"DEAD END" KIDS GET BEST ROLES

A realistic human drama of the tragedy, laughter and heartache found on a big city's streets, Universal's thrilling document of modern youth, "Little Tough Guy," shows at the Ritz Theatre Thursday and Friday with the famous "Dead End" kids: Helen Parrish, Jackie Searl and Robert Wilcox featured.

Filled with elemental emotions, filled alive and throbbing from life itself, the picture offers Billy Halop and the other youthful stars of "Dead End" their most important opportunity since "College School."

Helen Parrish, the "meanie" Dennis Durbin's film, "Mad About Music," has the role of the

sister, Robert Wilcox is seen as her loyal friend and Marjorie Main is cast as the mother. Jackie Searl plays the role of a rich boy who turns to a life of petty crime "just for the thrill."

Written by Brenda Weisberg and Gilson Brown, the story is a simple and powerful narrative of what takes place in the lives of a mother, son and daughter when the father is sent to prison and the family moves to a sordid tenement district.

The boy becomes involved with a tough lot of young hoodlums. Encouraged by his father's conviction, he takes over leadership of the "mob" and is soon the most ruthless and daring of the

lot. Captured while trying to hold up a theatre, the boys are sent to a reform school, where for the first time they learn the true values of life.

Directed by Harold Young and produced by Ken Goldsmith, "Little Tough Guy," presents the "Dead End" kids in a drama that is as human and significant as it is thrilling.

Uncle Sam is becoming the best customer of the Florida citrus industry. The Federal Bureau of Commodity Commissioners will purchase [250,000 cases of canned grapefruit for distribution to those on relief during the next four months.

FHA Loans Reach All-Time Monthly High During July

The number of Proper Improvement Credit loans reported for insurance to the FHA by qualified private lending institutions reached an all-time monthly high during July, FHA officials announced.

The total number was 34,605, a gain of 137 over the previous month for June when lending agencies reported 34,468. Although the dollar volume in July, amounting to \$16,637,638, was under the June total of \$17,461,788, FHA officials considered the gain in number of significance in that it points to a wide use of the FHA's facilities in behalf of property maintenance, modernization, and repair.

Almost \$830,000,000 of private capital has now been insured under the Federal Housing Administration's Property Improvement Plan which was designed to make more attractive and enhance the value of homes, small business establishments and institutional properties. At present, several thousand private lending agencies are reporting loans of nearly more than \$4,000,000 each, with the average loan amounting to \$461.

Federal Housing Administration's original authority to make modernization loans expires April 1, 1937, at which time \$431,000 notes amounting to less than \$600,000,000 had been issued for insurance. It was last February 8 through grants to the National

Ameche Stars In Drama Of World-Famous Ellis Island

A thrashing drama of world-famed Ellis Island is "Gateway," the 20th Century-Fox classic vehicle for Don Ameche and Arleen Whelan.

The production, which comes to the Ritz Theatre Tuesday and Wednesday is tense with violent emotions and keyed-up suspense bright with the lightness of hearts buoyed up with hope and colorful with its people from all lands.

Of its timeliness there is no question.

Don and Arleen are thrilling with the strong, young romance of two who feared they had met too late. Their support is cast of actors and actresses worthy of such a stirring story in the most dramatic place in the world.

Don is a homecoming newspaper correspondent. Arleen is a young lass in the second cabin who is to meet her fiance in America. Her beauty has attracted not only the newspaperman but a gangster (Gilbert Roland) and a politically minded mayor (Raymond Walburn). A famous divorcee (Binnie Barnes) has aided the romance between Don and Arleen.

In the scenes in question, Holles Brook and Anthony Holmes are caught in a trap set by the police. Holles is accused of cheating at cards and Brooks knocks him out with a well-aimed left to the chin.

Kendrick Accused Of Espionage By German Officials

Continued From Page One
home supplied.

In the past week Chinese reported a guerrilla army had captured Tainan. The Japanese admitted the assault, but said the guerrillas were repulsed.

In northern Honan province, Chinese irregulars were reported to have attacked Siniangt and Shaochichen, inflicting 200 casualties and capturing Japanese-supported officials.

Paoting, capital of Hopeh province, was reported encircled by guerrillas.

In the Yangtze valley, still more than 100 miles from Hankow, China's provisional capital, Japanese forces struggled against Chinese regulars to widen the front of their drive toward Hankow.

Chinese advices said heavy Japanese reinforcements were enroute southward to the Yangtze front, now that Japan and Soviet Russia had quit fighting at Changkufeng hill on the Russian-Manchukuo border.

A London dispatch said Italy secretly is attempting to mediate the Chinese-Japanese war and has reached a tentative understanding with former Premier Wang Ching-Wei of China that he will head a revised Chinese central government and make peace with Japan after its armies capture China's present provisional capital in Hankow. The United Press was told tonight by a non-British diplomat.

The information came after Britain had informed Japan that she can reach no agreement with regard to China until Japan gives definite assurances that British rights in China will be respected.

GERMAN-TURKISH PACT BERLIN.—(AP)—A one-year pact went into effect Aug. 15, incorporating the old Austro-Turkish conventions. Germany already claims control of about 60 percent of Southeastern Europe's trade.

Germany's 15-year-old law insuring 25,000 houses on out-of-state lines and owners will be enforced for the first time beginning Aug. 24. Construction of new houses will be limited to 100,000 per year.

HEADING FIESTA CAST—Some of Hollywood's best-known stars sparkle in Paramount's new musical romance, "Tropic Holiday," which opens Sunday at the Ritz Theatre. Heading the cast of this Mexican fiesta are Bob Burns, Martha Raye, Dorothy Lamour and Ray Milland.

Actress Prefers Outdoor Fashions

Louise Stanley, who plays the leading femme role in "Thunder in the Desert," Bob Steele's latest western Republic release, which is coming to the Ritz Theatre, is noted in Hollywood for her unique taste in clothes.

Mrs. Stanley, essentially an out-of-doors girl, selects an essentially out-of-doors wardrobe. Many of her most striking ensembles are patterned after clothes designed for use in western films.

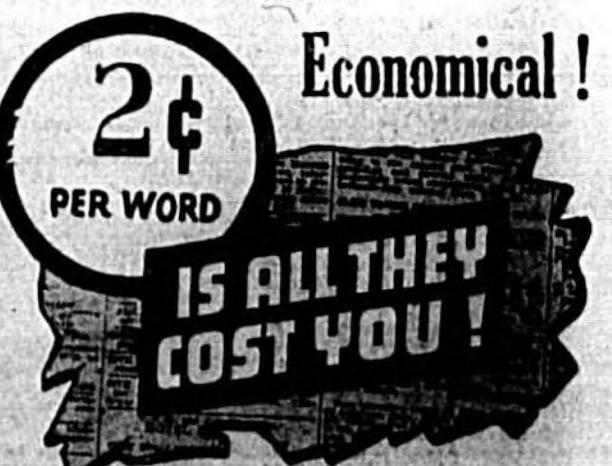

In addition to Miss Stanley, Don Hartley, Ernie Adams, Lew Methan, Horace Murphy, Charles King, Ed Brady and numerous other well-known action players support Steele in "Thunder in the Desert." Sam Newfield mega-phoned this A. W. Hackel Production.

TALENTED—Billy Halop, one of the "Dead End" kids who comes home in Universal's "Little Tough Guy."

Laws authorizing programs for the care of crippled children have been placed on the statute books of every state.

Brazil's immigration regulations have been tightened by a new law which permits the entry of larger numbers of immigrants, but favors the agricultural worker.

Hopkins Hits Fund Drive Of Worker Group

WPA Chief Discusses Reports Alliance Is Seeking \$50,000; Doesn't Like Idea

Fund To Be Used Against O'Connor

Petition To Permit Maverick To Run As Independent Denied

HYDE PARK, N. Y., Aug. 22.—(AP)—Harry Hopkins, WPA administrator, expressed a sharp criticism today that the reported effort by the Workers Alliance to raise campaign funds from New York relief workers.

Hopkins discussed with newsmen reports that the alliance was seeking to raise \$50,000 to fight Rep. John J. O'Connor, sharp Administration critic who is seeking renomination in New York.

Hopkins spent the night with President Roosevelt here. He said the Workers Alliance had a legal right to ask funds from the WPA employees but he added: "I just don't like the idea."

O'Connor recently was criticized by the President as being one of the most effective obstructivists in the lower house."

AUSTIN, Texas, Aug. 22.—(AP)—Secretary of State Edward Clark today overruled the petition of friends of the New Deal congressman Maury Maverick that the latter's name be printed on a ballot as an independent in November.

Clark held that Maverick, a strong supporter of President Roosevelt, could not run as an independent because he participated in the Democratic primary.

Maverick was defeated by Paul Kilday by less than 1,000 votes.

Sharon Speaks At Church In Absence Of Rev. J. B. Root

Using as his subject, "The Strangest Battle That Was Ever Fought," James G. Sharon spoke Sunday morning at the Congregational Church in the absence of the Rev. J. B. Root.

Mr. Sharon said he had felt a timidity when asked by the Rev. Root to deliver a sermon but had overcome this timidity with the conviction that he should always do what he could "for the Master."

Citing the Puritan Fathers, who came to this country to worship and "not to feel gold and material gains," Mr. Sharon said "they did not care for material prosperity." He quoted Calvin Coolidge, former president, and described him as a good man, who was not visionary, and who could be trusted "with good common sense."

The speaker called attention to the fact that when the nation was new, and there were not the good roads of today, the people made more of an effort to worship God. "Stumps and obstacles did not interfere with their church going."

Judge R. W. Ware will be the speaker at the morning service next Sunday at the Congregational Church.

Salaries of railroad executives, general officers and assistants amount to only 1.4 percent of railroad operating expenses.

Crowds In Trains Are Swept By Near Panic As Lights Go Out And Blaze Starts

NEW YORK, Aug. 22.—(AP)—Two subway cars which were held up for about 10 to 15 minutes in a collision between two trains on the Fulton Street line on Avenue B.

The subway, both southbound cars, were filled with hundreds of passengers, mostly residents of the Bronx on their way to work in downtown offices. Many persons swept the crowded trains when the lights went out and a short circuit started a fire.

Charles C. O'Conor, chairman of the subway, was summoned in a fire call when it reached around the rear coach of the train.

He was still alive an hour later when he was cut in half by a metal pipe. Two dozen spectators, his wife and a police and fireman pulled him out. He died in a hospital an hour later.

The body of Emanuel Averbach was taken from the same train. Hours after the crash an acetylene torch crew said they believed the body of a negro still was in the wreckage.

BIBLE VERSE FOR TODAY

WHEN WORK IS DONE: For
I am in a strait between
two, having a desire to depart,
and to be with Christ; which is
far better.—Phil. 1:23.

WARRIOR ON BROADWAY

The lion's war-cry calls the
children to come
and dance their war-dance round
a council fire;
so throbber engines beat a wild
fan drum
where burning buildings make a
mammoth pyre.
Invisible as when they followed
trails
that have not leaved in twice a
hundred Springs,
their shadows drag the ambulance
that waits
till Old Manhattan's concrete
forest rings
After the fire these shadows
windshop.
For new plumes and huge elec-
tric fish,
where incandescent armes charge
the top
on continents of color, while they
whirr.
By pawnshop easements filled
with ancient guns
along the path that runs where
Broadway runs.
—Jay Rodger De Spain.

As we get it Mussolini and
Gen. Franco are planning to exert
every effort to end the Spanish
civil war before the next war
breaks out.

The Herald has received many
compliments recently on the large
amount of "new construction"
news we have been printing. To
all we say thanks. You build 'em,
we'll print it.

Some are planning legislation
to take the profit out of war,
while others are insisting there's
never any profit in any war. If
there was any profit in the last
war, the Germans must have
written it.

The United States will fight
for Canada, according to Presi-
dent Roosevelt, and Canada, ac-
cording to DeWitt MacKenzie
will fight for the United States.
Let's hope we never have to put
either of those assertions to a
test.

Those who believe in entrusting
more and more power to the
government should keep up with
the trial of State Democratic
Committee man and Tammany
District Leader Jimmy Hines in
New York and see how he
abused his power.

There'll be no politics in
government organizations oper-
ating in Georgia. No sirrel! There
an EPC attorney was fired for
supporting Senator George. This
should be a lesson to all govern-
ment employees, especially those
supporting Administration
candidates.

We guess it's no so bad after
all. Just think what a time we
would have getting out a newspaper
if we still lived in the
stone age.—Gulf Lake Region.
It wouldn't be so bad. The
difference between the stone age
and the brick bat age is hardly
worth mentioning.

Says the Titusville Star Ad-
vertiser: "It doesn't require any
great loyalty for the man whose
name and better name from a
good character required from a
good job to remain loyal to
the man for the party. The
same party loyalty we
see in the man who, though
he never expects to get a politi-
cal position, is content to fill his
time in the party organization
and the result has been to
make him a good man."

In Good Company

Everyone who makes as much as two or three thousand dollars a year is pretty apt to regard himself as a poor man. At least, he would not likely classify himself as among the wealthier classes. And yet that is exactly what he is, if the recent report of the National Resources Committee is accepted at face value.

According to this report, there are 8,000,000 families (not persons) in the United States who are "continually facing starvation." And there are an additional 11,000,000 families who are "fighting poverty." None of these would seem, could be placed in the two to three thousand dollar-a-year class. There are only 8,000,000 in this so-called "comfortable middle class." And there are only 1,585,000 families who are "habitually able to afford small luxuries."

The report also goes on to point out that there are nearly 800,000 families in the United States which have incomes in excess of \$5,000 a year. All the rest, or some 27,000,000 families earn less than that. So if you are making \$5,000 a year and are dissatisfied with your lot in life, content yourself with the knowledge that there are at least 27,000,000 families worse off than you are.

And if you are one of the 19 or 20 million families continuously facing starvation or poverty, it may help you to know that you are not the only one in that particular boat, and that as a matter of fact the number of those who are very much better off is comparatively small. If you are broke in this day and time, you are pretty apt to be in mighty good company.

Stopping Home Accidents

An expensive item in the high cost of housekeeping is caused by accidents which occur in the homes. According to the Department of Commerce, the average cost of such accidents, most of which result from stumbling over rugs or wet floors, and handling worn out electrical appliances, is not less than two million dollars a day.

The good housekeeper does not have to worry about accidents in the home, since she has a place for everything and keeps everything in its place, but for the benefit of the careless or indifferent housekeeper, whose life and whose family's well being are in constant danger from accidents, Miss Ethyl Holloway, District Home Agent of Gainesville, has prepared the following suggestions:

1. Put shoes on chairs or under beds at night.
2. Put the furniture in place before going to bed.
3. Teach children to put toys away when they finish playing.
4. Soap or water in the bathtub, on the floors or tile cause many falls which could easily be prevented by using a rubber mat for the tub, washable bathroom rugs, and by immediately wiping up all spilled liquids.
5. Rubbish in poorly ventilated places, or oily rugs carelessly thrown in closets may ignite spontaneously.
6. Light the way for sleepy wanderers at night by installing night lights in bedrooms or by keeping a small electric torch on the bedside table.
7. Light the stairway and do not leave articles, even temporarily, on the stairs.
8. Keep a tightly fitted screen before every open fire.
9. Do not turn on an electric light while the other hand touches the water faucet or touch any electrical connection while in the bath tub.
10. Threadbare electrical light cords are dangerous fire hazards.
11. Disconnecting by jerking on insulated cord tears the insulation away from the button and makes exposure to live wires possible.
12. Line loose rugs so they will lie flat and not slip on polished floors.
13. Use less wax and rub it in more carefully.

THE BARBER'S POLE began its career in the Middle Ages, when the art of surgery and the trade of barber were combined. Blood-letting was then the great cure-all; a vein in the arm was opened and the patient was given a stick or pole to grasp tightly, thus making the blood flow more freely. When not in use, the stick was hung outside the shop, with a white bandage wound around it in a spiral ready for use—indicating that a surgeon was available. But the sight of the gory pole was discouraging to the squeamish, so in time the barbers displayed a pole painted red and white, instead of that actually used in the operation.—Marion Nicholl Rawson, Handwrought Ante-

Age Old Argument Over Name Is Settled

NEWCASTLE, Ind., Aug. 22.—(UPI)—Uncle Sam has settled a
117-year old argument by ordering the Indiana city's name split
into two words.

The Post Office department at
Washington, D. C., revived the
controversy recently by pointing
out that some confusion had
arisen because the name was
written in both "New Castle" and
"New Ca-le."

POTOMAC SILVER . . .

Diego Huasca did not know it
at the time, but the wild goat
he chased up a mountainside in
1940 was worth nearly \$2,000,000!

Diego Huasca was an Indian
hunter in Bolivia and the goat
was just another meal to him—
almost. After a hard chase the animal eluded him, but in so doing
it led Huasca to one of the
richest silver deposits ever dis-
covered.

Grappling a clump of bushes as
he clambered over a ledge of
steep rocks after the goat, Huas-

ca slipped, uprooting the bushes
as he fell. The roots, strange as
it seems, were literally coated
with silver.

Until 1945 this district pro-
duced silver valued at over \$5,
000,000 a year. Today the mines
have been exhausted.

is so much distressed.
Really it would be a great
thing if there were somebody
who could talk for the Repub-
lican party. The National Chair-
man is supposed to do that, but
here he is affronting Liberty
Leagueas just as if his organiza-
tion could get along without
the fat contributions of those
who constituted that great
organization devoted to saving the
country from Franklin D. Roose-
velt.

"But the Republicans seem-
ingly never learn. They are quickly
organizing a new campaign
against the reciprocal trade pro-
gram. They plan to lay down
their attack on the pending nego-
tiations with Czechoslovakia,
Great Britain and Canada. Al-
though the country's foreign trade
has doubled from the days
of the Hawley-Smoot Act in 1932,
they prefer to see the country
headed for ruin because a few
high tariffs have been reduced."

And only last month James A.
Farrell, former president of the
United States Steel Corp., and
Chairman of the National Fer-
tilizer Trade Council, etc., devoted
a whole magazine article to the
subject, and in the course of that
he said: "The reciprocal trade
agreements have already ex-
ceeded our foreign markets."

The industrial recovery we
experienced between 1933 and
1937 was due largely to the ex-
pansion of foreign trade, enabling
us to put more men to work
making products for export,
which, in turn, increased the de-
mand for manufactured goods."

Now, the foregoing is not a
quotation from a Democratic
campaign speech. It was put out
during the recent session of Con-
gress by my distinguished and
consistent colleague on the other
side of the political fence who
directs the publicity for the
Republican National Committee. With Chairman Hamilton seeing
in the reciprocal trade agree-
ments the terms of war and the
destruction of America's in-
dustry generally, and his press agent
announcing only a few months
ago that these agreements have
disabled the country's foreign
trade, where is the unfortunate
Republican, who would like to
know what policies he is to vote
for, going to get off?

Even the Chamber of Com-
merce of the United States, an
organization which, when
asked everything, Praised Roosevelt
very highly, has allowed the
extremist of getting into the
extreme of splitting. In the House
of Representatives, Mr. Howell, Governor
Landon, or Senator Vandenberg,
Mr. Hamilton will not be Chal-
lenged after the nomination is made,
which policies explain his hold-
ness. He is trying to do something
that might be construed as fac-
tious, but I am afraid that he is
not doing it for the sake of his
party, but for the sake of his
own personal ambition."

Helps For Housewives

The mission of spice is to enhance, not disguise the natural flavors of foods and how much is as fatal to good cooking as more or less. If you would attain distinction in the culinary field learn to know your spices and to use them with discrimination.

Quality in spices is the first consideration; it is judged by strength and flavor. A high grade spice has delicacy and yet is not lacking in intensity. Though the quality brand may be the more expensive to buy, it is economical for the long run for less is needed to produce desired result. In fact an inferior spice will never do the work of a fine one.

Whole spices are used in pickling, for flavoring soups and soups, or in any other mixture where it is important that a clear color be retained. It is usually best to tie them in a bag of thin muslin or cheesecloth so that they can be removed easily.

Ground spices, mixed with the other ingredients, give the most satisfactory results in cakes, puddings, and pies.

Strength and flavor, particularly in ground spices, are quickly lost on exposure to air. Buy them, when possible, in tight metal containers. If they are purchased in cartons, remove them to closely covered tin boxes or small glass jars for storage.

Pepper is the most widely used of all the spices; there is hardly a food, with the exception of sweets, on which a sprinkling is not acceptable.

Black and white pepper are both from the same source, the fruit of a climbing shrub. The white berries are known as pepper-corns. In the white pepper the outer coatings of the berry are partially removed. It is preferred in cream soups and sauces, with potatoes and other vegetables light in color, where specks of black pepper would be unpleasantly conspicuous. Epicures main-

Cone Shows Improvement, Doctor Says

Governor's Physician States Belief Chief Executive Will Be Passed Crisis Soon

Oxygen Tent Is Used By Patient

Glucose Injections Given As Pneumonia In Danger Passes

JACKSONVILLE Aug. 23.—(AP)—Dr. Stanley Erwin said today Gov. Fred P. Cone "is much better and should pull through today, tomorrow and the next day" unless he has another heart attack or develops pneumonia.

Florida's 27th Chief Executive has been in a hospital here since July 29 when he suffered a heart attack (coronary thrombosis) while resting for a week in a downtown hotel. He took cold last Thursday or Friday and it developed into influenza.

Dr. Erwin visited his patient this morning and later said the Governor appeared to have rallied "very well" after a day and a night during which his condition was "very serious."

The chief executive is in an oxygen tent and has been given injections of glucose regularly. Dr. Erwin described this as "routine in such cases" and said it would be continued "as long as needed."

The Governor, he declared, has had a second heart attack and shows no signs of developing pneumonia. Relatives said after a morning visit to the hospital they felt "much more encouraged."

Yesterday Gov. Cone's relatives hurried to his bedside as Dr. Erwin reported he was "very seriously ill."

Silence about Cone's condition was broken first by Mark Byron of Miami, his son-in-law, who revealed the governor was under an oxygen tent and was receiving glucose injections.

Apparently freed from a family injunction for secrecy, Dr. Erwin then described Cone's ailment, but said he "has a good

Robson Returns To City After Sojourn At Coastal Resort

J. N. Robson, Jr., returned Tuesday from a week's vacation at Carolina Beach, North Carolina, bringing reports of improved business conditions and much building activity in the area visited and enroute.

About politics, Mr. Robson declared the people were not interested in the affairs of state, a condition which he attributed to their apparent prosperity. He said the tobacco crop was exceptionally good and that everywhere he heard reports of better times.

Mr. Robson was enthusiastic about the Carolina beach resort, stating that it was in the midst of a busy season, and that every device imaginable was available for public amusement, and that the climate was very pleasant.

On his return trip home, Mr. Robson, who was accompanied by his wife, and their daughter, Mildred, stopped at the Marine Studios near St. Augustine. He described the aquarium as being unusually interesting.

Hines Shielded Policy Empire, Weinberg Says

Ex-Convict Tells High Court He Paid Tammany Leader \$500 Weekly And Higher

NEW YORK Aug. 23.—(P)—George Weinberg, 36, ex-convict and former manager of the \$10-million-a-year Dutch Schultz political empire, testified in the Supreme Court today that Tammany leader James J. Hines promised him "protection" if he became a man in Hines' political ranks.

"I paid Tammy Hines \$500 a week, at first for protection," Weinberg said. He went on to testify that during one of his frequent "pay off" meetings with the politician he talked to Hines about police.

"What did you say to Hines?" asked Justice Arthur Palmer E. Devine.

"I told him there were many arrests," Weinberg said. "Hines promised he would do something about the police," Weinberg continued, "and later the number of arrests in the police bank cards dropped off."

High-handed methods employed by Dutch Schultz after he imposed his rule upon the independent policy bankers of Harlem with threats of machine gunning and bomb cracking were described from the witness stand yesterday.

Alexander Pompei, a tall, erect West Indian negro, whose prosperous bank was one of those held by the Schultz mobsters in 1931, calmly told Supreme Court Justice Peerce and a blue ribbon jury that the Schultz gang, cold to his pleas that he needed money when his bank was held, refused to help him and he end defrauded him of \$36,000 profits.

"Did you quit the combination?" Charles P. Grimes, assistant district attorney, asked significantly as Pompei led up to his story of the losses.

"No they quit me," said Pompei, and then explained that it happened when his bank was hit.

It marks another year of America's reluctant retreat from the world wheat market—a retreat that began to take a definite trend in 1930.

All the big wheat growing nations of the world are raising good wheat crops this year. It begins to look as if they will pour four billion bushels of grain into the world bread basket. Four billion bushels is 300,000,000 bushels too much wheat.

The calamity could overtake part of the crops. Bugs or disease could do a lot of damage. Or a war could come along. If that event cautious nations would store wheat. But it's doubtful that these things will happen. The best thing would be revival of world trade.

Unfortunately, America's 800,000 wheat acres will contribute more than their share to the glut of grain. They are going to yield a new record crop—close to one billion bushels.

Stem rust, the fungus growth that stunts little wheat grains, is doing its utmost to reduce the bumper American crop, but the rust got started late. The experts figure it can't take over 150,000,000 bushels. That would still leave a near-record crop.

Together with last year's surplus, the American public can eat up half the expected billion bushels.

What's to be done with the other half?

Send it to other nations? Finance America's big competitors will have plenty of wheat, and will be struggling like mad to get it on the world market. Dump it on the world at cut-throat prices? The other fellow can dump wheat, too, and come out on top, because his money is not as good as ours.

The government is trying to arrange to peddle some of the American surplus in an orderly way to other governments at reduced prices. The taxpayers would take up the slack.

The City heads are expected to return to Sanford tonight or early tomorrow and will hold their regular meeting in the City Hall Wednesday night at 7:30 o'clock.

The Commission has applied to the Public Works Administration for a loan and a grant to pay the costs of purchasing and laying a cast iron pipe line to replace the present wood pipe which has deteriorated to such an extent as to be no longer suitable for conveying the water from the City's wells to the water plant.

The City would repay the PWA loan from revenues of the water department over a period of years.
