

Sanford Theater News for the Coming Week

DENNIS O'KEEFE and M-G-M's new romantic 'find,' Ann Morris, bring you laughs, excitement and heart-throbs in "The Chaser," fast-moving comedy-drama of the ambulance-chasing racket, which comes to the Ritz Theatre next Thursday and Friday. Lewis Stone, Nat Paulston and Henry O'Neill are others in the cast.

HEAVY THE HAND OF DISCIPLINE in the sombre homes of the Monte Menonite folk, as Bobby Breen, centre, is finding in this scene from his latest starring film, RKO Radio's "Breaking the Ice." Robert Barrat appears as the stern uncle, and Dolores Costello in the featured role of Bobby's lovely mother. The picture is completed with an elaborate ice-skating carnival, and is melodious with songs, several of which were composed by Frank Churchill, who did hit numbers in Walt Disney's "Snow White and the Seven Dwarfs."

YOU'RE HEADIN' FOR THE LAUGH ROUND-UP when you see (left to right) Johnnie Davis, Dick Powell, Priscilla Lane, Pat O'Brien and Dick Faxon in the rodeo of rhythm and romance which is scheduled to open at the Ritz Theatre on Sunday and Monday.

She's MADE YOU LAUGH a lot and made you cry a little, but you haven't seen anything until you watch Jane Withers take Hollywood apart—and put it together again—which is just what she does in the new 20th Century-Fox hit, "Keep Smiling." Above, Jane is shown with Gloria Stuart and Henry Wilson, featured in the splendid cast.

CALLING ALL JONESES! Hailed as ten times as funny as their best, 20th Century-Fox's "Safety in Numbers" finds all the Jones Family in a jam together! Grouped around Jed Prouty and Spring Hyngton (center) are (lower left) Shirley Deane, Russel Gleason, Kot Howell, George Ernest, Florence Roberts, June Carlson and Silk Mahan.

Jane Withers Is Hit In Picture Of Hollywood Life

Announced as the first of Jane Withers' 1935-36 pictures for 20th Century-Fox, "Keep Smiling," which opens Tuesday at the Ritz Theatre, finds the delightful 20th Century-Fox star in what Associate Producer John Stone confidently predicts will be the grandest surprise-hit she's ever made.

"Everybody on the set knew we had a hit," Stone said, "long before the picture was finished. I can't tell you why, but somehow everyone connected with the picture—cast, writers, cameramen and crew—sensed that we were going over the top with a big picture."

The story, according to Stone, opens with Jane in a fashionable girls' boarding school, hocking her clothes to raise the fare to Hollywood, where she plans to visit her movie-director uncle, whom she has never seen. Upon her arrival in the film colony, Jane discovers that her uncle has taken to drink, has been deserted by his fair-weather friends, and can no longer get a job. In her efforts to rehabilitate him, she crashes a big studio—and lands a job in the movies herself. When the hot-headed director on the set where she is being coached for stardom suddenly "blows up," Jane's uncle, now working as an extra, is given the

Ambulance Chaser Portrayed In Film By Dennis O'Keefe

In a world which has legitimated the highly profitable racket of ambulance chasing out of existence, the antics of one of the most notorious members of this profession are perpetuated in "The Chaser," a gay comedy, which combines fact with fiction to present a historic record of some of the deeds ascribed to an agile and active attorney. The picture opens Thursday at the Ritz Theatre.

Dennis O'Keefe, because of his outstanding performances in "The Bad Man of Brimstone" and "Bill That Kiss," is given the leading role, that of an ambulance-chaser. Opposite him is a newcomer to the screen, Ann Morris, hailed by the studio as the biggest "find" of the season.

LATTER DAY LEADER DIES

RENO, Nev. (AP)—J. Golden Kimball, 85, Salt Lake City, president of the first council of the seventies of the Latter Day Saints Church, was killed yesterday in a motor car accident 50 miles east of here.

Florida's greatest labor Day celebration will be staged this year at Daytona Beach with a three day program of high class entertainment including baseball, boxing, stock car and jolopy racing and many other events. The largest holiday crowd in the history of the beach sport is expected.

Colleen Moore's famed miniature doll house, built at a cost of nearly a half million dollars will be on display in Tampa Sept. 6 to 16. Proceeds from the small admission charge will go to charity.

Annual Report Of Welfare Board Is Publicly Released

JACKSONVILLE, Sept. 3.—Another instance of the ironical "nothing to do until tomorrow" is illustrated in the annual report of the State Welfare Board.

In addition to receiving 36,278 applications for Old Age Assistance during the fiscal year ending June 30, 1935, of which 22,177 were acted upon, and 2,231 applications for Aid to the Blind, of which 1,943 were acted upon, the Board, through the district boards and staffs, disposed of the following routine business:

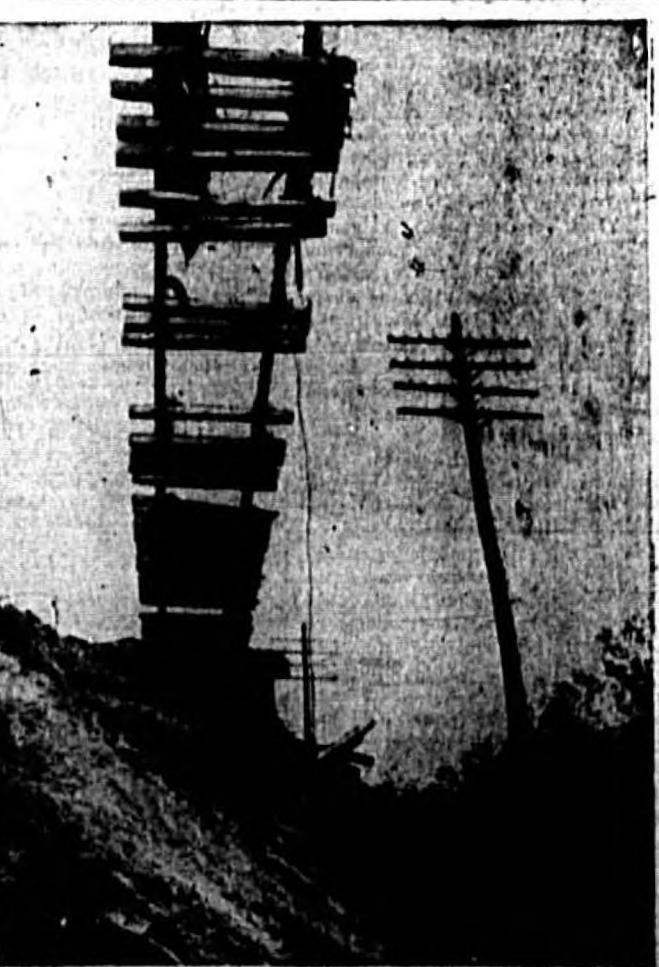

New cases certified for commo-dities	19,500
Total receiving commodities	27,922
Advances to WPA	35,497
Advances to NYA	4,824
Advances to Rural Resettlement	149
Applications completed for CCC	8,123
Services to other Federal program	257
Services receiving case work services	1,008
Child services to individuals	3,322
Services to mental hospitals	76
Services to penal institutions	119
Services to public children's institutions	186
Services to private children's institutions	31
Services to juvenile courts	62
Services to courts on adult cases	34
Services to county & city welfare departments	6,055
Cost of loan inquiries	7,323
Other services	2,990

Each case certified for surpluses commodities represents a family unit, estimated at four and one-half persons, bringing the total number served to more than 150,000.

The Board certifies clients for commodities for WPA, NYA employment, and young people for admission to the CCC.

Sanford farmers receive 100 bushels from each of their farms in July, 1935, at 18 per cent below the 1934 price of \$170,000,000 and the same month of 1935.

Water Makes Sack Stronger, Not Weaker

TOKYO.—(AP)—After four years of research, Dr. Junji Torii, a chemist, is said to have perfected a new type of heavy paper for use in sacks which resists water and sand better than hemp or leather.

It is reported the Japanese army may use the invention to replace jute in the making of sandbags. Jute is imported from India and restricted by trade control. The new paper tends to increase in strength when left in water for prolonged periods.

The first export of grapefruit for the 1935-36 season moved north last week from Kendall in Dade county. Other shipments are being forwarded and it is expected the movement will be headed by mid-September.

Count Of Covadonga Bleeds To Death After Auto Accident In Miami Today

Accidents Kill 321 On Weekend

Hereditary Disease Of Haemophilia Is Cause Of Death

MIAMI, Sept. 6. —(AP)—The Count of Covadonga, 41, eldest son of former King Alfonso of Spain, bled to death today from cuts about the head suffered in an automobile accident early this morning.

The Count was injured while riding in a car driven by Miss Mildred Gaydon, 25, when the vehicle swerved from Biscayne Boulevard and struck a pole.

The Count suffered severe lacerations of the forehead, a possible fracture of the skull, and the right leg was broken.

Hereditary haemophilia, which prevents the normal coagulation of the blood and causes profuse bleeding from slight wounds, complicated the Count's injuries.

His secretary, Jack Fleming, said former King Alfonso would be notified at once in Rome of his son's death.

The Count, Alfonso de Bourbon y Battenberg, renounced his title of Prince when he married his first wife, Edmunda Sampedro-Ocejo y Robaco, daughter of a Havana merchant.

They were divorced and he married Marta Rocafort, daughter of a Havana dentist. They too were divorced last winter.

Death played its usual tragic role in the holiday of America's millions.

Reports from the 48 states and the District of Columbia last night showed 321 violent deaths and the list was still mounting for the extended Labor day week-end.

Five were killed and 23 injured when a light sedan collided with a bus near Charlotte, N. C., Sunday. A car-train crash near Merideth, N. H., claimed five lives and three motorists harmed to death in California.

The largest number of violent deaths was recorded in Ohio, where 28 died, 26 in auto smash-ups. California and Michigan with 25 each, and New York and Illinois with 21 each followed in the list.

The last long holiday week-end—Independence day—claimed more than 817 lives.

During the first six months of the present year the State Welfare Board paid out \$71,949 Aid to the Blind.

California, Sanford, New Jersey The Story Of A Classified Ad And Its Sequel

Last week The Herald told about a little classified ad published in this paper by a person living in California and answered by a person living in New Jersey. From California, to Sanford, to New Jersey, via The Sanford Herald, and from New Jersey, to Sanford, to California by airmail, was the story. Today we received the following letter from Ericacue, N. J.:

High Tribunal Meets To Hear Marble Case

Attorneys Say Game Is Based On Skill And Does Not Provide For Payoff

TALLAHASSEE, Sept. 6. —(AP)—Attorneys for Bryon J. Eeles, Volusia county operator, today asked the Supreme Court to prevent the seizure of his marble games as gambling devices under the 1937 law outlawing slot machines.

They argued the pin and marble board games permit the playing of the game purely by skill and do not provide a "pay-off" that would subject them to the destruction ordered two months ago by Gov. Cane.

Attorney General George Cooper Gibbs said gambling was present in the machines' operation through a "payoff behind the counter." The count took the case under advisement.

TALLAHASSEE, Sept. 6. —(AP)—Disposition of more than \$1,000,000 in cash piled up in the State Treasury and the outcome of more than a year's litigation depend upon a forthcoming decision by Florida's Supreme Court on contracting gasoline tax laws.

The decision is expected in a case from Miami involving a special gasoline tax law affecting only Duval county.

The question is whether the county may use its share of State gasoline tax money, as the special law provides, or the State Road Department shall use the money for building roads in the county.

Comptroller J. M. Lee insists the latter procedure is required by a 1931 general law which, he says, cannot be changed by special statute.

The litigation started in the summer of 1937, when Comptroller Lee halted payments of disputed tax money to 35 counties that claimed it under special laws. The Treasury has on hand \$569,686 credited to Duval county. Eight other counties are interested in the outcome. They have to their credit \$188,757 of impounded funds.

After Lee halted the payments, six of the counties asked the Supreme Court compel him to send them the money. The Court split 3 to 3, over which laws should take precedence and, as a result, the litigation continues.

Mrs. Walter Clay Dies In Jacksonville

Funeral services for Mrs. Walter E. Clay, former resident of Sanford who died in Jacksonville yesterday morning, were held at the Erickson Funeral Home this afternoon at 3:00 o'clock with Dr. E. D. Brownlee officiating. Interment was in Lakeview Cemetery.

Survivors are Doyle Clay of Jacksonville, a son, Mrs. John Register of Jacksonville, a daughter, Walter Clay of Jacksonville, a grandson, Arthur J. Doyle of Memphis and Fred Doyle of San Antonio, Texas, brothers, and Mrs. B. C. Small of New York City, a sister.

Root Returns To His Post After Vacation

Speaking on the dignity of labor, Rev. J. Bernard Root preached at the Congregational Church Sunday morning after a two week vacation spent at Ormond Beach during which, he said, his health was benefited.

Using the Labor Day theme in his sermon, Mr. Root referred to Jesus becoming killed in the use of carpenter's tools and that he supported his widowed mother, younger brothers and himself by labor and thereby learned of the problems of his fellow man.

Solons Reiterate Their Support Of Townsend Clubs

Speaking before members of Central Florida Townsend Clubs and members of Central Florida labor unions, Congressman Joe Hendricks declared yesterday at the Engstroms in Orlando that he had always worked hard for the Townsend Plan and shall continue to do so.

Congressman Hendricks was one of several speakers who included Congressman Lee Green and Major Paul Crank, president of Orlando Club Number 2.

Earlier in the day Senator Charles O. Andrews and Mayor Sam Way of Orlando addressed the holiday crowds.

Representing the Sanford Townsend Club were Mr. and Mrs. W. I. Hughey, Mrs. Martha Moffitt, Arthur Kirchhoff, Mrs. Elise M. Kirchhoff, Mrs. McKewen, Mrs. Jomette Goodhall, Mr. and Mrs. Wm. H. Polk, Mrs. Nellie Hale, Harshel Dunn, Casper and William Goodale and Rev. James Logan.

Taking cognizance of the labor unions present as well as of the Townsend Clubs, Congressman Hendricks asserted that he and Congressmen Hendricks were qualified to speak to labor "for we both worked." He assured his audience that he also would do his very best for the Townsend Plan and "Unless I am detained at a hospital, I shall be at Washington, and make a speech for the Townsend cause and vote for it."

Major Crank told organized labor that its problems and that of the Townsend movement were the same and that by working together they would accomplish their objectives.

Speaking before noon to the labor groups Senator Andrews gave his promise to support labor in Congress as matters pertaining to wages and hours came to the fore in legislative proposals. He referred to William Green, AFOL president, as his "friend and confidant."

Funeral Services Held For Mrs. Southard

Funeral services for Mrs. Minnie L. Southard, who died at the Furrick-Laughton Saturday morning, were held Sunday afternoon at 4:00 o'clock at the Erickson Funeral Home with the Rev. W. S. Queen officiating.

Mrs. Southard, who died after a lingering illness, had made her home with her sister, Mrs. Mamie Southard, at 402 French Avenue, Jacksonville.

Rail Commission To Conduct Next Meeting In Sanford

The Florida Railroad Commission will hold its next meeting on further material rates in Sanford, Tuesday, Sept. 13, at the Mayfair Hotel which will be headquarters for the hearing, it was announced today by the Chamber of Commerce.

Members of the commission and staff to be present are as follows: Commissioners Jerry Carter, Eugene Matthews and Douglas, Counsel Theodore J. Turnbull, Rate Expert J. H. Tench, Official Reporter John R. Gutter.

In a letter to Ralph F. Bassell, secretary of the Chamber of Commerce, Mr. Tench said a hearing was also scheduled with reference to truck schedules for Monday with the fertilizer material hearing on Tuesday. Wednesday is set for the conclusion of the hearings, the last of which will be upon the application of the Florida Material Company regarding rates on peat, humus and muck.

Mr. Tench declared that although three days should be time enough for the hearings "that it was almost a 'sacred' time to anticipate how long a given hearing will last."

He pointed out that the fertilizer material hearing is quite important and that there will be persons present from Washington, Wilmington, Norfolk, Atlanta and possibly New York. He estimated at least 50 persons should attend.

Hearing on the applications were begun in Jacksonville Aug. 17 and testimony of all who were in attendance was taken, according to a letter from George L. Patten, secretary of the Commission, to the local Chamber.

"It developed," the letter read, "that there were many interests desiring to testify who could not be present in Jacksonville, and the hearing was adjourned, to be resumed at a time and place to be announced later."

Lewis Given Pat On Back By Roosevelt

President Asserts In Maryland He Proposes To Keep His Party Liberal

HYDE PARK, N. Y., Sept. 6. —President Roosevelt returned here today from Washington for a rest after a week-end excursion into Maryland where he made a speech praising Rep. J. P. Lloyd Lewis, opponent of Senator Mildred E. Tammings who has been put on the Administration "blacklist."

In a Labor Day speech at Benton Md. the President by implication denounced Tammings, opponent of several New Deal measures as a conservative, and praised the record of Lewis.

BENTON, Md., Sept. 6. —(AP)—President Roosevelt appealed to the Democrats of Maryland yesterday to send Rep. David J. Lewis to the Senate, asserting the party would receive the support of the nation only so long as it remains a liberal party.

"As the leader of the party," he added, "I propose to try to keep it liberal."

The President spoke to a crowd of Eastern Shore folk gathered with their picnic families in country fair fashion and holiday mood under the summer trees that surround Carolina county road brick cottages.

He made no mention of the name of Senator Tammings, Lewis' opponent for the senatorial nomination, whom the President accused a fortnight ago of having betrayed the New Deal.

And in naming Lewis he departed in dramatic fashion from his prepared text, which had, however, made clear the purpose of his coming to the Eastern Shore, through paragraphic recounting Lewis' long career as a state and national legislator.

Again, he said, a young legislator engaged in pioneering efforts which led to workers' compensation legislation in Maryland, the first such law in the United States, and to parcel post legislation by Congress. Later he led in the movement for social security legislation, the President added.

At this point, Roosevelt temporarily abandoned his main speech, looked out across the crowd and asserted there was no need telling the people of Maryland who the legislator was.

"I don't have to name that young man, now well along in mature middle age," he said, "but for my friends in the other 47 states—for their benefit if they don't know—the name of that man is Representative Lewis, of Maryland."

Cheers and applause greeted this assertion, and the President resumed his prepared speech.

"It is the privilege of some of us to dream dreams," he said, "and of some of us to carry out the dreams of others." But in Maryland you are fortunate in having a man who not only has seen visions but made them come true.

"He symbolized for the farm and city alike the inherent humanity of the man who rises from humble circumstances, and from the inherent ability to grow in fertile soil of American tradition of equality."

2 Sanford Girls Win High Honors In Girl Scout World

Mabel Chapman, Doris McCall Attain Rank Of Golden Eaglets

Two Sanford girls, Mabel Chapman and Doris McCall, have been crowned the rank of Golden Eaglets, which is the highest award in the Girl Scout organization, and the first such honor to be won by a Sanford girl.

The Golden Eaglets conferred by the national organization with headquarters in New York upon a Girl Scout whose character, physical and mental fitness, preparedness for service, and spirit of good will mark her as a Girl Scout Scout, exceptional in achievement and personal development, in the judgment of both her community and the national organization.

A Golden Eaglet must be a First Class Scout, 16 to 18 years of age, who has won 21 proficiency badges, and has camped at least two weeks in a Girl Scout camp approved by National Headquarters.

The two Sanford girls will receive their Eaglet pins Friday evening, Sept. 9, at Camp Waka Waka.

Mrs. Chapman is the daughter of Mr. and Mrs. P. W. Chapman and lives on West Nineteenth Street. Mrs. McCall lives at 2100 Magnolia Avenue and is the daughter of Mr. and Mrs. George McCall.

Czechoslovakians Offer New Program To Sudeten Germans

Adult Hitler delivered his long-awaited annual proclamation to the Nazi party congress at Nurnberg today, but failed to make any reference to the Czechoslovak crisis on which Europe had expected an important declaration.

The German chancellor dealt at length with domestic affairs and touched only briefly on foreign relations.

Mr. Hitler, the Czechoslovak government, previously wanted the reaction from Sudeten Germans and Czechs to sweeping concessions made last night to the German minority of the Czechs, corresponding to the British new agreement, and they included territorial autonomy for the Sudeten, recognition of their full equality in the Czechoslovak state and of the equality of the German language as the official language in the Sudeten area.

A foreign spokesman said these would be the government's final proposals.

Hitler continued to pour fire on the Czechs. Maginot line across from the German border and a Chamber of Deputies subcommittee was called to meet tomorrow to study the production of war material.

The Spanish civil war and the Chinese-Japanese conflict continued at full force in South America and Cuba took emergency measures to insure domestic peace after Monday's rebellion by a small group of national socialist (Nazis).

Japanese troops reported an overwhelming victory over the Chinese 88th division on the southern border of Hunan and Anhwei provinces.

Advised regarding the Spanish situation, London headquarters said the important lead made a two and a half mile advance on the Ebro River front.

There were reports that Franco feared Hitler may demand a plebiscite among the 3,500,000 Sudeten Germans of Czechoslovakia on the question of their absorption by Germany.

Hitler was rumored to have told Premier Mussolini of Italy that Britain will refuse to fight and that Germany is ready to "go the limit."

Genevieve Taboure, writing in L'Evening, said that soon after the plebiscite demand Hitler would "invade the Sudeten territory to aid his German brothers in their difficulty." He and his generals consider that three days will suffice and that the Sudetenland once precisely orders already have been given to German troops.

Paladino's order putting the army, navy and air force in fighting trim were extended to workers in the key government ministries. (Continued on Page Four)

 lities in Paris, the gendarmerie posts, direct prefectures, postal, telephone and telegraph employes. All were instructed to remain at their posts. Holidays and leaves were cancelled abruptly.

More than 15,000 furloughed officers and men were recalled, special classes of reserves were called up for three weeks duty. Frontier posts in advance of the Maginot line were increased to double strength and gaps in garrison strength were hastily plugged.

The entire peacetime strength of the French army, together with about 35,000 army men of the gendarmerie force, was brought to top efficiency with more than 500,000 men alert and ready for an emergency.

The number of special reserves called up for duty in the 400,000,000 Maginot line, capable of laying down a flaming curtain of death along a 200-mile stretch of the German border, was not revealed.

Each of these reserves is highly trained in the operation of the complicated underground apparatus of the Maginot fortifications, the sunken forts and gunneries nests and the turrets that look like battleships plunged into the earth.

 the entire issue was left undecided.

Immediately a taxpayer entered caveat court here and obtained from Judge J. B. Johnson an injunction restraining further payments to the counties unless they were willing to follow terms of the 1931 act.

County after county, faced with Judge Johnson's ruling that their special laws were unconstitutional, agreed to waive any special claims and let their gasoline tax money be handled under terms of the general law.

Today, only eight counties are permitting their money to remain tied up in Judge Johnson's court.

Dade county officials, with the largest stake in the disputed funds, chose, however, to take a new appeal to the Supreme Court when Judge Johnson threw out their act.

The justices, due back after Labor Day from vacations, may be ready soon with their ruling, but there has been no hint of when it will be announced.

Attorneys here have agreed the decision will have far reaching effect, possibly pointing the way to action by the 93rd legislature on the subject.

FLORIDA HIGHLIGHTS

ONE OF THE CHIEF RELICS OF SPANISH OCCUPATION IN FLORIDA, THE OLD CITY GATES OF ST. AUGUSTINE.

The earliest reference to the ORANGE in Florida is in a letter from Pedro Menendez Marques, dated St. Augustine, April 2, 1597, in which he says: "There are beginning to be many of the fruits of Spain, such as figs, pomegranates, oranges and grapes, in great quantity; there are many mulberries from mulberry trees produced in this same soil, etc."—Connors Colonial Records II, page 227.

While the orange is internationally known for its delicious taste, comparatively few people realize its importance with relation to the human system. Its rich content of vitamin "C" has caused it to be recommended by prominent doctors and scientists the world over in combating diseases of the body. A generous daily supply of vitamin "C" keeps the teeth healthy, helps

U. S. Tourists Are Stranded in Mexico

BROWNSVILLE, Tex., Sept. 6.—(AP)—High water which blocked rail connections at Matamoros, stranded 350 American tourists in Mexico, and threatened the fertile lower Rio Grande valley, tumbled to the sea tonight as levees held the stream within its banks.

Apprehension for the safety of the Americans was dispelled by United States Vice Consul

Carlson of Monterrey, who said none of the tourists at Valles, Mexico, was suffering from lack of food. He said approximately 1 more tourists were stranded between Valles and Monterrey, cut off by floods on rivers near Monterrey and Victoria, Mexico. The floods followed last week's tropical hurricane.

Lamson Warns Dogs Must Be Vaccinated

All dogs which are not vaccinated and are found running loose on the streets unattended after Sept. 12 are subject to being caught and killed, City Clerk Frank S. Lamson said Tuesday morning.

The law requires all dog owners to vaccinate their animals if they are permitted to roam the streets. Those which are kept at home need not be vaccinated.

Dr. C. W. Baker, veterinarian, will be at the rear of the City Hall every day until Sept. 12 to do the vaccination.

 eral harsh statements in the speech were meant for him, and notably one in particular.

Discussing liberals vs. conservatives, the President said "Any man—any political party—has the right to be honestly one or the other, but the nation cannot stand for the confusion of having him pretend to be one and act like the other."

The address contained, as well, two additional themes that ran throughout its paragraphs. First and with great emphasis, the President defended his right to go into any state and deliver such an address, a right that has been vigorously challenged by his critics. And secondly, he reiterated again and again an assertion that labor and the farmer are partners, with a common interest. A minority in the country, he said, was endeavoring to drive a wedge between the two.

Celery Feds Open 1938 Football Practice Today

McLucaas Expects About 50 To Report For Duty

Only Few Regulars Of Last Year's Team To Be Present When Coach Calls Roll

Approximately half a hundred aspiring footballers were expected to report this afternoon to Coach Leonard I. McLucaas for the first practice of the 1938 season at Sanford High School.

The Celery Feds for the coming season are an untried quantity save for a few regulars from last season. Coach McLucaas has indicated that a great deal of work will have to be done before he is certain the boys will give a satisfactory account of themselves.

Of the nine games Sanford has scheduled, seven will be played at home this giving the Feds whatever advantage there may be in playing before the home fans. The only two games to be played away will be Orlando at Orlando and Ocala at Ocala.

Of the returning backs, Darrell Ferguson will doubtless handle a half post again. In the forward wall, the returning experienced men will be Fred Ganas, center; Jim Young and Robert Howell, tackles; and Sam Wails, end.

Coach McLucaas plans to start the boys through two stiff drills each day until the opening day of school Sept. 12, next Monday. After that, only one drill a day will be in order.

To build for future seasons, Coach McLucaas has indicated that he will concentrate on forming a strong "B" squad to be composed of freshmen and sophomores. Uniforms will be issued

Gators To Open 1938 Schedule Against Stetson

Saurians To Inaugurate Opening Of Season Under Arcs

By FRANK WRIGHT
GAINESVILLE, Sept. 6.—Two weeks from next Saturday night begins what promises to be the most interesting football season the University of Florida has engaged in since 1930.

On September 24 the Gators usher in night football at home. There is every indication that Florida Field Stadium, under the glamour and brilliance of the new illumination system, will be a beautiful spot. The No. 1 opponent is Stetson, coming up, apparently, with a strong, and typically scrappy team, a team that if it could whip Florida, would give almost anything for the victory.

Under the lights the night of September 24 will trot three or more combinations, each personality involved striving to justify the reputation earned as a junior or a sophomore, or in the cases of the more than two score who will be playing their first college game, a desire to show to command the coaches' respect.

No Florida team, in the eight-year history of Florida Field Stadium, has ever scored more than 14 points. Perhaps in that No. 1 game there may be not only a craving to win, but to win by a record score.

But then comes the initial trip of the season, a rather difficult journey as trips go, to Mississippi. At Starkville, where the Gators played a year ago, Florida faces an acid test. This game may be the turning point in the schedule. It's the really tough assignment. The argument that Mississippi State can't be so bad, because of a change in coaches, does not bear weight. Here in Florida, we can remember back in 1928—the year Charlie Bachman coached the Gators. What happened—only one less, that by one point, in the final game, and before that Tennessee affair, a succession of spectacular wins and when the counting was all in for the year, Florida had led in scoring every collegiate football team in America.

Mississippi State has, apparently, some exceptional sophomore material. Indication of that was given last Fall when the Maroon frosh crushed Alabama's freshman 20 to 0, and rolled over the Ole Miss yearlings 33 to 0.

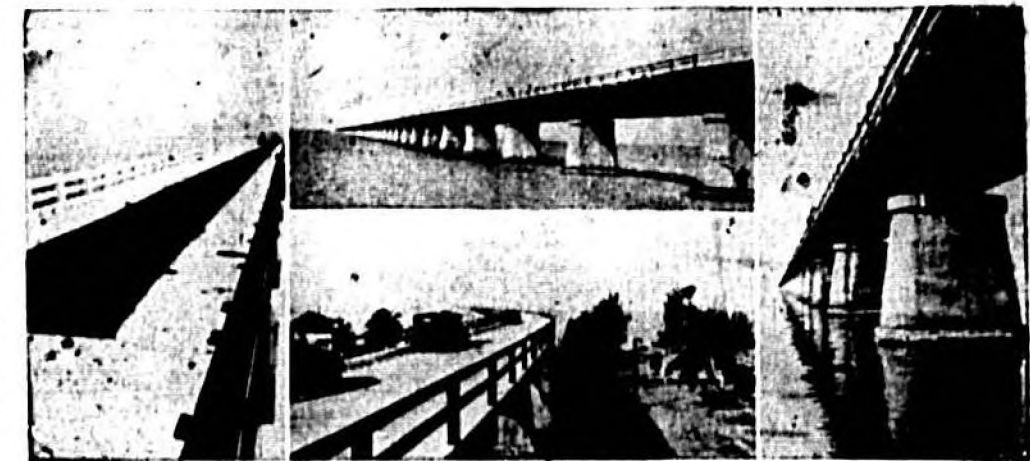

This second game of the year must find the Florida sophomores equal to the part they must play. A win over State should set the Gators into stride. A loss will simply reveal the fact, probably, that the sophs have much to learn, and are not yet able to meet the competition of the Southeastern Conference. As it now looks, the seniors and juniors alone can not carry this 1938 program, and the Mississippi State game clearly points out the urgency for the new men to be ready.

Then comes Miami University, at Gatorland, in another under the lights set-to. This game, and the one the following Saturday night with Tampa, are on the schedule in answer to strong insistence from alumni and fans generally, and too, because Florida was ready and willing to meet these worthy rivals in a program to help the institutions further their respective gridiron affairs. Twice in a row, the Gators will meet inspired competition. Florida alumni in Miami have already arranged for a special train that will bring folks into a spur track only a few hundred feet from the stadium.

The two-year series with these two teams could probably insure, with popular support, to the seasons in 1938 and 1939, continuance of the contests for a long while to come. Not simply because of this fact, but because the games this year give every indication of being outstanding

OVERSEAS HIGHWAY, connecting Key West with the mainland of Florida, is a marvel of engineering skill and scenic beauty. For nearly a hundred miles it curves like a giant scimitar across the open sea, crossing tiny coral islets, to the southernmost point in the United States. On the right, picture shows the massiveness of the structures which have defied tropical storms for a quarter of a century. On the left, picture shows the type of surface construction used to convert former railway bridges into 22-foot concrete highway bridges. games, due to the keenest of the rivalry, should fans give every possible support.

Boston College, to be played in Boston the last Saturday in October, is another opponent being met for the first time this season. Annually, one of the strong teams of the East, B. C. will give the Gators of 1938 a real test of what four games experience can mean. The B. C. game starts a succession of weekly battles that must find Florida at top speed every Saturday. With B. C., Georgia, Maryland, Georgia Tech, Auburn, and Temple following in order, no one can say "Breathing spell" in Gatorland and escape without a punning.

BOOMERANG PRECAUTION

Gu. Hele, Okla. Sept. 6.—Wayne Hood, 21, was arrested Saturday night for possession of a sawed-off shotgun. He couldn't recall yesterday which car he had used and surveyed an array of 2,000 boxes in perplexity. He and his staff began searching. Four hours later they found the right box.

RACE DRIVER KILLED

MORRISTOWN, Tenn. Sept. 6.—G. R. Hancock Jr., 21-year-old race driver from Owensboro, Ky., was killed here yesterday attempting to qualify for the Labor Day automobile race. Hancock's car left the track on the west turn, ploughed thru a fence and across a field and landed in an old barn. His father, G. R. Hancock of Owensboro, was among those who witnessed the fatal accident.

'SAFETY SALLYS' who serve as traffic warnings at school crossings in Long Beach, Cal., put up their best front for City Manager R. M. Dorson, an active force in the city's safety campaign. No accidents involving school children were reported for at least 120 days after 68 of these novel signs—which the school pupils like—were set in place.

TWISTER RIPS SCHOOLHOUSE killed one man yesterday and destroyed a 12-teacher school building. Parker May, 22, was killed by an electrical storm, breaking over lower Coffee County, in Chancellor community.

FARM MEDICAL COSTS
WASHINGTON, Sept. 6.—(AP)—The Agriculture Department reported yesterday that medical services cost the average farm family \$39 a year. This represents 6 percent of the cost of all goods and services for family living on the farm.

MAKES \$10,235 TAX PAYMENT TO STATE

Mr. Mather, head of the Mather-operated furniture stores in Florida, yesterday afternoon, Sept. 5, at a meeting at 218,235.00 to the Comptroller J. M. Lee's office. He is shown as left extending check to Mr. Patterson. Yesterday's check brings the payments in chain store taxes to \$10,235.00 which still leaves \$7,070.00 due. The time limit for the payment of the consumer's tax bill has been set by Comptroller Lee. Mr. Mather stated that the cashing-in sale conducted by the Mather Furniture Company in Sanford and the other Mather-operated stores was still short of the total amount. Local sales have been good but the down-state stores are behind in their quotas, it was explained. Mr. Mather left last night for West Palm Beach.

After making every possible effort to raise \$25,200.00 chain store tax demanded by Comptroller Lee by September 1st, we find we are short \$7,070.00. Local employees added nearly \$250.00 to the payment made Lee yesterday by contributing their this week's pay checks and we were still short \$7,070.00. We asked a few more days' time to get up this balance but were told "No".

We intend to meet this new crisis by offering you one more chance to buy furniture at your own price.

If you were one of the few whom we turned down, come back again and make another offer. We are now in a position where we have to accept practically any offer.

Again we say, if you need furniture, do as many others have done during the last ten days, come in, make your selection, then make us an offer. Unless absurd, you have bought a bill of goods. You have a further advantage over last week's customers in that there are many car loads of new furniture, selected at the July Grand Rapids and Chicago markets, that have just arrived and are now on our floor. All are included. None excepted. We need \$7,070.00 and we need it quick, so we are going to sell furniture at your price for cash till it is raised or till we are closed up. Either way our loss is your gain. We repeat - ACT QUICK.

6000 Retail Clerks Strike In Coast City

27 Major Department Stores Picketed; Move Said Largest Ever Called

Police Leaves Are Cancelled

Advertisements In Newspapers Say Stores To Be Open

SAN FRANCISCO, Sept. 6.—(AP)—Massed picket lines of laughing, smartly dressed women paraded today in front of leading department stores, signaling the opening of a strike of 6000 retail clerks.

Twenty-seven major department stores were picketed in what labor leaders termed the biggest strike of its kind ever called in the United States. All police leaves and days off were cancelled when the strike was voted at a mass meeting last night. Newspaper advertisements announced that "stores will be open as usual."

The strike followed the breakdown of negotiations between the AFL Retail Department Store Clerks Union and employers over the union demand for a registered list from which employees would be chosen and a "seniority" plan.

Movie Quiz Films Will Appear Here Today, Tomorrow

Sanford theatergoers will have the opportunity of witnessing picture tonight and tomorrow which are among the most listed in the \$250,000 movie quiz contest being conducted throughout the United States by the motion picture industry.

The picture tonight is "Kew Follies," starring Jane Withers, while both films Thursday, "The Chaser," with Ann Morris and Dennis O'Keefe, and "Breaking the Ice," with Bobby Brown, Debra Costello and Charles Rogers, are listed in the nation-wide contest, which is attracting widespread interest.

Quiz books containing the list of movie quiz pictures and questions about them may be obtained at the theater. It is pointed out that questions have to be answered on only 30 among the 94 pictures designated, so the fact that a few of the films have already appeared here will in no wise handicap contestants.
