

Hutchins Says U. S. Citizens Avoid Books Judge Rules Children Need More Than Cash

CHICAGO, Aug. 9.—Robert M. Hutchins, director of the University of Chicago, said today Americans are "markedly defective" in reading, writing, speaking, and listening. In an opening address prepared for a meeting of educators who are seeking to evaluate the public library as an American institution, Hutchins said adults need more education in communication of ideas. "Adults suffer intensely from the great paradox of our time: the trivialization of life," he said. "Adult education is necessary to save them from the suicidal tendencies that boredom eventually produces."

NEW YORK, Aug. 9.—A domestic relations court justice has ruled that a young mother, whose divorced husband has disappeared, need not get a job to support her two small children so long as the grandparents are financially able to do so. Justice Jacob Panken made public yesterday a decision in which he said: "Food, clothing and shelter are the primary needs. But children need more than just that. They need care, supervision, guidance, education and some form of recreation. x x x "In the absence of proof that a mother is inadequate or unfit or incapable of caring for a child, experience shows that the mother is the best nurse. "To deprive a child of mother love or care is to deprive him of support, the support with which a parent or a grandparent is charged by law."

Fashion In Granmas Has Radical Change

CHICAGO, Aug. 9.—(AP)—The fashion in grandmothers has changed radically, a University of Chicago sociologist says, and he thinks it's for the best. Prof. Ernest W. Burgess told the university's first institute on problems of old age today "The day when grandmothers accepted a status as old and went to church on Sundays in black dresses and black silk bonnets is gone forever. "But older people are frustrated to a greater extent than people in other ages x x x "Prof. Burgess said the basic yearnings of aged persons are just the same as those of their juniors—primarily for economic,

emotional and spiritual security. But, "as a person becomes older he loses by death his spouse and his friends. Many older persons feel pushed aside. Loneliness is prevalent among older persons." He said activities are necessary to compensate for loneliness. "Isolated souls are especially delicate when they have a variety of greens. Use watercress, Boston and iceberg lettuce, romaine, endive, chicory and escarole if they are available. 15 Passengers Are Killed In Bus Accident

12 More Injured As Greyhound Bus Hits Abutment And Burns After Turning Over

BLOOMINGTON, Ind., Aug. 10.—(AP)—Fifteen persons died in the flaming wreckage of a greyhound bus that burned after smashing into a bridge abutment near here early today.

None of the dead has been identified.

The bus, bound from Indianapolis to Bloomington, hit the bridge on a winding, hilly road shortly after midnight. Seconds later it was in flames.

Coroner Robert W. Lyons of Monroe county said 15 would be the death toll.

Twelve other persons were injured in the crash and are in a Bloomington hospital.

The bodies removed from the bus were placed in six ambulances and a hearse and, accompanied by a police escort, were brought to the Indiana National Guard armory here to await identification.

Driver Wayne Cramer of Indianapolis, one of the survivors, said a front tire may have blown out, causing him to lose control of the bus. After striking the abutment it skidded 150 feet down window highway 37 and came to rest on its left side, blocking the emergency door.

Flames enveloped the vehicle almost immediately. The driver said he saw "two or three" passengers get out of the front part.

The other survivors escaped through a rear window which a passenger kicked out.

A greyhound spokesman in Indianapolis, who declined to permit use of his name, confirmed that there were 27 passengers on the bus when it left Indianapolis for Bloomington.

Glen Van Horn, manager of Station WTTB in Bloomington, said one of the survivors told him he walked the length of the bus to get out of the bus.

The survivor, Wells Richardson, 18, of Evansville, Ind., told Van Horn.

Homer Little Hurt When Car Hits Cow

Homer Little, local restaurant operator, suffered two broken ribs and a serious cut on the foot, and Mrs. Little and son were shocked and bruised Friday night when their automobile struck a cow on the highway.

The accident occurred near Williston, while en route home from a trip to Mississippi and Alabama.

Mrs. Little was driving and in the dusk did not see a cow on the highway until the automobile was close to it, she revealed. She swerved the car sharply, it went out of control and turned over, remaining upside down in the ditch.

Little was riding in the front seat and Bobby in the rear seat.

A lady stopped her automobile and took them to the Williston hospital, 27 miles south, where they remained until Saturday night.

Elsie Thomas Shows Steady Improvement

The condition of Elsie Thomas, nee, who suffered severe cuts Monday night from a knife wielded by her late husband Heidt Thomas, was today reported as fair at Fernald-Laughton Memorial Hospital, and both she and her sister, Minnie Robinson, who was also cut and injured, are said to be out of danger.

John Daniels, brother-in-law of Thomas, was released today from the hospital following treatment of wounds received in the cutting scrape Heidt Thomas, 60, year old farm worker, died of heart failure soon after the Greek air.

Albania Accuses Greek Forces Of Invading Borders

Fighting Said To Be In Progress Along Thirty Mile Front

LONDON, Aug. 10.—(AP)—Albania said today she is being invaded by Greece and that fighting is in progress along a 30-mile front.

A broadcast by the official Tass radio said bloody clashes with Albanian government troops began four days ago. It added that hundreds of soldiers have been killed or taken prisoner.

The Albanian invasion charge which coincides with an all-out offensive by the Greek government against Communist-led rebels, was made by the Albanian ministry of armed forces.

The government charged later that Greek army aircraft and artillery had bombed, shelled and strafed hundreds of Albanians on a 30-mile front between Laskovik and Gheorghid, just inside Albanian and Greece's northern border.

The ministry said Greek planes had been shot down by "our brave troops."

It charged hundreds of border violations by the Greek army during August 8, 7, 8 and 9.

The four-day period marks the beginning of the Greek government's announced offensive to wipe out Communist-led rebels from their last northern stronghold in Greece.

The Greeks have charged that rebel troops are anchored by a triangular base in the mountainous area of a string of heavy fortifications inside Albanian territory. They say the rebels pass freely back and forth from Greece to Albania and that supply trucks have been seen coming from Albania. Athens has officially charged that her army has been shelled during the offensive from the Albanian border forts.

Congratulations Pour In For Hoover On His 75th Birthday

STANFORD UNIVERSITY, Calif., Aug. 10.—(AP)—Herbert Clark Hoover is 75 years old today, and tributes for the country's only living ex-president poured in from all over the world.

Late today Stanford University will honor its most illustrious graduate in the Frost amphitheater. A crowd of 12,000 to 14,000 was expected.

The program will be climaxed by a major address by Mr. Hoover, beginning at 8 P. M., PST (8 P. M. EST). His topic will be "Think Of The Next Generation."

Even Mr. Hoover, who once said "I have had every honor to which any man could aspire," probably was surprised by the stir created by his birthday anniversary and by the congratulatory letters by the thousands.

Two states, Arkansas and Maryland, proclaimed today "Hoover Day." Governor Earl Warren of California issued a proclamation which is being observed in many states.

Truman Signs New Bill For Unification

President Says Law Will Give Country Stronger, Cheaper National Defense

WASHINGTON, Aug. 10.—(AP)—President Truman today signed the new armed services unification bill. He said that this will permit the United States to progress toward "a balanced and effective national defense."

Mr. Truman signed the measure in a ceremony in his oval room office. Senators and representatives who handled the legislation, the heads of the defense establishment and top ranking Army, Navy and Air Force " brass looked on.

The legislation, which strengthens Secretary of Defense Johnson's control over the entire military setup, drew one criticism from Mr. Truman.

"It is unfortunate that in this generally progressive legislation at least one provision represents a backward step," the President said in a brief statement.

"New and cumbersome restrictions are placed on the membership of the National Security Council, whereas the desirable course would be to follow the recommendation of the commission on organization of the executive branch and remove the statutory restrictions on the council's membership."

As a whole, however, Mr. Truman said the bill "represents a progressive step" and will lead to "increased efficiency and economy and greater coordination of our military forces."

Johnson wanted no time. As soon as the bill was signed, he appointed a national defense management committee and a management advisory group, and named General Joseph T. McNamary as chairman of the management committee.

Among other things, the new legislation would:

- (1) Raise the present defense establishment to full status as an executive department ranking second only to the State Department. This will give Secretary of Defense Louis Johnson more power to force greater cooperation between the Army, Navy and Air Force.

- (2) Reduce the Army, Navy and Air Force from executive status to military departments. Actual merger of the three services and their subordinate units—including naval aviation and the Marine Corps—however, is prohibited.

- (3) Set up a permanent chairman of the joint chiefs of staff. The new chairman would have veto or command authority and restricted in case of emergency.

Cleveland Police Save Flier From Mob

CLEVELAND, Aug. 10.—(AP)—Battling back an angry crowd of about 150 persons, police early today took a 24-year-old Air Force member into custody for questioning in the killing of his widowed mother.

William Buearich, 24, home on leave from the Air Force, was arrested when police arrested him on the way to his second floor apartment home.

Neighbors a short time before had found his mother, Mrs. Mary Buearich, 49, dying of a revolver bullet wound near her heart.

Police Lt. Jack Dudek said Buearich claimed his revolver was found accidentally while he was showing it to his mother. The neighbors told Dudek they heard the young man quarreling with the widow just before the shot was fired.

Frate onlookers tried to grab Buearich as he sat in a police squad car near the scene. A window in the police car was broken and one patrolman was scratched pushing back the crowd. One of the leaders of the crowd was arrested, but no charges were filed against him immediately.

WHITNEY ESTATE

CLEVELAND, Aug. 10.—(AP)—The late Alexander P. Whitney, president of the Brotherhood of Railroad Trainmen, left an estate of about \$185,000, probate court records today indicate. His widow, Dorothy, receives a life interest in the estate, which will later go to their three children.

RINGLING WORSE

CHICAGO, Aug. 10.—(AP)—Robert Ringling, 61-year-old circus official, was reported today in critical condition and losing ground from severe internal bleeding.

Ringling was taken to St. Luke's Hospital last Friday after a visit to the Ringling Brothers, Barnum and Bailey Combined Shows which were here at the time. He is a director of the shows.

ACTOR DIES

HOLLYWOOD, Aug. 10.—(AP)—After 78 years in show business, Harry Davenport, 83, character actor, is dead.

He died yesterday of a heart ailment. He had appeared on the stage at the age of five, and acted in the movies since 1912. Among his 100-odd films were "Come With the Wind," "Bonnie and Clyde," "The Sign of the Cross" and "The Sign of the Cross."

Governor Takes Over In Hawaiian Stevedore Strike

HONOLULU, Aug. 10.—(AP)—Governor Ingram M. Standley today took over the Hawaiian Stevedore strike.

The strike of Honolulu's two stevedore unions, the Hawaiian Stevedore Union and the Hawaiian Dockworkers Union, has been in progress since August 1.

The striking CIO International Longshoremen and Warehousemen Union, which has been in a similar strike since August 1, is also in the city.

Chief Of The Five Percenters Reveals How To Make Friends

WASHINGTON, Aug. 10.—(AP)—How did John F. Maragon climb from shoe-shine boy to men-about-Washington and favor-doer to people about Washington?

He told his own story yesterday for nearly three hours, the 55-year-old now live Greek immigrant chartered for reporters the course of his sometimes hectic, sometimes fabulous career.

The yarn smacks of Horatio Alger—but only to a point—Maragon tells it.

In the sweltering heat of his lawyer's downtown office, he unfolded his story. It was the year-to-year account from \$6 a week 13-year-old Kansas City bootblack to his present role in Congress' probe of "five percenters."

His words were well-chosen. His Greek accent was always as apparent as his grammar was correct.

Maragon noted a shaft of sun-

Bulk Of U. S. Military Aid To Go To French. But China Is Called Hopeless

WASHINGTON, Aug. 10.—(AP)—General Omar N. Bradley made clear today that the French army will be the backbone of the north Atlantic defenses.

The Army Chief of Staff told a joint meeting of the Senate Foreign Relations and Armed Services Committees that the bulk of American military aid proposed for Europe will go to the French.

Bradley urged quick approval of President Truman's \$1,450,000,000 arms program. But at the same time he wrote off any prospect of an effective military program for China.

"The (arm) program is an effective way to give aid to Europe," Bradley said. "But there is no immediate effective way to give aid to Asia."

Bradley, speaking for the three joint chiefs of staff, testified after Secretary of Defense Johnson told the committees he is willing to accept 60 per cent in cash and 40 per cent in contract authority to launch the arms program.

Senators Vandenberg (R-Mich.) yesterday proposed a 50-50 split, with the contract authorization to be paid out of next year's budget.

Johnson said it is agreeable to the military. He is willing to spread the initial cost of the arms program over two or even three years.

Another congressional proposal to defuse the major part of the proposed arms program would be the proposed "strategic security" study which would study a general defense plan and a staff from Bradley.

"The program should not be delayed," Bradley said in answer to a question by Chairman Connally (D-Tex.) of the Foreign Relations Committee.

Whatever strategic concept is agreed upon, this equipment will all be in place by 1953.

Bradley did not expand on his reference to the plan to give the bulk of the military aid to France. He said that would have to be given in secret.

The Army Chief of Staff and his staff and Air Force counterparts, Admiral Louis Denfeld and Vice Admiral John S. McCain, were also present.

Rep. Odham Talks To Orlando Civic Club

ORLANDO, Aug. 10.—(AP)—Rep. Bradley Odham, of Sanford, Fla., discussed the state tax problem before the Exchange Club yesterday, and said that before he would "go along" on any program to raise an additional \$60,000,000 to meet the \$240,000,000 appropriation, he would request that the appropriation bill be opened up and that all agencies be summoned to "justify their budget requests."

"I rebelled against raising the expenditures of government over the 1947-48 budget and I will do so again," Mr. Odham declared. "Some politicians," Mr. Odham said, "have declared that they feel it is necessary for them to go along on this issue because they have a mandate from the people. I don't know where that mandate came from," he said, "but a law that not one person has told me that I should vote to assess an additional \$60,000,000 in taxes."

THE NATION TODAY

WASHINGTON, Aug. 10.—(AP)—For a long time there have been rumblings about bringing more people under the protection of Social Security and increasing the payments to old people.

President Truman has asked Congress to do it. Monday night a step was taken in that direction when the House Ways and Means Committee approved legislation to do that.

That is not enough to make even one change in the present law, unless the Senate also approves. It's doubtful that the Senate will do anything about it before quitting this year.

The present law will remain unchanged for this year at least. If the House approves the bill this year, maybe the Senate will next year.

Under the present law about 35,000,000 people are covered. The bill would bring in another 11,000,000, leaving 46,000,000 or so people still unprotected, many of them farmers.

That insurance is the payment, or pension, which workers receive from the government when they retire at age 65.

The highest pension, or old age insurance, that can be paid an over-65 worker now is \$44.80. He won't get that much unless he had been receiving at least \$20.00 a week since Jan. 1, 1937.

His wife, when she reaches 65, gets half as much pension as he does. So the wife of a man receiving \$44.80 would get \$22.40.

The lowest pension anyone can receive now is \$1.00 a month. The bill would make the lowest anyone could get \$5.

The bill would be retroactive. For example, at least the pensions already being received by people who began getting it anytime between 1910 and the time the bill became law.

Under the present law, suppose a "covered" person became permanently disabled. He would get any pension until he reached 65.

Sanford did exceed the standards for drunken driving convictions, a report stated that no one is assigned to supervise safety upon the public school system.

Maragon said that he had closely followed this crowd in all three respects so far as Vaughan is concerned.

"WHAT DO YOU MAKE OF IT, WATSON?"

Skyscrapers Of Future To Have Curtain Walls Made Of Aluminum

PITTSBURGH, Aug. 10.—(AP)—Skyscrapers of the future may be made without stone, brick or mortar. Aluminum and stainless steel manufacturers have developed all-metal "curtain walls" which can be used in place of traditional building materials.

Curtain walls are only three to six inches thick, with a resulting saving in floor space. They consist of relatively thin, grooved metal, backed by insulation and furnished to prevent blinding light reflections and to increase wind strength.

The new method already has been put to everyday use. The Aluminum Company of America, which first built a pilot plant of aluminum at Davonport, Pa., now is constructing a 30-story skyscraper office building in Pittsburgh's Golden Triangle.

The \$100,000,000 ALCOA office building on Sixth Avenue will be clad by insulation and furnished to prevent blinding light reflections and to increase wind strength.

Other pioneering in curtain wall construction has been done by the Allegheny-Ludlum Steel Corp., which furnished stainless steel panels for a four-story office building at the big General Electric Co. plant in Schenectady, N. Y.

There is a six-inch thick curtain wall at Davonport, Pa., now is constructing a 30-story skyscraper office building in Pittsburgh's Golden Triangle.

But never, Maragon said, did he become wealthy—the missing ingredient to make his career a run-to-ribs saga.

Maragon said that he had closely followed this crowd in all three respects so far as Vaughan is concerned.

Bus Accident

Horn he was doing when the bus struck the bridge abutment. The bus was still smoldering two hours after the wreck. The center section was burned down to a mass of twisted metal in which charred bodies could be seen.

A Bloomington fire truck laid a line to Muddy Fork Creek, near the scene, and pumped water into the smoldering bus. State police waited until daylight to start removing bodies.

It was feared identification and even an accurate count of the bodies would be a slow process. Some of them, officers said, would have to be cut out of the wreckage with torches.

Van Horn said Edgar Davis of Indianapolis, a negro, was credited by other survivors with kicking out a rear window, through which most of the survivors escaped. Davis suffered a leg injury and was brought to the Bloomington hospital.

Billy Ellerbrook of Evansville, another survivor, said he was riding right behind the driver when the accident occurred. He said his impression was that the bus hit a bump in the road and went out of control.

Survivors at the time of the accident at 12:40 A.M. (Central Daylight Time). Bloomington, seat of Indiana University, is about 60 miles southwest of Indianapolis.

Several miles from Monroe county a farmer living only 100 yards from the scene of the bus crash gave this account of the wreck: "The impact awakened my wife and me, and by the time we got to the window the bus was burning and there was also something burning on the bridge. My first idea was that two cars had met on the bridge.

"People were screaming—I never heard such a sound and I never want to again. I was trying to get out of the front of the bus. At the time I thought that was the back of the bus.

"I couldn't get within 100 feet of the fire. It blocked the highway and the bus could be approached only through a field.

"One of the bodies at the front of the bus was the most unusually large man. People who got out said some others were unable to get past him."

Joseph Master, a farmer who lives 200 yards from the scene of the crash, was awakened by the noise.

By the time he could get to the window, the bus was in flames. There was no time at all until it was affire," he said. "After I saw it there was just one more explosion."

Wayne Cramer, 28, Indianapolis, the driver, turned seriously and brought to Bloomington hospital.

Pfc. Dale Alkman, Camp Campbell, Ky., serious burns on face and hands, brought to Bloomington hospital.

Uninjured or given first aid at the scene were: Wells Richardson, 18, Evansville; John Hironimus, 16, Evansville; Luke Schute, Bloomington; Earl Litteral, 24, Cedarville, O.; Mrs. Lucille Melton, 39, Mt. Vernon, Ind.; Judith Ann Melton, 10, Mt. Vernon, Ind.; Leonard Long, 41, French Lick, Ind.; Wilfred Luttrill, Evansville; Billy Ellerbrook, Evansville.

Picnic Is Enjoyed By Sanford Pilot Club

"Time and Tide" the summer home of Mrs. Mary Rawlin, was the scene of a picnic and swimming party which was enjoyed by members of the Pilot Club yesterday afternoon with Mrs. Z. B. Ruffin, Mrs. Joel S. Field and Mrs. M. L. Raborn as hostesses.

Throughout the afternoon and evening swimming and boating were enjoyed after the picnic supper was eaten out of doors. Mrs. Ruth Scott, president, announced that a district council meeting will be held this weekend at Ocala and urged as many as could to go. Those who wish to go are asked to contact her not later than Thursday.

Those enjoying the picnic were Mrs. E. H. Laney and guest, Mrs. Andy Parish of Savannah, Ga.; Mrs. John L. Starnes; Mrs. B. E. Lane, Mrs. LeRoy West, Mrs. George Stine, Mrs. Orville Touchette, Mrs. B. E. Chapman, Mrs. J. L. Clark, Mrs. M. M. Staley, Mrs. Nancy Brock, Mrs. J. P. Hall, Mrs. W. V. Biting, Mrs. Esther Rive, Mrs. Mary Rawlin, Mrs. W. E. Holyfield, Mrs. C. M. Boyd, Mrs. A. L. Hunt, Mrs. C. Messenger, Mrs. A. B. Peterson, Mrs. Scott, Mrs. Raborn, Mrs. Field, Mrs. Ruffin, Mrs. A. K. Shoemaker, and Mrs. Blanche Kennedy and Miss Jean Dubbs.

After flying to St. Louis, Mo., to make plans for a vacation, Mrs. Blanche Kennedy and Miss Jean Dubbs are seen at the airport. The couple later went to the airport to meet Mrs. Kennedy's mother, Mrs. A. K. Shoemaker, and her sister, Mrs. M. L. Raborn.

Wedwood To Employ New England Scenes

BARTFORTH, Conn., Aug. 10 (AP)—The British firm which makes Wedwood plates is planning a new series of patterns showing each New England industry as tobacco culture, maple sugaring, logging, coal mining and cranberry picking.

This became known yesterday when Miss Claire Leighton arrived in the area to execute a series of wood engravings about tobacco culture.

Miss Leighton, a Dartmouth, N. C., graduate who once won first prize for wood engravings at the Chicago International Exhibition said she had been commissioned by Wedwood to do the New England scenes.

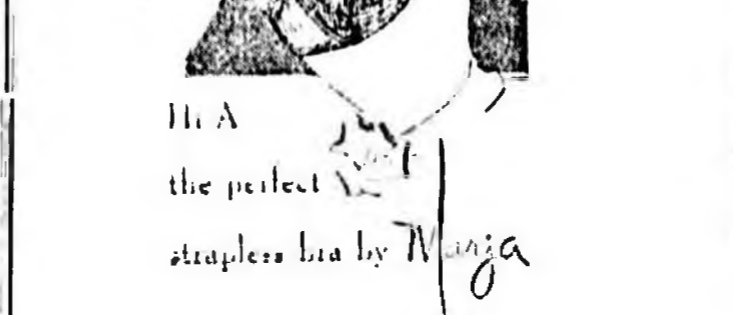

Her first step was to make preliminary sketches of scenes on North Windsor tobacco farms.

Dior's Collection Hailed Outstanding

PARIS, Aug. 10 (AP)—Season's windmills and dropped shoulder lines cut off with the Fall fashion show at Christian Dior's today. Panels that crop in front set new fashion, fullness that swirls around a windmill and the new shoulderline caused so much excitement that the famous designer was swarmed by admirers when the curtain fell.

The admirers shoved and elbowed their way to his side to kiss him on both cheeks. The creator of the new look came up smiling, if lipstuck-smiling.

Miss America, who is visiting in France, had a front seat. Hele Shop said it was the most magnificent thing she ever had seen.

Hollywood

HOLLYWOOD, Aug. 10 (AP)—Barbara Stanwick gives out with another reason for dropping long marriage to Robert Taylor last night.

The actress was asked on the "East Side" West Side set if she would go out with her husband. Her reply: "We're letting well enough alone."

"We don't want to tempt fate too much," she added. "Besides, we just don't have a desire to work together. We did our movie together years ago, and it was terrible."

Gossips have tried to whip up a feud between Maria Montez and Yvonne DeCarlo since Yvonne resigned Maria in Universal's exotic operas.

But the two are pals, and Yvonne will visit Maria on her European trip which she will start in New York this week.

Lu Montez has apparently abandoned Hollywood. She finds the money and the living pleasant on the continent. At present she is in Venice making "The Thief of Venice" with George Sanders and Paul Christian.

For years show business tradition has been that Los Angeles is a punk town for legit shows. But look at it now. Last week "Annie Get Your Gun" and "Kiss Me, Kate" made \$60,000 apiece, more than any New York show. And three of the other shows have run seven ("Bluesette"), eight ("Tarnished") and 17 weeks ("The Bankard").

"Kismet" fans may be shocked by Lee Remick getting kissed by "Sissy Spacek" during dinner in his next film, "Long and Lingering," the studio adds. The ape man usually goes kissless in his films.

John Wayne goes from the mountains in "Sands of Iwo Jima" to "Jet Pilot" at RKO. That is, if Howard Hughes comes up with a better script for the air feature.

Wayne begins his Warner contract this fall, and he says it's a "dream."

Red Hats Make It 2 Straight, Vs. Giants

Leesburg Dodgers To Take On Local Aggregation Tonight

The DeLand Red Hats made it two straight over the Sanford Giants by winning a 3 to 2 decision last night at DeLand. The game was called at the top of the seventh inning because of rain.

Tonight the Leesburg Dodgers will invade Sanford for a tilt at Municipal Park. Most of the scoring of the game at DeLand occurred during the early innings. The Red Hats got to three Sanford pitchers, Deal, Wilson and Reese for nine hits, which with seven walks gave them a commanding lead over the Giants who scored a marker in each of the first two innings.

Manager Bill Ferrin of the Red Hats was honored in pre-game ceremonies for his fine work this season.

In Palatka the Aztecs broke their three game losing streak by blasting Gainesville's ace hurler, George Fultz for nine hits.

For a 7-5 victory behind the eight hit hurling of Chester (the Great) Covington.

This was Covington's 10th win against no defeats. Covington also led the Aztecs at bat with three hits in four trips including a double.

Al Pittle of G-Man rightfielder was the big-bat with two doubles and a single in four trips.

Fletcher Ingalls relieved Fultz for the 6th in the sixth and allowed the Aztecs only one hit for the rest of the tilt.

At St. Augustine the cellar-dwelling Leesburg Dodgers emerged from a lonesome played game with a 9-7 win over the Saints.

Charles To Battle
NEW YORK, Aug. 10 (AP)—Ezzard Charles rules a solid 5 to 18 favorite to punch 34-year-old Gus Lesnevich full of holes tonight at Yankee Stadium in the first defense of his newly-won NBA heavyweight boxing championship.

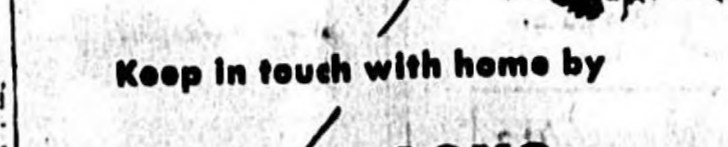

Only 49 days after he cautiously outboxed Jersey Joe Walcott to win the crown, the 28-year-old Cincinnati negro rushed to the post in an effort to convince New York skeptics of his right to be called "champ."

No matter how soon he may knock out Gus, if at all, Charles will not be champ in New York state. Eddie Egan, chairman of the State Athletic Commission, has ruled the winner must meet Lee Savold or "some suitable opponent" before he gives his official blessing. Ezzard is king in the other 47 states.

Jim Norris, president of the International Boxing Club, which is promoting the fight hopes for \$160,000 and over 20,000 fans.

The New York, Baltimore and Buffalo teams of the All-American Conference will play exhibition football games with the Charlotte, N. C. Clippers.

New Law Requires Beef Raised In Florida To Be Stamped "Florida"

TALLAHASSEE, Aug. 10 (AP)—So you always buy western beef? Been calling it for years? If those years have been spent in Florida, that's extremely doubtful. A good share of the "western" beef sold in the state actually is Florida produced.

Why call it western beef, then? Why indeed, said the Florida Legislature. Led by Rep. Edna Pearce, South Florida cattle raiser and the only woman in the Legislature, the lawmakers made it a misdemeanor not to identify Florida meat as such.

Secretary J. V. Knapp of the State Livestock Sanitary Board said the term "western beef" is an "old, worn-out expression" used because buyers have the idea all western cattle is cornfed and no other cattle is.

"Grade A meat is Grade A meat," he said, "no matter where it comes from."

The new law, which has just become effective, requires beef raised and slaughtered in this state to be stamped "Produced in Florida" or "Florida Beef."

In addition, restaurants which serve Florida beef must say so on their menus. Knapp has the job of enforcing the part of the law requiring meat stamping. The Hotel Commission is responsible for menu listings.

Attorney General Richard Ervin made Knapp's task a little easier the other day by ruling it unnecessary to stamp such small portions of beef as roasts, chops, steaks and other cuts sold at retail.

Knapp has circulated slaughterhouses telling them they must get stamps and intends to have his workers check on the meat from time to time. He said he thinks "most of them will respond." But still anticipates a few problems.

"The difficulty will be finding out what is Florida beef and what isn't," he said. "I don't know just what we're going to do about that. There are hundreds of slaughterers in the state. Nearly every town has some character of slaughterhouse."

The Hotel Commission has instructed its field inspectors to keep an eye on restaurant menus to see Florida beef isn't being slighted.

And how about complaints from people who say they want western beef? Dr. Knapp suggests they tell their are still getting the same meat they've been getting for years.

"A lot of people are going to find out we raise good beef in Florida," he said.

Cincinnati pitcher Eddie Ezzard will not be champ in New York state. Eddie Egan, chairman of the State Athletic Commission, has ruled the winner must meet Lee Savold or "some suitable opponent" before he gives his official blessing. Ezzard is king in the other 47 states.

RAINED OUT BY ASSOCIATED PRESS

For everyone but Augusta, the South Atlantic League Baseball program was a washout last night, either by rain or by battles which decided nothing.

Augusta whipped the Jacksonville tans 2-1 in the only decisive game. And even that made little difference in the standings. Jacksonville remains in fifth place and the tigers well buried in sixth place.

Charleston and Columbia managed two games but they did not determine a thing. Columbia won the first 4-3 and Charleston the second 7-1.

The rained out games were Columbia at Macon and Greenville at Savannah.

GI Pockets To Be Sweetened With NSLI Dividends

By ROWLAND EVANS, JR., WASHINGTON, Aug. 10.—A tremendous outpouring of dollars will sweeten the pockets of 16,000,000 World War II veterans early next year.

The dollars will come from a \$2,800,000,000 dividend kitty, built up in the National Service Life Insurance (NSLI) fund over the nine years.

The "special dividend" checks will roll out from Washington to the four corners of the globe—wherever veterans are starting in January. They will reach a rate of 200,000 a day, five days a week.

The average check will be \$175. Veterans will get more or less depending on:

1. Age of the veteran at the time he first bought NSLI.
2. Number of months he kept his insurance in force.
3. Amount of insurance he has (or had).
4. It must be applied for. (In the future dividends can be expected to be paid automatically on an annual basis and may be left with VA at interest also automatically.)
5. Beneficiaries or heirs of deceased veterans are eligible to receive the dividend, regardless of whether the policy was in force at the time the veteran died. But they need not apply for it. It is to be paid to them automatically.

BELL GOES TO CHURCH
ST. PETERSBURG, Fla., Aug. 10.—After 30 years on a locomotive, a brass bell from engine 1509 of the Atlantic Coast Line now calls the faithful to services at the Lakewood Presbyterian church, Engine 1509 formerly ran between Tampa, Fla., and Richmond, Va., but it has been retired. The church is in the process of being built and until it is finished, services are being held in the basement.

SINGAPORE POPULATION
SINGAPORE, Aug. 10.—The population of this British crown colony increased to an estimated 961,866 as of the middle of 1948. This compares with a population of 958,979 in 1947.

Every veteran who held some NSLI for at least three months will get some dividend if he applies for it.

It is highly probable some veterans never will apply, either because they don't want to or because they won't hear about it. However, the Veterans Administration will do its best to see that dividend information is stuffed into every nook and cranny of the U. S. and abroad (in cooperation with the State Department) through the press, radio, veterans' organizations, post offices, Red Cross and countless other media.

Within six weeks application blanks will be sent to every U. S. office and other convenient distribution points. Veterans will fill out their forms and mail direct to VA's central office in Washington in self-addressed envelopes.

A receipt will be mailed back to the veteran at the address he supplies on the form. He then waits for payment.

VA estimates it will take six months to complete payment of

dividends. It might be done quicker.

The special dividend is the result of two factors:

1. A lower-than-expected mortality rate among veterans after discharge. (War-connected deaths are paid by special appropriations and do not affect the dividend kitty.)

2. An out-dated mortality table which does not allow for the constantly increasing life span but which the law compels VA to use.

It is called a "special dividend" because:

1. It is computed from the date the insurance was purchased to the policy's 1948 anniversary date.

2. It cannot be left on deposit with VA at interest (although a veteran can endorse his check to VA as advance payment of NSLI premiums and this will draw 3 percent interest.)

3. It is payable to former, as well as present, NSLI policy holders.

4. It must be applied for. (In the future dividends can be expected to be paid automatically on an annual basis and may be left with VA at interest also automatically.)

5. Beneficiaries or heirs of deceased veterans are eligible to receive the dividend, regardless of whether the policy was in force at the time the veteran died. But they need not apply for it. It is to be paid to them automatically.

IT WAS ALL GREEK
BORTMUND, Germany, Aug. 10.—(AP) Anti-Communist agitators were asked to make a Greek inscription on a new building here. But they refused. They mistook the Greek letter for Russian.

POLEND ACTS ON SABOTAGE
WROCLAW, Poland, Aug. 10.—(AP) Economic sabotage, most of it apparently centering in industries operated in former eastern German lands, seem to be the cause of the trouble in Poland.

Arrests and trials of those accused of sabotage are frequent. A casual check of arrests reported by Polish newspapers indicated 1,500 persons had been landed in jail. Many of those included directors or vice-directors of industrial plants.

Saunders Mill's Oleks Hanover, world champion trotting mare on a half mile track, has been turned out for the 1949 season. The six-year-old will return to the track next year.

PLAGUE RETURNS
CALCUTTA, Aug. 10.—(AP) Plague has returned to the ranks of the epidemic diseases of Calcutta after an absence of 42 years. Last year there were 264 cases and 14 deaths during the 17 weeks ending July 31. But this year it started early in January and already it has killed 50 out of 258 cases.

Except for stray imported cases, Calcutta was free from plague since 1906. In 1939, about 10,000 were reported to have died of plague in Calcutta alone.

Czechs Go All Out To Secure Miners

PRAGUE, Aug. 10.—(AP)—Czechoslovakia's Communist government is combatting shortages of manpower and machinery in its coal mining industry as a serious threat to the nation's five-year plan.

In the mining town of Ostrava pictures of absentees are put on placards in the city square.

The government is offering free vacations to miners at Bohemian spas, which a coal digger could never afford on his wages. There are also priorities on housing—in flats from which "undesirable elements" are expelled.

The press has been making something of a national hero out of Karel Honzik, a 70-year-old miner from Ostrava. He has worked in the pits 42 years and has raised all his 10 sons to become miners. Two of the oldest son's sons also joined the trade.

Little Hope This Session For U. S. Education Aid
Rep. Borden's Bill Bottled In House Labor Committee

Special to Central Press

WASHINGTON—It is considered doubtful at this time that action will be taken during this congressional session on the highly controversial Barden Bill for Federal Aid to Education.

Chairman John Leasick (D), Michigan, who opposes the bill on the ground that it is discriminatory, has bottled it up in the House labor committee and chances are that it will stay right there.

The House, in fact, may be prevented from passing any aid to education bill at all because of the bitter controversy in Congress over provisions of the bill sponsored by Rep. Graham A. Barden (D), North Carolina.

If an education bill gets through the House, on the other hand, it will probably be a bill already passed by the Senate instead of the Barden measure.

Both Leasick and House Democratic Leader John W. McCormack (D), Massachusetts, prefer the Senate bill.

The dispute over the Barden bill centers around a provision specifically barring the use of federal funds for educational aid to private and parochial schools.

The Senate bill provides that this question of distribution should be left for the states themselves to decide.

Leasick and his supporters may try to block the Senate bill if the labor committee fails to report out their measure, as is likely.

PUZZLES and PASTIMES for the FAMILY

Roped in — WHIZ QUIZ

THESE questions will indicate whether you "know the ropes." Literally. If when you've come to the end of the ropes you haven't hung up a good score, you should hang your head.

1. Looking at Jean Judy and two of her pretty companions (above) at Pasadena, Calif., you'd probably say she's twirling a rope. However, a cowboy wouldn't call it a rope, he'd say it was a lasso, a _____ or a _____?
2. And a sailor never ties a knot in or hauls in a rope. Because he calls it a _____ or a _____?
3. A fragrant flower is the _____ ROPE?
4. Biggest "rope" in the world, stretching across a continent, is _____ ROPE?
5. Another name for a hater of mankind is _____ ROPE?
6. A popular proverb is "Give him enough rope and _____?"
7. "Enough Rope" is a well-known book of poems by Dorothy _____?
8. Arthur Reed Ropes is the real name of Adrian Ross, librettist of the classic operetta, "The Merry _____ and Lilac _____"?
9. Daniel C. Roper was Secretary of Commerce in the administration of President _____?
10. What competitive sport, involving teams, is played with a rope?
11. What Frenchman became famous walking across Niagara Falls repeatedly on a tight-rope?
12. Generally speaking, what is the difference between a cord and a rope?
13. What "rope" is found in a man's mouth?
14. And now we'll see if you really know your ropes. Take a look at these drawings and determine, if you can, which would actually become knotted if the ends were pulled outward simultaneously.

WORDS OF WASHINGTON

NO American has begotten more words than Washington. As a holiday exercise, see how quickly you can get some words from the name "Washington."

Below are the first letters and definitions of ten four-letter words. Complete each, using only letters found in Washington.

- Time yourself; getting all ten within three minutes is excellent.
- W _____: Delay departure.
 - A _____: In a little while.
 - S _____: Gave a vocal solo.
 - H _____: Suspend.
 - I _____: To the inside of.
 - N _____: Near to.
 - G _____: Eat away.
 - T _____: Chinese secret society.
 - O _____: Vow.
 - N _____: First famous sea captain.

As a vocabulary exercise, see how many other words, four or more letters, you can get from Washington by the anagram method. There are at least 50.

PACKING PORKERS

A CATTLE-RAISER packed a certain number of pigs to a crate facing alternate ways. Three heads showed on one side of the crate and three tails showed on the other side.

Tell, within one minute, how many pigs there were in the crate.

There were nine pigs.

The Clue That The Clock Gave Away

CLOCKS often play a leading role in mystery dramas, chiefly through their use in establishing alibis.

Take the Montre case for instance. The bullet-ridden body of old Mr. Montre was discovered by his nephew Jason. This was the story Jason told to Inspector Ferrat:

"Having some business in the neighborhood, I thought it would be a good opportunity to drop in and see how the old man was getting along. I rang the bell, but received no answer. When I tried the door I found it unlocked and I walked in. The first thing I noticed was that the glass on the lower part of the grandfather's clock was cracked. Since the clock was still ticking away, I drew out my watch to check on the time and found it to be the same as on my watch, 11:25. Examining the clock closer, I saw that something had bored through the glass severing the pendulum. On the wall was a similar hole. With a shudder I realized that these were bullet holes. "For a moment I dreaded to turn around, partly for fear that the assassin was still in the house and partly for fear of what I would find. When I forced my eyes to peer into the shadows of the hallway I saw the body of the old gentleman sprawled on the floor.

"I felt his pulse, found he was dead, so I telephoned police." We will skip over the details, which you probably remember from newspaper accounts at the time of the murder. As he was the principal beneficiary of the murdered man, official suspicion naturally fell on Jason. As the coroner placed the victim's death at about 9:30, the young man's statement as to the time he entered the house should have given him a perfect alibi. Then, why did Inspector Ferrat, after hearing Jason's story, place him under arrest?

Senator Accuses War Assets Group Of Inviting Bribes

"Confidential Information" Revealed In Senate's Probe Of Five Percenters

WASHINGTON, Aug. 11—(AP)—A Milwaukee businessman testified today he had given James V. Hunt in 1948 a \$100,000 check to help obtain some scarce steel after Hunt spoke of influence with President Truman's Army aide, Maj. General Harry H. Vauzhan.

Albert J. Gross told Senate investigators he paid Hunt \$1,000 a month and 10 percent on the price of any steel that Hunt got for him.

WASHINGTON, Aug. 11—(AP)—Senator Mundt (R-SD) heatedly charged today that a letter written by a War Assets Administration employee to James V. Hunt, in August, 1947, was a "blatant invitation for bribery or conviction of some kind."

Mundt, a member of the Senate investigations subcommittee, spoke out after a committee investigator had read the contents of a letter which he said was written by Clarence H. Ohler to Hunt.

Hunt, now a Washington business counselor, has been a prime figure in the committee's inquiry into activities of "five percenters"—individuals who seek out government contracts for others for a fee.

The committee investigation previously has developed that Hunt ordered books of match folders bearing the imprint "swiped from Harry S. Truman." Hunt said that he was acting at the request of the White House.

Francis D. Flanagan, committee investigator, said that Ohler was a "specialist" for the WAA in the western area at the time he wrote letters to Hunt for \$100-a-day consultant for WAA.

Ohler, now with the American Industrial Development Corporation of St. Louis, was in the room during Flanagan's testimony. He was to take the stand later.

The committee also planned to take the lid off evidence that led to suspension of the Army chief of corps chief, Maj. General Alton H. Wallt, last July 16.

Flanagan said the correspondence which he read to the committee was taken from Hunt's files.

Mundt's ira was aroused when the investigator read a letter dated Aug. 15, 1947, from Hunt to Ohler.

In the letter, Ohler told Hunt of plans to sell in the Army surplus a quantity of surplus steel, valued at \$100,000,000 in acquisition value. Ohler wrote that "I will direct the program." He added that "I have

County Clerk O. P. Herndon was recently commended by State Auditor Steve R. Partin for the accuracy of his reports and records.

The Clerk has accounted for all collections of record in the audit period, either by remittance or cash on hand, Mr. Partin stated.

"Reports were accurate," he added, "and remittances were promptly made. All records were well and properly kept."

Tax redemption reports were promptly and accurately made. All the 1948 sales had been disposed of through foreclosure or sale. A very few certificates of 1947-48 sales remained on hand.

"The Clerk," Mr. Partin reported, "collected \$4,110,000 from primary candidates during the period audited and promptly remitted it to the County. Cash remittance were adequate to cover all liabilities of record. Reports of income and expenses for 1947-48 were promptly and accurately filed, and remittances were made to the Board of County Commissioners for excess income due."

Hoover Warns U.S. Of Risks Involved In Spending Plan

Nation Is Said Blissfully Driving Down Road To Socialism

PALO ALTO, Calif., Aug. 11—(AP)—The nation today had the sober warning of its only living former President that its spending policies, if unchecked, will rob posterity of its inheritance.

Former President Herbert Hoover, in a significant address, asserted last night that the United States "is blissfully driving down the back road to collectivism at top speed."

"We have not had a great socialization of property," he said, "but we are on the last mile to collectivism through governmental collection and spending of the savings of the people."

The country's President from 1929 to 1933 spoke before an estimated 10,000 persons in the beautiful grass-caped Laurence Frost Memorial Bowl on the Stanford University campus, virtually in the shadow of the Hoover Institute and Library on War, Revolution and Peace, founded in 1915.

The occasion was his 75th birthday celebration, sponsored by the University in tribute to its most famous son, a graduate of its first class in 1895.

President Truman's message of congratulations and good wishes came from all over the world. Some of them came from foreign lands where Hoover's administration of relief established his name as a great humanitarian.

Hoover headed a special commission on government organization which recently completed a two-year study with a report recommending economies of four billion dollars a year.

In his talk, broadcast by the four major networks, he said: "My word to you, my fellow citizens, on this seventy-fifth birthday is this: The founding fathers dedicated the structure of our government to secure the blessings of liberty to ourselves and our posterity. We of this generation inherited this precious blessing. Yet as spendthrifts we are on our way to rob posterity of its inheritance."

"The American people have solved many great crises in national life. The qualities of self-restraint, of integrity, of courage and of courage still live in our people. It is not too late to summon these qualities."

Assailing new federal and state proposals for spending taxes, he said: "Along this road of spending, the government either takes over, which is socialism, or dictates in dictatorial and economic life, which is fascism."

He said "the American mind is troubled by the growth of collectivism throughout the world."

The few hundred thousand Communists and their fellow travelers in this country," he termed "insurgents" who require attention but who cannot destroy the republic. And there are also "the doctrinaire Socialists who peacefully dream of their Utopia."

But he expressed concern about "a considerable group of fussy-minded people who are engineering a compromise with all these European infections."

Oviedo Mayor Urges New Highway To Sanford Across Lake Jessup Fill

A shorter route from Oviedo to Sanford by means of a fill across Lake Jessup, would result in more Oviedo people trading in Sanford, Mayor Frank Talbot of Oviedo declared this week.

He estimated that this route would save three to four miles, and by connecting with Sanford Avenue after bridging the lake, would reduce the total distance to Sanford from 16 to 11 miles.

The present route from Oviedo to the Orlando Highway at Five Points is too full of turns and is rough in spots, he declared. Oviedo people, he pointed out, find it most convenient to motor to Winter Park 12 miles away, as the highway which parallels five miles has been put into good condition and has been resurfaced to the Orange county line.

The original plan proposed to the Seminole County Commission several years ago, was that the new route from Sanford would go through Oviedo to connect with the Cheney Highway a few miles south, he said.

Another advantage of a shorter and better route into Sanford would be to allow Oviedo vegetable growers to truck their produce to the Sanford State Farmers Market or points north in a shorter time, Mayor Talbot declared.

Including the Duke Farms at Blavia, the Oviedo district has more than 1,800 acres devoted to growing of celery and other vegetables, he pointed out. Plants in celery seed beds are in good shape, he revealed and setting out will start in September.

The Oviedo Council will not meet until Sept. 1, due to the fact that so many members are away on vacation, he said. Those in charge of the club, who with his family is in California, Thad Ling and Charles Niblack, who are in Daytona Beach, Milton Gore has just returned from a trip north.

Mayor Talbot voiced the hope that the citrus industry will have a better year than last year, turned the Citrus Mutual a step in the right direction, and declar-

Ford Auto Union Votes 7 To 1 For Showdown Strike

Leaders Are Happy Over Their Victory: Strike May Be Long

DETROIT, Aug. 11—(AP)—Ford workers in Michigan voted overwhelmingly today to strike if necessary to get pensions, health benefits and a wage increase.

Virtually complete returns from a strike election supervised by the state showed today the CIO United Auto Workers won strike authority by a seven to one vote.

The State Labor Mediation Board announced the tabulation as follows: 65,000 yes, 9,549 No.

The board said 219 ballots were invalidated and 403 challenged. Still to be counted were about 1,800 ballots being brought by state police from the Iron Mountain plant. The board held out about 4,000 ballots from other plants to be counted with the Iron Mountain vote. This was done because the board ruled the vote had to be counted on a state-wide basis without a breakdown by plants.

Had asked a breakdown of about 75,000 and 2,500 eligible voters and 100,000 in one of the biggest strike votes in industrial history.

Union leaders were pleased over the result.

It did not mean, however, Ford workers would strike immediately.

In a statement, Union President Walter Reuther said: "The UAW-CIO is prepared to continue its negotiations with Ford Motor Company in a sincere and genuine effort to reach a fair and equitable settlement of the issues involved through direct talks with collective bargaining across the conference table."

"The Ford workers have expressed their solidarity and determination to win their demands for a better future, a better working environment and a better life for all."

The union will release its own list of demands for the strike. It will also release its own list of demands for the strike.

"We are determined, however, to continue our negotiations with Ford Motor Company in a sincere and genuine effort to reach a fair and equitable settlement of the issues involved through direct talks with collective bargaining across the conference table."

"The Ford workers have expressed their solidarity and determination to win their demands for a better future, a better working environment and a better life for all."

The company in a statement declared its position on bargaining with the union was unchanged by the election. It warned employees that if a strike is called it may be long and the statement issued by S. R. Rogers, Ford industrial relations director, said: "The results of the vote are not surprising in view of the manner in which it was conducted and especially in view of the excellent record of the union leadership that a favorable vote does not mean a strike but merely strengthens their position in the bargaining table."

We hope that Ford employees have been able to review the company's position on the present contract for 18 months with present high wages, benefits and a new wage plan for one year.

"If an employer's response to a strike will be on the real issues and not on the phony issues of money wages," he said.

Truman Victory Seen In 361 To 35 Vote; Compromise Farm Plan Is Approved

WASHINGTON, Aug. 11—(AP)—The House passed today a bill to raise the national minimum wage from 40 cents an hour to 75, as asked by President Truman. The roll call vote was 361 to 35.

The measure went to the Senate, where a similar minimum wage bill is pending. The Senate has set the measure aside temporarily for other legislation, however, and it is uncertain when the bill may be called up for debate there.

The House action was a surprise victory for the Administration. The bill carried the 75-cent minimum advocated by the President, Secretary of Labor Louis, and representatives of major labor organizations.

However, it also carried substantial revisions of coverage pushed by a coalition of Republicans and southern Democrats. The bill was introduced by Rep. Lucas (D-Tex.).

Earlier the House had refused to vote on three days of heated debate on minimum wage legislation by sending the whole thing back to its labor Committee for more study.

A motion to do that lost 242 to 147 on a standing vote.

A compromise farm program for next year was unanimously approved by a bipartisan Senate Agriculture Subcommittee.

The group took out all remaining provisions for "Production Control" proposed by Secretary of Agriculture Truman as part of his overall new farm program.

Truman suggested this alternative last week after the House previously had killed off a proposal that would limit to a few farm products.

Senator Anderson (D-Min), chairman of the seven-man subcommittee, said the compromise bill will be considered Saturday by the full 113-member agriculture committee.

Approval by that group appears likely because the subcommittee is a majority of the full group. That would send the measure on to the Senate.

Meanwhile Averell Harriman, Marshall Plan ambassador to Western Europe, said that the U. S. faces a "dilemma" of either a "persistent" opponent in Russia, and urged full approval of the Administration's \$1,000,000,000 foreign arms program.

"These forces must be met with veracity," he said, "and persistence." He told the Senate Foreign Relations and Armed Services Committee, "We cannot relax."

Federal Reserve System Reported Well Equipped To Expand Credit

WASHINGTON, Aug. 11—(AP)—The Federal Reserve Board said today it is well armed to combat a recession if need be.

In its 35th annual report to Congress declared "The Federal Reserve system is much better equipped than ever before to meet the credit needs of the economy in a period of downward adjustment."

Anti-recession weapons were listed off:

1. "Virtually unlimited means of supplying the money market with additional reserves, if the situation should call for such action."

2. Possession of sufficient gold certificates—reserves—about \$23,000,000,000—by the 12 Federal Reserve (central) banks to enable them to "more than double" paper money notes and loans to member banks.

3. Legal authority for the Reserve banks to "lend to member banks on any assets considered to be acceptable on security for advances."

4. Federal legal authority for (Continued On Page Three)
