## H CHIEFS IN CLAIMS BY G.O.P.

### To Be Stirred Assertion That Al Not Win State Of Mississippi

## Confidence Rides Albany

### Excursion Thru Territory

Y. N. Y., Sept. 12.—The claim so per-  
formed by the Re-  
publicans at Wash-  
ington Governor Smith  
try a single West-  
Virginia state in No-  
receiving scant and  
attention from the  
nominee and his  
party.  
They don't believe  
they are now up  
in plans for a spe-  
cial train on this  
same route. A  
Republican rival  
of it is real, main-  
ly there is an  
of considerable con-  
fidence about Albany

confidence undoubt-  
edly engendered by ex-  
-minister H. H. H. H.  
for personal confer-  
-Governor. Without  
-these visitors have as-  
-Smith that the Re-  
-is not abating, that  
-that if he takes a  
-positive measure to  
-into every state be-  
-sord, irrespective of  
-public time.  
-for some of the  
-More of it, probably  
-dred through an anal-  
-184 election figures in  
-t States which has  
-Governor Smith as  
-his preparation for his  
-which begins next  
-yain reveals some  
-figures on the right  
-ed on page six.)

## Department Ship Subs With Safety Device

INGTON, Sept. 12.—  
were being made by  
Department today to  
-marines with the new  
-called the "lung."  
-rows of underwater boats  
-low the water.  
-which consists of an  
-with a mouth-piece,  
-has undergone a num-  
-successful tests, the latest  
-155 foot depth in Ches-  
-off Solomon's Island.  
-Licut. C. B. Mon-  
-Joseph Kiben and Ed-  
-Kaven, navy divers, made  
-safely after being low-  
-driving ball. None  
-diver's hands, al-  
-pressure at the bottom  
-will be held next  
-depth of 225 feet. The  
-little space and  
-easily for each  
-crew.

## Growers To Hear Dr. E. D. Ball To Combat Disease And Pests

farmers' night pro-  
-given under the aus-  
-Kiwans Club, were  
-today at the weekly  
-the luncheon by How-  
-who has the arrange-  
-and who will pre-  
-the evening. Friday  
-the City Hall. The meet-  
-at 8 o'clock. The  
-the program will be  
-by Dr. E. D. Ball, fed-  
-will speak to  
-on every disease and  
-methods of combatting  
-of pictures, slides and  
-also expects to  
-statistics gather-  
-the local colery pro-  
-was exten-  
-every grower to  
-and indications are  
-audience will be on

## Herald Presidential Poll Attracts Great Interest; Heavy Vote Already Cast

### Much Speculation Aroused As To Outcome: Voters Urged To Return Votes At Once: Results To Be Announced Saturday

indicating intense local interest  
in the approaching national elec-  
tion. The Herald is already begin-  
ning to receive scores of ballots in  
the straw vote which it announced  
yesterday on the race between Al  
Smith and Herbert Hoover.  
The paper was scarcely off the press  
Tuesday afternoon when the first  
ballot was cast, and before this of-  
fice closed last night between 25  
and 50 had been placed in the pol-  
ling box.  
This morning's mail brought a  
large number of votes while a  
steady stream of persons visited  
the office to place their ballots in  
the box. There was a great deal  
of talk on the streets about the  
poll and considerable speculation  
as to its results. There were those  
who predicted Tinover would lead  
anywhere from one and a half in  
one, to four to one, while others  
were equally as certain that Smith  
would maintain a comfortable lead  
over his Republican opponent. Most  
of the guesses, however, were that  
the count would be close.  
No indication as to how the vote  
was going could be obtained be-  
cause no count has been made as  
yet. There were several who  
brought their votes in person and

## ANNUAL SERVICES DEMOCRATS LINK FOR JEWISH NEW DRY CHIEF WITH YEAR ANNOUNCED ATTACK ON SMITH

Sanford Jews today were com-  
pleting plans for the annual ob-  
servance of the Hebrew high  
holidays, Rosh Hashona and Yom  
Kippur. All local Jewish busi-  
ness establishments are planning  
to close Friday afternoon at sun-  
down and remain closed until Sat-  
urday at sundown in commemora-  
tion of the beginning of the new  
year.  
Members of the congregation of  
Beth-Israel, Jewish community  
center, today announced special  
services for the approaching hol-  
iday season. The first service  
will be held Friday night at 7:30  
o'clock and the second Saturday  
morning at 9 o'clock. Another  
program will be given Saturday  
night at 7:30 o'clock, to be fol-  
lowed Sunday morning at 9  
o'clock with the final service of  
the beginning of the new year.  
The Hebrew new year formally  
begins at sundown Friday after-  
noon and will end Monday morn-  
ing. The holiday is observed  
throughout the world. The re-  
form Jews observe only one day,  
Saturday, while the orthodox ob-  
serve two days, Saturday and  
Sunday. Following their histor-  
ical traditions, the Hebrew as-  
semble in their temples and syn-  
agogues for a series of services in  
which they pray for forgiveness  
and fortitude.  
Following the new year is a  
week of repentance and then  
comes Yom Kippur, the day of at-  
tonement. This day is spent in  
fast and prayer and at sundown  
the Shofar, or ram's horn, is  
blown. This concludes the hol-  
iday services.

## Beth-Israel Congrega- tion Plans Programs: Stores Are To Close

Sanford Jews today were com-  
pleting plans for the annual ob-  
servance of the Hebrew high  
holidays, Rosh Hashona and Yom  
Kippur. All local Jewish busi-  
ness establishments are planning  
to close Friday afternoon at sun-  
down and remain closed until Sat-  
urday at sundown in commemora-  
tion of the beginning of the new  
year.  
Members of the congregation of  
Beth-Israel, Jewish community  
center, today announced special  
services for the approaching hol-  
iday season. The first service  
will be held Friday night at 7:30  
o'clock and the second Saturday  
morning at 9 o'clock. Another  
program will be given Saturday  
night at 7:30 o'clock, to be fol-  
lowed Sunday morning at 9  
o'clock with the final service of  
the beginning of the new year.  
The Hebrew new year formally  
begins at sundown Friday after-  
noon and will end Monday morn-  
ing. The holiday is observed  
throughout the world. The re-  
form Jews observe only one day,  
Saturday, while the orthodox ob-  
serve two days, Saturday and  
Sunday. Following their histor-  
ical traditions, the Hebrew as-  
semble in their temples and syn-  
agogues for a series of services in  
which they pray for forgiveness  
and fortitude.  
Following the new year is a  
week of repentance and then  
comes Yom Kippur, the day of at-  
tonement. This day is spent in  
fast and prayer and at sundown  
the Shofar, or ram's horn, is  
blown. This concludes the hol-  
iday services.

## Courthouse Repairs Are Started Today

Under the supervision of Hunt  
and Huddleston, local contractors  
work on repairs and alterations on  
the courthouse was started this  
morning. The contract calls for  
an outlay of several hundred dol-  
lars and includes among other  
changes the addition of two extra  
windows to both the grand jury  
room and another occupied by the  
county welfare department; both  
are on the second floor.  
A porch on the second floor in  
the east half of the building will  
be walled in and converted into  
two additional rooms, it was an-  
nounced. Other repairs will be  
made. The work is expected to be  
completed within a few days,  
the contractors said.  
**INFANT DAUGHTER, DUMB**  
Betty Ruth Cook, two months  
old child of Mr. and Mrs. L.  
B. Cook of Jacksonville Avenue, died  
Monday night at 9:50 o'clock.  
Funeral services were held this  
afternoon at 1 o'clock with Dr. P.  
D. King, pastor of the First  
Baptist church, in charge. In-  
terment will be in Umatilla.

## HOOVER PLANS PARLEY TODAY WITH COOLIDGE

### Nominee Also Hopes To Put Finishing Touch On Labor Speech He Will Give On Monday

## Duties May Spoil Fishing Trip Plan

### Presidential Aspirant Praises Progress in Commercial Aviation

WASHINGTON, Sept. 12.—(INS)—  
conference with President Coolidge  
was to feature Herbert Hoover's  
program today, although the  
Republican nominee hoped to put  
the final touches on his labor  
speech to be delivered at Newark  
next Monday night.  
The nominee planned to greet  
the President and to discuss cam-  
paign matters with him at the  
White House during the forenoon.  
It may be they will touch a de-  
cision on the part the President will  
play in helping to elect Hoover to  
the presidency. The President was  
said to have offered to make a  
speech or two in behalf of the nom-  
inee but no definite decision was  
reached.  
It appeared likely that Hoover  
will have to forego a contemplated  
fishing trip down Chesapeake Bay,  
owing to pressure of campaign du-  
ties. He twice has postponed the  
trip and unless he can get away  
for a few days at the end of this  
week, he probably will get no fish-  
ing until after the election.  
Hoover has given some atten-  
tion to aviation and veteran legis-  
lation in the last few days, in ad-  
dition to working on the radio  
speech. He told newspapermen that  
congratulations were in order for  
the winner of the air derby in the  
West and he pointed to the race  
as indicating the "safety and re-  
liability" of air travel under pres-  
ent conditions.  
"The astonishing progress of  
aviation in this country during the  
last three years fully justifies the  
stimulus which an undertaking to  
develop the private development of  
aviation in the United States  
has been doing in Europe," he said.  
"Our commercial planes are com-  
peting more miles per day in com-  
mercial work than those of any  
two countries in Europe. This is  
an astounding performance."  
In talking to a group of veter-  
an representatives, Hoover de-  
clared he believed the whole nation  
"recognizes our national obliga-  
tion to our veterans." He told how  
the government was providing pen-  
sions and compensation to 235,262  
men and women, at a total cost  
of \$379,943,000 a year.  
"This represents the one im-  
portant division of the government  
where the policy has been justifi-  
able to increase rather than to re-  
duce expenditures," he said. "This  
is as it should be. This govern-  
ment must not be extravagant but  
it must be just. It has been so, and  
I should like it to continue."  
The nominee was very gratified  
by the results of the Maine elec-  
tion but he declined to comment  
publicly on the Republican victory.  
His site however was hailed by his  
advisers as indicating a landslide  
Republican victory in November.

## SIGHT AND SOUND RADIO DRAMA IS LATE INVENTION

### Scientific Experiment Proves Convincing To Group Of Onlookers

SCHENECTADY, N. Y., Sept. 12.—  
The latest scientific  
development in "sight and sound"  
radio drama. Its future possibil-  
ities today had aroused consid-  
eration in the world of science.  
The first performance of a radio  
television drama was success-  
fully accomplished by station  
WGY. The faces and some of the  
movements of the actors were  
transmitted by television on one  
way length while the words were  
broadcast on another way length.  
The small television images and  
the spoken lines were reproduced  
on two receiving sets at a point  
three miles from the sending  
station. Thus was created an ac-  
curately accurate although  
somewhat visually blurry radio  
television picture of the scene  
and drama, "The Queen's Messen-  
ger."  
Dr. F. W. Alexanderson, consult-  
ing engineer of the General Elec-  
tric Company, was given credit  
for the development of the simpli-  
fied and portable television trans-  
mitter that made possible the com-  
bination of sight and sound in the  
radio drama.  
Those who viewed the picture  
were agreed that the demonstra-  
tion was impressive although the  
pictures formed and flickered. It  
may, however, they believed, be  
the forerunner of the "radio music-  
television."

## Robinson Defends Al Smith's Record On Public Schools

CHARLOTTE, N. C., Sept. 12.—  
The public school record  
of Gov. Alfred E. Smith was de-  
fended by Senator Joseph T. Robinson,  
Democratic vice presidential  
nominee, in a speech here today.  
The Senator and his party arrived  
in Charlotte early today from  
Raleigh.  
Robinson in his address at Dav-  
ison College, declared it was  
Smith, a Roman Catholic, who  
sponsored a measure in the New  
York legislature which gives re-  
tirement benefits to school teach-  
ers.  
Robinson reviewed the life of  
Smith, saying he was born in the  
East Side of New York City of  
humble, but poor parents. Smith  
was a Catholic for the same reason,  
he said, "because we adhere to the  
religion of our parents."  
"Governor Smith has shown by  
all his acts," that he does not be-  
lieve any church authority ought  
to be permitted to run the govern-  
ment, he said, "that the govern-  
ment ought to be run as an Amer-  
ican institution."  
"He has not been a Catholic  
governor and he has not been a  
Methodist governor, nor a Prot-  
estant governor, but he has been a  
real, loyal American governor."  
Robinson will speak here tonight  
and at Columbia, S. C. tomorrow.

## Democratic Report Of Finances Shows Generous Receipts

WASHINGTON, Sept. 12.—  
A statement of Demo-  
cratic finances from June 1 to  
Sept. 1 was on file with the  
clerk of the house today. It  
showed receipts of \$681,295 and  
disbursements of \$469,179.  
The importance the Democrats  
attach to the fight in the house  
was shown by the statement of  
\$25,000 to the central regional  
headquarters in St. Louis. Other  
regional headquarters received:  
Massachusetts, \$20,000; California,  
Utah, Oklahoma, and Kentucky,  
\$10,000 each. Maine, North Car-  
olina, and Virginia, \$5,000 each.  
The Republican captured by an over-  
whelming majority in the state  
election, was allotted \$4,000.  
Another report showed the Re-  
publican congressional committee  
has received \$21,000 from the  
national committee.  
The League collected \$24,245 and  
spent \$13,285 from June 10 to  
September 8. B. R. Kavanagh of De-  
troit gave \$10,000.  
The Des Moines headquarters of  
the W. C. T. U. purchased \$1,000  
anti-Smith and anti-Hoover  
pamphlets. It collected \$275 and  
spent \$190.

## Warner Brothers Effect Big Merger

NEW YORK, Sept. 12.—  
Warner brothers have  
secured control of the Stanley  
Company of America bringing  
into their hands 25 theaters in  
the East and the major interests  
of the National Pictures Cor-  
poration, operators of 2,000  
movie houses throughout the  
country. Jack Warner told the  
International News Service today.  
It was learned in connection  
with the merger negotiations  
are under way by the  
Warner Brothers, to gain con-  
trol of the vast Keith-Albee-  
Orpheum chain theater in-  
terests and the theatrical holdings  
of the Shuberts. The Warner  
Brothers Stanley Company com-  
bines represents capital of \$150,  
000,000 and will open the man-  
agement of the assets of theater  
and wealth under control of  
the Warner Brothers.

## COOLIDGE AND PARTY RETURN FROM OUTINGS

### President Met At Sta- tion By Kellogg And Davis And Other Gov- ernment Officials

## Fair Sized Crowd Awaits At Station

### Chief Executive Finds Residence Spick And Span After Cleaning

WASHINGTON, Sept. 12.—Tan-  
ned and invigorated by a summer  
in the Wisconsin woods, President  
and Mrs. Coolidge returned to  
Washington at 8:25 o'clock today.  
They were met at the station  
by Secretaries Kellogg and Dwight  
Davis and Attorney General Sargent  
by Herbert Hoover, republic-  
an presidential nominee, Hubert  
Work, chairman of the Republican  
National Committee, government  
officials and a fair sized crowd.  
The President smiled and greet-  
ed friends affably before entering  
his automobile for the drive to the  
White House.  
James J. Davis, secretary of the  
house, was a member of the pre-  
sidential party, having boarded the  
special train in Pennsylvania.  
The Coolidges found the White  
House somewhat changed since  
they left in June. A new lin-  
oleum was put on the executive offices,  
the drive to the office wing was wid-  
ened a new tile floor was laid in  
the kitchen, and all the rooms in  
the mansion were cleaned and re-  
novated.  
"President and Mrs. Coolidge  
will remain here but a week or  
so after their hearing again for  
a visit to the old home to Ply-  
mouth."  
Both were smiling broadly as  
they arrived at the mansion. Mrs.  
Coolidge waved to a small group  
which had gathered to greet them.  
"I'm glad to see you," she said.  
"I'm glad to see you," she said.  
"I'm glad to see you," she said.  
"I'm glad to see you," she said.

## G.O.P. ANGLES FOR WOMEN'S VOTE IN EQUALITY APPEAL

### Equal Opportunities In Business And Politics Advocated By Hoover

WASHINGTON, Sept. 12.—  
Herbert Hoover, Republi-  
can candidate for president, today  
declared in favor of equality and  
equal opportunity for women in  
business and politics.  
He told a delegation from the  
women's party, however, he could  
not announce his position on the  
proposed equal rights amendment  
to the Constitution until he had  
studied it more thoroughly.  
He has asked friends to make an  
investigation of the effects of the  
amendment and upon this report  
his stand will be decided. It is not  
his policy to advocate or reject a  
measure until he has studied it  
from all angles, he advised the  
delegation. "Any plan based on  
equality of opportunity and for  
the removal of restrictions against  
them would have a great appeal  
for me, as that has long been my  
ideal of Americanism," said Hoover.  
"It has not been my habit, how-  
ever, to rush into a decision on  
public questions. I will, how-  
ever, to the extent of telling you  
that I have requested friends of  
mine who are capable of penetrat-  
ing the maze of his problem to  
make an investigation to deter-  
mine what the effect of the  
amendment would be.  
"In all the states there is on the  
status looks much legislation de-  
signed primarily for the benefit  
of women and children. I hesitate  
to brush this aside with one sweep  
of the hand until I can determine  
what the effects of such action  
would be. I agree with you in prin-  
ciple but I don't know anything  
which ought to be considered more  
seriously than an attempt to alter  
the Constitution.  
"If I find this amendment is  
necessary to abolish discrimina-  
tion and preserve equality of op-  
portunity for women, I promise  
you that I will give it the most  
favorable consideration. But I am  
not going to pledge myself to it  
until I have made an exhaustive  
investigation."  
The spokesman for the women  
were Misses Laing and Par-  
son, Misses, vice chairman of the  
women's party, Mrs. Maud Young  
of San Francisco, Mrs. Flor-  
ence Harrod Hill of Wilmington,  
Del., and Mrs. Mary Murray, of  
Franklin, N. Y.

## Lawton Announces Teaching Corps For The Rural Schools

A list of principals and teach-  
ers for the rural schools of Okla-  
homa County was announced today  
by T. W. Lawton, state super-  
intendent of public instruction, fol-  
lowing the filling of several vac-  
ancies that occurred recently.  
The list was as follows:  
Owens, H. J. Lawton, principal,  
Myra, Okla.; Mrs. J. M.  
Thompson, Mrs. Frances Sims,  
Mrs. Anna Clark and Mrs. Kath-  
ryn Rudolph, teachers.  
Geneva L. K. Rowland, prin-  
cipal, Miss Margaret Landry, Miss  
Mary Stone and Mrs. Lela Mer-  
cer, teachers.  
Lula Monroe, Christine Priest,  
principal, Miss Pearl Gentry,  
Miss Elizabeth Radford, Mrs.  
Mary Patton and Mrs. S. H.  
Mochman, teachers.  
Luzma School, J. H. Wynn,  
principal, F. L. Harris, Miss  
Kathleen, teachers; Mrs. J. M.  
Woodford, Miss Fannie Ar-  
nold, Mrs. Edith Prater, Miss  
Ruth Wheeler and Mrs. Maudie  
Thayer, teachers.  
Cherokee, W. I. Seig, prin-  
cipal, Miss Julia Gentry and Mrs.  
Kathleen, teachers; Mrs. J. M.  
Lamb, Mrs. Maudie Farn-  
worth, principal, Miss Marian  
Redfern, Mrs. H. M. Cochran  
and Miss Virginia Palmer, teach-  
ers.  
Pawnee, Robert E. True, prin-  
cipal, Miss Mary M. Fultz, and  
Mrs. G. M. McCally, teachers.  
Owasso, Mrs. M. E. Linsley,  
principal.

## Scarface At Will Continue As Boss

CHICAGO, Sept. 12.—(INS)—  
"Scarface Al" Capone is not  
through with the "racket." The  
Greatest gangster chieftain in  
the United States told Inter-  
national News Service this after-  
noon that he intended to contin-  
ue his way over gangsters as  
he had in the past, that he had  
no intention of giving in to his  
hated rivals, the Anti-Trust  
League, and that his friends in  
Chicago would be under no  
rule and no rule other than  
of "Scarface Al" Capone him-  
self. Capone said that he would  
continue to control only after he  
had been assassinated and his  
followers abolished.

## RIOTOUS SCENE MARKS CAUCUS IN TEXAS CITY

DALLAS, Tex., Sept. 12.—  
(INS)—Delegates, who re-  
fused to endorse the presi-  
dential candidacy of Governor  
Smith, yesterday bolted the  
state Democratic convention  
and organized a convention of  
their own, amid the wildest  
demonstration that has ever  
marked a Democratic meeting  
in Texas.  
Many political leaders prom-  
ised in the affairs of the state,  
and their first in a free-for-all  
fight which was precipitated when  
former Governor Oscar Campitt,  
avowed anti-Smith man, sprang  
as his first act after the conven-  
tion opened, and shouted:  
"Let all loyal Democrats retire."  
Eyes were blackened and noses  
bleed as the insurgents, trooping  
from the hall amid jeers and  
shouts of "Get out Republicans!"  
attempted to smash standards from  
delegations of loyalists. Uni-  
formed officers broke up half a  
dozen rallies before order finally  
was restored and about 200 in-  
surgents remained for their meet-  
ing place on the front steps of the Fair  
Park Auditorium.  
The bolt was precipitated when  
a motion was introduced re-  
solving that only those delegations  
legal to Governor Smith be seated.  
The motion was an anti-climax to  
the action of state executive com-  
mittee yesterday, when anti-Smith  
delegations from five counties were  
admitted that they would not sit.  
(Continued on page six.)

## COOLIDGE AND PARTY RETURN FROM OUTINGS

### President Met At Sta- tion By Kellogg And Davis And Other Gov- ernment Officials

## Fair Sized Crowd Awaits At Station

### Chief Executive Finds Residence Spick And Span After Cleaning

WASHINGTON, Sept. 12.—Tan-  
ned and invigorated by a summer  
in the Wisconsin woods, President  
and Mrs. Coolidge returned to  
Washington at 8:25 o'clock today.  
They were met at the station  
by Secretaries Kellogg and Dwight  
Davis and Attorney General Sargent  
by Herbert Hoover, republic-  
an presidential nominee, Hubert  
Work, chairman of the Republican  
National Committee, government  
officials and a fair sized crowd.  
The President smiled and greet-  
ed friends affably before entering  
his automobile for the drive to the  
White House.  
James J. Davis, secretary of the  
house, was a member of the pre-  
sidential party, having boarded the  
special train in Pennsylvania.  
The Coolidges found the White  
House somewhat changed since  
they left in June. A new lin-  
oleum was put on the executive offices,  
the drive to the office wing was wid-  
ened a new tile floor was laid in  
the kitchen, and all the rooms in  
the mansion were cleaned and re-  
novated.  
"President and Mrs. Coolidge  
will remain here but a week or  
so after their hearing again for  
a visit to the old home to Ply-  
mouth."  
Both were smiling broadly as  
they arrived at the mansion. Mrs.  
Coolidge waved to a small group  
which had gathered to greet them.  
"I'm glad to see you," she said.  
"I'm glad to see you," she said.  
"I'm glad to see you," she said.  
"I'm glad to see you," she said.

## Robinson Defends Al Smith's Record On Public Schools

CHARLOTTE, N. C., Sept. 12.—  
The public school record  
of Gov. Alfred E. Smith was de-  
fended by Senator Joseph T. Robinson,  
Democratic vice presidential  
nominee, in a speech here today.  
The Senator and his party arrived  
in Charlotte early today from  
Raleigh.  
Robinson in his address at Dav-  
ison College, declared it was  
Smith, a Roman Catholic, who  
sponsored a measure in the New  
York legislature which gives re-  
tirement benefits to school teach-  
ers.  
Robinson reviewed the life of  
Smith, saying he was born in the  
East Side of New York City of  
humble, but poor parents. Smith  
was a Catholic for the same reason,  
he said, "because we adhere to the  
religion of our parents."  
"Governor Smith has shown by  
all his acts," that he does not be-  
lieve any church authority ought  
to be permitted to run the govern-  
ment, he said, "that the govern-  
ment ought to be run as an Amer-  
ican institution."  
"He has not been a Catholic  
governor and he has not been a  
Methodist governor, nor a Prot-  
estant governor, but he has been a  
real, loyal American governor."  
Robinson will speak here tonight  
and at Columbia, S. C. tomorrow.

## Lawton Announces Teaching Corps For The Rural Schools

A list of principals and teach-  
ers for the rural schools of Okla-  
homa County was announced today  
by T. W. Lawton, state super-  
intendent of public instruction, fol-  
lowing the filling of several vac-  
ancies that occurred recently.  
The list was as follows:  
Owens, H. J. Lawton, principal,  
Myra, Okla.; Mrs. J. M.  
Thompson, Mrs. Frances Sims,  
Mrs. Anna Clark and Mrs. Kath-  
ryn Rudolph, teachers.  
Geneva L. K. Rowland, prin-  
cipal, Miss Margaret Landry, Miss  
Mary Stone and Mrs. Lela Mer-  
cer, teachers.  
Lula Monroe, Christine Priest,  
principal, Miss Pearl Gentry,  
Miss Elizabeth Radford, Mrs.  
Mary Patton and Mrs. S. H.  
Mochman, teachers.  
Luzma School, J. H. Wynn,  
principal, F. L. Harris, Miss  
Kathleen, teachers; Mrs. J. M.  
Woodford, Miss Fannie Ar-  
nold, Mrs. Edith Prater, Miss  
Ruth Wheeler and Mrs. Maudie  
Thayer, teachers.  
Cherokee, W. I. Seig, prin-  
cipal, Miss Julia Gentry and Mrs.  
Kathleen, teachers; Mrs. J. M.  
Lamb, Mrs. Maudie Farn-  
worth, principal, Miss Marian  
Redfern, Mrs. H. M. Cochran  
and Miss Virginia Palmer, teach-  
ers.  
Pawnee, Robert E. True, prin-  
cipal, Miss Mary M. Fultz, and  
Mrs. G. M. McCally, teachers.  
Owasso, Mrs. M. E. Linsley,  
principal.

## Scarface At Will Continue As Boss

CHICAGO, Sept. 12.—(INS)—  
"Scarface Al" Capone is not  
through with the "racket." The  
Greatest gangster chieftain in  
the United States told Inter-  
national News Service this after-  
noon that he intended to contin-  
ue his way over gangsters as  
he had in the past, that he had  
no intention of giving in to his  
hated rivals, the Anti-Trust  
League, and that his friends in  
Chicago would be under no  
rule and no rule other than  
of "Scarface Al" Capone him-  
self. Capone said that he would  
continue to control only after he  
had been assassinated and his  
followers abolished.

## RIOTOUS SCENE MARKS CAUCUS IN TEXAS CITY

DALLAS, Tex., Sept. 12.—  
(INS)—Delegates, who re-  
fused to endorse the presi-  
dential candidacy of Governor  
Smith, yesterday bolted the  
state Democratic convention  
and organized a convention of  
their own, amid the wildest  
demonstration that has ever  
marked a Democratic meeting  
in Texas.  
Many political leaders prom-  
ised in the affairs of the state,  
and their first in a free-for-all  
fight which was precipitated when  
former Governor Oscar Campitt,  
avowed anti-Smith man, sprang  
as his first act after the conven-  
tion opened, and shouted:  
"Let all loyal Democrats retire."  
Eyes were blackened and noses  
bleed as the insurgents, trooping  
from the hall amid jeers and  
shouts of "Get out Republicans!"  
attempted to smash standards from  
delegations of loyalists. Uni-  
formed officers broke up half a  
dozen rallies before order finally  
was restored and about 200 in-  
surgents remained for their meet-  
ing place on the front steps of the Fair  
Park Auditorium.  
The bolt was precipitated when  
a motion was introduced re-  
solving that only those delegations  
legal to Governor Smith be seated.  
The motion was an anti-climax to  
the action of state executive com-  
mittee yesterday, when anti-Smith  
delegations from five counties were  
admitted that they would not sit.

## COOLIDGE AND PARTY RETURN FROM OUTINGS

### President Met At Sta- tion By Kellogg And Davis And Other Gov- ernment Officials

## Fair Sized Crowd Awaits At Station

### Chief Executive Finds Residence Spick And Span After Cleaning

WASHINGTON, Sept. 12.—Tan-  
ned and invigorated by a summer  
in the Wisconsin woods, President  
and Mrs. Coolidge returned to  
Washington at 8:25 o'clock today.  
They were met at the station  
by Secretaries Kellogg and Dwight  
Davis and Attorney General Sargent  
by Herbert Hoover, republic-  
an presidential nominee, Hubert  
Work, chairman of the Republican  
National Committee, government  
officials and a fair sized crowd.  
The President smiled and greet-  
ed friends affably before entering  
his automobile for the drive to the  
White House.  
James J. Davis, secretary of the  
house, was a member of the pre-  
sidential party, having boarded the  
special train in Pennsylvania.  
The Coolidges found the White  
House somewhat changed since  
they left in June. A new lin-  
oleum was put on the executive offices,  
the drive to the office wing was wid-  
ened a new tile floor was laid in  
the kitchen, and all the rooms in  
the mansion were cleaned and re-  
novated.  
"President and Mrs. Coolidge  
will remain here but a week or  
so after their hearing again for  
a visit to the old home to Ply-  
mouth."  
Both were smiling broadly as  
they arrived at the mansion. Mrs.  
Coolidge waved to a small group  
which had gathered to greet them.  
"I'm glad to see you," she said.  
"I'm glad to see you," she said.  
"I'm glad to see you," she said.  
"I'm glad to see you," she said.

## G.O.P. ANGLES FOR WOMEN'S VOTE IN EQUALITY APPEAL

### Equal Opportunities In Business And Politics Advocated By Hoover

WASHINGTON, Sept. 12.—  
Herbert Hoover, Republi-  
can candidate for president, today  
declared in favor of equality and  
equal opportunity for women in  
business and politics.  
He told a delegation from the  
women's party, however, he could  
not announce his position on the  
proposed equal rights amendment  
to the Constitution until he had  
studied it more thoroughly.  
He has asked friends to make an  
investigation of the effects of the  
amendment and upon this report  
his stand will be decided. It is not  
his policy to advocate or reject a  
measure until he has studied it  
from all angles, he advised the  
delegation. "Any plan based on  
equality of opportunity and for  
the removal of restrictions against  
them would have a great appeal  
for me, as that has long been my  
ideal of Americanism," said Hoover.  
"It has not been my habit, how-  
ever, to rush into a decision on  
public questions. I will, how-  
ever, to the extent of telling you  
that I have requested friends of  
mine who are capable of penetrat-  
ing the maze of his problem to  
make an investigation to deter-  
mine what the effect of the  
amendment would be.  
"In all the states there is on the  
status looks much legislation de-  
signed primarily for the benefit  
of women and children. I hesitate  
to brush this aside with one sweep  
of the hand until I can determine  
what the effects of such action  
would be. I agree with you in prin-  
ciple but I don't know anything  
which ought to be considered more  
seriously than an attempt to alter  
the Constitution.  
"If I find this amendment is  
necessary to abolish discrimina-  
tion and preserve equality of op-  
portunity for women, I promise  
you that I will give it the most  
favorable consideration. But I am  
not going to pledge myself to it  
until I have made an exhaustive  
investigation."  
The spokesman for the women  
were Misses Laing and Par-  
son, Misses, vice chairman of the  
women's party, Mrs. Maud Young  
of San Francisco, Mrs. Flor-  
ence Harrod Hill of Wilmington,  
Del., and Mrs. Mary Murray, of  
Franklin, N. Y.

## Robinson Defends Al Smith's Record On Public Schools

CHARLOTTE, N. C., Sept. 12.—  
The public school record  
of Gov. Alfred E. Smith was de-  
fended by Senator Joseph T. Robinson,  
Democratic vice presidential  
nominee, in a speech here today.  
The Senator and his party arrived  
in Charlotte early today from  
Raleigh.  
Robinson in his address at Dav-  
ison College, declared it was  
Smith, a Roman Catholic, who  
sponsored a measure in the New  
York legislature which gives re-  
tirement benefits to school teach-  
ers.  
Robinson reviewed the life of  
Smith, saying he was born in the  
East Side of New York City of  
humble, but poor parents. Smith  
was a Catholic for the same reason,  
he said, "because we adhere to the  
religion of our parents."

Braeburn Course Proves Waterloo For Renowned Golfers Including Jones

List Of Those Stumped By Hazardous Links Contains Names Of Three Onetime British And 6 Ex-U. S. Champs

By Davis J. Walsh International News Service Sports Editor WEST NEWTON, Mass., Sept. 11.—(INS)—Posses of stretcher bearers still were searching the scene of the great disaster for the dead and dying this morning as another day dawned to the east of that sprawling octopus of golf courses, Braeburn. It was to have been a day given over to a fighting finish of the national amateur golf championship's qualifying round but, to many, in the original field of 142, hope and even life itself was all but extinct. Notables of the links were among the major casualties found among the ruins of the first day's play, even Robert T. Jones, Jr. the young maestro, was listed among the injured for the first time in his recent years of tournament experience. The casualties of the moment and the extent of their injuries were as follows: Severe lacerations, mostly pride; Bobby Jones 77; Francis Ouimet, Max Marston, Jesse Sweetser, W. L. Hope, Eddie Held, Frank Dolp and Ben Stein, 78. Painfully injured: Maurice McCarthy, Eustace Storey and Phillips Finlay, 79. Serious:—Dr. William Tweddell, Major C. O. Hazlet, John G. Anderson, Dick Jones, Jesse Guilford, Chick Evans, Watts Gunn and Bill Fownes, 80. Critical—Clarke Corkran, 81. Lives despaired of: T. A. Torrance, and Dr. O. F. Willing, 83. Identified dead: Ellsworth Augustus, 85, and Roland MacKenzie 88. This list includes the name of the present and seemingly perpetual champion, Mr. Jones; three former champions of England, six ex-champions of America and

MIAMI LOPS OFF \$1,848,542 FROM MUNICIPAL COSTS

Slash In Tax Levy Of \$1,276,720 Is Made Possible By Savings

MIAMI, Fla., Sept. 11.—City officials reduced operating expenses \$1,848,542 during the year ending June 30, and thus permitted a reduction in the tax levy of \$1,276,720.53 in audit of the city's books completed last week by the Federal Audit Company and made public yesterday, shows. Principal reductions were made in the welfare, service and safety departments. During the year, the city spent \$2,888,288 for all departmental expenses and \$1,781,416 for other expenses, making a total of \$4,669,704. Expenditures for the year ending June 30, 1927, totaled \$5,455,548. Revenues for the last year were \$5,775,329, compared to \$7,294,610 for the previous year. The city had cash in banks amounting to \$5,326,982 on June 30, and permanent assets of \$29,059,910, this amount including lands, buildings, streets, sidewalks, sewers, and other property owned by the city. There are accounts receivable of \$333,636. Action on several of the accounts was recommended as they might be lost by the statute of limitations. One was an account against the Coral Gables Rapid Transit Corporation for \$25,592. The city had outstanding on June 30 bonds in the amount of \$31,427,000. During the year, harbor bonds in the amount of \$1,106,000 and other bonds totaling \$1,082,000 were redeemed, and additional bonds of \$4,863,000 issued. The auditors recommended that payment of employees be made by check where possible, that the present system of paying in cash is unnecessary and that a plan could be formulated to eliminate a large volume of the clerical work and lessen the danger incident to handling large sums of currency. A separate audit was made of the books of the Jackson Memorial hospital which show a deficit for the year of \$264,509. The auditors declare that this deficit is due entirely to the large amount of charity work at the hospital and the large amount of charity debts paid off. It was suggested that a thorough investigation of the financial standing of each debtor be made and a more determined effort be made to collect charity and bad debt items. Figures show that general charity work cost \$349,271, county charity, \$7,203; professional disbursements, \$1,042, and had debts charged off, \$25,277. A reduction in operating expenses from the previous fiscal year was effected in the amount of \$191,596. The operating expenses for the year amount to 81 per cent of the gross earnings, whereas for the preceding year the percentage was 91.38.

Star Golfer Declares His Collapse In Tournament Was From Over-Confidence

Roland Hancock Disproves Many Accounts That He Suffered From Nerves And Lost Match Within His Grasp

NEW YORK, Sept. 11.—(INS)—Waiting until all of the boys had sobbed their last agonies the collapse of the young man who couldn't shoulder the nerve strain of accepting a victory in the open golf championship, Roland Hancock, now rises to remark, in effect, that the commentators, if not all wet, are at least somewhat damp. The boys attributed the young man's pair of 6's on the last two holes at Olympia Fields, when all he needed was a streak over par each, to stage fright. Hancock, in the current issue of a Golf Illustrated, says it was due to over confidence and "maybe we ought to believe him. Anyhow he probably qualifies as an authority in this particular matter, for he happens to be the young man who underwent the experience in question. Over Confident He says, among other things, that he was so certain of victory that he couldn't concentrate properly and that, on the occasion when he had a "lie" on a bare spot off the fairway, he was so confident of the issue that he didn't ask for a ruling but addressed the ball as though playing from a trap for fear someone later would question the legality of the shot. He admitted that the antics of the gallery bothered him but seemed to regard this as a secondary cause of his failure, not as the primary cause, as so many observers saw it. It is interesting that his version is published almost simultaneously with an article by Bobby Jones in which the master declares that the base of many tournament players is their failure to become properly impressed with the seriousness of the situation confronting them. Jones' contention is that fear of the consequences often produces a better golf than the 13 with a tranquil mind is able to furnish. In order to make his point Jones cites the tournament career of Watts Gunn as an example. Gunn, he points out, often enters minor tournaments with such serenity that, in facing obscure opponents, he isn't able to rouse himself to a proper pitch until his rival has him badly "down". Whereas, says Jones, if Gunn is in a big championship, he goes out in the first tee, highly keyed up over the importance of the situation and, in consequence, is able to play the stars of the game, stroke for stroke, and sometimes even better. This argument and the assertion of Hancock that too much confidence ruined his play may be wifertight in every respect. But their logic will prove somewhat confusing to the duffer. The latter is told that he must relax; that he must free his mind of all worry if he is to score well. Hancock says the relation of over-confidence lost him the open championship. Jones declares that Gunn and other golfers have trouble in playing their best golf on occasions because they can't worry sufficiently. These contrary ideas are not held up by writers with the intention of embarrassing their authors but merely to support what the duffer, in his sublime ignorance, has long suspected: That golf has the most contradictory set of commandments of any institution known to man.

Weather Reports

WASHINGTON, Sept. 11.—(INS)—Along the South Atlantic Coast the winds will be gentle to moderate north-east or east and the weather will be mostly overcast with showers tonight or Wednesday. Over the East Gulf the winds will be gentle to moderate westerly and the weather will be partly overcast tonight and Wednesday, probably showers over east portion Wednesday. Forecast till 8 P. M. Wednesday: For Florida, showers tonight and Wednesday, except generally fair in west portion tonight; gentle northeast or east winds over north portion and east or southeast over south portion. For extreme northwest Florida, fair tonight and Wednesday, with probably local thundershowers Wednesday afternoon; gentle northeast, or east winds.

2 Million Trout Eggs Will Be Distributed

GLACIER PARK, Mont., Sept. 11.—(INS)—Two million native trout eggs from the United States fish hatchery at Bozeman, Mont., now are ready for the troughs in the hatchery at Glacier National Park. They will be distributed in the waters of this region of the Rockies, according to W. C. Buckmaster, head of the hatchery at Glacier Park. Over 21,000 rainbow trout already have been liberated in the waters about Many Glacier, and 160,000 rainbow will be distributed in Two Medicine, Josephine and McDermott Lakes. 15,000 grayling have been planted this spring. Half of that number were put into Moran Lake on Appekuny Ridge, and the remainder in a little lake near Many Glacier Hotel, which heretofore has been barren of fish.

CRASH VICTIM DIES

LOS ANGELES, Sept. 11.—(INS)—Lieutenant J. J. Williams, 25, of Utah, army stunt aviator, died at a Culver City hospital early today from injuries received when his plane crashed during the national air races here yesterday.

GAMBLING IN OIL CHECKED SOME IN USE OF GEOLOGY

Larger Production Is Also Attributed To Methods Of Science WICHITA, Kans., Sept. 11.—Fifteen years ago an oil company in quest of new fields made the first application of the science of geology for this particular purpose in the immense Mid Continent region near Wichita. For a number of years geologists had noted the fact that the oil fields of Pennsylvania were found along the crests of folded and arched beds of surface rock formations. It was suggested to the oil companies seeking new fields that they hunt out the spots in the prospective territory where folds existed in the surface formation and drill their wildcat wells on the crests or axes of these poles. The Empire Gas and fuel company was the first in the world to apply the idea, says William L. Ainsworth, vice-president of the company which does much of the work of analyzing the prospective fields. Two Big Fields Bringing in the Augusta and the El Dorado fields in Kansas, two of the largest at the time that they were brought in, the latter not being one of the big producers was the contribution of the Empire Gas and Fuel company to the world's supply of petroleum. Even more significant than the actual production of millions of barrels of oil for the world's consumption is the fact that this pioneering act in the use of geology to find new fields has revolutionized one phase of the industry. It has eliminated some of the early gamble bets attached to it at the time that Rockefeller began to amass his fortune in Standard Oil, besides making for a much larger production than would have been possible had the gambling chance remained in the business. Throughout the Mid Continent region practically all of the areas, where surface formations are exposed for the geologist's work have been mapped. Drills Are Useful There still exists, however, in this great Middle Western territory vast areas of land where the geologist cannot map the surface because soil, silt or sand covers these rock beds necessary in determining places favorable to the accumulation of oil and gas. One method, however, is being used to overcome this difficulty since the invention of the diamond drills, now in common use wherever oil is being produced. The geologists, upon the assumptions gained from investigations in the neighboring sections, may have a "hunch" that oil or gas is underlying

Victoria Carriages Are Fast Passing From Washington

WASHINGTON, Sept. 11 (INS)—The Victoria carriage and its prancing blacks, relics of a more leisurely civilization, are fast disappearing from the streets of the nation's Capital, practically their last stronghold. Twenty years ago there were 66 "for hire" Victorias moving decorously about Washington. Now there are seven. They hung on doggedly after the advent of the automobile, until Pres. Taft's administration, when the motor car was decreed the official method of transportation for White House occupants. This was a death blow. Pres. Taft installed a force of motors, and the carriage was soon forgotten, except for state occasions. Later it was relegated entirely to the past, and left out of parades of the swankest of fashion and officialdom. Soon To Disappear The seven Victorias left are not here for long, according to the sage prediction of one, John Jennings, oldest of a tribe of darkies who piles the carriages through the streets. "We're about gone," he said. "Used to be we could make lots of money. Now the piekin's mighty scarce. 'Bout the only passengers we gets is boys larkin' about at night. We don't carry Mr. Jones to church on 'Sundays' no more."

10,000 Walk Out In Rail Strike In India

CALCUTTA, Sept. 11.—(INS)—Labor difficulties at Lillooah have broken out afresh with a new strike of more than 10,000 workers in the workshops of the East India Railway Company. The trouble was thought to have been settled during July after a strike lasting 134 days. The renewal of hostilities, however, was due to a speech by the leader of the workers, K. C. Mitra, who has been taken to Anasool where he is subject to magisterial proceedings. The workmen after listening to their leader observed Satyagraha, or passive resistance, inside the workshops. They demanded the original strike terms. They were ejected with the greatest difficulty from the workshops, and were then locked out.

Hassell And Cramer Heading For Denmark

COPENHAGEN, Sept. 11.—(INS)—George Hassell and Parker Cramer the Buckford to Sweden fliers whose attempt ended on the wasteland of Greenland, were today aboard a small steamer en route from Godthaab, Greenland, to Ivigtut, farther down the coast, where they will board a steamer for Denmark, according to radio advices received by the Greenland Administration Department here. Hassell and Cramer, together with four members of the University of Michigan expedition to Greenland led by Professor William F. Hobbs, experienced the thrills of an Arctic shipwreck when a motorboat taking them to Hostenborg struck rock and sank at the mouth of Sialutwa Fjord. All were rescued. In the surface in nearby areas. With these assumptions worked out as well as the facts will permit, a rather crude drilling is made in the area where the oil may be. Although not so exact as the geologists' work on the rock formations, many good wells have been brought in by this method, Ainsworth states. Drilling Not Expensive In this dissertation on the matter Ainsworth explodes the popular conception that all oil drilling is excessively expensive. He points out that the cost of core drilling is not prohibitive and outside the possible range of operations of the so-called small operator. He states that it is a rare case when one year's rentals of a block or even a portion of the year's rentals will not pay for the cost of drilling. "It is a foolish venture to put up a rig and drill a well costing forty or fifty thousand dollars on just any location where the surface formations are covered when a few thousand dollars spent for core drilling might eliminate a very great part of the chance," Ainsworth states.

QUAKE RECORDED

DENVER, Sept. 11.—(INS)—An earthquake shock shock described as "medium intensity" was registered on the seismograph at Regis College here at 8 o'clock this morning. The Rev. F. A. Forestall, in charge of the apparatus, said he believed the tremor was from the North American Continent but could not estimate the distance or direction of the shock.

RUSSIANS ARRESTED

LONDON, Sept. 11.—(INS)—A number of Russians, including red army commanders, have been arrested by the "GPU"—secret political police, charged with conspiracy against the Soviet Government, according to an Exchange telegraph dispatch from Riga this afternoon quoting reports from the Russian frontier.

PROBE CONDUCTED

RATON ROUGE, La., Sept. 11.—(INS)—An investigation of the fatal jail break at the Angola camp here Sunday night revealed today that women smuggled guns into Cleveland Owens and Steven Beck, two of the convicts killed by the guards. No arrests, however, have yet been made.

PARTY NEWS

INDIANAPOLIS, Sept. 11.—(INS)—Billie Watkins split the Indiana Republican Party for two years ago and came to an end today the sending by Thomas W. Hendon, publisher of the Ind. Commercial, of the support both national tickets of the G. O. P.

**WEDNESDAY**  
Missiffy and Anne Robertson at the home of...

**THURSDAY**  
Meeting of the Colonel Roosevelt Auxiliary of the Spanish American Veterans will be held at 7:30 p.m. at the home of Mrs. C. H. Smith.

**FRIDAY**  
A called meeting of the Spanish American Veterans will be held at 7:30 p.m. at the home of Mrs. C. H. Smith.

## Church Circle Meets On Monday Afternoon

The Willis McGavock Circle of the Methodist Church was entertained by Mrs. C. T. Herndon and Mrs. O. R. Estridge at the home of the former Monday afternoon.

Cut flowers, artistically arranged in vases and bowls, added to the attractiveness of Mrs. Herndon's lovely home. Mrs. T. P. Adams, chairman, was in charge of the meeting. During the devotional hour Mrs. C. H. Smith read the fourth chapter in the book of Spiritual Adventuring. Many items of business relative to the work of the Missionary Society were taken up and discussed.

At the close of business the meeting was turned over to the hostesses who served fruit punch and home made cake. Miss Katherine Burman delighted those present with two vocal solos while Miss Elizabeth Clark contributed to the enjoyment of this occasion with two piano solos. This meeting opened the autumn season and was thoroughly enjoyed by those present, who were: Mrs. T. P. Adams, Mrs. L. M. Tolson, Mrs. C. H. Smith, Mrs. W. E. Waller, Mrs. Miller, Mrs. A. D. Shonemaker, Mrs. M. I. Mitchell, Miss Annie Mitchell, Mrs. Susie Squires, Miss Katherine Burman, Mrs. O. P. Estridge, Mrs. C. T. Herndon, Miss Dorothy Smith and Mrs. Ben Monroe.

## Ladies Union Meets At The Parish House

The Ladies Union of the Congregational Church of Twin Lakes, Fla., held their first meeting after the summer vacation, at the Parish House Monday afternoon with Mrs. Albert Knight and Mrs. Oscar Ziteria as hostesses. Quite a large number of the members were present eager to begin the new season's work. The vice-president, Miss Lois Williams presided over the meeting as the president has moved to Sarasota.

The treasurer's report was very satisfactory, showing a balance of over 100 dollars after all obligations had been paid. The new Christmas card book was started on its rounds and a supper and entertainment were planned for this month. Following the business session, the hostesses served delicious ice cream and home made cake and a pleasant social hour was enjoyed. The meeting then adjourned until Oct. 1st.

Mrs. Rush St. Johns and baby, Cora, left today for Gainesville after a short visit here as the guests of Mrs. St. John's parents, M. and Mrs. W. A. Zachary, following a visit with her sister, Mrs. Dick Philyaw in Gainesville. Mrs. St. Johns will go to Tampa where she will make her future home.

## Personals

Miss Jean Maxwell left today for Titusville University at DeLand where she will study this winter.

Fred Walsma, formerly of Sanford but now of Haines City, is a business visitor here for several days.

Mrs. George Witmer is visiting her mother-in-law, Mrs. George Witmer Sr. in Washington D. C.

Prof. and Mrs. G. E. McKay spent Wednesday in DeLand as the guests of Mrs. Lena Woodward.

Mayor and Mrs. E. P. Houssholder left Tuesday morning for an extended trip through southern Florida.

Mrs. J. N. Whitner returned yesterday from Daytona Beach where she has been spending the past week.

Mrs. Herbert McCaslin and young son Joe, returned yesterday from Daytona Beach where they spent the summer very pleasantly.

Mrs. Susan Moffitt left Monday for Helott Wis., having been called there by the death of her son who was killed in an automobile accident.

George Schifley, who attended the Orangeburg High School last year in Orangeburg, S. C., is expected to arrive this week to enter Seminole High School.

Mr. and Mrs. J. H. McCaslin and Miss Mae McGill are expected to return home Thursday from Daytona Beach where they have been spending the summer.

Miss Hattie Bredin, who teaches in the Winter Garden High School, is expected to arrive Thursday evening to be the guest of her aunt, Mrs. J. N. Robison for a few days.

Mr. and Mrs. R. A. Wilson and Children left today for a motor trip to several points in North and South Carolina, where they will visit friends and relatives. They expect to be away for two or three weeks.

Miss Margaret Berner returned Tuesday from Candor, N. C., where she has been connected with the American Fruit Growers Inc. for seven weeks. Miss Berner spent the past week-end with friends in Wilmington, N. C., before returning home.

PORT TAMPA—Asiatic Petroleum Company will erect large storage plant for fuel here.

## Mrs. Spencer Honors Circle At Her Home

Circle Number Five of the Methodist Church met Monday afternoon at the home of Mrs. G. W. Spencer on Highway Avenue. Mrs. S. O. Shindler presided at the meeting and the devotional chairman, Miss Mattie G. Chapman, read the devotional service. After the usual routine of business the meeting was turned over to the hostess and a social hour was enjoyed by all the members. Later in the afternoon Mrs. Spencer served fruit punch and cake. Those present were: Mrs. Brodie Williams, Mrs. C. E. Chorpene, Mrs. R. T. Thrasher, Mrs. M. E. Mayo, Mrs. L. D. Martin, Miss Mattie G. Chapman, Mrs. T. E. Wilson, Mrs. Marion B. Smith, Mrs. S. O. Shindler, Mrs. R. M. Mason and Mrs. J. F. McClelland. The Circle will meet the next time with Mrs. Marion B. Smith.

## P.T.A. Meets At Home Of Mrs. I. N. Hansell

Tuesday afternoon at the home of Mrs. I. N. Hansell on Oak Avenue there was held a most enthusiastic meeting of the officers of the Parent Teacher's Association of Seminole High School. The object of the meeting was to suggest plans for the coming school year. This was just a called meeting of the officers last evening was very well pleased with the interest manifested in the plans for the coming year. In the first regular meeting of the Parent Teacher's Association, officers for the coming year will be elected. Those present were: Mrs. J. N. Robison, President; Mrs. Townsend Tatterson, Vice-President; Mrs. F. W. Bender, Secretary; Mrs. G. E. McKay, Treasurer; Mrs. L. N. Hansell, Council Chairman; Mrs. Dietrich, Cafeteria Manager; Mrs. Claude Herndon, Membership Chairman; Mr. Lawton, County Superintendent; and Prof. G. E. McKay, Principal.

LAUREL HILL—Work under way on construction of large fresh water fish hatchery.

panied by her son, Arthur caton Mrs. Perry Weisberg, accompanied by her young son, Arthur Lee, returned Tuesday from a three months' visit in New York, Atlantic City and Asbury Park. While away Mrs. Weisberg purchased an extensive line of goods for the Diamond Palace.

Esther Ralston is seen in new role in Milane picture

Mizner files suit to stop transfer of valuable land

Guy Singleton gets conditional pardon

Esther Ralston, blonde actress of Paramount pictures, appears in her new picture, "The Sawdust Paradise" as a street carnival ballyhoo girl. The picture comes to the Milane Theater today. As a ballyhoo in the wool ballyhoo girl with a cheap traveling street carnival, Miss Ralston plays a part that ranges between the light and broad comedy which has featured her previous starring roles, and real drama.

The serious moments of "The Sawdust Paradise" bring forth Miss Ralston's strength as a dramatic actress. It is reported that the blonde star is to do more of the drama work in the future.

The story has a well knit plot. It concerns a street carnival ballyhoo girl who is arrested, and then paroled to an evangelist who conducts a revival across the street from the carnival. How she turns up business for the evangelist by using unusual tactics to fill the tent, and how she becomes attached to her new life, are made to form one of the most interesting stories the star has done for some time.

## Esther Ralston Is Seen In New Role In Milane Picture

Mizner Files Suit To Stop Transfer Of Valuable Land

Guy Singleton Gets Conditional Pardon

WEST PALM BEACH, Sept. 12 (INS)—Suit was filed yesterday by attorney representing Adolph Mizner, prominent New York architect, against Victor Mizner, who is an officer in the Mizner Land Company. The action seeks to nullify the transfer of Palm Beach ocean front property valued at approximately \$1,000,000.

The suit alleges that Victor Mizner, without knowledge and consent of other company officers, the property involved in the East Inlet Development Corporation.

A further allegation is made that a seal, purporting to be the official seal of the Mizner Land Corporation, but a "transfer" imitation, was used in the transfer.

The declaration names H. Clay Crawford, Jr., S. S. Spencer and L. C. Spencer, of Tallahassee, as incorporators of the East Inlet Development Corporation. H. Clay Crawford, Jr. is a son of the secretary of state of Florida.

### SCIENTISTS FAIL IN REPRODUCING SCENT OF ROSES

#### America Laboratories Are Unable To Find Perfume Formulas

WASHINGTON, Sept. 12.—(INS) The laboratories of America have become the home of many a rare perfume and flavor which formerly could be obtained only in far, exotic places. Not even science cannot exactly reproduce the treasure of the rose.

The National Geographic Society, in a report which lauds their accomplishments of modern chemistry in "freeing the world from economic bondage" to the distant places, admits that the wonders produced by Nature in some of these places can neither be reproduced or explained by science.

The report gives science "the decision in the battle between Nature and man, for economic reasons, but does not grant superior excellence to the chemists' products."

#### Big Achievements

"Independence (of Nature) has not been achieved entirely, but if all flowers lost their perfume and color, all spices their pungence and most fruits their chemist could closely imitate most of these factors synthetically," the report says.

"But were synthetics banished from our lives, all the fields, forests and oceans could not support us in the luxury to which we have become accustomed," it continues.

Declaring that we can "do without" the products of such places as Reunion Island, the Guianas, Bulgaria's Valley of Roses, Timor, Formosa, Malaya and others, the Society cites the number of these products which are manufactured synthetically in the United States. "The indigo blue of India comes today from Wilmington, Delaware; the precious musk of Tibetan mountain deer is imitated in Delawanna, New Jersey; the equal of tannin from Argentina quebracho from a Pennsylvania, New York chemical vat. Balsam of Peru might logically be called "Balsam of Pennsylvania," the Society asserts.

Most of these products and many others are extracted from coal tar, discovered accidentally by William Perkin, a London chemist, in 1856. Synthetics from cotton, corn, wood and various other range from rayon underwear to synthetic pearls.

#### Out of A Job

Thousands of Lascant farmers have had to look for something else to cultivate because coal tar had eliminated the madder red which came from madder plants they formerly grew. Synthetic resins have taken the place of the kauri gum of New Zealand. Synthetic nitrates have taken a share of the world market from Chilean nitrates. Malaya and Sumatra live in fact that a synthetic rubber will be perfected. Even the royal camphor monopoly enjoyed by the Japanese emperor in Formosa is less valuable since the perfection of synthetic camphor.

But, the Society finally admits, the Riviera sunshine can still perform an office for flowers which test tubes cannot perform for synthetic perfumes, and American synthetic attar of roses is only "almost equal to that distilled from thousands of buds gathered in the dew of the morning in Bulgaria's "Valley of roses."

### Germany's Airlines Have Transported Several Thousands

BERLIN, Sept. 12.—(INS)—The airplanes of the German Luft Hansa carried 49,231 passengers in the first six months of the current year.

This is almost 17 per cent more than in the first half of 1927. The gain of air travel in Germany however is best shown by a comparison with 1926. In that whole year the total number of passengers was 14,218, or only a little more than a third as many as were carried from January 1 to June 30, 1928.

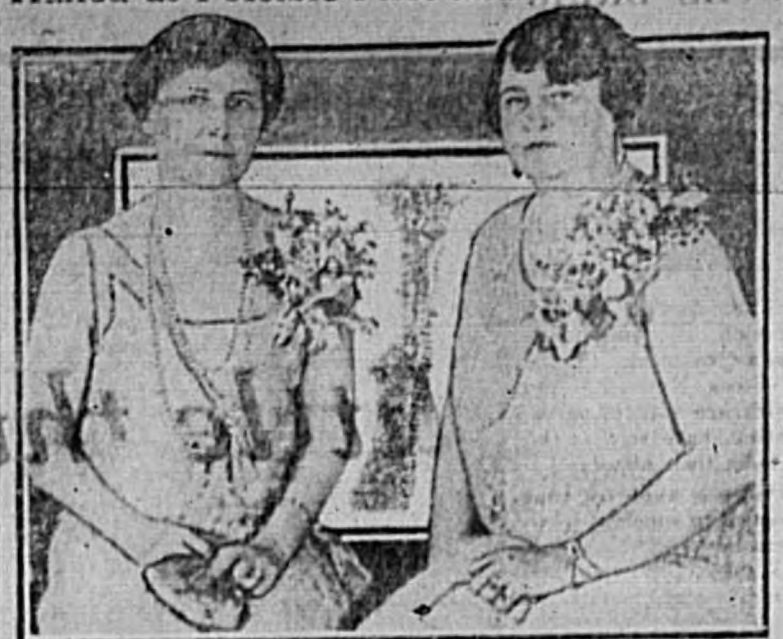

The increase in the amount of freight carried is equally striking. The total was nearly 472,000 tons, against 276 tons in the same period last year. There were also transported 367,142 tons of baggage and 185 tons of mail matter.

The increase in the popularity of flying is due to various factors—its safety, the instituting of a restaurant service in the big planes, the adding of new routes, cooperation with the railroad service, and in general, an increase in the comforts offered passengers.

A noteworthy feature of this year's development was the inauguration of the newest European airplane route, that from Berlin to Madrid. This trip, covering more than 1,300 miles, is made in 17 hours.

LIVE OAK—Shaver Brothers will establish shipping station here.

### Hailed as Possible First and Second Ladies

Mrs. Alfred E. Smith (right) and Mrs. Joseph T. Robinson, wives of the Democratic nominees for President and vice-President are pictured at the reception to them by 3,000 Democratic women at the Hotel Astor in New York recently.

### Colorado Coal Mining Agreement Will Have Far Reaching Effects

DENVER, Sept. 12.—(INS)—An agreement between the Rocky Mountain Fuel Company and the United Mine Workers of America is expected to have far-reaching effects in the prevention of future coal strikes was reached here recently. The agreement was the outcome of plans made by Miss Josephine Rushe, first vice-president and principal stockholder in the coal company.

The contract provides for: An increase in the basic daily wage from \$6.77 to \$7.00. A differential rate of 23 cents in wages to be maintained above non-union scales in recognition of increased efficiency of union labor.

#### Wage Out Plan

A detailed plan for adjusting differences between employer and management and preventing strikes.

A new department of medicine and sanitation unique in the coal industry.

Elimination of unjust working conditions impairing earning power of miners.

Recognition by the miners of an obligation to co-operate in more efficient operation of the mines.

The contract went into effect the first day of September. It will affect between 800 and 1,900 miners in the company's five mines.

### United States Will Have Better Air Traffic

WASHINGTON, Sept. 12, 1928—Within five years the United States will outstrip Europe in commercial aviation, according to W. Irving Glover, second assistant postmaster general. Glover based his prediction on a personal survey of air mail lines.

"Within three years passenger travel by air in this country will equal the mileage distance flown by the lines in Europe and within five years will be far in advance of those lines," he declared.

"I must confess that the west is really more air-minded than the east. The tremendous loads which the lines are carrying have demonstrated to me that it is only going to be a matter of time when all the operators in the west will have ships with a larger capacity for carrying mail than those at the present time."

A new type of air mail plane capable of carrying 1,800 pounds of mail is to be put in operation about October 1 on the Chicago, San Francisco route.

### MANY COUNTRIES WILL TAKE PART IN SEVILLE'S FAIR

#### Spanish City Is Now In Middle Of Construction, State Reports

WASHINGTON, Sept. 12. (INS)—Seville, Spain, is now in the midst of a construction era, according to reports received from Thomas E. Campbell, former governor of Arizona, who is Commissioner-General of the United States Commission to the International Exposition at Seville. The Exposition will be held in Seville next year and the extensive construction activities are largely due to the erection of palaces by the exhibiting countries which were once wholly or partly colonized by Spain, when that nation was the ruling country of the world.

Commissioner Campbell reports that all the countries of Central and South America as well as the United States, Mexico, Cuba and Morocco will participate in the Exposition scheduled to open on March 15th next and to continue throughout 1929.

#### City of Scaffolds

"Seville today is the city of scaffolds," writes Commissioner Campbell, "everywhere visitors go they see building construction, either in the erection of new hotels or apartment houses, which will be ready to house the visitors to the Exposition, or the erection of permanent and temporary exhibition palaces where each participating nation will display to the visitors the different phases of both governmental and private life in their country."

Commissioner Campbell is now in Seville supervising the erection of the three United States buildings which will house the exhibits of the twenty-three governmental bureaus of the U. S. The buildings of Spanish Colonial type, were designed by William Templeton Johnson of San Diego, Calif. One of these buildings will be permanent, while the other two will only be temporary. The permanent building, after the close of the Exposition will become the United States Consulate in Seville. The United States participation in the Seville Exposition has been assured by a congressional appropriation of \$700,000.

#### U. S. Building Ready

"Construction on the United States Government buildings was started in February of this year and will be completed about Octo-

### The supreme test of a wife's devotion

### His silence spelled His Guilt, and yet...

HER face was deathly white. Her heart seemed to stop beating—as she stared in horrified disbelief at the letter clutched in her trembling hand.

A letter to Dave, her husband—a strange woman—asking for money! It was preposterous. Unthinkable. Oh, it couldn't—couldn't be true!

And yet—who was this woman? Why had she written Dave this letter? Was there, after all, some romantic episode in her husband's life that he had kept hidden from her?

And now, this—this letter—after ten years of perfect comradeship and devotion! Her happiness threatened. Her love, life tottering on the brink of ruin. Dave, the man she had idolized, had trusted implicitly, the father of her children—Surely there had been some terrible mistake. Surely Dave could explain.

But that night, when she quietly handed him the letter, Dave stood with bowed head, in stony silence—his face a mask, to hide—what?

Torn between love and suspicion, between hope and

despair, between faith and disillusionment, she searched her breaking heart in a pitiful attempt to learn what she had done to deserve this crucifixion.

All she had loved and lived for seemed to be in crumbling ruins at her feet. God knew she loved Dave—still loved him, no matter what he had done. And yet—

You will want to read the outcome of this powerful, heart gripping story from real life. You will never forget it. Starting on Page 70, it appears complete in the October issue of True Story Magazine.

ber 15. We expect to begin the installing of the exhibits about February 15th, 1928 a month before the opening of the Exposition. Commissioner Campbell continues "The permanent building will house all the latest household conveniences. In addition to serving as an exhibition

building during the Exposition it will also be a demonstration of modern American home. The exposition grounds, which have been under preparation for sixteen years are flanked on one side by the Guadalquivir River and on the other by the Marie Louisa Park. Most of the Ex-

hibition Palaces are planned to be permanent and to harmonize with the architecture of Seville. The main exposition buildings of Spain are completed and the government is now erecting exhibition halls for private concerns to house their displays.

DAYTONA—Fair American Building Company has completed most of factory here.

FERNANDINA—Several miles of city to be paved.

LEESBURG—Work started on modeling and extending water re-plant.

# Why ROYAL CORDS are the Best Buy Today.

## Royal Cord Prices were never so low. Royal Cord Mileage was never so high.

### U. S. ROYAL CORDS No better tires made today

For sale by J. M. Lemoines Service Station Nos. 1-2-3.

## Won't rip! Won't tear! Won't sag! New, patented webbing belt in the Hanes \$1 SAMSONBAK UNION SUIT

### SAMSONBAK HANES

Look for the HANES SAMSONBAK label where you buy. The center section of the SAMSONBAK belt is in light blue to help identification. If your dealer hasn't it, write us direct. Other styles in Hanes full-cut athletic union suits priced at from 85c to \$1.50 the garment.

SEE that belt? See the specially knitted panel at the centre of the back? Good-bye ripping, tearing, sagging. That SAMSONBAK feature stops it.

Go around to your dealer's. Have a tug-of-war with him on a HANES SAMSONBAK Summer Union Suit. Do a Zhyzko. Rear back. Just try to tear that belt. Try to rip it away from the body of the union suit. Pull, yank, stretch it. You can't wreck it with your hands, so you won't be wearing or washing it. No rubber in it at all!

No question about comfort, long service or happy fit. For that belt measures three-quarters of the way around your waist—everywhere there's any strain, any pull, any bending. The whole idea is patented—found only in the HANES SAMSONBAK. \$1 never before bought so much wear and comfort!

34 STOCKS BRING RECORD PRICES IN RECENT TRADING

The little things

Powerful Pools Exert More Influence Than High Money Rates

NEW YORK, Sept. 11.—(INS)—Since the middle of June thirty-four of the active stocks on the New York Stock Exchange...

This is evidence a plenty that what has seemed to superficial observers a bear movement has in reality been a very highly selective market...

The following stock stars have scored new all-time price records in a reduced volume of trading since June 11:

Allied Chemical, American Ice, American Lined American Smelting and Ref., American Sumatra, Atlantic Refining, Cerro de Pasco, Chrysler Motor, Coty, Eastman Kodak, Electric Auto Light, General Gas and Elec., General Ice Cream, Grand Stores, International Nickel, Jewel Tea, Kennecott Copper, Kruger, Lehn and Fink, McCrorr, Montgomery Ward, Motor Wheel, Motor Products, National Cash Register, National Tea, Paramount, Pillsbury, Postum Company, Sears Roebuck, Shattuck, Texas and Pacific, Union Carbide, and Warner Brothers A.

An analysis of the above group of stocks reveals that nearly half of the whole list—fifteen, to be exact belong to the classification of mercantile-and-facilities industries. Sears Roebuck, Montgomery Ward, Kruger, Macy and Postum have furnished a good part of the market fireworks since the early summer, while American Ice, Grand Stores, Jewel Tea, National Tea and Pillsbury have achieved their peak price records with a minimum of noise and fuss.

The motor stocks and motor accessories come next with five representatives including Chrysler which has replaced General Motors as the bull leader in important speculative quarters; coppers have four, amusement stocks 2 and scattering 8.

It should be noted also that industrial mergers and stock splits played an insignificant part in the market movements of the stocks in this group. Chrysler was the outstanding exception, though even in this case the remarkable records of the Chrysler Corporation over the past three years were more of a factor than the taking over of the Dodge concern, which has never been a money-maker since control was assumed by Wall Street bankers.

The mercantile stocks had a strong and aggressive pool to push them along, but not out of line with the enormous expansion in business and net profits of Montgomery Ward, Sears Roebuck and other makers of economic history in the post-war period. The split-up of their stocks was a minor rather than a major feature, though this is expected to expedite the handling of their stocks through the public markets. Elsewhere in the list recognition has been given to individual performances of well known enterprises, in some cases actual and others potential earnings being the driving power behind the spirited advances in stocks.

The isolated sky-rocketing of one or two stock stars today suggests that some of the pools are making desperate efforts to sell in the public sense of the stocks they have been accumulating over a long period. Some of these stocks were purchased at abnormally low prices and thus have further speculative possibilities for courageous and well-fortified investors.

Mills was replying to charges by Smith that he (Mills) had also misrepresented New York State finances by the statement "that the huge increase in resources due to prosperity had been applied under Governor Smith neither to tax reduction nor to debt reduction, but spent."

Mills asserted that when Smith became governor for the second time the net state debt in 1925 was \$181,000,000, and that by 1928 it had grown to over \$255,000,000.

The little things

AWAY back in the year 1757, in his maxims prefixed to Poor Richard's Almanac, Benjamin Franklin said: "For want of a nail, the shoe was lost; for want of a shoe, the horse was lost; and for want of a horse, the rider was lost."

So you see the importance of a little thing like a horse-shoe nail!

If you are disposed to neglect the smaller advertisements in this paper, you are making a mistake. You are missing money-saving opportunities. You are missing important information about something that some day you are going to buy. You are throwing away your road-map and following your nose.

The big stores of today were little stores years ago. They used advertising space judiciously and became large. At first, their announcements were smaller than they are today. But these small advertisements told about real values, real savings for their customers.

In other words, the size of an advertisement is no indication of its importance to you. The message is the thing. Some of the most important merchandise news is often printed in tiny type. Even in the largest advertisements you will find small type. Read the small type as well as the big black type. Read the little advertisements as well as the large ones. It pays.

Advertisements come in all sizes—but the smallest one may carry the biggest news for you. Read them all
