

By STAN AMUNDSON
MUSAN, HONK KOREA, Sept. 4—(AP)—A Red Korean Tommygun girl shot seven American prisoners last night. They were captured in their sleep and then bound and held behind them.

Two survived the hail of bullets but were left for dead. Also slain was a South Korean assigned to guard the detachment of a United States unit stationed atop a mountain hill only three miles from Musan port on the south coast.

"It is an absolutely certified atrocity of the most vicious sort," said an American investigator. The investigator could not be named because he is an intelligence official.

The story was pieced together from a bedside interview with the two American survivors. Other details were added by a South Korean interpreter, Chung Kyu Yun, who escaped after wounding his hands.

One of the survivors, a Michigan soldier who can not be named until relatives are advised that he was shot, said the detachment was asleep when attacked by ten Reds.

Three of them were girl guerrillas, about 19 years old.

"They tied our hands, grouped us together and then one shot us down," he said. "I could not see which one did it."

But the other survivor, a corporal from New York City who was shot in the stomach, whispered that one of the girls shot through the interpreter's raincoat and blew over a small tent where the South Korean guards slept. Chung and one guard who acted as an orderly were also hit.

The interpreter said a raincoat blew over a small tent where the South Korean guards slept. Chung and one guard who acted as an orderly were also hit.

Three other South Koreans, supposedly guarding the radio station, decided it was too wet outside. They set up the small tent again. They took off their wet clothes and were inside, naked, when the guerrillas, disguised in South Korean uniforms, burst into the Americans' tent.

The deep Americans and two South Koreans leaped up to find Russian-made Tommyguns thrust in their faces. The three girls had knives and hand grenades tucked in their belts, Chung said. One had a Tommygun. The other two point (Continued on Page Two)

Baby Hurricane Remains In Gulf But Brings Rains

Present Course Will Hit Florida Coast Near Tallahassee
MIAMI, Sept. 4—(AP)—A baby tropical hurricane is coming more like a spoiled brat than a storm.

Armed along Florida's Gulf Coast today with winds just strong enough to be annoying.

The small baby was on of three tropical disturbances on the weather maps. A genuine monster with 150-mile an hour winds moved slowly northward some 1,000 toward Alabama and a hurricane which had backtracked after toppling Bermuda in the South Atlantic, headed out to sea.

At 9 A.M. (EST) the Gulf storm was 30 miles west of Cuba, in the Tampa Bay area, and moving northward about 10 miles per hour.

It still sticks to its present course, it will move inland in the Apalachicola Bay area, due south of Tallahassee.

Although the storm had most Labor Day plans throughout a greater part of the state, damage was negligible.

A survey of the Gulf coastal area between Naples and St. Petersburg showed only a few power lines down, palm fronds in some streets and a section of Lake County, Sarasota's swimming beach badly battered by high waves and abnormal tides.

New Anclote Key, just off Tarpon Springs, the Coast Guard cutter was blown down through pine waves to the aid of the destroyer USS O'Rourke, which was forced to cut a large after losing its motor.

Winds along the Gulf coast ranged from about 15 miles an hour to 30 miles an hour.

Stenstrom Honored In Baptist Group

Julian Stenstrom, here on a visit with his mother, Mrs. John W. Salsbury, announced today that he had been promoted from associate secretary of the Baptist Brotherhood of Florida to associate in charge of all brotherhood work in the state. His headquarters are in Jacksonville at the Florida Baptist Building. He delivered the sermon at the Post Orange Church Sunday.

He returned recently from the Southern Baptist Assembly at Ridgecrest, N. C., where he attended conventional-wide brotherhood conferences for the past two weeks.

Biggest Labor Force In History Employed In America Last Week

By RICHARD FISKE
NEW YORK, Sept. 2—(AP)—Business and industry employed the biggest labor force in history last week to keep the government and the consumer supplied with goods.

But there were indications that labor troubles would idle thousands of workers.

The CIO Electrical Workers Union set Tuesday for a general strike against the huge General Electric Company, a potent manufacturer of military as well as civilian supplies.

The Commerce Department said 62,967,000 Americans had jobs in August—a new record high. It was a jump of 1,153,000 over the previous month and 752,000 above the previous record month of July, 1948.

Business buying as well as consumer purchasing kept the millions of workers busy and away at stocks of goods that were piling up before the Korean war began.

The buying wave added 13,000,000 to the backlog of unfilled orders of manufacturers in July. Smaller inventories, increased buying and the growing backlog of unfilled orders spelled busy factories for weeks to come.

Most businessmen and industrialists felt that regardless of the Korean aftermath, the country is (Continued on Page Two)

Reds Break Through In Pohang Sector To Make Greatest Gain In Two Weeks

YONGJU, HONK KOREA, Sept. 4—(AP)—The new offensive of the Korean Reds is already beginning to look like the last of its kind. The Communist forces are breaking out at the American and South Korean defenses along a front that stretches across the ridges and valleys for at least 120 miles.

But at no single point have they shown any evidence they have concentrated a force that packs a knockout blow which could roll up the American lines.

By RUSSELL BRINES
YONGJU, Sept. 4—(AP)—Two Red Korean columns cracked Allied lines on the north-south war front today and forged down main highways in a power drive that threatened to outflank the American lines.

The Reds broke through defenses south of Kigye in the Pohang sector. Advance spearheads rolled south 12 1/2 miles for the greatest Red gain in two weeks.

Elsewhere on the 120-mile front, Allied forces beat back fresh Communist attacks. An American counterthrust by Marines and doughboys ground out gains in the Red's Naktong River bulge west of Yongju.

Associated Press correspondent Ben Price reported that the Communist drive in the northeast smashed to the outskirts of Kyongju. This is a main highway center 10 miles northwest of the east coast port of Pohang.

Another Red column rammed nearly five miles into South Korean defenses on a wide south-western drive toward Yongju. This town lies on a main road network midway between Kyongju and Taegu.

The breakthrough toward Kyongju represented the deepest penetration the Reds have made in the U.N. beachhead wall since it was created in early August.

PLANES COLLIDE

MAHITTA, Ga., Sept. 4—(AP)—Two F-84 Thunderjets slammed together at more than 500 miles an hour yesterday and tumbled 25,000 feet to the ground. Both pilots were killed.

The dead: First Lt. Kenneth M. Goodrum, 28, of Atlanta, and First Lt. Tom A. Martin, 25, of Griffin, Ga.

ADVANCED HEADQUARTERS, FIFTH AIR FORCE IN KOREA

Staff Sgt. Robert E. Harrell, 1st Lt. Sanford, Fla., is helping save the lives of seriously wounded American soldiers in Korea by evacuation in 5th Air Force helicopters.

An Air Paramedic, graduate paramedic and Medical Specialist, he tends litter patients while they are being flown from front line hospitals in the rear. He is assigned to a small Air Force rescue and evacuation detachment.

Prior to entering the Korean outfit, Sgt. Harrell was assigned to Flight "D" 3rd Rescue Squadron in Japan where he had served since his arrival there on Apr. 23, 1948.

He served at the Infantry school, Fort Benning, Georgia, for 5 1/2 years.

Sgt. Harrell's wife, Margaret E. Harrell, is residing in Sanford with his parents, Mr. and Mrs. J. Harrell.
