

U. Of Miami Is Going After New Attendance Crown

Hurricanes Play Oglethorpe At Orange Stadium Saturday

CORAL GABLES, Nov. 2.—The University of Miami Hurricanes, who have attracted 30,763 paying fans into their big Orange Bowl stadium in three games thus far this season, are going after a state attendance record to place beside their first state football championship this year.

Four of the five remaining games are on the home lot, Oglethorpe, Duquesne, Bucknell and Georgia all appearing in Miami while only Catholic U. is played away from home. If attendance continues to increase, the final figure for the year will be be-

tween 85,000 and 100,000 which is believed greater than any other state eleven has drawn on its home schedule.

Capt. Eddie Duen, Miami's great running back, has a tremendous following in South Florida and a goodly share of the crown comes each week just to watch the Hurricane magician manufacture touchdown runs out of sheer running wizardry. Thus far, Eddie has not failed them and he has scored at least once in every game. His three tallies against Florida give him eight touchdowns in five games, most of his scores coming from beyond the 20 yard line. His longest run of the year, 73 yards against Spring Hill, did not result in a touchdown, however.

FROST SERVICE STARTED

LAKELAND, Nov. 2.—(AP)—Federal-State Frost Warning Service began its fourth winter of operation in Florida today, 5 days earlier than usual.

Meteorologist Eckley S. Ellison said the service was started early because of increased demands from citrus and truck growers.

No danger was forecast for citrus and truck in today's initial bulletin.

Douglas broke a leg in breaking up Rollins' lone serious scoring threat here Friday and is out for the year.

Grant Stockdale, Greenville, Miss. junior, looked best of the reserves tried against Rollins but he has little game experience and has yet to prove his worth against more rugged opposition.

Robert Grimes of Berwind, W. Va. the third stringer, is too light so Coach Harding may have to shift one of Dunn's understudies—Carl Jones of Mobile or Mike Corcoran of Savannah over to the position.

Revision Of Treaty Of Trianon By Italy, Germany Is Feared

Two Powers Ready To Guarantee New Borders Of Dismembered Czechoslovakia

British Oppose Sinking Of Boat

Incident Takes Place Within Earshot Of Coast Of England

Germany and Italy were understood to be ready to guarantee the new borders of dismembered Czechoslovakia as a Spanish war incident within sight of England's coast raised opposition in the House of Commons and fears grew of a new map revision in Central Europe.

Czechoslovakia now has been cut down to about 30,000 square miles from 51,000 square miles before the Munich peace. Satisfaction of most of Hungary's territorial demands yesterday by Germany and Italy, as arbitrators, cost Czechoslovakia 4,000 square miles in addition to territory already lost to Germany last month.

But Czechoslovak Foreign Minister Frantisek Chvalovsky was said to have returned to Prague with German and Italian assurances for what was left of his country.

New it is the turn of Yugoslavia and Rumania to worry their neighbors at the arbitration proceedings expressed fear that Germany and Italy would force the "complete" revision of the post-war Trianon Treaty, by which they received slices of pre-war Hungary.

Arriving Prime Minister Chamberlain was too ill to take the floor to answer a House of Commons demand for a statement on the sinking of the British-chartered Spanish freighter Cantabria yesterday by an Insurgent warship off the English coast. The incident, within earshot of the East Coast near Cromer, caused new opposition when almost immediately after the Home Minister had won an overwhelming vote of approval, 315 to 128, for putting into effect immediately the Apr. 16 British-Irish friendship pact.

On the Spanish front a steady insurrectionary push forced government troops slowly back on the Ebro salient in lower Catalonia.

A new army of 300,000 recruits was being trained in Sashan province as China continued to resist Japanese forces spreading out from captured Hankow.

VIENNA, Nov. 3.—(AP)—Germany and Italy last night settled the territorial dispute between Czechoslovakia and Hungary by

Rigid Inspection Made Of Dairies Selling Milk Here

A rigid inspection of dairies supplying milk to the City of Sanford has just been completed by an officer of the State Health Department, according to local Inspector G. P. Paxton, who stated that all defects found were ordered corrected at once by the inspectors.

The newly developed phosphorus test of pasteurized milk was made. This test, Mr. Paxton stated, is done with chemicals and accurately shows whether the milk has been heated to 145 degrees and held at that temperature for 30 minutes, the requirements for pasteurization.

The Inspector stated that an inspection of milk supplies in the City will be made and sales discontinued if the bottles are found improperly labeled or from unapproved sources. The producer's name must appear on the bottle and consumers are cautioned not to purchase milk which does not comply with this requirement.

Inspector Paxton stated that he has reports that some milk being sold is produced under very unsanitary circumstances.

Lawton Asks Approval Of Amendment

Lawton States School Board Must Borrow \$30,000 For Payment Of Salaries

Pointing out that it is necessary for the Sanford City School Board to borrow approximately \$30,000 for payment of teachers salaries between now and Christmas, County School Superintendent L. W. Lawton addressed the members of the Woman's Club yesterday in support of the proposed amendment in the general election Nov. 8. Mr. Lawton told a brief outline of the amendment at the Kwartet Club meeting.

"We are not asking for money," Mr. Lawton said, "only that the State provide funds which have been appropriated to schools by the legislature."

Reading a letter from the State Department of Public Instruction, Mr. Lawton stated that only one-half of the annual apportionment of State aid for payment of teacher salaries will be made in November and that only one-quarter of the amount will be paid in December.

In order to pay the teacher Mr. Lawton pointed out, it will be necessary for the School Board to borrow approximately \$30,000. To pay the interest on this amount for several months Mr. Lawton stated, it will cost the local board approximately \$300.

Under the provisions of the Constitution of the State at present, Mr. Lawton said, it is not mandatory upon the Treasurer to pay the monthly apportionments when due. The amendment would alleviate such conditions as the school board now faces, by placing payment of the amounts appropriated for school on the same basis as other State expenses.

The enactment of this amendment will also make it unnecessary for school lodges at every session of the Legislature to pay the monthly apportionments when due. The amendment would alleviate such conditions as the school board now faces, by placing payment of the amounts appropriated for school on the same basis as other State expenses.

CHICAGO, Nov. 3.—(AP)—Overcast skies carried promise of rain to middle-western lands parched by Fall drought. The Weather Bureau forecast showers for most of the mid-continent where an autumn heat wave has shattered temperature records during the past month.

Fears were felt for the winter wheat areas, in urgent need of water. The drought was reported by Gov. A. B. Chandler to have reached "unprecedented proportions" in Kentucky.

CHICAGO, Nov. 3.—(AP)—Forecasters said a "million dollar rain" had already fallen over part of the area and would slowly expand to other sections.

MIAMI, Nov. 3.—(AP)—Beatified showers came to the assistance of fire-fighters in the Everglades today, bringing under control extensive blazes that had swept sawgrass areas for a week.

G. J. Blocka, district fire warden, said all the fires in Dade county were under control and showers were falling in adjoining counties.

Goldenrod Robbery Suspects Are Held

CLEVELAND, Nov. 3.—(AP)—A group of CIO "little steel" strikers returned to work at Republic Steel corporation's Union division yesterday over protests of a plant union which claims to represent a majority of the employees.

Police stood guard to prevent any clash as the CIO participants of 1937's "siege of little steel," some of whom reported they were evicted Tuesday by the rival faction—presented cards from the company authorizing their entrance.

C. R. Mason To Speak On Bird Life Friday

NEW YORK, Nov. 3.—(AP)—Dwight Brantley, head of the New York FBI office, said today that federal agents were investigating the possible link between the unsolved kidnap-slaying of 12-year-old Peter Levine of New Rochelle, N. Y., and the newly captured members of an alleged "kidnap syndicate" who are accused of three kidnaps, two robberies and one murder.

Police, meanwhile, exhumed the bones from the basement of a ledge hall on the lower East Side and said they might be from the body of Arthur Fried, one of the victims.

City News Briefs

Workmen for the past two days have been repairing the roof of the Touchon Drug Company store here.

The Rev. Melton Ware, pastor of the Hastings Methodist Church, spent Monday with his parents, Judge and Mrs. R. W. Ware.

C. R. Mason, president of the Florida Audubon Society, will be the guest speaker at the Jewish Community Center Friday evening following the regular services.

Mr. Mason has just returned from New York where he was elected a member of the Executive Council of the National Association of Audubon Societies. His talk on Florida bird life will be illustrated with new slides.

The National Guard Amendment

One of the amendments upon which the people
called to vote next Tuesday proposes to change in that
of the Constitution of the State of Florida relating to
State militia and provides that all officers of
National Guard, as it is now constituted, shall be appointed
from office, solely on the basis of military
service as determined by Army and Navy of the
State War Department.

If the proposed amendment is adopted, the Governor
of Florida would still have the right to appoint members
of the National Guard, but he would have to
select them from among men of comparable
qualifications for the position of training and training
commissions prepared by the War Department in
the United States. Once appointed, they would be
placed under the command of the National Guard, and
they would be removed from office except for
a vacancy or improper conduct as determined by an
Army Board operating under the War Department.

As it stands now, the Governor of Florida may
appoint anyone he likes to an officer in the National Guard. This
is a privilege which has not been ratified, but once
the law is passed, the Governor could appoint any political
associate with little or no military experience to a
position in the Guard. He may also remove officers at will
without cause, and thus the Guard could become purely
a political machine.

The amendment would also make the duties of Adjutant
General an appointive one, the same as those of
the National Guard, and thus, would give him more
independence from political influences enabling him to
choose a higher class of officers and do a more
efficient and better job than is now possible as long as he
looks to the support of his political machine.

Clearly the purpose of the amendment is to free
the National Guard from any unnecessary whatever it
may be involved in politics. It would make the offices
work for new appointments so it could reward them
according to only in proportion to what he should make
to the work which they put into their service. It would increase
the efficiency of the National Guard as a fighting force
to a level with that of the Regular Army.

There is no reason whatever as far as we can see
for the changes which come from certain political sources
other than that the amendment would increase a tax on
it would tend to establish a military dictatorship. As
a matter of fact, it seems to us that it might help to reduce
taxes, by making officers of the Guard more efficient
and thereby it would help to assist a military dictator
in this staff if ever a Huey P. Long dared to come to Florida.

"Elder" Statesmen

Although the signers of the Declaration of Independ-
ence are popularly believed to have been the "founding
statesmen" of their day, they were in fact, relatively
young men as a group, with an average of less than 35
years, according to the Metropolitan Life Insurance Com-
pany, which has just concluded a study of the longevity
of these founders of the nation.

The fact that 32 of the signers failed to live out
their normal expectation of life after signing, leads the
statisticians to conclude: "It may well be that the dis-
tinguished men literally sacrificed part of their lives in
the arduous task of successfully building the young Republic."

When John Hancock, in bold hand, signed the Declara-
tion on July 4, 1776, the company says, more than
one-third of his colleagues 20 out of the 36 were under
10 years of age, while the youngest signers were Edward
Rutledge and Thomas Lynch, Jr., who had not yet reached
their 27th birthday. Nineteen of the patriots were between
10 and 49 years, 10 were between 50 and 59, while only
seven were 60 or over, three of whom were 65 or older.
Benjamin Franklin, then in his 71st year, was the oldest
of the group.

In view of the fact that half of the signers were under
age 35, it was to be expected that many of them would
live to see their work crowned with success. All but nine
of the 56 survived the seven years from the adoption of
the Declaration to the conclusion of the Revolutionary
war. Forty were alive at Washington's first inauguration
on April 30, 1789. When the United States took up arms
a second time against England in 1812, some 36 years
after the declaration of Independence, 10 of the group
were still living.

The interval between the Declaration and the death
of the signers varied considerably. For John Morton and
Burton Gwinnett, the interval was less than one year; for
Charles Carroll, the last survivor of the group who lived
to the age of 95 and died on November 14, 1832, it was
more than 56 years.

"The signers, as a group, were not, however, long
lived," the Metropolitan says. "As nearly as can be com-
puted, these fathers of American independence survived
on the average about two years less than the general run
of men of corresponding age at that time. Of course, at
least two of the signers died prematurely; for Charles Carroll,
who died at sea at the age of 30, and Button Gwinnett,
died at 41 at the result of wounds suffered in a duel. But
even if these men are omitted from the reckoning, the
average lifetime of this group after signing was still be-
low that for men in the usual walks of life."

Three Plants Unknown
To Science Are Found

SANTA FE, N. M., Nov. 3.—
Three plants previously un-
reported to science have been
found in the proposed Big Bend
National Park of Texas.

Ernest G. Marsh, Jr., of An-
drews, Tex., graduate of the Uni-

versity of Texas, is credited with
discovering the plants. Two of
them were named for Marsh by
Paul Standley, botanist and cur-
ator at Field Museum in Chicago.

The plants are described as a
wild mallow similar to holly-
hock; a wild nightshade and a
plant that resembles a snap-
dragon.

DISPELLING THE FOG

BY CHARLES MICHELSON

Democratic National Committee

We are pretty well down to nation of a reputed anti-New Deal
the touch of a campaign. In Democrat that at the nomination
another week or so we will know of one of their own. In fact, I
who are to be Congressmen and cannot recall any expression of
Senators, and will begin to play satisfaction, let alone jubilation,
adequate attention to football.

The significant element of the pamphlet. Perhaps this was on
lose of the pro-depression struggle is that the minority party is
back where it started last Spring. Its speakers are fulminating about
the administration's idea of one President and the Communists
and the Communists are doing the same.

The ultimate they can hope is to
win back a few Congressional
seats where Democrats, calculating
politically, have no right to expect election. In every land
side the avalanche brings along
some of these but if any district
returns to its normal allegiance
next month we may expect to
have the circumstances bailed
out by the president of the New
Deal has gone to pot, and that
President Roosevelt has been re-
published. Actually, if every Repre-
sentative and the Communists
sets they would repeat.

They continue to mourn about
the desperate economic plight in
which the country finds itself.
And stock are up, wages are at
high level, the national credit
is at peak, and the Summer
Resort sections are counting the
finest profits of their running.

The anti-New Deal newspapers
deserve editorially about the
"treason" of business, and their
columns blazon with such head-
lines as General Motors puts on
100 more men, and Chrysler
employees five thousand. They
point out pontifically in their
course of legislation would follow,
the while industrial structure is
toppling because of the New Deal
and their market pages tell us
that "Markets all higher for the
complexion of the next Con-
gress." The Democrats would still
have large majorities and the
communist seek to perpetuate
democracy by rockledd violence.
Assaulting speakers, tearing up signs
and banners and hurling missiles
and epithets only serve to give
widespread publicity to the cause
they seek to crush and provide
its leaders with ammunition in
the form of sympathy in which
they capitalize to the fullest extent.

America has long been termed
a "melting pot"—a fogy nation
that has taken to its bosom
those of every race and creed and
color—the best and the worst
that the world had to offer—Jew
and Gentile, Nordic and Slav, Latin
and Hindoo, freeman and slave of
every nationality and every land.

We created upon our shores a
Statue of Liberty to enlighten
the world and bid these people
come, and we gathered them in
our "melting pot" trusting that
the white-hot flame of true
democracy would fuse its content
into one great loyal whole and
make them all Americans.

While we tended the fires and
fed them fuel, the "melting pot"
served us well. From it we gained
countless true Americans. The
material for our "melting pot" came
to us as emigrants from every
nation on earth. All were made
welcome in a new land "dedicated
to the proposition that ALL men
are created equal".

They promulgated tables of
imports of farm products a year
ago, when the drouth made it
necessary to import feed and
food, as showing how the farmer
was being gyped out of his
foreign market, while they ig-
nored the figures for the current
year, which tell of negligible im-
ports of wheat and corn, etc., and
huge exports of our farm prod-
ucts.

Through it all, of course,
runs the theme of the wickedness
and dark purposes of the Free
World—indeed, incidentally, is not
running for anything this year.

Not one of their speakers has
ventured even a remote hope of
winning control of either house
of the National Legislature. They
paid more attention to the Demo-
cratic primaries than their own.

I would not have been surprised
if the Republicans' propaganda distin-
guished the Democratic primaries.
They, like poor chap, is not blamable
for having to make bricks with

employers could not afford to pay

twenty-five cents an hour for the
work they could do. It was said
that the closing down of mills,
etc., were principally in the South.
Saw mills, for instance, were in consider-
able numbers closed down. The price
of lumber is low, what they require
principally is manual labor, un-
skilled. They say mill operators
are saying that unless the price
of lumber advances considerably
they see nothing ahead for their
business.

The enactment of the wage
and hour law is doing exactly
what was predicted for it, re-
ducing employment, driving more
people from jobs, raising the
lists of the WPA and of the
relief rolls. There will be longer
lines this Fall, and Winter,
and the coming Spring, no doubt.

The wage and hour act will be
responsible for much of the in-
crease in the number of the un-

Clearly the purpose of the en-
actment is to display confidence
in a cause that does not even
pretend to be other than hopeless,
so far as this election is con-
cerned, some measure of the
handicap under which he labored
may be appreciated.

In the same breath, as it were,
the New Deal is demanding
that the price of industrial prod-
ucts must come down and in
the next session \$10,000 fines and
penalty terms for industries which
do not arbitrarily uneconomically
fix prices which increase the
cost of production. Gloomy indeed
is the outlook because of the
fact that the Central government

Democrats Urged By Cone To Vote In Election Nov. 8

(Continued from Page One)
he called upon Democrats to see to it that the will of the large majority registered when he carried out in the general election.

Addressing the Democrats of Florida, Gov. Cone said:

"The general election of Tuesday, Nov. 8, offers Democrats another opportunity to go to the polls and vote their belief in their party and what it stands for. It is important that every Democratic vote, and I am appealing to them to do so."

"While Democratic nomination is considered equivalent to election in this state, this fact would not excuse members of the party for failure to vote. They should vote not only to avoid possible defeat of their candidates by default, but also as an appreciation of what the party has done for them, the state and the nation."

"Appreciation, extremely keen at one time, should not be allowed to dull merely because some years have elapsed since the banks were reopened, since Democratic leadership restored economic normalcy and since the danger of revolution was met. It is well enough to remember that any backsliding now may ultimately set the grass to growing in our streets."

"Practical-minded Democrats cannot remain unmindful of the advantage that the state will gain by polling such a big vote as to attract attention to its loyalty and to its preponderant Democracy. A large turn-out will assure our national Democratic leadership that Florida is behind it and approves its policy of broad humanitarianism."

"Every Democratic nominee, whether for district, county or state office, should receive the full party vote. These nominees were chosen in primaries in which all Democrats took part and represent majority rule. It is especially important that Claude Pepper shall be returned to the United States Senate as nearly as declaration as an organized minority will permit. It will be wise to be vigilant and to take no chances on the Republican opposition slipping something over."

The Democratic party is responsible for nearly all progressive national legislation of the immediate and even remotest past.

This legislation includes the Social Security Act, under which Florida now is giving public assistance to 34,000 aged, blind and near-blind, as well as to dependent children. Those who believe that these and similar benefits should be continued should register their convictions at the ballot box.

"Democratic office holders, especially, owe it to the party to vote and to help bring out the Democratic vote."

"Florida is eating high on the hog. To make sure of its ham and eggs, all Democrats must go to the polls and do their duty."

Senator Vandenberg, Republican, Michigan, saw the specter of dictatorship in New Deal policies and Chairman Farley of the Democratic National committee denounced such arguments as silly last night in separate campaign speeches.

Secretary Roper urged Indians to vote for Senator Van Nuys, Democrat, who opposed the administration's supreme court reorganization bill, and at one time was threatened with rejection by his state party organization as a result.

And another cabinet member, Secretary Wallace, returned to the campaign battles with a statement asserting that Senator Capper, Republican, Kansas, who voted for last session's crop control bill had deserted the farmer for the Republican party by now denouncing the measure and urging the defeat of Senator McGill, Democrat, Kansas. In another statement, Wallace made a similar charge of deserting the farmer against Lester J. Dickinson, Republican candidate against Senator Gillette, Democrat, Iowa.

Vandenberg spoke at Newark, N. J., in behalf of W. Warren

Guard Amendment Adoption Favored By J. C. Hutchison

another time to remove them from the service. The Federal Government federally recognizes the offices of the Guard after they have been appointed by the state. This federal recognition is necessary to qualify a National Guard officer for fed and federal pay.

The amendment in question does not give the Federal Government any more control over the National Guard or its officers than it has at present. The amendment does not change, however, the method by which officers may be elected or removed by the State.

The Constitution of Florida provides for the appointment and removal of Florida National Guard officers by the Governor if it does not fit the basis upon which they may be appointed or removed by law. In other words Florida National Guard officers are in the same state going to a new office appointive of the State. The Governor can remove any officer of the Guard under the present setup for no reason or for any reason whatever. The Guard, then, if it can make a political play out of each office in the Guard.

The amendment will, however, guard against this use by the Governor, and provides for the appointment and removal of Florida National Guard officers in the same manner that regular army officers are appointed and removed by the Federal Government which means it is solely on the basis of military proficiency that a

WASHINGON, D.C.—Rep. John E. Davis, of the House Committee on Un-American activities, has announced his intention to take a half million in lobbying China. But don't stop at conclusion yet. Here is a detailed survey of what will occur during each of the 1938 march into Manchuria.

The Japanese army and navy have established numerous air and submarine bases along the southern coast of Manchuria from Hong Kong to the outer coast to Vladivostok on the north.

On the map the territory now under the military influence of Japan is still like two huge islands, one large, the northern, and one small, extending from Manchuria to Korea and thence to Canton to Shanghai.

This territory includes less than one-tenth of China, 100,000 square miles (including Manchuria), but, and the most important, it covers most of the developed wealth of China and a third of her population of 100,000,000 people.

Let us consider the resources about Korea and the northern part of the interior caravan route to inland Asia, one and one-half with the outer world.

Yenan is in the deep south

and the undeveloped min-

erals are, including coal, cop-

per, iron and oil.

Chiang Kai-shek and his general do the great bulk of their power on what he has been drawing for the front they sent against the Japanese. Only one thickly populated province, Szechuan, and its 100 million people remain outside the Japanese sphere.

Leave the great transportation arteries, the railroad and the rivers, are lost to Chiang as well as the bulk of the nation's manufacturing resources.

All is now in the power of the Japanese in the form of revenues and most of the salt tax money. That amounts to about \$100,000,000 dollars.

It has been paying off Chinese and foreign loan.

All of this is a dryly put, but, indeed, from the Chinese point of view, but the experts tell you not to jump at too many conclusions in the next few weeks. Watch for Japanese tricks.

For instance, note that the Japanese are moving two armies toward each other from Canton and Hankow. This object is to close the door to orderly re-

lease for Chiang and his various

If Chiang succeeds in with- drawing with most of his men, he may be able to muster enough strength to make it worth while for the Japanese to deal with him. If not, he has been removed from the picture.

The Japanese privately claim they are cutting Chiang out. On that basis, all the signs point to the establishment of three big puppet states like Manchukuo along the Chinese seaboard. A southern state could be domi- nated from Peking by Chinese willing to talk Japan's language. A middle state would be ruled from Nanking or Shanghai, and a southern state from Canton.

As American experts set it, the idea would be "divide and conquer."

Then what?

In the long range of years ahead, the Japanese have guerrilla and internal wrecks to fight. At least 500,000 and probably 1,000,000 soldiers would be required to keep a semblance of the peace. It is interesting to speculate whether the salt tax and the customs receipts would cover the cost of this expeditionary army. Some authorities say taxes have covered only 10 percent of the cost of the Japanese army in Manchukuo.

And certainly it will require years to develop a poverty-stricken nation, with hardly enough purchasing power left to buy cotton shirts and rice.

Thus, the development of China is still a subject to be discussed in terms of generations—not months and years.

Japs Threaten To Close "Open Door" In China

U. S. Is Signatory To 1922 Treaty Guaranteeing Integrity Of Sino Territory

British King Wants Peace

Praises Roosevelt For Timely Action In Czech Crisis

King George's bravest hope for "new era" of peace in Europe rang down the curtain on this session of Britain's Parliament today as a serious new international issue arose over the war in China and the civil war armies fought a vital battle in Spain.

Japan's threat to denounce the 1932 Nine-Power Treaty pledging respect for the principles of Chinese territorial integrity and the "open door" clouded the horizon for western nations in the Orient.

The United States, which demanded in a sharp protest on Oct. 8 that Japan not slam shut China's open door, is a signatory to the treaty.

A Tokyo Foreign Office spokesman said Japan considered the pact obsolete and was studying a substitute pact among herself, her protectorate, Manchukuo, and the prospective Japanese-dominated regime in China.

Spanish Insurgents reported their six-day offensive against the government's Ebro salient in lower Catalonia had carried them within rifle shot of the river and were picking up speed.

King George's message, read for him at a joint session, said President Roosevelt's "timely action" during the Czechoslovak crisis last September "powerfully aided the cause of peace." A new parliamentary session will open on Tuesday.

In Rome, Premier Mussolini telephoned King George, declaring that "in the European political sky the blue area tends to spread," Hungary, the latest beneficiary of the sacking up of Czechoslovakia, set up committee to follow the army of occupation.

14 Killed In Crash Of British Airliner

ST. HELIER, Island of Jersey, Nov. 4.—(AP)—Fourteen persons were killed today in one of Britain's worst airplane disasters when a full-loaded passenger airplane crashed in a field just after taking off from Southampton, England.

The victims were nine men, four women and one child, and this included the pilot, Capt. A. G. M. Cary, the wireless operator, 11 passengers and a man working on the field where the plane crashed.

The plane was on a regular run between the Island of Jersey, in the English Channel, and Southampton. The plane was seen to circle several times in the channel fog before falling into the field about 600 yards from the take-off.

\$42,000 Set Up For Labor In Hospital Plan

Contractor Must Use All Local Workmen Available In Constructing Building

Seminole County (Indep.) will benefit in the amount of \$42,000 according to the specifications of the project application which was sent to the PWA division of the Atlanta office several months ago next Tuesday's referendum carries.

While the laborers would be in the employ of the contractor to whom the construction is awarded and not in the employ of the government, PWA regulations require that local help must be exhausted before all workers can be brought from out of town.

Although no figures were available on the total number that will be employed, the list includes rough carpenters, finish carpenters, masons, cement finishers, lathe operators, painters, steel workers, roofers, sheet metal workers, plumbers, fitters, electricians, sheet pointers in addition to the maintenance, lumber, time keepers and book keepers. All of the will be paid the prevailing wage scale for their particular trade.

The total cost of the project is \$125,000 and Seminole County freeholders will decide at the poll next Tuesday whether the County Commissioners may float a bond issue of \$70,000 to pay the County's share of the cost which is 50 percent of the total. The Public Works Administration will make an outright grant of 40 percent in \$50,000.

The bonds will be sold to the Reconstruction Finance Corporation at par value, and will be repaid over a period of 20 years bearing interest at the rate of 4 percent per annum. A levy will be made to pay the interest and principal on the bonds.

Edgar Herzog, who had been promised an exemption from the levy up to \$5,000 assessed told the House Committee investigating the Steel Strike that he agreed to the terms of the agreement.

At the same time, officials announced that a part of human jawbone with several teeth still intact had been found by police digging in the basement of the Ukrainian Hall where one of the kidnappers said Fried's body was cremated in a furnace.

Assistant District Attorney Joseph Rosenthal, after all night questioning, announced the four prisoners had confessed. The confessions, he said, were obtained from Demetrios Giula, 30, William Jenkins, 27, and John Virga, 34, arrested Tuesday by federal agents, and Joseph Stephen Scadola, 26, who recently was sent to prison for a parole violation.
