Skylab 2 Astronauts Return Today

SPACE CENTER, Houston (AP)-Skylab 2's astronauts boarded their Apollo ferry ship today and prepared to fly home from man's longest

Because of leaks in two of four steering engines, they'll guide their Apollo with a new and tricky firing technique as they head for a late afternoon splashdown.

Alan L. Bean, Owen K. Garriott and Jack R. Lousma are returning from a 591/2-day journey during which they traveled more than 24 million miles and gathered a wealth of scientific data about the earth, sun and man himself.

The astronauts spent most of the morning

Trio Uses Tricky Technique To Guide Apollo Home From Man's Longest Space Adventure

closing up the laboratory, setting it up for a visit from the Skylab 3 crew starting Nov.11.

Then all three slipped through a connecting tunnel into the Apollo, linked to one end of the house-size Skylab station. They closed off the tunnel hatch and carefully checked the systems of their ferry ship.

National News Briefs

Astronauts Coming Home

SPACE CENTER, Houston (AP) - Skylab 2's astronauts return from man's longest space adventure today, guiding their slightly disabled Apollo ferry ship back to earth with a tricky firing technique. Alan L. Bean, Owen K. Garriott and Jack R. Lousma are returning from a 59½-day voyage during which they traveled more than 24 million miles and gathered a wealth of scientific data on the earth, sun and man.

Prices Expected To Fall

CHICAGO (AP) - Although meat industry officials predict meat prices will fall substantially in the next few weeks, they say consumers should realize that low prices of past years are gone. Industry leaders said consumer awareness is one factor that will determine the supply and cost of meat in the future. Tray predicted that meat prices will remain lower than recent summer highs for the remainder of the year.

Morton Urges Rationing

GLENEDEN BEACH, Ore. (AP) - Interior Secretary Rogers C. B. Morton says he is urging President Nixon to ration heating oil this winter, but even if he does "there are going to be people who are going to be cold." Morton was joined in his call for the rationing of heating oil by John A. Love, Nixon's special energy adviser. They appeared before the Western Governors Conference.

Sister To Join Brothers

DENVER (AP) - The only girl among the five surviving Stanek sextuplets had her hair shampeoed and is preparing to join two of her brothers in diapers, doctors said. Four of the five 9-day-old babies are in good condition, and doctors believe all five are "out of the woods" as far as their health is concerned. Their mother, Edna Stanek, is about to go home from the hospital.

Pension Retorm Outlook Bright

WASHINGTON (AP) -- Prospects that Congress will complete action this year on a pension reform bill have brightened after plans for House consideration were speeded up. The acting chairman of the Ways and Means Committee Rep. Al Ullman, D-Ore., told his colleagues Monday that the committee will begin work on private pension reform next Monday. Ullman said the committee will start work with the bill passed last week by the Senate and attached as a rider to

This measure, designed to guarantee that participants in private pension plans actually receive benefits when they retire, provides for full vesting of pension rights after 15 years, government insurance of plans against pension fund failure and tax incentives for personal retirement systems

Ullman told reporters arrangements are being made to coordinate his committee's consideration of the bill with the work already done by a House Education and Labor subcommittee on a separate measure of its own. Some supporters of pension reform legislation had feared a jurisdictional clash between the Ways and Means Committee and the subcom nittee headed by Rep. John H. Dent, D-Pa.

Ullman said the Ways and Means Committee intends to open the way for work on pension legislation by completing its major decisions this week on the trade bill that has occu-

"It may take night sessions, but we'll do it," Ullman said

'Foreigners' Ruin Rich U.S. Fishing

Copley News Service

GLOUCESTER, Mass - Georges Bank, a great ocean shallows just to the east of Cape Cod. was once one of the world's most productive fishing grounds, yielding huge catches of had-dock, cod, flounder and other food fish.

Today, this once-rich area is a glaring example of man's blind greed and disregard of conservation needs and basic economies. Some of its fish resources are close to extinction and others are seriously threatened as the relentless nets keep sweeping across the sandy ocean bottoms, seemingly intent on working until the last fish is caught.

For more than 200 years Georges Bank was almost an American preserve, providing a livelihood to hundreds of fishermen of Boston. Gloucester, New Bedford and other New England fishing ports. Canadians also did some fishing there.

There seemed to be no end to the productivity of of this huge ocean "pasture." Decade after decade of American fishermen worked the grounds without any indication that the resources would give out.

And then came the foreign fishing fleets, intent, it seems, on netting everything that can be taken and then moving on to another area if, indeed, there are any such grounds still left anywhere in the world to exploit.

These scout ships reported abundant stocks of haddock, cod and flounder as well as whiting

Other Thoughts

Narcotics traffic probably has taken a greater toll in New York City than anywhere in America. It is the major factor behind a shameful crime rate. It helps perpetuate a huge welfare burden. With an addict population estimated as high as 300,000, New York provides a grim example of how drugs can change the character of an entire city.

Walls of Ivy

The new bumpers somewhat lacking By Don Oakley

Those give-and-take bumpers required by federal stand-ards beginning with 1973 cars are resisting damage, but not to the extent hoped for.

That is the conclusion of a study — the first to monitor the effects of safety and damageability standards on accident costs — submitted to the National Highway Traffic Safety

The study by State Farm Mutual Automobile Insurance Co., the nation's largest car insurer, was based on a threemonth compilation and comparison of some 1,600 claims involving groups of 1973 and 1972 models. It found that the '73s were less frequently damaged in front and rear collisions, but there was very little reduction in the average repair

Principal findings of the study:

- Compared to 1972 models, 1973 models had fewer cases of front and rear damage. Replacement frequencies of certain major components, including front and rear face bars and grilles, were signifi-

cantly lower for the 1973 models. - Nevertheless, average repair costs were about the same or the two years: \$290 for 1973 models vs. \$295 for '72s. complex and costly design of bumper systems to meet federal standards. Prices for virtually all 1973 bumper replacement components increased over 1972 prices — in one case from \$138.10 to \$306.65 for a complete front bumper.

Senator would end

foreign police aid

By Ray Cromley

Sen. J. W. Fulbright. D-Ark., is at it again, attempting to

end American aid and instruction to foreign police. He

those who seek to identify the United States with every act

of police brutality in countries where the program operates.

This is cowardly retreat. In many countries police have little regard for human rights. If U.S. economic aid is to mean anything, and if we are to help foreign developing countries in ways which will make for a world of the type in which we and almost all other human beings wish to live, then we must use whatever influence we can on national police departments.

This is a slow, difficult 2sk. The way to measure progress

Begin with Chief Isadoro Relative, Nabua Police Department, the Philippines, a graduate of the U.S. International Police Academy. On his wall is his objective (taken from AID), 'To the man on the street, the police are the govern-

is to note here and there a shift in police attitude.

Some of the possibilities are superpure crystals which could perform as many as 750,000 functions compared to the present 200 in a pocket calculator; tiny television cameras that would operate without lights; steel up to 1,000 times stronger; jet engines that could run at higher temperatures, giving more power with less pollution; the efficient conversion of solar energy to electricity

By studying how molten materials cool in space, scientists

believe they may learn how to construct materials on earth

of such purity that their strength and reliability would be

increased vastly beyond present standards.

According to one scientist, Dr. Harry C. Gatos of Massa

chusetts Institute of Technology, the ultimate impact of con-trolling the chemical composition and structure of materials "is beyond the most far-out science-fiction type of imagina-

ment. When the police are fair, the government is just. When the police are competent and compassionate, their government is efficient and humane."

Some 7,500 foreign police have been trained in the academy. Since 1954 the Office of Public Safety has given assistance to 52 countries. Eighteen nations now receive this aid. There have been some modest results in curbing corruption. In Zaire, 11 out of the top 14 police administrators are graduates of the AID International Police Academy. Early this year these officials issued three direct anti-corruption warnings, then took several hundred offending policemen to a remote area in the bush where they worked eight hours a day in the polling sup building a village and spent the even day in the boiling sun building a village and spent the eve-

In the Philippines, OPS helped develop guidelines for a police inspection-audit division. In Laos, OPS assisted in creating an inspector general office. With OPS assistance, several Latin nations have adopted inspection systems. signed to weed out corrupt officers.

Ten years ago, the police approach to demonstrators and rioters in many countries was fixed bayonets. Non-lethal tear gas is being substituted in AID-assisted nations. In Ecuador's El Oro Province, when a student strike esca-

lated into violent mob action, the restraint of the National Police was so marked the students themselves published a handbill praising the officers for their attitude. In Jamaica, Guatemala, Colembia and Venezuela, recent demonstrations and riots have been controlled more effectively with less injury and loss of life to rioters and demon-strators than in the past.

BERRY'S WORLD

"Since the Arabs are making it tough to buy their oil, we ought to hit 'em where they live, and make it tough for them to buy Cadillacs and Lincolns."

According to Dr. Wayne W. Sorenson, head of State bumper standard being considered by the Department of Transportation promises more savings, as well as safety, to the American motorist.

This proposed standard would prevent damage to any part of the car in low-speed crashes. The present standard applies only to safety-related parts, such as lights, brakes and other systems necessary for safe operation of the vehicle. Big discovery by Skylab

One of the most important results of Skylab II, in terms of future life down here on earth, may have been a simple experiment conducted by the crew of the orbiting laboratory. Using a special furnace, Capt. Alan L. Bean, Maj. Jack R. Lousma and Dr. Owen K. Garriott melted parts of two crystals, then allowed them to cool and reform into new crystals.

CYPRESSES are reflected in the still morning waters of Lake Monroe. Later in the day the trees will provide shade for fishermen who favor this secluded spot.

Her cool dude cools it when it's a family affair

By Abigail Van Buren

DEAR ABBY: I met a really cool guy who travels, and he makes this town once every two weeks. Tex and I dug each other right away, and I might as well tell you we ended up at his motel on the second date. Every time he'd come to town, we'd go to his motel. I really grooved this dude, Abby. He even told me he loved

Well, imagine how hurt I was when I found out his prother got married right here in this town last week and Tex took another girl to the wedding.

Wouldn't you think if Tex liked me well enough to have me at his motel every time he got to town he should have asked me to that wedding? Should I ask him how come I'm good enough to go to

bed with, but I'm not good enough to take to a family DEAR HURT: Don't ask him any questions. The an-

swer is obvious. Just because a man says: "I love you," doesn't mean be means it, And doesn't the fact that he took another girl to a wedding where his friends and family would be present tell you something?

DEAR ABBY: There is a poem by Ogden Nash that I would like to find, but all my efforts led me nowhere. It goes something like this:

"He drinks because she nags, he thinks. She nags because he drinks, she thinks."

Then it goes on to say that: "In fact, he's a sot and I am going crazy trying to track it down. Can you help

AVID CHICAGO READER DEAR READER: My reference library contains 15 volumes of Ogden Nash and I can't find it either. But I'll bet one of my readers out there can.

DEAR ABBY: My pet peeve is the way some daughters in law pick on their mothers in law. I refer to that silly crab who griped because her mother in law always got to sit next to her son [daughter in

law's husband] when they rode in the car. She wrote: "As my husband opens the car door for us, step back and let his mother get in first. This puts her

want to sit next to your beloved. He can then help his other in, and close the door. This puts his mother on the utside, next to the door, which is really the best spot ecause then she can view the scenery, and isn't squeezed tween two bodies with nothing to look at but the hood of the car and the pavement ahead.

More power to you! Me? I'm a mother in law, and refer to sit near the door and let my daughter in law sit I've noticed, too, that after a mother in law becomes a grandmother, she no longer is despised, but suddenly becomes a wonderful baby sitter. What a difference a child

Just wait, young wives, one day you'll become mothers in law, too. And then God help you! NORTHERN CALIFORNIA GRANDMA

FORECAST FOR WEDNESDAY, SEPTEMBER 26, 1973

CARROLL RIGHTER'S

GENERAL TENDENCIES: After some delays and obstacles in a.m., you find yourself later very much in tune with those you like and able to handle ARIES (Mar. 21 to Apr. 19) Handle personal affairs early so

you can later sit down with an associate and plan future operations. Some civic venture could prove helpful, TAURUS (Apr. 20 to May 20) Make everything around you

more artistic and charming, functional. A co-worker could prove difficult early, but later cooperates GEMINI (May 21 to June 21) Not good for financial things,

but excellent for the personal. Put your finest talents to work. Don't permit another to step all over you. MOON CHILDREN (June 22 to July 21) Listen more to what kin have to suggest, since your ideas are a little off now.

Take care of basic matters and show your practical side. LEO (July 22 to Aug. 21) You feel below par, but perk up and you get much accomplished. Talephone friends, visit, and make business calls in person that can be profitable. Entertain

VIRGO (Aug. 22 to Sept. 22) You are bent on getting financial affairs handled well: Don't permit some emotional individual to waste your time. Cut expenses with improved LIBRA (Sept. 23 to Oct. 22) You are charming, magnetic

and can accomplish much both in business and socially, so get at work and play early. Evening is particularly happy SCORPIO (Oct. 23 to Nov. 21) Go along with present set-up, as untried ventures could lead you into real trouble.

Any data available gives you understanding SAGITTARIUS (Nov. 22 to Dec. 21) Be with good pals who are helpful and become a happier person. Discuss future

goals and get their advice. Don't overspend. CAPRICORN (Dec. 22 to Jan. 20) You can certainly get the backing now from higher-ups you need for career purposes. Be active in civic affairs. A blunt person is really your best friend. AQUARIUS (Jan. 21 to Feb. 19) Show new contacts you

are willing to help them socially or in business and gain their goodwill. Meet with individuals of different background from

PISCES (Feb. 20 to Mar. 20) Use intuitive faculties to accomplish much Don't go off on fun tangents that could be costly and upsatisfactory. Enjoy good friends in p.m. One of those young people who is naturally conservative, but of Blackwood was probably worked out by the Italian blue

has the wisdom to know with whom to ally self for tome mutual activities that are profitable. Will get an early start in making money. Teach early to control the emotions, otherwise the fine promise here will be lessened causing unhappiness.

Teach cleanliness while young, and give good religious training in the home.

team. They used five clubs to show zero or three aces; five diamonds to show one or four, while five hearts and five spades each showed two aces, but with special meaning as to which were shown.

A-Pass. Your partner get into the act.

Teach cleanliness while young, and give good religious training in the home.

Hinders Cleaning

By POLLY CRAMER

The party was held at the Bowes home 2827 South Park Ave., Sept 15 from 4 to 6 p.m. All guests invited to attend will be attendants or members of the wedding party or serve in some capacity at the reception. In iddition to the social hour logether the purpose of the hostesses was to have all those taking part in the wedding meet Debbie and Rick and get

acquainted with each other. A blue and white color theme was used in decor (the chosen colors of the bride-elect.) The refreshment table, overlaid with a white linen cloth was highlighted with a large cake iced in white and decorated with blue roses and the inscription "Much Love and Happiness Debbie and Rick." Fruit punch, assorted finger with a silver tray. They also presented Debbie with a red tipped white carnation corsage

Arrests For Littering

Sanford Police Chief Ben Butler today said if the litter situation along the Lake Monroe seawall isn't improved his department would be making arrests within a week.

The statement came on the heels of a growing concern by Butler and residents who voiced concern about debris and unwanted fish left lying along the grassy portion just behind the seawall that runs the entire length of the Sanford portion of the lake.

Arrest and conviction carries up to a \$500 fine, Butler said.

In order to catch litterers, Butler said he would have personnel from his department carry on a surveillance of the area.

"If the situation continues," he added, "We

pass an ordinance prohibiting fishing along the

"It's not visitors, or out-of-town people, doing the littering," Butler said. "It's Sanford

might have to go to the city council to get them to

people, who should know better. It's like leaving garbage inside your bedroom."

People have even fished past the Mellonville Avenue part of the seawall and left dead fish in residents' lawns, he said. Butler admitted a conviction on littering is

hoped the threat of arrest would make local anglers more responsive to picking up after "What do tourists think of Sanford when they

an extremely hard one to get, but he said he

drive down our lake and see all that trash," he

The situation, which has grown over a long period of time, he feels, has come to a proportion that is no longer acceptable

Currently many local fishermen who utilize the seawall are the subsistence kind of fisherman-those who use their catch to supplement their diet-and either arrest or closing off the seawall to fishing could come as a serious blow to them, he added.

Agnew After Full Probe, Impeachment Considered

WASHINGTON (AP) - Spiro T. Agnew has asked the House of Representatives to hear his case against allegations of political corruption, contending the Constitution forbids criminal actions against him while he is vice president. What action the House might take on Agnew's

request remained unclear. Leaders said such an investigation might be made by a House committee, but would not rule out the possibility of a hearing through impeachment procedures or even a rejection of Agnew's request.

Agnew asked for the House investigation Tuesday after secret negotiations between Ag-

new's lawyers and Justice Department officials broke down and Atty. Gen. Elliot L. Richardson announced he had authorized a federal grand jury in Baltimore to begin hearing the Agnew case Thursday.

President Nixon, who met with Agnew Tuesday morning, said the vice president had again personally assured him of his innocence of any wrongdoing. Nixon issued his strongest statement of support for Agnew since the investigation of the vice

president was announced nearly two months Agnew requested the Capitol Hill hearing in a

letter that he hand-delivered to House Speaker Carl Albert. Agnew then met for more than an hour with Albert and other House leaders.

"After the most careful study, my counsel have advised me that the Constitution bars a criminal proceeding of any kind ... against a president or a vice president while he holds office," the Agnew letter said.

"Accordingly, I cannot acquiesce in any criminal proceeding being lodged against me in Maryland or elsewhere, and I cannot look to any such proceeding for vindication. In these circumstances, I believe, it is the right and duty of the vice president to turn to the House.

SEPTEMBER 27-28, 1973

HEBREW DATE: TISHRI 1, 5734 The Menorah (the seven-branched candelabra) and the Shofar (ram's horn) are two of the best known symbols in Jewish tradition. The blowing of the ram's horn symbolizes God's summons to the people for self-judgement. The sound of the Shofar heralds Rosh Hashanah—the Jewish New Year. This scripture from The Living Bible is the authority for observance of Rosh Hashanah.

to meet together for worship; it is a time of remembrance, and is to be announced by loud blowing of trumpets. Don't do any work on the day of the celebration, but offer a sacrifice by fire to the Lord." (Leviticus 23:24-25) Now the Lord said to Moses, "Make two trumpets of beaten silver to be used for signaling the breaking of camp. When both trumpets are blown, the

"The first day of the seventh month (of the He

brew calendar) is a solemn time for all the people

Use the trumpets in times of gladness, too, blowing them at your annual festivals and at the beginning of each month to rejoice over your burnt offerings and peace offerings. And God will be reminded of his covenant with you. For I am Jehovah, your God." (Numbers 10:1-10)
