**Valentine Bridge and Reception**  
Friday afternoon Mrs. J. W. Dickins and Mrs. George Fox, Jr., most delightfully entertained at a valentine bridge party and reception in Mrs. Dickins' charming home.

The rooms were artistically beautiful in their decorations of green vines, pink roses and graceful bamboo branches. A vase filled with lovely pink carnations graced the mantel in the reception hall. These matchless beauties made the large room fragrant with their sweet presence and were sent to Mrs. Dickins by a friend in Jacksonville. The pretty valentine sentiment was in pleasing evidence everywhere—in the ingenious and unique prominence of big hearts, little hearts and pretty rose hearts.

Mrs. Dickins was lovely in yellow crepe, trimmed with gold fringe and old lace. Jeweled with amethyst. Mrs. Fox was charmingly and becomingly gowned in pink messaline, with crystal bead trimming.

The tally cards for the games of bridge were hearts decorated with cupids, whose luck each fair player was anxious to invoke. Six games of bridge were played. The highest score was made by Mrs. Samuel Puleston, who won the first prize, a handsome two piece cut glass mayonnaise set. The second prize, a very pretty cut glass handle nappy was given for progressions, which were kept by attaching tally cards. This prize was won by Mrs. Robt. Newman. The booby prize, a picture of "The first Wash Day," was received by Miss Mabel Bowler. When the games of cards were concluded about 4 o'clock the guests who were arriving for the reception were met at the door by little Miss Frances Gonzalez and Ruth McDaniel, looking very dainty and pretty in white dresses with pink ribbons. Mrs. Dickins and Mrs. Fox stood in the lovely parlor to receive their guests. Another effectively artistic valentine suggestion awaited each arrival. The long handsome mirror was veiled by a lattice work of green ribbon, leaving a space in the center of the mirror which was outlined by a large heart of pink roses. The guests were requested to go near the pretty heart mystery and see their valentine. The lights were all softly radiant through shades of pink roses.

The pink and green color motif was charmingly apparent in the dining rooms, with its pretty decorations of pink roses and green vines. A large globe of pink rose petals shadowed the light over the table. Suspended from the electrode were wide green ribbons, which were fastened to the corners of the table, with clusters of lovely pink roses and asparagus fern. The beautiful centerpiece was of handsome drawn work over pink, on which was a mirror, supporting a tall graceful vase, filled with exquisite pink carnations and surrounded by a large heart of vivid green asparagus fern. A number of little candles, with pink and white shades, added their soft glow to the attractive table.

Misses Charlotte Keelor, Flora Johnson, Mabel Bowler, Martha Fox, a charming coterie of young ladies assailed Mesdames R. L. Peck, F. J. Gonzalez, Deane Turner and C. G. Butt in serving the delicious tomato aspic hearts on lettuce leaves, with mayonnaise enriched with celery and chopped nuts, olives and Saratoga flakes. Another dainty reminder of the pretty valentine conceals were the cunning little pink lace heart cases, ornamented with gold arrows, in which the Pistachio cream was served, with a small white heart cakes and coffee.

Hearts and roses united their charms in the beautiful musical selections of the songs, so delightfully sung for the entertainment of the guests. Miss Mabel Bowler, accompanied by Miss Johnson, sang "Garden of Roses." Miss Johnson accompanied herself in singing, "The Time of Roses." Miss Ward played "The Rosary." Miss Martha Fox and Mrs. C. G. Butt played several fine selections. The delightful music enhanced the charm and pleasure of the afternoon and beautiful reception.

Miss Katherine Ellis honored Miss Mary McKim entertained very delightfully at her home on Silver Lake, Thursday afternoon in honor of her house guest, Miss Katherine Ellis of Knoxville, Tenn. The house was beautifully decorated in potted plants and cut flowers. The chief diversion of the afternoon was a contest "The Tale of Many Authors," Miss Martha Fox being the successful contestant.

The guests were then favored with two cornet solos by Miss Stumon and two readings by Miss Clara Morrow. After a musical contest the folding doors of the dining room were thrown open, revealing an artistically decorated table, "A Panorama Box" surrounded with red roses

and asparagus fern, having red ribbons extending to each place card, formed the centerpiece. After a delicious salad and ice course was served the guests were allowed to pull their streamers, at the end of which were miniature articles, revealing their future occupation. This afforded much merriment. The enjoyable affair ended with a straw ride to the city. Those present were Misses Katherine Ellis, Clara Morrow, Carrie Lovell, Lois Williams, Martha Fox, Jessie Stumon, Margaret Davis, Josie Stumon, Lucca Chappell, Mercedes Munson and Mary McKim.

**Auction Bridge**

Mrs. Frank Lane was the charming hostess of the Auction Bridge Club Monday afternoon. Two tables of bridge were played. The highest score was made by Mrs. Robt. Newman, who won the first prize, a pretty cut glass olive dish. Mrs. R. S. Keelor received the booby prize, a deck of cards. After the conclusion asparagus salad, olives, sandwiches, crackers and coffee were served. Mrs. Lane's guests were Mesdames R. S. Keelor, O. W. Brady, C. O. McLaughlin, A. P. Connelly, Samuel Puleston, Robt. Newman and Miss Laura Fish.

**Every Week Bridge Club**

Mrs. C. O. McLaughlin charmingly entertained the Every Week Bridge Club, Saturday afternoon.

Two tables of bridge were played. The highest score was made by Mrs. Forrest Lake, who won the first prize, a pretty hand embroidered card case. The booby prize a leather bridge set was received by Mrs. W. W. Prather. After the cards a delicious fruit salad, olives, crackers, cake and chocolate were served. Mrs. McLaughlin's guests were Mesdames W. D. Holden, O. W. Brady, R. L. Hughes, Forrest Lake, H. P. Driver, W. W. Prather, Cecil Gabbett and Frank Lane.

**STRANGE CRATER IN ARIZONA**

Geologists Have Offered Several Theories to Account for This Singular Phenomenon.

About forty miles from Flagstaff, Ariz., in the midst of a great plain, there is a saucer-shaped hollow about three-quarters of a mile across and 800 feet deep. The rim of this strange crater rises between 150 and 200 feet above the surrounding plain. Rocky fragments are scattered for several miles around the crater. Among these rocks many fragments of meteoric iron, some containing minute black diamonds, have been found. The inner walls show that the crust of the earth was broken when the crater was formed; yet no volcanic rocks exist there. Geologists have offered several theories to account for this singular phenomenon. One is that an immense meteorite made the hole, and that the meteoric fragments just mentioned are remnants of the falling star. Another theory ascribes the origin of the crater to a tremendous explosion of steam in the rocks beneath, and a third combines the first two by suggesting that the blow of a falling meteor, striking the earth's crust at a point where subterranean water had accumulated in the neighborhood of heated rocks, was the cause of the explosion.

**Fable Worth Pondering Over.**

Good Mr. Wallapus stood at the window Sunday afternoon idly watching the bad little boys playing baseball on a vacant lot. "The Sabbath-breaking little wretches," he said, "They ought to be arrested, every one of them. There should be a rigid ordinance against this desecration of the Sabbath." Then he rang for the chauffeur. "Jim," he said, "get out the car and we'll take a little spin. It's a beautiful day and I'm tired of staying in the house." This fable teaches.

**Measuring River Flows.**

In its work of stream gauging—measuring the flow and volume of rivers by up-to-date methods—the United States geological survey co-operated during the past fiscal year with 13 states, the states contributing over \$49,000 and the survey doing the work. The geological survey also co-operated in this work with the reclamation service, the office of Indian affairs and the forest service. Ninety-six gauging stations were maintained in co-operation with the reclamation service, 13 in co-operation with the Indian office and 194 in co-operation with the forest service on streams draining national forests. In all 1,105 gauging stations were in operation at the close of the last fiscal year.

### CULLED FROM THE STATE PRESS

An Epitome of the Week's Most Important Happenings in the State's Domain.

A trolley car line for Miami and Dade county now seems to be an assured thing. It will be called the "East Florida Traction Company." The purpose is to construct and operate a street and suburban railway line as a common carrier. It is understood that the main line will extend from a point below Coconut Grove, south of Miami, to Little River, north of the city.

A splendid illustrated trade edition of the Bartow Courier-Informant was published a few days ago. The edition consisted of twelve pages and was a credit to that town.

Last week was the banner week in the shipment of strawberries from Plant City and the surrounding section. Ten thousand quarts were shipped from Plant City and is bringing the grower something like \$2 per crate.

One day last week the Wilson & Huddleston Fish Company in Miami brought in a catch of 25,000 pounds of Spanish Mackerel.

Fowler, the celebrated aviator in the coast to coast flight, will give exhibitions at Gainesville and Lake City.

Athanasaw and Sampson were found guilty of white slavery in the Tampa Federal Court on Wednesday. Both will receive long sentences.

There is a movement on foot among Tampa people to bring the hulk of the old Maine to Tampa as a permanent exhibit.

The piece of road connecting the C. H. & N. and the Atlantic Coast Line roads at Wauchula has been completed. The road is known as the Wauchula, Atlantic and Gulf railroad.

Brooksville wants a federal building and at a recent meeting of the Hernando county commissioners it was decided to ask congress to make an appropriation for this building.

The city council in Arcadia has just close the contract for three more miles of sidewalks. The work will be done in cement.

A boys corn club is to be organized in DeSoto county and much good work is expected from the members.

The project for an international highway between Miami, Florida and Quebec, Canada, has been given a decided impetus by the recent action of the Canadian government, which has joined the movement for good roads and will assist the provinces in building and maintaining a country wide system of highways, according to announcement by the Touring Club of America.

### Ahead of The Doctor

A man out West engaged a doctor to attend his sick wife. The medic had an eye for the main chance and asked the farmer if he had the money for an operation. "Sure," replied the rancher, "and I'll pay you \$100 if you cure her." "I am not handling insurance as a side line," said the doctor, "and I do not take cases that way." "Very well," said the farmer, "I'll pay you \$100 if you cure her or \$100 if you kill her." The doctor let it go at that. The woman died and the M. D. called for his fee. The man pulled out his roll and asked, "Did you kill her?" "Certainly not," replied the doctor. "And there is a heap of circumstantial evidence that you didn't cure her," says the farmer, carefully replacing his wad next to his femur, "therefore, according to our agreement, I don't owe you anything."

### The Wednesday Club

Owing to the very severe wind and rain storm Wednesday noon and afternoon the club did not have a meeting, but will meet next Wednesday, Feb. 28th, at the residence of Mrs. J. N. Whitner. The program for the 28th will be as follows:

The Saga of Olaf Trygvason—Mrs. M. H. Bowler.

The Saga of Olaf the Quiet and Magne Barefoot—Mrs. J. C. McDaniel.

Olaf Thambarskeldr—Mrs. A. E. Phillips.

The Saga of Sigurd the Jerusalem Feroe—Mrs. Cruise Barnes.

## KILLED NEGRO HIGHWAYMAN

Young Man in Jacksonville Refuses to Be Held Up And Shoots

Shimuel A. Smith, the street car conductor who last night shot and killed a negro whose identity has not yet been established, will be presented with a gold medal, the gift of Jacksonville citizens who desired to show their appreciation for Smith's bravery in ridding the city of a desperado who undoubtedly has been carrying on many of the highway robberies in and about Jacksonville. There is also a feeling among Jacksonville residents that in the killing of the negro Smith brought to an end the career of at least one of the men guilty of the murders which occurred in the city last fall.

The subscription paper for the purchase of the medal was started this morning by Max Morgenthau and was signed by everyone to whom it was presented.

Shortly after 11 o'clock last evening as Shimuel Smith, who lives at 445 Oak street, was leaving 1025 Highway avenue where he had been spending the evening he was approached by two colored men. The first man palmed him and turned around just as the second came up to him face to face.

Without a moment's warning, the negro whipped out a revolver and covering Smith said:

"All right, Cap, hand it over."

Smith had something over \$60 in his pocket, besides a valuable watch and did not fancy the idea of turning over the money so easily.

"All right," was Smith's only reply, and reaching back to his hip pocket he pretended to be making an effort to extract his pocketbook.

A 32-caliber revolver reposed in the pocket, however, and slipping his finger on the trigger and taking a firm grip on the butt of the weapon, young Smith jerked the revolver from his pocket and fired.

The bullet took effect above the eye of the negro, plowed through the brain and the highwayman fell backwards, dead. The second negro, who was evidently unarmed, beat a hasty retreat as soon as the first shot was fired—Jacksonville Metropolis.

### Cut Off His Ear

During the storm Wednesday a gentleman living on the West Side was sitting down to dinner when the high wind blew the window sash in, and a pane of glass falling athwart his ear cut that member partly off. He rushed to Dr. Robson's office and had the ear sewed back on and will probably have as good an ear as ever.

## ECHOES FROM FIELD DAY

Hospital Association Realized Neat Sum From the Event

The various committees for the Hospital Association have not reported in full as yet but figuring the gross receipt and estimating the expenses the Association probably cleared between \$600 and \$700.

Had the second day been fair the receipts would have totaled about \$1000 which was the estimate figured upon the association could easily have made.

All parties concerned are well satisfied with the result and it demonstrated that an annual event of this kind taken in hand several months ahead can be made to pay and not only would it benefit the Hospital but the city of Sanford as well.

Inadvertently The Herald omitted the good work of the Sanford Band last week. This organization under the able leadership of Conductor Reasoner gave their time free to the association and due credit should be given them for their good work during the two days.

The Sanford Band is not a charitable institution but in this instance they gave freely to charity and The Herald and the Hospital Association acknowledges the same. Too much praise cannot be given the Sanford Band or the citizens who contributed so much toward making the Field Day a success.

### Mashed His Hand

J. F. Hodges is rapidly recovering from his accident at the Hill grocery the other day. While moving a barrel of syrup the barrel rolled upon his hand, breaking two fingers and mashing that member badly. Dr. Robson treated the hand and Mr. Hodges is out again and hopes to resume his position at an early date.

### Meets Next Monday Evening

The Woman's Missionary Society of the Baptist church will meet next Monday evening, 7:30 o'clock, at the home of Mrs. H. B. Connelly, 514 Palmetto avenue. Every member is urged to be present.

## GOOD ROAD ADVOCATES

Jacksonville Board of Trade Scout Car Arrives

### STIRRING INTEREST FOR ROADS

Every One Interested Should Attend The Meeting of The Association at Ocala

The scout car of the Jacksonville Board of Trade containing Secretary Richardson, F. O. Miller and C. S. Robertson arrived in Sanford yesterday after a trip down the East Coast. They report the roads south of St. Augustine as bad, but Volusia and Orange county good. These gentlemen are making the trip to excite interest in the meeting of the State Good Roads Association at Ocala February 27 and 28, when plans will be submitted for a State Highway Commission to be taken up at the next meeting of the legislature. While here the gentlemen were piloted about the city by Geo. H. Fernald and many Sanford good road enthusiasts will attend the Ocala meeting.

## OUR SCHOOL BUILDINGS

Sanford Schools Head The List in Average Florida Cities

Sanford people take a natural pride in the fine school buildings. The city has one of the finest High School buildings in the state and in conjunction with the High School has two other separate and distinct buildings, the Grammar school building and the Primary school building, and this system calls forth the commendation of every educator who comes to our city, and many people have purchased property here to take advantage of the excellent school facilities.

In a speech before the educational committee of the Ocala Ladies Club the other day, L. W. Duval made comparisons between the different cities in the same class as Sanford, and his estimate in part of the speech relating to Sanford is worthy of a reproduction.

"The population figures in the above tables are taken from the 1910 U. S. census, and the other data from the latest available reports. I regret that I am unable to add information about Lakeland, Bartow, Tallahassee and Fernandina, but I have received no replies to my inquiries of the school authorities in those respective cities. The table, however, is amply sufficient for the purpose I have in view. Now let me call your attention particularly to the cities whose school enrollment equals or exceeds Ocala's. Sanford, the largest, has a \$30,000 building and five teachers; Gainesville, next, has a \$30,000 building and five teachers; St. Augustine, next, with a \$100,000 building and five teachers; Orlando with the same High School enrollment with a \$35,000 building and four teachers; while Palm Beach, the smallest town given, having less than one-half the population of Ocala, has a \$55,000 building and four teachers. I submit that in this comparison Ocala occupies an unenviable place—excelling only Live Oak in the value of buildings, but not in the number of teachers employed. We cannot afford to occupy this position, and I do not believe we will."

### Good Price For Eggs

Information comes to us that the Lakemont Poultry Farm of Winter Park, which makes a specialty of Rhode Island Reds, sold a sitting of eggs, week before last, to a party in California for \$5 an egg—\$60 a dozen. This is the record price for eggs, at least in the south. But, of course if only one of those \$5 eggs produces a chicken that will be worth a hundred or two times as much when grown, it is not too great a price to pay for them. At any valuation such as is put on such fancy fowl today the investment is a good one, provided that no mishap overtakes the eggs in transit.—Times-Union.

### How to Reach Him

Ft. Meade Leader: Last week we received a card from a postmaster, notifying us that the party to whom we had been sending this paper was dead and adding these words: "Send somewhere else." As we have no directory of either place, indirectly referred to, we are at a loss to know how to reach this paid-in-advance subscriber.—Ex.

If he was a "paid-in-advance" why send the paper to Heaven, of course. If he was a delinquent, you would have to print on asbestos to reach his present address—Miami Metropolis.

Meeting Called To Elect Officers For Ensuing Year

Oh! you Sanford fans! Now is the time to come to the aid of the party and get busy for your ball team not only for next summer but for some good games during the winter season. We still have Wallace with us and the nucleus of a good ball team and now is the time to scout for good material before it is all grabbed up by the other teams. Next Monday night at the city hall the meeting will be called for the purpose of organizing for the season of 1912, and every fan in Sanford should be there. You all know how much pleasure there is in a good ball team during the summer and now is the time to organize.

Sanford always has the finest in the Sandspur League and we must live up to our reputation.

### Ten Million Fire at Houston

Houston, Tex., Feb. 21.—Driven before one of the coldest Texas "norther" of the winter, fire early today burned a huge irregular strip through the eastern residential and manufacturing section of Houston. It swept over million-dollar plants and flimsy frame structures with equal ease, until from \$6,000,000 to \$10,000,000 damage had been done. Although no lives were lost, more than a score of persons were injured, while thousands were driven from their homes and suffered the sting of the freezing temperature.

The burned area by daylight was a mile and a half long and from a city block to a quarter of a mile wide.

### Reis Lecture Postponed

### In Honor of Mr and Mrs. Wicks

On last Monday evening Mr. and Mrs. C. A. Raulerson entertained at a six course dinner at their home, Zulu, in Geneva, in honor of Mr and Mrs. J. V. Wicks and Mr. and Mrs. C. W. Culpepper. The table was sweet in its exquisite simplicity, the center piece of hand embroidered linen with chime platter of orange blossoms constituted the decorations. The place cards were dainty paintings of spring scenery. With the desert dainty place bouquets and cupid valentine were given each guest. The menu was lengthy and each course was perfect, attesting to the ability of our hostess. Mrs. Raulerson is never more at home than when entertaining, having the much desired quality, that of putting her guests at their ease, a sure sign of true aristocracy. After lingering for some time over the bounties of the table the company then repaired to the parlor where pleasant conversation was enjoyed and delightful music was rendered by our hostess. A very pleasant feature of the occasion was the unexpected arrival of Mrs. Raulerson's brother, Mr. Burns, from Kentucky, whom she had not seen in some time.

Those enjoying Mr. and Mrs. Raulerson's hospitality were Mr. and Mrs. J. V. Wicks, Mr. and Mrs. C. W. Culpepper, Mr. and Mrs. David Speer, Mr. Robert Burns and Master Culver Etheredge.

### Will Have New Studio

Samuel Kraus believes in keeping abreast of the times and since his advent into the business circles of Sanford has been endeavoring to get more suitable quarters for his studio. He has now secured three rooms in the Garner-Woodruff building, formerly occupied by Dr. Boardman, and this week the carpenters are busy remodeling the rooms and putting them in firstclass shape for an up to date studio. Mr. Kraus has operated in some

of the largest cities in the country and knows the photograph business from the ground up. His services have been in great demand in Sanford in taking exterior views, in which he is an adept, and his studio work is beyond compare. He will have a nice display at the foot of the stairway leading to the studio, and some of his work will be on exhibition there at all times.

See Kraus when you need anything in the photo line. If you don't need anything go up and inspect his new studio.

The bride has a host of friends on the West Side and in Sanford and the groom is a valued employee of the A. C. L.

Their many friends wish them a pleasant journey down life's pathway in which The Herald joins.

**Weather Kickers**

Old time Florida visitors, who have tested out our weather conditions for years past, are quite as much amused as are those to the manner born when they hear the unreasonable kicks given by those who are spending their first winter in the state and judge Florida climate conditions for all time past and forever more by the unusual and unseasonable weather we have been treated to this entire season.

Of course, it is rather unfortunate that the fond expectations of these hopeful friends have not thus far been fully realized, but they should not blame Florida nor the people for the unseasonable decrease of nature, or the power back of her.

The fact is, 'twere just as sensible for those of us who have to bear the same conditions to blame the host who flees from the frozen north because the beastly weather they condemn came from the same quarter as themselves, and, as a matter of fact, it is their sort of weather and not ours that has fretted us this winter.

Also, they should consider the extraordinary weather conditions of the north, which they have escaped from.

The fact is, that by contrast even this winter in Florida has been so far superior to that of anything diabolical out in America that we should all be duly thankful.

But has it been so bad? The early winter was delightful, and but for the moisture it would have been so the entire season. Nor has it been so cold as to injure the most tender tropical foliage, whilst for most winter vegetable growing it has been ideal. The farmer, the gardener and the fruit grower thanks his lucky stars that for his purposes nature did all the irrigating this year, whereas, ordinarily, at this season the soil is as dry as punk.

Therefore, let the climate seeker rejoice with us that there has been plenty garden seeds to eat and that seldom has there been so fine a prospect for a bumper orange crop.

And if our friendly fruit-finders want satisfaction for loss of the daily sunshine equally their Florida portion, let them imagine how we Floridians may have to roast next summer for the want of the moisture that generally evens up the year through.

But we promise that if our friends will only have patience we'll show them more beautiful sunshine during the next two months than they ever dreamed of.—Orlando Citizen.

**Mission Study Circle**

The Mission Study Circle, one of the departments of the Missionary society of the Methodist church, held their regular meeting with a large attendance of the members and several visitors at the residence of Mrs. W. W. Abernathy, Tuesday afternoon. After a short devotional exercises lead by Mrs. H. V. Perry, third vice president of the Missionary society who has charge of the mission study circle and the tithing department, the interesting program for the afternoon; was begun by an instructive talk on "Tithing," by Mrs. Perry. The second chapter of "The Incoming Millions" was read by Mrs. R. M. Mason and Mrs. M. Moya. Mrs. J. K. Metzinger sang the beautiful gospel hymn, "Follow Me." The story of the life of Miss Lillian Nichols, a Missionary from Pensacola, whom the Florida Conference is taking care of in Korea; uniquely arranged in

detached sentences, was read by the circle and visitors, each person reading one or more sentences. Throughout the thread of the story was cleverly outlined and perfectly sustained. Miss Margaret Coffee, charmingly entertained the meeting by her splendid recitation of "Aunt Retura's Visit to The City." Mrs. J. D. Husted of Denver, Colorado, sang by request "God Will Take Care of You." Another visitor Mrs. Craighton told the circle, how and what the missionary workers, in her home city, Rochester, N. Y., did in their efforts to benefit the Italian colony in their midst.

After the distribution of "Tithing" literature and pledges, the pleasant program was concluded. Mrs. Abernathy, assisted by Mrs. F. W. Miller and Miss Carrie Abernathy, served delicious chocolate and dainty cakes. Thirteen states and England were represented by the guests present.

**Mrs. J. E. Pace**

Mrs. Ella Amelia Pace, wife of J. E. Pace, was born near Sanford, in Orange County Florida, Feb 23rd, 1853 and died at her home a short distance from the place of her birth Thursday Feb 8, 1912.

She was the youngest daughter of Mr. and Mrs. Algernon Speer, and while quite young was married to Mr. Geo. Brantley. Several years after his death she was married on the 14th day of July 1879 to Mr. J. E. Pace. Mr and Mrs. Pace enjoyed a long and happy married life, being entirely congenial and content in each others love and companionship. As a girl and young woman Mrs. Pace was full of life and bright spirit and entered heartily into the enjoyment of the associations and pleasures of the young, but when married she became fond of home and evinced a due appreciation of its duties and responsibilities. She was a kind neighbor and true friend, and her greatest pleasure was found in ministering to others in a quiet and unobtrusive way. By her thoughtful benevolence she brought real help and pleasure to many, of whom the world knew not. Having no children of her own, her strong motherly instinct went to the children of others to whom she opened her heart and home, bestowing upon them her loving and generous care and training them for honorable and useful lives. This love for children she continued to manifest till the close of her life. The most recent child of adopting love, Edward Lane, her nephew, had been a member of her home from infancy. During her last illness he was a student at Stetson University. With all the anxiety of a mother she would inquire about him, expressing the desire that he be recalled home while her consciousness still lingered. The boy so dear to her heart came and when she looked upon him in recognition she seemed satisfied, as if she had looked upon her own son. The end soon came and the beautiful sweet life had passed to the beyond. Its fragrance had been breathed upon the world and the memory of his beauty and sweetness will remain as a perpetual treasure.

For several years Mrs. Pace had not been well, yet she was patient and cheerful and retained her interest in home and friends. All that a devoted and generous husband, and skilled physicians and faithful nurses and friends could do for her comfort and recovery was cheerfully done, and no effort was spared to gratify her every desire. In the home which she cherished and surrounded by weeping loved ones, she quietly passed away. There are left to mourn her departure a devoted husband, the tender and faithful companion of her years, one sister, Mrs. M. C. Doyle, one brother Algernon

Speer and many relatives and friends to whom her memory is dear. Funeral services were held in the Presbyterian church Sanford, the day following her death, conducted by Rev. J. F. McKinnon, former pastor, and her body was laid to rest in Melrose cemetery. The sympathy of the community goes out to the bereaved loved ones in their sorrow.

**The Welaka Club Notes**

Reading Mrs. J. W. Barnes  
Violin Solo Mrs. Brady  
Vocal Solo Miss Olive Hill accompanist Clarence Mahoney

After the interesting program tea and wafers were served by the hostess, Mrs. Driver and her assistants Misses Keeler, Bowler and Whittier.

The art program announced in the year book for Feb 15th will be held Thursday, March 21st. Club members are requested to bear in mind the change of date. Mrs. Samuel Puleston, chairman.

The leap year dance for Feb. 27th has been postponed. The club rooms will be open Tuesday evening from 3 until 11 o'clock for members and their guests.

Office in Herald Building Telephone No. 148

The recent cold snap will give the tourists something to kick about.

Col. Roosevelt is up-to-date and instead of shying his castor into the ring says: "My hat is in the ring," which means that he will be a nominee for the Presidency.

Orlando has come to her census again and finds that during Fair week the city had over 7,000 inhabitants. We intended to take Sanford's census during the Horse Show, but there were so many Orlando people here that it would not have been a fair estimate.

How much longer do the people of Florida expect to stand for the extortion of the Southern Express Company? As the matter now stands, there is not a business house in the state that can afford to have a parcel come by express. They have no rate and we can never tell how much the hold-up will cost us.

The young street car conductor in Jacksonville who killed the negro highwayman on Tuesday night did more for the protection of the citizens than the whole police force combined. If every citizen of Jacksonville would go out armed at night and emulate Smith's example the hold ups and murders in Jacksonville would become less frequent.

We don't believe Cromwell Gibbons, candidate for Governor, would display so little political guile as to reflect on Braxton Beacham, candidate for Congressman-at-large, as Claude L'Engle's Dixie says he did, when Cromwell could have nothing to gain and might have something to lose by so doing, since he has enough to paddle his own canoe, without tipping over the Beacham raft.—Orlando Citizen.

Sanford would seem to stand in her own light in playing two candidates for the State Legislature. City pride should rather rally around one candidate than encourage defeat by dividing strength.—Orlando Citizen.

We heartily agree with the Citizen and make haste to announce that the majority of Sanford's citizens are not in favor of this petty politics. Lake is entitled to a second term and he will get it despite the fact that a few of Sanford's citizens are out to defeat him for purely personal motives. The Herald never stood for this kind of politics and will fight it not only in this case but in every case and while we want to promote harmony at all time will not barter our principles at any stage of the game. Our position is plain enough. We believe in a second term for the Legislature and this paper will support Forrest Lake and S. A. Robinson for the State Legislature.

ADVANTAGES OF THE SMALL TOWN In a recent number of Collier's there is a short editorial on "Being Satisfied." It is based on a remark made by William Allen White, the author and editor, to the effect that "if President Taft, who is on the job now, or President LaFollette, who will be on the job two years from now, should offer us the place of postmaster-general, we should put our good right hand in our bosom, or bosoms, as the case might be and proudly but firmly decline."

Emporia, the little town in Kansas in which Mr. White lives, and in which, as the editor of the Emporia Gazette, and later, as author, he has achieved all his fame, is evidently his ideal as a place of habitation, for he says that his chief desire is "the royal American privilege of living and dying in a country town, running a country newspaper, saying what we please when we please, how we please and to whom we please."

True to his convictions, Mr. White recently wrote something in behalf of the country merchant in his effort to compete with the mail order house. "The preservation of the home trade as the home town," he said, "comes with it the preservation of many of our American institutions. It seems to me that a lot of good things in American life pass if the country town passes, and it will pass, just

so surely as centralization of retail mail order business in cities continues. The American country town preserves better than the crowded city and better than the lonely ranch and isolated farm life, the things that make America great. Here in these country towns the spirit of neighborliness is the prevailing spirit. Men come to know one another, and when any two human beings can come to know each other, in the one which is intelligent and wise, respect always arises for the other. To know one's fellows always is to sympathize with them. Neighborliness spells fraternity. The American country town with its circle of friends, and its close homely and simple relations between men, with its spirit of co-operation and with its economic tastes, that permit the creation of no indecently rich, and to abjectly poor, the American country town it seems to me, is the most hopeful of our American institutions.

"The mail order house therefore becomes a menace to this country. The mail order house unrestricted, will kill our smaller towns, creating great cities with their terrible contrasts of life, with their cruel social relations, with their inevitable feeling that comes from the presence of strangers who are rich and poor living side by side. Great cities give much in alms but little in justice.

"The motto of the mail order house is every man for himself and the devil take the hindmost—and you bet the devil will."

HARMON A STRONG CANDIDATE

While The Herald is disposed to leave the nomination of a Democratic candidate to the convention and will support the choice of the delegates we are most favorably disposed towards Harmon from the fact that the editor is personally acquainted with him and knows the calibre of the man at first hand.

He is a logical candidate. That is growing more manifest every day. He is the only man thus far mentioned who can carry both Ohio and New York and these will be the pivotal states in the coming election. Governor Harmon is a great favorite in New York, his popularity there being second only to his popularity in Ohio. He has never been defeated for public office and carried the Buckeye State Democratic by 101,000 majority. He possesses all the elements of a sound progressive and conservative statesman.

Governor Harmon has been a judge of the Common Pleas and Superior courts of his native city, Attorney General of the United States and Governor of Ohio. In all these high offices he has shown himself to be a high, brave, sagacious and conscientious man. In addition to these high qualities he has been re-elected Governor of Ohio by nearly six times the majority that first placed him in the Governor's chair. Thus he shows that he possesses the very desirable quality of being a vote-getter.

HANDING OUT YOUR COIN

The Ocala Star, commenting on the proposition to the merchants of that place that they take a page advertisement in a paper published in a distant city, gives utterance to the following incontrovertible truth:

"We all love to give the stranger our money. We not only cough up our coin for an ad in a big city, which no nobody reads except the printers, the proof-readers and our own people, but we are good thing in other ways. We raise thousands of dollars for a college in another city while our own children are taught in a barn, almost any peripatetic evangelist can lope through the town and corral more coin in a week than the say-at-home preacher can pry loose from his congregation in a month; its no job at all to raise a stack of acorns to cure sore eyes in China, but its like drawing eye-teeth to obtain the funds to put our own hospital in a decent building; we hand out hundreds, if not thousands, every year to give to the heathen a gospel that they don't want, and ninety-nine and nine-tenths per cent. of them won't have, but our charitable organizations have to scratch like an old hen with thirteen chickens to obtain means for the few cases of destitution in our comparatively prosperous city. It was ever thus since Helen eloped with Paris and will probably be so until Gabriel comes along turning over cobblestones trying to find the man who ran on the republican ticket for governor of Florida in 1908."

Rev. Adelbert L. Hudson, Billings lecturer of the American Unitarian Association delivered an address at the Congregational church Tuesday night last. Mr. Hudson is one of the most eminent ministers in the Unitarian church and those who attended were impressed with the clear, logical and beautiful presentation of the Unitarian faith. The choir of the Congregational church kindly assisted and rendered two fine selections, "Abide With Me" and "Nearer My God to Thee."

During January and February several services have been held in Sanford conducted by Rev. Eleanor E. Gordon. Miss Gordon is a well known minister of the Unitarian church of Sioux City, Iowa, and has also been conducting services in Orlando. On last Sunday services were held in Orlando by Miss Gordon at the Pastime Theatre. She was assisted by Rev. Thos. Vanness of Boston, a prominent Unitarian divine who is touring the south. The Unitarian church in Jacksonville is one of the most beautiful in that city. Rev. Saml. Nobbs is the resident pastor. Early in March Dr. Samuel Elliot, president of the American Unitarian Association and son of Pres. Chas. Elliot of Howard College will visit Jacksonville and is expected to include Sanford and Orlando on his trip. Our United States Senator, Duncan U. Fletcher is a prominent member of the Jacksonville church.

**Helping Hand Society**

The meeting of the Helping Hand Society Tuesday evening, at the home of Miss Clara Millen was largely attended by the members and their invited friends. The mission study class was as usual conducted by Mrs. E. E. Cox, at the conclusion of which the society enjoyed a pleasant evening of music, recitations and a very interesting and amusing word contest. Mrs. R. C. Maxwell entertained those present by her delightful recitation, "The Two Roads." She also obligingly responded with several encores. Misses Ruth Stewart and Miss Ruby Betts played an instrumental duet. Miss Edith Stewart read the interesting account written by Dr. Hatcher of his visit to Florida, which was much enjoyed. After the pleasant program was completed, delicious ice cream and cake were served.

**Beard Returns to Florida**

Hon. John S. Beard, formerly state senator from Escambia county, at one time candidate for the United States senate and delegate on many occasions to numerous Democratic conventions, is to return to Florida. In October he will move to Florida, having elected Pensacola as his future home.

Col. Beard has renounced any further active participation in political life. He expects to spend the remainder of his days in the practice of his chosen profession—the law—and will not permit any ambition for office to allure him from its pursuit.

He has been away from Florida, where for many years he was one of the best known and most picturesque personalities for two years. He has a home at Staunton, Va.

**Forster's New Sanitarium**

Dr. Davis Forster has recently opened up a thirty-three room sanitarium at Hawk's Park near New Smyrna. The location is ideal, being on the beautiful Indian River and within a short distance from old Ocean's roll, and if the patients under Dr. Forster's skillful care and the influence of the surroundings do not recover the case will be hopeless indeed.

Dr. Forster has not deserted Sanford entirely but will be here every Thursday morning at his office in the Peoples Bank building.

While the people hate to lose Dr. Forster and Mrs. Forster they are glad to know that "The Shelter" is prospering from the start and the genial Doctor is making good in his new field.

**Athletic Club for Sanford**

The committee in charge of the athletics of the recent Field Day, as a result of the success that attended their efforts are resolved to organize an athletic club for the benefit of the boys and young men of our city. There is no reason why Sanford should lose her athletes from other burgs. We have plenty of good material right here; but it needs developing. Our city will be only as good as its men, and cigarette ends, booze fighters and rapiers do not make even good ornaments. The first meeting will be held at Hilden Park Saturday afternoon at four. Come boys, and learn something better than the two step and waltz. Learn to be men.

**Venerable Fireless Cooker.**

Among the countless inventions on which the modern world is accustomed to pride itself, the fireless cooker has had a modest but hitherto unquestioned place. If, however, there are new things under the sun, the fireless cooker is not one of them, for the device turns out to be at least as old as the Christian era, and probably much older. Friedlander, in his "Roman Life and Manners," says that every Jewish household had a basket filled with hay, in which food prepared on Friday was kept warm until the Sabbath—Saturday. It is an interesting question whether the modern fireless cooker is an independent modern development of the same principle, or the direct descendant of the Jewish hay-baskets of the first century.—Youth's Companion.

**All in the Name.**

"Funny thing about names," says Noah Count of Chiggerbite. "Now, there was my old friend, Yule B. Sick. He started in the drug business and plastered all over town: 'Take Our Drugs, Yule B. Sick, The Busy Corner.' Well, he didn't have any more trade than a rabbit. So one day he takes a squint at that sign and sees what's the matter. Had a sudden inspiration and ran for a sign painter. The next day, all over town was: 'Take Our Drugs, Y. B. Sick? The Busy Corner.' And now he's the richest man in this here town."—Kansas City Star.

**The Retort Political.**

Jerome B. McWade, the millionaire collector, said at a political banquet in Eufaula: "I see by the papers that a lady in high official life recently set down her position as 'a servant's wife'—explaining that her husband was a servant of the people. Well, that reminds me." Mr. McWade smiled. "That reminds me," he said, "of a stump speaker who shouted from his stump: 'We politicians are the slaves of the public!' 'No wonder, then,' growled a man in the front row, 'that the whole world is in favor of slavery's abolition.'"

**Periods for Viewing Meteors.**

An examination of the records of shooting star observations made in Bristol during the years 1866 to 1911 shows that the frequency of meteors is maximum towards the end of July and the beginning of August. During the first six months of the year the total number of meteors observed on a clear, moonless night is only about six per hour. At the beginning of July the frequency increases, and attains its maximum, sixty-nine per hour, on August 10. The mean for the entire year is twenty-four meteors per hour.

**THE UTILIZATION OF WASTE**

products to the very fullest extent is, of course, the aim of every industrialist, and the Wood Waste Distilleries Co., Wheeling, West Virginia, U. S. A., certainly makes this possible in the case of the waste material of wood working establishments. By means of their distilling apparatus, ranging from a capacity of 5 to 500 gals., the industrial alcohol and turpentine contained in sawdust are effectively extracted, while the resultant fiber is ready for paper manufacturers. This still will actually pay for itself over and over again every month, and Colonial and foreign fruit canning companies, chemical works, saw mills, varnish makers, oil refineries, sugar refineries, etc., cannot fail to find it a profitable acquisition.—R. G. Dun's International Review

**FREE IF IT FAILS.**  
Your Money Back if You Are Not Satisfied With the Medicine We Recommend.

We are so positive that our remedy will permanently relieve constipation, no matter how chronic it may be, that we offer to furnish the medicine at our expense should it fail to produce satisfactory results.

It is worse than useless to attempt to cure constipation with cathartic drugs. Laxative or cathartics do much harm. They cause a reaction, irritate, and weaken the bowels and tend to make constipation more chronic. Besides, their use becomes a habit that is dangerous.

Constipation is caused by a weakness of the nerves and muscles of the large intestine or descending colon. To expect permanent relief you must therefore tone up and strengthen these organs and restore them to healthier activity.

We want you to try Rexall Orderlies on our recommendation. They are exceedingly pleasant to take, being eaten like candy, and are ideal for children, delicate persons, and old folks, as well as for the robust. They act directly on the nerves and muscles of the bowels. They apparently have a neutral action on other associate organs or glands. They do not purge, cause excessive looseness, nor create any inconvenience whatever. They may be taken at any time, day or night. They will positively relieve chronic or habitual constipation, if not of surgical variety, and the myriads of associate or dependent chronic ailments, if taken with regularity for a reasonable length of time. 12 tablets, 10 cents; 30 tablets, 25 cents; 60 tablets, 50 cents. Sold only at our store—The Rexall Store.

**Is the Church on the Job?**  
In attempting to answer this question next Sunday night Rev. George B. Waldron will bring together some of the statements made at the Men and Religion Forward Movement Conference which he attended this week in Jacksonville. It is his purpose to handle the question without gloves, and to put in a few blows straight from the shoulder. Men especially are invited to be present. At the Congregational Church next Sunday night beginning at seven. "Where are the Profits?" will be Mr. Waldron's subject Sunday morning.

# JOHN W. WATSON

"Candidate for Governor"

**I favor:**

- Abolishing the convict lease system.
- Good roads all over the State made by convicts
- Federal aid for roads in Florida
- Lowest possible taxes consistent with properly maintaining the State's Institutions.
- Uniform taxation of all property.
- New asylum for white insane exclusively
- Better educational facilities all over the State, and more money for Country Schools.
- Cheap lands and homes for actual settlers rather than for land speculators.

Believing that every man should have an equal chance in the primaries, I favor amending the law so as to reduce the expenses, and place every candidate upon the same footing.

Would recommend to the legislature the establishing of the office of Labor Commissioner, whose duty would be to compile Labor Statistics, and assist in adjusting any differences between Employer and Employee.

Would insist that the Attorney General do (as they promise before election) all the legal work for the State, and not cause the State to spend thousands of dollars annually for legal services he should do, and is paid to do.

I would endeavor to see that all laws are enforced, regardless of station and without discrimination.

As Chairman of the Pardoning Board, I would do my full duty both to the State and to the Criminal, regardless of any political aspirations I might have, or "pull" the applicant may possess, as I regard the upholding of the laws, the protection of society, and the verdict of the law abiding people of our State, as expressed under oath in the jury box, of much more importance than being Governor.

I believe that a law, giving to the jury the right to recommend in their verdict, that a certain per cent of the money received from the hire of a convict should be paid to his family, would be a just and humane law. It would inspire the convict to work better and more willingly, and at the same time relieve great distress at the home of his wife and children, and in most instances, knowing that a part of his earnings were being used to feed and clothe his family, it would effect him morally, and make a better man of him, which should be the policy of the State, rather than to see how much money we can make out of them.

In filling vacancies and making appointments, I would be guided by the recommendation of the Executive Committee under whose jurisdiction it may come.

I heartily endorse the Drainage of the Everglades, but believe the method used by some of the land agents in selling the lands to actual settlers, misrepresenting the condition and location of them, is wrong, and I shall thoroughly investigate them, with a view of forcing them to do business in an honest, truthful and legitimate way, or not at all in Florida.

I believe that the State is in need of a Commissioner of Immigration, and that the Commissioner of Agriculture should be that man. With our climatic condition; with our varied and fertile soils, admitting a large range of production, suited both to temperate and tropical climate; with our forests of stately pines and hard woods; with thousands of miles of waterways filled with food fish; with extensive herds grazing upon our prairies; with large deposits of phosphate; with admirable transportation facilities, and sea ports; with a generous and law-abiding people, we can lay to immigration. Immigration and Capital are two of the necessary factors to invigorate the growth of a State, and we should give our earnest and best efforts in securing for Florida those unrivaled motive powers of development, and, if elected, I will give my best efforts along this line.

**Potatoes a Good Crop**

From every point comes the report that Irish potatoes will bring a good price this season. A man who is in the business in several large cities and is a well known authority on the subject writes as follows to The Herald:

If the people in Sanford section have a good crop of early potatoes this year, they can get their own price for them. The potato market is extremely high here, and there are less potatoes in this county now, than has ever been at this season of the year for years, in fact since it has been a heavy producing county. Up to January 1st, the various railroads had hauled about \$9,000,000 bushels. The movement in January was something like 1,350,000, mostly seed. Up to the present, the movement has been in the neighborhood of 11,000,000 bushels, with the crop estimated at 15,000,000 bushels, outside of what is necessary for seed and home consumption. It is estimated conservatively that after the seed potatoes are moved which are sold, for future contracts, there will not be more than 24,000,000 bushels in Aroostook County. Southern Maine has quite a few yet, but not as many as Aroostook.

The buyers are paying the farmers \$2.75 their weight, on the street for table stock in 165 lbs. bulk. The market on seed potatoes is very much excited, and the farmers are getting \$3.50 to \$3.75 and many holding for \$4.00.

**Fortunate Florida.**

A popular magazine writer and social reformer, who is now associate editor of a monthly in St. Louis, in a recent number of her paper describes the condition of the idle workmen in that city, many of whom, after a day spent in fruitless search for work, seek shelter in the Four Courts building. These men have spent the summer in the harvest fields or in the railroad construction gangs. If the season has been good, and they have had no ill-fortune such as sickness, they go to the city when they are laid off in the fall and seek some cheap lodging house, where their little board of money will carry them through the winter. If the season has been bad, or if they have been harassed by sickness—God pity them—they must depend on the slim chance of getting a job in the slack season or upon charity.

Now, we in Florida are fortunate in that we have no bitter winter which brings enforced idleness and cessation of income at the time when the biggest outlay is necessary to keep comfortable. Here a man may work twelve months in the year. More might be written on this line, but a hint to the wise should be sufficient—Lakeland Telegram.

**To Help Sanford**

I have been in every state this side of the Mississippi river and I think that Sanford is as pretty a city as I have seen and prettily located.

There are so many opportunities to make this city one of the best tourist towns in Florida, because you have as beautiful a lake as you can find anywhere and an ideal climate, but it needs a little booming.

You must have some amusements to hold the tourists such as are offered at an ideal country club, where you can have bowling tennis, golf, base ball, and all kinds and classes of amusements, and you want to have some amusements on the water.

Of course we can't have all of these things at once, but if we all join together and push things forward we can accomplish wonders. I was talking with a gentleman on this line, and he said that everybody was engaged in agriculture and didn't have time to think about making a tourist city of it, but we have time for everything.

If we can hold the tourists here it will mean more business for the merchants such as groceries, meats, vegetables and dry goods, shoes, and in fact all kinds of merchandise, and when there is more demand for these things it is going to help the farmers, because they will be able to sell their crops right here, and of course it will mean an increased crop.

Now, let us all get together and boom the town and make it an ideal tourist town. I am going to make my home here and will do all in my power to help this place, and will write to my friends in the north and see if I can't induce them to come here and invest their money.

Hoping that this will bear fruit, I am, Respectfully,

R. A. TERRY

**Storm Strikes Florida**

Part of the twister that has been tearing up Texas and Mississippi struck Florida Wednesday night and at Pensacola the wind reached a velocity of 60 miles an hour and did considerable damage. The wires were down in Florida on Wednesday and the big cities were shy on Associated Press reports.

Rain followed the wind and one of the heaviest downpours of the season fell here for about an hour. The rain was followed by a clear weather, but the growers do not anticipate any serious results from the sudden change.

### HAPPENINGS DURING THE WEEK

Here the Readers Will Find a Brief Historical Spring Flowing For Hurried Readers

"I will accept the nomination for president if it is tendered me, and I will adhere to this decision until the convention has expressed its preference," is Col. Theodore Roosevelt's reply to the letter of seven Republican governors asking him to stand for nomination.

Political activities are heating the atmosphere to such a degree that it was freely predicted today that Democratic leaders of the house and Republican leaders of the senate soon would find themselves agreed that congress could not keep up the pace beyond the middle of June. Until now, it appeared to be an accepted fact that the session would be prolonged beyond the Chicago and Baltimore conventions.

President Taft soon may be clothed with authority to send American troops across the Mexican border to quell either conditions of anarchy or fighting which might threaten lives or property on this side of the line.

Two storms of rain or snow, or both, are predicted to cross the country this week by the weekly bulletin of the weather bureau. A disturbance central today in the southwest will advance to the Ohio valley and move to the St. Lawrence valley. It will be attended by general precipitation over the Mississippi valley and the regions east, the precipitations being in the form of rains in the southern and snow in northern parts.

The American Blue Jacket is not all that he might be physically or mentally, according to the report of the fleet surgeon of the Atlantic squadron. The average sailor is too young, and his physical condition is such that he would fall during a strain, being unable to stand hardship.

The details of a double tornado which Sunday devastated parts of three Arkansas counties, place the dead list at ten and injured at 25. The property loss is great. Handsome homes, plantation equipment, rice barns, etc., were reduced to wreckage and scattered miles in the path of the storm. Fire broke out in several homes after the wind, and only a torrential downpour of rain saved the people from burning to death.

Senator Gardner, of Maine, has introduced a bill under which the Government would take over the express companies, to operate them as the postal service, and extending the service to the rural districts.

Covered by from six inches to two feet of sodden snow, the Missouri Valley, the southwest and the west today face the worst traffic conditions of the winter. Practically no trains from the West are running on time, and wire service is demoralized. Railway officials say the storm throughout Colorado, New Mexico and Western Kansas is the worst ever experienced.

### Winter Ball Schedule

The Florida colleges are getting out their diamond heroes and brushing them up for the spring games. Following is the schedule of games:

- February 22 and 23, Olympics at Gainesville.
- March 1 and 2, Stetson University at DeLand.
- March 4 and 5, Rollins College at Winter Park.
- March 18 and 19, Stetson University at Gainesville.
- March 22 and 23, Southern College at Sutherland.
- March 25 and 26, Rollins College at Gainesville.
- April 23, Jacksonville League Club at Jacksonville.
- April 16 and 17, Southern College at Gainesville.

### Mrs. Allen in New Quarters

Williams & Milteer have divided off the east half of their two store rooms in Rand block and will rent this room to Mrs. M. J. Allen for her millinery parlors. This location is a central one and should make a very attractive store. Announcement of the removal will be made later. Meantime Mrs. Allen will offer some special bargains in millinery at the old stand in the Bishop block.

## BIG TIMES NEXT WEEK

Moss and Marr's Shows Will Entertain the Big Crowd

All roads will lead to Sanford next week where the Moss & Marr consolidated shows will hold fort. Many new and novel features will be introduced during the engagement. The organization is a most stupendous one. Everything with it is truly magnificent. A feature is the refinement and morality that predominates. Parents can feel safe in attending and taking their children with them as they will learn something and enjoy the many interesting and wonderful sights. There are features which you and your neighbor have never seen, and yet there is nothing vulgar of course. It will surely be a gala week from start to finish with such attractions as this in our city. The grounds will resemble a miniature Coney Island. The place will be ablaze with illumination and color. Every place of amusement, exhibition, tent and booth will be elaborately constructed and decorated with bright and beautiful illumination. There will be continuous band concerts every afternoon and evening and a rapid fire of open attractions absolutely free.

The Moss & Marr's Consolidated Shows are doubtless the most expensive organization of its kind ever brought to Sanford and it is safe to say that a large share of the population will find its way to the grounds daily.

### Thanks From Hospital

Resolved That the trustees of the Sanford Hospital Association tender to each and every member of the committee who were active in the recent Field Day Celebration their sincere thanks and that special mention be made of the zealous and efficient manner in which General Manager W. T. Fields preformed his duties.

Also that special mention be made of the good work done by Mr. H. R. Stevens and his assistants in preparing the grounds and booths for the celebration.

That the services of the Lend a Hand society and the Sanford Band, be specially recognized.

That special thanks be tendered the Holden Real Estate Co., for the use of Holden Park for the Field Day sports to the B. P. Order of Elks for the generous offer and use of their hall made necessary by the weather.

That these resolutions be placed on the minutes and also published in the Sanford Herald.

### Potatoes Will Be Scarce

Under date of Washington, D. C., January 20, the following news item was sent throughout the country:

"Because the scarcity of potatoes in the markets of the United States has raised the price to a point almost prohibitive to the consumers, Representative Ayres, of New York, has introduced a bill in congress suspending for six months the tariff duty of 25 cents a bushel."

This is significant news to Florida farmers, and an invitation to all to plant as many potatoes as they can this month. Of course there is very little likelihood of the duty being removed for six months, but it emphasizes the fact of a potato shortage, and Florida should be the first potato growing state to take advantage of the situation and reap the benefit of high prices in a depleted market in April and May.

Clark and Burr Will Speak in Sanford At An Early Date

Secretary Bates of the Commercial Club has received answers to his request for a joint debate from Burr and Clark and both signify their willingness to discuss the issues and pick flaws in each other's record for the benefit of the morbid crowd. This debate between two such well known orators and fire eaters will be a most interesting event and the Commercial Club might go further and make the time a regular convocation for the candidates. There are various and sundry candidates for the different jobs and each and every one of them ought to meet the greatest number of people, and the greatest number of people will be gathered here to listen to the harangue of Frank Clark against his opponents and vice versa.

### Florida Crops

Some weeks ago C. J. Nathe harvested a potato weighing fourteen pounds. So far as we have heard this specimen is entitled to the blue ribbon. However, Mr. Nathe seems not to have been content with his record, and has again broken all records by bringing in a potato that tips the scale at twenty pounds. This specimen is only one of the hill, there being several others weighing two to three pounds.—Dade City Star.

Here are a few carload lots sales of celery made through the Florida Citrus Exchange. All these sales are strictly f. o. b. Manatee or Bradentown: \$3, \$2.75, \$2.85, \$3, \$2.75; \$3, \$3. The Exchange delivers the goods and gets the prices whether it be celery or fruits.

### Capt. Marks, City Treasurer

## PRIME CROP CONDITIONS

Sanford Crops Will Bring Top Notch Prices This Season

From all indications of a surface nature it seems that the celery crop this season will prove to be most profitable to the fortunate growers who are able to bring this vegetable to maturity. This season has been an enigma to the oldest growers here and also to the most experienced buyers. The copious downpour of rain from week to week has washed the fertilizers into the St. Johns river and at the same time caused the crop to scorch or turn yellow. The land has been soaked for many weeks and if it had not been for the ability of the grower to convert his system of subirrigation into a system of underground drainage the crop would have been entirely spoiled. But by the proper manipulation of the drainage system and care in providing ample ditches, the crop at this time looks fairly well. Nitrate of soda is being applied to overcome the yellow appearance and neutralize the effect of and prospective blight, thus placing the crop in a fairly normal condition.

The boards are now up on many an acre of Sanford celery and the product has already begun to move to market. Purchases are being made f. o. b. the field and in some cases the purchasers have to harvest the crop. Contracts have been made for entire crops standing in the field. The demand is strong and steady and the growers are in a position to dictate prices, on account of the scarcity and small acreage planted. As much as \$3.00 per crate has already been netted and many sales have been made at from \$2.00 to \$2.75 per crate.

Sweet corn is now being planted extensively as well as peppers, tomatoes, watermelons, cantaloupes, egg plant, squash, Irish potatoes. The acreage for the spring products enumerated promises to be normal and from reports received it is believed that a steady market will be encountered for everything offered.—Times-Union.

While the pilau was cooking, the children and their guests sat around the camp fire telling interesting stories and conundrums. This form of entertainment was varied by several pleasant games which they played until the feast was ready to be enjoyed by the light of the camp fires, to which was added delicious cake and orangeade.

### Four Feet of Snow

F. J. McDaniel of Owasso, Mich., is back in Sanford for a week or so and his many friends here are delighted to see him again. Mr. McDaniel is a great admirer of Sanford and the Florida climate and some day he intends to quit railroading and settle down here for a life of luxury and ease.

Mr. McDaniel stated to a Herald man that when he left his native city in Michigan there was four feet of snow on the ground and business was practically suspended.
