No Pact Yet

Bargaining for a new teachers' contract, Seminole Education Association negotiating team members, from left, Bill Cavins, SEA Executive Director Marshall Ogletree, SEA President Debby Whitmire and Rick Harris look over the Seminole County School Board's latest proposal. No agreement was

reached in Thursday's bargaining session. SEA members rejected a proposed contract Aug. 26. After further negotiating an impasse was declared by the school board Sept. 4, but both sides agreed to go back to the bargaining table and talks began Thursday.

'Atom Bomb' Strength

Gloria Rakes North Carolina

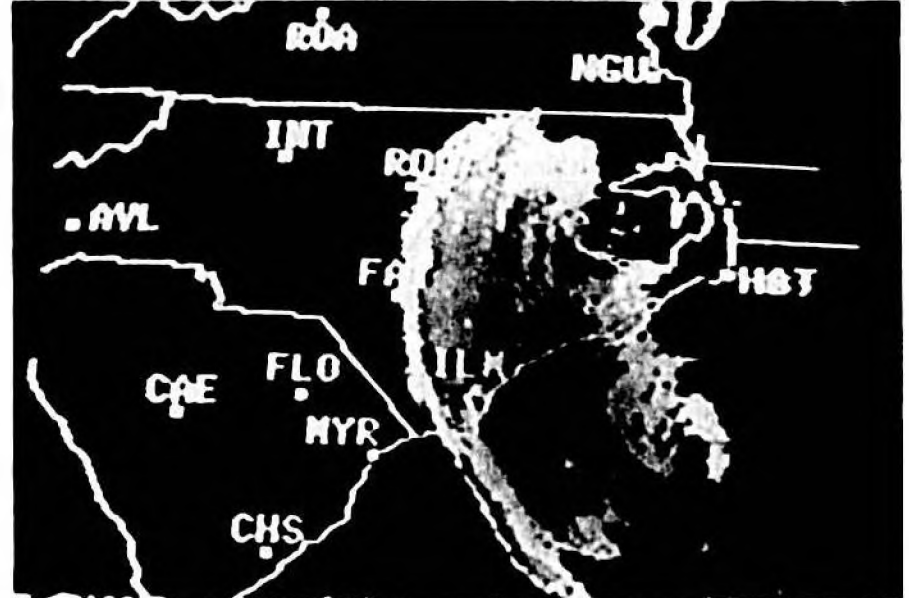

ATLANTIC CITY, N.J. (UPI) — Hurricane Gloria raked North Carolina's Outer Banks and raced northward toward a mid-day blast at the populous New York-New Jersey coast with 130-mph winds packing "an awesome power equal to an atomic bomb."

Officials said 25 million people in Gloria's path were "looking down a gun barrel" as the storm howled along the track of a 1938 hurricane that killed 600 people on Long Island and New England.

So far, there were no reports of storm deaths or serious injuries.

Gloria slashed across the narrow Outer Banks at 1:15 a.m. EDT, and roared northward off the coast in what forecasters called "the worst possible scenario" because its brief landfall did not diminish its fury.

"We are dealing with an awesome power equal to an atomic bomb," warned chief hurricane forecaster Neil Frank. "A hurricane is equivalent to an atomic blast every few

1st Head Start Center To Open In Midway

By Jim Searls
Herald Staff Writer

Seminole County will have a Head Start Program this year, but it will open at one-third capacity and not start until Nov. 4 because of funding problems the Seminole County School Board was told Wednesday.

The School Board voted unanimously to take over the program for disadvantaged pre-schoolers after the anti-poverty agency Seminole Community Action disbanded earlier this year. SCA ran the Head Start program for many years.

Director of Elementary Education Ken Bovio and Director of Special Projects Dr. Samml Tomblin presented the board with a \$360,000

grant from the U.S. Health and Human Services Department to cover start up costs. The first center to open will be at Midway Elementary Nov. 4, Tomblin said. He said 40 children ages 3-5 will attend pre-school classes at two portable classrooms with a second temporary site to be opened after that at Crooms High School in Sanford. The program will operate until the end of the school year in late June, he said.

"The program is for children of low income families with a combined income maximum of \$10,000 annually. It emphasizes educational, nutritional and social services for pre-school children. The basic objective is to give low income children

the necessary preparation for school that their parents can't afford with daycare," Tomblin said. He said 200 Seminole County children will be accepted for the program on a first come first serve basis and will receive instruction at three sites in the county.

The three sites are Midway Elementary, a temporary site at Crooms High School in Sanford (the permanent site will be at Hopper Exceptional Education Center in Sanford) and Rosenwald Exceptional Child Center in Altamonte Springs. Crooms High will be used until funding comes through for portable classrooms and children from Oviedo will go to the Altamonte school on

one of five buses the school board owns. The two permanent sites will only open until after Oct. 1 when the new fiscal year begins for HHS.

Tomblin said the HHS regional office in Atlanta was unable to guarantee anymore money until after they received their new budget.

An additional \$120,000 is needed, he said, because the school board owns only two spare useable portable classrooms and at least six more are needed to house the children. Portable classrooms are being used, Tomblin said, because the government will not allow funding for permanent sites and Seminole

Doctors Find Chemical That Generates Organs

BOSTON (UPI) — Researchers have isolated and cloned a chemical that can generate blood vessels — a discovery that eventually may be used to generate other organs or to prevent tumors from growing, the scientists say.

"Generation of organs has been the stuff of scientific dreams for decades. It is now a reality," said Dr. Bert L. Vallee of the Harvard Medical School, who headed the 12-year research effort and announced the discovery Thursday.

The chemical, a protein called angiogenin, was used to generate new blood vessels in the corneas of a rabbit and a chicken embryo, he said. Blood vessels are considered a body organ.

"The implications for science ... are limitless," said Dr. S. James Adelstein, academic dean of the medical school. "If you can find a molecule for one organ, then you will probably find molecules generating other organs."

Vallee said the discovery also may help doctors stop the growth of tumors. "Solid tumors cannot grow without vascularization," he said. "To understand that process, there has long been a need to find and isolate human tumor angiogenin. The team has found one and cloned it. We are now studying how to turn it on and off."

Valle said the angiogenin was isolated from a human tumor, colon adenocarcinoma, the same type of cancer removed from President Reagan's intestine in August.

When cells containing angiogenin are introduced in living tissue, the angiogenin migrates toward blood vessels, where the chemical causes capillary systems to grow toward the angiogenic source, Vallee said.

Community Cools Off On Hazardous Waste

By Janie Gnat
Herald Staff Writer

Public outrage over the location of a hazardous waste transfer station in Seminole County seems to have dissipated somewhat. Only one person spoke against Hazardous Waste Consultants at a Code Enforcement Board hearing Wednesday when, according to the owner of the firm, the life of the company was in the board's hands.

"If we do not get a continuance we will not be in business," said Pat Vindett, vice president and general manager of the company. "If we have to shut our doors and can no longer function we will not be able to start up again in six months. If we shut our doors it will be shut down permanently."

The board voted 5-1 to grant a three month extension allowing the firm's five trailers to stay at the Wilco Sales site on west State Road 46. It had been ordered to vacate by Sept. 30 or face

\$50-a-day fines. Ms. Vindett had asked for a six-month extension. Although the company was granted approval by the Board of Adjustment of a site just north of Winter Springs, the Winter Springs city council voted unanimously Monday night to appeal that decision to the Board of County Commissioners. Ms. Vindett's company is not able to move onto the approved site until that appeal is heard sometime in November.

In voting against the motion, board member Joseph Pavelchak Jr., said, "Sometimes I don't think the public knows what's good for them. I'm the public, too. It's something that has to be addressed. It's not something we can just shove under the carpet. It's not my desire to put them out of business."

Board members also stipulated that they would like to hear from Dr. Clausen, a UCF professor with a Ph.D. in chemistry, who Ms. Vindett said she had been consulting, at their next meeting on

Oct. 24, and that Hazardous Waste Consultants should look into an offer from a hazardous waste hauler called Chem Con, Rocket Blvd., Taft, to allow storage of the company's materials on Chem Con property.

Although the board agreed with staff recommendations that the problem is one of zoning and the company is in violation of the zoning restrictions on the SR 46 property, Chairman Sara Jacobson told Ms. Vindett, "If I can find a crutch I'll take it and vote for you. But if I can't I'll be chicken."

Jacobson was referring to her need to have someone knowledgeable, such as Dr. Clausen, reassure her the probability of any risk to residents in the area of the site would be negligible. However, Jacobson said she felt the need to vote cautiously because she is voting on behalf of the county.

Skate Bored

Victor Perez's skateboarding antics don't seem to catch the attention of a Seminole County library patron. Yet Perez held a number of youngsters enraptured as he gave a skateboarding demonstration in front of the branch library in Seminole Plaza. Perez, Winter Park, is a skateboarding champ.

Citrus Recovery Act Proposes Grower Loans

A Citrus Freeze Recovery Act has been proposed in Congress that would provide up to \$700,000 in government guaranteed loans for citrus growers who are restoring citrus groves damaged by freezing temperatures last January.

Representative Andy Ireland, R-Winter Haven, introduced legislation for the loan guarantee program that says no interest or principal payments would be due for up to seven years.

"We are trying to keep the Florida

citrus industry in business," Ireland said. "Many of the middle-sized citrus growers that were hardest hit have a hard time qualifying for federal assistance, especially when they have to begin paying back a government guaranteed loan almost immediately after the loan is secured."

"Then the grower must wait for the normal five to seven year growing cycle before his re-investment in citrus will bring any profit. This legislation will allow citrus growers to get back on their feet before they

have to worry about repayment," Ireland said.

Growers would have to qualify for the loans which would be administered through local banks and provided at market rates applicable at the time of approval of the loan. The federal government would guarantee up to 90 percent of an approved loan.

One possible problem with the bill, according to Ed Morabito, an aide to Ireland, is the deadline to apply for the loans of July 31, 1987. Florida's legislature is considering a one year

moratorium on the nursery sale of citrus seedlings due to the threat of citrus canker, which may make that time limit unrealistic, Morabito said. In that case, Ireland would ask for an extension of the time limit for applying for the loan to at least one year past the lifting of any ban.

According to estimates from Ireland's office, 218,000 acres of citrus groves have been destroyed by the freezes that hit Florida during the 1983 and 1985 winters with an

Florida Students Pass U.S. Reading Average

TALLAHASSEE (UPI) — After years in the dark, Florida educators have a new way to trace their progress in attempting to make the state's schools better: a national, standardized system to measure reading skills.

What's more, Florida's 11th graders seem to measure up as better than average on that yardstick, according to Commissioner of Education Ralph Turlington, on a 500-point scale. Florida students posted a mean grade of 292.1. Ten years ago, they were slightly below the national average for reading skills.

Turlington said at a news conference that the new measuring system is the result of a 2-year pilot program involving Florida, Virginia and

Justice Not Blind... Just Sleeping

HONOLULU (UPI) — Prosecutors have asked for a mistrial in a fraud case because a visiting federal judge from Phoenix dozed off during a hearing.

U.S. District Judge Walter Craig said he dozed off for a few seconds because the examination was so boring.

He denied the motion filed Wednesday by Deputy U.S. Attorney Frank Wilson.

In his motion, Wilson also cited a

hearing aid worn by the judge. But Craig said his hearing is fine and the hearing aid is the same type worn by President Reagan.

It was the second time Craig was accused of dozing off in court.

Several weeks ago, in front of the jury, a prosecuting attorney called for a recess because he said the judge was asleep, Craig, at that time, failed to respond to two successive objections lodged by the attorney.

WORLD IN BRIEF

Moderate Sikh Party Gains Landslide Victory

CHANDIGARH, India (UPI) — Voters in Punjab state have given the moderate Sikh political party Akali Dal a landslide victory over Prime Minister Rajiv Gandhi's Congress (I) Party and control of the Punjab State Assembly, election results indicated today.

With all but three of the 115 assembly races decided, the Akali Dal captured 71 seats while the Congress (I) party won 31, officials said. Ten seats were divided among other parties, according to officials.

Computer projections showed the Akali Dal, which claims to represent most of Punjab's 12 million Sikhs, could win as many as 75 seats. That would allow it to form a government without coalition support for the first time.

The computer analyses were conducted for state-run television and the Press Trust of India news agency.

"The Congress (I) may have lost the electoral battle but it has won the war for India's unity and integrity," Prime Minister Rajiv Gandhi said in a statement.

"The people of Punjab have spoken up for democracy ... and against separatism and terrorism," he said.

Trade Deficit Slows; Analysts Caution Against Optimism

WASHINGTON (UPI) — The nation's merchandise trade deficit was \$9.9 billion in August, the least amount of trade losses since December as oil imports slowed and auto imports stabilized, the Census Bureau said today.

The August figure was less than the \$10.5 billion trade deficit in July and well below the \$13.4 billion in red ink recorded in June, the second worst month on record.

The cost of oil imports declined 7.6 percent in August, helping narrow the deficit.

Bureau analysts said total auto imports for the first eight months of this year were worth \$24 billion, 16.8 percent more than the \$20.5 billion for the same period last year.

The total for August was only slightly larger than July, however, \$2.87 billion compared to \$2.85 billion. This year's surge in auto imports was the expected result of a widening of the number of cars Japanese manufacturers planned to ship after the previous voluntary restraint agreement was allowed to lapse.

Imports were worth \$27.3 billion in August, 2.1 percent less than July.

Exports managed a small improvement, up 0.07 percent.

The report was unexpected good news for the Reagan ad-

ministration, trying to beat back protectionist legislation on Capitol Hill.

But government analysts cautioned that the trade deficit's new slowing trend could reverse itself in later months.

Trade deficits have averaged \$11.4 billion a month this year, a record annual deficit of more than \$160 billion, unless the monthly red ink totals continue to diminish.

Of the nation's major trading partners, only Canada generated a worse trade balance for the United States in August.

The trade deficit with Canada was \$1.5 billion, \$209 million more than the previous month.

However, the trade deficit with Japan, at \$3.7 billion, was \$273 million less than in July.

The trade deficit with Western Europe was \$1.2 billion, down from the \$1.6 billion in July.

Last year the United States posted a trade deficit of \$123.3 billion.

The monthly report records only trade in merchandise. When the nation's small surplus in services sales are added in the total deficit in all financial transactions is slightly less. Last week the government reported the country amassed a \$31.8 billion deficit in the trade of both goods and services as well as financial transfers of other types.

...Head Start

Continued from page 1A

schools are already overcrowded. Tomblin said interested parents may contact Crooms High for more information on qualifying for the program.

Bovio told the school board an independent panel of one or two parents from each school and an equal number of private citizens from the community will oversee hiring and firing of a coordinator and teachers for the facilities. He said eight instructors and eight assistants will be needed as well as a nurse and a bookkeeper. A problem seemed to develop when Bovio tried to explain the hiring and firing procedures for employees. He said the community council maintains responsibility, although the school board is already interviewing for an educational coordinator and will advertise for the other positions.

Board member William Kroll was concerned about whether the board had any legal say in the matter because the facilities for the program are on school board property.

"I feel it is a wonderful program," he said, "but I also feel a responsibility to the people of this county. I don't want the hiring and firing of employees on our property to be totally theirs, we have a legal responsibility there," said Kroll.

According to Bovio the situation with a school board being involved with a Head Start program is unique, there are only five or six other school board programs in the nation. Most Head Start programs are organized by private groups or civic organizations. He said the school board will have the authority to select job applicants for the program and the community council will determine who will work for them and employment

characterized and cloned.

At the moment, it is exceedingly difficult to produce angiotensin; years of work have yielded only one milligram of the protein.

Researchers, therefore, have turned their attention to producing the chemical through cloning, said Dr. James F. Riordan, another team member.

Riordan said angiotensin also may have wide applications in the treatment of vascular disorders, which often are caused by limited or excess blood supply.

Although the thought of such applications is "science fiction at the moment," Riordan said angiotensin eventually also may be of help in treating heart and coronary disease, damage caused by strokes and injuries to bone or cartilage.

The research was funded by a \$23 million grant from Monsanto Co. It was the first agreement of such scale between a university and a private corporation.

...Gloria

Continued from page 1A

generating 41-foot waves in the open ocean, was staying about 30 miles off the coast as it trekked northward with gathering speed.

One National Hurricane Center forecaster was overheard telling an Atlantic City, N.J., civil defense official: "You're in a critical situation!"

"The forward speed may be up to 30-35 mph by the middle of the day," Frank said. "It looks like it is going into the south coast of New England as early as early afternoon."

Frank said Gloria had the potential to push a devastating storm surge into the New Jersey-New York-New England coast "and people had better take it very seriously."

"If the eye moved over Manhattan, it could push up a lot of water," Frank said, "and some of those glass buildings could blow out."

The push gambling casinos at Atlantic City were closed, sandbagged and boarded against Gloria's oncoming wrath and by dawn, there was a last-minute rush off the island as winds increased and streets began flooding.

Atlantic City Police cruisers arrested several looters and picked up stragglers and took them to storm shelters to await transportation to the mainland.

At 8 a.m., Gloria was about 80 miles south of Atlantic City, N.J., near latitude 38.3 north and longitude 74.7 west and was dumping up to 10 inches of rain along its path.

"Gloria is now moving northward about 30 mph and is expected to increase forward speed as it moves near the New Jersey coast," forecaster Bob Case said. "This track will take the eye of Gloria to the Long Island area by noon."

Thousands huddled overnight in storm shelters in schools, churches and government buildings and more than 1 million people in low-lying areas of the East Coast were urged to evacuate.

Police set up an emergency command post in New York City, opened storm shelters and evacuated "all but a few stragglers" from the resort of Fire Island.

The 110-story twin towers of the World Trade Center were closed and workers repairing the Statue of Liberty moved the torch inside the famous monument in New York Harbor.

The Port Authority said all three airports in the New York area may close sometime today and urged travelers to check their flights with airlines.

...Chemical

Continued from page 1A

The announcement of the discovery coincided with the publication in the journal *Biochemistry* of three articles by members of the research team.

Dr. Hans Neurath, professor of biochemistry at the University of Washington and editor of *Biochemistry*, said this is the first time an organ-growing protein has been isolated, purified,

stored."

Davis said he believes the trailers are not safe for the storage of hazardous wastes, in part because poachers in the area may pierce a trailer and drum with a bullet. He also felt the chemicals could ignite in heat from the sun.

Ms. Vindett told the board the chemicals the company handles could automatically ignite if the temperatures inside the drums reached 869-980 degrees Fahrenheit. Davis had implied that the chemicals could ignite if they reached the boiling point. Water boils at 212 degrees Fahrenheit.

Ms. Vindett also said the "flash point" or the temperature at which the chemicals would burn if provided a spark is 140 degrees Fahrenheit.

Although Middleton was not aware if there are any EPA or government standards concerning hazardous waste storage the company should be abiding by, he did say the company is in compliance with national fire codes.

by limited or excess blood supply.

Although the thought of such applications is "science fiction at the moment," Riordan said angiotensin eventually also may be of help in treating heart and coronary disease, damage caused by strokes and injuries to bone or cartilage.

The research was funded by a \$23 million grant from Monsanto Co. It was the first agreement of such scale between a university and a private corporation.

...Waste

Continued from page 1A

"I perceive this as an on-going thing," said board member Joy Anderson. "I don't want to keep listening to all of this. You are in violation of the zoning ordinance."

"I feel I am voting on behalf of the public," she said, voting in favor of the motion.

Kirk Middleton, a fire inspector for Seminole County, said the company was skilled in its handling of hazardous wastes. "You're dealing with a company that knows what it's doing," he said. "We (meaning his office) don't have any reservation about dealing with the company."

A resident of the area, Art Davis, who lives about one half mile from the site, was the only one to speak against the company. He said he has no problem with a hazardous waste site near his home but, "what upsets me is the way it's

stored."

Davis said he believes the trailers are not safe for the storage of hazardous wastes, in part because poachers in the area may pierce a trailer and drum with a bullet. He also felt the chemicals could ignite in heat from the sun.

Ms. Vindett told the board the chemicals the company handles could automatically ignite if the temperatures inside the drums reached 869-980 degrees Fahrenheit. Davis had implied that the chemicals could ignite if they reached the boiling point. Water boils at 212 degrees Fahrenheit.

tion Process and the Southeastern Regional Education Board.

Now, he said, the study will be repeated year to year and expanded to include more states and subjects.

"Florida students did very well in this special project," Turlington said. "For the first time, Florida has been able to compare its student achievement with that of other states, to the region and to the nation."

He added: "The basic aspect of it is that we can make comparisons as a basis for motivation and improvement. Motivation is an absolutely essential ingredient for success, but you can't be talking about success if you don't have any measurement."

Turlington said 2,000 students in each state were chosen at random to participate in the

1-hour reading test. The NAEP has used similar tests for national and regional studies but has never before broken down the results by state.

The results showed Virginia students earning 298.4 points out of a possible score of 500. Tennessee scored 291.2. The national mean score was 289.3 and the regional score was 287.3.

The results also showed that all the Florida students tested were capable of rudimentary reading chores. Five percent were considered "adept" or "advanced" readers at least capable of understanding, summarizing and explaining relatively complicated information.

The test was not given to special education students or those in remedial programs.

Tot Rescued From Pool In Critical Condition

A 2-year-old Casselberry girl, a near drowning victim, who was rescued by her mother from the swimming pool at their home Wednesday was in critical condition Thursday in Orlando Regional Medical Center, Orlando.

Jessica Huff of 3655 Mustang Way was pulled from the pool by Tammie Huff, 25, at about 1:30 p.m. Wednesday. Mrs. Huff began CPR on her daughter, sheriff's spokesman John Spolski said, and Seminole County sheriff's deputies and firefighters responded to the scene.

The home is in a remote area and rescue workers had difficulty finding it, Spolski said.

Jessica was first transported to Winter Park Memorial Hospital, Winter Park, and later transferred to the Orlando hospital, he said.

The child apparently crawled through a window of her home and fell into the pool. Mrs. Huff found her floating in the pool, deputies reported.

TOSSAWAY TRY

A 22-year-old Sanford man, who reportedly rushed toward the restroom of a Sanford bar apparently dropping a small packet as he fled when police walked in wasn't fast enough.

Police reported seeing the drop and recovered the packet. They also nabbed the man in the restroom of Sparkles Bar, 322 Sanford Ave., and reported finding a second packet under his foot when they searched him.

A total of 21 small foil packages of cocaine were found inside the two packets and cocaine residue was reportedly found on a wet \$5 bill the suspect had, a police report said.

Denzel A. Burke of 125 Academy Ave., was charged with possession of cocaine and possession with intent to sell at 11:01 p.m. Wednesday. He was being held in lieu of \$8,000 bond.

abuse after allegedly hitting his wife in the face with his fist when she returned to their home after filing a complaint with Altamonte Springs police, alleging previous beatings.

Police who were called to the home of Wanda Adkinson, 57, of 634 Mariner Way, at about 9 p.m. Wednesday noted her face was reddened. When police arrived the suspect ran out the back door and police found him hiding in some bushes, a police report said. Police reported the suspect appeared to be intoxicated.

Keith Adkinson, 61, was arrested at his home. He has been released on \$500 bond and is

scheduled to appear in court Oct. 10.

SHORT CUT TO JAIL

An 18-year-old Longwood man and a 16-year-old companion have been charged with burglary of an open air structure after a sheriff's deputy found them inside a fenced compound at Kilmer's Boats and didn't buy their story that they had jumped the fence to take a shortcut, a sheriff's report said.

The deputy said there was a path the suspects could have taken that would have led them to their reported destination, the Highlands in Winter Springs from Pasadena Avenue in Longwood, without entering the compound of the business located at 750 N. U.S. Highway 17-92, Longwood.

The pair was arrested at 12:15 p.m. Thursday. The boy was turned over to juvenile authorities and John Scott Blankenship of 895 Pasadena Ave., Longwood, was booked into the Seminole County jail. He

has been released on \$5,000 bond and is scheduled to appear in court Oct. 14.

PAYMENT POKETED

An employee of Altamonte Hitch and Trailer Service of Altamonte Springs, has been charged with grand theft after allegedly pocketing a \$558 truck rental fee.

The man allegedly rented a Ryder truck to Dave Longwood for a one-way trip to Alabama on June 7. Longwood paid in cash, but after Ryder reported to rental owner Robert Petty that it hadn't received payment for the rental and Longwood gave deputies a statement he had paid the suspect in cash, the man was arrested, a sheriff's report said.

Mark B. Ackerman, 27, of 1440 Ridgewood Ave., Maitland, was arrested at the Seminole County sheriff's office at 9:45 a.m. Wednesday. He has been released on \$1,000 bond and is scheduled to appear in court Oct. 14.

SAYS SHOT SELF

Seminole County sheriff's deputies have listed as "possibly accidental" the gunshot wound to the lower back of a Geneva man's left leg.

Deputies were alerted to the shooting — which reportedly occurred at the man's home at K Road, Box 904, at about 4:30 a.m. Thursday — by Sanford police who had stopped a speeding car. The driver of that car, Oscar A. Chocano, 25, told police he was taking the wounded man, James Franklin Collins, 36, to Winter Park Memorial Hospital, Winter Park.

Collins, who deputies reported appeared intoxicated, reportedly told them he had shot himself while cleaning a .38-caliber revolver. His wife, he said, was at home with him at the time of the shooting, a sheriff's report said.

Collins refused to go to any hospital other than Winter Park's and also refused to be transported by ambulance, the report said.

Workshop For Disabled, Store To Move

Wil-Win, Inc., a private organization designed to give job training to the disabled, is moving to 2499 Old Lake Mary Rd., Sanford. The new facility will accommodate a larger thrift store and more workshop areas than at its previous location near downtown Sanford.

Projects Director Elaine Wilson said the thrift store should be open by Oct. 1. A large outdoor sale is scheduled for Oct. 5. The store includes items such as clothing, housewares, furniture, appliances and gift items. A large plant department is planned.

The store will be selling craft items made by the disabled on a consignment basis. Any disabled person having handmade items to sell may contact the store manager, Dolores Drennen, at the store, Mrs. Wilson said.

Wil-Win has filed for private grants and

plans fundraising projects to underwrite the cost of running the program, Mrs. Wilson said. The organization receives no federal funding.

"But we would not be where we are today without the help of dozens of businesses and individuals that have contributed to the organization," she said. There include, she said, Cardinal Industries, Wholesale Printers, the Cavalier Motel, A-OK Tire, MedoCare, Inc., Crystal Creations, Jay's Hair Styling Den, Subway sub shop, Sparkles Bar, Native Casuals, Video Fever, J & B Sound, Alternative T.V. & Appliance Rental, A & G Crafts, Duda Farms, Winn-Dixie stores, McDonalds, Burke Farms, Carl's Deli and Plants, Track Shack, Central Florida Zoo, Sanford Custom Furniture, Jim and Dottie DeLong, Mary and Bob Cozine, Wendell Agee, Jack Horner and all the Greater Sanford Chamber of

Commerce staff, and Jim Jernigan and the city recreation department staff.

The store and workshops will be staffed with volunteers, including the disabled, she said, and interested persons are encouraged to call the store at 321-7956 or Mrs. Wilson at 323-0742.

As a fundraising project, board members and Wil-Win clients will be selling coupon books sponsored by Southeast Bank which offer discounts of food, entertainment and merchandise. The books will sell for \$7 and Wil-Win will profit \$3.50 on each.

Mrs. Wilson said the Wil-Win organization, founded in February, will be able to help many people because it won't isolate them by disability type.

The organization envisions it will train 100 to 150 disabled within a year, with at least 75 percent going on to obtain jobs.

Sanford Man Tried In Absentia Guilty Of Battery On Officer

By Deane Jordan
Herald Staff Writer

A Sanford man who failed to show up for trial on charges of battery to a law enforcement officer and DUI was tried in absentia Wednesday and found guilty.

Circuit Judge Robert B. McGregor ruled the trial could proceed without Albert Thompson Jr., 30, 115 McKay Blvd., because he was present Monday when the jury was picked, was represented by counsel and apparently failed to show out of choice.

Before the six-member jury began to hear the case against Thompson, McGregor issued a bench warrant for Thompson's arrest.

The jury found Thompson guilty on two counts of battery to a law enforcement officer.

Thompson was arrested by Oviedo police June 8 on a charge of driving under the influence, according to a sheriff's police report. Handcuffed, he was transported to the jail. When the handcuffs were removed at the jail Thompson reportedly became unruly and shoved officers.

Thompson was released from the jail on bond prior to trial.

He faces up to 5 years on each battery charge. In other court action, a 20-year-old Sanford

man who pleaded guilty to attempting to have sex with a 10-year-old girl was sentenced Wednesday by Circuit Judge Kenneth M. Leffler to 3½ years.

Melvin Leroy McMillan, of 3011 E. 20th St., was also ordered to serve 2 years of community control after the prison term. Community control is a form of in-house arrest.

McMillan was arrested April 12 for the attempted assault after a 10-year-old friend of the victim alleged she, too, was molested by McMillan. While investigating the friend's claim the 10-year-old victim's molestations were uncovered.

The victim told authorities that she had sex with McMillan several times since August 1983. McMillan was indicted by a grand jury and charged with sexual battery to a child under 11 but pleaded guilty to the lesser charge.

The incidents surfaced when the friend said she was staying overnight with the victim and was awakened by McMillan. She reported he was nude from the waist down and was "rubbing" her. She said she got up and went into the room where her friend was sleeping.

She later reported the incident to authorities at school.

Man Faces Prison In Homemade Bomb Case

A Seminole County man arrested after federal agents and sheriff's deputies found three crude bombs in his home has pleaded guilty to possession of a destructive device.

Garth B. Kamerling, 31, of #14 Kettle's Wekiva River Landing in northwest Seminole County, faces up to 10 years in prison and a \$10,000 fine when sentenced Nov. 18 by U.S. District Judge G. Kendall Sharp.

Kamerling was arrested after investigators raided his trailer and found the home-made bombs stuffed with nuts and bolts. The bombs

were three champagne bottles wrapped in duct tape, packed with an improvised gun powder, and plugged with a fiberglass-type resin.

Sheriff's Lt. Marty LaBrusciano said the crude bombs contained sophisticated detonating devices using flashbulb components for fuses. The bombs held about two pounds of explosive powder each.

According to one report, Kamerling made the bombs because he was curious and wanted to see if he could do it. He had no intention of using them, the report said.

WEATHER

AREA FORECAST: Today partly cloudy with a slight chance of showers and thunderstorms and a high in the upper 80s to low 90s and wind northwest around 10 mph. Rain chance 20 percent. Tonight will be mostly fair with a low in the upper 60s to low 70s. Light north wind. Saturday will be mostly fair with a high in the mid to upper 80s. Wind northeast around 10 mph.

NATIONAL REPORT: A wintertime storm was forecast for the northern Rockies with travelers' advisories issued for much of Montana as a wintertime storm bore down on the area. A travelers' advisory was also posted for the northwestern and north central mountains of Wyoming.

Up to 6 inches of snow was expected in the mountains of Wyoming, and northerly winds of 20 to 40 mph may create local ground blizzards in Montana, the National Weather Service said.

AREA READINGS (9 a.m.): temperature: 76; overnight low: 72; Thursday's high: 87;

barometric pressure: 29.50; relative humidity: 94 percent; winds: east at 7 mph; no rain; sunrise: 7:16 a.m.; sunset 7:16 p.m.

SATURDAY TIDES: Daytona Beach: highs, 8:31 a.m.; 8:51 p.m.; lows, 2:07 a.m.; 2:25 p.m.; Port Canaveral: highs, 8:23 a.m.; 8:43 p.m.; lows, 1:58 a.m.; 2:16 p.m.; Bayport: highs, 1:29 a.m.; 1:46 p.m.; lows, 7:45 a.m.; 8:11 p.m.

BOATING FORECAST: St. Augustine to Jupiter Inlet out 50 miles — Small craft should exercise caution until seas subside. Wind west to northwest

around 10 knots today becoming north less than 10 knots by tonight then northeast 10 to 15 knots Saturday. Sea 2 to 4 feet today and 3 feet of less tonight. Moderate to large northeast swells occasionally breaking across inlets gradually subsiding today and tonight.

EXTENDED FORECAST: There is a chance of showers or thunderstorms mainly south half Monday and all of peninsula Tuesday, otherwise partly cloudy. Lows will be in the 60s extreme north and 70s elsewhere. Highs will be in the 80s.

U.S. Deficit Up, Tax Reform Moot

By the administration's own estimates, the federal budget deficit is currently running at a rate of \$210 billion a year; the U.S. trade balance is running a deficit of roughly \$140 billion a year, and the Farm Credit System is so deeply sunk in bad loans that it is asking for a federal bailout. At this rate, the United States, which has been a major creditor nation for many years, will, within another year or two, have the largest foreign debt on earth.

In light of all that, what is the president of the United States doing? In what his aides call "the fall offensive," he is stumping the country for tax reform. The reluctant and the doubtful in Congress, says the White House, better come along because the president remains popular — the Gallup Poll says his personal popularity is up from 62 percent to 65 percent in the past six months — but next to the deficit numbers, the poll data and the rhetoric of spokesman Spokes don't seem to impress too many, even on the Republican side. California Republican Sen. Pete Wilson, long one of the president's most faithful followers, recently declared that he had abandoned the president's peculiar priorities.

There is a widespread tendency to attribute the president's political difficulties to his lame-duck status; he cannot run again, and thus the coattails are considerably shorter than they were four years ago. But, in fact, the irrelevance of tax reform at a time like this, regardless of the merits of the president's plan, make that issue itself something of a lame duck, a matter properly perceived by most Americans as secondary to the deficits, the high value of the dollar, and the concomitant inability of American manufacturers to compete in world markets.

House Speaker Tip O'Neill declares that this country is losing 3,500 jobs a day. That number may be neither entirely accurate nor entirely attributable to the budget deficit and the competition from foreign imports on which he blames it, but there's no doubt that O'Neill has the issue, substantive and political, and that the president does not.

The president's tax reform stumping has about it the air of a sort of premeditated activism, an effort to look presidential on something having vaguely to do with the economy without the need to do the hard work or make the tough decision on which any real effort to deal with the deficits depends. So there is a lot of tough talk, the familiar reach for the mantle of a popular American hero, most recently Harry Truman in Independence, and the attack on unspecified "special interests." In the meantime, the special interests that resist the tax increases and that block urgently needed budget cuts — in defense, in entitlement benefits — without which no genuine deficit reduction is possible, continue unchallenged, and the jawboning on international trade that the president ought to be doing around the clock remains undone. While the president fiddles, the economy lurches toward disaster.

BERRY'S WORLD

DICK WEST

Comet Futures Speculative, Invest In Jails

WASHINGTON (UPI) — If there is anything that makes you proud to be an American, it's the national economy.

Just last week came word that by the end of the year the United States might have the largest balance of payments deficit the world has ever known.

If that prospect doesn't start your patriotic juices flowing, nothing will.

Running it a close second in economic importance was the news that America's prison population has been growing at the rate of 1,000 a month.

Should that pace continue, we will soon run out of what little cell space we have left.

At his latest news conference, President Reagan credited record foreign investments with contributing to the fact that for the first time in 71 years we owe other countries more than they owe us.

Meanwhile, there has been a lot of talk about turning the prison system over to private enterprise to run for profit. So maybe foreign investors could be persuaded to sink part of

their capital in new jails.

There is no such thing as a sure thing, of course. But Justice Department officials say it appears the number of prisoners in state and federal institutions will continue to increase at a very high rate for at least the rest of the year.

So that type of investment looks like pretty safe bet.

I know if I had any surplus cash lying around doing nothing but drawing interest I certainly would consider building a prison with it, and I imagine smart money overseas could be similarly motivated.

As an alternative, wealthy foreigners might invest in Halley's Comet, which I understand is generating a \$200 million business. The trouble is, that is necessarily a short-term investment.

The comet's path is fairly predictable. It was last seen by the naked eye in 1910 and won't manifest itself again for another 75 years. Therefore, there couldn't be much speculative interest in Halley's Comet futures.

Over the long haul, investments in new prisons should be more promising.

At the beginning of this year, the nation's 46 federal prisons already were operating at more than 100 percent of capacity and two-thirds of the states reported similar overcrowding.

For that reason, if the crime wave continues, investments in new penal facilities will take on a "can't miss" aura.

Certain criminologists insist that operating prisons for profit would lead to abuses, such as holding convicts longer than necessary. But I doubt that would happen unless prisoners are charged for room and board during their incarceration.

And why not? This business of putting away criminals at taxpayer expense has got to stop. Keep a safety net, sure, but let us not become a welfare state. Prisoners should be made to pay their own way like anyone else, perhaps by investing in themselves.

It could even reach the point where the United States would begin exporting prisoners. There must be several "have not" nations that would welcome investments of that sort.

ANTHONY HARRIGAN

'Privatize' TVA Dam Project

In Margaret Thatcher's Britain, considerable progress has been made in what the British refer to as "privatization" of public enterprises. These enterprises, nationalized under Labor governments after World War II, have been conspicuous in wasting the resources of the realm.

American socialists never had the opportunity they desired to nationalize basic industries, as was the case with Britain. However, the Roosevelt New Deal of the 1930s produced some quasi-socialist projects which have managed to stay alive despite the voters' rejection of statist economic directions. The public power projects in the United States fall in this category, notably the Tennessee Valley Authority experiment born in the Depression years.

From the beginning, the TVA was opposed by investor-owned, tax-paying utilities as unfair competition. Nevertheless, it was built and grew into a mighty power empire and a political empire as well. It drew on the U.S. Treasury for funds and enjoyed all manner of advantages. It became a political sacred cow in the region, and was virtually exempt from governmental oversight.

The chickens have come home to roost, however. A few years ago, TVA had the largest nuclear power program in the nation. Today, all its operating nuclear reactors have been shut down for safety reasons. The Nuclear Regulatory Commission estimates that the shut-down is costing \$5 million a day, which will be passed on to power consumers. And TVA is the organization that was supposed to provide a "yardstick" for energy costs.

Even the most staunch defenders of TVA admit gross managerial decisions. Consider the matter of senior staff salaries. No TVA employee can earn more than the agency's chairman or a member of Congress.

Sen. Sasser says he remains unconvinced that TVA's top nuclear managers deserve about what he makes. Salaries, obviously, should be based on prevailing wages for skilled nuclear operators — on market conditions, that is, not politics.

Apparently some politicians would risk a major nuclear accident rather than hire topflight nuclear operators at salaries higher than a politician.

The politicians who call the shots for TVA are playing politics with human lives on a grand scale. Apparently they would risk a major nuclear accident rather than hire topflight nuclear operators at salaries higher than a politician.

This sort of thing constitutes the most powerful case for the privatization of TVA. From the safety standpoint alone, not to speak of economic efficiency, there is abundant evidence that the public can't afford public power.

JEFFREY HART

Sanctions Criticized

President Reagan would have made a simple and unassailable statement: "I am opposed, on principle, to both communism and apartheid. I will support sanctions, however, only against those who try to export them."

Now that Mr. Reagan has adopted most of the sanctions against South Africa that congressional liberals were proposing, he has shifted the politics of the matter to the left. The liberals will demand more, and then more still.

If Mr. Reagan expected that his sanctions would gain him credit on the left he must now be severely disappointed. His sanctions were instantly denounced by Speaker Tip O'Neill and Senator Kennedy as too mild. They were disdained by lead editorials in the Washington Post and The New York Times. Bishop Tutu actually attacked Mr. Reagan for "protecting" apartheid.

Congressional conservatives have been openly cynical on the whole South African matter.

The sad aspect of Mr. Reagan's South Africa moves is that he had no popular mandate for them at all, but was responding to a sort of political frenzy inside the Washington, D.C. beltway. An August Gallup Poll broke down as follows: 44 percent said the U.S. should remain impartial and not get involved in South Africa; 29 percent said they did not know what to do or had no answer at all; 8 percent — 8 percent! — favored sanctions; only 3 percent favored withdrawal of U.S. investments.

Paul Johnson, former editor of the British magazine The New Statesman, and the author of the best-selling book "Modern Times," an amazing book with new information in every paragraph, told the truth about South Africa in a recent article in Commentary Magazine:

"The campaign of economic attrition now being waged within the United States against the Republic of South Africa, which is summed in the word disinvestment, is an outstanding example of the power of political propaganda. That the Unit-

ed States, the richest country in the world, should deliberately set about destroying the economy of what is in some respects still a developing nation is an absurdity in itself, and a cruel absurdity. Such a policy might make some kind of brutal sense, in terms of Realpolitik, if it were to America's economic and political advantage to wreck the economy of South Africa. In fact, the reverse is true. The United States has absolutely nothing to gain, and a good deal to lose, if disinvestment inflicts radical damage ... It is, however, explicable on the assumption that the South African regime is a unique moral evil, whose wickedness is so great that the necessity for its destruction transcends all the rules governing relations between states, and, indeed, the dictates of elementary common sense. That, in fact, is the assumption behind the campaign ... Therein lies the triumph of propaganda. For South Africa is not unique. In many fundamental respects it is a typical African company."

Mr. Johnson goes on to explain the many ways in which South Africa is typically African, but, indeed, he understates his case. Anyone who thinks about it can name a dozen more objectionable regimes on the African continent, more objectionable by any reasonable standard.

The regimes in Uganda and Tanzania have slaughtered tens of thousands of their subjects. The Marxist regime in Angola is fighting an uprising with the aid of Cuban troops. The Marxist regime in Ethiopia is carrying out a policy of genocide by starvation against its domestic tribal enemies, while the insane dictator of Libya, Muammar Khaddafi, is running a terrorist shopping center.

So President Reagan is declaring economic war against South Africa.

Mr. Gorbachev, looking ahead to the summit meeting, must be reflecting on the president's vulnerability to a propaganda campaign.

SCIENCE WORLD

Birthdays Spur Kid Suicides

NEW YORK (UPI) — A new study shows children are more likely to commit suicide around the time of their birthdays and are often influenced by stories of suicide in books and newspapers.

David Shaffer, professor of psychology at Columbia University, said preliminary results of a New York area study also show that 75 percent of the children between the ages of 6 and 18 exhibited anti-social behavior before their deaths and 48 percent were alcoholics.

"They were not understanding, withdrawn children whose parents didn't understand them as some myths might have us think," said Shaffer. "They were mostly deviants of society ... physically precocious and troubled adolescents."

Of the approximately 60 child suicides studied so far, Shaffer said 23 percent killed themselves within a two-week period surrounding their birthdays. He said the results were similar to another study of child suicides he conducted in England where 22 percent of the children killed themselves at the time of their birthdays.

"We are not sure why this is so," he said.

Many of the children were also found with books or newspapers describing the suicide of someone else, often someone the child admired, he said.

"Children and teens are influenced by what they hear or see," said Shaffer. "Printed accounts of suicide lowers society's taboo of suicide."

Shaffer said interviews with police and parents found in almost half the cases the child had been discovered doing something wrong but had not yet been disciplined.

"Suicide occurred immediately after arrest or apprehension," said Shaffer, who spoke at a conference on suicidal behavior sponsored by The New York Academy of Sciences.

The one six-year-old suicide studied was the case of a girl who jumped out a window after her brother caught her disobeying but before her mother had come into the room, said Shaffer.

He said small children who threaten suicide often say they will jump out a window or in front of a car.

Of the children studied, 32 percent had a history of suicide in their family and 32 percent were in therapy for emotional problems and mental illnesses, he said. Another 32 percent had attempted suicide previously.

Shaffer said his research group is also studying cluster suicides, incidences where a number of teenagers in an area will commit suicide one after the other, but said such incidences are so rare it makes study difficult.

JACK ANDERSON

Pentagon Blocking MIA-POW Inquiries

By Jack Anderson
And Dale Van Atta

WASHINGTON — In what smells suspiciously like a cover-up, the Defense Intelligence Agency has been blocking members of Congress from scrutinizing its files on sightings of live American prisoners of war in Southeast Asia. And the agency has prevailed on the House Intelligence Committee to go along with the information blackout.

The puzzling question is: Why does the Pentagon want to hide the many eyewitness reports that indicate American soldiers listed as "missing in action" may, in-

credibly, still survive in some God-forsaken jungle pesthole more than 10 years after the end of the Vietnam War?

The DIA's primary reason for not letting interested members of Congress pore through the files on live POW-MIA sightings is that old Watergate-era chestnut: "national security." Just how information on American prisoners 10 years after the end of hostilities could possibly jeopardize national security, the Pentagon doesn't begin to justify.

Our Capitol Hill sources say the DIA has obstructed representatives who have tried to make a careful examination of the entire file on a

given live sighting. Instead, the DIA offers statistics and generalities in briefings designed to assure Congress that everything is under control.

Faced with this bureaucratic stonewall, 18 Republican House members in July took the unusual — and largely unnoticed — step of sponsoring a resolution to force the Defense Department to provide "full and complete information regarding the following: all case files, complete with individual DIA analyses concerning reports of live Americans in Southeast Asia" from March 23, 1977 to date.

But the Intelligence Committee, in

a closed session on Sept. 5, killed the resolution. Reading the minds of its 18 colleagues and detecting ulterior motives, the committee said the 18 wanted "free and easy access ... to the files ... (to) convince members of the House that there were Americans being held prisoner in Southeast Asia and persuade them that there was an institutional bias at DIA against accepting this fact."

We've seen some of the DIA's files and they contradict the Intelligence Committee's complacent verdict that there is no cover-up at the Pentagon.

3 DUIs Earn Jail Time For Sanford, Longwood Men

A Sanford man and a Longwood man were given jail sentences, fined \$1,000 each and had their driver's licenses suspended 10 years after being convicted of their third DUI each.

Craig Stephen Rosenberg, 32, of 305 Sunland Drive, Sanford, was ordered to serve 120 days in the Seminole County jail. Ninety of those days were suspended.

Rosenberg was arrested May 17 in Sanford after an officer saw Rosenberg's car fail to maintain a single lane on Park Avenue.

In the second case, Scott Robert Jones, 22, of 190 E. Wildner Road, Longwood, was ordered to serve 30 days in jail besides paying the fine and also losing his license for 10 years.

Jones was arrested June 16 on State Road 426, Altamonte Springs, after his

car failed to maintain a single lane.

The following persons have been found of or pleaded guilty to driving under the influence or having an unlawful blood alcohol level.

The first-time offenders have had their driver's license suspended for 6 months, been ordered to pay a \$250 fine and court costs of \$27.50, and complete 50 hours of community service. When a guilty or no contest plea is entered or if the defendant is found guilty of an alcohol-related charge, other charges are usually either not prosecuted or dismissed. Most of the first-time offenders are allowed to apply for business-only driving permits. In cases where the sentence differs, the actual sentence is reported:

—James Dean, 33, of 3301 Sanford Ave., arrested March 3 after his car was

involved in an accident on State Road 46 in Sanford. He was fined \$500 and his driver license was suspended 5 years.

—Donald Ray Casey, 33, of 7 Cyclops Drive, Apopka, arrested March 26 after his car was seen speeding and crossing the centerline of Wekiva Springs Road, Longwood.

—Daryl Hoffmann, 29, of Winter Park, arrested June 24 on State Road 436 in Casselberry after allegedly leaving the scene of a traffic accident with property damage in Orange County.

—Millard Filmore Romans, 64, of P.O. Box 15, Snowhill Road, Geneva, arrested July 24 after his car ran off State Road 46 east of Sanford.

—Robert David Rusnell, 21, of Orlando, arrested July 20 after his vehicle

was clocked traveling 62 mph in a 45-mph zone on State Road 46 west of Sanford.

—Robert Joe Smith, 51, of 112 Briarwood Drive, Sanford, arrested April 30 after his car ran a red light on U.S. Highway 17-92 in Sanford.

—Eric F. Benton, 36, of 113 Bantry Drive, Lake Mary, arrested July 7 after his car failed to maintain a single lane on 17-92 in Casselberry.

—Ronald E. Morris, 37, of 1102 Lisa Lane, Apopka, arrested July 6 after his car failed to maintain a single lane on 17-92 in Longwood.

The following persons arrested on a charge of DUI were found guilty of the lesser charge of willful and wanton reckless driving:

—Ernest Alfred Nelson, 66, of 521 Oak Lane, Maitland, arrested June 23

after his car was involved in an accident. He was placed on 6 months probation and was ordered to pay \$1,700 in restitution.

—Harden Dexter, 59, of Orlando, arrested March 10 after he was found asleep behind the wheel of his car with the engine running on 17-92 in Fern Park. He was fined \$250.

—William Herndon, 31, of Holly Hill, arrested June 26 after he was found sleeping in the driver's seat of his vehicle parked in the eastbound emergency lane of Interstate 4. The vehicle's motor was running and its lights on. He was fined \$250.

—Thaddeus Lee McNeil, 53, of 116 Hughes Ave., Sanford, arrested June 3 after his car was involved in an accident at 2306 Jitway Ave., Midway. He was fined \$500. —Deane Jordan

Man Gets 2 Years For Assault On Deputy

An Altamonte Springs man was sentenced to 2 years for trying to run down a Seminole County sheriff's deputy.

Michael James Lilly, 34, of 911 Sycamore Lane, was sentenced by Circuit Judge Kenneth M. Lefler who also ordered Lilly to serve 67 hours of community service after he's released. Lilly was found guilty by a jury Aug. 13.

According to court records, sheriff's deputy John Butler had a warrant to arrest Lilly on a charge of grand theft from Pinellas County. When Butler attempted to serve the warrant on March 14 at a Sanford car dealership where Lilly worked, Lilly tried to run Butler down in a Ford LTD.

Butler was knocked onto the hood of the car but was not seriously injured. After hitting the ground, Butler fired five shots at the fleeing Lilly, hitting him twice in the shoulder. Despite his wounds, Lilly eluded police for 19 hours during which time he stole a car, records show. He has pleaded guilty to stealing the car.

Lilly was arrested the following day in Sanford as he was pumping gas into a car.

He could have received up to 5 years.

—Deane Jordan

New-Look Patriots Fired Up For Lyman

By Chris Fister
Herald Sports Writer

Is Lake Brantley ready for the Lyman Greyhounds?

Well, you don't have to ask a certain barber in Altamonte Springs. A bunch of fired-up Patriots got their heads shaved Thursday in a move to unite for the battle with Lyman, one of the team's biggest rivals.

"About 75 percent of the team went in today and got their heads shaved," junior quarterback Andy Dunn said. "We're really getting fired up. We think this could be the turning point of the season for us."

Brantley coach Fred Almon, who, as a Lyman assistant suffered along with the Greyhounds through last year's 0-10 season, hopes the Patriots can extend Lyman's losing streak to 14.

"We need a win or this is going to be a long season," Almon said. "I had the kids pumped up for a big season but we've had a couple letdowns. Now, the kids are hungry and the attitude is there."

Along with the fired-up attitude, Almon is hoping a change at quarterback will help turn the season around tonight against Lyman. Dunn, who saw some action in each of the first two games, will take over at QB for David Delfiaco. Lyman made a switch at QB last week and although it didn't beat Mainland, John Burton turned in a strong performance in his first varsity start.

"We'll try to run the option," Almon said. "Andy (Dunn) has got good quick feet. He's heady and he plays instinctively. He'll turn it up when there's nothing there and make something out of it. That's why we're making the change."

Dunn, getting his first varsity start, said running is his strength but he's starting to catch on in the passing game.

"I'm a lot stronger running," Dunn said. "I never played quarterback before I was a freshman. I'm more of a running back. But I'm starting to throw the ball a lot better. We're going to have to mix it up against Lyman."

Offense has been the problem for Lake Brantley in its first two games as it has scored just six points. Last week, the Patriots were shutout by Evans, 23-0. Almon thinks tonight's matchup will be a low-scoring affair.

"It's going to be a close ballgame," he said. "There probably won't be much more than two touchdowns scored. They (Lyman) won't blow us off the line and we won't blow them off."

Regardless of the teams' 0-2 records, both Almon and Dunn feel tonight's game will be a hard-fought battle.

"It should be a barnburner," Dunn said. "I know a bunch of people who go to Lyman and who play there. It's more than a game. To lose to Lyman would be like kissing your sister."

Almon said emotion will be running high.

"One of the deciding factors will be how well our kids are mentally prepared," he said. "It'll come down to who wants the dang game the most. It's one of those kind of emotional games. People who are emotionally ready are going to win."

It's a serious Fighting Seminole who travels to Lake Howell tonight for an SAC football game with the Silver Hawks. The Tribe is looking for its first win after two defeats. The Hawks, meanwhile, are flying high with a 2-0 record. Kickoff is 8 p.m.

Seminoles Seek To Stop Howell's Sudden Impact

By Sam Cook
Herald Sports Editor

Sudden Impact. The Seminole doesn't want to flaunt it; they want to stop it. The suddenness of two touchdowns in each of Sanford's first two games was the impact which led directly to both defeats.

Here's how:
●Four plays into the season opener against Titusville Astronaut, the War Eagles strike on a 43-yard pass for a TD. The secondary sulked for a play-action pass. Seminole never recovers and eventually loses, 24-0.

●Three plays into the second game against Titusville High, the Terriers spring loose Leon Hamilton for a 56-yard scoring romp. A Seminole linebacker hadn't heard a blitz call and went the wrong way. Seminole rallied but came up short, 20-13.

Tonight at 8, the Fighting Seminole travel to Lake Howell for their first Seminole Athletic Conference game. Lake Howell is 2-0 and has several offensive weapons. Senior Mark Schnitker is an explosive fullback, tailback Terry Gammons is a gamebreaker and Bill Wasson is a big-play receiver.

The opportunity for Sudden Impact is there.

"We have to eliminate the big play defensively right off the bat," Masure said. "We have taken a very serious approach to this game. It's crucial. We need a win. Our morale is good but you cannot sustain morale without winning."

Bisceglia: Hawks Need To Control Brinson

By Tim Horn
Special to the Herald

With a 2-0 record and a victory in their first district game, coach Mike Bisceglia and the Lake Howell Silver Hawks have pretty much had things go their own way so far this season.

And Bisceglia, whose Silver Hawks play host to Seminole tonight at 8 at Lake Howell's Stadium in the Seminole Athletic Conference opener for both schools, hopes his team can keep the victories coming this way.

"It's a very important game for us," he said of the Seminole contest. "Winning our first conference game is just as important as winning our first district game was."

The Silver Hawks, whose wins have come over Orlando Edgewater and West Orange, will face a different type of football team in Seminole.

"Sanford (Seminole) is not as big as those two teams, but they are a lot quicker," he said. "They have more speed than both of those teams put together."

This team speed that Seminole possesses worries Bisceglia.

"Yes, I'm worried about it," he said. "They have great total team speed and

Football

Masure said a strong effort from running backs Dwayne Willis, Curtis Rudolph and Eddie Banks is essential tonight. "We're going to try and establish a sound, ground game and ball-control game," Seminole's first-year head coach said. "Lake Howell is a team that can leave your offense on the bench. They control the ball offensively."

The Seminole will be without one important cog tonight. Quarterback Jeff Blake's favorite target, Dave Rape, jammed his elbow against a helmet Tuesday and Masure said he will not play. Rape shares the county lead with six receptions and averages 22 yards a catch.

Blake, however, has been impressive when given time. The 6-0 sophomore hooked up with Herb Hillery for a 54-yarder last week. He also looks for tight ends Banks and Sonny Osborn along with Willis from the backfield.

Hillery, Blake's cousin, was the stand-out receiver last spring but last week's grab was his first of the year. Masure said he hopes it will be a sign of things to come for the junior receiver.

Masure said Seminole's defense has played well expect for the breakdowns which have haunted it. He expects the Tribe's defensive quickness to play a big

factor tonight. "I don't think we have an edge over anybody but our overall quickness is maybe a little better (than Lake Howell's)," he said. "We had some breakdowns this year. We had stunts going in those areas (where the play went) but they didn't go."

"We're going to be pretty basic early in the game. We're going to try and sit and let the kids settle down early and not gamble as much."

Linebacker Brian Brinson is the leader of that defense. He has received quality performances from sophomore defensive end Earnest Lewis and linebacker Rick Kelly. Dexter Franklin heads up a strong secondary along with Dennis Lawrence, Horace Knight and Theron Liggins. Kenny Morris has joined Mike Luster as a starting tackle up front.

"We need to gang tackle and pursue," Masure said. "Offensively, we need Jeff to have a good game and stronger running from backs for all four quarters."

"The offensive line has to be strong for four quarters. We have to play well all four quarters of football." Especially the first one.

TEEPEE TALK — Lake Howell's defensive coordinator, Bob Irwin, was Masure's secondary coach at South Miami. "He thinks he knows every play I'm going to call," laughed Masure.

Glenn Miaoilni, though, evens it out for Seminole. He was coach Mike Bisceglia's line coach for four years.

Football

in practice Tuesday and will miss the game.

"He (Blake) has a really quick release and is an excellent rollout quarterback," Bisceglia said. "He throws real well on the run."

"He's a double threat too because he can run the ball. He puts a lot of pressure on the defense. And he is just a sophomore, so he has got a future."

Bisceglia said the Silver Hawk secondary, which consists of safeties Bill Wasson and Matt Aliberti and cornerbacks Lee Chojnacki and Randy Nixon, has its work cut out for it.

"It will be a good test for our secondary," he said. "They have to do a good job."

The Silver Hawks are led by senior fullback Mark Schnitker. Schnitker remembers last year's 8-0 loss to Seminole.

"Last year against them we were pretty embarrassed," he said. "It was mostly a defensive game but we were embarrassed getting shut out. We want to score a lot of points on them."

"I think it's our first big test of the season," he added.

Added Bisceglia about the whole situation of playing Seminole: "It will all come down to, can we control their speed?"

that presents problems. They do things with their speed.

"On defense they use their speed to stunt and blitz a lot. We are going to have to control their defensive line and get a good rhythm going on offense."

Middle linebacker Brian Brinson, who is third in the county in tackles, anchors the Seminole defense and Bisceglia is aware of him.

"He is an excellent athlete," Bisceglia said. "And we have a lot of respect for him. We will have to do things to control him for our offense to be successful."

Bisceglia said he is just as impressed with the Seminole offensive speed and the key to victory for the Silver Hawks is to keep their defense off the field.

"We have got to control the ball and not let their offense have it," he said.

Seminole quarterback Jeff Blake and wide receiver Dave Rape are the big play men in the Seminole offense. These two players have Bisceglia impressed with the Seminole passing attack. Rape, however, will not play tonight. He injured his elbow

Take Heart 'Hounds, Here's A Losing Streak Of 29 Games

I saw this comic strip the other day where this high school football team called the Scapegoats was talking about its losing streak. The coach said the losing streak started 21 years ago.

Lyman High might feel like it's been an eternity since it last won, but one victory can usually chase away — even if it's just for an instance — all the agony of the past defeats.

I ought to know. I've played on some teams that have had losing streaks longer than Lyman's, which now stands at 13, after a check with the Evening Herald microfilm. Bill Scott, Lyman's coach, said he thought it was 14. I'm sure he feels at least one game better.

Lyman's last win was, 23-3, over DeLand in the final regular season game of the 1983 season. It lost in the Rotary Bowl that year to Lakeland Kathleen, lost all 10 games in 1984 and has lost its first two this year.

That's nothing compared to my high school baseball team. It was 0-18 when I was a sophomore, then lost 11 straight my junior year before it won. After the last out was recorded in that game, we felt like we had just won the World

Chris Fister

SPORTS WRITER

Series. Especially after dropping 29 consecutive games. We went on to lose nine in a row before we won again and ended the season with a 2-22 record.

Around the first week of my junior year, when the streak had reached 21, a lot of the players thought about quitting. When we were losing all those games, we took a lot of abuse from the school and from our opponents.

I took a lot of the abuse myself. In my high school career, as a pitcher, I never won a game. I lost 33. I can joke about it now, because I know

that in every one of those 33 games, I tried my best.

That's all anyone can ask of you. And if the members of the Lyman High football team do that, then they are winners. And, one of these weeks, they will win on the scoreboard, too.

Last week, both the Fearless Fister Forecast and Dunkel Power Ratings were 5-1 picking prep games. The tiebreaker is who came the closest in the point spreads for the five correct picks.

For the five games the Dunkel system got right, it was an average of six points off the point spread. The Fearless Fister Forecast was an average of three points off, thus winning the tiebreaker.

While the Forecast did pretty well in the prep picks, it took a beating in the colleges and pros (1-4). For the week, I was 6-4. For the season, 10-9-1.

Here's a look at this week's games:

SEMINOLE AT LAKE HOWELL
This is the Seminole Athletic Conference opener for both the 0-2 Seminole and 2-0 Silver

Greyhounds Vow To Halt Streak At 13

By Sam Cook
Herald Sports Editor

Wide receiver Ralph Philpott has endured for 13 games. Running back Robert Thomas has only endured for 12. Jack Bloomingdale, Lyman's defensive coordinator, has suffered the same agony as Philpott.

Lyman's winless streak has reached 13 games, not 14 as early thought after last Friday's loss to Mainland. Whether it's 13 or 14, however, means little to Philpott, Thomas and Bloomingdale. They are tired of losing and tonight against Lake Brantley, they vow to put the misery behind them. Kickoff is 8 p.m. at Lyman High's Stadium.

"We have the talent," Thomas said earlier this week. "We just have to get off to a good start. We've been playing hard the second half and not the first."

Philpott, who with Thomas and Seminole's Dave Rape leads the county with six receptions, said tonight is the night. "We're going to beat Lake Brantley," he said. "We're going to be ready and it's our turn to win."

Philpott, a three-year starter, was a member of coach Bill Scott's last winner. The Greyhounds throttled DeLand, 23-3, on Nov. 18, 1983. They lost to Lakeland Kathleen in the Rotary Bowl, all 10 games in '84 and they have dropped contests to Boone and Mainland this year.

Thomas, who shares the running duties with fullback Benny Glenn, is one of the county's best all-purpose backs. He has 100 yards rushing and 44 receiving. Thomas said the 'Hounds will be more potent offensively with new QB John Burton. "When he (Burton) gets it down, we're going to be all right," he said. "We'll score some points."

Burton received his first start last week and responded with 13 of 28 for 152 yards, which jumped him to third in the county. He tossed a 33-yard screen pass to Glenn for a TD but was intercepted twice late in the game to stall drives.

"That kid (Burton) can throw the ball," Lake Brantley coach Fred Almon said. "I'm surprised Lake Mary let him go." Burton attended Lake Mary last year before transferring to Lyman.

While Thomas, Philpott and Burton worry about scoring points, Bloomingdale is concerned about holding down the Lake Brantley offense, which will have a new wrinkle this week with Andy Dunn starting at quarterback and the return of Cornelius Friendly at tailback.

"Friendly has had a nagging injury but he can still hurt you," Bloomingdale said about the speedy senior. "We're preparing our plan for him to be at full strength."

Bloomingdale said his defenders have fared pretty well against the run but the pass (Brian Morris, Mainland, 267 yards) has been a problem. "Our defenders are short," he said. "Other teams have been throwing over the top of us."

Making the Greyhounds tough against the rush have been tackle Mike Sirmans and linebacker Byron Overstreet.

"Sirmans has just done a great job," Bloomingdale said. "We switched him from fullback to take advantage of his quickness. Overstreet has been our most consistent linebacker. We need good games from Byron, Vince Campbell and Vahan Nouskhijian to win tonight."

Lyman, 0-2, has not played a Seminole Athletic Conference game. Lake Brantley, 0-2, lost to Oviedo in its only SAC contest.

LAKE BRANTLEY AT LYMAN

Both teams are looking for win number one. Lyman has found a good passing quarterback in John Burton and Lake Brantley's defensive backfield wasn't tested last week against Evans (zero yards passing). But Lake Brantley gave Evans all it could handle before bowing out in the fourth quarter. The Patriots are on the way up and will get there a little faster than Lyman, which has lost 13 consecutive games dating back to 1983. — Patriots by 8

Buck Passes On Raines, Dawson Responds

Buck Rodgers looked at Tim Raines. Then he looked at Andre Dawson. The Montreal Expos skipper took his final at Wrigley Field's playing surface. It is natural grass. That's it, he said. Dawson plays today.

Dawson, who has been troubled by a sore knee, is more comfortable on natural grass. He was real comfortable Tuesday. He slugged three home runs and drove in eight runs as the Montreal Expos outslugged the Chicago Cubs, 17-15.

All of which made Rodgers look like a genius. Any time you set down a .317 hitter and the other guy clubbed three homers — two three-run shots in one inning — and chases home eight runs, you have to look like a genius, right?

Of course, playing Andre Dawson one day and Tim Raines the next doesn't make much sense either. But it doesn't matter now. The Expos, who played pretty well for two-thirds of the season, rest distantly in third place.

Raines, who has had pretty much an

injury-free year, doesn't mind the time off. Well, at least he didn't until he saw the winds blowing off Lake Michigan and out of Wrigley Field.

"I was dying to play then," Raines said. "I could have got my 10th home run. Maybe more than that. I love that park when the wind is blowing out."

But Raines understood Rodgers' reasoning. "They wanting to let (Jim) Wolford play and they want to get a look at some of the younger guys," Raines said.

Raines, who has been a model of consistency except for his cocaine-hazed '82 season, has put excellent numbers on the board again this year. His .317 average is his highest at this point in the season of any of his five years.

The 26-year-old Seminole High grad has established himself as the best player on the Expos. "I'm not doing anything different," he said via telephone Tuesday morning from the Windy City. "I'm just a natural .300 hitter."

Sam Cook
SPORTS
EDITOR

When it was pointed out that he is only a .293 lifetime hitter, he was just as quick to point out that he's been over .300 twice (1981; .304, 1984; .309) and if it wasn't for 1982 he would be above the coveted mark.

He's probably right. In 1983, Raines batted .298. Last year's .309 was probably a sign of things to come. His .277 in '82 is the only flaw in the ointment.

Was Rinker, who was instrumental in teaching Raines to throw from the outfield after his switch from second base, Raines' average could be 30, maybe 40 points higher.

"With Tim's speed, it would be impossible to throw him out if he would concentrate on his bunting," Rinker offered. "But nobody wants to bunt anymore. Everybody wants to hit it out of the park. Tim could be challenging Willie McGee for the batting title if he's just bunt five times a week."

Raines said he's considered working on his bunting in the past but he seems more content with his Charlie Lau-type style of hitting. He gives the impression that bunting is for guys who can't hit.

Which, as the National League pitchers will attest, isn't a problem for Timothy Raines.

Raines said his remarks about John McHale following the New York Times drug series were blown out of proportion. "The papers are crazy" he said. "The only thing that sort of caught my eye was McHale blaming me. Every once and a while it's (the past drug problems) are going to come out."

"But I've never been that sort of player or person that will hold a grudge. McHale played a big part in my rehabilitation and I still respect him for that."

"He probably said those things out of frustration. The only thing I disliked about it was that it was national TV. The next time I went to another park the fans were calling me 'druggie.' They never did that back in '82."

McHale said that Raines probably cost the Expos eight or nine games during the 1982 season because of his dependency on cocaine.

Rinker said his Florida Baseball Schools will be offering a class for coaches on Thursday nights at Sanford Memorial Stadium. The classes will begin in October and run through November.

Rinker's Dugout Club will resume its Friday night dinners Oct. 4. The Zinn Beck Fall League will provide the on the field entertainment. Call 323-1046 for information.

TIDBITS

OAKLAND Calif. (UPI) — Former baseball great Joe Morgan said he eliminated any notion of becoming the manager of the Houston Astros earlier this month because he needed to be "more than just another manager."

Morgan, now a businessman in his hometown of Oakland, Calif., said he was contacted about the possibility of becoming a manager by the Astros when the National League club began to shake up its front office early in September.

In that shakeup, general manager Al Rosen was fired. However, Bob Lillis was not replaced as the field manager.

"I decided after preliminary discussions that the only way I could do the job in Houston was to be both the manager and the GM," he said. "I saw what happened to Fran Robinson (former San Francisco Giants manager). He did a good job on the field, but the front office did not do their job. He was fired because of that."

Morgan played for Robinson in 1962, the only year this decade that the Giants have had a winning record. However, after the season San Francisco owner Bob Lurie decided the team could not meet the contract demands of both Morgan and Reggie Smith. Both players were released.

KC Stops Hex, Tips Mariners

United Press International
While the Red Sox and Blue Jays were being drenched in Toronto, the Kansas City Royals ended their drought in Seattle.

Boston and Toronto sat through a 3-hour, 18-minute rain delay before starting their game Thursday night and Blue Jays outfielder Jesse Barfield wished they hadn't bothered playing. You can understand his point, because the Jays lost 4-1 on a three-hitter by rookie Jeff Sellers.

"You stay around this long and you might as well play this thing," said Barfield. "But now that we lost, I definitely wish they called it. We were a little flat."

In Seattle, the Royals solved the hex the Mariners had over them by winning 5-2 to move into a first-place tie in the AL West with idle California. The victory was Kansas City's second straight over Seattle following 10 consecutive losses to the Mariners.

"If we score runs for our pitcher, we are going to win," said Royals first baseman Steve Balboni after he clouted his club-record 35th homer, a two-run shot. "Every win is important right now. Who cares that they beat us so many games in a row. We are in a pennant race. We've got to win. It doesn't matter who we are playing."

Charlie Leibrandt, 17-8, and Dan Quisenberry combined on an eight-hitter in the Royals' victory. California and Kansas City each have 10 games remaining, including four games against each other next week in Kansas City.

Balboni's two-run homer highlighted the Royals' three-run sixth inning and staked Leibrandt, 17-8, to a 5-0 lead.

The Blue Jays, meanwhile, lost a half game to the Yankees, who were rained out at home with Detroit. Toronto now leads New York by 1/2 games in the AL East and its magic number for clinching the title stands at six.

Tudor Bags 20th; Gooden Gets 23rd

United Press International
It is known as controlling your own destiny. As long as the St. Louis Cardinals win, what the New York Mets do is academic.

And the Cardinals refuse to lose.

John Tudor, who would be a lock for the Cy Young award if not for the New York Mets' Dwight Gooden, pitched a four-hitter to lead the Cardinals to their seventh straight victory, 5-0 over the Philadelphia Phillies. It was St. Louis' 14th triumph in their last 15 games, and Tudor, 20-8, has won 19 of his last 20 decisions.

In his 13th complete game and league-leading 10th shutout, Tudor lowered his ERA to 2.04, striking out seven and walking none. The left-hander, who came to the Cardinals this season in a trade with Pittsburgh, is the

N.L. Baseball
first St. Louis lefty to win 20 games since Steve Carlton did it in 1971. Tudor's previous season-high victory total was 13.

Gooden kept the Mets four games off the Cardinals' pace with an eight-hit, 3-0 victory over the Cubs at Chicago, but St. Louis' magic number for winning the National League East was reduced to six. Both New York and St. Louis have nine games remaining, including three with each other next week in St. Louis.

"It's another win for the team but I'd be lying if I didn't say it was nice for me," Tudor said. "I hate to use the word milestone but that's the only word I can think of. Twenty is the figure used in

baseball not 19 or 18 so it is very nice to have."

"I have to give credit to the awesome defense I have behind me," Tudor said. "I don't try to walk anybody because my thinking is (centerfielder) Willie McGee can run down a gapper."

"I'm not seven games better. This ballpark and defense have contributed greatly to my success."

With two starts left, Tudor is within striking distance of Sandy Koufax's season record of 11 shutouts.

"He's No. 2," said Cardinals manager Whitey Herzog of Tudor, deferring to Gooden. "Let's say he is the best left-hander. That way there's no controversy."

Along with Joaquin Andujar's 21 victories, Tudor gives the Cardinals two 20-game winners — a feat last ac-

complished in the National League in 1969 by the Chicago Cubs.

At Chicago, Gooden, 23-4, hurled an eight-hitter for his eighth shutout and 15th complete game to lead the Mets. Gooden, who added an RBI angle, struck out seven and walked two. He extended his string of innings without giving up an earned run to 48 and has won 17 of his last 18 decisions.

In other games, Cincinnati beat Atlanta 6-1 and Montreal at Pittsburgh was rained out.

Reds 6, Braves 1
At Cincinnati, Andy McGaffigan limited Atlanta to four hits over seven innings and drove in a run to pace the Reds. Cincinnati cut Los Angeles' lead in the NL West to 5 1/2 games and held the idle Dodgers' magic number at six.

Corso Sounds Alarm, Tribe Wakes Up To Whip Trinity

By Chris Fister
Herald Sports Writer
They say you're not supposed to wake up a sleepwalker but Beth Corso had to sound the alarm Thursday before her Seminole High volleyball team slept right through its match with underdog Trinity Prep.

The Lady Seminoles did snap out of the trance in time to claim a 16-14, 11-15, 15-7 victory over the Lady Saints at Trinity Prep.

"It seemed like we were asleep on the bus on the way over there and didn't wake up until late in the first game," Corso said. "We didn't look like ourselves out there at all."

Seminole improved to 2-0 with the win. The Lady Tribe opens play in the Seminole Athletic Conference Monday at home against Oviedo.

Trinity Prep jumped out to an early 9-2 lead in the first game before Seminole woke up and started to come back. Diana Mitchell served five points to revive Seminole later in the game and, with Trinity holding a 14-12 lead, Jackie Farr came on to serve four straight points as Seminole took the first game. One of Farr's serves was an ace.

Corso said the second game was "total chaos. Not much went right. It was like a total mental block."

In the third game, Seminole regained the rhythm that lifted it

hits. CREEK DOWNS LADY RAMS

For the third straight match, Lake Mary's Lady Rams played well in spots but couldn't keep it going for an entire match as they 'tropped a 15-8, 14-16, 15-13 decision to Spruce Creek's Lady Hawks Thursday at Spruce Creek High.

Lake Mary fell to 0-3 with the loss. The Lady Rams will look for their first win Saturday in the Evans Tournament. Lake Mary will play Evans, Colonial and Lake Brantley in round robin play with the top two teams out of that pool advancing to the single elimination round. Lyman and Lake Howell are among the teams in the other pool.

"We played scrappy but couldn't keep it going," Lake Mary coach Cindy Henry said of Thursday's performance. "We played well in spurts."

After losing the first game, Lake Mary was down, 9-3, in the second before Betsy Perry's serve got Lake Mary back in the match. Perry served the last eight points of the game for the Lady Rams.

The third game was close all the way and, with the score tie 13-13, Lake Mary had the serve. Spruce Creek then called a time out and a missed serve gave the Lady Hawks the serve and they went on to win the game, 15-13, and the match.

Lyman girls huddle up. The unbeaten Lady Greyhounds host Lake Mary Tuesday in an SAC match at 7 p.m.

Henry said along with the serving of Perry, Angie Capps looked good at the net. "She's not a power hitter, but is pretty good at dinking and placing the ball."

OVIDEO KEEPS ROLLING
Oviedo's Lady Lions roared to their fourth straight win Thursday, 15-10, 15-6 over Kissimmee Osceola in an Orange Belt Conference match at Kissimmee.

The win lifted the Lions to 5-1 overall and 4-0 in the OBC. Oviedo returns to Seminole Athletic Conference action (1-1 record) Monday at Seminole. The victory also snapped Osceola's five-game win streak.

"We got off to a little bit of a

Orioles 9, Brewers 1

At Milwaukee, Dennis Martinez, 13-9, tossed a seven-hitter and Alan Wiggins and Mike Young each drove in two runs to lead the Orioles' 16-hit assault of seven Brewer pitchers. Moose Haas, 8-8, was the loser.

Rangers 2, Twins 0

At Arlington, Texas, Jose Guzman, making only his fourth major league start, outdueled Mike Smithson with a six-hitter to spark the Rangers. Guzman, 2-2, pitched 8 2-3 innings before Dwayne Henry recorded his second save. Smithson fell to 14-13. Pete O'Brien homered for Texas.

White Sox 11, A's 7

At Oakland, Calif., Ron Kittle homered twice and drove in five runs to lead the White Sox. Floyd Bannister, 8-14, was the winner and Chris Codeiro fell to 13-13. A's rookie Jose Canseco went 3-for-4 with five RBI and hit two massive home runs, giving him four on the year.

McCUE CONVICTED

PITTSBURGH (UPI) — The federal government won the second conviction of its long investigation of cocaine trafficking in major-league baseball Thursday — just in time to turn its attention to the trial of a third accused pusher with ballplayer clients.

After 11 1/2 hours of deliberation spanning two days, a jury of 10 women and two men convicted Robert "Rav" McCue, 39, on seven of 13 counts of selling 460 cocaine to ex-Pittsburgh Pirates Dale Berra and John Milner in 1983 and 1984.

SPORTS

IN BRIEF

Lyman Swimmers Lack Depth But Not Quality, Rout Boone

What the Lyman High boys swimming team lacks in depth it makes for in quality. Thursday afternoon the Greyhounds won all 11 events in a 109-60 dual meet victory over Orlando Boone. They did it with only 10 swimmers.

Double individual winners for coach Don Clark's Greyhounds included Charlie Rose in the 200 free (1:54.1) and the 100 fly (55.5); Tom Mooney in the 200 individual medley (2:08.0) and 100 backstroke (58.3) and Ken Barnett in the 50 free (23.6) and 100 free (52.0).

Also taking first places for the 'Hounds were Greg Caton in diving (82 points), Nick Radkewich in the 500 free (5:09.3) and Chuck Reinighaus in the 100 breaststroke (1:10.6).

Lyman also took both relays as Mooney, Barnett, Rose and Reinighaus teamed for a time of 1:47.1 in the 200 medley relay and the team of Sam Rennard, Rich Ott, Radkewich and Jon Novotny won the 400 free relay with a time of 3:42.5.

In the girls meet, Lyman came away with a 105-63 victory. Millette Webber and Chrissy Metzdorf picked up two first places each to lead the way. Webber took firsts in the 200 free (2:07.9) and 100 fly (1:06.4) while Metzdorf won the 200 individual medley (2:33.6) and 100 breaststroke (1:21.2).

Also taking a first place was Jane Hall in the 500 free (5:51.9). Hall and Webber teamed with Karen Long and Shannon Parker to win the 200 medley relay with a time of 2:06.7. — **Chris Flister**

Clements Denies SMU Involved

FORT WORTH, Texas — Former Gov. William Clements, chairman of the Southern Methodist University Board of Governors, angrily denied that SMU had tipped the NCAA to alleged football recruiting violations at other Southwest Conference schools.

Meanwhile, NCAA investigator Bob Minnix conducted interviews about alleged recruiting violations by Texas Christian University Thursday in Fort Worth. TCU is the latest Southwest sch Minnix also talked Thursday to former TCU regent Dick Lowe, who resigned after admitting he made payments to football players. Lowe spent about an hour with Minnix. Afterward, Lowe refused to comment other than to say the meeting was "amicable."

The NCAA and TCU put a halt to all comments on the investigation into alleged suggested that because SMU had allegedly tipped the NCAA to illegal football recruiting at other conference schools, Clements' gubernatorial bid might suffer.

McEnroe Ousts Surprising Lloyd

SAN FRANCISCO (UPI) — John McEnroe thought he was destined to lose to John Lloyd Thursday night.

However, he overcame a 5-1 deficit in the final tiebreaker to post a 6-1, 6-7 (7-5), 7-6 (8-6) victory over Lloyd and advance to the quarterfinals of a \$277,000 men's tennis tournament.

Lloyd, ranked 72nd in the world, mixed his serves well, frequently aching the top seed with bullets on the center line.

Advancing with McEnroe Thursday to the quarterfinals were Paul Annacone, Johan Kriek, Tim Mayotte and Stefan Edberg. They were joined in today's competition by previous winners Eliot Teltscher, Brad Green and Brad Gilbert.

In other matches, Edberg downed John Sadri 6-4, 6-3. Annacone, a winner at Los Angeles last week, dispatched Matt Anger 6-3, 3-6, 7-6 (7-5) and Kriek routed Greg Holmes 6-1, 6-2. Anger upset No. 2 seed Kevin Curren in the first round.

Lloyd Gets Tougher, Wins Again

NEW ORLEANS (UPI) — Chris Evert Lloyd, playing stronger tennis as the tournament progresses, Thursday night routed Janine Thompson 6-1, 6-4 in the \$150,000 Virginia Slims of New Orleans.

"I think that I felt better tonight than I did two nights ago," said Evert Lloyd, the top seed who defeated Vicki Nelson in straight sets Tuesday. "Of course, the games were a lot different. It was more of an aggressive match tonight."

Earlier at the University of New Orleans Lakefront Arena, Pam Shriver capitalized on strong net play to rout Laura Gildemeister of Argentina 6-0, 6-1.

Also, Candy Reynolds upset No. 8 Kate Gompert 6-3, 6-2; Kim Shaefer defeated Mary Lou Plattek 6-1, 6-3, and Lisa Boulder beat Terry Holladay 7-6, 6-2.

Sanford Forms 2 Net Leagues

The Sanford Recreation Department will have two leagues for the Adult Co-Ed Volleyball fall season.

League play begins Oct. 14 for the "B" League and Oct. 15th for the "A" League. Entry fee is \$30 per team. Fees must be paid to the Recreation Office by Wednesday, Oct. 9. Rosters must be in at the same date.

To be eligible, men and women must be age 16 on or before Oct. 14.

The "B" League rules include no spiking or overhead serves while the "A" League will follow the guidelines of regular U.S.V.B.A. Power Volleyball.

For further information, contact Jeff Monson at 322-3161 (ext. 261).

Bally's Aids SGA Fundraising

The Sanford Gymnastics Association continues to flip toward its goal of \$80,000 for a new building. The SGA will hold a fundraiser in conjunction with Bally's Great Escape game room in the Sanford Plaza.

For \$1 a person can purchase five video game coupons from any member of SGA at the middle schools and high schools in Sanford. The coupons, which usually sell for four for a \$1, can be used at Bally's until Dec. 1.

In addition, on Fridays and Saturdays from 5 p.m. to 7 p.m., SGA members will be selling coupons in front of Zayre's near Bally's. For additional information, call Jeannette Siffey at 322-8234.

Gove's 63 Leads Texas Open

SAN ANTONIO, Texas (UPI) — In a sure sign that he was playing well, Mike Gove spent very little time on greens during the first round of the Texas Open.

Gove raced through Thursday's round with a 7-under 63 in the \$350,000 tournament for a one-stroke lead over Jodie Mudd. Gove carded eight birdies through the first 17 holes before taking a bogey on the final hole at the Oak Hills Country Club.

SAC Kicks Into High Gear

Even with Lake Mary and Oviedo idle, gridiron action in the Seminole Athletic Conference kicks into high gear tonight as Lake Howell plays host to Seminole and Lake Brantley will be at Lyman.

The Seminole-Lake Howell contest is the SAC opener for both schools and could very well turn out to be one of the best SAC games of the season.

Lake Howell coach Mike Biscaglia, who has the Silver Hawks at 2-0, has said his young team may be able to win the conference and he would like nothing better than to get that first SAC win under his belt.

Seminole coach Dave Mosure, whose team is a lot better than its 0-2 record, certainly doesn't want to go to 0-3. "This is a very crucial game for us," Mosure said Thursday. "We need a win for the moral of the team. Our moral is good but it can only take you so far. We need a win."

Last year's meeting between the two schools turned out to be a defensive struggle as Seminole used an interception return for a touchdown and a safety to defeat the Silver Hawks, 8-0. This season, neither team has played up to its offensive capability, so both are due for an explosion on offense.

Whether it is a high scoring contest or another defensive struggle, it will be a close game throughout. **Lake Howell by 3.**

Lake Brantley and Lyman are both winless heading into tonight's other SAC matchup. The Patriots are 0-1 in the conference, having lost to Oviedo, 21-7, in their season opener. The 'Hounds are playing their first conference game.

Both teams have fallen on rocky times. The Patriots defense has been decimated by injuries, while the 'Hounds continue to try to find some way to put an end to a long losing streak that has now reached 13

Tim Horn
SPORTS
WRITER

consecutive games. Despite the home field advantage, Lyman's streak will become 14. **Lake Brantley by 10.**

Oviedo, which stands alone at the top of the current SAC standings at 1-0, has the week off. The Lions will play New Smyrna on the road next week in a key District 4A-5 contest. Lake Mary will play its first SAC game next week at home against Seminole.

The Dunkel Index, which was correct on four out of five games involving Seminole County teams last week and is 7-3 for the season, is also picking Lake Howell and Lake Brantley to come out winners.

Says Robert Dunkel about Lake Howell-Seminole: "If the Seminoles are happy about the Titusville teams being gone for the year, they better not expect much of a reprieve from Lake Howell. Mike Biscaglia's boys are playing good football and look to remain undefeated..." Dunkel Ratings: Lake Howell 51.2 (4) Seminole 47.6.; Lake Brantley 44.4 (14) Lyman 30.2. Dunkel said only one 4A team is ranked lower than Lyman, Tampa Gaither, a relatively new school in Hillsborough County.

With a 2-0 start, Lake Howell has now boosted its rating 13 points since the beginning of the season and has gone from number 222 to number 120 in the state rankings in the latest Dunkel ratings.

In games this week in the NCAA and the NFL, the Gators will bounce back from an embarrassing tie at the hands of Rutgers two weeks ago to top Mississippi State by 14; the Seminoles will easily stop Kansas by 21 to remain undefeated; the Hurricanes of Miami over Boston College by 6 on the virtue of a 47 yard touchdown pass by quarterback Vinnie Testaverde on the last play of the game (sound familiar); UCF in a big upset by 4 over Illinois State; top ranked Auburn over stubborn Tennessee in a 2 point struggle; Michigan over Maryland by 7; Detroit over Tampa Bay by 10 (the Bucs are certainly not going to win many games if they can't even beat the Aints); and Marino and the Dolphins over Elway and the Broncos, 42-36, as the two teams combine for over 1,000 yards in total offense.

Last week's record: 8-2 (4-2 in the preps and 2-0 in both college and the pros).

Those of you tuned in to the FSU-Memphis State game on television last week that were looking for Sanford's Issac Williams at his defensive tackle spot and didn't see him, do not be alarmed. Williams, who suffered a pulled hamstring and a sprained right ankle in the Seminoles victory over Nebraska three weeks ago but was listed to play against Memphis State, was apparently pulled from the starting unit just before game time to just give the injuries more time to heal.

Word from Tallahassee is the big 6-1, 260 pound senior should be able to play against Kansas.

Cyclones Face 'Long' Afternoon Against Iowa

United Press International

The Iowa State offense must face the nation's No. 1 defense Saturday when the Cyclones host third-ranked Iowa. In attaining that lofty status, the Hawkeyes defense has given up an average of minus 10 yards on the ground per game.

If that isn't enough, the Iowa

State defense must face the nation's highest-scoring offense and its quarterback, Chuck Long.

Cyclone coach Jim Criner has listed Long as his favorite for the Heisman Trophy.

"In my opinion he's the leading candidate," Criner said of the Hawkeye quarterback at his

weekly news conference.

"That's just from me looking at the candidates. When you look at what he did a year ago and what he has done thus far this year, he's got to be considered the leading candidate."

In other games involving ranked teams: No. 1 Auburn is at Tennessee, Minnesota is at

No. 2 Oklahoma, Washington State is at No. 4 Ohio State, No. 20 Kansas is at No. 5 Florida State, No. 6 Penn State is at Rutgers, Miami of Ohio is at No. 7 Oklahoma State, Florida is at No. 8 Louisiana State, No. 15 Maryland is at No. 9 Michigan, and No. 10 Alabama is at Vanderbilt.

Knights Seek Third 'W'

Slack Heats Up Arm, Awaits McDowell Call

By Tim Horn Special to the Herald

Football

After opening the season with a surprising 2-0 start at home, the University of Central Florida Knights will try to make it three straight with a win on the road against the Illinois State Redbirds Saturday afternoon at Normal, Ill.

Slack played 10 minutes the first game and increased his playing time to 15 minutes the second. "I've been happy with my performance considering problems I've had with my shoulder," he said. "I feel confident I can go in and do the job when I'm called on."

Lake Brantley's Andy Dunn, left, gets his first start at quarterback tonight against Lyman. Cornelius Friendly hopes to rebound from an injury to have a good game at tailback. Lyman is looking to break a 13 game losing streak.

...Forecast

Bulldogs never seem to win the SEC, but they almost always play the role of spoilers. This might be a good upset pick if the Gators weren't so mad after being tied by Rutgers. Florida will be all business Saturday and that means curtains for Mississippi State. — Gators by 17

scalpers are charging these days. Tennessee is almost always in the game when it's playing in Knoxville, before 90,000 plus fans. The time is right for a major upset in the national rankings. — Vols by 2

Cracks Begin To Show At 1 Buccaneer Place

Football

TAMPA (UPI) — The cracks are beginning to show at Ore Buccaneer Place. Star linebacker Hugh Green broke a two-month silence Thursday to reveal he is unhappy with Tampa Bay's new defensive scheme. The Buccaneers, 0-3 heading into Sunday's road game against Detroit, have a new head coach in Leeman Bennett and a new defensive coordinator in Doug Shively, who also coaches the linebacker unit.

Lake Mary JVs Topple Seminole

Football

Terry "The Cat" Miller and Richard Burkett each ran for a touchdown Thursday as Lake Mary's junior varsity Rams claimed a 15-6 victory over Seminole at Lake Mary High.

"But we had a lot of dropped passes. Seminole had some too. If both teams would have caught more passes it would have been a barnburner." Seminole actually had more success through the air than on the ground. Blankenship completed 4 of 6 passes for 76 yards with Eugene Byam catching two for 49. On the ground, Kenny Batton and Leonard Lucas had 38 yards each.

Life Is Mass Of Bioelectrical Events

Dr. Gott

DEAR DR. GOTT — This is a pretty bizarre question. What happens to a person when he get electrocuted?

DEAR READER — A great many bioelectrical events happen when a living body is subjected to high-voltage electricity. The human system is, for all practical purposes, a bag of salt water containing variously charged particles. So, one of the effects of electrical stimulation is migration of particles, much the same way an electroplating process separates elements in a mineral bath. Another effect is severe burns where the electrical charge enters the body and exits from it.

However, the main effect of electrocution is the sudden interruption of all electrical circuitry in the system. We depend on tiny electrical charges to live; the heart is powered by a natural pacemaker, and the brain and all living tissue use minuscule electrical currents to function. A massive electrical jolt will override all lesser circuits, causing systemic short-circuiting and blackout. The controlled use of electricity is actually beneficial in certain medical situations. Delivery of a current to the heart alone can stop it (before open-heart surgery), start it up again (after surgery) and sometimes re-regulate the heartbeat (defibrillation) after a heart attack or other cardiac trauma. High voltage applied to the brain alone is called electroshock therapy and can be useful in treating certain forms of severe depression.

Electrocution usually causes death by stopping the heart and totally disrupting all brain activity. It's interesting that short-lived high-voltage electrical currents — like lightning — cause "death," but if the victim is immediately resuscitated, he may "return." In most cases, none the worse for wear.

DEAR DR. GOTT — Sometimes when a doctor prescribes a drug, he doesn't bother to tell you the whole story: side effects, whether to take it on a full or empty stomach, what foods interfere with absorption, etc. Are there any good sources for that

information that might be available at my local library?

DEAR READER — The best resource for finding out about drugs is your local pharmacist. These professionals are knowledgeable about the medicines they sell and are usually quite willing to discuss the issues you have raised. In addition, all prescription drugs are supplied with an extensive review, called the package insert, which is yours for the asking when you

fill your prescription. Information about medicines is also available in a compendium of modern drugs — "The Physicians' Desk Reference" — and in a publication called The Medical Letter. Finally, you may actually write the manufacturer of the drug; each company has the equivalent of a consumer-relations department, which will send you data.

WIN AT BRIDGE

By James Jacoby

A rash double and less than brilliant defense let South make his doubled contract, but not without some careful declarer play. East had a very minimum opening bid. Nevertheless, when his partner jumped to four hearts over the one-spade overcall, East quickly doubled what he perceived to be a sacrifice bid on the part of North. That just didn't make any sense. West's bid of four hearts simply announces a good playing hand for East, but it guarantees nothing in the way of defensive values. East was very lucky that West had two aces for two quick tricks. West led the heart ace and continued the suit. South ruffed

and led a spade. West took the spade ace. Playing East for some minor suit winners, he then played a club. Declarer played the jack from dummy, won East's king with his ace and played a second trump. West showed out, and South carefully played the 10 from dummy. East won the queen and had no way to prevent declarer from drawing his remaining trumps and making the contract. What brilliant defense could have beaten the contract? When West wins the ace of spades, he must continue a third round of hearts. Whenever East gets on lead, he will continue hearts. Declarer will eventually run out of trumps and the setting trick will come from East's fourth little spade.

HOROSCOPE

What The Day Will Bring...

YOUR BIRTHDAY SEPTEMBER 28, 1985
 Don't be too timid about taking well-calculated risks in the year ahead. If you have the proper people to advise you and opportunity knocks, swing the door open.
LIBRA (Sept. 23-Oct. 23) Your mate might express opinions contrary to yours today. His or her way may be better, so don't let your ego distort your judgment. Major changes are ahead for Librans in the coming year.
SCORPIO (Oct. 24-Nov. 22) Pressures could be rather heavy on you early in the day, but don't get uptight. Toward even-

ing all will smooth out considerably.
SAGITTARIUS (Nov. 23-Dec. 21) It's to your advantage to have alternative plans ready today in case something you are hoping to do doesn't pan out.
CAPRICORN (Dec. 22-Jan. 19) Nourishing impulsive whims should not be your most important consideration today. Go after things that can enhance your security.
AQUARIUS (Jan. 20-Feb. 19) Today's happenings might not be all wine and roses, but if you accept whatever occurs philosophically, you will weather the rough spots.
PISCES (Feb. 20-March 20) Fancy juggling may be required today to keep your budget in balance. Fortunately, you'll know how to best manipulate your resources.
ARIES (March 21-April 19) Opposition from others is likely today. However, if you keep your cool and retain your sense of humor, you can eventually win

them over.
TAURUS (April 20-May 20) Neglected duties will vie for attention today. Anxieties will be put to rest if you rid yourself of these burdens.
GEMINI (May 21-June 20) Your luck will have its limitations today. Confine your gambling to situations where know-how assures the desired outcome.
CANCER (June 21-July 22) Challenge may be a bit stiffer than you relish today. Yet, if you're self-assured and positive, you can overcome any obstacle with which you're confronted.
LEO (July 23-Aug. 22) For best results today play everything down the middle. Don't be hesitant to compromise or make concessions if it is for the general good.
VIRGO (Aug. 23-Sept. 22) Don't be reluctant to invest your time and services to benefit others today. But if money is requested, that could be a different story.

Gardening

Get New Trees And Shrubs In Landscape Off To A Good Start

Most of us like to add a new tree or shrub to our home grounds occasionally. And, the most common question is: when is the best time to plant? Generally speaking, the best time is during late fall and winter months. So, if you're thinking about it — now is the time to do it. This isn't a hard and fast rule, because the way a plant is packaged at the nursery has a lot to do with the best time to plant it.

A couple of exceptions to the fall and winter planting ruler are evergreens and palms. Evergreens are best planted in August or early September. And, palms should be planted during the summer rainy season.

Plants are usually prepared for sale in one of four ways. They may be "bareroot," which means the roots are bare of all soil. They may be in a "packaged bareroot" form, with the bare roots wrapped in sawdust, bark, or peat moss. Some plants are also sold "balled and burlapped," with the root ball wrapped in burlap

And, many plants are sold as "container-grown" specimens, in which case the root system isn't disturbed at all until planting time.

For the most part, "bare-root," packaged bare-root, and "balled and burlapped" plants will have a higher survival rate if they're planted in the late fall or winter. "Container-grown" plants can be added to the landscape anytime. But, you'll probably pay more for plants sold in containers.

When setting the plant, the first step is to dig a hole. Be sure you dig it large enough — at least six inches deeper and wider on all sides than the root mass of the plant. Keep the sides of the hole straight down rather than sloped. Loosen the soil in the bottom to allow for root development.

Your next step is to add some soil amendments to the earth you've removed from the hole — soil that will be used to fill in around the roots when you set your plant. These soil amendments are an important part of

Alfred Besesen
Urban Horticulturist
323-2500
Ext. 181

establishing trees and shrubs. Soil amendments are things like compost, pine bark, or peat moss. They help hold water and nutrients better in our sandy soils.

Mix one part amendment with every two parts of soil you plan to use in setting the plant. Then, place about six inches of the amended soil back in the hole. Pack this soil down fairly well, so the plant doesn't settle after it's set.

Next, stand the plant upright in the center of the hole, and turn it so that its best side is most visible. Make sure there is plenty of room for the roots when working with a bare-root plant — make a cone-shaped mound of soil in the bottom of

the hole and arrange the roots around it. They should be spread naturally, not cramped or twisted. For a balled and burlapped or container-grown plant, handle the soil ball gently; be careful not to break it.

Make sure you place the plant at the right level in the soil. Planting too shallow causes the roots to dry out. Planting too deep can suffocate roots, and cause the base of the trunk to rot. On bare-root plants, you can usually tell what the right level is, because there is a color change where the base of the trunk meets the soil line. With balled and burlapped or container-grown plants, line up the top of the soil ball with the soil surface.

Don't try to remove the burlap on a balled and burlapped plant. Simply roll the material down away from the top of the soil ball after setting it in the hole — it will decay naturally. Container-grown plants are usually sold in metal cans or plastic pots, which must be removed and

discarded before planting.

After the plant is set, you're ready to fill up the rest of the hole with the amended soil mix. Fill the hole three-fourths full, keeping the plant in an upright position. Water thoroughly. After the water settles, fill the rest of the hole with more amended soil, and water again. Finally, make a rim of soil a few inches high and one to two feet away from the plant's trunk. This saucer-shaped basin will help hold water, and direct it to the roots of the plant.

Remember, a beautiful home landscape can represent a major investment, a sizeable portion of which is accounted for by trees

and shrubs. Plan carefully, and buy only from reputable nurseries, and take care of your new plants properly as soon as you get them home. Getting new plants off to a good start can have a lot to do with their health and appearance for many years to come. Proper care should begin the day you bring a new plant home. And, it's best if you already have the planting site ready.

If you follow the basic guidelines for planting new trees and shrubs, you could save time and money — and, be a step ahead in your efforts to develop and attractive landscape.

Happy gardening!

Demeterius Way

Seeing Is Believing Squash Story

Demeterius Way has a squash story — and seeing is believing. The large hybrid summer squash is the result of some squash seeds Demeterius planted in the back yard of her father's home on Tangerine Avenue. In accompanying photo, Demeterius shows two squash she grew that weighed 15 pounds and measured 21 inches in length.

This little lady, age 3, is indeed a great farmerette. She is active at her Day Care Early Development Center she attends.

Her dad, Nathaniel Way, keeps her busy in the afternoon helping him with the planting and she is all smiles with her harvest.

Mt. Olive AME Church, in the

Marva Hawkins
322-5418

Midway area, will lay their cornerstone Sept. 29 at 2 p.m. The Rev. John Henry McMillon will deliver the message. The Rev. Johnnie Bryant is the pastor.

The Rev. Tommie L. Jenkins was honored with a birthday dinner on the patio of his home by Mrs. Annie R. Watkins and Mrs. Pauline Brown. "Happy Birthday" was sung by the guests and Deacon

Raymond Bellamy gave the dinner blessing. Sharing this happy day with the honoree were Mrs. Katherine Bellamy, Mrs. Mary Howell, Mrs. Virginia Jenkins, Mrs. Pearlina Henderson, Mrs. Lula Robinson and Jason Chisholm.

Mrs. Mary Clark of New York City is the houseguest of her sister-in-law, Mrs. Claudette C. Hutchison. While in the city she will visit many of the Central Florida attractions and visit her father-in-law, Mannie Clark, a patient in a local nursing center.

Happy Birthday greetings to Delores Martin, Beverly Mitchell, Brenda S. Ford, Ethel Franklin, Ruby L. Lawrence, Brenda Lanier, Coretta Moore and Bethel Pierce.

If you have the dexterity it takes to walk and chew gum at the same time, and fancy bumping shoulders with the opposite sex inside a 20-by-40-foot concrete echo chamber you too can play wallyball.

But you'll have to wait a bit if you want to try your hand at this hybrid sport that sounds like something Wally and the Beaver might have played with an old, knotted-up sock on a rainy day.

You'd be hard pressed to find a fast game of wallyball in Seminole County. But this marriage of volleyball and racquetball has invaded racquetball courts across the nation and Dave Fankhauser of the Sweetwater Athletic Club said he plans to bring the game to Longwood next month.

However, calls to other clubs about wallyball are answered by club owners and YMCA workers who believe you have a speech impediment. They try to steer you to the traditional volleyball and racquetball.

Wallyball's day has already come and gone at the Orlando Tennis and Racquet Club whose members, management said, opted for traditional volleyball once the courts for that sport were installed. However, wallyball is bouncing off the walls at Orlando's Racquetball South and Ormond Beach's Omega 40, and players there say there's no turning back.

Okay, so just what is wallyball? Well, this so-called "sport of the 80s" swiped the rules and net from volleyball and has taken courts away from racquetball players. A happening that enrages some

See WALLYBALL, page 2

Wallyball is the newest of the convenient participation sports to bounce into the nation's health complexes - maybe the biggest sports fitness craze to hit upwardly mobile America since joggers started strapping Walkmans to their waists.

What's Playing

A digest of current movies rated by Dick Kleiner:

AGNES OF GOD (PG-13) — Jane Fonda, Anne Bancroft, Meg Tilly. (Drama) A young nun's scream pierces the air. She has just given birth, and the baby is found strangled. Was the birth a miracle? Was the death a murder? John Pielmeier's intriguing play has been brought to the screen by director Norman Jewison. But unlike Jewison's screen treatment of "A Soldier's Story," the literal expansion of "Agnes" is its downfall and only emphasizes the film's trite ending. Bancroft is brilliant. **GRADE: B.**

AFTER HOURS (R) — Griffin Dunne, Rosanna Arquette, Linda Fiorentino. (Comedy) Dunne plays a friendly word processor who gets lost in New York's Soho after dark with no money. We follow his often surrealistic misadventures with an odd assortment of characters as he tries to make his way home. It's a mild comedy about an average urban man lost in his own city. After a good opening, the film goes in circles. **GRADE: B-minus.**

COMPROMISING POSITIONS (R) — Susan Sarandon, Raul Julia, Edward Herrman, Judith Ivey. (Comedy) Dr. Bruce Fleckstein is a hip, chauvinistic, oversexed Long Island periodontist. He's also dead. The murder took place after an afternoon of filling and flirting. It also takes place at the beginning of this film, and the rest of the time is spent figuring out whodunit. Was it the bleached-blond sculptress-nymphomaniac? The compulsive, plant-loving recluse? The dentist's obese brother? We're not saying. We will say that director Frank Perry has assembled an im-

pressive cast that works hard at keeping us puzzled — and laughing. But they still can't save the film from becoming a pedestrian suburban farce. Joe Mantegna, in his cameo role as Fleckstein, is brilliant. **GRADE: B.**

JOSHUA THEN AND NOW (R) — James Woods, Gabrielle Lazure, Alan Arkin, Michael Sarrazin. (Drama) This melodramatic production about a Canadian Jew making his way in the world, adapted by Canadian author Mordecai Richler from his novel of the same name, features a fine, relatively understated performance by James Woods and a tour de force by the darkly comic Alan Arkin. But the film is marred by an over-reliance on flashback, a somewhat contrived script and weak editing. Two hours seem like three, even when the gorgeous Gabrielle Lazure appears. **GRADE: B-minus.**

KISS OF THE SPIDER WOMAN (R) — William Hurt, Raul Julia, Sonia Braga. (Drama) Forget the comic-strip title; there are no extraneous laughs here. Hector Babenco has turned Manuel Puig's cult-classic novel into an extraordinary film. A flamboyant homosexual longing to be a movie star and a political activist determined to die for his beliefs share their lives in a decaying prison cell. "Spider" proves that our limitations link us together; our desperations make us human. This is a relentless, disturbing, gaudy film that grabs you from the opening credits and doesn't let go until the final note of John Neschling's haunting score. Brilliantly crafted, unequivocally original, "Spider" boasts performances that smolder, seduce and scar. A must-see. **GRADE: A.**

MAD MAX BEYOND THUNDERDOME (PG-13) — Mel Gibson, Tina Turner, Angelo Rossitto, Frank Thring. (Adventure) The world has been destroyed; this film is its phoenix. Most people have given up, but some — like Mad Max — fight to rebuild and claim their property. This is an ugly, loud film — gnarling creatures, sweating ogres and twisted, dreadful gray shadows rise out of the post-nuclear ashes — but it's also a mesmerizing, explosive, apocalyptic fantasy. Gibson gives the title character a properly brazen sense of justice: We want him to win — and he does — but not because Aunt Entity and other oddities haven't tried to stop him. Turner is a vulnerable, vicious Entity; whoever knew angst could be so sexy? **GRADE: B-plus.**

PEE-WEE'S BIG ADVENTURE (PG) — Pee-Wee Herman, Elizabeth Daily, Mark

Holton, Diane Salinger. (Comedy) Pee-Wee Herman is an entertainment oddity. With his short-cropped, slicked-back hair, shrill voice and fey persona, Herman exudes as much sex appeal as Olive Oyl. But like his cartoon counterpart, Pee-Wee is real, funny and real funny. And that's why we love him. In his big-screen debut, Pee-Wee searches for his cherished red bicycle. The screenplay (co-written by Pee-Wee's alter ego, Paul Reubens) is silly and inane, a journey beyond slapstick and into a bizarre world of juvenilia, pranks, riddles, tears and fears. You'll laugh — and laugh — and laugh. A must! **GRADE: A.**

TEEN WOLF (PG) — Michael J. Fox, James Hampton, Susan Ursitt. (Comedy) Scott Howard is an average high-school student: He can't perfect his jump shot; he can't impress girls; he can't find a better job. But one full moonlit night, Scott finds

himself in a hairy situation — he turns into a werewolf. Now a champion basketball player, Scott becomes a hero. Classmates clamor for his autograph. His friends market souvenir "Teen Wolf" T-shirts. Sound bizarre? It is, but it's also guilelessly funny. Director Rod Daniel never loses sight of the film's moral. (Yes, it has one.) Fox is engaging as his hirsute alter ego and newcomer Ursitt is an infectious delight. "Teen Wolf" may become — do we dare? — a monstrous hit. **GRADE: B-plus.**

VOLUNTEERS (R) — Tom Hanks, John Candy, Rita Wilson. (Comedy) What a great premise: To escape a burly hitman (and a \$28,000 gambling debt), a well-dressed opportunist hops on a plane headed for the jungles of Thailand. There's only one problem — the plane is full of Peace Corps volunteers ready to make their idealistic imprint on the world.

Kid Drug Pusher Makes Good

By Vernon Scott
UPI Hollywood Reporter

HOLLYWOOD (UPI) — If there was ever a long-shot for TV stardom it was Jesse Borrego, 23, who was pushing drugs for his step-father when he was 14 years old.

Borrego, who starts his second year playing Jesse Velasquez in the "Fame" TV series, still shudders when he recalls the days in Chicago when he helped his drug addict father cut and sell heroin to other addicts.

The strikingly handsome actor, whose face stirs visions of Aztec warriors, describes himself as a Mexican-Indian. He was born in San Antonio in a bilingual home.

His own father was a drug addict who was sent to prison. His step-father made Fagin and other villainous step-parents look like philanthropic angels.

Young Jesse was a perfect prospect to end his own days as a burned out addict in some prison. It's a minor miracle that he never took drugs himself.

"Drugs were all around me," Borrego said recently. "I saw what they did to people and I

stayed away from them. My real father was an intelligent man with a college degree, but he was a heroin addict.

"The use of drugs is a weakness. I was subject to those weaknesses, but I was able to overcome the temptation. It was a very definite choice I made at a very young age. It was an easy decision to make.

"I promised myself the family cycle of drug use would end with me. And it has.

"It wasn't just hustling drugs. It was the terror of living under the threat of police raids and my step-father beating me up whenever he felt like it.

"There were always sawed-off shotguns and knives in the house. They were used when other drug dealers came looking for trouble. There were times when our house would be shot up and I'd have to push my sister and brother under the bed to keep them from being killed.

"There was danger of people dying from the way we cut the drugs and the problem of hiding all the money that other neighborhood

...Wallyball

Continued from page 1

racquetball fanatics, but which club operators like Fankhauser and Omega 40's Gordon Rose take in stride because wallyball puts more players onto their courts.

Wallyball has the same meeting-ground and social applications of volleyball, but the beach is out of the picture. It only takes minutes for volleyball players to adapt their skills to wallyball, which is played with a rubber, royal blue wallyball which is a volleyball from all appearances, though a tad smaller, softer and lighter. Rose said.

The big difference in the games is the racquetball court, with an eight-foot volleyball net added, used as a wallyball court shrinks the playing-field

and opens the game for moves never made in volleyball. In wallyball you can bounce the ball over the net by way of the ceiling or walls, which, Mike Mojer of the Sweetwater Athletic Club said means you can angle your shots.

Nothing is out of bounds unless it hits the back wall. Hence the name, wallyball. An off-the-wall game of volleyball.

The object of wallyball, where two-, three- or four-member teams must hit the ball three times to send it over the net, is to be the first team to score 15 points.

And if that takes a wicked "six pack" (hitting the ball into someone's face) or coming up with the timely "rad" (good hit), well, "go for it."

The game was created by Joe Garcia in 1979, a mere 84 years after William D. Morgan devised volleyball in Holyoke, Mass.

Wallyball was born in ... where else? ... California. Garcia, a former minor leaguer with the Los Angeles Dodgers, got the idea during a beer-drinking session at a racquetball club. He and some friends pooled \$5,000 and were suddenly in the wallyball business selling kits to racquetball clubs across the country.

Since then, wallyball has been bouncing in all directions. Garcia claims the sport has attracted more than 200,000 players in six years, but has been especially welcomed in the East and Midwest.

Wallyball is making it as a sport of singles because Fankhauser, who called his club "very couples oriented," said both men and women enjoy the game.

It's a strenuous activity, but not a killer.

"It's a social game. You can get mean and damage somebody if you spike the ball into

their face," he said. But that's not likely to happen if you're "just trying to have a good time" and make points with the opposite sex on the courts. Fankhauser said.

The folks in Ormond Beach are more serious about the game, which they have been playing for about a year. Rose said his 12 four-member teams have attracted only five women.

"It scares women when that ball comes at them at 120 miles per hour," he said.

A smack in the face by a wallyball "stings a little" he said. "But you get over it.

"It's a much quicker game than volleyball because of the court size," Rose said. "Things happen fast. It helps to be a pretty good athlete, but just about anybody can play."

Ormond Beach wallyballers pay \$15 each for a 12-week, once-a-week league dose of the

sport, and the pleas of racquetball players who complain of lost time on the courts fall on deaf ears as far as Rose is concerned.

Although wallyball hasn't hit Seminole County and has a somewhat tepid hold in Orlando, that's no sign of hard times as far as the sport goes. This year the first national wallyball championship bounded into Westerville, Ohio. The February event attracted more than 150 teams from across the country, including some Olympic volleyballers.

The enduring popularity of Garcia's electric-blue wallyballs has yet to be judged, but this inventor of a new way to careen about a concrete room is confident his game will be embraced by a sports hungry nation.

"This thing could become an Olympic sport someday," Garcia boasted. "Who knows?"

Specials Of The Week

SATURDAY

AFTERNOON

4:00

⑫ (10) **MARY LINCOLN** Based on letters and biographies, this one-woman show traces Mary Lincoln's life from her role as First Lady to her later years as an elderly recluse

EVENING

7:00

⑫ (10) **JACOB BRONOWSKI: LIFE AND LEGACY** Events are traced that shaped the life and career of scientist and author Jacob Bronowski ("The Ascent of Man")

SUNDAY

MORNING

10:00

⑫ (8) **ROBOTMAN AND FRIENDS** Animated Robotman, Oops, Stellar and Lint try their best to keep an eccentric inventor from being run out of town. Thomas Edison Cooper's latest invention comes in handy when Stellar and Oops are kidnapped by the evil Roberon. Roberon captures everyone in Robot Land

AFTERNOON

2:00

⑫ (8) **FAR PAVILIONS** Ash (Ben Cross), despite his love for Anjali (Amy Irving), saves her impending marriage to the aging Rana (Rosano Brazzi) who threatened to call off the ceremony and thus force her into a life of servitude and disgrace (Part 2 of 3)

EVENING

8:35

⑫ **POPULATION: PLANNING THE GLOBAL FAMILY** Highlights of the 1984 United Nations World Conference on Population in Mexico City includes interviews with representatives and excerpts from the controversial proceedings

11:30

⑫ (8) **THE WINNERS** A look at how successful business people got that way. Host: Fred Lewis. Guests: Mary Kay Ash, founder of Mary Kay Cosmetics; Dr. Adele Scheele, psychologist; John Benanti, educator; Jeff McHone, lecturer-author.

MONDAY

AFTERNOON

3:00

⑫ (8) **THE BEGINNING OF RAINBOW LAND** Animated Determined to sprinkle color over a dreary wasteland, Rainbow Brite sets out to find the rainbow withheld by the Evil Force (Part 1 of 2)

EVENING

7:00

⑫ (10) **BLACK MAGIC** The Hartford, Conn. double Dutch jump rope team is seen savoring the adventures of its prize-winning trip to England and demonstrating the prowess that led them to victory in a 1983 state-wide competition

8:00

⑫ (10) **NATIONAL NUTRITION QUIZ** Columnist Jane Brody and Dr. David Watts pose 23 questions looking at how the foods we eat prevent or promote disease, including cancer, diabetes and heart disease

9:00

⑫ (4) **TONIGHT SHOW: 23RD ANNIVERSARY** Johnny Carson celebrates his 23rd anniversary as host of the late-night talk show with scheduled appearances by comedians Garry Shandling, Louie Anderson and Ronnie Shakes as well as classic footage featuring numerous celebrities, animal acts and the Mighty Carson Arts Players

11:30

⑫ (8) **THE WINNERS** A look at how successful business people got that way. Host: Fred Lewis. Guests: Mary Kay Ash, founder of Mary Kay Cosmetics; Dr. Adele Scheele, psychologist; John Benanti, educator; Jeff McHone, lecturer-author.

TUESDAY

AFTERNOON

3:00

⑫ (8) **THE BEGINNING OF RAINBOW LAND** Animated With the help of a magical bell, Rainbow Brite's dream of returning color to the world takes a step toward reality when she enters the Evil Force's castle (Part 2 of 2)

WEDNESDAY

AFTERNOON

1:00

⑫ (10) **JACOB BRONOWSKI: LIFE AND LEGACY** Events are traced that shaped the life and career of scientist and author Jacob Bronowski ("The Ascent of Man")

3:00

⑫ (8) **PERIL IN THE PITS** Animated A little boy travels to Rainbow Land for help, only to be caught in Rainbow Brite's battle with the evil characters Murky Dismal and Lurky

EVENING

8:00

⑫ (10) **SOUTH AFRICA UNDER THE GUN** A comprehensive look at all aspects of the current crisis in South Africa, focusing on the geographic and historic influences and the people involved

⑫ (8) **THE HONEYMOONERS' ANNIVERSARY CELEBRATION** Jackie Gleason hosts a two-hour presentation of "Honeymooners" sketches (including one converted to color) that haven't been aired since they originally appeared on the '50s variety show. Audrey Meadows, Art Carney and Joyce Randolph join in.

10:00

⑫ (10) **WOZA ALBERT: AN OSSIE AND RUBY SPECIAL** Ossie Davis and Ruby Dee introduce this BBC documentary examining a satirical play about a modern-day Messiah arriving by plane in Johannesburg

THURSDAY

AFTERNOON

3:00

⑫ (8) **THE MIGHTY MONSTROMURK MENACE** Animated Murky

Dismal's laboratory creation, the Monstromurk, escapes to Rainbow Land to begin removing color from the world (Part 1 of 2)

EVENING

7:00

⑫ (10) **LOST IN TIME** This exploration of prehistoric Indian cultures, including the moundbuilders of Mississippi, also examines possible Ice Age migration routes from Asia to the U.S.

FRIDAY

MORNING

11:00

⑫ (8) **INDAY PREVIEW SPECIAL** A look at four new daytime shows premiering October 7: "Inday News," "All About Us," "What's Hot! What's Not?" and "It's a Great Life"

AFTERNOON

3:00

⑫ (8) **THE MIGHTY MONSTROMURK MENACE** Animated After trapping Rainbow Brite in a bottle, Murky Dismal, Lurky and the Monstromurk pursue their mission of draining the world of color (Part 2 of 2)

EVENING

8:00

Orwell's '1894' Twice Made Into Movie

Dear Dick — Several months ago on "Good Morning America," I saw a movie review for George Orwell's "1984." I was anxious to see it because, although the book was good, I could never seem to finish it. Can you tell me if it has been made into a movie and, if so, when will it be released? — S.H., Strawberry Plains, Tenn.

It's been filmed twice. There was the classic 1956 movie with Edmond O'Brien, Michael Redgrave and Jan Sterling. And, in '84, came a new version, with John Hurt, Richard Burton and Suzanne Hamilton. The latter was only so-so and did nothing at the box office, despite its timeliness.

Dear Dick — Recently, I have noticed many different TV commercials ending with the words, "We are Beatrice." Has Beatrice recently taken over these numerous companies or has it always been affiliated with them? And who is (or was) Beatrice? — S.Y., Hamburg, Pa.

While your question is only marginally a show biz question, I have had several inquiries about Beatrice, so I think an answer is in order. Beatrice Foods is actually a corporate giant — probably the largest food company in the world — and one of the oldest. It was started in 1894 in Beatrice, Neb., in the dairy business (Meadow Gold was its first brand name) and has been growing ever since. Until recently, it was a shy conglomerate, preferring to keep out of the limelight, but lately it has decided to move onto the center stage of big business.

Dear Dick — Many of us patients here are avid readers of your column and hope you can help us

Ask Dick Kleiner

with our problem. Several of us have seen the movie, "The List of Adrian Messenger," and are trying to remember the names of the actors in it. We do hope you can help us. — W.K., Oxnard, Calif.

The cast was headed by George C. Scott, assisted by Clive Brook, Dana Wynter, Herbert Marshall and Tony Curtis. In small parts, wearing disguises, were Kirk Douglas, Burt Lancaster, Robert Mitchum and Frank Sinatra.

Dear Dick — On "General Hospital," how could Celia Quartermaine marry Jimmy Lee Holt when Jimmy Lee is Edward's illegitimate son and Celia is Edward's niece? Doesn't that make Celia and Jimmy first cousins? — L.D., Muskegon, Mich.

In the world of soap operas, all bets are off. What is a first cousin in the real world is a casual acquaintance in a soap opera. Relationships and other realities are constantly being twisted to fit a preconceived story line. Never worry about things like that when you watch a soap; just relax and enjoy it.

Dear Dick — I hope you can help me find the

true age of rock star Rick Springfield. My husband and I have a bet riding on this with some friends. We believe he is in his early 40s but they believe he is in his early to middle 30s. Could you please resolve? — J.L.S., Republic, Mo.

It is resolved. Rick was born in 1949, making him 36 this year. That's one for your friends.

Dear Dick — On the recent TV movie, "An Innocent Love," the character of Duncan was listed as being played by Rocky Bauer. I could swear I saw the same guy in "Scarface" but with the name of Steven Bauer. Which name is correct? — J.G., Sandia Park, N.M.

Technically, neither one. Or both. Actually, Bauer has used three names professionally. He is a Cuban and first started acting here (in "From Here to Eternity" and other shows) as Rocky Echeverria. He took his mother's maiden name — Bauer — and was Rocky Bauer for a while. Now he is working as Steven Bauer.

Dear Dick — I recently saw "The Last Starfighter." The part of the grandmother was played by an actress named Meg Wyllie. Being a Trekkie, I noticed that she looks exactly like the person who played the head zoo keeper in "The Menagerie" episode of "Star Trek." However, I thought the zoo keeper was supposed to be a male. Did she play both roles? — J.M., Brookshire, Texas.

You have sharp eyes. Meg Wyllie did play the part of the head zoo keeper — male or not — on that "Star Trek" episode.

...Kid

Continued from page 2
 criminals would try to ripoff.
 "It was a pretty grisly life.
 My step-father was eventually
 stabbed to death in prison."
 Borrego said his family was

constantly on the move. After
 each bust by the cops his
 step-father would take the ter-
 rified family to a new hideout,
 always moving at night.
 Until he was 15, Borrego
 lived undercover in Illinois,
 Maine, Wisconsin and Texas,
 always on the run.
 "I was just a kid trying to

survive," he recalled. "I finally
 ran away from home to live
 with my grandparents in San
 Francisco. It was the first time
 I'd led anything like a normal
 life and I went overboard. I cut
 classes and generally got out of
 line."

"I moved back to San An-
 tonio and went to school. I
 studied theater and dance at
 the College of the Incarnate
 Word."

It was Borrego's fascination
 with performing that changed
 his life. He became a member
 of the Soul Son Exploratory
 Theatre Company and was
 thrilled at the acceptance he
 received from fellow actors and
 audiences.

"My background helped me
 develop artistically," he said,
 "but it left me with a lot of
 problems to deal with
 personally. Personal rela-
 tionships don't mean as much
 to me as they should. Because I
 grew up in different places I
 didn't have any real friends. I
 still don't."

"My relationships are all

nebulous. If you can't trust
 your own mother — and I
 haven't seen her for years —
 who can you trust?"

"I have no long or lasting
 relationship with girls either. I
 like them a lot, but I move on
 from one to the next. But I see
 myself changing a little bit
 through my acting studies."

Borrego answered a "Fame"
 casting cattle call with
 hundreds of others to audition
 for the role of Valesquez. Deb-
 bie Allen, who ran the audi-
 tions, took one look at Borrego
 and told an aide, "If he can
 dance, sign him."

The young actor sees no

similarities between himself
 and the Valesquez character,
 saying, "He's from Mexico and
 is part of a loving family. He's
 never alone like I was for so
 many years."

"He is supposed to be 16 or
 17. At that age I was spurred
 by fear and frustration. My life
 was dark. I was always poor."

"It's funny, now that I have a
 regular job and finally bought
 my first car, the money isn't
 important. I send that to my
 parents, grandparents and
 sisters and brothers when they
 ask. The really important thing
 in my life is the chance to
 work."
