AMONG THE THEATRES

Chit-Chat of the Play Houses in Sanford

The Wonderful Blanche Sweet

A thrilling story of a struggle for political freedom in Russia is the Jesse L. Lasky production of "The Sowers," which will be seen at the Star on Monday, April 10th, with the photodramatic favorite, Blanche Sweet, in the stellar role. This intense play is founded on Henry Seton Merriman's novel of the same name, and has to do with the efforts of a prominent Russian prince to free the peasants from the bonds of slavery. How the secret police are prevented from discovering the plot by a beautiful member of the royal household, in love with the prince is graphically depicted. Miss Sweet is supported by a cast of unusual excellence, including Thomas Meighan, Theodore Roberts, Mahel Van Buren, H. B. Carpenter, Ernest Joy and other members of the Lasky all star organization.

Rupert of Hentzau

While Queen Flavia ruled in Kurintania, her heart was in the keeping of an Englishman who had been crowned with her at a time when the rightful king was held a prisoner. Because this good woman could not live to see her love fulfilled she wrote a letter that fell into the hands of her bitterest enemy. Just what means were taken to prevent the missive from reaching her husband will be reflected in the stirring drama under the title "Rupert of Hentzau," which will be exhibited at the Star Theatre on Saturday, April 8th. The loyal members of the queen's household were put to the severest test to protect her integrity and thwart the schemers who threatened her happiness. The complete story

of "Rupert of Hentzau" constitutes a film that should not be missed by those who enjoy fine acting and an inspiring love story.

Pauline Frederick Denounced From Pulpit

Can there be anything more humiliating, more crushing, than for an innocent girl to be forced to sit in church and be made the subject of a scathing, bitter denunciation from the pulpit? Because of her very unsophistication she has been unwittingly led into a compromising situation, and now the accusing finger of the minister points scornfully at her as a horrible example to the young girls of the community!

That is one of the great scenes in the Famous Players Paramount adaptation of Mary Johnston's celebrated novel "Audrey," adapted for stage production by Harriet Ford and E. F. Hoddington, in which beautiful Pauline Frederick is being starred at the Star tonight. It is a different role from those which have won Miss Frederick her title as the greatest dramatic actress on the screen, for Audrey is a bare footed girl of the woods—a glorious child of Nature, with never a thought of her physical charms.

THE ELEPHANT BONES

Found in the St. Johns River Should Receive Farther Attention

That the elephant bones found several months ago in the St. Johns river near here by the fishermen employed by J. E. Vincent and brought to The Herald office for exhibition

and afterward sent to the Florida University by C. M. Berry are an important find is true.

Not that they are worth any special amount of money to any one finding more of them but they are worth a great amount to science and in the interest of science there should be another search made for the remainder of this prehistoric monster. The finding of the bones and subsequent investigation has aroused much interest in scientific circles over the state and the fact that the bones were found in the St. Johns river farther south than these mastodons were supposed to roam gives rise to many stories and much speculation as to whether they roamed in this country at will or came this far and were lost or overcome by glaciers.

The following letter was received by Mr. Berry from the curator of the Florida State Museum of the State University:

Gainesville, Fla., Mar. 23, 1916. Mr. C. M. Berry, Sanford, Fla.:

Dear Mr. Berry: Yours of the 20th with data of the elephant bones just received; thanks. I have changed the record and enclose you a new receipt. I agree with you that it is quite probable that if not the entire skeleton, at least more bones can be found there. While it would hardly be worth the expense of any one going from here to do the work (and we have not the funds to do it with either) yet I would think that it might be possible to arouse sufficient local interest to do something towards it. If the water is not too deep, oyster tongs might be used to a good advantage or an iron pipe with drag hook attached, drag over the bottom behind the boat might locate them. Some teeth would be especially desirable as those are necessary to correctly determine the species.

Kindly thanking you for the past interest and any future interest you may be able to arouse in the matter, I am,

Very respectfully yours,
F. Van Hyning
Curator

OFFICERS INSTALLED

Elks Lodge Holds Most Interesting Meeting Wednesday Night

Sanford lodge No. 1211 R. P. O. E. held a most interesting meeting last Wednesday night, being the regular installation of the officers recently elected for the ensuing year. Past Exalted Ruler, R. L. Peck acting as Grand Exalted Ruler and O. J. Taylor acting as Grand Engineer installed the following officers:

- Exalted Ruler, J. G. Hayes
- Esteemed Leading Knight, E. F. Householder
- Esteemed Loyal Knight, D. G. Monroe
- Esteemed Lecturing Knight, O. P. Herndon
- Secretary, C. W. Hayes
- Treasurer, L. P. McLaughlin
- Editor, E. B. Roberts
- Trustee, J. E. Vincent

After the regular business of the lodge was completed a banquet was served in the parlors and the members of the lodge enjoyed a pleasant evening. The Sanford lodge now has two hundred active members and in a few months expect to be in their regular new building on Park avenue south to become the handsomest L. K. lodge in the state.

CURBSTONE GLEANINGS

BUDGET OF OPINION "JUST BETWEEN YOU AND ME."

EVEN THE GATE POST NOT IN IT

A CHIEF IS AMONG YE TAKING NOTES AND FAITH. "HE'LL PRENT 'EM"—SO SAYS SAUNTERER.

Every up to date city in Florida and other states has come to the conclusion that there must be something doing all the time to keep life in the city and bring people from a distance. You can hear of this city and that city having attractions on the streets and carnivals and every kind of amusement to draw the crowds and it is a cinch these cities would not spend their money unless it was coming back to them in big chunks of new business. Several cities in Florida this week and next expect to have aeroplane flights costing hundreds of dollars with the idea in mind of bringing the people in and showing them the stores and making them feel at home. Our little affair of several weeks ago demonstrated that even our own people want a different form of amusement and like to gather together once in awhile for a big time. Now with that idea in mind for the summer months I want to call the attention of the people of Sanford to several things for the summer. We must have a municipal band, aided and assisted by the city council and the people of Sanford. The band is a valuable asset and should be encouraged. We must have a good ball team, for right now every little cross roads town in the state is organizing a "league" to play ball and you all know that when we were really playing ball there was something doing those days in the good old summer time. We must also have a Fourth of July celebration and on that day play two games of ball with Orlando for I would sooner see a game of ball between Sanford and Orlando than to witness one between New York and Philadelphia.

It is a good idea with our organization that they would sooner go away in the summer and spend their money than to stay at home and cannot blame them any when we go to sleep and wake up to find our formal amusement here. But that we can amuse them is very apparent and we can amuse them with plenty of hand concerts, plenty of good ball games and a big celebration from time to time. If a street dance and band concert every Saturday night is good for neighboring cities it will certainly be good for our own city and the people who leave here now to be amused by some other city would stay here if

we did something to keep them here.

Now I want the folks here to study over these problems and get together on the proposition that they have the greatest city in the state for amusements and especially summer amusements, for with our bulkheaded lake front, the yacht club that will soon be formed and boat races and all kinds of amusements we can have the people coming here instead of going to the beaches during the summer months. I will put Sanford against the state for actual comfort in the summer and just why our business men cannot see the point and get busy on the proposition is beyond me. Instead of raising so much fuss about winter tourists here we should raise a little fuss about summer tourists and we can get them. The Clyde Line will soon start the summer excursions from New York and the officials tell me that the rates this season will be most attractive and that their line expects to land thousands of people in Sanford this summer. Think of this, you men of Sanford THOUSANDS OF PEOPLE COMING HERE IN THE SUMMER AND NO AMUSEMENTS TO HOLD THEM HERE FOR A FEW DAYS.

Why, folks, we have something that other cities in Florida would give any sum of money to possess. We have the golden opportunity of having a summer colony, a summer resort as well as a winter resort and while the winter cities of Florida are taking a nap we can be making hay while the summer sun shines.

I want to tell you that Sanford is just now on the eve of a great awakening. It is a matter of going after the business and it is yours for the asking but you must help get it and only a concerted effort will every line will mean it possible. For the sake of peace, stop taking politics long enough to build a city, here and get what is coming to you. We can get out and talk politics by the hour and become so confused that we almost fight over a piece of petty politics and yet I fail to see any of these savors of our country getting half as busy with home affairs. It honestly makes me sick at heart to see so many of our real men go crazy about politics and spend all their time over the game and they will not even become interested in Sanford.

Now I want all of you real men of Sanford to take this thought with you. Either get busy with REAL BUSINESS FOR SANFORD THIS SUMMER or else acknowledge that you are a bunch of street corner politicians and spend the rest of your days whittling and talking and putting out for some other city, take what a right it costs.

COUNCIL MEETS

City Fathers Hold an Important Meeting

City council of the city of Sanford, Florida met on the 3rd day of April, A. D. 1916 at 7:30 p. m. Present R. W. Herndon, president, C. H. Dingee, W. W. Abernathy, F. L. Miller, John Adams and R. A. Newman. Absent, D. G. Monroe. Minutes of the previous meetings read and adopted.

Communication from Mrs. Fernald, relating to interest on vouchers was read, and on motion, carried, and clerk was instructed to assign interest voucher to Mrs. Fernald.

Communication from F. A. Swan in regards to delinquent taxes on city property was read, and clerk instructed to notify Mr. Swan that they could give no relief.

The president of the council here appointed R. A. Newman a member of the finance, street and sanitary committees.

Communication from B. S. Cattlett in regards to payment of city vouchers was read. Clerk instructed to notify Mr. Cattlett to forward his vouchers through the bank.

Communication of Randall Turner in regard to the assessment of his property was read and clerk instructed to notify Randall Turner that the city could give no relief at this time.

Tony Fesulo came before the council and asked that he be allowed to fence up certain property in the city. Same was referred to Mr. Dingee for attention.

On motion, carried, clerk was instructed to draw voucher in favor

of Roy Tillis, for \$10.00 for attorney's fee, he having been prosecuted by the county for having made an arrest by force in the discharge of his duties as city policeman.

On motion carried, the pound master's salary is raised from \$60.00 to \$75 per month.

The clerk was instructed to draw voucher in favor of Mr. Wray, for \$1.20 to reimburse him for overcharge in taxes.

On motion carried, the tax books will be kept open and the time for paying taxes is hereby extended to April 30, 1916.

Motion, carried, approaches will be put in at intersection of 8th and 9th streets.

An ordinance amending Section 279 of the revised ordinances of the city of Sanford, Florida was placed on its first reading and passed.

Moved and seconded that it be read by title only and placed on its second reading: Ayes B. W. Herndon, C. H. Dingee, W. W. Abernathy, F. L. Miller, John Adams and R. A. Newman. No's, none. It was read by title and passed. Aye's B. W. Herndon, C. H. Dingee, W. W. Abernathy, F. L. Miller, John Adams and R. A. Newman. No's, none.

It was moved and seconded that the rules be further waived and that it be read in full and placed on its third reading and final passage. Aye's, B. W. Herndon, C. H. Dingee, W. W. Abernathy, F. L. Miller, John Adams and R. A. Newman. No's, none.

The report of clerk and collector was read showing collections for the month of March as follows: \$11,129.23.

The treasurer's report for the month of March was read showing balances as follows:

Cash on hand March 1 1916	\$ 215.05
Received from collector	11,129.21
Vouchers paid	3,632.59
Interest paid	79.74
Balances on hand	7,661.99
Sanitary inspector's report showing sanitary tax collected \$149.00	
Chief of police report for month of March 1916, was read as follows:	
Number of arrests	82
Discharge	10
Furnished over to county	1
Expenses to Mayor	\$516.50
Board fees	65.25
Expenses	14.00
	\$626.75
Receipts on streets	5.00
Receipts to collector	621.75
To balance	\$626.75

Report of fire chief for the month of March was read and ordered filed.

All claims against the city were audited and vouchers ordered drawn for same.

REFORMING PRISONERS

Farm Where They Can Be Rejuvenated After Prison Life

Adjutant J. A. Odom, Vanguard and State Secretary of the Volunteers of America, who is commended by General Ballington Booth, son and daughter-in-law of the late General William Booth, founder of the Salvation Army, was a visitor to this city this week in the interest of a cause which has for its purpose the reform and uplift of the entire prison population of Florida.

It will be remembered, however, that Mrs. Maud Ballington Booth, with headquarters in New York, and who has resided there for some thirty years is generally recognized as the world's greatest prison worker and reformer, and the very fact that this state wide campaign is under her leadership and supervision is sufficient guarantee that it will prove a blessing to Florida's prisoners and fill a need that has seemingly been overlooked heretofore.

The work to be done in this state will consist of a farm home, which is being opened at Brooklyn, a little town near Palatka on the G. S. & F. R. R. where released prisoners will be received and assisted with food, lodging, medical treatment and work until permanent assistance can be secured for each individual according to his ability.

When a man comes from prison his friends of the past, in most cases, remain of the past, and his friends of the future are such as his life shall entitle him to.

The purpose of this home is to help each man, morally, spiritually and mentally, which can and will be done by throwing the proper environments around him. In connection with this farm home an employment agency will be conducted. The farmers, stock growers and public works and various enterprises will be kept in touch with, thus enabling the organization to

properly place each man where he can earn a necessary livelihood and living wages.

Adjutant Odom states that regular visits are being made by him and his co-workers to the various farms, turpentine camps and institutions where our state prisoners are employed, where religious services are conducted and reading matter distributed at regular intervals among an army of some 1,600 or 1,800 convicts, and it is very gratifying to know that much good is being accomplished in this way, as the majority of the prisoners are a kind hearted and sympathetic class of men and not a set of criminals, as many of us are inclined to believe, but the most of them realize, however, that they have made a mistake and they are sorry of it and they are trying to atone for their shortcomings by accepting a higher plane of living.

The majority of us think that men in prison are hard hearted criminals, but the writer of this article who has visited hundreds of prisons and has studied the lives of thousands of their inmates declares that not many men are criminals at heart, but simply victims of circumstances. The majority, if not all men in prison, hate crime, whether it be committed by us against them or by them against us, and because they committed some offense against the laws of our land and country at some time or other do not signify that they prefer leading a wrong life. Many of these men are weak creatures, and while under influence of the wrong delusion committed that which they ordinarily do not desire to do.

The purpose of the Volunteers of America is to encourage this great army of humanity to reform and thereby prepare them for better citizenship, and this home at Brooklyn, located in the southeastern corner of Bradford county on Bradford Lake will be conducted as an institution especially for the placing of released prisoners on their feet, many of whom when released are at a loss where to go and what to do. A man in prison for ten or ten years or longer will naturally deteriorate in body and mind and he naturally comes out a weaker man than he was when he first entered the prison, and he is more apt to be a stronger brother, and for this reason an organized effort is being made to make these men feel like men, as worth living, though they may have made a mistake.

The farm home to be conducted at the non-mentioned above can always feel that they have a place to go, even if they have been forsaken by friends, relatives and loved ones.

Anyone feeling disposed to assist this cause could do so by contributing cash, food, clothing, farm tools, building material, in fact, anything that could be utilized in work of this kind. Address, Adjutant J. A. Odom, Officer in Charge, P. O. Box 421, Palatka, Fla.

INSURANCE MEN MEET

Program Has Been Arranged for Annual Convention, April 13 and 15th

The Florida Local Underwriters Association has prepared an interesting program for its annual meeting which will be held this year in St. Petersburg, April 13 and 14. The Association will continue in the W. F. I. building and the program of the sessions will be as follows:

Thursday, April 13
Morning Session 10:30 a. m.
Call to order by president, Hon. H. J. Drane.

Address of welcome, A. P. Avery, St. Petersburg.
Roll call of members.
Response, Hon. J. E. Crane, Tampa.

Annual address by the president.
Report of Secretary and Treasurer, Harry H. Root, Plant City.
Report of special committees.
Adjourn until 2:00 p. m.

Afternoon Session
Address by Hon. J. C. Luning of Tallahassee, State Treasurer and Insurance Commissioner.

Address by S. L. Lowry, Agency qualification laws.
Discussions.

Adjournment until Friday morning at 9:30 a. m.

Friday, April 14 9:30 a. m.
Paper, "Organization and Membership," L. W. Monroe, Tampa.
Paper, "Should the Casualty Agents join with State Association of Fire Underwriters?"
Report of legislative committee.
Discussions.

Election of Officers.
Adjourn 8:00 p. m. Banquet at Hotel Detroit.

Headquarters, Hotel Detroit.

The Florida Local Underwriters Association is one of the largest organizations of business men in Florida. At each annual meeting many matters of great importance in the insurance field in Florida are discussed and acted upon. Fire pre-

vention, the safe guarding of life and property, and the proper construction of buildings are among the objects it seeks to accomplish and the personnel of its membership numbers some of the most prominent men in the state.

The officers of the Association are: H. J. Drane, president, Lakeland; W. C. Batty, first vice president, Fort Myers; E. M. Osborne, second vice president, Ocala; Clifford A. Payne, third vice president, Jacksonville; Harry H. Root, secretary and Treasurer, Plant City.

Silo Saves Corn

Will you build a silo this summer? Why not put it up and let it pay for itself? Listen, corn that stands in the field until most farmers are ready to harvest it loses from 50 to 75 per cent of its feeding value. This loss is estimated by C. L. Willoughby, professor of animal husbandry in the University of Florida College of Agriculture. If corn is cut and shocked the same is true. Even if it were not subjected to the weevils, the corn ear worm, hot sun and heavy rains, about 35 to 40 per cent of the feeding value would be lost by harvesting only the grain. The stalk and blades are good feed.

In addition to these points in favor of the silo, C. H. Eckles of the Missouri Experiment Station gives the following:

"1. Silage keeps young stock thrifty and growing all winter. 2. It produces fat beef more cheaply than does dry feed. It enables cows to produce milk and butter more economically. 4. Silage is more conveniently handled than dry fodder. The silo prevents waste of corn stalks in the manure when silage is fed. 6. The silo will make palatable food of stuff that would not be

eaten otherwise. 7. It enables the farmer to preserve food which matures at a rainy time of the year, when drying would be next to impossible. 8. It is the most economical method of supplying food for the stock during the hot weather when pasture is short."

The farther south one goes the more important the silo becomes as a means of preserving feed. The foregoing reasons can be multiplied about three times in Florida. If the silo is profitable in Missouri, where the sun and rain and weevils and corn ear worms do not contrive to destroy the crop, why should it not be profitable in Florida?

Corn Replanting Pays

The field that does not produce much corn as it can, loaf. It cannot produce a maximum yield if the corn is not wanted. If the first planting is not successful it should be replanted. When the stand is less than 75 per cent it is best plow the field and plant over, according to C. K. McQuarrie, state agent for the University of Florida Extension Division.

If there is not a stand ten days after the first stalks appear, there will never be any. A longer wait may be expensive. The second planting should be deeper than the first, because the top soil has usually dried to the level of the first planting by that time.

And if She Stands for That!

"When I wants to be plumb satisfied in my mind dat a sista has done been converted and not dem merely polytheist to be poplar," confessed sage old Parson Bagster. "I takes her husband to one side and tells him to let a wet dog into de parlor de fust time it rains."—Judge.

The Proof

DON'T accept claims or opinions. Every man selling an automobile will tell you his car can be run at low cost.

He'll tell you this because he knows and you know that gasoline, oil and tires are costing more and more all the time. He knows and you should know that the operating cost of any automobile during five years' time is worth your careful consideration.

We don't give you any guesswork. We tell you what we know. We state the facts and figures—proved and verified figures. Here they are:

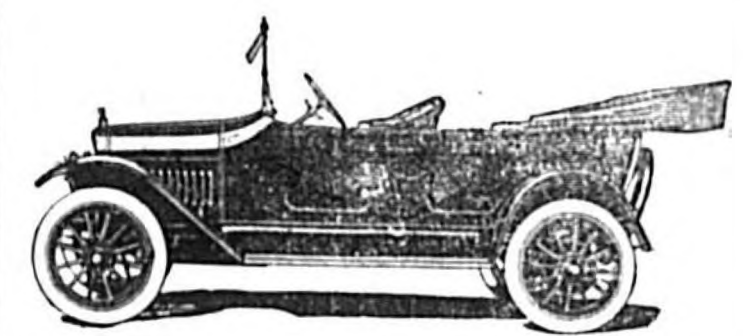

Maxwell World's Non-Stop Record Facts	
Miles without a motor stop	22,021
Average miles per day (24 hrs.)	916.6
Miles per gallon of gasoline	21.88
Miles per gallon of oil	100
Average miles per hour	9.871

Most Maxwell owners get even better results than these but we are just giving the actual figures set when the Maxwell stock touring car broke the World's Motor Non-Stop Record.

When you get your Maxwell you can be sure it will give you economical service—probably far more economical than these figures indicate. But to be sure that you can get your Maxwell, **ORDER NOW.**

If you prefer, make a small deposit and pay the balance as you use the car.

"VETERANS FIRST" IS OFFICIAL SLOGAN CONFEDERATE REUNION IN BIRMINGHAM

View of a few Birmingham Skyscrapers, where the Confederate Veterans meet May 16, 17 and 18.

"Veterans first" is the slogan that has been adopted by the entertainment committee of Birmingham, Alabama, for the forthcoming reunion of the Confederate Veterans to be held in Birmingham May 16-17-18. The veterans that bared their breasts to the cannons' merciless fire during the late unpleasantness will be cared for above all other considerations. Everything has been planned and all other propositions set aside in order that the Birmingham reunion, which may be the last ever held here, will go down in history as one wherein everyone exhibited the keenest interest and care of the heroes of 1860-65.

The committees in charge of the reunion have progressed admirably with their work. Only the barest details remain to be lined out to make the Birmingham gathering memorable in the history of Confederate reunions. The hospitality of 1908, when Birmingham welcomed the Confederate hosts, will be greatly excelled by the character of the hospitality and the warmth of greetings to be offered the veterans in May.

Through the kindness of the government of the United States the committee has secured the loan of over 4000 sets, which will be placed in the

different buildings at the state fair grounds for the veterans who will be able to see and complete hospitality of the city of Birmingham. The veterans will be provided with every convenience. A commissary in charge of experts in the several necessary departments will be maintained. The camp grounds are accessible by several car lines from the center of the city. It is contemplated that the total camp grounds will be the rendezvous for a majority of the veterans of the Confederate army.

That every detail looking to the comfort and care will be exercised was indicated by Morris W. Bush, president of the Birmingham committee, who announced that the camp and buildings will be arranged so as to be perfectly comfortable for the heroes of the great struggle.

As for the magnificent sets which will be shown upon the veterans of the camp grounds, the sets have been arranged to be of the highest quality. The sets will be made of automobile wheels and other parts of automobiles, and will be shown in a parade during the reunion. This will allow the veterans, many of whom are unable to leave their homes, to see the sets in the city.

build a gymnasium on a lot leased to the club for a period of ninety-nine years. On this lot the council will place a moderate price and agree to sell it to the club at that price at any time before the lease expires. The athletic club will incorporate for \$10,000. This will be divided into 1000 shares at \$10 per share. Five hundred of these shares will be offered for sale at once. The cost of the building and its equipment will be in the neighborhood of \$5,000. The plan guarantees against the loss of the money invested. As long as the gymnasium is in use the money will be doing the work for which it was given; should it ever fail of the end proposed, the athletic club will take over the lot, sell the property and buy back the stock. The dividends? They will come not in cash but in a BETTER AND NOBLER MANHOOD—the greatest business asset a town can have.

Apart from the great moral good the gymnasium will do the community, its possession will put Leesburg in a class by itself, for it will be the only town of the state except the large cities which will have such an institution. It will be a great drawing card for tourists who spend the winter in Florida, many of whom come south for their health and are looking for such advantages. It will attract traveling men here for week ends who will be glad of the exercise and the showers. It will be a thing to talk about, a matter of great civic pride and will do much to advertise Leesburg before the country.

All that must yet be done to bring this great enterprise to a successful issue is the selling of the stock. This work will be done by Oscar G. Klinger, pastor of the Presbyterian church. The stock will be offered as widely as possible so that a large number of citizens may have a distinct personal interest in the gymnasium. It is hoped that a liberal subscription for the stock will be made and the labor of the citizens made as light as possible.

TONGWOOD PICKUPS
Miss Edith Rand and little niece, Ruth Katherine Rand of Miami are guests of Mr. and Mrs. F. H. Rand.

Mr. and Mrs. J. S. Dunckl, Mr. Hambrook, Mrs. Ladstone and Miss Emma Lee Harris motored over to Deland and Delton Springs last Thursday.

Miss Lillian Bryan has returned home from Tampa where she has been visiting relatives and friends.

D. I. Thrasher and daughter, May Helen Hand and Maude Entz, manager of Sanford were calling on friends Tuesday afternoon.

Arthur Smith has "got the habit". He is driving a Ford.

The birds, bees and butterflies problem that "Good old winter" has left behind.

Mr. Coyd of Tampa, postmaster with his daughter, Mrs. D. H. Mudgett.

The Tennis Problem
It will perhaps be exceedingly welcome news to the many parents whose children play tennis to know that arrangements have been made with the children themselves to permit the exclusive use of the Park tennis court by the children on Mondays and Wednesdays after noons and all day Saturdays. On other days they are to give way to the old folks. A sign will be placed at the court setting forth these rules. It is understood of course that any one can use the court on the children's days until the children are there to claim it, and the contrary on other days.

This agreement was reached on Thursday afternoon between some fifteen or twenty of the children and a few of us older players who have kept the court in repair at considerable labor and expense for the benefit of the public as well as for our own pleasure, and we feel confident that the members of the Lend a Hand Society—who built the court—the parents of the children who use it, and those who have so generously donated toward its upkeep will not only give sanction to this arrangement but encourage and urge its fulfillment. It is hoped that by this means, rather vexatious at times will be satisfactorily solved.

We also wish to urge that only flat rubber soled shoes be worn by the players. The use of other shoes has been forbidden, because of the manifest damage to the surface of the court which should at all times be level and smooth.

We hope that everyone interested in tennis will cooperate in this matter.

George Fox, Jr.

Will Start Crate Factory
J. O. McMahon expects to start a crate and box factory in Sanford if sufficient encouragement is given to him. He is an experienced man in the business and is issuing a prospectus in which the following is set forth:

To be capitalized at Three Thousand Dollars, with the understanding that stock will be issued for cash only.

The Company when organized will manufacture both veneered and sawed shipping boxes and crates; out of pine and cypress timber, too small for sawmill use, cheaply reached by lighter and cable or short haul, also out of sawmill slabs from large pine trees; and out of blocks from isolated large gum, cypress and pine trees which can be cheaply picked up along the rivers, lakes and railroads.

It is proposed to locate the factory in or near Sanford on leased ground with an option for later purchase. Thus no part of the capital will be tied up in real estate. The factory must and will soon earn its own permanent home.

All machinery will be placed on the cemented ground under cheap but serviceable and fireproof metal sheds and everything constructed so as to be easily portable.

We shall try the promising and interesting experiment of employing white boys to do our work at a probable cheaper rate of wages for more efficient effort, by organizing them into a "Work Your Way School," giving them two hours of school work each day.

We believe the success of this enterprise will be a surprise, even to its most sanguine friends.

Never Again Says This Candidate
The following is the expense account of an Emanuel County candidate who had been campaigning since last summer and who was defeated in the recent primary.

"Lost 4 months and 33 days canvassing, 1,349 hours thinking about the election, 5 acres of cotton, 23 acres of corn, 4 sheep, 5 shoats and one beef given to barbecues, 2 front teeth and a considerable amount of hair in personal skirmish. Gave 97 plugs of tobacco, 7 Sunday school books, 2 pairs of suspenders, 4 calico dresses, 7 dolls and thirteen baby rattlers.

"Told 2,889 lies, shook hands 14,575 times, talked enough to have made in print 1,000 large volumes size of patent office reports, kissed 126 babies, kindled 14 kitchen fires, cut 3 cords of wood, pulled 474 bundles of fodder, helped pull 7 wagon loads of corn, dug 14 bushels of potatoes, toted 27 buckets of water, put up 7 steves, was dog bitten 4 times, watch broken by baby, cost \$3.00 to have repaired.

"Loaned out 3 barrels of flour, 50 bushels of meal, 150 pounds of bacon, 37 pounds of butter, 12 dozen eggs, 3 umbrellas, 1 mow blade, 2 hoes, 1 overcoat, 5 boxes, 13 lead pencils, 1 Bible dictionary, none of which have been returned.

Called my opponent a perambulating bar doctor's bill \$10.00. Had five arguments with my wife, result 1 flower vase smashed, 1 broom handle broken, 1 dish of hash ruined, 2 handfuls of whiskers pulled out, 10 cents worth of sticking plaster bought, besides spending \$1,768."

INTERESTING SPORT PARAGRAPHS

There are 448 automobile factories in this country.

Malcolm Galvin, Wisconsin university baseball pitcher and football star, has signed a contract with the White Sox.

The Athletic club has signed Lester A. Lanning, the star pitcher of the Wesleyan University of Middletown, Conn.

Manager Carrigan of the Red Sox, will give a trial after June, to Haacorn Shore, a brother of Pitcher Emory Shore.

An important phase of the Red Sox-Phillies world's series has just come to light. Neither manager ever was in vaudeville.

Roger Connor, famous as a batter for the Giants in the '80s, has been appointed inspector of schools in Waterbury, Conn.

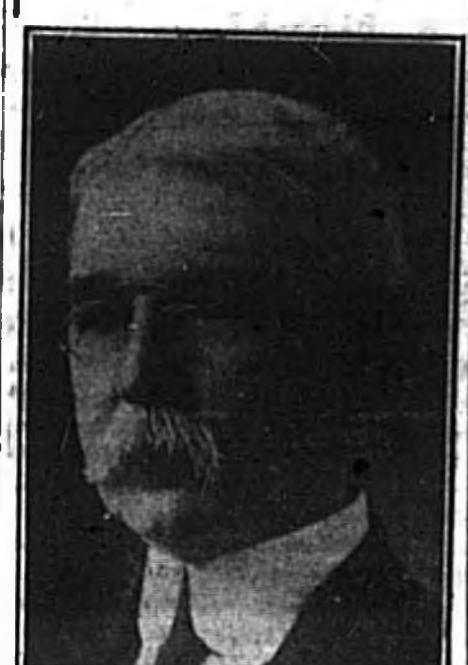

Lee Magee of the Yanks and Charles Dooin of the Giants both live in Cincinnati, but there are no other skeletons in the New York closet.

The University of California and the University of Nebraska football teams may play at San Francisco on December 21, 1916. Negotiations are under way.

The Saratoga (N. Y.) Racing association is expected to hang up close to \$200,000 in stakes for running horse events at the Spa track the coming season.

Miami, Fla., is fixing up its baseball park and will construct a grandstand to seat three thousand. Several of the major leagues will play exhibition games there this spring.

FOR STATE ATTORNEY

To the Democratic voters of Seminole County and the Seventh Circuit:
I beg leave to announce myself in the Democratic Primary, June 6, 1916, as a candidate for the office of State Attorney of the Seventh Judicial Circuit of Florida.
Fully appreciating the duties of this high office, I pledge my best ability to the faithful discharge of the same, as I have given during the short time I have held this office.
I will appreciate your endorsement of my part work by your vote at the primary.

ATHLETICS NEED CLUB

LEESBURG MINISTER WILL HAVE CITY BUILD HOME FOR YOUNG MEN

The Herald has been a consistent booster for an athletic club and reading room for the boys and young men of Sanford. The preliminary work of organization, over and elegant quarters, on the Park Hill, is now being completed. It is hoped that the people of Sanford to come in and help the good work of the Progressive League. Here is what the Leesburg people are contemplating, the following is from the Leesburg Commercial.

The problem of the boy is one of vital interest not only to parents, but to the entire community. Somewhere in his teens the hour strikes which marks the birth of his self-consciousness and he begins at once to assert his independence. He is no longer willing to sit quietly at home of an evening, but insists on going out "with the bunch." He is not to blame. His heart is madly pumping rich, red blood through his veins and arteries and every cell in his body is crying out for action and excitement. This need he is going to satisfy, if he cannot do it in a legitimate way, he will do it in a way that is not legitimate. PPA parents may protest, the community may criticize, but he follows his own sweet will. A boy with red blood is the only boy worth while. The namby pamby never becomes a real man. And for the real boy the community must care. It is the community's problem to provide him conditions which will enable him to go forth from home of evening without running into danger.

This is Leesburg's problem at the present hour. The boys and young men of this city are as fine as can be found anywhere. They are our sons and wards. But they are real boys, and in the length and breadth of the town THERE IS NOT A PLACE WHERE THEY CAN GATHER FOR MUTUAL ENJOYMENT. The effort to solve the problem is now being made. An athletic club is being incorporated by the most substantial business men of the city. It is proposed to

Sanford will have a Fourth of July celebration

We want every city in Florida to remember that we said it first

This week Cowanmice will enter into the editors of Florida with her customary hospitality.

Welcome to the Odd Fellows of Florida will be extended next week from Sanford, the real convention city of Florida

Let every store in Sanford decorate next Monday for the big Odd Fellows convention here. Show them the real Sanford spirit of hospitality

A million and a half in dollars for Sanford's great money crop of winter vegetables. Every man, woman and child in Seminole county should take pride in this thought. It beats anything in Florida or any other state and we should remember it.

You can tell them all that the new Hotel Carnes will take care of the multitude and take care of them in the proper manner. Incidentally let every citizen boost the Carnes at every opportunity and assist in the great improvements contemplated this summer.

If Bob Holly can get as many votes as he is getting now Santa Cruz will be the winner about his constituency for the election. He is a reasonable sure of election. Incidentally Editor Holly is being honored for the speakership at Lakeland tonight.

Every citizen in the county who is looking for a job should carry the picture of the Sanford Herald and newspaper in his pocket. It is a real money maker. It is a real money maker. It is a real money maker.

The night German war machine will gather its battle formations together. It will be a long and hard fight. It will be a long and hard fight. It will be a long and hard fight.

The Russian head with the swarming millions of his rugged race will witness the victory of the brave steppe Austria will demand the payment of her shattered armies.

And little Belgium—leave and honor Belgium—at once the martyr and the hero of the war will twine her martial glories about her new-made but forever historic ruins, with none to molest her nor to make her afraid.

And if that great but sorrowful day those battered millions sitting amid the acres of broken homes and the memory of loved ones buried swift in piled-up masses in the long shallow trenches of the war upon the far fields of France or in the ghastly graveyards of Gallia will sit down beside their dead and think of what it is that it means, of what it is that it means, of what it is that it means.

All European empires... what mighty cause was settled, of what mighty god was won—and whether the mission that sent their world was worth the war and sweeping South that drained a world in mourning.

And out of this tragic reflection—the aftermath of battles—there

from sunup to sundown. He is getting younger every day and all fears that if he keeps getting younger he will soon be a baby and he will lose a good plow hand.

Mike Hillinghurst looked like a knitting needle. Every time the wind blew it made such a noise among Mike's bones that it disturbed his friends. He bought a bottle. His manager is now busy trying to arrange a match with Jess Willard this summer.

Try a bottle Macleenny Standard

BILLBOARD ADVERTISING

About this time of year many merchants used to be organizing campaigns for decorating (?) the roadside for many miles around with their advertising. As soon as the spring mud had dried out, they had their teams and men out erecting and painting staring signboards along the country highways.

Very much less of this sort of work will be done the coming spring. In many localities it has stopped altogether. The merchants found that it did not have advertising value, and they were spending their good money for nothing.

One objection to this outdoor advertising was that it soon became shabby and defaced. Even a neatly painted sign, if exposed to rain and dust, would look ancient in a single season. It would convey an appearance of dinginess that was left handed advertising for the store that erected it. Boys would use it as a target, and jokers would take paint and alter over words with humorous intent.

The most serious objection to these signs was the public animosity that they created. In many states legislation has been enacted against them. In other various associations have taken the matter up and have made it a business to wreck roadside signs confident that they were within their legal rights.

The simple fact is that the people don't want their pretty country roads defaced by advertising. When they get outside of the towns they like to see country scenes and open air life, and want to forget about business. The roadside is a reminder of commercialism. If erected in a man's place of business it would not be objected to if neatly done. Placed on the highway it offends by being out of place, and it does not help to sell goods.

JOHN TEMPLE GRAVES DREAM OF UNIVERSAL PEACE

John Temple Graves, the famous English philosopher and statesman, has dreamed of universal peace.

Some of the things he has dreamed of are: a world where there is no war, no fighting, no killing.

Some of the things he has dreamed of are: a world where there is no war, no fighting, no killing.

Some of the things he has dreamed of are: a world where there is no war, no fighting, no killing.

will arise beyond all question among the millions of Germany, of France, of England, of Russia, of Austria and of Belgium, that which lives now in America—a reaction against war and bloodshed and battle—each one of them to compel—the abolition of bayonets forever.

HELP YOUR COUNTY AGENT

There is an old saying that the Good Lord helps those who help themselves.

This is true also of the work of the county demonstration agents. The following editorial from the Country Gentleman should prove interesting right here in Seminole county. It reads as follows:

There is a new invention for flying machines called the stabilizer, which is something like a gyroscope and keeps the machine right side up no matter which way the wind blows. If some such device could be invented for the county agent it would probably meet with a wide adoption.

If you think that the county farm bureau man has an easy time of it you need to read the personal story of a county agent which appears in this issue. Among all government representatives he is, perhaps, more quickly caught in the vortex of local controversy.

Some young men have failed in this work because they needed stabilizers. Local jealousies, controversies, politics and narrow mindedness entirely upset them. Others have been able to overcome opposition because they were backed by the forceful support of the leaders of the community. A rural sociologist describes the situation by saying that the county agent has to analyze "a complex sociological problem" and must make a thorough study of the "psychology of the community".

The practical man who has been through such work means the same thing when he says that the county agent has some job.

It is unfortunate that this work apparently must be started against a disposition of entrenched opposition. Most communities seem to be biased against the work rather than in favor of it. Perhaps this is a good thing in that it brings out the best qualities of the county agent and forces him to do his best but it is hard to see where any county benefits.

Accept the county agent for what he is rather than for what you think he ought to be. At least credit him with honesty and honest purpose. He is not infallible. He will make plenty of mistakes but in most cases he will discover them before they have gone far. Be lenient, be patient, render the support of stimulating interest if you can. If you can't boost his work at least be neutral. Don't knock.

Do Not Fire the Ranges

The wild lands are the farms of posterity. The man who deliberately sets fire to the forests or prairie lands is robbing the future generations of their inheritance.

just as any question will always have and the editor of The Herald takes this opportunity of letting the people know just where he stands on it.

At the present time in Florida it might be difficult to pass a no fence law by counties or as a state law for the reason that the interests of the cattlemen are large and they would try to defeat it at the outset as a no fence law would be a great hardship on owners of cattle. While in the city precincts and the vegetable farms adjacent to Sanford we do not want cattle running at large there are other parts of the county and state where it is not thickly settled and cattle are not bothering people and it is almost impossible to fence them in at the present time.

The idea of the editor of The Herald is to vote out the cattle by precincts, just as the hogs were voted out, which is really the only fair and equitable way of settling the question. The time is not far distant when the cattle owners will place all their cattle in enclosures for their own protection but at present all of them are not willing to do this, and many believe Florida cattle will not thrive if fenced up. Sanford having the majority of the votes of the county could easily vote all the cattle out of the county but this would hardly be fair to the owners of cattle in other sections of the county and until the movement to compel cattle being fenced is general all over the county the idea of a county no fence law being agitated without at least a year's notice to the owners of cattle would be an injustice.

We believe that the precinct law would protect the people from the cattle just as it does from the hogs and this idea was not conceived as a play for the cattlemen's vote for this vote is in the hopeless minority but solely with the idea of giving every one a square deal. The day is not far distant and it may come in the next six months when a general movement will be started in Florida to compel the owners of cattle and hogs to fence them in not only for the protection of non owners but for the protection of other owners of hogs and cattle.

The man with cattle ticks who does not fence his cattle does not get rid of the ticks which not only ruin his own cattle but allows the ticks to prey upon his neighbors cattle and the same is true of the hogs that have cholera and other diseases.

This is really one of the questions that cannot be entirely decided at the present time. Conditions change the opinions of a real man many times and it is only the fool who never changes his mind.

Therefore at the present time we are in favor of a precinct law for cattle with a penalty attached that will tend to keep the cattle out of the farmers' fields and we believe that the people of Florida should support such a law.

The wild lands are the farms of posterity. The man who deliberately sets fire to the forests or prairie lands is robbing the future generations of their inheritance.

TAD JONES FOOTBALL COACH

He is Formally Chosen by Special Committee for Period of Three Years—Sweeney is Adviser.

Official announcement has been made by a special committee from the Yale Athletic Association of the unanimous selection of Tad Jones as head coach of the Yale football team for the next three years. Jones was graduated from the Sheffield Scientific School in 1908. He was varsity quarterback for three years and in his senior year was captain of the baseball team. For the last five years he has successfully coached the boys of Phillips Exeter Academy.

Michael Sweeney now at the Hill school in Pennsylvania, was chosen

Tad Jones

supported by the expert opinion of Isham Randolph & Co., a drainage engineering firm of high standing and reputation in the United States.

George B. Hills, in charge of local offices of the Isham Randolph & Co., takes issue with the contentions of Major Latta.

It is the claim of the board of supervisors of the upper St. Johns drainage district that the execution of the plan of reclamation will not harm navigation of the Johns river and that a portion of the drainage should therefore be granted. Their claim is supported by the following facts:

For purposes of practical operation, the St. Johns river is divided into the upper river, the lower river, with the point of division at Lake Monroe, a well known fact. At times of low water the water in the lower river flows backward toward Tidal Creek, and at times of high water in dry seasons the water in the upper river flows toward the water flowing into the lower river area and consequently is supplied from the lower river by a reversal of flow.

Therefore the board of the stage of the water in the river in no practical way adds to the stage in the lower river.

Under the existing conditions it is a simple matter to place a low boat in the upper river and in places where a dam across the river dries up the proposed drainage scheme will tend to the dredging of the stream within the district to a depth of twenty feet. It times of flood the excess waters from the 265,000 acres of the district will be diverted by short channels into the Atlantic Ocean by way of the Indian river, but controlling works will prevent the river being lowered below the existing natural mean low water stage. The construction of the proposed lateral ditch will tend to deliver more water to the upper river at low water times than is received under existing conditions as a means for reed, flow of the water has to now pass through the lands.

The claims of the district are supported by facts are briefly:

First—That the execution of the proposed drainage scheme will have no effect on navigation in the upper river and second, that it will tend to improve navigation in the lower river.

I will not dwell on the economic value of the agricultural development of these wonderful lands, all lying directly in the commercial territory of Jacksonville, the few cities in the Union have more serious need of developing their part of hinter lands than Jacksonville at the present time.

AS STATED BY THE BOARD OF SUPERVISORS OF THE UPPER ST. JOHNS DRAINAGE DISTRICT. The committee did not make any such statement. The drainage of other appointment. Upon motion of Captain Black of the district its assistant voted to appoint the following committee to have full charge of all football matters and to be responsible only to the athletic association and the university authorities: Vance C. McCormack, Ed. S. R. Brown, John K. Kapat, Fred W. Joseph, K. Swan, Ed. and Walter Camp, Jr.

DRAINAGE OPERATIONS RULED OUT

THE BOARD OF SUPERVISORS OF THE UPPER ST. JOHNS DRAINAGE DISTRICT has ruled out the drainage of other appointment.

IN AND ABOUT THE CITY

Little Happenings—Mention of Matters in Brief—Personal Items of Interest

Summary of the Floating Small Talks Succinctly Arranged for Hurried Herald Readers

James Taylor of the Fernald Hardware Co. has returned from a business trip to Jacksonville.

Call on H. L. Duhart for prompt automobile service. Phone number 372.

Hon. Cary Landos of De Land was in the city on Saturday on professional business and his many friends were glad to see him.

Spencer's Better Cake, sold by all grocers and at Spencer's Bakery, price 10c. Five varieties: Silver, gold, chocolate fudge, fruit and angel food. Try one. Coupon good for Rogers Bros. silverware with each cake.

Will Coulbourne and Miss Mary Chappell and Mr. and Mrs. R. J. Holly attended vespers services at Stetson University at DeLand last Sunday afternoon.

Just received—Two car loads of Buick and Maxwell cars. Pay as you ride. See us quick and take a demonstration in the Wonder Car Seminoles County Garage.

Deputy Sheriff E. A. Farnelle of Oviedo was in the city yesterday and reports his section as very quiet just now, but business is booming and great improvements are contemplated.

If I were yours—and you were mine I'll tell what we'd do. Just lunch upon Stone's Cake Divine And let the cook skidoo.

Six kinds, one price, 10 cents at L. P. McCuller's. Phone 277.

Among the visitors to the city from the Oviedo section this morning are B. G. Smith and J. A. Clark. Mr. Smith has just returned from a trip to Lake and Sumter counties and states that the truckers are all busy and making big money from cucumbers just now.

POOL OPEN Until further notice Musson's pool will be open every day from 2 p. m. to 10 p. m., except Tuesdays and Fridays.

Mrs. Lucy Harber and daughter, Miss Thelma have returned to their home in Commerce, Georgia, after spending the winter in Sanford the guests of Comfort Cottage. They are in love with Sanford and Florida weather and expect to come down early next winter and stay longer.

Mr. and Mrs. R. J. Holly and Mrs. Oscar Conklin and children will leave Thursday morning for Kissimmee to attend the annual meeting of the Florida Press Association. Many others expect to attend from Sanford and will go one Friday to attend the big banquet at the Graystone.

Spencer's Better Cake, sold by all grocers and at Spencer's Bakery, price 10c. Five varieties: Silver, gold, chocolate fudge, fruit and angel food. Try one. Coupon good for Rogers Bros. silverware with each cake.

BURN to Mr. and Mrs. Robert Lord a new boy and he will be called Robert W. Lord, Jr., after his father. Mr. Lord, in a letter to his brother regarding the new arrival and he was ready to take charge of a company, and go in pursuit of Villa. Unless the U. S. troops hurry up the youngster may yet have a chance.

DRESS TALK NO. 11 LISTEN TO THIS I have received another shipment of those Clasy-Crash Suits. In Men's Hose clocks and fancy stripes are all the rage. They are now on display at the Haberdashery. The Home of Correct Styles. B. L. PERKINS THE HABERDASHER

Mr. and Mrs. Gillette of Centralia, Illinois, were in the city Saturday and Sunday the guests of Mr. and Mrs. R. Walker. Mr. and Mrs. Gillette have been spending the winter in Orlando and came over here to see the Wessels and incidentally take a look at Sanford's charms. They were most favorably impressed with Sanford and vicinity and are thinking of making this city their winter home.

FINE MILLINERY New goods every week also Ladies' Waists, Laces, Embroideries, Ribbons, Art Materials, Hosiery, Brassieres, Pictorial Review Patterns, fine line of Hair Goods. Mrs. Grace E. Williams, 106 East 1st St.

Met With an Accident Mr. Harvey Renfro, road master of the Atlantic Coast Line met with an accident on Friday that resulted in a broken arm. A crossing bridge near Taxators called out Mr. Renfro and his road gang and while overseeing the work Mr. Renfro had a bad fall and broke his right arm, breaking the bone in one place and shattering it in another. He was sent by Dr. Miller to the hospital at Waycross for treatment. He was accompanied by Mrs. Renfro.

For Sale One 25 Buick auto, electric starter and lights overhauled and painted, in fine shape. Price \$1,000 and a bargain for the price. Come and let us show it.

One Overland Roadster, overhauled and painted, cheap at the price.

One Ford Touring, first class shape. New tires and overhauled. Can be bought right.

Seminole County Garage, 64-26.

Hereditry and Eugenics Only a misguided enthusiast says the Journal of the American Medical Association would venture to make great claims at the present time for the possible future usefulness of applied eugenics. The illustrations of hereditry which the new postulates are based upon first be subjected to critical investigation. The limitations of the practical aspects of eugenics must be clearly formulated and explained. It is well enough to maintain in a general way that vital life is partly inherited and partly acquired and that a sound physical and mental inheritance is a greater asset than the inheritance of extraneous and vicarious characteristics. Many individuals however have assumed that the new science is primarily intended to foster a scheme of general governmental interference with marriage. As a matter of fact, the most earnest students of the subject have at best hoped to promote the gradual establishment of standards in public opinion.

How We Have It The daily paper, published on the planet Saturn and the sun January 4. It passed between Neptune and the sun January 7. There being no planets in position to force the earth out from the sun and cause cold weather after February 15 these three planets will speed the earth toward the sun or rather against the sun's repulsion from February 16 to April 26, which will give us spring to begin practically with February 16, and will cause warmer and drier weather than usual from February 16 to April 26, 1916. During that warm period the principal changes of weather will occur just after the moon or any planets pass between the earth and other planets or visible stars near the ecliptic. When precipitation occurs it will be near the dates of these planetary, lunar and stellar conjunctions. D. N. Grover, in Baltimore Sun.

Birds' Nests Cause Fire. Birds' nests under the roof of a two-story corrugated iron structure at Twentieth street and Sedgley avenue, Philadelphia caused a fire when they became ignited by sparks from hot sand in a motor. The roof of the building was damaged about \$100. Nests are frequently found under the roof and they are destroyed every few days in order to prevent a fire. They were cleaned away recently, but the birds quickly rebuilt them.

Things A-Moving. Drummer—Any activity in real estate in this section? Farmer—Surest thing you know. A landslide has just moved my farm two miles down the valley.

Lands Practically Without Milk. Japan and China are countries whose great populations have existed and increased without one of the articles of diet that to Americans seems an elementary food milk. There is practically no production of milk in either of these countries, almost the only supply being imported from foreign nations in the form of condensed milk in cans.

Obligation Shifted. A wedding ceremony took place at the bride's home. As soon as the service was over the nephew of the bride, aged 5 years, was the first to break the ice by saying in anything but a quiet tone: "Now if Aunt Ellen dies quiet tone. Now if Aunt Ellen dies it won't cost us anything to bury her, will it mamma?"

ABOUT PEOPLE AND EVENTS... A RESUME OF SANFORD HAPPENINGS UP TO DATE

Young Folks Party On Thursday evening Edmund Meisch was the agreeable young host to a number of his friends at a charming evening party.

The program closed with a delightful reading by Miss Schultz, "Her First Appearance" (Richard Harding Davis) and responded to the encore with "The Usual Way." Although the weather was inclement the club house was filled with an appreciative audience and a neat sum was realized for the Children's Home Society.

The committee express their grateful thanks to the little folks who participated in the play and to their mothers; to Mrs. Chas. Hand, Mrs. Roumillat, Mrs. Rumph and Mrs. Ed Lane for the use of plants; to the Library Association for the use of the Library; to Mr. F. E. Gilbert and Mr. Chas. Delk for assistance in decorating; to Mr. James Stewart for moving plants, to the Herald for newspaper courtesies and to Rev. E. D. Brownlee for the chairs from the church.

Leaving Sanford Dr. and Mrs. C. E. Walker, who have been identified with the professional, social and religious life of Sanford for the past fourteen years expect to leave early Friday morning for Lima, Ohio, en route to Berlin, Wisconsin, where they will make their future home.

The members of the Eastern Star Social Club were delightfully entertained on Thursday afternoon at the Oaks with Mrs. S. Maxwell and Mrs. Geo. Fox hostesses. The hours were spent informally with needlework. Delicious refreshments were served at the refreshment hour. Enjoying the charming hospitality of their hostesses were Mrs. Loretta Brotherton, Mrs. McAlister, Mrs. Griffith, Mrs. Alfred Lida, Mrs. Harvey Renfro, Mrs. Minnie Jones, Mrs. Rayton, Mrs. J. D. Parker, Mrs. Bryan, Mrs. Mamie Tolar, Mrs. Thomas, Mrs. J. C. Engstanger, Mrs. F. K. Smith, Mrs. Henry Nickel and Mrs. Ray Butt. Guests of the club were Mrs. Leonard and Mrs. Webb.

Theatrical Theatrical As the Wessels Club on Friday evening the little morality interlude, "The Littlest of Them," was presented by a cast of some of Sanford's talented little people, under the direction of Miss Gretchen Schultz. The playlet, which was really in part celebration of Baby Week was a charming little fairy story, in which the fairy queen, Madie Abernathy, does a clever bit of acting and looked the part to perfection. The little girl who stole the earth baby, carried away by his fairy sympathy for the woes of all earth babies was delightfully impersonated by Florence Henry. The handsome young herald, E. K. Foster, Jr., represented the part as to the manner born, while Bramble, Bluberry and Burr were dear little pixie men whose entrance upon the stage excited enthusiastic applause.

The Queen's attendants were lovely fairy flowers, who, very human in their beauty and grace were "Trellisette," Sarah Wight, "Sweet Fern," who crowned the Queen, Mary Elizabeth Puleston, "Wild Rose," LeClaire Jones, "Bluet," Ruth Marshall and "Margold," May Holly, the Queen's train bearer. The fairies, so sweet and adorable, dancing with tiny bare feet and so truly fairy like with their gossamer wings were Rebecca Stevens, Camilla Puleston, Olive Newman, Georgia Mobley, Mary Helen Morse, Bee Howard, Theodora Miller, Ruth Henry and Anna Kanner. Lady Dolores, the fairyland nurse, so tenderly mindful of that forlorn little earth baby was Julia Laing. Much credit is due Miss Schultz for the splendid manner in which the play was presented and to Miss Belle Smith who taught the dances. The stage was made to represent a woodland scene, a charming setting for the children who interpreted their parts so admirably.

The specialty numbers were received with appreciative applause. A violin number, "Empo," was charmingly rendered by Miss Elinor Herring, accompanied by Miss Margaret Davis. Miss Fannie Reba Munson interpreted the dance of the "bird with a broken wing" with grace and artistry.

Beautiful Afternoon Reception Mrs. C. R. Walker entertained on Friday afternoon with a beautiful reception in honor of Mrs. C. E. Walker, who leaves this week to make her home in Wisconsin. The attractive home so well adapted for social affairs was never prettier than upon this occasion. The reception hall, opening upon the broad veranda was cool and inviting with its decorations of green pine-tops, potted ferns and curly bamboo, which was used with pleasing effect around the doors. Entering the parlor from the hall, the charm of the room was apparent in the array of deep red and blue plants adding to their grace and beauty, forming a pretty background for the daintily gown'd woman who called throughout the afternoon. The library too was adorned with the stately red lilies, with a green background. The minor note was changed in the dining room, for here salmon colored amaryllis, violet in beauty with roses and white lilies. The cabinet music was backed with masses of spengerei in which nestled the flowers arranged in low bowls graduating in height to the center where the lilies filled a tall vase. Flowers and ferns were massed on tables and cabinets while the dining table was centered by a beautiful arrangement of lilies. Nasturtiums and violets adorned the plates upon which refreshments were served.

skill. A pantomime dance, telling the story of a girl on her way from school finding upon the ground the injured bird, caressing the bird and smoothing its ruffled plumage, she tosses it into the air and it flies away.

The program closed with a delightful reading by Miss Schultz, "Her First Appearance" (Richard Harding Davis) and responded to the encore with "The Usual Way." Although the weather was inclement the club house was filled with an appreciative audience and a neat sum was realized for the Children's Home Society.

The committee express their grateful thanks to the little folks who participated in the play and to their mothers; to Mrs. Chas. Hand, Mrs. Roumillat, Mrs. Rumph and Mrs. Ed Lane for the use of plants; to the Library Association for the use of the Library; to Mr. F. E. Gilbert and Mr. Chas. Delk for assistance in decorating; to Mr. James Stewart for moving plants, to the Herald for newspaper courtesies and to Rev. E. D. Brownlee for the chairs from the church.

The minor note was changed in the dining room, for here salmon colored amaryllis, violet in beauty with roses and white lilies. The cabinet music was backed with masses of spengerei in which nestled the flowers arranged in low bowls graduating in height to the center where the lilies filled a tall vase. Flowers and ferns were massed on tables and cabinets while the dining table was centered by a beautiful arrangement of lilies. Nasturtiums and violets adorned the plates upon which refreshments were served.

Guests were greeted by Mrs. L. R. Philips in the reception hall and by Mrs. Henry Wight in the parlor where Mrs. Walker and the guest of honor received together. From the library they were ushered into the dining room by Mrs. Anna Walker, Mrs. T. D. Hayes and Mrs. Harry Wilson. Those serving were Mrs. Henry Nickel, Mrs. M. Minarik and Mrs. Harry Picketing, Mrs. Key and Mrs. May Dickens. It was a pretty idea of the hostess to include in her guests all those with whom Mrs. Walker had been closely identified in her church work, the library and the Woman's club, beside many others.

Tampa, Mrs. Scoggan, Mrs. Augustus Frank, Mrs. F. P. Strong, Mrs. Henry Witte, Mrs. S. O. Shinholser, Mrs. J. N. Whitner, Mrs. A. D. Smith, Mrs. W. H. Peters, Mrs. J. H. Ferguson, Mrs. John Meisch, Mrs. J. S. Wilson, Mrs. John Smith, Mrs. Walter Hand, Mrs. C. A. Smith, Mrs. Will Hand, Miss Lillie Farnsworth, Mrs. J. W. Pennington, Mrs. Pennington, Sr., Mrs. J. K. Mettinger, Mrs. Sheridan Jewett, Mrs. W. W. Abernathy, Mrs. R. A. Terbeun, Mrs. E. D. Chittenden, Mrs. Geo. Fox, Mrs. Gwynn Fox, Mrs. Harvey Renfro, Mrs. Olive Archibald, Mrs. Geo. L. Maris and others.

Supper at Hotel Carnes Mr. F. E. Gilbert, vice president of the Camp Bird Mining, Power and Leasing Company, the mines of which are located at Pitkin, Col., was the genial host on Friday evening at a delightfully informal supper at Hotel Carnes, his guests being the Sanford stockholders of the company. A meeting of the stockholders preceded the pleasures of the banquet board, at which time Mr. Gilbert gave facts and figures of the mining industry, showing the wonderful output of gold and copper and silver in the last four centuries and the splendid increase in the United States alone over the figures of 1915. Mr. Gilbert held the tense interest of his guests for an hour and answered questions for another thirty minutes, to the satisfaction of all. Mr. Gilbert's discussion of his subject was remarkable for its simplicity, its clear, concise statement of facts and the knowledge which enabled him to handle the subject with the ease of an expert.

Mrs. J. D. Parker gave an interesting account of her visit to the mines last summer and displayed specimens of the gold ore that created much comment. The social hour which followed was much enjoyed. Supper was served in one of the private parlors of the hotel.

Birthday Party Dr. and Mrs. O. J. Miller entertained with a beautiful birthday party on Saturday afternoon in honor of the eighth birthday of their charming little daughter, Theodora. The home, which is one of the most attractive in the city was lovely with its floral decorations, a beautiful setting for the dainty figures and sweet faces of the children gathered to help along the celebration. Thirty happy little youngsters gambled upon the lawn and romped and played games upon the wide veranda and in the spacious rooms. The living room was lovely with gorgeous masses of red carnations, amaryllis and asparagus fern, while the dining room and den glowed with a profusion of nasturtiums in every available place. In the center of the dining table rested the big white birthday cake with its regulation number of pink candles. Pink and white heart shaped cakes and heart candies were served upon the lawn with ice cream, after which the children marched into the dining room where the birthday cake was cut by the little heroine, to the delight of her guests. Young girls assisting Mrs. Miller with the entertainment and serving were Helen Shelton, Esther Miller, Sarah Wight and Francis Dutton.

This being the birthday also of Mrs. T. J. Miller, Theodora's grandmother, a few guests were entertained later in the evening in honor of this event, also at which time a dainty supper was served. The older folks enjoying the delightful occasion were Rev. Arthur Peck and Mrs. Peck, Mr. and Mrs. Frank Miller, Mrs. M. Donald, Mrs. Starling, Sr., and Mrs. B. J. Starling, Mrs. Minnie Jones, Miss Sanford, Bertha Pascard, Mr. T. J. Miller and Dr. Miller.

The children enjoy of the happy afternoon were: Mary Elizabeth and Camilla Puleston, Pearl and Toody Robson, Sarah and Thomas Wight, May and Mildred Holly, Kermit Hurley, Rebecca Stevens, Dallas Conklin, Leclair Jones, Olive Newman, Ruth Henry, Joe Caldwell, Stella Moses, Georgia Mobley, Frank Chase, Elizabeth Whitner, Maud Lake, Virginia Packard, Dora Harrold, Esther and Leonard Miller, Jean Maxwell, Clifford Louise Shinholser, Charlotte Hansell, Margaret Neal, Algernon Speer, Robert Denton, Albert Connelly, Frances Dutton, Helen Shelton.

Guests were greeted by Mrs. L. R. Philips in the reception hall and by Mrs. Henry Wight in the parlor where Mrs. Walker and the guest of honor received together. From the library they were ushered into the dining room by Mrs. Anna Walker, Mrs. T. D. Hayes and Mrs. Harry Wilson. Those serving were Mrs. Henry Nickel, Mrs. M. Minarik and Mrs. Harry Picketing, Mrs. Key and Mrs. May Dickens. It was a pretty idea of the hostess to include in her guests all those with whom Mrs. Walker had been closely identified in her church work, the library and the Woman's club, beside many others.

Mrs. C. E. Walker is receiving many delightful attentions previous to her departure. Besides those already mentioned attending the reception were Mrs. M. C. Savage, Mrs. Deane Turner, Mrs. Ernest Krupp, Mrs. J. T. Secord, Mrs. J. C. Ensminger, Mrs. Geo. D. Bishop, Miss Laura Fish, Mrs. E. T. Woodruff, Mrs. C. C. Woodruff, Mrs. Ed Randall, Mrs. Alfred Porter of

Sew-Sew Mrs. C. E. Henry delightfully entertained the Sew-Sews on Thursday afternoon at her home on Park avenue, with several other friends included. Cut flowers were used in the simple decorations of the rooms. Elaborate refreshments were served, consisting of three courses. Enjoying the gracious hospitality of Mrs. Henry were Mrs. Frank Woodruff, Mrs. C. H. Dungee, Mrs. Win. McKinnon, Mrs. McLaulin, Mrs. J. S. Wilson, Mrs. John Smith, Mrs. O. L. Taylor, Mrs. H. R. Stevens, Mrs. Robt. Webb, Mrs. Fred Walsman,

Mrs. Fred Williams and Mrs. D. L. Thfasher.

Personal Mention Col. and Mrs. A. K. Powers and little son, Kinchon left Saturday afternoon for Wallace, N. C., to attend the Whitfield-Stevens wedding at which Col. Powers will act as best man.

Mr. and Mrs. Ray Butts have returned from a delightful visit to the home folks at Winter Park.

Mrs. O. W. Brady left on Sunday to return to her home in New York.

Mr. and Mrs. Harvey Renfro are in Waycross.

Miss Mary Kenny has returned to her home in Leesburg after a pleasant visit to her aunt, Mrs. C. C. Matthews.

Mrs. Alfred Porter of Maitland is the guest of her sister, Mrs. Ed Randall.

Mrs. E. G. Tyner arrived yesterday from Tampa to visit her daughter, Mrs. R. J. Holly.

Mrs. Henry McLaulin was called to Lakeland on Saturday to attend the funeral of the little child of her niece, Mrs. Elwood Thomas. Mrs. Thomas is well known in Sanford where her many friends will regret to hear of her bereavement.

Mrs. R. J. Holly and Mrs. Oscar Conklin and children will accompany Mr. Holly to the Press Association meet at Kissimmee on Thursday.

WOMAN'S CLUB

Call Meeting There will be a call meeting of the Music Department of the Woman's Club Thursday at 3 p. m. in the club house. Important business is to be transacted and every member should be present. Mrs. Gwynn Fox, Secretary.

Business Meeting The meeting of the Woman's Club on Wednesday, with Mrs. J. W. Dickens presiding was one of the most interesting of the entire year. Reports from the various committees and officers showed the club to be actively at work along various lines. Fine reports were made by the committee, Mrs. W. W. Abernathy chairman, for the Spring Festival and Celery Fair, showing the proceeds for the week to be one hundred and eighty five dollars, after all expenses paid. Mrs. Dickens for the club thanked the chairman and their committees for the efforts that resulted in such a gain. Reports were made by the Welfare Department of the Baby parade, Baby Week and Campaign and Better Baby Contest. It was announced by the civic committee that for excellent reasons the spring plant sale and flower show had been called off. The same committee announced the Clean Up campaign for the week of April 24 and urged the cooperation of the club members. Mr. S. Runge of the local school board appeared before the meeting and gave a resume of the work accomplished in the interest of sanitation and better equipment by the present board during its two years of service. He also displayed the plans for the new primary school and the improvements to be made in the present school buildings. He earnestly asked for the cooperation of the school patrons and especially the mothers. Mr. Runge's talk was received with the thanks of the club. A rising vote of thanks was given Mr. R. J. Holly for his support and cooperation at all times but more especially during the recent efforts of the club to raise funds. A rising vote of thanks was also extended the county commissioners and the city council for their efforts in behalf of the Woman's Club for release from taxation and corresponding secretary instructed to convey same. A motion to incorporate was carried. The reports of the club was expressed upon the near departure of Mrs. C. E. Walker to make her home elsewhere. Mrs. Walker has been an efficient, loyal member of the club and for two years the second vice president. The treasurer's report was most encouraging showing all obligations that were due, paid and a balance in the treasury. Members were urged by their president to subscribe for the Federation Magazine.

Club Calendar Social Department business meeting this afternoon. Wednesday—Literature Department business meeting. Richard Harding Davis—Mrs. Jas. Moughton. Winston Churchill—Mrs. C. C. Woodruff. Round Table Discussion: "The Inside of the Cup."

Belgians Need Relief at Once or They Will Die

London, April 6. There would be wholesale starvation within three or four weeks if the importation of food into Belgium were stopped.

The food and clothing for the 9,000,000 civil population in occupied Belgium and Northern France are furnished through the "C. R. B."

The amount received by the "C. R. B." is to be used for both food and clothing.

It is estimated that approximately 90,000,000 people in America have done NOTHING for the war sufferers. They have made no sacrifices. We are prosperous and happy; it is our country's great opportunity to demonstrate not only its patriotism, but its high ideals; and it is your opportunity to take some small part in alleviating the suffering that the war has brought to these innocent, helpless and defenseless people.

Any contribution however small will be of the greatest use. Those wishing to contribute will please send donation to Herald Office.

Other charitable sources are trying to feed Belgium for the moment. They are doing this in order that the United States may devote its energies to the supply of clothing. Women and children are desperately in need of the commonest necessities in clothing. What condition would your wardrobe be in after eighteen months of wear, AND OF SHARING WITH YOUR NEIGHBORS AS THESE HIGH SPIRITED BELGIANS HAVE DONE?

It has been charged that the state is maintaining a gunboat with which to shoot down the fishermen of the state and at an expense of several hundred dollars per day. This statement, of course, is absolutely false. The legislature authorized the purchase of a good stout steamer with which to patrol the Gulf coast at a cost of \$15,000. This boat is now on the work and is being operated at a total cost not to exceed \$18 per day for hire of men, food, fuel and all other expenses

insurance of such certificate in the name of Mouth J. Griffin. Unless said certificate shall be redeemed according to law tax deed will issue thereon on the 21st day of June, A. D. 1916.

Candidate For Comptroller

I respectfully announce myself a candidate for the office of comptroller. I am familiar with its duties, and if elected promise faithful and unremitting service.

E. P. THAGARD

Pat. Adv. 12345

Use of mica in the industries. Mica mining in the United States started early in the nineteenth century in New Hampshire, which state supplied all the domestic production until about 1868, when mining was started in North Carolina and subsequently in other states.

At present the greater part of the sheet mica is used in the electrical industry, and most of the scrap mica is ground for use in the decorative wall, especially in wallpaper.

Secret of Good Memory. The secret of good memory is attention, and attention to a subject depends upon our interest in it. We rarely forget that which has made a deep impression on our minds—Tryon Edwards

Chivalry. The age of chivalry is never past so long as there is a wrong left unredressed on earth, or a man or a woman left to say "I will redress that wrong or spend my life in the attempt." Charles Kingsley

Daily Thought. It is a great step in the interpretation of life when we have discovered that all events are ultimately spiritual.—Brierley

Optimistic Thought. Who would be innocent if mere accusation could convict.

pertaining to the operation of the boat.

Accounts of so many threats being made against my life and to destroy the Roamer, it was thought best to arm her with two one-pounders, which were mounted on her by the U. S. Government.

I am practically a sheriff for the entire state of Florida, who is expected to enforce the fish and oyster laws over a territory of over three thousand miles. It would be foolish to expect me to perform my duties unarmed.

The state of Maryland, containing not much more coast line than two of our counties has in her service two steamers, heavily armed with cannon and crewed up with armed men. This service is known as the "Oyster Navy."

Previous to the passage of the oyster law, oysters were retailing at from 45 to 50 cents per quart. They are now selling generally over the state at from 30 to 35 cents per quart. The demand is better than ever and more stock is being handled. An increased supply has simply made it possible for cheaper and better oysters to be placed on the market.

Fish have simply grown scarce because they have received no protection in the past. They have been caught in and out of season without any regard to size. If you kill the young chicken you will never have a hen to lay an egg. Without the egg you will never have a young chicken. The price on fish has doubled in the interior simply because they are hard to get. The proper enforcement of the fish laws of the state is the only way to increase the supply.

I have enforced the fish and oyster laws and I find the fishermen generally up and down the coast in favor of such enforcement. The fish and oysters are the property of the citizens of the inland counties as well as those residing on the coast, and they should be protected for their use as well as for those engaged in taking them, who should pay something for the privilege.

The future of the fish and oyster industry of Florida depends entirely upon the enforcement of laws protecting and encouraging same. A step backward now in the conservation of this great food producing industry of the state would mean total destruction.

Respectfully,
T. R. Hodges,
Commissioner.

WILL STARVE SOON

Belgians Need Relief at Once or They Will Die

London, April 6. There would be wholesale starvation within three or four weeks if the importation of food into Belgium were stopped.

The amount received by the "C. R. B." is to be used for both food and clothing.

It is estimated that approximately 90,000,000 people in America have done NOTHING for the war sufferers. They have made no sacrifices. We are prosperous and happy; it is our country's great opportunity to demonstrate not only its patriotism, but its high ideals; and it is your opportunity to take some small part in alleviating the suffering that the war has brought to these innocent, helpless and defenseless people.

Any contribution however small will be of the greatest use. Those wishing to contribute will please send donation to Herald Office.

Other charitable sources are trying to feed Belgium for the moment. They are doing this in order that the United States may devote its energies to the supply of clothing. Women and children are desperately in need of the commonest necessities in clothing. What condition would your wardrobe be in after eighteen months of wear, AND OF SHARING WITH YOUR NEIGHBORS AS THESE HIGH SPIRITED BELGIANS HAVE DONE?

Which of the Evils?

Touch "Em"—"Thanks, sh. for the dime; you see, I've been driven to these circumstances by a woman." Bartie—"Ah, did she reject or marry you?"

Not Likely. "People dat puts on a whole lot o' frills," said Uncle Eben, "can't expect to have an unruffled temper."

Optimistic Thought. There are many soothsayers but few prophets.

LIV-VER-LAX Acts Surley, Safely

Just because you are feeling the ill effects of a torpid liver is no excuse for buying a harmful medicine that has brought physical decay to thousands. Calomel is dangerous and as every one knows has very disagreeable and weakening after effects. Medical science has found a natural, vegetable remedy, GRIGSBY'S LIV-VER-LAX that thoroughly cleanses the liver and bowels without causing any bad feeling. Children can take it with perfect safety. Every bottle guaranteed. 50c and \$1 a bottle. None genuine without the likeness and signature of L. K. Grigsby. For sale by W. G. Aldridge.

AMONG THE THEATRES

Chit-Chat of the Play Houses in Sanford

New Theatre Program
Allen's Theatre now under new management - E. F. Lane, a home boy, is offering as his initial attraction the Novene St. Clair Stock Co., presenting, taking Monday night's offering as a criterion, same very classy plays, and a complete change of program is made nightly.

Friday the company will present their feature play, The White Sister, with all special scenery. Also on that night the theatre will be renamed, and a cash prize will be paid for the most appropriate name.

Many vital improvements have already been made, among them a new picture machine has been installed, assuring good, clear, continuous pictures.

Give Ed Lane in his new undertaking a BOOST, by attending this week.

"The Heart of Paula"

The atmosphere of warm flower-scented nights; of twinkling music; of deeds of daring to win a lady's glance; scenes of intense hate and strong passion are all blended in a fascination that entrances in the coming Pallas Picture released on the Paramount Program and to be seen at the Star Theatre for Friday, April 14th.

This story of the burning love of a Spanish maid for a handsome American, stars Lenore Ulrich who is entrancingly beautiful as the high-born Castilian made poor by the unsettled times.

The strong action and many scenes of daily life in this exciting country with its ever present blood and thunder give the picture a charm very unusual.

WILLIAM FOX PRESENTS OWEN KILDAIR'S "REGENERATION" WITH BOB KILPATRICK, FELLOW AND ANNA NILSSON AT STAR WEDNESDAY

Miss Nilsson bit Willie Sheer's Hand Badly in The "Regeneration"

During the scene in "Regeneration" where Mamie Rose is trying to escape from "Skinny the Rat," there is a desperate struggle between the two. Mamie fights furiously to get out of the door while "Skinny" tries to hold her back. Anna Nilsson who plays the part of Mamie struggled so hard that she injured the ligaments of her side and was forced to be under the care of a doctor and a nurse for several days. During this same scene she is supposed to bite the hand that "Skinny" is holding over her mouth. So realistically did Miss Nilsson bite Willie Sheer who played the part of "Skinny" that blood was drawn. In fact all of the scenes in "Regeneration" are powerful as regards reality. In one of the big fight scenes, three men were knocked unconscious, another had his face badly torn and another one of his eyes badly cut—How'd you like to be motion picture player?

"Regeneration" will be shown one night only, Wednesday, April 12, at the Star Theatre.

The Magnetic Marguerite Snow Tonight

The next feature production offered by Metro will be "A Corner in Cotton," with charming Marguerite Snow in the stellar role supported by an all star cast. This five part feature will be presented here at the Star Theatre tonight. Besides Miss Snow the unusually strong company of players include Frang, being the celebrated character comedian Lester Cuneo, William Clifford, Helen Dunbar and many others. There are scores of interesting scenes including a cotton

plantation, cotton mills, the Cotton Exchange in New York and several vivid glimpses of the alums in New York City. "A Corner in Cotton," which was produced by the Quality Pictures Company is a decided novelty, and tells a story that is vital and carries a strong, human appeal.

COULDN'T KILL MULE

"OLD TOBE" NONE THE WORSE FOR LONG IMMERSION.

Incident of the Civil War Shows How Hard It Is to Separate Government Pack Animal From Uncle Sam's Rations.

Z. P. Hotchkiss, adjutant of Phil Sheridan post G. A. R. of Oak Park, Ill., tells the following experience with a government mule. As an army telegrapher Mr. Hotchkiss was attached to the staff of General Canby in the final Mobile campaign.

"The entire outfit for the construction of the army telegraph lines," says Mr. Hotchkiss, "was carried on the backs of forty pack mules. A coil of half a mile of wire hung upon each side of the saddle.

"There were six young operators, one from each corps, mounted on horses. To these boys had been entrusted the government cipher and knowledge of the advance movement of the troops. These secrets were safe, as none of the young fellows ever betrayed a trust.

"For the Mobile campaign the mules were drilled in the streets of New Orleans to follow the lead of the mule-train or the horse of the chief operator.

One day, while following in the rear of the army up the peninsula from Dauphin island, the entire train was training along in the rear of the chief operator, who knew nothing about ocean tides. The reel mule, Old Tobe, from whose back was uncoiled the wire, was in advance and followed his leader into an arm of the sea of Mexico. The operator's horse was soon beyond his depth and was swimming for shore water when it was seen that Old Tobe had sunk beneath his heavy load. The mule's swim, his head above water, and his legs sticking out, and he floating twice as long as he should have done.

"Some of the boys, walking toward the mule, said, 'He'll get out of this in five minutes.' He dived again and his head came up, but he had lost his load. He floated twice as long as he should have done. The animal of his load, 'Old Tobe,' floated to the surface, shook the water from his ears, was towed ashore, pumped out, and a few hours later was again making the march for Fish river. Save for dragging a little, he showed little sign of his experience, but he had been under water long enough to have killed anything but a resurrection mule."

Some 200 mule operators who through many of their number were killed or taken prisoners of war, are ineligible to a government pension, and the recipients of private pensions in their old age from their comrade, Andrew Carnegie.

VARIETIES OF STOVES

NATIONS HAVE DIFFERENT METHODS OF KEEPING WARM.

Russian Sleeps Over Brick Contrivance in Which Slow Fire Burns—Holland's Heating Arrangement Perhaps Most Economical.

The stove is, comparatively speaking, a new invention. So late as the time of Queen Elizabeth people did not have chimneys; they built their fires in a round hearth in the middle of the room and when chimneys were introduced, the old-fashioned folk all grumbled, because, they said, smoky air was good for colds. But to the eastward stoves of brick and porcelain were commonly used.

A stove made of brick is used in Russia, and in it a slow fire burns all night long. On top of it, when night comes, the peasant and his whole family, in their sheepskins, lie down and go to sleep. It is nice and warm, rather like a window seat that is over a radiator, and sometimes there is a second shelf overhead for any stranger who may be staying overnight.

The brick stove of the Russian peasant, in all probability, came overland from China too long ago to talk about, for the Chinese have stoves of brick and clay shaped something like it.

In Japan there is not much need of keeping warm, but whatever stoves there are in a Japanese home are low, for the life here is all carried on sitting or kneeling on the floor. There is a rough clay stove, made especially for the great rice kettle, that costs only a few cents, and when broken the poorest can buy another. There is a dainty little charcoal stove on which the cooking is done, and beside it stands a pretty basket filled with the softest and finest charcoal. There is also a small stove or furnace to heat

FORREST LAKE CONGRESSIONAL CLUB

The friends and fellow townsmen of Forrest Lake, wishing to express to the voters of the Fourth Congressional District the confidence we have in Mr. Lake, have taken preliminary steps for the organization of a FORREST LAKE CONGRESSIONAL CLUB, and request every one to come to the City Hall Wednesday night at 8 o'clock, at which time a permanent club will be formed.

W. A. STRINGFELLOW

(Paid Advertisement)

the water for the bath. And still more odd is the little earthen bed-stove, used as we use a hot-water bottle, shaped like a curled-up cat, and it is called "neko" (the kitten).

The German stove of porcelain, with its curious decorations, has figured in many a story of German life. A porcelain stove will hold the heat a long time and keep a room warm with but little attention.

In Holland, where the working people are often at home for a little while at noon, they have the most thrifty arrangement of all—what might be called a portable stove, a stove in an iron bucket. When the children come home from school and the older people from work at noon, instead of lighting the kitchen fire, one of the children takes the fire bucket and trots around the corner to the fire-woman's. The bucket is just large enough to hold a piece of burning peat or some live coals, and a teakettle sits on top. The old woman who sells fire and hot water fills the bucket and ket the for a tiny sum, and the child goes home with just enough fire and water to cook for the family dinner.

Charcoal is commonly used for cooking in France, Italy and Spain because it makes a small, hot fire. The Polak keeps a small pot of what we would call a "hot hand warmer" with coals in it, and he keeps it only within the last few years has it been possible to find rooms that were heated on the American plan anywhere in Europe. The people keep warmer in this country than in any other spot on the surface of the globe in the temperate or frigid zone.

Mourned His Seven Cents.

There is a story running about Cleveland of a man who lost his pocketbook containing over a thousand dollars. When he discovered his loss he hurried back to the place where he had stood while removing a bill from the wallet, thinking he might have dropped it there. And as he rounded the corner and came in sight of the spot he saw a newsboy stoop over and lift the heavy purse out of the gutter. "That's mine," he cried, running up, "that's mine." Look at the initials, boy, they're stamped in the leather. N. Y. Z. Dye find them there?"

"Guess it's yours all right," said the boy, holding it over.

The man gave the boy a dime and departed, and as he went he went muttering, "A street car ticket would have done just as well, just as well." He hadn't looked in it, didn't know what was in it. Out seven cents! Out seven cents!"

New Source for Dye Woods.

American dyestuff manufacturers have turned to Central and South America for dyewood supplies which may make them independent of shipments from Jamaica and British Honduras, now barred by a British embargo.

Investigation by agents of the bureau of foreign and domestic commerce has disclosed that there are vast quantities of dye woods available in South and Central American countries and never exploited because of the lack of market.

The commerce bureau is cooperating with logwood importers in arranging for purchases.

Too Bad.

"What's that string on your finger for?"

"To remind me of something I am to get for my wife."

"What have you to get?"

"Blamed if I haven't forgotten what it was."

Freak Chicken Dies.

New York—A chicken equipped with four legs, four wings and two backs, was hatched by a hen belonging to Fred Mohrman, Brooklyn. The freak chicken died shortly after leaving its shell.

Boy Falls Four Stories.

New York—Falling from the fourth-story window of his home, Samuel Zacher, four, landed on a crate of eggs and only fractured his jaw.

Scientific Child.

Robert, the four-year-old son of a scientific man had lived in the country most of his short life. One day a caller, wishing to make friends with the little fellow, took him on his knee and asked: "Are there any fairies in your woods here, Robert?" "No," replied Robert promptly, "but there are plenty of edible fungi." Youthful Companion.

Puny Caution.

Caution is a very puny form of ignorance. He that cheery with the wind shall not sow, and he that regardeth the clouds shall not reap.

OUR NAVY WORTHLESS AT PRESENT

NAVY LEAGUE SCORES LACK OF PRE- PAREDNESS

Washington, April 14.—Lack of logical method in the development of the American navy was deplored by Rear Admiral Bradley A. Fiske, U. S. N., in a paper on "Naval Strategy" presented at today's session of the annual convention of the Navy League of the United States. The admiral did not appear in person, his paper being read by a delegate.

"In the elementary parts of the navy profession," said the paper, "we do very well. But of the higher branches, particularly of strategy, we have little clear conception. We compare the strategical methods employed by, say Germany and us, and we are forced to admit that the German methods are better adapted to produce economically a navy of the first order."

"Comparing the American navy with that of England, France, Germany, Italy, Japan, and the United States, we find that the American navy is the least prepared for war of any of the great powers."

"The American navy is the least prepared for war of any of the great powers. It is the least prepared for war of any of the great powers. It is the least prepared for war of any of the great powers."

"The American navy is the least prepared for war of any of the great powers. It is the least prepared for war of any of the great powers. It is the least prepared for war of any of the great powers."

"The American navy is the least prepared for war of any of the great powers. It is the least prepared for war of any of the great powers. It is the least prepared for war of any of the great powers."

"The American navy is the least prepared for war of any of the great powers. It is the least prepared for war of any of the great powers. It is the least prepared for war of any of the great powers."

"The American navy is the least prepared for war of any of the great powers. It is the least prepared for war of any of the great powers. It is the least prepared for war of any of the great powers."

CANDIDATES WILL SPEAK ON STREET

CANDIDATES FOR COUNTY OFFICES SPEAK HERE SATURDAY NIGHT

It seems to be the wish of many of the county candidates to have a little talkfest on the streets of Sanford each Saturday night between the dates of Saturday, April 22 and the primary election in June and the first one will be held at the corner of First street and Park avenue on Saturday night, April 22, at eight o'clock. Chairman S. Runge will preside at the meeting and introduce the speakers and all those who have something to say and want to say it should be on hand at that time.

It is not compulsory with the candidates but it is thought that all of them will avail themselves of this opportunity to get in touch with the voters and it is expected that the meeting will be a very successful one.

LAKE ELECTED PRESIDENT OF ELKS ASS'N

INTERESTING CONVENTION CLOSED YESTERDAY IN JACKSONVILLE

Jacksonville, April 13.—The election of Forrest Lake of Sanford as president of the State Association B. P. O. Elks yesterday was one of the surprises of the convention to him, as he had protested against the honor being given him at this time.

Mr. Lake had taken the position that being an announced candidate for congress in the Fourth Florida District, he did not wish the order to be embarrassed by its head being actively in politics, it being one of the underlying rules of the order that politics shall not enter into the organization.

His brother Elks took the position that politics has nothing to do with the Elks, the best man for the job should be elected for a political position.

His brother Elks took the position that politics has nothing to do with the Elks, the best man for the job should be elected for a political position.

Several other cities were expected to make a fight for the honor of entertaining the association next year, but none had a chance after matters had been fixed by the Orlando delegates.

The meeting was called to order yesterday morning at 10 o'clock by President J. H. Trump. Practically all of the delegates were in their places. The Tampa delegation arriving the evening before took part in the deliberations yesterday.

Many other delegates who missed train connections were on hand. The session this morning will probably be the largest of the convention as it will be the last and all of the visitors have now arrived in the city.

R. AND H. BILL PASSED HOUSE GOES SENATE

ST. JOHNS RIVER ITEMS ARE SAVED INTACT

Washington, April 13.—The annual river and harbor appropriation bill carrying \$40,000,000 passed the house today by a vote of 210 and 133 with every item as agreed on in committee unchanged. Scores of amendments to cut down items urged by representatives who charged that the bill was a "perk barrel" measure were rejected during the two weeks' debate. Just before the final vote an effort was led by Republican Leader Mann to reduce the total to \$20,000,000 failed 200 to 149.

The entire appropriation for a \$700,000 item to deepen the approaches to the Brooklyn navy yard is continuing work on improvement projects already authorized and under way. The single item passed by a vote of 210 to 133. President Wilson's program of river and harbor improvements is part of the preparedness program. The bill now goes to the senate.

MARRIAGE ANNOUNCEMENT
The marriage of Mr. and Mrs. J. J. McKinstry was celebrated at the home of Mrs. J. J. McKinstry on Wednesday, April 13, 1916.

HAVE YOU ROOMS?
Any one having furnished rooms next week should assist in lodging Odd Fellows here in case there is a dearth of accommodations. If you have rooms to rent and will leave your address at Sanford Herald Information Booth or at the office of J. J. McKinstry the people will be sent to you.

ORLANDO IS CONVENTION CITY
Orlando won the 1917 convention. Delegates from the Orange county city had been busy since before many of the delegates arrived. They had pinned badges upon the delegates as fast as they arrived and talked their town up so strong that when the time arrived to select the city for the 1917 meeting things were all one-

WELL KNOWN WRITER DIES
Mount Kisco, N. Y., April 11.—Richard Harding Davis, author and war correspondent died at his home here last night from heart trouble. His body was found early this morning and he had apparently been stricken while at his telephone. He had gone into his library to dictate a telegram to a friend in New York City. His wife assumed, when he did not return, that he was reading and she did not visit the library until after midnight.

WOULD LIKE TO JOIN WITH SEMINOLE
Mr. Truman G. Futch, a prominent attorney of Leesburg was transacting business of a legal nature here Tuesday and Wednesday. While talking with The Herald man, Mr. Futch stated that he thought that the next legislature should create a new judicial circuit which should include the counties of Seminole, Lake, Orange and Osceola. This would give the community an adequate circuit and would facilitate the transaction of business with the court.
