plane carriers also attracted attention in view of the recent statement by President Coolidge in New York making a prellminary proposal for new discussions of limitatio nof armament.

There was nothing to indicate, however, that Mr. Wilbur had any definite projects of the kind in mind when he made the statement. It was recalled that Washington officials have almost invariably held that the key to the situation which resulted in the call for the Washington conference by President Hurding was the tremendous capital ship building program upon which the United States was then engaged. If that program had been completed, the American navy

Many Debts To Be Paid.

This seans to be the season when people all over the state are making an unusual effort to pay their bills and get straightened with the world. Daytona has just finished conducting a special campaign in which the people of that city 27. 1919, at the Postoffice at paid their bills or made a special effort to do so. Miami is this week carrying on a like campaign. Other cities have Editor either made special efforts along this line or are talking about making them.

The winter season is over and the beginning of the summer, or what is known all over the state as the "dull" months, is upon us. Especially is this true in the sections dependent to buy weapons. If we maintain wholly on the citrus industry and not catering to the winter that policy, assuming all revolutourists.

But here in Sanford conditions could not be better. This section has had its best season in many years, if not the best days, strangle some really worthy season it has ever had. The farmers and growers have received good pay for their products and have made money. Be- belled against England, there was ginning early in the season with poor prices, celery has in- no great nation of 110,000,000 at creased in price steadily until at the height of the season our elbow saying "No resolutions the prices were exceptionally good. Now that money is plentiful wouldn't it be a good thing to conduct a campaign here and put every possible dollar to the bosom of that harmony, work paying up bills? Conditions are good now, but they can sailed and sailed incessantly, be made much better if many people who owe mney would tree, with a little brass tablet on realize the benefits that would come to the community and the tree trunk, "John Jones is nuttered down upon that pool to them if they would pay up.

What Is Your Hobby?

It has often been said that few people amount to much who do not have a real hobby. People seem to require a change and whether we know it as a hobby or not nearly all That's a mistake and to make it of us have some hobby of one kind or another. A real hobby known is to overcome foolish, is thought of usually as the one activity to which no one needs to be driven. Wise and happy people who have wholesome hobbies ordinarily find plenty of spare time in which to pursue them without conflicting with their more important tates surround the Lakes of Kiland every day duties.

Most colleges have so arranged their class schedules that city is trying to rival that every student has at least one hour a day to devote to sort at Killarney, to bring visitors giving the amount they usually dohobbies. The idea is understood to be to develop latent rosse, whose name is taken from hobbies. The idea is understood to be to develop latent rosse, whose name is taken from Ross' Castle, ancient fortress of atlon, especially for Tampa. For invited citizens held simultaneously Romestead is in the midst of a thing they like during this special hour.
The man without a hobby of one kin

The man without a hobby of one kind or another doesn't accomplish as much in his particular line of work as does the man who has something interesting to him, which occupies his mind when he is not at his regular work. The man with a hobby becomes refreshed with the change and goes back to work with renewed vigor and energy anxious to accomplish great things.

There are few people in any city who fail to have a hobby of some character. You can think now of the man who rushes out to the golf course to play his game of golf. He plays as often as he can. By doing so he is enabled to do his daily work better. Then there is the man who takes great delight in working around his home, planting flowers, watering each religion show what it has to his lawn, and just puttering around. This little work, which offer and the best will win. is a pleasure to him, keeps him in shape to accomplish more at his office. And there is no end of hobbies and hobbyists. There are the fishermen, the hunters and the man who does a school, showing Mohammed ridthis and the man who does that. But nearly everyone has his own, sometimes peculiar, habit.

The importance of having some activity in which you are greatly interested cannot be overly stressed. If every object. person did nothing, but attend to his business affairs, refusing to devote extra time to making conditions better, to improving civic affairs, to beautification, and to other worth while forbids all painted or carven activities demanding time, general conditions would not be images. One of our customers gave us the following inventory:

Old photograph of his mother, 6 insurance policies (2 expired), Gold watch that won't run; 2 rings, Marriage certificate; 16 "old" letters, Four \$1,000 bonds; 5 stock certificates, Last Will and Testament.

"I threw away the old insurance policies but I wouldn't give up the safety and satisfaction of that box for a hundred times its cost." The cost is negligible.

Avoid Using Castor Oil

Nobody likes to give or take castor oil. There is really hardly any need for it since the invention of Liv-o'lax.

And Live-lax fills a double need It has a marked action on the liver as well as the digestive tract, and so it can be used in cases of bilious attack, and when a cold is coming on, it takes the place of calomel and castor oil. Literally hundreds of mothers have ear-nestly thanked me for putting this good remedy on the market.

Children love to take Livo-lax and it is just as good for the same condi-

It's Up To The Housewife To Settle This Matter N

THE 70,000 dairymen who comprise the Dairymen's League Co-operative Association are certain that the average American housewife desires a richer and creamier evaporated milk.

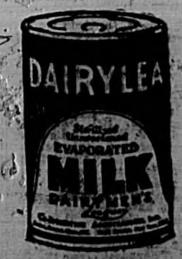

This is why they produce and also sell direct to you, DAIRYLEA Brand Evaporated Milk—their own product from the million cows they themselves own. They know that increased merit and food value will induce the public to consume more milk.

THEREFORE you will find that DAIRYLEA Evaporated Milk is richer and creamier. It contains even more nutritious milk fats and solids than the high United States Government standards require. And this accounts for the delicious, fresh creamy flavor of DAIRYLEA.

Furthermore, each of these 70,000 progressive farmers, personally guarantees each can of DAIRYLEAbecause each farmer shares equally in the control and responsibility of the League's \$8,000,000 a month business.

DAIRYLEA Evaporated Milk is the concentrated wholesomeness of the purest fresh bottle milk -exactly the same milk which U.S. Senator Copeland, when Health Commissioner of New York City, called "the best in the world and the cheapest food at the price."
