# Big Expansion Near For County Schools

The Seminole County School Roard soon will ask for bids on nine major construction projects.

Bonds for \$3,200,000 were sold Tuesday by the School Board. The bid of Salomon Brothers and Hutzler of New York was described by Superintendent R. T. Milwee, as "very good." Interest rate on the bonds, which mature over a 20-year period, was 3.9 per cent.

Milwee said that all of the projects made possible by the bond issue will be completed, if possible, by the start of the 1960-61 school year.

The \$3 million will provide substantial improvement in the Seminole school system. The present population growth rate defies concrete planning for the future, If the current trend continues, the system could be over-crowded before proposed projects are completed.

New schools and additions to be financed with this money should provide adequate facilities for current school population. This should end double sessions and present over-

The bonds sold Tuesday were authorized by Seminole freeholders in a special referendum last fall, Soon, many of the freeholders will reap the benefits of this decision to expand schools to meet urgent needs.

The School Board has moved speedily to correct school deficiencies. No time has been lost in the process of transforming a vote of the people into needed classrooms.

Should the current population trend continue, and there is every reason to believe that it will, the School Board will deem it necessary in a very few years to seek freeholder approval of another bond issue.

The manner in which the School Board has handled this issue should serve it well when approval for another is re-

# Freedom Of Thought Inez

Americans have an inalienable right to think and speak their honest thoughts concerning all things under the sun, including decisions of the U. S. Supreme Court.

This, in brief, was the opinion expressed by Sen. Sam J. Ervin, North Carolina Democrat, in a speech to a group of ness, the past eight weeks have bankers. Ervin, a former North Carolina Supreme Court short space of time, four of the justice, said that it is "sheer intellectual rubbish" to say that Americans must believe in the 'Infallibility of judges,"

or to accept their judicial wanderings. Well said, suh! As Ervin knows, judges err. So does everyone else, in and out of public office.

# TO THE VOTERS OF SEMINOLE COUNTY:

Due to adverse legal decisions which were the result of statutory construction, Seminole Raceway officials find it necessary to secure legislation at the April term of the Florida State legislature to provide pari-mutual harness racing at

Seminule Raceway.

As President of the Raceway organization, and having been identified with every phase of the effort to establish harness racing at Seminule Raceway, permit me to emphasize and set

out the following facto: 1. Seminole Raceway applied to the Florida Racing Com-mission on June 20, 1936, a legally authorized State and Governing Agency, seconding to the laws of Florida, and made a proper application for a harness racing permit, and this duly authorized State Agency, whose members are appointed by the Governor of Florida, accepted our application. On August 13, 1956, after having investigated the Seminole Raceway officials in a most thorough and capable manner, the Florida Racing Commission - in formal session, accepted the application of Seminole Raceway and issued a rucing permit in a legal and proper manner, according to the laws of

2. This permit was legally issued by a legally authorized. State Agency, and they did so on the advice of the Attorney General of the State of Florida, representing the highest legal voice, of the laws of Florida.

3. This racing permit was issued subject to a referendum to be held in Seminole County, Florida, giving the people the American right, under our system of govern ment, to express their wishes. According to the laws of Florida, Seminole Baceway officials applied to the Seminole Board of Commissioners requesting a date for the referendum when the people could say whether or not they wanted harness racing. Your County Commisstuncts in formal meeting agreed on the date of November 6, 1936, for the referendum to be voted upon, Complying with the laws of Florida, Seminole Raceway of ficials paid an amount of money, in cash, agreeable to your County Commissioners, as their part of the election costs. Seminole Raceway referendum was then put on the ballot to be voted upon in the election on Novem her 6, 1936. All of these acts by the Seminole County Board of Commissioners was approved by the County Attorney for Seminole County and by the Attorney General of the State of Florida, who rendered a specific opinion covering these arrangements and agreements with the Board of Seminole County Commissioners, The election was held.

Seminole Raceway carried every one of the 16 precincis in Seminole County and won the election for harness racing by a vote of approximately three to one, with one of the largest percentage of jegistesed voters voting ever recorded to a referendum election. It proved fairly and conclusively that the prople in Seminole County wanted barness racing by a tremendous majority, 4. Seminole Raceway cificials include strictly Central Florida and Seminole County business men, who have never been identified in a single instance with any kind

or character of gambling, either legal or illegal, Seminole Raceway has more than 400 stockholders -95% of whom live within 25 miles of Seminole Raceway track here in Central Florida, Seminole Raceway sold them this stock sincerely believing that the legally authorized Florida Racing Commission had a right to issue this permit, and that the Attorney General of the State of Florida was correct in saying that the permit was legally lessed and that the referendum election ratifying the permit, could be held, and it was reasonable to infer that such ratification would permit parl-muuel harness racing in Semirole County, All these State Agencies were set in motion and legally function. Seminole Raceway officials complied with every law-their ac-

tions being the expressed opinion of the Attorney General of the State of Ficrida, Many fine people in Central Plorida purchased stock believing that these State Agencies had the right in function as they did. All these legally authorized State Agencies have acted in accordance with the laws of Florida, and the people, because of the prestige and dignity of these State Agencies looked upon their acts

as authentic. Seminole Raceway officials regard the Florida Racing Commission as a compliment to the State of Florida, and to the Governor who appointed them. Seminole Ruceway officials have great scopect for one of he most able Attorney Generals in the history of the State of Florida, Seminole Baceway officials have the highest esteem and regard for the Board County Commissioners and other officials of Seminole County, and yet after every sincere effort by these individuals and State Agencies, seeking honestly to administer the laws of Plottda.

5. Contrary to the opinion of the Racing Commission and Attorney General, the dog tracks contend it was the intention of the Legislature that no pari-mutuel track would be within 100 miles of another, and yet, here in Central Florida there are two dog tracks within 40 miles of each other. In the Miami area there are 6 or 7 horse and dog tracks all within 40 miles of each other, and a number of Jai Alai pari-mutuel activities in the same area. The last legislature passed a racing bill which added quarter horse racing to the harness racing at the St. Johns track, and in less than 100 miles of two existing dog tracks. The Legislature of 1957 also passed a running horse

track bill in Volusia County, establishing a horse track within about five miles of an existing dog track, and within 40 miles of another dog track. This bill was passed by both the House of Representatives and by the State Senate and sent to the Governor who vetoed the hill, but his veto was over-ridden in the House of Representatives and was barely sustained in the Senate. Seminule Raceway officials attempted to secure legislation-not to get a race track, because we already have our permit—but hoping that such legislation would eliminate this continual harrassment of law suits against Seminole Raceway. Seminole Raceway officials are business men, and are in no position to pour un-limited sums of money into litigation. The House of Representatives passed the Seminole Baceway hill by a majorsty of 60 to 18, and it was sent to the Senate. On the Senate floor rote, the Senate voted 19 to 13 for the Seminole Receway bill, but this did not constitute a twothird- majority, and the bill was sent to the Senate Taxation and Finance Committee Friday afternoon, it was impossible to get committee action to get the bill on the Senate calendar the next morning, which was the day of adjournment. However, the floor vote in the Senate, and the vote in the House of Representatives was conclusive proof that this bill would have passed had we had the time to get it through these committees.

4. Since more than 75's of the rich and powerful harness racing owners and trainers coming South to train their hurses each winter season, are concentrated here in Central Florida, harness racing is both practical and desired. Those wealthy harness horse owners and trainers constitute an integral part of our financial security, and are expending tremendous sums of money in the development of Central Florida. We believe, along with the Racing Commission, and the Attorney General of Florida, and others, that what the legislature really meant was that no race track of a like character would be located within 100 miles of each other. It did not mean to provide legislation that would create a monopoly at the expense of discouraging the great horse industry in Florida. It is our opinion that the legislation which has been incorporated in the Florida statutes was simply a result of a lack of interest in harness heretelore. The harness horse interest in Florida have no organization and consequently have no powerful lobby in Tallahairee,
7. We are therefore confident that the next session of the

Florida State Legislature, which convenes in April, will sustain the opinion of the Racing Commission who granted our permit, and of the Attorney General of Florida, who approved the issue of our permit, and of the Board of County Commissioners of Seminole County, who provided the election to ratify our permit, and the people of Seminole County who gave us a tremendous majority in the ratification of our permit for harness racing at Seminole Receway.

Sincerely Yours, WILLIAM R. KEMP, President Seminole Park Raceway, Inc.

# Lenten Lines

Of The Church

During this Season of Lent, 1959, he served thoughts through His word, and nothing is so timely or up to date as the fact of man's constant inhumanity to man

As we follow the passion of Christ in the Gospels, most of us are prone to become emotionally involved in the cruelty we are by those who put Him to death But on the other hand, we fail to put ourselves in their shoes and accuse the Jews of being "Christ Killers", or blame Pilate for his indifference. Few people realize that this same thing hap pent every day to every person. We kill Christ, we are indifferent to Him, we crucify Him because each of us sin.

Lent is the emotional season The season in front of the cross-We must discover for ourselves the brutal truth that no one can ve under the cross and be next rat. We are enveloped in each painful step to the cross, from the broken jar of fine perfume of Mary of Bething to the last Soul-chilling gasp from the cross This story is far from being out of date. # Story Of Lincoln's Life **Top-Notch Presentation**

By WILLIAM EWALD

NEW YORK (UP)—I am inclined to believe that despite what the Chinese say few pictures are really worth 1000 words. Much of the display ground out by TV, for example, is harilly worth any. But I suppose that's the way the fortune cookie crumbles.

However, Meet Mr. Lincoln, a Project 20 undertaking beamed out by NBC-TV wednesday night, was an elegant exception. Using still photos gathered in the Lincoln emporia of this country. "Meet Mr. Lincoln" stitched to rether a half hour of consideration.

Backstopped by a Robert Rus Dinah Shore show. with the Civil War period.

the aid of still shots, churned out now has decided to check back in the aid of this success to the story of the bullfighter Mano-lete a couple of seasons back.

ABC-TV's Pat Boone will go astonishing drive and tang-

show, and it was a motor one, along the Mississippi, was that it was a little too sluffed with narration - it was difficult to grasp both pictures and words because of the galloping pace of Lady Senator Eyes both. Aside from that, thumbs up all the way.

Short Shots: CBS TV's 1', 5 Steel flour presented an adapta- WASHINGTON (UPI) - The the lead role gave an incomfort star.

See Margaret thase Smith (R 100 m) is at yet unable to tap her insides and she tacks sufficient "check the records" to determine technique to fake her way the merits of President Eisenhow 11 60 through. But Miss Vanderbilt does er's second nemination of the have an earnestness, a touching slow-talking film star for promowillingness to please and an in- tion from colonel to brigadier telligence that makes her an ingeneral in the Air Force Reserve ture, it was a mistake to large Mrs. Smith told United Press in her in Wednesday night against ternational, she doesn't care to Jean Pierre Aumont who josu lates himself inside his playing

## Steak Is Stolen, **But It Cost More**

A 20-year-old Navy man discovered that stolen steak doesn't taste any better than that obtained legitimately.

Robert Edwin Shank, VAH-3, Ramey Field, was arrested Saturday afternoon for stealing a \$1.67 steak from the meat counter of a Winn-Dixle Store,

Shank was placed in the city jail under a bond of \$102. He admitted stealing another piece of meat the day before. Witnesses said he hid the steak under his shirt.
