Chinese Reds Claim Defeat Of Nationals

American Crewman Of Liberty Ship Are Reported Seized By Chinese Communists

CHUNGKING, Nov. 7. (AP)—Chinese communists declared today their forces had decisively defeated 70,000 government troops in fighting along the Peiping-Hankow railroad. They said the government troops consisted of eight divisions including three "equipped with American arms and noted for their combat powers." If true it meant the movement of Chang Kai-Shek's armies along the railroad toward North China and Manchuria has been smashed.

In Shanghai the reported seizure by Chinese Communists of several American crewmen from a liberty ship in the Chinwangtao area today brought a prompt news blackout at U.S. Army headquarters here. Officials refused any news of the presence in North China of American Marines and the operation of several Liberty ships, arousing resentment among the communists.

The Japanese operated the Saito Tomas civilian prison camp under a "planned program of starvation" for the 4,000 prisoners, Magistrate Editor V.H. Hancock testified in Manila today at the war crimes trial of Lt. Gen. Yamashita. He said the camp's Jap commander refused to hear the internees' complaints because, he said, Japan had a "convention" which testified that "recognition of Geneva Convention" permitted "wholesale brutality" by its command.

American Marines sitting in North China will go home, presumably on the bid of something, probably by Dec. 5, unofficial Tientsin reports said today—leaving China's sprawling Communist and government forces to make their own peace or fight their own war.

At Canton, China, it is believed that any moment, and there was evidence that American military leaders also are increasingly concerned about the possibility of all-out civil war. Lt. Gen. Albert W. Whelan, returning from Washington to his China command, flew to Peiping first, to confer directly with his field commanders in the North China trouble zones.

He reportedly was informing them of official War Department policy. That American forces will take no active role in China's internal strife.

C. Of C. Studies Work Will Start Plans For Use Of Soon On Platform Naval Air Station At State Market

The ultimate disposition of the Sanford Naval Air Station and the plans for the use of the station as a center for the training of returning veterans will be the principal topics discussed at a meeting of the board of directors at the Chamber of Commerce here today. The meeting was presided over by President H. H. Coleman who said that the government looks with special favor upon projects designed for the utilization of Army and Navy installations either as health or educational centers and he said that the outlook is particularly good at this time for the conversion of the Air Station into a special training institution for returning veterans.

Herman Morris reported on progress being made at the Seminole High School toward providing special classes for returning veterans in which both Army and Navy installations are being used. He said that at present there are 12 Sanford boys being given special instruction between 4:00 P. M. and 6:00 P. M. in order to enable them to earn credits toward high school diplomas and that there are 22 boys at the Navy Station prepared to take these courses.

T. W. Lawton reported on the increase in the number of local firms filing applications as training agencies for veterans in special vocational work wherein the government supplements the pay a veteran receives while learning a trade until he has finished his apprenticeship. He urged other firms to file applications for certification as training agencies.

Manager Ed Higgins reported on plans designed for welcoming war veterans at home. He said that the City and County Commissions have agreed to co-operate. The Governor and other state officials would be invited to be present. There will be a parade with special floats arranged by the merchants. Boat races will be held and a huge barbecue will be provided for the public. President Coleman said he would appoint a committee to fix the date of the event and arrange the details.

At the recommendation of Senator L. F. Boyle a resolution was adopted approving the Canal Authority when it was pointed out that it would not conflict with Sanford's river plans and might actually benefit this program. Senator Boyle also reported on Seminole County roads now under construction with particular reference to Highway No. 44, the route for which through Sanford has been turned over to the State Road Department for selection.

President Coleman suggested that among the projects which should be pushed in the near future is the further development of the Big Tree Park near Longwood which he declared was one of this county's biggest natural assets. He also pointed out the possibility of having a statewide bridge tournament held here which would attract between 125 and 150 participants for the three day period.

J. L. Ingle presented the treasurer's report. Manager Higgins read the minutes of the last meeting. And Georges Touhy reported on the recent Navy Day dinner.

ALTHOUGH HIS B-29 FAILED TO BREAK THE non-stop trans-continental speed record, Lt. Gen. James H. Doolittle (right), his wife—a passenger on the plane—and his pilot, Maj. J. Lawrence Smith of Fresno, Calif., arriving in Washington from Oakland, Calif., manage smiles for the cameramen. The Army Air Transport Command described the flight as probably Doolittle's "last public flight."

WASHINGTON, Nov. 7. (AP)—The Washington taxi drivers' strike on the transit strike probably settled the wage dispute. Production was halted at two main plants of the Goodyear Tire and Rubber Co., in Akron, O., as workers refused to pass the picket lines in a dispute involving work schedules of 1,400 maintenance workers and engineers.

A surprise strike of AFL transit workers set Washington thousands literally lack on foot today and heels yesterday.

It was a walk, thumb a ride or stay home for most of the 1,500,000 daily fare payers of the Capital Transit Company. Some managed to squeeze into cabs crowded even under normal conditions. Others were called for by company vehicles.

A U. S. Conciliation Service commissioner was assigned to the wage dispute but he had no authority to act until both the company and the union agree to work with him.

Other prime labor developments included:

- John L. Lewis won a fight for representation of his miners in the key executive committee of the National Labor Management Conference.
- The Ford Motor Company hiked its hiring wage rate and denied a CIO United Automobile Workers' claim that the change meant a revision of Ford policy.
- The number of workers at the job because of strikes totalled 208,000.

The Washington strike started without warning as many riders waited patiently at stops for buses and street cars that never appeared.

Taxi Drivers In Washington Hint Strike Capital's Workers Walk As Transportation Is Tied Up By Employees

WASHINGTON, Nov. 7. (AP)—The Washington taxi drivers' strike on the transit strike probably settled the wage dispute. Production was halted at two main plants of the Goodyear Tire and Rubber Co., in Akron, O., as workers refused to pass the picket lines in a dispute involving work schedules of 1,400 maintenance workers and engineers.

A surprise strike of AFL transit workers set Washington thousands literally lack on foot today and heels yesterday.

74 Jews Slain In Tripoli In New Clashes

BATAVIA, Nov. 7. (AP)—British and Indonesian Nationalists remained at odds today in their search for a compromise to end the bloody strife between the Jewish and Arab minorities. The Dutch offered a type of dominion status, but Indonesian leaders said they would accept nothing less than complete independence. Both sides are jockeying for the winning of world public opinion.

The British Ministry of Information announced today that 75 Jews and one Arab had been killed in anti-Jewish outbreaks in Tripoli. Troops and police in Tripoli were ordered to quell the disturbances and fire, if necessary, to disperse groups of more than five persons.

A number of Palestine policemen were stoned today in Tel Aviv when the constabulary reportedly tried to arrest an illegal Jewish immigrant from Syria, who was liberated by a crowd of several thousand.

In Batavia, Java, the Dutch disclosed today that Indonesian leaders indicated they would hold out for complete independence, which was nullified today despite a warning by President Sukarno of the "Indonesian Republic" to Acting Governor General Hubertus J. van Mook that it might result in increased tension.

Sukarno in a statement soon afterward made no direct reference to the Dutch proposals but declared "up until now there is no sign of the Dutch having other intentions than the realization of colonial slavery."

47 Ex-Supermen Discarded By Reds

Applications for state approval as training agencies for returning veterans have been made by 11 business firms within the county and by the Seminole County Institute, an organization recently set up by the County School Board to provide for general and vocational education of veterans and adults. It was announced today by Supt. T. W. Lawton.

Training periods for veterans as specified by the business firm applicants vary from one to four years.

Firms which have made application for this training are: Strickland-Morison Motors, Inc.—five auto mechanics, 24 months training.

The Lake Churn Fruit Company wants one citrus plant foreman (15 mos.) and a chief engineer for the ice plant (70 weeks).

The Mather Furniture Company of Sanford will train (24 mos.) one retail store manager.

Maffett's Auto Service will train a garage mechanic (24 mos.).

American Fruit Growers Inc. want a traffic manager (24 mos.) and a production manager (18 mos.).

Chase and Company will train a chief engineer for the ice and pre-cooling plant, a motor mechanic and a farm and grove equipment supervisor.

E. E. French will train a well driller (12 mos.).

Laney Dry Cleaners will train a man for general manager (18 mos.).

Hill Hardware Company will train a refrigerator repair mechanic.

Sanford Buick Company will train an auto mechanic.

Sanford Electric Company will train an electrician (24 mos.).

The Seminole County Institute will provide for training in general high school subjects (24 mo.); vocational agriculture (18 mo.); commercial training (18 mo.); and the following nine month courses: auto mechanics, aviation mechanics, photography, electricity and radio, carpentry and woodwork, and navigation.

It has been provided that the county superintendent shall recommend and the Board appoint a qualified director of the Institute, preferably a veteran of World War II.

The duties of this director will include counselling veterans on educational opportunities in co-operation with the county superintendent and job, and co-ordinating visitor and principals. He will also organize special courses needed by veterans, and will aid in securing on the job training agencies under the GI Bill of Rights.

Enrollments in the Institute will be accepted any time during the year. It was stated. Special courses will be offered, if requested by five veterans or more.

Special tutoring services will be available to veterans who are taking correspondence courses from the University of Florida and other courses. Tuition charges will be authorized for the special courses.

RELEASED BY THE RUSSIANS as unfit for useful work, these once-valued "supermen" of the Nazis vanished from the dreary front as officers even from prison camps, they trudge homeward through the British zone of Berlin—joining the German civilian population now about to face its first bitter winter of defeat and despair.

11 County Firms Comdr. Barkman File Applications To Train Veterans Of Navy Hospital

SEMINOLE COUNTY INSTITUTION FOR EDUCATIONAL WORK

Applications for state approval as training agencies for returning veterans have been made by 11 business firms within the county and by the Seminole County Institute, an organization recently set up by the County School Board to provide for general and vocational education of veterans and adults. It was announced today by Supt. T. W. Lawton.

Training periods for veterans as specified by the business firm applicants vary from one to four years.

Firms which have made application for this training are: Strickland-Morison Motors, Inc.—five auto mechanics, 24 months training.

Secrecy Urged On Atom Bomb By Churchill

LONDON, Nov. 7. (AP)—Winston Churchill today advised Britain's Labor Government against putting "pressure" upon the United States to disclose its methods of atomic bomb production. He also said Marshal Stalin "still strongly holds the helm and is steering his tremendous ship—the Soviet Union. Churchill opened the House of Commons first full dress debate on foreign policy since the Labor government assumed power.

Churchill expressed "the conviction that Soviet Russia would not share the atom bomb secret if she alone held it. He said, "any idea we are pursuing the anti-Russian policy or taking part in any coalition against Russia is thoroughly opposed to British thought and conscience." He expressed the hope England would adhere to the 12-point American foreign policy program outlined recently by President Truman.

Yesterday Foreign Commissioner Molotov, asserting in Moscow the atom bomb cannot be kept secret, promised Russians that the Soviet Union will have "atomic energy and many other things."

A signal bell had to be rung to quiet the tumult that welled through the hall of St. Andrew in the Kremlin when Molotov made this statement in his speech on the eve of the 28th anniversary of the Red Revolution.

Molotov said the use of atomic energy must not be employed in a political play for strength. He called for Allied control of Japan, and while he described the London foreign ministers' conference as a failure, he said "only the joint efforts of the three great powers" could "secure the victories of the democratic countries over fascism."

The United Nations, he asserted, must not become "the tool of any one great power."

Promises Atom Energy

On atomic energy, the foreign minister said:

"We desire that our nation shall become, and that there will be atomic energy and many other things."

"It is not possible at the present time for a technical secret of any great size to remain the exclusive possession of some one country or some narrow circle of countries."

"This being so, the discovery of atomic energy should not encourage either a propensity to exploit the discovery in the play of forces in international policy, or an attitude of complacency as regards the future of the peace-loving nations."

U. S. Army Captain Hears Account Of His Wife's Slaying

PONTIAC, Mich., Nov. 7. (AP)—Tall and erect Capt. Franklin Young of the Army Air Force heard with trembling lips and clenched fists yesterday the story of the slaying of his wife, Alberta Rose, attractive former war plant worker.

The doctor who arrived here after a busy flight from Paris to Washington and thence to Detroit, appeared near to tears after being informed by law officers of the tragedy which ruined his homecoming from overseas service.

The body of Alberta Rose Young, 33, a bullet wound in her head, was found in the Clinton River last Wednesday, and investigated here worked in vain to solve the mystery of her slaying. Her killer apparently had thrown her from a bridge.

Capt. Young said the first he knew of his wife's death was upon reading about it in the Army paper Stars and Stripes in France last Saturday. He told of having had "implicit faith" in her.

"I've had my own share of other since childhood," he said. "I sent her all the money I possibly could spare."

Withdrawals over the past years had reduced her balance to \$1.08.

RECESS DROPPED

WASHINGTON, Nov. 7. (AP)—House leaders said today plans for a legislative recess from Thanksgiving through New Year's have been dropped. It was not immediately clear what effect this might have on the Senate, which also had hoped for an extended recess. The chief reason is that Democratic leadership is determined to have a House vote on the full employment bill before it takes a holiday.

Army And Navy Are Still At War But With Each Other

WASHINGTON—The war appears to have developed the habit of aggression by both the U. S. Army and the U. S. Navy.

With war and they are now bickering over the issue of maintaining each other in the camps. Of course, but like two flat-topped gentlemen over the issue of consolidating the two services under a single department.

Foiling over this question has given rise to some of the strangest posturing seen in the camps in years. The generals are waging the admirals and the admirals don't like it.

The sailors are afraid they would lose their identity in a reshuffle for the Army is numerically superior.

The plan was first proposed by Army leaders, the Navy always proud of its ability in a fight, has been envious at it to discredit the project before Congress and the people.

Navy Living Ground

Present indications are that the naval supporters have been losing ground in recent weeks, and may soon be forced to drop their hard-fought tactics and bring their big guns into play.

They hope to slave off the consolidation plan they would have to have fast business bill for consolidation is already under consideration in the Senate Military Affairs Committee.

To date, every important general at the U. S. Army—Marshall, Eisenhower, Arnold and MacArthur among them—has backed the project. Such weight cannot be lightly set aside by Navy men.

The effect of this massive pressure on the legislature has been gradual, but pronounced. A resolution which demanded the Senate presently in opinion on the Army-Navy merger seems to have been unable to discover a single voice in opposition to the plan, although advocates were plentiful.

Four Supreme Court Justices have also given their support to the consolidation of the two services.

Directors Also Plan Celebration For Returning Veterans

The ultimate disposition of the Sanford Naval Air Station and the plans for the use of the station as a center for the training of returning veterans will be the principal topics discussed at a meeting of the board of directors at the Chamber of Commerce here today. The meeting was presided over by President H. H. Coleman who said that the government looks with special favor upon projects designed for the utilization of Army and Navy installations either as health or educational centers and he said that the outlook is particularly good at this time for the conversion of the Air Station into a special training institution for returning veterans.

Herman Morris reported on progress being made at the Seminole High School toward providing special classes for returning veterans in which both Army and Navy installations are being used. He said that at present there are 12 Sanford boys being given special instruction between 4:00 P. M. and 6:00 P. M. in order to enable them to earn credits toward high school diplomas and that there are 22 boys at the Navy Station prepared to take these courses.

T. W. Lawton reported on the increase in the number of local firms filing applications as training agencies for veterans in special vocational work wherein the government supplements the pay a veteran receives while learning a trade until he has finished his apprenticeship. He urged other firms to file applications for certification as training agencies.

Manager Ed Higgins reported on plans designed for welcoming war veterans at home. He said that the City and County Commissions have agreed to co-operate. The Governor and other state officials would be invited to be present. There will be a parade with special floats arranged by the merchants. Boat races will be held and a huge barbecue will be provided for the public. President Coleman said he would appoint a committee to fix the date of the event and arrange the details.

At the recommendation of Senator L. F. Boyle a resolution was adopted approving the Canal Authority when it was pointed out that it would not conflict with Sanford's river plans and might actually benefit this program. Senator Boyle also reported on Seminole County roads now under construction with particular reference to Highway No. 44, the route for which through Sanford has been turned over to the State Road Department for selection.

President Coleman suggested that among the projects which should be pushed in the near future is the further development of the Big Tree Park near Longwood which he declared was one of this county's biggest natural assets. He also pointed out the possibility of having a statewide bridge tournament held here which would attract between 125 and 150 participants for the three day period.

J. L. Ingle presented the treasurer's report. Manager Higgins read the minutes of the last meeting. And Georges Touhy reported on the recent Navy Day dinner.

Lehman Reveals Cost Of New Addition To Run Over \$14,000

Work is expected to start this week on the building of an eight stall additional platform at the Sanford State Market. The Ivey-Smith Construction Company of Jacksonville made a low bid for the work of \$14,420 and was awarded the contract for building the structure, H. J. Lehman, market manager, said yesterday.

The new structure will be built immediately west of the Sanford State Market, and will be adjacent to an Atlantic Coast Line siding where loading and unloading may take place, and on the South side, facing the market proper, will have a platform to serve trucks.

It is expected that the structure will be completed by Jan. 1, which is when vegetable shipping is at its peak. Mr. Lehman declared.

Citrus and mixed vegetable loads are now moving in increasing quantities from the market to northern markets. It is noticeable that incoming trucks are much larger and of increased capacity, also that local citrus packers are using trucks of larger capacity.

In this connection, Mr. Lehman pointed out the deplorable condition of the pavement of French Avenue which is daily growing worse under "the pounding" of heavy trucks which crowd this short cut on the way to Orlando. He termed an especially dangerous condition of the road immediately north of Twenty-Fifth Street.

The City of Sanford and Seminole County officials should take steps to have French Avenue resurfaced and widened, he said, and added that traffic demands on this route would be increasingly heavy during the shipping season.

Locally grown cabbage of good quality and quantity is being received in increasing quantities at the market and is bringing a price ranging from \$2.00 to \$2.25 a bag. Beans of fine quality are bringing a price of \$4.10 a bushel hamper.

A few tomatoes have lately been sold at the aristocratic price of \$8.00 a bushel and market men report that at Palmato the price recently paid was \$0.00.

Cucumbers are commanding a price of \$4.75 to \$5.00 a bushel, and peppers are bringing \$4.90 a unit. Squash is selling at \$2.00 to \$2.25 a unit.

A fine quality of English peas, locally grown here, were received lately at the market.

Mrs. Florence Thomas Died Monday P. M.

Mrs. Florence Elizabeth Thomas, wife of Howell Lester Thomas, died in a local hospital Monday afternoon at 5:30 P. M. She had been ill for a month, and confined to the hospital five days.

Born in Vincennes, Ind. Mar. 30, 1918, Mrs. Thomas had lived in Forest City for the past many years. She formerly lived at Paul.

Survivors include the husband; two sons, Edward and Allen Thomas of Forest City; stepfather and mother, Mr. and Mrs. Edward J. Haller of Longwood; two half sisters, Misses Patricia Haller and Annalee Haller of Longwood; one brother, John H. Gray, U.S.N. stationed in San Francisco.

Funeral services will be announced later, pending the arrival of the brother.

Teachers Are Invited To See "Wilson" Film

Supt. T. W. Lawton today announced that because of the great educational and historical value of the photoplay, "Woodrow Wilson," supervisors, principals and teachers of all schools in the county have been invited to be guests of the Ritz theater at the Thursday and Friday afternoon showings.

Supt. Lawton added that a special rate has been given to school groups for the photoplay, and that provision would be made to let pupils out of school earlier if necessary.

Miss Ruth Hand, county supervisor of education, declared that such pictures are a vital part of the educational system of today. She added that photoplays, however, would mean more to students if they were taught what to look forward to in a picture.

Trustees Are Elected In School Election

Two school trustees in the Sanford district, S. O. Chase, Jr. and John L. Galloway, were re-elected, and one new member, Mr. Rosamond Chapman, was elected Tuesday in the biennial election of school trustees, it was announced today by Supt. T. W. Lawton.

Voters numbering 93 favored a five mill levy for school purposes during the next two years, while three voters were in favor of other millage.

The County Board of Public Instruction will canvass votes of the other five districts of the County on Thursday, Supt. Lawton said.

Much more interest in the voting was evidenced by the 139 ballots cast as compared to 69 cast in the Sanford district two years ago, according to Mrs. Charlotte Watson, who served as clerk. Inspectors were Mrs. Amelia Noble, Mrs. H. J. Lehman and Mrs. Cassandra Schuchman.

Senator Pepper To Miss FEC Hearing

WASHINGTON, Nov. 7. (AP)—The office of Sen. Pepper yesterday announced it was the intention of the county superintendent to return to Florida on his official mission to this country in time to participate in the two scheduled hearings before the examiner in Washington, D. C. and West Palm Beach, Fla., in the case of the Florida East Coast railway reorganization.

However, additional reports received to the senator's literary overtures have made it impossible for him to return in time to participate in such hearings. Sen. Pepper plans to return here prior to argument before the Interstate Commerce Commission in Washington and to participate in that argument.

Boxing Tournament To Be Held Tonight

The sporting eyes of Seminole County will be focused this evening on the "battle of the century" when One-punch McGee, 198 pound winner of Goldadore faces in the ring none other than Slap Happy Carners the Georgetown midget.

The match is the main bout of the boxing contests sponsored by the Sanford Lion's Club, which start at 8:00 o'clock at the Lake Forest Park. Referees will be Chief Roberts of the Sanford Naval Air Station, and Joe Mass, chairman of the Lion's committee on boxing.

Special reservations have been made for colored people.

WEDNESDAY, NOV. 7, 1945

BIBLE VERSE FOR TODAY: NO ONE HAS FOUND ANY OTHER WISDOM AS SOUND AS THE KING OF THE SKY...

BAKACA BASKET WEAVER: BEAMED by the tiger claws of years, her face inscrutable and patient as a stone.

As we have repeatedly remarked before, "The Everglades of Florida stand ready and able to produce enough sugar to supply the entire nation for one month..."

Considerable agitation has been stirred up in this state looking toward the abolishment of "sweet boxes" in prison camps...

The suggestion of Secretary Schwillichbach that the unions should select Labor "ears" for the settlement of jurisdictional disputes sounds good...

We suppose most Americans today are pretty well convinced of the perfidy of the Japanese and do not need any special warnings on the subject...

The trouble about compulsory military training for the youth of America is that no two people think alike on what compulsory military training really is...

You'll never get held-up at the HILL HARDWARE CO. we pride ourselves on quality merchandise at unbelievably low prices.

Power Of Women

Launched on the globe is another force potentially as revolutionary as the atomic bomb for good or for evil. Possibly more so, for this power can control the bomb itself.

Added to these radical developments is the startling declaration of Pope Pius XII that "women have the strict obligation to enter public life, at least as far as voting is concerned."

Women will vote not as Catholics, not as French or Italian or Japanese nations. They will not even vote as women, but as world citizens.

Beyond all this, women can make peace pay. The world's creators of life, for ages its greatest consumers of goods, women have been an unorganized, inarticulate minority.

Human Progress

This is, to be sure, a very wonderful period of human history, when scientific discovery has so greatly enlarged the scope of human knowledge and our scientists even seem to be mastering the impost secrets of the universe.

Certainly we don't seem to be much better off essentially, in our minds and hearts and souls, than we were before we achieved such miracles of scientific progress.

It is a good time for men and nations to pull themselves out of this attitude, get a better grip on basic realities, and put more stress on human cooperation.

A Modern Lochinvar

Well, as we used to say, "you can't keep a good man down." Especially on a wedding trip, where he naturally wants to show the bride how enterprising and resourceful he is in emergencies.

So when Marine Capt. H.L. Kipp and the missus, on their honeymoon, suddenly discovered that they couldn't get their train reservations from Lafayette, Ga., to San Diego, Calif., and his time was running out, what did the resourceful bridegroom do?

It should be added, for the benefit of realistic inquirers, that the cabman's bill was \$760. And that probably cheap enough for something a fellow can brag about all the rest of his life.

Army And Navy Are Still At War But With Each Other

Some opposition to this plan has developed in the Military Affairs Committee, Active Chairman Edwin C. Johnson (D-Colo.) has made a counter-proposal which would authorize a department of military security with six branches:

- 1. The atomic bomb and its development, as well as the development of defenses against it, would best be handled by a unified command.
2. Scientific research and experiment would be aided by unified sponsorship and a free exchange of ideas.
3. Air power, now in a somewhat subsidiary position in both the Army and the Navy, would be raised to the status it deserves.
4. Coordination of air, sea and land forces has been demonstrated to be a necessity in global warfare. Where it was missing, the Army says, we came close to complete failure of operations (Pearl Harbor is cited as an example.)

The consolidation bill was proposed by Sen. Lister Hill, Alabama Democrat, and provides for a department of armed forces under a civilian secretary, aided by under secretaries for Army, Navy and Air.

When howling, one coyote may sound like an entire pack.

THE ANXIOUS SEAT

Days of Our Years (From The Saturday Review of Literature)

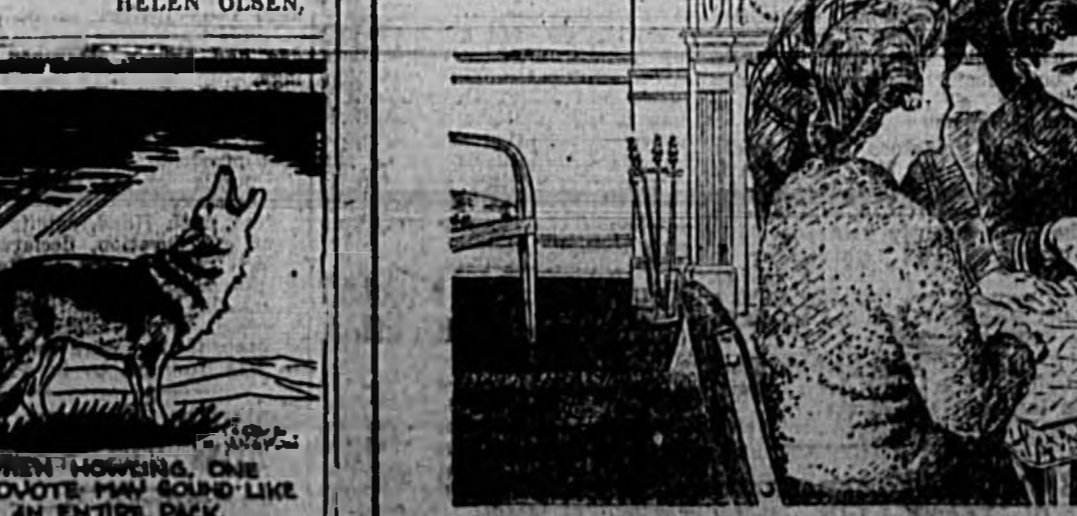

Children never dig their castles in the sand. Or touch with small pink fingers the cool skin of a gambet. Or let the couches whisper the faint din of unsexed seats, or send their walnut-shins across the scintillas of a dream-borne pinnet.

Message by Grape-Vine: Come, toss the dead vines on the fire. See how blazing bright they burn!

Clip short the vines of other years! New wood will cover up this place. (Cut from your heart, with pain and tears, The treasured words, the well-loved face.)

Sweetest fruits are always grown On wood which suffers chastening scars. (Mark well what vineyards long have known, That love can strengthen while it mars.)

Those who know the pruner's art Learn a mercy cold as steel. (Prune the old love from your heart - Let it bleed! It will heal.) HELEN OLSEN.

We're not howling about business... It's good. However, we offer this suggestion: Buy more Victory Bonds.

JUST A GOOD PLACE TO EAT. ROY JOHNSON'S RED BARN opening soon

WASHINGTON Report

Three First Ladies Meet Occasion Is Commissioning
Columnist Compares Them Of Carrier F D Roosevelt

By HELEN ESSARY
Central Press Columnist

WASHINGTON—I've a picture in my mind. A picture that will linger a long time.

I can shut my eyes now and see it. Three women sitting side by side. Three first ladies in a row. Vacant chairs to the right. Vacant chairs to the left.

Just the three first ladies who, having been escorted to the speaker's platform arranged on the deck of the U. S. S. Franklin D. Roosevelt, were waiting there until the president of the United States and other dignitaries should arrive for the official Navy day commissioning of the prodigious aircraft carrier.

Three first ladies. But three women, too. Three women whose husbands had been elected to the highest office in the world. And who, having reached this pinnacle, found himself possessed of gigantic power and the fears and hopes that power brings.

Quite unrelated temperamentally these first ladies. As unrelated, really, as their men. And yet all of them, the first ladies and their president-husbands, are sharply representative of that lubberly idealistic fumbling but triumphant piece of the planet earth we call America.

Mrs. Roosevelt sat first in the line of first ladies. It was "My Day" for her on the aircraft carrier. The ship was named in honor of her late husband and she was about to hear again the praises of his greatness.

She wore a black broadtail coat and a small black hat. She wore no flowers.

She had obviously declined the reception committee's surcease of gardenias, companion pieces of which were worn by the other first ladies. Her manner, as she shook hands with the rest of the official party when it arrived, showed that she appreciated the honor of the ship's naming. But she was not overwhelmed. It was her husband's due and her due, as his widow and a personality herself, to receive this national tribute.

Mrs. Truman WAS the first lady. She was her husband's wife and she loved her job. She wasn't thinking of herself as an individual, but as the wife of the president of these United States of America.

And wasn't it wonderful to have such a fine man for a husband! Really a kind, friendly woman, she was, as she always has been, a happy woman. She didn't think of concealing that delightful state of spirit as she sat on view on the speaker's platform at the commissioning of the big carrier.

Mrs. Woodrow Wilson, third first lady in the cluster of feminine champions, is of a different school of thought than either Mrs. Truman or Mrs. Roosevelt. A more aggressively feminine school. Edith Wilson controlled her man by a subtle round-about approach. Drove him with a loose rein.

None of the straight talking here and an appreciative laugh there that is Mrs. Truman's system with tight-jawed Harry. Nothing of the intellectual, or the to-tradition-born approach of Eleanor Roosevelt.

You recognized this attitude of Edith Wilson in her look. Extremely feminine and old school, the full soft fur collar of her coat, the soft blue of her hat, and the becomingly dotted black veil.

Not one of the three first ladies spoke the other's language. Or cared to learn its incomprehensible syllables and accents. They had little to say to each other on this their first joint meeting.

"How do you describe them?" I asked Miss Beth Joseph who sat near me.

"Well, let me see, now," she answered. "As a Marylander and thereby a horse racing addict I'd name them 'Win, Place and Show'."

Pearl Secrets Ordered Bared By President

Charges Of Political Considerations Defeating Work Of Probe Committee

WASHINGTON, Nov. 8. (AP)—The White House said today that President Truman has ordered that the joint Congressional Committee investigating Pearl Harbor be supplied any information it desires. A memorandum to Federal department and agency heads, as well as to the joint chiefs of staff, authorized all employees to give the committee any information of which they may have knowledge. It also authorized employees to come forward voluntarily if they are not questioned by the committee. His action came at a time when Republicans and Democrats on the committee were contending political considerations were impeding the value of the whole inquiry.

Prime Minister Attlee will be invited to address a joint session of congress next week, House Speaker Rayburn said today. No date was mentioned.

A figurative "man at work—don't disturb" sign was hung on "President Truman's office door. White House aides said the President is trying to clear his desk as much as possible of domestic problems so that he will be free for three-power discussions of atomic energy this week-end.

It was announced that he and Prime Minister Attlee of Great Britain and Mackenzie King of Canada are expected to meet at the Atlantic City Day-to-conference on the future use of atomic power.

The President said sometime ago that he would initiate discussions with Great Britain and Canada seeking to outlaw use of the atomic bomb and later take up the matter with other governments.

The President had only one yesterday, not counting attending the Atlantic City Day-to-conference on the future use of atomic power.

Mr. Frazier, celery grower, and a director and vice president of the Sanford Atlantic National Bank, has accepted the post of chairman of the Advance Christmas Seal sale sponsored by the Seminole County Tuberculosis and Health Association.

Mr. Frazier, in accepting the appointment said: "I see the practical need of our county for more of prevention and control of tuberculosis, and I will gladly give my time and effort to promote the seal sale, funds from which are planned to provide the erection of an isolation unit for persons in the county having tuberculosis.

"As I understand it," he continued, "there are now more than 40 new cases of tuberculosis in Seminole County which are unhospitalized, and more than 50 known suspects who are to be further examined to ascertain whether or not the disease is present.

According to Dr. Leland H. Dams, director of the Seminole County Health Unit, the figure is actually well over 100 tuberculosis who are in need of isolation and color picture.

"The Christmas Seal Sale Funds," he declared, "are also used to provide free X-ray examination for those unable to pay, and free milk for those tubercular whose income cannot provide milk."

Lt. McIntyre Back Home After 5 Years Service

Second Lieut. Stuart H. McIntyre, of the 11th Corps, 1104 Combat Unit of the 603 Engineers, has returned to Sanford after five years of service, two of which were spent overseas. He participated in the "June 7" Burma offensive, the invasion of the Rhine, and the Ardennes, Rhineland and central Europe.

He wears the Purple Heart decoration with two oak leaf clusters, and was wounded in action once in Holland and twice in Germany. His other decorations include: Bronze Star Medal, Good Conduct Medal, ETC. ribbon with one silver star, and Airborne, Victory ribbon and Pre-Pearl Harbor Ribbon. He is the son of Mr. K. H. McIntyre, Route 2, Sanford, N. Y., whose wife and son are in Newark, N. Y., where prior to entering the service he was in civil service work which he expects to resume.

Lt. McIntyre brought back with him many interesting souvenirs. These included coins of many European countries and of Asiatic countries which he had obtained by swapping with other collectors. He also has a little German coin of about the size of a dime, which he had dated 1885 clearly inscribed on it. He had completed a collection of English and Dutch coins.

Opening a small suitcase he showed a leather thonged "torque whip" with a short handle taken from a German woman over a prisoner, a solid silver plate given him at Saint Lo by a grateful liberated Frenchman, French flutes, Dutch shoes, and many German medals, decorations and insignia.

L. I. Frazier Named To Lead Sale Of Christmas Seals

Mr. Frazier, celery grower, and a director and vice president of the Sanford Atlantic National Bank, has accepted the post of chairman of the Advance Christmas Seal sale sponsored by the Seminole County Tuberculosis and Health Association.

Mr. Frazier, in accepting the appointment said: "I see the practical need of our county for more of prevention and control of tuberculosis, and I will gladly give my time and effort to promote the seal sale, funds from which are planned to provide the erection of an isolation unit for persons in the county having tuberculosis.

"As I understand it," he continued, "there are now more than 40 new cases of tuberculosis in Seminole County which are unhospitalized, and more than 50 known suspects who are to be further examined to ascertain whether or not the disease is present.

According to Dr. Leland H. Dams, director of the Seminole County Health Unit, the figure is actually well over 100 tuberculosis who are in need of isolation and color picture.

"The Christmas Seal Sale Funds," he declared, "are also used to provide free X-ray examination for those unable to pay, and free milk for those tubercular whose income cannot provide milk."

French Assembly To Take Over Business

PARIS, Nov. 8. (AP)—The dominant left-wing bloc in France's constituent assembly on Tuesday demanded sweeping nationalization of the nation's key enterprises as the newly-elected body took over the reins of government from General De Gaulle and started on a new constitution.

The demands were part of a broad program circulated at the initial session of the assembly by the Communist and Socialist Parties, which control a majority of the delegates.

The program called for labor sharing in industrial management, government-controlled foreign trade, progressive expropriation for natives of France's Empire, and nationalization of shipping lines, airlines, and other major Allied powers.

Nun Tells Of Jap Atrocities

A TENSE MOMENT IS PICTURED during the trial of Jap Gen. Tomoyuki Yamashita in Manila as Sister Anna De Jesus of St. Paul's College takes the stand. She told of seeing the bodies of more than forty persons strewn about the dining room and corridors of the college after the Japs had gone on a killing rampage. Signal Corps Radiophoto, (International)

Ford Workers Vote In Favor Of Striking

CIO Union Rejects Offer Of General Motors For Cost Of Living Wage

(By Associated Press) Labor disputes kept about 475,000 from their jobs today. A showdown in the CIO-United Auto Workers' demands for a 30 per cent increase was indicated as the union rejected General Motors' offer of a cost-of-living wage program.

Early returns from the NLRB election show 80,000 Ford workers show a heavy majority in favor of a strike to support their demands. The Dixie Greyhound driver and maintenance man dispute will be considered by a labor Board panel meeting in Memphis today.

General Motors Corp. yesterday offered a cost of living wage increase to its workers, and the CIO United Auto Workers union promptly rejected the proposal.

The corporation had formally and flatly rejected the union's demand for a 30 per cent wage rate boost, terming the demand "excessive." Instead, the corporation offered increases in classifications where, since 1941, wages have not been raised in proportion to the cost of living.

Walter P. Reuther, vice president of the UAW-CIO, declared that the union "flatly rejects the corporation's bribe offer because we will not be a party to any bargaining the American consumer."

He also said that the UAW-CIO delegation at union-corporation wage meetings, asserted at a press conference:

"The General Motors corporation, which has been on strike since V-J Day against labor government and the American consumer, today put in writing its previous offer to the union that we will not be a party to any bargaining the American consumer."

He said the UAW-CIO delegation at union-corporation wage meetings, asserted at a press conference:

"The General Motors corporation, which has been on strike since V-J Day against labor government and the American consumer, today put in writing its previous offer to the union that we will not be a party to any bargaining the American consumer."

The workers adjourned their "continuous" mass meeting after the union and the Capital Transit Co. agreed to begin negotiations today on their demand for a 30 cent hourly wage increase.

Chicago trolley operators in Washington returned to work yesterday after a 24-hour transit strike which reduced thousands of government workers to cash-and-carry transportation and caused the worst automobile traffic jam in the capital since the war.

The workers adjourned their "continuous" mass meeting after the union and the Capital Transit Co. agreed to begin negotiations today on their demand for a 30 cent hourly wage increase.

Talked To Labor - Management Parley Delegates

DELEGATES ATTENDING THE LABOR-MANAGEMENT CONFERENCE in the auditorium of the U.S. Department of Labor in Washington, D.C. were addressed at the parley's opening session by these representatives of labor, management, and the Government. The speakers are shown (seated, l. to r.): Secretary of Commerce Henry A. Wallace; Justice Walter North Carolina Supreme Court, who presided over the conference; and Secretary of Labor Lewis B. Schwellenbach. Standing (l. to r.): William Green, A.F.L. president; Eric Johnston, president of the U.S. Chamber of Commerce; Ira Mosher, president of the National Association of Manufacturers; and Philip Murray, president of the CIO. (International Soundphoto)

Russians Said Getting Out Of Manchuria

Central Government Admits Serious Reverses In Fighting With Communists

(CHUNGKING, Nov. 8. (AP) Chinese Communists demanded today that Lieut. Gen. A. C. Wedemeyer, US Commander in China, apologize and that compensation be paid for alleged American interference in the Chinese international struggle.

They also demanded that Chinese government troops withdraw from all Red-dominated areas as the price for peace. The Wedemeyer demand was contained in one of four letters sent by the Yenian Communist headquarters.

(CHUNGKING, Nov. 8. (AP) — Reports that Russian forces have been suddenly withdrawn from Manchuria here today amid growing signs of an impending crisis in the undeclared civil war. The long awaited reply of the Yenian Communist headquarters to the Nationalists peace proposals have been received in Chungking. They are understood to contain counter-proposals which cause grave concern. The central government is expected to make a further delay in the government was contained in one of four letters sent by the Yenian Communist headquarters.

In Tokyo two veteran former Kamikaze pilots attempted vainly last night to re-attempt the Japanese Minister Kenjiro Horiuchi. He was not injured by their knives and they were taken in custody.

Chinese Communists have captured one of the captured generals was Ma Fah Wu, commander of the First Army. He is understood to have committed suicide. The other was Kuo Shu Hsun, commander of the Eighth Army.

The spokesman accused the Communists of circulating unfounded rumors about the two generals in an effort to throw dust in the eyes of the public.

The Communists had claimed a number of generals and the bulk of their troops had surrendered.

The spokesman's version was that the Eighth and Forty-first Armies were attacked north of Teng-ching and taken un-awares and were unable to concentrate in time to ward off the assault.

He said their commanders were captured the night of October 30 at different points and their armor was taken by the Communists to await orders from Chungking.

A semi-official claimed Government successes in clashes with Communists in southern Hunan and northern Hubei.

The dispatch said, Communists attacking Tangchi and Sinyeh and the Han River towns of Sangwey were driven into the mountains and Fangshan all in Hunan where the Reds "say, they will make a first stand."

Lieut. McIntyre Back Home After 5 Years Service

Second Lieut. Stuart H. McIntyre, of the 11th Corps, 1104 Combat Unit of the 603 Engineers, has returned to Sanford after five years of service, two of which were spent overseas. He participated in the "June 7" Burma offensive, the invasion of the Rhine, and the Ardennes, Rhineland and central Europe.

He wears the Purple Heart decoration with two oak leaf clusters, and was wounded in action once in Holland and twice in Germany. His other decorations include: Bronze Star Medal, Good Conduct Medal, ETC. ribbon with one silver star, and Airborne, Victory ribbon and Pre-Pearl Harbor Ribbon. He is the son of Mr. K. H. McIntyre, Route 2, Sanford, N. Y., whose wife and son are in Newark, N. Y., where prior to entering the service he was in civil service work which he expects to resume.

Lt. McIntyre brought back with him many interesting souvenirs. These included coins of many European countries and of Asiatic countries which he had obtained by swapping with other collectors. He also has a little German coin of about the size of a dime, which he had dated 1885 clearly inscribed on it. He had completed a collection of English and Dutch coins.

Opening a small suitcase he showed a leather thonged "torque whip" with a short handle taken from a German woman over a prisoner, a solid silver plate given him at Saint Lo by a grateful liberated Frenchman, French flutes, Dutch shoes, and many German medals, decorations and insignia.

Furloughed Men With 50 Points To Be Discharged

WASHINGTON, Nov. 8. (AP)—The War Department last night announced that enlisted men who have 50 or more discharge points and are now on furlough in this country will be released as they return back to the Army this month.

The new ruling also applies to enlisted men now on temporary duty in the United States. They will be classified as surplus and discharged upon their return to a reception center.

At present, the general discharge score for enlisted men is 65 points.

Chief beneficiaries of the action, the War Department said, are men who returned from Europe with units originally earmarked for duty in the Pacific. Orders for shipment of these units were canceled following Japan's surrender and they are now scheduled for deactivation.

There was no estimate of the number of soldiers affected.

During the day, the department also:

1. Authorized the immediate discharge of soldiers who were prisoners of the enemy for at least 90 days. Approximately 28,000 are affected.
2. Put new restrictions on over-seas duty for enlisted men and officers—a step affecting approximately 126,000.

The department announced that, with a few exceptions, no enlisted men will be sent overseas for permanent duty.

The exceptions are those who are graduates of the military intelligence language school, regular Army enlisted men and volunteers for foreign duty.

Officers who have 33 or more months of honorable service, or 30 months in the case of medical department officers, likewise will not be sent overseas for permanent assignment. This will not apply to reserve officers who have chosen to remain on active duty, to regular Army officers or to those classified as scarce specialists.

Republicans And Democrats Claim Poll Victories

NEW YORK CITY MAYOR: CIO Loses Detroit

By Associated Press

Democratic and Republican announced today they had won the election in New York City and Detroit.

In New York City, Democrat William O'Dwyer, a record-breaking plurality carried national or state political significance.

Detroit's slum-bang majority race shared interest among politicians generally. Final unofficial returns showed Mayor Jeffries to have been re-elected by 57,518 over Richard T. Frankenstein, a CIO union official who had the endorsement of that organization's Political Action Committee. Frankenstein lost his home precinct.

The returns came in for brief debate in the House when Representative Bulwinkle (D., N. C.), citing election of Democrat in New York Cleveland Pittsburgh and Boston to the Republicans.

"I know how you feel; it's pretty hard on you but you have to take your medicine and you have to sit in sackcloth and ashes for a little while."

GOP Counters

Representative Michener (R., Mich.), countered with the assertion that the New York City election was a victory for the American Labor Party "with the remnants of Tammany attached to it as a tail."

O'Dwyer had the support of the A.L.P. as well as the Democratic organization. Judge Goldstein, his Dewey-supported Republican opponent, also wore the Liberal and Fusion labels. Newbold Morris ran third on a "No Deal" ticket backed by retiring Mayor Laguardia.

Governor Dewey had no comment on the result. Democratic National Chairman Hannegan said it had a "direct and important" bearing on the next Congressional and Presidential elections. New York Democratic State Chairman Fitzpatrick asserted it marked the "beginning of the end" of Dewey's political career.

Thomas J. Curran, chairman of the New York County Republican committee, charged the Democratic A.L.P. high command with deliberately introducing national and state issues into the campaign but that "this strategy fooled no one."

Smith Predicts Work On Road 44 To Begin Nov. 15

Active work on Road 44 from the Lake Jessup Bridge to the Thruway Bridge will start on or about the 15th of the month, it was predicted this morning by State Representative M. B. Smith, who added that some of the State road men are now securing accommodations at Geneva and are engaged in staking out the right of way.

That much interest is being taken in improving roads in the county is indicated by the fact that the time of the Board of County Commissioners was taken Tuesday in considering and hearing requests for new road improvements.

Mayor B.O. Smith of Altamonte pointed out to the Commissioners that repairs are vitally needed on a road in that town and added that a number of homes were being built along this road. The commissioners assured him that work on this road would be started as soon as possible.

A request from negroes of a settlement in Lake Monroe that their main road be graded and put in order, was presented to the Commissioners by State Representative L. B. Mann. Commissioner J. McClelland took over the proposal for consideration.

Herbert Behrens and his attorney E. F. Houshouser, who appeared in regard to relief of a clogged ditch and road repairs near the former's farm were informed that work on the project was delayed pending arrival of new materials. They were informed that the county engineer, M. C. Hagan is now mopping ditches to determine which are private and which belong to the county which information would be posted soon.

Fast Freight Service Re-Established By RR

The re-establishment of fast advanced service to the larger consuming markets for Florida fresh fruits and vegetables effective with loadings in Florida on Nov. 12 was announced today by the Atlantic Coast Line Railroad, the Florida East Coast Railway and the Seaboard Air Line Railway. The service will afford third morning market delivery in New York, Philadelphia, Baltimore and fourth morning delivery in Boston.

The advanced service was operated for several seasons beginning in 1938 until discontinued in 1942 as a war measure and handled a large part of the Florida perishables to eastern markets.

The regular service providing fourth morning delivery in New York, Philadelphia and Baltimore is also available for shipments by Florida's Florida Fruit Growers of Sanford, will return to the AAF.

New Units Open To Wider Audience

BALTIMORE, Nov. 8. (AP)—The Westinghouse Electric Corporation announced this week that high-definition pick-up units for processing both black-and-white and color pictures and their associated sound for simultaneous transmission on the same radio carrier wave will go into production here shortly.

The basic development was carried out by the Columbia Broadcasting system, according to C. J. Jurnise, manager of the Westinghouse industrial electronic division, who recalled that this is the second revolutionary new post-war television project to be announced by Westinghouse in the last ninety days.

Westinghouse recently announced stratavision, a new system of air-borne television and FM radio transmission developed in cooperation with the Glenn L. Martin Company, aircraft designers and builders. The first stratavision units are now under construction and flight tests are planned shortly.

"Simultaneous broadcast of pictures and sound on the same frequency is made possible," Mr. Jurnise explained, "by borrowing from military radar techniques and transmitting first one then the other in a series of high speed pulses. Stratavision and the new pick-up system represent separate but complementary services to service the nation with television and FM programs from planes flying six miles in the air."

Cpl. Dennis Scurry Is Released By AAF

DREW FIELD, TAMPA, FLA., Nov. 8. (Special)—Dennis Scurry 28 year old soldier from Sanford was released from service with the Army Air Forces today at the Drew Field Separation Station.

Prior to entering the service he was employed as a farmer. He entered the service in September 1945.

His wife, Mrs. Janev H. Scurry, and three sons, Jimmie and Henry and Dennis Scurry, live at Rt. 1 Box 246A.

Nazi Sies Tried To Blast Atom Bomb

WASHINGTON, Nov. 8. (AP)—The eight Nazi saboteurs who were deported on American soil by U-boats in 1942 and later captured, came to this country with instructions to "blow up" the TVA project, source of power for the atomic bomb, the Bell Gate Bridge and numerous other crucial war-time plants and transportation facilities, it was disclosed last night.

Attorney General Clark revealed the saboteurs was made possible when one of them—George John Dasch—turned informer.

Clark said that Dasch, leader of the group which landed on Anacostea Beach, Long Island N.Y., investigated the Federal Bureau of Investigation from New York City and offered detailed information which led to capture of all his companions within 14 days after their arrival.

Six of the saboteurs, four of whom landed on a beach near Jacksonville, Fla., were convicted by a military tribunal and died in the electric chair here.

Informer Hagan said Dasch was spared the death sentence along with Ernest Peter Burger, who approved of Dasch's betrayal. Dasch is serving 30 years and Burger a life sentence in Federal penitentiaries.

Two Killed In Tallahassee Crash

TALLAHASSEE, Nov. 8. (AP)—J.P. McDowell, 25-year-old native of Bristol, a discharged World War II veteran with 18 months overseas service, and his companion, Miss Louella Guffee, of Tallahassee, were instantly killed in an automobile-bus collision west of here on U.S. Highway No. 90 early today.

State Patrolman H.L. Coleman said the accident occurred when left in the path of the eastbound McDowell's automobile swerved bus after he had passed a west-bound automobile apparently at a high rate of speed.

Five bus passengers were received minor injuries were hospitalized at the Johnathon Hospital here but soon were released and continued their trip on a relief bus from the Tallahassee terminal.

McDowell was the son of Mrs. W.D. McDowell of Greensboro, N.C. Mrs. Guffee was daughter of Mr. and Mrs. J.G. Guffee of Rural Route 3, Tallahassee. Her parents and a brother, Elmer, are the only survivors.

Gasden County Sheriff Otho Edwards, of Quincy, said a coroner's inquest was scheduled to fix responsibility for the wreck.

Police Promise Check On Reckless Taxicab Drivers

Chief of Police Roy G. Williams today said he was going to bear down on reckless drivers of taxicabs, following a smashup at Magnolia Avenue and Ninth Street of a Plymouth taxi driven by Dennis Stanton, colored, and a Ford Sedan driven by Lieut. R. E. Canny of the Sanford Naval Air Station.

Annie Cooper, negro of 1708 West Twelfth Street, was thrown to the street from the taxi and was taken by ambulance to Fernand-Laughton Memorial Hospital for treatment of injuries. Two other negro passengers, Jessie Taylor and Lennie Curtis, were slightly injured.

Mrs. Canny was treated at the office of Dr. R. E. Canny and cut on her eyelid, and her 10-month old baby for a slight mouth injury.

The Ford was damaged on the fender and lights, and the Plymouth right front door and fender, and a wheel was broken, it was reported by police.

Eire Not Inclined To Quit Britain

DUBLIN, Nov. 8. (AP)—Prime Minister Eamon de Valera said today that Eire has "no intention of severing her link with the British Empire and asserted the aim of his government is to maintain a good neighborly relations.

Speaking at the annual convention of his political party—Fianna Fail—De Valera made the statement after a resolution had been presented objecting to the signing of a peace treaty with the Germans by Eire.
