A special from Tallahassee to the Jacksonville Metropolis from J. Will

"I have noted story in your yesterday's Issue, with reference to act of recent You state that Floyd has found that the state of Florida was not redistricted by the last legislature, but the enrolled bill and printed law creates two third districts and no second, and that the law does not go into effect until after the next election for congressmen. You state further that your examination has found Floyd's assertions correct,

"Your story and Mr. Floyd's assertions are not altogether correct, and there is hardly any necessity for apprehension in the premises. I have examined it up filled with these glowing morticary. both the printed law, and the enrolled

> The printed law does show two third districts, and no second district, but the enrolled bill is all right with regard to this aspect of the case.

> "The printed law carrying two third districts is a mistake of printer, and I have a copy of the printed law before me, carrying an errata to this effect.

"So far as the effective date of the act is concerned you are correct on that. It is evident that this section of the act does not mean exactly what its advocates intended. It is the general opinion, however, that candidates for congressmen will enter the primaries of next year as contemplated by, the supporters of the act in last legislature.

YOUR POWER PROBLEMS

After Four Years of Discouraging I had gotten so weak I could not stand, Conditions, Mrs. Bullock Gave Up in Despair. Husband Came to Rescue.

Catron, Ky.-In an interesting letter from this place, Mrs. Bettle Bullock writes as follows: "I suffered for four years, with womanly troubles, and during this time, I could only sit up for a little while, and could not walk anywhere at all. At times, I would have severe pains in my left side:

The doctor was called in, and his treatment relieved me for a while, but I was soon confined to my bed again. After that, nothing seemed to do me any good.

and I gave up in despair.

At last, my husband got me a bottle of Cardid, the woman's tonic, and I commenced taking it. From the very first can now walk two miles without its tiring me, and am doing all my work."

If you are all run down from womanly troubles, don't give up in despair. Try Cardui, the woman's tonic. It has helped more than a million women, in its 50 years of continuous success, and should surely help you, too. Your druggist has sold Cardul for years. He knows what it will do. Ask him. He will recommend it. Begin taking Cardul today.

Wanted In California.

Over in California where they somehow realize that the fruits they have are not as sweet and finely flavored as they are in Florida is a voice crying in the wilderness calling for avocado and mango seeds. The owner of this voice is A. A. Quint Rural Delivery No. 2 Pasadens, Cal. He wants the meds of alligator pears and mangoes and wants them so badly that he will pay my price which the greery buy? Whinh he thinks can best collect them, demand for their work.

In this same connection the enterprisng grocery boys of the city who want to help control a product where a real trust can easily be perfected without any regard to the Sherman act or any other like noise are the ones Mr. Quint would fain interest in the general plan. Any amount of seeds carved from alligator pears and mangoes will be bought by him and his associates provided they are carefully collected and packed in cases containing a little sawdust to protect them from jars they will receive in transit from Florida to California.

The Enterprise Shown. With the request which was sent to the board of trade here and perhaps to like bodies all over the state, Mr. Quin enclosed letters to be delivered to the grocery delivery boys of the principa stores with the additional request that if such recipient has not the time to spare that he deliver the letter to ar

acquaintance of his. Of both the avocado, which being interpreted means alligator pear, and the mango, there is much said and felt, which may be construed either good, bad or indifferent. But, besides the fact that they are both relished in Florida and other states, comes the assurance that Mr. Quint and his associates believe that

ever had toward being good is described

Of the mango there is said to have been a wonderful change for the better the margo heard of the declaration of independence of the constitution of the

state it was a bitter sort of a fellow. The mango used to taste exactly lilke turpentine smells and on the inside also were stringy, pulpylike section walls Trying to eat the native variety would test to illustrated by dipping a rag in turpentine and chewing it until the rag got in sour teeth," said the same autternts of Florida as quoted above

Delightful Fruit.

Now it is all changed by a system of appressing. The mango is a really delightful thing. I like its insipid taste and I believe it is going to find favor in the markets everywhere. This is why the Californians are getting busy. They feel that the American public will gladly buy a new thing which a good taste can be acquired for," said this authority. Time-Union

Has Monopoly on Winter Potatoes. Much money has been made growing early potatoes in Florida. The yield in some places & large and the price of new potatoes is always high in winter and early spring. Until the 15th of May Florida has a natural monopoly

The parthern farmer does not understand why there a such a large profit in Florida potatoes. The explanation is the high price which Florida growers command because of his natural monopoly in new potatoes when he has potators to sell.

# Bigger point for point Better dollar for dollar

THE 1914 OVERLAND is the Most Wonderful Car of the New Season. And the Price is Reduced Again.

The motor is more powerful; the wheelbase is longer; the tonneau is larger; the equipment is more complete, better and costlier than ever. In every respect Overland value has been increased while the price has been decreased.

The manufacturers have turned their enormous facilities over to the building of this one model. In no other way could such value be secured.

The production has been increased to 50,000 cars. There is an even stricter practice of the well-known Overland manufacturing economics. And this means a greater car at less cost to you.

So finely drawn is the big 1914 Overland production plan, that 50,000 cars will be built; 10,000 men will be kept busy all the year 'round; every wheel of the \$4,000,000 worth of most modern machinery kept in constant operation, and never a moments hesitation permitted in a plant that covers more than 100 acres of ground.

This is the way the Overland makes possible a \$1200 value for \$950.

Their great business is built on established standardized quality.

System is the watchword in the Overland factories—and you get the benefit. We have the new Model 79 Overlands on our salesroom floor. We urge you to see this new model at once. Ride in the car; feel what a difference the big 114 inch wheelbase makes; note the car's entirely changed appearance. It is neater, prettier than ever---and that means the handsomest car of the year.

The long wheelbase gives increased riding comfort.

The improved Overland motor is rated at 35 horse-power-plenty of power to give satisfying comfort and speed. Inspect the many motor refinements which make the power plant more flexible and accessible.

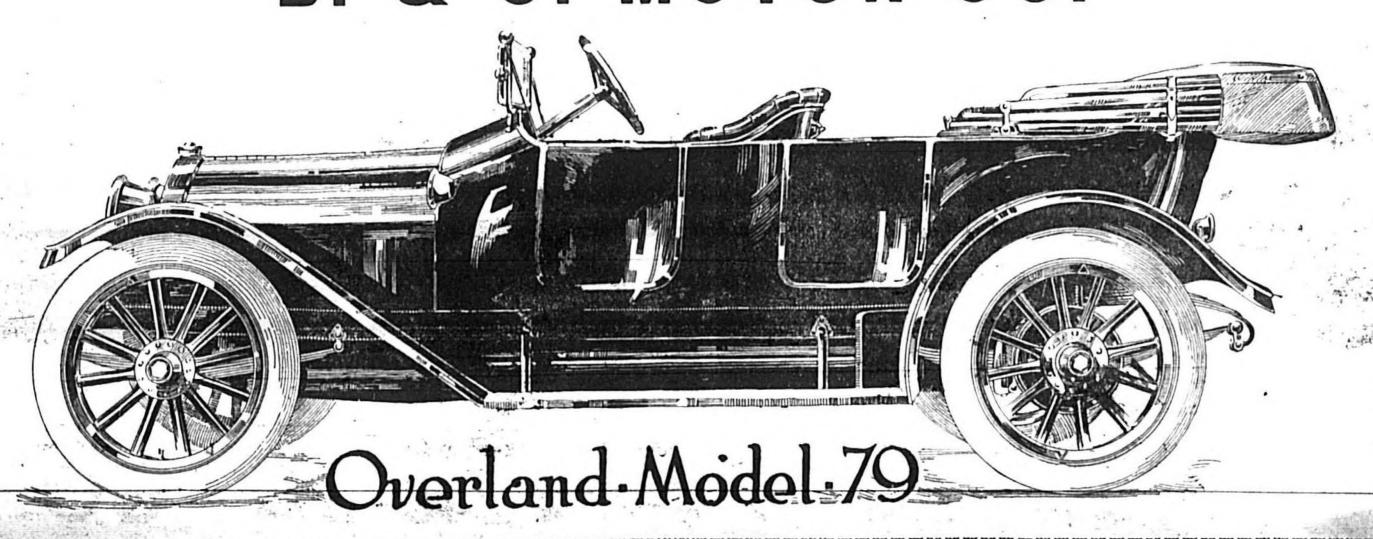

You'll find a most efficient and reliable electric lighting system on the new Overland. This costly addition to equipment is worthy of a \$1500 car.

The new Overland body has a handsome finish beautiful rich, dark Brewster green. The trimmings are of heavy nickel and aluminum. And the big graceful cowl dash gives to the car an appearance of dignity vainly sought in many other cars of higher price.

Examine the spacious tonneau; note the big, soft, deep and luxurious folds of pholstery. The new Overland is bigger and better; we can show you point for point where it is the best your money can buy.

You can see it today.
