

**Vegetable Growers Asked To Lengthen Season To Meet Increased Consumption**

TALLAHASSEE, Aug. 7—(Special)—Florida vegetable growers must lengthen their growing seasons to meet the unusual circumstances arising from national defense, if they raise sufficient produce to provide for army purchases and increased civilian consumption, Nathan Mayo, Commissioner of Agriculture, said today.

"While it is impossible to state definitely just what curtailment in transportation facilities available to agricultural products will be made due to war conditions," Mr. Mayo said, "information received by my office indicates that some action along this line is in prospect. Many coastwise vessels have already been withdrawn from their usual routes and all of them may be taken over by our government. Railroads have improved their facilities tremendously but still will probably be hard pressed by defense demands. They may play an important part in the emergency, but manufacturing of lumber and other war essential is reducing the output of trucks, and each day brings us nearer to the gasoline ration card."

Last Spring, William L. Wilson, director of State Farmers' Markets, advised me that the Army purchasing centers had asked the State Farmers' Market for produce which Florida growers had stopped harvesting because the usual season had ended. Florida production had been turned to the New York market and our growers stopped their activities as soon as produce from northern states hit the market. During this period the demand of our own local markets are supplied by products shipped in from northern states.

Concentration of large army units in southern states has the power adopted by army purchasing

ing centers of buying fresh fruits and vegetables as near as possible to Army camps, the willingness they have shown in buying produce locally which can be secured in satisfactory amounts, and the difficulties now arising in transportation, have caused conditions greatly and the when Florida growers will extend their growing seasons to meet this change.

"State Farmers' Markets are set up to help growers market their produce. Realizing this change in conditions, Mr. Wilson wrote to Dr. Wilson Newton, director for agriculture at the University of Florida, asking full information on Florida vegetable harvesting periods. A table which he had prepared by Dr. F. G. Jamison, head of the experimental research division of the State Experiment Station, has been mimeographed and sent to army Quartermaster Market Centers and to managers of State Farmers' Markets. This table gives the harvest time for all vegetables grown commercially in North Central and South Florida. An examination of it reveals that our growers can harvest some vegetable or other practically the year round. Copies of this table will be sent to any interested person sending a request for it to the office of the director of State Farmers' Markets, Jacksonville.

"We hope the demand we have for the markets, and we have the growing seasons, All we need is the co-operation of Florida vegetable growers to make the coming year one of the best in the agricultural history of the state," Mr. Mayo said.

Advertising revenue \$2.10 daily and weekly newspaper reporting to the Department of Commerce, totaled \$39,495,000 in 1939.

## More Taxes On Low Income Group Asked

Treasury Secretary Morgenthau Seeks Taxation For Millions More People  
Corporation Tax Increase Sought

Lower Personal Income Exemption Is Asked Of Congress

WASHINGTON, Aug. 8.—Advocating an "all-out tax program for defense," Secretary of the Treasury Morgenthau asked Congress today to tax millions of additional persons with small incomes by cutting personal income tax exemptions and to stiffen other taxes on married couples and corporations.

He told the Senate Finance Committee that revenue from the House-approved tax bill should be increased from the present \$3,200,000,000 to "at least" \$3,500,000,000.

Morgenthau hinted strongly that he would like much more. He gave no figures on how deeply he thought personal exemptions should be cut.

"We have attempted to spell out many protections and standards as we could," he added, noting with a smile that the pending bill had more guarantees than exist in totaltarious states.

Henderson said that although a price control administration probably would have direct responsibility for administering the program, the powers President Roosevelt has asked Congress to grant might be exercised in most cases by other departments or agencies of government. For example, Senator H. Wayne Huie, of Mississippi, told the Senate: "There might be 'imperial' in the field of special commodity purchases and the like. Henderson might have the final word in enforcement problems."

A promise that price control legislation would be administered fairly and without rigid ceilings was given to Congress Thursday by Leon Henderson of the Office of Price Control who is in Washington as chief of the

New Senator

### Cotton Crop Is Expected To Be Short This Year

#### Output Of Florida's Farms Forecast As 64 Percent Normal

WASHINGTON, Aug. 8.—(AP)—The Agricultural Department today forecast this year's cotton crop at 10,517,000 bales of 500 pounds average weight in its first official estimate since the season began on conditions existing Aug. 1. It is indicated that the production compares with 12,586,000 bales produced in 1940.

Cotton acreage in cultivation July 1 was 23,519,000 acres—5.4 percent less than 24,871,000 acres a year ago.

Florida was reported to have an acre yield of 904 pounds, and a total production of 11,000 bales.

Roger C. Pease, publisher of the News-Piedmont, Greenville, S. C., has been appointed by Gov. Burnet R. Maybank to fill unexpired term of the late Sen.

Alva M. Lumpkin, who died in Washington after serving less than two weeks. Sen. Lumpkin had been appointed to fill unexpired term of James F. Byrnes, now a Supreme Court Justice.

**War Inescapable, Cox Says Urging Draft Extension**

**House Told It Should Approve Indefinite Period Of Service**

WASHINGTON, Aug. 8.—(AP)—Rep. Cox (D-Ga.) told the House today it should approve indefinite extension of service for all men in uniform "because war is inescapable."

"The public has given overwhelming support to the President in what he has done and if this means war, there is little reason to complain," Cox asserted.

At the House, opened seven hours of debate on the service extension bill, Rep. Cox returned about 2:30 P. M. and returned about 9:30 o'clock last night. A fried chicken supper was served aboard the boat.

Those present were:

Alva L. Collins, Maxwell Stewart, W. E. Melchior, W. A. Adams, O. S. Taylor, F. D. Scott, S. C. Dickerson, E. E. Laney, Eddie Langotti, Fred Pope, W. A. Frick, James E. Rawland, W. A. Ludwig, John Melchior, Jr., Joe Melchior and F. E. Roumilla.

It was apparent the pay increase would alter the Army's budget plans and necessitate an additional appropriation if it should become law.

There were indications the amendment might be redrafted, if not deleted altogether, in the House.

It was apparent the pay increase would alter the Army's budget plans and necessitate an additional appropriation if it should become law.

The Senate completed congressional action on two other defense measures by accepting amendments of the House to bills previously passed by the Senate.

Most important of these was a bill revising conditions for re-enlistment in the Navy, Coast Guard and Marine to provide a \$400 cash bonus for immediate re-enlistment, double the present bonus.

The second measure extended

benefits of federal workmen's compensation laws to men engaged in naval bases or other defense projects outside of the continental United States.

**Activity Of U. S. In South America Cited**

BERLIN, Aug. 8.—(AP)—All Berlin evening papers today reported strong resistance against American forces in South America. The United States is sending 150,000 men to Central and South America.

Details of the conflict were:

"The South American is being Under the Yoke of the War Widowers. Argentina Under Washington's Protection. Brazil Under the Rule of the South American.

U.S. Troops Are

### Early Building Of Venice Camp Seen

#### Soviet-American Relations Praised

WASHINGTON, Aug. 8.—(AP)—An early start of construction of the Army's proposed anti-aircraft firingsite at Venice was seen Tuesday in the War Department's announcement of Lt. Edward H. Kersting as construction quartermaster there.

The transfer was made without comment, and Army circles indicated there would be no further announcements made until funds for the camp are available. An Army appropriation bill is still pending in the Senate.

The Venice camp, yet unnamed, would be created on a stretch of land between the Gulf and the Taurian Trail, extending from the southern limits of Venice almost to Englewood. The camp, according to information here, is designed to accommodate 15,000 officers and men, with the latest anti-aircraft defense equipment newest in plane detectors.

### U. S. Skeptical Of Vichy's Assurances

#### Washington, Aug. 8.—(AP)—

The United States withheld its acceptance of assurances from the Vichy government.

Thurday night it was clear that the French were as determined to protect their territory from the Axis as from the British.

French military leaders will aid the British in their struggle.

The government has charged that France was a principal stockholder in the shipware, federal defense equipment, girls were denied entry to "recruitment of defense workers" from other states.

The foreign trade of the Netherlands has been decreased.

French leaders for the Defense of Democracy report.

### Hull Declares Germany Eyes This Territory

#### Secretary Of State Says Japan Is Responsible For Encirclement In East

WASHINGTON, Aug. 8.—(AP)—Secretary of State Hull said today Germany was looking with long eyes to the Western Hemisphere for further conquest. He asserted also that Japan alone is responsible for any encirclement of itself in the Pacific.

Hull made the comments on statements by a Berlin spokesman who asserted the Germans were launching a campaign to expand what they called the "less power politics" of President Roosevelt in Latin America and by a Tokyo spokesman who declared Japan is encircled by the United States, Britain, China and the Netherlands.

Diplomatic sources here expressed conviction yesterday the upsurge of totalitarian manifestations from one end of South America to the other was linked with an Axis effort to create a division among a crucial portion of the human race.

They said the combined effect of these manifestations, which included alleged plotting against the state in Bolivia and Argentina and at least a propaganda drive in Colombia, was intended to distract North American attention from the European situation.

The diplomats with whom this movement appeared in complete agreement that Axis agents in the Western Hemisphere were under orders to cause the stir.

A return of the diplomatic corps who of course declined to be quoted by name said "the fact that the governments of Argentina, Bolivia and Colombia, representative of three distinct sections of this continent, uncovered pro-Axis movements in their countries almost simultaneously points to one thing—orders to create trouble in the hemisphere."

## Red Force South Of Kiev Captured, Germans Claim

### Nazi Fliers Meet Death In The Soviet

According to the Soviet censor, the bodies of its crew still lie amid the wreckage of the German plane shot down behind the Russian lines on the eastern front. Nazis claimed

ers Are Reported Taken By Invaders Of Soviet Russia

### Odessa Believed Object Of Drive

#### Nazis Announce Fall Of Wesenberg On Road To Leningrad

Adolf Hitler's High Command reported today that German troops driving deep into the lower Ukraine had annihilated a Red Army force trapped southeast of Odessa, 125 miles south of Kiev, capturing more than 30,000 prisoners and the supreme commander of the Russian sixth army.

Earlier confidential Nazi reports said Kiev itself had been surrounded. The High Command reportedly indicated, however, that the main Nazi thrust was directed east cutting off the Black Sea port of Odessa.

In the north, the Nazis said German planes driving toward Leningrad had captured Wesenberg and southwest of the city captured coastal and penetrative airfield of Endow.

London military quarters said there were indications the Germans were advancing into southwest Russia in a move to encircle Odessa and that the main Odessa-Kiev railroad line had been cut.

Meanwhile, the possibility arose that Russian warplanes had bombed Berlin for the first time in the war.

Berlin reported an attack by British planes for the fifth time today, and the R. A. F. had not made an attack.

The first anniversary of the opening of the battle of Britain, when British and German planes clashed in the greatest air battle of the world, was seen found the R. A. F. bombing German industrial targets.

Five men were reported killed. The remaining 12 had been drafted to meet the large quota yet to be filled by the semi-skilled county draft board.

Karl H. Houschild, 23 years old, insurance salesman, left charge of the group until they reach Camp Blanding.

How long the men will remain in service is uncertain. Under present law the term for draftees is one year, but a bill has been passed by the Senate to extend this period 18 months, with increased pay for the extra time.

The five volunteers are Karlyle Houghdale, 23, insurance salesman, Houschild's son; Myrl C. Dunn, 21, farmer, West Third Street; Robert A. Campbell, 21, truck driver, Chuluota.

James C. Matthews, 24, clerk in department store, Bluefield, W. Va.; and former Sanford resident.

Selectees are:

Eugene Harris, 25, school bus driver, Route 2, Sanford.

Andrew Mikel, 27, celery farmer, Slavy.

William A. Brown, 27, clerk in department store, Bluefield, W. Va., and former Sanford resident.

Hugh Bradley, 22, fruit packing house worker, Geneva.

James V. Warren, 25, bus driver, Lake Monroe.

William M. Robinson, 28, commercial fisherman, Fort Lauderdale.

John W. Bennett, 23, unemployed, Route 2, Sanford.

William E. Squires, 23, warehouse man, 207 East Fifth Street, Sanford.

Richard R. Cameron, 24, cigar clerk, 506 Myrtle Avenue, Sanford.

Harry Lee Wester, 25, musician and composer, Lake Mary.

Walter H. Tomlinson, 31, unemployed, 216 West Thirteenth Street, transfer from Jackson ville.

William O. McKenree, 25, boxer, Paola, transfer from Ft. Pierce.

In addition two men who are registered with the Seminole County board will report in other states for induction in this call. They are Harry Mason, Jr., 26, truck driver, Lakewood, N. J., and Jack O. Stoltz, 22, truck driver, Zanesville, Ohio.

The next call for men from this district will be for 10 negroes on Aug. 20, the board announced. Volunteers are still being accepted to fill this summons.

Next call for white men has not been announced, but board officials expect it to be about Sept. 1.

### LICENSE ISSUED

Herman G. Eskola and Ruby Knight Peters were issued a marriage license by the County judge's office last night, it was reported today.

Canadian wedding will be at peak levels late this year, the Department of commerce reports.

Partly cloudy and continued

warm tonight and Saturday scattered thunderstorms in extreme south portion Saturday afternoon.
