Bury Cold War, Kennedy Asks Reds At UN

UNITED NATIONS, N. Y. (UPI) — President Kennedy today called on the Communist world to bury the cold war and engage the West in "a contest of achievement instead of intimidation."

Speaking before the 18th General Assembly of the United Nations which opened here Tuesday, Kennedy said he welcomed such a contest "between those who envision a monolithic world and those who believe in diversity."

For we believe, said the President, "that truth is stronger than error—and that freedom is more enduring than coercion. And in the contest for a better life, all the world can be the winner."

Kennedy specifically outlined the areas where the Soviet Union and the United States, together with their allies, could achieve further agreements, "agreements which spring from our mutual interest in avoiding mutual destruction."

Referring to a speech made to the General Assembly Thursday by Soviet Foreign Minister Andrei A. Gromyko in which the Russian proposed an agreement with the United States to ban nuclear weapons from space, Kennedy urged that negotiators go back to the negotiating table to work out practical arrangements to this end.

In the field of space, Kennedy said, where the United States and Russia have a special capacity, there is room for new cooperation including the possibility of a joint expedition to the moon.

Pointing to the fact that by resolution of the U.N. assembly member nations had foregone any claims to territorial rights in outer space, Kennedy asked rhetorically why man's first flight to the moon should be a matter of national competition.

"Why," Kennedy asked, "should the United States and the Soviet Union, in preparing for such expeditions, become involved in immense duplications of research, construction and expenditure?"

"Surely we should explore whether the scientists and astronauts of our two countries—instead of all the world—cannot work together in the conquest of space, sending some day in this decade to the moon, not the representative of a single nation, but the representatives of all humanity."

City And County To Vote Nov. 5

Filling two city commission posts and three school trustee posts, three constitutional amendments, a school tax levy and a county question will confront voters in the Nov. 5 election.

City and county electors will vote for the three school trustee posts and on the tax millage. The present trustees are Ray Stator and Don Bates, of Sanford, and Fred Distine, of Longwood. Deadline for candidates to file is Oct. 21.

All city voters will be eligible to pass on the two city commission posts now held by Thomas S. McDonald and A. L. Wilson. Deadline for candidates is Oct. 16.

All city and county electors will be eligible to vote on the county question, approving permissive legislation permitting the county to purchase and offer a site for the proposed state university for East Central Florida. However, if this approval is given and if the State Board of Control selects a Seminole County site, a special election for a bond issue will be held later for free-holders only.

All city and county voters will pass on three state constitutional amendments: A \$75 million bond issue for higher education, permitting the State Recreation Council to issue bonds, and changing the gubernatorial election date to an off-presidential year.

School Supt. R. T. Milwee this morning issued the following statement relative to the school election:

The principal duties of trustees are to advise with school officials and parents and to recommend the employment or dismissal of members of the instructional staff of the county.

A person may qualify to run for trustee by being nominated by a petition signed by five or more persons qualified to vote in the election. The petitions on which signatures are to be placed may be obtained from the County School Office in Sanford. The signed petitions must be returned to the County School Office no later than 15 days prior to the date of the election.

The millage requested by the School Board to be voted on is the same the Board had for the past two years. In the district the millage proposed is 2.75 mills and in the building and bus reserve fund 1 mill, for a total of 3.75 in the special tax school district.

The qualifications for electors to vote in this election are: Must be residents of the district, in the state for one year, in the county for six months. Must be properly registered or furnish legal evidence of registration. Must pay tax on real or personal property within the district.

For those who are not registered to vote, the registration books are open from 9 a. m. until 5 p. m. on Monday through Friday, and from 9 a. m. until 12 noon on Saturdays in the courthouse, Sanford, Oct. 5 will be the last day for registering and the registration office will be open until 5 p. m. on this day.

For those who are not registered to vote, the registration books are open from 9 a. m. until 5 p. m. on Monday through Friday, and from 9 a. m. until 12 noon on Saturdays in the courthouse, Sanford, Oct. 5 will be the last day for registering and the registration office will be open until 5 p. m. on this day.

The Fighting Seminoles

like the skies, were weeping this morning. The "skinned section" of the baseball diamond at Municipal Stadium has not been resodded and the Seminoles probably will be playing in a "sea of mud" against Titusville tonight. Game time 8 p. m.

SHADES OF TWILIGHT ZONE

La. Jim Talmadge has taken on a one-man fight against Communism in our community. His one-page "Freedomist Bulletin" makes for interesting and enlightening reading. He covers everything from patriotism to get-out-the-vote to sage advice against Communism.

Seminole High Band members have launched their annual "Birthday Calendar" drive to help finance their out-of-town trips and other expenses. For a small contribution you can have your name printed on a 1961 calendar and for a slightly higher gratuity you can obtain a calendar. A really novel idea to raise funds . . . and everyone will need a 1961 calendar come Jan. 1 . . . which isn't too far away.

Oviedo football fans all are laughing about the Lyman undercover scout who wound up in the hands of the law earlier this week. An Oviedo fan reported a "suspicious" character in a car near the Oviedo football field. The youth explained to a deputy sheriff he was scouting the Oviedo varsity for Lyman (or tonight's clash at Lyman). But the real laugh for the Oviedoans, the scout was spying on the junior varsity and not the varsity.

Remodeling of a portion of the Sanford Manufacturing plant will be commenced Monday to make way for the Pinebreeze Sanford egg operation. The egg plant will commence production with a payroll of 25 or more in three-four weeks.

Oviedo football fans may obtain season tickets at the office of Mrs. Kirby at OVH. Will save going through that one-window ticket line at the home games.

Vandalism seems on the upswing in Sanford. Nearly every day the police blotter carries such reports, especially aimed at schools and churches.

From over the Rhine yet comes this menu for the next Lions Club meeting: Gebratene gans, sauer kraut, apfel kuchen, knackwurst, kartoffel salat, sala kartoffel, rochen brodt, knob lauch, and kaffee Bier, wein mit zigar ren. Ja wohl!

A sage thought from the Lions Pause, and we don't mind stealing this: The tight skirts of prejudice shorten the steps of progress.

JFK Rejects Use Of Troops In Alabama

WASHINGTON (UPI)—President Kennedy counted today on two personal representatives to help restore racial peace in Birmingham, Ala.

Selected by the President to try to bring white and Negro community leaders together in Birmingham were former Army Secretary Kenneth C. Royall and former West Point football coach Earl H. Black.

Royall and Black received immediate pledges of cooperation from both Boutwell and the Rev. Martin Luther King Jr., leader of the Negro delegation who met with Kennedy.

Two Presidential appointments will go to Birmingham in a few days.

King planned to meet today with Justice Department officials to discuss the Birmingham situation.

After the 70-minute session with Kennedy Thursday, King revealed the President said he would not resort to use of troops while new steps were being taken by local and federal authorities.

The Negro leaders, who had urged that federal troops be sent to the city, indicated that they were satisfied with the President's decision to try a different approach.

BIRMINGHAM, Ala. (UPI)—City officials and Negro leaders appeared willing today to work with a two-man presidential team toward restoration of racial peace here.

"We welcome as a city and a people the cooperation of anyone willing to understand the city's difficulties," said Mayor Albert Boutwell of the team appointed by President Kennedy Thursday.

Enthusiasm Necessary

An enthusiastic person is not only a joy to others but also to himself. This was demonstrated by a minister who told of an incident of his childhood. His mother sent him out one day to pick a quart of raspberries which she planned to serve for dinner. He disliked picking berries very much and therefore when he was disgruntled, to say the least. Knowing his mother's order was to know that there was nothing to do but pick the berries, so he went to work. An idea came to him that it would be different and kind of "fun" to see his family surprised by having a second helping of berries, but this would require two quarts instead of one. May it would be worth it, he thought. Now enthusiasm entered the job and before long he had accomplished his work with pleasure. He had changed the project from mere humdrum duty brought on primarily by compulsion to the enthusiastic task of doing something worthwhile. Isn't this a picture of life in general?

Big News In Science

Big news in the scientific world is the discovery of the anti-Xi-zero. This, of course, is the antimatter counterpart of the well-known Xi-zero, which has been around for a long time.

The latest discovery brings to 24 the number of known atomic particles and nuclear physicists hope that they've at last reached the end.

More important than that, however, is the fact that the universe is once again back in balance. A great sigh of relief went up when anti-Xi-zero was identified, for it meant there were exactly 17 particles of matter and 17 particles of antimatter.

Just as nature abhors a vacuum, so do scientists abhor disorder in the universe.

Let 'Em Daydream

Though a few voices are raised from time to time against overemphasis on certain tribal goals set up for our youth—early dating, premature maturity, life-and-death interest in high school sports, personal popularity—it is likely that this is the American way and that the heretic—the bookish introvert—will never be more than tolerated by his less bookish schoolmates or their parents.

So that as it may, the "oddball" has his uses and ought not merely to be tolerated but encouraged in his daydreaming tendencies. The quiet,

withdrawn child not only won't necessarily grow up to be antisocial or schizophrenic, he may even be of great value to society.

That is the opinion of psychologist Nathaniel Wagner of the University of Washington, as quoted by the Health Bulletin. He gives an illustration:

"If certain people had got hold of Albert Einstein as a child, he would never have developed the theory of relativity. They would have thought there was something wrong with the kid who sat around thinking so much.

Small Affairs Dept.

Worried about how the big boys are conducting the nation's and the world's affairs? Well, let's have a little look at how things are going down in the Department of Small Affairs.

A friend who was going on vacation made the usual arrangements about stopping his newspapers and having his mail shifted to the holiday spot.

One newspaper was cut off two days before the date he requested. The other was continued for two or three days after he left town.

When got to his vacation hide-out, he found that his first-class mail was being forwarded as he had asked. But so were his magazines, which he had asked the post office to hold until his return.

They, of course, all arrived "postage due." If he declined to pay the charge, they were simply tossed away, not sent back where they should have been held in the first place.

Then the man's wife had to go

home early. She quickly requested resumption there of first-class deliveries. For the next 10 days, half such mail came to their home and the rest to the vacation place.

Now there is this other matter. A business outfit which is moving its quarters from one building to another was startled one Monday morning to discover its telephone service had been prematurely cut off.

For four hours the firm was severed from the outside world. But the telephone company mistook its resources and was equal to the occasion. One of its eager agents stepped into the breach:

"I'll report your trouble. Can you be reached by phone, sir?"

Should you imagine these are isolated examples, ask around. And, by the way, have you tried to change address on any of your magazine subscriptions lately? That'll keep you busy for a couple of months.

So, now what's all this about the big fellows bungling the Cold War?

Imogene's An 'Aerotherapist'

WASHINGTON (UPI)—When I arrived at the hotel here for my interview with Imogene Coca, she was in the bedroom telephoning her children in California.

Presently she came into the parlor and reported that it was raining on the West Coast.

"It was raining so hard they didn't put the duck out all day long," she said. Obviously she has very considerate children. Which figures. Miss Coca herself is certainly not the type who would chuck a duck out of the house on a rainy day.

I should explain that Miss

Coca is participating in what some press agent has labeled an "aerotherapist." It's a gimmick to publicize her new television series, "Gridl," which premieres later this month.

An "aerotherapist" requires her to fly to one city for breakfast, to another city for lunch and to another city for dinner.

Miss Coca is ideally suited for that type of tour because flying irritates her.

"You're going to have a problem on this trip," she warned her traveling companion, Lindsay Durand.

"How so?" asked Miss Durand.

"I have to have three drinks before I can get up enough nerve to board an airplane, and when I have three drinks I'm a problem," Miss Coca explained.

Actually, however, she was spoofing about the drinks. Miss Coca signed a temperance pledge when she was six years old.

I asked Miss Coca how she had managed to control her fear and she said she does it by daydreaming. While in the air, she dreams up situations where things go wrong with the plane and she performs some sort of heroic action.

Occasionally she rushes into the crew compartment, grabs the controls and brings the plane down safely. But mostly she bravely stands up in the aisle and calms the other passengers by singing.

This method has one basic defect, however, Miss Coca still hasn't decided what song she should sing.

She was leaning toward "Nearer My God To Thee" until Miss Durand reminded her that it was what the band played when the Titanic was sinking.

I told Miss Coca that whatever she sang she should skip the verse or she might not have time to finish the chorus. That cheered her a lot.

Lyle C. Wilson Says:

Nonsense Is The Word

Nonsense is the word for the proposition now being solemnly advanced in Congress that a person who has completed the sixth grade of grammar school shall be presumed to be literate.

To be literate means to be able to read and to write. More than an act of Congress will be required to validate any presumption that a sixth grader is literate.

This nonsensical presumption of literacy is to be written into the civil rights bill that Congress probably will enact this year. It is being

Mr. Camille Bruce, Seminole County registrar of voters, stated that her office always has registered Negro voters in "the very same manner that we do white voters," adding that "we do not require any more from Negroes than any other persons to become eligible to vote."

written into law to protect the rights of Negroes to vote in Southern states. It is part of the voting section of the proposed bill.

This section would deprive Southern registrars and other officials of the opportunity to be arbitrary in barring Negroes from the ballot. Specifically, the voting section would forbid the use of differing tests in qualifying white and Negro voters and require written literacy tests if such examinations are used at all. And it would establish a legal presumption of literacy for any person who has completed six grammar school grades.

That is a pretty good section from the standpoint of protecting Negro voting rights. But it does not protect the ballot box. And it is a lot of nonsense to assert that a sixth grader necessarily is literate. The shameful record of education in the United States reflects a contrary situation.

In 1962 the New York De-

partment of Education reported that six per cent of New York City students in the 12th grade graduating class were able to read at no more than second or third grade levels. The report cited illiteracy as a major factor in juvenile delinquency. Illiterates swell the ranks of the unemployed, a group containing much more than its proportionate share of Negroes.

In the District of Columbia there was a finding last winter that at least 13,000 district students had serious reading deficiencies.

To arm tens of thousands of illiterates with the right to vote is a mighty poor way to safeguard the welfare of the United States. Ignorance should not be a passport to the voting booth. It is undeniably desirable that the voting rights of all citizens be protected and especially that Negroes be not arbitrarily excluded from the vote by race conscious registrars.

Literacy—the ability to read and to write—is a reasonable standard to be required of a citizen who would vote. But phony literacy is no proper standard. On the contrary, the qualification by law of persons to vote on grounds that they are literate, when actually they are not, is a silly procedure. More than silly, it is dangerous.

In view of the current U.S. system of education, which disgracefully fails to teach kids to read, it is reasonable

to believe that the proportion of illiterates to be guaranteed the right to vote by this civil rights bill will increase steadily through the years. So, in time, the illiterates and the ignoramuses will be in an undisputed majority, running the country to suit themselves.

There must be a better way to protect Negro voting rights than by writing into law as a fact something that is not a fact but a phony, such as becoming literate in six grammar school grades. It recalls an old-time definition of democracy: Get all of the heads together and count 'em, empty or not. The empty heads, Negro and white, probably are gaining on us.

Dr. Crane's Worry Clinic

Good writers like Lyle Wilson are first cousins of artists, for both must learn how to "highlight" dramatic aspects which they wish to stress. He has simply highlighted the major cause of divorce, as set forth in the sex booklet named below. It can stop much needless marital feuding!

CASE Q-458: Cliff Hirschman is the popular assessor at Indianapolis.

And to use the word "popular" with reference to an assessor means that he must be a very unusual personality.

"Dr. Crane," he said recently when we had lunch together, "did you see the little squib in the paper which Irving Leibowitz wrote about you?"

When I shook my head, he showed me the daily column that Irving had written.

Appropos of my son Phillip's speech before a state women's federation, Irving identified Phillip by saying he was: "... the son of Dr. George (Divorce) Crane."

I laughed at the clever moniker.

A good writer like Irving Leibowitz must resemble a talented artist in thus being able to "highlight" a striking aspect of any person or scene that he wishes to depict.

Writing is really forensic art, so it involves building up vivid, forceful word pictures. "You don't mind Irving's description, do you?" Cliff asked.

gradually admit that his wife was a good cook.

He will even concede that she was generally a better parent to their youngsters than he was.

And that she "fronted" socially for the family in acceptable fashion.

So the usual angry husband will thus grant his wife an "A" grade in the kitchen, plus an "A" in the nursery, and even an "A" in the parlor.

But he gives her only an "F" or "Failure" in the bedroom.

Oh, he covers up with the vague euphemism of "mental cruelty" and "incompatibility."

But those are just indefinite terms to indicate that the original maladjustment started in the boudoir.

For wives usually act indifferent, if not actually hostile, to the husband's erotic advances much of the time.

Various factors cause this frigidity of the average wife, among which is fear of pregnancy, plus fatigue and general lack of erotic desire.

For women were not created to be sexy creatures. They are about 75 per cent maternal and only 25 per cent erotic creatures.

As soon as a baby arrives, they quickly turn 75 per cent

of their attention away from their husband.

In fact, many men claim they don't get 5 percent to 10 per cent after the children arrive.

This affronts the usual husband. And doubly so if he labors under the widespread delusion of males to the effect that women are wildly erotic creatures.

So send for my booklet "Sex Differences Between Men and Women," enclosing a long stamped, return envelope, plus 20 cents. It reduces marital feuding.

(Always write to Dr. Crane in care of this newspaper, enclosing a long stamped, addressed envelope and 20 cents to cover typing and printing costs when you send for one of his booklets.)

There must be a better way to protect Negro voting rights than by writing into law as a fact something that is not a fact but a phony, such as becoming literate in six grammar school grades. It recalls an old-time definition of democracy: Get all of the heads together and count 'em, empty or not. The empty heads, Negro and white, probably are gaining on us.

to believe that the proportion of illiterates to be guaranteed the right to vote by this civil rights bill will increase steadily through the years. So, in time, the illiterates and the ignoramuses will be in an undisputed majority, running the country to suit themselves.

Seminole Schools Open Grid Season

SHS, Terriers Meet; Lyman Plays Oviedo

Pigott Names Starters For Tonight's Go

Jim Pigott Chief of Seminole High School coaching staff announced his starting offensive and defensive eleven for tonight's season opener with the Titusville High School Terriers.

Pigott picked Dave Howe to start at center, Dave Golloher and Joe Purdy at guards, Jim Touhy and Dale Alexander for the tackle posts and Mike Fordham and Frank Noell at the end slots. Billy Higgins will open at quarterback, Dan Tills and Lee Sparkman will be at the halves, and Billy Kuykendall will be at fullback.

The defensive eleven will consist of ends Barry Barke and Billy Higgins, tackles Dave Noell and Dale Alexander, Dave Golloher will be the middle guard, the two outside linebackers will be Buddy Lawson and Earl Black, the middle linebacker will be Lee Sparkman, Frank Noell will be at fullback, and the two halfbacks will be Kuykendall and Tills.

Pigott confessed that this could be a very tentative setup. "In fact," he declared, "it could last for only one play. Our running game did shape up a little better in yesterday afternoon's final workout," he added. Pigott made it clear that "The only thing we are sure of right now is that we plan to be there on time and after the opening kickoff we plan to play it by ear."

Offensively, the Seminole line will average 176 pounds and the backfield 167—producing a team average of 172, will be a single pound lighter, 171.

Seminole County's three senior High Schools will tee off on their 1963 gridiron seasons tonight in a pair of contests that should have football fans in this area wishing the games could have been rescheduled on different nights.

At Longwood this evening the Oviedo Lions will clash with the Lyman Greyhounds and Seminole High School of Sanford will tangle with the Titusville Terriers in Sanford's Memorial Stadium.

Capacity crowds are anticipated for these contests. Both will get under way at 8 o'clock.

The Seminoles will be seeking their fourth consecutive victory over Titusville in the Sanford performance. During the present series the local Braves have racked up 13 to 0, 14 to 0 and 40 to 0 wins. And it's no secret that Titusville is ready to unload its entire arsenal of gridiron weapons on the Seminoles.

Meanwhile, at Longwood Dick Copeland's Greyhounds are tugging at the leash to take on the starved Lions from Oviedo. The Lions will be entering their second season of gridiron warfare and nothing would satisfy their appetites better than chewing up the 'Hounds. But the Greyhounds are determined not to let Oviedo's ball club stand in their pathway to another in a long string of impressive football seasons.

To complete the bill of fare tomorrow night, cheering sections, school bands, and all the other fanfare that accompanies certain raucous events will be ready. The Booster club for all the schools have been busy with preparations to give both occasions a gala atmosphere.

LYMAN VARSITY CHEERLEADERS who will be cheering for a Greyhound victory in today's opener against the Oviedo Lions are, front, from left, Cheryl Werley, Ann Miller, captain, Judi Kucar, Sandy Tennant, Maria Jones and Alyce Crocker; back, Margaret Garret, co-captains, Gloria Green, Dana Hall, Liz Lunn, Nancy George and Brenda Petty. Game will be at Lyman, kickoff at 8 p.m. (Herald Photo)

500,000 To Witness College Grid Games

By United Press International

College football opens its attendance "war" with the professionals this weekend with an estimated 500,000 expected to witness 12 top collegiate contests.

Three games, including Pittsburgh at UCLA, Florida State at Miami (Fla.) and Texas at Tulane, are on the card tonight.

The Florida State - Miami battle is expected to attract a near-capacity crowd of 65,000 in the Orange Bowl; 35,000 are anticipated for the UCLA-Pitt game and 30,000 at Tulane in the Sugar Bowl. Capacity crowds are promised already Saturday at LSU where 67,500 will see the T-igers entertain Texas A&M; at West Virginia, where 35,000 will watch Navy play the Mountaineers; at Little Rock,

where Arkansas and Oklahoma State clash before 41,000 and at Missouri, where Northwestern visits before an overflow of 44,500.

Florida State makes a habit of upsetting the powers and will have to call on its habit to stop quarterback George Mira and Miami's Hurricanes, who are an eight-point choice in the intra-state rivalry.

Northwestern tackles Missouri at Columbia Saturday in one of the nation's top attractions. Tom Myers' passing the Wildcats' experience give them a one touchdown edge.

Washington visits the Air Force Academy in the nationally televised game on CBS before 30,000.

Time With Dodgers; Against Cardinals

United Press International

Time will be the Los Angeles Dodgers' strongest ally and the St. Louis Cardinals' most deadly opponent tonight when they head into the final 10 days of the National League pennant race.

With the magic number of a Dodger pennant-clinching standing at five, the Dodgers open a three-game series with the Pittsburgh Pirates at Los Angeles while the Cardinals start a two-game set with the Reds at Cincinnati.

A Dodger victory and a Cardinal loss tonight would reduce the magic number to three and mean Los Angeles could clinch as early as Sunday.

The Dodgers will send side-wheeling Don Drysdale to the mound tonight in quest of his 18th victory with the Pirates as the assignment against him.

The Dodgers hold an 11-4 season edge over the Pirates who have lost four of their last six games.

The Cardinals, all but mathematically eliminated from the race when they lost three straight to the Dodgers in St. Louis, will open tonight with Ray Sadecki (10-8) or Ernie Broglio (16-8) on the mound opposing the Reds' John Taitouris (10-8). The Cardinals have won only six of 13 previous games with the Reds this season.

Actually, the Cardinals' only real hope is that the same paralyzing lightning that struck the Dodgers in the closing 10 days of the 1962 season will hit them again.

Exactly a year ago, on Sept. 20, 1962, the Dodgers also held a four-game lead over the San Francisco Giants.

All practical considerations, however, favor the Dodgers. They play all their remaining games at home, they have Sandy Koufax at the height of his pitching brilliance this year whereas a year ago he was handicapped by a finger ailment that had sidelined him since July, and in Ron Perranoski they have a peerless relief pitcher who still is strong despite 45 appearances so far this season.

There were no games played in the National League Thursday and in the American League's only two games the Detroit Tigers beat the Minnesota Twins 8-6 in 13 innings and the Los Angeles Angels defeated the Baltimore Orioles 7-2.

Herald Boating Column Begins Next Friday

By Donna Merck
Herald Staff Writer

The Sanford Herald is beginning a new column which will appear on Fridays beginning next Friday. It will be of special interest to those of you who are boating enthusiasts and campers.

The articles will deal mostly with activities on the St. Johns River. There will be news of boat clubs (how about a new club for Sanford?), Coast Guard information, discussions on improving facilities, places to camp, things to see and personal events.

The St. Johns is a continuous source of pleasure to many in Seminole County as well as the rest of Central Florida. Sanford is fortunate to be located on the waterfront with the most beautiful miles of the St. Johns flowing from its doorstep.

It is because of this fact that Sanford is appealing more and more to boaters as the place "to head for the weekend."

This column hopes to give information that will be of benefit to you and will make our "great natural resource" more safe and enjoyable. Let us know if any comments or suggestions you may have. Also, let us hear of your activities with your boats and plans you may have for the weekends.

Mr. and Mrs. Fred Minge, of Sanford, were on the river in their new boat for the first time last weekend. When asked how they liked it their reply was, "If we had had more coffee we would have stayed all night."

I'll be looking for you on the river this weekend.

Green Bay Aims At Comeback Sunday

By United Press International

The champion Green Bay Packers set out Sunday to prove just how great they really are.

Upset last weekend in their season opener by the Chicago Bears, the Packers seek to rebound Sunday against the Detroit Lions, the team that has given the champs more trouble than any other during the past three National Football League seasons.

The NFL's second weekend gets under way with a Saturday night game on the West Coast between the Los Angeles Rams and the Washington Redskins, both losers in their season openers. The Rams are favored by three points.

Green Bay is a six-point choice over the Lions at Milwaukee, while the New York Giants are three over the Steelers at Pittsburgh; the Bears are four over the Vikings at Minneapolis; the Baltimore Colts are 8 1/2 over the Forty Niners at San Francisco; and the Cleveland Browns three over the Cowboys at Dallas, and the Philadelphia Eagles three at home over the St. Louis Cardinals.

Pierro Bowlers Leading League

After the second week's play in the Sandspur Bowling League, Pierro Mfg. Co. took the lead with a four point win from the McRoberts Tire Co. Jet Inn also captured four points from their opponent, Irving Prior Inn, to put them in the second slot. The OK Tire Shop had a clean sweep too with four wins from Team No. 10 and Howe Tire Shop came away with three wins from the Factory Paint Outlet.

High bowler of the week was Jet Inn's Mary Pinter with 191 series. Betty Callan, of St. John's Realty Co., turned some fine bowling also—a 503 series and 192 high game. Lil Donat, another Jet Inn gal, had the high game again this week—200 on the nose and a 497 series. Edith Zeuli was the spark for Pierro Mfg. Co. with a fine 476 series and 160 high game. Sue May, of Stempers' Real Estate turned in a good series of 471 and a 180 high game.

Some other nice series and games were rolled by Midge Woods, 480-180; Eleanor Anderson, 472-168; Helen Padgett, 191 game and Sue Jackson, 180.

In the split circle, Georgia Maples converted the unusual 8-9-10; Evelyn Ubr the 3-7-10; Sue Jackson, the 3-10 and Marilyn Ferguson and Julia Weber the 2-7.

Almost forgot to mention that St. John's Realty Co. acquired three wins from Stempers' Real Estate.

South Seminole Junior High Tickets Offered

By Jane Casselberry

The South Seminole Junior High Athletic Association is offering a real bargain to the Hurricane fans.

Season tickets for the three home football games plus the seven home basketball games are being sold for only \$1 for students and \$2.50 for adults. Adults purchasing the season tickets automatically become members of the Athletic Association.

General admission will be 40 cents for children and 60 cents for adults per game.

The Hurricanes open their season next Thursday at St. Cloud. The first home game will be Oct. 3 at the Lyman High Field against Oviedo.

It is hoped that much of the proposed \$1,300 budget for support of the athletic program will be raised through the sale of season tickets which are available from the school.

More volunteers are needed to help the boosters in the concession stands at the games. All school parents are urged to attend the next meeting which will be held Monday at the school at 8 p. m.

When the Florida football express returned to Gainesville after that encounter last week with Georgia Tech somebody might have been raked over the coals for forgetting to pack the Gators' offensive duffel bag. To say that the Gators must have left their offensive at home is the greatest understatement since Noah said "Boys, it looks like rain."

Anytime a ball club in the rank and classification given the Gators by the nation's gridiron experts comes up with a minus 47-yard offensive display something must have been wrong. And a lot of Florida fans in this area were somewhat disappointed over the lack of any signs of Gator punch and power.

Most of the experts have made an unusual prediction for the Gators this season. The Orange and Blue was tabbed to drop their opener with Tech and then march on to nine consecutive victories. It's difficult to say whether the experts' predictions will hold water. But from the fine defensive effort displayed by Florida last Saturday, there's one safe forecast: There shouldn't be a great deal of scoring against the Gators this season.

Then there was the weather. It's impossible to contend that fair weather would have altered the final count because it was just as wet, muddy, and slippery on both sides of the scrimmage line.

The truth of the matter is—as a fair analysis will clearly show—that Florida made a pair of mistakes and the Engineers capitalized on them.

On their own 35 the Gators gambled on a fourth down attempt to pick up a pair of yards and a first down. They lost. Tech took the ball, and

A slight color emphasis transformed the Welcome Wagon Club president into a glamorous Cinderella and the club members were urged to experiment the latest styles on their own hair. Skin care was encouraged to combat our drying climate.

Door prizes were donated by the Cut 'N Curl Beauty Shop and were won by Mrs. E. W. Smith, Mrs. B. R. Shaffer, and Mrs. R. Gould. The next meeting will be held on Oct. 15, with an unusual program planned.

Ritz Will Open Fall Movie Season

An announcement just received by the Florida State Theatre Circuit indicates that this important chain of theatres will inaugurate its new statewide fall motion picture season with "A New Kind of Love," a hilarious comedy starring Paul Newman and Joanne Woodward, to be followed by "Rampage," an unusual adventure-drama starring Robert Mitchum, Elsa Martinelli and Jack Hawkins. The rest of the new fall schedule is now being compiled and will be made public later.

"A New Kind of Love" is to open at the Ritz Theatre Sunday. It will be followed by "Rampage" on Oct. 6.

The Paul Newman opus... a Paramount release... boasts an outstanding supporting cast, including popular movie favorites as Thelma Ritter, Maurice Chevalier, Eva Gabor and George Tobias. Story and direction is by Melville Shavelson, noted for his sly humor and pungent outlook and viewpoint on the

JOANNE WOODWARD
manner and morals of the times. The locales of the story are set in New York and Paris.

Paul Newman comes into full bloom as a comedy star. No less the "he-man" he demonstrates a new facet of his historic talents. Joanne Woodward, too, as a femme fatale on the make for Paul, reveals a mastery of the difficult art of comedy.

"A New Kind of Love" is a magnificently mounted Cinemascope production in Technicolor. Errol Garner composed the score for the musical background.

"Rampage" . . . adapted from the novel of the same name by Alan Callow . . . involves the lives of two men and a woman enmeshed in a new version of the age-old "love triangle." It is set against a dramatic background of high adventure in the jungles of Malay, with scenes after scene of suspense and excitement. Robert Mitchum, enacts the role of a big game hunter who prefers to

Movieland: 'Eye-Popper'

The movie-going public will receive an eye-popping appraisal of one of the United States' greatest retaliatory weapons in Universal's release "A Gathering of Eagles," starring Rock Hudson, Rod Taylor, Mary Peach and Harry Sullivan, featured Sunday through Tuesday at the Movieland Drive-In Theatre.

Audie Murphy is starred in a color western, "Hell Bent for Leather," as the co-features.

ROCK HUDSON as Wing Commander of a SAC Base and his wife (Mary Peach) spend intimate moments in the shadow of the Red Telephone from which he must never be more than six rings away. The film is "A Gathering of Eagles," story of the Strategic Air Command's constant alert to possible attack.

The program Wednesday and Thursday includes Jack Mahoney in "Money, Women & Guns," and Ann Bancroft and Patty Duke in "The Miracle Worker." Ann Bancroft won the Academy Award as "Best Actress" and Patty Duke won as the "Best Supporting Actress" in "The Miracle Worker."

The triple feature Friday and Saturday, Sept. 27-28, will be "The Canadians," a color western starring Robert Ryan; "Tummy and the Doctor," in color starring Sandra Dee, and "Roman Holiday" featuring Audrey Hepburn.

The scenes, filmed at Beale Air Force Base, Calif., have been approved by SAC headquarters and represent another major move in showing a potential enemy the powerful deterrent weapons now held "at the ready" by the U. S. Air Force. Photographing SAC's Titan I complex was done by director Delbert Mann, an ex-bomber pilot, under the supervision of Col. William Reynolds, Beale's missile squadron commander. Certain classified areas were naturally avoided by the camera.

TABLE HOPPING

BY JUDY TURNER
Football season is here again and all the parents and other fans will be out rooting for their favorite player and favorite team. Whether you're a high school, college or pro follower though, makes no difference when it comes to after-game entertainment.

You can always head for the Caribe where on Friday nights musical entertainment is offered for your relaxation and pleasure. Jack serves up the best of drinks to go along with it too. Wednesday evening the Sheffield Bridge Studio and Duplicate Club held a session in the lobby, right next to the lounge, and on Wednesday, Sept. 26, a series of lessons for beginners will start there. Flo says she's glad to see lots of local office girls showing up for luncheon. Memo: The Caribe is taking reservations now for holiday cocktail and dinner parties for groups up to 60 persons.

No more do I get the reply, "same as usual," from Spencer! This favorite hangout has initiated some changes guaranteed to make it even more of a great place. Doris called to tell me that they've started reducing cocktail hour prices on drinks and will be giving away two free dinners each evening. Times for this "happy hour" are from 4:30 to 8:30 p. m. Sounds like some good psychology . . . after all gals, what can you say to your husband when he comes home an hour late if he has won a free dinner?

If you need some money (and who doesn't?) and would like to have a good time earning it, here's an enjoyable method. Just run (walk, drive or fly) out to the Putt Putt golf course this Saturday for the first round of a \$50 championship tourney. Twelve finalists will be picked to finish on Sunday and some lucky person will walk off with \$50 first prize, another with \$10 second and \$5 for the third place winner. Even if you've never played before, stop out tonight and practice and get in the race.

Every time I drive past the new Whataburger on French Ave. it's been busy, whether morning, afternoon or evening. This is undoubtedly due

you'll glance at the ad. Recommended from personal experience.

Beginning Oct. 2 the adults will have their chance to practice their skating away from the kids. . . . Skate City is beginning an "adults only" skating session that Wednesday from 10 a. m. til 1 p. m. Then in the afternoon, mom can take off to do her shopping by leaving the children at the rink from 3 p. m. to 6 p. m. during the "children only" session. This arrangement will continue for every Wednesday thereafter, reports John Mikler of the rink. He also reports that family night on Monday evenings is going well. Check into these events to put more fun in your life!

Besides serving the excellent steaks and seafoods they do, we should mention that Freddie's Steak House is also a tremendous place for "partying." If you are doing the town with another couple or small group, or if there is just the two of you, remember Freddie's before going home. The music of Bruce West at the organ and the fine drinks make this place a must on your list.

Changes and Improvements at the Mar-Lou continue to be made under the direction of its owner, Lou Rotas. As we mentioned last week, Lou is back after nearly a year's absence, and he is putting in his time getting the place shipshape. Music on Friday and Saturday nights is provided by the "Four Barons," from 9:30 p. m. til 1:30 a. m. Cocktail hour from 4 til 6 p. m. offers a new and very special feature having to do with the prices of the drinks. Needless to say, it is for your benefit, so stop out and see for yourself. Also, take a look at the menu in the ad today. You'll particularly notice the wide selection, equipped with the reasonable prices.

There comes a Sunday in the life of every family when it is just too much. . . . Too much to cook dinner that is. Or, when after a big dinner is over, someone cries, "I'm hungry," and mother just doesn't have the heart to start again. That's the time to pack up the family and take them to the Painted Horse on Hwy. 50 near the airport. You can easily spot it by the colorful horse on the sign. Once inside you can stay as long as you like, eat as much as you want, drink all the coffee you want, and not have to pay a fortune. Very inexpensive in fact, if

Jacoby On Bridge

In Jacoby Stayman the immediate response of three clubs or three diamonds is preemptive and is expected no-trump bidder is expected to pass. Thus, if responder wants to suggest a minor suit slam he does so by following two clubs and then responding with three of his minor.

This bid must always be regarded as a slam try. With a good minor suit hand and no slam interest responder would simply raise one no-trump to three.

South's two club response was a double purpose bid. If North could show four spades then South would be interested in a spade slam. In any case, South was interested in a slam in clubs.

Dear Abby: By Abigail Van Buren

DEAR ABBY: I told a friend that I had heard (mind you, I did not say I KNEW, only that I had HEARD) that a woman was divorcing her husband because of a woman who works for him. Well, it turned out there wasn't any truth in it. Now the husband of this woman called up MY husband and asked him to put a muzzle on me! My husband says I should call up this woman and apologize to her. I say the husband ought to call ME up and apologize. What do you say?

TALKS TOO MUCH

DEAR TALKS: I say, leave bad enough alone. And in the future, remember, one pays through the nose for what comes out of the mouth.

DEAR ABBY: Saturday is the only day I can shop without the kids because my husband baby-sits. My problem is a neighbor woman who comes over to drink with him the whole time I'm gone. When I get home they are half-loaded, the house is a mess, and the kids are running wild. How can I tell

my neighbor that proper women do not visit married men while their wives are away without hurting her?

DEAR ROANOKE: Hurting her? Forget it—she's feeling no pain. Besides, she knows how proper women should behave, but she isn't having any of it. Your husband is the one who needs to be told.

DEAR ABBY: A few weeks ago you had a letter in your column from a teenage girl who was hired by a Mrs. Smith to look after her children. The girl complained that MR. Smith kept trying to get her in a corner and kiss her. She wanted to quit but she needed the money she was earning for school clothes and she didn't know what to do. Your advice was good, incidentally. You told the girl to quit, and to tell MRS. Smith why she was quitting so MR. Smith wouldn't pull the same stunt with the next girl.

But, Abby, as a member of SPUNSPH I must protest. SPUNSPH IS THE SOCIETY FOR THE PRE-

VENTION OF THE USE OF THE NAME SMITH FOR PURPOSES OF HYPOTHETICAL ILLUSTRATION. Won't you please respect our society and refrain from using the time-honored name of SMITH in this way?

C. BRIDGEFORD SMITH

DEAR MR. SMITH: My apologies to you and to all the SMITHS whose time-honored name was used to provide anonymity for a scoundrel whose name was anything but Smith.

DEAR ABBY: What is worse than a jealous girl friend?

DEAR MANNY: A jealous wife.

What's on your mind? For a personal reply, send a self-addressed, stamped envelope to Abby, Box 3365, Beverly Hills, Calif.

We The Women: By Ruth Millett

A young wife feels insecure because her husband is quick to cast an admiring glance at any pretty girl.

"He says he loves me," she writes, "but it's hard to believe he does when he's so quick to appreciate every other girl's looks even when we're out together."

Get it out of your head that your husband is different from other men. That's just normal behavior for a man—and marriage doesn't change it.

Some husbands are better than others about not seeming to notice other women when their wives are with them. But that doesn't mean they aren't aware of every pretty girl who crosses their path.

Men enjoy looking at pretty girls, and there's nothing a wife can do to change a man's nature.

If a man was shipwrecked on a lonely island, he'd somehow manage to put together something that looked like a plan-up girl and hang it on the wall of his hand-built

hut.

Don't take his roving eye so seriously. He probably hasn't the slightest intention of doing anything but looking. And remember—those pretty girls who draw his admiration have their own husbands or dates to think about.

If your husband is in love with you—and if he says he is you ought to take his word for it—he's perfectly safe.

A man's appreciation of pretty girls won't hurt his marriage, not unless his wife makes something of it.

WEEK-END TOUR of HOMES in the Sanford - Seminole Area

Featured Homes Are Close To Sanford

The homes and homesites featured on our tour this week are relatively close in to the City of Sanford.

It's practically no drive at all out 30th Street, which becomes Country Club Road, to Ravenna Park. Just turn in at the sign, and drive through this community of homes to Tangelo Drive, and at No. 418 you'll see the centrally heated, three-bedroom, 2-bath home which Shoemaker Construction has on display this week-end. It's one of five recently com-

pleted, several of which are already sold. The homes in Ravenna Park seem to be sold either during construction or very soon after completion.

In Idyllwilde of Loch Arbor, just a little farther down Country Club Road, another "Home of Distinction" is open for inspection. It's at 303 Tammy Drive, has a combination dining-family room, three bedrooms, two baths, a luxury built-in kitchen, central air conditioning and heating, and a two-car enclosed garage. This

is worth visiting by the discriminating buyer.

Out Country Club Road turn south on Lake Mary Road, by the golf course, and not too far past the clubhouse you'll see the signs directing you to Greenbriar, the newest high class residential area featured by Kingswood Builders. It's a lovely shady spot, on gently rolling terrain, a wonderful place to put a carefully designed home.

Byron Leach of Kingswood Builders, offers to build at your convenience, or let you build on one of these

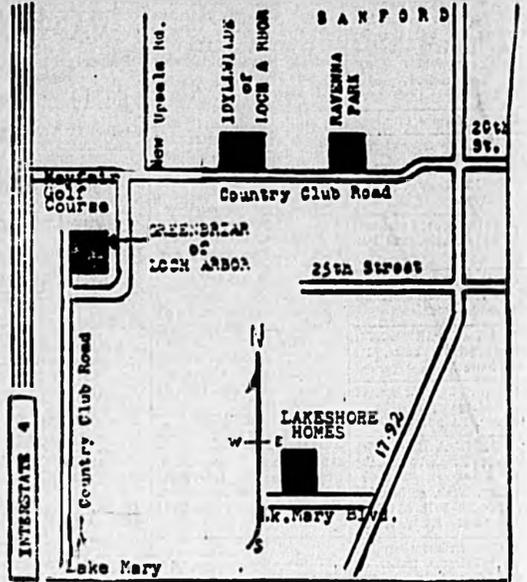

homesites. Greenbriar is just south of the 12th green and 13th tee, of Mayfair Golf Course.

And on Lake Mary Boulevard, which runs from Lake Mary to Hwy. 17-92, Lake Shore Homes have roomy three and four-bedroom, two bath homes ready to see. They are in the Park Ridge section, facing on Lake Minnie. Ask Wayne Montgomery for details on these.

Other builders in the Seminole County area have homes under construction, which will be ready to inspect at a later date.

Mead Manor Offers Attractive Homes

By Bernice Kelsoy

Oviedo residents are very proud, and justly so, that Mead Manor, which will offer some of Seminole County's most attractive homes, is being developed in the northeast section of their town.

Developers are Shoemaker Construction Company, of Sanford; the Oviedo Land Company and L. L. Faulk Sr., Oviedo contractor and general builder.

Three homes now are under construction on this 87-acre site and Faulk's ranch type residence soon will be ready for an "Open House."

Ideally located for shopping, school and churches, with the municipal swimming pool nearby, Mead Manor is situated on gently, rolling hills which are naturally landscaped with huge stately oaks, palms, magnolias, citrus and pine trees.

Paved streets following the natural contour of the land add an overall appearance of residential spaciousness.

The Manor is covered by deed restrictions on size of lot, square footage on homes and set back for construction purposes.

The property site is that of the original Mead Gardens which was developed by Theodore L. Mead in the late 1880's. A naturalist, entomologist and plantsman, Mead specialized in the cultivation of rare palms, orchids, amaryllis, cineramas, daylilies, gladioli, cacti, bromeliads and caladiums.

Owners of the land are Ben Jones, John Evans, W. H. Martin, Frank Wheeler Jr., Robert Lee, Bob Williams, R. L. Ward Jr. and Rex Clonta who joined forces to originate the Oviedo Land Company when they saw the need for opening a new building site for the growing community of Oviedo. Plans for the development were begun immediately upon purchase of the land by this group of civic minded and forward looking men.

Jury Tampering Plot Charged

BIRMINGHAM, Ala. (UPI) — A federal judge said today there had been attempts to "intimidate or influence" a special grand jury investigating interference with court-ordered school desegregation.

U. S. District Judge Clarence Allgood said similar efforts had been "made on this court."

Allgood made his disclosure as the federal grand jury, which went into closed session a week ago, returned a single indictment and asked that it be permitted to continue its investigation at a later date.

The name of the person indicted was withheld pending an arrest.

Allgood asked the grand jury to look into the efforts to influence the jury and the court.

Wider French, U. S. Split Seen PARIS (UPI) — French differences with the United States and the Western alliance may become more evident in the near future, political observers said today.

They drew their conclusions from the final visit here this weekend of Konrad Adenauer as West German chancellor and a bitter attack, by implication, on the United States from Premier Georges Pompidou.

Adenauer will retire next month and turn the Bonn government to Vice Chancellor Ludwig Erhard, with the 87-year-old chancellor will go his strong pro-Gaule policies, observers predicted.

Erhard was expected to shift the West German policy more closely in line with Washington's thinking on how the Western alliance should be operated to gain maximum strength.

Adenauer returned to Bonn Sunday as Pompidou was telling a meeting of the deputies of the Gaullist Union for the New Republic (UNR) party that foreign powers were trying "to make France a satellite."

Copters Rescue Two From Reds

SIGON, South Viet Nam (UPI) — U. S. airmen in helicopters and light planes rescued two English school teachers who were kidnaped by Communist guerrillas on a beach near the mouth of the Mekong River, the British Embassy said today.

The two Britons — James Kinraid and Alan Darby — had gone for a swim Sunday in an area of the South China Sea declared off limits to military personnel because it is infested with Viet Cong infiltrators.

The embassy said the teachers were picked up and airlifted to safety when the U. S. aircraft flew low over the beach and sent the Viet Cong scurrying for cover.

Military sources said South Viet Nam is sending a third infantry division to the Mekong delta in a move reflecting growing concern over guerrilla strength there.

Twin Girls Die In Floodwaters

PORT ARTHUR, Tex. (UPI) — Hurricane Cindy claimed its first two lives Sunday in three feet of muddy, brackish floodwater when twin 18-month-old girls drowned at Port Acres.

Brenda Kaye and Linda Kaye Clayton tumbled off the back porch of their house into the water. Their parents, Clayton, found them floating face down in the water.

One to four feet of water still remains in some sections of Port Acres, a Port Arthur suburb.

Burdette Free On Court Writ

Circuit Judge Volie A. Williams Jr. said today he had approved a writ of habeas corpus and ordered the release of \$100,000 bond of Fred Burdette Jr., 37, charged with first-degree murder.

Burdette, charged in the slaying of his uncle, Charles H. Strickland, 35, in Burdette's home on Little Lake Howell Sept. 15, was released from county jail to the custody of his father, Fred Burdette Sr.

Judge Williams also set bond at \$500 for Burdette on a charge of shooting at an occupied dwelling.

As the result of a psychiatric examination for Burdette, County Judge Vernon Mize also agreed to Burdette's release, pending trial, but ordered that he "not attempt to associate with his wife, Betty Burdette."

University Site Team Due To Arrive Tonight

Members of the State Board of Control university site inspection team are scheduled to arrive here this evening preparatory to making a study of the Lake Ada site Tuesday.

Members of the City Commission, County Commission and Chamber of Commerce are scheduled to meet with a team at 8 a. m. Tuesday at

County Engineer William Bush's office at the courthouse.

Mayor Thomas S. McDonald said at noon today that "I'm hoping this weather clears up and that we do not have to postpone the inspection."

Although the County Commission has been designated by the Board of Control as the local body to carry on negotiations, the City Commission favors the Lake Ada site for the four-year state university proposed for East Central Florida.

Scheduled to arrive here this evening are Gerald Jones, property supervisor; Forrest Kelly, architect; J. W. Sutton, research associate, and possibly one or two Board of Control members.

The director, Dr. J. B. Cullpepper, was forced to cancel his visit but informed Bush he will look over the site at a later date.

The inspection team will view the Lake Ada site in special jeeps and by helicopter.

It will return again Oct. 14-15 for an inspection of four other Seminole County sites.
