

ALL WIRE COMMUNICATION BETWEEN FLORIDA NORTH SERIOUSLY INTERRUPTED

Sleet Storm in Georgia and Carolinas Causes Wires Are Down

OPERATIONS TODAY HAVE BEEN MADE ONLY AT INTERVALS

(By The Associated Press) JACKSONVILLE, Jan. 26.—Wire communication between Florida and the north was seriously interrupted early today by the sleet storm in Georgia and South Carolina, wire companies reported circuit down several hours north of Savannah. Wire communication was later established with Atlanta but circuits so badly affected by storm as to be almost unworkable, operation being possible only at brief intervals.

Sanford is Center For Distribution of Many Products

Latest is General Lead Battery Co., Through Hof-Mac of This City

Sanford continues to grow as a distributing point for the state. It is interesting to note that the General Lead Batteries Co., of Newark, N. J., have selected this point for their new jobbing connection. Heretofore their Titan Batteries have been handled in this territory by the Western Electric Co., but with the recent change the Hof-Mac Battery Co. take the distributorship for the entire state. There is no gainsaying the fact that the strategic position of Sanford as a shipping point is second to none. With her water shipping facilities for importing her goods for distribution especially from the Atlantic seaboard and her radiating railroad lines her future in this direction is assured. Continual testimony to this is constantly in evidence when we see the growing colony of wholesale firms here. Coming events cast their shadows and when one of the largest independent battery manufacturing concerns look to this point for their state-wide distribution it is safe to predict Sanford's future as a wholesale center. The Hof-Mac Battery Co. is to be congratulated on its new connection through successful moves on the part of this energetic new concern seem a matter of course. Organized just four months ago by James F. Magee who for some years represented a well known rubber company in Florida, and with W. D. Hoffman, with his wide fund of electrical experience handling the technical end their success is assured. Such firms as these are the builders of the future Sanford.

SHERIFF HAS BATTLE WITH ARMED NEGROES NEAR PALATKA TODAY

(By The Associated Press) PALATKA, Jan. 26.—Sheriff Hagan and deputies searching Fairview vicinity for two heavily armed negroes who escaped from a barricaded house there last night after a gun battle with the sheriff and posse during which the sheriff suffered flesh wound in the shoulder. The negroes were drinking and terrorized the neighborhood. When the officers arrived they were barricaded in a two-story house. More than one hundred shots were fired during the hour battle. Officers fired the house and when the negroes were forced by the flames to leave the posse did not fire at them for fear of striking their own men. The negroes escaped into a swamp.

PRESERVED GREENS POISONS ENTIRE FAMILY FOUR ARE DEAD

(By The Associated Press) BOIS IDAHO, Jan. 26.—Four in the family of Charles W. Tuttle, Cambridge Iowa are dead today as the result of botulism poisoning from eating greens at birthday dinner for younger daughter Sunday. Two daughters, two sons are dead and the father not expected to live. Tuttle's daughters preserved the greens.

JACKSON DAY CELEBRATED AT DAYTON, OHIO

JAMES M. COX TOLD DEMOCRATS SOMETHING OF INTEREST LAST NIGHT

(By The Associated Press) DAYTON, Jan. 26.—James M. Cox, Democratic candidate for president in 1923, and former governor of Ohio, last night told Democrats gathered here at a Jackson Day banquet, that their party stands just where it did "when the votes were counted" and is "ready for the next fight." Public opinion, he declared, has steadily borne the destiny of America nearer each day to the seat of the League of Nations at Geneva.

In his first public address since the campaign of 1920, Mr. Cox assailed the policies of the present administration, condemning the work of the Washington armament conference, declaring that America had refused to accept world leadership and that financial depression was due to the "treachery of Lodgeism." Thousands of Republicans, he declared, "now realize that the leaders of their party in the making of policy . . . have profaned Republican history by forsaking the soul of Abraham Lincoln for the spleen of Henry Cabot Lodge."

Pope Laid to Rest, Impressive Ceremonies at St. Peter's Today

(By The Associated Press) ROME, Jan. 26.—Pope Benedict was entombed with solemn but impressive ceremony this afternoon. The body in three caskets and dressed in pontifical robes lies in crypt under Great Basilica of St. Peter's to right of the entrance. Historic and beautiful ritual was only witnessed by a few members of the Sacred College, Pontifical household and Papal nobility, and diplomats accredited to Vatican.

Kiwanians, Builders, Have Bully Meeting

Characteristic of the bunch, the regular luncheon meeting today at the Valdez, started off with a big punch. A sextet composed of late arrivals—Dr. Brownlee, Perry Jenigan, Frank Akers, Schelle Maines, Prof. McKay, and Howard Smith set the ball in motion by singing the recent song hit—Liza Jane, with over fifty Kiwanians joining in the chorus. Mr. and Mrs. Cash, and Mr. and Mrs. Vincent, of the Earl Hawk players were guests, as was J. E. Ruby, a Kiwanian, of Madisonville, Ky. Mr. and Mrs. Vincent each rendered a vocal solo, with Mrs. Cash accompanying. Mr. Ruby addressed the club and brought greetings from his club in Madisonville.

The speaker of the day was J. C. Hutchinson, who spoke for ten minutes, using as his theme the slogan of "Sanford—The City Substantial". Mr. Hutchinson brought much information in regards to the marketing of our products and appealed that the confidence now established between buyer and seller be strengthened even more by standardizing our packages and brands.

Information was given out that the local club's charter would arrive very shortly and already great doings are being planned on Charter night, when the sun goes down and the moon comes up Sanford and Kiwanis will shine.

NO BAND CONCERT TONIGHT WILL BE HELD SUNDAY WEATHER UNSATISFACTORY

The band could play tonight and has played colder nights than this is at present but what is the use of asking people to come out when we can wait until later and enjoy an afternoon at the park. So the band committee through the offices of Frank Akers announce that no band concert will be held tonight but the regular object will be held Sunday afternoon at four o'clock at which time it is hoped the regular band of Florida weather will prevail. Tell all your friends and neighbors.

Eh, What's the Joke?

This little pig is laughing because he won't have to go to market for a while. When he does go he will be a big hog and 1800 others will go with him. They're tenants on the 2000-acre farm of S. F. Edge, famous English auto racer. The girl is a "land girl," many of those war veterans being employed on the farm.

LEAGUE OF WOMEN VOTERS WILL CONVENE AT JACKSONVILLE TODAY FOR MANY BIG THINGS

Women's Activities Under the New Order of Things Taken Up

(By The Associated Press) JACKSONVILLE, Jan. 26.—The second annual convention of the Florida League of Women Voters opens here tonight and continues until noon Saturday with Mrs. J. B. O'Hara, of Lake Worth, president, presiding. The executive board held two sessions today, one in the forenoon and the other in the afternoon. Speakers at the initial open session tonight will be Perry Wall, Tampa; Frank E. Jennings, Jacksonville. Senator Park Trammell and William Jennings Bryan are scheduled to speak tomorrow night.

JACKSONVILLE, Jan. 26.—Women's activities under the new order of things will run the entire gamut of discussion at meetings here the latter part of this week of prominent women from all parts of the state.

The Florida League of Women Voters under the presidency of Mrs. J. W. O'Hara, of Lake Worth, will convene its annual meeting Thursday morning to continue through Saturday afternoon. Immediately after its adjournment the Legislative Council of Women's Organizations of Florida under the chairmanship of Mrs. W. S. Jenning of Jacksonville, will meet for the adoption of a constitution, bylaws, etc., and the consideration of plans of financing the organization's work.

Review of its accomplishments since its organization last year and plans for the future will be the principal business of the convention. Apparently unfounded rumors to the effect that some political booms might be started at the convention are wholly without a possibility, leaders of the organization have declared, emphasizing that the organization is strictly non-political insofar as candidates or parties are concerned. The organization's mission is to encourage interest among the women in the government and to educate them in their newly acquired rights but there the organization's work stops, the leaders say.

LUTHER ADVERTISES AND GETS RESULTS FOR HIS FIRM

J. P. Luther the advertising manager of the Churchwell Company is well pleased with the opening sales and the week's business of this new firm that has ten stores in Georgia and have recently opened one here. Mr. Luther has been with the Churchwell Company for the past 12 years and it can be said of him that he literally grew up with this business. He is a real advertising man and his advertisements in the Daily Herald prove it. He can tell many tales about all kinds of advertising but he believes that good newspaper advertising with the right goods and the right prices will bring home the bacon every time. The Churchwell Co., put on an advertising stunt last winter at Fitzgerald and Moultrie in which they gave away 60 turkeys and they are always looking for something out of the ordinary to attract the attention of the people but they know from past experience that the live daily that has the circulation is the medium through which they get

SELLING COQUINA ROCK

In this edition of the Daily Herald is an advertisement of the John Hammond Co., of New Smyrna calling attention to the fact that his firm is now quarrying Coquina Rock and selling the same the solid rock or in any form wanted. Coquina rock is now being used extensively for road building purposes and when it comes to buildings it has the rest of the materials bent a mile for appearances and durability. Read the advertisement in this issue and see John Hammond at New Smyrna.

Charlie Butler, the dispenser of sunshine, was in the city today the guest of Dr. George Hyman. He may come back to talk to the people of Sanford later in the season.

AT INVESTIGATION OF ILLEGAL SOLDIER HANGINGS BEFORE SENATE

(By The Associated Press) WASHINGTON, Jan. 26.—Declaration that he had been robbed and discharged as an employee of the Veterans' Bureau after he testified in the investigation of illegal soldier hangings were made by Charles Green, of Minneapolis, in letters and telegrams received by Senator Watson, of Georgia, read today to the investigating committee. Green declared that enroute to his home American Legion friends at Cincinnati stole his suitcase containing his army discharges, decorations and other documents. On reaching Minneapolis he charged he was informed by the Veterans Bureau office there his services were no longer needed. Watson said he would ask Director Forbes, of the Veterans' Bureau for report.

The many friends of Hon. Forest Lake will regret to learn that he has been ill for several days with influenza at his home on Park avenue.

Morse Dry Dock at Brooklyn Burns, Threaten Waterfront

(By The Associated Press) NEW YORK, Jan. 26.—The great plant of the Morse Dry Dock and Repair Company occupying six blocks along the Brooklyn waterfront was threatened with destruction today when fire wiped out five shop buildings, entailing a loss estimated at \$200,000 and upward. The blaze started in the company's garage and destroyed fifty automobiles. Floating dry dock, said to be the largest in the world, caught fire but was soon extinguished.

Sanford High Plays Miami Team Tonight

Miami High invades Sanford territory today for the first time to play a basket ball game. The Miami team has not lost a game this season having played West Palm Beach, Fort Lauderdale, Fort Pierce and Sanford. The Sanford team was defeated after a 200-mile ride to Miami.

The Sanford team has been playing erratic basket ball winning only one or two important games and losing the comparatively easy ones. Score of games the Sanford team has played:

Arrests Are Made for Georgia Lynchings Indictments Returned

(By The Associated Press) ATHENS, Ga., Jan. 26.—Jim Doolley, Hamp Doolley, Herbert and Cal Hawkes, all white, were arrested by the sheriff of Oconee county late last night in connection with the alleged lynchings and illegal killings staged in that county recently and following indictments returned by the grand jury yesterday. The two Doolleys and Thomas are in the Clarke county jail, and Hawkes is in the Oconee county jail. The date for hearing has not been set. It was authoritatively stated today that other indictments and arrests will be made soon in connection with the recent killing of three negroes last December.

But Would Look With Favor on Conference at Later Date

RESULTS SATISFY

COULD BE OBTAINED IF MORE TIME IS GIVEN FOR CONDITIONS TO CLEAR

(By The Associated Press) WASHINGTON, Jan. 26.—Indications given in official circles today United States adverse to participating in general European economic conference should show more favor be held at the time set for Genoa gathering but would look with more favor on Conference to be held at late date. Genoa meeting, it was asserted, would be in a position to obtain more satisfactory results in opinion some officials if more time is given for conditions in Europe to stabilize.

WASHINGTON, Jan. 26.—(By The Associated Press.)—The air of President Harding has been enlisted by the arms delegates to bring Japan and China into agreement on Shantung.

Taking a direct hand in the Washington negotiations for the first time, the president today urged the Chinese to accept the latest compromise offer and thus remove from the field of controversy a subject which has become a serious barrier to the progress of the whole conference.

Whether the move is to succeed appears to rest largely with Peking. The Japanese already have indicated informally their willingness to make the principal concessions proposed, and the president approached the Chinese only after the Japanese ambassador had informed the state department that his government was ready to accept a tender of good offices.

The statement plan sponsored by Mr. Harding deals only with the return of the Tsingtao-Tsinnanfu railroad substantially all other questions having been agreed upon in the separate exchanges between the Japanese and Chinese. Under the proposal Japan would abandon her proposition for a loan to China, and the latter would purchase the road with treasury notes payable at option five to fifteen years hence, China would receive possession within five years, but would withdraw her opposition to retention of a Japanese traffic manager and chief accountant during the period of payment.

GREAT HARPISIT COMING WILL BE AT ORLANDO FRIDAY JANUARY 27TH

It has been a long while since an announcement of an event has caused so much lively interest as the recent announcement that Alberto Salvi, the Phenomenal harp virtuoso, is to appear in Orlando on January 27th.

Of the playing of this young genius critics have been almost lavish in their praise, speaking of him as a revelation because he overcomes what have been considered practically impossible obstacles in technique. His playing has been characterized as nothing short of amazing. In addition to this almost "super-human technique," he has discovered new effects and undreamed of beauties in the harp. Furthermore, he possesses, in the words of critics, "the power to make his audience forget harp and harpist and to think of great orchestras, multitudes of voices and great tragedies, so broad and sweeping are his masterful interpretations." In short, he is a "Weaver of Dreams."

FRESH DISORDERS BREAK OUT AT CAIRO; MANY WOUNDED

(By The Associated Press) LONDON, Jan. 26.—A cable to the Evening Star from Rome today says it was reported there that fresh disorders had broken out in Cairo, Egypt, resulting in 100 persons being wounded and more than one thousand others injured. British troops, the message adds, quelled the insurrection. Thus far no confirmation or denial of report reached London.

SOCIAL DEPARTMENT BRIDGE

Mrs. E. F. Housholder was the gracious hostess yesterday afternoon at bridge for the Social Department of the Woman's Club. There being 11 tables of players.

Quantities of exquisite, fragrant roses in the varying tones of pink

were used in decorating the club rooms, forming a veritable floral bower for the scene of this lovely party.

The tally cards were also hand painted in pink roses, and when scores were counted it was found that Mrs. Julius Shultz held high score and was presented a black candle stick hand painted with pink roses.

The refreshments carrying out the pretty color motif of pink and white, consisting of strawberry ice cream, individual cakes, iced in pink and white, coffee with whipped cream; on each plate was a dainty pink rose bud. Those assisting Mrs. Housholder in serving were Mrs. W. T. Langley, Mrs. Ed. Betts, Mrs. F. E. Roumillat and Mrs. Claude Howard.

Mrs. Housholder was assisted in entertaining by Mrs. D. P. Drummond, and Mrs. R. A. Newman had charge of the score cards.

WESTMINSTER CLUB.

The members of the Westminster Club held a very enthusiastic meeting Monday afternoon at the home of Mrs. John Baker, "Sunbeam" Cottage on West First street.

The League of Nations is assuming shape.

Tampa Times says the lunch men have been warned to clean up. Good idea. So many of them look like they needed a bath.

St. Pete's bachelor mayor likes one-piece bathing suits, says the Orlando Sentinel. He must be a regular guy and for a bachelor he is certainly going some.

That alleged discovery of synthetic German gold has been found to be a fake. Something like the reparations we suppose and the idea, that Europe would ever pay the United States in anything but synthetic gold. We paid our "sympathetic gold" and receive "synthetic gold."

The people or individual that started that run on a Georgia bank ought to be sent to jail for a long term where they could have time to learn that such reports maliciously circulated can cause trouble to any bank at any time. Such reports are always given credence by the public and like lighting a woods fire cannot be extinguished until the damage is done.

Burbank has just given the world seven new wonders in plant life. If he will discover a celery plant that will never have black heart, a lettuce plant that will not go to seed but will head up in warm weather and discover a plant that will pack itself and always go to the markets in good shape without any icing we will say "bravo" "uzza" and then some.

There are many big deals pending in Sanford just now—deals that cannot be made public for many reasons—but deals that will make Sanford a big city. Outside capital is coming in Sanford. It is up to the people of figure good returns on the investment in Sanford. It is up to the people of Sanford to look ahead far enough to realize that an optimistic spirit at all times will bring home the bacon while the narrow pessimistic spirit will keep the town back for the next hundred years.

Our idea of the Sanford restaurants serving celery during the celery season has met with instant response from the city at large. It would be a fine thing for Sanford to take up this matter and show the visitors that one city in Florida believed in advertising the Florida products. If Sanford is the largest winter vegetable section in the world and this has already been conceded, the visitor wants to see these vegetables on the tables at a reasonable figure or free if possible—this, of course, would have to be arranged between the Chamber of Commerce, the farmers and the restaurants. No business can be asked to give something away without the cooperation of all concerned. Newspapers are the only ones giving anything away and we would not ask other lines to do this.

All the hotels in Sanford were filled up last night and the S. R. O. sign was up early in the evening. This has occurred several times this season and

Fancy Groceries, Fresh Fruits and Vegetables, DEANE TURNER, Phone 497-494, WELAKA BLOCK

only brings to mind again the fact that Sanford needs a big tourist hotel or additions on the hotels that we now have. It is true that many times the hotels are not filled but the tourist hotel idea is to fill them in the winter and take care of the people that mean so much to Sanford in many ways. We need a tourist hotel here and it would be a paying proposition from the start. This is the next big thing to start in Sanford. The golf links and country club are an assured fact and will be built by Sanford people.

Young couple at Palm Beach met in the morning and were married that night. They will probably be divorced the next day after their parents find it out.

MOVIES AND THE SCHOOLS

Three thousand Chicago school children told about their movie attendance and tastes in response to a questionnaire sent out by Mrs. Estella L. Moulton, former chairman of the better films committee of the Illinois council of Parent-Teacher associations. Of these, 87 per cent attended from one to seven or more shows every week.

"I go to the movies nine times a week, every night and also in the afternoon on Saturday and Sunday," was the answer of one youngster to the query, "How many times a week do you go to the movies?"

"With several hundred of the children who responded to the questionnaire, attendance at the movies is a fixed habit," declared Mrs. Moulton. "Answers such as, 'I always go two times a week except in Lent; I never go in Lent,' and 'I always go every Friday night as there is no school the next day,' indicated the regularity of their movie-going. Indeed, Friday, Saturday and Sunday now mean attendance at the movies as definitely as Sunday used to mean attendance at Sunday school."

The question, "What kind of pictures do you prefer?" brought out a wealth of matter which reformers and statisticians may well ponder.

"The pictures I like best are those which scare you," "Good, sensible pictures where people are very poor and grow rich," "Guns and police wagons, because people are all sad and excited," "Travels with Burton Holmes," "Mystery, but not too deep," "Lots of fighting when men are brave and fight for a girl," "Good books like Pollyanna," "How things are made, pictures of fisheries," and good western scenery," "Educational pictures like the Lincoln Highwayman," are types of the answers received.

The boy who said he went to the movies nine times a week doubtless saw every picture that came to his neighborhood, regardless of his preferences.

In order to determine the actual effect of the movies upon the school work of the pupils, teachers in six schools were asked to indicate the pupils who stood highest or lowest in scholarship and deportment in each room. The data compiled in these representative districts of the city showed that the 275 best pupils used 393 tickets in one week, whereas the 275 poorest pupils used 503 tickets weekly. Another item of interest brought to light by the questionnaire is that the children in the poor tenement districts attend the movies as frequently as the children in the best residential sections.

According to the data received, boys and girls in the six schools covered by the questionnaire spent \$920 a week on the movies, making the total for the year reach the astonishing figure of \$46,000.

After serving two years on the better films committee and giving close study to the motion picture situation as it affects school children, Mrs. Moulton says:

"The publicity given to surveys and discussions on this subject are arousing both parents and teachers to the vital need of improvement in the films on which boys and girls spend their leisure time. The educational shows for children which are now being given in many cities on Saturday mornings can be traced directly to the untiring efforts of the parent-teacher associations."—Tampa Times.

KEEP ON BUILDING

A warm friend of the Telegram takes exception to a recent editorial statement that Lakeland needs an indefinite increase in its housing facilities. In support of his view, he cites an instance of a man who has built a beautiful little bungalow but has not yet been able to find a cash buyer.

That looks like a practical demonstration, but it is not. It does not prove that the people do not need the new houses, but those who need them have not the ready cash to pay for them. If they had the money, they would build for themselves.

The need for more houses is evident from the present high rate of rents and from the number seeking and unable to find satisfactory

SMALLEST OF HOUSES

This is No. 10 Hyde Park place, Baywater road, England. It is the smallest house in London, and is also believed to be the smallest house in the world. It is no larger than a big packing box.

quarters. At the same time there is need of better facilities for financing home owners. The new building association is popular and, we understand, it has applications for more than it will be prepared to loan for some time. But one association can not cover the whole field. Lakeland's financial affairs should be so organized that any reputable person, who is the owner of a clear lot, could borrow the money with which to build a house on it.

Experience shows that most of the cities of the United States have been built on that basis. The fault is not with Lakeland alone, but with the monetary affairs of the nation. At the same time, the need for housing is so imperative that Lakeland should do all it can to promote building, of course with full recognition of the only conditions under which the average citizen of small means can own his home.—Lakeland Telegram.

"BY ORDER OF THE COURT"

In spite of the weather of last night, the Earl Hawk Stock Co., at the tent theatre drew a fairly good sized audience to witness the play "By Order of the Court."

The play, a down East drama on the order of "Way Down East" was well received, and thoroughly enjoyed. And the big tent theatre was well-heated and comfortable.

The bill tonight is "Just Plain Molly," a story of life in a New York studio building, dealing with actors and musicians.

A beautiful story and full of good comedy. One of the features for tonight is the double dancing number of Jack Vinsen and Miss Irene DeArmond. The company is playing this week under the auspices of the American Legion, and they are presenting some of the latest stock releases and giving the public a good clean show. Tonight is also grocery store night, the company giving away a number of groceries.

DEMONSTRATION AT THE BALL HARDWARE CO.

Mrs. M. H. Miller is at the store of the Ball Hardware Co. this week demonstrating the Florence Automatic Stove and the Aristos Flour. The stove demonstration is for the Ball Hardware Co., and the Aristos Flour is being demonstrated for the C. W. Zuring Co., of this city. The Southwestern Milling Co., is sending Mrs. Miller all over the country demonstrating this flour and she has been for the past four days at the Merchants and Manufacturers Exposition on the lake front. Mrs. Miller bakes some of the finest of cakes and bread and biscuits and shows what the Florence stove will do in furnishing a quick and satisfactory heat and what the Aristos Flour will do in the cooking line. She does all the cooking in the big window of the Ball Hardware Co. in plain sight and is ready and willing to answer all questions pertaining to the cooking and baking and give the housewives some valuable information on subjects of the culinary art. Attend the demonstration and see the work.

IN MEMORIAM.

Whereas, Our Heavenly Father in his great wisdom has called unto Himself our dear Sister, Mrs. Tressa Chapman,

Therefore Be It Resolved, that we the members of the Order of the Eastern Star of Seminole Chapter No. 2, do extend our loving sympathy to her dear family, and we do wish to express to them our fraternal love and how we shall miss her. She was a true and loving member with us and her life was a great inspiration to all that was noble and true.

There is no death Our friend but passed To brighter, happier spheres We miss her for she has worked with us In earlier, pleasant years. But Faith low whispers, we shall stand

And meet her so loved again Upon the heavenly hills. Be It Further Resolved, that a copy of these resolutions be recorded on a special page in the Secretary's book of our Chapter, a copy be sent to the Sanford Herald, and a copy be sent to her family.

In "A NIGHT IN HONOLULU," the author, Howard McKent Barnes, has tried to clearly set forth the true character of the natives of Hawaii. There have been many works by the early missionaries which only served to be instances of gross libels against the characteristics of the most gentle, hospitable people in the world. The Hawaiians love nature, freedom of the woods, the caress of the sweet scented flowers that nestle close to their breast, then too they revel in the rolling of the sea, while the mountain stream croons a low melody to the worshipper at its shrine. This devotion to nature can almost be said to be their religion. In this sunlight they see the smile of the Great spirit, and what greater tribute could one pay to the Creator; than with a gentle heart and pure thought to show appreciation for the symbols of his benevolence. Their great love for their offspring deserves malicious falsehoods circulated about

ORLANDO—THE GOLF CENTER OF FLORIDA

Six years ago A. C. Hart of Orlando had a vision. It was this: Orlando will be the hub, the heart, of golf in Florida, and eventually the mecca for followers of the game in the Southeast. That vision conceived by the golf engineer is realized, as far as Orlando and Florida are concerned.

It seems unbelievable, yet it is a fact that within a radius of 100 miles of Orlando there are seventeen golf courses. These are as follows:

1. Orlando Country Club golf course, 18 holes.
2. West Orange Country Club golf course, Oakland, Orange County, 18 holes, 17 1/2 miles west.
3. Winter Park Country Club, golf course, Winter Park, Orange County, 27 holes, 4 miles north.
4. Sanford Country Club golf course, proposed, Sanford, Seminole County, 18 holes, 22 miles north.
5. DeLand Country Club golf course, DeLand, Volusia County, 18 holes north.
6. Lake County Country Club, golf course, Eustis, 18 and 9 holes, Lake County, 34 miles west and northwest.
7. Ocala Country Club golf course, 9 holes, 90 miles northwest.
8. Silver Lake Estates, near Leesburg, Lake County, 9 holes, 52 miles northwest.
9. Rockledge Country club, Rockledge, Brevard County, 9 holes, 56 miles southeast.
10. Daytona Country Club, Daytona Volusia County, 18 holes, 65 miles east and northeast.
11. Ormond Country Club golf course, Volusia County, 18 holes, 68 miles northeast.

Note: Rockledge, Daytona and Ormond courses reached over new east coast highway, Orlando to Titusville.

12. Kissimmee Country Club golf course, Kissimmee, Osceola County, 18 holes, 18 miles south.
13. Mountain Lake Country Club, Polk County, 18 holes, 40 miles south and southeast.
14. Florence Villa Golf course, Polk County, 9 holes, 40 miles southwest.
15. Bartow Country Club golf course, Polk County, 9 holes, 65 miles southwest.
16. Tampa, Palma, Cola golf course, Hillsborough County, 18 holes, 7 miles southwest.
17. Tampa, Rocky Point golf course, Hillsborough County, 18 holes, 7 miles southeast.

It will be observed that the splendid golf courses at Clearwater, St. Petersburg, Jacksonville, St. Augustine, Palm Beach, and Miami are not included in the above list. It has shown that there are seventeen golf courses within a radius of less than 100 miles of Orlando—the Golf Center of Florida.

Every golf course is accessible and within three hours ride of Orlando over brick or asphalt highways. The highway between Plymouth and Mt. Dora is under construction and the east coast highway which will be cut the distance to Rockledge, Daytona, and Ormond is now being surveyed and actual construction will start in short time.

This is something for Orlando to talk about, advertise and publish. A program was conceived by a golf enthusiast six years ago and today it is an actuality. More courses are

springing up and within another six years instead of 17 courses within 100 miles of Orlando there will be forty.

Golf is the king of recreation. Orlando, as the golf center of Florida, enjoys a distinction which all citizens interested in the future of this city and section may well be proud of.—Orlando Sentinel.

"A NIGHT IN HONOLULU"

A new play of Hawaii, by Howard McKent Barnes, is told in three acts. A beautiful Hawaiian girl, deserted by her lover, an Englishman in a spirit of revenge substitutes the child of his white wife for that of her own which has died and rears her as a native. She is afterwards known as "Kalama," a dancing girl of Hawaii. She is sought after by the white people, flattered and favored by them, but when her heart goes out to a white man and the sentiment is reciprocated, the old fateful barrier stands in the way; the inter-mingling of the race is confronted. How the author works out this situation is most absorbingly told in "A NIGHT IN HONOLULU," which is shortly to be seen at the Princess Theatre, Friday January 27th.

FAKE GASOLINE TANK IS PUT TO STRANGE USE

Here's a story about a nut. The funny part of it is, he is a rich nut; that is to say he has got the cash.

E. G. Hauselt tells the story. So it is true.

A man blew into town, meaning this town, in a beel. It was, in one sense an ordinary beel. That is to say, it looked like other cars and to all intents and purposes acted like the rest. But there was one essential difference.

This car had two gasoline tanks. Yes, sir, two gasoline tanks. And what do you suppose the drive of this car—the nut—carried in the second gasoline tank?

You would never guess.

Hauselt is a truthful man, so we have no hesitation in telling what he told us. He is cashier of the First National Bank, and the treasurer, glory be, of the new basket ball club.

He said the nut had thirty thousand dollars in gold in that fake gasoline tank. That he was the sort of nut who had no faith in banks, none in his country, and hardly any in his fellow man, and he was carrying his fortune around with him, wrapped in cotton batting.

Thirty thousand in gold. Think it over.—Orlando Reporter Stat.

Just like the story of a man who had an extra tank on his car coming through Sanford. It looked suspicious, it was suspicious and he was arrested and the tank searched and what do you think was found? Whiskey? No, moonshine.

PALM BEACH CITIZENS MAKE HIGH BIDS FOR CITY BONDS; FINE SPIRIT

(By The Associated Press) WEST PALM BEACH, Jan. 24.—It was announced throughout the state some time ago that T. T. Reese, of this city, acting for the Farmers' Bank and Trust Company, of West Palm Beach, had purchased \$350,000 worth of municipal improvement bonds at \$101.02 and accrued interest, but the way the purchase was made is another story. Mr. Reese bought the bonds at private auction at which the bidding was fast and furious.

The City Commission had refused a bid of \$90.50 for the bonds and although the commissioners expressed themselves as not in favor of a private sale they decided to hear a proposal from Mr. Reese when he appeared before that body. Mr. Reese offered par and accrued interest.

W. A. Dutch also was present and after Mr. Reese had spoken stated that he wished to be heard. He had not expected the sale of the bonds to be attempted, he said, but nevertheless he would offer a quarter point more than Mr. Reese.

"I'll make it a half," retorted Mr. Reese. Dutch raised him an eighth. By this time the commissioners had scented out of the ordinary. Mayor Carmichael assumed the role of auctioneer.

Reese offered \$100.50, and Dutch shoved it up another notch, bidding see-sawed back and forth until Dutch offered \$100.90 upon which he asked the commission to hold the matter over until another meeting, when he would be in a position to make a "substantial" bid.

"Come on," said Reese, "I'll make it \$100.91."

Dutch raised it to \$100.92, still urging that the sale be postponed. He dropped out when the bid had climbed to \$101.02. The commission decided the bid was good enough to warrant a private sale, a motion was made that it be accepted, and it was so ordered unanimously.

Railroads Will Return to State Commissions Voted by Sub-Com.

At National Agricultural Conference at Washington Today

(By The Associated Press) WASHINGTON, Jan. 25.—Recommendation for the repeal of commonly known guaranty clause of transportation act and the return to state railroad commissions of control over state rates voted today by sub-committee on railway transportation of general transportation committee of the National Agricultural Conference. Vote on repeal of clause was twelve to five and on return of state railway powers 11 to 6.

DEATH LURKS IN WHITE CORN LIQUOR

LOUISVILLE, Jan. 25.—"The 'face on the barroom floor' should be a skull, with crossbones under it, these days," declares George H. Blincoe, federal prohibition agent.

"Death lurks in white corn liquor," he says. "It all contains fusel oil, one of the most deadly poisons. First run moonshine is 'rank poison' yet the moonshiner who makes the stuff—'first shots' it is called by the legitimate distiller—doesn't trouble himself to distill it again, but sells it as it is for drinking purposes."

Double distillation and ageing in charred barrels for at least four years is necessary to remove the fusel oil, Mr. Blincoe says.

"No moonshine I have ever seen in my experience as a prohibition enforcement officer has been aged. The bootleggers' motto seems to be 'full speed ahead' and never safety first."

WEATHER AND CROP CONDITIONS IN FLORIDA FOR WEEK ENDING JAN. 24, 1922.

Temperature: The mean temperature ranged from 5 to 10 degrees above the normal, and some maximum were well up in the 80's—a mild week for mid winter.

Precipitation: There was a general deficiency in rainfall, Jacksonville being the only regular station that recorded an appreciable amount. The greatest amount reported was 1.00 inches at Gainesville, Alachua County. Rain is needed over most of the peninsula, especially on uplands.

Conditions of Crops: Moderately high midday and mild nocturnal temperatures favored a rapid growth of all truck, and the progress of beans, tomatoes, onions, lettuce, celery, and cabbage was very satisfactory, although cooler weather would benefit the last three crops. The frost of the previous week did some damage to tomatoes and other tender truck, and seed cane, in some instances, suffered from the low temperature. Citrus trees in the lower portion of the belt are showing new growth, and some bloom is in evidence. Oats and rye made good progress. The planting of melons is well under way in the central division. Farm work is backward in some instances, but plowing for general crops, such as corn and cotton, made progress during the week. Much of the Irish potato crop has been planted in the Hastings section, although planting continued quite general in the northern portion of the potato belt. The strawberry crop is still promising, shipments of berries having increased during the week. Citrus fruits are now excellent.

STATE NEWS

TAMPA, Jan. 24.—There was a general response last winter throughout Florida to the request that prices for grapefruit in restaurants, hotels, and on dining cars be reduced in order to popularize the fruit but in at least two instances this season proprietors of places serving meals have gone one better. One of the largest hotels in Jacksonville is serving a portion of grapefruit to its patrons at breakfast free of charge and the proprietor of one of the largest cafes in Tampa has just announced that he will do the same in the future.

ST. PETERSBURG, Jan. 24.—Mayor Pulver, of this city, after receiving an opinion from the city attorney, has permits for the construction of ten small cottages for negroes in a block in the negro quarters because he believes they would increase fire hazard and be a menace to health as a result of the already crowded condition. Figures of the City Building Inspector show that sixty-one houses already are in the block and the man who proposed to build the ten additional ones for which permits have been issued was told he would be arrested if he proceeded with the work. Orders were also issued that any occupant of the cottages in the block who built fires in the yards were to be arrested.

SAILS FOR SICK WOMAN

HAVANA, Jan. 25.—The Cuban cruiser "Cuba", carrying General Castillo Dunny, minister of war and marine, sailed this morning on emergency orders for Key West, where she will take aboard Mrs. Noemi Portela, daughter of the minister, who is critically ill. The warship is expected to reach Havana today.

LAURENT WILL BE AT THE PRINCESS THEATRE, FEB. 2

Laurant the Man of Many Mysteries, and one of the greatest in the profession today will be at the Princess Theatre on February 2nd under the auspices of the American Legion. This is one of the finest attractions of the entire Lyceum Course and should be well attended. Laurent has been a Chautauqua and Lyceum entertainer for the past seventeen years, ten years of it being under the Redpath management—a fact which speaks for itself.

SANFORD'S TEMPERATURE

Say, what kind of blooming weather is this anyhow? One day it is raining and then it is cloudy and then it is cool but for one thing it is not freezing and there is where we have it on the rest of the world. Weather made some people feel squeamish this morning and when they think something is going to happen they come to the newspaper and all we could tell them was to pay what they owed and there would be no freeze—and they did—not, and now the weather report says cloudy and local rains, that's all.

TRUTHSEEKERS MEETING

The regular monthly meeting of the Truthseekers class of the Methodist Church was held at the home of Mrs. Camp on Celery avenue Tuesday afternoon with fifty ladies present.

A social hour followed the business meeting and a very interesting Bible contest was held by Mrs. Camp.

Mrs. L. R. Phillips had the most correct answers and was given a lovely bouquet of sweet peas for her efforts. Delicious refreshments of cake, sandwiches and coffee were served.

Mrs. Camp was assisted by the ladies of the class whose birthdays came in January.

"A NIGHT IN HONOLULU"—in this latest musical play from the pen of Howard McKent Barnes, which comes to the Princess theatre, Friday, Jan. 27th, the author has made a number of radical changes in the unfolding of the story of life in Hawaii. Not the least of which is the characterization of the Americans seen in the play. Some of the most successful plays on this subject have sought fit to either ridicule the Americans or else made him a cad and money grader. In "A NIGHT IN HONOLULU" the American is seen as a human being capable of sympathy and ability to deal squarely. One can see this play and leave with the comfortable impression of the strong protecting the weak. Of intelligence guiding nonintelligence. Surely a welcome innovation. A troupe of native Hawaiians and a great company makes this play the success of the season.
