NEW PLAN CALLS FOR A REVISION OF CLASS RATES

Chairman Eastman of the Interstate Commerce Commission Recommends Very Sweeping Changes in Present Class Rates

(By The Associated Press)
WASHINGTON, Mar. 18.—A general plan of readjustment of class rates in the territory and between that territory and official classification territory was recommended to the Interstate Commerce Commission by Commissioner Eastman, in a proposed report covering the commissioner's southern class rate investigation. The commissioner suggested that a period of 30 days be allowed for the filing of exceptions to his plan before action is taken by the commission.

Commissioner Eastman's proposal embodies a plan for revising all of the interstate class rates and suggests the basing of these rates applications upon a single distance scale. Recognition is given to certain local differences in transportation conditions by the use of "constructive" mileages, lower or higher than actual mileages, for certain hauls.

Held Prisoner

For three days, William C. Gates was held prisoner in a "torture house" in Louisville, Ky. Bound hand and foot by strands of rope fastened to the floor by heavy staples, he saw his captor, Richard H. Heaton, wealthy Louisville broker, preparing to perform an operation that would have maimed him for life, if it had not brought his death. With almost superhuman strength, he finally succeeded in freeing himself, obtained a revolver and killed the broker.

Soldiers' Bonus Bill Passes House By Majority Sufficient To Indicate Its Passage Over Presidential Veto

(By The Associated Press)
WASHINGTON, Mar. 18.—The house Tuesday passed the soldier bonus bill by a majority sufficient to indicate it could be passed over the presidential veto. The vote followed a brief debate.

WASHINGTON, Mar. 18.—Proponents of the new soldier bonus bill which will be voted on Tuesday by the house, Monday night confidently predicted its passage. The measure, providing for paid-up 20-year endowment life insurance policies and cash payments to veterans not entitled to more than \$50 in adjusted service compensation, nevertheless, came in for a bitter attack on the floor Monday by advocates of the full cash payment option.

Chairman Green of the ways and means committee which framed the bill, defended it, declaring he had been assured by American Legion officials of Iowa, his home state, that the insurance provision was satisfactory.

Under the agreement by which the bill will be taken up Tuesday, debate will be limited and amendments prevented, although a two-thirds majority will be necessary for adoption.

Members therefore, took advantage of opportunities to speak during the general debate on the navy appropriation bill directing their remarks to the bonus.

FEDERAL TRADE COMMISSION TO BE RESTRICTED

Supreme Court Rules Commission Can't Go On "Fishing Expeditions" In Search For Evidence.

(By The Associated Press)
WASHINGTON, Mar. 18.—The Federal Trade Commission cannot go on "fishing expeditions" in a search for evidence, the Supreme Court held Monday in an opinion delivered by Justice Holmes to which no dissent was noted.

Referring to the fact that the commission must have some definite foundation for its inquiry the court asserted Congress never intended to give the commission authority it claimed in the matter of search.

Some ground must be shown before the commission is called for to conduct a search, Justice Holmes said, "the Congress intended to authorize one of its subordinate agencies to sweep all our traditions into the fire, or to direct fishing expeditions into private papers in the possibility that they may disclose evidence of

Reports of "deals" were current in the senate before and after the last rejection and these were said to have influenced finally the repeated but unsuccessful attempts of Senator Moses, of New Hampshire, and Senator Jones, of Washington, Republicans to make the secret vote public. Geneva Enjoying A Building Boom

There was never a time in the history of Geneva when there was as much activity in the progress of building and general improvement as at the present time. The Community Club started the work with cemetery improvement in general. A park was purchased, civic work was carried on and other organizations became enthused with the club women's efforts.

A large new school house is under construction with four large rooms which will accommodate 200 pupils. It includes a large auditorium for public entertainments and concerts. With a new club house and public library this city can justly claim the name of Progressive Geneva.

WALTER COHEN

(Continued from page 1)

His name was sent in the second time Dec. 6, 1922 and rejected Mar. 1, 1923. Another recess appointment kept him in office until Dec. 10, 1923 when President Coolidge sent the nomination in for the third time only to have it rejected Feb. 18, last by a scant two votes.

The statement then was made at the White House that Cohen would be kept in office without pay. As a result of Monday's action, he will draw back pay, according to senate officials, from May 12, 1923, the date of his last recess appointment.

CHULUOTA INN REPORTS GOOD BUSINESS YEAR

Now Maintained as a Year Around Hotel and is Popular With People of Neighboring Towns As Well As Tourists.

Chuluota Inn reports a most prosperous season with great activity. During the winter months many visitors have been the guests of this popular hotel. Many of them have left for their homes in the North, but the Inn continues to be the center of a group of charming guests, including Mrs. George Morgan, of Kansas City, and Mrs. Baxter, of Norfolk. Mr. Miller, a guest at the inn, states that he plans to improve his grove lands this year by planting citrus trees.

As Chuluota grows, the Chuluota Inn increases in popularity. Today it has a wide reputation and is considered in a class by itself. Under the personal management of Mrs. Charles Brumley, wife of the agent for the Florida East Coast Land Company, this popular hostelry continues to increase in popularity, its guests doing their part to tell the world of it.

The Inn is maintained as a year around hotel and many week-end parties from Orlando, Sanford, Winter Park, Daytona and other points in the state find pleasure and entertainment over Sunday at the Chuluota Inn. The special Sunday dinners are widely noted and every summer hundreds motor out to enjoy them.

In the South Eastern portion of Seminole County on the Florida East Coast Rail Road from New Smyrna to Okeechobee is now being developed by the industrial department of the Florida East Coast Railroad. Situated among the hills, lakes and pines it offers to the homeseeker, the truck and citrus grower many advantages not often found in any one section. The Florida East Coast Railroad is now extending its line through Chuluota connecting with the main line for Miami and Cuba and all points south. This connection gives quick and through service, via Jacksonville, to all points north, east and west. The company has built one of the most handsome and most modern, fire proof hotels that any town in Florida can boast of today. Under the able management of Mrs. Chas. Brumley, this hotel has obtained a wide reputation and is patronized by many clubs and social parties from nearby towns who come to enjoy the elegant cuisine and its pleasant surroundings. Sanford Daily Herald

It Might Be Good For Sanford.

Early in the spring of 1923, members of the Clarinda Community Club, of Clarinda, Iowa, became interested in the idea of making their already attractive little community more beautiful.

The town was divided into nine districts, says the American City magazine and each district was assigned to a committee of the Community Club, whose first duty was to make a canvas of the residents to secure their enrollment in the competition.

In the work of beautification of Sanford why wouldn't it be a good idea to conduct a contest of this kind? In all probability it would tend to create rivalry in making different sections of the city the most beautiful and the result would be the making of Sanford a more attractive spot.

Still A Great Fire Hazard.

A report recently issued by the National Board of Fire Underwriters says that fire losses in the United States in 1922 totaled \$506,541,001 and exceeded by millions the amount of the nation's personal income tax receipts for the same year.

The responsibility for \$25,776,951 of the loss is placed on the shoulders of the careless smoker. The greater number of fires was caused by cigars or cigarettes carelessly handled.

The Herald wishes to emphasize the importance of great care being taken here in Sanford. While the city is putting in an adequate water system and while ample fire protection will soon be afforded property owners, still the fire hazard at this time is great.

There is little likelihood that a fire will originate in furnaces or stoves because they are not used to any great extent in this climate. However during the cold days oil stoves and heaters of all kinds and makes are in use and a word of warning now might not be amiss.

It is impossible to be too careful in matters of this kind. Fires start easily and spread quickly. A small fire now will develop into a serious conflagration in a few minutes.

Chuluota, Geneva and Oviado.

The attention of readers of The Herald is called today to Chuluota, Geneva and Oviado. A special page of news matter and advertising appears in this issue of Seminole county's daily newspaper and it is hoped will become a regular feature of the paper appearing in the Tuesday issue.

Seminole county is composed of fine communities each contributing their share to making it the important and substantial county it is known to be. In the publication of special pages from the county sections The Herald hopes to assist in bringing the value of these prosperous and rapidly growing sections to its readers.

Interesting news matter will be found each week on the Chuluota, Geneva and Oviado special pages. Read them and keep informed of what is going on in the rest of the county.

NOW, I AM a good party man, but I am an American first. When we come to questions affecting the vital principles of American life, I know no party. When such a question as corruption is involved, we can not afford to divide on party lines. I take just this much account of party in such a case.

"GOD MOVES in a mysterious way his wonders to perform" was the first message flashed over a telegraph wire. A few days ago the first radio broadcasting program was broadcast across the Atlantic.

THERE IS ENOUGH building material available in Florida today to construct two cities the size of New York and put roofs over twenty millions of people.

DENBY AND DAUGHERTY ASHEVILLE CITIZEN

The principal reason why Secretary Denby resigned was that he was out of sympathy with President Coolidge on the question of oil-land leases. When it became evident to Mr. Denby that he was defending an official act of his which the President could not defend, he got out.

The principal reason why Attorney-General Daugherty remains in the Cabinet is that he, too, is out of sympathy with the President's views, this reason supported by the other vital one that the President does not see fit to remove an Attorney-General in whom the people have lost the little confidence they ever had.

IN CHIEF JUSTICE WILBUR, of California's Supreme Court, the President has selected an able man, whose environment has been California, looking out toward the Pacific Ocean and what lies beyond.

President Coolidge's selection is a good choice, and good politics. If the President wins in the next election, he will have to beat California's favorite, Hiram Johnson.

NEW YORK'S gas and electric light companies plan to buy the Chicago & Illinois Western Railroad to insure a coal supply. No-body says to them "YOU CAN'T MANAGE RAILROADS. ONLY BORN RAILROAD MEN CAN DO THAT."

RAILROADS ARE doing well. The Southern Railroad, that fell to \$1 a share, now pays five per cent dividend and sells at fifty-five, 100,000 shares being bought in one day.

MRS. ELINOR GLYN, with her equally charming young daughter, Lady Williams, leaving for California, says of America's beautiful prohibition: What do parents expect from children when they break the law before them in their own houses?

THE GREAT-telephone monopoly says it doesn't, after all, claim exclusive possession of the ether, reserving itself all radio rights from the surface of the United States right up to the blue star Vega that shines every-night straight above telephone headquarters.

IF YOU were wise enough not to gamble in francs by selling short, continue wise and don't gamble on the "long" side. It's dangerous business either way. In Vienna they sold "short" ten times as much French money as there was in all Austria.

A STATE legislator introduces a bill to punish parents of wayward children, hoping to make parents pay more attention to their children's conduct. That is upsetting the old Bible teaching with a vengeance, visiting sins of the children upon the fathers and mothers.

MUCH MORE valuable than punishing parents for children's misdeeds would be clinics in every important locality to treat children for gland diseases or "disturbance." A good mind goes with good endocrines. That's the modern scientific statement, and TRUE treatment for gland trouble in childhood would have kept 60 per cent of all prisoners out of prison.

A LEARNED Australian says world-wide prohibition is coming. It causes such great economic, such tremendous prosperity that all the world—this Australian says—will have to adapt prohibition if the thing succeeds in the United States.

YOU CAN'T help admiring the energy of Standard Oil. It is digging wells inside the Arctic Circle merely to make sure the oil is there. For the present it is useless. A pipe line would cost fifty millions. It is fighting for its share of oil in Mesopotamia, in China, all over the world, and even at the edge of the Red Sea, where the waters were divided in that interesting manner.

Dan Dobb Says

A great demand for politeness is being caused by its shortage. In Reading, Pa., a street car ran into a house, so now the company must pay as it leaves. If every day was Sunday we would all be killed and injured soon. A wise man never slaps his wife or selects the new wall paper. When a move plot is used for the first time in several months it is called an epic.

HUNT'S WASHINGTON LETTER

BY HARRY D. HUNT, NEA Service Staff Writer. WASHINGTON, Mar. 18.—The great golden piano in the East Room of the White House never poured forth more golden tones than it did the other day when Mrs. Coolidge was hostess at the first of a series of Lenten musicales she is giving for official and social Washington.

The artist of the afternoon was none other than Sergei Rachmaninoff, Russian pianist who has the musical world by the heels just now. Members of the cabinet, the supreme court and the diplomatic set, with their wives and others to the number of 400, tried to forget for the moment the strident discords that have been shredding the atmosphere of the capital since the Senate investigators got going.

Additional cause for congratulation was the fact that the recital, with its beautiful music, was absolutely without cost. The hot polloi who heard Rachmaninoff's concert elsewhere each had to dig up from \$1.40 up.

Family dignity is nowhere held more dear than in staid old Massachusetts, "the home of the bean and the cod," where the Puritan ancestors of Calvin Coolidge and Burton K. Wheeler first made their abode.

So it was altogether in keeping with tradition and propriety that the relatives of Senator Wheeler, following his recent attacks on the administration of his former fellow statesman, should hold a family conference to decide what was to be done about it.

Young Wheeler, it appeared, since leaving Massachusetts and getting himself elected senator from Montana, had absorbed a lot of "wild" ideas. He was airing these in the Senate. Dreadful!

Sanford's Forum

Editor The Herald: I see by your issue of 14th, inst., that the Program for Improvement of Old Roads submitted tentatively by the Chamber of Commerce Good Roads Committee does not include the public county road running from Monroe to the intersection at Sylvan Lake of the brick road to the Welvia river and new asphalt road by way of Paola and Twin Lakes to Sanford.

I presume that this piece of road was not called to the attention of the committee and was overlooked. Its improvement is necessary in order to connect up the road from Rand's Siding to Monroe and complete the circle drive by way of Paola and Twin Lakes back to Sanford.

Its improvement is also necessary to keep the traffic and travel from Lake county coming by way of Seminole county to Monroe bridge, as it shortens the distance and will retain travel to Seminole county that otherwise will go by way of Crown Bluff and DeLand, cutting out Seminole. The improvement of this few miles of road is also necessary to properly develop the country through which it passes, one of the finest flowing well sections of the state, and affording the only outlet to the Blackman Range known as the Blackman Range.

Judging by the current news, that's a considerable IF. YOU CAN'T help admiring the energy of Standard Oil. It is digging wells inside the Arctic Circle merely to make sure the oil is there. For the present it is useless. A pipe line would cost fifty millions. It is fighting for its share of oil in Mesopotamia, in China, all over the world, and even at the edge of the Red Sea, where the waters were divided in that interesting manner.

RIBAUT MONUMENT AT MAYPORT

Jean Ribaut, a French navigator, was sent out in 1562 by Admiral Coligni, of France, to find a colony for Huguenots. So the religious persecutions, from the religious persecutions that were meted out to protestants in every country at that time. Coligni, commander of the protestant religion, fitted out the expedition, he being a man of position and means.

Ribault sighted land just north of St. Augustine and coasted up to the mouth of a large river, now the majestic St. Johns, which he entered, landing on the south side where the colonists disembarked, held prayers, and set up a marker claiming the territory in the name of France. Some historians say the marker was a cross, others give a cut showing a quaint column bearing the coat of arms of France on a shield. Ribault called the place "Matte Fort" as the landing was on the first day of May, 1562. St. Augustine was founded in 1565, Jamestown, Virginia, in 1607, and the Pilgrims arrived at Cape Cod, 1620. (Woodrow Wilson's History of the American People). So this Mat Port landing, (now spelled Mayport) antedated all these historic spots.

It is this Ribaut marker that the Florida Conference Daughters of the American Revolution desires to replace. It is of historic interest to the entire country, as the first coming of the French, and the first landing of Protestants, on this continent. This week was inaugurated by the Jacksonville Chapter, which has in hand a fund of two hundred dollars, and has promised another hundred to this monument. The Florida Historic Society, Mr. Arthur T. Williams, president, has sent check for twenty-five dollars. At the state conference, D. A. R. at Orlando the Jacksonville Chapter presented the

BON TON BRIDGE CLUB

The cozy home of Mrs. James Ridge was the scene of a very pretty party when she entertained the members of the Bon Ton Bridge Club.

Quantities of larkspur in the various shades of purple were effectively used in decorating the rooms where the card tables were placed.

Of exceptional interest was the game of bridge played during the afternoon, when scores were counted, the prize for high score, a dainty crocheted apron went to Mrs. J. D. Woodruff.

Refreshments of creamed chicken in pastas, olive sandwiches, and hot chocolate were served at the conclusion of the card game.

Mrs. Ridge's guests were Mrs. Ben Caswell, Mrs. Ed Betts, Mrs. J. D. Woodruff, Mrs. Robert Hines, Mrs. Joe Chittenden, Mrs. W. W. Potter, Miss Fern Ward and Miss Helen Gonzalez.

PIPE ORGAN CLUB

The Pipe Organ Club met with Mrs. J. G. Sharon on West Tenth Street on Monday afternoon. The large rooms were opened in suite and spring flowers were used to advantage. The hostess, Mrs. Wheelis served a delicious salad course with coffee. The next meeting will be with Miss Jeanette Laing on Oak Avenue.
