While the revenue bill was being rushed through another onrush of amendments in the House Friday, reaching a point where a final vote is possible to narrow. Republican organization leaders continued negotiations with the insurgents which brought prediction that the Democratic income rate scheduled would be replaced by a compromise.

Senators Displeased With Attorney General's Decision To Remain and Move For Immediate Resignation

By The Associated Press.
WASHINGTON, Feb. 29.—Daugherty will be retained on the flat of Coolidge delegates at large from Ohio to the Republican National Convention regardless of the fight against him in the senate and notwithstanding the question of his continuance in cabinet.

WASHINGTON, Feb. 29.—Renewed efforts to bring about the resignation of Attorney General Daugherty are under consideration among senate Republicans.

Some of the party leaders who have participated in recent negotiations looking to his retirement are not satisfied with the arrangement which permits him to remain in the cabinet until the senate investigation of his administration is concluded. This plan, they say, may mean an indefinite delay.

Statement Disappointing. The statement of Mr. Daugherty before he left Thursday for Chicago was an evident disappointment to these senators although the resignation will be demanded at the conclusion of the senate inquiry, it is argued by his critics that he ought not to be allowed to remain in office to influence the course of the investigation.

The resolution of inquiry is to be adopted Saturday under a formal agreement entered into late Friday, giving it exclusive right of way. Its author, Senator Wheeler, Dem., Montana, remained on watch all day, but in the turmoil of other senate affairs, was unable to find an opportunity to call it up. Late in the afternoon Senator Robinson of Arkansas, the Democratic leader, obtained a unanimous con-

Famous "Bobbed" Government Made Bandit Is Captured New Offer For Its After Pistol Battle Merchant Marine

PILADELPHIA, Feb. 29.—Philadelphia's "bobbed hair bandit" was captured Thursday by police in a pistol battle with her male accomplice who escaped after seriously wounding one patrolman.

The plan as outlined by Miss Crawford is now in use in many communities in the south, several of which are in this state. She pointed out the success which the St. John's county federation of welfare work had met since its organization.

According to Miss Crawford the idea is to group the work of the 29 separate organizations now performing the same service in each organization.

They fled to the street, where their efforts to start a parked automobile attracted police attention. The man commandeered a motor truck, covering its driver with a pistol and ordered him to drive off.

Previous offer of sale by the board has been on a flat basis of \$30 a ton. PALMER DENIES ZEVELEY WAS LAW PARTNER

Palmer Takes Stand as First Witness Today and Admits His Retention as McLean's Attorney But Denies any Connection with Zevely's Harry Sinclair's Council.

(By The Associated Press)
WASHINGTON, Feb. 29.—Further details of the position taken by Edward B. McLean in publication of the Washington Post toward the oil inquiry were given today by the oil committee Friday by A. Mitchell, attorney general under Wilson, called to the stand as the first witness Friday.

Palmer explained his retention as McLean's attorney but denied that J. W. Zevely, counsel for Harry F. Sinclair, is his law partner as had been suggested in a McLean telegram which was published regarding a certain report. Palmer stated categorically he did not take up this matter with Senator Underwood adding that he had not discussed the inquiry with any senator except Walsh of Montana and Chairman Lenroot.

Another engrossing chapter crammed with mystery and personal emotion was added to the public record today by the senate oil investigation.

The characters in the story included such mysterious personages as "Apricot," "Peaches" and "The Duck," referred to in code messages exchanged between Edward B. McLean, publisher of the Washington Post, and his employees, during his flight to Florida. Among the more striking passages in the chapter before it was completed was the dramatic appearance of Chairman Lenroot on the senate floor to explain and defend his committee's course and to announce that he would be glad to be relieved of the pressing duties of the chairmanship.

As the day's story was unfolded, new names were brought into the inquiry, including those of Senators Curtis of Kansas, the assistant Republican leader, and Underwood of Alabama, a candidate for the Democratic presidential nomination, whose influence was sought in the effort to keep McLean off the witness stand.

Additional witnesses were summoned, among them A. Mitchell Palmer, attorney general in the Wilson administration, who acted for a time as counsel for McLean in communications with the oil committee. He will be heard Friday.

The writing of more interesting chapters was arranged for by the investigators in their decision to have brought before them additional telegrams exchanged between McLean and others as well as messages that may have been sent to Albert B. Fall, J. W. Zevely, counsel for Harry F. Sinclair, and E. L. Doheny.

H. A. Neel Formerly of Sanford Herald Buys The Gazette

H. A. Neel, formerly associated with R. J. Holly in the ownership of The Herald, was a visitor in Sanford Friday. Mr. Neel moved from Sanford soon after selling his interest in The Herald, and was located for some time in Sarasota. From there he recently went to Kissimmee where he now has his home.

In an interview with The Herald this morning Mr. Neel stated that he had purchased a half interest in the Kissimmee Valley Gazette. W. H. Harris, editor of the Gazette for the past 30 years, sold his entire stake to Mr. Neel, who now is associated with W. F. Vans Agnew, as half owner. Mr. Vans Agnew has been with the Gazette for the past eight years. He will continue to act in the capacity of secretary and treasurer. Mr. Neel is editor and manager in the new organization.

In commenting on the business situation in Kissimmee, Mr. Neel said that Kissimmee is on the eve of a big boom. It is now a thriving little tourist town, Mr. Neel continued, "and the luck country surrounding it is excellent for both trucking and cattle raising."

Mr. Neel's plans for the policy and future conduct of his paper, are not yet definitely outlined, but he showed that it was his intention to enlarge the Gazette as rapidly as the growth of the town would permit. At present a weekly, the paper will be made a semi-weekly before another tourist season, Mr. Neel stated. "At once," he continued, "it will be our endeavor to enlarge the editions until they present a more metropolitan aspect." In Kissimmee and intends to devote Mr. Neel's entire time to his new enterprise. It is his belief that Kissimmee's situation at the fork of the highways leading to Miami and Tampa will prove a great asset in its future development. Mr. Neel will return to Kissimmee tomorrow to take up his duties as editor of the Gazette.

Senator Hefflin Starts Discussion. Senate discussion of the oil scandal was precipitated by Senator Hefflin, Dem., Alabama, who referred to published accounts of the visit Chairman Lenroot made to Fall at his hotel here before the former interior secretary sent his statement to the committee, that McLean had loaned him \$100,000.

The Alabama senator's charge that such "secret confessions" by Republican senators and those under suspicion were impeding the oil inquiry brought a statement from Senator Lenroot concerning the visit to Fall. Senator Smoot confirmed the statement given by Senator Lenroot, and dramatically told the senate he had never done a thing in his life for any money.

The names "Underwood" and "Curtis" appeared in telegrams. Continued on page 8.

Sanford Girls' Cage Team Will Play Fast DeLand Outfit Friday

Friday afternoon basketball fans in this city will have opportunity of seeing the Sanford High School girls' sextette in action for the first time this season when it will meet the fast DeLand High School team on the Grammar School court at 4 o'clock. While the local team has lost several games this season, it generally is conceded to be one of the best that has been turned out here for several years. Last Saturday night the team downed the Leesburg sextette in a fast game at Leesburg. Little is known of the strength of the visitors but it is reported that they have been practicing hard for tomorrow's game knowing that the game will be hard fought from the start. Keen rivalry between the teams always insures interesting contests, it is believed.

On Saturday night the girls' team with the boys' team will journey to St. Cloud to meet the high school teams of that place. These games will probably mark the close of the season so far as the local teams are concerned.

HELEN VERNAY IS CHOSEN FOR HIGH HONOR AT SCHOOL

Selected as Member of Freshman Commission at Florida State College for Women.

FLORIDA STATE COLLEGE FOR WOMEN, Feb. 23.—The "tapping" of 25 young women of the freshman class for Freshman Commission and 15 young women for Y. W. C. A. Commission, an annual custom at Florida State College, was observed with impressive dignity last Monday afternoon at 5 o'clock.

The young women serving on the two commissions are, as nearly as possible, a representation of the entire class. They are chosen by a nominating committee from both the Student Government and the Y. W. C. A. organization. The names of the commissions are withheld until the hour of the "tapping," when, according to custom, members of the Freshman class assemble in a group, attired in white. Then, as the signal is given, and in the presence of the remaining members of the student body, Student Government and Y. W. C. A. representatives step forward to pin the badge on the chosen number.

The service is usually held on the campus in order that it may be witnessed by all who so desire. This year, however, the inclement weather did not permit the custom to be followed, and Bryan Hall Atrium was used instead, the Freshmen occupying the main floor space, and the audience of upper classes in the balcony. Immediately after the "tapping" the entire freshman class repeated with Mabel Murphy, president of Student Government, a pledge of loyalty, and individual responsibility and cooperation.

Lola MacQueen, president of the Y. W. C. A., then spoke a word of welcome to the incoming commissions. This was followed by a general chorus singing of the college song. The newly-appointed commissions then adjourned separately, with the members of the old commission and the Student Government and Y. W. C. A. committees, to take the pledge of duty.

At 8:30 o'clock, the dinner hour, the committees and old and new commissions again assembled in the dining room to find their places at special tables arranged in the shape of the "E."

The young women "tapped" for Freshman Commission are: Annie Kay, Ocala, chairman; Mildred Bruce, Orlando; Annetta Liddon, Marianna; Blanche Curry, St. Augustine; Ruth Goldberg, Tampa; Lillian Long, Gainesville; Helen Lynch, St. Petersburg; Ada Nichols, Tallahassee; Ada Miller, St. Augustine; Mary Clayton, Eufaula; Clara Kaphart, Interlachen; Edith McCollum, Jacksonville; Helen Vernay, Sanford; Camela Attanasio, La Belle; Kathleen Cleckley, Tarpon Springs; Lois Varn, Fort Meade; Lassie Goodbread, Lake City; Jennie Mae Johnson, Key West; Merle Smith, Stockton; Claudia DeMerritt, Key West; Rachael Smith, Lakeland; Harriett Robinson, Orlando; Esther Smith, Suwanee, N. Y.; Helen Dutton, DeLand, and Edith Futch, Altachun.

Those chosen for Y. W. C. A. are: Harriett Robinson, chairman, Orlando; Eula Zetrouer, Micanopy; Mary Kincaid, Jacksonville; Mildred Harris, Jacksonville; Jess DeLoan, Ocala; Pearl Hertz, Tallahassee; Elizabeth Jackson, St. Augustine; Julia Lively, Tampa; Marion Meffer, Tampa; Carmen Noales, Fernandina; Elizabeth Clark Randolph, Jacksonville; Elizabeth Smith, Madison; Martha Turner, Miami; and Annie McKay, Ocala.

NUMBER COUNTY COLONIAL RECORD CLUBS FORMED SPANISH FLORIDA A T UNIVERSITY BEING COMPILED

Twenty-five Active Clubs Have Been Organized at University of Florida Now.

Florida State Historical Society Is Sponsoring Work of Securing Interesting History.

UNIVERSITY OF FLORIDA, Feb. 23.—The number of county club organizations now functioning at the University of Florida totals 25, while there are many other counties represented at the University, but which for various reasons, do not have an active organization. Some of these clubs have been organized since the university was first founded, but the majority of them have only been formed in the past few years.

DELAND, Fla., Feb. 23.—The colonial records of Spanish Florida are being compiled by the Florida State Historical Society, according to a report submitted to the annual meeting of that organization here. Typed copies and photostats of the original Spanish documents, now in Spain, are being made by a representative in that country. These will be assembled in three volumes by Mrs. Jeanette Thurber Connor (Mrs. Washington E. Connor), vice president of the society.

Assembling of this data is described by Mrs. Connor as nothing less than the beginning of the documentary history of Florida—"which stands nearly alone in not yet having its historical background fully explored."

The volumes will be compiled so as to have the original Spanish appear on the left page throughout, and the English translation on the right. The originals will be in printed form. Portions of any specially interesting document will be reproduced in facsimile.

Starting with the period just before and immediately following the death of Pedro Menendez, the first volume covers the years from 1570-1578. This volume already has been completed and is in the hands of the printers. It will be issued next fall, it is stated. Volume II will bring the history up to 1595, and will include much of the unpublished and much almost unknown Spanish material about Sir Francis Drake's capture of St. Augustine. This volume is said to be now one-third completed. The third volume will contain a great deal about the murders of the Franciscan friars by the Indians, and the relations of the friars with the governors and the friars.

Markham Gives An Interesting Talk At Rollins College

Wednesday afternoon Edwin Markham, poet and critic, discussed Robinson and Masters as leaders among the new group of poets. Mr. Markham said that in his lectures he was only going to talk on the men who had written their names far up on the pillar of fame. He does not intend to discuss the lesser lights at all.

In discussing Robinson Dr. Markham said, Edwin Arlington Robinson was born in Maine in 1890. He grew up to be a man with a strong mind and body. I knew him well for many years. One of his strange powers is that of being silent. Robinson will sit in a company of people for a whole evening and never say a word. He has a strange looking face that is more easily imagined than described. His fame as a poet is rapidly going all over the world. His first most important book, "Captain Craig," published in 1902, is a fine piece of psychology in the cryptic manner of Browning. This book caught the eye of Theodore Roosevelt when he was president. He became deeply interested in Mr. Robinson and latter offered him a place in the New York customs house. In 1910 he published his most characteristic volume, "The Town Down the River," but his most powerful book, "The Man Against the Sky," appeared in 1916.

There is a tang of individuality on all these pages, for Robinson is a verbal portrait painter, always keen, but always kindly. Sometimes he is half cynical and at other times is mystical. In "Miniver Cheevy" and "Richard Cory." In poems of this sort his genius is at its highest.

In Richard Cory for instance we have a group of young men who are poor and struggling, watching Richard Cory, who is very wealthy, take his morning walks, glittering with prosperity. He was envied by them all in their hard work but one night Cory went home and committed murder.

Robinson's sympathetic study of men whose lives were called a failure from a worldly point of view were hard slams against the high valuation we are accustomed to place upon financial achievement and upon success at any cost. Robinson is an excellent technician. There is never a false image nor a blurred line in any of his verses. He has the happy art of nearly always ringing the bell at the end of his poems.

His next lecture will be given Monday afternoon at the Woman's Club. The subject for the afternoon will be Robert Frost and Vachel Lindsay.

SLENDER WAIST IS BIG HELP IN CATCHING THIEF

Mechanic Suggests He Be Placed in Locker to Watch for Coat Stealers.

NEW YORK, Feb. 23.—Due to his slim waist line, Harry Buskert, a mechanic employed at the Durant Motor Company, 622 West Fifty-seventh Street, was selected by brother employees to catch a sneak thief who had been robbing the locker room of coats, hats, small amounts of cash, fountain pens and watches during the last few weeks.

Buskert's slimmness suggested to the others that he be placed in a locker, with a coat draped about him, to see who would try to steal the coat. The mechanic accepted the idea, and after punching the time clock Wednesday morning slipped into the locker. He was so slim that he could sit on a soap box and double up his legs and still be concealed behind the coat. At noon they brought him lunch of non-fatening food, and when the whistle blew in the late afternoon they released him. Several coats had been stolen, a number of locker doors had been limed open, but Buskert had no idea who the sneak thief was. Slipped by a shade after the day's experience, Buskert went back to his locker and waited again yesterday.

Just after the lunch hour, during which he dined, some one entered the locker room, fumbled about several of the doors and finally selected the one in which the mechanic was seated. As the door

Sir Walter and the Spud

IN Ireland, they still point to the place where Sir Walter Raleigh planted the potatoes he brought with him from America. The venturesome knight was much impressed with the edible qualities of potatoes and touted them highly to his friends. But in spite of his efforts to popularize the spud, it was half a century or more before it became an article of general consumption abroad.

What I Thought For Today: A TRUTH I perceive that in every nation he that fears the Lord, and worketh righteousness, shall be accepted with Him.

To a Virtuous Young Lady: Lady! that in the prime of earliest youth, weekly hastened the broad way and the green, and with those few art eminently seen.

Labour up the Hill of Heavenly Truth, the better part with Mary and with Ruth, chosen thou hast, and they that overween, and at thy growing virtues fret their spleen.

No anger find in thee, but pity and ruth. Thy care is fixed, and zealously attends, to fill thy odorous Lamp with deeds of light.

And Hope that reaps not shame; therefore be sure, Thou, when the Bridegroom with his feastful friends, passes to bilas at the mid hour of night.

Must gained thy entrance, Virgin wise and pure. —John Milton.

Stifle sorrow! And you will not only feel better yourself but you will make others happier.

"Stirring scenes in Greece," they say. Someone's getting the gravy.

Howard Carter, excellent poker player that he is, checked, immediately upon being denied the king.

A man's marking time when he keeps company with himself and hence, is seldom out of step.

If the soldiers bought so heavily of Liberty bonds during the World War, the interest on them should make a bonus unnecessary.

The present gubernatorial situation reminds us of a remark Thomas A Kempis once made, "Of two evils, the less is always to be chosen."

The Celery City Sage says t may be that "Syllables govern the world," but sentences are the means whereby.

"The hand that rounded Peter's dome, and groined the aisles of Christian Rome," sure pulled a crock right here at home when it signed the lens for Teapot Dome.

Seventy-nine American citizens spent \$91,344,000 for educational purposes in 1922. Somebody should have learned something.

The dispatches say that Daugherty, hastening to the bed side of his sick wife, has left Washington for Florida, by way of Chicago.

But that is scarcely more roundabout than most government proceedings.

The all too frequent sight of a small boy smoking a cigarette is pitiful. And there is nothing quite so disgusting as to see some young fellow giving half his strength to a cigarette, which he is scarcely strong enough to support.

Metropolitan cities seem to be having their troubles with the morals of musical comedies this year. The "clarification" of the American girl seems to have deteriorated into an exposition of her.

George F. Parker, widely traveled representative of the Clyde Line, compliments Sanford on the system it uses in designating streets. The system is excellent, but it could be made more complete by extending it to include many streets yet unmarked.

When two men get together and decide that others, even though they be negroes, cannot operate the business which they are conducting in a legal way, it is high time someone called a halt. That is ultra "small town stuff" and should not be tolerated in Sanford.

The desire to get something for nothing has caused the downfall of many a prospectus man. God so ordained it when He made this world that the things not worth working for are only those not worth having. But it seems to be a human characteristic for folks to think they can find some exception to this general rule.

All the way from the "jig men" who have hitched their wagons to stars and would swindle the government out of costly oil reserves, right on down to the little petty grafter who thinks he should have the paper sent to him complimentary.

More Laws or Better Enforcement?

Is America getting too many laws? Every day some body of lawmakers decides on some new statute and the result is new laws are being enacted at a rapid rate. In fact at so rapid a rate that lawyers supposed to know the laws are finding themselves unable to keep up with them.

"We are fast becoming a nation of law breakers," says the Tampa Times. "Many good people break them through ignorance, some through indifference, and some through an innate spirit of defiance, which makes them impatient of any restraint."

In a recent speech Albert J. Beveridge said that few laws better enforced, less government better administered, more liberty better ordered are the needs of the time.

Law making has become almost a vice in the United States in the opinion of the Detroit Free Press. "Ten millions of people seem to consider the placing of a statute on the books an occult magical act."

The situation is attracting the attention of the best and deepest thinkers of the nation. Each year the problem becomes more complicated. It is well for thinking people to ponder the subject thoughtfully and seriously.

The Right Time to Build

Well located lots in Sanford can be purchased reasonably. The prices have not begun to advance as they will in the next few months. It costs no more to build a house here than it does elsewhere.

At the present time this city needs houses of all kinds. From an investment standpoint money cannot be used to better advantage than in the purchase of lots and in the erection of well constructed but small homes.

This is the time of the year when construction work should be started so that by early fall the buildings can be completed and ready for occupancy.

The person who builds houses that can be sold at a fair but reasonable profit or that can be rented to the average family will have no trouble making big profits from his enterprise.

Sanford needs more houses and needs them badly. It needs many small but attractive houses to provide accommodations for the hundreds of people continually coming to this city and who now find it necessary to devote so much time hunting living quarters and then pay fabulous prices for poorly constructed and badly arranged houses.

In the erection of houses in Sanford a wonderful opportunity is being offered the wise and far sighted investor.

MR. CARTER WON'T PLAY

The Egyptian government may be treating Mr. Howard Carter shabbily. He evidently believes so, but at this distance his quivering tongue because his feelings have been hurt seems a childish performance.

MY FAVORITE STORIES

The scene is at church and the rector is in the midst of his morning discourse. Mrs. Smith, a member of the parish, is sitting in a pew well up toward the front.

As Brisbane Sees It

Uncle Sam, Please Pay. Anaconda Ships. What About Mothers? Here for the Baby.

POOR OLD Uncle Sam didn't start the war, and it cost him dozens of billions, yet it seems impossible for him to get free from it.

Our General Dawes, as was predicted here, helps to bring in a report that says to Uncle Sam, "Pay, please."

IT SEEMS that Germany must have a loan, to get started on reparations. She asked for twenty-five hundred millions. She is to have two hundred and fifty millions, if plans go through.

"All nations, including this, will contribute to that loan, and all will be expected to squeeze Germany; if she does not pay."

THAT'S THE program thus far. Later, when Germany, having bought raw materials, gets her breath and starts paying reparations, will Uncle Sam get part of the reparations? Don't ask foolish questions. Certainly NOT.

BUT, in case Germany fails to pay the fancy reparations, Uncle Sam may have another chance to make himself useful.

THE BIG Anaconda Copper Company skipped its regular dividend Tuesday. That frightened the market, knocked down Anaconda stock and many other stocks that "sold off in sympathy."

On the other hand, American Locomotive had its best year with a net profit of more than twelve millions, a profit above twenty-one dollars per share.

AMERICAN LOCOMOTIVE sells around seventy-four dollars, while Canadian Pacific, paying ten dollars per share, sells to the same crowd of American speculators at two hundred dollars.

THERE OUGHT to be no skipping of dividends by copper companies, and would not be if the public understood the value of copper and brass and if architects and builders would serve their clients faithfully instead of using trashy, rusting iron, to lower prices.

FIVE NUNS, Little Sisters of the Poor, were detained at Ellis Island ever since the immigration quota of their native country was exhausted.

They are now admitted, under a special ruling, as teachers. The public will welcome that ruling, since it saves five good women from deportation.

MRS. BRAWNER, very rich, dies and leaves \$1,479,138 to her infant son. The older children get, each, half as much.

When a human with millions leaves a double share for her infant she is only doing what every normal mother does in another way.

AKALI SIKHS, who are the fighting men of India, sent soldiers to fight the British India troops. Mohandas Gandhi urges the Sikhs not to fight and not to send any fighting men.

That sounds unjust, but it reflects nature's wisdom. The human baby is the most helpless of living creatures. Only the passionate devotion of the normal human mother and her conviction that each baby is the most wonderful ever born, carried the human race along thus far.

When a human with millions leaves a double share for her infant she is only doing what every normal mother does in another way.

There is just one human figure that has preserved his decorum throughout all the proceedings even when the lid of his sarcophagus was tilted. Tut-ankh-amen is still the hero of the tragic-comedy.

DR. DELTON, a deputy police commissioner in New York, says that city will be dry in three months. It will not be dry in three months, nor in three years.

DR. DELTON, a deputy police commissioner in New York, says that city will be dry in three months. It will not be dry in three months, nor in three years.

"Well then," counsels the disturbed parent, "I expect the best thing for you to do is to slip out very quietly and go behind a big tree in the church yard and then when you're all right again you can come back."

THIS COUNTRY is firmly settled on a basis of bootleg whiskey, and the question is What can be done about it?

It was predicted when prohibition started that hardened whiskey drinkers would get whiskey somehow, of course. But they would die off, poisoned, and then the young people would grow up free of alcohol and clear in thought.

This New Kid Looks Like Trouble.

Maudlin Sentiment in McDowell Case

PINELLAS newspapers are striving hard to work up a campaign for the young man that murdered his parents a week ago and murdered his two sisters a year ago, and apparently seeking to create a sympathy for the fellow which seems to be unwarranted by the facts in the crimes.

"Frank McDowell has been accustomed to living in a clean home, to having clean clothing, a shave and a bath at regular intervals. He has clothing in St. Petersburg which he has been trying to get that he may at least be clean in body.

In conclusion the Clearwater paper says: "The Pinellas county jail has a reputation for being one of the very best-kept in the state. But it does not provide the comforts to which Frank McDowell has been accustomed—and for these he suffers."

Seriously considered McDowell committed a most inhuman crime, four of them, in fact. As in thousands of instances, even for much lighter offenses, he is subject to the same penalties as other criminals.

There is no public fund provided for taking care of a case of the Frank McDowell kind. The county jail is unusually clean for an institution of its sort and the jailer has done his part and more for Frank McDowell's comfort.

Mr. Coolidge and the Race Problem ASHEVILLE CITIZEN

President Coolidge has abandoned whatever ambition he may have cherished of "breaking the Solid South." The President has no sympathy with those Southern Republicans who cling to the hope of building up a strong opposition party in the South, a party freed from the ignoble reputation of being an organization of office holders, always willing to offer the colored man political preferment in exchange for his vote;

When a human with millions leaves a double share for her infant she is only doing what every normal mother does in another way.

THE GAZETTE SOLD TAMPA TRIBUNE

It will be extremely difficult to disassociate W. B. Harris and the Ekshamnee Valley Gazette. They have been one and inseparable for so many years that it will seem strange to see the Gazette without Harris and Harris without the Gazette.

Sanford Herald, bought the Harris interest and will be the editor of the paper. Allison T. French, who has been editor, goes out with Mr. Harris.

The Gazette is one of the established papers of Florida and its future will be watched with interest. The newspaper fraternity will also be keenly concerned as to Mr. Harris' plans and will hope for his continuance as an active force in Florida Journalism.

How Business Depression Tests Good-will

Many a manufacturer during the past two years has had an opportunity to measure as never before the real worth of his advertising investment.

He has seen his trade-mark line keep up in sales and his unadvertised goods struck to a small fraction of their former volume. Innumerable instances could be cited.

Dealers can tell a similar story. The number of makes carried of each item have shrunk to a very few—the best known and most frequently called for. Dealers have changed their point of view; they no longer stock lightly with many brands, but substantially with a few.

Quick turnover is their only salvation in a depression and their real source of profit in a prosperous period.

Red, white and blue were the colors used for this pretty party. The refreshment table was centered with the large birthday cake, led in white and topped with three candles in red, white and blue. Miniature flags, shields and banners were effectively placed around the table.

The afternoon was merrily spent with games of all kinds, the children being assisted in these by a number of the grownups. Late in the afternoon refreshments of ice cream and crackers were served by the hostess, assisted by Mrs. Cecil Butt, Mrs. Hal Wight, Mrs. San Bradford, Mrs. Sam Young, Mrs. A. B. SARAZEN GIVES GOLF LESSONS TO HIS FIANCEE

Her first lesson was taken near the 15th green, far from the crowds that were on the Hollywood links. Many men were watching her play, but there was none there except the "gentlemen of the press" who were on hand for the occasion.
