SANFORD, FLORIDA, FRIDAY, AUGUST 22, 1919

NUMBER 1

VOLUME XI

POSTOFFICE NOW SELLS GROCERIES

GET YOUR LIST READY AND HAND IT IN TO THE POSTMASTER FOR GROCERIES

Uncle Sam has gone into the grocery business and is represented here by the postoffice employees and anyone wishing to purchase canned goods and groceries of various kinds at the government price can do so by making out your list, getting your cash ready and giving list and money at the window of the postoffice where your order will be taken.

Announcement was made by the department that any postage rate on surplus army food, sale of which through the parcel post system began Monday, would be the same to persons living beyond the first zone from the supply centers as to those living in the first zone. This will equalize the postage to all purchasers.

If allotment is exhausted, those orders which cannot be filled will be returned and the amount paid refunded to the purchaser.

The local postoffice cannot give exact specifications as to the article listed, as to brands, etc., but has only the information contained in the price list. In case purchasers find goods in bad condition and not usable, money will be refunded on affidavit to that effect made by purchaser and approved by the postmaster. Orders will not be received through carriers, clerks or stations, but only at the window in the postoffice lobby.

Purchasers may club together and make one order for a group of consumers, in which case delivery will be made to the party signing the order. The Sanford allotment includes a stated quantity of each article listed and no orders can be filled after this allotment is exhausted. Inquiries about prices, goods, etc., will be answered only at the window and cannot be attended to by telephone.

Price List of Army Stores -

(Parcel Post Rates to be Added)

Tomatoes, 2 lb. cans, 9c.; 3 lb. cans, 11c.; 10 lb. 33c.

No smaller quantities than those listed can be sold.

High School Principal Here

C. S. Ogilvie, the newly elected principal of the High School has been in the city a few days and all those who have met him are of the

opinion that he will make Sanford High a good principal. Mr. Ogilvie is a graduate of Florida University and Gainesville is his home. He was principal of the Micanopy High School when the war broke out and he joined Uncle Sam's navy as ensign and served during the war.

After his discharge he was elected by the Sanford school board to take the position of principal and will take up his duties when school opens the 29th of September. Mr. Ogilvie is a young man of most pleasing appearance and is greatly interested in athletics and promises the boys of the Sanford schools that if they are all up to a certain mark in their studies he will give them a winning football team and plenty of outdoor sports.

Good Seed Potato Crop

Washington, Aug. 21.—Alabama is leading again this year in the production of sweet potatoes and her crop promises to be more than 5,000,000 bushels larger than last year's with a total of 19,920,000 bushels as forecast by the department of agriculture from conditions prevailing on Aug. 1st.

Georgia stands second among the producing states with crop prospects this year of 12,512,000 bushels which is more than half a million bushels larger than last year's crop.

Mississippi's forecast places her third in this year's production with 9,364,000 bushels. Forecasts of other southern states are: South Carolina, 7,548,000; Virginia, 3,255,000; Tennessee, 2,984,000; Florida, 4,538,000; Louisiana, 5,801,000; Texas, 8,770,000; Oklahoma, 1,586,000; and Arkansas, 4,160,000.

The country's total crop this year is forecast at 160,456,000 bushels which is 14,000,000 bushels more than harvested last year.

Mrs. Helen Dio was in the city several days of this week with her son-in-law, Don Peabody, coming over to attend the funeral of Mrs. Peabody.

REAL ESTATE CONTINUES TO CHANGE

CITY PROPERTY AND FARM PROPERTY BEING SOLD AND GREAT IMPROVEMENT MADE

Sanford property is changing hands both in the farming section and in the city and Sanford is probably the fastest growing city in the state at the present time. Among the many real estate sales this week are the following:

Five acres of land and cottage of A. B. Chappell sold to W. B. Miller. This land is on Celery avenue and is just west of the Brisson home.

The Brisson place, one of the finest on Celery avenue, consisting of ten acres and a fine dwelling house sold to Mr. Frazier of North Carolina.

Twenty five acres of the Aldridge farm on Celery avenue sold to Mike Stoinoff.

The Magnolia House property belonging to W. H. Peters sold to Charles Merriwether.

The Rivers home on Oak avenue sold to Mr. and Mrs. Jarvis and Mr. Rivers immediately purchased the Pace property on Magnolia avenue, recently occupied by Mr. and Mrs. Stafford.

Aside from the many changes in real estate are the constant improvements being made in both city and country property. The farmers are building new homes and new barns and warehouses and getting ready for a big season.

In the city there are many improvements being made in new homes and with the hotel buildings being erected and warehouses and business houses contemplated all in the face of the high price of building materials snells success for Sanford in large letters. And the fact that all this improvement is reaching the outside world is apparent in the many new people coming to Sanford every day to locate.

Mrs. L. K. Fritchard of Macon, Georgia is in the city being called by the death of her sister, Mrs. Peabody.

ANOTHER BIG GARAGE FOR SANFORD

THREE LOTS ON MAGNOLIA AVENUE ARE SOLD TO CHAS. MERRIWETHER WHO WILL BUILD GARAGE FOR NEW FIRM

Sanford is exceeding the speed limit every week in the sales of city and country property and this city is upon the eve of the greatest development that has ever happened. Property is changing hands every day and the majority of the sales recorded are among home people who are on the ground and realize the true value of Sanford real estate.

One of the best deals in city property this week is the sale of the quarter block on Magnolia avenue between First and Second streets belonging to W. H. Peters to Chas. Merriwether. This is one of the most desirable business blocks in the city and has long been occupied by a frame building known as the Magnolia House. This building will be moved off the property and Mr. Merriwether will erect one of the largest and most modern garages in the city. The garage building will be leased to the new firm of Maxwell & Landstreet who will take possession as soon as the building can be finished and they will have one of the finest garages and machine shops that can be installed.

R. C. Maxwell, better known to his legion of friends as Dick Maxwell, the senior member of the firm has lived in Sanford for the past twenty years or more and needs no introduction to the people of this county. He is the local agent here of the Wilson & Toomer Co. and has been alderman, city clerk and is now city treasurer. He is a young man of great promise in the business world and in the new firm will handle the books and the front office work.

A. R. Landstreet, while not as well known in Sanford is prominent in the state being a resident of Miami and at the present time being in charge of the office of the Wilson & Toomer Co., at Orlando. He has a large acquaintance in Jacksonville and other parts of the state and brings to the new business years of experience in the business world. Mr. Landstreet will also be connected with the business department of the new garage and will devote much of his time to the sales department.

In this new business the mechanical department, one of the most important in the entire structure, will not be neglected. Carl Prange, formerly of Jacksonville will be in charge of the mechanical department and machine shop. Mr. Prange is a graduate of a prominent school of mechanical engineering, making a specialty of gas engines and he has had much experience in motors and motor cars of all kinds and is also a young man of prominence in business circles in the state. Mr. Prange aside from his position as superintendent will also be a member of the firm.

The building will be 70 feet front on Magnolia avenue and 117 feet deep on Second street and will be built with the idea of adding a second floor later for the storage of cars. Mr. Landstreet is now inspecting garage buildings with the idea of getting plans for an up to date structure.

Wins By One Vote

Charleston, S. C., Aug. 20.—The result of Charleston's mayoralty primary of yesterday will not be finally known until Friday, when the city democratic executive committee meets to canvass the returns and consider challenged votes, as the complete tabulation shows T. T. Hyde to have a majority of one vote over John P. Grace, with some 70 challenged votes yet to be passed on, and either counted or rejected. Of the possible vote of 7,715, a total of 6,911 were cast and some 70 challenged.

Wedding Announcement

Mrs. Joseph Newton Whitner announces the engagement of her daughter, Alice Doak to Dr. Henry Herbert McCaslin, the wedding to take place early in September.

DIPPING CATTLE TOO OFTEN KILLS THEM

PROMINENT ADVOCATES OF DIPPING SAY 14 DAYS TOO OFTEN IN HOT WEATHER

Seminole county having adopted compulsory dipping for the eradication of the cattle tick finds out from actual experience that the hard and fast rules of dipping the cattle every 14 days in the summer time especially is killing the cattle and while the cattle owners are willing to dip according to government specifications they do think the government agents should investigate conditions themselves and allow more time between dips in the summer.

There are many things about the eradication of the cattle ticks that are not related in the books of theory. Practice in the matter of eradication is much like anything else, better than the theory and while all parties concerned believe that dipping is the thing, they know that dipping cattle every fourteen days in the summer time in Florida is not healthy for the cattle.

Theory tells us that in six months a county can be tick free and yet there are counties that have been dipping for more than a year that are not tick free yet and the county is spending a lot of money on the dipping question.

Cattle men who know what they are talking about and the same men who were in favor of dipping and still believe in it tell us that the cattle dipped every fourteen days are certainly suffering from the handling in hot weather and are poor and scrawny right in the heart of the best grass season. They also tell you from actual experience that the cattle will not survive the 14 day treatment and these men know whereof they speak.

Now while willing to abide by the government regulations in the tick eradication it seems that the government agents could allow a monthly dip or cut the dipping out for three months in the summer or adopt some other means that would save the cattle. It is also the consensus of opinion among the cattle men that unless the dipping law becomes state wide that the dipping by counties will never solve the question. Our county here is situated on the boundary lines of other counties the lakes and rivers being the line and there is nothing to prevent other cattle coming over at the present time and scattering ticks over the territory where our tick eradication is being done.

The Herald has been an advocate for dipping because the cattle men wanted it and thought it was a good thing and still think so but are willing to leave the question of when to dip to these same men who are making a study of the question and are not going on theory. If the dipping of cattle ever, fourteen days is killing cattle without eradicating the tick then another plan that will not kill the cattle should be adopted.

Repeal Daylight Saving

Washington, Aug. 20.—Repeal of the daylight "saving" act was accomplished today, the senate voting to sustain the house in passing the repeal measure over President Wilson's veto. The vote was 57 to 19.

The repeal of the law, which now takes its place among the very few which have been passed over a presidential veto, becomes effective after the clocks are turned back to normal in October. It will go down in legislative history as one of the very few measures which have been twice vetoed by a President and become a law after all by the vote of more than two-thirds in both houses of congress.

Don't Want Food Control

Washington, Aug. 20.—Proposed amendments to the food control act which would authorize the President to fix wholesale and retail prices of certain commodities were strongly opposed today by Attorney General Palmer.

Appearing before the house agricultural committee to urge speedy enactment of additional laws to help reduce the cost of living, the attorney general declared such executive power would be too drastic

and would provoke so much debate in congress as to delay passage of other amendments suggested by the department of justice.

The department has recommended that provisions of the food control act be made applicable to wearing apparel, fuel and fertilizer with heavy penalties for profiteering.

Armed with an anti-profiteering law, the department, Mr. Palmer told the committee, could obtain specific indictments in various cities "which would make unnecessary a far reaching fight against high prices."

Tearing Down Bill Board

George Barker of Orlando of the Barker Advertising Co. has a force of men busy tearing down the bill boards at the corner of Magnolia and Second streets and the bill boards will be erected on some of the vacant lots south of town. The new garage to be erected by Hand Bros. for the Wight Tire Co. will occupy this corner and will be one of the finest improvements in the city.

Tanks to Mexico

Cincinnati, Ohio, Aug. 20.—Sixty-two more tanks recently were shipped from the army depot here to forts on or near the Mexican border, it was learned today. During the last week 100 of the one-man wheelpike type fighting machines were shipped to the border. Three thousand rifles also have been shipped to border points within the last few days. Army officers at the depot refuse to comment on the significance of the shipments.

A meeting was recently held at Live Oak for the purpose of increasing an interest in dairying. Farmers were urged to keep at least one good dairy cow. Much interest was shown, and another meeting called for the purpose of forming a dairy association. The dairy business has started and is growing rapidly at that place.

FERTILIZER MUST HAVE FULL WEIGHT

SUPREME COURT REVERSES CIRCUIT COURT IN CASE IMPORTANT TO OUR FARMERS

A recent decision of the Supreme Court will be of great interest to every grower and farmer not only in this section but to every part of Florida. The Supreme Court has reversed the decision of the Circuit Court in the case of T. F. Adams vs. American Agricultural Chemical Co., in which Adams had purchased fertilizer with certain percentage of fertilizer according to analysis and found the fertilizer short on certain parts and sued the company for double the amount of the fertilizer according to the fertilizer law. Landis, Fish & Hull representing the defendants brought in declaration of demurrer and Judge Perkins sustained the demurrer. Dickinson & Dickinson, attorneys for plaintiff carried the case to the Supreme Court with the above results.

The result is far reaching in this state and means that hereafter fertilizers sold to the farmers and containing a certain per cent of various ingredients must have all of the amount specified on the tags or the farmer can sue and recover double the amount. The small amount of fertilizer in many cases does not cover the loss of the farmer, but establishes the fact that the companies must make good on the analyses or the farmer suffers losses in his crops. The farmer depends upon a balanced ration of fertilizer as plant food and failing to gain the proper amount in the fertilizer needed for special crops has a crop failure in consequence. And again the farmers pay for a certain kind of fertilizer and want what they are paying for. In many cases mistakes have been made in the fertilizers in mixing and no doubt the majority of the fertilizer factories want to give the farmer what he pays for but these mistakes play havoc with the grower.

Hereafter the farmer can be assured of getting the right kind of fertilizer and the proper weights or he will have recourse in law that has already been tested.

CHANGING TEXT BOOKS FOR SCHOOLS

WILL COST PARENTS MORE MONEY AND CAUSE ENDLESS CONFUSION

It is late to complain after a thing is done, but, nevertheless, newspapers are plain spoken in condemning the action of the state school officials in changing a number of text books for the coming scholastic year. The changes were recently announced from Tallahassee, but it is said, lack of time in which to print the new books will cause no little confusion in schools which will open next month, as the new books will not be available until some time after many schools have opened for the fall term.

The Ocala Evening Star says:

"The people of Florida may have thought that with increased state and county taxes, Federal taxes and high cost of living, they had as much as they could stagger under, but the state educational board at Tallahassee thinks differently, and has changed text books on them, which is an additional expense, and as unnecessary as heavy. Why Florida children should have to be supplied with different books this year, except that the book trust needs the money.

"The fashion of occasionally changing text books reminds us of an experience we had with a tramp some twenty-five years ago. He came in and paraded us for fifty cents so he could take his valise out of the express office. We never saw him again, but the boys at the express office said he paid, not 50, but 35 cents for his valise, took it off in a corner, opened it, took off his dirty shirt and put it in the valise, from which he took out an equally dirty shirt, which he put on, then closed the valise and re-shipped it collect to another point, and went up the street to the nearest saloon, where he expended his surplus 15 cents for whiskey.

"The parallel is complete. The state school board is the tramp, the plundered public is the man who gave him 50 cents, the old and the new school books are the two shirts, each as dirty as the other, and the saloon which profits by the entire transaction is the book trust.

"Two years ago we bought a trigonometry for a young soldier who wished to brush up his studies in the months the government kept him and his comrades up in the air, waiting to be mustered back into service. The book was the same as that then being used by the Ocala school. When school opened last fall, a friend, knowing we had the book, offered to buy it. We told him he could have it as a gift, but when he was about to take it he found that the school authorities had adopted another. So he and the other citizens whose children studied trigonometry had to buy new books instead of using the plentiful supply on hand. Last spring the soldier referred to was in one of the service schools in Europe, and found himself studying trigonometry in the same edition of the book our high school had been using before the war and which the army officers declared to be the best.

"Such is the treatment that the over-taxed people of Florida receive from their state school authorities.

"Our school board has nothing to do with the change in books and would not make it if it was left to its members."

Number of Radical Changes

The Miami Metropolis prints the following information relative to the changes:

A number of radical changes have been made in the text books for elementary schools, according to a list just received by Superintendent of Public Instruction R. E. Hall of the text books adopted by the state for the five year period dating from July 1, 1919. The new books will be put in use at the re-opening of the schools.

"Our Republic," published by Riley, Chandler & Hamilton, which has been in use in the schools for a long time as a history of the United States.

THE YOWELL COMPANY
THE YOWELL BLDG. SANFORD, FLORIDA

COUNTY HAPPENINGS

A BUNCH OF INTERESTING ITEMS FROM CORRESPONDENTS—EVENTS OF SEMINOLE COUNTY—EFFICIENT REPORTERS FOR THE HERALD

OVIEDO
Miss Bertha Guttridge returned Saturday to her home in Haines City. She was accompanied by Miss Ruth Young.

Mrs. L. O. White and little son Elton returned Saturday after a brief visit to Apopka.

Mr. and Mrs. B. G. Smith spent Tuesday in Sanford and Eustis.

Edwin Jacobs, youngest son of Mrs. Mary Jacobs died Saturday morning at the home of his mother and was buried Sunday morning at Chuluota, his former home. Mr. Jacobs had been ill for many months but was thought to be improving slightly when the end came. He is survived by a mother, four sisters and a brother, Mr. Tilden Jacobs. The sympathies of the entire community go out to the bereaved family in their sorrow.

Mrs. W. E. Argo, son Edward and little daughter Palmer motored to Jacksonville Monday. While in the city they will be the guest of Mrs. Argo's sister, Mrs. Ensign who also returned to Jacksonville Monday after a visit to Mrs. Argo.

Mr. and Mrs. Enoch Partin have bought the Aulinplace and are moving into their new home this week.

Their former residence will be occupied by the family of T. J. Brannon.

Carl Farnell of Sanford spent several days in Oviedo last week.

Miss Ella Belle Jones left Wednesday for a visit to Winter Park, Orlando, Tampa and Jacksonville.

Mr. and Mrs. C. B. Jones left Tuesday for their home in Tampa.

Mrs. Clough and little daughter, Christine left Saturday for their home in Lakeland.

Theodore Aulin spent Monday in Orlando.

Mr. and Mrs. Lee Wheeler and children are at Daytona Beach for a few weeks.

W. B. Marshall, who has been at work in Sanford has returned home.

Mr. and Mrs. L. R. Gore and family spent Sunday at their former home, Oakland.

Mr. Andrew Leinhart spent Sunday afternoon in Orlando.

Mr. and Mrs. T. L. Meade left last Thursday for a visit to West Virginia.

J. C. Crawford spent Sunday in Orlando.

O. G. Wolcott went to Tampa on Tuesday in his car, making the round trip in the one day.

Mrs. A. K. Crawford entertained the Crochet Club at her home Friday afternoon. The afternoon was very pleasantly spent in music and conversation and delightful refreshments were served.

Mr. and Mrs. Frank Raulerson and son of Ft. Pierce spent Sunday in Oviedo, having come to attend the funeral of their brother, Edwin Jacobs. They returned to Ft. Pierce Sunday afternoon carrying with them Mrs. Raulerson's mother, Mrs. Jacobs and niece Lona Lee Sutton of Orlando.

Mr. and Mrs. George Jacobs of Chuluota passed through Oviedo on their way home after a two weeks' stay at Hampton Springs where they went for Mrs. Jacobs' health.

T. J. Brannon spent Saturday in Orlando.

Oviedo and Sorrento played a splendid game of ball on the Oviedo diamond Wednesday. The score was 8 to 7 in favor of Oviedo and the game a most interesting one. Oviedo team plays Clermont in Oviedo Thursday, thus giving the

home rooters plenty of chances to show their loyalty to the boys.

Thursday for a stay of several weeks at Daytona Beach.

Mr. and Mrs. D. F. Wheeler left Thursday for North Carolina where they expect to spend the month of September.

Miss Virginia Wright entertained a few of her girl friends at supper last Friday evening.

Miss Palmer Argo entertained at a children's party at her home Friday afternoon.

Miss Christine Nelson returned home last week after a visit of several weeks in Orlando.

A most delightful social was given by the Christian Endeavor Society last Thursday night at the home of Mr. and Mrs. W. E. Young. Plans had been made for an outdoor party but owing to a heavy rain in the afternoon it was necessary to have it indoors but was none the less enjoyable.

Mrs. L. O. White and little son, Elton left Thursday for Columbia, S. C., for a short visit to Mrs. White's sister.

Miss Winnie Lee of Ft. Myers is the guest of Miss Elizabeth Lawton.

Mr. Frank Anderson spent Thursday in Orlando.

Miss Olive Lizette is visiting her sisters in Jacksonville.

EAST SANFORD

Rev. R. J. Allen was over from Enterprise to preach at Moore's Station church on Sunday.

Several of the Gameron and Steel young people and Miss Helen Chorpene visited the Baptist young people's camping party at Lake Harney last week.

Mrs. Tina Warren Beaty will go to the hospital in Orlando again on Thursday for further treatment.

Miss Gladys Dieterich was to reach here from Philadelphia on Monday for a visit with her home

folks. We were misinformed as to the date of her arrival mentioned in this column some time ago.

Mr. and Mrs. D. R. Brisson have sold their beautiful Celery avenue home and ten acres of their improved land and all of the household furnishings except the piano, receiving \$16,000. They were at Daytona Beach last week and have taken apartments for an indefinite time and together with their young people are leaving this Thursday for the beach. They have not made any plans for the future. Mr. and Mrs. Brisson wish all their friends who come to the beach to come and see them. The Brissons will be greatly missed by a large circle of friends who wish them happiness in their new home.

Mr. and Mrs. Luther Frazier of Atlanta, Ga., have bought the Brisson place and are expected here very soon. Mr. Frazier is a nephew of Mrs. L. A. Brumley.

Wilson B. Miller has bought the property where A. R. Chappell has resided on Celery avenue for some time. Mr. Miller expects to take possession at once. Mr. Miller farmed on the west side before going to France to serve in the war and only returned a short time ago. He was married to a Scotch girl while in France and expects his bride here in a short time. Previous to coming to Sanford Mr. Miller was a resident of Charlotte, N. C.

Mr. and Mrs. C. Boyce Bell and son, Wallace returned last week Sunday from a stay of several months at their summer home at Charlotte, N. C.

Mr. and Mrs. B. Steel have bought ten acres of J. R. Hayden adjoining their home place on the north.

Mr. and Mrs. B. E. Squire and W. A. Raynor returned this week from several months' stay at several points in New York and Long Island. Mrs. Raynor will arrive home later.

George Pezall is at home from a stay of some length at St. Louis, Mo.

Mrs. Ben Monroe is spending some time in Orlando.

Mr. and Mrs. J. G. Blackwell left for their home in North Carolina on Sunday.

Mr. and Mrs. Thos. Dunlap and Mrs. D. L. Long drove to Mt. Dora Sunday for the day.

Mr. and Mrs. G. C. Chamberlain, their guests, Mr. and Mrs. Burton Hennes and son were over from Daytona Beach Monday and were dinner guests of Mr. and Mrs. Dressor.

B. A. Howard came up from Okeechobee City on Saturday for a visit with his family. Mr. Howard says there are prospects of a good season both in Okeechobee City and Pahokee. He has business interests at both places.

The young people about here gave Mr. and Mrs. "Dock" Hasty a nice loud chavirari Tuesday evening. Every one had a jolly time.

WEST GENEVA AVENUE

The airplane Sunday did not lose much time with us. It was sailing very low this time. Was but short time with us here.

COUNTY HAPPENINGS
(Continued from page 2)

I see the Prince of Wales has arrived in Canada. I wish he would come down to see us. We would all like to see the gentleman.

Mrs. Nicola has been very sick this week with la grippe but is on the mend at this writing.

Mrs. Vaughn was calling at Mrs. Tom Tyner's Tuesday.

But I trust we all may live to see the time come that we don't have to work so hard for our daily living.

We are all glad that the railroad men have gone back to work again. We live in hopes that there won't be

any more trouble. It looks good to see the trains running again. They had about all stopped going by. We surely did miss them.

We will be glad when everything is settled and the high cost of living goes down, so we can live at ease again. It is hard with poor people to make a living. Everything is so high.

Times are hard, but could be worse.

The time for school will soon be here. The children seem to dread it, the weather is so hot and the time so long to go to school.

CARRIED A RIFLE
Helped Win War But Could Not Work in P. O.

The United States is undoubtedly the best governed country that the sun shines on, but once in a while a piece of assinity develops that makes us hang our heads. George I. Gerling of the state of New York enlisted early in the war, was sent to France, carried a man's size rifle, fought in battles on army rations, fighting cooties and Huns for nine months and acquitted himself like a manly man even though he was but five feet and four inches tall. He was honorably discharged from the service, and learning that the government wanted more postal clerks he applied for the position in regular faorm. The following is the reply to his application: "Your application for the P. O. clerk examination at Rochester, N. Y., on May 2, 1919, has been cancelled because under

height, as shown by your application." "Jumping rabbits, what an idea! A man big enough to tote an army rifle all over France and help break the Hindenburg line but too small to be a clerk in a postoffice. It seems that some blooming idiot in the P. O. department made a ruling that all applicants should be above a certain height. What should be done about it? We give it up. However, it might help some if a person in authority would take the author of that ruling aside and tell him confidentially that he had made a consummate ass of himself, and that in view of his past performances the great big United States would try and get along without anything further from him.—Fort Myers Press.

WAR RISK INSURANCE
Soldiers and Sailors Can Be Re-instated Without Paying Back Premium

Secretary of the Treasury Carter Glass, at 12:30 has signed a decision of ~~importance~~ an interest to discharged soldiers, sailors and marines.

In the decision (T. D. 47 W. R.) the Secretary ruled that discharged soldiers, sailors and marines who have dropped their insurance may reinstate it within eighteen months after discharge without paying the back premium. All they will be asked to pay will be the premium on the amount of insurance to be reinstated for the month of grace in which they were covered and for the current month.

Thus, for example if a man dropped \$10,000 of insurance in January, 1919 and applies for reinstatement the 1st day of August for \$5,000, all he will have to pay will be the premium for January (the month of grace) on \$5,000, and the premium for August on \$5,000. Or if he applies for reinstatement of the full \$10,000 he will pay a total of two months premium on \$10,000, one for January and one for August. He will not have to pay premium in either case for the intervening months.

The decision stipulates that the former service man applying for reinstatement be in as good health as at date of discharge.

Former Treasury Decision W. R. 45 and other prior regulations in conflict with the new decision are revoked.

Director R. G. Cholmeley-Jones of the Bureau of War Risk Insurance, following the signing of the decision made the following statement:

"The present decision is one of the most important to former service men that has been made in the history of the Bureau.

"Many service men have been deterred, from availing themselves of the former and less liberal reinstatement privileges by reason of the relatively large amount of money represented by accumulated overdue premiums, and that it would seem that they were paying for something that they never actually had, which in fact was the case.

Under the new decision a man is relieved of the burden of overdue premiums. He has an opportunity to rehabilitate himself financially after getting out of the army, navy or marine corps, and to reinstate his insurance any time within eighteen months following discharge without the burden of paying a large amount of money.

"The reason payment for the month of grace is required under the new decision is that the insured was protected by reason of his insurance continuing in force during that month, and that had he died during the period of grace, his policy would have been paid.

"Should a lapse again occur, after the eighteen months from date of discharge reinstatement may be made, providing that at the time of application for reinstatement, such insurance shall not have been lapsed for more than one year, in accordance with the conditions of the decision.

Of course every man who has dropped his insurance should reinstate it immediately, for the reason that if he should die before reinstatement his dependents will not receive any payment.

"Therefore, I urge that care be taken to make clear to every former service man who has dropped his insurance that the new ruling DOES NOT automatically reinstate him

and to impress upon him that he will be WITHOUT insurance until he voluntarily applies for and secures reinstatement. He should immediately apply for reinstatement to his own protection and that of his dependents. "Don't forget that men die or become disabled in peace time as well as in war time, and that if a man waits he may not be in good health as he was at the time of his discharge and consequently may not be able to secure reinstatement.

"Don't put off reinstatement. Do it NOW."

Address Bureau of War Risk Insurance, Treasury Department, Washington, D. C.

MARTIAL LAW AT MULBERRY
Citizens Ask Governor to Send Federal Troops

Tuesday afternoon after a committee of representative citizens of Mulberry had held a meeting, they decided to wire Governor Catts asking him to protect them with federal troops, and the matter was taken up with Sheriff Logan, and he agreed that it was the best thing to do. Mayor Carter stated today that the tension was so great on both sides and that the permitting of shotguns in the arms of the gun men and employes of the mines did not relieve the situation because of the close proximity of the mines themselves and because that both sides were well armed and they did not seem to heed the efforts that have been made to lay them down.

The situation has evidently gotten beyond the control of local authorities and with the demand that federated troops be sent, was also the request that the phosphate district, around Mulberry especially be placed under martial law. There has been no particular outbreak of any character since the shooting of Monday evening, but the least mis-step means a serious proposition for that community.

Efforts are being made today also to get the gun men out who were arrested for the shooting of the negro baby and it is understood that Judge Blanton has approved of a bond submitted for each. Lakeland Star.

First Post Offices in Maine.
In 1775 the first post offices in Maine were established at Kennebunk, Falmouth and Bath. The mails were carried by carriers on foot or on horseback and the average week's mail did not amount to five letters at each office. The rates were high, 0 1/2, 1 1/2, 1 3/4, 2 1/2 and 3 1/2 cents, according to the distance the letter had to be carried, and double the rate when the letter was one more than one sheet of paper.

Keeping Cider Sweet.
To keep cider sweet place in each barrel immediately on making, mustard, four ounces; salt, one ounce, and ground chalk, one ounce. Shake well. Or cider may be preserved sweet by canning in airtight cans after the manner of preserving fruit. The liquid should be first settled and racked off from the dregs, but fermentation must not be allowed to commence before canning or it will not keep.

BUDGET OF OPINION "JUST BETWEEN YOU AND ME" EVEN THE GATE POST NOT IN IT

A Chief Is Among Ye Taking Notes and Faith, "He'll Print 'em".... So Says Saunterer.

Well, How About It Ever since I've lived in this town I've noticed more and more That when some married man Would send his wife to Asheville,

Or to the Carolina Mountains, Or even out to Michigan, To spend a long, happy summer, That he'd lose no time In finding some sweet dame To help him burn gasoline. Yassum. I've heard these men gaily hum: "My wife's away— "She wanted to roam; "So what's the use "O' my staying at home? "The girl's agreeable— "The night's immense; "Suppose gasoline "Does cost thirty cents? "Three is a crowd—

"But two's a charm; "What wife don't know "Does her no harm!" And all was peace and happiness. But some of the folks wised up— And now when they go northwards They take hubby with them; Which recalls that old epitaph On a stone in a cemetery In Grafton, Massachusetts. A verse on it read like this: "Here lies the body of Mary Ann "Safe on the bosom of Abraham." Which was a pretty thought For those who had never seen, her. She was a sour-visaged female With a disposition as aggravating As a cling stone peach; She had one of those noted Sour visaged mugs, I'm telling you; Her friends said it was a face "That actually grew on one." And they were all mighty glad It didn't grow on them. And she didn't like me a bit; When I'd go there in berry time And ask for gooseberries She'd set the gander on me. Well, someone saw that little verse On her tombstone, you see— She was still dead at the time— And it struck them as funny; So they added two more lines Which continued the rhyme like this: "Which is very well for Mary Ann "But devilish tough for Abraham." And that is the fate of the man Who goes away with his wife When she takes a vacation.—Thorn in Palm Beach Post.

Our governor called a meeting of ten thousand delegates at Jacksonville to reduce the high cost of living. When he arrived to address the meeting there were less than twenty delegates and the governor was forced to call it off. How the mighty have fallen. I'm betting on Fletcher.

People are thinking for themselves these days and believe me, Pauline, the demagogue cannot pull the sheepskin over the eyes of the voters any longer. The working man knows what he wants and knows who is going to stand behind him.

My old friend Phil Elder has gone back to his first love and along with his other troubles of being post-master now handles pork and beans and other supplies that are being sold at cost here "with the freight added" and I suppose the time is coming when I can go into "Phil's Place" and order a plate of ham and eggs and have Miss Muller come around with a nice white apron on to wait on my table. Always did think that squat little postoffice building would be turned into something else before long. Garcon, des oeufs du jambon.

The jury on the Henry Ford case has decided that Henry's feelings have been hurt to the extent of six cents and he was duly awarded that much. But Henry is satisfied with the million dollars worth of advertising that the trial brought him and he should worry.

My old friend Schelle Mines is the champion incorporation notice compiler. He had the paper filled

one month with notices of incorporation among them the new hospital and he is due a vote of thanks for this one for it cost the incorporators not one cent. Schelle is casting his bread upon the waters.

The Church-Goers.
If some men were to quote the well-known psalm they would have to say, "I was glad to make excuses when they said to us, 'let us go into the house of the Lord.'" The 'they' referring probably to the women of the house, or the church-going neighbors.—Exchange.

Much Sameness in Mankind.
Console yourself, dear old man and brother; whatever you may be sure of, be sure at least of this, that you are dreadfully like other people. Human nature has a much greater genius for sameness than for originality.—Lowell.

No Time to Stop Learning.
A man should always keep learning something—"always," as Arnold said, "keep the stream running"—whereas most people let it stagnate about middle life.

Daily Fashion Hint

A DESIRABLE MODEL.

VOTE FOR THE BRIDGES

Seminole, Lake and Volusia Agree On the Subject

Seminole and Lake counties have each agreed to join Volusia county and bear half the expense in the purchase of the two bridges over the St. Johns at Crows Bluff and Harden Ferry and to join Volusia in the expense of building a bridge over the St. Johns at Osteen.

The cost is estimated by the engineer from the State Road Department at \$27,000 for the Harden Ferry bridge and at \$22,000 for a new bridge at Osteen, making a total of \$49,000; one-half of this to be borne by Seminole county will amount to \$24,500.

Lake county agrees to assume one-half of the estimated amount for the Crows Bluff bridge. The entire amount is \$24,000 as estimated by the engineer; one-half the amount to be assumed by Lake county will therefore be \$12,000.

A joint meeting of the boards of county commissioners of Seminole, Lake and Volusia was held at Sanford Saturday morning. Seminole was represented by the full membership consisting of L. A. Brumley, chairman; L. P. Hagan, C. W. Entzinger, E. A. Kilbee and O. P. Swope; Lake county by four of the members, Mesars, Simpson, Heathcock, Richey and L. K. Merritt and the clerk, Mr. Duncan; Volusia county by the entire board, consisting of E. M. Carpenter, Chris. O. Codrington, R. J. Bishop, J. A. Reilly and W. E. Swope. Mr. Reilly was selected as chairman.

The matter was thoroughly discussed from all angles, some favoring a small toll and others absolutely free bridges. A poll on this question resulted in seven favoring no tolls and four for a small toll, three not voting. Commissioners Carpenter and Codrington were the only members from Volusia county favoring a toll at all.

Mr. D. C. Hull represented the legal side as attorney for the Volusia county board, and Atty. Dickinson of Sanford was present as the legal representative of the Seminole county board.

After the meeting all visitors were the guests of the Seminole county board at a splendid dinner at the Seminole Hotel.

The meeting was a most harmonious one and all seemed to be of the opinion that the day of the toll bridge was a thing of the past.

ELDER SPRINGS WATER

THOMAS D. BAKER, Ph. D.
Analytical and Consulting Chemist - Professional of Natural Sciences
Emeritus, Rollins College, Florida
Private Laboratory of Rollins College
Winter Park, Fla., Nov. 5th, 1918

Dear Sir:
I have completed careful chemical analysis of the sample of water that you brought me early last week, and have obtained the following results:
Color Clear Chlorine 1.75 parts per million
Reaction Neutral Total Solids 8.00 parts per million
Free Ammonia .00 parts per million Hardness 22.00 parts per million
Albuminoid Ammonia Trace Nitrate Trace
The absence practically of free and albuminoid ammonia in this water and presence of a small amount of chlorine indicates its excellent quality for household use. In addition to the good quality characteristics of superior household water, it possesses special features of much value, especially those of excellent natural aeration and low degree of hardness.
The bacteriological analysis, resulting in an average total count, in four samples of the water, of 2 bacteria per cent. and in finding no colon or other harmful bacteria, fully confirm its good quality indicated by the CHEMICAL analysis.
Of the many waters of this and other regions that I have analyzed, I have found none superior in all good qualities to that of the "Elder Water."
Yours very respectfully,
(Signed) THOMAS D. BAKER

We Vouch for Them

Of all the tires that are made, —why do you suppose we prefer to sell United States Tires?

Because they are made by the biggest rubber company in the world. And they know how to build good tires.

They have choice of materials,—they have immense facilities,—they employ many exclusive methods.

They can go to greater lengths in testing, improving and perfecting the things that make good tires.

We find it good business to sell United States Tires.

And—you will find it good business to buy them. They are here—a tire for every need.

United States Tires are Good Tires

We know United States Tires are Good Tires—That's Why We Sell Them

STRIKES DON'T PAY

Now that the shophen have gone back to work and one can look over the field it strikes in with much force that nothing is to be gained by strikes. The men have lost two weeks, the community has lost time and money by the delay of trains, the high cost of living has advanced to keep pace with the delays and again we people suffer. The strike did bring forcibly to the congress and the President that the profiteering much cease or the men would have to strike for more money. That much has been accomplished, but now that it is accomplished we do not want any more strikes that will tie up the traffic and business of the country. There is no question that cannot be arbitrated and the present difficulties of the railroads are not straightened out by strikes. The man who said that the government shall not turn the railroads back to private ownership was talking through his hat. The railroads belong to the owners and whenever the government wishes to turn them back they will do so and the majority of us will want to speed the day. We have suffered under government ownership and will now spend millions of dollars since the government has had control. We have had enough of government control, enough of strikes, enough of a lot of rot that does not sound like true Americanism and we now want to settle down to a season of safe and sane business management of every industry that spells so much to the world at this time and especially to America.

And we do not want any more strikes.

THE FARMER AND THE SPUDS

A few years ago an Alabama farmer had 1,200 bushels of sweet potatoes to sell, and a southern commission house offered him half a cent a pound for them. This was the equivalent of the price offered per bushel. At the time this offer was made sweet potatoes of an inferior grade were selling in the stores in northern states at five and six cents a pound.

Investigation showed that there was not one person or one firm that was making an unconscionable profit out of the difference between the consumer's and the producer's prices. But there were altogether too many people getting some profit out of each potato. There were too many middlemen. The cost of transportation was, naturally, part of the leakage. Railroads were privately owned then and freight rates were lower than they are now, but this was not enough to bring the cost of the consumer down to the proper figure. Some kind of organization was needed to eliminate a number of the leakages, and to get the product moved to the consumer by a more direct route—in short, to remove some of the middlemen.

It is still more necessary now. This newspaper is not ready with the solution. If it was, the editor of this paper would set up today as the greatest economic genius of all time. He would write the name of our beloved town on the map of the world in letters big enough to be read from the planet Mars.

Getting down to the root of things, it seems logical that if a man grows a vegetable in Alabama, and a man in Michigan eats it, that at least four people should be paid something—the man who grew it, the man who transported it, the commission man who distributed it, and the retailer who sold it to the consumer. There is no excuse for other middlemen, and this limited number of handlers is not sufficient to explain the great disparity between the price received by the grower and that paid by the consumer.

It is evident that too many people who don't grow, or transport, or even retail food stuffs have a voice in arguing what the price is to be—and get paid part of that price for argue about it.

This sort of thing is unwarranted and needs changing, folks. But how are we going to do it?

Will some local citizen come to the front with the logical solution, and make himself famous and the benefactor of mankind?—Okeechobee News.

WILD ON STRIKES

The country seems to have gone mad on the subject of wages. From every quarter we hear of strikes for higher wages to meet the increased

cost of living. It seems impossible for the strikers to comprehend that every successful strike only aggravates the troubles which now afflict them. A reduction in the cost of living can never come if we are continually called on to pay increased cost of transportation, and high wages for labor, which enters in every item of food production. The country is now and must be for some years to come on the down grade. We cannot continue on the up-grade all the time, and the sooner we realize that we have passed the peak, and must accustom ourselves to going down the hill we climbed with so much exuberance of spirit and joy, the better it will be for us all. It is a time for the exercise of patience and common sense.

A gradual decline in both wages and prices is inevitable. We may not get down to pre-war conditions but we shall get very much nearer them than we are now. There will be distress and suffering, and many loud and long protests in the operation, but it cannot be avoided, and it behooves us to prepare for it.

The war has left its legacy in an enormous debt, which must be paid. Taxes will be high for many years and retrenchment and economy must be the watchwords both nationally and individually for a long time to come. It is not a pleasant prospect but we have it to face, and we must do it with courage and fortitude. A similar period came after the Civil war, and lasted for fifteen years. Conditions today are far more serious than they were then. The whole world was not involved then as it is today. The nations of Europe had not been stripped of their man-power, and burdened with enormous debts. The debt of our own country was a mere bagatelle, compared to its present condition.

The old world is crying for unlimited supplies of food and raw materials to start the wheels of their factories, and they are looking to America to help them out of the slough into which they have fallen. Only by unlimited production in every line of industry can we do our full duty by the hungry and naked world. The man who hinders that production by strikes if he is a worker, or by lockouts if he is a manufacturer is not a good citizen. Capital and labor must get together and settle their differences, amicably if they can. If they cannot do this, it shows the need of an arbitration board to settle such disputes, and congress should establish such a board without delay.—Tampa Times.

PRICES COMING DOWN

Thorn in the Palm Beach Post pulls this one that is filled with real truth:

As a rule the merchants are telling their customers "You'd better get as much of this as you can afford, for I'm telling you that everything is going 'way up'—out of sight, in many instances." And the customer will straight away double his order. I presume that is one way of maintaining that "business-as-usual" stunt which the administration has been endeavoring to foist upon the long suffering public. Possibly it is all right—but I fail to grasp the idea. By purchasing double the quantity actually needed there is created a fictitious market for the article. And that act repeated a million times in a day establishes false ideas of the magnitude of the normal business. Straightaway the manufacturer commences to increase his production—only to find later that his goods are a comparative drug on the market—and he becomes financially embarrassed, unless he has a strong capital to tide him over till conditions do get at normal.

I can see no reason why goods of any sort should "go higher." To the contrary, I can see—or fancy I can see—why they should become lower. The bubble of inflation will be perforated by general consent before many days. The days of the profiteer have passed the high noon of greed, and comes now the twilight where common profits, common prices, and common sense will watch the sun of avarice and gluttony drop beyond the horizon. The dollar will once more be worth the one hundred cents as of old. The fifty-cent dollar and the thirty cent dollar are going out of fashion—and there surely have been vast numbers of them in circulation. The manufacturers of articles both necessary and luxurious who have been endeavoring to make their prices along the line of "all the traffic will bear" will be forced to knock off that from 20 to 60 per cent which has been added within the past two years—else they will have no trade.

There are hundreds of things which the ultimate consumer can as well deny himself as to yield to unjust demands when prices are inquired into. Suppose that five million people decide to make the "old pair" of shoes last them for another three months; that five million women vow that they will darn and mend their hose so that for three months they will not be forced to make a purchase; that five million

men declare that for three months they will wear patched trousers rather than pay extortionate rates? And there are many lines of articles—both of food and of apparel—which may be reckoned along this same way. Just suppose all this and what will be the result? There would be a complete revolution in all lines of business which might be a hardship for a few, but it would be a benefit for the masses. For my part I'd like to see things thus happen. It would be a lesson for both the producer, the manufacturer and the consumer. It certainly would.

There has been no excuse for the airplaning of prices—that is unless one may ascribe the hogging of wealth by a greedy group as an excuse. All of this work has a tendency to increase the ranks of socialism; it's as good a system of propaganda as the most enthusiastic of that fraternity would ask; and, while the country and the people are far from being ready to adopt that form of government there are mighty good prospects for the espousal of some of the tenets of the most rabid of that denomination unless almost instantaneous action shall drive away the threatening clouds of unfair and unjust prices.

NEED OF CO-OPERATION

The editor of the Herald believes in co-operation in every line of business and every line of endeavor. The world is upon the edge of a great crisis and a great revolution that will change the entire fabric of government, of industry, of the church and of the very household itself. In other words there must be co-operation all over the world. This paper outlined several weeks ago the future plan for capital and labor and this plan that may sound strange at this time will in the very near future be put in operation in every industrial plant in this country and every other country. The plan is not revolutionary in the sense of anarchy or Bolshevism but is revolutionary in the sense of the word meaning the reconstruction of the present day methods of ceaseless warfare between the trusts and labor. There should be no warfare, no bickering, no differences that cannot be settled by arbitration, no strikes that only serve to strain relations and make more difficult the task of getting together and injure the 85 per cent of people who are not either in the capitalistic class or in the laboring class in the true sense of the word.

Every industrial plant should have a government build upon the plan of the government of the United States and the man who says that our government is not the best government on earth is not a loyal citizen and is harmful to the cause of democratic government. Our government is built upon the only solid foundation that exists and our industrial plants can well be built upon the same principle. There should be an executive head, the president of the factory, the next body would be the foremen and other men in command, the next body be of the workmen themselves all of these bodies to be chosen from the employees themselves and all questions left to the governing body. Efficiency and loyalty would be the watchwords and if any employee was not efficient his own lack of efficiency would keep the other employees from getting their part of the dividends at the end of the year and the laggard and braggard would soon be cut out and relegated to the class of drones where he belongs. The real workman would make the real money and would see to it that all of the other employees worked eight hours a day or quit, for only by real work and the best kind of work could the workmen hope to realize something besides their regular wages at the end of the year. We do not believe that the majority of workmen today who are real artisans in their line believe that a poor workman should receive as much pay as the best workmen receive but in banding together for their own protection they have been forced in the past to take into the unions every Tom, Dick and Harry in order to tie up industry by strikes when the crucial moment came. This has not worked out to the best interests of the plant or of the real workmen and never will. The future of our industrial life in America depends upon the most efficient workmen that we have and not upon the man who is a failure, who does not care to work and who spends his time talking about what he should receive and his fellow workers do not in their hearts believe that he should receive good pay if he is unable to earn it. America is bound to be short on labor for years to come and the only way in which this handicap will be overcome in the next few years is by getting more efficiency out of the men than we now have. The laborer is worthy of his hire and all of the fair minded employers believe this but the system in vogue for the past twenty years has not demonstrated that the laborer is worthy of his hire for the best workmen have been forced by capital and by the unions to accept

the same pay as the poor workmen and the idler. The co-operative plan will eliminate the shirker and give the real worker what he deserves. There will be no more strikes for higher wages for the real workmen banded together in the governing board will settle all differences peacefully and at the end of the year instead of all workmen indiscriminately receiving higher wages that now threaten to swamp industry, the men who are really trying to give the plant their best efforts will receive their share of the dividends which will mean more than higher wages as now extracted by constant strikes and labor troubles. Not only is co-operation needed in industry, but it is needed in farming operations, in business of every line, in the churches and in every part of our life.

For instance, Sanford needs co-operation of the business men and farmers in some body like the Board of Trade. All the citizens of Seminole county should have a clearing house where they can get together once each week and discuss plans for a greater county. The merchants need a co-operative body where they can discuss plans for better service to their customers. The churches and the schools should get together on plans for the betterment of education and religion. The farmers need co-operation and a body where they can get together on growing and marketing of crops. The world war has made this fact imperative now where before it was only tentative. It is now tantamount and the greatest question before the American people. We should get together on every subject, work together, stand together or fall together.

We are all dependent one upon another and what injures one injures all and as our government is built upon that great message given us by our patriotic forefathers, let us unfurl it as our motto today: UNITED WE STAND, DIVIDED WE FALL.

Announcing French Shop Opening
French Shop wishes to announce to its many friends that it has reopened its doors again, 307 First street, across from Davison's Furniture Store. A hearty welcome awaits all of our friends and customers.

Mrs. Wilnot will have Miss Elvira Carter as head milliner, who needs no introduction to the people of Sanford, also Mrs. Florence Burke of Nashville and Mrs. Fay Harvey of Memphis. All will be glad to welcome the home people of Sanford and passing tourists as well.

Mrs. Wilnot will be here herself Tuesdays and Fridays from ten to four.

Our opening will be announced later. Watch the paper.

Aviators Rescued
Marfa, Aug. 19.—Lieuts. H. G. Peterson and Paul H. Davis, the American aviators, who were held for \$15,000 ransom, by the Mexican bandits, were rescued today by Capt. Matlack of the Eighth Cavalry, who paid half the money to the bandits and escaped with the two captives across the border.

The aviators declared that they were confused in directions after being forced to land by engine trouble and were on their way back to headquarters when seized by the bandits.

GENEVA
Ossie Flynt is home again after having spent the summer in Georgia.

Mrs. Theodore Tice and children are visiting friends at Daytona Beach.

Herbert Chaffer is spending his vacation with his parents, Mr. and Mrs. J. M. Chaffer.

Roy Tillis and family of Sanford spent last Sunday with Mr and Mrs Troy Proctor.

Miss Elizabeth Stones is back from Daytona where she has been the guest of her brother, Fred Stones.

Paul Dooley, who has been visiting relatives and friends in northern points is back home again.

Misses Janie and Katherine Flynt spent last week in Jacksonville.

Fred Stones and family and Miss Mary Stones motored over from Daytona Beach last Sunday to visit Mrs. William Stones and Mrs. Bessie Hart.

Jasper Nicholson and Jasper, Jr. were business visitors in Geneva on Tuesday.

Mrs. J. V. Wicks and Mrs. Aubrey Moran visited Sanford last Wednesday.

Get Your Victory Buttons

Let M. R. Woodward, Sergt. Crush and First Class Private Walker were here this week making a canvass of the state distributing buttons, answering all questions pertaining to government insurance, back pay bonus, etc. and accepting men for enlistment and re-enlistment in all branches of the service. All those wishing victory buttons should get information of any kind can fill out the following blanks:

- 1. Name
2. Organization
3. Present Address
4. Eligible for Re-Enlistment
5. Dependents
6. Employed or not?
7. If employed, satisfied?
8. Date
Insurance No.
Mail to U. S. Army Recruiting Station, Jacksonville, Florida, with original discharge certificate.

All persons desiring to attend Sunday school will phone No. 19, 395 or 96-J not later than Saturday noon. Free transportation will be furnished them and from if within a radius of three miles of the Methodist church.

Interest in growing onions by club members is increasing in Taylor county. Forty-five boys and girls in two schools near Perry have indicated a desire to plant a fourth acre to this crop this fall. Several farmers' meetings have been held, and twenty farmers have pledged to grow from a fourth to one acre. The seed will be bought on a cooperative basis, the county agent looking after this part of the work.

A spirited fight has developed in Jacksonville over the proposition to remove the palm trees and grass plots from the center of Main street. The street as it now stands is a source of much pleasure to visitors and citizens alike.

A permanent naval unit, under competent and experienced naval officers will be stationed on the lake shore campus of Rollins College, when the thirty-fifth academic year opens the 22nd of November.

The tenth annual meeting of the Citrus Seminar and Livestock Roundup will be held at the College of Agriculture, Gainesville, October 14 to 17. The Seminar and Roundup so well known to citrus growers and livestock men of the state is a part of the extension work of the college.

Animals and Earthquakes.
One of the mysteries still unsolved is that of the sense by which the lower animals become aware of the approach of earthquakes. Birds and rats become alarmed and try to escape. Super-sensitiveness to faint shocks scarcely gives satisfactory explanation. For modern seismographs are very sensitive.

In and About The City

Summary of the
Floating Small
Talks Succinctly
Arranged for
Herald Readers

Mr. D. L. Thrasher and Harry Ferran motored to Eustis Monday. EZ Seal pint fruit jars at L. P. McCuller's. 56-1f

Frederic Rand and daughter of Orlando were in the city Wednesday. Prices reduced on all goods at Mrs. Grace Williams' millinery store. 59-1f

Mr. and Mrs. B. G. Smith of Oviedo were in the city on Wednesday. Complete stock Diamond tires. Wight Tire Co. 55-1f

Judge and Mrs. E. F. Housholder are visiting in Gainesville and other points. Shore Dinner, Brann's Pavilion, Coronado Beach. Every Sunday 2 to 4 p. m. 66-5c

Miss Versa Woodcock is spending her vacation in Jacksonville and Tampa. Pint Mason fruit jars at L. P. McCuller's. 56-1f

Mrs. W. C. Wolfe and little sons left last Friday for North Carolina and Virginia. Buy Diamonds. Wight Tire Co. 55-1f

Mr. and Mrs. Ray Butts are home again after a pleasant trip to Illinois and St. Louis. Prof. Dixie M. Hollins, county superintendent of public instruction was a Sanford visitor this week.

Mr. and Mrs. Sammis and family returned from a pleasant trip to their old home on Long Island. Dr. D. C. Ward, Osteopath is in Sanford on Monday, Wednesday and Friday of each week. 58-1f

Mrs. R. E. Millen and Mrs. W. C. Boyd and two children are expected home today from Decatur, Ga., an Italian Springs. A six course fish and chicken dinner, 75c. Fish suppers 50c, at the Ayres Daytona Beach Hotel. 59-1f

Mrs. M. C. Tolar and daughter, Mrs. Loretta Brotherson are enjoying a visit with relatives and friends at Hawthorne. Quart Mason fruit jars at L. P. McCuller's. 56-1f

Mr. and Mrs. Henry Witte and family have arrived home after spending some time in New York visiting relatives and friends. There's a man at the curb to serve you. 55-1f

Mr. and Mrs. C. L. Polk, now of Jacksonville are spending a week or two at their truck farm near Beck Hammock. Watermelons—Carload nice watermelons at Old A. C. L. Depot. \$8.00 per one hundred; 10 cents each; 3 for 25 cents. Larger ones 15c, 2 for 25 cents. Guaranteed to be good. 66-11p

Don Peabody of Miami was in the city several days of this week, having been called by the sad mission of the death and funeral of his mother, Mrs. A. R. Marshall of St. Charles, Illinois and formerly of this city, the daughter of Mrs. Peabody is here also.

FIRST
METHODIST CHURCH
SANFORD, FLORIDA
Sunday, August 24th.

Sunday School - 10:30 A. M.

Preaching by Pastor
11:45 Subject

**"What the World
Has a Right to Expect of the Church"**

Senior League - 7:30 P. M.

Preaching 8:30 P. M.
Subject

"Two men, two worlds, two characters and two eternities"

You will receive a warm welcome and something to carry home with you

Mr. and Mrs. Roland James and Mrs. Edward Gardner were here Tuesday to attend the funeral of Mrs. Peabody.

WHEN YOU THINK OF CANDY THINK OF THE KANDY KITCHEN. IF IT HAS SUGAR IN IT WE HAVE IT. STAR THEATRE BUILDING. 49-1f

W. A. Raynor has returned from a visit to his old home on Long Island. Mrs. Raynor will return a few weeks longer in the north.

Musson's swimming pool is now open on Wednesdays, Thursdays, Saturdays and Sundays in the afternoon. 60-1f

Misses Antoinette and Helen Trese of Tampa have returned to their home after a pleasant visit with Miss Clara Goertz.

CALL FOR LEONS TRANSFER RELIABLE SERVICE. ALL TRAINS MET. 65-1f.

Mrs. A. D. Smith and daughters, Misses Charlotte and Irma have returned from a three months' stay in the mountains of North Carolina.

WANTED—OLD CLEAN RAGS. ANY KIND EXCEPT OLD SOCKS, COATS, PANTS, OR BED SPREADS. AT THE HERALD OFFICE. 59-1f

Mr. and Mrs. Earl Burdick returned from Daytona Beach Monday. They were the guests of Mr. Burdick's parents while there.

Mrs. J. M. Dresner has returned from New York and other northern markets where she spent six weeks in selecting a fine line of ready-to-wear and millinery for her Sanford store. The new goods are arriving daily and are being put on display. She invites the Sanford ladies to call and inspect this fine new line. 51-1c

Mrs. Wilmott has arrived in the city and rented a store room in the Bishop Block where she will have a millinery and ready to wear this season.

For Sale — One 1918 Maxwell Touring Car in good condition, has only been run 4508 miles. Terms may be arranged. Address Maxwell, c/o Herald. 66-2c

Mrs. A. E. Housholder has been the guest of her daughter-in-law at Daytona, also spent several days with her son, E. F. Housholder here.

FRESH STOCK—Onion sets just arrived. If you want early green onions come around and see them. Our fresh Bermuda onion seed will arrive about Sept. 1st. Come in and leave your order. The L. Allen Seed Co., Sanford, Fla. 66-21p

Mr. and Mrs. N. O. Garner are expected home Friday or Saturday, after spending some time in Waynesboro and Washington, D. C., stopping also in Macon, Ga.

The Ladies Guild of the Episcopal church expect to hold a bazaar and fair for three afternoons and nights of Dec. 2nd, 3rd and 4th in the Parish House. 1-1f

Miss Alva Gates of Quitman, Ga., was in the city this week on a short business trip. She expects to return to Sanford this winter and will be permanently located here.

W. M. Igou is now in Atlanta purchasing mules for the Sanford stable of Igou & Igou, and a carload of mules will be here at the Igou Stables next Monday. This is your chance to get some fine mules at the beginning of the farming season. 1-1c

Mrs. Jack Hewett, who has been the guest of her sister, Mrs. John Pardon left Saturday night for Waynesboro, Ga., then from there to Savannah and Tybee Island.

Capt. P. M. Elder has returned from a trip to his old home in Georgia and other points north. He will take a few days off before going back to his duties of postmaster.

W. M. Pepper of Gainesville of the Pepper Publishing Co. was in the city Saturday enroute home from Daytona Beach where he and his family are spending the summer.

Hon. Forrest Lake has returned from Jacksonville where he visited his many friends and where they gave him a hearty welcome and promises of support in his race for congress.

Mr. and Mrs. N. H. Garner, Mr. D. L. Thrasher and Miss May Thrasher and Mr. and Mrs. R. T. Thrasher left Wednesday for Daytona Beach where they will spend several days.

Dr. and Mrs. Puleston, Dr. Ralph Stevens and Roy C. Bowers have returned from a trip to Miami. Dr. Puleston has purchased a home there and will remove to that city about October 1st.

Mr. D. L. Thrasher and daughter, May and Mr. Harry Ferran returned from Montreat and Hender-

sonville. Mr. J. D. Woodruff met them in Jacksonville. Mrs. Thrasher will be away for two or three weeks.

Miss Clara Goertz returned Thursday from Tallahassee where she has been taking a normal school course preparatory to teaching this winter.

For the floor coverings, art rugs, congoileum rugs and matting see Boston Bargain House, 213-215 Sanford Avenue, A. Kanner, Mgr. 65-2c.

E. E. Brady has removed his horses and mules from his old stand in the Leffer Block to the Parramore stable opposite the court house.

Fine new line of ladies' ready-to-wear and millinery now on display at Dresner's. 1-1c

Joe Davis, the popular representative of the C. W. Zaring Co. at Jacksonville was in the city several days of the week calling on the local trade.

Miss Birdie Harris spent several days of this week in the city the guest of her sister, Mrs. Roumillat. Miss Harris is a former resident of Sanford and has a host of friends who are always glad to see her home again.

The boards of county commissioners of Lake and Volusia counties were here Saturday to settle the question of free bridges across the St. Johns river in which all three counties are interested. The local board gave the visitors a dinner at the Seminole Hotel.

Capt. T. A. Neal is spending a few days in the city enjoying a furlough from his duties in the medical department of the army stationed at San Antonio Texas. The many friends of the genial doctor are hoping to see him return to Sanford when he has been mustered out of service.

Allen Jones has received his honorable discharge from the navy and is home to stay. Allen was one of the first boys to join the navy when war was declared and has been on transports and ships of all kinds ever since. He went to the Virgin Islands several times and has seen much of the world since leaving home but he is more than glad to be in Sanford again and his many friends are glad to have him back.

Mr. and Mrs. D. R. Brisson and family have sold their home place and will go to Daytona Beach for a few months' vacation. Mr. Brisson has been one of Sanford's most successful truckers and has worked hard for many years and now feels that he is entitled to a rest. He and his estimable family will return to Sanford however some time in the future to live again as they think there is no place like Sanford. We wish them well in their new home and hope for their early return as citizens of this section.

Will Take Up Practice Again
Hon. George A. DeCottes has decided to again take up the practice of law in Sanford and will occupy part of the offices over the Seminole Bank where he formerly had his offices and Attorney J. J. Dickinson who has also been occupying these offices will have part of them. Mr. DeCottes had decided when he went to war to discontinue his practice but has changed his mind and decided that Sanford was the best place in the world and he has announced that he will again practice law here much to the satisfaction of his many friends. When the war broke out Mr. DeCottes although over the age limit for draft joined the Tank Corps and was made a lieutenant being stationed most of the time at Gettysburg, Pa.

Zittrower—Knight
A pretty wedding took place at the home of the bride's parents on the west side on Saturday afternoon at 4 o'clock. The contracting parties being Miss Bernice Knight, daughter of Mr. and Mrs. A. Knight and Mr. Oscar Zittrower, son of Mr. H. Zittrower, one of Sanford's successful truck growers. Only the immediate relatives of the family were present. Mrs. Crowley and family from west Apopka coming over for the occasion. The bride is one of Sanford's popular young ladies and was the recipient of many and useful presents. Her many friends extend their best wishes for her future happiness.

She was attired in a modish traveling suit of dark blue, white silk waist and hat.

The happy pair left amidst a shower of rice and congratulations for parts unknown.

Hospital Directors to Meet
The recently elected board of directors of the Fernald-Laughton Memorial Hospital will hold their first meeting next Tuesday night, August 26th at the Court House at 8:30 o'clock. Every member of the board is urgently requested to be present at this meeting. All of them have

already been informed of the meeting by letter.

Orlando Plays Here Today
Orlando will play here today in the second series and will play off the game we owe them in the first series. This will be played off the afternoon in double header and will decide the pennant race.

M. Stoinoff Purchases Fine Farm
One of the best real estate transfers recently made was the purchase of 25 acres on Celery avenue by Mike Stoinoff from Dr. Wm. G. Aldridge. While the price was not made public it is understood to be in keeping with other transfers in this noted section of our trucking district. The sale was made through J. E. Spurling, who is meeting with marked success in the real estate business, having sold a number of properties within the past few days.

Death of Mrs. Peabody
After a long life well spent Mrs. S. M. Peabody died at the home of her son, Don Peabody in Miami last Sunday morning. Mrs. Peabody had been in ill health for several months and her children were called here several weeks ago by her illness. Don coming up from Miami found his mother feeling well enough to stand a trip to Miami and she was taken there in the hope that the change would be of benefit but after consulting several of the physicians of that city it was found that an operation could not be undertaken at her advanced age and the disease of the liver would not respond to any other treatment.

The remains were brought here for burial Tuesday afternoon the funeral taking place from the Methodist church, of which denomination Mrs. Peabody had been an active member since early childhood. Rev. C. W. White, pastor of the Methodist church officiated and the church was filled by the many friends who had known the deceased for so many years. Interment was made in Lakeview cemetery, where the many beautiful floral offerings attested to the esteem in which Mrs. Peabody was held.

Sallie Moore Peabody was born in Tuskegee Ala. seventy years ago and moved to Georgia while a young girl. She was married to Mr. Peabody in 1885 coming to Sanford soon afterward, where Mr. Peabody engaged in the newspaper business here and was also on the staff of the Times-Union in Jacksonville but resided here all that time. After his death Mrs. Peabody and the family made Sanford their home and the family has all been born and reared here, twelve children in all, four of the sons being dead.

Those children surviving here are Mrs. Edwards of Washington state, Douglass Peabody of New York, Mrs. W. R. Griffith of this city, Mrs. E. R. Marshall of St. Charles, Ill., Don Peabody of Miami, George Peabody of Ft. Worth, Texas, Clifford of the U. S. Army now at Camp Mills, Henry who formerly resided here but is now living in Jacksonville.

Don, Henry, Mrs. Marshall and Mrs. Griffith were with her at the time of her death.

The pall bearers were Dr. R. L. Mason, L. P. McCuller, F. W. Mahoney, A. R. Key, F. P. Forster and J. E. Spurling.

Fifty years ago her oldest child died and in his little hand held a cross which was gently taken from him as his spirit wended its way to heaven. This little cross was placed upon mother's grave at the cemetery Tuesday. The death of Mrs. Peabody was a beautiful close of a well spent life after raising a large family and seeing them all grow up and marry and have homes of their own.

As the death dew gathered on her brow, around her bedside gathered her "girls" and "boys"—always girls and boys to her, though now grown to mature years with boys and girls around their own firesides. The life so long interwoven with theirs, with fearful eyes they watched as it slowly but surely passed over. The love of a mother for her children passeth human understanding. The boys and girls that gathered about the cot of this dying mother and so bravely fought the Death Angel, long ago passed out from the little home circle. Business cares and their own home circles have encroached upon their time, may have robbed mother of their companionship, but she was ever just the same; rejoicing in their successes and grieving at their misfortunes. They may have grown away from her, but she never from them; they were still her boys and girls. We know that years hence the memory of her unselfish devotion will make them better men and better women and her precepts be their guiding star.

"Remarkable Life and Cause"

By GEO. HYMAN, D. D.

At the Baptist Temple, Sunday, Aug. 24, 8:30 P. M.

WELCOME TO ALL

The birthplace of this French Heroine and other places of interest in her life, were visited by Dr. Hyman while serving as Chaplain in France.

A Solo will be Sung by Mrs. A. M. Phillips. Mrs. Schelle Malnes, Pianist

11:45 A. M. Subject: "Organized for Local Welfare"

Garage on Park avenue and is already in charge of the work.

Mr. Williams needs no introduction to the auto owners of Sanford and vicinity as he has been in the auto repair business for a number of years and is considered one of the best in the business.

He has a competent force of mechanics and is already doing a nice business.

Bankston Bros.
Roberta, Ga., Jan. 1920
Old Kentucky Mfg. Co., Paducah, Ky.

Gentlemen:
A Mr. Will Wachter of this country has some hogs that were down with cholera and had given up all hope of saving them and would not spend one penny on them. I gave him one 15 pound pail of your B. A. Thomas' Hog Powder and he has just come in and paid me for it and advises that every one of his sick hogs got well and that he killed them and now has them in his smoke house and that all were as fine as any he had killed this year.

I want to add that he said his hogs were down and so sick that he had to pry their mouths open and his wife poured the powder down their throats.

Please find check in full of my account and with kindest regards we beg to remain,
Yours very truly,
Bankston Bros.

City Directory for Sanford
W. P. Reave representing the Palk Directory Co. is in the city looking over the ground preparatory to printing another city directory for Sanford to be put out about Jan. 1, 1920. This will be the third Palk directory for Sanford, each one showing much improvement in the city proper and the growth of the city each year.

The Directory is recognized as the best that is published and Sanford is fortunate in having this firm engaged in this great work.

Seeing the Earth Rotate.
If a long pendulum is set swinging with its point of suspension free to turn, the plane of swing will remain fixed while the rotating earth skewers around under it. This is the finest demonstration of the earth's rotation, and recently at Wellington, New Zealand, a pendulum only ten feet long showed the rotation with 40 secs. after the swing began.

Death.
Death is nothing more or less than slipping back into your own subconsciousness, and so becoming greater and finer and more active—more useful, too—and with grander powers than we ever had in our limited imperfect bodies. Life is nothing but an episode in our universal life. . . . Death is just a change of direction then, really; that's all.—From "The Promise of Air," by Algernon Blackwood.

Dictaphone Calls Mother.
A dictaphone with a megaphone and a loud-speaking amplifier in the receiver is shown in Popular Mechanics Magazine. With the receiver fastened to the baby's crib in the nursery upstairs, and the megaphone placed in the parlor below, the arrangement works to satisfaction. Mother may go about her housework, while baby will sleep soundly, undisturbed by the noise of the living room, but if he should waken, his cries will be instantly heard downstairs.

BALL GAMES FOR THE WEEK

BOX SCORES OF ALL GAMES PLAYED BY SANFORD TEAM

Orlando Won Two Monday

Orlando and Sanford rang down the curtain on the first half of the Florida State League 1919 season at Orlando Monday with a double victory for Orlando in two pretty slugging battles. The scores were 7 to 4 and 6 to 4.

The hitting of St. Charles, Sewell and Williams, with the all-around playing of Stewart, featured the first game. Hitting of St. Charles and Williams also featured the second game.

Sanford	AB	R	H	PO	A	E
Stewart, 2b	2	3	1	2	2	0
Chapman, c	4	0	0	5	1	0

Bradentown Wins Tuesday
Bradentown, Aug. 19.—More than

1,000 persons saw the Growers slaughter the Celery Feds here this afternoon to the tune of 10 to 4, with everybody taking a swipe at Ellis' offerings. The Growers piled up seventeen bingles, five of them coming off Foss' big stick.

The day was a holiday in honor of the opening of the free bridge between Bradentown and Palmetto and the crowd thronged the city from miles around. The score:

Sanford	AB	R	H	PO	A	E
Stewart, 2b	5	1	2	5	3	1
Chapman, c	4	1	2	8	3	2
Johnson, cf	2	1	1	0	0	0

Tampa 100 000 000—1

Summary: Left on bases, Sanford 13; Tampa 3. First base on balls, off Martin 1, off Wells 5. Struck out by Martin 1, Wells 9. Sacrifice hits, Johnson, Turner, Johnston. Sacrifice fly, Felix. Stolen bases, Stewart 3, Chapman, Hord, Rive. Wild pitches, Wells 2. Batter hit, Albanese. Double plays, White to Hord; Davis to Stewart to Albanese. Time of game, two hours. Umpire, Knowlton.

Well, we haven't cinched the old pennant yet in the first and will have to play for it today in one of the games with Orlando. Of course Orlando will let us have it for they are all anxious down there for Sanford to win the first half. They allowed us to win the games that we should have won down there Monday, too, we don't think. Anyhow Orlando played well and that is more than we can say for Sanford. Of all the punk exhibitions of ball playing on the part of some of the players Monday's game was the limit. This does not go for the few players on the Sanford team that always play the game. They were there as usual trying to win and playing the game right up to the limit but if all the members of the home team had played the game we would have the rag in the first series cinched now instead of giving us all heart disease for the next week or so. The winners of the first half are still to be chosen. Had Sanford won one of the games in Orlando Monday we would have won the first series. We lost both of them and Bradentown lost their game which ties us for the first place. Bradentown has played out her schedule and we still have two games to play, one today with Orlando and another one with Lakeland. If we win today we are "Jake" and can rest easy for we will have won the pennant or at least have it cinched. But believe me, boys, you will have to put up a better quality of the old game than you exhibited in Orlando. We can win it all right and after climbing to the top and staying there to be chased out of the pennant class in the last frame is enough to make any fan sore. Get right today and win that rag, boys.

Quibbling With the Umpire

If there is anything that will ruin the base ball sport as far as the fans are concerned, it is the constant fussing with the man who is in charge of the game. It is disgusting, unpopular and disloyal to the interests of base ball. If you have followed ball games at all, you have not seen an umpire in a hundred games make a single change in his decision, regardless of protestations and howls that may go up. In the next place, it serves to prejudice the official, and it don't sound good to hear a lot of beefers from the grand stand and bleachers kicking on decisions.

The umpire should run the game. He is hired for that purpose, and if other teams and players want to chew the rag and kick and get thrown out of the game, that is all right, but the Star hopes that the local management will put a fine on every player that tries to unduly interfere with the work of the umpire, whether at home or away. Yesterday Lakeland had two men sent from the field at Orlando. We are not saying that the decisions of the umpire were right and that they don't make mistakes, but from the standpoint of the sportsmanship in the game and the spectator's viewpoint, umpire baiting is not proper and right and every management should make it a special point to stop it, or two things sure will result. Either the league will have a set of wobbly, good for nothing umpires which will ruin the game, or else the umpires will ruin the sport for them by fining and benching the men. It is up to the league to back up the umpires or the game, too, will be ruined, and those who know base ball certainly understand that the umpire is the one who is to be feared and the players hold their heads, or organized baseball will die out.

Players don't need to make a fuss over a decision that they think is unfair for any sympathy that might come from the crowd. That will come anyhow. The crowd will back up the player every time, and it is the duty of every player in the game to be sport enough to play ball his best and do everything he can to win. Disputing with the umpire sure won't do it and it never has won a game from a real indicator handler—Lakeland Star

Look at the Best in Sight.

Get into the habit of looking at the silver lining of the cloud; and when you have found it, continue to look at it rather than at the leaden gray in the middle. It will help you over many hard places.—A. A. Willis, D. D.

Spring Glass.

The Scientific American says: Make a solution of 1 oz. camphor, 1 1/2 oz. spirits turpentine and 4 dr. of ether. Keep the end of the drilling tool wet with this fluid. The sharp corner of a freshly broken point of a file is one of the best drilling tools for this purpose.

Beware of the Something for Nothing Fakir

You can put this down as an infallible rule—there is no such thing as something for nothing. If you keep that principle in mind you will be buying real food value with your dollars, which, of course, means a conservation and a saving.

When you see anything offered for sale "cheap," beware. Something is wrong somewhere. In the long run you get just about what you pay for and if you try to get something for nothing you will generally get less than you pay for.

Some thoughtless housewives believe they effect a saving by using self rising flour. In most cases they are buying an inferior food and paying far more than the article is actually worth. So the housewife who thinks she is getting her baking powder for nothing is actually paying dearly for it and instead of getting a pure, plain flour and baking powder added, in the majority of cases is getting a poor grade of flour, a cheap grade of powder containing calcium sulphate or plaster of paris.

H. L. Eskew, Food Commissioner of the State of Tennessee, in a recent address at Atlantic City, said:

"I would not tolerate flour products like some of the 'self rising flour' sold in a large part of the South, the constituents of which are alike unknown and not to be ascertained by the consumer and whose purity in the matter of phosphate is open to serious question as a deceptive agency."

Buy a pure, plain flour and a standard baking powder and you will know just what you are buying and you will be getting more for your money.

Camels are sold everywhere in scientifically sealed packages of 20 cigarettes or ten packages (200 cigarettes) in a glassine-paper-covered carton. We strongly recommend this carton for the home or office supply or when you travel.

TOLD ABOUT YORK

Dr. Hyman at the Baptist Temple Gave Lecture on Great Soldier.

Dr. George Hyman talked to standing room only at the Baptist Temple last Sunday night, his subject being "Sergeant York" what he did and what he said. Dr. Hyman was chaplain in the 82nd Division during the war and was part of the division in which Sergeant York played such a large part. Dr. Hyman also went on a tour of the camps in France after the armistice, speaking with Sergeant York and knew the great soldier intimately and was able to give the audience here some bits of most interesting inside history in York's experience. This young Tennessee mountaineer, deeply religious and not believing in war became one of the greatest soldiers in the World war and this subject became the theme for a most powerful sermon from Dr. Hyman, taking the motto of Sergeant York to keep cool and trust in the Lord.

Dr. Hyman giving the people here these bits of personal experience in the World war is attracting a large audience to the Baptist Temple this summer and next Sunday he will talk upon another most interesting subject, entitled Joan of Arc. Dr. Hyman visited the birthplace of Joan in France and obtained his information about her life and wonderful adventures from the descendants of the French people who have lived at the birthplace of Joan all these years.

UNIVERSITY OF FLORIDA

Among Distinguished Colleges in War Training

President A. A. Murphree of the University of Florida has received a letter from the Adjutant General of the Army, stating that the University of Florida qualified for classification in the 1919 list of schools at which military education is taught as a "distinguished college."

The bulletin showing this qualification follows:

Based upon reports of officers detailed for the purpose of making the annual inspection of the military departments of educational institutions at which officers of the army are detailed as professors of military science and tactics, the following named institutions are announced as the distinguished colleges and the honor schools, respectively, as contemplated by paragraph 130, Compilation of Orders, 1881-1915, as changed:

Agricultural and Mechanical Colleges of Texas, College Station, Texas.

Cornell University, Ithaca, N. Y.

Michigan Agricultural College, West Lansing, Mich.

Norwich University, Northfield, Vt.

Oregon Agricultural College, Corvallis, Ore.

Pennsylvania Military College, Chester, Pa.

St. Johns College, Annapolis, Md.

The Citadel, Charleston, S. C.

University of California, Berkeley, Cal.

University of Florida, Gainesville, Fla.

Virginia Agricultural and Mechanical College and Polytechnic Institute, Blacksburg, Va.

Virginia Military Institute, Lexington, Va.

Culver Military Academy, Culver, Ind.

Kemper Military School, Boonville, Mo.

Kentucky Military Institute, Lyndon, Ky.

New Mexico Military Institute, Roswell, N. M.

Northwestern Military and Naval Academy, Lake Geneva, Wis.

Sewanee Military Academy, Sewanee, Tenn.

Shattuck School, Faribault, Minn.

Staunton Military Academy, Staunton, Va.

St. John's Military Academy, DeLafayette, Wis.

St. John's School, Manlius, N. Y.

By order of the Secretary of War.
Peyton C. March,
General, Chief of Staff.

Friday evening, Aug 22, immediately after choir practice. We want every member to be there for a good time is expected.

Well! We all got back safe and sound after having a roaring good time. What? You never knew about it? Why, the whole B Y P U went out with a bunch of others went out to Lake Harney last Thursday and stayed until Saturday night. You ought to have been along. Let me tell you who all went. Let's see, there were Misses Mayme Steele, Virginia DeCoursey, Maude Jinks, Helen Chorpeneing, Jean Laing, Essie Whittle, Ruth Whittle, Ruth Lossing, Vivian Crosby, Clara Milen, Virgie Horne Hyman, Julia Laing, Lucile Rines, Annie Cameron, Mary Garrison, Alice DeCoursey, Martha Garrison; Messdames Cox, DeCoursey, Perry, Hyman, Lossing; Dr George Hyman; Messrs Herman Steele, Burke Steele, Ben Steele, George Steele, Fay Lossing, Glenn Whittle, John Hyman, A S Perry, John D Jinks, W C DeCoursey, J G Michael, Henry Cameron, John Wade. How is that for a jolly bunch.

A thoroughly good time was enjoyed by every one. Plenty of fish to eat and a regular fish fry supper Friday evening. The young people as well as the older went rowing and bathing every day. The mosquitoes came in for their share too, a little more than their share to tell the truth, but no one cared, that is, no one cared next morning.

Another house party is planned for some time in September but no date has been fixed as yet. We are all looking forward to having a big time then.

Royal Arch Masons, Attention.

At the next regular convocation of Monroe Chapter, No. 15, R. A. M., which will be held on Tuesday evening, Aug. 26, the Past Master and most excellent degrees will be conferred.

Arrangements have been made with our Chaplain, Dr. George Hyman to deliver a series of ten minute talks on the "History of Freemasonry and Concordant Orders," which will include a synopsis of the symbolic, apocalyptic and philosophic degrees, legendary and historic.

Whence came Masonry? What is it? What is it doing?

The answers to these momentous questions cannot fail to be invaluable to the Craft.

These talks will be given after the regular order of work, and the subject for this meeting will be "The Traditions of the Mark Master's Degree."

Chaplain Hyman is a thirty second degree Mason and Knights Templar and well learned in all of the work.

Every Companion of Monroe Chapter, visiting Royal Arch Masons and all Mark, Past and Most Excellent Masters are sincerely and cordially invited to attend.

James Moughton, High Priest.

Simon's Worldbeater Pepper

Has Made Good in Florida and Texas for the Past Four Years.

A prominent grower of Sanford, Florida, whose name we can furnish on application, purchased 20 pounds of our Worldbeater Pepper in December 1918. He reports that many of the plants bore as high as 9 marketable peppers the first picking. The average was 4 peppers per plant for the entire acreage the first picking, or a total of 400 crates per acre, which were marketed at \$4.00 per crate. We cannot recommend too highly our Worldbeater Pepper to all southern growers who desire to grow a money-making crop.

PRICE:
Oz. 45c; 1-4 lb \$1.60; Lb. \$6.00
Postpaid.

CHANGING TEXT BOOKS FOR SCHOOLS

(Continued from page 1)

States, has been replaced by Thompson's "History of the People of the United States," published by D. C. Heath & Co.

The "Century Speller" has been succeeded by "Mastery of Words," by Sarah Louise Arnold, published by the Iroquois Publishing Company, Syracuse, N. Y.

In civil government, "Our Government," by Yocum, published by James & Sanford, has given way to Turkington's "My Country," published by Ginn & Co.

Duggar's book on agriculture, which has been in use ever since agriculture was adopted in the schools, has been displaced by Davis' "Productive Farming," published by the J. B. Lippincott Company of Philadelphia.

An effort to oust the Wheeler readers, published by W. H. Wheeler & Co., Chicago, which have been in use for many years, and are said to

have been the subject of considerable criticism, out the Wheeler books adopted for the coming five years are revised editions.

The exchange prices on the books now in use for the books adopted are listed as follows:

Exchange Price on Books

"Mastery of Words," by Sarah Louise Arnold: Book 1 (grades 1-5), list price 32 cents, exchange price 16 cents; book 2 (grades 6-8), list price 32 cents, exchange price 16 cents; bound in one volume grade list price 36 cents, exchange price 18 cents.

Wheeler's graded literary readers, eight book series: Primer, revised 1918 edition, list price 25 cents, exchange price 12 cents; first reader, revised 1918 edition, 25 cents-42 cents; second reader, 35-47 cents; fourth reader, with interpretations, 50-25 cents; fifth reader, with interpretations, 50-25 cents; sixth reader, with interpretations, 60-30 cents; seventh reader, with interpretations, 55-35 cents; eighth reader, with interpretations, 60-30 cents.

Thompson's "A History of the People of the United States" list price \$1, exchange price 50 cents.

Turkington's "My Country" (civil government): list price 90 cents, exchange price 45 cents.

"Davis' Productive Farming," by Davis: list price 86 cents, exchange price 43 cents.

New Frye geographies which have also been adopted are exchangeable as follows: "Frye's New Geography" with Florida supplement, list price 83 cents, exchange price 41 cents; "Frye's Higher Geography," with supplement of resources, commerce and industries of the United States, list price \$1, exchange price 50 cents. "The Winston Simplified Dictionary," listed at 90 cents can be secured in exchange for 45 cents.

MARCHING INTO MEXICO

American Troops Going After the Greaser Robber

Marfa, Tex., Aug. 20.—The American punitive expedition that raced into Mexico in search of Jesus Rentier's band of bandits who held Lieutenants Peterson and Davis for ransom, went into camp in the mountains tonight after a trying thirty-six hours' campaign through a rugged country. Since the troops crossed the border they have been traveling through rugged country that taxed the strength of horse and man through heavy rainstorms.

Reports from the field were meager. The broken country south of the border compelled the cavalry troops to scatter and follow such trails as they can pick up. The country below the Big Bend border is too rough for airplanes to effect a landing without great danger.

A cryptic message, "Still following trail," brought to the border by an airplane today, was the only definite word from the expedition. No officers commanding troops in the field have yet returned to the field bases on the river.

Major-Gen. Joseph T. Dickman, commander of the southern department is expected to reach here tomorrow morning on an inspection of posts and camp along the border between San Antonio and Marfa. While his visit here at this time is not believed to be inspired by the local Mexican situation, the commander undoubtedly will go over the entire situation with Col. L. Langhorne, district commander. It is not known whether he will go to the border while here.

Mexican Troops Co-operating
Reports from Presidio, Tex., told of the movement of Mexican federal cavalry under General Pruneda today. General Pruneda left Ojinaga last night, marching toward Cuchillo Parado, 40 miles up the Conchos river.

The Mexican consul at Presidio said today that Gen. Pruneda, with a column of Carranza cavalry had gone to Cuchillo Parado, 40 miles up the Conchos river from Ojinaga, in search for bandits in the Ojinaga district where the American troops are operating.

Reports from the field in Mexico today told how the Americans spent last night in the Mexican mountains. The troopers slept in canyons, on

trails, wherever they happened to be when it grew too dark to continue their pursuit. Sentries were stationed at entrances to canyons, and at high points on trails, to prevent an ambush or surprise attack.

No fires were permitted. Horses were picketed in hollow squares and the men, rolled in blankets, slept beside their mounts with rifles and pistols at their sides. Pickets patrolled the temporary camps.

Pack mules were unburdened for the night and the field wireless set was rigged for making reports to headquarters. Before dark airplanes swept low over the camps dropping orders.

TO GET EARLY ACTION

On Demands of Shopmen That Will Prevent Strike

Washington, Aug. 20.—Early action to settle unrest in the ranks of railway employees who have been demanding new wage advances was forecast today. After a lengthy conference with heads of six shop craft the director-general went to the White House today to discuss with President Wilson the situation facing the railroad administration. While no announcement was made it was understood that the whole matter was considered, including a probable deficit every month this year, due to a falling off in business and a higher cost of labor and materials.

Mr. Hines promised the shopmen's leaders he would give careful consideration to all the facts presented and would endeavor to reach a final decision in the near future, indicating that he will not order into effect any change in the wage scale without referring the demands to a board for settlement.

The shopmen's demands were presented in the spring to the board of railway wages and working conditions, which took extensive testimony and then divided evenly on ways and means. This was followed by the unauthorized strike in many sections of the country.

Leaders of the shopmen, outlining the reason for their demands, said that they did not rest primarily on the increased cost of living, although that was a contributing factor, but were based on the proposition that the wages of railroad shopmen ought to be more in line with wages for similar work in other industries. In some quarters this is interpreted to mean a wage advance to offset the higher prices of today, carrying the intimation that reductions which would be in order if prices come down would be unacceptable.

It was claimed by the union officials that the wages paid railroad shopmen are materially lower than those paid shopmen in private industries and shipyards and navy yards under government control. The minimum rate paid by the railroads now is 68 cents an hour, which is asked to be advanced to 85 cents, an increase of 25 per cent.

Until the shopmen's demands are out of the way Mr. Hines is not taking up the demands of other classes of employees, virtually all of whom want more money.

At the Baptist Temple

The Sunday school continues to grow in numbers and interest.

Very large audiences at the services on last Sunday, morning and evening.

A birthday dinner was given in honor of the pastor, Dr. George Hyman by Hon. and Mrs. Schelle Malmes on Thursday. The afternoon was spent at Silver Lake where supper was served.

The house party of the B. Y. P. U. was a success in every way. Thirty-two young people were in attendance. It was held at the home of Mr. and Mrs. Chambliss at Lake Hartney near Geneva.

Mr. and Mrs. J. B. Calder entertained in honor of Mr. D. R. Brisson and family on Monday evening at their bungalow on Sanford avenue. Mr. and Mrs. D. R. Brisson and family, Mr. and Mrs. W. J. McBride, Dr. and Mrs. Geo. Hyman and family were the guests.

The midweek services at the Temple on Wednesday evenings are very largely attended.

Sunday, Aug. 24th, Dr. Hyman, the pastor will speak at 11:45 a. m. on the subject, "Organized for Local Welfare." In the evening at 8:30 on "Joan of Arc" Remarkable Life and Cause.

Visit the Sunday school. Join the Temple congregation.

MOVING PICTURE STUDIO

May Locate in Sanford if Suitable Location Can Be Found

Sanford may become a great producing center for moving pictures studios if the right location can be found and the proper spirit is shown toward this enterprise. This is the word brought here by a prominent citizen who has recently located in this section and become identified

with the business life of the community.

One of the new film companies with present headquarters in New York is looking for a permanent location for making pictures all the year round and two of the members of the corporation have already been in Sanford looking around. They were well pleased with the city and the surrounding territory and if they can find a place that will suit their purpose and can get the people interested in the project they will probably locate here some time this fall. Moving picture people want the co-operation of the people in the section where they locate and whenever they get this co-operation, wherever they can get the people to take some of the stock and get a location at a reasonable price they are more than apt to locate and stay put for some time.

This part of Florida would lend itself to the making of moving pictures admirably so these men said in speaking about Sanford the other day. They could get all the lakes and rivers and tropical scenery they want, they could camouflage for the mountains and should they want a big city picture could run down to Jacksonville any time.

They expect to take up the matter through the Sanford Board of Trade and will probably meet with the people of Sanford in a few weeks setting forth their proposition.

Daily Fashion Hint

A NEW BLOUSE DESIGN.
The separate waist shows itself in endless variety this season. Much of its smartness is embodied in collar effects, the model pictured today having surplice revers cut in one with the collar. The fronts are tucked to a shoulder yoke. The skirt is of black sports satin, 2 1/4 yards 40 inches wide being required for medium size. The blouse calls for 2 1/4 yards 40-inch satin or georgette. Fictorial Review Blouse No. 7653. Sizes, 34 to 46 inches bust. Price, 20 cents. Skirt No. 7657. Sizes, 24 to 32 inches bust. Price, 20 cents.

PRINCE ALBERT

SAY, you'll have a streak of smokeluck that'll put pep-in-your-smokemotor, all right, if you'll ring-in with a jimmy pipe or cigarette papers and nail some Prince Albert for packing!

Just between ourselves, you never will wise-up to high-spot-smoke-joy until you can call a pipe by its first name, then, to hit the peak-of-pleasure you land square on that two-fisted-man-tobacco, Prince Albert!

Well, sir, you'll be so all-fired happy you'll want to get a photograph of yourself breezing up the pike with your smokethrottle wide open! Talk about smoke-sport! Quality makes Prince Albert so

appealing all along the smoke line. Men who never before could smoke a pipe and men who've smoked pipes for years all testify to the delight it hands out! P. A. can't bite or parch! Both are cut out by our exclusive patented process!

Right now while the going's good you get out your old jimmy pipe or the papers and land on some P. A. for what ails your particular smokeappetite!
