

CWA PROGRAM IN STATE IS ENDED TODAY

Broadened Work Relief Plan To Start Within Week, Stone Tells New Council

TALLAHASSEE, Mar. 8.—(A.P.)—The Civil Works program in Florida today was ordered dissolved, effective immediately, except for skeleton forces to tie together some loose ends.

In its stead, the federal administration prepared to launch a new and broadened work relief program starting within a week.

Worthy Civil Works projects will be carried to completion under the new program, and others, which conform to the long-term plan for rehabilitation, will be approved, Julius Stone, Jr., acting federal administrator told the State Advisory Committee.

Persons now employed will be considered for work in the new program on the basis of their need as certified by trained social service workers.

Stone will direct the program until his successor is named. The Civil Works and Emergency Relief Advisory Committee dissolved itself at a meeting with Stone today and immediately was created as an advisory council in the new program with C. B. Treadway, chairman of the retiring committee. (Continued On Page Three)

Mrs. Chas. Kanner Receives Shoulder Injuries In Wreck

Plans to remove Mrs. Charles Kanner of this city to her home from the Halifax Memorial Hospital in Daytona Beach were set aside yesterday when a physician stated that injuries which she received in an automobile accident in that city Sunday afternoon had not mended sufficiently for her to be brought to Sanford.

Mrs. Kanner was a passenger in an automobile being driven by Mrs. Dave Bonlake, also of Sanford. The automobile collided with another driven by Frances Brownrigg of Daytona Beach, and the Bonlake car was turned over and badly damaged as a result of the collision.

Mrs. Kanner, Mrs. Bohlske, Mrs. S. Benjamin, Mrs. M. Moses and Mrs. J. A. Toll all were taken to the hospital after the accident. The latter four were permitted to leave the hospital after treatment for shock, bruises, and small cuts, but Mrs. Kanner was discovered to have suffered a fractured shoulder bone.

Mrs. Bonlake stated today that the case was settled out of court. Damages to her automobile amounted to nearly \$300, she added.

Democratic Executive Committee Plans Meet

Annual meeting of the Seminole County Democratic Executive Committee, R. J. Holly, Sr., chairman, will be held at the Court House at 2:00 o'clock Saturday afternoon, it was announced today.

Under the law, the committee must meet before Mar. 15 during any election year, for the purpose of levying assessment charges on prospective candidates and taking such other action as will safeguard Democratic candidates and voters in the primaries and general elections.

Ford Joins Borah In Attack On Small Group Of Men Who Are Held To Blame For Wars

FORD MYERS, Mar. 8.—(A.P.)—Charging that a small group of men were responsible for war through the manufacture of munitions and by fostering international distrust, Henry Ford thinks Senator Borah "had the right idea" in his attack on the half billion dollar navy program and other army and navy construction.

"The people in general don't want war," said Ford, "but it has been forced on them by scheming munition makers looking for enormous profits through the sale of arms."

"I do not pay much attention to the talk about war for I have found out that there is not much I can do about it, as an individual. Outlawing war depends upon the people. In the past they have followed the war makers. If we could get rid of the approximately 100 men responsible for wars in this world, the people would enjoy peace."

"But as long as greed for profits accentuates the makers of munitions, and as long as countries maintain their race for the strongest armaments, just so long will we be in danger of being pushed into another war. It could have been avoided."

"A man who buys a knife, acquires it for the purpose of attack. He doesn't buy the knife to carry as a souvenir. Nations purchasing cannons and battle ships purchase them for the purpose of attack."

Swedish Prince Weds 'Girl Of His Dreams'

LONDON, Mar. 8.—(A.P.)—A romance like a fairy tale of fiction came true today with the wedding at noon of Sigvard, Prince of Sweden, Duke of the Upland, and grandson of the Swedish King to beautiful Fraulein Erika Patsek, 22-year-old daughter of a Berlin industrialist.

In taking a commoner bride at the registry office in the heart of busy London, the 26-year-old prince, like Lennart, his cousin, abandoned his princely rights for a romantic union with the girl of his dreams.

Instead of carillon bells pealing for their wedding in the ancient capital of the prince's forefathers, Sigvard and his bride had the chattering song of birds in a little park outside, and a sea of smiling faces in a sympathetic throng to welcome them on their wedding day.

County Welfare Board Head Issues Report

Cost of operating the Seminole County Welfare Board for the months of January and February was \$381.74 and \$91.30 respectively, it has been reported to the County Commissioners by Mrs. Helen T. Morse, welfare director.

The board had a cash balance of \$215.80 on Jan. 1, 1934. Receipts during the month amounted to \$250, representing the county's monthly appropriation for welfare work. Practically all of the expense of operation during January was for widow's pensions, drugs, and clothing for indigent residents of the county.

CITRUS CONTROL BOARD PRAISED FOR ITS EFFORTS

Marketing Agreement For Industry Given Okey Of 200 Growers

PLYMOUTH, Mar. 8.—High praise for the Florida Citrus Exchange, the Florida Control Committee along with the control committee at Washington was sounded today at the Plymouth Citrus Growers Association, at a dinner which was attended by approximately 200 growers and a number of prominent guests, including C. C. Commaister, Tampa, and J. W. Jones, an official of the Farm Credit Administration, Washington, D. C.

Bob Carleton, manager of the Plymouth house, which is affiliated with the citrus exchange, also spoke, revealing that the association is now in better financial condition than in many years and that the house will handle around 500,000 boxes this season.

Mr. Carleton declared that some of his growers have been realizing "on the tree" prices recently of \$2.15 a box for pineapple oranges, \$1.30 and \$1.40 for seedlings, and that offers of \$1.25 a box for Valencia are being refused.

E. L. Mathews, the association's fertilizer expert, also spoke briefly, as did a number of other growers. (Continued on Page Two)

Mail Delivery Service Reduced Under Order

Effective yesterday, the residential section of this city is to be served once daily by mail carriers, it was announced by acting postmaster R. J. Holly Sr., today.

There will be two deliveries daily in the downtown section, he stated, but the residential delivery will be cut down to a single morning delivery. Mail will be gathered from mail boxes scattered about the city as usual.

The curtailment in deliveries is the result, Mr. Holly stated, of information from the postmaster-general, stating that budget requirements of the postal department make necessary a reduction in expenditures for the remaining four months of the present fiscal year which ends June 30.

Dann Reports On Cost Of Operating Home

In his report on the costs of maintaining the County Home for the month of February, R. L. Dann, superintendent of the home stated that a total of \$421.15 was spent upon 35 inmates.

It cost 13 and one half cents per day to feed the inmates of the home, while each inmate cost 43 cents per day.

Mr. Dann stated that during the month 174 gallons of milk were produced at an average cost of 18 cents per gallon; 143 dozen eggs were produced at an average cost of 14 cents per dozen; 57 pounds of butter were produced.

STRIKE VOTES BEING CAST IN PARTS OF U. S.

Labor Disputes Flare Up In Birmingham, Cleveland, Ohio, And San Francisco

(By The Associated Press) Voting on proposed strikes in San Francisco and Cleveland was the highlight of widespread labor unrest.

Despite government intervention, officials of a union representing 4500 workers in the Fisher Body Company's plant at Cleveland decided to proceed with a strike vote.

In San Francisco, members of the International Longshoremen's Association were asked to vote on a proposed strike which would be effective Mar. 23. The Association has from 12,000 to 15,000 members.

Labor disputes also flared at other points. The District Coal Labor Board at Birmingham, Ala., yesterday ordered approximately 1600 striking miners of the rich Cahaba field to return to work by next Monday.

The board warned that it would dismiss the employees' charges of code violation unless they temporarily cease the strike by Monday.

There are most of two 8000 other miners in the state who are on strike walked out in sympathy with the Cahaba strikers, the order is expected to settle many of the other strikes indirectly.

Sholtz Invited To Gala Celebration In Sanford On Apr. 6

Friday, Apr. 6 will be a gala day in Sanford and Seminole County if plans now being formulated by the Chamber of Commerce are successfully carried out.

The day will mark the dedication of the new concrete bridge across the St. Johns River near Lake Monroe, and is anticipated that Governor Sholtz, Chairman of the State Road Department, and other high state officials will be here to participate.

Further, because Governor Sholtz has recently issued a statewide call that each city stage a charity ball for the benefit of the crippled children of the state of Florida, it is now planned to tie in this local charity affair with the bridge dedication celebration.

A special invitation was extended by Rev. Bram to all Boy Scouts in the county, particularly those of the Lake Mary and the Lueta troops. Troop 39 is sponsored by the Sanford Rotary Club and the Men's Club of Holy Cross Church. Leonard McLean is scoutmaster.

JOHNSON ASKS INDUSTRY FOR CO-OPERATION

NRA Chief Says 10 Percent Cut In Work Hours, Increase In Wages Is Practical

WASHINGTON, Mar. 8.—(A.P.)—Hugh S. Johnson last night told the representatives of industries that there were many "that obviously can—and ought to—meet the suggestion" to work on a 10 percent decrease in hours per week and a 10 percent increase in hourly wages.

The NRA administrator, speaking to employers at the conclusion of the general conference on code revision did not, however, say that this was the Administration's plan. Instead, he suggested further conference with employers to work out this problem and others connected with the Recovery unit.

In one pithy paragraph the administrator summed up his views on the troubled question of wages and hours.

"There are some industries that couldn't do what I tentatively suggested about wages and hours. There are some where business is so little that, if they did adopt the (Continued on Page Two)

Branan Thanks All Persons Who Aided Drive For Scouts

An expression of appreciation was issued today by Arthur Branan, chairman of the Seminole County Boy Scout Council to the men and women who, during a two day solicitation for funds with which to carry on the new year of work of the Central Florida Boy Scout Council, had turned in a sizable sum of money.

Appreciation also was made to every person who contributed to the fund. That the city was well represented was evidenced in the fact that almost every man seen on the streets Tuesday and Wednesday wore a small pin which indicated that he was a contributor to the fund.

Mr. Branan announced today that at the 11:00 o'clock service in Holy Cross Episcopal church next Sunday, Rev. Martin J. Branon will present members of Troop 39 with their charters. He will deliver a special sermon directed primarily at an anticipated large number of scouts and local Scout officials, and the public is invited to attend this ceremony.

A special invitation was extended by Rev. Branon to all Boy Scouts in the county, particularly those of the Lake Mary and the Lueta troops. Troop 39 is sponsored by the Sanford Rotary Club and the Men's Club of Holy Cross Church. Leonard McLean is scoutmaster.

Part-Time Agriculture Class Is Organized

Organization of a part time agricultural class in Farm Mechanics was effected at Seminole High School last night under the direction of Alex. H. Johnson, vocational agriculture teacher at the school.

Mr. Johnson said that the class is designed for farm boys who have had to drop out of school. Meetings are to be held each Wednesday night at 7:45 o'clock in the High School, and all boys are invited to join at no cost.

Roosevelt Proposes Return Of Air Mail To Commercial Companies On 'Honest' Basis

SEEKS OFFICE

J. E. Jackson, Sanford resident for the past 8 years, was announced by candidacy today for the House of Representatives of the State of Florida, representing Seminole County in Group Two.

J. E. JACKSON ANNOUNCES FOR LEGISLATURE

Former Local Grower Will Campaign In County In Group 2

J. E. Jackson, Sanford man who farmed in this section for several seasons, became the third person to announce his candidacy for a seat in the Florida State Legislature as representative of Seminole County in Group Two. He made his formal announcement today and he will oppose L. P. Hagan and G. W. Spencer for the office.

Mr. Jackson came to Sanford eight years ago from Oxford, N. C. where, for 10 years, he held the position of superintendent of public welfare for Greenville county.

In connection with this work, he was designated by the secretary of the North Carolina State Board of Health to represent the United States Public Health Service and the North Carolina State Board of Health Service as county supervisor in presenting to high schools (Continued On Page Four)

Elks Urged To Attend Friday Night Meeting

Because Howard Overhill, secretary of Sanford Elks Lodge is anxious that members of the Elks take a leading part in the Charity Ball that will be staged on Sanford on April 6 for the benefit of 6000 crippled children in Florida, he today urged every member to attend a regular meeting at the club rooms tomorrow night at 8:00 o'clock.

Governor Sholtz, a leading Florida Elk, will be in Sanford to attend the Ball, Mr. Overhill stated, and plans are to be discussed looking toward proper entertainment for the Governor while he is in the city, as well as for having Elk carrying their share of the burden of staging the Charity Ball, which is being sponsored by the Chamber of Commerce and other civic groups.

Clean-Up Campaign Judges Begin Job Of Inspecting Over 600 Properties

A selected group of judges went to work this morning to make a preliminary inspection of the properties of over 600 residents of this county who, having signed an entry blank furnished them by women members of the Garden Club, have signified an intention of wanting to help make a success of the county-wide Clean Up and Beautification Campaign during this month.

WASHINGTON, Mar. 8.—(A.P.)—President Roosevelt yesterday proposed return of the air mail to commercial companies as soon as possible under new legislation providing for "honest payment for honest service."

He suggested new contracts be let for a period not exceeding three years under competitive bidding. The interstate commerce commission would pass on the question of public convenience and necessity of air mail routes and fix maximum payments.

In a letter to Chairman McKellar and Meade of the Senate and House postoffice committees and Chairman Black of the Senate investigating committee Roosevelt said:

"Enactment of legislation along the lines I have suggested will establish a sound, stable and permanent air mail policy."

The President's letter was made public at the close of a day which saw Colonel Paul Henderson, vice-president of the United Aircraft & Transportation Company testify before Black's committee that his company had not received payments for mail carried from Jan. 1 until the time its contract was ordered annulled along with the others on Feb. 9.

Inquiry at the postoffice department disclosed payments to all companies had been held up and would not be made until the pay question had been thoroughly studied by Postmaster General Farley and Attorney General Cummings.

5 Judges Selected By Future Farmers For Annual Contest

Mayor W. A. Leffler, Julius Dingfelder, R. F. Cooper, T. L. Dumas and Mr. Walton have been selected to act as judges of the annual public speaking contest staged by members of Seminole Chapter Future Farmers of Florida in preparation for the state contest.

Selection of the judges was a highlight of the Tuesday night meeting of the Chapter. It was decided that the contest will be held on the night of the first meeting in April.

It also was decided to give members of the Chapter a 30 percent discount if they have meat cured in the Chapter meat curing plant.

BANDITS GET \$50,000 HAUL IN CAROLINA

Bank Guard, Messenger, Held At Pistol Point On Busiest Greenville Street

GREENVILLE, S. C., Mar. 8.—(A.P.)—A messenger and a guard of the South Carolina National Bank were held up and robbed of \$50,000 on a downtown business corner here today.

The men, Clinton Foster, negro messenger, and Hugh White, bookkeeper who was acting as a guard, were enroute to the bank from the postoffice with the money shipment when two persons in a light, fast car forced them to the curb.

One of the bandits, short, stocky, and wearing dark glasses, got out of the bandit car and with a pistol forced the bank employes to hand over the package, they said.

A number of persons witnessed the holdup which occurred almost in sight of the Greenville county jail, but it was over before spectators realized what was happening.

The bandits escaped, eluding an army of officers who quickly took the trail.

Mrs. Margaret Zinser Dies In Louisiana

Mrs. Margaret Zinser, mother of A. M. Zinser, died in Covington, La., yesterday after a short illness. Funeral services will be held from the First Presbyterian Church in that city on Saturday morning at 10:30 o'clock, and Mr. Zinser left here this afternoon to attend final rites.

Mrs. Zinser was well known in Sanford. She had lived with her son and daughter-in-law for over a year. Had she lived until tomorrow she would have been 82 years of age. She was a native of Baden-Baden, Germany, but she came to America with her parents at the age of three.

Her survivors include two daughters, Mrs. P. J. LaCroix of Covington and Mrs. Louis Morrel of New Orleans, and three sons, A. M. Zinser of Sanford, and George Zinser and Theodore Zinser of New Orleans.

Miami Fishing Party Rescued By Seaplane

MIAMI, Mar. 8.—(A.P.)—Four passengers and the skipper of the fishing boat "Sea Spirit" were rescued off Elliott Key near here today by the crew of the coast-guard seaplane "Sirus" after they had clung to the side of their almost submerged craft for 13 hours.

The passengers are Earl Hafer of Canton, Ohio, Paul Ochwald, Rumson, N. J., Edward Clark, Red Bank, N. J., and H. T. Ormandy, Toronto. The skipper is Captain Armin Dunkel of Miami.

 Newspaper circulations have actually increased during the depression. People are more anxious than ever to know what is going on.

We don't see why Uncle Sam doesn't go ahead and give "Little America" to Great Britain. That would be one frozen asset the old gentleman could unload.
 Increasing unrest is said to be permeating the Cuban populace. We didn't suppose anybody could be any more restless than those folks were two months ago.
 One reason they are having such a big season in some of Florida's resorts may be that northern bondholders are trying to get some good out of their investments.

 Governor Shultz seems to have succeeded in obtaining funds from the federal government for the purpose of renovating many of the state institutions. These expenditures will be of big help to the unemployed in Florida, and will help take the place of the GWA.

Gutzon Borglum, the sculptor, objects because the recovery program is neglecting the spiritual side of life. "We have been concentrating too much on our banks, our business and our bellies," he insists. Well, it's a cinch a man can't have much appreciation of art on an empty stomach.
 The government has made loans to banks, insurance companies, home owners, farmers, mortgage companies, building and loan associations, railroads, and foreign countries, but so far industry has been overlooked. The ordinary business man seems to have been the forgotten man of the R. F. G.

Paul Mallon says that the government is going to extend its operations in the banking field. He says officials are working on a plan to establish a government intermediate credit bank which would extend loans to industries and business men for longer periods of time than ordinary commercial banks are now able to do. He says loans would be made for one, two, or three years, at low interest rates, and can be used for capital purposes. We hope we can get the government to buy us a new press.

Disease Carriers

Many forms of life may transmit diseases to man. The United States News says that 76 different maladies, which may be acquired from 13 different classifications of life, ranging from dogs to insects, are listed by the Ohio State Department of Health. Number 1 potential disease germ carriers are domesticated animals and insects. The cow may be the source of 12 diseases. Eight diseases may be carried by dogs. The pig, cat and horse are each potential carriers of five types of infection, ranging from tuberculosis to ringworm.

Mosquitoes, ticks, and mites are the chief insect carriers of human diseases. Mosquitoes carry yellow fever, malaria fever, dengue fever, and typhus. Ticks and mites may carry Rocky Mountain fever, relapsing fever (African), tick fever of Miana, and Japanese flood fever. Bed bugs may carry Kala azar. Flies may carry many disease germs from one place to another. They are especially likely to be carriers of typhoid fever, sandfly fever. In Africa sleeping sickness is carried by the tse-tse fly.

The Ohio State Department of Health classification of diseases carried by various forms of life includes the following in addition to those named:

- By the dog—Rabies; foot and mouth disease; helminthiasis—flukes, tapeworms (especially taenia echinococcus); infantile splenomegaly (from dogs through fleas); trypanosomiasis (T. gambiense); mange; fleas and ticks; ringworm; favus.
- By the cow—Tuberculosis, actinomycosis; anthrax; cowpox; undulant fever; foot and mouth disease; septic sore throat; rabies pus infections; tenia saginata; milk sickness; paratyphoid fever.
- By the horse—Glanders; rabies; tetanus; sporotrichosis; anaphylaxis—serum disease, odor of horses.
- By swine—Trichiniasis, tuberculosis; anthrax; cestodes (especially T. solium); trematodes.
- By sheep—Anthrax; tuberculosis.
- By goats—Malta fever (undulant fever); tuberculosis. By wild rabbits—Tularemia.
- By cats—Rabies; cestodes; trematodes; favus; ringworm.
- By rats—Rat bite fever; bubonic plague (through fleas); trichiniasis (through hog to man).
- By ground squirrels—Bubonic plague; tularemia.
- By birds—Psittacosis (from parrot).
- By fish—Tapeworms.
- Arthropoda, chiefly insects—Fleas: Bubonic plague, infantile splenomegaly. Lice: Typhus fever, relapsing fever (spirochaeta obergmieri). Crustaceans (water flea): Guinea worm infection (dracunculosis).

Friction At The Poles

In a world so torn by internal disputes and international friction, it would seem that two great nations like the United States and Great Britain could find something more serious to squabble about than the ownership of the South Pole; nevertheless that is the basis of the latest controversy which has developed between these two countries. It is a far-sighted government which views such possessions as paramount to its national security.

The Miami Daily News explains the situation as follows: "Admiral Byrd conducted his first expedition to the South Pole in 1928. England looked on it as primarily an exploratory conquest—not a scientific venture—designed to add to the domain of the United States. The expedition lasted two years, but England did not await its results, before reminding us of its own claims in the region. The government at the outset addressed a note to the state department calling attention to seven 'certain areas in the Antarctic to which a British title already exists,' exclusive of the Ross and Falkland Island dependencies.

"The state department acknowledged the note but did not commit itself to an opinion on the validity of the claims. One of the discoveries of the first Byrd expedition, the range named Rockefeller mountains, is within a British-claimed area. Now Byrd is once more at Little America set for new exploration and possible discovery, and Great Britain is reported ready once more to remind us of what it claims itself to hold 'by right of discovery.' The British action, if it is repeated, is likely to come only because the country feels that it must uphold the traditional rule in such cases, and not because the icy wastes of the Antarctic are any great prize. Skeptics have questioned the rigor of the Antarctic region and the hardships of which its explorers relate, suggesting that it might some day become a very popular summer resort. But thus far there appear to be no natural resources capable of development, and no prospect that the ice cap covering 'the bottom of the world' will in the present age at least, if ever, disappear.

"The poles are the last playgrounds for explorers. As such the nations of the world should continue to share them, not squabbling for title of ownership to something for which they have no practical use anyway."

SANFORD, TWENTY YEARS AGO

Mrs. W. E. Housholder entertained a few friends Monday afternoon at a sewing party. The ladies were allowed to work on their own fancy work for awhile and then were given squares of cloth to hem with their left hands. Mrs. N. J. Perkins received a prize for hemming the best square. Those present were: Mrs. N. J. Perkins, Mrs. Richard C. Maxwell, Mrs. Monroe, Mrs. Hines, Mrs. Hodges, Mrs. Claude Herndon, Mrs. Hopson, Mrs. W. L. Morgan, Mrs. J. C. Bennett, Mrs. Planagan, Mrs. W. M. McKinnon, Mrs. George Fox, Jr., and Miss Flanagan.

Mrs. Theodore J. Miller was among the Sanford people who went to the celebration in Tampa. While there Mrs. Miller was the guest of her niece, Mrs. J. C. Dempsey.

JOHNSON ASKS Ford Joins Borah In Attack On Men Who Start All Conflicts

 rule, it wouldn't make any difference to employment. But there are many that obviously can—and ought to—meet the suggestion to work on a 10 percent decrease in hours per week and a 10 percent increase in hourly wages. The President expressly said that he favored resiliency in any such rule. We all know that some industries cannot do this. We know that in some it would be ineffective. But we know that in many there is no excuse for not doing it.
 Earlier Johnson had told the industrialists that the President did not intend to proclaim any blanket reduction of hours or increase in wages but he indicated—as he did in his speech last night—that the subject would be seriously considered at other meetings with selected representatives of the business men.
 Johnson said only one thing was "cut and dried" in advance of the meeting and that he was "prepared to defend that conclusion on purely professional grounds to the discomfort of any opponent that, in this emergency and until payroll catch up with employment—it is proper to encourage increased wages and reduced hours per week."
 Summoning select groups to continue the conference on code revision, Johnson said, "for the next few weeks we shall be in continuous session."
 "Just as promptly as possible," he said, "we shall make available to you and to the nation the results of our investigations and conclusions. But whatever action is taken, based on these conclusions, will be with due regard to the partnership spirit that has characterized every policy and every action since the inception of NRA.
 "Now then, in closing, may I say this: We are going to have no super-government of industry. The balanced scheme of labor—industry—consumers' representation will be maintained. The gold fish bowl will still be open. Every critic will be invited in the future (as in the past) to come in and tell us how to do it better. Nobody has any occasion to worry as long as he is straight. Industry is intrinsically straight. The essence of the new deal is public knowledge of methods and results. A man may be entitled to a 100 thousand dollar salary from a corporation in which labor, consumers and stockholders are all interested. But he ought not to object to having everybody know about it. That is the only bitter pill to swallow. As far as I am concerned I am willing to swallow it. I have made more than that in my time and with my abundant faith in what is being done here. If but I will make it again.
 "But in order to accomplish such blessed events, let's get together, let's pull together, let's play the game."

INDUSTRY FOR CO-OPERATION

(Continued From Page One)
 "I have been pleased to notice a nation-wide religious revival, a more serious point of view in the minds of the average person. President Roosevelt has made this religious revival a keynote in his recovery measures. This is a hopeful sign. We are getting away from a period of jazz and leaning toward a serious consideration of religion, I say serious, when really religion is a happy state of mind. Even happiness must be taken seriously if we are to gain it and appreciate it.
 "I believe that religion should be taught in our schools as well as reading, writing and arithmetic. It is the fourth 'R' in education. The Bible is the best text book ever written. It is taught in all of the Ford schools. People with a knowledge of the Bible are better off in all situations.
 "I have always been interested in education. Years ago the Ford company found it necessary to educate grown men. Now we are starting early. We are starting with the children. The greatest chance to accomplish good is with the young. It is a privilege to start them out in the right direction. And education must be accomplished in schools all manner of schools—for the home does not have facilities for education.
 "President Roosevelt spoke of the necessity of all people helping each other. This is a fine and a true sentiment. I agree with him. Religion is just helping one another.
 "This can be carried into our schools. The public schools play the biggest part in education. If I were allowed to make a suggestion concerning public schools, I would say—let the older students teach the younger ones. Those that teach learn the most," concluded Ford.

CWA PROGRAM IN STATE IS ENDED TODAY

(Continued From Page One)
named as chairman of the new organization. Stone made it clear the new committee will act in an advisory capacity only.

Headquarters for the state CWA and FEHA, Stone announced, would be moved here from Tallahassee.

He said the work program will consist of two phases: "Project" in urban areas will be for the present confined to such of the CWA projects now under way as it may be deemed advisable to complete, taking into consideration supplies of material now on hand and the availability of new material under our budget quota for this state.

"In accordance with the announced national policy, work projects in rural areas will be developed with special reference to the rural rehabilitation program."

Details of both phases will be announced later, he said.

"The needs of unemployed women," he said, "will be given careful consideration in connection with the new program."

Floods Reach To West Where Waters Go Wild

(From The Associated Press)
Flood reached into the Middle West yesterday as lower temperatures and breaking ice jams brought a respite to the East.

The Missouri River went on a rampage, inundating 10,000 acres of farm land, causing an exodus of higher ground of farmers living along the Kansas-Missouri border. Five persons were missing.

Fears that the Ohio and Kanawha Rivers would rise over the business section of Point Pleasant, W. Va., abated as cold weather returned.

Ice jams at two dams in New Jersey broke away and residents of Trenton and Passaic breathed easier.

In Pennsylvania the Susquehanna River remained 17 feet above normal at Turkey Hill, near York, and anxiety increased. A huge ice jam pushed down the Genesee River toward Rochester, N. Y., but observers predicted it would grind itself to pieces before reaching the city.

Man, Housekeeper Die After Unique Duel

CENTRAL CITY, Mo., (AP)—A housekeeper, Mrs. Ellen Posey, 50, was found dead yesterday with evidence that she had fought to the death with a razor and a dagger.

At 10 o'clock Mrs. Posey was found dead in her home. She had been killed by her own throat with the razor, although it had been broken. Apparently she had a struggle because of cuts on Mrs. Posey's arm. From the autopsy the coroner concluded Mrs. Posey had used them to defend herself from the man.
