

Colitis Attack Racks Cermak's Body But His Recovery Is Predicted

Chicago Mayor Has 80 Percent Chance At Health Although He Is Very Sick Man

MIAMI, Feb. 23.—(A.P.)—After having taken a noticeable turn for the worse as the result of an attack of colitis which racked his body in a painful manner for the past several hours, Mayor Anton Cermak, of Chicago, was, it noon today, given an "80 percent chance to recover" from the ailment which he is believed to have contracted in this city last week.

Dr. Karl Meyer, one of several attending physicians, said that at 10 o'clock today he had improved considerably. His temperature was 101 at that hour, he said. Two physicians spent the night at his bedside, however, during a night of anxiety resulting from the colitis which caused great concern and complicated conditions during the last 48 hours. Mayor Cermak rested comparatively easily this morning after the attacks had waned, his physicians report.

"Mr. Cermak is by no means out of danger," declared Dr. J. W. Snyder last night. "He is living from day to day, and it is impossible to say how long the colitis will last."

"We are still very much concerned about Mr. Cermak's condition, naturally, but we have reasonable expectation that he will show recovery tomorrow."

Hitler, Whom His Opponents Charge Big Army Advocate Okeys Disarmament Plan

BERLIN, Feb. 23.—(A.P.)—Chancellor Adolf Hitler, whom political opponents depict as a saboteur, today declared that he is a saboteur in the sense that he is a saboteur of big armies and navies, committed himself unequivocally yesterday to a policy of universal and complete disarmament.

"We are willing to go to any lengths to further the ideal of disarmament," the chancellor told the Reichstag today.

"Then, raising his voice passionately and giving a punch to every word with an emphatic gesture or a vigorous nod of his head, he continued:

"But we insist that the same standards shall apply for all. Do

REPROGLE LAUDS SHOLTZ FOR HIS RESOLUTE WILL

WASHINGTON, Feb. 23.—Declaring that Florida is taking the blows of the economic disturbance with as few scars as any state in the country, J. Leonard Replogle, leading Republican of Palm Beach, yesterday said that it was singularly fortunate in having as its chief executive a man of the fibre and resolute will of Gov. Dave Sholtz.

Not forgetful of his Republicanism, Mr. Replogle stated that Governor Sholtz already has given heartening promise of a business-like and constructive administration, one that will make for betterment of fundamental conditions, and the satisfaction of the taxpayers of the state.

"In my opinion," he continued, (Continued on Page Three)

CHICAGO, Feb. 23.—(A.P.)—A Republican rebel and a fighter for low public utility rates is Harold L. Ickes, the man for whom President-elect Roosevelt is understood to have reserved a seat at the cabinet table as interior secretary.

BORAH HITS DICTATORIAL POWER VOTED

WASHINGTON, Feb. 23.—(A.P.)—Senator Borah yesterday wrote M. C. Miel, silk manufacturer of Providence, R. I., that if Congress confers "dictatorial" power upon President-elect Roosevelt he would hope and expect Roosevelt "to throw it back in the chamber of a pusillanimous congress with the reminder that he was the President of the United States and not its dictator."

Miel has written the Idaho Republican suggesting he get up courage enough to say to the Senate that an emergency exists and propose giving the President "dictatorial" powers within the Constitution for a certain period.

Replying, Borah said he was willing to give Roosevelt "full powers enjoyable under the Constitution," but he had seen no statement "indicating that the President-elect desired any dictatorial powers."

SINGLE WEEK IS REMAINING FOR TAG PURCHASES

TALLAHASSEE, Feb. 23.—(A.P.)—Florida motorists have just one more week in which to operate automobiles with 1933 license tags without subjecting themselves to arrest for failure to obtain 1933 tags.

Gov. Dave Sholtz and Acting Motor Vehicle Commissioner George Wilder said yesterday they have no authority to extend the time limit for buying tags and that after Mar. 1 the law will be enforced. The time limit for tag purchase is fixed by statute.

Tags went on sale last Dec. 1, but since Feb. 1 they have cost 25 percent additional. Governor Sholtz has been besieged with requests to extend the time and cut prices of the licenses, but he was advised by Attorney General Cary D. Landis that he is without power to act.

The governor has said several times he will ask the legislature, which will be convened Apr. 4, to reduce price of tags to \$5 for small cars and \$10 for large cars, eliminate fees paid to tag agents and distribute tags through county collectors instead of through agencies, as now practiced.

Wilder said sale of tags up to Feb. 15 this year brought \$3,221,724.76 plus \$104,893.26 in applications for tags which had not been issued to that date. Last year on that date sale of tags had produced \$4,154,886.30 or \$877,964.27 more than this year.

Last year on Feb. 15, there had been 184,738 tags issued for passenger cars and 37,420 for trucks. This year on that date there had been 145,843 tags issued for passenger cars and 19,364 for trucks.

County School Pupils To Go To Fair Friday

Superintendent of Schools T. W. Lawton, this morning announced that all Seminole County schools will be closed tomorrow to permit pupils to attend the Central Florida Exposition at Orlando as guests of the management. He added that the day will be made up at the close of the school term, however.

All pupils will be admitted to the Fair without charge, and no ticket will be required, he said, provided pupils enter the grounds before noon tomorrow.

Mr. Lawton further stated that principals of all schools suggested that the holiday be granted because "unless pupils are allowed a day at this Fair, there will be many days of their absence on different days during the week that their work will be seriously interrupted." Therefore, it was stated, "it is to the advantage of the schools to grant one day on the 24th, and to make up this day later, thus avoiding the low percentage of average attendance for the week."

County Exhibit At Orlando Shares In Prize Money Award

Seminole County's exhibit at the Central Florida Exposition in Orlando today was awarded prize money that totals about \$100 more than was awarded last year, and termed one of the most beautiful in design in the entire Fair grounds.

The exhibit was not judged as a whole. Instead, it was judged in sections, and according to variety, display, educational value, and appearance of the several articles displayed.

First prizes were awarded the county for the home cured meats displayed and the manufactured and varied industries display.

Second prizes were given in vegetables, crystallized fruits and candies, and bulbs, ferns, and flowers.

Third prize was given the display of home canned products.

Fourth prizes were given displays of citrus, and fruits other than citrus.

Fresh vegetables, flowers, and citrus will be placed in the exhibit tonight, it was stated today, and residents of the county again were invited to join the throng which is continually parading before the Seminole County display.

It is estimated that between 800 and 700 persons view this display during the late afternoon and evening hours.

Depression Seen An Aid To Health Of People

ST. LOUIS, Feb. 23.—(A.P.)—The economic readjustment of the past few years has aided the cause of health rather than hindered it, in the opinion of Dr. Max C. Starkloff, veteran St. Louis health commissioner.

"It has prevented overeating and cut down consumption of questionable alcoholic beverages," Dr. Starkloff believes. "Also, people have been forced to slow up their speed of living."

"They have taken time to rest when they felt under the weather. They have had time to guard their children's well-being properly."

Dr. Starkloff contends that child health is "the most accurate index" of the standing of any community.

Mitchell Comes Under Charge Of Montana Solon During Quiz Into Bank Affairs

WASHINGTON, Feb. 23.—(A.P.)—An amazed Senate investigating committee learned yesterday that while the National City Bank was selling out its customers in the frenzied days following the market crash of 1929 it set aside \$2,400,000 for interest-free loans to protect its own hard pressed officers.

While this was being established by the banking committee Sen. Wheeler, Democrat of Montana, on the floor of the Senate scathingly arraigned Charles E. Mitchell, chairman of the National City Bank's board of directors, as a result of the latter's testimony that to avoid paying an income tax in 1929 he took a loan of nearly \$2,000,000 by selling bank stock to a member of his family, to be rebought later.

"The best way to restore confidence in the banks," Wheeler said, "would be to take these crooked presidents out of the banks and treat them as we treated Al Capone when he failed to pay his income tax."

Gordon S. Rentchler, president of the bank, told the committee of the loan fund for the institution's officers, the money was advanced, he said without interest and some times without security as a means of sustaining the morale of the organization.

Under examination, he disclosed that only about five percent of the loans have been repaid, and that they have been written down and transferred by the bank to its security affiliate, the National City Co.

Ward Lauds Efficiency Of Sholtz On Budget

ORLANDO, Feb. 23.—(A.P.)—Efficiency of Gov. Dave Sholtz in having the state budget in the hands of every legislator by Mar. 1 was lauded yesterday by Rep. C. Fred Ward, Winter Park, in an address on the 1933 legislative program before the Exchange Club.

Rep. Ward saw another favorable sign in the changed attitude of the Senate, which he believes will cooperate with the House this year in a rigid economy program. He charged the Senate of 1931 with killing House bills to save \$11,000,000 expenses in the last two years.

"Fresh vegetables, flowers, and citrus will be placed in the exhibit tonight, it was stated today, and residents of the county again were invited to join the throng which is continually parading before the Seminole County display.

It is estimated that between 800 and 700 persons view this display during the late afternoon and evening hours.

Campbell Relates Graphic Story Of His Record Drive Along Daytona Beach Sands

DAYTONA BEACH, Feb. 23.—(A.P.)—"I'M THINKING Campbell announced definitely today he will make no more speed trials here this year and would leave Tuesday for New York to sail for England, Mar. 3. Campbell said he will ship his racing car north tomorrow or Saturday. Decision to make no more trials was reached after Campbell had consulted a physician who told him it will not be advisable to race soon because of a seriously sprained arm.

DAYTONA BEACH, Feb. 23.—(A.P.)—Sir Malcolm Campbell, British daredevil automobile speedster who yesterday afternoon set a new world record for automobiles by burning up beach sands at a 272 mile an hour clip in two runs, when surrounded by news and cameramen shortly after he had brought his juggernaut, "The Bluebird," to a stop, said his race was "the worst ride I ever had in my life."

Plan To Halt Bank Runs

WASHINGTON, Feb. 23.—(A.P.)—Cures for hard times, proposed yesterday to the Senate finance committee in its search for economic restoratives, ranged from passage of the domestic allotment farm relief bill to limiting withdrawal of bank deposits so as to prevent runs.

The bank fund question was thrown into the hearing in the midst of a statement by Winthrop Aldrich, chairman of the Chase National Bank of New York, which presented a many-sided program for recovery, topped by general scaling down of world tariff barriers and other obstructions in international trade.

Senator Cawens, republican, Michigan, asked the banker if he (Continued on Page Three)

Davis Asked To Remain As Chairman Of U.S. Delegation At Parley In Geneva Soon

HYDE PARK, N. Y., Feb. 23.—(A.P.)—President-elect Roosevelt spread his activities in international affairs yesterday to the subject of disarmament and ordered a continuation of the present American policy in the impending Geneva parley.

Conferring with Norman H. Davis, American representative in the arms and economic negotiations, just before leaving his New York City home yesterday Mr. Roosevelt asked him to continue as acting chairman of the delegation to Geneva.

The President-elect emphasized to Davis that he regarded reduction of world armaments one of the most vital and important matters of the present time.

He remained over several hours in New York to consult with Davis and also to confer with William H. Woodin, who was announced Tuesday night as the Roosevelt secretary of treasury. Jesse E. Jones, of Texas, the probable new chairman of the Reconstruction Finance Corporation, was also at the Woodin parley.

Most of his urgent problems, including the selection of his cabinet, were out of the way when Mr. Roosevelt entered the heavily guarded motor caravan that brought him and members of his party to Hyde Park, 75 miles up the Hudson river, late in the day from New York.

He withheld, however, announcement of other cabinet officers besides Sen. Hull, of Tennessee, the secretary of state, and Mr. Woodin. Asked about the cabinet lineup published yesterday by the Associated Press from Washington, Mr. Roosevelt kept silent. He did reveal that Harold Ickes, of Chicago, who was carried in that list as secretary of interior, was at his home in the last 24 hours.

The Washington account that Daniel Roper, of South Carolina, was due to be secretary of commerce, created most surprise in the Roosevelt family here. Others have been regarded as fairly well determined. Early announcements of the appointment of the following are expected:

Attorney General—Senator Walsh of Montana.
Postmaster general—James A. Farley of New York.
Secretary of navy—Senator Swannom, of Virginia.
Secretary of agriculture—Henry Wallace, of Iowa.
Secretary of labor—Miss Frances Perkins, of New York.

The probable choice of George Dern, former governor of Utah, for secretary of war, stood the test of speculation here although other names continued to be heard.

Huge Salary Of Banker Is Bared In Senate Quiz

(Continued from Page One) entire day on the stand.

He described how he bought thousands of shares in National City bank stock "in the midst of the panic" in 1929 to support the market.

Altogether, he said, he bought 28,300 shares and shortly afterwards sold 10,000 of this. The remaining 18,300 shares, he testified, he sold "for tax purposes."

"How much of a loss did that enable you to show?" asked Peck. "Wasn't it nearly \$2,800,000?"

Mitchell replied it was between \$2,700,000 and \$2,800,000.

"That enabled you to avoid an income tax for 1929, did it not?" asked the counsel.

"Yes, the losses had been such that I didn't have it," replied the banker.

"That sale in the latter part of 1929 was made to a member of your family, wasn't it?"

"It was," Mitchell asserted.

"It was just simply a sale of convenience to elude the tax, wasn't it?" asked Senator Brookhart, Republican, Iowa.

"You can call it that," was the reply.

Mitchell explained he later bought back the block of 18,300 shares because he "simply couldn't let that purchaser take the loss."

"I individually have suffered a greater loss from the market fall of National City bank stock than in any other individual in the United States," Mitchell told the Senators.

Mitchell's testimony about compensation he received excited more discussion than anything else, and members of the investigating committee were frankly critical of it, suggesting the system followed would encourage selling bad investments to the public.

Explaining the system, Mitchell said both the bank and the company had "management funds" representing 20 percent of the profits after 5 percent had been deducted for capital, surplus and undivided profits.

These funds were divided among officers of the two companies, he said, and he participated in both as an officer in the two institutions.

Mitchell denied his bank was sustaining the "Machado government in Cuba."

He said that on Feb. 16, 1927, the day after an increase in capi-

"In making the announcement of the first of his cabinet selections, Mr. Roosevelt made it plain that both of these gentlemen were virtually drafted, Senator Hull was reluctant to leave the Senate, Mr. Woodin was loathe to relinquish at this time the active control of the many industrial enterprises with which he has been so long and prominently identified."

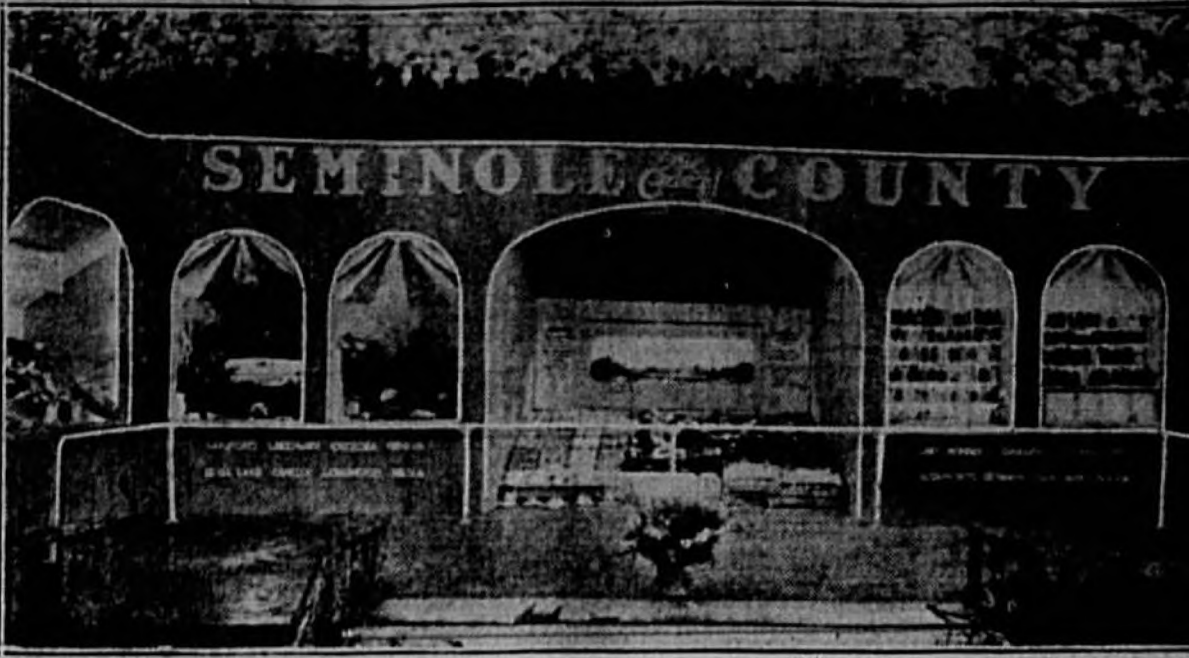

Mr. Woodin was at the residence of Roosevelt just before the announcement was made public. The diminutive, gray haired, genial man who was seen over the complex task of national finance left home for a dinner party at which he could not be immediately disturbed.

At Washington, Senator Hull, also a gray haired man, easy of approach and pleasing in nature, was seen in the LaFayette Hotel.

"I am mindful of the high honor and the great responsibility which this appointment carries. I hope to meet the responsibility with some degree of efficiency."

He is suffering from a cold which kept him from yesterday's important conference. In the Roosevelt study with Ambassador Chandel, of France, and W. D. Herridge, the Canadian minister.

FEATURE OF CENTRAL FLORIDA EXPOSITION AT ORLANDO

The brilliantly lighted Seminole County exhibit which occupies the entire stage of the Orlando Municipal Auditorium at Orlando here yesterday was seen by more than 6,000 persons who thronged into the Fair Grounds. The display is centered by a diorama depicting the growth of celery in its many phases. Each of six recessions in the exhibit sets off a display of either cured meats, flowers, bulbs, canned goods, or manufactured products. The exhibit was designed and constructed by Byron Stephens, local commercial artist, and J. E. Fox of Paola is in constant attendance representing the Seminole County Chamber of Commerce.

"In 12 of these cases we obtained opinions from the supreme court favorable to us, which resulted in a saving to the general depositors of the bank, of over \$40,000.00, almost as much as the total cost of attorney fees of all the banks during my entire administration."

Continuing, Mr. Tunncliffe said: "The statement in the morning Sentinel regarding the paid out of Orange county payments to Duncan & Hamlin amounting to practically \$5,000.00, is just as erroneous a statement as the figures submitted in the article, because neither Judge Tilden, my predecessor in office, or I, have paid Duncan & Hamlin any money whatever, or in fact, ever had any legal dealings with them."

The article also states that Massey, Watlow, Carpenter & Fishback received \$2,985.73. This is absolutely untrue, as that law firm was never paid one dollar out of money belonging to the depositors in the bank. It is true they handled some trusts, which have been placed in their hands long before the bank closed, and whatever they received was paid out of these trusts, and has no connection whatever with money

tal and surplus became effective, the National City Company purchased one and a half million shares of General Sugar Corporation stock for \$25,000,000.

He agreed that it would be a "fair assumption" that the principal reason for the increase was to make it possible to take over the sugar corporation.

The sugar corporation had just prior to that acquired all the capital stock of the general Sugar Company, Mitchell added.

"The banker said the sugar company had acquired several other sugar companies which had borrowed from the National City Bank."

THE ADVENTURES OF TOM, DICK AND HARRY

SEVERAL MONTHS HAVE PASSED SINCE TOM, DICK AND HARRY BOARDED THE SEA BEAST. WE FIND THEM THIS BEAUTIFUL MORNING APPROACHING A SMALL ISLAND IN THE SOUTH ATLANTIC.

HARRY'S A SECRET, I'LL SHOW YOU THEIR POSITION ON THE MAP.

NOW FOR THE LANDING ON STRANGE LAND. WHAT NEW ADVENTURES WILL THIS BRING?

Almost Instant Relief In This Way

If you have a cold—don't take chances with "cold killers" and nostrums. A cold is too dangerous to take chances on.

The simple method pictured above is the way doctors throughout the world now treat colds.

It is recognized as the **QUICKEST**, safest, surest way. For it will check an ordinary cold almost as fast as you caught it.

That is because the real **BAYER** Aspirin embodies certain medical qualities that strike at the base of a cold almost **INSTANTLY**.

You can combat nearly any cold you get simply by taking **BAYER** Aspirin and drinking plenty of water every 2 to 4 hours the first day and 3 or 4 times daily thereafter. If throat is sore, gargle with 3 **BAYER** Aspirin Tablets crushed and dissolved in a half glass of warm water, repeating every 2 or 3 hours as necessary. Sore throat cases this way in a few minutes, in-cadible as this may seem.

Ask your doctor about this. And when you buy, see that you get the real **BAYER** Aspirin Tablets. They dissolve almost instantly. And thus work almost instantly when you take them. And for a gargle, Genuine **Bayer** Aspirin Tablets dissolve with sufficient speed and completeness, leaving no irritating particles or grittiness. Get a box of 12 or bottle of 100 at any drug store.

Ask your druggist about the recent price reduction on the 100 tablet size Bayer Aspirin.

BIBLE VERSE FOR TODAY

EVERLASTING LIGHT: Thy sun shall no more be down neither shall the moon withdraw itself; for the Lord shall be thine everlasting light, and the days of thy mourning shall be ended.

Seminole County makes a hit with its Orlando Fair exhibit.

It seemed to us to be peculiarly fitting that in his cabinet-making President-elect Roosevelt should bring the Woodin first.

Now that prohibition repeal has turned out to be the only major accomplishment of the present session, wonder if a lame duck might properly be designated as a wet snark?

When Zanera was sentenced to eighty years in prison, he told the judge, "Don't be stingy—give me a hundred." If any of his victims should die, he'll get more than a hundred and it won't be years—it'll be kilowatts.

The standstill agreement between American creditors and German bankers involving nearly a billion dollars has been extended for another year.

The Japanese attack on Koupeiyngtau reminds us of the early days of the World War when newshybs had to yell that the Russians had captured the fortress of Przemyel.

While passing arms embargoes in order to keep us out of foreign wars, Congress might give some attention to similar embargoes on foreign loans.

Some idea of what happens when the government goes too generously into business is gathered from the Paris news where some three hundred thousand bus, railroad, and other governmental workers are threatening to strike in protest against a five percent wage cut which seems almost imperative in view of the present condition of the French budget.

The difficulty of enforcing tax collections when taxes become so high as to be particularly obnoxious is indicated by the testimony of Charles B. Mitchell, chairman of the National City Bank of New York, who said that he had sold 18,000 shares of stock at a loss of \$2,800,000 to a member of his own family from whom they were later repurchased, in order to avoid paying an income tax.

Visions of a mighty struggle for the supremacy of Asia, and prospects of another war in Europe, the formation of the old Austria, and Italy, war in South America, and impending revolution in Cuba, do not make for the stability so necessary to the greatest international trade.

New Records

Another milestone in the progress of humanity was passed yesterday when Sir Malcolm Campbell drove his gigantic Bluebird along the sands of Daytona Beach at 272 miles per hour.

One has to think fast in this generation in order to keep pace with changing times and to fully comprehend the ever rapidly expanding figures.

It is like some of the figures we see in the papers about the \$2,500,000,000 capitalization of one of the big corporations; or the 12,234,567 persons now unemployed; or the \$11,678,093,000 which European countries owe us; or the 37,491,186 casualties of the World War; or the \$3,843,181,000 exports of the United States; or the \$150,000,000,000 which it is estimated this depression has cost the United States; or the \$4,500,000,000 three-year deficit of our federal government.

But if we say that Sir Malcolm traveled a mile in 13.16 seconds, we begin to get some idea of how fast he was going. We know how far a mile is, how long it takes us to walk it. And we have some idea of how long 13 seconds are.

But these figures are just beginning. They will soon increase to 300 miles an hour. Then 500. Who knows but twenty years from now we may be talking about records being smashed at a thousand miles an hour, or fifty thousand miles an hour?

Opera In A Jam

Hard times strike in all directions. The Metropolitan Opera Company, America's foremost citadel of music, is in trouble.

In our opinion, the closing of the Metropolitan Opera House next year would be nothing short of a national misfortune.

Not only would thousands of operagers and millions of listeners to opera over the radio suffer a serious loss in their cultural life, but it would be a catastrophe too appalling to contemplate to throw out of employment at this time of acute depression the 770 employees of the opera company.

We therefore feel that no effort should be spared to make provision for continuing opera at the Metropolitan Opera House next season.

It is obvious that opera can no longer depend for its sole support upon a small group of patrons as heretofore, and that to insure its continuance some plan must be devised to enlist in its support the rank and file of operagoers and of the vast audience who now listen to opera over the radio.

One plan which has been advanced for saving the opera company is explained by Deems Taylor. He suggests that radio owners, who would listen to Metropolitan Opera broadcasts once a week, pledge themselves to pay a penny a week for this privilege.

SANFORD, TWENTY YEARS AGO

The Misses Mell and Alice Whitner entertained their Sunday School classes at a very pretty and delightful "George Washington Party" Friday evening last.

Miss Irene Brady will go over to DeLand Thursday to attend the dance Thursday evening. She will also have the pleasure of hearing Diaphana Friday evening and also enjoy a pleasant week-end visit in DeLand, returning to this city Sunday.

Miss Mabel Cowan has accepted a position with Major Powers in his law offices over the First National Bank.

Campbell Relays Graphic Story Of His Record Run

(Continued from Page One) The machine.

"The beach was so rough", the driver declared, "that on several occasions I thought I was gone. If I had not been able to control the car so magnificently, I should have landed either in the sand dunes or in the ocean."

"From the very start my arm was paining me badly. In fact it was all I could do to shift gears. Then when I got up fairly good speed, I bumped along over the course like a pea in a pod. I did not put my foot down hard on the accelerator until I had almost reached the measured mile, because the car would not have stayed under control at a higher speed, with the beach so bumpy."

"It is not an easy matter to control a machine of this kind, but honestly, if the car hadn't controlled magnificently and I had not had confidence in it I don't know what I would have done."

"I answered the wheel perfectly. If conditions had been better I am confident I would have set a much higher record. At no time during my run did I give it a full throttle because the machine simply would not have stayed under control at a higher speed."

"The visibility was very, very bad, and my car was shaking, or zig-zagging all over the bumpy beach. First, I was heading for the sand dunes, and the next instant I was heading for the sea. On both my runs, there were times when I could see no distance, whatever, ahead. I just had to guess and trust to luck."

"Once during my run, I hit two of the sand dunes, and on the other side of the course I helped me steer, and I smashed them to splinters. Frankly, it was the roughest ride I ever had, and I'll multiply that 50 times."

Authority Of Caucus Call Is Challenged

WASHINGTON, Feb. 23.—(AP)—The authority of a caucus called yesterday for a Democratic caucus Mar. 2 for the nomination of a speaker and other House officers was challenged last night in a statement by Representative Rankin of Mississippi, a speakership candidate.

Representative Arnold, of Illinois, chairman of the caucus issued the call Tuesday after a petition filed by 25 members was presented to him asking that the organization meeting of the party be held on that date.

"It is true that he has a right to call a caucus together on a petition of 25 of the members-elect," Rankin said, but he does not have the authority to find the caucus to elect officers at that time. That is to be determined by the members when they meet. I do not believe that the members-elect who are here are going to perpetrate such an injustice against those members-elect who cannot be present.

Repeal Bill Is Being Prepared For Florida

CLEARWATER, Feb. 23.—(AP)—State Representative J. L. Kelly, Tuesday said he is working with Royal J. Untreiner, Escambia county legislator in preparing a bill setting up machinery for a Florida convention to ratify repeal of the Eighteenth Amendment.

The bill, Kelly said, probably will be introduced early in April, unless Congress decides it has power to prevent the new state conventions shall be called.

Representation under the Kelly-Untreiner plan would be on a basis of population. Each county would have one delegate for each 2,000 population and every county would have at least one delegate.

Kelly would give any qualified citizen the right to seek to become a delegate but would require each candidate to make known his stand on the issue.

The pardon offer was made after the governor was told that Sheriff Charles Price, at Tulsa, had prosecuted with a sheriff's sale under an opinion of District Judge Harry Halley that the executive order was invalid.

25 Percent Salary Cut Huey Long Denounces Retired Army Officer

JACKSONVILLE, Feb. 23.—A resolution in salary of 25 percent for all school system employees now being paid more than \$40 per month and a possible curtailment of the eight-month school term, was provided in a resolution adopted by the Duval County Board of Public Instruction, meeting in special session Tuesday, to cope with the falling school revenues.

The resolution cites that the contemplated collection of estimated revenues for the fiscal year ending June 30 will fall short of the total estimate by about \$125,000; that the banks cannot make further loans until the budget estimates of expenditures have been revised to come within to be collected, and that the board face the alternative of shortening the present term of eight months by an additional month or six weeks or cutting

Washington, Feb. 23.—(AP)—Huey Long took up in the Senate Tuesday where he left off in New Orleans last week and with all the vitrol for which he is famous, denounced Brigadier General Samuel T. Ansell, retired, commander of a Senate committee investigating Louisiana's 1932 senatorial primary.

He accused Ansell of forging an appointment as acting judge advocate general of the Army in 1917 and called him a "second-hand and chief of the lowest level of crookdom."

Senator Howell, (R. Neb.), chairman of the committee and with whom Long clashed repeatedly in its hearings in New Orleans and in the debate Tuesday, defended Ansell, remarking he had never heard of him until he was employed by the committee, but

salaries with a possible two weeks curtailment of the present term.

Washington Ball Club Heads For Biloxi Camp

WASHINGTON, Feb. 23.—(AP)—The Washington Senators yesterday headed toward the spring training camp at Biloxi, Mississippi. The first contingent was made up mostly of pitchers and catchers.

In the group leaving Washington was Bob Gansell, veteran pitcher, Nick Attract and Al Schacht, coaches, and Johnny Kerr, utility infielder.

Max Borg, catcher, was to have accompanied them but failed to put in an appearance yesterday morning. He has been coaching college nines in Japan since last season.

On the way they were to be joined by Bud Thomas, Alvin Crowder, and Cliff Holton, catcher, other pitchers and Luke Sewell,

Daytona Beach Mayor Refuses To Sign Bonds

DAYTONA BEACH, Feb. 23.—Mayor Edward Armstrong has refused to sign bonds of a \$153,000 refunding issue, Francis Mills, city clerk, announced Tuesday. His refusal was based on a belief that there should be a downward revision in the interest rate and other concessions that would give the city relief from its tax burden, the city clerk said.

The city will give the mayor a reasonable length of time in which to alter his decision, and failing then to secure his signature to the bonds will resort to the courts for a writ of mandamus, Charles Thrasher, city manager, indicated yesterday.

Cadillac Caravan To Arrive In City Tomorrow Morning

The Cadillac Caravan comprising the latest model LaSalle V-8 Town Sedan, Cadillac V-8 five-door sedan, and the Cadillac V-12 five-passenger Sedan, will be displayed in Sanford on Friday and Saturday Feb. 24 and 25 at the showroom of the Sanford Buick Company.

In charge of the Cadillac moving motor show will be two competent factory representatives from the sales and service departments. They will explain the features of Cadillac's new line of beautiful cars, and display samples of the different upholstery and the smart new color combinations obtainable in this year model Cadillac and LaSalle.

H. P. Taylor, service representative, will be glad to make a free inspection of all Cadillacs and LaSalle cars, at the request of the owner. The showing is being held with the cooperation of the Sanford Buick Company, authorized Cadillac-LaSalle dealer for this vicinity.

PAY AS LITTLE AS POSSIBLE

TALLAHASSEE.—The board of commissioners of state institutions set seven cents a mile maximum the state will pay for motor travel by its officers and employees, but directed all departments which have been paying less to continue to do so.

On the way they were to be joined by Bud Thomas, Alvin Crowder, and Cliff Holton, catcher, other pitchers and Luke Sewell,

catcher, were going direct from their homes.

Milwaukee Feels First Effect Of Milk Wars

Milwaukee, Wis., Feb. 23.—(AP)—A partial distribution of the few milk cans left in Milwaukee for the first time since the strike for higher prices started a week ago in this state was apparent yesterday. Doctors reported shortage of milk up to 30 per cent but the supply was still more than adequate for household needs though there was not as much milk for ice cream and other products. This development occurred as strikers tightened their grip on the milk supply of Eastern Wisconsin where confusion continued at creameries with concomitant highway disorders in at least six counties.

Replogle Lauds Sholtz For His Resolute Will

(Continued from Page One)
Governor Sholtz has a timely appreciation of the increasing necessity of so administering the affairs of the state as to afford urgent relief to those who must bear the burden of its support through the payment of taxes. The major need of the hour is reduction in the cost of government, federal state and local, and though Governor Sholtz has hardly had time to clear the first hurdle of his administrative course, he has impressed favorably all fair-minded and unprejudiced observers, with the sincerity of his determination to administer the affairs of state at the least expenditure consistent with efficiency and safe progress. In his appointment to office he has displayed commendable judgment and discernment, making it clear that he does not intend to yield to questionable influences or to heed the voice of selfish interests. Mr. Replogle climaxed his comment on Governor Sholtz with the prediction that even higher official station was within his attainment, that he was a man of national proportions and some day would be so recognized. Mr. Replogle left last night for New York.

Wide Variety Of Ideas Offered To Aid Business

(Continued from Page One)
did not believe widespread measures should be taken to restrict withdrawals. Aldrich did not agree but said he favored federal laws empowering limitation of withdrawals uniformly whenever needed. Shortly afterward, the senate passed Senator Cullen's resolution to permit the comptroller of the currency to limit withdrawals from national banks in accordance with state banking regulations in each state. Alexander Legas, former head of the federal farm board, told the committee that only a "general moratorium" would give immediate relief. He afterwards explained he favored "freezing bank deposits," with withdrawals limited to a small percentage, as the best assistance to endangered banks. John A. Simpson, president of the national farmers union, advocated passage of the Wheeler-Frazier bill for refinancing farm mortgages, the farm allotment bill and the Rankin "liberty note" measure providing for control of farm prices through issuance of notes.

Nurses To Be Made To Stand Entry Tests

ST. LOUIS, Feb. 23.—(AP)—To cope with present conditions, which find 1000 nurses unemployed in St. Louis, the Washington university school of nursing has adopted an unusually elaborate plan for selection of applicants. Starting with a comparison of two control groups, one tested and the other untested, a system of psychological, psychiatric and personality tests has been instituted. By this means school authorities believe they are able to determine emotional stability and aptitude for nursing, as well as physical health. In the untested control group 60 per cent of the student nurses have dropped out in 18 months, as against only 14 per cent in the tested group. While enrollment in the school is not arbitrarily limited, it has dropped from 211 to 172 in a year under the new entrance examination plan. Guidance of the student nurses.

Disorderly Cases Occupy 1st Place In Police Court

(Continued from Page One)
being drunk and disorderly was fined \$15. Chris Lou Jordan was dismissed of a charge of making threats. Joseph King was fined \$5 on a disorderly conduct charge, while Sam Brown and Ernest James estreated \$5 bonds on a disorderly conduct charge, and L. J. Jap Invasion In Jehol Reported As Postponed

(Continued from Page One)
ang, Jehol's second largest city, and other towns in eastern Jehol were bombed by Japanese planes were issued today at Chinese military headquarters in Peiping. Japanese reports said that one of two advancing armies in Jehol was at Peipiao, 20 miles northeast of Chaoyang, awaiting the expiration of an ultimatum at midnight tonight before starting on the long-heralded "Big Show." Chinese sources said Peipiao was attacked but denied it was captured. The other Japanese army, 150 miles northwest, is approaching Kaili, the northern city; with bombing planes leading the way. A Japanese spokesman at Shanghai said that the Chinese Nationalist Government was informed today that unless troops are withdrawn from Jehol they will be expelled forcibly. Although Chinese officials have not reported the receipt of such communication, the Japanese spokesman said it was delivered verbally to the Chinese Foreign Minister. Japanese ambassador in the United States, England, France, and Germany were instructed to inform those governments that Japan is mindful of their interests in the Peiping-Tientsin treaty area, and will not invade those two cities unless Chinese repeat force such action.

Georgian Owns Biscuit Made As Joke In 1909

CARTERSVILLE, Ga., Feb. 23.—(AP)—J. A. Stanford believes he owns the world's oldest biscuit. It is a very small biscuit which Stanford says was baked especially for him and served as a joke in 1909 when he was a guest at Sunday dinner in a south Georgia farmhouse. Not to be outdone Stanford says he told the young girl who placed the biscuit by his plate, that he would keep it as a souvenir. He carried it home and put it in his trunk where it was soon forgotten. A few days ago, looking into the trunk for something, Stanford found the biscuit, still preserved, though hardened by age.

MICHIGAN BANKS OPEN

DETROIT, Feb. 23.—(AP)—Michigan banks today were opened for restricted business, some for the first time since the Governor issued his closing order 10 days ago. Generally, banks were allowing depositors to withdraw five per cent on their deposits. Some were allowing no withdrawals or deposits.

Ford Officials Say Plants To Be Merged

DETROIT, Feb. 23.—(AP)—Ford Motor Co. officials, who refused to be quoted, said last night that a plan of temporary consolidations of assembly operations in the South and was being worked out but that, in the main, the plan would be the same followed each year when production gets underway. It is routine, they explained, to reopen assembly plants—so justified by the demand for cars, allowing the more centrally located plants to do all work for surrounding territory as long as that proves efficient.

Clearing House Orders Cut In Officers' Pay

WINTER HOVEN, Feb. 23.—A reduction of 20 per cent in all salaries above \$20 a week was put into effect by the board of directors of the Florida Citrus Growers Clearing House Association at a meeting here Monday. This reduction was the result of a report issued to the board said, "since all salaries had been cut early in the season to an extremely moderate basis." A report made to the board by the national committee showed the management of the clearing house had kept expenses down to rock bottom throughout the season, and that operations for the year would cost 25 per cent less than was estimated by the budget committee. The board complimented Manager A. M. Pratt and the personnel in the organization on their efficient work.
