McLean States He Had Good Motive in Helping Albert Fall

Washington Publisher Tells How He Was Unwillingly Drawn Into the Oil Scandal in His Effort to Help His Friend in Time of Need—Says He is Victim of Circumstances.

ROOFS SENT TO Teapot Dome Upon Request of Fall Says Roosevelt on Stand Today

Washington, Mar. 13.—The assistant secretary of the navy today said that the Teapot Dome roofs were sent to the oil fields upon the request of Albert Fall, secretary of the interior, and that the roofs were sent to the oil fields upon the request of Albert Fall, secretary of the interior, and that the roofs were sent to the oil fields upon the request of Albert Fall, secretary of the interior.

CHEYENNE, Mar. 13.—The preliminary hearing in the government suit of annulment in the Teapot Dome leases were opened here Thursday.

Owen J. Roberts and Alice Pomeroy, government counsel, asked for an injunction to prevent further drilling. Appointment of a receiver to take charge of the oil was ordered.

WASHINGTON, Mar. 13.—Edward B. McLean, publisher of the Washington Post, told the oil committee Wednesday that he had been unwittingly drawn into the oil scandal through a well intentioned effort to aid his trusted friend, Albert B. Fall.

He insisted that the true story of his \$100,000 loan to the former secretary was that which he told Senator Walsh, of Montana, at Palm Beach in January; that he had given Fall checks for that amount in November, 1921, and that they had been returned to him.

By Previous Statement Made. McLean had stated that the loan was made in cash, he said, was made because Fall requested at a conference in Atlantic City last December that if it became necessary he should be able to draw on the loan.

Declaring he had no other connection with the whole subject under investigation; he did not own either Sinclair or Doheny; and never owned stock in any of the oil companies, the publisher summarized his situation thus:

Going Far for Friend. "I was trying to go down the line as far as I could for a friend. I have never done a dishonest thing in my life financially. I have never done anything to do with this damned Teapot Dome thing. That is the only truth. You can decode degrams, you can look through them for the next year, and you can never find anything dishonest about me."

This statement came near the end of more than two hours of questioning during most of which the publisher leaned across the table toward the committee with head bowed and forearms resting on the little table before which he sat.

Although hailed as one of the most important of the witnesses in the inquiry, McLean shed little additional light on the situation and his testimony was anything but brilliant. He was followed by testimony by the crowd which jammed the committee room and overflowed into an ante-chamber.

Musical Program Will Be Broadcasted From Great Britain Tonight

Shortly before 7 o'clock tonight, the mighty broadcasting stations of Great Britain will endeavor to relay a musical program from the Savoy Hotel, London, to the continent of America, according to word received here today by Manager Scott of the Western Union. It is thought that by all powerful stations relaying the program at the same time, it will be possible for American listeners to pick up the program.

The program begins just before midnight, London time, which is five hours faster than U. S. east coast standard time, and will continue for approximately one hour, giving America plenty of time to "tune in."

The announcer will invite cable acknowledgments from the American radio fans. Quite a thrill will be enjoyed by the fan who is lucky enough to hear the concert, and cables the Savoy at London, carrying the fact that his message will be transmitted directly from New York to London lines under the Atlantic, and within less than an hour hear the same message being repeated through the air back across the Atlantic.

BONUS BILL IS PASSED BY THE SUBCOMMITTEE

Will be Handed to Ways and Means Committee of the House Today for Final Decision — Chairman Green Will Attempt to Have Measure Passed Through House on Monday If It Possible.

WASHINGTON, Mar. 13.—Terms of the new soldiers bonus bill providing paid-up life insurance policies were agreed upon Wednesday by a sub-committee of the house ways and means committee and will be taken before that body for decision tomorrow.

Chairman Green announced he would attempt to have the measure acted upon next Monday by the house, unless suspension of the rules which would limit debate, prevent amendments and permit a vote in one day.

The insurance policies, it was decided, would be 20 years endowment and valued on the basis of length of service of each veteran, with \$1 allowed for each day of home service and \$1.25 for each day of overseas service, but with the first 60 days excluded. To this total would be added 25 per cent and the face value of the policy then would be determined by computing the total amount of adjusted credit plus the 20 years of compounded four per cent interest.

In figuring the adjusted service credit, maximums of \$500 would be allowed for home service and \$825 for overseas service. It was estimated that the maximum face value of any certificate would be about \$1,500 for a veteran who served full time at home, or \$1,000 for one who served the full time overseas.

Under previous agreement all veterans up to the rank of captain in the army and marine corps and lieutenant, senior grade in the navy would be eligible to the policies. It also was decided to include the dependents of all veterans who have died since the close of the war. Cash payments would be made to all veterans not entitled to more than \$25.

The dependents of those who have died since the war, who would be eligible to receive payments from the government would be fathers and mothers and children under 18 years of age. The amounts due them would be figured strictly on the basis of \$1 a day for home service and \$1.25 a day for overseas service of the deceased. This sum would be paid out in 10 annual installments to the dependents.

The total cost of the bill, it is estimated, would be about \$2,000,000,000 and not more than \$300,000,000 would have to be expended by the government in any one year. It was estimated that \$16,000,000 would be expended immediately in payments to those not entitled to more than \$50 and that cash payments to dependents of deceased veterans would amount to about \$125,000,000. The insurance policy, it was said, would cost \$1,831,000,000 spread over a period of 20 years.

Tampa Man Killed; Wife and Daughter Have Been Jailed

TAMPA, Mar. 13.—Eva Winchester, age 18, and her mother are held here charged with murder in connection with the death of J. C. Winchester, age 65, at Seffner, near here Wednesday night.

The girl is reported to have said she killed her father on orders from her mother. "I strangled him to death with feet," the girl said, according to police.

The reason given is that the family belonged to a religious sect and the father was killed as an offering to the Lord in thanks for being told the father at a meeting of the sect after he had suffered paralysis strokes.

The man was led from the house by his wife and daughter and killed. The body was then dragged back and left lying on the doorstep, according to the story.

Thursday morning two women walked three miles to Mango and related the story to a school teacher, who notified the sheriff who went to the scene and found the body and arrested the women. The girl related the story calmly.

Late Messages Indicate That Loss of Life On Steamer Santiago Less Than Was Stated In First Reports

NORFOLK, Mar. 13.—That loss of life in the sinking of the Ward line steamship Santiago off Cape Hatteras Tuesday night may be less than first reports, was indicated by wireless from the coast guard cutter Manning, which reported to headquarters that intercepted wireless from the steamship Collins, saying it had picked up 10 survivors and expected to pick up the rest.

NEW YORK, Mar. 13.—The captain of the Ward line freighter Santiago and 24 of his men are believed to have been lost at sea with their vessel in the snow freighted hurricane which Wednesday night swept the Atlantic coast, taking eight lives in New York city alone.

After raging at 80 miles an hour along the eastern seaboard from Cape Hatteras, where the Santiago went down, to Eastport, Me., the gale appeared Wednesday night to have spent its fury. Its path on land and sea was marked by scores of disabled craft, enormous property damage and a long list of dead and injured.

Transportation, power distributing systems and lines of communication were most seriously crippled. The storm inflicted upon Brooklyn a complete stoppage of its rapid transit lines, stranding hundreds of thousands of commuters Wednesday morning.

Ten men were reported rescued and 25 were missing from the freighter Santiago, news of whose sinking 60 miles south of Cape Hatteras was carried in a radio message intercepted Wednesday by the Charleston (S. C.) navy yard station.

Not Known When Vessel Sank. When the Santiago sank was not told. The first message, signed by the captain of the Norwegian steamship Classy, simply said: "Picked up lifeboat containing six sailors, three firemen, one carpenter, from the steamer Santiago which sank 60 miles south of Hatteras. No other life boats seen, proceeding to Baltimore."

Local officers of the Ward Line, listed the other 25 members of the crew as "probably missing" including the captain, J. S. Baldwin, from whom they had not heard since the disaster.

The Santiago left Cienfuegos, Cuba, Mar. 4, bound for New York with 32,000 bags of cargo for the American Sugar Refining Company. She was to have reached this port Thursday. She was a 5,000 ton ship built in 1906 and valued with her cargo at approximately \$1,500,000.

Ward Line executives hoped they said, to account for the missing although continuous effort through navy department and commercial stations to establish further radio communication with the Classy's commander proved futile.

The Classy was expected to reach Baltimore Wednesday night or Thursday morning with the survivors.

BOOSTER MEET WILL BE HELD TUESDAY NIGHT

Chamber of Commerce Plans To Hold Banquet With Harry T. Bowdell As Honor Guest.

Announcement was made Thursday by Secretary R. W. Penman that a "Prosperity Dinner" will be held Tuesday night by the Chamber of Commerce at the Yule Hotel, at which time Harry T. Bowdell will be the guest of honor and principal speaker.

Other prominent men, who have recently evidenced their faith in the city's future by heavy investments in property, will also be invited to attend. Among these will be S. Boho Dean, of Miami, formerly owner and publisher of the Miami News-Metropolis. Other local speakers will include Mayor Forrest Lake and F. P. Forster.

The general purpose of the gathering as expressed by Mr. Penman is to take official cognizance of the fact that Sanford is fast becoming one of the most progressive cities in Florida and that it is now in an era of unprecedented growth.

Pioneer citizens who have watched the growth of this city from a mere village will meet with men, who have only come here recently but who have caught a vision of a great future for Sanford.

Believing that it is the duty of a Chamber of Commerce to stimulate enthusiasm over the city's growth, Mr. Penman declared that the local organization is planning the "Prosperity Dinner" as a get-together meeting when local business men may exchange their ideas on how to make Sanford an ideal city in which to live and also to give opportunity to express appreciation of the efforts of those who are helping to make it such.

KENYON ASKED TO BECOME THE NEW NAVY HEAD

Former Senator From Iowa and Now Federal Judge Is Doubtful Whether He Will Accept Appointment — After Two Hour Conference with President Declares That He Will Make Known His Decision Today.

WASHINGTON, Mar. 13.—William S. Kenyon, former senator from Iowa and now a federal circuit judge, has been offered the naval secretaryship by President Coolidge. He will give his answer to the president probably Thursday.

Considered first by the president for the post of attorney general in event of the retirement of Harry M. Daugherty, Judge Kenyon was asked to come to Washington, and, arriving Wednesday night, went direct to the White House.

During a two-hour conference with Mr. Coolidge, he was considered the navy appointment and is understood to have asked that he be given until Thursday to think it over and consult with some of his closest friends.

Whether the former Iowa senator and farm bloc leader will accept the appointment appeared to be a question which he alone could answer, and he declined to do so. He refused to discuss the matter in any way, except to say that he had conferred with the president for two hours. When asked directly whether he had been offered a place in President Coolidge's official family, he made this reply:

"Well, you know it is one of the ethics of the bench that the judge cannot talk—can discuss nothing." President Coolidge is known to be very desirous that Judge Kenyon take the place which was vacated by Edwin Denby last Monday, and believes that the experience of the Iowa man as assistant to the attorney general in the Taft administration, as United States senator for 11 years and as federal circuit judge since January, 1922, would make him an admirable head for the navy department.

Some of Judge Kenyon's close friends in Washington, however, have advised him against accepting the office pointing out that administration of naval affairs would be out of line with his natural inclinations toward legal matters and agricultural questions.

Judge Kenyon himself, has several times told friends here that he was entirely satisfied with his work as a member of the United States court for the Eighth circuit, and some of his friends on being asked to advise him have inquired of him why he should desire to give up a life on the bench to take a cabinet place with a tenure that might be limited to a single year.

The office of attorney general would be more to Judge Kenyon's liking, his friends say, but this place is not vacant and the retirement of Attorney General Daugherty may not come for some time.

There is a general belief in Washington supported by some official intimates that should the attorney generalship become vacant it will be offered to Chief Justice Curtis D. Wilbur of the supreme court of California.

Chain Grocery Firm To Open 2 Stores In This City Soon

The Nifty Jiffy Corporation, an organization recently formed at Orlando for the purpose of operating a chain of grocery stores throughout the entire state of Florida, will open two stores in Sanford within a short time, according to an announcement made Thursday by William H. Fryer of this city, who will be connected with the new company.

Mr. Fryer was for some time local manager for the Atlantic & Pacific Tea Company and is very familiar with this line of work which he has engaged in for a number of years. The opening date of Sanford's new stores was not given out, but it will be within a very short time, Mr. Fryer stated.

The company will maintain its head offices in Orlando although it is quite probable that the warehouse and distributing station for the chain stores will be located in Sanford on account of its central location and freight facilities, Mr. Fryer further stated.

Heading the new company which is capitalized for \$500,000 is F. A. Harrington, former wholesale grocer of Cincinnati but for the past two years a resident of Orlando. J. I. Querry, former manager for O'Berry & Hall Wholesale Grocers of Orlando, will be secretary and head of the accounting department and E. W. Davis of Orlando, treasurer.

Present plans of the company call for the establishment of at least 50 stores in Florida. The equipment and fixtures to be used are of an original pattern and have been patented by the new organization. Other cities in this vicinity that will have stores opened by the Nifty Jiffy Corporation are DeLand, Daytona and Palatka.

FRANCE MAKES ARRANGEMENT FOR BIG LOAN

Establishes Credit of Not Less Than \$100,000,000 with the Banking House of J. P. Morgan & Co.

NEW YORK, Mar. 13.—French francs showed a recovery Thursday from the slump which set a new low record during the past week and threatened a serious situation in the nation's finances. Fortified by \$100,000,000 credit established here for the bank of France the exchange rose rapidly at the opening of the market Thursday to approximately four and a half cents.

NEW YORK, Mar. 13.—Establishment of a banking credit of not less than \$100,000,000 in favor of the Bank of France has been arranged by an American banking group headed by J. P. Morgan and Company, it was announced Wednesday night.

The loan is fully secured by gold held in the vaults of the bank of France, which is acting for the French exchange and for such other purposes as the French government may determine.

While details of the loan were not made public, it is understood that it will not run for more than one year. In the event that the credit is not at maturity liquidated in other ways, gold in amount equal to the loan will be shipped to the Morgan firm in New York.

In view of the excellent security behind the loan, it is believed the interest rate is well below that of some of the recent foreign loans floated here in the form of bond issues.

The group is limited to bankers of New York and neighboring cities who will share in the loan largely exceeding the amount required by the French government.

Bank Governor's Statement. In connection with this credit, the governor of the Bank of France has issued a statement which sets forth the following points:

1.—Complete measures are being taken to better the financial situation.

2.—The French government is insisting that the senate shall ratify the new tax measure, which means balancing the budget, and shall approve the policy of stopping new expenditures.

3.—Until the financial situation has been greatly bettered, the government will undertake no new borrowings whatsoever except for funding existing floating indebtedness.

4.—After such improvement in the financial situation has been shown the government will make no new loan, even for reconstruction in the liberated regions, without being assured that the budget will cover the service of such new loan.

5.—The Bank of France will continue to endeavor to assist the situation. This is the first foreign government credit of its kind that has been arranged in this country. The only international banking operation of analogous nature was the famous credit to the British government during the war in which British-owned American securities were pledged as collateral.

FIRE AT APOPKA

Fire of undetermined origin completely destroyed the mill of Consumers' Lumber and Veneer Company at Apopka Tuesday night. The blaze was discovered at 7:30 o'clock, and fanned by a high wind was soon beyond control. The Apopka fire company responded to the alarm, but could do little else than protect adjoining property. The loss is estimated at \$25,000 with \$20,000 insurance. It is estimated the mill will immediately be rebuilt. One hundred men were employed at the plant.

AT THE MILANE

That comedy work is the finest and most thorough training for dramatic acting, is the opinion of John M. Stahl, director of "The Wanters," which will be the Louis B. Mayer-First National feature at the Milane Theatre today.

Pointing to Marie Prevost's striking ability in the leading role of "The Wanters" as splendid proof of this theory, she being a graduate of the old slapstick comedy school, Mr. Stahl said: "Restraint in the emotions is the greatest stumbling block in the path of the average aspirant for dramatic success. This is entirely overcome by comedy work, which is really only an over-expression of dramatic emotions."

"From farce comedy to drama is only a step, but it is usually a very successful one. Toning down over-expression is simple compared to the difficulty a player experiences in attempting to break through a natural restraint to build up the emotions to a highly dramatic point."

A CORRECTION

Through an oversight the name of the American Fruit Growers, Inc., was omitted from a story appearing in The Herald several days ago in which County Agent E. F. Whitner, Jr., expressed appreciation for the co-operation given him by various persons and organizations in putting over the county exhibit at New York. In justice to Mr. Scott, manager of the company in this city, Mr. Whitner desires to say that he is indebted to the former for a donation of a large quantity of celery and tomatoes and also for other personal favors.

All Wires Swept Away. According to one report received here, in one stretch of five miles between Richmond and Baltimore all wires and cables have been swept away.

Between this city and Washington, all wire service was cut off, and at many points poles were down, while at others the wires had been torn from the poles.

Brokers' wires were entirely without service all day. All press wires, except one Associated Press connection between Richmond and Newport News, were silent the greater part of the day, service via Atlanta and the south being re-established late Tuesday afternoon.

The Chesapeake and Potomac Telephone Company, after a survey, reported early Tuesday night that their service was so badly crippled as to approach complete paralysis. Similar conditions existed in the Western Union and Postal Telegraph services.

Every repairman of the telephone, telegraph and railroad communication office here has been rushed to points where interruption was known to exist, in an effort to restore the wire services.

High winds, not experienced in Richmond, are reported to have joined the weight of ice and snow in breaking down poles and grounding wires in neighboring sections.

At a meeting of the committee Tuesday afternoon before that night's meeting, all of the bidders except the two or three lowest ones on each project were eliminated. Meeting with the committee were Consulting Engineer Joseph E. Craig and Henry Rosebro, manager of the Southern Utilities Company's office in Sanford. Mr. Rosebro was asked to submit his lowest rate on power to be furnished for the pumping station. He stated that he would be unable to make a rate until he was informed more fully on the type of motor to be used, approximately the peak load to be used and other information on the amount of current to be used. He stated, however, that right at this time that the lowest rate given is five cents.

A considerable discussion was held on the water supply system. Believing that this is a question of vital importance, the members decided to discuss the matter at considerable length at a later date. Mr. Craig stated that water that is expected to be obtained from the sand hills outside the city limits, is even softer than rain water and that if secured in sufficient quantity to supply the city's need will mean that Sanford will have as good water supply as any other places in the state.

LIQUOR RAIDS IN JACKSONVILLE BY GOVERNMENT MEN

Government Agents Make Wholesale Raids and Many Are Arrested—Springs Sentations in the Gateway City.

JACKSONVILLE, Fla., Mar. 12.—A series of arrests on charges of conspiracy to violate the National Prohibition law were made in the downtown section Tuesday afternoon by the Federal Prohibition Agents, who promised wholesale arrests would be made tomorrow.

Among those arrested was George H. Mason, manager of the Mason Hotel, who was charged with conspiring to violate all National Prohibition laws. It being alleged that he violated the law by selling liquor to Harry H. Chentham and charged it on Chentham's hotel bill.

A charge was placed against Mr. Mason, it was explained by F. A. Hazeltine, division prohibition chief, because it is alleged that one of his clerks sold liquor to Chentham, who is a prohibition officer.

All of those arrested were released in \$1,000 bond for their appearance Friday before Carl Noble, United States commissioner, for a preliminary hearing.

According to Hazeltine "under cover men" have been working here for two months accumulating evidence which is being used as the basis for arrests. At one place, he said, the agents found a list of "customers" containing approximately 700 names. Numbered among them, according to Hazeltine, are some prominent residents of Jacksonville.

Approximately 60 arrests will be made tomorrow, officers said.

An Inviting Entrance at Coral Gables.

The Beauty of Coral Gables Is Its Chief Charm

THE beauty of Coral Gables is its chief charm, and one which is of endless interest to visitors. It is a beauty which has been created, built up, perfected and developed day by day through the dovetailing of all of the various elements in one harmonious, unified plan. How admirably this has been done, and is being worked out with each new stage of development, may only be seen by careful study of the suburb.

Some visitors admire greatly the fine entrances at Coral Gables; some its plazas with their brilliant array of tropical shrubbery; some like the boulevards, parked and planted with choicest tropical trees; and others express their admiration of the more than 500 distinctive homes which are the pride of Coral Gables.

But it is all of these things combined which make the real Coral Gables—the most beautiful residential property in this country.

Every section in Coral Gables contributes its factors to the desirability of the community as a whole. But in the Country Club Section there have been established a series of fine buildings which will inevitably, from their dominating importance, make that section the one on which Coral Gables will rest its claims for greatest distinction in years to come. It is the section where Coral Gables' finest hotel will be built, where the big golf course and clubhouse will be established, where the Congregational Church will be built and where the College for Young Women will attract so many visitors.

It is a wonderful opportunity that the Country Club Section opens up for you. A bigger and better opportunity than was ever offered in Miami before. Come today to Coral Gables; be our guest aboard a de luxe Pull man bus and grasp this chance before it passes.

Justice James C. Croysey of the New York Supreme Court recently stated that the criminal problem cannot be solved without the co-operation of men willing to encourage boys, especially during their impressionable age. The judge said that fully eighty percent of criminals are less than twenty-five years of age and that the majority of all the youthful offenders commit crimes because they are in bad company during their boyhood, between the ages of twelve and eighteen.

No one agency has done more for the growing boy than the Boy scout movement, because scouting takes the boy at this age, teaches him how to do things and gives him the help and companionship of mature men of character and high standing. Scouting teaches the boy how to grow into the right kind of a citizen and provides the influence of a man in the life of the boy at right time.

Every boy is a hero worshiper. Just what character of a man becomes the hero in the boy's eye depends in a measure upon the community. Judge Croysey says: "Tens of thousands of boys are nightly on our streets looking for amusement, seeking adventure, yearning for companionship. Many of them have no fathers, and the parents of many others give little heed to the places their boys visit or the companions they choose."

Do we men owe no duty to those boys? Should we not provide places where such boys may meet and play and to under the influence of men of the right kind? This is a practical thing it can be done. It has been done in a small way and with wonderful results. Why should not we undertake it in a big way? We can lessen the crime in our midst by giving our attention to the youth of our community. The real man's guiding hand and help-ful personality. They need the example of a true man's life in forming their character.

The community that does not do its utmost to provide the right kind of leadership for its boys is falling down on one of its most important obligations. Whether it be in the public school, Sunday school, Y. M. C. A., or in the home, the right man should be provided and given the proper support and encouragement.

The people of the country owe a deep debt of gratitude for the unselfish devotion of thousands of men who are giving of their time and money to help the boys of tomorrow. In Sanford we have a number of men serving as scoutmasters and as leaders of boys who are doing a great work for the community. They are due the everlasting thanks of the community for their good work. What they accomplish today will be reflected in the character of our citizenship tomorrow.

Better Pay Means Better Service. The Paige bill, now pending in Congress, provides for a readjustment of the salaries now being paid to employees in the post office department. In many instances the remuneration these government workers are receiving is wholly inadequate to provide a comfortable living. Service has been handicapped on account of poorly paid employees and it seems that in an effort to economize the government has continued to pile work on the men in the postal service without increased pay.

Rural letter carriers especially are finding it especially difficult to continue handling their jobs on the amount they receive. City carriers and post office clerks often complain that the amount they receive is too small in proportion to the work they do.

"Neither rain or snow, or heat of day or gloom of night shall stay these couriers from their duly appointed rounds," reads an inscription in the frieze of the post office in New York. In other words, nothing can stop the mails. No matter how much it snows or how hot the sun is, the mails must go. As a rule the members of the post offices of the country have been faithful to their duties.

The government should realize the necessity of paying well if they expect to have efficient work on the part of their employees. It is not the postal service that is the problem, it is the money. If it is to be improved, so many boys will be something will have to be done to see that faithful workers receive pay in commensurate with their labors. In the last ten years the salaries of postal employees have increased from ten to twenty percent while in the same time the cost of living has jumped about seventy percent.

Congress will be doing the people of the country a service as well as the employees in the post office department if they see that those doing this class of work receive just treatment for the part on the road to better postal service that will be made by giving those deserving of it, better pay. They in turn would undoubtedly give better service and the result will be evident.

DETROIT WILL request Henry Ford to lend to their city five million dollars to pay a balance due on the city railway system, taken over by the city. Quite a useful citizen is Henry Ford.

THE real service that he has rendered the city of Detroit, however, far more than any mere loan of five million dollars. What about the salaries of his own workers? He raised the salary of every mechanic in the automobile business. That is Detroit and the whole country.

HENRY FORD will build a great plant on the Mexican Gulf Coast in the free port zone recently established. That's one good news for Mexico. Big wages go with Henry Ford. And good things build up a country. Big men can only get what little men have to spend although a big man don't see realize it.

NOW, if Judge Gary will start twenty-five thousand men working on that mountain of solid iron that lies far from Mexico City, there will be three good pieces of news for Mexico. Nothing is better than country like prosperity, nothing disturbs it like hard times.

ONCE MORE let gamblers be careful in selling French currency. The French franc is selling at a low price. The French are not fooling. Although Polaire has made serious mistakes.

GREAT POWER and intelligence are in the French nation. The French law limits the issue of francs to one billion, only one billion six hundred million dollars at present values. Anybody who thinks that the French will issue \$1,000,000,000 does not know much about the French.

Dan Dobb Says. Prices can't come down here. Russia reminds us of a poor fellow in a rich neighborhood. The girl of the night is more interested in bonds than in bonbons. Every barber thinks every man needs a haircut. A Boston bridegroom lifted his bride on his shoulders. Which means of more to be true. If pieces of modern art are sold for 1000 years from now, people will think we wore no clothes.

Senator Brookhart is president of the National Rifle Association, proving one senator since well. When a politician is being vaccinated, it is about like being vaccinated. Sometimes it doesn't take. The cases of most things unimpaired. It is the results that count. Never throw rocks at jail doors or borrow money from the folks.

Headline man was arrested for robbing a filling station, so he would like to take his own medicine. A Chicago violin maker no longer is running for president. He is running for our government. When an earthquake shook the earth, it was Germany paying her debts. Our stand on Europe is not what we would like to see.

Little Brown Leaves. March wind blew hard, rocking the trees. Till the last clinging leaves of the trees were scattered. A little brown leaf fluttered gently down the walk, and over the park. The wind carried it along with a hurried along with rhythm of sound. Like the pattern of life, we see music they made as they fell. Dear little leaves brown and dry. One of the wings of the wild to a place. Where peacefully they lie, like the birds and they are off. The children who are glad to be free.

I watched them dancing on their way. These truths, in thought came to me. With your faces turned toward trees. You sheltered the songbirds tiny. From the cruel sportsman's gun. You sheltered their nest from curious gaze. You sheltered their wee babies from the little squirrel look, protection from the hawk. You have your place in art. There one thing too small to build in the plan of nature, a part of the brown leaves, from nature you came. Back to nature you must go. On the wings of the wind more fair. You have given your best, I gathered the brightest smiles from the sun. The kisses of dewdrops and air, and you carry it all to the beautiful trees. To deck them with young leaves as you are gone, Ah! who will give you one casual thought, then crushed to earth by foot of man? You beauty your death has bought. You have your place in art. Let us try to be as grateful and blessed as we are fortunate and blessed.

LITTLE BROWN LEAVES. March wind blew hard, rocking the trees. Till the last clinging leaves of the trees were scattered. A little brown leaf fluttered gently down the walk, and over the park. The wind carried it along with a hurried along with rhythm of sound. Like the pattern of life, we see music they made as they fell. Dear little leaves brown and dry. One of the wings of the wild to a place. Where peacefully they lie, like the birds and they are off. The children who are glad to be free.

FOR MR. AND MRS. BOWWELL. Wednesday evening, Mrs. Frank Miller entertained most delightfully at her home on Magnolia Avenue, the affair being in the nature of a farewell party for Mr. and Mrs. Harry T. Bowdell, who leave next week for their home in Providence, R. I.

Bill Tilden Will Not Enter Olympic Games This Year

PHILADELPHIA, Mar. 13.—William T. Tilden, II, national tennis champion, said Tuesday that the rule adopted by the American Olympic committee barring members of the Olympic team from writing for newspapers while abroad automatically bars him from competing in the games. Tilden said this is his interpretation of the fact recently taken, as he is under contract to write two articles a week during the present year.

NEW YORK, Mar. 13.—The United States will be without the services of its two tennis "aces" in the 1924 Olympic competition as a result of Wm. T. Tilden's withdrawal because of a ruling that American Olympic competitors can not write for newspapers or syndicates while abroad.

William M. Johnson, former champion, who ranks next to Tilden in the national lists, previously had decided he would be unable to accept an invitation to join the Olympic team which the United States Lawn Tennis Association plans to send to France. The anti-writing regulation may further hit the ranks of tennis candidates, it was pointed out, because Vincent Richards, Davis cup player and fourth ranking star, is also said to have a 1924 contract for newspaper work. Richards is now in Florida.

STRIBLING AND M'TIGUE TO PUT UP A GOOD BOUT

Stribling is Not the Favorite He Was Two Months Ago and Opinion Prevails That Fishman Will Beat The Georgian Boy.

NEW YORK, Mar. 13.—The Mike McGee-William Stribling feud is to be resumed in the east this month and it is to be hoped that the citizenry militia and Ku Klux Klan will be satisfied with one decision this time rather than three, as was necessary when the two met last fall in Georgia.

It will be recalled that on the previous occasion Referee Ertle, an official of some standing in big league fight circles, broke all records for generosity in this respect by first giving the fight to McGee, then calling it a draw and finally awarding it to Stribling.

Mr. Ertle's mistake, by the way, and his associates feel that only the physical limitations of the struggle prevented him from giving four, or even five, different decisions, ol-w, guttural threats of gun-toting Klansmen and the ominous glint of fixed bayonets have a way of upsetting a fellow. Stribling hasn't been fighting so impressively of late to warrant the belief that he will exactly run rough-shod over McGee, who poses as the world's light-heavyweight champion. To win the title Stribling must register a knockout, since no official decisions are given in New Jersey. The young Georgian, however, does not figure to score a knockout.

It becomes increasingly evident that Stribling is not a puncher, nor does he appear to be developing a punch. He isn't stopped a really formidable fighter since he has been in the ring, and his number of knockdowns has even been meager. Stribling himself was knocked down by Norman Ghent, a second-rater, in Florida, and more recently he was beaten by Slate Slattery, a young Buffalo knockhand.

LOCAL BOXING STARS WILL BE SEEN IN ACTION AT ARMORY FRIDAY NIGHT

Indications Are That Ring Exhibition Sponsored by Florida National Guard Companies Will Be Big Success

Indications are that the first boxing exhibition to be given in Sanford, under the auspices of the local companies of the Florida National Guard, will be a big success. The show will be held at the new armory in the Kent Building on Friday night at 8:30 o'clock.

Matchmaker Billy Dawson, of Jacksonville and Tampa, who will have charge of the bouts, arrived in Sanford Wednesday and is busy making final arrangements for the show, which will include not only a fast 10-round bout between Otis Hurst, of St. Petersburg, and Young Ketchell, of Philadelphia, as a headliner, but two fast preliminary bouts in which local boys will be the participants.

The card, as arranged by Mr. Dawson, calls for 26 rounds of boxing besides a battle royal which will be participated in by five of Sanford's "hardest sons of Ham." The first match of the show will be a four round affair between two local lightweights, "Battling Ed" and the second and Glenn Whiting. The second preliminary will also see two local boys in action, Johnnie Gordon and Mutt Lewis, two promising 158-pounders, will furnish the excitement in this match.

As a semi-final, Matchmaker Dawson has secured Joe Mate and Irish Hickey to do the honors. Both men are said to be fast and aggressive and should give the fans a good exhibition. Both have appeared in Jacksonville and Tampa, each winning a majority of their bouts.

The feature of the show though will be the 10-round bout between Hurst and Ketchell. Ketchell won a fast match from Bobby Gibbons, of Louisville, Tuesday night at Tampa. In these two mitt artists, Mr. Dawson promises fans of this city that they will witness two of the best lightweights in the south.

Ketchell, formerly of Philadelphia, but now making his home in Jacksonville, has become a favorite in that city for his ability. Down in St. Petersburg Hurst has made an enviable reputation, taking on all comers and winning practically all of his bouts. Fans in the "Sunshine City" predict that he will be the winner in this match with Fitch II, while those of the latter city are equally confident that Ketchell will be the victor. At any rate the match will be a good one and one that will be well worth seeing, according to Mr. Dawson.

If the Friday night exhibition proves a success and local supporters believe that it will, there will be held here every two weeks, an attractive boxing card, Col. George Krebs, head of the National Guard troops in Sanford, is pleased with the reception that plans have met with thus far and hopes that some interest and enthusiasm in the sport will be created.

The bouts will be staged here under the full permission of war department officials as well as officers of the National Guard of this state. Adm. Gen. Clifford Foster and Maj. Raymond Turek are both in accord with staging the sport, it is said.

Promoter Will Go Ahead With His Plans Despite Announcement That Champ Will Engage In Bout With Firpo. NEW YORK, Mar. 13.—Despite increasing indications that the Metropolitan district early in June between Jack Dempsey and Tom Gibbons, would be shelved, Tex Rickard declared Wednesday night he would make a definite offer within a few days to Jack Kearns, the champion's manager.

Faced with the statement of Dempsey and Kearns that the titleholder's next bout and only 1924 battle probably would be against Luis Firpo in September, Rickard reiterated that he is going ahead with Dempsey-Gibbons plans. The promoter already has obtained Gibbons' consent to terms.

Kearns, however, while admitting that an attractive enough offer would influence him to alter his plans, admitted that he does not expect Dempsey to risk his crown again until around Labor Day. Contracts for motion picture work by Dempsey which Kearns expects to sign in a few days would keep the champion busy until July 1, after which he would be ready to start training for a title championship.

Mohammed had Sweet Tooth, Records Show

One of the oldest dishes of which any record can be found is the Arabian "Khabis," which is said to have been invented and named by the prophet Mohammed. It consists of fine selected dates coated with a mixture of honey and butter, and it is still a favorite dessert and confection among the Orientals to whom the date is a staple food. It is interesting to note that the word "khabis" has come to be used by the Arabs as a synonym for happiness. The first prophet of Islam must have been a very skillful dietitian, for his favorite dish would be an almost perfect and very digestible food. Dates contain a form of sugar which is especially easy for the human body to assimilate, and also protein, fat, lime, iron and cellulose or roughage. With the butter to increase the protein content of the mixture and the honey supplying more sugar in a digestible form, the prophet's delight would make an excellent meal all by itself.

To Buy Right

In Real Estate, LOCATION is second only in importance to price, and often is the controlling factor in the sale of a piece of property.

Decide carefully the use to which you wish to put the property, and also consider its possibilities in the future. Whether searching for business or residential locations, the man who consistently reads the offerings on The Herald Want Ad Page cannot fail to profit, as every day real bargains find their way into these columns.

Daily Fashion Hint

YOUTHFUL FROCKS CAREFULLY FASHIONED

For little girls, the bloomer dress to be left may be fashioned in blue gingham, with applique in yellow and white. The long taglan sleeves are gathered to straight bands, and the front is shirred below the round collar. Medium size requires, for dress and bloomers, 2 1/2 yards 36-inch material.

The needs of both girls and juniors are catered to in the outfit pictured to the right. It consists of a straightline frock of dark-blue wool jersey and a cape of the same material lined with bright red silk. The dress has long taglan sleeves and, if desired, the lower part may be made of a contrasting fabric. The cape is gathered at the neck to a wide collar, which may be rolled high or low. It is shirred in front to slip the arms through. Medium size requires, for the dress, 1 1/2 yards 34-inch tubing; for the cape, 2 yards 34-inch material.

First Model: Pictorial Review Girls' Dress No. 1731. Sizes, 1 to 5 years, price, 30 cents. Applique No. 12630, master, blue or yellow, 30 cents.
