China's Reds Shift Battle Near Yangtze

Dr. Sun Fo Approved As Premier Of Nanking Government; Suchow Fight Rages

WASHINGTON, Nov. 26.—(AP)—Madame Chiang Kai-Shek is planning a visit to the United States, the State Department reported today. Press Officer Michael J. McLeermont said the department has been informed of her intention but has no information on how or where she will arrive.

WASHINGTON, Nov. 26.—(AP)—President Truman today rejected a suggestion that Chiang Kai-Shek be invited to this country to present the Chinese government's plight in person. This suggestion was advanced by Rep. Sol Bloom (D-N.Y.) who is stated to be chairman of the House Foreign Affairs Committee when the new Congress organizes in January. Bloom told reporters at the White House that Mr. Truman "didn't see how Chiang could leave China at this time."

By ASSOCIATED PRESS
Chinese Communists fighting east to Suchow shifted suddenly southward today, closer to the Yangtze river in the crucial battle north of Nanking.

Nationalist troops in the Peiping-Tientsin area of North China prepared for a major action which may break any time. General Fu Tao-Yi, supreme Chinese commander in the north, said confidently his troops are ready and willing to fight the Reds "at any time and any place."

Ronald Dr. Sun Fo, Legislative Yuan president since 1932 and son of the founder of the Chinese republic, was approved as premier in Nanking by the lawmaking body 228 to 44.

The Legislative Yuan acted under a constitutional requirement that it must uphold the president's nomination. President Chiang Kai-Shek had nominated Sun to replace Wong Wen-Hao, who resigned Sun prepared to select a new cabinet.

The new premier's political powers largely were inherited from his late father, Dr. Sun Yat-Sen. He is a bitter enemy of Russia and has the close support of rightist members of the Yuan and such Kuomintang leaders as Secretary General Wu Te-Chen and Chen Li-Fu.

Sun's selection came when attention here was on the military problems of China rather than the political.

Mother Arrested For Burning Child's Hands

NEW YORK, Nov. 26.—(AP)—A 38-year-old mother was booked early today on a felonious assault charge, accusing her of holding her eight-year-old son's hands over a gas stove flame to punish him.

Police said the woman, Mrs. Geraldine Vetter, told them she suspected the boy, Phillip, of taking some cigarettes and small change from her purse. She was arrested after neighbors called police.

The boy was taken to St. Luke's hospital, where he was reported suffering from deep hand burns.

JACKSON GETS SURVIVORS GUAM, Nov. 26.—(AP)—The Navy transport President Jackson proceeded here today with 14 survivors of the 180-foot motorship Santa Maria, which sank 750 miles northeast of Guam yesterday with the loss of three crewmen.

The body of one crewman had been picked up, another had been sighted and a third reportedly went down with the ship in heavy seas.

Mr. Anderson stressed the fact that the important thing to do is to get the highest prices for produce is to be extremely careful in grading and packing before shipping it for sale.

14 War Criminals Are Executed At Munich Prison

87 Germans Have Been Hanged For Slaying U.S. Men, Innate

TOKYO, Nov. 26.—(AP)—General MacArthur made an urgent effort to tighten controls on the impending executions of seven Japanese war lords today by ordering all news releases on the prisoners to be issued through his own public information office. This means that the actual verification of the deaths of former Premier Hidemitsu Tanaka and six others will be issued by the general headquarters and not by the U.S. Eighth Army, which will execute them.

MUNICH, Germany, Nov. 26.—(AP)—Fourteen German war criminals were hanged today at Landsberg Prison.

The execution brought to 87 the number of men executed in groups of four to 15 on seven consecutive Fridays for the slaying of concentration camp inmates and

Chemist Calls For Atom Warfare Policy

BOSTON, Nov. 26.—(AP)—Bush proclamation of a United States policy on atomic warfare is a step to prevent a future war is called for today by Bradley Dewey, noted chemist and member of the board which evaluated

the Bikini bomb tests.

Dewey, writing in the December issue of Atlantic Monthly,

intended such a policy could

be formulated until the American people and Congress

have been properly informed.

He said the necessary information is being withheld.

This information, he said, has been gathered in the White House, gathering dust there for many months—information which is vital of the development of an atomic weapon policy and its acceptance by the American people.

Express Employees End Work "Slowdown"

NEW YORK, Nov. 26.—(AP)—Employees of the Railway Express Agency were reported to have ended a "work slowdown" early today, but rail embargoes, a truck strike and the dock strike still crippled shipping.

A Railway Express official said workers resumed normal schedules last midnight, clearing the way for the eventual lifting of a ban on rail and air express shipments into the metropolitan area.

However, the company said earlier that a huge backlog of freight piled up here during the three-day slowdown by some 6,000 employees, would have to be moved before the express embargo could be lifted.

The employees were ordered to resume regular work today by an AFL union, pending negotiations on a dispute over 18 discharged workers.

This dispute touched off the slowdown Tuesday.

Truman, Foley Discuss New Housing Laws

President Meets Cabinet In Hour-Long Session To Review Foreign Situation

WASHINGTON, Nov. 26.—(UPI)—President Truman called in Housing Administrator Raymond M. Lyles today and talked over the proposed housing legislation bills prepared for submission to the next Congress.

Lyles told reporters afterwards that the discussion had centered on the program which he announced earlier this week after consultation with Mr. Truman.

In a statement Tuesday, Foley defined the No. 1 housing problem as high production cost and price.

He said the administration is working for legislation including these requirements:

1. Removal of federal and local housing projects for agriculture, low-income families.

2. Federal loans and grants to help in slum clearance.

3. Financial aid to farmers for home building and repair.

4. Federal sponsorship of a long-term program of housing research with the help of private industry.

Later President Truman and his cabinet reviewed foreign affairs in an hour-long session.

Cabinet members told reporters after the meeting that Secretary

to learn from the World Book En-

an all time high in 1947. More than

fighting. General Eisenhower,

with the help of a few million other

World Rights

 D. Roosevelt, began work on the declaration in 1946. It was completed by the Social Committee here after nearly two months of word-by-word examination.

The declaration provides an unprecedented meeting place for the thoughts and ideas of dozens of different peoples, religions and governments. It combines principles of the constitutions of Soviet Russia, the United States, England and France, Civilizations and cultures of the Orient and the West find expression in the lists of rights.

It is hailed by U.N. officials as "one of the great landmarks of civilization," though it will have only moral authority, at least at first. It proclaims a "common standard of achievement for all peoples of all nations" and calls on every member of society to recognize and observe these rights.

A human rights covenant, by binding all signatory nations, is to be drawn up before next year's U.N. assembly. Under its provisions, all signatory nations would agree to imposition of sanctions in case of violation of the rights.

Measures to enforce observance of the rights also are to be drafted. Proposals for enforcement include creation of an international tribunal empowered to give binding decisions and establish a code of laws. The general assembly would, if necessary, implement the tribunal's decisions.

As the Political Committee debated Palestine's political issues, the Security Council's committee on Palestine scheduled a meeting for 1:30 P.M. today. A U.N. source said the council would discuss with Ralph J. Bunche, acting Palestine mediator, progress made to date in carrying out the committee's Nov. 4 resolution.

That resolution ordered the withdrawal of contending troops in the Negev to positions they held prior

to Nov. 29, when a U.N. truce came effective.

Postmaster General Donaldson said Marshall brought the cabinet "up to date" on the international situation.

Presumably that meant Marshall covered both the European and Chinese phases of the foreign situation.

The President put in a heavy day of work today to clear his desk for a holiday trip tomorrow to the annual Army-Navy football game at Philadelphia.

Mr. Truman and their daughter Margaret will attend the service football classic with him. Members of his staff and a few guests from among White House personnel have been invited to go along on the special presidential train.

 What is that what happened?

About 3:30 A.M. yesterday he went into a restaurant for coffee and a sandwich. He noticed that an employee of the restaurant was matching silver dollars with a man seated in a booth. Welling went over and sat into the game. He won twice. On the third match he won again but the man in the booth disputed the result.

The man in the booth hit Welling in the face. Welling hit him back. Then Welling went to a police box to call police. The man followed him and a scuffle started.

The employee then told them both to get out. They went outside. Another man showed up and the two men began beating up Welling.

Welling's assailants were not identified and police said they had no clues.

NEW YORK, Nov. 26 (UPI)—Two weeks of round-the-clock detective work resulted today in the arrest of a 56-year-old man police accused of participating in a \$20,000 Pennsylvania holdup and the subsequent slaying of his companion in crime.

The slaying began Nov. 10

when Daniel Lamont, wealthy race horse owner, was held up and robbed of \$20,000 in cash and securities in his Altoona, Pa., home, including ten \$100 bills he had hidden in his vest.

He died Oct. 11, when a U.N. truce came effective.

China Capital Threatened By Commie Army

Nationalist Forces Are Ordered Out Of Suchow To Face Main Body Of Reds.

WASHINGTON, Nov. 29. (AP)—The State Department announced today that Miss Ching Kai-Shek will be received as a distinguished guest upon her arrival from China. President Truman's former personal plane, "The Sacred Cow," is being dispatched to bring her from San Francisco to Washington. The Generalissimo's wife has been invited to be the house guest of Secretary of State and Mrs. Marshall. She has indicated she will accept.

By HAROLD K. MILLER
NANKING, Nov. 29. (AP)—The critical battle for Central China appeared today to be shifting from Suchow to the very approaches of this Chinese capital.

It was learned reliably that the estimated 250,000 Nationalist troops at Suchow, defense bastion for Nanking, have been ordered to withdraw southward to ensure the main Chinese command forces. The outcome of the entire battle for Nanking may depend on the ability of the Suchow garrison to make the withdrawal. The Reds are concentrating in the areas of Subien and Pengpu, rail cities on Nanking's approaches.

There has been no indication that the withdrawal order is being carried out, as yet; although it was made several days ago. Suchow still is getting supplies by planes, which save taking out wounded.

The battle for Suchow has raged three weeks. Its abandonment (continued on page six)

N. Y. U. Professor Says Home Fosters Christian Living

CINCINNATI, Nov. 29. (AP)—A New York University professor of education declared today the home and not the church, school or Sunday school is the most effective laboratory for the development of Christian living.

Dr. Samuel Hartman, a speaker invited for delivery at the National Conference on Church and Home, likened the church and the home, however, to Siamese twins—if they are separated, both may die.

The church cannot function unless the supplies the home as her (continued on page five)

Thousands To Enjoy Met Opera Opening

NEW YORK, Nov. 29. (AP)—Thousands of persons can put on their slippers tonight to enjoy the social glitter of the Metropolitan Opera season opening.

Top hats and crinoline won't be requirements for hearing the music of Verdi's "Otello" from the great stage of the Old Opera House because the management is permitting the opening of its 46th season to be televised by the American Broadcasting Company.

Management of the opera, which is consistently on the verge of going broke but never quite does, announced that Ramon Vinay will sing the title role of the Verdi tragedy.

Licia Albanese sings her first Metropolitan role as Desdemona and Leonard Warren repeats previous performances as Iago.

The Verdi, conducted by Miss Margaret Truman, daughter of the President, will attend as the guests of Miss Jane Watson, daughter of Thomas J. Watson, president of International Business Machines.

INCREASE IN PENSION BENEFITS SOUGHT; ARMED SERVICES TO BE UNDER PROGRAM

WASHINGTON, Nov. 29. (AP)—Proposals for a broadened social security program have submitted to the White House today, reportedly would bring soldiers, sailors, airmen and Marines under the civilian old age pension system.

Federal Security Administrator Oscar Ewing had the proposals drafted. They might cost \$1,000,000,000 if approved by Congress.

Among other things, Ewing asks a sharp boost in the amount of pensions and survivors' benefits paid under the system.

Mr. Truman is known to support at least 50 percent increase. Ewing was reported by an USA spokesman to believe that even a greater increase in the pension benefits might get White House endorsement.

The present \$49.90 pension for an old couple, Ewing was quoted as saying, amounts to "dead status."

Upwards of 20,000,000 new enrollees would be brought under Social Security protection, the spokesman said, in addition to the 10 million now covered, if the FSA proposals are adopted.

WASHINGTON, Nov. 29. (AP)—The first decline in home building activity since wartime 1944 is in prospect next year.

The Commerce and Labor Department is estimated last night that \$75,000 in permanent housing units will be started in 1949 compared with \$25,000 this year. Only \$25,000 such units were started in 1944, low point of the wartime decline.

The department estimated the 1949 total for new houses to be 300,000 compared with 67,100,

Japanese Wartime Leaders Appeal To Court For Lives

WASHINGTON, Nov. 29. (AP)—Two wartime Japanese leaders condemned to hang as war criminals, asked the United States Supreme Court today to save their lives.

Petitions for court review of their sentences were filed in the half of General Kenji Doihara, and Koki Hirota, former premier. No appeals were filed on behalf of Hideki Tojo and four other Japanese leaders who also were sentenced to be executed by American attorneys for Doihara and Hirota questioned in the petition the legality of the trial conducted by an international military tribunal. They asked that the executions be stayed, that hearings be held before the high tribunal here, and that the Japanese then be released.

FLORIDA'S FRUITS AND VEGETABLES Show Large Shipment Increase

JACKSONVILLE, Nov. 28. (Special)—"Reports from throughout

Florida's fruit and vegetable producing area tell of increasing volume of shipments in the week just closed and indications are that the trend will continue for sometime, given good weather," said William L. Wilson, Director of Florida State Markets in his weekend report issued today.

He has been particularly interested in the Fort Pierce, Wauchula and Lakeland areas, particularly good and the demand high. Growing conditions since the September hurricane in those areas have been reported as excellent and a heavy production of early fall vegetables anticipated.

Even Florida City Market, the area hardest hit by the hurricane, reports good growing conditions and a promising outlook for a good season though it will be somewhat late."

"A survey of the bean growing areas brings out a need for addi-

tional markets for fresh green beans. An annual production of beans in Florida and Texas has resulted in a glutted market

and the regular channels and wider means of distribution especially throughout the West, would be of utmost benefit not only to the southern growers but to the northern consumers."
