

**GETS THE HUMAN TREATMENT** — Wide-eyed and thirty, six-week-old bottle baby, "Perri," has all the comforts of home, thanks to Vicki Lynn O'Connor, 6, of Baltimore, Md. In addition to Vicki, "Perri" likes other people, too, and cookies.

### Washington Window

WASHINGTON (UPI) — How come Vice President Richard M. Nixon has not done any campaign speaking in New York where so much is at stake for the Republican Party this year?

The answer to that question comes in two versions, as follows:

The smartly edited National review, a very conservative or extreme right wing weekly, reports bluntly that Nelson A. Rockefeller will not have the vice president in the state. Rockefeller is the republican nominee for governor in a contest with Democratic Gov. Averil Harriman who seeks reelection.

The other version adds up to about the same thing, but more gently. In response to a United Press International inquiry to Rockefeller campaign headquarters in New York City, it was explained that:

**He's Welcome, But...**

Rockefeller would welcome Nixon as a campaign speaker in New York but only on behalf of Republican congressional candidates. Rockefeller also would welcome Nixon's personal support for his gubernatorial candidacy. He feels, however, that he (Rockefeller) is campaigning on state issues and thus Nixon's support, his welcome, would be more pertinent to New York's congressional candidates.

That is a very fine line of reasoning, almost as fine as the line of reasoning by which President Eisenhower backs the tradition of American politics by installing that president or a presidential nominee must not attempt to influence the nomination of a vice presidential candidate to share the party ticket with him.

It was that Eisenhower line of reasoning in 1956 which so distressed Nixon that he all but withdrew from the contest for the vice presidential nomination some

weeks before the Republican national convention. Eisenhower is taking the same position with respect to the 1960 Republican presidential nomination.

There is no reason, however, to suspect that Nixon in 1960 will be so frustrated or emotionally disturbed by that situation as he was in 1956.

**Worry for Nixon**

The decision by Rockefeller or his strategists against bringing Nixon wholly into the New York campaign this year could worry the vice president considerably more than Eisenhower's coy attitude is likely to disturb him. Rockefeller is running scared as he sits a political novice. Harriman was a political freshman in 1954 when he brought off a really socko political upset by defeating for governor Republican Sen. Irving M. Feis.

Harriman squeaked through by fewer than 12,000 votes but it was an astonishing victory, nevertheless. The governor is a more formidable candidate this year than four years ago. Rockefeller needs all the help he can get. It is quite obvious that he believes Nixon would not help him but, more likely, would hurt him if the vice president entered the New York campaign.

If that judgment is politically sound, it shadows considerably the inhibits Nixon possesses for 1960. For example, if Rockefeller should be elected governor next month, he would control the big New York delegation to the 1960 convention. Rockefeller would not be likely to accept Nixon as the party's presidential nominee if he regarded the vice president a political liability in New York.

The rattling of a rattlesnake may be heard up to 100 feet away. There are 20 active volcanoes in Alaska.

## Newfangled Gadgets Test His Temper

JOLIET, Ill. (UPI)— Luke Benedict, 76, years young and tough as the horseshoes he helps to manufacture, spat disdainfully in the general direction of the new steel rolling mill.

"Broke down again," he grined. "Stopped more than it's running. Darned machinery!"

He spat again and pointed proudly to his own crew guiding long bars of molten steel by hand

through successive molds that narrowed and lengthened the fiery snakes.

"We keep rolling," he said proudly.

Benedick, for all his years, is head roller of the Phoenix Manufacturing Company's horseshoe division.

He and some 60 colleagues are dedicated to the sometimes questionable proposition that the horse is not vanishing from the American scene.

Chris E. Lennon, sales manager of the division, reckoned that Phoenix fashions 90 per cent of the nation's supply of horseshoes. If they're a dying breed, the horseshoe makers are in no hurry to write their own obituaries.

Benedick, dean of the crew with almost 63 years of horseshoe rolling behind him, is 200 pounds of muscle. His helpers look equally hearty, though a dozen have been with the company more than 45 years and most of the others have

been turning out horseshoes at least 20 years.

Joseph Gregorash, at 50 one of the "youngsters", beamingly told a reporter he had been feeding "blanks"—short lengths of rolled steel ready for final bending—into the same furnace for 32 years.

Faced with a steady decline in horseshoe sales, Phoenix gradually added other products and built, under the same roof with the horseshoe mill, the modern, automatic rolling mill.

The big mill isn't used to making horseshoes, Lennon explained, because it isn't economically feasible to change molds in it as often as they must be changed to make the shoes.

The company turns out more than 300 sizes and sizes of horseshoes, compared with about 725 during the heyday of the horse. But horses and mules still come in assorted shapes and sizes, and the plant produces horseshoes ranging from six to 4 1/2 inches in height.

California buys more horseshoes than any other state, Texas ranks second. The Army, which bought 4,600 kegs as recently as 1945, no longer is a customer.

Benedick admitted sadly that times have changed.

"We rolled as high as 125 tons a day for shoes back in 1913-14," he said. "Maybe 15 tons in a good day today."

He recalled that he played hockey from school to start work as a ballet boy at 13. "Made 20 cents a day," he said. "The guy that does my wild job now gets \$15 a day, has a helper yet and thinks he's working too hard."

### Officials Ponder Raising Interest For FHA Loans

By BERNARD BRENNER  
United Press International  
WASHINGTON (UPI)—Administration farm officials are considering an increase in interest rates on federal farm ownership loans from 4 1/2 per cent to the legal ceiling of 5 per cent, it was learned today.

The loans involved are made and supervised by the Agriculture Department's Farmers Home Administration, which lends only to low-income farmers. Some of the loans are made with federal funds, others are government-guaranteed or government-insured loans made with private funds.

No decision on the interest boost has been made, an Agriculture Department official told United Press International. Officials have discussed the possibility of an increase, however, this spokesman said, and "realize we may be faced with the necessity of entertaining it."

The official indicated administration policymakers would move slowly and cautiously in boosting the farm loan rate. He pointed out, however, that the Farmers Home Administration's insured loan program is under pressure from a money market in which other investments pay a better return to private lenders.

One source of funds for the agency's insured farm ownership loans has been completely dried up since early August, the official said. But he said the government rate is "not competitive" with the returns investors can get now in other government or government-guaranteed securities.

### Comptroller Rules Against 'Bankers'

PIERRE, S. D. (UPI)— State Comptroller John C. Pennington ruled today that the municipal liquor store at Eagle Butte, S. D., was "giving banking service" to the community after an audit revealed it had cashed \$2,235 worth of checks—including \$335 worth of bad ones.

Town officials said one reason for this was the presence of a large construction crew in Eagle Butte. Another was the fact that there isn't a single bank in the community.

**NICKY AND HIS BRIDE-TO-BE** — Nicky Hilton, 33, hotel tycoon, is shown with oil heiress Patricia (Trish) McClintock, after their engagement was announced at a family dinner in New York. They met last summer in Delmar, Calif. Trish and Nicky (former husband of Elizabeth Taylor), will be married Nov. 26. They will honeymoon in Berlin, Rome and Cairo.

### Army Dislaying Fast Typewriter; Paper Is Problem

NEW YORK (UPI)—The Army displayed Tuesday a teletypewriter that can operate in theory at the rate of a half million words per minute.

Actually, the electronic device was shown running at a speed of 2,900 words a minute — 20 times as fast as most people can talk. The Army intends to use it at 750 words a minute.

The 500,000 words per minute speed would be the equivalent of typing the King James Version of the Bible (177,746 words) in a minute and a half.

The mechanism will go that fast or faster, but what baffles the experts is how to pass the roll of paper past the printing mechanism fast enough. The specifications for the machine was prepared by the Signal Corps and it was built by the Burroughs Corp.

### Food And Drink

CHICAGO (UPI)—The National Restaurant Association estimates that Americans will spend 75 billion dollars this year on food and drink. The average family will invest 27 cents of every dollar on food and beverage consumption, the association said.

### Wasn't Welcome

GREENWICH, Conn. (UPI)—The huge United Aircraft Corp. plant with a barrage of opposition from nearby residents when it revealed its interest in a \$66-million tract for a new plant. While the firm was still discharging for the land, it was sold for a gold course.

**1959 EDSSEL**

**An exciting new kind of car!**

**Makes history by making sense**

The car you hoped would happen! Looks right, works right. Priced right. Luxurious without overdoing it. Roomy without useless length. Powerful without hogging gas. Styled to last. Soundly engineered. Solidly built. Priced with the most popular three!

Add it up. You get solid new distinction revealed only by cars costing much more! Hold new vertical grille. Strong new lines. Graceful new rear light deck.

You get beautiful new efficiency. Wonderfully spacious interiors—with less length outside. Six adults ride in comfort, but Edsel's compact 120-inch wheelbase fits any normal garage, swings easily in and out of tight spots.

You get lots of go for little gas. Pounds and pounds of useless car weight are gone. And four new Edsel engines are here! Including a thrifty six with a powerful test track record. And a new kind of economy V-8 that uses regular fuel and wrings big mileage from every ounce!

You get all the magnificent quality that marks a superior car. Super-smooth ride. Big, self-adjusting brakes. Luxurious carpeting, electric clock and four other customary "extras"—at no extra cost.

Yet the challenging new 1959 Edsel is priced with the most popular three! For example, you'll find that a new Edsel Ranger is priced almost exactly the same as many models of Chevrolet, Plymouth and Ford. Get for yourself—this comparison is actually based on the factory suggested list prices.

It's easy to see why this is the car that makes history by making sense. The new kind of car you've been waiting for. See it and drive it now at your Edsel Dealer. Ten history-making new models!

SEE IT NOW! THE NEW KIND OF CAR YOU'VE BEEN WAITING FOR. AT YOUR EDSSEL DEALER.

## Our Value...

**THE CHURCH FOR ALL . . . ALL FOR THE CHURCH**

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Day	Book	Chapter	Verse
Sunday	Genesis	1	24-28
Monday	Acts	17	24-28
Tuesday	Genesis	28	18
Wednesday	Psalms	94	14
Thursday	Luke	1	84-78
Friday	Acts	13	32-33
Saturday	11 Timothy	2	13, 19

## Quotable Quotes

(Reg. U.S. Pat. Off.)  
United Press International  
WASHINGTON — AFL-CIO President George Means charging that political campaign organizations this year are using the "big lie" technique to pin a pro-fascist label on organized labor: "This is an unforgivable and completely unjustifiable trick."  
WASHINGTON — Republican National Chairman Meadlo Alcorn warning his party that the GOP must get out the vote this year: "It was the stay-at-home Republicans who cost us control of Congress in the midterm elections of 1950."  
SPRINGHILL, N. S. — Harold Bine, one of 12 trapped miners in a collapsed coal mine, after rescue workers contacted the men by means of a pipe: "We're all right. The air has been pretty good. Some of us are hurt but not badly. We're awful damn thirsty."  
WEST LAFAYETTE, Ind. — Darius "Golden Girl" Adelaide Darling on criticism of her "wagging" while doing a hair ball as a drum majorette: "It seems to be what they want around here. After all, my business is to be a showman."

SOMETHING BETTER COMING UP—Major General John R. Medaris, commanding General of the Army Ordnance Missile Command, told newsmen that the Army, which is proud of its second generation Nike-Hercules, also is planning something even better for the next generation—a missile that will be able to cope with other missiles at speeds of three times or more the speed of sound. Photo shows the main engine section of a Nike-Hercules missile put in position to get a crash of gleaming white paint in the final assembly building at the Charlotte, North Carolina, Division of Douglas Aircraft Co. (UPI Telephoto)

## Police Nab Eighth In Gambling Probe

ANN ARBOR, Mich. (UPI) — David Martin, eighth college student arrested in two days in connection with a football card betting ring, was to be arraigned this morning on charges of participating in an illegal occupation.  
Martin, 19, Detroit, a sophomore at Eastern Michigan College, Ypsilanti, Mich., was arrested by members of the state police racket squad and Ypsilanti police Thursday night.  
The arrest was the first official indication the gambling ring, revealed by police in a crackdown on seven University of Michigan students, had been operating on more than one campus.  
However, Detroit police continued their probe of possible ties in with Wayne State University, Detroit, and Denby High School.  
Earlier this week, authorities found cards carried by a Denby student, and although they discovered Wayne students in possession of the illegal betting forms they believed the WSU pupils had obtained them from outside sources rather than student sellers.  
Meanwhile, the University of Michigan said no punitive measures would be taken toward the seven 15th students charged with participating in the ring, until their trials were concluded.  
The seven, including first string football Tony Rio and basketball captain Jack Lewis, demanded jury trials on the charges.

## Texas Closes Door To Future Butts Of Ezzard Charles

AUSTIN, Tex. (UPI) — Texas closed its boxing doors to former champion Ezzard Charles Thursday, telling the 35-year-old fighter the action was taken "not only for the best interests of boxing but also for your own health."  
Charles, once a boxer of great skill, took a pitiful beating Monday night in losing by a knock out to nationally unknown Donnie Fleming, the Texas lightweight weight champion.  
Charles' indefinite suspension was announced by Alton Erick, a supervisor of boxing and wrestling for the Texas Bureau of Labor Statistics. Erickson made his announcement in a letter to Charles.  
Erickson's office said it was assumed that all states that the Association would abide by the members of the National Boxing Association.

## Record Improves

SAN FRANCISCO (UPI) — California chalked up a 54 per cent reduction in the number of traffic fatalities during the first seven months of 1958, when accidents killed 1,995 persons in the state.  
Practically all the canned pork exported by the U. S. in 1957 went to Korea, Spain and Venezuela.

## YOU THE VOTERS OF SEMINOLE COUNTY

### HERE ARE THE FACTS

On October 14, 1958, a committee to elect a Write-In Candidate for County Commissioner, District No. 4 was set up. Monday, you learned who some of them were but NOT what their interest is in bucking re-assessment through electing their OWN MAN. TAKE A GOOD LOOK AT SOME OF THESE MEN:

R. W. Williams  
Frank Wheeler  
Cattlemen and Lumber  
Nelson & Co. — B. F. Wheeler & Company  
Clonts & Co. — Large Grower  
Large Fruit Grower  
Rancher  
Citrus and Cattle  
Brother-in-law of Frank Wheeler  
Employee of Wheeler  
Employee of Wheeler  
Banker of Oviedo  
Duda & Sons — Large Land Owners  
Defeated Candidate for County Commissioner, District 2.

Rev. Clonts  
Ed. Southward  
Ed. Cameron  
Nolan Fore  
John Evans  
George Means  
A. A. Myers  
C. G. Shaffer  
A. Duda Jr.  
Fred Dyson

The movement, founded on teachings and healing ministrations of Jesus Christ, stresses prayer as a means in answering problems that arise in daily living.  
Josephine B. Stuckie, ordained minister, is in charge of services and is also available for counseling purposes. All counseling is confidential.

## HOW DO YOU LIKE THAT?

AND THESE ARE BUT A FEW OF THE "BOYS" WHO HAVE ENJOYED SPECIAL PRIVILEGES FOR YEARS BY BACKING CANDIDATES WHO OPPOSED RE-ASSESSMENT AND A FAIR TAX STRUCTURE!

These are the "Boys" who have hand-picked a Write-In-Candidate, and, who hope with their money, to stuff THEIR candidate down YOUR throats.

## DOES IT MAKE YOU MAD?

### THINK

Let's clip their wings for all time—We have this CROWD on the run. Their unnamed spokesman said in the Sanford Herald October 22 they "will do everything we can to get Mayor Gary Elected..."

YOU, THE PEOPLE, ARE THE SOLE VOICE OF FAIR, HONEST GOVERNMENT. The consequences of this election must be borne by each of you for four years. LET'S WHIP 'EM BUT GOOD AT THE POLLS NOVEMBER 4. SPEAK UP WITH YOUR VOTES — LET THE "BOYS" SPEND THEIR \$25,000,000. We will be back with more on Monday.

## United Fund Boosted By Helping Hands

The Seminole County United Fund has reached the one-third mark. The road to the \$16,000 goal is long, and rough. It could be smoothed, however, if enough "care to share."

UF leaders were encouraged by two big helping hands. One was extended by Odham & Tudor and its employee, the other by six schools in the county. Odham & Tudor employees donated \$750, the company matched this gift. Six schools reported a total of more than \$800.

Most of the Odham & Tudor employees who live in Seminole County donated an amount equal to a half-day's pay. Hrailey Odham, company president, encouraged the workers to give liberally, promising to match each dollar they contributed to the campaign. When the presentation was made, he said he wished that it could have been more.

With one-half of the schools reporting, the average was almost \$100 per school. This is very commendable. The other six schools are expected to report within a few days.

The spirit shown by the schools, Odham and his employees is the type which is needed to put this over the top. With the UF total about two-thirds away from its goal, there is little doubt that the drive will be extended. Officially had hoped to "wrap it up" by midnight tonight. This possibility seems remote.

"Care enough to share." There is nothing so satisfying as that feeling one gets from helping a person less fortunate than he. All seven of the agencies in the UF are worthy of Seminole County's wholehearted support.

## Stetson 75 Years Old

Stetson University in DeLand will mark its 75th anniversary Nov. 13-15. A commemorative coin will be struck in connection with the Diamond Jubilee. The coin will bear the likeness of Henry A. DeLand and John B. Stetson on one side, the seal of the university on the other.

Stetson has lined up two nationally-known personalities for the jubilee. They are Billy Graham, famed evangelist, and Harold Stassen, former governor of Minnesota and later an assistant to President Eisenhower.

Sanford and Seminole County will have many in attendance at the jubilee. Many of the university's alumni live in this county. Quite a few graduates of the DeLand institution are active in local government.

In the 75 years since its establishment, Stetson has compiled an enviable record. It is gratifying to see such elaborate plans in the making for its biggest birthday yet.

## Actress Expected To Obtain Divorce

HOLLYWOOD (UPI) — Actress Wanda Hendrix was expected to get an uncontested divorce in Reno, Nev., today following the signing here of a property settlement with husband James Stark.

## Church Women Set To Install Leader

DENVER (UPI) — Mrs. Wilhem Sale Terrell of West Hartford, Conn., was to be installed today in a three-day term as new president of the United Church Women.

The organization's eighth annual national assembly came to an end today after four days of meetings. Delegates representing every state in the union attended. The 2,300 attendees served as spokesmen for 13 million Protestant church women.

## Henry English Dies

Word has been received here of the death of Stephen Henry English, Union Point, Ga.

Mr. English lived in Sanford for several years, operating the Gulf Service Station at First St. and French Ave. A sister, Mrs. John Key, resides here.

## OUTA QUEMOY 'CROST THE BAY!

## Washington Calling

CEDAR RAPIDS, Iowa. — In the three hours that he spent at the national corn picking contest here President Eisenhower could have had but one impression of the state of this part of the nation. The Midwest has a surface look of contented prosperity.

Prices for hogs and cattle are high and have been going higher. In the past day or two, however, hog prices have slipped somewhat, and this makes farmers looking toward next year's big hog production nervous. A bumper crop is being harvested by mechanical corn pickers that would make a Russian peasant buy-eyed with wonder.

In the golden Indian summer weather the shiny cars flash along the highways and all seems to be peace and prosperity. The farm gatherings — this time as in the past — a separate air strike is set aside for farmers arriving in their own or chartered planes.

Yet beneath the surface, and it is the strange paradox of the Congressional campaign, is the worm of discontent. Republicans are deeply disturbed by a phenomenon which they frankly admit they do not entirely understand. They are disturbed because they know it will mean greater than normal office losses in the Senate and House. The Democrats are naturally grateful, but they are not sure why an apparent revolution against the party in power will be registered in a vote against the ins.

That of talks with a number of citizens at various levels this reporter is enabled to suggest a possible explanation for the paradox of discontent in the midst of a prosperity that in most places is still on the rise and rosy side. The promises the Republicans made when they came into power six years ago were so general and they were so magnified by the technical skill of Madison Avenue that anything less than perfection — any slightest falling away — is resented.

The editor of a weekly newspaper in a small town in Wisconsin expressed it as follows: "They kept telling us that prices have gone up only six percent under Eisenhower. But a lot of folks remember when they promised that prices would go down."

An appliance dealer in Western Iowa says it is true that things have picked up quite a bit in the past two months. But he recalls how hard they were six months ago and how he has not forgotten the echo of the "Peace, Prosperity and Progress" that was the rallying cry of '52 and '56.

This suggests another reason for the disaffection reported by the political interrogators as they roam the country. The recession is ending and conditions, except in the persistently depressed areas, are improving. But the memory of the time when installment payments could not be met and when the rate of repossession on cars and television sets was sharply up is still keen.

It is the same with the question of peace or war. The crisis over Quemoy and Matsu seems to have subsided and Vice-President Richard M. Nixon is telling his audiences that the Republicans bring peace and the Democrats bring war. But many people remember how close war seemed

LOANS MADE TO RESIDENTS OF ALL NEARBY TOWNS

# Fred Othman Says

By FREDERICK C. OTTMAN  
WASHINGTON. — At the secret headquarters of the Lunar Protective Association, I have interviewed its founder and president, Homer J. Dodge, who claims success so far in keeping people from shooting stuff at the moon.

"The moon has got to be protected from those who would drill a hole in the face of the man living there," said founder Dodge, who functions as historian of the National Press Club between joints with those who would mess up the moon.

"That's why we've got to operate secretly," said Dodge. "There's opposition to our program at the Pentagon and we cannot let them know what we are doing. So far, can report complete success. They've tried twice now to shoot the moon and both times we've foiled 'em."

Moan rhymes with June, the founder continued, and if the moon doesn't stay where it is and in one piece, without holes punched in it, what will poets, song writers and young lovers do?

"That is why we are standing foursquare," he said. "The fact is that only one living thing ever has approached the moon and she was a cow. She never made it and after jumping over she went into orbit, where we can presume she still is contemplating her mistake."

The founder added that he had been trying to think of a good name for those members afflicted by lunar protection, but his best he came up with so far is lunatics.

"Lunatics maybe we are," he said. "But what are those people who are trying to ruin our moon and maybe make the life run backward and eliminate moonshine?"

Particularly bitter is the founder at those scientists who held a press conference here the other day to announce their plans to utilize the moon into a giant vacuum tube.

The experts were serious. The vacuum on the moon it would be a simpler matter to set up there the grids of a vacuum tube to collect electrons from the sun and thereby manufacture electricity. They said they had the process all worked out, all they needed now was somebody to deliver the machinery. This left the Lunar Protective Association aghast.

"These people without compunction would land on the moon if they could," he said. "They'd trample all over the greatest supply in the universe of green cheese. They'd drive stakes in it. They'd bomb holes in it. They'd probably try to plant grass in it to pretty up the fronts of their Quonset huts. They simply have no poetry in their souls."

Or love for cheese, either, the founder added pensively. He said he and his fellow lunatics, who now number some of the leading citizens hereabouts, consider ridiculous the hopes of the military to see via radar what's on the other, or off, side of the moon. "They could have come to us

## Executive Board Of Labor Group Gets Citrus Plan

LAKELAND (UPI) — The fate of a proposal that the national AFL-CIO name a union to organize some 17,000 Central Florida citrus workers rested today in the hands of the Florida AFL-CIO's Executive Board.

The State Federated Labor Council, AFL-CIO, decided Wednesday in refer to the proposed resolution in its executive board for further consideration and subsequent passage in top-level AFL-CIO officials in Washington.

The action came on a proposal by the Polk County delegation to the Council's annual convention that AFL-CIO President George Meany designate one of the AFL-CIO's international unions in take on the job of organizing citrus workers, a scattering of whom are now represented by the Teamsters Union.

But the convention decided to send the proposal to the executive board for "further consideration and implementation."

However, the delegates did approve a resolution which calls for legislation setting migrant farm labor minimum wages at \$1 an hour, placing them on a 40-hour week and setting minimum standards for them.

Another resolution opposed use of convict labor on any project financed by public funds. The resolution grew out of a proposal at Tallahassee to build the new state prison at Raiford with convict labor.

The AFL-CIO delegates claimed that the use of convict labor would result in a breakdown of the economy of building trades.

Earlier, Polk County Sen. Scott Kelly in an address to the convention denounced use of convict labor for such purposes.

## Halloween

When the doorbell rings, and nobody's there... when there's a gentle tapping on the window, and there's not a soul in sight... when the moon's a misty orange and there's a frosty pattern on the windowpane...

Halloween is actually the eve of All Hallow's or All Saints Day. All over the world, All Saints Day, Nov. 1, is a day of special services when the Church remembers the faithful departed, especially the great saints of many years ago. All Saints Day was known as All Hallow's Day. The old-fashioned meaning of the word hallow, as a noun, is saint. As time passed, the words were shortened to hallow's eve and finally to Halloween. Through the years, people have come to regard Halloween as a time of superstition, thinking of the ghosts and departed spirits of the dead to be honored the next day. Thus, the children of our day seldom realize the religious importance of the day, knowing only the ghosts and goblins now associated with the occasion.

Halloween customs, however, go back before the Christian era to the mystic rites of the Druids on the British Isles. Also mixed into the holiday lore are customs of Roman, and even pre-Roman, making today's Halloween a hodge-podge of wandering spirits, angry goblins, witches, black cats, lighted torches, bonfires, apple-dunking, and jack-o'-lanterns.

Legend has it that the custom of making lighted jack-o'-lanterns goes back to Ireland. A stingy man named Jack was barred from Heaven because he was such a miser, and barred from Hell because he had played practical jokes on the devil. With no place to go, Jack was condemned to walk the earth with his lantern until Judgment Day. Jack-o'-lanterns were not at first made from pumpkins. In early days in Scotland children carved them from large turnips. Centuries ago, someone played a part in Halloween, too. A madman named Marie England believed that by passing an apple in one's hand and dropping the peel over the left shoulder, it could form the shape of a witch's hat. A girl wishing to dream of her future husband on Halloween ate a cake made of flour, root and salt before retiring. Many fruits and nuts, and cabbage also, were used in games to discover one's true love.

Today's observance of Halloween has become a frolicsome time for children, and for many adults who enjoy the yearly tangle with goblins and demons. Merry-making has taken over from the cold fear of bygone times that witches stalked the countryside on All Souls Eve.

Offer Freezer Tips When Power Fails WASHINGTON—(UPI)—Know what to do when a power failure causes the home freezer to stop? The Agriculture Department gives these tips on how to keep food from spoiling: Don't open the freezer door unnecessarily because warm air rises... Try to find out how long the electricity will be off in the area... Before an emergency arises, locate the nearest place to get dry ice... Pack them in cardboard boxes.

## Nuptials Planned

Mrs. E. V. Miller, Clearwater, formerly of Sanford, announces the engagement of her daughter, Sally Margaret, to Harold L. Bentley, son of Mr. and Mrs. John M. Bentley, Clearwater. The bride-elect was born in Sanford, attending local schools and graduating from Seminole High School with the class of '52. She moved to Clearwater in 1953 where she is a member of the First Assembly of God. Miss Miller is employed by the General Telephone Company of Florida. Mr. Bentley was born in Elk Hart, Kan., where he received his education. He is a member of the First Assembly of God in Clearwater. He is the owner of Panolas Instrumental Iron Works there. Wedding plans will be announced at a later date.

MISS SALLY MILLER

## Career Corner

WASHINGTON—(UPI)—Math is the stars for girls who are keenly interested in the subject in high school. The stars are brightest for those who follow up by majoring in math in college. Teaching is a good choice for math addicts who like to explain things clearly and can easily make themselves understood. A meteoric rise can be expected of teachers who enjoy working with young people. Advantages of teaching: Long vacations, prestige of association with vital and imaginative young people. If machines and puzzles appeal, you might find your math talents to a big use as a computer or electronic brain. You can work as a coder or programmer, for the "brains" are all dances without human beings to guide them. Math experts are needed in the scientific field—chemistry, physics, biology, geology, metallurgy, sociology, psychology and health. Opportunities to research are varied, indeed. Even before earning a degree, you might get a job as an assistant in a research laboratory if you have a math background. An actuary applies math to various aspects of insurance, a need for pension and other employee benefit plans. To be a full, trained actuary you must pass eight examinations, which usually takes from five to 10 years.

## Officers Elected At First Meeting

An organizational meeting of the Evening Circle of the First Methodist Church was held on Monday at the home of Mrs. Carl E. Williams.

## Good Storage Prime Need Of Kitchens

Good storage facilities are almost as essential to kitchen efficiency as are modern ranges and sinks, home planning specialists point out. How does your kitchen compare in this respect with the recommendations of the experts? Just for fun, check your cabinet space against the following standards: They were set forth by a Michigan State home management specialist in a recent seminar sponsored by the National Institute of Wood Kitchen Cabinets. Six centers—from 24 to 36 inches at wall cabinets and 27 to 36 inches at base cabinets. Sink center—18 inches of wall cabinet and 14 to 24 inches of base cabinets. Dishes—from 24 to 32 inches, depending upon the size of the family. Clothes—hanging storage near the back door, but not necessarily in the kitchen proper. In a kitchen with a washer and dryer, there also should be cabinets above these appliances. The Michigan State specialist offered these additional storage tips for maximum convenience: Provide storage at the point of use and most of it within the "easy reach" area. Have adjustable shelves in wall cabinets. Provide dish storage both at the front of the sink and in the dining area. See that there is open storage within easy reach for articles most often used. Have storage at the range area for serving dishes as well as for a few cooking utensils. It is an excellent plan to have bin storage in the mix center and in the range area.

## BIRTHS

Mr. and Mrs. Jay Thomas announce the birth of a son, Allen Ralph, born October 28, in Semole Memorial Hospital. The baby weighed 9 pounds. Grandparents are Mr. and Mrs. W. M. Moore and Mrs. B. L. Thomas, all of Sanford.

## REHEARSED YAMS

NEW YORK—(UPI)—Dress on baked yams by stuffing them with blueberry. To serve 6 persons, bake 6 medium-sized yams in 300-degree oven 1 hour. Remove yams from shells, mash and combine with 1 (1-pound) package frozen blueberries, drained, and 1/2 cup sugar and melted butter or margarine. Fill yam shells with mixture and bake 15 to 20 minutes.

## Sanford Garden Club Reveals Plans For Annual Flower Show

Plans are being made for the annual flower show to be held on Nov. 15 and 16 by the Sanford Garden Club. The show will be titled "Through Our Garden Gate" and will depict scenes that might be seen in a garden through the owner's windowpane.

## Jeweler Gives Talk

Robert Cushing, local jeweler, presented an informative lecture on jewelry to members of Gamma Lambda Chapter of Beta Sigma Phi, Tuesday night at the home of Mrs. Gordon Frederick. He used a collection of gems and stones to illustrate his words, pointing out various cuts, designs, and settings.

## Clear Lamp Shade Adds Life, Light

WASHINGTON—(UPI)—Proper cleaning of your lamp shades will mean more light from the lamp and longer life for the shade, too. The method of cleaning must suit the shade, said Mrs. Peary, home furnishings specialist at Auburn University, Ala. Fabric shades, both genuine and synthetic, can be sponged with a damp cloth but must not be dipped in water. Plastic and waxed shades also can be sponged with a damp cloth. Colored shades of silk or rayon can be washed shades of the seams and the trimmings are stitched, not glued. Use a mild detergent with lukewarm water and then whip up suds. Plunge the shade up and down in the suds by holding the top of the shade with one hand. If soil spots show, rub them with a soft brush in gentle, downward strokes. Rinse by dipping the shade briefly in clear lukewarm water until all the soap is out. The specialist suggests patting with a clean towel until water from the shade no longer drips. Avoid drying in direct sunlight; use an electric fan instead.

## How To Plan For That New Kitchen

Kitchen efficiency doesn't just happen these days. Because of the many elements involved in a modern kitchen, it demands careful planning. If you're considering a new kitchen, here are a few pointers you'd do well to keep in mind. They were presented by a Michigan State University home planning specialist at a kitchen clinic sponsored jointly by the university and the National Institute of Wood Kitchen Cabinets. A U-shaped or an L-shaped kitchen is the most efficient. For a right-handed person, who works from right to left, appliances and work surfaces in either of these arrangements should be placed in this sequence: refrigerator—mix center—work surface—range—work surface—sink—work surface—range—work surface—wall oven—planning center. In a corridor type arrangement the sequence on one wall should be refrigerator—mix center—work surface—range—oven. On the other wall: work surface—refrigerator—mix center—planning center. In a kitchen where all equipment is against one wall this sequence is recommended: refrigerator—mix center—work surface—range—work surface. Usually the dishwasher is best placed to the left of the sink. Even if you're left handed, you may want to do many homemakers—adjust readily to working right handed in the kitchen.

# Democrats Predict They'll Gain Eight Senate Seats

**By RAYMOND LAHR**  
WASHINGTON (UPI)—Democratic campaign managers appeared convinced today they will gain at least eight U. S. Senate seats in next Tuesday's election and have an even chance or better to gain eight others.

They stuck to their forecasts despite the intensive campaigning by President Eisenhower and Vice President Richard M. Nixon in behalf of Republican candidates. While admitting the GOP

leaders may have sturged up Republican workers — which could mean a larger GOP turnout at the polls next Tuesday—Democratic spokesmen refused to concede any change in the outlook.

Eisenhower returned Tuesday night after a two-day campaign trip into West Virginia, Pennsylvania and New York in which there are critical races for four Senate seats and two governorships. He will make his final

# Washington Window

**By LYLE C. WILSON**  
WASHINGTON (UPI)—When the returns from next Tuesday's election are in, there is likely to be a lot of Republican talk but not a lot of Democratic

Philip Murray moved immediately after the law was enacted to test the constitutionality of Section 304. Murray used union money to publish in The CIO News a special article on a candidate in a Maryland special congressional election. The CIO was dismissed. The Justice Department obtained a grand jury indictment of Murray and the CIO.

While talking about chances of staging upsets, Republican leaders have shied away from specific forecasts about unseating Democratic senators in the Nov. 4 contest for control of Congress.

Eisenhower plugged in New York City Tuesday for election of Nelson Rockefeller, Republican making a bid for the governorship and of Rep. Kenneth B. Keating, GOP nominee for senator from New York.

Both labor and corporations, however, are spending in this campaign with considerable freedom and liberality. The sums being reported and on record in the office of the clerk of the House of Representatives, if this seems to reflect a confused situation in which the law is not being followed, it is correct. There is a confused situation which came about like this:

**Test of Law**  
The hottest, fastest and most successful labor challenge to the Taft-Hartley Act was directed against Section 304. Malcolm C. Ross, who is now one of President Eisenhower's speech writers, explains the events leading up to the current confusion in a book, "A Grammar of American Politics," which Moss wrote jointly with Willard E. Binkley.

## FSU Has Beauties, Bands, Banquets

**TALLAHASSEE (UPI)**—Beauty, bands and banquets set the stage today for a weekend of colorful festivities at Florida State University's homecoming celebration.

Two beauty queens instead of the usual one will be crowned. For the first time there will be a Mrs. FSU, elected by wives of students. This year she is Mrs. Joy Gauvin of Fort Walton Beach, wife of sophomore pre-med student Dale Gauvin. The 20-year-old lover has a three-year-old daughter.

## Physicist Explains Radiation To Class On Mass Feeding

Ulray Clark, health physicist technician with the Florida State Board of Health, was guest speaker in the class in emergency mass feeding this week.

Clark, whose job is protecting people from radiation, explained the use of such equipment. Members of the class then used instruments to detect the presence of radioactive materials.

## Killer Leads Possee To Bodies Of Two

**SAN DIEGO (UPI)**—A confessed killer Harvey Morris Glatman, 30, early today led a posse of policemen through a barren desert area to the remains of two of his three women victims.

**Only the partial bones remained of Mrs. Bridget when Glatman, an economist, met through a lovely night club party said they also found the lateral part of a skull believed to belong to her.**

The remains found in the uninhabited earthquake valley section of Anza State Park about 40 miles northeast of here were those of attractive model Ruth Rita Mercado, 24, missing since last July, and Mrs. Shirley Ann Bridgford, 24, mother of two children, missing since last March.

## Animals Declare War On Hunters

JOHN WAYNE and Eiko Ando, new Japanese star, are romantically teamed in John Huston's "The Barbarian and the Geisha," the CinemaScope, De Luxe Color attraction which begins Sunday at the Ritz Theatre. The Twentieth Century-Fox film dramatizes the exciting adventures of the first American envoy to Japan.

### John Wayne Stars in Picture At Ritz

John Huston's "The Barbarian and the Geisha," the story of Townsend Harris, first United States diplomatic representative to Japan, will have its gala premiere starting Sunday at the Ritz Theatre, it was announced today.

Starring John Wayne as the man who opened the Far East to the Western world, "The Barbarian and the Geisha" introduces a beautiful new Japanese star, Eiko Ando, as the geisha who was introduced into the Harris household, first to spy on him and later ordered to kill him.

Eugene Frenke produced this adventure drama for Twentieth Century-Fox, which was filmed on location in Kyoto, cultural capital of Japan, and also stars Sam Jaffe and the international star, So Yamamura.

In his long search for a Japanese actress to play opposite Wayne, Huston said that above all he was looking for a woman with "the quality of mystery."

"She must be someone whose character we cannot read until her actions unfold it for us," he added.

Japan was "the forbidden empire" in Townsend Harris' day (1854) so it is understandable that the celebrated director sought a girl who could represent this era effectively.

After interviewing and looking at film footage of over 150 women and actually testing more than 20 of them, Huston settled on Eiko Ando.

### Governor Requests Grand Jury Probe Of Sheriff's Race

TALLAHASSEE (UPI) — Gov. LeRoy Collins has recommended a grand jury investigation into the campaign tactics of a candidate for sheriff of Pinellas County.

But Collins said the investigation should come after the Nov. 4 election in which Constable Douglas A. Rodenbaugh of Madeira Beach will try to unseat Sheriff Don Genung.

Collins refused Rodenbaugh a lie detector test to prove whether he or Genung is telling the truth about alleged improper activities in the county jail. He labeled Rodenbaugh's actions as "irresponsible and indefensible political maneuvering."

Rodenbaugh asked permission to use a lie detector at the University of Florida "in order that the people might know the truth." He said it is essential the truth be resolved before election day in view of serious allegations affecting law enforcement.

Collins said a local grand jury should completely investigate the case after the election and bring any guilty party to justice.

A group of prisoners in the county jail had charged that a "plan" was put in the jail to try to incite a riot. They blamed it on local politics. The convicts said Charles H. Faulk of St. Petersburg, awaiting trial on a charge of unarmed robbery, offered them cash and court favors to stage a riot to bring adverse publicity to Sheriff Genung and help defeat him.

### Brynes Take First Local Gymkhana

First place in the rally cum gymkhana sponsored by the Seminole Sports Car Club Oct. 28 at Samula Airport was taken by H. W. Byrnes and D. Byrnes driving a Morris-Minor.

John Jewett and John Brooks finished second in a Jaguar, followed by J. Maunten and John MacDonald also driving a Jaguar. Awards for this event will be presented to the winners at the Nov. 12 meeting to be held at 8 p. m. at the Turf Club in Casselberry.

### Sanford Grocers Attend Meeting

Two Sanford supermarket owners, Joseph Gault of Tip Top, and Charles V. Allinson of Foodmart, returned Wednesday from the three-day state convention of the Retail Grocers Association of Florida, held this year at Clearwater.

The Florida Retail Owned Grocers, Inc. (F. R. O. G.), was host for this year's gathering. An estimated 1,500 grocers and their wives attended the meet, with most sessions held at Clearwater's Ft. Harrison Hotel.

Theme of the meeting was "Better Merchandising" and "Customer Relations."

Police officers in Phoenix, Ariz. now wear name plates as a regular part of their uniform.

### Not So Delicious

BOSTON — (UPI) — Delicacies featured at this year's Boston Food Show included fried grasshoppers, fried silk worms, fried humbebees and roasted caterpillars.

## Thank You... CENTRAL FLORIDA

For your enthusiastic approval of the furnished model homes, presented last Sunday, at North Orlando... Central Florida's newest city.

## NORTH ORLANDO HOMES

The grand opening of North Orlando Homes attracted more than six thousand home-interested spectators. The Honor Roll of the first 60 home purchasers will soon be posted in the sales office.

Because of the unusual interest shown during the spectacular opening, Winter Park Land Co., exclusive sales agents for North Orlando Homes, announced the model homes will be open for public inspection, every evening this week until 9 p.m.

## Haunted Houses, Telepathy Like Reading Bumps

By WILLIAM EWALD  
United Press International

NEW YORK (UPI)—Offhand, I can't think of anything that'll numb me into narcosis quicker than true-life stories about clairvoyance, telepathy, haunted houses, levitation, mediumship and the other clutter of the psychic heap.

Phony stories about the spirit world and its tenants, I like. Bring on the ghosts, mummies, ghouls and deck me with wobbly-bone. But serious retellings of strange occurrences I put in a class with headlamp readings, lake monsters, dowling rods and the writings on the great pyramid.

Wednesday night, CBS-TV's "Armstrong Circle Theater," a drama show that deals with actual happenings, turned to one of these honest-to-goodness strange occurrence stories, building an entire hour around a long Island, N.Y., family whose house had the "haunts."

It was a rather curious specimen of program, partly dramatic, partly straight interview, mostly very dull. The family was trotted out and so were some policemen, all of whom dutifully talked about bottles popping, sugar bowls sliding,

plastic globes flying and dressers falling and it all sounded like a normal afternoon at anyone's house. Somehow, I couldn't help feeling that about 20 cents worth of glue would have fixed everything up fine.

CBS-TV's other hour drama show Wednesday night, "Pursuit" came up with "Free Ride," that was a mild boiler, its most notable assets were Ralph Meeker and Keenan Wynn who played the leads. Meeker, playing a small-time mobster, gave his part

a kind of Richard Widmark glie. Wynn was solid, sharp, sure incidentally, the girl who played the little brat's mother in the play was Jocelyn Brando, Marlon's sister.

Over at NBC-TV, Milton Berle turned out another low-key, moderately funny show. This, despite the presence of Sammy Davis Jr., a performer whose charms have always eluded me.

It's true that Davis is versatile. He sings, dances, clown, does impressions etc. But it seems to

me that he doesn't do any of these things very well. He merely does them. However, he does keep that smile going full blast and that seems to be all that a performer really needs nowadays.

The Channel 52's one of the new shows on the planning boards at NBC-TV is "Chopsticks," a musical panel show in which panel members sit before pianos and pound out their answers. Screen Gems, an independent outfit, is planning a filmed situation comedy for it, on Trueman called "Mister is a Governor."

ABC-TV will program reruns of "Shirley Temple's Storybook" on every third Monday starting Jan. 5. CBS-TV's "Jackie Gleason Show" is going through a crucial period — Its ratings have everybody gloomy. A test film for the proposed Hal March daytime variety show will be shot by NBC-TV before Dec. 21.
