HEAD OF SPAIN TO VISIT U.S. OVER HOOVER

President Zamora to Overtake In OIAmericasAnd Re- lations With Spain

MADRID, Apr. 30.—(AP)—President Nicols Alcala Zamora of the new Spanish republic addressed North and South America by trans-Atlantic radio last night. President Zamora's address, which lasted 15 minutes, was delivered in Spanish and afterward translated.

The destiny of the new republic of Spain, he said, rests in America rather than in Europe. "At any time," he said, "the European nations should form a bloc to threaten the interests of the Americas, the Spanish republic would join hands with its sister republics across the sea."

"It has been said in Europe that Spain is the last European of European countries. This is practically true. Our interest and our hearts lie in America. Our language is spoken in a large part of the Americas."

Divorce Troubles Between Ty Cobb And Wife Settled

AUGUSTA, Ga., Apr. 30.—(AP)—The divorce proceedings between Ty Cobb and his wife, Mrs. Charley Martin Cobb, Apr. 15 against her husband, Ty Cobb, former major league baseball star, yesterday were withdrawn.

A short announcement of the withdrawal was made by Cobb as follows:

"It is Mrs. Cobb's desire that I personally make official announcement that the divorce proceedings have been withdrawn; that her attorney has been advised of this fact; that she took this step on her own initiative, and that no further comment is to be made on account of the sacredness relating to her decision."

The petition was filed here charging cruel treatment and making temporary alimony and custody of the Cobb's four minor children. A hearing on the petition was scheduled for Apr. 25, but was postponed by agreement.

Mrs. Cobb refused to make a statement about the charges which did not give details. At the time the petition was filed Cobb was in California. He issued a statement that he was "surprised and shocked," and that he was leaving at once for his home in an effort to "straighten out the matter."

The Cobbs were married here Aug. 6, 1908. Cobb formerly was manager of the Detroit club of the American league. He retired a few years ago and has been living here with his family.

Icelandic Boat Heads North On Hunt For Man

REYKJAVIK, Apr. 30.—(AP)—The patrol boat "Icelandic Odin" headed north today with an airship to search for a missing man on an Icelandic liner aboard, named by Greenland to look for the missing man, young British seaman.

The boat sailed, word from the Norwegian Coast Guard advised he had been off from there unaccounted for. The situation was reported as a matter of danger of ice.

Parrish Offers To Aid This Section

TALLAHASSEE, Fla., Apr. 30.—(AP)—Senator J. J. Parrish today introduced a bill providing for the establishment of a branch experimental station near Sanford to conduct experiments in celery and vegetable production, and a study of the diseases affecting the production of celery or other vegetables in that section. An appropriation of \$50,000 is asked, \$10,000 available July 1, 1931, and \$10,000 July 1, 1932. A board of control would be authorized to accept lands or other sections to assist in establishing the station.

HOOVER IS HOST TO BOY HERO OF FATAL BLIZZARD

Thirteen-Year-Old Lad Shares Honors With Siamese Monarch

WASHINGTON, Apr. 30.—(AP)—A slender, fair-haired school boy from Colorado shared the attention of President Hoover yesterday with the King of Siam.

Bryan Untied, 13-year-old youngster whose heroism in the recent Colorado blizzard caused President Hoover to invite him to the White House for a visit of two days, arrived yesterday in time to witness the ceremonial reception of the king and queen of Siam.

The royal couple had dinner with the president, a formal affair, but Bryan had lunch with him, which was distinctly informal. The president called later on the king, but, on the other hand, the lad slept last night in the blue bedroom where thousands of distinguished visitors to the executive mansion have rested. No king has ever slept there, but Lindbergh has.

To add to the busy day at the White House, President Hoover, who has been recuperating from illness at Asheville, N. C., slipped quietly into the city early in the morning.

Untied arrived early yesterday morning with William H. Davenport. (Continued on Page 4)

Mad Dog Victim Is Sought To Inform Her Of Seriousness

CASTLETON, N. Y., Apr. 30.—(AP)—Somewhere in the mountains of Northern New York, Mrs. Anna Smith, 35, pursued her business of selling religious books and magazines yesterday while relatives tried to locate her to warn her that a dog which had bitten her in North Carolina had developed rabies.

The warning came first from a Williamson, N. C., minister, who learned that a dog which had bitten her at Roper, N. C., two weeks ago, had since shown evidence of the disease. Mrs. Smith was remembered only as "the woman who was selling books," but the "Seymour, N. Y., A. H. Marshall, finally ascertained her name and address.

He sent a telegram to Mrs. Smith at her home here, but it arrived just a few hours after she had left with her husband for the north country, some 200 miles away.

Mrs. Smith had not given her itinerary or the names of any places where she would stop.

The Albany Times-Union reported to the General Electric Company at Schenectady, and the message was broadcast from the company's station, WGY.

Marketing Conditions Here To Be Surveyed

F. W. Jones, of the Federal Farm Board marketing bureau staff will be in Sanford in a few days to make a complete survey of the citrus marketing situation here with the hope of bettering marketing conditions so that every grower here may be benefited.

Also at the educational department of the High School will be a representative of the United States Department of Agriculture, who will be in Sanford at the time of the citrus survey.

KILLED IN CATACOMBS FIRE IN EGYPT

Wooden Coach Ignited From Hot Box Train Was Moving Scores Are Injured

CAIRO, Egypt, Apr. 30.—(AP)—Forty-one persons were killed and scores were injured last night when the Cairo-Alexandria train caught fire from a hot box as the train sped along near the little station of Benha.

Officials of the Egyptian state railway were continuing today to search the right of way for the bodies of passengers who jumped from the three blazing coaches. Early reports placed the number of dead at three scores, but it was admitted that the casualties could only be conjectured until daylight makes possible an accurate survey.

The hot box developed beneath one of the third-class coaches and it was not noticed until the flames burst upward spreading quickly along the train. A signalman at Benha, first to see the flames, flagged the train down, but the general alarm had spread before a stop could be made and the frantic passengers leaped from windows in a scramble to escape.

The coaches were packed with holiday crowds enroute to Cairo from Alexandria.

Witnesses told of efforts of the passengers to attract the engineer's attention by waving garments from the windows.

At least 10 children were numbered among the dead. Only one foreigner, a French woman, was known to have been killed. It was expected that several of the more seriously injured would not survive.

The flames were fanned by the high speed of the train.

Welfare Worker Is In City Today Upon His Twentieth Visit

Major L. A. Odum of the American Rescue Workers of Jacksonville is in Sanford this week on his twentieth annual visit in the interest of rescue and prison welfare work.

Among other phases of service he stated today that his organization is conducting the most unique and far reaching prison welfare department in Florida, that is, to be found in the southern states, in that a chaplain is maintained who makes regular monthly visits to some 25 prison camps being conducted under the jurisdiction of the State Road Department, where religious services are conducted, reading matter distributed. Upon release, many of the men are aided towards reaching their homes, or in finding employment, he continued.

Major Odum stated that during the past six months his organization has fed from 300 to 600 men daily through a "bread line."

Queer Mishap Fatal To Mrs. H. L. Thompson

Struck across the chest by a wooden swing support which gave way under her weight, Mrs. H. L. Thompson, 30, a new-comer to Sanford, died this morning of internal injuries. Funeral arrangements were unannounced late today. The Erickson Funeral Home has charge of the arrangements.

Mrs. Thompson, who was the wife of H. L. Thompson, representative of the Keystone Laboratory, was born in Indiana. Her husband is her only survivor. They had taken rooms at the home of J. A. Scott, 417 West Nineteenth Street, and intended to make Sanford their home. They came from Orlando last Sunday.

FUNCHAL AGAIN UNDER FIRE AS TRUCE EXPIRES

Rebels Seem To Have Advantage As They Man American Long Distance Cannons

LISBON, Apr. 30.—(AP)—Fighting between the government expeditionary force and the rebels in the city of Funchal, Madeira, was resumed yesterday afternoon.

The Portuguese government warships were reported to have responded the bombardment of Funchal after a truce which began Tuesday afternoon, and landed forces on the island.

Earlier last night minister of Marine Admiral Correia, commander of the government expeditionary force at Madeira, was in communication with the government offices here by radio, but the tenor of the messages was not disclosed.

The belief prevailed, however, that the commander disclosed the conditions of surrender laid down by the rebels Tuesday night.

Day and night shifts began working here fitting the transport Gil Ennes for use as a hospital ship. The ship was originally scheduled to sail for Porto Santo May 5, but the sailing date was advanced and it was announced it would leave at the earliest moment possible.

The sudden decision to dispatch the hospital ship gave rise to alarming reports about the situation of the government forces at Madeira.

The government issued a note late last night declaring that the sending of the hospital ship was "merely a logical preventive measure."

Roosevelt Status Is Discussed After Action On Walker

NEW YORK, Apr. 30.—(AP)—The hearing which dismissal of the city affairs committee charges against Mayor James J. Walker might have upon his national political status was weighed yesterday by friends and opponents of Governor Roosevelt.

The governor, it was made known, will meet Alfred E. Smith, former governor, defeated for the presidency in the last election, and John F. Curry, leader of Tammany Hall, for an important conference, before he leaves New York Friday for Warm Springs, Ga.

That a clear and definite picture of Governor Roosevelt's status in the Democratic party might crystallize then was the belief of many observers. Two angles were being viewed, the presidential candidacy of Governor Roosevelt and his relations with Tammany Hall and the New York Democratic organization. Over both there has been concern since Roosevelt early in the year took a stand opposed to a program of the national Democratic committee sponsored by Smith and John J. Raskob, with little lines to indicate the variance of views had been reconciled.

Poison Death Of Pair Reveals Illicit Pact

CHICAGO, Apr. 30.—(AP)—While her husband and another witness watched helplessly, Mrs. Ralph Garrison, Kalamazoo, Mich., and a man police identified as J. H. Hartung, Dayton, Ohio, lifted glasses to their lips and drank the contents and then fell dead in their hotel room.

Witnesses said they believed Hartung had tricked the woman into taking poison and that he killed himself because of the projected reconciliation of Mrs. Garrison and her husband, Garrison, described as a wealthy business circulator, and as a sales manager for a garment concern.

Business In Southeast Seen As Improving Gradually By Federal Reserve Surveys

ATLANTA, Apr. 30.—(AP)—February and the middle of March by about the usual seasonal amount. In the iron and steel and automobile industries somewhat larger than usual increases were shown and at textile and shoe factories, where the number of employees ordinarily declines in March, substantial increases in employment were reported.

"There was a considerable increase," said the review, "in the daily average output of steel, which ordinarily shows a 10% increase from February to March, while production of automobiles increased by about the usual seasonal percentage. Activity at cotton mills increased slightly contrary to the ordinary seasonal movement and there was a substantial increase in the output of shoes."

The review said the increase in industrial activity in March over February was two percent. "The number of men employed at factories," the review said, "increased between the middle of

BUREAUCRACY OF U.S. DEPLORED BY SENATOR BORAH

Idaho Solon Sees Big Jump In Taxation If Trend Is Continued

WASHINGTON, Apr. 30.—(AP)—A warning that the federal government is building up a bureaucracy which will demand permanent increases in expenditures and taxation unless stopped by "angry public opinion" was issued yesterday by Senator Borah.

The Idaho Republican, in a prepared statement, said a large share of the blame should be placed on the executive branch of the government. He assailed what he called "an effort to put the side blame on Congress."

His statement was in reply to recent demands from President Hoover for reduced appropriations and the President's assertion no increase in taxation would be necessary if Congress kept expenditures within the budget recommendations.

During the last 10 years, Borah said, Congress has cut budget estimates by \$144,000,000.

"The fact is," he added, "that Congress is constantly being besieged by the executive departments for much larger appropriations than Congress is willing to grant."

Borah pointed out federal appropriations have grown from \$1. (Continued on Page 4)

Kiwanis Luncheon Featured By Talk Upon Bird Subject

An attendance of 98 per cent, and an interesting program arranged by Kiwanians Fred H. Wilson and Arthur Branson, were the features of the weekly meeting of the Sanford Kiwanis Club at the Montezuma Hotel yesterday.

What was said to have been the most entertaining talk ever offered by the local club, was delivered by Mrs. W. T. Hodson, of Clermont. Her subject, "Birds," was based on many years' experience as a student of bird life in many sections of the nation, and she stressed in detail the habits and life of many of the birds found in Florida.

Miss Helen Wilson rendered several piano selections as another feature of the program, while the Rev. Frank M. Marler brought hearty applause with two readings.

O. J. Hiett, of the extension department of Florida, spoke briefly on the opportunity afforded local residents in enrolling in the extension course since a branch school had been located at Orlando, and urged that Kiwanians assist in every way in the advancement of the work of the University.

A letter from officers of the newly organized Sanford Baseball Club asking support of the Kiwanis Club by attendance at games here during the summer months was read by Judge James G. Sharon.

Visitors present included H. K. Stokes, and ... of Tampa...

SENATE, HOUSE AGREE TO CUT COURT BOARD

Legislators Hold List- less Session With Little Work Done; Amos' Trial Begun

TALLAHASSEE, Apr. 30.—(AP)—Abolishment of the Supreme Court board of commissioners stood approved by the legislature today as the Senate concurred in a House amendment to the original bill to make the abolishment effective in November of 1932. This action topped off an otherwise listless session in both Houses.

The House passed a bill putting into effect a constitutional amendment, approved by the voters last year requiring that bonds cannot be issued by cities or counties without the approval of a majority of the qualified voters. Another House bill which passed would regulate the practice of dentistry.

Heading the bills introduced in the Senate was a measure to place state and county license and occupational taxes upon business and professions. It was introduced by Senator Gary of Ocala and is similar to one in the House.

The House received a bill to apportion state school funds on a teacher unit basis but it carried over without consideration on motion of Senator Fitch, chairman of the education committee which introduced the measure. Another bill in the House would prohibit persons from holding state and county offices simultaneously.

Representative Robines, Dade, chairman of the committee investigating the impeachment proceedings against Comptroller Amos, said the committee would start taking testimony later today.

Palmer, reared in a Baptist family, was received for baptism at a meeting of the board of deacons last week ago, and the arrangements were made quietly and privately.

Six deputies, driving in two cars, took Palmer from the county jail to the church last night, and few, even in the church membership, knew that he was to be baptized.

At the prayer meeting Dr. Duke spoke of the three major factors necessary for the success of church work, prayer, power and persistence. At the close of the service he announced that a young man would be baptized.

His audience followed him to the main auditorium for the baptismal ceremony lasting less than an hour (Continued on Page 4)

Federal Men Move To Drive Gangsters Out Of Caskill

CATSKILL, N. Y., Apr. 30.—(AP)—The federal government moved yesterday to aid the state in eliminating gangster activities in Greene county.

Three federal warrants, one against Paul Quattrocchi, lieutenant of the Jack "Legs" Diamond gang, and the others against persons said to have operated with him a huge Catskill mountain still seized several weeks ago, were issued by a United States commissioner. Quattrocchi is in jail on an assault charge, but the others were not in custody and their identity was not made known.

While Diamond lay in the Albany hospital cot he has occupied since he was shot down near here early Monday, Quattrocchi was arraigned on the assault charge. It grew out of an attack on Joseph Coghline, Oct. 13, 1930.

Federal agents here to investigate the beer racket told Attorney General Bennett there were 50 speakeasies in the town of Catskill and 85 in the village. Bennett said he had learned that on one occasion Diamond's gang shot up the headquarters of a fraternal organization here because the members had refused to buy the "right" beer.

Business Warned To Watch Government

ATLANTIC CITY, Apr. 30.—(AP)—Modification of the anti-trust law and a watchful guard against the encroachment by the Federal government in the field of private business was urged today by business leaders addressing the United States Chamber of Commerce.

Fred Bergant, president of the Chicago-Northwestern railway, emphasized that America cannot fully succeed if it is constantly subject to the fear of government competition. He expressed the belief that the bottom of the depression had been reached and that world economic forces were shaping upward. The main cause of prosperity would be found, he said, if the public became fearful that the government would destroy investments by establishing private competition.

Elated Over Prospect Placing Speedy Team Of Youngsters In Game Sunday

By FETER SCHAAL

PETER SCHAAL
Two more days of practice and I had yesterday afternoon I'll show you a baseball team that will be as good as any in the league, even if the team is made up of a bunch of youngsters," said Manager Ed Dickey this morning as he concluded his enthusiastic report on the progress which his nearly 30 charges made at practice yesterday afternoon at Municipal Park.

He gave the boys almost three hours of working out yesterday, starting off as usual with warm-up exercises, and ending with a long infield workout. Once again the enthusiasm featured the report, and once again it was stated that there is going to be a team for every position on the roster.

News comes to the park yesterday who drew considerable attention from players and spectators alike, was Lefty McLanahan, former Florida State League hurler who performed for Sanford not long ago. Lefty, bronzed by the sun and looking as fit as ever, was in the afternoon working some of the links out of that speedy right arm of his, and took several turns at the hot getting his arm accustomed to the ball. He said that he was practically in season condition already, and that he was entering into the season with lots of enthusiasm. He, with Col Dennis, the right-hander, will compose the pitching staff, the plan being to alternate them.

The fight is being waged for positions on the infield, and, when Manager Rive announces his opening line-up next Sunday afternoon, it is going to base it on performance at practice for the rest of the week. He has already intimated that he's got a surprise line-up in mind, but when he recalled it, the writer noticed that he certainly did hesitate when it came to naming infield players.

Bill Miles, the lanky plumber, has been going like a house afire at third base, and he is doing his best to prove to Sid that he should occupy that post for the rest of the summer. He has strong opposition from Eddie Deutch, George Deutch, and Roy Harrison, all of whom have taken turns at the hot corner. Another group of players who are hustling for a place at shortstop includes Jimmy Wright, the former Collins College star, John Edward Higgins, who once performed for Seminole High, and Leonard McLucas, Sanford's only all-round athlete. Just who will get the job there will not be decided until the last minute. On second base, Bookie Bach has given the best account of himself, although there is a strong possibility that McLucas or Deutch may beat him to the post. Bookie is one of the smoothest prospects in the lot, and should be a major-league second baseman.

The outfield position will be contested from the following players, each of whom has shown plenty of stuff since practice sessions began: Jim Spencer, Harold Poulston, Sam Avery, Frank Hunter, Fred Bolly, Bud Lake, Emil Ammon, John Weaver, and Roy Britt.

First base will be handled by Biggers until Jack Peters comes from the University, while Louie Lewis and Manager Rive will do the catching until Pete Schward gets back from school. Schward, Schirard and Pat Miller are expected to be in Sanford next Sunday for the opening game, and it is believed that as soon as they get back to stay, the club will settle down to a real collection of young players.

According to the Associated Press, the Big Six batting leaders include Davis, Philly Catcher, Berry of the Red Sox, and Rootger of the Reds. Our own unofficial averages, compiled each day, give them the batting averages claimed by the AP, but we do not feel that they are regulars in the sense that they have not played as many games as some of the others. However, if the boys are hitting good in early season games, let's give them the credit.

Did you know that only six big league clubs are playing their early season games without using rookies? They are Philadelphia, Washington and Chicago, Brooklyn, and Pittsburgh in the senior loop. So far, Vargas, Glantz, Vosmik, Indiana, and Levey, Brown, are the most outstanding of the rookies. The Braves have two rookies, Wilson and Worthington; the White Sox have three, Eichrodt, Simons, and Apping; the Phillies have Arlett; the Reds have Ojjas and Crabtree; H. Walker and Owen are the outstanding Tiger rookies; while VanCamp and Pichering are doing well for the Red Sox. Keep your eyes on the first three as well as Eichrodt and Apping. They are bound to hold their early season form, for they are playing under managers who are the best interests of youngsters at heart.

A friend of ours gave us a gentle razzing yesterday when news came in that the Robins had lost another ball game. He asked us how we could have ever picked such a club to win the flag when such good clubs as the Cards, Giants and Pirates were on tap. Well, we referred him to all but the last sentence of Grantland Rice's latest episode on the Robins and their troubles. Rice says in effect that there is too much good pitching and a ting ability on that club for it not to land them in first place. It was our opinion from the first that at last Robinson was not to grab a flag. He added O'Doul to the outfield, and took on a few more pitchers who had given good accounts of themselves. He already had a crack infield, but, not satisfied, he reached out and brought in Wilson, the Rochester whirlwind, and placed him on third. We felt, and still feel, that that collection of players was going to make a name for itself before the year was over. Remember, injuries have held the club back to a great extent, although injuries to legs and arms are no excuse, to offer for a few ivory domed players who are unable to run bases. Robinson now has all his regulars back in the game with the exception of Hendricks and Lucas, and we predict that even though they've got plenty of catching up to do, when September days draw to a close, the Robins will be in first or second place.

NEW YORK, April 15.—The city is going forward on a... At the same time that... the... offers hot dogs... made up at the price... five cents.

Also there are buses... traffic in Times Square... will take you to Coney... fifty cents, whereas only... ago it would have set you... dollar for the ride.

Yielding to public... opinion, I will say... that the clever young... designed the trick house... on a rootless tree... down to the Architectural... It is a very efficient... easy to keep free from... but so is the conveyor belt... of Mr. Ford's assembly plant.

The thing is three stories high... and has five rooms and a place... to look the Austin. The walls are... of corrugated aluminum and glass... but if your name happens to be... The carpets are of spongy... rubber and you wouldn't have a... chance in the world of lying out... of it to the wife if you happened... to spill a hot pipeful on the rug... The master of the house... sits in his aluminum easy chair... and see who is ringing the front... door bell through a periscope. This... keeps him from hoping for the... best.

The dining room has rub-... chairs and a table that can be roll-... ed up like a window shade. The... table is guaranteed not to roll up... during the soup course, but you... never can tell. ... of the American Newspaper... probably wonder what all this fuss... are making against the radio is about... the newspapers are considering the... of discontinuing the publication of... programs...

The newspapers of the country, together with the... of a non-profit organization composed of... newspapers, expend a vast amount of money every day in... the year in order to gather news from the far corners of... the world. Their representatives are to be found in every... village and hamlet in this country, in every country of the... world. No expense of telegraph or cable is spared so that... when an earthquake occurs in distant Burma or a revolution... in Afghanistan, the news is flashed almost instantly to... our New York offices and thence to the newspapers of the... country so that often within a few minutes after an... event has occurred every newspaper subscriber is reading... about it.

The collection of this news costs money. It costs a... vast amount of money to produce a modern newspaper and... put it on the streets. The fifteen cents a week which the... subscriber pays is scarcely sufficient to pay for the paper... which this news is printed on, the subscriber contributes... nothing toward the news itself. The expense of this im-... portant item must be borne by the advertisers, who are... benefited by the increased number of readers which the... perfected news system of this modern time is able to secure... for them.

But in recent years the radio has taken a prominent... place in the advertising world. The larger advertisers, no... longer devote their advertising funds exclusively to the... newspapers, but divide with the radio companies. These... radio programs are put to no expense whatever to advertise... their programs, which all too often include important news... of the day, the exclusive property of the newspapers and... gathered by them at great expense. No laws, cooperatively... speaking, restrict the radio broadcast, hinder announcements... from using the newspapers' news, or prevent them from ad-... vertising lotteries or such similar enterprises which are... tabooed for the newspapers.

The obvious result will be, if the present trend con-... tinues, that the newspapers will no longer be able to give... the public the same high class service to which it has now... become accustomed. Few newspapers have ever made money... if all day publishers' data is to break even. Some of them... can continue to play Santa Claus forever. If the advertis-... ers prefer other media for advertising, the newspaper can... do nothing else but restrict their service. "It was at the... meeting of the American Publishers," the Times-Union de-... clares, "that the most important action was taken to curb... the runaway proclivities of the new publicity medium."

The statement given out by the publishers, the Jack-... sonville paper continues, "that radio should be recognized... as a formidable competitor in news, entertainment, editor-... ials, features and advertising, meant a definite purpose... upon which to bring radio broadcasting under laws and... regulations which govern newspapers. The committee indi-... cated the necessity for conforming to Federal regulations... regarding lotteries, and to labeling advertising as such, and... to require the broadcasting companies to pay for the use... of news that had been gathered by the newspapers. This... is fair enough."

The committee warned the newspaper publishers... against allowing the radio of the future to develop un-... regulated, unrestrained, nurtured by press, assisted with... free publicity, receiving free news for which we pay vast... sums of money and otherwise being aided in its growth in... every conceivable manner by the newspapers. Colonel... McCormick, who presented the report, declared that "the... general principles of individual rights are under attack... all over the world."

It would seem that the publishers and the Associated... Press are now well convinced that the time has come for... insisting upon some regulation of the radio industry. Up to... now the newspapers have done everything to advance the... interests of this new enterprise, but it has responded by... taking advantage of the situation and is actually en-... croaching upon the field that well belongs to the press... Coming into the advertising and news-distributing business... with radio industry without attempting to conform to the... regulations and restrictions imposed upon newspapers, and... is even appropriating without even thanks, the news... which the Times-Union concludes, "the newspapers have... bought at great expense."

Comparable to the radio situation is a trend in a sim-... ilar direction which sees a certain legislative faction at-... tempting to abolish the publication of delinquent tax data... information to which the public is certainly entitled, and... to reduce by one-half the regular legal rate for the pub-... lication of legal notices, to a point materially lower than... that charged regular advertisers, and which faces an in-... creasing demand for free publicity without the compensa-... ting expenditure of paid advertising, an insistent demand... for lower advertising rates, and an interminable array of... methods of reducing legitimate newspaper revenues.

It does not take a crystal gazer to ascertain the re-... sult. The big newspapers will call in their correspondents... from distant places. Dotted stories will be cut from a thou-... sand words to five hundred, some will be substituted for... instead of paragraphs, features will be reduced, copies ob-... tained. The public news service which the reading public... has enjoyed for everlastingly will be seriously damaged.

George Knight And Miss Torrance Wed

The many friends of Miss Margaret Torrance, daughter of Mr. and Mrs. Hugh Torrance, 1217 Park Avenue, will learn with interest of her engagement and marriage to George Knight, son of Mrs. Edna Knight, 1000 Park Avenue, which took place in Orlando Tuesday afternoon. The ceremony was performed by the Rev. Melville E. Johnson, rector of St. Luke's Episcopal Cathedral. The couple was attended by friends from this city, and the marriage was kept a secret until last night. They are now on their way to New York City, where they will spend several weeks with relatives of Mr. Knight.

Miss Torrance, a member of the Episcopacy class at Seminole High School, has lived in Sanford for the past seven years, coming here from Charlotte, N. C., with her parents. Mr. Knight is a native of New Jersey, although he has spent the greater portion of his life here. He attended Seminole High School, and later, the University of Florida. For the past few months, he has been connected with a local insurance firm.

PARTY HINTS

Let the refreshment table present a surprising and cheerful aspect. Cover it with a plain white or pale tinted cloth. For the centerpiece make a base of crumpled crepe paper of a green service tray turned upside down. In the middle of this stand the guest of miniature May Poles.

There are several ways of making the May Pole. It may be an eighteen inch length of broom handle for which Big Brother or Dad has made a small holder, and is painted brown, black or white. Or a large white candle, or tall striped stick of candy will serve the purpose.

Fasten one half inch strips of pink, yellow, lavender and green crepe paper to the top of the "pole" with melted paraffin, or a string of beads.

Put one to each child's place and fasten to a May basket of hard candies. A tinted tissue paper butterfly perched on the handle of each basket will add to the festive, springtime appearance of the table.

Use pink or yellow crepe paper napkins to save laundry as well as help to make the table attractive.

Tomorrow: Choosing the May Queen.

A CORNER DONE MODERN

The treatment of the large window forming the background for this simple arrangement of modern furniture cleverly injects action, although the motif of the curtain is similar to the decorations of the ancient tombs of the Pharaohs.

Social Department Of Club Entertains

Those attending the bridge party given Tuesday afternoon at the Women's Club by Mrs. W. C. Erickson and Mrs. E. H. Laney for the members of the Social Department of the Club stated that it was one of the most enjoyable affairs given this year by that department. Contract and auction bridge were enjoyed during the afternoon and prizes were awarded to Mrs. R. A. Newman and Mrs. A. T. White. Mrs. Newman held high score among the contract players while Mrs. White had high score among the auction players.

Forming a suitable and attractive setting for the nine tables of players were the quantities of gladioli, pansies, roses, call lilies, snap dragons and other bright colored spring flowers arranged with fern in vases and bowls. The tables and other bridge accessories more designs of flowers in

harmonizing shades.
