At The Capitol

By GEORGE RUDDY

TALLAHASSEE, Apr. 11
There are no sessions of either house today, but my work that we are getting on. Many cannot understand why such a great number of representatives, mostly new ones, remain over in the capital during the week-end, but it is easy to understand. You see how busy we are today. Most of those who are here are from the counties that are quite a distance away, and then there are many like myself, who are new, and desire to learn all we can, and at the same time accomplish something.

Every member of the House and Senate was presented with very appropriate watches during the last part of the session. The best part of the watch is, however, that it admits you and your wife to the theater at any and all times during the session. It is very attractively made, one side displaying a map of Florida. Each member's name is engraved on the other side. This looks like those people who wear a tax on motion picture tickets.

Railway and the state offices and the girls and boys all turned out for a half-holiday.

Sanford is universally known as the "City of Flowers" and it appears that we will receive a high honor in the "Land of Flowers" at the World's Flower Show, to be held at the Sanford Garden Club's Flower Show, and Fred Hendler's exhibit of the Wood collection of hybrid anemones. All of these flowers make the following things by Edwin Markham more appropriate to Florida than ever: Here come, O gallant de Laos, flung up this friendly ocean stream.

To find the wells of ancient dreams,
The fountain by the poets sung,
Where life and love are ever young,
You found it not, O Prince, and yet,
The wells that make the heart forget,
Are waiting here—yes over here,
With touch of some immortal sphere,
Far here below these skies of gold,
We have forgotten to grow old,
Here in this land where all the hours,
Dance by us, trailing upon flowers.

The above poem by Edwin Markham, which, by the way, is engraved on the walls of the beautiful Daily News Building in Miami, should bring us all to the realization of what a wonderful state we do have. This applies to all of Florida, as far as God-made scenery is concerned.

The veteran legislator and speaker pro-tem this morning as well as last, Hon. Henry B. MacKenzie, of Palatka, commented on and on these lines this morning and remarked that it was the first time he knew of a member of this body attempting to write such a line in addition to his other work, but as long as I think the people of Seminole County will read the Herald, I, Mr. MacKenzie, is a newspaper man, I must.

I saw Hon. Ernest Ames in the Capitol today. He does not seem to be carried over the proposed amendment by Sen. Walker of the House, but he seems to be in favor.

BOYS MURDER AT FLAY

MEMPHIS, Tenn., (AP)—A boy, 11 years old, was murdered by another boy, 12 years old, in a flay house in Memphis today. The boy was found dead in a flay house, and the murder was attributed to a dispute over a girl.

2 GUNMEN DIE WHEN WAITER FIRES ON THEM

Former German Sharpshooter Cuts Short Holdup With Volley Which Deals Death

CHICAGO, Apr. 12.—(AP)—After terrorizing two Gold Coast motorists, a gang of drunken robbers was trapped at the L. Aiglon safe early yesterday and two of their number shot to death as 400 horrified guests looked on.

Three of the men, after posting a companion outside the L. Aiglon, forced their way into the place and barred guests along the ballroom wall.

The trio had begun stripping guests of jewels and valuables. When Frank Abler, head waiter, and a former German army sharpshooter, appeared armed with an automatic shotgun.

Reaching a spot that placed guests out of range, Abler opened fire, the first blast killing one bandit. The other two sent a volley of pistol bullets at Abler, who, crouched on one knee, answered shot for shot.

As the second bandit pitched forward shot through the heart, the surviving member of the trio leaped through a window and escaped in a car driven by the accomplice who had remained on guard.

During the death duel, panic reigned in the ballroom and in the dining room upstairs. Women screamed and fainted, and men fled about. Order was finally restored after the orchestra struck up a tune and the din of the music rose above the furors.

The slain men were identified as James Hirsch, 34, and Charles E. Nelson, 28.

Before the trial attempt, police said, the quartet staged holdups at the Marlborough and Monterey hotels. At each place guests and employees were terrified by intoxicated men flaunting pistols. Only a small amount of money was obtained at the two hotels.

County Court Ends With Negro Youth Receiving Sentence

The April term of Judge James G. Sharon's County Court closed in so far as the actual trial of cases was concerned, when, late yesterday afternoon, a jury brought in a verdict of guilty in the case of James McClellan, colored boy, charged with petit larceny.

The jury was composed of Karl Deal, C. M. Boyd, E. E. Norwood, W. I. Tyler, J. E. Singletary, and A. D. Smith. The state, represented by Prosecuting Attorney John G. Leonardy, introduced Ellen M. Dullison, Martha D. Johnson, Gordon J. Barnett, Jr., and Beatrice Peoples, as witnesses, while the defense introduced L. R. McQuillan, Lysan Orr, and James McClellan as witnesses.

Judge Sharon fined him \$5 and costs, following which his attorney announced that he would file motion for a new trial.

Judge Sharon will today rule on the motion for a new trial in the McClellan case, as well as the Foster case which was tried last Tuesday.

The following cases were continued until next term: D. P. Oronch, pending a northern check; Jack and Edwin Goodwin, taking fish with an unlawful device; Chris Lemay, possessing liquor; Joe Gardner, assault; Ben Woodley, operating a truck without a license; Mary Brown, possessing liquor; Chris F. Gordon, petit larceny; Paul Keeler, disposing of property under loan; Nolan Ford, possessing a still.

Mrs. Della Goetz estimated a \$100 bond on a charge of possessing liquor, and a capias was ordered issued for her arrest. Warrant Gardner, pleading guilty to a charge of assault and battery, was fined \$5 and costs.

3 GETZEN BILLS ARE INTRODUCED IN HOUSE TODAY

One Measure Seeks To Reduce Number Of Judicial Circuits

TALLAHASSEE, Apr. 12.—(AP)—Measures to reduce to 21 the number of judicial circuits, to appropriate \$7,250,000 for a standard eight-month school term, and to name a seventh supreme court justice led the bills into the Senate this morning.

These three were offered by Getzen, of Bushnell. The judicial reduction measure provides that the number of circuits be reduced from 22 to 21.

Getzen also had a bill to abolish capital punishment except where the defendant is convicted on testimony of eye witnesses, or where the trial jury recommended specifically death. Another Getzen bill brought a second income tax proposal into the Senate. The measure is similar to that proposed by Senator Gray last year.

Publication of delinquent tax lists in newspapers would be abolished under a bill by Getzen which seeks merely the publication of notice of the sale of delinquent tax certificates which would be published once a week for four weeks. Landowners whose taxes have not been paid would be required to regard the notice sufficient warning.

Another Getzen bill would reduce legal advertising rates from one dollar an inch for the first insertion to 50 cents for a single column with additional insertions 25 cents each.

Senators King and Hodge, presented a resolution to create a Florida century of progress commission to take charge of the Florida exhibit at the Chicago World's fair in 1933.

The Senate went into executive session at noon to consider a list of 18 suspensions by the governor. The secret session lasted 35 minutes with no announcements but reports were that the suspensions were referred to a committee for further study.

Marie Hoheny, 40, and Julia White, 22, were those who died. Police arrested two employees of an extermination company and held them pending further investigation.

HOOVER PLANS BUSY DAYS OF PUBLIC TALKS

President Returns To White House After Attending Funeral Of Nick Longworth

WASHINGTON, Apr. 12.—(AP)—President Hoover was back in the capital from Cincinnati where he attended the funeral of his personal friend and political ally, Nicholas Longworth, speaker of the House for the past six years.

The presidential special arrived at 7 A. M., and the chief executive and Mrs. Hoover immediately went to the White House. The return trip was made leisurely with stops at a number of places along the way for Mr. and Mrs. Hoover to make back platform appearances.

The President now is faced with a busy round of speeches, three in the next two days, and also the pleasant duty of throwing out the first ball in the opening game of the American League season here Tuesday between Washington and Philadelphia.

The first address will be at the opening session of the annual meeting of the American Red Cross. Tuesday noon he will address a meeting at the Pan-American union. Apr. 14 was set aside as Pan American day last year in a presidential proclamation.

Upon returning from the ball game in the afternoon he will deliver the annual address to the American League.

AMERICAN WRITER FORCED TO LEAVE RUSSIA BECAUSE SHE JOKED ABOUT STALIN

WIFE OF ENVOY

BERLIN, Apr. 12.—(AP)—Eve Garret Gandy, an American magazine writer, was expelled from Soviet Russia because of a joke she told at the expense of Joseph Stalin, she declared upon her arrival here from Moscow yesterday.

The article which aroused the government's anger was published in an American magazine and was entitled "Joe Russia and His Laughing." Her husband, William H. Gandy, a consulting engineer of New York, also was expelled with instructions to "keep your wife out of Russia." He was employed in the Soviet Union as an engineering expert.

The anecdote which Mrs. Gandy says is "going the rounds" in Moscow related that a Jewish boy said a stranger from Downing, whereupon the anything stranger told him to ask anything he wished and it would be granted.

"I am powerful, I am Stalin," he was said to have remarked. The boy, quite overcome, gasped and then said:

"If you are really Stalin, then don't tell anyone it was I who saved you."

Mrs. Gandy expressed surprise that the foreign office so frankly specified the Stalin joke as the grounds for expulsion instead of naming some broader reason for her expulsion.

Nicaraguan Rebels Shoot Marine Corps Captain In Ambush

MANAGUA, Apr. 12.—(AP)—Capt. Harlan Preley, U. S. M. C., was killed by insurgents in the hills of northern Nicaragua Saturday night, and reports reached here Sunday that a small detachment of marines sent into the district was fighting off an insurgent band which had surrounded it.

Preley was killed as he stepped into a house at Logtown, the rail head of the Fragman's Blue Lumber company near Puerto Cabezas. A corporal named Morales was wounded.

When word of the ambush reached Puerto Cabezas Lieutenant Harrah took a small patrol toward Logtown. Late Sunday night the manager of the lumber company informed the marine headquarters here that Harrah had been surrounded and that two of his patrol had been captured.

The report could not be confirmed and headquarters were inclined to think it exaggerated. Sunday morning, however, another patrol went to Daran's assistance and two bombing planes took off from the Managua field. The U. S. S. Asheville was reported steaming from Panama to protect Puerto Cabezas while the marine guard was out.

WOMEN WETS LOOK ON DRYS AS 'ALL WET'

Head Of Group Against Prohibition States Wet Candidate Will Win In '32 Election

WASHINGTON, Apr. 12.—(AP)—A flat prediction that a dry presidential candidate, if opposed by a wet, would meet defeat in 1932 was made yesterday by Mrs. Charles H. Sabin, chairman of the women's organization for national prohibition reform.

This statement clashed directly with the forecasts of women dry leaders meeting here, and was interpreted in some quarters as the start of a major engagement between women wets and drys.

Preparing for the second annual meeting here Tuesday of that organization, listed as representing 300,000 women, Mrs. Sabin said its members would not go to the White House, as did the women dry leaders, since President Hoover "repeatedly has said he opposed repeal of the eighteenth amendment."

Meantime, the woman's national committee for law enforcement, led by Mrs. Henry W. Peshady, concluded a three-day conference with a prayer meeting. At it prayers were offered for President Hoover and for "the misguided opponents" of prohibition. Leaders of the law enforcement committee, announced as an affiliation of organizations with a membership of 12,000,000 women, presented to President Hoover on Friday a composite report on prohibition. With it was a pledge of support for his stand on the dry law.

Mrs. Sabin in a statement declared that she would not attend the White House event.

Democratic Women Attack Raskob At Washington Parley

WASHINGTON, Apr. 12.—(AP)—Demand for the resignation of Chairman Raskob of the Democratic National Committee was made by Mrs. Jesse W. Nicholson, chairman of the national women's democratic law enforcement league in the keynote address before the biennial convention of the league.

Mrs. Nicholson said a title would be made to have organized democratic women desert the party unless a new leader was chosen. Officials of the league planned to go to interview Hoover shortly.

Following Mrs. Nicholson's address, an attack against Raskob was initiated shortly after the meeting convened by Dr. Jennie M. Callan, Omaha, who resigned as democratic national committeewoman in 1928 in protest against the Smith nomination.

Drys Score Victory As Illinois Vetoes Law-Removing Bill

SPRINGFIELD, Ill., Apr. 12.—(AP)—Governor Louis I. E. Emerson today vetoed a bill asking for the repeal of the Illinois search and seizure laws. The measure, which would have placed Illinois sixth in the column of States repealing their prohibition enforcement acts, had been enacted by the State senate by only two votes, the margin for more than two decades.

The senate has been traditionally dry while the House has passed repeal bills thrice.

In his veto message, the Governor said that efforts of the Illinois wets to strike all prohibition laws from the statute books was nullification.

ST. LOUIS, Apr. 11.—(AP)—The Cardinals and Browns, who returned home Friday from their long Spring training trips, practiced at Sportsman's Park yesterday, their final workout before the annual two-day city series, which starts Saturday.

Managers Gabby Street and Bill Killefer both were optimistic. Street declared his club was stronger than it was last season and Killefer expressed belief in his men and was confident they would play interesting baseball.

Street named Burrell Grimes as his starting pitcher against the Browns with Al Grabowski as reliever.

Anderson and Chevingny will do the latter work, and the problem of obtaining a man for the administrative end of the work is under consideration. Anderson and Chevingny hold one-year contracts signed before Rockne's death.

Father O'Donnell refused to discuss who is under consideration as athletic director, but reports persisted that Jesse Harper, coach at Notre Dame during Rockne's last two years, would be offered the place. Harper has been operating a ranch in Kansas since his retirement from football activities at the close of the 1917 season.

NORFOLK, Va., Apr. 11.—(AP)—The Giants and White Sox closed their annual Spring training tour in a state-wide Friday, each with seven victories, when the Sox walloped two New York York pitchers for 19 hits and won, 11 to 7. The rivalry will be renewed in games at New York Saturday and Sunday.

The White Sox bombarded Walker and his successor, Lucas, hard from the start. Six runs in the first inning practically saved it up for Donie Bush's men. Earl Fraser, Texas League recruit, kept the Giants well in hand until the eighth, when he was relieved by Moore. Ott and Leach homered for the losers.

ATHLETICS, CARDS PICKED TO WIN IN NATIONAL LOOPS

Associated Press Census Finds 1930 Winners Leading Poll

By ALAN GOULD, Associated Press Sports Editor.

NEW YORK, Apr. 11.—(AP)—The theory that one good term of office deserves another, the Philadelphia Athletics and St. Louis Cardinals, have been picked by the experts to lead the big league baseball parades again this season.

Tabulation Friday of the fifth annual census conducted by The Associated Press revealed the world's champion Athletics were the choice of 41 out of 64 sports writers to lead the American League race for the third successive year.

The Cardinals, with a slightly smaller but nevertheless convincing majority, were selected to win in the National League by 35 of 68 experts.

The ballots represent the opinions of the war correspondents associated with every major league club, as well as the judgment of other close newspaper observers.

As an indication of the belief that the races in both leagues will be closer, especially in the National, the favorites in the 1931 census received considerably less pronounced support than was the case a year ago.

The Athletics justified the choice of 60 out of 68 critics in 1930 but the Chicago Cubs, picked by 64 out of 66 to win, handed the experts a severe jolt. The winning Cardinals were selected in advance by only two observers.

This season's balloting has indicated Washington as the chief rival of the Athletics, with the Chicago Cubs and Brooklyn Robins picked to have the best chance of upsetting the champion Cardinals. The two New York clubs have been ranked as outside choices in each league.

Washington fooled the experts last year by finishing second after being rated seventh in the pre-season consensus. As a result the Senators were a strong second in this year's voting.

The critics have the support of 13 critics to win while Brooklyn has been selected by an even dozen. The Giants topped four lists, Pittsburgh and Philadelphia each one, although the latter vote may be thinking about the Athletics have been cast by an expert who instead of the Phillies.

Here's the order of finish predicted in each league by the consensus:

National—St. Louis, Chicago, Brooklyn, New York, Pittsburgh, Boston, Philadelphia, and Cincinnati.

American—Philadelphia, Washington, New York, Cleveland, Detroit, Chicago, St. Louis and Boston.

Maitland Golfer Is Winner Of Prize In Novel Links Event

F. E. Adams, former mayor of Maitland, led a field of nearly 50 golfers over the 18-hole Sanford Country Club course yesterday to win the first prize in the "backyard-played" tournament which, because of its novelty, was easily the outstanding event of the golfing year here.

Adams, playing with a handicap of 22, grossed a card of 94 to give him a net score of 72, earning for him the first prize. John Terwilliger, one of the crack players of the younger golfers, playing with a handicap of eight, grossed an 82, to give him a net score of 74, and second prize.

G. W. Spencer, young attorney, who has represented this city in various tournaments in the South-east with a trophy offered for low gross score. He carded a low gross of 79, which, with a handicap of 6, gave him a net of 73.

The tournament was played in the ordinary manner from the ordinary procedure. Instead of starting at 9 a. m. and playing through the afternoon, the gross score of that gross in the previous year was used as an handicap.

The net score to have been the most remarkable shot recorded in the tournament was Dr. A. W. Ryan's 10 in the sixth hole.

Walking Statistics For Various People Revealed In Survey

BOSTON, Apr. 11.—(AP)—Housekeepers yesterday walked nearly eight miles and did not leave their houses.

Conductors, without leaving their trains, plodded more than seven weary miles in their quest for tickets and a doctor traveled 16 miles of hospital time space on his errands of mercy.

Dr. Joseph Leonard, director of research for the National Association of Chiropractors, yesterday issued the results of a survey which showed these among other results.

The survey, based on averages checked up on the mileage of business men, children at play, waiters, policemen, letter carriers, dancers, salesmen and others.

The fact that the average business man walks farther than from Boston to New York every three or four weeks might explain why he is called the "tired business man," Lively said.

According to the survey, the girl at play walks 11 1-2 miles daily and the boy 15.

The farmer, behind a plow, walks almost 26 miles and the policeman patrolling his beat, traverses 14 miles of city pavement. The letter carrier walks 22 miles and the average sales girl eight miles.

Some of the other totals computed by the association showed: Salesmen walk 75 miles a week; department store buyers tramp seven miles a day; golfers doing 18 holes almost nine miles; steno-graphers, although they ride to and from work, walk 43 miles a week. The dancer dancing from eight to midnight, covers nearly six miles.

More Exemptions On Federal Taxes Are Recommended

WASHINGTON, Apr. 11.—(AP)—Increased exemptions to federal income taxpayers on earned income were recommended yesterday by the joint congressional committee on internal revenue taxation by its investigators.

"The present earned income relief can properly be increased somewhat on net income up to about \$28,000; no additional relief should be given on net incomes between \$28,000 and \$30,000, on net incomes above \$30,000 considerably more relief should be given," the report recommended.

It was submitted to Chairman Hawley of the house ways and means committee chairman of the joint tax committee, by H. H. Fisher, chief of the investigating staff.

Fisher said the report "was not prepared with reference to the present economic situation and therefore its publication should not be construed as indicating the practicability of adopting any of the suggestions contained therein in the immediate future."

The report said the 10 percent limit now applied to business profits in determining the amount

MASTER FARMER DIES

THOMASTON, Ga., Apr. 11.—(AP)—M. L. Hancock, Upson County commissioner and one of Georgia's twelve master farmers, died at an Atlanta hospital yesterday.

GUELPH TREASURE ON DISPLAY

CHICAGO, Ill.—The famous Guelph Treasure is now on display at the Chicago Art Institute here.

This remarkable group of religious relics has been owned by the German Duke of Brunswick since medieval times. It now contains over 70 pieces, some dating back to the 11th century.

Duke Henry, brother-in-law of Richard the Lion Hearted, started the collection with the bones of the Saints presented to him by the Emperor of Constantinople. Above is shown the Arm reliquary of Saint George, made at about 1376. This reliquary contains the arm bone of St. George the Martyr.

Cermak Continues To Sweep City Hall Of Thompson Men

CHICAGO, Apr. 11.—(AP)—Chicago's new mayor, Anton J. Cermak, spent his first full day in office lopping off appointments of his predecessor, William Hale Thompson, from the municipal payroll and promising to go outside the Democratic party if necessary to pick the "best possible cabinet."

The wholesale dismissal of temporary employes, begun Thursday as Cermak took over the reins of the city government, continued Friday. Nearly 3000 temporary appointees were discharged outright during the two days and the payrolls of 3000 more ordered held up until the work of each employe could be investigated.

Another crop of department heads were given enforced vacations, asked to resign or discharged outright. They included the superintendent of the water department, the head of the department of streets, the harbor master, the city engineer and the consultant engineer to the commissioner of local improvements. Their places were filled temporarily in most cases by the highest ranking civil service employes.

The mayor has made only one permanent cabinet appointment, Col. A. A. Sprague, as commissioner of public works. Cermak said he would not announce the rest of his cabinet until his formal inauguration April 22. He planned to leave Monday for a short vacation.

Walking Statistics For Various People Revealed In Survey

BOSTON, Apr. 11.—(AP)—Housekeepers yesterday walked nearly eight miles and did not leave their houses.

Conductors, without leaving their trains, plodded more than seven weary miles in their quest for tickets and a doctor traveled 16 miles of hospital time space on his errands of mercy.

Dr. Joseph Leonard, director of research for the National Association of Chiropractors, yesterday issued the results of a survey which showed these among other results.

The survey, based on averages checked up on the mileage of business men, children at play, waiters, policemen, letter carriers, dancers, salesmen and others.

The fact that the average business man walks farther than from Boston to New York every three or four weeks might explain why he is called the "tired business man," Lively said.

According to the survey, the girl at play walks 11 1-2 miles daily and the boy 15.

The farmer, behind a plow, walks almost 26 miles and the policeman patrolling his beat, traverses 14 miles of city pavement. The letter carrier walks 22 miles and the average sales girl eight miles.

Some of the other totals computed by the association showed: Salesmen walk 75 miles a week; department store buyers tramp seven miles a day; golfers doing 18 holes almost nine miles; steno-graphers, although they ride to and from work, walk 43 miles a week. The dancer dancing from eight to midnight, covers nearly six miles.

More Exemptions On Federal Taxes Are Recommended

WASHINGTON, Apr. 11.—(AP)—Increased exemptions to federal income taxpayers on earned income were recommended yesterday by the joint congressional committee on internal revenue taxation by its investigators.

"The present earned income relief can properly be increased somewhat on net income up to about \$28,000; no additional relief should be given on net incomes between \$28,000 and \$30,000, on net incomes above \$30,000 considerably more relief should be given," the report recommended.

It was submitted to Chairman Hawley of the house ways and means committee chairman of the joint tax committee, by H. H. Fisher, chief of the investigating staff.

Fisher said the report "was not prepared with reference to the present economic situation and therefore its publication should not be construed as indicating the practicability of adopting any of the suggestions contained therein in the immediate future."

The report said the 10 percent limit now applied to business profits in determining the amount

TRAVELERS ADOPT KNITTED WOOL

Knitted wool collars and cuffs worked in striped effect are features of traveling ensembles displayed by Idare at a spring fashion show in London. The ensemble at left corresponds to the coat trimming and the striped effects of both hats also carry out this theme. The wool used for the costume at right has an unusual finish, the one at left is a brushed type.

PARTY HINTS

Radio is no longer a "fad" but the idea can still be used for a charming party for your friends. You might arrange with a nearby broadcasting station to actually broadcast your invitation. A week before the date on which the invitation will be broadcast, write your friends simple notes, asking them to tune in on station at a certain time on that date.

If this cannot be arranged, write the invitations on white cards: "Station S-M-I-T-I-I is broadcasting a radio party on (date). Will you be one of the guest artists of the evening?" Decorate the cards with pen-and-ink sketches of broadcasting aerial masts.

Have someone who knows all the guests act as announcer for the evening. Station him near the door and have him introduce each guest as he arrives, giving an amusing quip about each person. This saves the formality of introductions and gets the party started.

THEY MATCH

This fashion for allying hat and scarf has been noted several times recently, in Paris. The hat to type cap lends itself especially to this mode, it is observed.

George A. Speer, who has been ill at his home on Park Avenue, is recovering nicely.

Tomorrow: Broadcasting at your party.

Mrs. H. L. McElvey, who has been the guest for several days of Mr. and Mrs. Maurice Zelmenovitz, San Lanta, Apartments, returned to her home at Pulham, Ga. yesterday.

Beautiful European Actress To Be Seen In Picture At Milane

"Body And Soul" forthcoming Fox Movietone drama, will serve to introduce Elissa Landi, beautiful European star to the American screen public. That she will succeed there can be no doubt, because of her already established reputation on the European screen and Broadway stage.

No actress from abroad has ever come to this country acclaimed in the flattering terms that accompanied Miss Landi. New York critics, too, have added their united endorsement of this beautiful and talented girl for her performance in the Broadway production, "A Farewell To Arms."

Charles Darnton in the New York Evening World said of her: "An English actress, Elissa Landi, achieved a beautiful, courageous and truly moving performance."

Robert Colman stated in the Daily Mirror: "Elissa Landi an English, impersonation made a most impressive debut. She has beauty, power, poise."

Said Ralph Leonard in Life: "When it comes to Elissa Landi, words fail me. She is the loveliest creature you will see in many a season."

Similar words of praise were written by Burns Mantle of the New York Daily News, J. Brooks Atkinson of the New York Times, and Percy Hammond in the Herald Tribune. No critic overlooked her and her performance.

In "Body And Soul," opening Tuesday at the Milane Theatre, Miss Landi plays, opposite Charles Farrell, who needs no introduction to screen audiences. They recently voted him "King of the Movies" and he showed his appreciation by thrilling them with his performances in "Lillom" and "The Man Who Came Back."

Are Sin, Disease and Death Real?

The Golden Text was from Deuteronomy 10:17. "The Lord will take away from thee all sickness, and will put none of the evil diseases of Egypt, which thou knowest, upon thee."

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "Behold, there was a woman which had a spirit of infirmity eighteen years, and was bowed together, and could in no wise lift up herself. And when Jesus saw her, he called her to him, and said unto her, Woman, thou art loosed from thine infirmity. And he laid his hands on her; and immediately she was made straight, and glorified God" (Luke 13:11-13).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "The human mind, and the human soul, are not created by God, nor belong to His government. His law, rightly understood, destroys them. Jesus furnished proofs of these statements" (p. 478).

A DISH A DAY

Children's Lunches
 Getting the needed nourishing qualities into the school child's lunch box, and at the same time providing him with things he finds in sufficient variety, day after day, are often factors that perplex mothers.

The most popular and most successful items in the school lunch box are sandwiches and fruit and cereal. Bread with it is a must, and, which includes the most important element, which most children like, is milk.

For the most part, the school lunch box is a simple one, and the mother who can prepare it with a few minutes' time, will find it a most satisfactory one.

in cash Saved for Floridians by motor buses in 1930

MORE than half a million dollars cash was saved for this state by motor buses last year! This is the sum Floridians actually put back into their pockets, because motor bus fares are so much lower than those of other travel methods.

And that isn't all. While saving travelers all this money, Florida bus lines paid 13.54 per cent. of their gross revenue back in taxes as compared to 5.3 per cent. paid by the next highest taxpayers, the railroads. Each bus paid 3.5 times as much for the building and upkeep of public highways as the average motor vehicle tax.

The National Automobile Chamber of Commerce says, "The motor bus pays 41 per cent. of the maintenance cost of highways it uses." Think of it... almost half! Yet there is only one motor bus to 923 other motor vehicles.

What other transportation can serve this state so completely and conveniently as the motor bus? No other schedule so frequent—no other fares so low—no other service reaching to every little town and community, as well as to each big city.

Experts say that the motor bus is the greatest travel factor in the up-building of the South. And it takes a burden of road upkeep expense off the taxpayers. Can anything be more far than this?
