## Mars' Pictures To Be Televised

WASHINGTON (UPI)-The public will be given a look at pictures of Mars' surface within two days after Mariner 4 flies past the red plane Space agency officials said

they would not arbitrarily withhold from the public any of the 20 pictures the 575pound spacecraft will take of the planet. The first pictures are expected to be ready for release in 36 to 48 hours after

the fly-by. In issuing the announce ment, the space agency discounted reports that some pictures might be held indefinitely for study by scientists. The photos will be beamed by radio back to earth from 134 million miles in space. It will take about eight hours for transmission of each frame of magnetic tape on which Mariner 4 will record the pictures.

Mariner 4 will pass within television pictures will be taken from a somewhat longer distance to take advantage of better light.

Processing of all the pictures will not be completed at the same time. While some may be ready in a day and a half, others will undergo further processing to improve the quality before they are re-

Never Too Old

HOISE, Idaho (UPI)—
You're never too old to learn.
That's the philosophy of Perry
C. Mobberley of Boise.
Mobberley prepared for the
summer fishing season by signing up for a one-week learn toswim class at the YMCA. He
gald he wanted to be "sure I
can strim in case there's an
accident." Mobberley is 79.

In reporting the robbery Mrs. Smith said her home had been entered several times before, but she failed to report the thefts because she felt partially responsible as the house was not locked.

Among items taken in earlier entries were a pair of \$200 units.

One of the Vietnamese operation command posts also reported it was surrounded.
