

# Bithlo

The Vigorous Heart of a  
Growing Commonwealth

## Overlooking the heart of Florida.

*100 square miles of the best land from the ridge to the sea*

This is the outlook that Bithlo people will have from their 125 foot water and observation tower.

And this typifies the broad vision and outlook that the builders of Bithlo conceived when planning the development of this crossroads of commerce, Orange County's new economic center.

Already a regular stop on the main line of the East Coast Railway to Miami, Bithlo will enjoy the advantages of a trading center serving a large and fertile citrus and truck farming territory. Experts declare that the soil near Bithlo is the same that makes Sanford the wealthiest truck and celery section of Florida, while its rich Norfolk sand is the secret that has long made Orange County Florida's citrus center.

The Cheney Highway crosses the railroad at Bithlo and this intersection of two great arteries of commerce assures its future prosperity and a profit to investors.

# Bithlo

*The new "BUY-WORD" of Central Florida*

Not only is Bithlo assured commercial prosperity, but being situated in beautiful scenic territory it is bound to appeal to home lovers as an ideal place for permanent residence.

To insure attractive municipal surroundings, the builders of Bithlo have retained nationally known architects and landscape specialists who are laying out streets, parks, country club and golf course, and designing municipal and semi-public buildings.

Values in certain sections of this rich Commonwealth are often based only upon seasonable or purely artificial demand, while others depend upon commerce and industry or products of the soil. Bithlo possesses all these advantages. It has agriculture. It is a trading center. It is a delightful homesite. It has transportation and conveniences and it has a permanence of values that will return its investors many fold.

Reproduced is a sketch of the 125 foot water and lookout tower designed for Bithlo by Harold Field Kellogg, the construction of which will soon be under way. Ornamental in itself, this tower will form an essential link in the municipal water system and afford a bird's eye view over 100 square miles of Florida.

HOME EDITION

NUMBER 147

**THE WEATHER**  
Florida: Partly cloudy tonight, rain in North and colder in north-west portions; Friday, rain, colder in central and North portions.

## Poisoner

Mrs. Laura Christy of East Liverpool, Ohio, was arrested and charged with murder in the death of her fifth husband, Rev. William Christy. Three of Mrs. Christy's five husbands are dead. She is said to have confessed poisoning Rev. Christy because he suffered from indignation and asked her to give it to him.

## News Summary

**LOCAL**  
Heywood Register, accused of first degree murder, will be tried in circuit court during May term, following arraignment here today.

New warehouse plans are almost complete for structure at foot of Myrtle Avenue. Circuit court is adjourned until the regular May term, following disposal of heavy docket.

Jacksonville man here to superintend installation of machinery for city's new hydraulic dredge. Chamber of Commerce receives complimentary letter from Jacksonville body on results of work for the canal hill.

Several injured when sink hole derails Florida East Coast train near Boynton. Highway truck opens season today.

**DOMESTIC**  
Notorious Chicago gunman is caught with bride in police trap at St. Louis. Prohibition chief denies plans to close \$10,000,000 Chicago hotel.

Court orders exhumation of recluses' bodies in poison probe. New York police capture runner with \$600,000 cargo.

William C. Durant bolsters stock market by buying from bedside. Former movie actress expelled from church is reinstated.

**Texas Road Decision**  
Not To Affect Florida. TALLAHASSEE, Jan. 21.—(AP)—Attorney General J. B. Johnson stated today that he doubted if the opinion handed down recently by the U. S. Supreme Court regarding a special road and bridge district bond issue in Texas would affect the state of Florida.

**Alfonso's Toes**  
Have Suffered. NEW YORK, Jan. 21.—(AP)—King Alfonso, Spain, whose dancing exploits at the Riviera won him no little international fame, is no longer the tireless dancer he used to be, says Alexander P. Moore, former American ambassador at Madrid.

**Voorhees and Allen**  
Win From Visitors. L. L. Voorhees, local golf professional, and "Pug" Allen, from the Deland club, paired against Charles Rowe and J. Christ, visiting pro game, won easily in an innumerable match game played at the Sanford golf links yesterday.

**Former Society**  
Divorced In Each Courts. BEACH, Fla., Jan. 21.—(AP)—Brenta Taylor Beach, was granted a divorce, half time of four years old son, Duff, and \$15,000, in a suit against Walter, wealthy club member, by Circuit Court yesterday.

## PROHIBITION OFFICER WILL NOT CLOSE \$10,000,000 HOTEL

Head Of Chicago Dry Forces Will Not Padlock Doors Of Morrison Hotel Because Of Liquor Seizures Recently

Hotel Head Says House Was Famed GUILTY KNOWLEDGE OF ILLEGAL PROCEEDINGS NOT SHOWN CHIEF YELLOWEY CLAIMS

CHICAGO, Jan. 21.—(AP)—E. C. Yellowey, prohibition administrator here, has no intention, and never had any, of closing the \$10,000,000 Morrison Hotel by federal padlock proceedings because "under cover" agents were able to purchase liquor from employes.

Edwin Olson, district attorney, said no evidence against the hotel had gone through his office. Their statements came after prohibition agents working under Yellowey had declared sufficient evidence had been obtained to close the hotel and said the government's plans had been spoiled by premature publicity.

Harry C. Moir, president of the hotel company, denied having any such knowledge and reiterated his declaration that the hotel had been "framed" by its own employes. A hotel detective named as having procured the liquor for the agents, who posed as Englishmen desirous of staging a party, denied to Moir that he had aided them.

**National Bowling**  
Tourney Will Be Commenced Today. ST. PETERSBURG, Fla., Jan. 21.—(AP)—Contests were beginning today for the National Open League Bowling tournament which opens here Monday.

**Seaplanes Delayed**  
At Charleston, S. C. CHARLESTON, S. C., Jan. 21.—(AP)—Start of the naval squadron of 25 planes on the next leg of their flight from Hampton Roads, Va., to Guantanamo, Cuba, was postponed until tomorrow to permit two planes which were delayed by engine trouble at Southport, N. C., yesterday to rejoin the fleet here.

**Citra Bank Robbers**  
Not Yet Identified. ORLANDO, Fla., Jan. 21.—(AP)—No information regarding the identity of the whereabouts of the two robbers that held up the Citra bank yesterday afternoon, has been yet gained in Marion county. The Associated Press was informed over long distance telephone today by P. Brown, cashier of the Citra bank, whom the robbers locked in the safe before making their escape with \$5,000 in cash.

**Former Movie Actress**  
Dropped From Church Rolls Is Returned To Favor. CHATTANOOGA, Tenn., Jan. 21.—(AP)—Mrs. Evelyn Farris Bennett, former movie actress, wife of Raymond Bennett, who, with her husband, was dropped from the membership rolls of the First Baptist Church of Chattanooga a few weeks ago while she was in Florida, is being returned to the church rolls after she was reinstated by the congregation.

## Jacksonville Man Here To Superintend Installation Of New Dredge Machinery

F. W. Stanley, of the firm of Stanley and Gill, marine engineers and machinery supplies, is in the city today superintending the unloading of a carload of machinery for the new city dredge which is being erected at the foot of Oak Avenue, on the canal front. Mr. Stanley has had years of experience in the building and equipping of dredges and power boats and his trip to Sanford was made so that he could personally see the unloading of, and the installation of the machinery in the city dredge and also to inspect the dredge recently equipped by the company for the Ribaut Development Company, according to City Manager W. B. Williams.

## RECLUSES' BODIES TO BE EXHUMED IN POISON PROBE

Coroner Orders Examination Of Mary French's Body In Effort To Determine If Death Resulted Naturally. CHICAGO, Jan. 21.—(AP)—The body of Mrs. Mary French, 77 year old recluse, who for 20 years lived in the attic of her boarded-up dilapidated Park Ridge, Ill., home and scared away the curious with a ghost made from a dress maker's form, will be disinterred and an autopsy performed.

Coroner Oscar Wolff ordered the exhumation to determine if her death Jan. 6 at the home of Mrs. Harriet Dahman, a neighbor, and her, was from natural causes. He also sought explanation for the whisking away of the body to Chicago for a hurried midnight embalming before it was hastened back to Park Ridge for burial.

**Railway Trestle Is Destroyed In North Carolina Dam Break** SPARTANBURG, S. C., Jan. 21.—(AP)—Early this morning and swept away the wooden trestle of the Southern Railway just south of Tryon.

**Traffic Expert To Attend Meet** F. E. Harrison, of the traffic department of the Chamber of Commerce, will attend the meeting of the central Terminal District Committee at Orlando, tomorrow where the February requirements of the papers and receipts of freight will be placed in the hands of L. M. Autry, chairman of the Orlando Terminal District, according to an announcement made this morning.

**TO REMODEL NOSE** ROCHESTER, Minn., Jan. 21.—(AP)—Bat Nelson is to have his nose remodeled. He insists that his purpose is not beauty, a la Dempsey but simply better breathing.

**Former Movie Actress Dropped From Church Rolls Is Returned To Favor** CHATTANOOGA, Tenn., Jan. 21.—(AP)—Mrs. Evelyn Farris Bennett, former movie actress, wife of Raymond Bennett, who, with her husband, was dropped from the membership rolls of the First Baptist Church of Chattanooga a few weeks ago while she was in Florida, is being returned to the church rolls after she was reinstated by the congregation.

## F. E. C. TRAIN IS WRECKED NEAR ST. AUGUSTINE

Sink Hole Caused By Subterranean Stream Of Water Caused Derailment, Says Engineer; Several Injured

Similar Wreck In Same Spot Recalled. SOUTHBOUND TRAIN NO. 42 HAD PASSED OVER SPOT SHORTLY BEFORE THE TRAINS GAVE WAY

ST. AUGUSTINE, Fla., Jan. 21.—(AP)—At 3:35 this morning passenger train No. 88 northbound Florida Special was derailed at Hypoluxo, Fla., on the main line of the Florida East Coast several cars being derailed. The accident was caused by ground sinking under a northbound main, resulting in a hole about 10 by two feet.

The entire train except the engine and coal-water tender left the rails, and were only saved from overturning by a string of freight cars which were derailed and overturned to hold them up. Engineer Rogers who was on the train at the time stated that he noticed the sink hole, which he said reminded him of a loose joint more than anything else, a foramen in charge of the reconstruction work stated.

About 300 yards of the northbound mainline was completely destroyed. However, it will result in no serious delay in traffic movement, as the sink hole is double track at this point, making it possible to continue to move traffic in both directions over the southbound track. Several of the Pullman cars as well as a number of freight cars were seriously damaged.

**LIONS CLUB HOST TO BIG NUMBER AT WEEKLY MEET** Thirty-Eight Members Hear Speech By Former District Governor And Good Music By Stock Company Band

At the regular weekly luncheon of the Lions Club today, 31 members and seven visitors turned out to hear a talk by J. L. Flood, executive officer of Lions International, and to hear the music furnished by the orchestra from the Williams Stock Company, together with the singing of the Moon Sisters, headliners with the company.

**Snow Battle Held At St. Petersburg** ST. PETERSBURG, Fla., Jan. 21.—(AP)—A snow battle was fought here today, according to Captain Ernest Wells, in command of the steamer Lakeland in port here unloading lumber from Halifax. While discharging cargo stevedores found the top layer covered with snow. Ship officers permitted them to stop work long enough for a free-for-all snow battle. The official explained that the steamer was loaded during a heavy snow storm and that it had failed to melt during the voyage.

**Cocking Main Is Raided By Troops** ROCHESTER, N. Y., Jan. 21.—(AP)—State troopers, acting on a tip from the Rochester Humane Society, raided a cocking main at Bayview, four miles east of here today, seized 48 birds and arrested more than 100 spectators. The main, held at the White House Inn, the proprietor of which also was arrested, was said to have been widely advertised as furnishing an opportunity to determine on neutral ground the championship of Western New York between birds from Lockhart and Buffalo.

**Hialeah Race Track**  
Opens Season Today. MIAMI, Fla., Jan. 21.—(AP)—With a big crowd drawn for the day and night sessions, carrying a crowd of 10,000, the Hialeah race track opened today for the season.

## Martin J. Durkin Is Captured Following Three Months Chase

St. Louis Policemen Nab Criminal With Young Bride When The Two Enter Trap

Wanted For Killing Government Agent. DAPPER GUNMAN TO BE TRIED FOR MURDER AROUND MARCH 10. CHICAGO, Jan. 21.—(AP)—Martin J. Durkin, dapper police player, captured in St. Louis with his 18 year old bride, was in the hands of his prosecutors today, proof, as federal agents phrased it, that "the government always gets its man."

Federal officers have trailed him virtually from coast to coast, some times 24 hours behind him, since he killed Edward Shanahan, government agent, Oct. 11, and shot his way out of a police trap, killing Sergeant Harry Gray, two weeks later.

And today the government had joined with the state authorities to bring him to trial as soon as possible, probably March 10, with the gallows the objective of the prosecution.

Durkin made one last desperate effort yesterday to escape by coasting from St. Louis to Chicago. Despite the shackles on his wrists and ankles, he reached around his wife and sought to grab a guard's pistol. But an operative seized his wrist and the attempt failed. After that, he was probably March 10, with the gallows the objective of the prosecution.

**COURT ADJOURNS FOLLOWING CLOSE OF BIG DOCKET** Two Sentenced To Serve Ten Years In State Prison As Result Of Jury's Verdict; Several Cases Continued

This morning following the arraignment of Heywood Register, and the postponement of his case, Judge W. W. Wright adjourned court until the regular May term. Judge Wright thanked the jurors for the service they had rendered during the past ten days. Prosecuting Attorney M. B. Smith excused the state's witnesses and the busiest session of the year.

The following cases were disposed of at the regular January term: Esau White, acquitted of subornation of perjury; Matthew sentenced to pay a fine of \$250 or serve six months in the county jail on a statutory charge; George H. B. Byrd, sentenced to 10 years at Raiford on a statutory charge; Ralph Toon, acquitted of a charge of murder; J. W. Knowles, acquitted on a charge of forgery; J. H. Kinard, robbery, one year in prison; Paul Lewis, burglary, one year in prison; William Cannon, grand larceny, was ordered to pay a fine of \$250 or serve 18 months in the county jail.

The case of Ira Thomas, who was to have been tried for manslaughter, was continued until the next term of court.

That members of the sheriff's office will leave within the next few days for the state prison at Raiford with the convict men who are to remain from one to ten years at that institution.

## Child Hurls Self In Path Of Auto

BALTIMORE, Md., Jan. 21.—(AP)—"People who get hit with automobiles always get money," nine year old Frank Oshefeld argued with two chums when the trio found themselves down town and broke.

Frank was unhurt but his future money making schemes will be supervised in St. Mary's Industrial School, to which the trio was consigned yesterday when the tale was unfolded in Juvenile Court.

### Ourselves and Industry

#### The Man Who Takes the Risk

By E. E. Lincoln

Every man who goes into business for himself must take certain risks. This is as true of the newsboy on the street as it is of the owner of the big department store before which the newsboy stands and hawks his papers. A spell of bad weather would mean poor business for both.

But this is only one example of the many kinds of risks which must be faced. Modern business, with its world-wide markets, its large industrial organizations, and its minute division of labor, has greatly increased the amount of risk that somebody must assume.

If we take as an illustration the village cobbler, we shall see that the risk he took when he made a pair of shoes for his customer's orders is quite trivial compared with the risks assumed in the modern business of manufacturing and selling shoes. Today the materials for millions of pairs of shoes must be bought, and the shoes made up and distributed in advance of actual demand from consumers.

Along the line, from the raw materials to the finished goods in the hands of the last buyer, it is necessary for a number of people to take heavy risks. No manufacturer knows just what his competitors are doing. He and they together may overstock the market, and this would result in price cutting and a loss of profits. Again, while the goods are being manufactured prices may break so sharply that the shoes will have to be sold at less than cost.

There is also the risk from sudden changes in style, which make it difficult to market goods that are not in accord with the latest fashion, no matter how good their quality.

Some manufacturers succeed in reducing the risks of their business by making up goods only to order. This, however, merely means the passing of the risk to someone else, usually the wholesaler or the retailer.

These dealers also try sometimes to "play safe" by buying in small quantities and frequently duplicating their orders, thus forcing the manufacturer to assume part of the cost and risk of carrying stocks of goods.

The important point in all this is that somewhere along the line of distribution somebody must bear the risks incident to carrying on business. The value of such a service to business is not often fully appreciated. Without this means of relieving manufacturers both of the burden of finding consumers for their products, and of the risk of carrying large stocks of goods until they are wanted, business would move at a much slower pace and our wares would not be nearly so well satisfied as they are at present.

One group of risk-takers buys raw materials and stores them at convenient points where manufacturers may obtain them as needed. They supply farmers, too, with facilities for the prompt disposal of their grain, cotton, and wool at any time they desire to sell. Small offerings by individual farmers are thus collected and made ready for the manufacturers at any time they wish to buy.

Such dealers form a connecting link between producers of raw materials and manufacturers on the one hand, and between manufacturers and consumers of finished goods on the other. They share the risks of business, find a market for the producer, study the consumer's needs, and undertake to satisfy his wants.

These are highly valuable services, and the more rapidly industry expands the more valuable and indispensable such men become. Those who perform such services, involving a high degree of risk, are real producers, and are entitled to their reward along with others engaged in equally useful though different occupations.

—Western Electric News

### Mrs. Reid's Memorial Plan Falls

Mrs. Wallace Reid, who built a memorial home in the Brentwood Hills near Hollywood to help addicts escape the drug that killed her husband, the smiling-faced film idol, announces that her plan has failed. Residents complained they wanted no such place near their estates, and it was hard to find a physician who would give up his practice and move out to the place. Now the home is being used as a roadhouse.

### Sarasota To Have Channel And Harbor

SARASOTA, Jan. 21.—Sarasota is eagerly awaiting the granting of a permit by the War Department for construction of a twenty-three foot channel and harbor here so that work may begin on the project. Engineers have estimated that the job can be done in a year and the city wants construction to begin at the earliest possible moment.

The job will cost approximately \$1,000,000 and already has been financed by the sale of the municipal light and power plant for that sum. Transfer of the light plant will take place within thirty days and officials hope that the War Department permit for the harbor work may be obtained by that time.

The Reverend H. R. L. Sheppard denounced fancy dress balls and special festivities of Armistice Day as "not so irreligious as indecent." To follow the solemn two minutes of silence and rededication with such festivity is compared with marching from a funeral to the quick and cheerful strains of a march.

Ant hills are established at the base of orange trees in China and fruit trees in Italy, so that the ants will protect the trees from injurious insects.

Two mice, captured in Africa, are no larger than bumble bees and have plenty of room in their small match-box nest.

### Why Mothers Worry

There is a critical period in a young girl's life. If she is healthy, nature takes care of her and she experiences no discomfort; but if she is weak and worn out, because of neglect, she may become a wreck. The real mother will watch and guard her daughter at this crisis. She knows that Dr. Pierce's Favorite Prescription, a medicine adapted to weaknesses of women, is just what is needed to build up a young girl's strength, prevent a collapse and restore her to health. It has helped thousands.

Send 10c for trial pkg. to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y. —adv.

## Sanford Grove

"Amid Majestic Pines"

Sanford Grove has a wonderful future. Because of its location right in the path of Sanford's great south-eastward trend of progress. Because of its delightfully high elevation, overlooking the surrounding territory; because of its beauty—one of the prettiest spots in the entire Sanford district; because of all of these its value enhancement and its demand must be great.

Already profit has been made on investments in Sanford Grove. The original prices due to the progress of the improvement program have been increased, the value of the section embodying Sanford Grove has enjoyed a natural enhancement due to its strategic location and environment. Greater profits are assured when Geneva Street and Crescent Boulevard are opened to traffic.

See Sanford Grove before the improvements and developments continue. Call this office and a representative will accompany you to the property and explain the entire development program.

# DRUID PARK

Many investors visioned the immediate profits that are sure in Druid Park. Some of them invested because of the intrinsic value of the property itself, others knowing the past record of its developers, invested on the strength of its being a Britt-Chittenden Development. Either, is sufficient guidance to generous profits.

Improvements enhance the basic value of undeveloped property. Promises of yesterday are being fulfilled today. Men, money and machinery are applying the improvements as speedily as possible. Contracts for the immediate construction of modern homes have been let, these and many others are outstanding reasons why generous profits are assured.

The demand for homesites in Druid Park is increasing daily. They are as limited in the Second Unit as they were in Unit No. 1, that sold out on the opening day. We advise your immediate attention to this super investment opportunity. See the maps and plats at our office.

#### THE HERALD'S PLATFORM

- 1.—Deeper water route to Jacksonville.
- 2.—Construction of St. Johns-Inland River canal.
- 3.—Extension of white way.
- 4.—Swimming pool, tennis courts, etc.
- 5.—Augmenting of building program—houses, hotels, apartment houses.
- 6.—Extension of street paving program.
- 7.—Construction of boulevard around Lake Monroe.
- 8.—Completion of city beautification program.
- 9.—Expansion of school system with provision for increased facilities.

#### BIBLE VERSE FOR TODAY

**GIVE ALL TO GOD**—"And the angel of Jehovah called unto him out of heaven, and said, 'Lay not thy hand upon the land, for now I know that thou fearest God, seeing thou hast not withheld thy son' " \* \* \* from Gen. 22:11-12.

**PRAYER**—Help us Lord to withhold nothing from Thee, for Thou didst give Thine only begotten Son to us that we might live and not die.

#### THE FIRE NEXT DOOR

They had a fire last night next door.  
I learned a lesson from it.  
The engines came with clang and roar  
And men to overcome it.  
The coals were gleaming in the grate,  
But just next door a thing of hate  
Stuck out its tongue, forgot its duty  
Destroying hope and joy and beauty.

And so it is with human wills:  
Good things when good intending,  
When angry and unkindling,  
And yet they fill the world with ill.  
The flames that get beyond control  
Are like the angry flames of fire,  
And set the bells of sorrow tolling.

Be brave, yet courage need be kind,  
Be strong, and yet be tender;  
Who fights for self might better find  
Some service he can render.  
Man may be giant, yet be wrong;  
Man may be just as well as strong,  
Content in proper time and season,  
But think with fairness, act with reason.

—Douglas Malloch.

Well, if the miners don't come out on top it won't be the fault of Governor Pinchot.

One new hotel for Sanford this year has already been announced. Now for the second. Speak quick.

Orlando has been holding a cock fight this week but as yet no one has heard Governor Martin say anything about it.

Florida Republicans have organized again. Does this mean they will again attempt to publish a party paper in this state?

Irene Castle says she has become "camera shy." A lot of us are that way but it's because we never had an opportunity to be otherwise.

The calamity howler has disappeared from Sanford and in his place has come the progressive and optimistic booster who is working for a greater city.

Another thing to look forward to is your income tax payment in March—Sanford Herald. Here's hoping we have to pay a \$1,000,000.—Orlando Sentinel.

Three more were killed in Miami on Wednesday, but it's consoling to note that it wasn't the work of bandits, reckless drivers, or jealous lovers, but from an explosion.

The fame of Sanford is now being broadcast to the whole world. Tonight from station WDBC at Rollins College George A. DeCoteau will tell an unseen audience of thousands of persons that this city is the best place to live in Florida.

Martin Durkin, notorious Chicago killer has been arrested in St. Louis, and attempts are being made to secure Clarence Darrow for the defense. Who will win the law, or brain unscrupulously applied?

Mr. and Mrs. C. R. Moke and Mr. and Mrs. Edward G. Moke and daughter Luau of New Brunswick and Mr. and Mrs. Walter Moke and daughter Helen of High Bridge noted Sunday a visit to Mr. and Mrs. Edmund Heckelbury. Their driving excursions will be held tomorrow afternoon at the public school—Newark Evening News.

### A Real City, Not A Village

There are still a few benighted souls in the world who think that the "City Substantial" is a village. Secretary Pearman of the Chamber of Commerce had to write a correcting letter only yesterday to some fellow who was unaware of the fact that Sanford has long since emerged from this category.

Many loyal citizens would be tempted to rise up and smite this man were he here, but in this instance we would pity the part of the good missionary and substitute pity for wrath. Pity the poor soul by all means, for such distressing ignorance can only emanate from some devastated area where a postman just isn't and the ducts of the bull frogs and katydids supply the only evening radio program.

The surprising thing is that this unenlightened one should have heard of Sanford at all, or of the World War or of "Red" Grange and "Silent Cal," Miami, or even the obstreperous Mr. Dawes, whose popular indoor sport seems to be shattering microphones with his Gargantuan basso.

Contemplation of the poor fellow's exile leads us to wish that he may be brought here on some magic carpet, for certainly no railroads or highways invade his neighborhood. We wish that he could be brought here and set down in the midst of this "Village's" attractions, near the new half-million-dollar tourist hostelry, facing the lake shore and the busy piers where river steamers from Jacksonville are unloading passengers and freight for many sections of Florida. We wish he could be taken over the many miles of broad, paved streets past modern banks and stores, up-to-date schools and churches, past the new municipal waterworks and city administration buildings on to highly restricted residential sections where not less than a house a day has been erected for many months.

We wish he could be here next week when Sarazen, Hagen, Brady, Nichols and a dozen other internationally known golfers will compete for prizes totaling four thousand dollars, in the professional tourney promoted by the golf club. We would like to see him present in February when boating enthusiasts from Miami, Palm Beach, Jacksonville and other yachting centers will bring speed boats here for participation in the big regatta to be staged by the Sanford Yacht Club.

And finally, if he still believes that Sanford is a "village," we would suggest that he attempt to cross First Street in between blocks, or park his car for more than an hour in one of Chief Williams' new zones.

### Golfers Are Coming To Sanford

Announcement that on January 27 and 28 there will be staged in this city a professional golf tournament has focused the eyes of golf enthusiasts all over Florida on Sanford and on the Sanford golf course where the greatest in the use of the driver, mashie and putter will contend for the liberal prizes that are to be given the winners.

Next Wednesday the professional play will begin and for two days Sanford's golf course will be the scene of many beautiful shots, many low scores and perhaps new records. With Sarazen, Hagen and many other golfers known the country over for their great ability, playing on our golf course, who is there among us who doubts that hundreds and even thousands will gather to witness these men play?

The cost of the tournament, the prizes and general expenses in connection with staging the matches will amount to about five thousand dollars. This fund is to be raised through the sale of tickets to those who wish to see the professionals play. In order, however, to make certain of no loss those in charge of the affair, headed by Frank McNeill, are asking local people to underwrite the fund. To date much of the money has been provided for and very little doubt remains that by Saturday night of this week the committee will be financially prepared for the important meet.

Sanford and its excellent golf course, are destined to come in for some wonderful advertising on account of this professional tourney. The Herald hopes it will prove a successful affair and that it can be made an annual event and a winter feature in the life of our community.

**FARSIGHTED MEN SAW** the promise of Florida a decade or two ago. The usual rule is for cheap men to seek cheap land. The process has been reversed this time. Industrial leaders and persons who could afford to go wherever they wanted in winter for golf, social diversion and a fresh environment were the real pioneers in the development. The less wealthy followed. Ten years ago, the main news from Florida came from one or two centers, with Palm Beach predominating, and that news was principally of social events, fishing and baseball games. The dispatches range today from Ponzi's doings to the arrival of European princes, and from the volume of advertising which newspapers print to embargoes on freight. Have we seen the climax of the thing? That is not easy to answer. It is to be remembered that our semi-leisure class is growing rapidly, that we are a nation of 110,000,000—and that everybody owns an automobile.—Editorial in Boston Herald.

**WHEN A SECRET** is revealed, it is the fault of the man who confided it.—LaBryere.

### MY FAVORITE STORIES

By IRVIN B. COBB

**THE REASON THE ARTIST QUIT**  
This, in effect, is an explanation of why a rather well known New York politician gave up free-hand drawing. Although without any artistic training, he rather fancied himself a pretty fair amateur sketch artist until a certain incident came to pass.

In company with a newspaper man he was touring Spain. One morning in Malaga the two Americans dropped into a little cafe for breakfast. They knew no Spanish and their waiter knew no English. Largely by signs they made him understand that they wanted coffee and rolls. This was no very hard job inasmuch as coffee and rolls practically constituted the breakfast menu of the establishment. But when the newspaper man decided that he wished also a glass of milk difficulties arose.

Singly and in chorus they pronounced the word "milk." Then they spelled it out. Then they shouted it loudly as one always does, somehow, when using one's own language when one is dealing with a stranger who doesn't understand that language. The waiter merely shrugged his shoulders and spread his fingers in a gesture of helplessness.

The man who wanted milk imitated the action of one milking a cow, meanwhile mouing plaintively, and then, to round out the illustration, went through the pantomime of emptying an imaginary glass. Still the waiter stared at him uncomprehendingly.

"Hold up," said the politician, "I've got an idea. I can draw about as well as the next one. Lead me a pencil; it won't take me

### As Brisbane Sees It

Heaven in California. A land of bargains. Lethal chamber exit. Those names of Greece. By ARTHUR BRISBANE. Copyright 1925, by Star Co.

**WHEN THE fortunate** arrive in Heaven, it probably takes some time for them to get used to it. There now power of flight, brilliant wings, tuneful harps, singing celestials, streets of gold, all the wonders must overwhelm a spirit newly arrived from earth.

**JUST SO, in California.** The first few days it is hard to think of working, hard to interest your self in what goes on in cold, western and northern lands; to say nothing of distant, unimportant realms east of the Atlantic ocean. Byron in Greece, was filled with emotion when he stood where:

"The mountains look on Marathon and Marathon looks on the sea."

How would he feel in southern California. These mountains that still look on Marathon would be mole hills here and as for that little sea called by the Greeks, you could drop a thousand like it into the Pacific ocean, and not raise the water level one inch.

**THE POPULATION** of Japan in the last five years has increased 3,773,651. That interests the world, outside of Asia, even more than in Asia.

What would happen if the Chinese numbering 400,000,000 officially, and in reality numbering probably 600,000,000, should learn to cut the death rate among children as well as China's census to 1,500,000,000?

Has providence in reserve some mysterious way of solving the riddle of excess population, without war, famine or plague?

Or must the world eventually face a war of races, yellow and white, to settle world supremacy?

**IF ANYBODY** offers any bargain in California, take it. It may not seem a bargain at the time, but later that changes.

Ask the son-in-law of Mr. Durant, automobile maker, what happened to him the night he ate the good dinner at the Bolia Chica Shalins Club on Los Angeles. Robert M. Modisette of Pasadena, who knows all about real estate and oil told the story, pointing to an oil derrick next to the club house.

**IN THE course** of the dinner the gentleman from the east learned that the club members liked him and would let him buy a membership for \$7,000. It didn't need it, but was polite, and accepted.

Soon after, Standard Oil rented the "rights" on the grounds of the Shalins Club on an oil sharing basis. They had an oil well already, and may bring in dozens more.

The one well brought in, now pays each member of the club \$100 a month. Durant's son-in-law gets \$14,000 a year on an investment of \$7,000, made "just to be a good fellow." And there is no telling how much more.

California is the land of bargains. TODAY IN the Nevada state prize where the murderer transgresses them in Spain, the nose chokes them in many countries, the guillotine cuts their heads off in France, the headman works with a sword in China, and some other countries. Electricity shocks them and lethal gas suffocates them in America.

An elephant puts its foot on the important criminal's head. In Russia, the knout borrowed by Russians from the Tatars was used until lately to whip prisoners to death. In China one convicted criminal was sawn in two lengthwise, and killed in other ingenious ways.

Human ingenuity has found many ways of killing human beings, but as yet, no way of stopping murder, retail by individuals, wholesale, in war, by nations.

We have with us learned gentlemen sent to settle the Greek war debt to the United States; Messrs. Eulambia, Cofnas and Diamantopoulos.

Some red blooded Americans may suggest that those are "queer names." Let them learn from R. W. Livingston of Oxford, that Greek names are nobler than our own, with noble meaning. "Aristocrates means noble power, Apollon means might, Cleomachus means famous victor."

That is better than being called "Butts" or "Peabody" says the learned Livingston.

Never judge others or their names, hastily.

**AS FOR** the money that Greece owes this country, we might well say to the Greeks, "Keep it. In return for what your ancestors have taught us about government philosophy, wisdom, ideas, and words to describe them."

### THE RED MAN'S BURDEN

### HOT AND COLD

MIAMI HERALD

Weather is a peculiar institution. We could not bet along very well without it, and sometimes it is very difficult to get along with it. It is fickle, inconsistent, blows in unexpected times and in most unexpected places. Those who study it most seem to know least about it. The only certain thing is that weather is always uncertain. It pulls off some most amazing stunts. For instance, the other day in Italy one city was fighting a blizzard while another was undergoing the discomfort of a disagreeably hot wind. In the United States, June and December may be found within a few hundred miles of each other, at the same identical moment of time. England, in fact, pretty much all of Europe, for that matter, have been having rains, snows, blizzards, and olo of meteorological demonstrations that has brought suffering and death. London has had to get out an antiquated snowplow which has not been used before for 20 years.

Even down here in Florida, where we expect a pretty consistent behavior on the part of the weather, the past three months have shown an astounding variety of climatic phenomena. It was warm all through October, when it should have been cooling off. It has been cool a good deal of the time since, when it should have been warm.

The greatest rain of a long period was pulled off in what is ordinarily a more or less rainless season. The exhibition of a week of cool days, some people have called them cold, is unusual. Our so-called cold spells usually last only three days. It is true that a

### CONSCIENTIOUS OBJECTORS

MIAMI NEWS

After the passage of more than eighteen months since congress enacted the bonus act, Adjutant General Davis, who is its administrator, reports that approximately 700,000 men entitled to compensation, or their dependents, have failed to make any move to take advantage of its benefits. Perhaps no law had ever been more widely discussed and since its passage the government has spared neither pains nor expense to advise eligible men of their rights under it. It has had plenty of outside assistance through the newspapers and through veterans' and welfare organizations, so that it has been made easy for veterans to comply with the requirements of the law, and yet it appears that one in every five with proper claims or compensation have failed to file applications. This is a surprising showing and about the only explanation is that a number of the veterans do not approve the bonus act and therefore object to sharing in its benefits.

### THE INCOMPETENT NOSE

ST. AUGUSTINE RECORD

Your nose knows less than it is given credit for, according to a scientific writer. The sense of smell in the average civilized person is comparatively insignificant. Most of us, it is said, could not identify over a dozen different odors if our noses were not aided by our eyes and ears. An experimenter concealed in uniform containers such varied materials as lemon, coffee, violet and pancake butter. Then he had nervous friends try to identify the contents through their noses. No one made a perfect score. In other experiments found that a woman who really knew about odors, and words to describe them,

## THOMAS WIGHT MEMORIAL ESSAY CONTEST WILL BE HELD FEB. 15

As an evidence of genuine interest in the Children's Department of the Library, Mr. and Mrs. Henry Wight have generously established for an indefinite period a Thomas Wight Memorial prize in young readers and in whose memory several books and magazines have been contributed to the library from time to time.

## "Gude Tyme" Bridge Club Is Entertained By Mrs. P. D. Inadinep

The members of the "Gude Tyme" Bridge Club were most pleasantly entertained on Wednesday afternoon by Mrs. P. D. Inadinep.

Fragrant narcissus and ferns were arranged with pleasing effect in the rooms where the card tables were placed. Scores were kept on tallies done in floral designs, and the prize for high score, a hand embroidered centerpiece, was awarded Mrs. E. B. Stowe.

Following the awarding prizes, the hostess served shrimp salad, stuffed rose apples, nut bread sandwiches, olives, gaitrines and coffee.

The guests were Mrs. E. B. Stowe, Mrs. R. A. King, Mrs. J. B. Little, Mrs. Ross Adams, Mrs. E. E. Paige, Mrs. C. R. Gray, Mrs. A. H. Beckwith, Mrs. D. C. Howard, Mrs. T. S. Neeld, Mrs. E. V. Neeld and Mrs. J. E. Waits.

A committee will be appointed to act as judges and announcements will be made at the Book Week program next fall.

It is with great pleasure that the library thanks Mr. and Mrs. Wight for their splendid interest in establishing this memorial. Such an evidence of personal cooperation stimulates and encourages the library in the work it is trying to do.

Charlie Butler, Singer and impersonator at High School Thursday night.

## WELFARE DEPARTMENT'S FIRST SEASON'S LUNCHEON IS HELD

The first luncheon for the year given by the Welfare Department of the Woman's Club on Wednesday, proved to be one of the most enjoyable ever given by this organization.

The table reserved for the officers of the club, was centered with a large silver basket of these same bright blossoms.

The program followed: Solo—"Less Than the Dust," Finner—Mrs. A. M. Phillips. Group of readings—Mrs. Wren McGinnis. Solo—"Kashmiri Song," Finner—Mrs. A. M. Phillips.

Mrs. Henry Wight gave a most inspiring and interesting report from the First Annual Convention of Garden Clubs of Florida which was held last week at Jacksonville.

The luncheon was well attended, about 75 being present.

## Visiting Musician Is Guest At Meeting Of Mrs. Piner's Students

The studio of Mrs. Piner on Park Avenue, was the scene of an enjoyable meeting on Monday evening, when Mr. and Mrs. Jones of the Art Publication Society were the honor guests.

After sight reading, ear training, and memory tests, the class gave two numbers with the orchestra. Parents and friends attending this demonstration were loud in their praise, and are looking forward with much pleasure to other meetings with the class.

celebrated cathedral of great architectural charm. Imported English stereopticon viewer will be used to give added emphasis to the word painting of this medieval structure so dear to the hearts of the English speaking world.

## Mrs. S. Robbins Gives A Delightful Farewell Party For Relatives

Mrs. S. Robbins was the gracious hostess on Tuesday evening when she entertained at a farewell party at her home on Palmetto Avenue, honoring George Robbins, who leaves on Thursday for his home in New York, after spending several months in Sanford.

The rooms of this attractive home presented a most festive appearance with their decorations of potted palms and plants together with cut flowers and greenery, the color motif of blue and gold being carried out with calendulas and agapanthium.

Dancing and cards caused the evening to pass all too quickly and at a late hour, novel refreshments were served by the hostess assisted by Mrs. Maurie Moses.

Those enjoying the cordial hospitality of Mrs. Robbins were: George Robbins, Leonard Moses, of Orlando, Lester Myers, of New York; E. Tall, I. Fenichall, A. Raffield, Misses Stella Moses, Ida Melzer, Gertrude Benjamin, Tilly Benjamin, Anna Kanner, Esther Loberman of Orlando and Rose Novack of Tampa.

Charlie Butler is at his best in negro dialect and impersonation. High School, Thursday night, Jan. 21.

## Work Under Way On Big Howey Foot Bridge Across Lake

JACKSONVILLE, Jan. 21.—Construction of the 8,000 foot bridge across Little Lake Harris at Howey is under way with indications that it may be completed in July although the contract allows the builder until October to do so, according to word which has been received from Howey.

The structure which will be the longest free bridge in Florida, is one of the features of Lake County's \$9,500,000 highway program. The bridge will provide a new route between Jacksonville and Tampa, which will be about 55 miles shorter than that provided by State Road No. 2.

The bridge will have a roadway 18 feet in width with two 26-foot turnouts near the center and a seventy foot steel draw bridge. It will be of timber construction built upon piles.

Work on the new bridge across the St. Johns River at Astor, over which the new highway will enter the county, is under way and contracts for the highway itself have been awarded. The new route to Tampa via Astor and Howey will leave State Road No. 2 between Pierson and Barberville, cross the river at Astor, pass through Eustis, cross the Howey bridge into Howey and go south through Clermont to Aburduale and Lakeland and into Tampa.

## JUVENILE DRINKING

KANSAS CITY, Jan. 21.—(AP)—Judge Dew has charged the county grand jury to investigate drinking by boys and girls of high school age.

## THE DAY IN WASHINGTON

House debates naval bill. World court issue again before Senate. Judge Anderson and aluminum inquiry continues.

Senate committee hearing on railroad consolidation opens. Secretary Wilbur testifies before House Military Commission.

### Speed and Accuracy of Hearing Tests Now Possible Through an Audiometer

The old familiar injunction, "Stop! Look! and Listen!" is one of the most important in modern life, particularly in industry. But what assurance is there that when a man listens he will be able to hear? Tests of hearing have been very largely a matter of guesswork, and there has been no such thing as a fixed standard for use in the examination of employees in factories and industrial organizations.

A new instrument, known as the audiometer, supplies the need and is the means of examination which will give new significance to the word "listen." This audiometer, made available in this field by the Western Electric Company, enables an examiner to give an accurate test of the hearing of many individuals in a short time. There is a constant standard of measurement and comparison, so that guesswork is completely eliminated and the quality and acuity of hearing are definitely known.

The essential function of this audiometer is to supply through a telephone receiver a single complex tone covering the pitch range of

Above: Testing the hearing of employees  
Below: The apparatus that makes the test

speech. The intensity is adjustable in steps. The individual being examined maintains pressure upon a signal button so long as he can hear; as soon as he hears nothing he releases the pressure. Thus the instrument defines clearly the limitations of his auditory sense, and the test can be checked and re-checked as many times as desired.

In the field of industry, where hearing is frequently of vital importance, the simplicity and accuracy of testing by the audiometer have great significance. The relationship with both safety and efficiency is direct.

#### State Inquiries From Far Away

JACKSONVILLE, Jan. 21.—Inquiries about Florida come from strange places in roundabout ways, says the Florida State Chamber of Commerce, which is receiving them at a rate of approximately 500 daily as a result of the nationwide Youth About Florida advertising campaign. The Chamber has just received from the Chamber of Commerce of Buffalo, N. Y., an inquiry received by that organization from Oakland, Cal. The Californian requested a "folder" on

Florida from the Buffalo Chamber, which forwarded the writer's letter to Jacksonville.

In Hawaii, Japan, and China, seaweeds of many kinds are eaten with relish.

The anthracite strike in Shapokin, Pennsylvania meant nothing to a manufacturer of that city who immediately sank a shaft in his back yard, striking a hard coal vein which he worked.

#### Ouch! Rheumatism! Rub The Pain Away

Stop drugging! Rub soothing penetrating St. Jacobs Oil right into your sore, stiff, aching joints, and relief comes instantly. St. Jacobs Oil is a harmless rheumatism liniment which never disappoints and cannot burn the skin.

Get a 35 cent bottle of St. Jacobs Oil at any drug store, and in a moment you'll be free from pain, soreness and stiffness. In use for 25 years for rheumatism, sciatica, neuralgia, lumbago, backache, sprains.

#### FIRST STREET EXTENSION

Lots 16, 17 and 18, Block K, per foot, at \$140.00  
Lots 13 and 14, Block L, at \$175.00

#### MARVANIA

Lots 1 and 2 in Block 1 facing Seminole Boulevard.

Very desirable for residence or apartment house sites, and priced below the market.

#### Gator Freshmen Given Grid Letters By A. A. Murphee

UNIVERSITY OF FLORIDA, Jan. 21.—(AP)—Twenty players and the manager of the football freshman squad were awarded their numerals in chapel by Dr. A. A. Murphee, president of the university.

This is a tradition at the University of Florida which is not known to the larger institutions. The past year was a successful one for the "Rat" gridmen. The squad played six games, winning five and tying one. The University of Georgia's first year men were able to tie Coach Warren Cowell's Baby Gators.

The following men on the Baby Gator squad received the "29 numeral":

Manager Cromer, Captain 'Goof' Bowyer; Alternate Captain Tom Owens, Mentie, Newlands, Townsend, Allen, Pries, Tracy, Harris, Huntsman, Stewart, Goldstein, Martin, Merrin, Hall, Pless Smith, Stanley, Drisdala and Trogden.

Announcement of the appointment of Howard Fudger, of Jacksonville, as manager of the 1926

#### Japanese Mission Worker Returning To Rollins College

WINTER PARK, Jan. 21.—(AP)—Miss Margaret Rogers, representative of Rollins College in the Japanese mission work, after five years service with headquarters at the Doremus School in Yokohama, has sailed from Japan and is now

freshman team was made. Fudger has served two years as assistant manager of the Fresh grid squad. He will be a senior here next year.

enroute to Florida via Los Angeles, Panama and Havana. She will be met in Panama by Miss Mary Leonard, president of the Florida branch of the Women's Union Missionary Society, under whose direct auspices Miss Rogers has been carrying on her work in Christianizing the young Japanese.

After majoring in sociology at Rollins under Dr. George Morgan Ward, Miss Rogers went to Japan to do educational work under Christian influence among the young people of Japan.

Upon her return to America she will spend some time at the home of Miss Mary Leonard in Winter Park and is expected to give a series of lectures on her work in Japan.

...inch to .0027 inch. Sometimes the order reads that the mica must be separated into layers not less than .003 inch nor more than .0012 inch thick. Of course, no one could estimate such dimensions by eye; only sensitive gauges are able to achieve such accuracy.

It is perhaps natural that there would be the most opportunities for women in manufacturing and the largest number of them work there. Some of the women, such as those engaged in welding platinum contacts which enter into telephones, have considerable responsibility, not only because of the operation of the machine, but because of the value of the material with which they work.

The only machines that women used 25 years ago in telephone manufacture were the coil-winding and paper-insulating.

Now they not only operate drill presses and punch presses, but various other machines that require trained hands and feet. Then there are jobs which relate to wiring circuits, on which some of the women have learned to read blueprints and to do this interesting work rapidly and correctly.

While the women in these branches have demonstrated their mechanical ability, those in the clerical branches have maintained their place in the progress of the world's career women. The ghost would not walk with such regularity and promptness except for the girls skilled in operating computer and addressograph machines, and one would hate to imagine how long the inventory period would last if it were not for women speed-artists on computer and typewriters.

### GRAPEVILLE UPSALA

Mrs. Saint and her three daughters were visitors at the home of Mrs. A. F. Westerdick on Jan. 14, calling also to see their old neighbor, Mrs. Thompson.

Mrs. Nils Swanson was ill with a cold last week. Mr. and Mrs. August Swanson spent the day there, Monday.

Mrs. Strange of Astor Park who was a guest for the week at the home of Mr. and Mrs. Fletcher was a visitor at church, Sunday.

Mr. and Mrs. John Swanson of Lake Mary attended the service of Rev. Clark, whose text was "For Me to Live is Christ". Mrs. Nylund accompanied Mr. and Mrs. Swanson.

Friends here were pleased to learn that a little son was born to Edward Reis, Memphis; Mr. and Mrs. Jones, Tampa; Walter Gould, Tampa; E. F. Marker, Tampa; C. E. McLean, Jacksonville; T. T. Welch, Jacksonville; N. O. Parish, Bainbridge; Mr. and Mrs. R. F. Clarke, Miami.

Mr. and Mrs. Andrew Bertelson of Palatka, on Dec. 30.

The ladies who are interested in the work of the Doves Club, are invited to meet with Mrs. John Borill the afternoon of Jan. 23.

Rev. Eckardt is to preach in Upsala, Sunday Jan. 24.

Willing workers expect to meet Friday after school at the home of the treasurer, Mrs. Archie Swanson.

Mrs. Ballinger was in Sanford a short while Saturday calling to see Mrs. V. C. Collier.

Mrs. Volie Williams and Mrs. Walter Peterson were recent visitors at the Swansons.

Eric Lundquist took dinner Sunday with the Balpingers.

Mrs. Lundquist and Mr. and Mrs. E. W. Lundquist and children spent Monday evening with Mr. and Mrs. H. G. Lundquist, it being Kussel's eleventh birthday.

News from Spain Heavy damage done by storm. Real wind storm, not just a bull fighter bragging.

# Playing the Game

AND WHAT a thrill there is in playing the game here in the Greater Miami district—what a satisfaction in accomplishment in the creation of ultra desirable residential, apartment and business properties—what a satisfaction in knowing that folks who bought from you have had the privilege of selling at a profit, not only once, but some of them two or three times within a year, as has been the case in MIAMI SHORES!

After all, merely making money does not amount to much. It is nothing more or less than an incident in the program of improving properties so that those who wish to come to this land of palms and sunshine may be able to enjoy the best possible environment out-of-doors.

At MIAMI SHORES, we take pardonable pride in pointing to the remarkable progress that has been accomplished in spite of embargo conditions during the past twelve months—the miles of sidewalks and curbing—the miles of water mains—the great number of homes completed and being completed—the apartments and the new hotels now under way—the progress being made upon the bulkhead along the shoreland of Biscayne Bay—

the beginning of construction of the Miami Shores Causeway—the commencement of the clearing prior to the filling in of MIAMI SHORES ISLAND—the knowledge that we have, in spite of unusual conditions, more than kept faith with the buying public—the fact that this is not just talk but is evidenced in the tremendous resale record made by our organization of over \$18,575,000, to say nothing of the resales that have been made in the various brokerage houses in Miami.

In other words, the buying public know that this organization has proven to be as much at their service after they bought MIAMI SHORES property as before they bought it. We believe that our great responsibility comes when our clients purchase, and we propose to accept that responsibility in as active a way in this coming year as it has been in the past.

When you buy property at MIAMI SHORES our sales organization is at your service at any moment you wish to resell. If it were not so, the above record could not have been made.

## MIAMI SHORES

AMERICA'S MIDDLE CLASS

### "A funny old bird is the pelican..."

THESE solemn, long-billed birds, sailing majestically over land and bay... scattered pell-mell along the shore... how many true fish stories could they tell! Come and see them for yourself—at Coral Gables! Where the marvelous bird and flower life of America's only tropics provides an endless spectacle of delight. Where sports, pleasures and sunny skies await you. Come in and let us give you further details.

## CORAL GABLES

!!!  
**FASTEST****SELLING****PROPERTY****in FLORIDA****GREATEST IN DEMAND****\$18,714,600 WORTH**

--of--

**Davis Shores**  
 —another DAVIS ISLANDS  
 St. Augustine On the Ocean

**SELLS IN ONE DAY**

The last of Davis Shores went on sale Wednesday. One day's selling resulted in the amazing total mentioned above. This breaks all previous records and establishes Davis Shores as the fastest-selling, most sought property in Florida.

Property in such great demand is the kind of property that shows the greatest re-sales values and brings the biggest profits to owners. Many of those who bought in the first unit of Davis Shores made as high as \$4,000 and \$5,000 on their lots in a few days. Others have refused \$10,000 to \$20,000 profit.

This sale of the LAST OF DAVIS SHORES presents the final opportunity to purchase the wonderful property direct from the developers at original prices—prices that average \$100 to \$200 a front foot for property located within a few hundred feet of other St. Augustine property at \$1,000 to \$3,000 a front foot.

It is now a matter of only a few days when Davis Shores will be completely sold out. Those who want to share in its great, advantageous future may still be fortunate enough to do so if they visit our nearest office at once.

**VERY ARE ZED**  
 A large number of Illinois brewers have complied with prohibition regulations by de-alcoholizing their product and continuing to follow the profession.  
 Six of St. Louis' twenty-one brewing plants are turning out non-intoxicating beverage, mostly on a small scale, one is under padlock for violating the Volstead act, three are being used for other purposes and the remainder are idle.  
 Anheuser-Busch, Inc., among the largest manufacturers of beer in prohibition days, is now the manufacturer of non-intoxicating cereal beverage, but its volume is only 20 per cent as great and 1,200 men are employed instead of 7,000.  
 The Kemp Brewery has been turned into a shoe factory. The Green Tree brewery will be used as a factory. A third plant is used for cold storage.  
 Used For Flour Mill  
 The extensive plants of the Kansas City breweries have been sold. One unit is now a flour mill, one a chemical plant, one a bakery and two are used by ice companies.  
 The only other large brewery at Kansas City, the Muehlebach, is turning out near beer.  
 St. Joseph had two large breweries and several smaller ones when the Volstead act went into effect. The small plants were closed immediately and the others sought other lines of business.  
 Such breweries in Kentucky as still are in operation have been converted principally to soft drink factories and cold storage plants. In the cellars of one brewery, however, were housed the menageries of two circuses.  
 Mushrooms bloom in the Styrian vaults of a Louisville plant. Where once enzymes strived to change malt and hops into a tonic brew, parasitic fungi now bring substantial income to the owner through their delectable delicacy.  
 Two-thirds of Indiana's brewing establishments have undergone conversion—a coal yard, a milk supply house, a wholesale grocery building and a chemical plant replacing some—while others have been razed to permit new building.  
 A Wisconsin firm makes cheese in winter and near-beer in summer. Ice, ice cream and malt beverages of legal alcoholic content, have provided other uses, while many are untenanted.  
 Idleness shares with transformations into creameries, produce houses and cereal drink plants in Iowa breweries.  
 Little metamorphosis has been evidenced in Minnesota, where the active breweries of today are used to manufacture milder beverages.  
 Of the two existing Oklahoma territorial brewing plants, one was remade into an ice plant, and the other abandoned.  
 A single brew comes out of Texas. An hotel, bicycle shop and meat storage room have accounted for one Houston brewery; ice, butter and warehouses, for others.  
 Nice things about the present dance steps is you can't tell if the dancers are drunk or sober.

**STATE GETS BIG BENEFITS FROM NEW RESIDENTS**

**Many Who Have Decided to Truth About Florida Life North And Spread Straight Be Residents To Go Back**  
 Jacksonville, Jan. 21.—Florida's best friends, declares the Florida State Chamber of Commerce, are those newcomers who have come to the state to reside permanently and who return to their former homes in the north temporarily to close their business affairs. The folks back in the old home invariably ask for the real facts about Florida and when truth is told by one they know intimately they discount for all time the stories of anti-Florida propaganda.  
 One of these Florida ambassadors is E. J. Gellman, formerly of Kenosha, Wisconsin. Mr. Gellman came to Florida three months ago and settled in Inverness. He returned to Kenosha two or three weeks ago on business and having been president of the Kenosha Rotary Club was induced to tell the organization something about Florida.  
 James Bailey, of St. Petersburg, a member of the State Chamber, has forwarded to its headquarters a clipping from the Kenosha Telegraph-Courier "covering" Mr. Gellman's address, indicating that he gave the Rotarians a picture of Florida they could not have obtained in any other way short of visiting the state.  
 "It would be ridiculous to try to stop the development of Florida now as it would have been to try to stop the development of Ohio, Indiana, Illinois, Wisconsin or a score of other states fifty or a hundred years ago," he said among other things. Mr. Gellman concluded by stating that Florida would continue to develop so long as the business of the United States continued.

In Constantinople there are few, if any, traffic laws. The native motorist goes through town at forty miles an hour, passing street cars on either side, careening around corners and violating every safety rule.  
 Eighteen children can do riding at one time in a huge donkey-pulled cart that was given to the babies of the Willesdon Guardians Home at the Park Royal Hospital, England.

graph-Courier "covering" Mr. Gellman's address, indicating that he gave the Rotarians a picture of Florida they could not have obtained in any other way short of visiting the state.

Mr. Gellman concluded by stating that Florida would continue to develop so long as the business of the United States continued.

**No Demonstration can reveal all of BUICK Excellence**

ANY time you drive a Buick you will wonder how such a remarkable car can be sold at such a moderate price.  
 In just a few minutes you will realize that you are starting, stopping, parking, driving with much greater ease and security. And that you are surrounded by quality and luxury which rank with the very finest.  
 But demonstration will tell only part of the Buick story, and you should know all of it. A demonstration cannot show you the enduring stamina of body and chassis that belong to Buick. Years are necessary for that. It can only suggest the powerful ability of Buick's 75 horsepower Valve-in-Head engine, built for hills. It cannot tell you how thoroughly the Buick "Sealed Chassis" and the Buick "Triple Sealed" engine will protect Buick performance on dusty, gritty roads.  
 And it cannot even hint of the mental ease you will enjoy, with Buick Authorized Service "Just around the corner," everywhere in America.

BUICK MOTOR CO., FLINT, MICHIGAN, Division of General Motors Corporation

AUCTIONEERS

Office: 116 East Second Street, Sanford, Florida.

**No other tobacco is like P. A.**

YOU have no idea how wonderful a home-rolled cigarette can taste till you fill a paper with Prince Albert. Boy, howdy! P. A. is the real, blown-in-the-bottle quality tobacco. It has no second cousins . . . no "doubles." Just prove this for yourself.

Get a tidy red tin or a toppy red bag of Prince Albert. Put a pinch in a paper and do your well-known finger exercise. Notice how hunky-dory it rolls. Prince Albert is crimp-cut and stays put. Doesn't land in your lap or blow half-way across the county with the first breeze.

And . . . the real thrill comes when you connect with a match. How cool it smokes! How fragrant it is! How friendly! P. A. can't bite your tongue or parch your throat. The Prince Albert process says "No!" to that with a capital N. Try this better cigarette tobacco.

And if you sometimes get a hankering for a drag at the old jimmy-pipe with some really friendly tobacco, try P. A. this way. Prince Albert has put three pipes where there was only one before. No idle chatter, that. Get next to this big-league tobacco today.

P. A. is sold everywhere in fifty red tins and fifty red bags. Get yours with every tin of the pack returned by the Prince Albert process.

**PRINCE ALBERT**

—no other tobacco is like it!

What Will Ninety Men  
Do In Three Days  
at  
**SANFORD MANOR**  
?

A fortnight of intensive preparation has reached its height. Three working days remain until Sanford Manor shall be opened to the public. What will ninety, highly specialized men equipped with the most modern machinery, accomplish in these three days?

The improvement work, completely freed from the freight embargo, due to Sanford's location on the St. John's River, is progressing at full speed. Every man on the grounds is doing his capacity and more are hired daily. Material is plentiful and we are sparing no expense to see our plans properly carried out. Coral walks, being laid over the entire property, are a revelation in municipal beautification. The Manor Entrance, gorgeous, thirty-five feet in height and one hundred feet long, alone is worth a trip to Sanford Manor. The laying of every foot of pavement, the erection of every structure; every move made on the property, is carefully superintended by men who are fully cognizant of our requirements. Not a single mishap shall mar the presentation of a community which has already become an interesting topic for conversation throughout this section of Florida.

Hundreds of people have watched our advancement up to the present date. Thousands are becoming interested. Come out today and see what we are doing; then come out again Monday, January 25. What ninety men can do in three days will be presented for your inspection.

MAKE THIS PLEASANT  
TRIP TO SANFORD MANOR  
TODAY!

WATCH FOR FURTHER FACTS TOMORROW!

U. S. Planes Arrive In  
Charleston For Rest

CHARLESTON, S. C., Jan. 21.—(P)—The first squadron of six of the 23 sea planes from Norfolk arrived here at the southern base of their way to the U. S. Navy, arriving over the city at 2 o'clock yesterday afternoon. They proceeded to circle over Charleston before alighting.

The ten. W. ght arrived Sunday and has been waiting the coming of the planes, which were delayed in their departure from Hampton Roads by poor flying conditions.

No matter how great a range the new phonographs have, a kitchen range sounds better.

Freight by water because of the scarcity of light draught ships of sufficient cargo capacity to serve them. The reason, he believes, would fill the need.

**STEWART'S WASHINGTON LETTER**  
By CHARLES P. STEWART

WASHINGTON, Jan. 21.—(AP)—I played in a minor capacity at the Capitol building is an old man— I guess him to be at least 75— who used to be in the saloon business in Washington for a great many years, until it went dry. Among his customers of moister days were numerous public men (they got big his present job at the Capitol when he had to close his saloon) and the old chap is full of stories of their bibulousness in the long ago.

"Time was," he tells me, "when I didn't think anything of sending representatives and senators home from my place in hacks, with their feet sticking out of the windows. I've even seen a president or two a bit lit up."

"But they'd get to going easier by quite a while before the war. It was then that mixed drinks like cocktails, and highballs, and rickys began coming in."

"I'd already lost a lot of my best trade before prohibition. The old-time kind was what paid— where a man downed his drink at one swallow and made room for somebody else, or else bought more. All the same I was glad to see the change."

"Now, I remember one customer I had—a real statesman—you'd know his name in a minute—who swore off entirely, I think it was in 1914."

"And it was a good thing for he

had his spree."

"How much," I asked, curious to know the views of so experienced an authority, on the use and abuse of alcohol, "did this statesman you mention consume?"

"Oh," said the veteran, "when he was normal he was strictly temperate. As I'm telling you, except when he was drinking he kept well inside maybe a couple of dozen whiskeys a day."

**PAUL LAKE**  
Licensed Real Estate Broker  
Salesman—E. T. MOORE.

**Classified Toll Service Established in Florida**

New schedule of classified toll service covering distance telephone State of Florida effective January 21st.

Classified toll service in station-to-station service, toll is made for a telephone number or the name under the telephone is listed; person-to-person service where communication be established with a person; appointment where a call is to be made at a specified time particular person, and service where it is to send a messenger.

Classified schedule in report charge which is to person-to-person in, under certain conditions it is impossible to communication particular persons, due to the company.

Station-to-station service carries the lowest rate and, when used between 8:30 o'clock at night and 4:30 o'clock in the morning, there is a saving of approximately 50 per cent in most cases over the day rate for the same class of service, except that no discount applies to night rates where the day rate is 25c or less.

Station-to-station service is particularly valuable for business concerns who have occasion to telephone frequently to branch houses or representatives.

For social purposes the low night rate for station-to-station service is very attractive. Boys and girls who are away at school and relatives in other cities may be called at small cost and at a time when they are most likely to be at home.

The classified toll service is expected to prove popular in Florida just as it has in other States, and the local business office will cheerfully furnish further detailed information upon request.

JULIA T. SMITH,  
As Administratrix of the estate of Peter Nolan, deceased.

**THE STABILITY AND SUBSTANTIALITY**

—:—of—:—

SANFORD is based entirely on the agricultural district that surrounds the city. The fertility of the soil has been proven. Not only the nation but the world knows and enjoys the superior products that are grown in the immediate environs of the city.

**A. F. G. INDUSTRIAL TRACT**

"Sanford's First Industrial Development"

Marks the beginning of an equally important industry. To the time of the opening of the AFG Inland Tract the industrial possibilities of the city were left to make what progress they could unaided and unassisted. Today every effort is being made to speed the plans that have been made for the erection of plants and warehouses in AFG Industrial Tract that operation will begin in the next ninety days. Such assistance as this is being given only through the efforts of the developers of AFG Industrial Tract.

**GREAT THINGS ARE PLANNED FOR THE CITY. GREATER THINGS ARE PLANNED FOR AFG INDUSTRIAL TRACT.**

**Sites 96x260---\$2400**

TERMS: Twenty per cent cash and the balance payable in six semi-annual payments.

Sites can be secured with five percent deposit, closing in thirty days.

STATE NEWS BRIEFS  
BY ASSOCIATED PRESS

MIAMI—The age-old theory that the wreckage of the yacht *Martha* was exploded here was proved today when a youth, one of the employees of a local telegraph company, who had a message to deliver. The boy, age 15, given his first telegram to deliver, could not find the captain of the yacht *Martha*, although he explored the wreck off in the middle of the bay. He borrowed a skiff, and, although it was his first experience at rowing, he succeeded in reaching the boat with the message. The boy, official of the company said, is in line for promotion.

TAMPA—M. H. Sexton, president of the National Association of Professional Leagues, plans to transfer his headquarters to Tampa shortly, his son announced here.

GAINESVILLE—Southern College, of Lakeland, has been given the opening date, September 25, on the football schedule of the University of Florida for 1926, it was announced by athletic heads of the latter institution. The game will be played on the University cam-

pus.  
EUSTIS—The regular monthly meeting of members of the Lake county Press Association was held here. Business of much interest to the newspaper profession was transacted.

PALATKA—Palatka's old "hunted house," a structure which has long borne the brunt of rocks, sling-shots and whispered remarks, has given way to a modern bungalow.

TAMPA—B. L. Davis recently besought the aid of the police in locating his "wife's husband." Explanations followed and it developed that Davis had become divorced from Mrs. Davis, and the latter then married J. C. Crabtree, in Arkansas. Desiring to see her children by Davis, Mrs. Crabtree joined her former husband at Tampa. Then Crabtree her milk supply.

disappeared.  
MIAMI—A yacht owner, while fishing in Biscayne bay, executed both a "rare" as well as "unique" catch. He pulled to the surface a brown sack which contained six bottles of genuine Jamaica rum. An investigation of the spot followed and 15 more sacks were brought up. A search warrant is out for location of the fisherman, Miami reports say.

LAKELAND—Two youths giving their names as H. T. Wallace, of Birmingham, and J. W. Gazell, Aubrey, N. Y., were bound over under \$2,000 bond on charges of robbing a local store.

DAYTONA BEACH—H. Summerville, theatre proprietor, and Thomas Ruddy, dance hall operator, were found guilty of violation of the "Blue Laws" after being arrested for doing business on Sunday.

Rhineland dairymen have discovered that music soothes the milk sow and induces her to increase her milk supply.

Josephine Leidy  
Granted Divorce

NORRISTOWN, Pa., Jan. 21.—(AP)—Josephine Pancoast, Widener Leidy, daughter of Joseph E. Widener, Philadelphia, multimillionaire, has been granted a divorce by the Montgomery county court, it became known Tuesday. Mrs. Leidy, known to her friends as "Fifi," entered suit against her husband Carter Randolph Leidy of Philadelphia last October. The grounds for the action were never made public. The pair eloped to Knoxville, in 1920 and then went to Asheville, N. C., to await parental forgiveness. They have one daughter, born at Newport, R. I., in August, 1922.

Dr. C. Macfie Campbell, of Boston, has found that spoiling women and irritable "flappers" are often suffering from too much thyroid activity.

Try Smith's Barber Shop for good barber work. Ladies welcome. Next to Valdez.

INDUSTRIAL DEMOCRACY

NEW YORK, Jan. 21.—(AP)—Lady Cynthia Moseley had found an industrial democracy in paper-box factories where she has shared the tea served unionized workers daily by their employers. On her next visit she will serve angel cake.

WORTH THE MONEY

NATCHES, Miss., Jan. 21.—(AP)—Y. M. Elkey, when informed by a justice of the peace that it would cost him \$25 and 30 days in jail if he slapped his wife, said it would be worth the money, but objected to the jail sentence.

# MARVANIA

"The last of the Eastern Lake Section"

The very fact that Marvania, with all its desirable salient features is the least development of the Eastern Lake Section in the city limits—is, in itself, sufficient to cause the immediate and critical investigation of discriminating investors in high grade Sanford real estate.

This magnificent property is surrounded by all the great activity of the entire Sanford district. With the commercial, social and recreational centers at its very borders—an ideal site for your permanent home—a splendid real estate investment that will be bound to rise in the near future.

YOUR OPPORTUNITY TO AFFILIATE WITH THIS MARVELOUS INVESTMENT IS OFFERED IN THE SECOND SECTION. SECURE YOUR SITE BEFORE THE DEVELOPMENT IS ENTIRELY SOLD OUT.

## 100 Sanford Laundry Is In Service

WALDRON, Ark., Jan. 22.—(AP)—Three Scott county women, taking the law in their hands, conducted a raid on a moonshine still, seized it and turned it over to officers.

The woman decided to take a look over the countryside. They found a large still already for a run in the northeastern part of the county. Unable to turn it over, they punched a hole in the still and emptied the contents. Then swinging the boiler over a pole they took it to town and turned it over to a deputy sheriff.

## Arkansas Women Conduct Rum Raid

WALDRON, Ark., Jan. 22.—(AP)—Three Scott county women, taking the law in their hands, conducted a raid on a moonshine still, seized it and turned it over to officers.

## News Summary

New \$100,000 steam laundry equipped with modern type machinery is opened at West Third Street site.

Internationally famous golfer accepted invitation to compete in Central Florida Open Championship tournament to be held here Jan. 27-28.

State insecary is located here to combat colony pest known as The Celery Leaf-Tyzer.

Experts Will Experiment in Methods of Eradicating Devastating Pest Known As The Celery Leaf-Tyzer.

It was learned today that the state has appropriated the sum of \$15,000 and the United States Government is contributing a like amount for the carrying on in this city and county of a two year investigation of the celery leaf-tyzer, a vegetable parasite detrimental to the crops in sections where it has been found. The local investigation and study will be carried on to find means for combating this pest and for the betterment of truck farming conditions throughout the state.

An insecary is now being erected on Park Avenue just north of the county courthouse which is to have many modern features for the efficient work of the staff who will assemble here for the work according to an announcement made today by Dr. E. D. Ball, representing the State Plant Board of Florida in this section, and who will have charge of the work for the state.

B. L. Boyden and Dr. F. H. Lathrop, of the Bureau of Entomology, United States Department of Agriculture, are here in the interests of the government work, which will be carried out in conjunction with state activities.

Other agencies co-operating with the work are the Chemical Warfare Service of the U. S. Army, attempting to control insect pests by the use of poison gases and the Bureau of Chemistry, of the United States, which is studying the amount of arsenic left on the celery plants after spraying operations by the growers.

Dr. Lathrop is at present experimenting with lights which are designed to attract the moths that lay the eggs which hatch into the pest as they are hatched in the form of worms.

Many thousands of various ways and means of combating the celery pest evils are to be tried out in the next two years but the officers in charge of the work do not want the public to look for any material changes in the situation during the present season.

This year the experiments can be carried out and perhaps by the next season several methods will be working ordered Atlantic coast, Wilmington, N. C., to Eastport, Me., over Nova Scotia, of great intensity will move northward and cause strong northeast winds this afternoon and tonight, reaching lake force at times on middle and north coast.

## Two Killed And Three Hurt In East Coast Auto Crash Near Scene Of Train Wreck

WEST PALM BEACH, Jan. 22.—(AP)—Two persons are dead and three injured, one seriously, as a result of a motor accident at 3 o'clock this morning, just north of the Boynton Canal on Dixie Highway. The dead are Mrs. E. Evans, formerly a special policeman on the West Palm Beach force, and an unidentified woman, called inez, who was on young, was killed instantly. Evans, a young man, died at Good Samaritan hospital at 5:10 o'clock, two hours after the accident.

The injured are John Leonard, 32, of Boynton, a speed patrolman in Lantana, Jack Stuckart, 23, of West Palm Beach, and Hazel Atkins, of Lake Worth. Miss Atkins, who is young and pretty, is the most seriously injured of the three. She is suffering from internal injuries and lacerations.

The five young people were in Evans' roadster, speeding south on the Dixie Highway, when they ran into a Buick sedan, driven by Harry Harris of Palm Beach, in his first race car, a sedan, was returning to West Palm Beach from the Miami races, bringing two passengers, a man and a woman who had picked up at the Poinciana Hotel in Palm Beach early Thursday morning, and had driven to the races in Miami.

Lights blinded Driver

As the two cars neared each other the lights of the smaller car blinded Harris and he pulled to the side. The speeding roadster, crashed into his car, head-on. The smaller car turned over and pinned its occupants underneath.

Dr. P. O. Boynton, treated them. Harris went for the doctor and while he was gone his passengers, whose names are not known, disappeared and were not seen again.

A passing car refused to lend aid in bringing the injured to West Palm Beach. A negro man called the physician and Harris in carrying the injured to the hospital here. The bodies of Evans and the unidentified woman are in a local undertaking establishment.

Happened Near Wreck Scene

The accident of the two automobiles happened within half a mile of, and about the same hour, as the F. E. C. passenger wreck of Thursday.

Sheriff R. C. Baker, who is investigating the accident, expressed an opinion that no inquest would be held although he said he will continue his investigation after the injured in the hospital are sufficiently from the shock to give a comprehensive account of the crash.

The woman killed in the accident today as that of Mrs. Inez Mitchell, 45, housekeeper at the El Verano Hotel and formerly of Savannah, Ga.

A daughter and two sisters of Mrs. Mitchell have not been located.

## MANY GOLFERS WILL COMPETE IN LOCAL MEET

Gil Nichols, Mike Brady, Gene Sarazen, Walter Hagen and Many Others Will Vite For Prizes Amounting To \$4,000

Worrell To Assist In Staging Tourney

Chamber Of Commerce And Other Civic Bodies Give Their Support To Plans

Local golf fans as well as followers of the game from adjacent counties are enthusiastic over the coming professional lineup of golfers who will enter the \$4,000 prize tournament to be held on the Sanford Course, Jan. 27 and 28.

Some of the professionals entering the tournament are Captain Charles Clark, Daytona Golf and Country Club; Dave Fisher, Winona, Mass.; T. C. Schorr, Bluefield, W. Va.; Geo. Dornbach, Daytona; Geo. Howard, Charleston, W. Va.; and J. H. Macdonald, coming in from Jacksonville.

Lewis J. Worrell, manager of the A. G. Spalding Company at Jacksonville, will assist the local club in carrying out the match.

One of the features of the match will be the contest between two of the greatest players goldom has produced, Hagen and Sarazen. Another feature will be playing of Compton, British champion, and Massey, French champion.

In addition will be such players as Gil Nichols, Mike Brady, Leo Diegel, Cecil Roberts, Jim Klein, Otis George, known to local fans, Rigdon and Lowe of Oakmont, and several local amateurs. Professional winners of any event gathered in Florida, it is said.

The local club officials are reported to be putting forth every effort to make the match a tournament a success from every standpoint and the cooperation of the citizens and followers of golf has been assured.

Much is to be done and representatives from the various civic bodies are assisting Mr. MacNeill, of the Sanford Golf Club, in making the match a success. The word by wire has been received from most of the entrants named and from all indications, the 27th and 28th will be banner days in the history of Sanford's sportsmen.

News articles are being forwarded to all newspapers of the state and many of the members of the press will carry news items as well as photographs of the players in action.

## New Anthracite Peace Operators Reject Plan

### Spanish War Veterans And Auxiliary Install New Officers Jointly

At a joint ceremony held in the Odd Fellows Hall last night, the officers of the Col. Theodore Roosevelt Camp, No. 13, United Spanish War Veterans and of the Auxiliary organization were installed before a large gathering of local veterans and visitors from many other points in the state and nation.

Past Department Commander R. A. Terhune of Sanford, Senior Vice Department Commander W. B. Ballard, of Altamonte Springs, and Past Department Commander Roy Schmidt conducted the meeting, installed the officers and presided over the ceremonies during the evening.

Mrs. Lou Smith Terhune, Department Commander of the Auxiliary, installed the officers of the woman's organization and Mrs. W. B. Ballard of the Orlando Auxiliary presided at the piano.

The officers of the auxiliary of the Spanish War Veterans and Auxiliary were: W. S. Price, Fred T. Williams and R. A. Terhune, trustees; W. G. Tyler, adjutant; R. C. Shafter, quartermaster; J. G. Ball, sergeant; Roy Schmidt, chaplain; C. J. Marshall, surgeon; A. Ericson, sergeant major; Ernest Lagerquist, quartermaster sergeant; A. King and G. W. Rutherford, color sergeants.

Officers of the auxiliary of the woman's organization for the coming year are: Mrs. Stella Evans, president; Mrs. W. E. Jameson, Junior vice president; Mrs. Mae Shearer, chaplain; Mrs. Lou Smith Terhune, patriotic instructor; Mrs. Neva Haynes, historian; Louise Shearer, color bearer; Miss Leonore Shearer, guard; Mrs. Emma Lagerquist, assistant conductor.

## Storm Warning Is Issued By Bureau

WASHINGTON, Jan. 22.—(AP)—Advisory Board on winter storms warnings ordered Atlantic coast, Wilmington, N. C., to Eastport, Me., over Nova Scotia, of great intensity will move northward and cause strong northeast winds this afternoon and tonight, reaching lake force at times on middle and north coast.

## STATE LOCATES INSECTARY HERE FOR CELERY MEN

Experts Will Experiment in Methods of Eradicating Devastating Pest Known As The Celery Leaf-Tyzer

It was learned today that the state has appropriated the sum of \$15,000 and the United States Government is contributing a like amount for the carrying on in this city and county of a two year investigation of the celery leaf-tyzer, a vegetable parasite detrimental to the crops in sections where it has been found. The local investigation and study will be carried on to find means for combating this pest and for the betterment of truck farming conditions throughout the state.

## TOURNAMENT IS TO GET SUPPORT FROM CHAMBER

Big Golf Event Creating Much Enthusiasm Among Members Of Local Civic Body; Mayor Tells Of Bond Issue

The feature of today's meeting of the Chamber of Commerce held at noon in the Seminole Grill, was the announcement that final plans were now being perfected for the golf tournament to be held on the Sanford Golf and Country Club, Jan. 27 and 28.

Frank MacNeill, secretary of the country club, told the members of the plans for handling the event and also of the many nationally known players who will enter the tournament.

Much is to be done and representatives from the various civic bodies are assisting Mr. MacNeill, of the Sanford Golf Club, in making the match a success. The word by wire has been received from most of the entrants named and from all indications, the 27th and 28th will be banner days in the history of Sanford's sportsmen.

News articles are being forwarded to all newspapers of the state and many of the members of the press will carry news items as well as photographs of the players in action.

## 5 Florida Convicts Escape From Gang; One Is Recaptured

TALLAHASSEE, Jan. 22.—(AP)—Five prisoners escaped from state road camp yesterday and one was recaptured, according to reports received at the state prison bureau here. One of them, Bertha Ross, negro, sentenced in Madison county last October, was serving a life term for murder.

Ross and three other negroes fled from a road camp near Marianna at 7 o'clock this morning. The fourth, a white man, made his escape from a road camp near DeFuniak Springs yesterday. Camp was sentenced from Columbia county in October to two years for assault to murder; Himp Milton from Duval county in November, six years for mayhem; and Will Sanders, Hillsborough county, in August, 1920, for eight years for three charges of breaking and entering. Milton reports to the prison bureau said, was later recaptured. Sanders effected a previous escape on Aug. 14, 1921, and was not recaptured until Oct. 1925. He was retaken at Birmingham.

## MAN DROPS DEAD WHILE WORKING ON HOUSE ROOF

Charles Lockhart Succumbs While Engaged In Painting A Building Near Garbilla; Body Is Lowered To Ground

Charles Lockhart, 50, a painter working on a job near Garbilla, dropped to his death yesterday from the roof of the house he was painting and his body had to be lowered to the ground by Deputy Sheriff C. W. Williamson and members of the coroner's jury who held an inquest at the scene of the man's death.

Deputy Williamson received a call from Garbilla stating that Lockhart had fallen from a standing position and was hanging over the edge of the roof. Upon his arrival on the scene, the deputy climbed up and found the man to be dead. He called a coroner and jury from Oviedo and after the inquest which pronounced a verdict of death due to natural causes, the body was removed to Orlando by Undertaker Hand, who will prepare the body for shipment to the man's home in Huntington, W. Va.

Lockhart had been in ill health for the past two weeks and had been confined to his bed for several days, according to reports received at the state prison bureau here. One of them, Bertha Ross, negro, sentenced in Madison county last October, was serving a life term for murder.

## FRANK P. FORSTER BEGINS HIS 43RD YEAR IN BANKING

Old Citizen Receives Many Congratulatory Messages On The Anniversary Of The First National Bank

Congratulatory messages from all over the state were today pouring into the office of Frank P. Forster, president of the First National Bank, on the forty-third anniversary of his service to the banking institution which he now heads.

Telegrams and letters have arrived from many friends throughout the country who have known Mr. Forster during his many years of residence in Sanford and by his connections with various Florida enterprises.

Mr. Forster first became identified with financial circles in this city on Jan. 23, 1889, when he was elected to the presidency of the old Lyman Bank, which was probably the first institution of its kind in the county.

At the time of the First National Bank of Sanford was organized and the veteran banker became cashier and director of that organization which he has spent most of his life. At the date of his promotion to the office of vice-president a few years later B. E. Whitner, who now cashes, was promoted to fill the vacancy left by the advancement of Mr. Forster. Mr. Whitner is now cashier and also a director of the First National Bank.

In April, 1918, Mr. Forster was elected to the presidency of the institution and is active in the affairs of the bank and in many civic organizations.

The old Lyman Bank was quartered in a frame four story building which once stood on the site of the present Yowell Department store. The bank, the postoffice, the barber shop and several business offices occupied the first two of the structure and the other three floors housed the servants of the old Sanford House, one of Florida's earliest hostleries.

(Continued on Page Three)

## First Radio Fan To Report On City's Program To Receive Bunch of Celery

pouring in every hour from northern people who were listening in last night to George DeCoster's talk on this county and the city of Sanford.

Many complimentary messages have been received asking that the municipal band be heard more often than once a week and that on the venue's they play to have them, give more than five numbers.

It is reported that already many inquiries have been received relative to facts about this city which have been turned directly to the radio talks given by the Mayor and by Mr. DeCoster. Facts desired by several counties at their cities in Sanford and Seminole county each week are broadcast and officials of the station feel that the results are being derived from an advertisement medium.

## Destroyer Takes Her Final Voyage Today

BALTIMORE, Md., Jan. 22.—(AP)—Trailing ignominiously at the end of a feeble, one year monitor and last of her type, today was moving toward her grave. The U. S. S. Cheyenne was breaking her final voyage. Her destination, a junk pile at Hampton Roads.

One of her sister ships lay a wreck in 1911. The Cheyenne originally was a monitor with the U. S. A. Destroyer Navy yard was steaming about the Chesapeake straits when she was captured by the British in 1813.

## Undertaker Commits Suicide At Sebring

AVON PARK, Fla., Jan. 22.—(AP)—C. C. Cockroan, aged 45, former West Palm Beach undertaker, committed suicide at Sebring this morning by drowning in Lake Jackson. He ran from his home several blocks away clad only in underwear and a bathrobe. Cockroan had been in ill health for several months. He is survived by a widow and a year old son.

## Body Of Slain Woman Is Identified By Brother-In-Law As Mae Dietrich

MEDIA, Pa., Jan. 22.—(AP)—Baffled that the headless and legless body of a young woman found in a clump of trees, is that of Miss Anna Mae Dietrich of Yorkwood, Pa., police today directed the search of the missing head and towards establishing a missing.

Several hours of intensive search yesterday, Alexander L. Shubi of Philadelphia, manager of the Independence Tribune, County, Pa., was the first to identify the body as that of Anna Mae Dietrich, who was last seen in the vicinity of the woods in a

## Over 6,000 Killed In Autos In Past Year

TALLAHASSEE, Jan. 22.—(AP)—Automobile deaths in 1931 numbered 6,270, according to a report from the state department of transportation today. The report also indicates that the number of deaths in 1930 was 5,800.

For 1932, the state department estimates that there will be a decrease in the number of deaths to 5,500.

## Condition To Be Worse

Belgium, Jan. 22.—(AP)—The condition of the country is considered as worse than ever since the outbreak of the war.

Many complimentary messages have been received asking that the municipal band be heard more often than once a week and that on the venue's they play to have them, give more than five numbers.

## Destroyer Takes Her Final Voyage Today

BALTIMORE, Md., Jan. 22.—(AP)—Trailing ignominiously at the end of a feeble, one year monitor and last of her type, today was moving toward her grave. The U. S. S. Cheyenne was breaking her final voyage. Her destination, a junk pile at Hampton Roads.

## Undertaker Commits Suicide At Sebring

AVON PARK, Fla., Jan. 22.—(AP)—C. C. Cockroan, aged 45, former West Palm Beach undertaker, committed suicide at Sebring this morning by drowning in Lake Jackson. He ran from his home several blocks away clad only in underwear and a bathrobe. Cockroan had been in ill health for several months. He is survived by a widow and a year old son.
