BAIT CATCHES MORE THAN FISH
While her big brother hopes for a bite on his line in Saturday's fishing rodeo staged by the Sanford-Seminole Jaycees in Ft. Mellon Park, 15-month-old Joanna Rowland of 188 Taagerine Dr. decides to have a nibble on the bait herself. Her verdict: bread bait tastes a whole lot better than the fish her brother caught. The winners of the rodeo are pictured on Page 2-A. (Herald Photo by Bill Vincent Jr.)

Certified Millage Rate May Be Topped County Must Pare Budget

(Editor's Note) One mill is equivalent to \$1 per \$1,000 of assessed property value and is used to determine the amount of taxes paid. Thus, a levy of 6.5 mills would require each property owner pay \$6.50 for each \$1,000 of the assessed value of his property.

Commissioner Dick Williams said costs of operating county government have spiraled. As examples, he pointed to the county's having to absorb employment retirement costs and collective bargaining costs. Williams said he wasn't "that optimistic" that the budget could be pared down.

"I think we're going to try," he said.

Budget Analyst Eleanor Anderson said most of the cuts which brought the budget from \$22 to \$18 million occurred last week. She said commissioners need to approve a tentative budget by day's end.

The Office of Management Analysis and Evaluation (OMAE) told commissioners today a 6.5-mill land tax would be needed to produce a budget of more than \$18 million. The initial budget proposal was more than \$22 million.

"I've called you together to discuss the missing million dollars. Let's go find it," County Commissioner John Kimbrough said as he left his office on the way to the budget meeting.

Commissioners hope to produce a tentative budget by day's end. Also, they were hopeful the budget could be reduced and millage held to the limit certified by the appraiser.

"If the budget can be pared further, and that's exactly what we're here to do," Commissioner Mike Hattaway said.

Saying detractors are "shooting in the dark," Seminole County Commissioner Mike Hattaway today reaffirmed his intention to seek a 30-day moratorium on the county's purchase of a 10-acre clay pit site in a press conference last Wednesday, Hattaway said he would ask for the 30-day delay to "clear the air" over "innuendos of impropriety" surrounding the purchase.

Hattaway said some citizens feel some items concerning the purchase are "improper."

"It's the best possible site for a clay pit," Hattaway said. Markham Woods residents contend the county did not make a thorough search for the clay pit site, and they say it will reduce the quality of their homes.

The county plans to purchase the \$37,000 parcel from Lester Mandell, president of Greater Construction Corp.

Several residents have questioned the contract because Laurel Realty is the broker on the land deal. And, a salesman for Laurel Realty is Tom Binford, a first cousin to County Attorney Tom Freeman.

Binford, however, says the "county got a good deal, and I got a piece of the action."

Binford is quoted as saying Laurel will receive 50 per cent of a \$50,000 commission fee and that he will receive one half of Laurel's commission.

Polk filed a petition with the Circuit Clerk's office seeking the full \$2.5 million request for funding the county's enforcement agency over the next year.

Commission had approved a \$2.3 million budget for the sheriff.

Kimbrough said he didn't know if Cleveland was "intended," but the commissioner said he was dissatisfied with the reply drawn by County Attorney Tom Freeman.

Kimbrough pointed out that at present county officials are close to that goal because

Uniform Crime Report Shows Increases Rising Burglary, Larceny Rates Noted

By BOB LLOYD
Herald Staff Writer

Burglary is big business across Florida and the unincorporated areas of Seminole County and the rate of breaking and enterings and larcenies is steadily increasing, according to state and local officials.

The Florida Department of Criminal Law Enforcement (FDLE) annual Uniform Crime Report for 1974, released four months ago, shows the nonviolent crimes of burglary, larceny and auto theft increased 31.9 per cent.

A survey shows, using the month of July (latest available figures), a 32 per cent increase in burglaries for the month compared to July 1974.

Value of stolen property showed a jump from \$113,975 in July 1974 to \$229,396 in July 1975. These figures are only for the unincorporated areas of the county covered by the Sheriff's Department.

In 1974 there were 185,943 burglaries reported in the state with property valued at \$75,848 million stolen. This compares to 142,625 burglaries in 1973 with \$53,783 million in property stolen.

The FDLE annual report shows there were 1,523 burglaries reported in 1974 in unincorporated areas of Seminole County. This was in addition to 2,313 larcenies and 286 auto thefts.

State officials say the percentage of crime increase is still increasing at a greater rate in the central and southwest areas of the state.

A spot check of Seminole County Sheriff's Department records for the month of July shows 180 burglaries, 214 larcenies and 29 motor vehicle thefts investigated by Sheriff John E. Polk's deputies.

"Property reported stolen in July 1975 was valued at \$259,396, according to the Sheriff's Department reports. Currency stolen accounted for nearly half the total (\$108,083) and autos, television, radios, stereo equipment, and cameras accounted for \$67,807 of the stolen property. Household goods reported stolen was \$11,233.

The Sheriff's Department reports for July 1974 show 136 burglaries, 198 larcenies and 17 motor vehicle thefts for a total of \$113,975 in stolen property.

For the month of July 1975, reports by Polk's office show 161 reported burglaries, 146 larcenies and 10 motor vehicle thefts. Total value of property stolen during these offenses was \$144,000.

almost one-third of the burglaries couldn't be pinpointed as to exact hours of occurrence.

Taxpayers To Feel Bigger Bite To Qualify Schools For Funding

By JOE ASKREN
Herald Staff Writer

Seminole County taxpayers will be expected to pay about \$3 million more than last year to raise the state in order to qualify for school funding programs this year.

Roger Harris, the county's school finance officer, said today the \$3,122,318 increase in "local effort" is necessary because the assessed property valuation is up for the whole state, including the local tax roll. Operating expenses also have skyrocketed.

Local tax dollars going into the state "pot" actually will total \$9,314,529, compared to \$5,192,311 last year. This is true, Harris said even though the local millage figure earmarked to raise the same amount of revenue as last year doesn't mean anything to us because the state tells the School Boards what they must levy to participate in state funds."

Harris said the state earlier predicted the county would get \$2.3 million in additional state funds based on last year's tax roll. The county actually is expected to get \$3,282 in additional state monies "because of the increase in local effort," he explained.

"One misconception," Harris said, is the county property appraiser's "certified millage to raise the same amount of revenue as last year" doesn't mean anything to us because the state tells the School Boards what they must levy to participate in state funds."

School Secretaries Seek Bargaining Certification

The school system's secretarial association has won a hearing before the Public Employees Relations Commission (PERC) to appeal for certification to bargain with the School Board, an official said today.

Harry Pelley, the board's chief negotiator, said he was informed by letter that representatives of the county school system's 280 secretarial employees should appear in Tampa on Sept. 3.

The secretarial association — along with bus drivers and a third organization — have won recognition from the board, but attaining PERC certification may not be as easy.

In fact, PERC already has refused the bus drivers' organization certification.

Without PERC certification, an agency is exempted from bargaining with the board.

PERC said bus drivers — who have 104 validated signatures out of a total 131 drivers — was "too small" a group to bargain.

In a letter to Pelley, PERC Chairman Curtis Mack cited precedents from other counties to back up his decision not to grant certification to Seminole County's drivers.

Bus drivers have the right to appeal that decision.

However, the secretarial association is a larger group, with 280 workers listed on the payroll. The organization has 162 validated signatures.

No word has been received on the status of the third organization recognized by the board. That group is composed of non-instructional workers.

In a fourth area of collective bargaining — made possible by the 1975 legislature — the Seminole Education Association (SEA) contract is up for board ratification Wednesday.

School Board members will consider the recently agreed upon master contract at 6:30 p.m. at Altamonte Springs City Hall.

SEA and Pelley hammered out the final contract Aug. 11. The contract gave teachers, among other things, a 300 increase in base pay.

The \$300 applied to the total wage scale allows a teacher at the top end of the pay scale a \$600 yearly raise.

School Supt. W.P. "Bud" Lauer has praised the contract agreement as being the "best" for both sides.

PERC guidelines require board, as well as teacher, ratification of the 75-page master agreement.

Sources say some board members aren't overly happy with the contract and plan to oppose it at Wednesday's meeting.

A public hearing is set for considering adoption of two ordinances rezoning property. One is for property between Maple Avenue and Avocado Avenue and between Ninth Street and Second Street.

The second ordinance is for rezoning between Cedar Avenue and Holly Avenue and between Fifth and Sixth Streets.

TUBING ON THE WEKIVA
Boy Scouts of the St. Johns District held their annual tub float on the Wekiva River Saturday. Approximately 200 Scouts floated four miles down the scenic waterway to the St. Johns River. These Scouts are shown at the starting point, Wekiva River Haven. (Herald Photo by Bill Vincent Jr.)

Water Request Scheduled

A request for water service for portions of two lots just outside city limits is on tap for tonight's regular City Commission meeting beginning at 7 p.m. at City Manager Warren E. (Pete) Knowles has recommended the request of Mr. and Mrs. Orian M. Stal be denied until the property is annexed to the city. The property is off South Park Ave., about a lot and a half outside of the city.

"At the present time, the county has an ordinance that controls utility services to all customers outside the city limits," Knowles wrote in his memorandum to the City Commission.

Also on the agenda is a public hearing to consider rezoning property between Santa Barbara Drive and DeSoto Drive and between Iroquois Avenue and Mohawk Avenue.

A request to transfer \$11,075 of internal funds in the 1975 fiscal budget for the Sanford Airport Authority is also on the agenda.

A public hearing is set for considering adoption of two ordinances rezoning property. One is for property between Maple Avenue and Avocado Avenue and between Ninth Street and Second Street.

The second ordinance is for rezoning between Cedar Avenue and Holly Avenue and between Fifth and Sixth Streets.

NATION IN BRIEF

Enquirer Offers Reward For Kennedy Information

LANTANA, (AP) — A \$100,000 reward is being offered by a weekly newspaper for information and evidence leading to arrest and conviction of a conspirator in the murder of President John F. Kennedy.

The National Enquirer, headquartered in this South Florida city, made the offer Sunday amid persistent speculation on whether the Warren Commission got all the facts about the assassination.

"Our offer comes at a time of great public doubt over the conclusions of the Warren Commission," the Enquirer said.

The commission found that Lee Harvey Oswald acted alone to kill Kennedy on Nov. 22, 1963.

More Women To Be Ordained

WASHINGTON (AP) — Five more women plan to be ordained to the Episcopal priesthood in defiance of their church's hierarchy.

The five women, all deacons of the Episcopal Church, have sent letters to each of the more than 200 bishops of the church notifying them of their plans, according to the Rev. Alison Palmer.

The Rev. Palmer, who also is director of the Office of International Labor Affairs for the State Department, said Sunday night that she and the other four women will be ordained Sept. 7 at St. Stephen and the Incarnation Church in Washington by the Rt. Rev. George W. Barrett, 67, former bishop of Rochester, N.Y., now living in Santa Barbara, Calif.

Levi May Hire 'Watchdog'

WASHINGTON (AP) — Atty. Gen. Edward H. Levi is considering appointing an internal Justice department "watchdog" to investigate any future department scandals.

Levi and Deputy Atty. Gen. Harold R. Tyler Jr. are weighing the question while dealing with allegations of misdeeds in four major department agencies — the FBI, the Drug Enforcement Administration, the Law Enforcement Assistance Administration, and the Immigration and Naturalization Service.

The department, which has several of its branches have been brushed with accusations of scandal, some serious and some mere personality clashes, over the past three years.

Williams Raps Ford On Energy

THE HERALD SERVICES

POINT CLEAR, Ala. — Florida Lt. Governor Jim Williams today criticized President Ford for his failure to agree with Congress on a long range energy program.

"We, like everyone else, are looking for leadership that is just not there," he said.

Williams also partly blamed Congress for failure to go along with Ford's energy program or enacting one of its own.

"The President's program may not be the best, but it's the only one we've got so far. Congress ought to adopt it or come up with its own program or shut up about it," Williams commented, while attending the first business session of the National Lieutenant Governors Conference here.

Gradual Decontrol Sought

WASHINGTON (AP) — The chairman of Mobil Oil Corp. says oil price controls should end gradually, rather than expire abruptly next weekend, to avoid a "shock to America's fragile economic recovery."

Randolph Warner Jr., chairman of the third largest U.S. oil company, said "nobody really knows" what the total economic effect will be if controls end suddenly but it "could stimulate higher prices, higher wages and perhaps some loss of jobs."

Warner, in a letter to members of Congress, said a gradual end of price controls over several years "cushions the impact of higher prices on the consumer over a period of time." Warner thus became the first U.S. oil executive to oppose a sudden end to controls.

Panel Challenges Lockheed

WASHINGTON (AP) — A congressional panel is challenging Lockheed Aircraft Corp.'s assertion that business reasons prevent the company from disclosing the names of foreign persons and groups receiving more than \$2 million in Lockheed gifts.

A Pensacola newspaper and two radio stations were contacted during the night by an anonymous caller who directed them to the schools where the crosses were affixed.

One of the crosses was set in front of Escambia High School, the site of racial violence in recent years. The 5th Circuit Court of Appeals has ruled that the students should vote as soon as possible on whether to keep

New Book Defends Nixon

CHATTANOOGA, Tenn. (AP) — A Chattanooga optician has followed a recording in which he defends former President Richard Nixon with a book charging that Nixon was driven from office because he appealed to the intermediate majority.

The book, "The Intermediate American," was written by Stephen L. Adams, who says Nixon will be playing into the hands of those who want to destroy his political philosophy if he does not re-enter politics.

Adams, 47, wrote and narrated a pro-Nixon record on the Warner Bros. label in January. He said he hopes Nixon's philosophy can be resurrected.

Prison Term Start Delayed

VALDOSTA, Ga. (AP) — The five-year prison term of former Lowndes County Sheriff Jewell Patch, scheduled to begin today at a federal hospital penitentiary in Missouri, has been delayed.

A court order preventing federal marshals from taking Patch into custody to begin serving time for a 1974 gambling conspiracy conviction was issued by Judge Robert Elliott of Columbia.

The order directs that Patch be given medical tests at an independent medical agency.

Gunmen Take Cash, Flee In Auto Man Reportedly Robbed Outside Bank

By BOB LLOYD
Herald Staff Writer

Sanford police today were probing the reported Sunday night robbery of a service station attendant as he was making a night deposit at a downtown bank.

Samuel Pierce, 50, of 113 Scott Dr., Sanford, told officers that two men armed with pistols robbed him of \$1,000 in two bank bags outside the Flagship Bank, W. First Street and Oak Avenue, at 10:50 p.m.

Pierce said he had arrived to make the Eastern Oil Co. deposit when a blue sedan occupied by four men pulled up behind his car at the curbside station to report the robbery by telephone.

Police said Pierce told them that two men ran from the car to the sidewalk depository waving pistols and that one of them said, "Give me the bags you've got in your hands."

Investigators said Pierce wasn't injured and the gunmen reportedly were last seen fleeing west on First Street toward Interstate 4 in the blue sedan.

Pierce told officers he ran two blocks to the Greyhound bus station to report the robbery by telephone.

Councilman Suggests Sunshine Violation

Council Goes Into Session Despite Protest

By DONNA ESTES
Herald Staff Writer

LONGWOOD — Council Chairman J. R. Grant today called an announced workshop session for the City Council into official session over the objections of Councilmember Gerard Connell.

Although Grant announced at 10 a.m. the workshop was being held to finalize the budget, at 10:25 a.m. he called the meeting to order after Connell suggested his colleagues had been violating the Sunshine Law.

The first disagreement between Connell and other council members was on whether volunteer firefighters should continue to receive \$1,000 in expense money quarterly. Currently the individual volunteer fire fighters share the \$1,000 quarterly based on a point system of number of fires attended and exercises in which they participate.

Connell said, the \$1,200 budgeted by Public Safety Director Doug Keller for only the volunteers who were state-certified was apparently approved by his colleagues outside a public meeting. He added none of the other councilmen wanted to discuss the matter today.

Connell questioned the legality of the official meeting, saying no notice had been given to the public that the meeting would be called to order.

Crosses Burned At 15 Schools

PENSACOLA (AP) — The student body's nickname, "the Rebels."

Authorities declined to speculate on a motive for the burnings. Two officials of the local Klan have denied reports their group had something to do with it.

Dr. Roger Lott, deputy school superintendent, said he didn't believe the incidents were not related to the recent redistricting of schools. The new districts were required, he said, because of the construction of a new high school.

The school was scheduled to open today but construction delays will probably postpone the opening for about six weeks, Lott said. Students bound for the new school have been placed on double sessions at Pine Forest High School. There was no cross placed in front of that school, Lott said.

Many Clemency Dropouts To Escape Punishment

WASHINGTON (AP) — More than 3,000 deserters accepted for a clemency job program but did not complete their assigned work but will escape punishment for not finishing it because they are no longer in the military.

Of the 4,500 deserters who joined the program, 2,035 have either dropped out or been kicked out, the Selective Service says. Another 1,000 men processed by the military never reported for jobs at all, the Defense Department says.

And, since they were given discharges, they can escape punishment for desertion without completing their work they were assigned under the program.

Hike Forecast In School Taxes

(Continued From Page 1A)

L ayer said last year's total millage was 12.8, including the 6.37 mills from local effort, but this year the budget calls for 6.6 mills, including 6.29 mills from local sources. The 4.2 reduction is due to the drop in construction projects in the county.

"The eight mills is for operations and the .6 is for retirement of past bond issues for 1958 and 1968," said Layer. School teachers Thursday are expected to vote on ratification of the 75-page master contract agreement.

Agreement on the contract for Seminole County's 1,462 school teachers was reached two weeks ago between School board negotiators and the Seminole Education Association (SEA).

The board will vote on the ratification in a special session at 6:30 p.m. Wednesday in Altamonte Springs City Hall.

Drugging operations were conducted at the river location Saturday before the man was located at Winter Garden by relatives, deputies said.

Burglary Probed

Sheriff's detectives today were probing a weekend burglary at the Longwood residence of Edward M. Kahn Jr., 105 Cedar Oak Trail, in which \$2,036 in cash, jewelry and radio and tape recording equipment was reported stolen.

Deputies reported today that an undetermined amount of money was taken by burglars who broke into the Sanford River-Vee Center, 2311 W. First St. Sanford police jailed Anthony J. Robinson, 19, of Apt. 97, Lake Monroe Terrace, Sanford, on \$5,000 bond on a circuit court warrant charging breaking and entering with intent to commit a misdemeanor and petty larceny.

Trial Expected To Start For Couple On 2 Counts

Trial was expected to begin this afternoon before Circuit Court Judge Joe A. Cowart Jr. for an Orlando couple charged with possession of drugs and a stolen auto.

Gerald Fay Clary, 40, and Diane Isola Benedetti, 31, both of 1415 E. Amelia St., Orlando, were arrested June 10, by agents of the Florida Department of Criminal Law Enforcement at a south Seminole shopping center parking lot.

The trial was continued from Aug. 4, when defense attorney Chris Ray told the court that a North Carolina physician, who was to testify for the defense, wasn't available. Today Ray said the doctor won't testify.

Clary and Benedetti are accused of possessing 398 amphetamine capsules found by agents in the auto.

Court files also list 12 blank, signed prescription forms, two bags of marijuana, 521 other pills and capsules and \$480 cash found in the seized auto.

Also scheduled for trial this week before Judge Cowart is James Tucker Jr., 19, of Apt. 32, Seminole Gardens Apartments, Sanford, accused of an assault and abettor in the July 30 credit cards and cash robbery of Lou Dritz at 110 N. Holly Ave., Sanford. Other suspects in the case haven't yet been apprehended, according to officials.

Four other defendants docketed for trials this week before Judge Cowart are scheduled to enter negotiated pleas, defense attorneys told the court today.

Meanwhile, in another courtroom, Circuit Court Judge A.J. Hosemann Jr., is scheduled to hear the grand larceny trial of Jerry Starr, 21, of Orlando.

Star is accused in connection with the theft of a television set belonging to Eddie Lee Gillis, of Altamonte Springs.

Six other defendants listed on Judge Hosemann's trial docket are expected to enter negotiated pleas during the week, defense attorneys told the court today.

Glomar Explorer Meets Barges

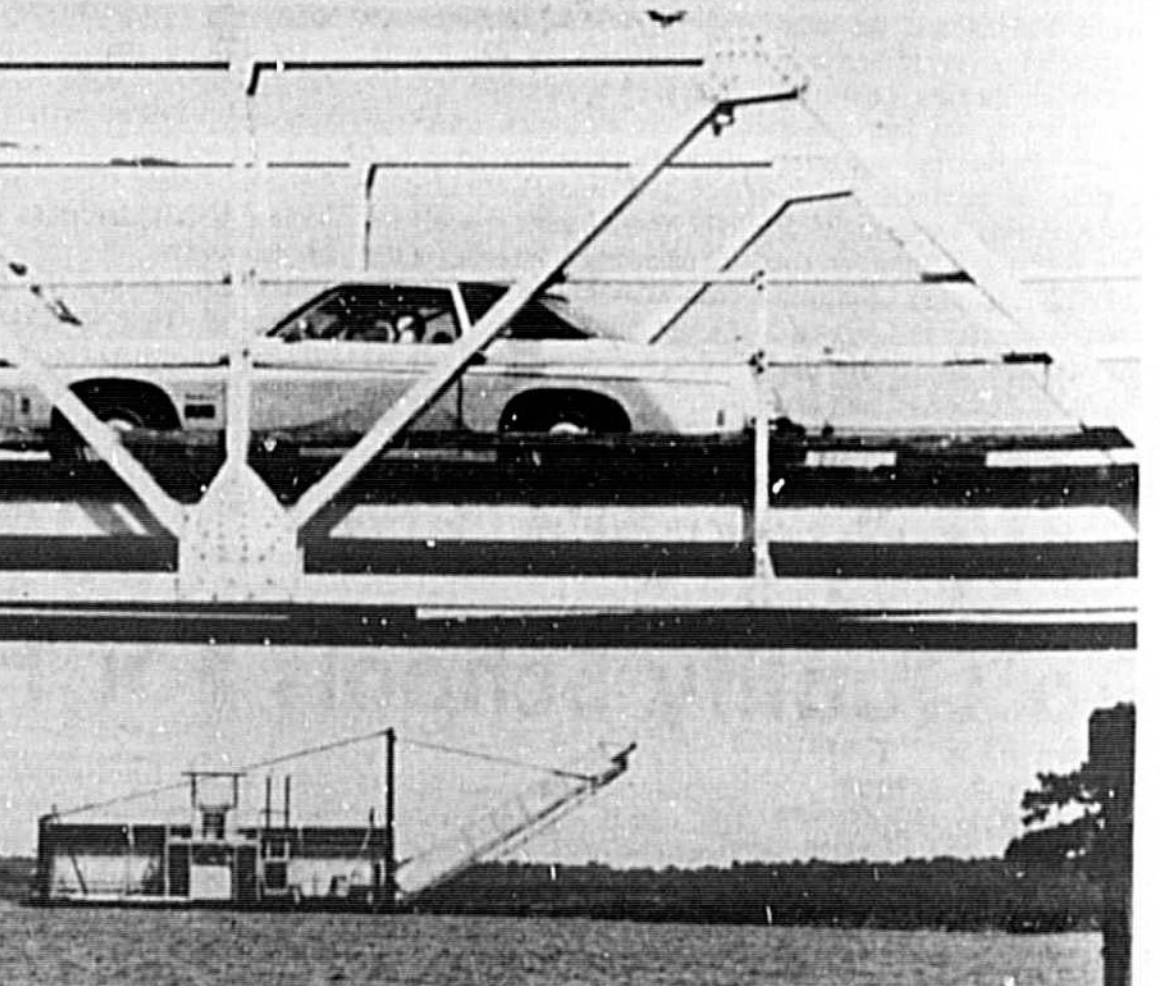

AVALON, Calif. (AP) — The Glomar Explorer has rendezvoused with two waiting barges in an isolated cove on Santa Catalina Island after a mysterious four-day journey from its berth in Long Beach, only 30 miles away.

The sophisticated vessel, built by billionaire Howard Hughes and used in a secret government mission to raise part of a sunken Russian submarine last summer, dropped anchor in Catalina's Fourth of July Cove on Saturday after setting out from Long Beach on Wednesday.

After two days, when the vessel had not arrived at Catalina, a spokesman for Hughes said he didn't know where the ship was.

"It's in the Pacific for sea trials," the spokesman said. "I don't know where it is, but we never announce where it is."

Rod Jackson, harbormaster at the Catalina islethms, said the two barges — including the giant, Redwood City-based HMBI which joined the Glomar Explorer in last year's submarine recovery mission — had been waiting in the cove for some time.

FLORIDA IN BRIEF

Lawyer Says Glenn Turner Does Well In Own Defense

TAMPA (AP) — Superchucker Glenn W. Turner, wearing toupee, false teeth, elevator shoes and rhinestone American flag pin, is not during his listeners to be great. He's asking them not to send him to prison.

Sometimes the shapereporter turned-milli-millionaire even gets the 10 women and two men on the jury in his federal mailfraud retrial to nod in agreement with him.

Turner's trial ended its fourth week today, a lawyer for one of the four co-defendants admitted that Turner is doing rather well as his own defense attorney.

"He's getting better."

Two Killed In Car-Train Wreck

By THE ASSOCIATED PRESS

The deaths of two Dunnellon girls in a car-train collision at a crossing on a seldom-used section of track pushed the number of weekend traffic fatalities in Florida to five, the state patrol said.

Troopers said a freight train slammed Saturday into a car at Homes, west of Ocala, killing Debra Sue Edwards and Lorna Lee Pinn, both 19.

Officers said the two dead girls and Julie Dixon, 17, of Dunnellon, were contestants in a beauty pageant at nearby Rainbow Springs and were being driven to Ocala by Mary C. Clements, 38, to be photographed.

WEATHER

Sunday's high 94. Overnight low 68.

Partly cloudy through Tuesday. Chance of a few afternoon or evening thundershowers. Highs mainly in the low to mid 90s. Lows in the 70s. Variable winds around 10 mph, stronger and gusty near thundershowers. Rain probability 30 to 40 per cent through Tuesday.

EXTENDED FORECAST

Scattered to widely scattered mainly afternoon thundershowers more likely under and western portions. Highs mostly upper 80s to lower 90s and lows mostly in the 70s.

Daytona Beach tides: low 4:52 a.m., 5:18 p.m. Port Canaveral: high 11:05 a.m., 11:11 p.m.; low 4:31 a.m., 5:09 p.m.

AREA DEATHS

CAPT. MEDA NEIMAN

United States Army Captain Meda Katherine Neiman, 27, of Chicago, Ill., was killed Aug. 17 in a motorcycle accident near Montego Bay, Jamaica. She was riding as a passenger on a motorcycle which was struck in the rear by a second motorcycle. A former resident of Sanford, Miss Neiman was stationed at Fort Sheridan and had just been promoted to captain. She had been in the Army for four years and was a graduate of Seminole High School and the University of Miami.

Survivors include her parents, Mr. and Mrs. Rufus Sen, of Sanford, four sisters, Doris of Sanford, Vera of Marietta, Ga., and Mrs. Daisy Zipper and Mrs. Martha Ball, both of Sanford and aunt, Mrs. Mae Venable, Sanford.

Brison Funeral Home in charge of arrangements.

FUNERAL NOTICE

SENN, FRANK K. — Funeral services for Frank K. Senn, 38, of Jacksonville, who died Saturday, will be held at 3 p.m. Tuesday at Brison Funeral Home with Dr. J. Ted Cosmato officiating. Burial in Evergreen Cemetery Brison Funeral Home in charge.

MRS. VIRGINIA FULLER

Mrs. Virginia C. Fuller, 55, of 109 Alden Drive, Sanford, died Sunday, Born in Alabama, she lived in Sanford for eight months.

Survivors include her husband, S. William Fuller Sr., Sanford; three sons, Robert H.

Accused Bombers Had Death List: Officials

NEWARK, N.J. (AP) — Authorities say four teen-agers accused of mailing a pipe bomb to one of the youth's grandmothers had compiled a 10-name death list in a scheme to "change the world."

Police refused to identify those on the list, but they confirmed that it contained the names of several police officers and Madeline Pasqua, the grandmother of one of the suspects.

Steven Pasqua, 18, a second-year Rutgers University chemistry student, was arrested Friday night along with three other Newark teen-agers.

The four were slated to be arraigned today in federal court on charges of sending explosives through the mails.

Young Pasqua engaged in the plot because he wanted to inherit \$10,000 upon his grandmother's death, authorities said. But Mrs. Pasqua, 68, a jeweler, said she had not made out a will.

Police said the suspects belonged to a group called the First Brotherhood, described as a revolutionary organization that wanted to change the world. Police said they had no evidence the group's membership included anyone other than the four who were arrested.

Slayton To Undergo Surgery

HOUSTON (AP) — Donald K. Slayton, an astronaut who spent most of his space career battling medical problems, is scheduled to have a cancer hospital here tonight for exploratory surgery on a lung.

The 51-year-old astronaut will check into M.D. Anderson Hospital and Tumor Institute, where he will undergo the surgery on Tuesday.

Doctors recommended the surgery after a sophisticated X-ray revealed a small lesion on the astronaut's left lung.

A space agency doctor said surgeons will remove a wedge-shaped specimen from the lesion and it will immediately be examined by a pathologist.

If the specimen is benign, no further surgery is required. If it is malignant, however, the doctors said part of a lobe of the lung will be removed.

The lesion was discovered on X-rays taken of Slayton during his recovery from exposure to toxic gas.

Soviet Grain Sale
Helpful To U.S.

One of the least understood of all of the problems facing American people in these troubled times is the matter of whether or not we should sell grain to the Soviet Union.

Feelings on the subject are mixed. On the one hand, many feel a sense of pride that the United States of America, the world's mightiest industrial power, is also able to produce enough agricultural commodities to feed millions of men outside our borders.

However, that is not the question at all because the United States still is the international Yankee trader. Whenever the confluence of American natural resources, talent and technology produce more of anything than we need, we would be foolish not to sell our surpluses.

Once we recognize this fact, it just becomes a matter of how we should sell our grain, not whether we should sell it.

The resolution of that problem, where the Soviets are concerned, must begin with a knowledge of the Soviet economic planning, which has changed drastically in the last several years.

Now, as the expectations of the Russian people, even good Soviet harvests are scarcely able to meet the demand. Russia will have to turn more and more to world markets.

Sense On Defense

To the 348 members of the House of Representatives who voted for it, a \$1 billion investment in national security services represents a good investment in national security.

Gandhi Out To Destroy India?

The Indian Embassy in Washington has released the text of a reply by Prime Minister Indira Gandhi to Dr. Benjamin Spock, who sent her a cable urging her to free Mr. J.P. Narayan and restore democratic liberty that the whole world has previously admired.

"I know that you are deeply committed to peaceful causes," said Mrs. Gandhi. "But I am not sure that you have been properly informed of what has been happening here."

"Mr. Jayaprakash Narayan has, for a long time, carried on a campaign against the government and against me personally but we did not do anything to curb his movements or his free speech. More recently he aligned himself with RSS (Rashtriya Swayamsevak Sangh), the organization which instituted Mahatma Gandhi's murder and which is fanatically Hindu, preaching discrimination against Muslims and Christian minorities. At the same time he encouraged the extreme left. Neither of these groups has ever claimed a belief in democracy. In his extreme anger and frustration at lack of popular support he called upon the army and the police to disobey orders."

"This is what compelled me to take the unpleasant decision. Democratic liberty in India is not jeopardized by the action that has been taken, but it would have been if we had permitted the country to drift."

"Even in a democracy, of course, there have to be limits on dissent and civil disobedience. But there is also supposed to be something called due process, a subject about which Dr. Spock, who has had his own run-ins with government authority, could instruct Mrs. Gandhi. This is precisely what is so disturbing about what has been happening in India. Mrs. Gandhi has not only stifled the press and jailed many hundreds of alleged radicals and members of the public order, she has done so without going through the bother of bringing formal charges against them and according them the right to defend themselves in a court of law. She has, in effect, set herself up as judge, jury and executioner of indeterminate sentences meted out to her political opponents.

A notorious phrase from the Vietnam war which Dr. Spock so rightly opposed is an apt epithet for democratic liberties in India: "We had to destroy the village in order to save it."

Although it might seem a bit early to be talking about Labor Day Weekend, let me remind you that the long four-day holiday is just around the corner — starting this Friday, to be exact.

Monday, Aug. 25, 1975—4A

Home Delivery: Week, \$5.25; Month, \$24.00; 6 Months, \$114.20; Year, \$238.40. In Florida same as home delivery. All other mail: Month, \$2.70; 6 Months, \$16.20; 12 Months, \$32.40.

State officials have promised the removal of the hazardous mattresses, of the type blamed for the fire here, will begin immediately.

Health and Rehabilitation Services Director William J. Page said Friday that the plastic mattresses "will be removed and replaced as soon as the funds are available."

Page gave no timetable when all of the mattresses, currently being used in youth and retardation facilities and state prisons, could be replaced.

These polyurethane mattresses, which are said to emit a flammable, potentially lethal, fumes when burned, are being replaced with the older-type cotton ones.

Preliminary estimates indicate it will cost \$400,000 to replace all 10,000 mattresses with cotton treated ones.

A grand jury, which investigated the circumstances surrounding the jail fire here, issued a report which said the blaze was started by an inmate, who set fire to the polyurethane mattresses and then perished in the fire.

This one's attributed to Sam Borden, who writes a regular feature for The Herald called Smorgasbord.

He says he's joined the millions of Americans who are growing their own vegetables in an effort to beat the high supermarket costs. However, when he tried cross-breeding, Sam came up with tomatoes on a cob.

Nuff said.

Halicki Zips Mets to White LA Stumbles

While Ed Halicki was throwing zeroes at the New York Mets in San Francisco, the Dodgers were coming up empty in Los Angeles.

Not that they didn't score, but it's still baseball. And while Halicki was the reason the Mets lost a 6-0 no-hitter Sunday, the Dodgers had themselves to blame for a 5-3, 14-inning loss to Montreal.

Bosox' Lee Gains 17th; Orioles Slip

The time has come to start talking about magic numbers when discussing the Boston Red Sox ... and the magic number is 28, with 20 and 17 not far behind.

Home runs by Carl Yastrzemski and Jim Rice backed Lee's clutch eight-inning pitching against the White Sox. Yastrzemski's 13th in the first inning and the Red Sox scored twice in the fifth.

WORLD IN BRIEF

Moderates Still Predict Removal Of Goncalves

LISBON, Portugal (AP) — Political moderates today continued to predict the removal of pro-Communist Premier Vasco Goncalves within days in the wake of more civilian demonstrations and show-of-strength military maneuvers by both sides in the power struggle. Anti-Goncalves army units had access to most of the approaches to Lisbon, but a light artillery regiment reported to be one of the few units backing the premier commanded the main highway on the northern outskirts of the capital. The pro-Goncalves regiment parked mobile howitzers at the gates of its barracks less than a mile from the Lisbon airport and stacked sandbags in defensive positions inside the camp. Antiaircraft emplacements were manned by soldiers in camouflage uniforms. At Leiria, 75 miles north of Lisbon, besieged Communist used fireworks and rifle grenades Sunday to drive back more than 300 anti-Communists trying to burn down their party headquarters.

Rhodesian Talks Open

VICTORIA FALLS, Rhodesia (AP) — The Rhodesian constitutional talks between Prime Minister Ian Smith and black nationalist leaders opened on a bridge below the Victoria Falls today with Smith still adamantly opposed to black rule and the Africans still demanding it.

There was speculation of a breakthrough because Prime Minister John Vorster of South Africa and President Kenneth Kaunda of Zambia attended the opening session.

But Smith in a speech Saturday said his white-minority government has "no policy to hand our country over to any black majority government, and as far as I am concerned, we will never do."

Peking Minister Tapped

TOKYO (AP) — Wang Pingnan, purged as vice foreign minister during China's cultural revolution, has been named president of the People's Association for Friendship with Foreign Countries.

The association was set up in 1954 to promote Peking's foreign policy. Wang, 69, was politically "rehabilitated" to assume the post. He lost his foreign ministry position in 1967 when opponents called him a traitor to the revolution. He had held the position since 1964.

The announcement of the new appointment, broadcast by Hsinhua, the Chinese news agency, was monitored here Sunday.

PEOPLE

Alice Faye Theft Victim; Jewelry Taken From Car

NEW YORK (AP) — Actress Alice Faye was enjoying a late snack at an East Side pub when someone broke into her chauffeured limousine and carted off two cosmetic cases containing about 20 pieces of jewelry.

Miss Faye, who estimated her loss from the theft early Sunday at \$25,000, said many of the stolen articles were gifts from her husband, bandleader Phil Harris.

She said she was away from the car with her press agent, Jewel Baxter, and the chauffeur for about 40 minutes.

Former Priest Marries

WASHINGTON (AP) — Dr. John J. McLaughlin, a Jesuit priest, who was a White House adviser to President Richard M. Nixon, has married a woman who helped him in an unsuccessful Senate campaign five years ago.

McLaughlin and Anne Dore were married in a civil ceremony here Saturday. McLaughlin was released from his religious vows by Pope Paul VI before the wedding, a friend said.

McLaughlin was a staunch Nixon defender during Nixon's last days in office. He had held the White House post for three years, until Oct. 15, 1974.

Mrs. Dore, in her 30s, helped McLaughlin when he ran against Sen. John O. Pastore, D-R.I., in 1970. She later worked in public relations here and is employed by a private firm.

Williams Out Of ICU

MISSOULA, Mont. (AP) — Hank Williams Jr., the country singer injured in a fall while hiking Aug. 9, is no longer under intensive care.

Williams, 26 and son of the late singing star, Hank Williams, was hurt while hiking near the Continental Divide. After being moved to a private room at a hospital here, Williams was visited Friday by country and western star Johnny Cash and his wife, June Carter Cash.

Italian Woman Named Mayor

PORTO SAN STEFANO, Italy (AP) The new mayor of this fishing and yachting town 100 miles north of Rome is Susanna Agnelli, sister of Fiat automobile magnate Gianni Agnelli.

Mrs. Agnelli had been elected to the City Council as an independent. The council chooses the mayor. She also is a prize-winning author.

Kissinger Takes High Hopes To Egypt

ALEXANDRIA, Egypt (AP) — Secretary of State Henry A. Kissinger flew back to Egypt today on his diplomatic shuttle amid high hopes for a new Sinai pact.

Kissinger went into session with President Anwar Sadat at his seaside summer residence at Mamoura, near Alexandria.

Foreign Minister Ismail Fahmy and Vice President Hissi Mubarak also attended the meeting. Prospects for an Israeli-Egyptian pact were brightened by an Israeli report that Egypt had agreed to another key point.

Foreign Minister Yigal Alon announced that Egypt had agreed to let Israel station its troops in an electronic warning post on the western slope of the Gidi mountain pass, one of the two Sinai Desert gateways which Israel would return to the Egyptians. This would be located in the territory being returned to Egypt.

The post, at Umm Khashiba, would enable Israel to monitor Egyptian military moves and has been a key Israeli condition for relinquishing the Gidi and Mitla passes.

Alon said Egypt could have a corresponding surveillance post on the Israeli side of the Gidi pass to monitor Israeli military movements. "We are continuing to make progress and have not encountered any unexpected difficulties," he said. "On most major items agreement is close."

But he added: "You can run into difficulties, and I don't want to make a final judgment."

Alon said "a great deal of agreement has been reached" between Israel and the United States.

Some Africans said their delegations had reservations about the anti-Israeli campaign. Argentina among others was known to oppose it. Most of the foreign ministers also were keeping a close watch on developments in the Secretary of State Henry A. Kissinger's latest shuttle diplomacy in the Middle East.

Meanwhile, delegates from four Communist Asian countries accused the United States of imperialist economic and political aggression in their area.

The Arab proposals seemed likely to arouse the impatience of influential nations at the conference anxious to give priority to economic issues of more importance to them. There was considerable feeling that India and other non-Arab countries were primarily interested in forging a unified strategy for the special United Nations meeting on raw materials opening next week.

This Syrian proposal and a Palestinian draft submitted earlier to the conference accused Israel of violating the U.N. charter by continuing to occupy Arab lands seized in the 1967 Arab-Israeli war.

"If the Israelis understand the meaning of this resolution, then they will work for peace," said el-Allaf, indicating that the

purpose of the proposal was to pressure the Israelis into relinquishing more territory.

U.N. Purge Of Israel Sought

LIMA, Peru (AP) — Nineteen Arab nations and the Palestine Liberation Organization asked the Third World conference opening here today to join in a demand for Israel's expulsion from the United Nations.

The request to the conference of 78 self-styled nonaligned nations, which defied warnings from the United States and came in the midst of a new U.S. peace effort in the Middle East, was unanimously adopted Sunday night at a four-hour Arab caucus, a Syrian spokesman said.

The Syrian official, Mouaffak el-Allaf, predicted the resolution would be adopted "by an overwhelming majority" of the conference.

This Syrian proposal and a Palestinian draft submitted earlier to the conference accused Israel of violating the U.N. charter by continuing to occupy Arab lands seized in the 1967 Arab-Israeli war.

"If the Israelis understand the meaning of this resolution, then they will work for peace," said el-Allaf, indicating that the

'Senator' Is Witness To 'I Do' Vows

With the branches of "The Senator", the oldest living cypress tree in the U. S. towering high overhead and a natural carpet of leaves beneath their feet, a Longwood couple joined hands and repeated the vows of Marriage Saturday, Aug. 23, in Big Tree Park.

As the 5 p.m. sun flickered through the dense boughs and to the accompaniment of the sound's of nature Judy Carol Oliver became the bride of George M. Kamper.

They are the first couple known to have been married in this garden of greenery at Big Tree. The bride is the daughter of Mr. and Mrs. Eugene A. Oliver of Longwood. The bridegroom's parents are Mrs. Rita Kamper of Longwood and Robert Kamper of Costa Rica.

In keeping with the simple double ring civil ceremony performed by Notary Public the bride, given by her father to her intended mate, wore a white eyelet peasant style gown. She carried a bouquet of white carnations and mums.

Karen Oliver the bride's sister, was matron of honor and she wore a simple pink floral gown with spaghetti straps.

Rick Martin was best man. A reception followed at the Sanford Chamber of Commerce after which the newlyweds left on a trip to Hope Keys.

They will make their new home in Winter Park. The bride is a bus driver for Seminole County Schools. The bridegroom is employed by an auto detail shop.

What do you do when you're 72-years-old and the only work you know has seemingly become obsolete? If you can, you adapt just as Sam Outlaw, Onancock, Virginia's only blacksmith, has done.

In the course of an afternoon, Outlaw had an almost continuous procession of customers with a wide variety of requests.

His forge was flaming as he worked on a set of "helper" automobile springs for a man who needed them to haul an especially heavy load. When the metal was heated to just the right temperature, glowing red, he removed it with a pair of tongs and began to shape it on his anvil with skillfully

directed blows of his hammer. When the piece acquired the proper curve he cooled it down with water from a can punched with holes in the bottom, and great clouds of steam wreathed Outlaw's head.

As he finished one spring, a customer drove up and took a wheelchair out of the back of his car. It needed one of the brakes tightened. The blacksmith stopped work on the spring and attended to the chair. When the brake problem was solved he made sure, unasked that the wheels worked easily and that all moving parts were well oiled. Just as a good physician treats the whole person, so a good craftsman regards the well-being of the whole machine. His pride and care in doing a job is all too often a thing of the past.

He turns back to his never-ending supply of things to mend. This time Outlaw picks up a modern tool, an acetylene torch, and welds a broken motorcycle seat.

"What kinds of things did you

used to work on," I ask.

"He stops and the wheel of the machine that blows air on his coal to fan the flames. "Oh, I used to fix wagons and shoe horses and fix up farm equipment and repair trucks

and things. Now I don't have that sort of thing so much anymore."

Just before we go a man comes in to ask "Mr. Sam" if he does any more work. He turns to us and says, "I don't know what

we'd do without Sam here. Sometimes you need a part you just can't buy and we bring the problem to Sam. He whips up just what we need. When he goes I don't know what we'll do!"

Wagons to wheelchairs: Barbara Muller learns of Sam Outlaw's changing trade.

Enrich, Improve Yourself

University Sets Classes; Hospital Too

An Adult Enrichment Program offering a wide variety of courses will begin at Stetson University, Deland, on Oct. 14. Most will be evening courses and extend for six weeks. They are non-credit offerings and the cost is set as low as possible.

Courses include Advanced Conversational Spanish; Art and Architecture of Yucatan; Automotive Care and Maintenance; Best Sellers of the Seventies; Business Letter Writing; Catalyst - Expanding Horizons - Stoneware and

Raku; Chair Caning; Common Plants and Animals of Central Florida; Creative Writing; Elementary Electrical Repairs for the Home; The Energy Crisis.

Also, The Learning Disabled Child - Home and School; A Look at Current United States Foreign Relations; Science and Christianity; Can We Really Believe? Values to Live By; Fitness and Figure Control; Tennis; The New Math and Trivia for Parents.

For more information contact program coordinator, Dr.

Edward E. Settgast at Stetson. Winter Park Memorial Hospital's health education program will resume next month with a seminar on respiratory illness and the problems caused by smoking.

The program scheduled for 7:30 p.m. Sept. 8, will feature an open discussion on the subject led by a member of the medical staff, and a film entitled "Ashes to Ashes."

The film has been described this way: "If anything's going to make you stop smoking, this is it." But the program also covers such respiratory

problems as emphysema, colds and asthma.

The physician-led discussion will give participants an opportunity to discuss the educational points of the film, as well as gain a better knowledge of preventive measures recommended. For example, emphysema is a threat to more people than lung cancer and it's largely preventable.

Hospital spokesmen said this program is a perfect example of the reason Winter Park Memorial offers the community education seminars.

"Prevention is the major battlefield against diseases, and education is the key. The community owes a debt to our medical staff for making this program possible."

The seminar on respiratory problems will be the first of two monthly stress and misuse of drugs and medicines.

Those planning to attend are asked to call the hospital public relations office to make reservations.

Notice is hereby given that the undersigned will, on the 24th day of September, A.D. 1975, present to the Honorable Circuit Judge of the County of Seminole, Florida, his final return, account and vouchers, as administrator of the estate of the late Mrs. M. A. Burton, deceased. Dated this 18th day of August, A.D. 1975.

Legal Notice

Notice is hereby given that a Public Hearing will be held at the Commission Room in the City Hall in the City of Sanford, Florida, on September 19, 1975, to consider the adoption of an Ordinance by the City of Sanford, Florida, which is as follows: ORDINANCE NO. 1308 AN ORDINANCE OF THE CITY OF SANFORD, FLORIDA, MAKING APPROPRIATION OF THE CITY OF SANFORD, FLORIDA, BEGINNING OCTOBER 1, 1975 AND ENDING SEPTEMBER 30, 1976.

HOROSCOPE

For Tuesday, August 26, 1975. ARIES (March 21-April 19) Because you feel luckier than you are today, you could miscalculate and cause a loss for the family. Weigh decisions carefully. TAURUS (April 20-May 20) Be cautious when you are working or traveling. You're in an impulsive mood today. This could give you trouble. GEMINI (May 21-June 20) Your pocketbook is vulnerable today. Someone is ready to take advantage of your happy-go-lucky nature. CANCER (June 21-July 21) Just when things seem to be opening up for you, a sudden problem at home prevents you from getting what you want. LEO (July 22-Aug. 22) Watch that you say or do today. A thoughtless remark or act could make you wish you could disappear quickly. VIRGO (Aug. 23-Sept. 22) Shy away from borrowing anything today. Things will not happen as you anticipate. A friendship could be severely damaged. LIBRA (Sept. 23-Oct. 23) Your erratic temperament negates anything someone might do in your behalf. In addition, it causes you to project a poor image. SCORPIO (Oct. 24-Nov. 21) You could find yourself working alone on a regular basis today. Red blood cells only live for 120 days and must be replaced. Your body manufactures three million new ones every second to replace the old ones. In some people this process is associated with formation of excess amounts of uric acid as a byproduct. Regardless of what you do this process will go on. One of the new medicines, allopurinol (Zylprim), blocks the overproduction of uric acid by the cells and stops the process at its origin.
