

Florida Investments Enable Ex-Chicago Broker To Meet Obligations Of Defunct Firm

CHICAGO, Oct. 29.—(AP)—Booming values of Florida real estate may help several thousand people hereabouts who have no investments down there little thought. They are the creditors of Kriebel & Co., who failed three years ago for \$2,000,000. Fred L. Kriebel, head of the defunct brokerage house, is facing a three-year term in the Federal Penitentiary at Leavenworth, but he is not especially downcast over the prospect.

Pending his appeal from the sentence, a review of the case now awaiting action by the United States Supreme Court, Kriebel engaged in real estate and on his own advice the concern with which he is connected bought a large tract of Florida land. It was directly in the line of the great boom and has yielded a fortune with only part of the holdings disposed of.

May Pay Off Ultimately

Kriebel, according to a statement to creditors by his attorney, has deposited with the Union Bank of Chicago 2,500 shares of this company's stock with provision that it is to be redeemed at \$1,000 a share, so that ultimately he will be able to pay off all his obligations, dollar for dollar, the extra half million taking care of interest and other charges.

Since his failure and conviction Kriebel has been living quietly with his family in Winnetka, where he is highly esteemed as a neighbor. He had to borrow \$20,000 to keep going, but friends gladly advanced this sum.

There are only four men in the Florida syndicate, and the arrangement with the bank provides that for every dollar the four stockholders drew in dividends they must pay \$4 to the bank in redemption of the stock held in trust for Kriebel's creditors.

The late John I. Boggs, Milwaukee multi-millionaire and heavily interested in Florida lands, was out of Kriebel's close friends. Mr. Boggs, who died last week, left an estate of \$50,000,000. It is understood Mr. Boggs financed the purchase of 27,000 acres in Florida in Kriebel's representation that it was a "gold mine," and his judgment is being vindicated. Nine thousand acres of the farm land and more than \$1,000,000 in home sites already have been sold.

Pledge: Payment in Full

Kriebel's letter to his former customers, after explaining his plan to pay them back, concludes: "You will understand that all the work I have done—the organization that has been built up—everything, has been with knowledge that I may not be able to give my continued personal attention to the conduct of this business. My appeal has been denied by the Circuit Court of Appeals. I am now petitioning the Supreme Court in Washington to hear my case.

"If the result is favorable, I can throw myself into the completion of the work which we have started in Florida with a lighter heart and greater energy than has hitherto been possible.

Capitol Briefs

TALLAHASSEE, Fla., Oct. 3.—(AP)—Governor Martin has named E. P. Wilson, state's attorney of the sixth judicial circuit, to act in that capacity at the fall term of court, at Fort Myers, November 3, during the disqualification of S. W. Lawler. Mr. Wilson was designated, instead of Charles R. Parkhill, who was previously announced.

TALLAHASSEE, Fla., Oct. 3.—(AP)—Frank F. Herndon and Louis A. Irons, Jacksonville, were at the insurance commissioner's office recently to discuss the qualifying of a proposed new insurance company for Florida, the second all-Florida agency to be established. M. E. Billett, formerly of Macon, Ga., would be president, and Mr. Irons vice-president, it was stated.

TALLAHASSEE, Fla., Oct. 3.—(AP)—Many records for speed were believed to have been shattered when John Hendry of Fort Myers, made the trip from that place to Tallahassee by automobile in a little over 17 hours. The distance, 500 miles, would have been covered in less time, but Mr. Hendry's companion, while driving, went out of the way for 100 miles or so, and had to double back to get on the right route.

TALLAHASSEE, Fla., Oct. 3.—(AP)—Dr. J. V. Knapp, state veterinarian, visited Carrabelle recently on a general inspection trip.

TALLAHASSEE, Fla., Oct. 3.—(AP)—Between three and four thousand checks were mailed out from the office of the state veterinarian to cattle raisers of Jefferson county, to reimburse them on cat-dipping. Three cents is allowed for each head.

TALLAHASSEE, Fla., Oct. 3.—(AP)—Railroad Commissioner A. R. Wells forgot all about the railroad embargo and jams of Florida recently to attend the wedding of his daughter, who married James Dote, a Georgian.

Rail Commissioners Off For Hearing In Orlando Wednesday

TALLAHASSEE, Nov. 2.—(AP)—Several members of the Florida railroad commission will leave Tallahassee today for Orlando, where a hearing on citrus and other fruit and vegetable freight rates, investigation affecting every railroad in the country will open Wednesday.

The party leaving here will include L. Hudson Burr, chairman; A. S. Wells and F. S. Matthews, of the commission; Fred H. Davis, attorney; Fred Pettysjohn, analyst; and J. H. French, rate expert. An effort will be made to get Governor Martin to testify at the hearing.

The claim for a lower scale of rates, the commission attorney said, is directly upon Florida's growth during recent years, and one, he added, is in a better position to point out the development of the state than Governor Martin. The governor's trip to Lakeland and thence to Gainesville will be made for the purpose of addressing the annual convention of the Florida Association of Realty Boards and Confederate veterans, respectively.

The Orlando hearing, Mr. Davis said, will continue for 10 days or two weeks. Its importance to the state of Florida, he added, may be gathered from the fact that Governor Martin recently agreed to defer naming the date of the next session of the legislature until it is determined when the hearing will end because of the necessity for the presence at Orlando of a number of members of the law-making body.

Miami District Leads In Hotel Permit Race

TALLAHASSEE, Nov. 3.—(AP)—The Miami district of the Department of Hotel Commission led in building permits issued for September, according to E. A. Fleming, deputy commissioner. The Miami district, with about 98 per cent centered at Miami issued 205 permits for that period, far exceeding all previous records for one month, it was stated.

The Tampa district, it was revealed, issued 90 permits, considered an excellent showing for that section.

The hotel department, up to October 26, had issued \$13,000 worth of new building licenses.

Corn doctors of Paris sometimes treat patients on the streets while interested bystanders look on.

Flashes Of Life

LONDON—The girls have ankle agony from short skirts; and damp weather. To prevent such inflammation physicians are recommending woolen stockings and long skirts.

NEW HAVEN—The colors of Yale have gone far in other quarters than the gridiron. Donald MacMillan has carried a Yale flag 8,000 miles on his arctic expeditions.

WILMINGTON—Osborne Wood, who has said he would not contest his wife's divorce suit, has reserved rooms at a hotel at the scene. The case comes up this week.

SAN PEDRO, Cal.—Harry Pidgeon, photographer, who learned

of rooms at a hotel at the scene. The case comes up this week.

LONDON—One can buy millions of germs for a shilling or two. More than 2,000 varieties are on sale, at the Lister Institute.

SOMMERSPOINT, N. J.—Mayor George Goll is trying to get himself defeated today. Against his wishes he was made known and he forget to withdraw in time.

NEW YORK—Gigle and Gertz who had several tiffs at the Metropolitan grand opera last season, have been separated on this year's program.

SAN PEDRO, Cal.—Harry Pidgeon, photographer, who learned

sailing from books, has come back after sailing 38,000 miles around the world.

NOTICE

Sealed bids will be received by the Board of County Commissioners on November 3rd, 1925 for clearing right of way of the following described road:

Beginning at B. G. Smith's property near Little Lake Howell and run to Gabriella, along Tuscawilla, which is on file at the office of the Clerk of the Circuit Court.

The Board of County Commissioners reserves the right to reject any or all bids.

V. E. DOUGLASS, Clerk to Board of County Commissioners, Oct. 13-20-27, Nov. 3.

NOTICE

Sealed bids will be received by the Board of County Commissioners on November 3rd, 1925, for clearing right of way of the following described road:

Beginning at the Church corner one half mile south of Paula and run south one mile.

The Board of County Commissioners reserves the right to reject any or all bids.

V. E. DOUGLASS, Clerk and Auditor to County Commissioners, Oct. 13-20-27, Nov. 3.

NOTICE

Sealed bids will be received by the Board of County Commissioners on November 3rd, 1925, for clearing

right of way and hard surfacing with clay to a width of nine feet and eight inches in depth, loose measurement the following described roads:

Beginning at the Church corner one half mile south of Paula and run south one mile.

The Board of County Commissioners reserves the right to reject any or all bids.

V. E. DOUGLASS, Clerk and Auditor to County Commissioners, Oct. 13-20-27, Nov. 3.

NOTICE TO CONTRACTORS AND BIDDERS

Bids will be received by the Board of Public Instruction at ten o'clock on Tuesday morning, November 3rd, 1925, at the court house, for the construction of two rooms at the Sanford West Side Primary school. Plans and specifications may be obtained from architect Elton J. Moulton, First National Bank building. All bids must be sealed and accompanied by certified check in the sum of One Hundred Dol-

NOTICE

C. R. Ladd, Sheriff of the County of Duval, Florida, has filed for record and publication a list of names of persons who are entitled to receive shares of the Florida Cattle Raisers' Association, organized in 1912.

Names of persons who are entitled to receive shares are as follows: (List of names follows)

Cawthon Repeats Demand For More Rural Inspectors

TALLAHASSEE, Nov. 2.—(AP)—Superintendent of Public Instruction W. S. Cawthon has reiterated his announced intention of some time ago that he will seek help at the forthcoming special session of the Florida legislature for the employing of another inspector of rural schools.

Mr. Cawthon, he explained, will simply call attention of the lawmakers to the apparent error in the list of appropriations for state work, in which the word "each" was left out of the line devoted to rural school inspectors, and inserted in that of the supervisor of elementary schools.

The educational head explained that an error in the appropriation list was obvious because only one elementary school supervisor has ever been employed in the department, whereas, two rural school inspectors must be maintained, if the standard of such work is to be kept up in Florida.

Miss Nettie Brogdon, who is now working as rural school inspector, is one of the most efficient workers ever employed at that desk, Mr. Cawthon said, but, he added, he efficiency cannot supply her with the super-human resources needed to look after an inspection department that is vitally in need of two inspectors.

Man Held In Miami Wanted In Kentucky

TALLAHASSEE, Nov. 3.—(AP)—Judge J. B. Gaines, assistant attorney general, stated that he had taken under advisement the matter of granting of a requisition for the return of W. L. Marks, of Miami, to Estill county, Kentucky, to answer to a charge of converting stocks and bonds to his own use.

The announcement came after a hearing, in which Fred W. Pinn and Hart A. Riley, of Miami, and Fred Valz, of Jacksonville, attorney for Marks, contested the proposed extradition.

Judge Gaines stated that the two essential questions in the granting of all requisitions—namely, was Marks the one sought, and if so, was he in the state seeking him at the time of the alleged crime?—had been cleared up at the hearing.

DEPUTY FIRED

TALLAHASSEE, Nov. 3.—(AP)—Deputy Sheriff Dennis Mills, of Dixie county, was suspended from office by Sheriff Sam Chavon after conviction of the former for allowing game out of season, according to a letter received from the sheriff at the office of the state game and fish commissioner. Mills was arrested by a deputy of the game department, and was fined \$52.50 and costs, Sheriff Chavon stated.

Novel Innovation Announced By New Project On Coast

DAYTONA, Nov. 2.—(AP)—A radical departure from the usual procedure in Florida subdivision development was announced by Daytona Shores, Inc., developers of the largest project in the Halifax County and one that promises to supreme Coral Gables and other well known successes.

Daytona Shores will donate its entire frontage on "The World's Greatest Beach" to the city for a large playground, according to C. Louis Allen, executive vice-president and general sales manager of the organization.

The only commercial enterprise in the park will be a hotel fronting on the Atlantic Ocean, Mr. Allen said.

"We are sacrificing our most valuable land in order to make Daytona Shores the most desirable place to live in Florida," Mr. Allen said. "If we accomplish that aim—and we will—our sacrifice in dollars and cents will be small in comparison."

The park will stretch for more than 1,500 feet along the famous sandy beach, and extend westward 2,500 feet, or almost to the Halifax River. Two more city blocks will be devoted to the construction of a plaza entrance to the park-playground. This, according to plans already drawn, is to be a triumph in landscape architecture. There will be only palms, oaks, magnolias, shrubs and other natural beauty adornments in the plaza, it was said.

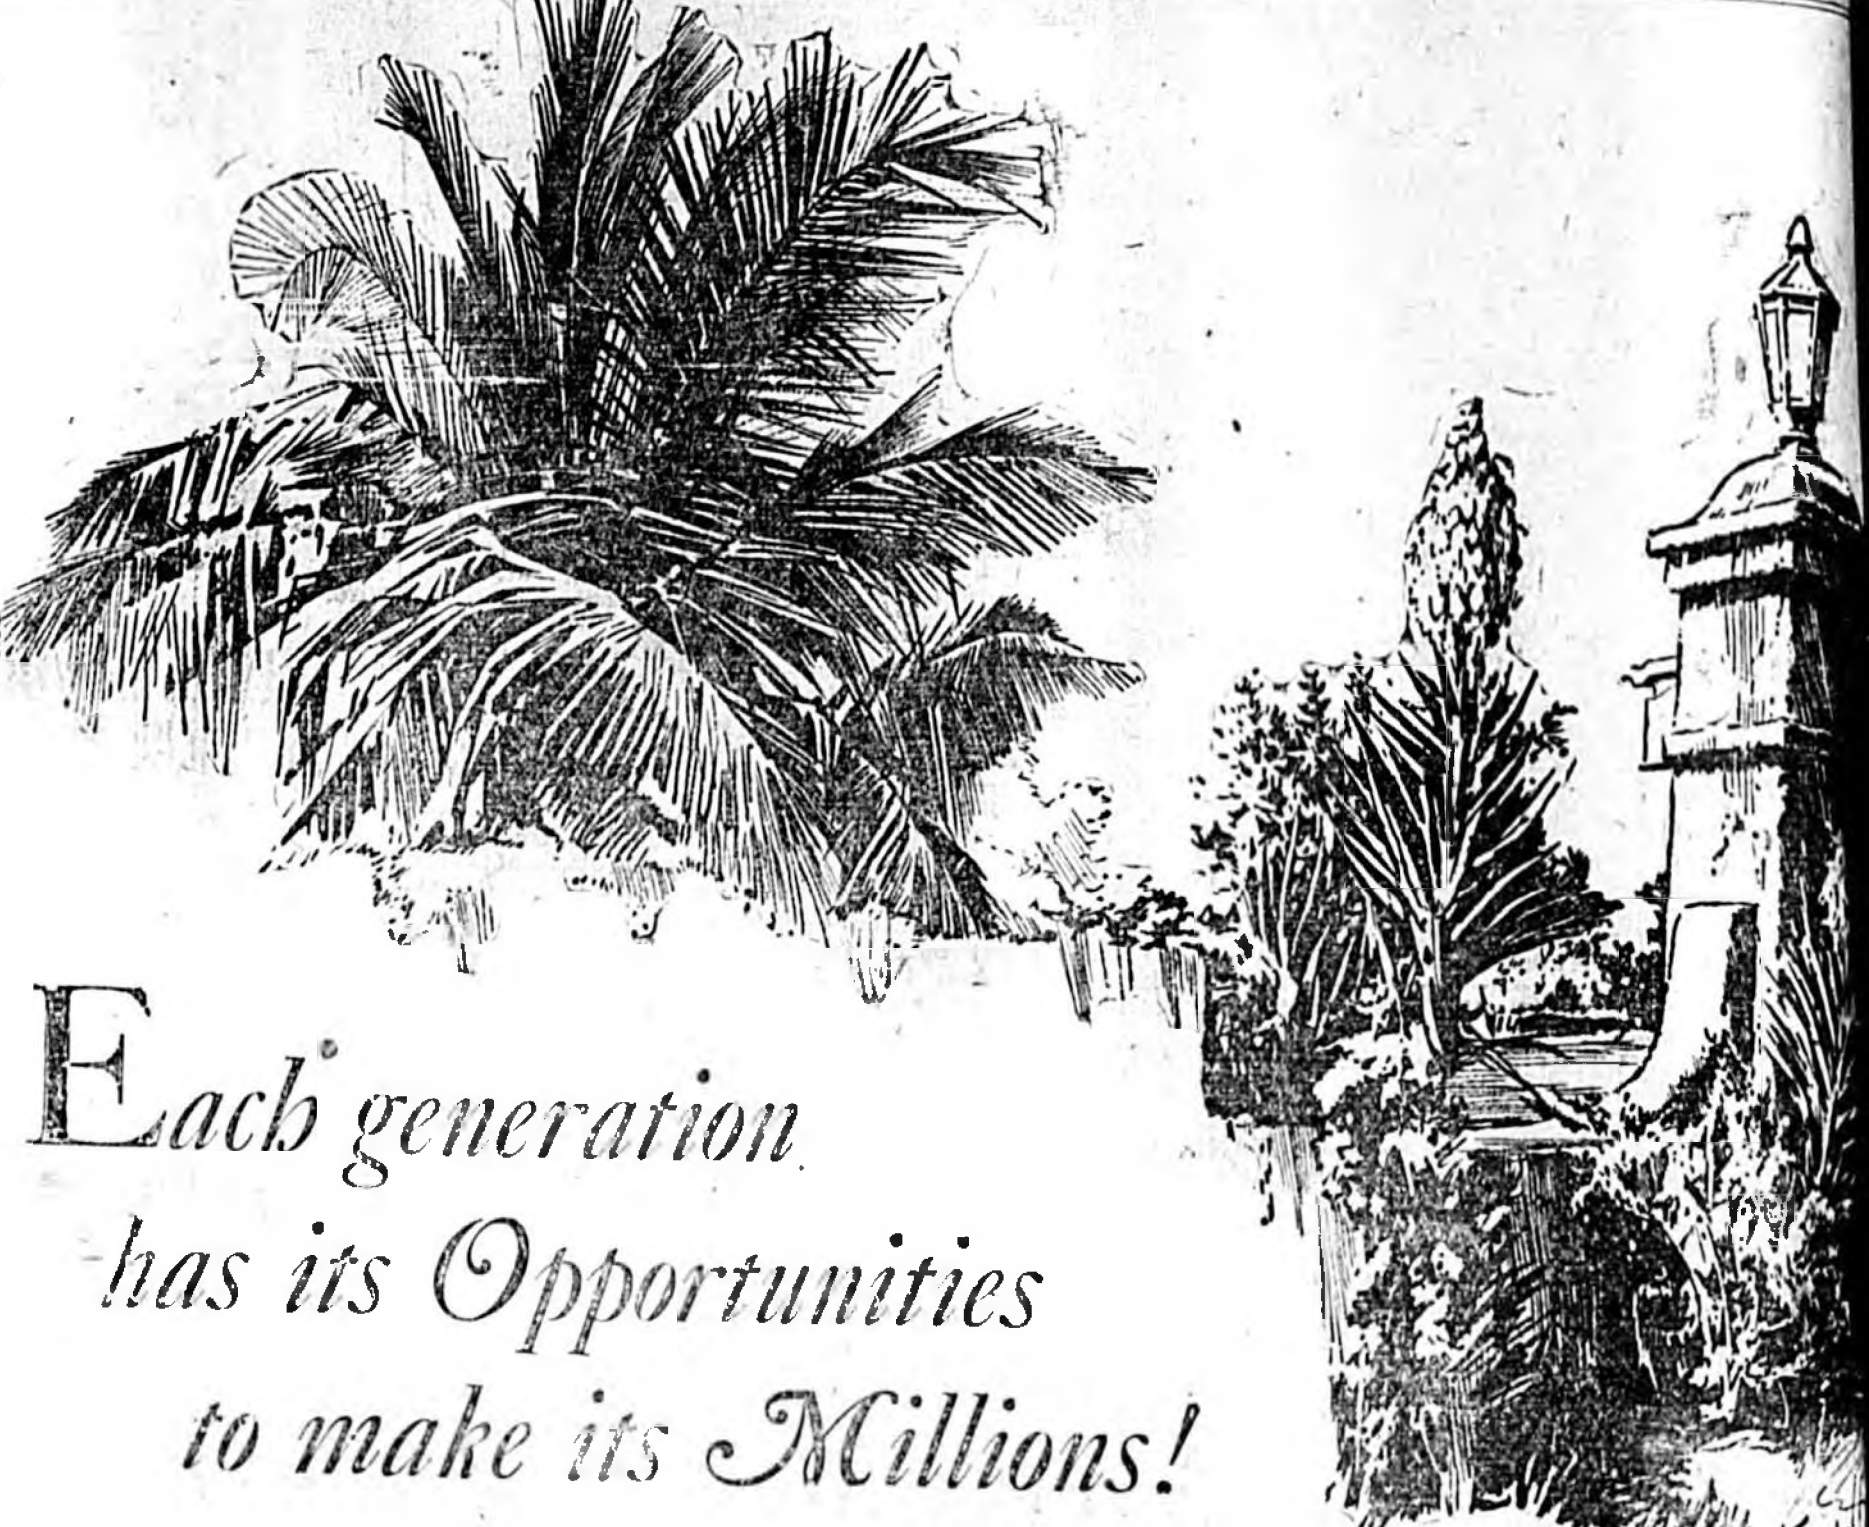

Miami District Leads In Hotel Permit Race

TALLAHASSEE, Nov. 3.—(AP)—The Miami district of the Department of Hotel Commission led in building permits issued for September, according to E. A. Fleming, deputy commissioner. The Miami district, with about 98 per cent centered at Miami issued 205 permits for that period, far exceeding all previous records for one month, it was stated.

The Tampa district, it was revealed, issued 90 permits, considered an excellent showing for that section.

The hotel department, up to October 26, had issued \$13,000 worth of new building licenses.

Corn doctors of Paris sometimes treat patients on the streets while interested bystanders look on.

Each generation has its Opportunities to make its Millions!

THE man who says: "I never had a chance" makes but the feeble gesture of a failure. American history is rich with the romance of fortune-builders. Each generation has sought its gold, and found it. The reward has been measured only by the will to do and the foresight to follow or to pioneer.

Coral Gables . . . Miami . . . Florida . . . is the opportunity of this generation. Some of the shrewdest business men of our day endorse it. Millions have been invested there and millions have been made. More millions will exchange hands in Florida within the next twelve months.

A Moderate Initial Payment Will Start You

You might think it takes a lot of money to invest in Coral Gables. It doesn't. A moderate initial payment will secure a building plot on a palm-shaded plaza where every modern improvement is at hand.

Think, too, what it means to live in the only American tropics . . . longer life . . . less illness . . . sun-filled days and invigorating nights . . . the subtle charm of southern

seas . . . the old-world leisure of the South . . . and yet the virility and ambition of the North! In Coral Gables—these things may be yours for the rest of your life.

You Know These Names

Internationally famous men such as B. C. Forbes, Arthur Brisbane, Livermore, Untermyer and a score of others regard Florida real estate as the opportunity of a lifetime.

Make Coral Gables your opportunity. Land has increased in this Miracle City of the South as much as 922 per cent in one year! An investment of \$80,000 in twenty acres of land in 1921 recently returned over \$400,000. Ordinary building lots have brought profits of over 100 per cent in less than six months!

Invest today. This is the opportunity of our generation.

Rex Beach Was Won by the Charm of Coral Gables

Few people know this country better than REX BEACH. He is a man of true discrimination and taste. The beauty of Coral Gables won him immediately. His enthusiasm has led him to write a book upon the miracle of Coral Gables. Let us send it to you, together with full information about Coral Gables, free.

Special Announcement

Get in touch with this office for a trip to Coral Gables. These trips are run at frequent intervals and thousands of congenial and pleasant people are enjoying them. Call or telephone for all the necessary information regarding the best way to visit Miami as our guests.

Illustrated booklets, maps, price lists and complete information about Coral Gables may also be obtained here without obligation to you. Let us show you what has been accomplished in Coral Gables, and tell you of the thousands of opportunities that await the early investor.

How to stop BOILS!

There's only one way to stop boils. Stop the cause of boils! That's common sense—isn't it? All right. Boils thrive because the blood gets so weak in healthy, red cells that it can't throw off the impurities that get into the body. There's not enough rich, red blood to purify the system.

Now—S. S. S. builds back the blood to fighting strength. S. S. S. builds red-blood-cells—builds them by the millions! Boils dry up!

S. S. S. is the thing. Impurities that cause boils and other skin eruptions can't stand up against the rich, healthy, red blood that S. S. S. builds. That's all there is to it.

Stop boils with S. S. S. It's the way. Get it at any drugist. The larger bottle is more economical.

And the Navy Got a New Admiral

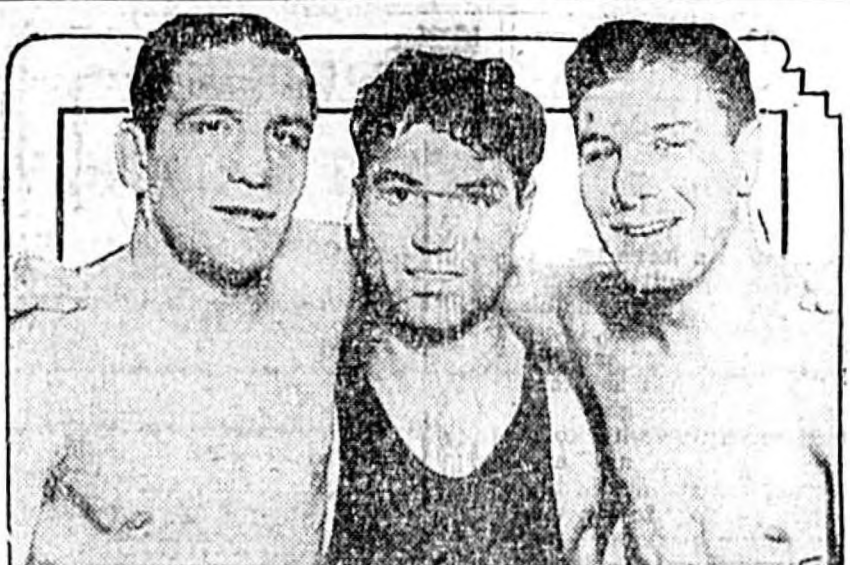

Lieut. Jimmy Doolittle, U. S. A., got into the Schneider seaplane race at Baltimore and won first prize in what was thought to be a navy affair. So when he got back to McCook field, at Dayton, Ohio, his mates put an admiral's uniform on him, loaded him in a run-down rowboat and carted him all over Dayton.

Legionaires Begin Making Plans For Big Minstrel Show

At a meeting held in the American Legion home Monday night, 41 members of the Campbell-Lossing Post began preparations for the Legion minstrel, to be given in this city in the latter part of November.

Under the direction of L. J. Bolt and L. C. Bebout, the preliminary organization was made, and the plans of the directors outlined to the enthusiasts who attended. Mr. Bolt, who has been given a free hand in the production of the show, the first local talent affair to be put on here for some time, has handled amateur theatricals previously to his residence here and has been connected with a number of professional companies. The organizers hope to secure the services of a number of local residents, whose ability has been proven in previous productions, and have been assured of the assistance of several former professional performers now living in the city.

The London Morning Post estimates that there are 250,000 Jewish Christians in the world.

Henry Clews & Co.

79, 11 BROADWAY (Ground Floor) New York City Orders executed for STOCKS & BONDS and advances made thereon Correspondence Solicited

Yeastimonials

Hon. Ed Walthall, Care of Seminole Hudson-Exsex Co. Sanford Fla.

Dear Ed: Since they stopped making beer and everybody has gone to eating cake instead of bread, they were having a hard time finding some way to use the world's supply of yeast. Some smart fellow started a yeast fad, and now the papers are full of testimonials about the wonderful results yeast has produced.

Several friends of mine have gotten to be yeast fiends, and they have told me some very interesting accomplishments of yeast. One man says he used to be so hard to get up in the mornings that his hired man had to come in and shop the bed out from under him with an axe. He eats a cake of yeast every night now, sleeps under a blanket and rises promptly at 6 o'clock.

Another fellow tells me he is a great duck hunter. He gives his decoy ducks a cake of yeast every night before he goes shooting. They rise so naturally from the water that half the time he shoots his decoys instead of the real ducks.

One man I know built an airplane. But he never could get it to fly. A bright idea occurred to him. He put a cake of yeast in the gasoline, and the only trouble he has now is getting his machine to light.

A preacher I know was tipped off to the fact that his sermons were heavy and dry. He takes a cake of yeast every Saturday night and rises to such heights of eloquence that his congregation held spell-bound. After taking yeast 3 weeks, he got a raise in his salary.

A lady I know woke up the other morning with a flat tire on her flivver. She had no one to change the tire. She gave the tire a dose of yeast and it soon rose up. The only trouble was it was about twice the size of the other tires on the car. Undaunted, she gave each of the other tires a full set of balloon tires.

It's really wonderful what yeast will do. I don't see how the world got along without it so long. Just think of all the good yeast that has been wasted making bread all these years!

New wine in old bottles! That's the order of the age—new uses for old things.

But I'll bet they never find a better use for the Essex than the convenience it affords and the pleasure—the health and the happiness—it provides. Yours, BILL

DO YOU NEED MORE MONEY? Make money in a dignified, delightful way. Show our charming children, misses and ladies' frocks to relatives, friends, neighbors. Unusual values. Make-to-wearer plan. Every home is a prospect for one or more of these wonderful frocks. Write now to The Franchon Co., 44 No. 4th St., Philadelphia, Pa. Address, Mrs. Sweet.

EARN IT A PLEASANT WAY

Keep Pimples away

WHY do you let those unsightly pimples, blackheads and blotches disgrace your skin and ruin your appearance? You can keep them away if you keep your system full of rich, red blood. And not only that, but the very texture of your skin will be soft and velvet like—and the coloring radiant as a rose.

It's all in the blood. And S. S. S. will help Nature keep your blood rich and red and pure.

Yes, you can keep pimples away, simply by taking S. S. S. That's a fact. The kind of red-blood-cells that S. S. S. helps Nature build makes your skin beautiful—clears it up just like it puts firm flesh on you—brings strength to weak, flabby muscles—gives you an appetite like you used to have and generates the energy and vitality of youth throughout your entire system.

Just try it and see for yourself! All druggists sell S. S. S. Get the larger bottle. It's more economical.

BIBLE THOUGHT FOR TODAY

Let all bitterness and wrath and anger and clamor and evil speaking be put away from you, with all malice; and be ye kind one to another, tender-hearted, forgiving one another, even as God for Christ's sake hath forgiven you.

THE SINGING BIRD

There is a lyric river that dimples by my door; Above its singing waters There bends the sycamore. It gladdens in the sunlight; It silvers in the moon; Forever and forever, It lifts a buoyant tune. I love my murmuring river, For day long and night long It bears away my burden And gives me back a song.

Well, Sanford can put on a barge line if necessary.

Sanford will have boat races on Armistice Day. This feature should be the means of drawing many outsiders to this city.

Headline says, "Old Ironclads To Be Saved Again," say this is getting to be a regular thing, isn't it?

We know of some people who do good work but the trouble with them is they don't do enough of it.

And another instance in history where they couldn't keep a good man down was Jonah and the whale.

Joseph M. Schneek, back from Paris, declares that Gloria Swanson's title is genuine. Well, that certainly is a relief.

And the Sanford Herald short-liner is convinced that "nothing makes quite so unpleasant sight as an angry lady."—Unless it is an angry woman.—Times-Union.

Anyway, if Alabama doesn't play any better against Florida than it did against Mississippi Agricultural and Mechanical School on Saturday, the Alligators have won already.

It doesn't take brains to make money in Florida; it takes dirt.—Sanford Herald. But we think the Sanford Herald will find that some brains have to be mixed with the dirt.—Orlando Sentinel.

As far as we can see nothing has been done toward widening some of the streets in the downtown business section. It may require an accident to prove it is necessary.

As was to be expected, Al Smith won in the New York election yesterday. What the enormous vote given this candidate by New Yorkers will not give him the idea he can get the presidential nomination.

In Swanton, Md., a farmer by the name of J. E. Wilt, when he made an affidavit that he had worn one suit continuously for twenty-three years was presented with a new coat and vest by the store whence he had bought the suit. He declared the trousers would last a while longer.

We don't know whether the woman who is being kissed by some authorities aver, but this we do know: It closes their mouths for a brief while—and that's "sumpin'."—Phil Armstrong. That means a whole lot in the cases of some of these flappers; with their fifteen-minute kisses.

If newspapers used all the free publicity matter sent them by various development companies in Florida, there would be no room left for news or advertising. It is interesting to note that the free space grabbers consist mostly of concerns that apparently do not believe in advertising. Like a lot of other people they want something for nothing.

Money Talks

Dollars on deposit tell of good times. Prosperous cities usually are known for the great capital on deposit in banking institutions.

Sanford's banks show an increase in deposits of eighty-eight per cent over the figures of one year ago. The total deposits now are nearly six millions of dollars and show a gain of more than two and a half million for the twelve months.

Do you grasp the significance of statements like that? Do you realize what such a showing means to your city?

Study those figures. Talk them over with the folks in the office, in the shop or on the street. When the people of Sanford can put two and a half million dollars on deposit in twelve months time the people of Sanford must be doing fairly well as far as making money is concerned. When the people of Sanford have more than six million dollars to draw on, it speaks exceptionally well for business conditions in the city that is so well known for its sound and substantial condition.

Six million dollars on deposit! This represents many times that amount in actual value. It means there is six million dollars in circulation, traveling from one man to another, from one business house to some other business house, from the laboring man to the grocer, from the investor to the developer, and so on with the same dollar doing service for many dollars. This six million dollars on deposit is financing many projects. It is building a great city. It is furnishing huge payrolls. It keeps the wheels of business moving.

The banks show a great growth. It is evidence of the prosperity to be found here, and is the kind of growth that reacts very favorably to a community.

The records being made by Sanford banks will have much to do with the future development of the city. Six million dollars on deposit in a town of ten thousand population, certainly speaks mighty loud.

We Can't Be Bothered

The whole country seems to be worried about Florida, for fear it will go to the dogs. It is amusing the amount of space that is given to predicting dire catastrophes for this state, by unfriendly northern papers, while we, here at home, don't seem to be at all uneasy. We go about our business day after day knowing as we do that Florida is just beginning to grow and that for years to come there will be no let-up in the wave of prosperity here.

While calamity howlers in jealous states devote their time to making predictions about the bursting of the Florida bubble, in attempting to keep newcomers from coming south, Floridians are busy building cities, and developing the state into America's most wonderful section. And the harder the calamity howlers howl the faster developments in Florida seem to take place.

Tired of making unfair attacks on realty values here and finding such a method of stopping the influx of northerners unsuccessful, our enemies are now beginning to spread a lot of tommy-rot about the high cost of living here. Wild stories are going the rounds about the price of butter and other commodities. They say all living costs have advanced to a point that is all out of reason. They cite rents in the most exclusive residential districts of our cities and then try to tell the rest of the country that it costs seven hundred and fifty dollars a month to rent an apartment. Isolated cases are picked out in order to give an impression of gouging.

But let the dirty work continue. It's cheap advertising. It creates, as we have said many times, a desire on the part of curious Americans to come and see for themselves and that is the reason all the highways leading into Florida are crowded. That explains why trains are running so late and why it has become necessary to place an embargo on incoming shipments.

Florida doesn't need to do any worrying. Our friends in other states are attending to that for us. And besides, we can't be bothered. We have too big a job trying to provide enough houses where newcomers may stay.

They'll All Be Back Tomorrow

Did you see all the real estate men leaving early this morning?

No, the boom has not burst. Real estate has not gone to smash. Those who left this morning were some of the city's most reliable realtors and they were on their way to attend the state realtor's convention at Lakeland, and incidentally to make a good showing for Sanford.

Like those of almost every other kind of profession, real estate men find it advisable to get together once in a while to discuss problems that confront them. And this is one of those times. Thousands of the state's leading lights will be in Lakeland today and without a doubt the Florida spirit of progress and enthusiasm will be greatly in evidence at the gathering.

The realtors are doing all within their power to keep the handling of Florida realty on the highest possible standard and are contributing much to the good of the state. Without wide-awake real estate men a town is dead. With such a group of high principled realtors as comprise those of Sanford, what city could keep from making tremendous strides.

They will all be back on the job tomorrow with even greater vision and pep than they had yesterday.

FALL OF THE FRENCH CABINET

NEW YORK TIMES

For some days, apparently, M. Caillaux's colleagues have had the benevolent intention of throwing him to the lions in the hope of saving themselves. He declined to be thrown. Like his predecessor, M. Herriot, M. Painleve goes out on the financial question. Herriot was virtually a capital levy; the Socialist prescription. While Caillaux's financial measures have not been as successful as was hoped, and he is perhaps saddled with undue blame for the failure of the debt negotiations, he was expected to do things impossible and that will be impossible so long as France's financial and economic policy is merely a pawn in the Bismarckian political game. Who shall hold the power? Who shall hold the purse? The backs of said have shifted. A steady, patriotic, courageous plan of meeting difficulties that cannot help growing greater till they are honestly faced, the politicians seem to think the majority of the electors will not stand.

M. Caillaux is no novice at upsetting cabinets. He has played his hand cleverly. The Premier feared to have brought out in the Chamber the dissonances in the Cabinet. M. Briand's League laurels couldn't save him. All the friends of France must regret that this procession of cabinets, so distinctive of the Third Republic, continues. It tends to create an unflattering impression of the political

As Brisbane Sees It

With Wall St. Look Out. Gary, Tarbell, John D. Movies Build the U. S. Poor Mrs. McGauley.

BY ARTHUR BRISBANE (Copyright 1925)

WILD TRADING in the stock market. You never had a better chance to break your back, financially, than you have now. Those that know will make great fortunes. But how many know?

Some of the stocks most wildly bought are those that will fall the hardest when falling time comes.

Lucky is the man who knows what he is doing and why. The other kind of man will have a dreadful financial headache one of these days.

THE COUNTRY is rich. However, the people earn more than they used to get, and don't leave the money in ten thousand different saloons in one big city. Stock speculation doesn't cause hardening of the arteries; as the old saloon whiskey used to do and as the new bootleg whiskey still does.

AS YOU grow older you become tolerant. Mrs. Sarah Smith, of Brooklyn, says her views about prohibition "are not as strict as they were when I was younger. In my nineties," the lady, who has just entered her 103rd year, is still a member of the temperance union and the Baptist church.

ANOTHER LADY growing milder with years, although still young, is Miss Ina M. Tarbell. She has learned things she did not know about industrial organizations. She has discovered that Judge Gary is a hero.

So he is, or at least he has added much common sense into the biggest industrial unit in the world.

Perhaps, had she been forty years old when she wrote about John D. Rockefeller, Miss Tarbell would have discovered that he also was doing useful work—as he was—proving that costly, wasteful competition isn't at all necessary, and gathering money to do, through his institute, work that the people have not brains enough to do for themselves.

Lucille Roberts, British novelist, seeking romantic "atmosphere," found all the sheiks wearing American "horn rimmed" spectacles, fancy socks and ready-made modern clothing. Only one was dressed as a sheik should be, and he was working for an American moving picture outfit.

AS SHOWS WHAT American moving pictures do for American goods abroad, our moving pictures, dominating everywhere, create a market for American goods and build up American properties.

MRS. MARY McGauley left her children, who had eaten nothing, after they had stopped crying and gone to sleep, in a cold tenement room with a feed burlap bags over them.

She took one bag and a hammer, at one o'clock in the morning, crept along the streets of New York, a fairly prosperous city, and using the bag to deaden the sound, she broke a grocer's plate glass window and gathered together an amount of food. At that moment a policeman laid his hand on her shoulder.

When she appeared in court, 150 people actually shed tears at her plight, so the judge let her go with a warning.

A SAFE CITY

MIAMI HERALD

New Bedford was the only city in the United States with more than 100,000 population to report no fatal automobile accident during the first five months of 1924. Chief of Police Doherty explained to a writer for Collier's the methods employed in New Bedford to end the slaughter. The work was begun with the children in the schools. Policemen were sent to the schools armed with charts and arguments and the children were forcibly told of the perils of roller skating in the streets, of "hitching on" to moving cars and of carelessness in crossing the streets.

Chief Doherty continued: "Next we turned our attention to the men at the wheels. Our greatest problem was the youth with the 90-horse power automobile and the m-horse-power brains. There are two checks on peddle drivers; the courts and the office of the State Register of Motor Vehicles. We have had splendid cooperation from both, but we have found it more effective in most cases to take the direct route to the registrar's office. On our recommendation, licenses are suspended for periods ranging from thirty days up.

"It is of little avail to place reckless drivers in the dock. They pay their fines and step blithely out of the court and, as like as not, within fifteen minutes are endangering lives again. Suspension of licenses, however, has a more lasting effect."

Florida has no license law so that the method Chief Doherty has found "more effective" can't be used in this state. A man fined for reckless driving, even for driving when intoxicated, can pay his fine and drive away from the court without any curb. The time has come for Florida to get in line with other states and adopt a license system under which habitually reckless or careless drivers can be kept from operating cars.

A GLUTTON FOR PUNISHMENT

PLAYGROUNDS AND RECREATION

DAYTONA BEACH NEWS

Authorization by Mayor-elect B. F. Brass and other members of the Greater Daytona Beach commission of the sending here of an educational worker by the Playground and Recreation association of America is the first step toward establishing not only a system of parks and playgrounds in this city, but the launching of a definite recreational program which when enriched and developed will include within its scope the men and women as well as the children of the community.

Mr. Brass has expressed himself as thoroughly convinced of the necessity for encouraging wholesome outdoor play for the children of the city who are to be its future men and women leaders. To this end, the educational worker will be brought here to speak before various civic and commercial organizations and clubs and societies and to outline the program which is being fostered by the Playground and Recreation association in other cities throughout the country.

The News has always urged the establishment of parks and playgrounds with a view to the future city, maintaining the self evident fact that purchase of open areas now will save the municipality enormous sums in the future when rapid growth and high realty values make the purchase of park spaces almost prohibitive. James B. Williams, district representative of the playground association, strongly endorsed this stand, pointed out that Detroit is now spending \$25,000,000 for sites alone because it delayed in the past and that Miami must pay \$2,000,000 today for what could have been purchased for \$50,000 a few years ago.

The city of Daytona is fairly well equipped at present. The waterfront park is mostly a beauty spot and a place for the tourist, although games courts are being established at the southern extremity. The city also has City Island, a potential athletic field and recreational center; a large tract on the DeLand road, suitable for a natural picnicking ground and also a tract in Daytona Gardens, bought for park purposes. It has also bought the Garrison tract for a negro park. So far, so good. But the city is rapidly growing to the south and the north and areas should be secured at once in these sections and possibly to the westward for future park and playgrounds. Developers can aid materially.

A CURE FOR DIVORCE

ASHEVILLE CITIZEN

The range of remedies for the divorce evil is wide and often a new cure is introduced to the many other which have been tried and found wanting—at least in a large measure. The latest innovation is presented by Judge H. B. Burroughs of Oakland, Cal.

It is not claimed as a specific—it will prevent divorce only in certain cases admits the judge. But it will interest many people and decidedly the Feminists because the judge holds apparently an ultra-Feminist view. It will not meet the approval of a multitude of Women's Rights advocates because its application would diminish the right they now have under man-made law.

Judge Burroughs maintains that alimony, or the prospect of it, is a provocative cause of application for divorce by many women. He says: "Too many women get married with the idea in mind that if they are not satisfied with matrimony they can go to court, tell the judge a sob story, and walk out free women with an alimony string tied to their former mates."

And so the judge's plan, which he says he long ago put into effect in his court is to grant no alimony to the wife where there are no dependent children. No matter what the misconduct of the husband the wife should no longer receive aid from him after the divorce decree is signed—the couple are, in the eyes of the judge, as if they had never been joined in matrimony.

This view finds favor in the eyes of the Birmingham News which thus commends it: "With the emancipation of women with the increasing number of women who are earning their living, why should there be any more consideration of the woman than the man when a divorce comes? If women have been released from every scintilla of dependence, and even the word 'obey' has been stricken from the ceremony, does it not appear just as logical that the man should be awarded alimony as well as the women? If not, why not?"

So much of reason appears to support the Burroughs idea that it deserves at least consideration. We are not prepared to advocate it as a rule unless as one liable to many exceptions. While this country has not yet reached the stage where it will admit women to exact equal rights with man, it emphatically repudiates the idea that was, by reason of being women. Our sense of justice urges that in many cases the deserted wife though childless should receive support from the husband.

DAN DOB... You can't travel lame excuses. This weather is the man in charge man. Being your doesn't mean being lame. It is foolish to be ing people with will be mistaken of use. You will find long enough and so distorted you yourself. Almost anything shot by accident. We had just Armistice Day wearing a wrist. It is estimated burned too many. Missing California with \$5000 was That was carrying. About the worst today is a Chicago wife is asking for a. Mohammedans believe ten animals in her people will think all dogs. Mitchell's idea of gram appears to be tured. Plenty of men ness to interfere of others.

Mr. and Mrs. Pippin Entertain In Honor Of Mr. and Mrs. Echols

On Friday evening Mr. and Mrs. Roy Pippin delightfully entertained at a surprise buffet luncheon given in honor of Mr. and Mrs. Leo Echols on their second wedding anniversary. A profusion of goldenrods and yellow daisies were artistically used to carry out the Halloween spirit. Games and contests were played throughout the evening.

The guests were invited into the dining hall where a delicious salad course with tea was served, followed by an ice course. A large white cake with two candles was cut first by the honored guests. Two lovely vases and a set of hand-painted salad plates were presented to the couple by the hosts. Music was enjoyed until a late hour.

The guests who joined to honor Mr. and Mrs. Echols were Mrs. Ada Echols, Mr. and Mrs. E. C. Echols, Mr. and Mrs. Charles Echols, Mrs. Jessie Sharp, A. J. Loring, Mr. and Mrs. Rex Pippin, A. D. Rountree and Aubrey Smith.

Guild Meets With Mrs. Monroe Hutton

Mrs. Monroe Hutton entertained at her apartment at the Welaka Monday afternoon for the St. Agnes Guild. Final arrangements were made for the card party which is to be held at the Woman's Club Thursday afternoon.

It was decided that the St. Agnes Guild should conduct a booth in the Episcopal Bazaar, which is to be held at the Woman's Club Dec. 1. Arrangements were also made for the Thanksgiving Ball to be given Friday night, Nov. 27.

C. H. Bradley and L. G. Gorse of Milwaukee, Wis., are stopping at the Valdez for a few days. They are looking over the vicinity with a view toward investment.

THOUGHTS--WISE AND OTHERWISE

Copyright McClure Syndicate

USE PLENTY OF LETTUCE

Now, dietitians, when they say salads, and doctors, too, mean a dish containing plenty of green, up-to-date leaves. They don't mean one lettuce leaf, or two, with a big pile of salmon mayonnaise on top of it. They don't mean a delicious mound of chicken salad garnished by a cup of lettuce leaf filled with salad dressing.

These salads are all right—but they aren't salads, from the dietitian's point of view. The uncooked green, which is the dietetic reason for salads, is reduced to unimportance in these rich salads.

So when you are planning to serve your family healthfully with salads, plan to give them plenty of lettuce, chicory, endive or whatever other green you choose to serve. Don't cover it up until it is almost invisible.

SEWING HINTS FOR MILADY

BY MARY MARSHALL

Handkerchiefs in the shape of a leaf. Below and to the left of the leaf handkerchief is one of georgettes edged with gilt and colored corners and to the left of this is a handkerchief of white linen with cream lace and colored embroidery.

Below this is a little handkerchief featuring a painted figure. This cleverly hides a tiny powder puff. The new handkerchiefs all in a row are of the new sports models.

They who bill their handkerchiefs as "new" are in fact only "renewed" handkerchiefs of olden days that have been "renewed" by the use of new dyes and patterns.

LOVELY HALLOWE'EN PARTY GIVEN BY DOROTHY HAYNES, MARY SHIPP

Mary Alice Shipp and Dorothy Haynes were gracious young hostesses at a lovely Halloween party Monday evening at the home of Mr. George Shipp, when a group of 30 boys and girls gathered to enjoy the fun and frolic of Halloween games and fortune telling.

The charm and beauty of black and yellow with the grotesque symbols of Halloween formed an attractive setting for marked Harlequins and Domino figures. Indian maids hobnobbed with ballet dancers and cowboys from the wide open spaces and languishing serenitas of far off Spain danced in joyful abandonment through the joyous hours.

Black cats, goblins, witches, bats and pumpkins adorned the walls and over the doors the spirit of the Harvest season was evidenced by large yellow ears of corn.

Maxine Brockham and Dorothy Lawson delighted with solo dances. Mrs. W. M. Haynes and Mrs. Shipp assisted the hostesses and Miss Velma Shipp presided at the piano.

Miss Gladycie Stemper Hostess Friday Night At Halloween Party

A masquerade Halloween party was given by Miss Gladycie Stemper last Friday night at her home on West Third Street.

The rooms were elaborately decorated with Halloween colors, black cats, witches, bats, pumpkins, and skeletons. The guests arrived at the stroke of eight, to be greeted by a witch in a cavern, who wished them good luck in the recitation of a mysterious rhyme, and ushered them into the house.

Numerous games were played and dancing was enjoyed throughout the evening. Following the grand march, the judges awarded the prizes for the best costumes to Joseph Ludwig and Alton Gunter. Clarence Duffin won a special prize for recognition of the greatest number of masqueraders before they unmasked.

Delicious refreshments were served and at midnight the guests were assembled in a dark room where a weird tale was told. The lights were then turned on and confetti was thrown in profusion.

Those present were: Hazel Packard, Ruth Douglas, Christine McClean, Dorothy Parker, Beulah Stafford, Alva McAlexander, Nelda VanNess, Eleanor Holly, Mary Robinson, Mildred Robinson, Gladycie Stemper, Mrs. Hunter, Earl Bussey, Alton Gunter, Edward Bender, Joseph Ludwig, Arie Spratt, Frederick Stanley, Ernest Livadakis, George Mrs. Marion Gordon, Arthur Humphrey, Lyle Tapp, Clarence Duffin, Mrs. Stemper, Mrs. Weekly, Mrs. Duffin and Mrs. Holmes.

Among the Jacksonville visitors Tuesday at the Seminole were: W. A. Brothers, T. T. Welch and E. D. Smith.

H. R. Phelps of Atlanta, Ga., is visiting in Sanford.

Mrs. James R. Hogan left Tuesday for Nashville, Tenn. She expects to be gone for about two weeks.

Mrs. J. M. Baty and Miss Carrie M. Fleming of Birmingham, Ala., are visiting in Sanford for a few days.

Miss Catherine C. Slattery of New Bedford, Mass., is stopping at the Seminole Hotel, while visiting in the city.

G. A. Baxter of Eustis is spending a day or two in the city on business.

Mr. and Mrs. N. Buckner and George Holschaw of Orlando are in the city on business. They are representatives of the Florida Automobile Association.

Mrs. J. Howard Jarrott, who has been the guest of her daughter, Mrs. John McKee, is returning to her home in Savannah Wednesday.

Mr. and Mrs. John W. McKee are leaving this week for Savannah, where they will make their future home.

Mr. and Mrs. Hubert Allison, after a week spent with friends in Sanford, have returned to their home in St. Petersburg.

Mr. and Mrs. George Stewart, official decorators for the Shrine Ceremonial, have returned to their home in St. Petersburg.

W. N. Walton of Palatka was a Sanford visitor Tuesday.

REMARKABLE CAPRICE
BERKLEY, Cal., Nov. 4.—(AP)—A remarkable caprice of nature, a doe with horns, was shot recently and has been turned over to the museum of vertebrate zoology at the University of California. Prof. J. Grinnell of the zoology department said an examination showed that the animal was sterile, which probably accounted for the unusual growth of horns.

EARNINGS DECREASE
GOTHENBURG, Nov. 4.—(AP)—There was a decrease of 1.8 per cent in earnings of the Swedish merchant marine last year, compared with the previous year. The time charter income, however, showed a gain of 70 per cent. The marine earnings reached \$63,569,000.

KEEP EVERLASTINGLY AT IT.
The Sanford Building and Loan Association has kept at it in season and out of season. Has assisted in the building of some five hundred of Sanford's homes. Have under construction now one hundred and twenty-five thousand dollars worth of homes.

Women's College

Dr. T. W. Williams, noted psychiatrist, of Washington, D. C., was a visitor at the college recently, and delivered addresses before the psychology and philosophy classes.

Miss Emily Thomason, who received her musical education at Peabody Conservatory of Music, at Baltimore, has been added to the School of Music. She has also been appointed organist at one of the Tallahassee churches.

Architects Weaver and Robertson, of the Board of Control, were called by the college recently consulting with officials regarding the new dormitory and other buildings, to be erected this year.

Florida State College for Women has been asked by the Christian Science Monitor, of Boston, to furnish a write-up of the college for a Florida edition, to be published shortly by the Monitor.

Miss Milbourne, assistant professor of industrial arts, plans to accept an invitation to attend a home demonstration meeting to give instructions in basketry.

Martica Saunders, of Middlebury, Vermont, has been elected editor-in-chief of the Florida Flambeau, the weekly publication of Florida State College for Women.

Dr. Tilt was elected president; Dr. Vivienne McClatchy, vice president; Dr. Bellamy, secretary, and Mr. Barber, treasurer, at the naming of officers of the Historical Society. Dr. Tilt is the first woman to be chosen to head the organization.

W. A. Edwards, Atlanta architect, who has acted in that capacity for the state, was a visitor to Florida State College for Women to inspect the work being done on the college auditorium.

"Big sisters" of the Y. W. C. A. of the College have planned to tender a series of teas to the "little sisters" up until Christmas time. The teas will be informal affairs, and are meant primarily to create a more co-operative spirit between workers of the "Y. W."

Women's College

Dr. T. W. Williams, noted psychiatrist, of Washington, D. C., was a visitor at the college recently, and delivered addresses before the psychology and philosophy classes.

Miss Emily Thomason, who received her musical education at Peabody Conservatory of Music, at Baltimore, has been added to the School of Music. She has also been appointed organist at one of the Tallahassee churches.

Architects Weaver and Robertson, of the Board of Control, were called by the college recently consulting with officials regarding the new dormitory and other buildings, to be erected this year.

Florida State College for Women has been asked by the Christian Science Monitor, of Boston, to furnish a write-up of the college for a Florida edition, to be published shortly by the Monitor.

Miss Milbourne, assistant professor of industrial arts, plans to accept an invitation to attend a home demonstration meeting to give instructions in basketry.

Martica Saunders, of Middlebury, Vermont, has been elected editor-in-chief of the Florida Flambeau, the weekly publication of Florida State College for Women.

GREENPORT, N. J.

FLORIDA FACTS

Henry Morrison Flagler, one of early and greatest builders of Florida, first became interested in the state in 1880. He soon bought the marshlands west of what is now Cordova Street in St. Augustine (it was then called Tolomato St.) and extending to the San Sebastian river. He also bought a little narrow gauge railroad between Jacksonville and St. Augustine, called the "Green Road" and began the construction of the Ponce de Leon and Alcazar hotels.

He erected the Memorial Presbyterian Church in honor of his only daughter, who died at sea, during the construction of the hotels, and in honor of her mother. The church and the hotels were completed in 1886.

A ferry operating on the St. Johns river at Jacksonville first served the "Green Road." Mr. Flagler built a bridge across the river at Jacksonville and changed the gauge of the railroad from the narrow to the standard. Through Pullman cars were operated from New York to St. Augustine in 1886 when the Ponce de Leon Hotel was opened.

Later Mr. Flagler secured several pieces of railroads on the east coast connected them and extended them to New Smyrna.

In 1892, the builder decided to extend the railroad farther south and he immediately began work. The town of West Palm Beach was acquired, subdivided and developed and the Royal Poinciana Hotel built in Palm Beach and opened for guests about December 1894. In April of the same year the railroad entered Palm Beach. A townsite was acquired at Miami and developed in 1895 and the Royal Palm Hotel built.

The name of the "Green Road" was changed to the Florida East Coast Railroad Company on Apr. 22, 1896, at the same time it began operations into Miami.

The road was extended to Homestead in 1904. Soon the construction of the extension of the line to Key West by overseas railway was started. It was completed in January, 1912, and was termed the greatest of all railroad construction projects. It was called the Overseas Railroad for the part crossing the keys. This connected New York with Key West with year round Pullman service and made connection with ship lines of the Flagler system for Havana Cuba.

Shortly after the opening of the Overseas Railroad, Flagler, the builder, decided to construct a line to Lake Okechobee to be known as the Kissimmee Valley Extension. His purpose was to give an outlet to vast fertile tracts and lands of the Everglades under drainage operation. The line was

opened from Maytown south on Jan. 4, 1915. Mr. Flagler died in 1913 while this work was under way.

Great ferry steamers now ply between Havana, Cuba, and Key West carrying large freight trains between the two points.

There are 109 accredited high schools of the senior "A" and senior "B" class in Florida at the present time. In 1924 there were 99 such schools.

There are 18 junior high schools in the state this year. In 1924 there were eleven junior high schools.

Graduates from accredited senior high schools are permitted to enter the institutions of higher learning maintained by the state without examination.

The combined statement of the state banks, national banks and trust companies in Florida for the period of five years is as follows: January 1, 1920—Capital \$14,765,500; surplus, \$5,860,476.09; deposits, \$187,286,267.02.

January 1, 1924—Capital \$21,156,000; surplus, \$7,867,135; and deposits, \$263,310,352.38.

January 1, 1925—Capital, \$23,853,000; surplus, \$9,613,715.11; and deposits, \$375,042,947.53.

The figures concerning the state bank and trust companies were furnished by Ernest Amor, state comptroller, and the figures for the national banks were furnished by the United States treasury department. The Florida Development Board made the compilation.

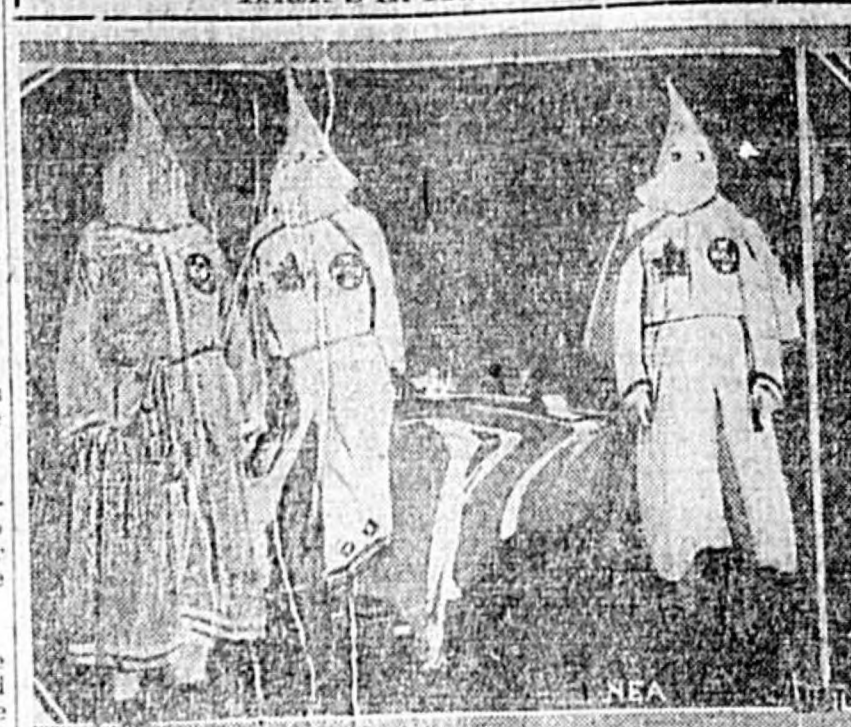

Under the call of the United States comptroller on April 6, 1925, the national banks in Florida showed total deposits of \$248,807,000, while the deposits in these banks on December 31, 1924 totaled \$177,223,000. This was a gain of \$89,624,000 in three months and one week.

During the Civil War the express and railroad service throughout the south was almost completely disorganized.

Colonel Henry S. Haines, of Savannah, Ga., who had been one of General Lee's most valued transportation men, and Henry B. Plant, of Bradford, Connecticut, railroad builder of Georgia and contractor of the great Plant System of Florida, were associated in the rebuilding of the railways and express services throughout the south.

These two men soon after the war acquired control of several lines in Florida and Georgia which after rehabilitation proved of great worth to the south in its work during the reconstruction period. These roads were the Savannah, Florida and Western, which Jacksonville by way of Live Oak; the Florida Central and Peninsular; the Charleston and Savannah; and two

Klan's in Kanada Now

Entry of the Ku Klux into Canada was heralded by the presence of thousands at a night open air ceremony near London, Ontario. The picture shows the imperial kligrapp and two imperial kleegles waiting to administer the oath to new members.

other lines that reached in Alabama and Georgia.

Mr. Plant also early began the organization of the Southern Express Company. He became president of this concern and was a large stockholder.

The Weyercross Short Line from that city to Jacksonville was built in 1882 by Mr. Plant and his associates. This shortened the time from New York to Jacksonville materially.

Associated with Mr. Plant were some of the leading business of the country at that time. They were Henry Walters and B. F. Newcomer, of Baltimore; Jorris Jessop, and Henry Sanford, president of the Adams Express Company, both of New York; Mr. Jenkins, of Wilmington; and Judge Chicham, of Savannah.

The cost of maintaining and operating the general departments of the state of Florida for the year ending December 31, 1924 equaled \$6.55 per capita or a total amount of \$6,818,932, according to a bulletin issued by the financial statistical section of the United States department of commerce. This included \$537,496 spent for education by the minor civil divisions of the state.

Comparative cost per capita for maintenance and operation of general departments in 1925 was placed at \$6.21 while that of 1917 was set at \$3.83.

North Florida is composed of the following counties as apportioned by the state department of agriculture: Alachua, Baker, Bay, Bradford, Calhoun, Clay, Columbia, Dixie, Duval, Escambia, Franklin, Gadsden, Hamilton, Holmes, Jackson, Jefferson, LaFayette, Leon, Liberty Madison, Nassau, Okaloosa, Putnam, Santa Rosa, St. Johns, Suwanee, Taylor Union, Walton, Washington Waukulla. The combined area is 14,394,800 acres.

South Florida is composed of the following counties, says a bulletin issued by the state department of agriculture: Brevard, Brevard, Charlotte, Citrus, Collier, Dade, DeSota, Flagler Glades, Hardee, Henry, Hernando, Hillsborough, Lake, Lee, Levy, Manatee, Alhricin, Monroe, Okeechobee, Orange, Osceola, Palm Beach, Pasco, Pinellas, Polk, Sarasota, Seminole, St. Lucie, Sumter and Volusia. The combined area is 20,851,160 acres.

At least one half of the teachers should attend a six weeks summer school every year, says the president of the institution.

The normal school department of the college should have sufficient funds with which to employ the highest type of teachers for full work for instructing those who aspire to be teachers among the negro race, according to the school head.

Florida will have a \$200,000 building at the Sesqui-Centennial International Exposition in Philadelphia in 1926.

The commissioners will select the site at the Philadelphia exposition grounds this week for the palace.

In 1886 through Pullman cars were run from New York to Tampa and to Port Tampa.

Port For October Gent Gain In Business

ed a new high level in September, totaling \$21,319,124, nearly three times the total of September 1924, which was \$7,554,388. August with this year totaled a little less than \$19,000,000. The index number for September is 591.2 compared with 520.6 for August and 209.5 for September last year.

Increases over the same month last year were shown at all reporting cities in Florida and relatively large increases were also shown from New Orleans, Chattanooga, Nashville and Birmingham.

Retail trade in the district reflected in confidential reports from 48 department stores exhibited a sensational increase in September compared with August but showed a decrease in aggregate sales of 7.4 per cent compared with September 1924. September reports received from 144 wholesale firms dealing in nine different lines over September and August 1924, notwithstanding that the dry weather interfered with business. Comments contained in many of the reports indicate that the outlook for fall business is good. Some firms in Florida state that it is difficult to obtain shipments of goods because of congestion of traffic.

Reports for September and October show substantial increases over the corresponding periods of 1924 in loans, discounts, investments, demand and savings deposits and in the volume of business transacted.

Weekly reports of 36 member banks located in Atlanta, New Orleans, Birmingham, Jacksonville, Nashville, Chattanooga, Knoxville, and Savannah for Oct. 7, showed a total discounts amount of \$524,898,000, an increase of \$20,054,000 over Sept. 9, and \$98,922,000 greater than on Oct. 8, 1924.

The Unknown?

America's "Unknown Soldier" was Seth S. Shaw, of Bangs, Tex., in the belief of Hugh T. Ramsey, Texas war veteran. The spot in France from which the body of the "Unknown" was taken tallies exactly, says Ramsey, with Shaw's burial place. A picture of Shaw, victim of the Meuse-Argonne offensive, is shown above.

'Wiz' at Figures

Jimmie Barrett, above, is 9, and in a University of Southern California test of his mathematical genius it took him less than one second for each of his years to tell the cube root of 110,173,107. Jimmie lives in Los Angeles.

Southern Bankers Leave Georgia City On Friendship Tour

JACKSONVILLE, Nov. 4.—(AP)—Bankers and business men of Georgia, South Carolina and Virginia will start on a Georgia-Florida friendship tour from Augusta, Ga., on Nov. 22, it has been announced here by J. C. Kenworthy, general passenger agent for the Georgia-Florida railroad with offices in Augusta who has just completed arrangements here for the tour through Florida.

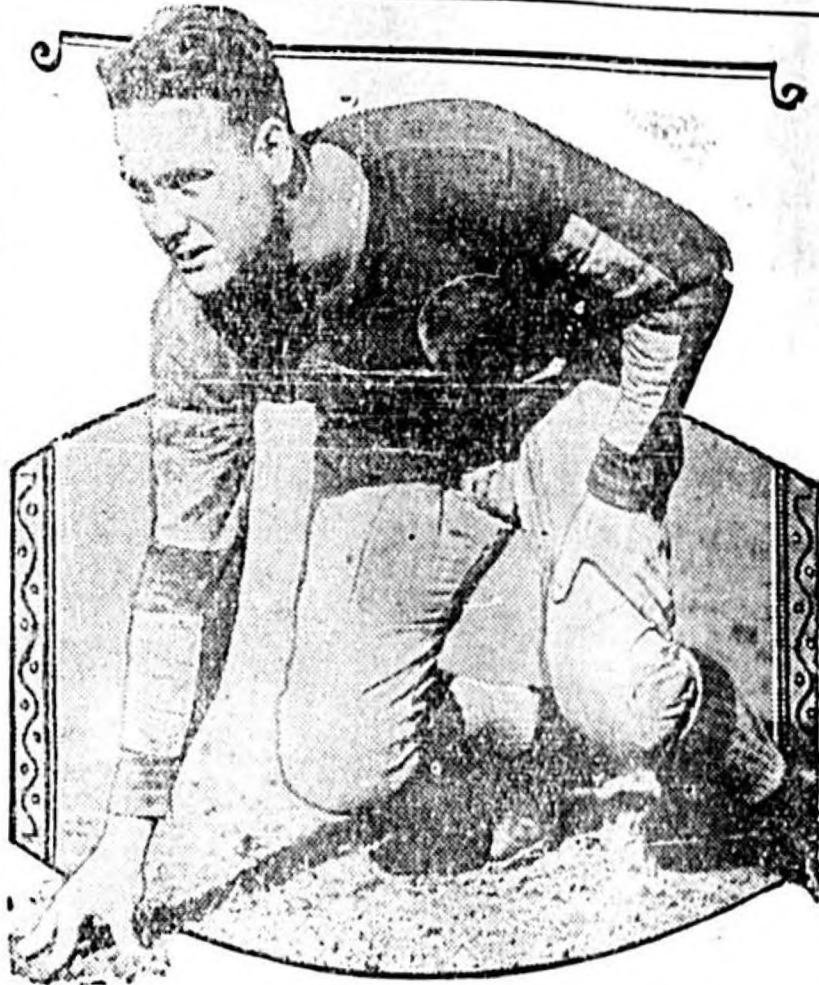

Twelve days will be required to complete the tour. Three days will be spent in Cuba. The party will travel on a special train.

As explained by Mr. Kenworthy, the purpose of the tour is to give of the three states that will be represented in the party, an opportunity to see Florida, and the development that are being accomplished in the state.

The Board of the British Empire exhibition at Wembley has decided for Sunday closing.

ty-five cities and towns of Georgia, South Carolina and Virginia are sending representatives, numbering more than 125, the announcement says.

Georgia Tech Star

Jean Williams is one of the stars on this year's Georgia Tech eleven. He plays a tailback position. His stellar work did much to carry the Golden Tornado to victory over Penn State recently.

Portia Brings the Baby

Mrs. Jane Sutter, of Toledo, O., graduated from Ohio State University and was admitted to the bar in 1921. She continued to practice law after her marriage a year and a half ago, and recently took her baby, Mary Patricia, to court with her while she argued a case.

FLORIDA FACTS

The largest swimming pool in the world will be located on the outskirts of Kissimmee, if plans now under way by real estate developers are carried out. The developers propose to have the pool completed in about 12 or 15 months. It would be 1,200 feet and 1,000 feet.

Regular freight ship service between Tampa and ports of the northern Pacific will be established at an early date, according to Major F. L. D. Carr, general manager of the Lykes Brothers Steamship company.

Three freighters will be placed on the run at first. These will be the Oduna, Tenana and the Latouche.

Approximately 700 cars of citrus fruit have already been shipped from Florida during this season, according to the office of the inspector of citrus fruits.

In 1539 Hernando de Soto, heading a band of 1,000 men with 350 horses and one cannon, sailed up Tampa Bay and landed on the site where is now located the city of Tampa.

Hernando went into the interior of Florida and circled back and northward to the Fort Sam Louis Hill near Tallahassee, where he spent the winter.

This soldier explorer had more success than his predecessors and in the early part of the spring of 1540 he continued his march north and west of Florida in a westerly direction into the Mississippi country. Here he died in 1542.

Without his leadership, his army went to pieces. A part of it reached Mexico. The other part perished.

DeSoto's vessels, which had sailed up the west coast while he was marking north, had discovered Pensacola harbor. The report of its great value and beauty led Don Tristan de Luna to form a settlement there on August 14, 1559.

The natives put up a vigorous fight and while de Luna had 1,500 followers, he was forced to abandon the undertaking.

Local realty sales have shown a slight decline in the past three days, according to figures compiled by the chamber of commerce, the total sales for that period being \$130,000. On the other hand new buildings and the completion of dwellings have shown an increase of one per cent over the same period.

Realtors reports that this week's sales showing is directly traceable to the poor condition of the roads leading to Sanford. They say that as soon as roads are suitable for good transportation for investors to reach the city sales will again rise to former levels.

Orlando, Oct. 31.—Building permits issued here between Oct. 1 and Oct. 28 total \$1,126,590, while building permits for the month of October 1924 totaled \$197,000, according to figures issued by the city inspector's office.

Realty transfers up to October 28 totaled \$8,970,740 while the entire month of October 1924, totaled \$5,233,310.

Fort Myers—Establishment of a direct freight ship line between Fort Myers and New Orleans will be completed within the next few days, according to Captain M. E. Dankohler, who is heading an organization for the relief of the freight shortage here. Fort Myers is at present 2,000 tons behind in its receipt of freight, the captain explained, and this will rise to 10,000 tons in 30 days unless immediately remedied. There is no congestion at New Orleans and sufficient boats may be obtained.

The American Beauty rose has been selected as the official flower of the District of Columbia.

Capitol Briefs

BY A. P.

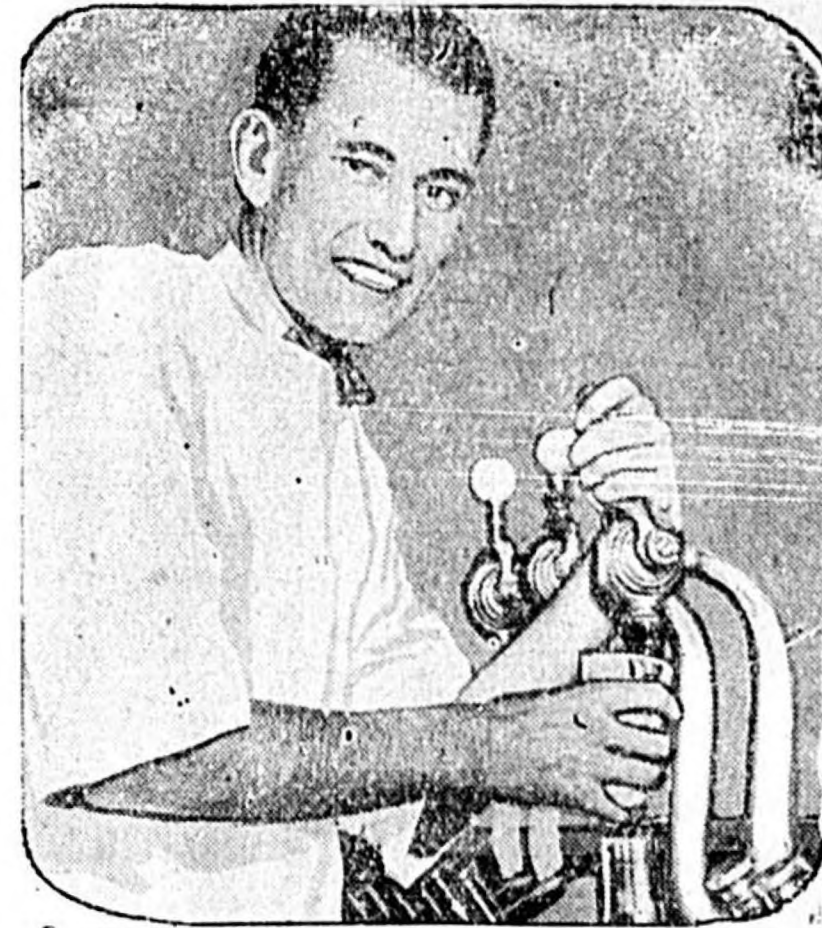

J. Hinton Pledger, of the department of inspection, Department of Agriculture, has just returned to his desk after several weeks' absence caused by an attack of typhoid fever. Mr. Pledger who was dangerously ill during his indisposition, was the recipient of many congratulatory expressions from co-workers after his return.

Mrs. Bessie Gibbs Porter, acting secretary to Governor Martin, returned recently to the executive office, following a three-day visit to Panama City and Dothan, Ala. Mrs. Porter took advantage of the absence of Governor Martin to enjoy a brief rest, the first she has had this year.

The state of Washington has the only are plant in America for fixing nitrogen.

The cemetery which contains the burial plot of Nancy Hanks, mother of Abraham Lincoln, in Spencer County, Indiana, has been closed to motor vehicles.

From Pulpit to Soda Fountain

Rev. Harold Turney, pastor of the First Christian Church, Inglewood, Calif., deserted his flock for the soda fountain, because "he wants to study and a minister has no time that he can call his own." He also hopes to make enough money at the soda fountain to obtain a college degree.

Violent Gale Raging In English Channel

PARIS, Nov. 4.—(AP)—A violent gale has been raging in the English channel and along the Atlantic coast of France during the past 48 hours. Fishing boats have been obliged to run for port. The smack Rollon was caught in the storm off Dippe and lost three of her crew when a huge wave swept her deck.

Both air and sea traffic between France and England has been suspended. An unusually high tide has been experienced in the low-lying quarter of France.

Buy a lot of Snowdrift—it's a sound investment as it is both healthy and economical. It is a rich, creamy, cooking fat that makes good things to eat taste better

Snowdrift
for making cake, biscuit and pastry and for frying

Unlike so many developments which have reserved the cream of the property for the last

Daytona Shores

offers its finest property **FIRST**

Success is not an accident. It comes only as a result of careful planning. And you may expect success of the very highest to crown the development of Daytona Shores, for its every activity is planned with the deliberate purpose of giving it an unusual success.

That is the only reason why we have reversed the usual order of things and offered our finest unit *first*.

Initial investors in Daytona Shores are going to get our biggest values, our choicest lots, our greatest opportunities for making money on the natural increases in valuations.

Can you doubt the declaration that before long there will not be a single unsold lot in Daytona Shores' first unit when we tell you that the first unit is the land which borders both ends of the proposed new causeway, a free bridge which is to link both shores of the Halifax river and give Daytona Shores its outlet to the sea?

Add to that one reason for values which are sure to leap upward the moment the first construction is begun on the causeway, these other vital factors:

This first unit runs for a mile on the Dixie Highway, so that every northern tourist motor-

ing down the East Coast *must* see the beauty of this picturesque tract, must be attracted by the signs of development he plainly sees.

Within this unit are *three* attractive shore lines, one on the ocean and two on the Halifax.

Within it are the choicest business locations on the Dixie Highway, the apartment and residence sites nearest the ocean, the lots which have quickest access to the proposed new ocean playground.

It embraces the park and boulevard projects which are proposed for earliest development, and contains the site reserved for the ocean plaza.

Seasoned investors who have participated in successful development projects which have made history in other sections of Florida, tell us that never has the investor been offered an opportunity such as this

—where the first allotment contained the unquestioned cream of the entire property

—where the opportunity for advancing values seemed so swift and certain.

Interested investors are invited to communicate with the representative whose name appears below:

Six Years in Hospital, 27 Major Operations, But No Pay!

ARMAN... This... World... on... Williams... operation... is gath... may be op... America... to Williams... without... emergency" of... Sam couldn't... allowance to... his life, such... officers of... Years... at Walter... has occupied a... six years... ready has been... the knee... off above the... is able to... and the other... already near... another sec... the removal... explaining. He... explains, "be... time of war—

and a lot of the boys are worse off than I am."
Son Shot Up, Too.
 What Williams worries about most is the fate of his son. The son is a "total disability" at the U. S. Navy's rehabilitation center in Colorado. He was shot almost to pieces aboard the U. S. S. Jacob Jones, an American destroyer, that was sunk during the World War.
 The irony of the manner in which a bare hand has been held out to Captain Williams by the country for which he sacrificed himself is accentuated by the fact that before he entered the army he was a government employe.
 Williams, prior to the war, worked in the Bureau of Printing and Engraving.
Then This Happened
 Here is Williams' own simple narrative of what happened to him after war was declared:
 "I joined the 80th Division at Camp Lee, Va. We were one of the first outfits to go overseas—went across in March, 1918.
 "I had command of a company in the 315th Machine Gun Battalion, and was wounded several times. My skull was fractured, my right knee-cap broken, and a bayonet was stuck through my arm.
 "I managed to get patched up, though, and stayed with my company. I was the only officer left, and there had to be an officer on

TS WASHINGTON LETTER

By CHARLES P. STEWART

just then pretty numerous acute... Concluding, he looked expectantly at his auditors, awaiting their verdict evidently in full confidence that it would be favorable.
 It was. Presidential plans seldom are looked very closely in the mouth. President Roosevelt's was greeted, almost unanimously, with enthusiastic acclaim. Almost, but not quite. Jud was glumly silent.
 "Mr. Welliver," said the colonel, severely, "what do you think of my program?"
 "I don't think much of it, rejoined Jud.

Short Skirts Only Modern Style Which Shock s Woman Ruler Upon Visit To London

LONDON, Oct. 31.—(P)—Of all the ultra modernism about the English girls of 1925 only the short skirts are a shock to the orthodox sensibilities of the Begum of Bhopal, the only woman ruler of the 700 potentates of India, who is in London taking her western civilization through her Mohammedan veil.
 The more advanced woman of her race and among the most progressive of the Indian rulers, the Begum, despite her 67 years, has come to London with her son and heir to learn the ways and manners of the land of her suzerain.
 Her Royal Highness wants her grand-daughters to learn of woman's work but she would not think of sending them to universities. Such institutions are a good place for boys but not for girls.
 "I don't think women need to know as much as a man," she added, in dismissing the subject of women's place in the sun.
 The Begum has established herself in an English mansion in the heart of Mayfair which contains nothing more suggestive of her native land than an administer carpet. Her household of 32 members are mostly court officials and personal maids, and it is an English butler who opens the pretentious door and a Cockney maid who pours out afternoon tea. The Begum is in purdah all the time, as the laws of her religion demand and it is only a pair of sparkling eyes that one is permitted to address.
 But the Begum is not travelling in state. Quite the contrary, for the representative of The Associated Press who called upon her was taken without ceremony into her private sitting room and presented to the Begum as she threw aside a piece of highly colored embroidery upon which she had been working.
 "I am quite attracted to English girls but I cannot believe they should go about in such short skirts and or without guardians," the Begum told her interviewer. "But I suppose short skirts are the fashion."
 The two sons of the Begum have several daughters and in the rearing of these children the Begum takes a personal interest.
 "I want my grand-daughters to learn a woman's work," she asserted. "They must learn to run a household, supervise cooking and know needlework but I would not think of sending them to universities. That's a good place for boys but not for girls."
 Her Royal Highness herself received a part of her education from tutors sent to her parents by the British government. From them she learned English, French and elementary mathematics. But for other subjects this powerful ruler has a natural dislike.
 The heir to the throne, who accompanied his mother, has spent most of his time in driving through the downtown streets and marveling at the shop windows.

Nolan Is First Contributor To Fund Of State Development Program

JACKSONVILLE, Nov. 2.—Claude Nolan, of Jacksonville, Cadillac distributor for Florida and one of the most widely known automobile dealers in the South, is the first cash contributor to the state fund being raised by the Florida Development at the request of Chambers of Commerce, banks and other business interests, to combat the anti-Florida propaganda sweeping the country. In contributing a check for \$250 for the fund, Mr. Nolan informed the Board that if more was needed from him he would be glad to increase the amount.
 "Attached you will find my check for \$250 which I am sending as a first contribution to your proposed fund for fighting the poisonous publicity which is being spread over the entire nation against Florida," he wrote. "I wish to go on record in this manner as heartily endorsing the movement. It is a cause which should be supported by every business institution in Florida."
 "The time has passed when we can laugh at the absurd stories being circulated about Florida—they are hurting us and hurting us badly. Feeling that they must curtail the tremendous interest in, and

When You Leave

Did it ever occur to you that when you leave Sanford, and fail to pay the merchants whom you owe, that these merchants immediately report the matter to the Sanford Credit Association and the Sanford Credit Association in turn reports the fact to the following credit agencies located in Florida:

- Bradenton—Manatee County Credit Association
- Clearwater—The Pinellas Credit Association
- Daytona—Volusia County Credit Association
- Deland—Volusia County Credit Association
- Eustis—Lake County Credit Association
- Fort Lauderdale—Fort Lauderdale Credit Association
- Fort Pierce—Retail Merchants Association
- Homestead—Homestead Credit Association
- Jacksonville—Retail Credit Men's Association
- Lakeland—Polk County Credit Association
- Leesburg—Lake County Credit Association
- Melbourne—Merchants Credit Association
- Miami—Miami Credit Agency
- Ocala—Marion County Credit Association
- Orlando—The Orlando Credit Association
- Plant City—Plant City Credit Bureau
- St. Petersburg—St. Petersburg Credit Association
- Sarasota—Merchants Association and Credit Bureau
- Stuart—Stuart Merchants Association
- Tampa—Tampa Merchants Association
- West Palm Beach—Palm Beach Co. Merchants Association Inc.
- Winter Garden—Winter Garden Credit Association (Branch of Orlando)
- Winter Park—Winter Park Credit Association (Branch of Orlando)

When each credit agency receives this information they at once "card" it and place it in their files. Often times the unfavorable information about you is already in your new home by the time you get there so it behooves you to at least square up your accounts before you decide to leave town without furnishing a forwarding address. This interchange of credit information is being sent in daily by the credit agencies shown above, to a central point in Sanford, and is broadcast daily to all credit agencies in Florida. This association is known as the Associated Credit Bureaus of Florida, so be careful.

Ybor City Rated As Center Of Cigar Industry In Florida

TAMPA, Nov. 4.—(P)—Ybor City is the center of the cigar industry in Tampa and of its population more than 25,000 people are of the Spanish race. A great many of them use the Spanish language almost exclusively.
 Ybor City was named after one of the progenitors of the Ybor family, early settlers in Tampa. It appears as a city transplanted from Spain. The traditional love of the Spanish for music and drama resulted in the erection of the Centro Asturiano, a handsome opera and club house, where Metropolitan stars have frequently entertained.
 Other Latin elements also are found in Ybor City, notably the Italians, who have built a beautiful auditorium as an adjunct to their club.
 Local activity in real estate has affected Ybor City and resulted in the displacement of some landmarks, but the Latin element pursues its way uninfluenced by such material matters as land values.

Sofia Newspapers Pay Small Salaries

SAFIA, Nov. 4.—(P)—News reporters here presumably exist on what many newly married couples always feel they can fall back on—love and fresh water. The average reporter receives about \$8 a month and, an important editor such as Nikola Mileff, who was assassinated, receives less than \$50 a month.
 Sofia has 14 daily newspapers and they sell for about three-fourths of a cent each.

Bad Bi-values Cause Ptomaine at Harvard

CAMBRIDGE, Mass., Nov. 4.—(P)—As the aftermath of an oyster dinner at the Harvard varsity club, five of the Harvard football regulars are ill with ptomaine poisoning, it became known Tuesday. The attacks are not serious, but will keep the athletes out of practice a few days. Those afflicted are Carl Lindner, Fred Mosely, Charlie Bradford, Bydie Kilgore and Joe McGlone. They will be ready for the Princeton game Saturday, the attending physicians announced. The chef of the club has been discharged.
 Sweden has had no war since 1809.

SEARCH IS PREVENTED TO BE GOD-FATHERS
 ROME, Nov. 4.—(P)—The Soviet government has prevented a recent search of Maxim Gorky's villa at Sorrient by the Italian police.
 MUNICH, Nov. 4.—(P)—President Von Hindenburg is to be godfather to the ninth son of a farmer.

SAVE AND THRIVE
 in 1925

HOW A FEW CENTS A DAY MAY SAVE YOU THOUSANDS
 The rental of a safe deposit box in the impregnable steel and concrete vault of the First National Bank, Sanford, Florida, is but a few cents a day.
 Yet the safety it will provide for your treasures may prevent the loss of thousands of dollars through fire, theft or other causes.
 Would you rather "take a chance" on the loss of your valuables, or will you put them where there is no chance of loss—in our strong, securely protected vault?
 See about this important matter today.

STETSON MEETS CARSON-NEWMAN NEXT SATURDAY

Hatters Back From Successful Road Trip, Preparing For Tennesseans; Injuries To Star Players Cripple Team

By HARRIS SIMS

STETSON UNIVERSITY, DeLand, Nov. 4.—Coach H. R. McQuillan and his squad of Hatter warriors arrived here at a late hour last night after an absence of eight days, during which time they have been on an intensive and successful scalping expedition in Georgia and Alabama territory. They secured the scalp of the South Georgia A. and M. gridster at Tifton on Monday last week by a score of 18 to 0 and added the second one of the trip when they defeated the strong Spring Hill eleven Saturday by a score of 6 to 5. The two scalps have been hung up on the scalp rack in the trophy room of the Hatter camp, and it is to be observed that a new but unoccupied nail has been driven into the scalp rack. This new accommodation awaits the scalp of the hefty and widely recognized eleven of Carson-Newman, the machine which the Hatters will face on Cummings Field here next Saturday, to provide the main and classic attraction of what is being looked forward to as a highly successful and well attended home coming day, for former students of Stetson University.

The clash next Saturday between the Green and White machine of Stetson and the gridster of Carson-Newman is firmly believed, will prove to be the most hotly contested battle on the Hatter card to be played on the home grounds this season.

The Carson-Newman machine is made up of a hefty lot of well trained men who will invade the Hatter camp Saturday with the full intention of emerging from the clash with a glorious victory to their credit, but the determined spirit which pervades the Hatter camp at present tends to point toward dire disappointment for the gridsters of the Tennessee institution.

Several of the men who were on the eight-day scalping expedition have returned with injuries which will seriously weaken the Hatter machine if rapid recuperation is not effected, though it is believed that they will be in fair shape for the Carson-Newman clash next Saturday.

Communication being received by the Stetson Boosters Committee indicates that a huge gathering of former Stetson students will be on hand on the home coming day Saturday to witness the grid machine of their Alma Mater in action against the strong Carson-Newman outfit.

Fred Clark Wants To Own Major Team

PITTSBURGH, Pa., Nov. 4.—(P)—Fred C. Clarke, former manager of the Pittsburgh Pirates and assistant to Manager McKeechie in the campaign which brought the world championship to Pittsburgh, would like to buy a major league baseball club or a big interest in one. Barney Dreyfuss, owner of the Pittsburgh club, disclosed Tuesday in denying a report that Clarke had acquired an interest in the Brooklyn National League Club.

"So far he has not been successful," the Pirate owner added.

In some parts of Norway people look up the telephone number after taking down the receiver.

The Samoan race is the only race of Polynesians who are not dying out.

Star Player And Patient

Here we have Max Carey, star outfielder of the Pittsburgh Pirates, playing two roles, that of sturdy athlete and a very sick young man. Shortly after the close of the series Carey, the outstanding star, was taken to the hospital. Pleurisy, brought on by a collision with Manager Harris of Washington in the fifth game, is the trouble. He's doing as well as expected, as they say in the hospital.

Two Pilgrim Bands Of Golfers Coming To 'Sunshine State'

CHICAGO, Ill., Nov. 4.—(P)—Feeling the frosty breath of a precocious winter, two pilgrim bands of golfers will seek sunshine under southern skies before the next return of Spring, Jan. as they escaped the withering heat last summer by jaunting north on special trains, they are now turning their "moving club houses" southward.

The first party led by Joseph G. Davis, editor of the Chicago Golfer, will start direct for the land of eternal youth, or eternal summer, at least. To be gone two weeks, the Florida invaders will go directly to Ormond, progressing by one or two day stages to West Palm Beach, Hollywood, Miami, Daytona, St. Augustine and Jacksonville.

Using their sleeping cars as hostels for the golfers and their wives expect to come out for about the cost of railway fare.

Members of the golfers' magazine excursion to the Northwest was adjudged the finest baby, physically, of all the babies examined at the Arkansas state fair clinic. His parents, Mr. and Mrs. Oscar Richards, live in Little Rock.

He's Finest

Billy Van Richards, aged 7 months was adjudged the finest baby, physically, of all the babies examined at the Arkansas state fair clinic. His parents, Mr. and Mrs. Oscar Richards, live in Little Rock.

Under the call of the state comptroller on April 18, 1925, the total deposits of the state banks and trust companies was \$291,511,996.46 while the call on Jan. 1, 1925 showed total deposits of \$197,869,947.53. This was a gain of \$93,702,048.93 or a daily increase for each working day of nearly \$2,000,000.

In Norway and Denmark a small stick fastened to a string six inches or so in length is tied to packages to make them easier to carry.

MAROON TEAM IS STRONG WITH 13 VETERANS BACK

Stagg Has Rounded Out Aggregation Which Is Heavy But Fast; Complicated Shift Plays Baffle Opposition

CHICAGO, Nov. 3.—(P)—The 1925 Chicago football team is one of the greatest that has ever represented the Maroons. Thirteen C men compose the nucleus around which Coach Stagg has built his team, the first eleven include eight seniors, one junior and two sophomores, and is a veteran team.

The team has weight, having a line that weighs over 190 pounds from end to end, and has reasonable speed. There is no so-called fat in the Chicago line. The back field is heavy but fast, and particularly adapted to the Chicago type of play. Coach Stagg uses the famous Chicago shift which starts with the tackles back immediately after the men come out of the huddle. This type of play is exceedingly complicated, involving a single, double or a triple shift of the backfield, as well as a shift of the linemen into the line.

A Chicago team will use from thirty to fifty plays, at least twice or three times the number ordinarily employed by an eastern team. Practically all of Chicago's plays start from a single type of formation, whether a buck, an end run, or a forward pass. On many of Chicago's plans the interferences are so massed as to give the defense great difficulty in getting the runner. The ball carrier is always well screened from view by the interferences. Coach Stagg is a believer in the forward pass and Chicago is usually ready to open with a strong aerial attack.

Hobscheid, right tackle, 210 lbs.
Neisley, right end, 170 lbs.
Curley, quarterback, 142 lbs.
Kernwein, left half, 170 lbs.
McCarty, fullback, 179 lbs.
Marks, right half, 182 lbs.

Veteran Kentucky Jockey Ruled Off

LOUISVILLE, Nov. 4.—(P)—J. A. Mooney, a veteran jockey, Tuesday was ruled off the tracks of the Kentucky Jockey Club for life. Mooney's expulsion came after Jockey D. Mergler had confessed to the racing stewards that he had pulled Bumpkin, a two-year-old belonging to Frederick Johnson, eastern turfman, in a race at Latonia, October 10. Mergler implicated Mooney in his confession, it was said.

Stetson University was founded in 1870. It was chartered in 1887. Henry A. DeLand, of Fairport, N. Y., who established the city of DeLand, was the founder. The freeze of the early "eighties" caused Mr. DeLand to have financial reverses and John B. Stetson, took over the financial responsibility of the school and made a success of it.

C. J. King, publicity director of the Department of Agriculture, left recently for a week's visit to Pensacola and Milton, the county seats of Escambia and Santa Rosa counties. Mr. King's trip was to be devoted to the gathering of data on the resources of the two counties, to be used in public work planned by the department.

A THREE DAYS' COUGH IS YOUR DANGER SIGNAL

Persistent coughs and colds lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the infected membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchitis and other forms of respiratory diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold is not relieved after taking according to directions. Ask your druggist. Creomulsion Company, Atlanta, Ga. (adv.)
