Man Has Declared 1-Day Moratorium

CHICAGO, Apr. 22—(INS)—In-temper weather today caused postponement of the eight major league games in Detroit, Chicago and Philadelphia in the American League, and at Brooklyn, New York and St. Louis in the National League were called off, because of cold weather, rain and wet grounds.

Six Games Postponed

CHICAGO, Apr. 22—(INS)—In-temper weather today caused postponement of the eight major league games in Detroit, Chicago and Philadelphia in the American League, and at Brooklyn, New York and St. Louis in the National League were called off, because of cold weather, rain and wet grounds.

Man Has Declared 1-Day Moratorium

CHICAGO, Apr. 22—(INS)—The bank moratorium was officially declared this afternoon, after a five-day session of the Federal Reserve Board.

Senate Okeys Everglades Plan Of Governor

Bill Passed By House Thursday Is Approved In Upper Body By 34-1 Vote; Attorney-General Explains Act

Measure Will Go To Martin For Signing

Board Is Given Authority To
Expend Upwards Of Twenty
Millions In Drainage Work

TALLAHASSEE, Fla., Apr. 22—(INS)—Governor Martin's proposal to flood a \$20,000,000 bond issue for completion of the Everglades drainage project received the approval of the Senate today when the upper branch of the legislature passed the same bill on this subject that was enacted by the house today.

The state was 41 to 1. Passage of the bill was accomplished after considerable questioning of various portions of the measure had been done by several of the senators.

A letter from the attorney-general explaining various parts of the bill was ordered into the records of the senate.

The second of governor Martin's Everglades bills, entailing an ad valorem tax to be levied if necessary to complete the project, then was passed by the senate by a vote of 30 to 0.

The first of the Governor's drainage bills calls for clothing the Everglades drainage board with power to issue \$20,000,000 in bonds to finance completion of the reclamation project, and the second provides for payment of the bonds in whole or in part by an ad valorem tax should the acreage tax prove insufficient to meet the interest and sinking fund payments.

If the bond issue bill is passed, five million dollars will be available immediately for continuance of work already started in the Everglades, according to Governor Martin when he delivered his special message to the joint session of the legislature last Wednesday.

The house committee on banks and currency was expected to formally give a favorable report today on a bill that would permit the state comptroller to take over any bank that appears insolvent and to turn it back to the bank or bankers when 75 per cent of the depositors signify their consent, either personally or by their representatives to freeze all assets and reopen immediately. The bill would enable many banks now closed to re-open for business, according to Frank O. King, chairman of the banks and loans.

The right of women possessing qualifications of male persons to sit on juries will be asked in the House today by P. Guy Crews of Duval county.

The bill would make it optional with the women whether or not they shall sit on juries. It requires them to specify whether or not they are willing to sit on juries upon registering to vote. If they do not register, they will be subject to jury service the same as men, with a few provisions for their comfort.

A woman juror would be exempt, under Crews' bill, when she is the mother of a child under 12 years of age, when any of her family is ill, when it is apparent that her health is such that such service would be injurious to her.

If, during a trial, it appears that the jury is to serve more than six hours, separate jury rooms are to be provided for the men jurors and one for women. The women jurors would not be required to be confined in jury rooms with the men. A woman bailiff would have charge of them.

A referendum by the voters of the state at the next central election on Representative Leo Staliner's anti-evolution bill will be asked today by Representative F. E. Carr of Hillsborough county.

If Carr's statement is accepted to the bill, which has been reported favorably by the committee on education, B. Florida voters will have an opportunity to voice their opinions on the subject.

The House will be asked to set aside next Thursday for special consideration of the anti-evolution bill.

Amending the present law so that the maker and endorser of a note will be liable in the same action will be asked today by Representative Staliner.

U. S. IS AGAINST ALLIANCE WITH GREAT BRITAIN

Ambassador Houghton Speaks
Before Manchester Trade
Body Declaring Such Pact
Might Provoke Another War

Washington Views
Expressed By Envoy

Rest Of World Would Unite
Against 2 Powers, He Says
In Analyzing The Situation

MANCHESTER, Eng., Apr. 22—(INS)—The United States is definitely opposed to any formal Anglo-American alliance, Ambassador Houghton declared here today in a speech before the Manchester chamber of commerce.

The ambassador, who was believed to be speaking under instructions from Washington, declared that a formal Anglo-American alliance would turn the rest of the world against the United States and Great Britain and would result in another world war.

"We must hope or seek to develop wholly natural and helpful relations between the British and American people into anything like an alliance," said Ambassador Houghton.

"An Anglo-Saxon alliance has its attractive details. It seems at moments to offer an easy way to obtain the results we all desire, but I believe the idea is wholly false.

"To bring the English speaking peoples together in an armed and exclusive group, prepared if needs be to enforce its collective will by force, would tend, if it were possible, neither to promote peace nor assure our national security. It would only result in uniting all the rest of the world against us.

"It would turn this earth of ours again into an armed camp. In the end, precisely what we want to avoid—war—would result. Out of such war neither honor, safety nor profit for any people could possibly emerge.

"We may be fighting side by side in the future as in the past. But we don't know. But, if the need arises—such as God forbid—let it be for cause and reason which brings us together instinctively not by calculated arrangement, which might by itself tend to bring about no dreadful catastrophe.

"Apart from that one danger I can only see good to ourselves and the world in a closer approach between the British and American peoples. Such results might best be brought about by the English speaking union and commissions studying industrial problems which are mutually helpful."

Air Mail Pilot Dies In Crash In Storm

CLEVELAND, Apr. 22—(INS)—John F. Malatzo, 35, air mail pilot on the Chicago-Cleveland route, was killed when his plane crashed to earth near Topeka, Ind., early this morning.

Malatzo encountered a snow-storm and made a forced landing. Taking off about 20 minutes later, he was apparently trying to reach Bryan, Ohio, when he crashed.

Malatzo was considered one of the best fliers on the Cleveland route. He had been in the air mail service about three years and previous to that time was in the army aviation service.

Mexico To Censor All Cable Messages

MEXICO CITY, Apr. 22—(INS)—The Mexican government has established a censorship upon cables. No explanation has been offered yet.

Rebel activities in northern Mexico have been increasing recently and there have been repeated rumors of the possibility of an attempted revolution from Mexicans across the United States borders.

General Galen and all Russian officers have been dismissed from Chiang's forces.

Lawyers In Snyder Case Pause As Band Plays "Nearer My God To Thee"

COURT HOUSE, LONG ISLAND CITY, N. Y., Apr. 22—A dramatic scene was enacted in this spacious courtroom this afternoon when Mrs. Joseph Brown, mother of Ruth Brown Snyder, the defendant in the case, entered the court room accompanied and escorted to a seat not far from the prisoner's dock.

The mother of the defendant, sand-eyed and weary looking, entered the courtroom just as a funeral band, passing in the streets below, began playing the strains of "Nearer My God To Thee."

Attorneys who were momentarily questioning the takingmen in the difficult task of trying to get a jury, halted their questioning for a moment or two. A stillness came over the court room.

"Nearer My God To Thee," the band played.

Tears filled the eyes of Mrs. Snyder, sitting pensively at counsel's table, attired in widow's black.

It was the first time she had displayed any emotion during the trial for the murder of her husband, Albert Snyder. Whether she was moved to tears by the music or the unexpected appearance of her mother it was impossible to tell.

The strains of the slow music and muffled drums came clearly through the open windows of the court room as Frank Bamaera, assistant to Mrs. Snyder's counsel, led her aged mother to a seat in the press row.

Mrs. Snyder's head was half bowed and her hands toyed nervously with the string of Jet beads. Her glance, usually on the tallismen, was averted.

Henry Judd Gray, the co-defendant, (Continued on Page 8.)

Celery-Feds Are To Open Local Season Today Against Colts

Club Officials Expect
The Largest Crowd
In History Of City;
Weather Clears Up

Mayor Autrey To Hurl First Ball

Flag Raising Ceremony
Will Precede Game
Band Gives Program

The champion Celery-Feds fresh from their victory over Orlando in the opening game of the Florida State League season, were primed this afternoon for the formal opening of the baseball season in Sanford. Lee Crowe and his aggregation were to meet the Colts in the second game of the series before what was expected to be a record breaking attendance for a baseball contest in this city.

More than 1,500 customers were expected to pass through the gates before the game, which was scheduled to get under way a few minutes after the opening ceremony at 3:30 o'clock. Sanford fans, however, were ready to turn out in full force well before a telephone message from Orlando this morning was to the effect that several hundred diamond followers were to be present to give encouragement to Phil Wells' team.

The Municipal Band under leadership of Joseph Reizenstein was to render several selections as a part of the afternoon's festivities. Promptly at 2:30 o'clock the players and club officials were to march to the flag pole in center field where flag raising exercises were to be held while the band played the Star Spangled Banner.

After pitching the first ball in the opening game in Orlando, Sanford or Forest Lake was elected to switch to the catcher's position while Mayor J. M. Autrey of the City Beautiful was scheduled to pitch over the first ball in an effort to outdo Sanford mayor's Orlando. Whether Mayor Autrey would be able to catch the fast curve ball Mayor Autrey was one of the questions uppermost in the minds of the fans as they made their way to the ball field.

With the preliminaries over, two teams were to take to the field to renew their age-old feud. Puckett, Vinns or Fremby were the possible pitching selections of Manager Phil Wells of Orlando while Lee Crowe was to choose between Roger Williams, Emmett Stout and Wade Jerry.

The weather shortly after noon was threatening, black clouds hanging over the city for an hour but shortly after two o'clock the new sun began to clear to offer the fans an ideal day for the game.

Lack Of Money Will Delay Detroit Case

DETROIT, Apr. 22—(INS)—An empty treasury probably will cause postponement of a new trial in the million dollar Ford-Sapiro libel suit until after next July 1, it was learned today.

Federal Judge Fred M. Raymond, who halted the first trial because a woman talked too much, was said to have wired an appeal to the Department of Justice for funds to continue the case at once. If the Department fails to heed his request, the second trial will have to be postponed until after July 1 when judicial appropriations for the new fiscal year become available.

Condition Of Earl Carroll Unchanged

GREENVILLE, S. C., Apr. 22—(INS)—The condition of Earl Carroll, New York theatrical producer, continued practically unchanged today, his physicians announced.

He collapsed here more than a week ago enroute to Atlanta to serve a year and a day for perjury growing out of his famous "bath tub" party.

Bank Bandits Escape With \$8,000 In Loot

NOBLESVILLE, Ind., Apr. 22—(INS)—Cracksmen wrecked the safe of the Jolleville State Bank west of here today with dynamite and escaped with \$8,000.

The charge of the explosive was so heavy it partly wrecked the building. Blood, found in several places about the bank, led officers to believe some of the robbers were injured.

Rebels Suffer Losses

MEXICO CITY, Apr. 22—(INS)—Government forces have engaged the rebels, alleged to have perpetrated the disastrous Guadaluajara train raid, and have inflicted severe penalties upon them in a battle at Yurecurio, near the scene of the raid, according to reports received here today.

MANY KILLED BY FIRE

TOKYO, Apr. 22—(INS)—Many townspeople are believed burned to death and property has estimated today at \$3,000,000 was caused by a midnight fire which flared through Kanusawa, one of the largest cities in northwest Japan.

Thrift Day Sale Is Ordered Postponed

The retail Merchants Committee, meeting in formal session this morning, announced that the proposed "Thrift Day" sales would not start until about June 1. This session was taken after a brief discussion in which it was shown that the closing of the Mt. Dew road on this side of the Wekiva river would prevent Lake County citizens from taking advantage of the sales for a period of at least a day.

While no definite date was set, it was the consensus of opinion among the merchants present that the usual Thursday afternoon holiday would not begin until May 19.

In previous years it has been customary to start the half holiday on May 1, but a number of local merchants are said to favor a later date, some of them wanting June 1 to be designated as the starting date.

YANKEE OWNERS TO BUILD PLANT TO SEAT 100,000

Edward G. Barrow Announces That Extensive Building Operations Will Get Under Way Sometime In October

By Davis J. WALSH International News Service Staff Correspondent

NEW YORK, Apr. 21.—Baseball's modern millennium the one vision but not quite feasible crowd of 100,000 at a single game, was more than a mirage on a chimerical sky line today. It became a probability of the more or less immediate future. Edward G. Barrow, business manager of the local American League club, informed the writer that, in all likelihood, the capacity of the Yankee stadium would be increased to 80,000 before the start of the 1928 season.

The stadium, with a seating capacity of some 63,000 at present, is by many thousands the largest edifice dedicated to baseball's popularity and, as such, was deemed at its official opening in 1922 to be the final obstacle before the great god-progression.

Yet, within five years, they are talking in terms of alterations, annexes, ante-chambers and additions, and the end is not yet. When they triple-deck all except a nominal section of the bleachers, a development that seems inevitable, the 100,000 goal will be more than achieved. It will be exceeded.

Work on the new addition probably will be started next October, Barrow intimated. He didn't say so, but the writer gained the impression that it might have been begun last winter. But, unfortunately, the boys didn't know then what they know now.

They thought the additèts might turn up absent in great numbers this season because a few random pleasantries had been exchanged under the stands eight years ago when baseball was younger and more frolicsome. But the returns in the turnstiles to date have annulled all speculation.

The Yanks and Athletics played to 72,000 including standees at the local opening, a baseball record that won't live long. Some 80,000 in their first six games in spite of the fact that two of them featured the Red Sox, who

Western Golf Body Refuses To Place Ban On Miss Browne

CHICAGO, Apr. 21.—(INS)—Miss Mary K. Browne is still a simon pure amateur as far as the Western Golf Association is concerned, President Hobart P. Young indicated today.

Following the ruling of the United States Golf Association which declares the California girl ineligible because of the professional tennis activities, Young said that W. G. A. would not rule on her eligibility to play in amateur tournaments unless she asked it.

Young explained that under the "clear rules" of the W. G. A. he could see no reason why she should be barred.

The W. G. A. controls 400 golf clubs between Pittsburgh and the Pacific coast, but is under the jurisdiction of the U. S. G. A., the association that yesterday ruled against Miss Browne.

Young added that he thought Miss Browne's disbarment set up a dangerous precedent that might lead to many embarrassing problems in the future.

NEW YORK, Apr. 21.—(INS)—Miss Mary K. Brown, of Santa Monica, Calif., one of America's leading women golfers, is ineligible to participate in American amateur golf competition under a ruling adopted by the United States Golf Association. The executive committee declared that in playing professional tennis with C. C. Pyle's troupe, Miss Browne acted in a manner "detrimental to the best interests and true spirit of golf."

Diegel Breaks Club Record To Win \$100

WASHINGTON Apr. 21.—(INS)—Leo Diegel was \$100 richer today as a result of a freak bet and some miraculous golf at the Columbia country club, scene of the 1920 open.

Playing a friendly round with some club members, Diegel bet that he would break 70 on the difficult course.

On the tenth tee he had already taken 39 and one of the members said, "Leo, a hundred to one you don't shoot this last in 29."

His in-hand hand 343 243—29, for a total of 69. The card showed an eagle, four birdies and four pars.

The Grand Llama of Lhasa now uses electricity due to the energy of a young Tibetan engineer who imported expensive machinery to harness the numerous waterfalls.

were not expected to draw ushers. But other cities did equally well in the matter of comparative attendance so well. In fact, as to indicate that baseball is on the verge of its biggest business.

Opening Of Sunday School League Is Arranged For May 2

The first game of the newly organized Sunday School League is to be played Monday afternoon, May 2, between the teams from the Christian and Presbyterian churches. It will be on Municipal Field.

On the following afternoon, Tuesday, the teams from the Baptist and Methodist churches are to meet also on Municipal Field. Both games will get under way after 4 o'clock.

Much interest is said to have been the order for several weeks at the diamond on the corner of Ninth Street and French Avenue, and every member of each team is said to be in condition for the summer grind. Two games are to be played each week, it is said.

Argentina Signs For Air Mail Line To European Cities

BUENOS AIRES, April 21.—(INS)—A contract has been signed by Dr. Goyeneche, head of the postal and telegraph department of Argentina, and Latococere Company of France, for an aerial postal service between Buenos Aires and Europe.

The new service will start September 1st, next, and the company undertakes to transport the whole of European mail handed it by the Argentine Post Office.

The Latococere Company at present successfully operates an air service between France, Morocco and Algiers. The new service starting from Buenos Aires will include Uruguay, Brazil, the northwest coast of Africa, Spain and France. A combined system of aeroplanes, hydroplanes and rapid steamers will be used. The length of time calculated for the journey is about seven days, but this time will gradually be reduced to four days by high-powered machines and other improvements after the first three or four years of operation.

The company has already 200 aeroplanes, 40 hydroplanes, and nine fast steamers, with an average speed of 22 knots an hour.

Mr. Wright is a strong advocate of newspaper advertising. He uses it constantly and this has caused him to be one of the most prominent tire men in central Florida. A new campaign for diamond tires in just starting in the columns of The Herald.

House Passes Measure For New Judicial Loop

TALLAHASSEE, Fla., Apr. 20.—(INS)—The House today passed a bill to create a twenty eighth judicial circuit out of part of what is known as the fourteenth.

The fourteenth judicial circuit court bill, under the bill just passed, consist of the counties of Jackson, Calhoun and Gulf while the new circuit will be composed of Bay county.

Smile of Fate

Lady Luck is smiling again on Pat Collins although that luck bodes the New York Yankees no favor. Injuries to Bengough and Grabowski's poor showing to date may force Miller Huggins to use Collins, only a fair performer, as his regular catcher.

Ralph Wight Stays With Diamond Tire In Large Business

Ralph Wight, one of the best known tire dealers in this section of the state, has handled Diamond tires for a period of eight years and is the oldest dealer in point of service to one tire company in the city. He has sold Diamond tires continually since starting in business in Sanford.

The fact that Diamond has been his exclusive connection, he says, is responsible for his success in his other automobile necessary permanency of the Diamond supply is cited for his reason for staying with Diamond tires in the years to come.

He believes that the Diamond tire offers the greatest possible sales advantage for a distributor of his type, because the line is complete for all pneumatic transportation needs. This in turn means stock inventory, quicker turnover, less sales resistance and easier merchandising.

Mr. Wright is a strong advocate of newspaper advertising. He uses it constantly and this has caused him to be one of the most prominent tire men in central Florida. A new campaign for diamond tires in just starting in the columns of The Herald.

MERCHANT SHIPS HAVE COST THIS NATION HUGE SUM

Ten Year Undertaking That Has Been Made In Effort To Build Foreign Trade Has Cost Three Billions

WASHINGTON Apr. 21.—(INS)—In the 10 years that it has been undertaking to establish an American Merchant Marine, the United States government has expended more than \$3,500,000,000 of public funds in that endeavor.

For this outlay the government today has:

One high-speed trans-Atlantic passenger line of six ships, the United States Lines, operating directly under Shipping Board management between New York and the principal ports of Western Europe.

One passenger-cargo line, between New York and Europe. Twenty-two cargo lines, covering the principal trade routes in which the United States has built up a foreign trade.

These 24 lines have 845 ships in service. All except the United States Lines are operated under operator manager agreements between the Emergency Fleet Corporation and American shipping firms with the government guaranteeing any operating losses.

An additional 590 ships under Shipping Board control are tied up at docks and in ship yards where they have been practically since the world war.

Many Ship Scrapped Since 1920 the Shipping Board has put 22 passenger-cargo ships, the "President" type and 1085 cargo vessels into the hands of private owners, receiving \$80,000,000 for them. It is established that about half of these are in operation. Most of the others have been scrapped for such salvage as they would yield.

On January 1, 1927, according to Shipping Board records, there were 1,450 vessels of 1,000 gross tons or more in actual operation flying the American flag. Of these 337 were in the foreign trade and 719 in the coastwise and inland domestic trade.

Of the approximately 1,100 privately operated ships under American registry, 323 are tankers owned by the Standard and other big oil companies, 100 being engaged in foreign trade and 293 in the domestic coastwise service.

Passenger vessels number 152 of which 29 are in foreign service, 31 in the West Indies and Caribbean

and 92 in the coastwise service. Cargo vessels, numbering 616, include 144 in the foreign trade, 75 in the West Indies and Caribbean and 397 in the coastal service.

Possom Trot, Indiana, has a population of fourteen persons and twenty-eight dogs.

NOTICE IN THE CIRCUIT COURT OF SEMINOLE COUNTY, FLORIDA, IN CHANCERY.

J. C. HUTCHISON, Complainant, ROBERT J. BROWN and ANNA B. BROWN, his wife, EDWARD E. SELLECK and MABEL A. SELLECK, his wife, Defendants. ORDER OF PUBLICATION.

THE STATE OF FLORIDA, TO: ROBERT J. BROWN, ANNA B. BROWN, his wife, EDWARD E. SELLECK and MABEL A. SELLECK, his wife, Defendants. In the affidavit filed in this cause that you, ROBERT J. BROWN, ANNA B. BROWN, his wife, EDWARD E. SELLECK and MABEL A. SELLECK, his wife, are each and every a non-resident of the State of Florida; that your present address and place of residence is Bay Shore, Suffolk County, New York; that you are each and every over the age of Twenty-one years and that there is no person of the State of Florida, the service of a subpoena in Chancery upon whom would bind you or any of you.

THEREFORE, this is to command you, ROBERT J. BROWN, ANNA B. BROWN, his wife, EDWARD E. SELLECK, and MABEL A. SELLECK, his wife, to personally be and appear before our said Circuit Court at Sanford, Seminole County, Florida, on the 2nd day of May, A. D. 1927, to make answer to the Bill of Complaint in this cause, filed against you by the Complainant in this case, otherwise said Bill of Complaint will be taken as confessed by you and each of you and this case proceed ex parte, the same being a bill for foreclosure of those certain lots, pieces or parcels of land situate, lying and being in Seminole County, Florida, to-wit:

Lots Seven (7) Eight (8), Nine (9) Thirteen (13), Thirteen (13) and Thirteen (13) of Block of CRYSTAL PARK, a subdivision according to the public records of Seminole County, State of Florida, in Plat Book 2, page 33, said suit being based upon that certain mortgage dated the first day of March, A. D. 1926 and of record in Mortgage Book 26, page 154 of the Public Records of Seminole County, Florida.

IT IS FURTHER ORDERED that this Notice be published in the Sanford Herald, a newspaper published in Sanford, Seminole County, Florida, once a week for four (4) consecutive weeks.

WITNESS my hand and the official seal of the Circuit Court of the Seventh Judicial Circuit of the State of Florida in and for Seminole County, on this 23rd day of March, A. D. 1927.

(Circuit Court Seal)

C. E. DOUGLASS, Clerk Circuit Court, Seminole County, Florida.

By A. M. Weeks, Deputy Clerk.

Grocer Uses Newspapers To Wrap Goods As Part Of "Check Strike"

WEST PALM BEACH, Fla., Apr. 22.—Morris owner of a grocery and dry goods store in the suburbs here was wrapping goods in newspapers at his establishment on Military Trail today. He explained that he had gone on a "check strike" and would not use wrapping paper until it was over. Inquiry showed that Morris ordered wrapping paper and sacks from a retail paper house and they returned his check on a local bank saying that they were not taking checks now and he could send cash

or money order. He replied that they would take his Florida check or nothing and they could write him when they got ready to do business. Meanwhile he is paying a quarter of a cent apiece for clean newspapers to use in wrapping goods, and several housewives who live near are cooperating by taking market baskets after groceries. "If every Florida merchant would refuse to do business with any company that returns a good check on an open bank, it would help business conditions immensely," Morris said today.

Future Of British Rail Industry Is Brighter Than Ever, Says Guy Granet

LONDON, April 22.—(INNS)—"The future of the British rail industry looks more hopeful than I have seen it for many a day," says Sir Guy Granet, the leading railroad manager of Britain. "Practically all our reports from industrial centers indicate that trade is definitely on the mend." Sir Guy Granet, who is president of the London, Midland and Scottish Railroad, said today. "I think it not unreasonable that our receipts from freight will show a definite advance on those—not for the lamentable year of 1926—but for the normal year of 1925. "But the material losses of the coal strike will be reflected in our passenger earnings. The people are definitely poorer for that strike, and it will be some time before they

are able to spend money freely on railroad traffic as they did in the years immediately after the war. "The general strike, followed by the coal strike cost this one concern \$57,500,000 by loss of receipts alone. Increases in fuel costs brought out total loss up to \$82,000,000. "But it is over now, and the railroadmen are working loyally to recover prosperity. The London, Midland and Scottish Railroad have had to withdraw nearly \$45,000,000 from their reserves this year in order to pay a dividend of 3 per cent. The other three of the "Big Four" lines had to make similar sacrifices. The reason is that in Britain, if a railroad cannot pay a 3 per cent dividend it ceases to be a "Trustee Stock."

CROP REPORTS

JACKSONVILLE, Fla., Apr. 22 (INNS)—Ideal weather which has been favorable for farm work prevailed over Florida during the week ending yesterday, according to the weekly weather and crop bulletin issued today by A. J. Mitchell, meteorologist in charge of the government weather bureau here. The bulletin follows: "The weather during the week was a continuation of the previous one with respect to rainfall, being practically rainless, except over the extreme west. Midday temperatures were higher than the seasonal, ranging from 2 in the extreme south to 8 in the extreme west; the nights, however, were moderately cool until the last days, when summer like conditions prevailed. There was a high percentage of sunshine—as much as 92 per cent of the possible over the northeast, 90 in the extreme south, and about 80 over the central division. "The weather was generally favorable for farm work, which made good progress, and for the shipping of truck. The soil was too dry on uplands over most of the section for the germination of recently planted corn; and, as a result of the dry soil, the stand of tobacco is irregular in Gadsden county. Corn, especially that on low lands, is doing well—the best in ten years in the report from some correspondents; it was well worked. Cotton planting in the west has been finished; most of the crop is up to a fair stand; it is being chipped. Melons, like all crops on uplands need rain; vines are vigorous, and young melons are holding well. "Peanuts are in fair to good condition; the sweet potato crop was delayed by dry weather. Cucumbers are doing well in the Marion county district; shipments are less from Sumner county. The shipping of tomatoes began from the Everglades, and in a small way from some counties in the central division; shipments continued from the south, but the peak has been passed. "Tomatoes are doing well in the northern division; truck needs rain in the west, but reports are mostly favorable. The shipping of potatoes was active from the Harney district, but shipments has not begun from the Green Cove fields where the crop is making favorable progress. "Citrus trees on uplands, including the satsuma in the west, need rain very much—leaves are curling, but the young fruit is holding. Ranges are rather poor in the south and south-central districts, where drought has persisted for a considerable period. "Northern Division "The weather was dry, sunny, and warm during midday. 5 farm work made good progress, but the dry weather resulted in an irregular stand of tobacco. Corn, melons, cotton, peanuts, and cane made good progress on low lands. "Central Division "Rain is needed for all crops, especially on some uplands. Citrus fruits are holding very well. Cucumbers and melons made good progress. The shipping of tomatoes began; most of the potato crop has been shipped. "Western Division "Local showers occurred, but more rain is needed for corn, cotton, peanuts, sweet potatoes, satsuma groves, and truck on uplands. Cane is fair to good on low lands. Cotton is a fair stand; it is being

hepped. Southern Division "Rain is badly needed in coast districts, although tomatoes are not suffering to the extent of other crops. All fruit trees are suffering. Tomato shipments continue from the coast, and began from the Everglades."

Dr. Frank R. Loomis of Detroit has been arrested and charged with the murder of his wife. Police, hunting clues in the "perfect crime" several weeks, finally arrested Dr. Loomis and charged him with murder. Here is the newest picture to be taken of Dr. Loomis.

HARDMAN LEASES MARKET
His opening in the market at Gonzalez Grocery has proven a popular one, according to G. W. Hardman, who has recently taken over the meat market in the popular grocery store and who plans to carry a line of fine western meats. Mr. Hardman was formerly with the Long Market, and has had 18 years experience in his business. Strawberries can be grown with success in every one of the forty-eight states.

Renew Your Health By Purification

Any physician will tell you that "Perfect Purification of the System is Nature's Foundation of Perfect Health." Why not rid yourself of chronic ailments that are undermining your vitality? Purify your entire system by taking a thorough course of Calobats—once or twice a week for several weeks—and see how Nature rewards you with health. Calobats are the greatest of all system purifiers. Get a family package with full directions. Only 25 cts. at drugstores. (Adv.)

In an effort to encourage scientific farming the Turkish Government has agreed to pay half the cost of every tractor bought by its farmers. Due to sparseness of population and lack of man power, only about one-fifth of Turkey's arable land is now being worked.

The postage stamp had its origin in Great Britain on May 6, 1840 the United States entering the field in 1847 with stamps of five and ten-cent denominations, engraved with portraits of Franklin and Washington respectively.

According to the Doherty formula, if one subtracts forty from the number of cricket chirps a minute, divides the remainder by four and adds fifty to the result, he will be able to tell the temperature without a thermometer.

Alaska, bought by the United States from Russia in 1867, has in the last sixty years yielded 153 times the amount paid for the territory. Salmon, gold, copper, furs, halibut, herring and cod are the principal products in the order of their importance.

Australia is producing a new fruit called the cucumber apple for use in salads. Although it has the appearance of an apple, the flavor is said to be distinctly that of a cucumber.

SULPHUR CLEARS SKIN RIGHT UP

Any breaking out of the skin, even fiery, itching eczema, can be quickly overcome by applying a little Mentho-Sulphur, declares a noted skin specialist. Because of its germ destroying properties, this sulphur preparation begins at once to soothe irritated skin and heal eruption such as rash, pimples and ring worm. It seldom fails to remove the torment and disfigurement, and you do not have to wait for relief from embarrassment. Improvement quickly shows. Sufferers from skin trouble should obtain a small jar of Rowles Mentho-Sulphur from any good druggist and use it like cold cream.

Earth Will Withstand An Electric Bombardment From The Sun In 1928

WASHINGTON, Apr. 22.—Old earth, next year, again will withstand a gigantic electric bombardment from the sun which in its maximum intensity will last for a period of 11 years.

At the maximum period of sun spot activity solar radiation will be three per cent more intense than at the minimum period, Abbott explained.

"However, the greater radiation of the sun does not mean warmer weather for all portions of the earth. In fact, in the maximum period of sun spots the weather generally speaking is somewhat colder."

Owing to the approach of maximum activity the sun's radiation, according to various Smithsonian observatories, is now above normal.

Abbott explained that the sun spots are electrical in character and move across the sun in pairs of opposite polarity. The total area of the sun's surface covered by all visible spots rarely exceeds a billion square miles.

"The spots or solar storms are cooler than the surrounding surface, but they tend to stir up the sun, thus contributing to greater radiation," Abbott said.

Force In U.S. Is National Issue Says German Leader In News Story

WASHINGTON, April 22.—(INS)—German news every nation to be concerned about the increase of diversity in the world. It is high time for America to take a national issue, he said.

Krueger held on that the emancipation of women is greatly responsible for the increase. Also, he charges that people marry too young and throw the money too much on buying everything on credit. Krueger believes that the increase of criminality among youth is largely due to children of divorced couples, not being properly cared for.

Refugees Of Flood Area Face Famine And Pestilence now

(Continued from Page One)

operated special trains to many flooded sections, bringing the refugees to Memphis. The police department ran 10 automobiles, leading the train and taking the refugees to the fairgrounds.

The Memphis board of health has established a branch in the fairgrounds. The doctors bandaged the refugees as they arrive to prevent epidemics. Wounds or festering sores are given medical attention as they enter the fairgrounds.

NEW ORLEANS, April, 22.—(INS)—With the Mississippi River rising nearly a foot daily, the flood situation in Mississippi and Louisiana became more critical today.

Cold rain and wind storms swept the lower Mississippi valley during the night, adding to the suffering of the thousands of refugees gathered in camps. Temperatures from Atlanta, Ga., south and west dropped on an average of 25 degrees.

The vast territory between Natchez, Miss., and New Orleans is endangered by the break of the levee at Stocks Landing and the Yazoo & Mississippi Valley Railroad has annulled all trains north of Vicksburg. The Missouri & Pacific and Texas & Pacific were also forced to cancel some trains.

Governor Dennis Hughes has appealed to President Coolidge to supply relief for 150,000 homeless. Many refugees are moving into Jackson and other high places in the Mississippi. A great many more tents are needed, it was said.

The Federal Government has placed Major John C. Lee in charge of the river front, and he has amassed a great army who are working with shovels, dirt and bags of sand, from Vicksburg to New Orleans, to stop the mad river from breaking through at any local point. Another army of men are fighting the river from Angola in New Orleans.

The fight at Goodhope, La., where the waters threatened to crush the levee was finally won, engineers believed. Nearly 2,000 men are at work on the Carlton Levee, and another 1,000 are reinforcing the protection levee outside this city.

The Arkansas River at Little Rock is rising a foot a day, causing much anxiety to the entire State of Louisiana but they said they thought that the levees would be able to hold the waters.

GREENVILLE, Miss., Apr. 22.—(INS)—Scores of lives are believed to have been lost in the path of the flood waters sweeping across the Mississippi delta from a break in the Mississippi levee near Scott Landing yesterday.

The flood waters were six feet deep in Greenville early today and water was still pouring over the top of the city's protective levee.

Officials have sent out an appeal for river boats to rescue the entire population which is reported in the city.

Flood Bulletins

WASHINGTON, Apr. 22.—(INS)—President Coolidge today issued a proclamation calling up on the American people to contribute to the Red Cross for the relief of tens of thousands of destitute people in the flooded areas of the lower Mississippi valley.

Six special trains, carrying among other things six fast motorboats, left St. Louis at midnight for Little Rock, Ark., to aid in rescue and relief work, the dispatches said. All of Little Rock was reported inundated.

WASHINGTON, Apr. 22.—(INS)—Even refugee camps, holding thousands of persons driven from their homes by the rising floods of the lower Mississippi valley.

A Rare Picture—'Mama' Mussolini

Living quietly with her children in her apartment house in Milan, Signorina Rachel Mussolini might never be taken as the wife of the 'dictator of all Italy.' This new photograph is one of the few pictures ever obtained of 11 Duce's wife.

levy, are being reached by the high waters, and the situation is steadily becoming more acute, according to advices to national headquarters of the American Red Cross here today.

One dispatch said a refugee camp at Bangsboro, Ark., holding a thousand refugees in an area of a square mile, was threatened with annihilation. The water was within a foot of the camp and still rising.

WASHINGTON, Apr. 22.—(INS)—Three naval seaplanes were ordered today from the Pensacola naval station to Little Rock, Ark., to render aid in rescuing refugees in the flooded areas.

A dispatch to the navy from Lieut. Sample, pilot of a seaplane at Vicksburg, Miss., said conditions in the flooded areas were very hazardous for plane, but the navy ordered three dispatched anyway.

WASHINGTON, Apr. 22.—(INS)—Fair weather over the flood-stricken Mississippi valley for the next few days was promised today by the weather bureau. Clear and much colder weather was the prediction.

The Ohio River is falling at Curia, Illinois, but the Mississippi continues to rise from Memphis southward. The river at New Orleans is temporarily stationary.

The Arkansas River at Little Rock will subside slowly the bureau said.

MEMPHIS, Tenn., Apr. 22.—(INS)—Two trainloads of refugees en route from Hughes, Ark., to Memphis, were believed, unharmed by new washouts today.

No trace of the trains has been found by the Missouri Pacific since they left Hughes late Thursday. Three hundred refugees were aboard.

Lord Palmerston, famous British premier, kept his inkwell about his feet from the desk where he stood at meals. The story, which involved with every fresh dip made up his daily exercise.

The Annual Rescue League presented a medal of bravery to a cat that had shown unusual heroism in rescuing one of its kittens from a burning building.

(SEAL.)

The Sanford Herald

Published every afternoon except Sunday at Sanford, Florida, 111 Magnolia Avenue.

Entered as Second Class Matter, October 27, 1918, at the Postoffice at Sanford, Florida, under Act of March 3, 1879.

R. I. DEAN, Editor; H. H. DEAN, Manager; EARLE E. JONES, Managing Editor.

The Herald, Sanford's pioneer newspaper, subscribes to the International News Service, receiving from this superior news organization twenty thousand words daily covering all the leading events of the entire world.

FRIDAY, APRIL 22, 1927

- THE HERALD PLATFORM: Keeping in city and county administration... Construction of St. Johns-Indian River Canal... Inauguration of monthly "Pay-up Week"...

BIBLE VERSE FOR TODAY: THE LIGHT OF THE WORLD: The Lord is my light and my salvation...

PRAYER: I will praise the Lord, according to His righteousness, and sing praises unto the name of the Lord most high.

CHEAP BUT MUNIFICENT: It was only a sunny smile, And little it cost in the giving, But it scattered the night like morning light...

It was only a helping hand And it seemed of little availing, But its clasp was warm, And it saved from harm...

These anti-evolution agitators seem to be more worried about coming from monkeys than going to Hell.

"Lakeland Stop Signs Mean what They Say," says the Star-Telegram. So do Sanford's, but some folks don't seem to know it.

If business is bad, it should be spanked. A full page ad in the Sanford Herald makes a good paddle.

Legislators should not be fooled by Sen. Watson's Joker to keep the Martin Everglades drainage bill from passing.

A five hundred dollar penalty has been proposed for taking a drink in Florida. Well that's better than death.

"Wall of Water Reported Sweeping down on Little Rock," says the Orlando Reporter-Star. But folks wish it was a big rock.

Representative Fribbie has introduced a bill making it illegal to drink intoxicating liquors as a beverage. Oh well, come folks would just as soon drink it as a medicine as a beverage.

Trying to keep a well known railroad official away from the baseball game would be as easy as attempting to run a wide open picture show in west Florida on Sunday.

According to Clarence Barron, Florida must be the best behaved state in the nation. "There isn't a bad acre in any one of its 37,000,000 acres," he is said to have declared recently.

People squawking about taxation should read this: One of the papers asks "What are you going to do about taxes?" If the question was to us, we are going to do the best we can to pay ours. Tampa Times. Sounds reasonable.

Whose little green roadster was that out in Mayfair the other night looking like a parked car? The City had better hurry up and finish the boulevard before some of our young bachelors find themselves engulfed.

Sanford Herald says it has been requested to "jump on the rent hogs." If the Sanford Herald does that job it will resemble an English sparrow in a barnyard after a northern snow storm.—Eustis Lake Region. If the Herald did all the jumping it is requested to do it would look like a jack rabbit.

While plagiarism is not much of a crime in the eyes of the law, it is just as sinful to steal a man's thoughts as it is his cash.—Times-Union. Let the paragrapher who is without sin cast the first stone.—Ocala Star. Men's ideas, even the expression of them, thought not stolen, agree, but that, according to Mr. Webster, is not plagiarism.

The Popular Bambino

The great American game of baseball now holds full sway in the realm of sports. This spring the game has come back stronger than ever before in its appeal to the American public.

The opening of the major leagues and the running start of the New York Yankees have served to direct our attention to professional baseball's leading luminary, George Herman Ruth.

Ruth's record as a home run hitter has far eclipsed that of any other player. Since joining the Yankees in 1920 the Bambino has made 260 home runs, bringing the total for his career up to 309.

Ruth's wonderful performances coupled with his dominant personality have served to make him the greatest drawing card in the history. Ty Cobb was a greater baseball player than the Babe but the Georgia Peach, although immensely popular, has never had the following that Ruth has enjoyed.

Iron Clad Hoofs

The New York Herald Tribune tells the story of an old Kentucky mule, which had become fed up on many insults and frequent impositions, when some reckless driving motorist grazed his flanks or made him jump with a loud blare of a deafening siren, or nearly choked him to death with clouds of dust, or blinded him by headlights or crowded him into ditches.

About the time the limit of his endurance had been reached, a Ford coupe crowded him from the rear, and then adding injury to insult, bumped him. The mule, a self-respecting animal, from the hills, who had spent years in the service, drawing plows, pulling heavily loaded wagons and carrying sacks of meal from town on his back, could stand it no more.

There is an excellent moral to this little story which everyone should know. There is always a limit beyond which no man can go. It doesn't make any difference how inferior another person may seem, if thoroughly aroused, he may rise up and revolt.

The old mule, once the pride of every farmer, is now a dejected looking beast. Tractors do the hauling, and trucks take the family here and there the way he used to do, but don't press him too close. His hoofs are as hard as they ever were.

AMERICANS WOULD DO well to copy Germans in this respect. Every improvement should be made with an eye to the beautiful. It is likely that Mayor Allen was thinking along this broader line when he criticized the public dumping ground, and it is hopeful to know that our city officials are not satisfied with existing conditions; that they have an eye to the beautiful. The criticism is well taken, in spite of the improvement that has been made, but it could be applied to many other parts of the city which should come in for a general policing up.—Titusville Star-Advocate.

A WOULD-BE FACETIOUS person of the masculine sex once approached a well-known worker of the Voluntary Parenthood Association.

"How many children have you?" he queried. The gentlewoman replied, "Five, and not a fool amongst them."

"How does that happen," the male person again asked. "They are all girls," was the quick reply.

We cannot imagine a woman who would seek to repeal the free text book law of Florida. It is harder, still, to consider a mother who would attempt to agitate for such anti-child-welfare legislation.—Florida State News.

A CHANGED ATTITUDE WAYCROSS JOURNAL-HERALD

It has not been so long since the emphasis in the United States was upon getting boys and girls to desire a college training.

Ever since the World War this has been changed. The problem has been not to get boys and girls to apply for entrance into the colleges and universities but to equip the colleges and universities to take care of the hosts applying.

The new condition is changing the attitude of the colleges and universities towards the student bodies.

The colleges and universities now are seeking not boys and girls but "better prepared boys and girls." The purpose is not to turn out graduates but to turn out especially equipped men and women.

Such a change in emphasis is cer by it.

As Brisbane Sees It

New Mexico Wants Coolidge, Land, Sea and Air Nature, De Pinedo and Lufthansa, Fearful Power.

By ARTHUR BRISBANE Copyright 1927 by Star Co.

ALBUQUERQUE, N. M., April 20.—The Albuquerque Journal believes that President Coolidge will spend this summer vacation here in New Mexico. The President may find a state as beautiful as New Mexico but he will find nothing more beautiful, anywhere in this country or in the world.

IF HE WANTS to fish, mountain streams will supply him trout stories that Washington could hardly believe even from a President.

The one difficulty is that with Mexico's glorious sky above him he would find it hard to keep his eye on the cork. It is assured that, as a good Vermont American, the President fishes with a cork and a worm.

MESSRS. PEPPERDAY AND Pickrell, who edit and publish the Albuquerque Journal, carry daily a feature to interest other newspapers. Arthur T. Hannett, ex-governor of New Mexico, writes 'New Mexico Day by Day,' keeping the people in touch with their state and keeping the acting governor alert.

The youthful, bounding, roaring, romping Roy Howard, who also publishes in Albuquerque, seems to have missed something.

WHEN PRESIDENT Coolidge met de Pinedo, the Italian, he met a flier, De Pinedo had flown from Europe to South America, in his Italian plane, along the great Amazon over the jungles then to the United States. When a boy accidentally set fire to his plane, de Pinedo borrowed another, flew on to the Pacific ocean. Now he is back in Washington.

THE PRESIDENT MIGHT label him 'exhibit A,' take him to the army and navy departments and say, 'Gentlemen, here you have proof that flying is really practical. You needn't wait, as Will Rogers says, for two more wars to prove it.'

IT IS RESPECTFULLY suggested that the President send a commission not interested in selling armor plate or battleships to investigate the German Lufthansa, that magnificent flying organization, sending its great passenger ships daily all over Europe. It has put Germany ahead of all nations in commercial flying, and will soon surpass all that has ever done by the German steamship lines.

LET LUFTHANSA SHOW the United States how to be powerful in the air. It will soon surpass all that has ever done by the German steamship lines.

Mrs. Geoffrey Kona, young and learned New York jurist, on this train, bound for the Pacific, supplies an interesting quotation from Jean Paul Richter, who wrote it at the height of Napoleon's glory and during Germany's deepest humiliation.

"God has given to the French the land, to the English the sea, to the Germans the empire of the air." Richter meant that Germany had NOTHING LEFT only the air.

Little did he dream that 100 years after his death in 1825 "Empire of the Air" by which Richter perhaps meant the empire of thought would mean empire of land and sea also. Today Germany really has commercial empire of the air. And but for the powerful French fighting air fleet the French empire on land would be precarious.

AS FOR BRITAIN'S former asset 'sea empire,' that has become a liability. Nothing can protect her \$50,000,000 superdreadnaughts, big guns and crews against a \$10,000 flying machine with a crew of two men, swifter than a hawk carrying deadly bombs.

England knows and is building airships. This country looks on wonders, and does nothing.

The ITALIAN De Pinedo, and the German Lufthansa should convince us that flying IS practical.

THE TORNADOES AND "line squalls" that tore through six Illinois counties Tuesday remind us that all parts of the country are exposed to nature's fits of endless fury. Such outbreaks, killing innocent school children, teachers, old women and young babies would indicate that nature's laws, once set going are allowed to work without interference or special direction.

In ancient days, after such a calamity, the people would be called to church to repent, and told that the storm had been sent to warn and punish them. Today scientists are summoned and asked what, if anything, can be done to control such calamities or prepare against their coming. "The wind bloweth where it listeth."

TOM SIMS SAYS

Ten years after the war began—and who did you say was it?

With the ladies wearing trousers now we are awaiting anxiously the ethical note: "Scratchling matches on the seat of one's trousers is no longer do rignit."

The Star Player of the Whole Neighborhood—and He Won't Play

APOLOGIES FOR MARTIN ORLANDO REPORTER-STAR

The Florida State News, a semi-official organ published at Tallahassee, seems to think it necessary to apologize for Governor Martin's position in enforcing the race track law after the decision of the supreme court against their operation.

The apology seems unnecessary. No one suspected that Governor Martin wanted to enforce the law else he would have done so before the court decision. The law was plain. But it was the general criticism against the governor and the supreme court decision that led the governor to stiffen his spine and tell sheriffs in strongholds of pari-mutuels that the law must be obeyed.

The legislature of Florida could not do a more foolish thing than to tamper with a law that is clear and clearly needed. The argument that gambling must be legalized in order to satisfy the instincts of those who make a practice of following the wheel of fortune in whatever form is better suited to the state of society that prevails in mining camps than in an enlightened and well organized society such as constitutes the general citizenry of Florida.

That some few communities

HOMES IN GARDENS SARASOTA TIMES

There seems to be a growing interest among architects, landscape artists and other authorities, in restoring beauty and privacy to the back yards or gardens of residences, whether individual homes or apartment buildings. A French artist has been urging people to return to that style, which used to be common enough there but has been abandoned in late years, backing their homes and apartment buildings against the street and facing them on a garden or lawn that is removed from the sight and noise of the public thoroughfare.

Come to think of it, isn't it a queer thing that residential sections in many cities put so much money and energy into unnecessary large front lawns, leaving the back yards to cinders or cement, rubbish and delivery men?

KEEP ON TRYING POLK-COUNTY RECORD

According to a story in The Sanford Herald a man there put a black bass in one side of a big fish bowl that was divided by a glass partition. On the other side he put a group of minnows of the type bass like.

Whenever one of the minnows came up beside the glass partition the bass would strike at it. He kept this up for several days but only succeeded in bumping his nose and bruising himself up. Finally he quit. After a few days the partition was taken out and the bass and minnows swam together. The big fish never offered to strike at them.

The suggestion is given that this portrays to many Florida
