House Kills Bill To Tighten State Tax Collections

Measure Is Blasted As "Damnably And Vicious" By Opponents Who Won 38-32

Group Proposes Tax Commission

Lewis Says Pension Bill Sponsor It Will Not Pass

TALLAHASSEE, May 20.—(AP)—The House killed today a bill by Rep. Strayhorn of Lee to tighten up the collection of taxes. It struck out the enacting clause, 38 to 32, after opponents of the bill described it as "damnably and vicious," and said it would allow tax certificates buyers to pray upon small property owners who become delinquent.

Strayhorn said the bill would enforce tax payments by providing that purchasers of delinquent tax certificates could obtain title in the property after one year, and to homestead after two years. It would have established county delinquent tax boards.

The powerful House Finance and Taxation Committee introduced a bill to create a State Tax Commission with board authority over the valuation and assessment of property for taxation.

The five-member commission, appointed by the governor, would maintain court actions to prevent property on assessment rolls. It would establish a standard for assessment of value to be used by assessors in all counties.

Members of the House Finance and Taxation Committee charged that "many House members who failed to introduce the \$7,500,000 aid for pensioners" "hope it will never pass."

The House killed the proposed abolition of real estate taxes yesterday by voting for income and inheritance taxes to replace the \$45,000,000 a year which landowners now pay to Florida and its government.

Legislators predicted that definitely precluded passage of any general sales tax by the 1939 Legislature, because of valorem abolitionists said they would support a sales tax only after removal of property taxes.

Abolition sponsors, who had (Continued on Page Two)

Fight For Lower Freight Rates In South Continues

Governors Reply To Contentions Of New Englanders

ATLANTA, May 20.—(AP)—Southern governors held yesterday the South's sunshine and natural resources were insufficient legal grounds for denying it the same freight rates on manufactured articles as prevail north of the Potomac and Ohio Rivers and east of the Mississippi.

The contention is part of a reply attorneys filed today in Washington to exceptions to a recommendation that the Interstate Commerce Commission grant freight rate adjustments sought by the governors on all but three of 23 commodities.

The recommendation was made by Commissioner William T. Lee and Examiner Michael T. Corcoran February 27. It must be approved by the whole commission before it is effective.

Adversary interests, including New England and certain Midwestern governors, filed exceptions May 17. The reply of the Southern governors was prepared by Edgar C. Watkins of Atlanta, J. V. Norman of Louisville, Ky., and Hugh White of Montgomery, Ala.

It queries the governor of Connecticut, in opposing the rate revisions, as saying, "The South has God-given aids which even the Interior Commerce Commission cannot make." The governor of Vermont, as saying, "If we could give you our map and go along with you, we would give you the right to give us the same."

To which the brief for the Southern governors responded, "We ask that that nature be joined to the brief filed by the commission or carrier. The Supreme Court said: 'The law does not attempt to equalize fortune, opportunities or abilities.'"

"You (the ICC) have stated this well-known rule in similar language, and in many cases, and we ask that this legally sound economic rule be here applied. The brief also sets forth: 'It is true that the South has an equitable climate and abundant natural resources; and, if transportation facilities could be had on equal terms, her industries could manufacture some of these natural resources at less cost than in sections where such raw materials are more distant, less abundant or more costly. Why are not consumers throughout the Nation entitled to participate in the use of what nature has provided?'"

POISON PROBER

One of the busiest men in Philadelphia is Vincent McDevitt, assistant district attorney, in charge of city's investigation of multi-state murder-for-profit ring of poisoners.

The date for the hearing at which a delegation from the St. Johns River Improvement Association will appear was set by Col. Wheeler, a member of the board, according to information received from Washington.

At the Florida capital today, the Senate adopted a resolution asking Congress to provide a deeper and safer channel and the continuous improvement thereof of the St. Johns River between Jacksonville, Palatka and Sanford, which "is at this time seriously impeded by several bars or shoals that prevent the passage of vessels now plying the said river."

It was understood that in requesting the hearing, on the proposed waterway to the East Coast Col. Wheeler advised that there was an indication that Col. J. J. Bain, chief of the Division Engineers, had turned down the project because he was laboring over the impression that the consideration of such collateral benefits as drainage, etc. was not permitted.

Congressman Joe Hendricks who made arrangements for the hearing, advised proponents that he was attending a conference with Admiral Coker, chief of the Bureau of Aeronautics, of the Navy Department, and invite him to testify as to the benefits of the proposed airbase in the St. Johns River.

Congressman Hendricks suggested that the project be carried out in stages, and that the first stage be the construction of a 10-mile airbase at the mouth of the river, which would be inaugurated with the departure of the Yankee Clipper, carrying a crew of 14.

On the twelfth anniversary of the day Col. Charles A. Lindbergh pulled his little plane off the runway of a Long Island airport and set his course for Paris, the giant airliner will initiate a shuttle service between Southampton, England, and Baltimore and New York, Ireland.

Only mail will be carried in the beginning. But July 1 Pan American Airways, to which a government agency today awarded a "route certificate," expects to be selling transatlantic tickets over the counter. The schedule calls for two round trips a week.

On the so-called "southern route," by way of the Americas, Liberia and Maroon, the elapsed time is expected to be less than 48 hours. On the "northern route," by way of Botwood, Newfoundland and Point, Ireland, the flight will be made in about 24 hours.

The fare remains to be announced, but officials said it probably would run between \$350 and \$400.

Following a discussion of Rotary activities throughout the past year, refreshments were served by Mrs. S. O. Shinkholer, assisted by Mrs. S. O. Shinkholer, Jr.

Among those present were: Mrs. Grace H. E. Pope, Randall Chase, Roland Dean, George Rollins, W. A. Laffler, Clyde Parker, W. H. Coleman, Dr. R. W. Ruppert, Paul Elton, Earl Turner, L. L. Ingler, Walter Harner, Charles Morrison, Dr. A. W. Epps, and Mr. Shinkholer.

June 5 Is Set As Date For Canal Hearing

Rivers, Harbors Board Asked To Reconsider Unfavorable Report Of Army Engineers

June 5 has been set as the date for the hearing before the Board of Engineers of the Rivers and Harbors Committee on the proposed St. Johns Indian River Canal which was reported unfavorably recently by the division engineers of the U. S. Army.

The date for the hearing at which a delegation from the St. Johns River Improvement Association will appear was set by Col. Wheeler, a member of the board, according to information received from Washington.

At the Florida capital today, the Senate adopted a resolution asking Congress to provide a deeper and safer channel and the continuous improvement thereof of the St. Johns River between Jacksonville, Palatka and Sanford, which "is at this time seriously impeded by several bars or shoals that prevent the passage of vessels now plying the said river."

It was understood that in requesting the hearing, on the proposed waterway to the East Coast Col. Wheeler advised that there was an indication that Col. J. J. Bain, chief of the Division Engineers, had turned down the project because he was laboring over the impression that the consideration of such collateral benefits as drainage, etc. was not permitted.

Congressman Joe Hendricks who made arrangements for the hearing, advised proponents that he was attending a conference with Admiral Coker, chief of the Bureau of Aeronautics, of the Navy Department, and invite him to testify as to the benefits of the proposed airbase in the St. Johns River.

Congressman Hendricks suggested that the project be carried out in stages, and that the first stage be the construction of a 10-mile airbase at the mouth of the river, which would be inaugurated with the departure of the Yankee Clipper, carrying a crew of 14.

On the twelfth anniversary of the day Col. Charles A. Lindbergh pulled his little plane off the runway of a Long Island airport and set his course for Paris, the giant airliner will initiate a shuttle service between Southampton, England, and Baltimore and New York, Ireland.

Only mail will be carried in the beginning. But July 1 Pan American Airways, to which a government agency today awarded a "route certificate," expects to be selling transatlantic tickets over the counter. The schedule calls for two round trips a week.

On the so-called "southern route," by way of the Americas, Liberia and Maroon, the elapsed time is expected to be less than 48 hours. On the "northern route," by way of Botwood, Newfoundland and Point, Ireland, the flight will be made in about 24 hours.

Vote Nears On Bill To Raise Chains' Taxes

Proposal Is Favored As Source Of Revenue From "Those Best Able To Pay"

TALLAHASSEE, May 20.—(AP)—Legislation to place heavy taxes on the chain stores in Florida is near a showdown vote in the Senate today. The rates proposed in the bill by Senator Savage of Ocala would put top license taxes of \$1,000 on each unit in chains of 100 or more stores, and \$3,000 on equally large department store chains.

Opponents insisted the measure would injure Florida agriculture, but would not drive the chains out of the state. Supporters defended the Savage bill as a means of obtaining several millions of dollars from "those best able to pay" taxes in the state.

By voice vote the Senate adopted the bill by Senator Savage, Ocala, interrupted what was reported to be the first of a filibuster on Court Justice pay yesterday to call up the measure which would increase chain store taxes.

Adjustment time came before the chain tax discussion could be completed and the bill introduced by Savage and others was the first order of business today.

By voice vote the Senate adopted amendments to the bill lowering the taxes slightly to conform to a similar House measure. They still are considerably higher than levied on occasional license payers, levied on chains in varying amounts according to the number of stores owned by one firm.

The chain store measure was referred by a committee but was not taken up as a special order of business Thursday. It was not considered then but (Continued on Page Two)

E. B. I. Definitely Identifies Broxton From Fingerprints

Joseph Broxton, whose clothing was tentatively identified by his mother after his body was found last Tuesday in Lake Monroe, was positively identified last night by fingerprints in a wire received by Police Chief Roy Williams from J. Edgar Hoover, head of the Federal Bureau of Investigation in Washington, D. C.

After finding the body, members of the local police force made finger prints which were immediately sent to the F. B. I. headquarters for possible identification by comparison with prints possibly on file at the bureau.

At the time of the mailing of the prints, the tentative identification of the body had not been made. The only information sent with the prints listed the man as "unidentified corpse found floating in Lake Monroe." Last night's wire to Chief Williams definitely determined the identity of the man.

This positive identification, the Chief stated, will make possible the collection of some small insurance policies which Broxton carried, without waiting for seven years and then having the courts declare the man legally dead. Also it removes any doubt whatsoever in the minds of the members of the man's family as to his identification.

SALUTE TO NEW FASCIST WAR PACT

Back from Lake Como where, with Italian Foreign Minister Ciano, he negotiated the recent German-Italian military alliance, Nazi Foreign Minister von Ribbentrop is pictured returning the salutes of cheering, flag-waving Milanese citizens. Behind him is Count Ciano of Italy.

Seminole Scout Council Plans Fund Campaign To Raise \$300

Plans for a campaign in Seminole County to raise \$300 as this county's share of the \$7,000 budget of the Central Florida Council of Boy Scouts of America were made at an organizational meeting of the Seminole County Council in the Valdez Hotel last night.

The drive will be launched with a breakfast for all workers in the Valdez Hotel at 8:00 A. M. Friday May 20. The funds will be used to pay this county's share of the general executive administration, organization, training and camping expenses of the Central Florida Council.

During the meeting it was pointed out that Seminole County has a splendid Boy Scout organization and has the largest membership in proportion to population of any county in the seven included in the Central Florida Council.

This county has four white troops and two neighboring parishes as well as two negro troops which have been recently formed. The Seminole County scout troop include Troop No. 6 which has 72 members with Herman Morris as scoutmaster; Troop No. 8 with 61 members of which W. E. Kader is scoutmaster; the Sea Scout troop which has 11 members; the Presbyterian troop with 29 members which is being organized and two negro troops with a total membership of approximately 30.

There are neighborhood patrols at Lake Mary and Osceola. Those present at last night's meeting included Dr. E. D. Brownlee, Seminole County Scout Commissioner; R. W. Ware, Harold Powers, Mrs. R. J. Holly, Mrs. Andrew Carraway, Mrs. John Sparman, the Rev. J. J. Kellaghan, Roy Howell, R. A. Smith, and Harold Pace, scout executive, for the Central Florida Council.

Doctors' Report Is Accepted In Verdict

SARASOTA, May 20.—(AP)—A coroner's jury officially closed an investigation of the death of socialite Potter D'Oray Palmer yesterday with a report that he succumbed to "streptococcus infection culminating in bronchopneumonia."

The four-times-married heir to a Chicago fortune died in a hospital here Monday four days after he engaged in a fist fight at a stag picnic near Bradenton. The jury's verdict adopted the phraseology of an autopsy report that he died of natural causes and not as the result of violence. The autopsy was performed by Dr. David R. Kennedy, who attended the 35-year-old Palmer during his fatal illness, and Dr. Herbert R. Mills, Tampa pathologist.

The verdict was returned to Justice of the Peace Franklin Edd, Jr., who ordered the investigation.

DRUNKS OUTLAWED

AUSTIN, Tex. May 20.—(AP)—Seminole County residents were urged to prohibit drunken motorists driving.

Public Demand British Pact With Russia

Unusual Unanimity Of English Opinion Favors Military Alliance With Soviet

Strife Continued By Aroused Jews

Economic Measures Planned As Protest To Britain

By Associated Press

Signs of stress and turmoil intensified in Asia today as in Europe the pressure of French government and public opinion in England weighed on Britain to bring Soviet Russia into the British-French lineup.

In the Near East, Palestine's aroused Jews worked beneath an outward calm to arrange economic measures in protest against Britain's plans to give the Arabs dominance in the Holy Land.

Rebel Druze Hill tribes in Syria began a new campaign for independence as the dissension grew apparently fed by the French agreement in principle to reattach the Republic of Hayast (state of Alexandretta) to Turkey.

In the Far East, five Japanese cabinet ministers reached an agreement on Japan's position in the European situation and were expected shortly to issue a statement.

Available sources in London, meanwhile, indicated an unusual unanimity of British opinion favoring a tie-up with Russia as a counter-out negotiation shifted to Paris where British Foreign Secretary Halifax conferred with Premier Daladier.

The French cabinet approved new decrees dealing with national defense.

Shanghai's crowded International Settlement and French Concession were under a military (Continued on Page Two)

Woodcraft Club Is Organized By Recreation Group

A small fund was appropriated yesterday afternoon by the Recreation Committee of the Seminole County Chamber of Commerce for the establishment of a woodcraft shop in the Catholic Rectory on Oak Avenue. As soon as equipment is received, the committee plans to organize, under the supervision of Recreation Director R. M. Hardaker, a Woodcraft Club. The Rectory is now made available without cost and is being used at the present time as a meeting hall for the committee-sponsored Model Aeronautics Club.

Chairman W. R. McCracken, who presided over the meeting, appointed Dr. L. T. Doss and H. E. Morris as a special committee to investigate the possibility of sponsoring a semi-pro baseball team.

A concert by the WPA band of Orlando will be given in the Municipal Pier in the near future, according to plans formulated at the meeting. The date will be announced later.

Light Employees Get Award For Record

The employees of the Phoenix plant of the Florida Power and Light Company will be awarded a plaque this afternoon at special ceremonies to be held at the plant in recognition of their record of better than five years without a single serious accident.

Following the presentation ceremonies, a barbecue will be held for the workers at the plant who established this record and for visiting dignitaries of the County, City and company.

This evening a dance will be held at the Armory for the same group.

LOCAL WEATHER

Mostly cloudy tonight and Sunday, probably occasional light rain on the south coast.

Counties Refuse To Budge On Gas Tax Distribution Row

FORT MYERS, May 20.—(AP)—Chairman of the Lee and Collier County Commissions said yesterday they had rejected an appeal from 48 members of the House to abandon opposition to proposed legislation broadening terms of the 1931 gasoline tax distribution law.

The measure, already approved by the Florida House, would have revenue from three cents of the gasoline levy going back to the counties in varying degrees, the bill said.

D. Graham, Colonial chairman of the Collier County Board, and Chairman Harry B. Shinkholer of Lee said they would not support the bill unless it was amended to give the counties a larger share of the tax.

Collier said he would support the bill only if the governor would call a special session of the Legislature to consider the bill. Lee said he would support the bill only if the governor would call a special session of the Legislature to consider the bill.

City News Briefs

The weekly drill sessions of the Sanford National Guard company will be held in the Armory Monday night at 8:00 o'clock.

Recreation Director Starts Boys' Boxing

A group of boys interested in boxing met with Recreation Director R. M. Hardaker when plans were made for a meeting at the City Hall last Tuesday afternoon when the group will begin boxing lessons at the Catholic Rectory.

Mr. Hardaker and the Rev. J. J. Kellaghan made an inspection of the gymnasium at the Rectory where supervised training equipment will be set up for the use of the boys following the meeting.

Plans for Sunday afternoon boxing sessions will be made at the meeting. The director stated on the amount of interest shown, and the number of boys who turn up for the club.

All training sessions and training equipment will be provided by the Recreation Department. The club is open to any boy who is interested in boxing.

The club is open to any boy who is interested in boxing.

Negro WPA Worker Drowns In Creek

Sam Mikel, middle-aged negro WPA worker, was drowned yesterday afternoon when he fell in a ditch near the City Hall on Sixth Street while having an epileptic seizure. He was not found until 45 minutes after he fell into the water.

Firemen from the volunteer fire department, and a local physician who is a member of the fire department, were summoned to the scene in an unsuccessful attempt to revive the man.

Police Clamp Down On License Holdouts

Patrolman Roy Tillis last night completed the serving of approximately 75 subpoenas on persons who have as yet not purchased City occupational licenses.

These persons will be forced to appear in Municipal Court at 4:00 o'clock Monday where they will be liable for the amount of a fine "not to exceed twice the amount of the license."

These licenses were due last October, but the six-month grace period allowed delinquents expired only recently. This is the first definite step that has been taken by police to enforce the license ordinance, although they had previously notified all delinquents that the law was due.

Members of the board present at yesterday's meeting included P. B. Smith, H. G. DuBois, J. H. Colclough, E. F. Lane, F. E. Corrao, R. M. Ball and H. James Gut.

Real Estate Board Hears Bagwell Talk

The Seminole County Real Estate Board met yesterday at the Chamber of Commerce building where Ralph Bagwell, secretary of the Chamber of Commerce announced the unfavorable report by the U. S. Division Engineers on the St. Johns-Indian River canal, and described the plans for a dam across the river.

Requests for further consideration which the exponents of the canal are now planning to submit.

Members of the board present at yesterday's meeting included P. B. Smith, H. G. DuBois, J. H. Colclough, E. F. Lane, F. E. Corrao, R. M. Ball and H. James Gut.

AN INTERESTING PROPOSITION

The brilliant record of Sanford's League-leading precedent-making baseball team is attracting public attention far and wide while sport fans beyond the realm of the State League are beginning to look with jealous eyes upon the spectacular achievements of Dale Alexander and his Sanford Lookouts.

Yesterday Sam Butts, sports editor of the Times-Union, broke out in his "H's, A's and B's" column with the interesting suggestion that a deal might be made by Jacksonville to swap the Tars for the Lookouts providing sufficient boot were included to make the deal attractive.

His suggestion was prompted by a letter from a baseball fan who evidently has not been completely satisfied with the somewhat less than impressive record of the Tars and was looking around for material which might improve the chances of the home team.

"What do you think of the idea of swapping ball teams with Sanford?" this fan asks Mr. Butts. "Even if we had to throw in our flood-light plant on Myrtle Avenue and the Municipal Docks and Terminals?"

Mr. Butts thinks the idea is a good one though he balks at the docks and terminals, evidently believing them essential to Jacksonville's commercial life, and he expresses the doubt that Sanford would be interested in such a trade.

Mr. Butts is right. We certainly wouldn't consider any such boot as the flood-light plant. Sanford already has one of the best lighted baseball fields in the State of Florida, as well as the best baseball team, so there would be no inducement whatever in trading for the Tars and their floodlights.

However, if a deal can be arranged whereby the Jacksonville fans will throw in that \$27,000,000 air base we have been reading so much about lately, or use their influence with the powers-that-be in Washington to secure the construction of the St. Johns-Indian River Canal, we might consider the proposition.

On second thought, however, we believe we better stick to the Lookouts. That air base might turn out to be hot air, while the Lookouts have already demonstrated their value as a tangible asset.

AN OLD DREAM FADDES

Still one more of the problems which men hopefully believed were settled at Versailles now proves to be, 20 years later, far from solution. Commenting on his age-old Jewish dream of a homeland in Palestine, Willis Thornton writes for the Newspaper Enterprise Association that under British mandate, the beginnings of such a homeland have been made. Thousands of Jews have returned there from many countries of the world. They have worked hard, invested capital, created the beginnings of a Jewish state, he points out.

"Now Britain, exasperated at years of friction when it has had to interpose troops between factional fighting of Jews and Arabs, apparently wishes to liquidate the whole thing so far as she is concerned," Mr. Thornton declares. "The Empire would withdraw its mandate, withdraw its troops, and leave behind an Arab state in which no more than a third of the population might be Jews."

"Thus the world is presented with a new problem which is almost certain to become acute. Jews in many lands have actively supported the building of a homeland in Palestine, immigrants have gone there from many lands as to a refuge. Will they stand helpless and see these immigrants become a mere minority in an Arab state? It is not likely.

"Already in Eastern Europe plans are on foot to recruit a military force from Jews of many countries, a sort of Foreign Legion, for service in Palestine in case the Jews there find it necessary to defend themselves and the gains they have already won.

"The Palestine problem is a complicated one, on which even all Jews are not completely united. It is a subject on which most Americans are not widely informed, yet none can stifle an involuntary sympathy for a brave effort which has suffered so rude a check.

"Certain facts are pretty clear as regards British policy: with immense interests in the Far East, with millions of Oriental subjects, the British are evidently unwilling to risk offending the Arabs, who were allies during the World War, and are now closely kin to Turkey, newest British ally of today.

"Thus it is clear that the fate of Palestine as a Jewish homeland is deeply affected by the great streams of international politics, and is not a problem that can be considered in a vacuum, or as an abstraction. The gallant effort of the Jewish people to establish a refuge and a homeland has been caught up in vast tides. Today it floats like a chip upon the angry waters of the world."

Public Demands British Pact With Russia

(Continued From Page One) Many people last night at police headquarters were surprised to find that the foreign-controlled areas for persons suspected of illegal activities.

Before midnight 150 suspects had been taken in a campaign to stamp out lawlessness which might prove a precedent for Japanese intervention in the international arena.

Russian necessities aided the police, and special street patrols were provided by the United States Marine detachment stationed here and British and French detachments.

House Kills Bill To Tighten State Tax Collections

(Continued From Page One) predicted they had 88 votes in the House membership of 95, found their lines broken wide open after a day of debate in which the plan was condemned by several and defended by a few who spoke for it.

In the end, with the income and inheritance taxes attached as riders to a proposed Constitutional amendment, the abolitionists folded their tents and their own leader, Representative Lewis of Gulf, asked that the plan be defeated.

The final roll call vote was 79 to 8 against the amendment, but ahead of it was the killing point—a 43-40 vote which required that any abolition amendment should carry with it repeal of the present Florida prohibitive tax against income and inheritance taxes.

Earlier in the day, the House had refused, 46 to 42, to limit inheritance and income taxes into the abolition, along with authority for future Legislatures to levy some other form of tax, including sales tax or land use and property rental income tax in place of ad valorem.

Opponents of outright abolition said a sales tax would result unless voters could authorize income or inheritance taxes at the same time they voted on abolition.

Growers To Limit Orange Shipments To 900 Carloads

LAKELAND, May 20.—(AP)—Florida growers who estimated they represented approximately 90 percent of the Valencia orange crop remaining in the State agreed yesterday to limit shipments next week to 900 cars.

The figure was 100 cars less than the voluntary quota adopted by the group at its initial meeting last week. At that time the growers declared a three-day "picking holiday" for Valencia and fixed the current week's allotment at 1000 cars.

Satisfaction with the voluntary control program was expressed by citrus men here today, they pointed out that the average acreage per grower had advanced 25 cents and was holding firm.

The 800 car quota to become effective next Monday applies only to those participating in the plan.

The group will meet again next Friday.

Lookouts Split Twin Bill With Anglers

Locals Lose First Fray 11-5; Take Second Contest By 11-8

Locals Lose First Fray 11-5; Take Second Contest By 11-8

Initial Encounter With Sanford Outfits Leasburg 13-12 In 2nd

Sanford Lookouts split a double bill with the Leasburg Anglers in their opening contest when they dropped the first tilt at 11-5, but they were able to come back to win the brief seven inning row 11-8 in two contests marked for heavy hitting and the use of a variety of hurriers by both sides.

The local club set a new league record by collecting 14 straight wins. The old record was 11 straight wins set in August, 1935, by Leasburg, the same club which ended Sanford's record last night.

In the first session Jake Bunch held the Lookouts to nine hits and two runs while the Leasburg hurler was pounding Jeter and Souther for a total of 10 blows and 11 runs.

Sanford put on a large fourth inning netting four runs to obtain a temporary lead which the Leasburg nine nullified in the last of the seventh when it pushed across seven runs.

In the second game Vincent and Pinder teamed up with 12 hits between them, but kept the blows scattered well enough that the Anglers produced only eight runs, while the Lookouts fell on the offerings of the three Leasburg hurlers, Walters, Arnold and the left handed Petropoulos for a total of 13 safeties and 11 tallies.

Both teams turned up with tallied with two more tallies collecting seven runs, while the best Leasburg pitcher produced was five tallies. The Lookouts picked up another run in the first of the fourth, but the Anglers retaliated with two more early tallies in the last of the fifth.

In the seventh, and final frame of the second game, both outfits came through Sanford to collect three runs and the ball game ended the best the Anglers could produce was one counter.
