Children's Party

Mrs. T. A. Neal gave a beautiful party for children at her charming home on Park avenue last Monday afternoon in honor of her little daughter Margaret's third birthday. The pretty rooms were daintily decorated in a color scheme of pink and were fragrant with quantities of Duchess roses and Easter lilies. In the dining room the shades were drawn and the incandescent lights and candles gave just the light to make the scene most effective.

The beautiful cake bore the three tiny candles and was further ornamented around the edge with little rabbits and in the centre was a basket filled with over-bowing with cunning little chickens.

The piece de resistance, was the Jack Horner pie that centred the beautiful table and from out of the depths of this pretty pink pie all sorts of favors were drawn to delight the heart of every child present. There were whistles, knives and horns for the boys, and dolls, baskets and pails for the girls. Dainty refreshments were served, the ice cream in cornucopias.

The large number of beautiful gifts with which the fair little honoree was showered attested her popularity and the guests wished for her many more happy anniversaries. Mrs. Neal was assisted by Miss Gelsie Butt and the Misses Hand.

Those invited were LeClaire Jones, Marian Hand, Thelma Newlan, Macey Newlan, Margaret Petera, Gladys Wilson, Martha Chappell, Kathleen Brady, Lillian Shinholser, Julia Laing, Olive Newman, Martha Driver, Sarah Wight, Jean Maxwell, Charlotte Stryker, Elizabeth Whitner, May Holly, Ethel Goodwin Perkins, Esther Miller, Fern Ward, Irma Smith, Charlotte Smith, Algernon Spear, Billy Fitte, Hefny McLaulin, Victor McLaulin, Walter Carter, Mildred Holly, Norma Herndon, Anna Stiles, Sarah Epsterby, May Thrasher, Lawrence McDaniel, Dorris Hand, Robert Mason, Anna Mason, Jack Fox, Deane Turner, Joe Caldwell, Walter Connelly, Albert Connelly, Hawkins Connelly, Alice Caldwell, Thomas Wight, Sidney Chase, Frank Chase, Elmer Tolar, Lillie Ruth Spencer, Emma Spencer, Carolyn Spencer, F. F. Dutton, Jr., Louisa Shinholser, Theodora Miller, Harry Woodruff, Ralph Woodruff, Arthur Zachary, Helen Jenkins, Virginia Jenkins, Florence Stringfellow, Mary Snell Ruby, Helen Peck, Lee Peck.

At the Welaka Club

The members of the Welaka Club enjoyed a delightful sewing party at the club rooms last Tuesday afternoon. Dainty refreshments were served by the house committee, Mrs. F. L. Woodruff and Mrs. J. C. McDaniel.

Miss Fox Entertains

Miss Martha Fox entertained the Senior Class of the Sanford High School of which she is a member, last Wednesday evening at a "tacky party" and it was a most unique and enjoyable affair. The color scheme was red and yellow and the pink lemonade was served from a yellow bowl. The place cards were sticks of candy, to which the guests names were attached. The girls and boys came in costume and were masked and the first contest was to guess who they were. Miss Carrie Lovell won the prize, coming nearest to recognizing her friends in their disguise. In a doughnut eating contest Miss Ruth Mettinger won the prize. Harry Carlson and Sadie Williams won in dry goods contest and Mabel Cowan and Ralph Wight walked off with the cake walk prize. Those present were Mr. Geo. Fox, Mr. and Mrs. Geo. Fox, Jr., Mr. and Mrs. Deane Turner, Misses Carrie Lovell, Willie Singletary, Gussie Tillis, Ruth Mettinger, Mabel Cowan, Sadie Williams, Eugenia Pope, Messrs. Ernest Householder, Seth Woodruff, Harry Carlson, Valle Lovell, Marks Baker, Ralph Wight, Abie Kanner and Ernest Betts.

Mr. Lake Presents Bills

Representative Lake has presented two bills before the legislature as follows:
A bill to be entitled an act to abolish the present municipal corporation of the Town of Goldboro, Orange County, Florida, incorporated December 1st, A. D. 1891, under the General Laws of the State of Florida governing cities and towns, and to provide for the protection of all creditors of the said Town of Goldboro, Orange county, Florida.
A bill to be entitled an act to abolish the present municipal corporation of the Town of Sanford Heights, Orange County, Florida.

The Wednesday Club

A fine attendance of the club was present Wednesday afternoon in their charming club room at Mrs. D. L. Thrasher's to enjoy the literary treat in store for them in the reading of the fine papers prepared for the afternoon.

If Virginia's Great Commoner, Patrick Henry, could have been present—perhaps his spirit was there to hear the interesting sketch of his life, with all of its early indecisions, hardships and trials, until his slumbering genius was awakened and he at last came into his own, with the fine tribute paid to him by Mrs. H. H. Chappell, as she told the club of his great patriotism and the part he played in launching the revolution, his manifold services to his country and the honorable positions he filled. Also his thrilling oratory. Even as a dweller in the great beyond he could hardly have failed to be gratified and repaid for all that he endured, in knowing how his country appreciated him and revered his memory.

Mrs. J. C. McDaniel read a pleasing little account by Hallie Rives, in "Hearts Courageous," of how Patrick Henry became a lawyer. Miss Peachea Leffler gave an interesting sketch of George Mason, another patriot, and personal friend of Washington, who did yeoman service for his country in her great need. He drafted the famous "Bill of Rights." He also assisted in framing the Constitution. Was a member with Washington of the Burgesses and later the Continental Congress.

Miss Mell Whitner prepared a most excellent and interesting paper on "The Randolphs" of colonial days, which was read by Miss Mabel Bowler in Miss Whitner's absence. The patriotism, vallant services, distinguished positions held by the successive heads of this illustrious family, in their country's councils—their learning, wit and oratory was charmingly told by Miss Whitner, in the short sketches given of each most notable member of the Randolph family.

Mrs. L. R. Phillips held the close attention and interest of her listeners, in reading her fine paper on "The Wisdom, Wit and Pathos of Virginia Orators." Mrs. Phillips cited only the most brilliant examples of colonial oratory, beginning with the Declaration of Independence, written by Thomas Jefferson and his inaugural address, also some beautiful thoughts in his Notes on Virginia. Washington's "Farewell Address." Madison's great speech on the adoption of the "Federal Constitution." Monro's address on "Federal Experiments Known as the Monroe Doctrine." Edmund Pendleton's address on the "Federal Constitution." Edmund Randolph's notable defense of Aaron Burr. John Randolph was mentioned as a remarkably fluent, extemporaneous speaker.

Light Horse Harry Lee's famous funeral oration over Washington, which is accorded a high rank among American classics; the address on the death of Jefferson by William Wirt, the lawyer, author and orator. In Jefferson's notes on Virginia he pays a glowing tribute to the native oratory of Logan, the Mingo Chief, whose family was killed by American soldiers. Quotations from the addresses mentioned were given and the paper ended in a lengthy quotation from Patrick Henry's immortal speech.

"My Lady of Literature" was most entertaining as sketched by Miss Tetherly, who mentioned the most prominent writers of Virginia and southern literature, both of prose and poetry, with pleasing and clever comments upon the lives, personalities and works of each, as she assigned them their places in literature. Space does not permit the names of the works of Ellen A. Glasgow of Virginia, Miss M. G. McClellan, Virginia; Amelia Rives (Countess Trowbatzaky); Margaret J. Preston, Pennsylvania; Sara Agnes Pryor, Virginia; Mrs. Barton Harrison, Marion Harland, Mary Johnson, Frances Baylor and Julia Magruder. These talented women have each contributed largely toward making Richmond the southern literary center. How can the study of a foreign country ever furnish the pleasure, jest and benefit, or inspire the patriotism, that the present program has done for so many of the club? The contemplated study will be a variety interesting and instructive, as it enlarges the scope of information, but it will not be our very own, our native land.

At the conclusion of the program Miss Mabel Bowler, accompanied by Miss Flossie Frank sang "A May Morning." Miss Frank and Miss Bowler then sang a duet, Favorite," which was much enjoyed by the club.

Program for April 19th:
I. Reminiscences of Richmond, Mrs. G. L. Maris.
II. The Colonial Gentleman, Mrs. M. Martin.
Society in the Old Dominion.
a. Travel and Transportation, Mrs. C. C. Woodruff.
b. Physicians, Lawyers and Parsons, Mrs. J. N. Whitner.
c. The Country Store, Mrs. J. C. McDaniel.
d. The Dress of the Colonists, Miss Mabel Bowler.
Critic.

IN SANFORD CHURCHES

Where Devout of the Celery City Worship Sunday.

RESUME OF ALL CHURCH EVENTS

Of Interest to Those Religiously Inclined—Subjects of Discourses for the Sabbath.

The Pastors of the Churches in the City are Earnestly Requested to bring or send their Announcements and other Church News to this office not later than Wednesday afternoon.

The People's Congregational
Rev. George B. Waldron, pastor; Sunday morning service, 11; evening service, 7:30; prayer meeting Wednesday, 7:30 p. m.; Sabbath school, 9:45 a. m. J. C. Ensminger, Superintendent.

Easter Sunday and the first day in the new church will be observed by special services both morning and night. Easter music in the morning, under direction of Mr. E. T. Woodruff, Miss Emily Trafford organist, and choir of eight voices. The public is most cordially invited to join with us on both occasions. The programs of the day are as follows:

CULLED FROM THE STATE PRESS

An Epitome of the Week's Most Important Happenings in the State's Domain.

At a special meeting of the Halifax River Yacht Club at Daytona it was decided that if the sum of \$2,000 could be raised among the townspeople and visitors the yacht club would guarantee \$2,500, which sum is about what it will cost to have a section dredge dig a good, deep channel from the club house, across the flats in the middle of the river to the main channel of the east side, and also to dredge a large basin on the west side to accommodate the large, deep draft yachts which come down the east coast through these waters and which now are obliged to anchor at the draw of the south bridge nearly half a mile from town.

The Booster Club, a recently organized effort to keep "Bradentown" to the fore, will organize a post card sale beginning Thursday of this week and continuing until the evening of May 1. The cards will contain views of the city and vicinity and will be offered for sale by a bevy of young ladies, the most successful of whom will receive a gold watch for her industry. It is expected that at least 5,000 cards will be mailed between the dates named.

The eighteenth annual session of the Florida Bankers' Association will convene in Ocala on May 10 and 11. This association is composed of the leading financiers of the state and numbers among its officers and members many of the prominent bankers of Jacksonville, all of whom expect to attend the session.

The Arcadia city council has repealed the ordinance providing for the issue of \$440,000 bonds voted for last year, and a new ordinance has been adopted calling for another election May 16, for the purpose of voting for a bond issue of \$50,000, \$20,000 for water works, \$20,000 for sewerage and \$10,000 for street purposes.

The shipping of new potatoes from the Hastings district began in earnest this week. The quality is good and the yield runs from thirty to thirty-five barrels to the acre. The market opened at \$6.50 a barrel for firsts, but dropped to \$6, with \$5 for seconds. Always the acreage is larger this year than last, yet the total yield will be only slightly greater than that of 1910, owing to the late cold spells.

Hon. W. H. Milton has definitely announced that he would be in the race for the nomination of government. At the proper time, he says, he will formally announce his platform and give his views on the issues involved in state government. This makes three definite entries this year. Hon. Cromwell Gibson, Hon. Park Trammell and Senator Milton.

A question of burning interest was started in the three communities of Daytona-Seabreeze and Daytona Beach when it became known that a sweeping reduction in tolls over the bridges which span the Halifax had been made by the county commissioners—at their regular meeting, Tuesday, April 11, the reduction to go into effect on or before May 1.

Orlando is now likely to have a fine five-story building at the corner of Orange and Central avenues, and this will add greatly to the appearance of that flourishing town. The Reporter-Star says that Messrs. Giles and Beacham, who have recently purchased the lot at the corner mentioned, "will erect a five-story building, modern in every particular, with elevator and every convenience."

Easter at the Catholic Church

With becoming ceremonies the great feast of our Lord's resurrection was celebrated at the Catholic church. At the early mass about fifteen children received first holy communion, a truly beautiful and impressive ceremony.

At the 10 o'clock mass Mrs. Cuttrel of Rocky Mount, N. C., who is visiting Mrs. Hayward Young, delighted the large audience with her singing. Mr. J. D. Parker presided with his usual ability at the organ and used his fine tenor voice to good advantage.

As a new organ has been installed in the church, the music next Sunday will be more elaborate and Mrs. Cuttrel is expected to sing for us again.

SANFORD HEIGHTS PROPOSITION

Mistake in Boundary Lines Will Nullify The Charter

It appears that the incorporators of the town of Sanford Heights have perpetrated a huge joke upon their Sanford friends. One of the liveliest topics ever discussed in Sanford has for many weeks been the incorporation of Sanford Heights; and the controversy between the citizens of that fair little suburb and the citizens of Sanford has assumed every phase from frivolous to serious.

Now, it develops that there isn't any incorporation of Sanford Heights at all; and it is fair to assume that the errors which nullify this charter were really intended, and not the result of a want of knowledge or ability on the part of the incorporators. The charter is void for the following reasons:

In describing the boundaries in the original call, errors were made sufficient to invalidate the charter; as, for instance, when after following certain lines to a point in the center of the A. C. L. Railroad, south of Goldsboro, the line runs thence south along the center line of said railroad to the south boundary of section Thirty-six and Thirty-one, township nineteen south of range thirty east to the west line of Mellonville avenue.

Now, this section 36 is out of that neighborhood, but the railroad nowhere touches the south boundary line; but when it reaches a point that far south, it is well over in section 35. Section 31 of township 19 south of range 30 east lies six miles west of Sanford avenue. So much for the original call.

When the proceedings incorporating the town were had, it was necessary to set up the call and its publication and repeat exactly the metes and bounds as described they start their boundary line at the same point; that is, the northwest point of intersection of Celery Ave. and Mellonville Ave., being the southeast corner of the town of Sanford; then they run east along Celery avenue to the west line of Sanford Ave. To do this, they must travel the 25,000 miles more or less, representing the circumference of the globe approximately. An interesting trip.

Getting back to the west boundary line of Sanford Ave., they follow with fair exactitude their original description, making the same mistake with regard to sections 35 and 36; and when they turn east they travel along the south; and this description conveys no intelligence whatever. They also state that these sections are in township 19 east. There isn't any township 19 east in the state of Florida. Townships all read north or south in our survey from the Tallahassee base line, and ranges read east and west.

Broom Corn Raising

The following letter is addressed to E. T. Woodruff, secretary Commercial Club, and may be found worthy of consideration. The writer's address is 2008 Greenwood St., Covington, Ky.:

"Would you please try and induce your farmers to raise broom corn this summer? I have a friend who desires to go to Florida with me next fall. Broom corn will grow almost anywhere and there is no reason why it should not grow in Florida. Please give this matter your kind attention and oblige.

Yours truly,
C. H. CARROLL

Cheap Rates to Tallahassee

On account of the annual meeting of the Florida Press Association at Tallahassee next week Sanford people have been made a rate of \$7.75 for the round trip, commencing April 22 and 23 and good until 27th. Every one contemplating a visit to Tallahassee should take advantage of this opportunity.

Notice

The citizens of Sanford and adjacent country are called to meet at Eagles' Hall, Tuesday night, May 1st, to organize a permanent hospital association and to continue the work already begun. Every one who loves humanity and pities the sick and needy, is urged to be present.

—Mrs. J. N. WHITNER,
36-2p President Temporary Organization

Will Build Apartment House

J. H. Ferguson has let the contract for a fine fifteen room house on the corner of First street and French avenue. Mr. Ferguson will have the house ready for occupancy before the fall exodus of tourists comes to Sanford.

Bank Will Close

Wednesday April 26th being memorial Day the banks will close for the day.

LEGISLATIVE PROCEEDINGS

A United States Senator Elected on Tuesday and Wednesday

Both houses of the legislature are keeping up their reputation gained early in the session for a "business legislature". The grind is going on smoothly and business being turned off at a good clip.

Tuesday at high twelve the time set by the constitution and by law having arrived both houses proceeded to ballot for the election of a United States Senator from Florida. In the house of representatives the nominating speech was made by Floyd of Franklin and the speech was considered one of as eloquent as has ever been made on similar occasions before. Butler of Duval seconded the nomination of Mr. Bryan. The house then balloted, 67 votes being cast for Bryan (three members absent). In the senate the nominating speech was made by Sen. J. C. L. Engle of Duval. At twelve o'clock on Wednesday the senate and house met in joint session, president Cone of the senate presiding, and with all the formalities required on such occasions the ballot of each house was announced and the proceedings of the day previous read, and Hon. N. P. Bryan was declared the duly elected senator from Florida to succeed Senator Taliaferro the present Senator.

Mr. Fee of St. Lucie had a resolution adopted calling upon the state board of health for a report as to what means they had employed and what steps taken to prevent the spread of certain contagious diseases now prevalent in parts of the state.

Gray of Gadsden has a bill (a compromise measure) dealing with the unlawful securing of teachers examination questions. The bill proposed by the educational commission was considered too drastic by the house and was killed. Gray's bill so far has met the approval of both contending factions.

The bill to require ads in newspapers tagged which was vetoed by Governor Gilchrist at the end of the last session was again up this week and the Governor's veto sustained by a big vote.

Speaker Jennings has a bill through the house adopting the proposed Federal income tax. Only 4 votes were registered against it.

Dorman of Suwannee has a measure to place the regulation of all telephone rates under the jurisdiction of the Railroad Commission.

Gray and Sheppard of Gadsden have in an anti-lobbying bill.

Reddick of Holmes has in a bill prohibiting county judges from issuing marriage licenses for females under the age of 20 without the written consent of parents or guardians.

Speaker Jennings' bill for forming a teachers' pension fund has been unfavorably reported by the committee on education.

Mac Williams is still hopeful for the submission of the capital removal question. He has a bill now in providing for the submission of the question.

Wilson of St. Johns has a bill in to reimburse persons losing property by theft. Unfavorable report.

Dorman of Suwannee has in a bill proposing amendment to constitution allowing an exemption on property of all widows and also of ex-confederate soldiers who have lost a limb, to the extent of 1,000 dollars.

Mr. Somerville of Hillsboro desires to prevent the use of repeating shotguns in hunting birds.

Mr. Gornot of Lafayette wishes to have all dogs kept from running at large during certain seasons.

Senator Flournoy is seeking to have legislation enacted providing for an inheritance tax.

The Governor's report of the action of the pardon board is interesting reading. Out of 317 applications for pardon only four full pardons were granted, 69 conditional, 9 restorations to citizenship, 12 prison sentences commuted, 3 fines remitted, 3 fines reduced, 2 costs remitted, 198 applications denied, 2 death sentences commuted, 8 denied.

The race track bill was probably the hardest fought proposition in the house this week. The senate passed the Sloan bill without a dissenting vote. The measure is still up in the house however. It is predicted that it will pass the house by a vote of about 42 to 28. A strong lobby is here fighting the bill.

Gray of Gadsden has succeeded in getting his railroad relief bill safely past the second reading and it will probably pass by a very safe majority. The railroad affected by this bill has had a lobby here fighting the measure, but to little effect.

FAVORS LAKE FRONT

Prominent Property Owner Gives His Views on Subject

T. J. Check, one of the largest property owners in Sanford writes the following letter from Charleston, S. C., to W. D. Holden of this city:

"They are building an additional bulk head or sea wall at Charleston, S. C., several blocks long and are working day and night to finish it. They estimate that the created lands will three times pay the expense of same. Fifty foot lots are now selling from \$1,800 to \$2,000. Booming the dead town of Charleston as never before. You are a benefactor to Sanford for pushing along this work. It will boom Sanford and make it the most talked of city in Florida.

The Wednesday Club

As usual a large number of the club were present Wednesday afternoon in the home of Mrs. D. L. Thrasher.

The president, Mrs. Geo. L. Morris's paper on "Reminiscences of Richmond," was very interesting, the subject being cleverly handled. Beginning with the naming of Richmond on the 19th of September, 1733, by Col. William Bird and Peter Jones, some of the very quaint customs of the early settlers of the now beautiful city and pride of Virginia were recounted in a charming and bright manner.

Mrs. M. Marth's paper on the "Colonial Gentleman," was postponed for a future meeting.

"Society in the Old Dominion, Travel and Transportation" in vogue among the earliest colonists was made very entertaining in the well prepared paper by Mrs. C. C. Woodruff.

Doubtless very accurate, if rather unflattering pictures, of the first Physicians, Lawyers and Parsons were given in a reading from "Old Virginia and Her Neighbors" by Mrs. Bowler, in the absence of Mrs. J. N. Whitner.

"The Country Store," a paper by Mrs. J. C. McDaniel, was also postponed, owing to Mrs. McDaniel's absence.

Miss Mabel Bowler's paper on "The Dress of the Colonists" was a vivid portrayal of the very pronounced style of dress that adorned our ancestors. Comparing the past with the present, the styles of dress have changed very materially, and in favor of even some of the up to date costumes of the present varieties of fashion.

Miss Bowler, accompanied by Mrs. D. L. Thrasher, sang "The Garden of my Heart," which was enjoyed by all who were present.

Program for April 26th:

1. Colonial Churches, Mrs. S. O. Chase. In the Home;
 - a. The Light of Other Days, Mrs. D. L. Thrasher.
 - b. Kitchen Fireside, Mrs. C. E. Walker.
 - c. Meat and Drink, Miss Flossie Frank.
 - d. Serving of Meals, Miss Alice Whitner.
 - e. Spinning and Weaving, Miss Mell Whitner.
- Reading, "The Old Time, Flower Gardens," Miss Lillie Farnsworth.

THE WEST SIDES LADIES

Doing A Good Work in Improvements in That Section

The West Side Improvement Society held a very interesting meeting Thursday April 13th, at the Robbins Neat at three p. m. After the business was transacted a short time was spent in social chat, one of the ladies favored us with music both instrumental and vocal, which was highly appreciated.

The society has had seats made and placed on streets under the beautiful trees for the convenience of pedestrians.

The ladies of the west side gave an Easter egg hunt on Saturday April 15th, for the little folks at West Side Park. There was about fifty of them present. Everything was ready at three o'clock, the signal was given, they all started out on the trail, they proved to be good hunters, as they soon returned to the starting point with their faces beaming with happiness and their hands full of game.

Odd Fellows Anniversary

The ninety-second anniversary of Odd Fellowship in America will be celebrated by the Sanford Lodge next Sunday. Special services will be held in the Methodist church next Sunday evening, an address to be delivered by Rev. Hendry. The services will be held at 7:30 and the public is cordially invited to attend.

NEWS OF THE WORLD

Items of Interest Gleaned From Various Sources

HAPPENINGS DURING THE WEEK

Here the Readers Will Find a Brief Historical Spring Finding For Hurried Readers

N. A. Shaw, a wealthy farmer and prominent in Texas political circles, believes William Jennings Bryan is a thorn in the side of Democracy and that the differences between Bryan and Bailey should be settled by debate in order not to peril the ultimate unity of the party. Mr. Shaw states that he is willing to bear the financial expense attached to such debate personally, and to give the "gate receipts" to the "Commoner."

Governor Wilson has sent a special message to the New Jersey legislature, urging the adoption of a law providing for commission form of government for cities and for the initiative, referendum and recall.

Furries in snow early Sunday morning and about church going time a bright afternoon sun, anothered now and then beneath great white puffs of cloud, and cold wintery winds which sent many an Easter hat aeroplaning, were the vagaries of the weather in New York.

One hundred persons, it is expected, will be disfranchised as the result of an investigation into vote buying in Lawrence county by the grand jury now in session. This is the tenth county in Kentucky, where such an investigation has been ordered in the last month. Some prominent people are involved.

Beats New York

H. F. Poyser, a well known traveling man was in the city this week and being in need of underwear dropped into the store of D. A. Caldwell & Sons. He wanted union suits and expected to pay about \$2.00 per suit for them. Instead he was shown a good union suit for 47 cents. He was dumfounded and immediately bought one dozen suits, remarking to a friend at the Sanford House afterward that Caldwell & Sons had the big New York department stores skinned to death, as he paid \$3.00 per suit for the same material in New York.

Moral: Go to Caldwell's for everything. They have it.

Robert P. Phillips

Mr. Robert P. Phillips died at the home of Mr. and Mrs. F. F. Dutton, corner of Seventh street and Park avenue, Thursday 9:10 a. m. Mr. Phillips was 73 years of age and was born in Lawrenceville, N. J., Nov. 17, 1837. He belonged to the distinguished family of that name who were famous in Revolutionary times.

He leaves two daughters to mourn his death, Mrs. F. F. Dutton of this city, late of Philadelphia, and Mrs. Walter Oshana of New York. The body will be taken to Gunston, N. J., for interment. The community extends sympathy to saddened ones.

Editor Has Fatal Accident

J. R. Merchant, recently of Gainesville, editor Madison Enterprise-Recorder, died Monday afternoon as result of injuries from falling from a wagon four miles from town. Death resulted before medical aid reached him. He and wife were in charge of a party of picnickers to Blue Springs.

Just Women

There are women who are comely,
There are women who are homely,
(But be careful how the latter thing you say.)
There are women who are healthy,
There are women who are wealthy,
There are women who will always have their way.

There are women who are truthful,
There are women who are youthful,
But was there ever a woman who was old?
There are women who are sainted,
There are women who are painted,
There are women who are worth their weight in gold.

There are women who are slender,
There are women who are tender,
There are women who have temper, so 'tis said,
There are women who have married,
There are women who have tarried,
There are women who are talkless, but they're dead!

¶ If the bill providing for the establishment of an agricultural and industrial school in each congressional district in Florida becomes law, as seems probable, Sanford should by all means put in an early claim as an eligible site for the location of the school in this district. The dispatch from Tallahassee concerning the measure, assumes that if the schools are established they will go to Jacksonville, Tampa and Pensacola, but there is no sound basis for any such assumption.

The measure provides that the schools shall be located at the most desirable sites and where lands and building are offered as an inducement. Sanford is a more convenient and centrally located site for such a school than any other point, and in other respects incomparably more appropriate, being in the heart of the best agricultural section of Florida, and where students would be removed from the temptations of city life and the open saloon—a consideration of the first importance in locating such an institution.

It is said that the bill meets with general approval among legislators and has an excellent opportunity for becoming law. If it does our Sanford people should get busy at once to secure the location of the school for this congressional district by offering the necessary lands and other inducements. Such an institution would

bring hundreds of students here annually and would be a great and permanent advantage to our city.

¶ A friend of mine is keeping up with the doings of the legislature and asked me just what is meant by the famous initiative, referendum and recall we are hearing so much about. It is just like this: When you go home before supper and announce that you are going down town after supper to meet a man, that is the initiative. Your wife looks at you right hard and says, "Are you?" in that ascending voice that makes you shrink two feet. That is the referendum. Then you think twice and decide to stay at home and read the paper. That's the recall.

¶ The cooperative idea among fruit and truck growers, having passed the experimental stage, has become an important factor in present day marketing. Scarcely any well developed horticultural sections are without their associations in one form or another. The benefits to be derived from such organizations are many. Small producers can make combined shipments in car lots, which is now considered the economic unit of shipment. Organizations, through the volume of their business, can secure minimum transportation rates. They can afford to maintain daily telegraphic communication with all of the important markets and are thereby enabled to divert cars already enroute to places where the demand is greatest. Growers are advised when to hold and when to ship. Uniform grades and packs are secured. Organizations are in a position to know the actual supply of their respective communities; hence managers, working in harmony, can regulate prices to a considerable extent. Through the association the members can procure packing material, fruit picking baskets, spraying material, and pumps, potato bags, etc., at a greatly reduced cost. By an interchange-of ideas and experience members are in position to eliminate unprofitable varieties of fruit and vegetables from the community and to develop thorough and economic systems of cultivation. These and many other advantages might be noted.

¶ At last my Utopian dream of a bulkhead lake front and grand boulevard seems about to be realized. For many years this beautifying the lake front has been my pet scheme and now that the height of my ambition seems destined to

take shape it seems that there are a few rosin heads in the city who are against city improvement. Their main contention is that the tax payer will have to stand for this expense, when in truth the property owners are willing to undertake it or sell to a man who will. The day of progress is here and those who grumble at every new forward movement ought to move to Sanford Heights.

—THE SAUNTERER.

LIQUID CURES ECZEMA WHERE SALVE FAILS

In regard to skin diseases medical authorities are now agreed on this: Don't imprison the disease germs in your skin by the use of greasy salves, and thus encourage them to multiply. A true cure of all eczematous diseases can be brought about only by using the healing agents in the form of a liquid. WASH THE GERMS OUT. A simple wash; A compound of Oil of Wintergreen, Thymol, and other ingredients as combined in the D. D. D. Prescription, penetrates to the disease germs and destroys it, then soothes and heals the skin as nothing else has ever done. A 25-cent trial bottle will start the cure, and give you instant relief.

The Need of The South Is The Need of Florida

There is no free land in the South as there was in the West. But, on the other hand, there were in the West no accessible markets in the early days, no transportation system, no settled civilization. The South has all these. One fact that the Southern people have themselves been slow to put full value on is the need of a larger working population. There has never been labor enough—neither unskilled farm

labor nor skilled labor. As for independent farmers—men who own their own land—there is now no parallel on the continent to the opportunities that the Southern States offer. New comers, of course, require some capital, but men who have enough money to begin life may begin it there with the best outlook for success.—Editorial in the February World's Work.

There is hardly a parallel in the state of Florida to the opportunities for successful diversified farming offered by the rich agricultural lands known as Volusia Farms, just across the river from Sanford. The success of Volusia Farms has been far greater than we anticipated this time last year when we first opened this district for settlement. Much of the land has been taken up by a splendid class of settlers, and this in itself, has made the remaining acres of greater value. The more people who settle on Volusia Farms, the greater the automatic increase in value, so that there will come a time—and not in the dim future either—when you will be glad to pay a price per acre based on the producing possibilities of the soil if you wish to settle there.

Diversified farming is the keynote to a good living and something in the bank. All over Florida today you will find corn fields, vegetable gardens, pasture lands, chicken runs, orange and grapefruit groves more equally divided on the average farm than formerly. Our farmers are not relying on one crop.

At the present price of chickens, eggs, meats and other table products, we look for a much larger diversity of agriculture in Florida than ever before. **We look forward to the time when Volusia Farms is the Center of the Greatest Diversity the State has ever known.**

Volusia Farms has the soil. Not because we say so, but because this is proven by the wide diversity of Volusia county products in general. Chickens, cattle and hogs can be raised on Volusia Farms almost without cost. The lands furnish an immense amount of food. Grass grows plentifully without cultivation.

All kinds of vegetables and fruits can be raised on Volusia Farms, and a man looking for a little recreation between times can enjoy the splendid fishing on the St. Johns river or hunting in the woods of the country.

Compared with the early days of the west (and we are in the

early days of the NEW Florida) one need but give little thought to the question of which offers the greatest opportunities. Volusia Farms has frontage on the St. Johns river. Volusia Farms has a standard railroad intersecting east and west. Volusia Farms has roads radiating all directions.

Yet with all the advantages of soil and equable year-round climate, Volusia Farms still need more people—the need of the South is the need of Florida, and the need of Florida is the need of Volusia Farms.

Volusia Farms Needs More People—Men with enough money to begin a life such as they have never known further north, a life where a man earns both the wages and the PROFITS.

We do not advocate any man to come to Volusia Farms without money unless he is willing to hire himself out until he learns the difference between Volusia Farms farming and the work he did previous to his coming here, and even then, a little money is a desirable thing.

To the small capitalist who is willing to put shoulder to the wheel in the early stages of settling in a new place, Volusia Farms is a good investment. Resulting from the past few years of general development throughout the State a constantly increasing tide of prosperity has set in with every likelihood of its continuance. Prices of land increase every week.

During the summer season, Homeseekers' excursions are run from all important railroad centers in the north and central west, leaving every first and third Tuesday of each month. Tickets are good for twenty-five days, a sufficiently long time allowance for anyone to come to Sanford and permit us to carry him over Volusia Farms.

You should not buy land sight unseen. We prefer not to sell you land sight unseen—although we will make a reservation for you and allow you to change location if at the end of a reasonable time you come here, and, after inspection, prefer another tract.

The Homeseekers' excursion

from your section affords you a splendid chance to take a few days off this summer to see what Florida is really like. It won't be so hot as the country you have left behind, for the breezes from either ocean or gulf continually sweep over the peninsula of Florida making our days enjoyable and our nights comfortable.

You'll see oranges "in the making"—green on the trees, you'll see our farmers busy with one of the three and four crops a year, and you'll see those who can leave home enjoying themselves at one of Florida's beach resorts or inland springs. Florida has all these advantages and no competition outside of her boundary line.

In thus seeing Florida for yourself you will understand her better and understand your own capabilities for getting a living from her rich soil. You will know what you are buying and WHERE. Beware of the booklet which contains illustrations taken in other parts of Florida other than those described in its pages. We recently looked over a booklet showing orange groves in a section of Florida where oranges do not grow—leaving the reader to infer that citrus fruits would do well in that section. We have seen a booklet containing the picture of an Indian river hotel, altho the booklet described a town over 250 miles from the Indian River.

The booklet, "Resources of Volusia Farms" tells the REAL story. Nearly all the pictures were taken by our Mr. Packard personally and every word in the booklet faithfully describes the resources of this favored fruit and vegetable belt of southern Volusia county. Send for the book. It is free. Even if you think you are not interested in Florida, read the book as a matter of information. Get posted on the wonderful development of Florida. Who knows but what the reading of the "Resources of Volusia Farms" may mean to YOU the red letter day of your life—the actual turning point of your career. This opportunity is with YOU. Send for the book NOW. Address your post card or letter plainly:

Efficient Staff of Reporters Weekly Covers the Territory for The Herald

OVIEDO AND LAKE CHARM

Special Correspondence to The Herald:

The announcement cards of Miss Anna Leinhardt, an Easter bride, read Mr. and Mrs. Joseph Leinhardt announce the marriage of their daughter Anna Katheryn to Mr. David Elmer Minor On Tuesday, the eighteenth of April one thousand nine hundred eleven Lake Charm, Florida.

The guests witnessing the early morning ceremony solemnized by the Rev. Father Bresnahan, of Sanford at the home of the bride were the immediate family friends Mr. and Mrs. Joseph Leinhardt, Mr. and Mrs. Lewis Leinhardt, Mr. John Whitby of Tampa, Mrs. Clark Harvey of Waldo, Miss Gladys Leinhardt of the Convent School, Orlando, Mr. Max Leinhardt, Mr. Minor of Crown Point, father of the groom, Mr. Andrew Leinhardt and children, Oviedo, Mr. and Mrs. T. L. Mead, Mr. and Mrs. C. L. West and Miss Florence Kinney of Lake Charm. Father Bresnahan came into the parlor and waited the bridal party before a mantle banked with flowers and palms. Mr. Lewis Leinhardt and Mrs. Whitby preceded the bride and groom, the entire service was very beautifully impressive. The bride was becomingly attired in white as was her sister, matron of honor. It was a very happy occasion for all. The wedding breakfast of fruit, sandwiches, olives, cake and coffee was very nicely served by Mrs. Leinhardt and her daughters, Mrs. Whitby, Mrs. Harvey and Miss Gladys. Several snapshots of the wedding party were taken in the front lawn, a pleasant entertaining past time. Lake Charm sparkled and danced in the morning sunlight as the wedding party made its way to the Lake Charm station and boarded the train for Oviedo where many friends were waiting to extend further good wishes and congratulations.

Mrs. C. L. West and Miss Florence Kinney entertained in honor of the bride-elect at Mrs. West's home, Tuesday afternoon April the 11th, from 3 to 5 o'clock. Miss Louise Brooke assisted the hostesses as the guests were arriving in asking each to write her name on an Easter card; later the several cards tied with ribbon were presented Miss Leinhardt as a souvenir register of the bridal shower. When all the guests had assembled Mrs. West and Miss Brooke entered the parlor from opposite doorway and approached the bride-elect seated near a profusion of palms and white daisy blossoms, each carried a daintily laden basket of beautiful wedding gifts which dropped from their hands one by one into the lap of the fair one revealing handsome table linen, hand embroidered towels and center pieces, silver and cut glass, pretty china and what not. The bride-elect clasped around her neck a dainty necklace just brought from Italy. The table in the dining room was very attractive with cut glass and silver and centered with a few choice roses. The refreshments were fruit salad, Russian iced tea and cake. Miss Leinhardt wore a green foulard silk with persian trimming.

Some fifteen or twenty young people from Oviedo enjoyed a pleasant drive to the home of Mr. J. S. McKenzie, two miles away, when Mrs. McKenzie entertained pleasantly in honor of her nieces, Misses Lois and Isabel Bishop.

The Easter services in the Methodist church, Oviedo, were largely attended. The sermon by the Rev. Mr. Brooke was most appropriate, and the music by the chorus choir, Mrs. H. B. McCall, leader, excellent—the two Easter anthems, the duet by Mrs. West and Mrs. McCall and the congregational singing.

Dr. C. C. Thayer and daughter, who have spent the past five months in the Lake Charm parsonage left Monday morning for their home in North Dana, Mass.

The school children had a pleasant picnic day with their teacher, Miss Mattie Chapman at White's Wharf, April 8th. The little ones enjoyed fishing in the brook while the older ones were on the water and in the water. All came together at the noon hour for the splendid picnic dinner.

The annual May picnic will be in the same place, a most ideal place for a large picnic, May 2, when the children will celebrate the close of school work for the year and Oviedo people generally will take a day's outing.

A company of twenty-five sat down Friday last to a splendid fish fry and picnic dinner on the banks of the Econlock-

hatchle creek. A more ideal day could hardly be imagined and it was difficult to decide what was the most enjoyable part of the day—the drive through the woods in a lumber wagon bumping around with a jolly crowd, or the strolling around under palms high above us after reaching our picnic grounds, the fishing in the creek (but that would not have furnished the fish fry had it not been for the young men who went in advance to seine), the excitement attending the return of the fishermen with loads of fish, the preparation for dinner, the eating of the same, or the after dinner lazy social time. The Lake Charm friends certainly appreciated the courtesy of Mr. and Mrs. J. H. Lee, who gave them the opportunity of enjoying a memorable picnic day.

Rev. and Mrs. M. D. Kinney and Miss Kinney leave their winter home at Lake Charm Monday, May 1, for their summer home in the Thousand Island region, New York state, spending several weeks in Philadelphia, Pa., with a son and his family.

Rev. Father Bresnahan held a service in the school building Monday evening. His theme was The Confessional of the Catholic Church.

School has closed at Umatilla and Miss Carrie Brooke is home for the summer vacation.

J. Leinhardt attended the reception accorded Mr. and Mrs. Elmer Minor by the parents of the groom in their home at Crown Point.

PAOLA POINTS

Special Correspondence to The Herald:

Sunshine and cloud, love, would there be flowers, were not the sunshine oft mingled with showers? Ask the last river boating party.

Mrs. C. F. Cooley and Miss Cooley, also Mr. and Mrs. W. H. Chadderton, who have been their guests for some time, left Thursday, the 13th, for Sanford, where they took boat for Jacksonville enroute for their northern homes.

Mr. and Miss Campbell left Tuesday for their Ohio home.

Miss McLain and Miss Ramona returned to their home in Geneva recently.

Mrs. W. H. Taylor was called to Georgia Saturday last by the serious illness of her mother.

The Sylvan Lake and Paola school closed April 7th and the usual school picnic was held Saturday, but it never rained until night.

Oscar Pearson returned from the east coast Tuesday.

One of the most enjoyable affairs of the season was the auction party given the night of the 10th, by the Misses McLain at the home of Mrs. W. H. Taylor. Beside the auction there were several guessing contests, the prizes—dainty boxes of home made candy—being won by Mr. Chadderton, Mr. Harry Snow and Miss Etta Hartley. Delicious cake and fruit punch were served.

GENEVA JOTTINGS

Special Correspondence to The Herald.

Miss Nellie Geiger has finished her school and returned home for the summer months.

Mrs. E. N. Sutton and little daughter are home again after spending several weeks at New Smyrna.

Miss Ramona McLain has returned from a pleasant visit of some length at Paola.

We are sorry to hear of the continued illness of Mrs. M. A. Fortson. She was taken to Sanford last Thursday for treatment. Her many friends hope for her early recovery.

Misses Nevada and Callie Grant attended the Easter services at Chiquota last Sunday.

Miss Mintz of Taylorville is visiting the family of her brother.

There was a moonlight picnic on Lake Harney Saturday night. Lunch was enjoyed upon the beach and boat rides upon the water. Quite a jolly crowd attended and the hours of the Easter morn were near ere the picnickers realized it.

Mr. and Mrs. Lemon are now at home at the residence of H. H. Pattishall. Mr. Lemon is employed by the new railroad.

Mr. and Mrs. Potter of New York spent several days last week with their friends, Mr. and Mrs. Geo. Peters. Mr. Potter visited Geneva seventeen years ago, and ever since has wanted to repeat his visit.

Miss Mayme McLain has completed her school at Paola and has returned home to the delight of her many friends.

Mrs. Gilbert, while wintering in Geneva has become quite an expert at catching bass. One afternoon last week she safely landed a 10 1/2 pound one from Buck Lake while standing on the Adams' dock.

The Easter services at the Methodist church last Sunday afternoon were very entertaining and pretty. Easter lilies, rosea, vines and ferns made the church like a flower garden. The songs were all new and well rendered by the choir. Appropriate recitations were spoken by a

number of the children, and especially sweet was "The Secret" recited and sung by four little tots. At the close of the services a voluntary offering was made as a beginning on the new church fund.

Paype Daniel recently visited Southland, where his sister, Miss Marie, is attending school, and together they went to St. Petersburg on a pleasant outing.

Mrs. Simpson from Sanford is spending a few days with Mrs. T. W. Geiger.

Olin Howard from Oviedo visited his brother's family Sunday.

R. L. Gresham spent Sunday in Chiquota.

D. Hart from Sanford visited the family of Mrs. David last Thursday.

Sanford is Agitated

Sanford is agitated and, from all reports, rightly so. A suburb, known as Sanford Heights, has decided to incorporate and have a town of their own. This will take a good slice of Sanford's population, and The Herald says it will do the town untold injury. Sanford is a good town and the Sanford Heights should have made it a "Greater Sanford" or moved their town further away.—Lake-land News.

Residence for Sale

On account of the incorporation of Sanford Heights I will be obliged to sell my residence on Park avenue. It is a new house of nine rooms and bath, all modern conveniences, large lot, orange trees, peach trees, grape vines and flowers. One of the most desirable residences and residence sections of Sanford. Two other lots and fine barn can be sold to purchaser. Easy terms made to proper party. 38-2 R. J. HOLLY.

THE SANFORD HERALD

Published every Friday Morning at Sanford, Fla.
R. J. HOLLY, Editor and Proprietor
Subscription Price, \$2.00 a Year in Advance
Entered as second-class mail matter August 22nd
1908, at the Postoffice at Sanford, Florida,
under Act of March 3rd, 1879.
Office in Herald Building
Telephone No. 148.

A Jacksonville policeman shooting at a dog on the streets bit a negro. Another case of mistaken identity.

The Governor's message was all right in its way, but the general consensus of opinion seemed to be that it weighed too much.

ANENT THE CAPITOL

There is no need for a dispute among the different cities regarding the site for the new capitol. If it is ever removed from Tallahassee, Sanford will get it, being strictly in the centre of population and accessible from every part of Florida. We are even content to leave it to a vote of the entire state.

The matter of passes on the railroads for advertising will agitate the minds of the legislators and the Press Association at Tallahassee. The Herald is carrying this advertisement at regular rates and receives cash for same. We would not go back to the old method unless compelled to do so. The editor of The Herald is averse to trading advertising for any commodity. We pay cash and expect to receive cash.

Sanford is having an internecine war which is disrupting it for the moment. Some of its good citizens built homes in a desirable residential section outside the city limits. They were charged with endeavoring to escape city taxation. In defense of trying to annex the new territory to the city the people incorporated the suburban section into a village known as Sanford Heights. Hence all the trouble. Moral: Never trouble a suburban section. In course of time it will beg to be admitted to the advantages of the parent city.—Tampa Times.

"A thousand dollars per acre" is the way the Sanford Herald tells of a recent deal in celery land in that section and the price seems to be satisfactory to seller and purchaser. The Herald gives some details of the sale, and shows that the land was purchased at the same rate a year ago and that it has paid for itself and given the man owning it a handsome profit. Now he is letting it go, presumably to engage in some other enterprise, and feels that it was a good investment. When a man can buy truck lands at \$1,000 an acre and make the cost and about 60 per cent net profit during the year, it is easy to see how some people in Florida may get along in spite of hard times.—Times-Union.

Will Meet in Sanford

In the annual election of officers of the state Association of Master Plumbers, Tampa was signally honored through W. E. McAndrews being made the president. The convention was held at St. Petersburg. That city did itself proud in entertaining its visitors.

From all parts of Florida delegates were present and the open shop proposition was discussed very thoroughly. It was shown that the system prevails all over the state and that it is proving satisfactory wherever tried. In Jacksonville the open shop prevails as well as in a number of the smaller towns and it is maintained profitably.

Among the cities represented were Jacksonville, Pensacola, Sanford, DeLand, Gainesville, Clearwater, Bartow, Key West, Tampa and St Petersburg.

Officers elected besides President McAndrews were: F. W. Mahoney, of Fernald Hardware Co., vice president; Sanford; R. T. Joughlin, secretary, Tampa; C. D. Godsey, treasurer, St. Petersburg.

S. G. Bois, of Jacksonville, was named national state vice president, and A. H. Johnson, of Jacksonville, state organizer.

The national convention is held this year at Galveston in June. Delegates to this are R. T. Joughlin, Tampa, W. E. McAndrews, of Tampa and W. F. Clark and Joe Fowler, of Jacksonville. The Tampans on this delegation to Galveston, as well as Fred Berry, Harry Bonford, E. W. Coates and W. J. Regar were in attendance at the annual state convention. The next annual meeting will be held in Sanford.—Tribune.

Death of An Infant

The many friends of Mr. and Mrs. G. W. Spencer deeply sympathize with them in the death of their infant daughter Esther, that occurred at their home on the Heights Tuesday evening. Funeral services were conducted at the residence Wednesday afternoon by Rev. J. A. Hendry. The burial was at the family burying ground. The little grave was entirely covered with Easter lilies and beautiful white flowers.

IN THE SOCIAL WORLD

Items of Interest Concerning Society People.

POINTS PURELY PERSONAL

How Celery City Vanity Fair While Away the Golden Hours—Social Gossip.

Mrs. O. W. King was the charming hostess of the Auction Bridge Club last Monday afternoon. Mrs. A. P. Connelly made top score and received the prize, a lovely cut glass vase.

The monthly musical at the Welaka Club has become a pleasing feature and a large number of the members assembled in the club rooms Tuesday afternoon anticipating a treat in the program arranged by Mrs. R. Homrighous and they were not disappointed.—The first number was a pretty piano solo by Miss Ruth Abbott. Mr. Clarence Mahoney pleased the audience with two very fine vocal numbers. Piano and vocal selections were beautifully given by Miss Flossie Frank and Miss Helen St. John. Refreshments were served by Mrs. A. B. Fatjo, Miss Charlotte Keelor and Miss Ella Stringfellow.

Mrs. Francis J. Gonzales was hostess at a beautiful bridge party at her home on Magnolia avenue Tuesday afternoon. A color scheme in yellow was prettily carried out in the decorations. The tally cards were ornamented with tiny yellow chickens and the favors were tiny snow white rabbits. There were seven tables of players, who enjoyed a lively game of bridge; top score being made by Mrs. Cruse Barnes who received the prize, a pretty water color. The consolation prize was a cut glass knife rest, and Mrs. G. F. Smith was the lucky one to get it.

During the afternoon a delicious punch was served by Miss Beth Mettinger, and the hostess was assisted in serving a salad course by Mrs. D. L. Thrasher, Mrs. R. L. Peck and Mrs. L. G. Stringfellow.

Among those invited were Mesdames W. R. Anno, T. A. Neal, G. F. Smith, A. W. Brown, R. L. Peck, D. L. Thrasher, W. W. Drakefield, L. G. Stringfellow, O. W. King, J. C. Bennett, C. M. Hand, J. C. McDaniel, N. J. Perkins, M. Dickins, A. P. Connelly, H. B. Connelly, W. E. Housholder, C. W. Kemp, F. L. Miller, B. W. Herndon, S. Puleston, Robert Newman, F. L. Woodruff, Geo. Fox, Jr., Deane Turner, J. B. Stryker, R. J. Holly, W. M. Keeler, Cruse Barnes, G. H. Fernald, O. W. Brady, M. Magin, Misses Nona Wylly and Hessie Tynor. From Tallahassee, Mesdames Mabry and Price. From Orlando, Mesdames E. R. Bliss Seth Woodruff, C. W. Goodrich, Starbuck and Miss Shine.

Launch Party

Mr. and Mrs. Geo. H. Fernald were host and hostess of a most delightful launch party Tuesday afternoon.

The party left the wharf about 1:30 in the handsome little launch Mamie, Capt. Pagenhart commander, for Blue Springs, which when reached was much admired by all those who enjoyed the ramble through the picturesque woods in search of the boiling spring.

On returning to the boat and before embarking on the home trip a sumptuous lunch was partaken of by the merry crowd, each and every one demonstrating their enjoyment and appreciation of the many good things prepared for their pleasure and comfort.

After the picnic lunch the homeward start was made, where they arrived at about 9:30 o'clock.

Mr. and Mrs. Fernald's guests were Dr. and Mrs. N. deV. Howard with Miss Morrison, Dr. and Mrs. Davis Foster with Master Davis Foster, Mr. and Mrs. Cecil Gabbett, Mrs. Henry Wight, Mrs. M. H. Bowler and Miss Mell Whitner; Messrs. Charles Tuxbury, Henry Tuxbury, Mr. Philippi, Randall Chase and Benjamin Whitner.

The trip was delightful in every respect and was thoroughly enjoyed by the recipients of Mr. and Mrs. Fernald's courtesy.

In Mrs. Fannie Munson's studio last Saturday afternoon the Music Club held the regular semi-monthly meeting and a very fine program was carried out. Beethoven was the Master whose life and work was subject for the afternoon. Excellent readings on the Life of Beethoven were given by Mrs. R. Homrighous, Mrs. M. Martin, Mrs. George Hoy and Mrs. G. L. Speer. A piano solo by Miss Flossie Frank and a flute solo by Miss Jessie Stumon were greatly enjoyed. The vocal selections were given by Mrs. H. C. Maitland of Enterprise in a most charming manner. Mrs. Maitland, who is a pupil of Mrs. Homrighous of this city has wonderfully sweet mezzo soprano voice, with which she has given great pleasure to Sanford audiences on several occasions recently.

A Renowned Specialist to be Here Two Days on This His First Visit

We Never Use the Knife

25 CASES TREATED FREE

I Will Treat Absolutely Free Until Cured, Excepting Medicine, the First 25 Curable Cases That Will Call Upon Me at the Hotel During This My First Visit

All Diseases of Men and Women Treated

Defensiveness cured by an entirely new system. No matter what your disease may be or how long standing, the doctors will locate your disease without asking you any questions. The doctor is said to be the greatest LUNG and CATARRH specialist in America. If you have catarrh or lung trouble, go and be examined. The sick and afflicted should take advantage of the opportunity here offered. Go and have it forever settled in your mind. If your case is curable our chief physician will tell you frankly; if curable he will give you such advice as to prolong your life. No sick man or woman should fail to consult this eminent man. It is the greatest opportunity of the sick man's life.

If you have rheumatism, liver, kidney or bladder trouble, paralysis, heart disease, nervous debility, dyspepsia, indigestion, constipation, epilepsy or St. Vitus' dance, go and be cured by his new system.

Cancers and tumors cured in their early stages. Strictures, ulcers, all blood, skin and scalp diseases, piles and ruptures cured.

Ladies'

who suffer from special diseases, and those nearing the change of life, maidens approaching womanhood having any deviations from health causing irregularities or diseases peculiar to women, should consult this eminent specialist. Angular, disproportionate woman will, by recovering perfect health, gain that well-rounded, symmetrical figure so much desired, yet too often beyond their grasp for the want of the right medical advisor. These, as well as weak, indifferent, woman, under the doctor's treatment, become strong, well, vivacious and happy.

OVARIAN or womb troubles are cured without the knife. If you have been advised by any one to undergo a surgical operation for womb or ovarian difficulties, rupture, humor, cancer, or piles do not listen to it and have your life endangered by the lance, knife or needle before consulting the United Specialists.

Oil of Young Men

It matters not what your ailment may be or how long standing, if your future health and happiness are at stake, consult this doctor. He will cure you if you are curable.

Every kind of human ill falls at the touch of this wonderful man and so marvelous have been the cures that it is hard indeed to find the dividing line between human accomplishments and miracle. It matters not what the ill may be; it matters not what discouraging reports may have been made from any direction; it matters not if you have been told that grim death stares you in the face. Go and consult this doctor and if there is the finest thread upon which to hang a hope, you will find that hope, and that hope will surely lead you to the blue skies of peace, contentment and health.

MAKE THIS TEST.

How to Tell if Your Hair is Diseased. Even if you have a luxuriant head of hair you may want to know whether it is in a healthy condition or not. 98 per cent of the people need a hair tonic.

Pull a hair out of your head; if the bulb at the end of the root is white and shrunken, it proves that the hair is diseased, and requires prompt treatment if its loss would be avoided. If the bulb is pink and full, the hair is healthy.

We want every one whose hair requires treatment to try Rexall "33" Hair Tonic. We promise that it shall not cost anything if it does not give satisfactory results. It is designed to overcome dandruff, relieve scalp irritation, to stimulate the hair roots, tighten the hair already in the head, grow hair and cure baldness.

It is because of what Rexall "33" Hair Tonic has done and our sincere faith in its goodness that we want you to try it at our risk. Two sizes, 50c. and \$1.00. Sold only at our store—The Rexall Store.

In union there is strength. We have the goods you need, and the price you can do the rest. Sanford Furniture Co. 35-tr

IN AND ABOUT THE CITY

Little Happenings—Mention of Matters in Brief.

PERSONAL ITEMS OF INTEREST

Summary of the Floating Small Talk Succinctly Arranged for Hurried Herald Readers.

H. H. Hill is confined to his home on account of sickness.

Mr. J. W. Knight is spending some time in Tallahassee.

J. B. Taylor of Kansas City is in the city this week on business.

Miss Anna Harkener of St. Louis, Mo., is the guest of her niece Mrs. Arthur Key.

J. A. Borum is now connected with the grocery department of the R. G. Stockton store.

Miss McClung of Clearwater is visiting her sister, Mrs. C. H. Dingee on Sanford Heights.

Miss Flossie Frank will sing at the Cecilia Music Club Saturday afternoon, April 22nd.

Mrs. Herby of Celery avenue is at the Nursing Home, Eighth and Elm, for surgical treatment.

Clyde Knight left last week for Powder Springs Ga., making the change for the benefit of his health.

K. R. Murrell and P. M. Elder left Monday for Lakeland, making the trip in Mr. Murrell's E. M. F. 50 car.

Miss Birdie Harris is home again, after a short stay in Palatka. Her friends are glad to welcome her back.

Mrs. J. K. Mettinger left Wednesday night for Philadelphia, called there by the critical illness of her mother.

Mrs. Loyd Ware has returned from a week's visit in Jacksonville, and is again pleasantly located the home of Mrs. Butt.

Miss Hattie Tyner has returned after a short stay in Tampa and is again with her sister, Mrs. R. J. Holly at her home on the Heights.

Rev. Finley Patterson from Fort Lauderdale is in this city assisting Rev. J. A. Hendry in a series of services in the Methodist church.

Mrs. W. L. Milteer, Mrs. W. H. Williams, Mrs. Arthur Yowell, Miss Beth Mettinger, and Frank Milteer formed a pleasant party who motored to Orlando last week.

Among the late converts to the automobile is D. B. Brisson of Celery avenue who has just purchased a fine Overland car from J. R. Holland, the Sanford agent.

The Ladies of the People's Congregational church will give a strawberry and ice cream festival at Crippen's music store Saturday afternoon and evening, April 22.

The police force is resplendent in new hats and gold cords. Our finest has been augmented by several new men lately and are now ready to cope with the criminals of the world.

W. S. Lyon of Greensboro, S. C., representing the Snow Shoe Co., of Boston Mass., recently visited Sanford and while here was the guest of his relatives, D. A. Caldwell and family.

Among the prominent visitors to the city is Ferdinand Wesel of New York, who left for home on Monday after a week's visit with Mr. and Mrs. O. W. Brady. Mr. Wesel is a manufacturer of printing machinery.

Geo. H. Fernald is home from Tallahassee, where he attended the annual meeting of the Telephone Association. In the absence of Pres. Brorein, Mr. Fernald responded to Mayor Lowrey's address of welcome, in behalf of the association.

Mr. and Mrs. A. L. Barber of Ocala, who have been staying in the city a week left Monday for Orlando. Mrs. Barber is writing in the interest of various magazines and expresses herself as having seen much around Sanford that is really worth relating. We hope to see some good results of her efforts.

ENDORSED THE NEW CHARTER

Meeting of Representative Citizens at Eagles Hall Wednesday Night.

A meeting of the citizens was called by Vice President F. P. Forster in the Eagles Hall last Wednesday night. The meeting was for the purpose of discussing the new charter and while discussion was warm in spots the meeting was a very harmonious one. A delegation from the new town of Sanford Heights was present and voted against the extension taking in the Heights, otherwise they favored the charter. The following resolution was then drafted and being put to vote was carried:

Whereas the city of Sanford has more than doubled in population in ten years and

Whereas the city has outgrown its present territorial limits, and

Whereas the present city charter adopted in 1893 was good and met the require-

ments of the city at that time, but is not now adequate in all its provisions to meet present and prospective requirements of this rapidly growing city, and

Whereas the city council of Sanford have prepared a new charter extending the city limits and providing a city government in line with more recent municipal methods and providing for much needed water front improvements, therefore

Be it resolved, That this charter bill now pending before the state legislature for enactment into law meets with the cordial approval of this meeting, and the senator and members of the house of representatives from Orange county are urged to use all honorable means to secure its speedy enactment into law.

Be it further resolved: That a certified copy of these resolutions be sent to Hon. L. C. Massey, state senator, and to Hon. Forrest Lake and Hon. S. A. Robinson, representatives from Orange county.

CITY COUNCIL MEETS

Charter Matter Calls Forth Another Resolution

The city council met in regular session April 17th, at 7:30 p. m.

Present, W. D. Holden, Chrm. pro tem.; H. R. Stevens, H. Ward, J. D. Davison, S. Runge and B. A. Howard. Absent, D. L. Thrasher.

Minutes of last meeting read and approved.

Communication from Mrs. May Dickins, complaining of tax assessment received. No action.

Moved and seconded that the bid of the Sanford Machine & Garage Co., regarding care of new fire engine, be referred to the fire committee, they to report at next meeting. Carried.

Moved and seconded that the request of G. B. Pope Co. for additional remuneration for building school house be referred to the city attorney for his opinion as to the right of the council to make such extra payment. Carried.

On motion the complaint of T. E. Laing, as to sewer connection between Pine and Cypress avenue, be referred to sanitary committee.

Ordered that 1,000 copies of sanitary resolution passed April 3rd, 1911, be printed in bill form and be distributed to the public by city sanitary inspector. Carried.

A new light was order placed at the corner of Third street and Elm avenue.

The fire committee was instructed to see that each hydrant in the city was flushed at least once in two weeks and reported to the clerk.

The following recommendation from the fire committee was adopted. The removal of the fire hydrant now on the old fibre factory grounds. The installation of new hydrants at the corner of Commercial street and Elm avenue, Third and Laurel, Sixth and Palmetto, Seventh and Palmetto, Eighth and Park avenue, Tenth and Oak, and Tenth and Magnolia, making a net increase to the number of eight hydrants, which in the opinion of the committee provides ample protection under existing circumstances.

Moved and seconded that the removal of the lamp posts now standing be referred to the street committee.

On motion the following sidewalk was ordered condemned: Lots 1 and 2, Block 3, Tier 5. Carried.

Whereas, the officials of the town of Sanford Heights have circulated a petition to the Legislature, asking that the charter bill for Sanford be amended so as to refer the measure back to a popular vote for ratification, and

Whereas, this action is taken solely in the interests of the residents of the town of Sanford Heights, having for its purpose the defeat of the charter measure for Sanford, and

Whereas, there is a small minority of the white citizens actually now living in Sanford which is opposed to the adoption of the new charter, and

Whereas, because the new charter for the city of Sanford will include in its boundaries the negro municipality of Goldsboro, the negro voters of Sanford and Goldsboro will almost certainly vote against the adoption of the new charter, as will the promoters or the incorporators of the town of Sanford Heights, and

Whereas, the combined vote of all those persons opposed to the new charter, the majority of whom will be negroes, may operate to defeat the will of a very large majority of the tax paying citizens of the city of Sanford in their desire to have the charter amended and the boundaries extended;

Therefore, be it resolved by the city council of Sanford: That we condemn the effort to delay the passage of the charter measure in its present form by the Legislature; and we earnestly request our senator and representatives to urge its passage with all due diligence.

D. L. THRASHER, Pres't;
HARRY WARD,
H. R. STEVENS,
W. D. HOLDEN,
B. A. HOWARD,
S. RUNGE,
J. D. DAVISON.

Moved and seconded that the bills as signed by the president and approved by the auditing committee be paid. Carried.

Moved and seconded that council adjourn. Carried.

M. W. LOVELL, Clerk.

Medal for the Fishermen

There is considerable controversy just now among the local fishermen as to the champion trout caught this year. Arthur Yowell, George Speer and George DeCottes are tied for first place. The Herald will give a beautiful gold medal to the one who catches the largest trout with hook and line before October 1st, the fish to be weighed by Messrs. Morgan and Wilson at the store.

SANFORD FLORIDA

Improved transportation is the forerunner of increased values.

Profits on Crops

Produce dealers in this city report that the strawberry crop in various parts of the state this year has already yielded \$78,707.20 to dealers, and that growers of beans at Plant City have realized \$10,500, while potatoes, squash, cucumbers, celery, carrots and other truck have netted fully \$50,000.

During the past week the receipts of berries have been comparatively light, only about 8,000 quarts having been brought to the platform. The quality was not as good as in the past, as the plants had been bearing so long, that the hot sun has had a withering effect. In view of the short crop of last week, however, the total amount of last week is considered all the more remarkable.

One leading grower of the state predicts that the young beans that were planted after the last cold snap will begin to come in soon, and that, when they do, the cars will be loaded two and three per day.

This same authority states that berry growers are not compelled to ship their stuff, and that they disposed of 90 per cent right at home and at full value. There are said to be from eight to ten buyers, ready and willing to buy anything the farmers bring in, and consequently farmers in Plant City and the surrounding country are unusually prosperous. Jacksonville Metropolis.

FOR AGED PEOPLE.

Old Folks Should Be Careful in Their Selection of Regulative Medicines.

We have a safe, dependable and altogether ideal remedy that is particularly adapted to the requirements of aged people and persons of weak constitutions who suffer from constipation or other bowel disorders. We are so certain that it will relieve these complaints and give absolute satisfaction in every particular that we offer it with our personal guarantee that it shall cost the user nothing if it fails to substantiate our claims. This remedy is called Rexall Orderlies.

Rexall Orderlies have a soothing, healing, strengthening, tonic and regulative action upon the bowels. They remove all irritation, dryness, soreness and weakness. They restore the bowels and associate organs to more vigorous and healthy activity. They are eaten like candy, may be taken at any time without inconvenience, do not cause any griping, nausea, diarrhoea, excessive looseness, flatulence or other disagreeable effect. Price 25c and 10c. Sold only at our store—The Rexall Store. L. R. PHILIPS

MERRIE ENGLAND

Is the title of a book on Socialism, containing the underlying principles and the most important objections. For sale at 211 First Street. Price 10c

A PROPHET

or the son of a prophet are not required to predict that farm lands in Orange County will never cost less. Desirable cheap government land has decreased so rapidly the past few years that improved farming land in this section have felt the law of supply and demand and are rapidly increasing in value. Don't delay. See us today.

TEMPERANCE LEGISLATION

A Program of What Will be Attempted at This Session of Legislature

The following is a comprehensive statement of the proposed temperance legislation favored by the Anti-Saloon League and this statement is here given in order that our friends may clearly understand our position. We favor:

1. A bill prohibiting the soliciting of orders for the sale of intoxicating liquors by any means whatever in dry territory.
2. A bill repealing sections 1222, 1223, 1224 and 1236 of chapter XVI of the General Statutes of Florida and making effective again sections immediately preceding those named which require the filing of petitions every year by every applicant for saloon license and the publication of such petitions.
3. A bill forbidding the shipment of liquors into dry territory.
4. A bill prohibiting the location of saloons within one thousand feet of any steam railway passenger station.
5. A bill providing for early closing of all saloons in the state and closing same on all legal holidays.
6. A bill removing all screens or other obstructions, tables, chairs, etc., from saloons.
7. A bill providing for the procedure

of state's attorney and county solicitors when information is furnished them regarding possession of any government license by parties who do not hold state license and providing for the removal from office of such officers who do not act in such cases.

8. A bill forbidding manufacturers and wholesalers of liquors to have any interests in the retail liquor business.

9. A bill limiting the number of saloons in cities to one saloon for every 2,500 of population.

These measures have been agreed upon after consultation with leading temperance men in all parts of the state, and we trust that all friends of temperance in the Florida legislature can see their way clear to support them and so enact them into laws.

We shall appreciate publication by you of this statement and request our friends over the state to write their members of the senate and house urging their support of them. We especially request that our friends also write to Senator George W. Dayton, chairman of the state temperance committee, and Hon. Eugene S. Matthews, chairman of the house temperance committee.

C. L. COLLINS, Superintendent.
 C. B. SMITH, Legislative Representative, Florida Anti-Saloon League.

CASH OR INSTALLMENT

To the People of Sanford

The undersigned officials of the town of Goldsboro, and representing its citizens, appeal to the citizens of the city of Sanford for aid and sympathy in protecting our town from spoliation or destruction as the result of a plan of the part of your city officials to procure from the present legislature an amended charter, whereby the corporate limits will be so extended as to include the town of Goldsboro and thus destroy our corporate existence.

This town was duly incorporated about twenty years ago and it has, ever since regularly maintained its official corporate existence, performing all the duties of a municipality.

We have always been and we are now a peaceable, orderly and law abiding community. We appealed to your council, protesting against the proposed action so far as it affected the interests of this town but our appeal was unheeded. We now appeal to you, citizens of Sanford, for your help in this matter. We are proud of the prosperity and development of your city; but it is no good reason that, because you are big, you should swallow up our town just because we are little. There can be no just charge brought against us to justify the abolishment or overthrow of our corporate existence. If it is done in the way proposed it will be an instance of the tyrannical use of might, of power, and because we are few and feeble. Surely you will not justify and uphold such a proceeding?

We have acquired some property as a town. We own our own house, school and other corporate property. We feel a pride in our town organization and earnestly wish to preserve it. To swallow us up in the corporate limits of Sanford will add very little to Sanford and take a great deal from us. It will impose upon us a part of the burden of your bonded and other indebtedness and add heavily to our burden of taxation, while we reap no material benefit thereby. We shall make our appeal to the legislature in this behalf and beg that you, the justice loving citizens of Sanford, will give us such support as you can and we shall be ever grateful to you.

G. W. BENTON, President Council
 M. B. BELLAMY, Mayor Goldsboro
 T. T. GREEN, Town Clerk. 35-4tc

SANFORD, The Beautiful City

Over Two Hundred and Fifty Per Cent. Increase In Population In Ten Years

SANFORD'S SUMMER CROPS

When the assertion was made to a western man, the other day, that if only used from April to October our lands were as valuable as the corn lands of Illinois and Missouri, the gentleman with a horrified expression said "You farm on your lands in winter, don't you let them rest in summer?" The gentleman was informed that we applied the scientific idea of rest to our lands, namely, change of occupation.

Mr. Editor, the week given me to write the promised article is gone and I have gotten this far and you are hurrying me for copy. With such vast possibilities as the opening unfolds where shall the end be? North of our Florida climate the lands do rest, i. e., lie dormant, and to a limited degree even in Florida this is true. The grass and weeds have their season, flourish and die, fruit ripens on the orange and grape fruit, the mass on forest trees ripens and falls, though the forests are mostly evergreen. This is the natural condition, even in Florida, but man with improved methods intervenes and a continuity of crops results. Especially is this true of the sub-irrigated lands of the Sanford Celery Delta, where there is no cessation in Nature's activity. For under these methods on our lands September and October is seed time and February, March and April the harvest for vegetables for the northern market. Thus, while the vast country north of us is being wrapped in the lethargy of winter, sub-irrigation and intelligent farming rejuvenates our soil, with the result that we outstrip all competitors in the quantity and quality of the vegetables grown to furnish the tables of our less favored northern friends. But it is not of this I am to write, tempting as the field always is. Let us pass over the winter, with its splendid achievements, and consider our lands in competition with those only available for crop from April to October. With the spring Nature shakes off the lethargy of winter and it needs not the cunning hand of man to clothe the fields with green, for this is the resurrection season and plant life springs into new life. Nature supplies the force, and man only need direct. At this season our fortunate northern farmers, whose lands have been resting all the winter, find them cold and inert. He must stir and pulverize his land and await spring rains and sunshine from above to start his operations. Our lands are in the pink of condition, fertile enough for any crop. Clean and mellow as a seed bed. Warm and aerated from below, moistened and drained at will and without cost, we have not an hour to wait for a season either of rain or weather. With a good start, the chances of winning the race are enormously enhanced. This is one advantage which applies to all seasons, of planting when you are ready and not waiting for seasons, is of estimable value. Couple with this the fact that during the entire crop season your control of the water is complete, and a successful crop is assured if proper attention is given to cultivation. It is well to note here that cultivation of spring and summer crops is more of a feature than winter crops, for in winter there is little or no trouble from grass and weeds, but as summer advances the growth of both is more rapid and persistent. I would therefore suggest that our summer crops be planted promptly upon removal of the preceding crop, while the ground is clean, and it should be kept clean and moderately dry till the rainy season. The best use of our farms in summer is to my mind far from a settled matter. That they should be used for profit I think is certain, since we cannot, if we could and would not if we could, make them rest. In other words, something will grow on our lands every day from April to October, whether we want it or not. The question, then, is whether we shall grow what we want or let nature grow what it will. I choose to direct. What to grow and how to grow it is, I am glad to know, receiving some thought and attention. The numerous magnificent crops of corn grown last year and before prove the assertion in the first sentence of this paper, and when you note that in addition to growing as much corn per acre it is worth 50 per cent more in South Florida than in Illinois or in Missouri the claim, though justified by facts, is startling.

So far, the summer use of our lands has not received the attention it should. I suggest again that in addition to individual thought and experiment farmers should discuss it as they meet, and the time has come when they should meet together and exchange ideas and experi-

CUTTING CAULIFLOWER AT SANFORD, FLORIDA

ences and now is a good time to begin. The summer is an asset too long and too much neglected. How to correct the situation is more than I can say, for I do not know. I have grown on my land successful crops of corn, rice and Spanish peanuts and had the ground in tillage for the early fall crops. I grew enormous and profitable crops of sweet potatoes, but could only get the ground ready for planting by last of December or first of January. I strongly urge planting sweet potatoes on new lands. My late lamented friend, Judge Beggs, said to me once, "You don't have to plant celery. You could all get rich planting sweet potatoes

our prairies we have a supply of humus, bearing nitrogen that I believe can be applied to our lands so cheaply that we can profitably use them for other crops. I trust the day is at hand when we can avail ourselves of this God-given mine of wealth that surrounds three sides of the Celery Delta. Mr. Editor, it's hard to stop when so much can be said, but I must. Thanking you for so much space, I am yours truly,
J. N. WHITNER.

OUR POST CARD EDITION

Sanford, the wonderful city at the head of navigation on the St. Johns river has made such wonderful strides during the past few years as to call for the admira-

Sanford Has

- The finest artesian water in the state.
- Three school buildings, the new high school building costing \$20,000.
- Over four miles of brick paved streets ranking fourth in this improvement.
- A trolley system extending over ten miles through the suburbs.
- Two solid banking institutions, one a National bank.
- Churches for every denomination.
- A class of citizens second to none in the United States.
- The best of railroad facilities and water transportation.
- The city is backed by a farming coun-

CUTTING CELERY AT SANFORD, FLORIDA

on your sub-irrigated lands." I think he was right, as he generally was. We should also try the Spanish and Florida peanut, because with its oil content and additional feed value of the nut and the fodder value of the vine it is a great crop, and can easily be grown between seasons and the land left in shape for fall planting. The spontaneous growth of hay is too well known to even mention.

Advanced farmers consider it wise to plant cover crops of nitrogen, gathering plants, principally cow peas, though some prefer beggar weed. I would consider it not only wise, but necessary, if it were not for the fact that in our lakes and on

tion of all the people who have been fortunate enough to view the city or received literature describing the garden center of the world.

The railroad facilities, the water transportation backed by the great farming section, the mile of bulkheaded lakefront, a new tourist hotel and many other improvements in course of construction will make Sanford the greatest city in central Florida.

Just to commemorate post card day the Herald has given space this week to several good articles about our section for the benefit of the new readers in whose hands the extra copies may fall.

try that cannot be duplicated. A population that increased over 250 per cent in three years.

A climate that is unsurpassed in winter and summer.

And everything that makes life worth living in the best state in the Union.

Georgia has adopted Post Card Day for May 5th and California used the Florida idea of Post Card Day on March 1st. Florida will have to make the most of the opportunity on May 1st of this year because the scheme will be too common next year. Other states know a good thing when they see it.

IMPRESSIONS OF SANFORD

About four years ago we had very little rain in the State from early fall 'till late in the spring of the next year. During the fruit and vegetable season about to close much loss has been sustained because of scarcity of moisture.

The time is coming when the thoughtful agriculturist and citrus planter; the time is coming when the merchant who is looking for a good location will turn toward that country in which a living and a surplus may be made whether it rains or not. The builders of a country and the builders of homes will look upon that section where water flows above the surface of the earth naturally as a more suitable place to locate than a place where engines and pumps have to be used for making artificial rain. Where there is an ample supply of water and favorable transportation facilities, a comparatively even climate and plants prepared to furnish refrigeration will be the focus point in the minds eye of the thankful people who are to open the way in which that great developer, capital, is to be led. And what does that mean?

Sanford has all that can be desired in the way of climate and facilities for producing vegetables and fruits. Sanford is in the greatest flowing well district of the state and is within easy reach of the gateway to the peninsula. A glance at the map of Florida will show its advantageous location. The writer has travelled largely over the state and it is his opinion that there are many people within the borders of our state who will come to the Sanford irrigable district to settle, because of its protection against dry weather. People will not stay and worry along year after year depending on the water that falls from the clouds when they are so near a place where for about fifty dollars a well may be dug that will furnish a flowing stream of pure water, suitable for all purposes.

Every new resident that moves to a town helps the place. Every new agriculturist that moves to a certain section of country not only improves the property he is to work, but enhances the value of the property of his neighbor also. Every traveling man or tourist who notices prosperous conditions among farms or improvements in town is a walking advertisement. It is a great thing to listen to people talk on the train. The walking and talking advertiser; the advertiser that does his work without pay is the outside, unconscious, helper in the work of building.

It makes a royal citizen, of Sanford swell up with pride who listens to the traveler talk from the time he looks out of the car window after the train crosses the river 'till he gets into the depot at Sanford. You feel it a personal compliment when a man drops off the train and says "Gee Whiz" look how this town has improved since I was here about two year ago." Every citizen who has been loyal and has aided in this improvement should take his hat off to himself when he hears it.

The future of Sanford has never been told, sometimes I wonder if it can be imagined with any degree of nearness to what it actually will be. Do the people of Sanford ever think of what they have. Right here in the center of the state, not too far north to have the advantage of the temperature they need; at the head of navigation of the St. Johns river; why the boats of the Clyde Line mean the protection against discrimination that cities are spending millions of dollars for; just back of us, just beyond our flowing well area we are backed up by the greatest citrus fruit county in the whole state. On the 24th, of this month the sale manager of the Florida Citrus Fruit Exchange, at Tampa, Mr. R. P. Burton, says the fruit now left in the state will be about thirty thousand boxes and that ten thousand of this number will be shipped from Orange County; think of it, one third of the oranges now in this great orange growing state, during the balance of the season will be shipped from this county.

The time will come, and it seems not far distant, when a large volume of our citrus fruit will move through Sanford and up the river to Jacksonville; it is bound to come and a move like this will mean much to us, and will mean much to other parts of the county.

I believe I have been very careful in calculating the things to come and I do not see what is to prevent more than even the most optimistic man may look forward to. Any calamity that will seriously retard the growth of Sanford will have a more disastrous effect on other parts of the country.

In the game of baseball it may be well and altogether proper to sing the songs of "Lucky Sanford" but in the days of the prosperity we have right to hope for it will not be luck, it will be ours by right, because we are entitled to it; because we have the people here here to make us big, to make us the best city in Florida; I'm glad I live in Sanford, in Orange County and in Florida.

C. O. McLAUGHLIN.

LOADING CELERY AT "LUCKY SANFORD"

Solid car load of Fertilizers from plant of the Virginia-Carolina Chemical Company. The new plant just established at Sanford is one of the most complete in the south with a daily capacity of 160 tons.

Florida Development Figures
 Florida has a population of 752,619, against 528,542 in 1900 and 269,493 in 1880.
 A density of population of 13.7 to the square mile, against 9.7 in 1900 and 4.9 in 1880.
 Her lumber cut in 1910 was 1,202,000, 609 feet against 788,000,000 in 1900 and 257,000,000 in 1880.
 Her corn product was 8,813,000 bushels in 1910, compared with 4,156,192 bushels in 1900, and 3,522,280 in 1880.
 Her mineral products, of 1910 were worth \$9,000,000, compared with \$3,326,000 in 1900 and nothing in 1880.
 Her railroad mileage is 4,727 against 3,526 in 1900 and 518 in 1880.
 Her banks had deposits, December 31, 1910, of \$40,763,652, compared with \$10,150,272 ten years earlier, and \$44,492 in 1880.
 The true value of her property is approximately \$600,000,000, compared with \$355,000,000 in 1900 and \$120,000,000 in 1880.—Financial and Industrial Record

Grim Reaper at Work

Mrs. M. A. Fortson
 The death of Mrs. M. A. Fortson last Saturday night was a sad blow to the little family circle who had watched over her during the few short weeks of sickness. Mrs. Fortson was taken sick at Geneva and afterward brought to Sanford where it was hoped better medical treatment could be given, but the hope was in vain.

The husband with a devotion few men are capable of, whose strength was given sweetly, tenderly to this precious invalid, whose heroic devotion never faltered, could not detain her by the clasp of earthly love; but after the last word had been spoken, the last sign of recognition was gone, a look of peace settled on her face which proclaimed victory; and he knew she was resting on a mighty arm.
 The remains were taken to Tignalk, Ga., her old home for interment. A husband and baby are left to mourn her loss.

Ernest Leroy Morris

Mr. and Mrs. C. C. Morris have the sympathy of the community in the loss of their bright, three year old boy, Ernest Leroy.

Card of Thanks

To the kind friends and neighbors who so willingly assisted us during the sickness and death of our beloved little babe, we wish to express our heartfelt thanks, also to those sending flowers and assisting in the music. May the Lord bless you all and spare you such sorrow in our sincere wish.
 MR. AND MRS. C. C. MORRIS

Notice

The citizens of Sanford and adjacent country are called to meet at Eagles Hall, Tuesday night, May 1st, to organize a permanent hospital association and to continue the work already begun. Every one who loves humanity and pities the sick and needy is urged to be present.
 Mrs. J. N. WHITEHEAD

36-2p President Temporary Organization

THEY PULLED TOGETHER

Accomplished Much More When They Worked in Harmony

There is a story of a bridegroom who requested his bride to accompany him into the garden a day or two after their wedding. He then threw a line over the roof of the cottage. Giving his wife one end of it he retreated to the other side and exclaimed: "Pull the line." She pulled at his request, as hard as she could. He cried, "Pull it over!" "I can't," she replied. "Pull with all your might," shouted the whimsical husband. But in vain were all the efforts of the bride to pull the line over, so long as the husband held on to the opposite end. But when he came round, and they both pulled at one end, it came over with great ease. "There," said he, as the line fell from the roof "you see how hard and ineffectual was our labor when we pulled in opposition, but how easy and pleasant it is when we both pull together. It will be so, my dear, through life. If we oppose each other, it will be hard work; if we act together it will be pleasant to live. Let us, therefore always pull together. Let us daily endeavor to help one another to bear and and forbear with each other."

The above pretty little story is by our friend Hugh Sparkman of the Lake City Index. If the editor of the Sanford Herald had told the story, he would have had the groom pull the bride over the house to teach her obedience and reverence and respect for the superior power and wisdom of her lord and master.—DeLand News.

The Camphor Tree

Did you ever see mosse growing on a camphor tree? Do you know of any insect pest or other insect that makes its home or propagates its species on a camphor tree? Do you know of any prettier shade tree? Do you know of any tree that makes a more rapid growth? Did you ever know a camphor tree to be injured by cold in this section of Florida? Do you know of one single objectionable characteristic of the camphor tree for shade wind break, or roadside or avenue tree? Do you know of any tree that requires less care or nursing? Can you give any valid reason why you have overlooked it and spent your efforts on water and live oaks, during all these years? Do you know of any reason why the newspapers of South Florida—always leaders and directors of public thought and enterprise—should not keep these questions, set in bold face type, standing at the head of one of their conspicuous columns? If they would all do so for one year don't you think our state would be beautified, ultimately, to the extent of a million of dollars?—Reporter Star.

State Press Meets

The annual gathering of the scribes at Tallahassee this year was one of the most enjoyable in the history of the Florida Press Association. Many able addresses were made and much good for the benefit of the craft was accomplished.

Palatka will be the next convention city of the Florida Press Association. This was decided on Wednesday morning at the final business session of the convention. Live Oak and Tampa were both candidates for the convention, but Palatka scored over them by a good majority.

The following officers were elected for the ensuing year: R. F. McCormack, Live Oak Democrat, president; Frank H. Mayes, Pensacola Journal, vice president; J. W. White, Jacksonville Fraternal Record, treasurer; T. J. Appleyard, state printer, secretary; M. F. Hetherington, Lakeland News, delegate to the National Editorial Association.

HOMESEEEKER.

Last week the second homeseekers' excursion for the month of April arrived in Jacksonville and brought quite a large number of people from various parts of the country. While the majority of the homeseekers made direct connections and went further south, quite a number stopped off in Jacksonville and visited lands in this section of the State.

The homeseekers' movement to Florida during the past winter season was unusually heavy. It was the first winter that the railroads had given homeseekers' rates and while these rates applied only twice a month, the crowds that visited the State on homeseekers' day were enough to convince the most skeptical of the wisdom of maintaining homeseekers' rates throughout the year.

The rush of homeseekers to Florida last winter almost completely changed the methods of selling Florida lands. The previous winter a number of land companies—the majority having headquarters entirely outside the State—published glaring advertisements and made the most extravagant claims as to their lands. As there were no cheap rates on at the season of the year that the larger portion of the people of the North and West can best get away from their homes, only a comparatively small number of people came to Florida to look at the lands. Thousands of people bought five and ten-acre tracts by mail order, solely on the strength of the advertisements and the descriptions given by the land companies. Last winter, when a large number of these same people found they could secure cheap round trip tickets to Florida at a season that best suited their convenience for being away from their homes, they quickly took advantage of the opportunity and visited the State.

The result of this rush of homeseekers and people who had already bought was to make people in all parts of the country cautious about buying Florida lands. The reputable home companies have from the start been advising all prospective purchasers to "see Florida lands before you buy." The "foreign" companies, on the contrary, endeavored to make as many sales as possible without their customers seeing the land. The home companies knew that they could not afford to sell land that would not stand inspection, while the "foreign" companies had no interest in Florida, except to sell as many acres as possible, and then skip out for pastures new.

When those who had bought by mail from companies located in Chicago and elsewhere came to Florida on the homeseekers' excursions many found that they had been badly "stung." They found their lands in the swamps and miles away from railroad transportation facilities. They were disgusted and the whole State suffered through the methods of the unprincipled dealers. These people returned to their homes and through their talking to others they have come pretty near putting a stop to the mail order land sales in Florida. It is now strictly a case of "see before you buy."

There are, however, some large companies in Florida, organized under the laws of Florida and composed

entirely of citizens of Florida, whose interests are in Florida, and these companies have established a most enviable reputation. They also sold a large amount of land on mail orders, but they were particular to sell only tracts of land that would stand the closest investigation. They urged their prospective customers to come to Florida and make their own selection, or have some one upon whom they could rely make the selection for them. These companies guaranteed that if the selection should be left to them they would refund all moneys paid in, if, within a specified time (usually sixty or ninety days), the purchaser inspected the land and did not find it exactly as represented. In almost every instance the selections made by these home companies gave entire satisfaction when the purchasers finally came to Florida and inspected the lands selected. Frequently the purchasers were so well pleased that they bought several additional tracts.

Homeseekers that are now coming to Florida are visiting various sections of the State and investigating conditions, as well as the land itself. They are profiting by the experience of others, and they are not taking any chances. They are avoiding localities where the settlers have made a failure. They are going into communities where others have succeeded, and are selecting land that is similar to land on which others are growing paying crops.

The homeseekers' movement to Florida will probably not be so heavy this summer as it was during the winter season, but those who came here during the summer months are those who are in real earnest, and who are anxious to ascertain the truth concerning the State and its lands. If these homeseekers are treated fairly and afforded every facility for making a thorough investigation, their visits will result in securing many new citizens for Florida during the present year.—Times-Union.

"HAYSEED" VS. CITY "DUDE."

Paraphrasing Horace Greeley's "Go West, young man," Col. L. P. Skeon, of Tifton, at the Chamber of Commerce smoker in Savannah, Ga., recently, made an earnest and eloquent plea for the development of the country sections of the South. He declared that what a generation ago applied to the West applies with equal force next in importance to bringing new blood and young men into the South. Colonel Skeon emphasized the necessity of character, which he said would be of incalculable value in the upbuilding and development of the South. He also advised that while good roads are being built and other things being done to make the country attractive to the young man, the young man should be educated to understand that it is just as honorable to be a "hayseed" as it is to be a city "dude."

Represented by their attorneys, the officers of the American Naval Stores company recently convicted in Federal court of being a combination in restraint of trade, have made an appeal to the supreme court for an early hearing of their appeal from sentence.

In union there is strength. We have the goods you need, and the price you can do the rest. Sanford Furniture Co. 35-1f

NO REASON FOR DOUBT.

A Statement of Facts Backed by a Strong Guarantee.

We guarantee complete relief to all sufferers from constipation. In every case where we fail we will supply the medicine free.

Rehall Orderlies are a gentle, effective, dependable and safe bowel regulator, strengthener and tonic. They re-establish nature's functions in a quiet, easy way. They do not cause any inconvenience, griping or nausea. They are so pleasant to take and work so easily that they may be taken by any one at any time. They thoroughly tone up the whole system to healthy activity.

Rehall Orderlies are unsurpassable and ideal for the use of children, old folks and delicate persons. We cannot too highly recommend them to all sufferers from any form of constipation and its attendant evils. Two sizes, 10c. and 25c. Remember, you can obtain Rehall Remedies in this community only at our store—The Rehall Store.

THE SANFORD HERALD

IN SANFORD—Life is Worth Living

Number 37

SANFORD, FLORIDA, FRIDAY, APRIL 28, 1911

Volume III

ALL AROUND FLORIDA

The General News of "The Land of Flowers."

CULLED FROM THE STATE PRESS

An Epitome of the Week's Most Important Happenings in the State's Domain.

The politicians at Tallahassee are announcing, withdrawing, denying and making statements much more rapidly than the legislators are passing laws. The latest talk is of Genial Gene S. Matthews for governor. He himself hasn't said anything about it, but it's in the air. His friends are grooming him.

The office of attorney for the Railroad Commission, which was recently made vacant by the resignation of Louis C. Massey of Orlando, will be abolished if a bill introduced this morning by Speaker Jennings is passed. This office was created by the legislature of 1907 and authorizes the commission to employ an attorney.

The Atlantic Coast Line, in addition to its large undertaking in double-tracking the line from Jacksonville to Washington, is increasing its equipment in rolling stock by the purchase of 16 Pacific type passenger locomotives; 20 large freight engines; 25 passenger coaches; 1,400 box cars; 50 phosphate cars; 50 ballast cars, which will all be delivered within the coming summer.

Fort Meade folks were considerably excited Wednesday night over the horse-whipping of Editor Ernest B. Simmons of the Fort Meade Leader by W. H. Johnson of Bartow. The horse-whipping took place almost directly in front of the postoffice, on Main street, about 7 o'clock last night. Mr. Simmons was walking down the street when Mr. Johnson approached him and began laying on heartily with a cow whip. The editor, who says he was very much taken by surprise, did not retaliate, friends stopping the affair.

The Atlantic Coast Line depot at Martel was totally destroyed by fire Tuesday night. Some twenty yards of track were destroyed. The line will be restored.

Brooksville held a bonding election Wednesday and the citizens voted bonds. The sum of \$18,000 was voted, and it will be applied solely to street improvements. Of the total amount, \$16,000 is to be expended in paving roadways with vitrified brick.

Editor McCormack, of the Live Oak Democrat, has been appointed by Commissioner of Agriculture McClain a delegate to the good roads convention to be held at Birmingham, Ala., May 23. Mr. McCormack has always been a devoted advocate of better highways and a better selection could not have been made.

Post Card Day, May 1st

Post Card Day has been endorsed by Governor Gilchrist, many boards of trade and unqualifiedly endorsed by the Jacksonville Times-Union and Metropolis, the Tampa Times and Tribune, Pensacola Journal and News, St. Augustine Record, the Miami, Orlando, Ft. Myers, Key West, Ocala, Gainesville and St. Petersburg daily papers of the state including The Herald. It is such a cheap and simple thing for every reader to get one of our hundred post cards today and address them to friends in the North and then hold them until May 1st, when you will put them in the post office.

Not every person will do this, so it is up to the live ones to mail a score or more cards, and thus make the day momentous as the greatest advertising stunt pulled off in Florida.

Be a booster. If only a little one-cent post card booster. Every little added to what we have makes just so much more.

Mrs. W. C. Finnell

Those who met and became acquainted with Mrs. Mattie E. Finnell of Richmond, Ky., while she was a guest of her daughter, Mrs. F. W. Miller, during the winter of a year ago, will regret to learn of the lady's death. Mrs. Miller was called to the bedside of her mother three weeks since. Mrs. Finnell was a woman of exceptionally lovely character and made friends of all whom she met during her stay in Sanford. Mrs. Miller with her daughter, Miss Martha, will go to Nicholasville, Ky., and spend some time with her sisters, Mrs. T. C. Willis and Mrs. C. C. Burgin.

GROWERS' ASSOCIATION

Has Made A Good Record During the Past Season

The Florida Vegetable Growers' Association has made a good record for an institution of but one year's existence. Already improved market conditions are very apparent, as the direct result of the work of this organization. Sanford f. o. b. prices have been obtained to a far greater extent than heretofore. The returns have been delayed less than formerly and generally speaking the amounts realized have been much more satisfactory.

Organizing, launching out without a penny of capital, and providing for raising the necessary funds by an assessment of \$6.00 per share, the Florida Vegetable Fruit Growers' Association has managed so well that only the first installment of \$2.00 per share has been asked for. Thus, the tax upon the members has been very light and merely one-third of what it was expected to be.

The Association has handled for the growers of the Sanford district 150,000 packages. It has paid out in cash and distributed among our farmers between one and two hundred thousand dollars. It has created a market not heretofore known for green, or unbleached, lily grown celery, cold storing same and realizing money for the truckers on a product not hitherto counted of any value. A year ago, acre after acre of this was ploughed under; this season remunerative values were obtained.

Through the Vegetable Growers' Association, farmers who were short handed have been able to arrange for and secure supplies they could not otherwise have provided, such as fertilizers, crates, hampers, barrels, seed, etc. Credit has been established and predicted upon future crop returns, which has enabled large numbers to cultivate and harvest as they could not have done but for their connection with the Association.

The Florida Vegetable Growers' Association is managed by an exceptionally competent, practical and executive board of directors, of which G. R. Calhoun is president, W. D. Holden, vice-president, and members E. E. Brown, B. A. Howard, Henry Nickel and J. H. Mitchell, with Harry Ward, general manager, E. T. Woodruff, secretary and treasurer.

Preparations are now being made for the annual meeting which, provided by the by-laws, is to be held the first Thursday in May.

Every member of the Association is expected to be present at the annual meeting, Eagles' Hall, Thursday afternoon next, at two o'clock. All should, and no doubt will, come prepared to lend best energies to the cause of a successful perpetuation of this invaluable institution. It is of vital interest to every farmer and trucker that this organization be brought to the highest achievement possible. Not a grower in the district but should at once connect himself with this splendid organization. The field of operations is broad and large, and the work done this season is comparatively but that of an infant, in promise of what the future years shall and will, if the Association is rightly supported, accomplish in the interest of the man who has products to sell.

Think what it means to you, Mr. Truckster, if you are not a member, become one. If you are a member, act judiciously and with mature deliberation, select good officers, the very best you can, on Thursday next, and then give the management your heartiest and most undivided support.

Money in your pocket, and success to the Sanford proposition, in such a course, is not problematic but a doubly assured and accomplished fact.

New Bank at Orlando

A new bank has been started at Orlando to be called "The People's National Bank of Orlando", capital \$50,000, thirty subscribers have already bought stock at \$120 per share and the following officers have been elected:

President, James C. Patterson; First Vice-President, Dr. C. A. Campbell; Second Vice-President, Charles E. Johnson, and Attorney L. G. Starbuck, these with Dr. J. N. McElroy, Chauncey Holt, and C. E. Sanders, the board of directors.

Annual Meeting

The annual meeting of the Florida Vegetable Growers' Association, in accordance with provision of the by-laws, will be held Thursday, May 4th, Eagles Hall, Sanford, Fla., 2 o'clock in the afternoon. Every member of the Association as expected and urged to be present.

NEWS OF LEGISLATURE

Many Matters of Importance Up For Consideration

The third week of the session of Legislature has witnessed some important events, and some of more than usual interest to the people of the state.

The State Press Association was in session here Monday, Tuesday and Wednesday of this week and their sessions were attended not only by a large percentage of the membership but also by many members of the legislature and others in the capital city.

The settlement of the L. & N. Railway rate controversy was one of the most interesting bits of news announced this week. The contract was signed Monday afternoon in Pensacola between representatives of the L. & N. and the special council of the railroad commission. The matter has been pending in the courts for seven years and no settlement was reached in that way, but the agreement signed Monday was independent of the case in court but provided for its dismissal. The terms of the agreement were that the railway places the three cent rate into effect on the P. & A. division and two short branch lines in Florida. On the other hand the railway commission will permit the decree in court being issued against them in order that the railway may be protected against back suits. In effect order No. 19 issued seven years ago will go into effect May 8th. It is believed by many that the rate was secured earlier than it would have been by reason of the effect of the bill introduced by Senator Stokes which made the rate statutory. This bill was recommended by Attorney General Trammell, and so the honor of the accomplishment will be shared by Trammell and Stokes with the railroad commission.

Senator Cone's State Uniformity Text Book bill has passed its second reading in the senate and will pass on its third reading. The house of representatives has not yet taken up this measure, but when they do a warm fight is expected. The measure for abolishing technicalities in court procedure has passed the senate and is being considered in the house committee. The measure has considerable chance of passing.

Claude L'Engle was here several days this week and when asked as to the daily paper he was to publish, said that he had offered to furnish the brains, if the people would furnish the cash, and the cash had not been forthcoming.

The bill introduced in the house by Gray of Gadsden and in the senate by Senator Broome, which prevents railways from forcing their employees to sign away their right of suit in case of personal injury (commonly known as the railroad relief bill) will pass both houses by big majorities. The house bill has passed the house and gone to the senate.

A bill to make mandatory the publishing of county commissioners proceedings has been set as a special order in the house.

A bill to allow postmasters to take acknowledgements on pension vouchers has passed second reading in the house.

The pilot bill has at last been settled and passed the house. The bill have a bill in every session.

The house has passed the joint resolution submitting question of allowing school districts to bond. Senate has yet to take action on house bill.

Mr. Jennings of Escambia has passed through the house a bill providing for the planting of shade trees in Pensacola and establishing a shade tree commission in that city. While this bill is purely local, it is a novel piece of legislation that will doubtless be given more general consideration within a few years.

The bill allowing a six weeks summer training school for teachers has passed the house and will no doubt be acted upon by the Senate this week.

The bill by Butler of Duval providing for the death penalty on conviction of burglary was killed in the house Tuesday.

Tallahassee was visited by a serious fire Monday night. The conflagration started right in the heart of the business section district was in danger. Tallahassee has a splendid volunteer fire department though and after hard fighting for an hour the flames were controlled.

The bill making mandatory at least one high school in each county has met its Waterloo in both the house and senate. The senate has passed the bill appropriating \$200,000 for a supreme court and railroad commission building. The house will in all probability cut this to \$100,000; but even that amount will provide a handsome home for these two departments.

MERCHANTS WILL CLOSE

Every Thursday Afternoon During the Summer Months

We the undersigned merchants of Sanford agree to close our places of business at twelve o'clock Thursday of each week (except when pay-day shall fall on Thursday) beginning the first Thursday in May and ending the last Thursday in September.

The Wednesday Club

All members of the club who were not present at the meeting Wednesday afternoon are notified that Mrs. Thrasher has invited the club to meet at her home Wednesday, May 3rd.

Mrs. S. O. Chase opened the program for the afternoon with a delightful paper on "Colonial Churches," giving interesting bits of the histories of the first churches where our forefathers began to enjoy their religious liberty in the new world.

"The Light of Other Days" was a very interesting paper prepared by Mrs. D. L. Thrasher and read by Mrs. Bowler in Mrs. Thrasher's absence. The lights furnished by pine knots, rush lights, tallow candles and primitive lamps with whale oil, and which the colonists considered themselves fortunate to have, would doubtless be scorned by the present up-to-date generation with their brilliant electric lights.

Mrs. C. E. Walker read a very interesting article on the "Kitchen Fireside," which in many of the colonial homes was the brightest, cheeriest and most homelike spot in the house. The names and uses of a number of fireside accessories were given, many of which were unknown to her listeners.

Miss Flossie Frank entertained the club with an interesting description of the "Meat and Drink" of the colonists. The variety and abundance of the menu given would indicate the epicurean proclivities of some of our ancestors.

"Serving of Meals" was an interesting detail of the daily family table, its furnishings, linen and service, which in some instances consisted of wooden and pewter dishes. From the number and variety of drinking utensils one might be pardoned for thinking the colonists were rather a convivial folk. This paper was read by Miss Mell Whitner, owing to the absence of her sister, Miss Alice.

Miss Mell Whitner read an interesting paper on "Spinning and Weaving," giving a description of the various processes of preparing the flax or cotton for the spinning wheel, which prepared the thread for the loom. The modus operandi of preparing the cloth was minutely described.

Miss Lillie Farnsworth read a most delightful article on "The Old Time Flower Gardens." The many names of the old fashioned flowers, loved and grown in those old time gardens, were perhaps reminders to some of those present of the flower gardens of their youth.

Program for May 3rd.

Electron of Officers.

I. Nansemond County, Miss Charlotte Keeler.

Reading, "Through Dismal Swamp"

(Byrd 1728) Miss Alice Tetherly.

II. Virginia Today, Mrs. C. C. Worthington.

The Colonial Gentleman, Mrs. M. Martin.

III. Round About in Virginia, Items by Club.

Critic.

Pecans at Sanford

The few people who have found time to turn their attention to pecan growing in this vicinity have found it most profitable. The high, pine lands prove most adaptable employment the trees usually being planted upon lands that could not produce vegetable crops at a profit. Mr. and Mrs. Frank Johnson at Markham have some fine bearing trees and the nuts received some good prize at the Orange County Fair. Their venture will prove a source of revenue to them in their old age, a venture that will not freeze and always have a ready market.

HAPPENINGS DURING THE WEEK

Here the Readers Will Find a Brief Historical Spring Fleeting For Hurried Readers

According to Capt. Stephen A. Wood, who is the head of the Chicago detective bureau, and who has collaborated with Detective William J. Burns of New York in tracing down the alleged destroyers of the Los Angeles Times building, uncovering one of the greatest sensations of the country, the detective bureau is in possession of a confession made by one of the members of the alleged gang, covering ninety typewritten pages, and detailing the operations of the members of the International Association of Bridge and Iron Structural Workers, not only in the Los Angeles Times outrage, but in the blowing up of other structures in other parts of the country on which, or in which non-union labor was employed.

Appointments to three high diplomatic posts were confirmed by the senate on Monday, when Ambassador William W. Rockhill, now at St. Petersburg, was confirmed as Ambassador to Turkey, to succeed Oscar S. Straus, resigned. Curtis Guild, former governor of Massachusetts, was confirmed as Rockhill's successor at St. Petersburg, and former Representative Henry S. Bottell of Illinois was confirmed as minister to Switzerland.

Samuel Gompers, president of the American Federation of Labor, has expressed great indignation over the manner of the arrest of John J. McNamara and his associates in the Bridge and Iron Structural Workers' association at Indianapolis. Gompers says they were kidnapped.

The probabilities seem to be against the adoption of the income tax amendment to the Federal constitution. Favorable action by the legislatures of thirty-five states is necessary to its ratification. Twenty-eight have, so far, voted for it, seven have voted adversely, two have adjourned without action and in nine states the amendment is still pending.

The thirteen express companies in this country are capitalized at \$186,221,350, but can only show real property and equipment to the value of \$22,312,375. This means that rates are charged so as to earn dividends on \$167,000,000 of watered stock. Here is a chance for Congress to engage in some practical reform work.

The investigation of the New York fire has brought out the information that there were absolutely no facilities for the hundreds of workers in case of emergency. Heavy doors that swing inward were found to be among the contributing causes of the great loss of life. Scores of panic-stricken girls crowded against these doors and made it impossible for those in the lead to pull them open.

The rapid looming up of the figure of Woodrow Wilson upon the political horizon is unprecedented in the history of presidential campaigns and is one of the most surprising phenomena of the day. A year ago the man who predicted his nomination for president would have been laughed at for the absurdity of his forecast; now it is not only a possibility, but a probability.

Secretary MacVeagh of the United States Treasury, made a plea at Somerville, S. C., that the solid South be broken, but he is barking up the wrong tree. The South was forced to be sold and will remain so until conditions which the Republicans have forced are changed.

If nothing else can stop them, the Daughters of the American Revolution now in session in Washington, can move on to Mexico and make the fighters behave themselves. That is to say if they still retain the fighting blood of their ancestors who tore this country from the grip of the British.

Professor Whitley from Wesleyan University has proved that spirituous liquors are just as harmful when the alcohol has been removed from them as when it is present. Like the gun which has had lock, barrel and hammer removed, it is still dangerous because you can knock a man in the head with the stock.
