## President Coolidge Gives Views On Mission Work Before Capital Conference

WASHINGTON, Jan. 29.—Christian churches and governments were declared by President Coolidge Wednesday to have "no greater responsibility than to make sure that the best and not the worst of which Christian society is capable shall be given to other people."

This, with other views on the foreign missionary question were presented by the president in an address to the meeting here of the American conference of the foreign mission interests of the Protestant churches of the United States and Canada.

"Not everything that the men of Christian countries have carried to the other peoples of the world has been good and helpful to those who have received it," the president said. "We know that the missionary movements have repeatedly been hampered, and at times frustrated, because some calling themselves Christians, and assuming to represent Christian civilization, have been actuated by sinister motives. Our missionary efforts will be more effective, just in proportion as we shall render them in the same spirit of brotherhood and charity which marked the earliest Christian missions."

## FRANCE WILL PAY HER OBLIGATIONS PREMIER STATES

Security Herriot's Theme In Speech Before Chamber; Declares Allies Must Beware of Germany's Actions

PARIS, Jan. 29.—The whole political fabric of France Thursday was under a spell of yesterday's sensational utterances regarding French security by Premier Herriot. Utterances are now generally regarded as studied reply to Germany's latest note regarding the prolonged occupation of Cologne bridgehead.

The Premier's closest advisers have been urging a conciliatory policy toward Germany, but the Premier, in what was pointed out as one of the most significant passages of his discourse, declared "holding of the Rhine may be the last resort of France to assure her security."

PARIS, Jan. 29.—Security was the main theme of Premier Herriot's long awaited speech on France's foreign policy delivered before a great gathering in the Chamber of Deputies today. The Premier occupied two hours of his three and a half hour address in drawing up a vivid, but dark picture of Germany's activities in armaments, which he disposed of in a brief but emphatic manner.

Never before since he assumed power has M. Herriot spoken of Germany in the tones he used Wednesday and although he had the entire Chamber, exceeding the Communists, enthusiastically applauding and cheering him, the general interpretation throughout Parliament was that his purpose was deeper than merely catering to the right groups—that it was warning to the British Government against the evacuation of the Cologne zone.

On the subject of inter-allied debts the Premier said:

"I come to the question of inter-allied debts. I shall speak very briefly thereon for you have remarked how recent is the susceptibility of our friends and Allies on this subject, and you know how even the subtlest words and least sentimental risk at time being interpreted in a regrettable way."

Won't Repudiate Debts.

"What I can do is solemnly repeat what M. Poincaré has said—France does not intend to repudiate."

(Continued on page 2)

## Washington News

WASHINGTON, Jan. 29.—Consideration of the postal bill was continued in the senate.

Conferees were named by the senate to handle the Underwood Muscle Shoals bill.

President Coolidge addressed the foreign missions conference of North America.

The senate foreign relations committee discussed the world court proposal without action.

President Coolidge asked congress to enact measures recommended by Russell had accepted \$1,250 for delivering a pardon to Fred W. Pellman, convicted banker. They are to be tried on these charges in April.

The complaint filed Wednesday was based on affidavit made by Anthony L. Oswald, Hutchinson attorney, who stated that Peterson solicited a bribe of \$2,500 for a pardon for his client, Walter Gandy, then serving a penitentiary term for bank embezzlement. It was alleged that Peterson was acting as "agent" for the governor.

Grundy never was pardoned, Gov. Davis having denied the plea a few days before his term expired.

## 2 INDICTMENTS RESULT FROM PRISON PROBE

Unknown Party Named With Sartin and Fletcher In One Indictment; Second Names Ex-Warden Alohe

Ex-Prison Chaplain Named In Scandal

INDICTMENT AGAINST SARTAIN CHARGES HE ACCEPTED FIVE THOUSAND B-RIBE FOR TUTEN

ATLANTA, Jan. 29.—New indictments charging conspiracy and bribery were returned Wednesday by a special grand jury investigating conditions at the Atlanta federal penitentiary. A. E. Sartain, former warden, and L. J. Fletcher, former deputy warden, who were indicted by a federal grand jury here in December on charges of accepting bribes, were named in indictments returned Wednesday, together with an unnamed third person.

ATLANTA, Jan. 29.—New indictments charging conspiracy and bribery were returned Wednesday by a special grand jury investigating conditions at the Atlanta federal penitentiary. A. E. Sartain, former warden, and L. J. Fletcher, former deputy warden, who were indicted by a federal grand jury here in December on charges of accepting bribes, were named in indictments returned Wednesday, together with an unnamed third person.

## WHEELER PAPERS WERE NOT LOST MEANS DECLARES

Admits Responsibility For Disappearance; He Aided Duckstein and Wife Frame Their Famous Testimony

NEW YORK, Jan. 29.—Gaston H. Means, identified Wednesday a statement bearing his signature, which he admitted he had contrived the disappearance of documents which he previously had submitted to the Wheeler-Brookhart senatorial committee, during its investigation of the department of justice last year.

The statement, which after its identification by Means, was admitted into evidence in the trial of Means and Thomas B. Felder, charged with conspiracy to bribe high government officials, says that Means had helped "W. O. (Ducky) Duckstein and his wife, of Washington D. C., to frame their subsequent testimony before the committee in explanation of the disappearance of the documents."

The statement, as read to the jury Wednesday, was dated Sept. 20, 1923. It follows:

"It was suggested that the papers, files, and documents that I had presented to the Wheeler-Brookhart committee should disappear and for the purpose of disposing of a plan for their disappearance and the consummation of this plan I called into conference Mr. and Mrs. W. O. Duckstein. After thoroughly discussing it, it was agreed that they appear as witnesses before the Wheeler-Brookhart committee, and in accordance with this agreement they appeared and testified."

"Mr. W. O. Duckstein, in a conversation with me on page 2)

## 20 Killed, 20 Injured In Clash In Shanghai

SHANGHAI, Jan. 29.—Twenty persons were killed and 20 injured here Thursday in a thickly settled section of the Chinese district when a small contingent of victorious troops representing General Lu Yung Hsiang and the Central Chinese government, met resistance in an attempt to disarm 1000 defeated Kiangsu troops.

## ALLEN INFANTRY CHIEF

WASHINGTON, Jan. 29.—Col. Robert H. Allen was selected to be chief of infantry with the rank of major-general on retirement of present chief, Maj.-Gen. C. S. Furnsworth, Mar. 27.

## Child Labor Amendment Backed By Communism Senator Bayard Says

WASHINGTON, Jan. 29.—Communism is backed by the child labor amendment with a view to laying the foundation for "a class struggle" Senator Bayard, Democrat, Delaware, declared Wednesday in the senate.

"It was the start of a movement they hoped would split this nation into classes," he said. "I do not mean to infer, however, that senators who supported the amendment here had that thought in mind."

Senator King, Democrat, Utah, supported the statement, declaring communists and socialists, favored centralization in the federal power and destruction of state rights, but Senator Walsh, Democrat, Massachusetts, pointed out that the proposal had been sponsored in congress by conservatives.

Senator Bruce, Democrat, of Maryland, declared the amendment would kill the people of the state sovereignty. He denounced particularly Southern senators who supported it and declared its effort would be most damaging in that territory.

"Knowing that the democratic party is the minority party and unable to elect a president only in very exceptional circumstances," Senator Bruce continued, "how could you Southern senators support a move to give all power to the federal government?"

SANTA FE, N. M., Jan. 29.—By a vote of 40 to 8, the lower house of the state legislature late Wednesday voted to ratify the federal child labor amendment.

## Kills Fiancee Then Turns Gun on Self

CLARKSBURG, W. Va., Jan. 29.—Neeson C. Woods, age 22, a freshman in the Law School at Yale University, shot and killed himself Thursday after he had fired two shots in the body of Mrs. Georgia Warden, 23 year old widow of Bridgeport, W. Va. The tragedy is believed caused by Mrs. Warden's refusal to marry him.

## LIQUOR CHARGES BEING HEARD NOW IN COUNTY COURT

Eleven Cases Disposed Of In Present Term; Cases Of Shoplifters To Go Over For Circuit Court Trial

Various offenses growing out of liquor charges constituting 11 cases, have occupied the Seminole County Court since it convened Tuesday morning. A few civil cases, sandwiched between the criminal business, have been disposed of. It is estimated by court officials that the term will continue through the remainder of the week.

The cases of Lena Tate and Octavia Padgett, young Orlando women who are held in the county jail on charges of larceny, are expected to come up for preliminary hearing in county court. It is not considered probable by Judge E. F. Housholder, prosecuting attorney, that the cases will be tried as the charge, grand larceny is in the jurisdiction of the circuit court and not the county court.

## U. S. Must Reduce Its Claims, Says DuBoise

PARIS, Jan. 29.—Refraining from sentimental outbursts in treating of the debt France owes to the United States in which he characterized as a business man's viewpoint, Luis DuBoise, former president of the Republican commission, declared at the conclusion of a long address in the chamber of the United States.

The United States must considerably reduce its claims against France not only in equity and right but also to safeguard her own interests, he said.

The "Fly paper women" of Paris streets wear fly paper hats when they call their wares.

## Plans For Hotel Will Be Submitted At End Of Week

Following a series of conferences between the directors of the Sanford Hotel-Reality company and the prospective owners and builders of the \$500,000 tourist hotel here, Harry T. Bodwell, president of the Bodwell Realty Company, through which the \$300,000 stock issue of the company was disposed, stated Thursday morning that plans for the building are expected to be submitted by the end of the week.

Mr. Bodwell declared that the project is going forward with no friction and that directors of the organization are well satisfied with the progress being made. The Hotel-Reality Company is in touch with hotel men of national prominence and assure the people of Sanford that only a first class organization will be brought here.

Extension Plans Completed

Mr. Bodwell declared that the city engineering department, under the direction of Fred T. Williams, has completed the plans for the extension of First street past the site of the proposed hotel. He likewise called attention to the fact that the demolition of buildings on Sanford Avenue that blocked the First Street extension is practically completed.

The plans for the hotel when approved by the directors will be made public, it is said. Mr. Bodwell declared that he is unprepared to go into details regarding the actual construction of the hotel but stated that it will be a building second to none in the hotel class in Florida.

## Forbes Case Goes To Jury This Afternoon

CHICAGO, Jan. 29.—Assistant Attorney General John W. H. Crim began the final argument for the prosecution in the veterans' conspiracy trial today. With little more than an hour argument and an equal time for instruction of the jury soon after opening of the afternoon.

## Vineyard Destroyed By Prevailing Cold

BATUM, Russia, Jan. 29.—Vineyards and orchards valued at millions of dollars were destroyed by an unexampled cold prevailing throughout Caucasus. The famous Abkhazian vineyards which supplied Russia with the finest champagne were completely ruined. Many vineyards noted for white and red wine suffered a similar fate.

## CARNEGIE BODY GIVES MEDALS TO 23 PERSONS

Twenty-First Annual Meeting Recognizes 23 Acts of Heroism; Ten of Heroes Killed While Performing Brave Acts

Four Southerners Honored By Awards

PITTSBURGH, Jan. 29.—The Carnegie Hero Fund Commission, at its twenty-first annual meeting here late Wednesday, recognized 23 acts of heroism, awarding four silver medals and 19 bronze medals, pensions aggregating \$5,340 a year and \$13,000 for educational and other worthy purposes.

Ten of the heroes lost their lives. They were:

George O. Larkin, Forestport, N. Y., died attempting to save a man from drowning at Rock Island, Ill., Jan. 29, 1924. His father received a bronze medal.

George F. Helper, 518 East Fulton Street, Butler, Pa., a student, fatally injured when he attempted to rescue two small boys from a runaway automobile at Butler, June 27, 1924; bronze medal to father.

Elizabeth M. Hanley, 591 Fifth Avenue, Brooklyn, N. Y., a telephone operator, met death while rescuing an infant from a burning house at Jamaica, N. Y., Mar. 15, 1924; bronze medal to her sister.

Edmund C. Mosser, 1595 West Garrison Street, Fremont, O., a student, died attempting to help a fellow student from drowning at Fremont, June 21, 1923; bronze medal to father.

Adolphus Emmitt Glisson, Byers, Texas, died attempting to rescue a boy from drowning at Windom, Tex., May 19, 1923; silver medal to the widow, with \$40 a month and \$5 a month additional for each of three children.

L. Earl Rader, Rural Route No. 1, Clarendon, Pa., killed when he went to the aid of a fellow-worker who was struggling in a tank containing hot oil at Warren, Pa., June 7, 1924; bronze medal to the widow with \$70 a month and \$5 a month additional for each of two children.

William W. Tillstand, Woodlawn Road, Randolph, Mass., crossing watchman, met death when he tried to save an aged woman from the path of a train at Quincy, Mass., Sept. 25, 1924; silver medal to widow with \$50 a month and \$5 additional on account of each of two children.

Louis Johnson, Box J, Weeping Water, Neb., a farmer, died rescuing another farmer from suffocation in a well at Weeping Water, Aug. 28, 1923; silver medal to his widow, with \$60 a month and \$5 a month for each of four children.

Glen A. Randolph, Box 145, Miami, Tex., died attempting to save a man from drowning at Claude, Tex., Jan. 18, 1924; silver medal to widow with \$75 a month and \$5 additional for a daughter.

Schuyler W. Hamms, 808 Johnson Street, Amarillo, Tex., died attempting to save a man from

## Government Will Continue Wheeler Case, Stone Asserts

Full Responsibility For Pushing Trial Taken By Attorney General, He Avers

Committee Hears Cabinet Member

Cross-Examination Is Conducted by Walsh, Wheeler's Counsel

WASHINGTON, Jan. 29.—"Full responsibility for pushing the trial taken by Attorney General Stone gave notice Wednesday to senators who are opposing his nomination to the supreme court in that connection that the proceedings would continue."

Appearing before the senate judiciary committee Mr. Stone gave his reasons for initiating the case in the District of Columbia instead of in Montana, where an indictment against Senator Wheeler already is pending. He then submitted to a three hours' cross examination, much of it conducted by Senator Walsh, Democrat, Montana, counsel for Wheeler and a member of the committee.

No Conclusion Reached.

After Mr. Stone had been excused, the committee discussed the matter for nearly an hour without reaching any conclusion. Chairman Cummins announced there would be another meeting Monday to consider the nomination of Mr. Stone, recommitted by the senate last Monday after the Wheeler case had been brought into senate debate behind closed doors.

Facing Senator Wheeler as well as his counsel in the small and crowded committee room, Mr. Stone said evidence that was presented to a grand jury here next week indicated that there had been a conspiracy to defraud the government on all "and mineral lands, and that testimony could not be taken without indicating that Senator Wheeler was involved" in the transaction.

Will Push Both Cases

Replying indirectly, at least, to charges that Senator Wheeler is being "persecuted" in the effort to "drag" him 2,500 miles from his home on an action that could be brought in his own state, the attorney general announced that there was no intention on the part of the government to drop the proceedings in Montana, in which Senator Wheeler is charged with accepting a fee to represent Gordon Campbell before a government department in the matter of land permits after his election to the senate.

This case and the case to be presented to the grand jury in Montana today in the District of Columbia supreme court are entirely different, Mr. Stone said, the latter being based upon new evidence obtained in a wholly new investigation he had caused to be instituted after he came into office because of the "widespread publicity given to the indictment in Montana and the charges and counter-charges growing out of it."

This new inquiry was conducted by Assistant Attorney General Donovan, who came into office last Aug. 15, and who, Mr. Stone said, had had no previous connection with the case.

Reads Correspondence

After reading a rather voluminous correspondence passing between himself and Senator Walsh on the subject of the two cases with respect to Senator Wheeler, Mr. Stone concluded his formal statement with this declaration:

"The course pursued by the department of justice since this matter has come under my observation has been, I believe, in full accord with both the letter and spirit of the constitution and laws of the United States and with the highest conception of the due and orderly administration of justice. For it I accept full personal responsibility."

## JUNIOR CHAMBER 1925 PROGRAM IS OUTLINED TODAY

Committee Reports That City May Have Band by Paying Expenses of Musicians To Complete Aid Local Men

Activities of the Sanford Junior Chamber of Commerce for the remainder of the year were outlined in chart form and apportioned to the various committees by L. C. Behout, secretary of the club, at the regular luncheon meeting at the Seminole Cafe Thursday afternoon. A report on the possibility of a band in Sanford, rendered by the chairman of the civic affairs committee, featured the meeting.

According to the report, it is possible for Sanford to have a band at once if the City Commission is willing to defray the expenses of probably six out-of-town musicians. The remainder of the band, according to the chairman who reported following a conference with Joe Reizenstein, who had charge of the bands at the laying of the cornerstones of two of the public buildings now under construction, can be made up of musicians now living in Sanford.

Would Seek Commission Aid

The plan of asking the City Commission to pay the bandmaster's salary and tuition for the students, which will be in general, superintend all club activities; the membership committee; the finance committee; the beautification committee, of which R. A. King was appointed chairman; publicity committee; entertainment committee; commercial committee; educational committee; sports committee and the civic affairs committee, which is to have charge of the band proposal, the work towards elimination of grade crossings in Sanford.

Clean-Up Drive Planned

The club announced its intention of beginning a drive towards a "clean-up and paint-up week" to be held soon. Such a week, it is declared, is in accord with one of the club's major objectives, the beautification of Sanford. Detailed plans for the week will be announced later.

Members of the executive committee were requested to meet each Monday night at 7 o'clock in the law offices of G. W. Spencer, Jr., president of the club and ex-officio chairman of the committee. One of the matters confronting the executive committee is the announced objective of having removed the old Atlantic Coast Line passenger depot, which is characterized as an "eyesore."

## Plans For Hotel Will Be Submitted At End Of Week

Following a series of conferences between the directors of the Sanford Hotel-Reality company and the prospective owners and builders of the \$500,000 tourist hotel here, Harry T. Bodwell, president of the Bodwell Realty Company, through which the \$300,000 stock issue of the company was disposed, stated Thursday morning that plans for the building are expected to be submitted by the end of the week.

Mr. Bodwell declared that the project is going forward with no friction and that directors of the organization are well satisfied with the progress being made. The Hotel-Reality Company is in touch with hotel men of national prominence and assure the people of Sanford that only a first class organization will be brought here.

Extension Plans Completed

Mr. Bodwell declared that the city engineering department, under the direction of Fred T. Williams, has completed the plans for the extension of First street past the site of the proposed hotel. He likewise called attention to the fact that the demolition of buildings on Sanford Avenue that blocked the First Street extension is practically completed.

The plans for the hotel when approved by the directors will be made public, it is said. Mr. Bodwell declared that he is unprepared to go into details regarding the actual construction of the hotel but stated that it will be a building second to none in the hotel class in Florida.

## May Send Anti-Toxins To Nome By Airplane

WASHINGTON, Jan. 29.—Possibility that an attempt will be made to send anti-toxin to Nome by airplane was revived Thursday when delegate Sutherland from Alaska obtained from the department of justice permission for Roy S. Darling, former navy flyer, to make the trip from Fairbanks. Before arrangements for such a trip are completed, the navy department must pass on the proposal.

## Forbes Case Goes To Jury This Afternoon

CHICAGO, Jan. 29.—Assistant Attorney General John W. H. Crim began the final argument for the prosecution in the veterans' conspiracy trial today. With little more than an hour argument and an equal time for instruction of the jury soon after opening of the afternoon.

## Vineyard Destroyed By Prevailing Cold

BATUM, Russia, Jan. 29.—Vineyards and orchards valued at millions of dollars were destroyed by an unexampled cold prevailing throughout Caucasus. The famous Abkhazian vineyards which supplied Russia with the finest champagne were completely ruined. Many vineyards noted for white and red wine suffered a similar fate.

## MARKETS

CHICAGO, Jan. 29.—Wheat: May, 2.02 to 2.03 1/2; July, 1.69 to 1.71. Corn: May, 1.31 1/2 to 1.32 1/2. Oats: May, 69 1/2 to 69 3/4.

# 15,000 DEER ARE SAVED AS RESULT LIBERAL REWARD

### Bounty System Offered by the Denver Post Gives \$25 To Killer of Each Adult Lion and \$10 for Each Lion Cub

DENVER, Colo., Jan. 25.—More than 15,000 deer in Colorado have been saved as the result of a bounty on mountain lions offered by the Denver Post during the last five years.

The bounty system, which grants the killer \$25 for each adult lion and \$10 for each lion cub was inaugurated five years ago in the interest of game protection. Sportsmen estimate that each mountain lion kills and consumes on an average of 50 deer each year and the Denver newspaper's campaign has resulted in the paying of \$5,380 in bounties since 1920. This figure represents 308 lions adult and cub.

A total of \$1,375 in bounties was paid in 1925—the largest amount paid in any of the five years. In 1920 the sum of \$1,285 was paid out; \$1,070 in 1921; \$785 in 1922 and \$885 in 1924.

While the bounty system was intended primarily as game protection, it has resulted in a great saving to stockmen, who claim that the average grown lion commits depredations to cattle and horses each year to the amount of \$600.

The bounty is paid upon submission to the newspaper management of the pelt of the animal and an accompanying statement that the animal was slain within the boundaries of the state.

The Post bounty system, together with the work of the predatory game hunters of the United States biological survey is leading rapidly to the extermination of the greatest destroyer of game and range cattle in the Rocky Mountain region.

## Radio Program

- Program for January 25
- WSP—Atlanta Journal (420) 8 orgh; 10:55 classic.

Miss Helen Schultz, aged 23, of Mason City, Ia., has built up a motor bus business representing an investment of \$150,000 for vehicles, starting with one bus which she drove herself two years ago.

The human heart, if working normally, expands with sufficient force to lift a weight of 78 pounds one foot every minute.

# Japan's Prince Shuns Regal Surroundings

TOKIO, Jan. 25.—Prince Yasuhito Chihito, second son of the emperor, will sail for England in May for a stay of possibly four years. He will enter Oxford University and, breaking all precedents for a prince of the royal house, will live in college premises.

The prince's first year abroad will be spent in the home of a British family whose name has not been divulged, and after a grounding in English he will enter upon his university course and specialize in sociology. This will be the first time that a Prince of Japan has studied in a foreign university except military institutions, and the radical departure from custom is looked upon in Japan as indicating a marked change in the position of the royal house.

# Ailing Member Failed To Keep Down Spirit Of France's Premier

PARIS, Jan. 25.—Premier Herriot, who has just recovered from a swelling in one of his legs which kept him confined to his rooms for nearly a month, never once lost his good humor, in spite of the physical pain and the great mental worry over bitter political attacks leveled at his government during his illness.

The government of which M. Herriot is the head is composed of the more advanced elements of the French chamber—excepting the Communists—and is generally called "the government of the lefts."

"Which one of your legs is ailing?" one of his friends whom he received in his sick room, asked him one day.

"The right, of course," replied Herriot. "I am the man of the lefts," the 'right' is seeking revenge."

Reports from Annapolis, Penn., Yale, Harvard, Columbia and other big Eastern colleges which go in for aquatic sports indicate that college rowing is headed for an unprecedented season this spring.

Manager Owie Hush has scheduled exhibition games for his Indianapolis Indians with five major league teams during the Spring training season in Florida.

# TIME TO PLANT WATERMELONS HAS ARRIVED

### Specialists at Agricultural Extension Division Give Advice on Melon Planting

GAINESVILLE, Jan. 25.—It is time to plant, or to plan to plant, watermelons. A few farmers already have their seed in the ground. From the Ocala vicinity south, the commercial crop should be planted about Feb. 10. Thirty miles north, it is perhaps safer to plant about March 1. This advice is given by specialists of the State Agricultural Extension Division.

Follow the first planting by one or two other, about a week or two between each. Then, if frost gets the first, the second or third will come in to advantage. Early melons are the melons that bring the most money.

Watermelon land should already be broken deeply. New land is preferred. And it is advisable not to plant this crop on the same land two years in succession; there should be five or six years between the crops.

Fertilizing has much to do with watermelon production. Many growers use from 400 to 600 pounds of a high-grade fertilizer to the acre. If the land is thin, this should be increased to from 800 to 1,000 pounds.

Lay out the land in 10 by 10 (or thereabouts) checks. Work in the fertilizer around where the seed will be planted. Plant the seed about an inch or an inch and a half deep, six or eight seed to the hill.

Two factors, according to A. P. Spencer, vice-director of the Florida Agricultural Extension Division, figure importantly in growing melons successfully. One is production, the marketing. As good a crop as possible should be produced just as early as possible.

Then make the melons as attractive as they can be made, so they will attract the buyer and bring the most money. To keep disease known as anthracnose and sucking insects (aphids) in check, spray the vines and melons with Bordeaux mixture and some tobacco solution. Often it is advisable to spray before these trouble appear, for "a stitch in time saves nine."

Manager Owie Hush has scheduled exhibition games for his Indianapolis Indians with five major league teams during the Spring training season in Florida.

Permanent roads are a good investment — not an expense

# An Extra Gasoline Tax of from 6 to 20 Cents Per Gallon

Your gasoline bills run into real money.

But have you ever stopped to figure how much of this is in the form of an incredibly high gasoline tax?

Let's see what happens when you leave the Concrete Highway and take to a gravel or a dirt road.

Conclusive tests have proved that a gallon of gasoline will carry you only two thirds as far on a gravel road as on a Concrete Road. On a dirt road a gallon of gasoline will carry you only half as far as on Concrete.

With gasoline at twenty cents a gallon, you would thus pay a gasoline tax of more than 6 cents per gallon on the gravel road and 20 cents a gallon on the dirt road.

These are figures you can't get away from. You can prove them yourself.

And remember that every time you travel on either a dirt or a gravel road you also increase wear and tear on tires and run up your general repair bills.

Why continue to pay these high taxes and get nothing in return but the discomfort and inconvenience of unpaved roads and streets?

Let your local officials know you want an adequate system of Concrete Roads and Streets. They are just as willing to build them as you are anxious to get them.

But they must have your support.

# Friends Plan Monument To "Big Tim" On Day He Set Aside For Shoeless

NEW YORK, Jan. 25.—On Feb. 6, anniversary of the day when Timothy D. (Big Tim) Sullivan used to give thousands of pairs of shoes, socks and pipes to the poor of the Bowery, a new and imposing monument will be unveiled over his grave in Calvary Cemetery.

The story of the new tombstone illustrates the loyalty which the personality of the dead leader was able to inspire in followers and friends who, 15 years after his death, still remember him with warm affection.

Last week at Tammany Hall, when the death of Tom Foley was the topic of mournful discussions, Tom (The) McManus, one of Tammany's district leaders, was talking to a group of men.

"Well," said the McManus, "I guess, after all, when you're dead and gone, you're well on the way to be forgotten, no matter how many friends you had. No man had more friends or stauncher friends than poor old 'Big Tim' Sullivan."

"But I was at Calvary Cemetery a while ago, and I found his grave lonely and neglected. Just a little stone, with 'Sullivan' carved on it to mark the grave, and somebody had added a wooden board with his initials, 'T. D.' on it. No man had more friends than Big Tim, and no man helped his friends more, but yet you see what happens."

Harry Perry, Big Tim's successor as leader in the Second, heard what McManus said.

"Well then," he said to himself, "if Big Tim's grave has been neglected, it won't be neglected any more." And Perry got busy. A short time later he had seen nine other friends of Big Tim, and had obtained from them pledges to join in the erection of a \$2,000 monument in place of the meagre headstone and the wooden tablet.

The tombstone will be erected by Charles Hussey, Tom McManus, Benny Salvin, Otto Ramsberger, Eddie Ahearn, Clarence Neil, Charlie McManus, George W. Loft, Louis Levitt and Harry Perry. On Feb. 6 the group, with other friends of the dead leader, will go to Calvary and see the monument unveiled.

One day when Big Tim was a ragged urchin on the east side, it

was so cold and wet outside, and he was so ragged and shoeless, that his teacher kept him in school until she could "dig up" shoes and warm clothes so that he could go home without catching pneumonia.

That day was Feb. 6. Big Tim never forgot it, and in later years, when he had become prosperous, on every Feb. 6, he distributed thousands of pair of shoes and stockings to the poor in his district. Hence the choice of that date for the unveiling of the monument from his friends.

Dr. Louise Stanley is director of the newly established Bureau of Home Economics in the U. S. Department of Agriculture.

NOTHING LIKE IT ON EARTH  
The new treatment for torn flesh, cuts, wounds, sores or lacerations that is doing such wonderful work in flash healing is the Borozone liquid and powder combination treatment. The liquid Borozone is a powerful antiseptic that purifies the wound of all poisons and infectious germs, while the Borozone powder is the great healer. There is nothing like it on earth for speed, safety and efficiency. Price (liquid) 30c 60c and \$1.20. Powder 30c and 60c. Sold by Laney's Drug Store. —Adv.

Henry Garfield Roy, West Barnet, Vt., attempting to rescue a girl from drowning at St. Johnsbury Center, Vt., July 4, 1921; bronze medal.

Robert James Stephenson, 209 S. Main Street, Monticello, Ark., 14 year old student, tried to save two boys from drowning at Morabag, Ark., July 26, 1921; bronze medal.

Herbert G. Barnett, Warren, Ark., who assisted Stephenson, was awarded a bronze medal.

Basil A. Pulise, 1510 Hutton Street, Troy, N. Y., 16 year old student saved a boy from drowning at Poultry, Vt., Aug. 10, 1921 bronze medal.

Griffith William Roberts, 20

Everett Street, Arlington, Mass., 14 year old school boy, saved a girl and a man from drowning at Sunapee, N. H., Aug. 21, 1921; bronze medal.

### 2 INDICTMENTS RESULT FROM PRISON PROBE

(Continued from page 1)  
J. S. Madden, Captain E. McL. Smith and Captain R. N. Treadway.

According to the charges made against Sartain, Fletcher and the unannounced third man, the alleged negotiations and payment of money took place before any of the seven convicts who were sentenced from Savannah, for violation of the prohibition laws, were committed to the Atlanta prison.

It is charged that they were sentenced Dec. 7, 1923, and entered the prison Mar. 27, 1924. The indictment charges that on Feb. 20, 1924, Sartain, Fletcher and Father Hayden conferred with representatives of the convicted bootleggers and arranged for each prisoner to pay \$1,500 for special privileges which they should receive after they had become inmates of the prison. On March 12, it is charged Father Hayden conferred with Fawcett, Tuten, W. H. Haar and Bailey as to payment of the money and another conference is alleged to have been held March 19 between Father Hayden, the unannounced person, W. H. Haar, Bailey and Tuten.

It is charged that on March 20, W. H. Haar, at Savannah, acting for his companions, paid to the unnamed person \$10,500. Of this sum, the indictment charges, the unnamed man gave Father Hayden \$2,100 and brought the remaining \$8,400 to Atlanta.

### Freight Rates Plan Is Ordered Cancelled

WASHINGTON, Jan. 29. — Freight rates schedules covering ocean and rail shipments from Atlantic Seaboard territory to points west of the Mississippi river in Louisiana, Arkansas, Oklahoma, Texas, Kansas and Missouri, which carries the first proposal to be made effective June 15, 1925 was ordered cancelled Thursday by the Interstate Commerce Commission.

### FRANCE WILL PAY HER OBLIGATIONS PREMIER STATES

(Continued from page 1)  
late her debts.

"It is not the Government over which I preside, attached as it is to respect for treaties and conventions that will disavow the principle of debts which France has contracted.

"That being said, we have the right, after the speech, filled with such useful figures, by M. Dubois, after M. Marin's appeal to the sentiment of solidarity of our Allies and friends. Conversations with them have begun. It would be ungracious, ungrateful, not to thank those who are aiding us in these conversations.

"If it has been possible to cite words of an American Senator which were unfavorable to France, it must not be forgotten how many are those in American who remember the common ordeal and intend to treat the problem not as one of an exclusively commercial or financial order, but almost as one of moral order. France can only say how deeply she feels such words coming from far away and how they touch her at the moment she is searching her resources for her unfortunate devastated regions.

"We Must Watch Germany"  
"I say to our Allies and friends, to the English democracy, to Italy that we must watch what is taking place over there."

The Premier after devoting some time to explaining how the Geneva protocol, if ratified would contribute greatly to making France feel safe against unprovoked aggression, expressed regret that the "guarantee pact" had not been ratified by the United States and Great Britain.

At the morning session, Louis Dubois, former president of the reparations commission, submitted a long list of figures relating to German reparations, and, treating the debt of France to the United

States from what he termed "a business man's viewpoint," declared that the United States must make a considerable reduction in her claims against France.

While his remarks did not bear the official seal of the Government, the Chamber was virtually unanimous in adopting his views as to the manner in which the problem of France's debt to the United States should be approached. In brief M. Dubois said that France could not pay England and the United States twice as much as France would receive from Germany, especially as the two great Anglo-Saxon powers were held jointly responsible for the reduction of France's claim against Germany.

### WHEELER PAPERS WERE NOT LOST MEANS DECLARES

(Continued from page 1)

Felder last night stated he would make out a written report of his entire connection with the matter.

"I desire to state, and my statement will be confirmed by the written statement of Mr. W. O. Duckstein, that neither Hiram C. Todd, special assistant attorney general, or any other agent of the government had anything to do with the disappearance of these papers, files or documents."

Over the objection of defense counsel, Means said the statement substantially was correct and added:

"I never testified that my diaries had been stolen."

Felder in his brief reappearance on the stand today, denied that he ever had promised to have indictments quashed in a federal case against "Guesler, et al."

He admitted he had promised to go to Washington to have the case then pending in the southern New York district, brought to trial here. The case recently was slated for disposal in the Pittsburgh jurisdiction.

tidal lands and water bottoms in Florida were vested in the state under its sovereign rights when admitted into the Union as a state in 1845.
Under sections 1056, 1057, 1061, and 1062, Revised General Statutes of Florida and Chapter 7861 and 1891, Acts of 1919, all such lands were vested in the Trustees of the Internal Improvement Fund of Florida, with power to sell same," Mr. Gwyn continues in his report. "This embraces in large acreage of submerged lands, all of which are unsurveyed, further increasing the work of this office as each tract has to be accurately located and examined before a price can be put on same; then they must be advertised under the provisions of said statutes before a sale can be made. There is a great demand for this class of lands, which are bringing large prices on account of their great value."

Woman, 106 Years Old Has Her Hair Bobbed
WEST CHESTER, Pa., Jan. 29.—West Chester now lays claim to the oldest bobbed-haired "girl" in this section, if not in the entire country. She is Mrs. Elizabeth Pierce Yerkes and she will be 107 years old on July 22. Her hair, still thick and pure white, had been falling out, so she decided to have it bobbed. This was opposed by her daughter who was absent and the name one with whom she lives six months of each year. Mrs. Yerkes waited until her daughter was absent and then summoned Mrs. Mary Cheyney, a barber and the work was soon completed.

ARBuckle DIVORCED.
PARIS, Jan. 29.—Minta Durfee Arbuckle, moving picture actress, was granted a divorce from Roscoe Arbuckle Wednesday, according to the Herald. The newspaper adds Arbuckle did not defend the suit. Webster's Dictionary, first published in 1828, was preceded over 900 years by a Latin dictionary compiled by Varo in 110 B. C.

### WOULD BAR CAKE, CANDY AND JAM TO SCHOOLBOYS

English Dietary Expert Lays Down Stringent Rules That Would Take Joy Out of Life Of Any American Schoolboy

LONDON, Jan. 29.—Arguments for and against bobbed hair are profligate, and have agitated the minds even of learned professors. Lecturing to members of the London College of Physiology, Professor H. J. Harper Roberts said bobbing had evidently come to stay. Its advantages were threefold; it was becoming to a certain type of woman, it made for freedom, and it was easy to dress and wash. The disadvantage was that it exposed a sensitive part of the neck, which often broke into a rash for about a month afterwards.

A beauty specialist, Dr. Jacques Brettman, takes exactly the opposite view. He condemns the modern craze for bobbed and shingled hair, and says many women have told him they wish they had not been bobbed.

"Man's ideal woman is still the ideal of the ages," Dr. Brettman says, "woman with flowing hair over her shoulders. When she bobs her hair she cuts just so much from our conception of her. In our eyes it enhances the beauty of very few women."

"School food should be simple and of the right kind," Dr. Campbell. "The appetite of the young should not be pampered. Plans healthy food gives more satisfaction than the most refined delicacies. It is better to start life as a healthy puppy than a sickly millionaire."

"With these good moral maxims, Dr. Campbell proceeded to say what should not be eaten by the schoolboy.

"Milk is not essential to man, and is chiefly valuable for its derivatives—butter and cheese. (No milk in the schoolboy's tea). Then came a little comfort. "Each boy should have at least three ounces of butter daily. Next to cod-liver oil (ugh!) butter contains most fat."

Eggs, the doctor regarded as good, but expensive, and might be given once a week.

"Sugar is not an essential food. No jams or sweets are permissible. The country would gain vastly if all candy stores were converted into vegetable and fruit stores. Puddings and pastry of all descriptions should be absolutely barred. They provide no exercise for the teeth and jaws and merely pamper the appetite."

In a mournful tone Dr. Campbell concluded that the British public were not keeping pace with sanitary science.

And now some hundreds of thousands of British schoolboys are anxiously waiting to see how far these seeds of Campbellite wisdom have sunk into the minds of the educational authorities.

### Hawaii Planning To Entertain Members Of The American Fleet

HONOLULU, Jan. 29.—One of the first measures to be considered by the territorial legislature when it convenes in February will provide an appropriation of \$75,000 for the reception and entertainment of men and officers of the United States fleet and the 60 newspaper editors expected to accompany them next spring.

The appropriation will be asked on the ground that the fleet's visit will benefit all islands in the archipelago. The committee in charge of arrangements plans concerted action to prevent any rate hoisting by hotels, lodging or apartment houses.

It is planned to entertain the visiting editors with a Hawaiian "hukilau" or feast of fish. This is a relic of the ancient days when Hawaiian fishermen made their catch and cooked and ate the fish on the beach. Governor Farrington is expected to be host at a grand ball in honor of the naval men.

HANDS DOWN RULING  
TAMPA, Jan. 29.—Judge L. L. Parks of Hillsborough county circuit court has ruled that an unlicensed realty broker cannot collect commissions on sales of real estate. The decision was made in the case of Nick Spoto against E. M. Bergman, involving collection of commissions amounting to \$2,000 Spoto alleging that Bergman agreed to pay him that commission for the sale of a piece of property valued at \$50,000.

Panama City—Atlanta & St. Andrews Bay Railway to lay \$400,000 worth of new rails; first work to be done in Cottondale district.

Jacksonville—Carbo Steel Post Company considering local site for establishment of large plant.

Sanford—Meisch Realty building being completely remodeled and overhauled.

Good 5-room bungalow furnished and five acres located on paved road about four miles out. Price \$1,500. \$2,500 cash, balance to suit.

Lot on Sanford near 13th. Price \$1,200. \$200 cash. Balance \$25 monthly.

Corner lot 16th and Palmetto paved two sides. Price \$1,250. Terms \$100 cash and balance to suit.

City block between 12th and 13th Streets, paved three sides. 10 lots in block. \$8,500. Terms. \$1,500 cash, balance arranged.

### MEN STILL ARGUE ABOUT QUESTION OF BOBBED LOCKS

LONDON, Jan. 29.—Arguments for and against bobbed hair are profligate, and have agitated the minds even of learned professors. Lecturing to members of the London College of Physiology, Professor H. J. Harper Roberts said bobbing had evidently come to stay. Its advantages were threefold; it was becoming to a certain type of woman, it made for freedom, and it was easy to dress and wash. The disadvantage was that it exposed a sensitive part of the neck, which often broke into a rash for about a month afterwards.

A beauty specialist, Dr. Jacques Brettman, takes exactly the opposite view. He condemns the modern craze for bobbed and shingled hair, and says many women have told him they wish they had not been bobbed.

"Man's ideal woman is still the ideal of the ages," Dr. Brettman says, "woman with flowing hair over her shoulders. When she bobs her hair she cuts just so much from our conception of her. In our eyes it enhances the beauty of very few women."

"School food should be simple and of the right kind," Dr. Campbell. "The appetite of the young should not be pampered. Plans healthy food gives more satisfaction than the most refined delicacies. It is better to start life as a healthy puppy than a sickly millionaire."

"With these good moral maxims, Dr. Campbell proceeded to say what should not be eaten by the schoolboy.

"Milk is not essential to man, and is chiefly valuable for its derivatives—butter and cheese. (No milk in the schoolboy's tea). Then came a little comfort. "Each boy should have at least three ounces of butter daily. Next to cod-liver oil (ugh!) butter contains most fat."

### FALSE TEETH AND EYES BEING WORN BY LONDON DOGS

Artificial Legs Also Being Provided For Pals Belonging to Rich, Says Prominent English Veterinarian

LONDON, Jan. 29.—The vogue for false teeth, artificial eyes and legs for pet dogs is described by Sir Frederick Hobday, British veterinary surgeon in his book on "Surgical Diseases of the Dog and Cat" just published.

The pet dog injured in canine or other struggles can be as successfully operated upon and provided with artificial members, as the human being, and in most cases, according to the author, they can modulate themselves to the new situation.

One valuable whippet which lost a couple of legs refused to wear the artificial "pegs" provided, and hopped around like a kangaroo, but other patients have got along comfortably with legs made of leather, silver and vulcanite.

A Japanese spaniel which lost an eye was provided with a glass one, which cannot be distinguished from the sound eye, and two cases are described in which false teeth were successfully supplied. Sir Frederick says much of the trouble dogs have with their teeth is due to catching or retrieving stones thrown for them by thoughtless owners. Many such stones are swallowed by the dog in its excitement, which eventually necessitate a visit to the operating room.

One dog on which Sir Frederick operated had no fewer than 114 flint stones in its stomach, also a valuable diamond ring, which its owner had suspected it of swallowing. Another canine patient, the writer describes, was a Newfoundland dog which had successfully tackled a porcupine, but with unhappy results to itself.

"The dogs lips, the roof of the mouth, tongue and palate," he says, "were so thickly studded with quills that it was scarcely possible to pass a knife blade between them. There were over 100 quills, and after their extraction the dog died."

JUDGE KOONE PRESIDES  
TALLAHASSEE, Jan. 29.—An executive order issued by Governor Martin designates Judge J. C. Koone to preside in Marion county circuit court beginning Jan. 30 in trial of cases in which Judge W. S. Bullock is disqualified.

BOWYER IS SELECTED  
TALLAHASSEE, Jan. 29.—Governor Martin has appointed E. N. Bowyer, of Lakeland, as justice of peace for District No. 10, Polk county, until the next general election. He takes the place of H. C. Petteway, who was elected Nov. 4, but since has been appointed circuit judge.

### Will The World End On February 6?

Is the world going to end on Feb. 6? The Seventh Day Adventists say it is and the Seventh Day Adventists say it isn't. Those who say it isn't go a step farther and declare that those who say it is don't know what they are talking about and furthermore they aren't even Seventh Day Adventists.

Feeling that something must be done, the Seventh Day Adventists met and drew up a resolution which is calculated to stave off the end. They declare they have repudiated all time setting and protest the connection of the name Seventh Day Adventist, with such "propaganda."

In the resolution however, the resolvers resolve in this manner: "Anew we declare to the public that throughout our history our witness to the signs of the times that show Christ's second coming near at hand, has ever been based on the scriptural teaching that "of the day and hour knoweth no man."

### "ZERO" SURE HE WILL WIN LOVE OF MARY HALL

Actress Does Not Deny His Affection But Says Wife Would Hamper His Work

NEW YORK, Jan. 29.—A flat statement from Mary Hall, Broadway actress, that the love of Mr. Zero counted for naught as far as her matrimonial plans were concerned, has failed to quench the ardor of Urban J. Ledoux, who persisted in his declaration that the reluctant lady would be his "bride and perfect mate" within three days.

Not lack of love, but belief that she would hamper Mr. Zero's work among the poor and the outcast, was the reason given by Miss Hall for her decision not to marry Ledoux.

"No man ever loved a woman more sincerely or more deeply than Mr. Ledoux loves me. And I love him. But I shall not marry him because I think a wife would hamper him in the great work he is doing."

This statement tossed more fuel on the fire of Ledoux's emotions. Seated in The Tub, the retreat for the jobless, which he established in St. Mark's place, Ledoux emphatically insisted that the "perfect mate" would play the part which he outlined for her Thursday before the members of the Cheese Club.

"Whatever Miss Hall says is not final. Man is conqueror and I am man. I shall marry Miss Hall within three days. There shall be no prolonged struggle. That would be bad for both of us."

### APPOINTMENTS ANNOUNCED

TALLAHASSEE, Jan. 29.—Gov. Martin has made the following appointments: Earl Snarr, of Clermont, to be constable district 22, Lake county; J. R. Willer, justice of peace district 17, Marion county; Charles Wolfe, justice of peace district 6, Polk county; D. H. Brown, justice of peace, district 3, Taylor; John L. Lee, constable district 5, Lafayette; C. C. Cash, constable, district 2, Hendry; E. A. Sapp, justice of peace and G. W. Sapp, constable district 7, Bradford; Leslie Lewis, game warden Charlotte county; Jonah Brasfield, constable district 1 Calhoun; J. A. Board, justice of peace district 3, Duval; J. H. Doxsee, county commissioner district 4, Collier, succeeding W. D. Collier, resigned.

### Bathed Her Babe In Rum, Fined By Judge

GALVESTON, Tex., Jan. 29.—Use of whiskey for bathing purposes is not permissible under the prohibition law, Federal Judge J. C. Hutchinson holds in assessing a \$50 fine against Mrs. Lena Russo, charged with possession of liquor. Mrs. Russo maintained she used the whiskey to bathe her baby in and not to drink.

St. Petersburg.—During 1924 this city had building record of \$10,000,000; combined bank deposits at end of year of \$21,000,000, issued \$2,000,000 worth of bonds for civic improvements and laid over 33 miles of new paving.

## Suppose Your Health Failed

Or You Were Hurt in an Accident, and thereby Became Totally and Permanently Disabled—

WHAT WOULD YOU DO?

The provision in the Pilot Life Insurance Company's policies for such a misfortune is the Last Word in Life Insurance protection. Suppose, for example, you have but a ten thousand dollar policy; and suppose you lost both arms or both legs, or one arm and one leg, or your eyesight, or you should become totally and permanently disabled from any cause whatever—either sickness or accident—

### HERE'S HOW YOU WOULD BE PROTECTED

1. You would never have another cent to pay—your policy would automatically become paid-up.

AND IN ADDITION,

2. You would receive \$100.00 each month just as long as you live.

NOT ONLY THAT,

3. Your beneficiary, at your death, would receive the full amount of the policy, \$10,000, no deductions being made for the disability payments to you during your lifetime.

FURTHERMORE,

4. The non-forfeiture and loan values of your policy would continue each year.

AND

5. Dividends would continue to be paid you, just as if you were paying the premiums.

Isn't That Kind of Protection Worth While?

**LOCOMOTIVE BUILT FOR RAILROAD**

Engine, Twice Size Ordinary Machines Under Construction to Original of Auto Manufacturer

Jan. 29. — is doing the unusual

he is building the most powerful electric in the world which, completed, will be used on the Ironton Railway, the first of his railway line operating in conjunction with the Detroit, Toledo & Ironton.

er engine, which is now under construction in the power house of the Highland Park Plant of the Ford Motor Company, the most important development in the history of the automobile is the electric motor and at the same time a feature in locomotive

is expected, Mr. Ford has been restricted by past tendencies in the choice of system and type of motor unit for the railroad. The motor is not only novel in design, but embodies and important ideas in design. In size it will be 117 feet long, fifteen feet wide. What is interesting still, it will develop 250 horse power mounted on sixteen pairs of wheels and will be capable of pulling a train of 150 or more cars.

It will not be built for any other purpose being to use it exclusively. Its speed will be 17 miles an hour, its maximum speed 35 miles an hour.

The unique features of the electric motor unit carries its own converter which eliminates the need of substations along the line at present general electrification.

**Ralph Mulford Driving Cleveland, Sets A New Record For 1,000 Miles**

Ralph Mulford, noted auto racing pilot, driving a Cleveland, model 43, has just set a new world's record for a distance of 1,000 miles, according to a message received Thursday morning by the Florida Cleveland Motor Company from the Cleveland factory.

The new record was set on the Culver City track in California. Mulford negotiated the distance in 745 minutes and 22 2-5 seconds, shattering the former record of 786 minutes held by the Chrysler, by 40 minutes and 37 3-5 seconds. A speed of more than 80 miles per hour was sustained throughout the run.

The engagement ring is worn by Germans and Scandinavians on the third finger of the left hand during the engagement, and on the right hand after marriage.

**HUDSON-ESSEX IS BEST AUTO BUY DEALER BELIEVES**

Quantity Production And Experience In Closed Car Manufacture Is Basis Of Company's Building Policy

Quantity production based upon years of experience in manufacture enables Hudson and Essex to give the value they do for the amount they charge, according to Walthall, of the Seminole Hudson-Essex company. The years of experience Mr. Walthall believes, alone enables the company to give the closed car values that have made it famous among all classes. "The world's largest production of 6-cylinder closed cars," Mr. Walthall said, "enables Hudson to

give closed car values beyond comparison. "Economies in manufacture and the experience gained in three years' concentration on closed cars have resulted in the best cars and the lowest prices of our industry. "Every requirement of utility, fine appearance and luxury is met in the Hudson line with the Coach at \$1,345; 5 passenger Sedan, \$1,795; and 7 passenger Sedan at \$1,895 (freight and tax extra). They represent the greatest of all closed car values."

Every requirement of utility, fine appearance and luxury is met in the Hudson line with the Coach at \$1,345; 5 passenger Sedan, \$1,795; and 7 passenger Sedan at \$1,895 (freight and tax extra). They represent the greatest of all closed car values."

**Citrus Expert Says Now Is The Time To Start Tree Sprays**

GAINESVILLE, Jan. 29 — "January and early February is the time for the last spraying of citrus trees for insect enemies before the growing season," says

E. W. Berger, entomologist of the State Plant Board of Florida, in speaking of recommendations made to growers last fall and the first of this winter in order that they might destroy certain insects guilty of sucking vital juices from the trees. "If whiteflies or scale insects, or both, are in evidence, no grower can make a mistake by spraying at once with a good, oil-containing spray," declares Dr. Berger. "Good

sprays can be made at home, and for these formulas can be obtained from the entomological departments of the State Plant Board and Experiment Station, both at Gainesville." If the foliage and fruit of citrus are covered with a black substance, called sooty mould, the trees should be sprayed for whiteflies, as the sooty mold on citrus grapefruit with bordeaux oil emulsion on account of scab just before the first flush of growth

need not give an extra spray, with an oil spray now unless the trees are heavily infested with a scale, is almost always the result of severe infestation by whitefly. Growers who expect to spray as the indicated mixture, contains oil and will destroy whiteflies and many scales. However, in case the grapefruit to be spray-

is heavily infested with whitefly, spraying with bordeaux emulsion may be done earlier, in January, in order to keep the whitefly earlier. The fungus parasites of scale and whiteflies are of comparatively little effect at this season of the year and their use should be reserved until the period of mer rains in June or thereafter.

**World's Greatest Automobile Buy**

Everybody Says It—Sales Prove It

**Hudson Leads Because**

**Note These Prices**

They are below all comparison

**HUDSON**

on the famous Super-Six

**COACH... \$1345**

**SEDAN (5 Pass.) 1795**

**SEDAN (7 Pass.) 1895**

Freight and Tax Extra

It gives greatest value for the money. It undersells all rivals because the world's largest volume of six-cylinder closed cars gives greater cost advantages.

Its motor is the famous Super-Six which Hudson patented and exclusively holds.

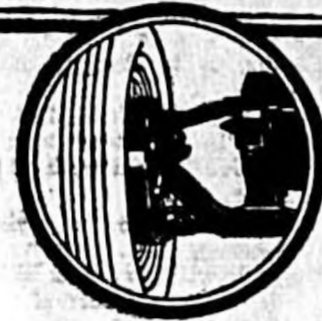

Comparison further shows what everybody says and what sales prove.
