A three nortrup contract is preferable to four hearts, but little old ladies like to raise one another. So do some other players. So when today's hand was played in a Swiss team, both the LOLs and their opponents reached four hearts.

The three of diamonds was led at both tables and East's king fell to south's ace. The ace of hearts was led and both East players dropped the queen. This didn't disturb the LOL declarer. Little old lady technique pays no attention to possible bad

trump breaks. She continued by cashing the king and shortly thereafter had chalked up plus 420 after losing a spade, a heart and a diamond.

The other declarer studied that queen play for a long time. He had heard about safety plays and maybe that queen was a genuine singleton. He led a low trump toward dummy. East took his jack of trumps and led back a diamond. A third diamond was ruffed and thus South had lost his contract, his temper and his partner's confidence.

Fencing, License Issues Top Sanford Session

By BOB LLOYD City Editor

Sanford city commissioners have instructed City Atty. Vernon Mize to investigate legal possibilities of the city requiring a developer to fence as a safety hazard an unfinished "lake or borrow pit" in a 27-acre tract proposed as a multi-million-dollar apartment, office and retail complex.

City Manager Warren Knowles reported excavation and land clearing stopped 45 days ago on the property, on the east side of U.S. 17-02 between the Pinecrest and Sanford Plaza shopping centers, being developed by San Situs Ltd.

Knowles said a land clearing contractor on the project has gone bankrupt and San Situs is seeking another contractor to finish the work.

One section of the "borrow pit," ultimately to be a seven-acre drainage retention lake, has seven feet of water and a vertical bank on one side, Knowles reported. He said police have "several times in recent weeks" observed area children swimming in the pit.

City commissioners voted May 28 to close down the project but allowed it to continue June 10 after approving detailed plans submitted by San Situs for the drainage retention area.

In other actions this week commissioners:

—Set an Oct. 7 public hearing to consider revoking the occupational license of Albert Signs Inc., 2518 Park Drive, after receiving complaints from city officials that the firm has erected signs in the city without permits and reports from the chamber of

commerce that the firm has ignored customers' complaints of unsatisfactory workmanship.

Under city ordinance commissioners must hear both from complainants and the sign firm at a public hearing, before considering license revocation.

Indicated they favor entering a mutual aid agreement with the new Seminole County fire protection units when the county reaches the same level of equipment and service as provided by the city.

Sanford Fire Chief G.M. Harriott told commissioners the new county plan, "has some merit to it," but warned the city should approach any mutual aid pact carefully.

Sanford has mutual aid pacts with the cities of Winter Park and DeLand.

Otherwise Sanford's policy is to only respond outside the city limits in cases where lives are in danger. However, the city has agreed to answer fire calls at public schools outside the city and to fight fires there if necessary.

—Set an Oct. 28 public hearing on a Golden Tee Inc. request for annexation of a 47-acre mobile home park site on the east side of U.S. 17-02 south of Sunland Estates. The action would allow annexation after Oct. 1, effective date of a new state law freezing zoning on newly annexed areas for two years.

Knowles said the Golden Tee tract has access to city water and sewer mains.

—Gave Wilco Construction Co. until Oct. 1, to review its agreement to participate in paving of

Georgia Avenue south of West 25th Street. Wilco president Bill Baker, in a letter to city commissioners, said because of current economic conditions cutbacks have been made in Wilco's adjacent townhouse project and the firm is asking a time extension on the paving agreement.

—Authorized removal from the parkway at the northeast corner of French Avenue and West First Street of a city-maintained "downtown" arrow sign. Knowles said he is investigating feasibility of refurbishing the sign and relocating it to direct motorists to the Auto Train terminal on Persimmon Avenue.

Knowles noted that the downtown business area in recent years has expanded past the French-West First intersection and the sign has been subject of complaints from an adjacent property owner.

Cooperation Or Confrontation - Ford

UNITED NATIONS, N.Y. (AP)—President Ford, pledging increased food shipments abroad, told the United Nations General Assembly today that "a global strategy for food and energy is urgently required."

In the text for his first appearance before the world organization, Ford said the alternative to cooperation is confrontation.

"Let us not delude ourselves," he said, "failure to cooperate on oil, food and inflation could spell disaster for every nation represented in this room. The United Nations must not and need not allow this to occur. A global strategy for food and energy is urgently required."

Discussing what the United States is willing to do to help hungry nations, Ford said food aid abroad would be increased

this year by an unspecified amount and the United States "prepared to join in a worldwide effort to negotiate, establish and maintain an international system of food reserves."

The President said the United States would "set forth our comprehensive proposals" to meet present and future world needs at the November World Food Conference in Rome.

The President set forth four principles which he said should guide a global approach to food and energy problems:

—"First, all nations must substantially increase production of food and energy."

—"Second, all nations must seek to achieve a level of prices which not only provides an

incentive to producers but which consumers can afford."

By confronting consumers with production restrictions, artificial price controls and the prospect of ultimate bankruptcy, producers will eventually become the victims of their own actions.

—"Third, all nations must avoid the abuse of man's fundamental needs for the sake of narrow national or bloc advantage. The attempt by any country to use one commodity for political purposes will inevitably prompt other countries to use their commodities for their own purposes."

—"Fourth, the nations of the world must assure that the poorest among us are not overwhelmed by rising prices of the imports necessary for their survival. The traditional aid donors and the increasingly

wealthy oil producers must join in this effort."

Ford, who was accompanied on the trip by his wife Betty and Secretary of State Henry A. Kissinger, told the General Assembly that "the economy of the world is under unprecedented stress" and new approaches to international cooperation are needed.

"Energy is required to produce food," he said, "and food

to produce energy—and both to provide a decent life for everyone. The problems of food and energy can be resolved on the basis of cooperation—or can be made unmanageable on the basis of confrontation. The annual session of the assembly also is the occasion for a series of talks, held both in New York and Washington, between American presidents and secretaries of state.

YMCA Increase Proposed

By T.K. Ryan

A \$10,000 "raise" for the joint \$25,000 county-YMCA school board after hours recreation program is being asked by County Commission Vice Chairman Dick Williams.

Williams, pointing out that last year's \$25,000 outlay funded only eight months, said today his \$10,000 request will support a full year's operation, due to kick off this month.

As presently negotiated, the county funds the operation's basic expenses, and the "Y" provides trained supervisory personnel and collects fees from participants to make up the remaining \$70,000 budget.

The school board provides the sites, and is supposed to maintain the facilities—a bone of contention in recent years which led to the county accepting the "Y" offer to help.

The three-party cooperative arrangement "is the kind of thing that I think really has a future," Williams said.

The after hours program—open to men and women as well as children—will center around four basic geographical areas.

Each of the planned sports and activities will not be offered at each site unless area residents indicate enough interest by signing-up, Williams said.

In the north county, Seminole High School will serve as the hub; in the south, the Milver School-Lyman High School complex will be used; in the east, Ovidio school will participate, and in the west, the Brantley-Teague-Fort City schools will host.

Programs will be of four basic types, Williams said: leagues such as basketball, volleyball and other team sports; informal education in cheerleading, judo, karate, gymnastics, tennis, karate and others; special activities such as a pet show, field day, tennis tournament and Christmas Cavalcade of gifts for disadvantaged children.

The fourth category, club activities, will feature more sophisticated competition in judo, karate, gymnastics and other group activities, Williams said.

Nixon Will Be Hospitalized

By T.K. Ryan

RICHARD NIXON

LONDON (AP)—U.S. Ambassador Walter Annenberg said here today former President Richard M. Nixon has indicated in a telephone conversation that he expects to be hospitalized soon for his phlebitis.

The American envoy in London said that the secondary blood clot above Nixon's left knee had reached the area of the groin and there was a danger it could go further up his body.

"Mr. Nixon made no mention of how he felt but his voice was firm and seemed completely normal to me," Annenberg said in an interview with The Associated Press.

Annenberg said Nixon telephoned him from San Clemente on Tuesday night to discuss "a full of enthusiasm" — Annenberg's hopes and plans for setting up a school of international communications to broaden international understanding.

Annenberg said that he had visited President Ford

on Sept. 6 and asked him to relieve him as ambassador to Britain no later than Oct. 31.

"Specialties in my work," Annenberg said, "are a catalyst in President Ford's decision to pardon Nixon. Nixon is a totally untried and untested man. I would never presume to discuss a matter of that character that lies wholly in the province of the President himself."

In other developments involving the former president:

—Attorneys Herbert J. Miller Jr. and Raymond G. Larroca announced on Tuesday that they have filed a motion in U.S. District Court in Los Angeles to quash a subpoena requiring Nixon to testify in a civil suit next week. The motion, scheduled for a hearing on Monday, contends that Nixon is too ill to testify.

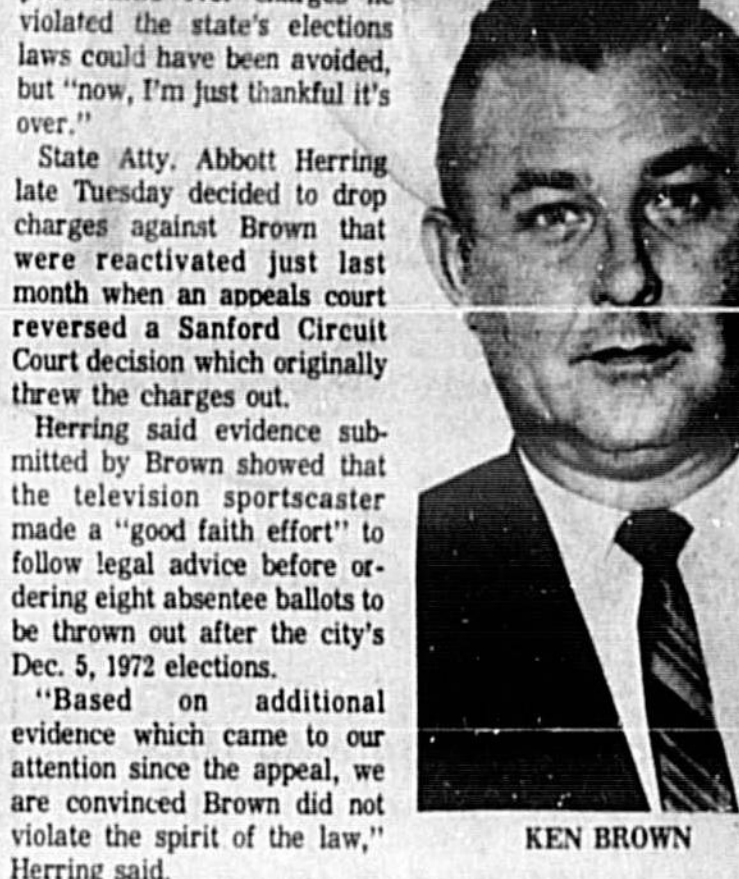

The suit filed by 21 persons in Charlotte, N.C., contends that White House aides and local officials "illegally prevented them from attending a 1971 rally honoring the Rev. Billy Graham in Charlotte, N.C. Nixon spoke at the event, and he has been ordered to testify in the suit by entering a deposition in Santa Ana, Calif., on Sept. 24. An attorney for the group agreed to a delay "for a reasonable length of time."

—The California Supreme Court took under advisement Nixon's formal resignation from the California bar. The State Bar Board of Governors recommended that the resignation be accepted without prejudice to further disciplinary proceedings against Nixon if he should seek reinstatement.

The letter of resignation received by the court on

State Dismisses Brown Charges

By T.K. Ryan

KEN BROWN

State Atty. Abbot Herring late Tuesday decided to drop charges against Brown that were reactivated just last month when an appeals court reversed a Sanford Circuit Court decision which originally threw the charges out.

Herring said evidence submitted by Brown showed that the television sportscaster made a "good faith effort" to follow legal advice before ordering eight absentee ballots to be thrown out after the city's Dec. 5, 1972 elections.

"Based on additional evidence which came to our attention since the appeal, we are convinced Brown did not violate the spirit of the law," Herring said.

Brown today said the "additional evidence showed no wrong doing. Period. We turned over everything we had. The whole thing could have been avoided, but, well, it's over now."

Earlier, Brown praised his attorney, Sanford's Roger Berry, and gave Herring credit for having "the guts to admit there was no wrong doing in the election."

"I'm just glad it's over," Brown, 47, concluded. "It's been tough on me and my family."

The ballots ordered thrown out by Brown would not have affected the election, which was won by present Mayor Eugene Jacques by 15 votes over former councilperson Sandra Thompson.

Chicago Cafe Consumption Up; Doggie Bags Are Not For Rover

By T.K. Ryan

CHICAGO (AP)—Inflation has brought on the biggest cater in history, says a restaurant executive. Customers are walking out with just about everything but the kitchen sink.

"People are calling for more rolls, bread, butter and crackers for their tables and are carrying much of it away in their pockets, purses and in doggie bags — there never have been so many requests for doggie bags," says Larry Buckmaster, executive director of the Chicago and Illinois Restaurant Association.

Buckmaster said the take-home trend has been noted by many of the association's 4,000 members, who blame spiraling food costs.

"It's happening in Illinois — where the cater is costing thousands of dollars a week — it certainly is going on all over the country," said Buckmaster. He adds that the amount of time also is falling off.

"Consumption of sugar has risen 100 per cent in the last

Sugar packets are going into the pockets instead of the cup of coffee

owners outsmarted ketchup bottle flickers by leaving them uncapped.

"They couldn't pour the stuff in their pockets," Buckmaster explained.

"It has always been taken for granted that ash trays will be taken," he said. "But cups, silverware and plates are going now."

"We have a report of one brazen customer simply substituting old silverware for a new table setting. And we'd give anything to solve the problem of disappearing toilet paper rolls."

"Restaurant men are beginning to cut way back on comments at the table and limiting rolls and crackers. They say business is up by 22 per cent but profits are down by 6 per cent."

"This added expense from the take-home crowd in the long run will be passed on to the customer. They can't keep their hand that feeds them."

Buckmaster said several cafe

Perjury Charges Stand

By T.K. Ryan

Seminole Circuit Court Judge A. J. Hosenmann Jr. today threw out a defense motion to dismiss perjury charges against Altamonte Springs Public Works Director Don Bundy.

Hosenmann, ruling shortly before noon, delayed Bundy's trial, scheduled for this week, because the state has appealed a decision by Circuit Court Judge Volie Williams suppressing statements by Bundy and others in the case.

Hosenmann said he wouldn't deal with the problem of a key state's witness refusing to testify, Tulsa, Okla., until — if the case finally comes to trial.

Defense attorney Newman Brock Argued Monday that the case should be dismissed because of a technical foul up by the state attorney's office which — in effect — dropped the only charges actually facing Bundy.

NATION IN BRIEF

Another Cold Cure

CHICAGO (AP) — University of Illinois researchers say an experimental drug significantly increases the body's defenses against the common cold and may be the answer to control of the ailment.

The drug, propanediamine, stimulates an increase in the body's natural production of interferon, a chemical that defends the body against viral and some other infections.

Because interferon is effective against all viruses, it has been considered promising in the control of respiratory infections, such as the cold.

Colds are caused by 50 many types of viruses that a vaccine against all of them is thought impractical.

Scientists at the university's medical school in Chicago said they used 39 young volunteers to study the effects of propanediamine.

Writing in the New England Journal of Medicine, the scientists said the results of their study make them optimistic that ultimately effective drugs can be developed for the common cold and other viral respiratory infections.

Florida Gets Job Money

ATLANTA, Ga. (AP) — The U.S. Department of Labor says it has allocated more than a million dollars to six Southeastern states and their local governments for creation of additional public service jobs.

The funds will go to areas with 6.5 per cent or higher unemployment and the amounts will be based on the number of unemployed persons above the 6.5 per cent level.

Kentucky received \$99,823, the largest portion of the \$1,794,172 allocated for 12,000 jobs in the South.

Other states and their allocations include: Alabama \$214,421; Florida, \$564,331; Georgia, \$270,551 (\$189,498 of which is allocated for Atlanta); South Carolina, \$27,683, and Tennessee, \$116,332.

The breakdown for Florida was: Miami-Dade County, \$45,473; Hollywood, \$35,841; Pompano, \$26,694; and Brevard County, \$456,321.

Nationwide, \$65 million is being allocated for 85,000 public service jobs and an additional \$50 million will be allocated by the end of the month in the program called for by President Ford.

Southeast Employment Report

ATLANTA, Ga. (AP) — Employment declined by 120,400 from June to July in the Southeast and the average factory worker's pay dropped 55 cents a week, according to U.S. Labor Department statistics.

The report showed weekly earnings for factory workers in the eight Southeastern states were \$146.85 in July, down 55 cents from the June average but up \$11.55 from last year.

Georgia led the decline with a July earnings average of \$140.94 per week, down \$3.24 from the previous month and up only \$6.55 from a year ago.

Several states had slight increases in weekly earnings — Alabama \$139, Florida \$152.78, South Carolina \$137.70, and Virginia \$146.49.

Mississippi, \$129.56, North Carolina, \$131.54, and Tennessee, \$144.81, had slight declines.

The report said the weekly average dropped 81 cents nationally.

In nonagricultural employment in the Southeast, only South Carolina showed a slight increase.

Government, with a decline of 88,700, and manufacturing, with a decline of 45,800, led the drop in jobs.

Alternate Service Is Like Prison For Some

By W. ROBERT WELLER Associated Press Writer

President Ford's clemency program has temporarily freed more than 95,000 military draft evaders in federal prisons, but some may be back.

To some, Ford's offer to accept alternative service in lieu of jail was no different than what they had refused to do before they were imprisoned.

Several others who did leave said they would return rather than accept alternative service.

Atty. Gen. William B. Saxbe had ordered the imprisoned draft evaders released late Tuesday on 30-day furloughs to give them time to appeal their sentences to a newly created clemency board.

Presumably that board might rule that some inmates must spend time doing public service work in lieu of completing their sentences.

The board was set up by President Ford after he decided to offer amnesty to draft evaders and deserters — both in jail and those who hid — if they agreed to alternative service.

Early reports indicated the offer wasn't faring much better with those who had avoided prison by leaving the country.

Only one draft evader was known to have turned himself in Tuesday.

John S. Barry, 22, turned himself in to federal authorities in San Francisco. Barry, who had never registered for the draft, said, "This whole mess is not going to be signed 'til I carry the rest of my life."

John Kennedy Jr. returned to San Francisco from Canada to take a look at Ford's offer, but he was cautious. He said, "I want to look at it a lot more closely. If you're really reasonable service, reasonable work, I'm interested. I wouldn't mind working at Napa State Hospital or doing anything in which I felt I was helping someone."

Mr. Kennedy said that if he had accepted alternative service, he would have been treated as a deserter.

Mayor Stalls Longwood Election

LONGWOOD — How can the city have its regular December election if Mayor Eugene Jaques refuses to issue an election proclamation?

Acting City Atty. Ned Julian Jr., will be researching this question in the next few days to come up with an answer. Councilmen and City Clerk Onnie Schomate noted reluctance earlier this week to begging Jaques to take the action.

City voters are plagued too with a special legislative act which permits absentee electors to apply for ballots no later than five days prior to the election. Julian said the special act could be repealed only by the people in an election.

Council has less than a month's time to act on election law changes if they are to apply this year. Candidates begin qualifying in mid-October. Ordinances with the required public hearings and advertisement, usually take nearly a month to adopt.

Jaques could again effectively block new election law by refusing to sign or veto. Although council declared his inaction a de facto veto on four occasions to override the veto, passing the laws without Jaques' signature, the

Tapes Picture Ehrlichman As Patsy

WASHINGTON — The Nixon tapes, which have been withheld from the public for use in the Watergate trials, portray John Ehrlichman as a patsy.

They sent Ehrlichman, for example, to try to persuade CIA Deputy Director Vernon Walters to head off the FBI's investigation into the plumbers' operations. Ehrlichman was also assigned to approach ex-Atty. Gen. John Mitchell and ask the unwilling Mitchell to take the rap for the Watergate fiasco.

Another Rockefeller enterprise under investigation by the FBI is the International Basic Economy Corporation, founded by Nelson Rockefeller to operate supermarkets, poultry farms and machinery equipment plants in some 20 countries, mainly in Latin America.

The view of Ehrlichman as a puppet, manipulated by Nixon and Haldeman, comes from a cumulative study of the secret tapes, say our sources.

ROCKEFELLER INVESTIGATION: A painstaking preliminary FBI investigation of Nelson Rockefeller has produced no information that should prevent his confirmation as Vice President.

The investigation is centering on the American Association for Economic and Social Development, which received grants for 14 years from the Rockefeller Brothers Foundation to bring rural reform and better schools to South America.

The Commission on Critical Choices, which conducted studies of world problems for Rockefeller. It has been suggested this was set up to groom him for the White House.

Agents are still digging, however, into rumors that a Rockefeller-financed operation in Latin America was infiltrated by Communist sympathizers.

Agents have questioned just about everyone who has had any dealings with Rockefeller from doctors and clergymen to sheriffs and political figures.

British publication, "Jane's Fighting Ships," that the Soviet Navy had surpassed the U.S. fleet in fighting power. Here's a rundown:

Agents have questioned just about everyone who has had any dealings with Rockefeller from doctors and clergymen to sheriffs and political figures.

Agents have questioned just about everyone who has had any dealings with Rockefeller from doctors and clergymen to sheriffs and political figures.

Ford Approach To Amnesty Is Sound

President Ford's Monday night press conference let a great deal to be desired on a number of subjects.

He has still to come to grips with the question of the full, complete pardon of Richard Nixon, and his description of United States activities in Chile were enough to turn the blood cold.

They sent Ehrlichman, for example, to try to persuade CIA Deputy Director Vernon Walters to head off the FBI's investigation into the plumbers' operations.

Nuclear War Possibility Keeps Peace

Net love of peace but fear of war — nuclear war — has maintained East and West in uneasy coexistence since 1945.

Not the North Atlantic Treaty Organization nor the presence of American troops in Europe but the sure knowledge that any war that began conventionally would end in a mutually assured destruction exchange has kept the Soviet Union within the borders it advanced to at the end of World War II.

There are no easy answers to involved questions. But in this case we think President Ford has come up with the best possible solution to a very vexing problem, one that if left unattended can only fester and infect our national life.

"The Honeymoon May Be Over, Jerry!"

War Against Inflation Will Last For Years

WASHINGTON (AP) — To defeat inflation, the government will have to reverse its course of many years and spend less money than it takes in — not just once but for a number of years to come, according to Treasury Secretary William E. Simon.

Simon gave a stiff version of the administration's economic argument to the new House Budget Committee. The committee is a key part of machinery set up this year to give Congress a tighter grip on the over-all budget.

Simon told the committee "we will have to change our many policies that encourage expansion at the expense of savings and investment."

Justice Is Mocked By Case Loads

WASHINGTON — (NEA) — Sometimes government spending borders on the ridiculous. There's a compulsiveness there not connected with results.

Take the case of federal aid to the courts, a most worthy cause. Back case loads run to 30,000 or more in some counties. Those arrested wait an average seven to eight to 10 months for trial in too many areas. Court delays reduce public confidence, make crime deterrence more difficult and increase the problems in rehabilitating those who break the law.

The studies show our courts are abominably managed. No corporation today could last a year without going broke or facing criminal charges with such little regard for financial management and such inefficiency. With few exceptions, record keeping in court systems is primitive.

There are indications, in fact, that half the federal regional offices do not have staffs capable of reviewing or evaluating these highly technical matters. Men assigned to the job lack experience and turnover has been heavy.

Men have been hoodwinked for thousands of years by a false notion about women's erotic appetite.

de Seversky

Major Alexander P. de Seversky, who died recently, would have earned a niche in aviation history solely on the basis of his innovations in the design and engineering of aircraft.

This Russian-born engineer was twice honored by the U.S. government for his correct anticipation of the decisive role that control of the air would play in World War II, and ideas that many military strategists were slow to accept.

But it is conceivable that the West would accept defeat in conventional war — would allow victorious Soviet armies to march into Bonn or Paris or Athens, to sink America's Mediterranean fleet, to seize the oil fields of the Mideast — and still withhold nuclear retaliation?

THOUGHTS

The end of the matter; all has been heard. Fear God, and keep his commandments; for this is the whole duty of man. — Eccl. 12:13.

The Clock

By JOHN A. SPOLSKI
QUOTE OF THE WEEK... the newly elected president of the American Bar Association said he was surprised that former President Richard Nixon was pardoned, but he said it was inevitable.

BERRY'S WORLD

"Hey, he's pretty good, hon" — "A man's work is never done."

FLORIDA IN BRIEF

Altamonte Quad Dies

TAMPA, Fla. (AP) — Eighty-four-year-old Charles Terrence Riordan, largest of quadruplets born 10 weeks early, died Tuesday at Tampa General Hospital.

Banks Tells Charter Deal

TAMPA, Fla. (AP) — As prominent Winter Park banker E.G. "Jerry" Banks neared the end of his testimony Tuesday in the perjury trial of Palm Beach attorney Frederick Prior, he told the federal judge, "I just wanted to admit what I'd done, sir."

Topless Ban Vote Thursday

COCOA BEACH, Fla. (AP) — City commissioners opposed to topless sunbathing say they have the votes to pass an ordinance prohibiting women from exposing their breasts on area beaches.

Women Don't Have Sex Drive Of Men

By GEORGE W. CRANE
Ph. D., M.D.
"Dr. Crane," the prostitutes on my gynecology service at the West Memorial Hospital here in Chicago would confess, "we soon find out that our customers like to have a girl moan and groan and thrash around with her hips, as if she is wildly passionate."

Weed Fish Dispute Headed For Court

TALLAHASSEE, Fla. (AP) — Natural Resources Director Harmon Shields says he'll stock white amur in Panama City lake even if he gets busted by Earle Frye, director of the Game and Fresh Water Fish Commission.

The commission was expected to endorse and possibly join a suit that the Deen Fishermen's Association of Panama City plans to file today or Thursday in Tallahassee to prevent Shields from stocking the weed-eating fish in Deer Point Lake near Panama City.

The dispute between the state environmental officials' arose over a legislative aquatic-weed control program that Shields considers a mandate.

But Shields contends that the Department of Natural Resources' plans to stock 2,300 white amur fingerlings of both sexes, plus a few larger fish equipped for radio monitoring, was clearly understood by all parties.

State Board Weakens Sewer-Hookup Ban

TALLAHASSEE, Fla. (AP) — The Florida Pollution Control Board has weakened the effect of its sewer-hookup ban by allowing installation of septic tanks in areas under the moratorium.

The proposed garbage-dump rule is the Florida Resource Recovery and Management Act approved by the 1974 legislature. The act requires that all cities and counties develop local programs by July 1, 1977.

The board also approved the Jacksonville area's water-quality management plan to qualify it for federal funds. Officials said it would take \$183 million through the year 2002 to complete the plan.

Builders have complained that the ban hinders development.

All Foreman Oct. 23rd

KINSHASA, Zaire — The Zaire government announced it was postponing the George Foreman-Muhammad Ali world heavyweight title fight from Sept. 25 to Oct. 23 because of the cut Foreman received over his right eye. But Foreman's manager said the delay could be longer.

Kaline Closing In

BOSTON (AP) — Pressure is just another word as far as Al Kaline is concerned. He showed little effect when he joined the Detroit Tigers at 18 and now, 23 years later, he shows even less while zeroing in on his 3,000th major league hit.

"I don't feel any pressure as yet because there still are enough games and I have a little leeway," Kaline said Tuesday night after his 2,993rd hit with a sixth-inning rally which lifted the Tigers to a 5-3 victory over the faltering Red Sox.

Jones Jazz Assistant

NEW ORLEANS (AP) — Former Boston Celtics player Sam Jones has been named an assistant coach with the New Orleans Jazz, completing the coaching staff for the National Basketball Association's newest team.

Jones has spent the past five years coaching at Federal City College in Washington and at his alma mater, North Carolina Central.

Big Names In Tourney

SAN FRANCISCO (AP) — Stan Smith, Arthur Ashe and Marty Riessen have been seeded between Wimbledon and U.S. Open champion Jimmy Connors for the \$100,000 tennis tournament opening here next Monday.

Others seeded in the top 16 Tuesday included former Stanford star Roscoe Tanner and the defending champion here, Roy Emerson.

Cash Now A Bell

PHILADELPHIA (AP) — Rick Cash, a starting defensive end who was cut by the New England Patriots last week after a stint as team player representative, has been signed by the Philadelphia Bell of the World Football League.

Americans Make Changes

BIRMINGHAM, Ala. (AP) — The Birmingham Americans of the World Football League have announced six changes in personnel.

Defensive tackle Clarence Washington and offensive backs Steve Williams, Dwayne Scrivener and Cecil Leonard were cut from the team, and Gerard Williams, a cornerback from Langston University, and tight end Bob Brown from Alcorn A&M were signed.

Coach Meet Your Team

TALLAHASSEE, Fla. (AP) — Coach, meet the Rattlers. Team, meet Coach Hubbard.

Introductions were the first order of business this season for new Florida A&M Coach Rudy Hubbard, a 28-year-old disciple of a leading football guru, Ohio State's Woody Hayes.

Hubbard was hired in June, arriving on campus after many of his players had gone home for the summer. All he knew about his team before practice was what he had seen on films.

"I don't know if we've got a first team, so I can't go talking about depth," Hubbard said before workouts began.

But while making final preparations for this Saturday's season opener against Albany State at Moultrie, Ga., Hubbard said, "I think we're going to be a sound football team offensively and defensively."

In quarterback Kenny Holt and running back James Rackley, Florida A&M has the nucleus of a potent offense.

Hubbard said he is impressed by Holt's air of quiet confidence. Rackley, recovered from an injury that disabled him most of last season, is a powerful runner who threatens the A&M rushing records of the late Willie Gullimore.

Competition has been keen at most other positions, however.

Brock Tired But He Runs

By BERT ROSENTHAL
AP Sports Writer

Even in a tired condition, Lou Brock, the St. Louis Cardinals' base-stealing wizard, can out-foot the slyest pitchers in the National League.

Brock used his feet and his brains to weave his magic against the Pittsburgh Pirates and Jerry Reuss Tuesday night, and his feats of prestidigitization produced a 2-1 St. Louis victory in 13 innings that stretched the streaking Cardinals' lead to 2½ games over the slumping Pirates in the NL East pennant race.

That was the Pirates' problem in the 13th—they couldn't keep Brock off the bases. He opened the inning with a single, and after Reuss threw six consecutive times to first base, he stole second easily. It extended his single-season record to 109 stolen bases and lifted him into second place on the all-time list with 744, one ahead of Eddie Collins, who played from 1906-1930, mostly with the Philadelphia Athletics.

The all-time stolen base leader is the immortal Ty Cobb with 892.

Meanwhile, in the NL West, first-place Los Angeles and runner-up Cincinnati both lost, leaving the Dodgers 2½ games ahead of the Reds. The Houston Astros beat the Dodgers 7-0 and the San Diego Padres whipped the Reds 6-1.

Elsewhere in the NL, the Chicago Cubs downed the Philadelphia Phillies 4-2, the Atlanta Braves topped the San Francisco Giants 4-3, and the New York Mets at Montreal Expos. The game was postponed because of wet grounds.

Astros 7, Dodgers 0
Houston's Tom Griffin hand-

Palmer Manages To Save Season

By FRED ROTHENBERG
AP Sports Writer

As Jim Palmer painfully found out this season, the Cy Young Award doesn't do anything for a sore arm.

Palmer helped salvage some of what's left of his long season with a masterful seven-hitter Tuesday night, pitching the Baltimore Orioles to a 4-0 victory over the New York Yankees.

It was a crucial game for the Orioles since a loss would have dropped them 3½ games behind the high-flying Yankees in the American League East.

Elsewhere in the American League, the Detroit Tigers beat the Boston Red Sox 5-3; the Kansas City Royals edged the Oakland A's 2-1; the Milwaukee Brewers shaded the Cleveland Indians 3-2; the Minnesota Twins punished the Chicago White Sox 8-0, and the California Angels-Texas Rangers game was rained out.

Palmer's victory, his seventh in 19 decisions, moved the Orioles within 1½ games of the Yankees.

The pressure shifted back and forth Tuesday night as Palmer and Yankee ace, Doc Medich, 18-14, matched zeroes for six innings.

But Elrod Hendricks doubled with one out in the seventh, took third on Mark Belanger's bunt single when Medich was slow covering first, and just beat leftfielder Lou Piniella's throw to the plate on Al Bumley's sacrifice fly for the only run.

Tigers 5, Red Sox 3
Al Kaline would love to end his career this season but before he does there's a little matter of seven more hits.

That's all Kaline needs to join a very exclusive club, the 3,000-hit club. So far only 11 players have hit keys to the fraternity.

Kaline's 2,993rd hit sparked a sixth-inning rally which lifted the Tigers to their victory over the faltering Red Sox, dropping them 3½ games behind the Orioles within 1½ games of the Yankees.

Palmer's victory, his seventh in 19 decisions, moved the Orioles within 1½ games of the Yankees.

Elsewhere in the American League, the Detroit Tigers beat the Boston Red Sox 5-3; the Kansas City Royals edged the Oakland A's 2-1; the Milwaukee Brewers shaded the Cleveland Indians 3-2; the Minnesota Twins punished the Chicago White Sox 8-0, and the California Angels-Texas Rangers game was rained out.

Arkansas Tested

NEW YORK (AP) — Arkansas' sturdy young defense, which stifled Southern Cal's offense last week and held the Trojans to one touchdown on a kickoff return, has its work cut out for it again Saturday.

The Razorbacks meet Oklahoma State, a Big Eight team which rolled up 59 points against Wichita State.

The Razorbacks made The Associated Press Top Ten by upsetting Southern Cal but their real goal is the Southwest Conference title, which seems to have become Texas' permanent possession.

This would be a prime spot for an upset pick, except that Oklahoma State surprised the Parkers 36-6 a year ago ... Arkansas 17-0.

Last week's score was 43 right, 15 wrong for a percentage of 74. The upset Special, Maryland over Alabama, just missed, Bama holding on 21-16. The season mark is 57-191 for 750.

Here's this week's upset special: Indiana 21, Arizona 20. But don't bet on it.

Northwestern 42, Northwestern 14; Ara Parseghian's 8-0 against Northwestern in 10 years at ND.

Ohio State 56, Oregon State 7: This was the week Oregon State was to have played Wake Forest. But the Deacons canceled out and Oregon State threw in the Buckeyes ... and the towel.

The newest football team in Seminole County, the Lake Howell Silver Hawks open Sept. 20th.

Lake Howell, Welcome To Seminole Football

By PETE ROGERS
Herald Sports Editor

OVIEDO — Tom Ruby considers himself lucky. Not only was he chosen from over 100 candidates to be Lake Howell's first head football coach, he also feels he has an opportunity to build a football program at the new high school.

"Any coach would love to get into a situation like this," said Ruby. "I have a chance to organize the complete football program."

The Western Kentucky graduate previously coached at Trinity Prep where he compiled a 15-3-1 record the past two years.

Lake Howell will be playing its home games at the Oviedo field, as the facilities are being shared by the two schools.

According to its principal Dick Evans, Lake Howell's new facility will be completed by next fall.

What has amazed the new coach is the response to the football program. Lake Howell has currently 46 freshmen and 43 sophomores on its two teams.

With only the two grades, they will be playing predominately a JV schedule, but do have three varsity teams scheduled.

Lake Howell opens Friday against a varsity team in Moore Haven, considered one of the better Class A teams in the state.

Of the 43 players who will be playing the JV and varsity teams, 20 played on the Lyman freshmen team last year. The remainder either played Pop Warner ball or transferred from other states.

Although the Lake Howell squad will be lacking in size and strength, no starter is 200 pounds, Ruby states their attitude and aggressiveness should compensate.

When he speaks of desire, he refers to Bryan Burton, who's only 5-5 and 155 pounds, but a starter on the defensive line.

Four linebackers in the four-four alignment will be manned by Brian Marcellini, Steve Birchett, Andy Holton, and Don Shrenk.

The defensive secondary will find John Flores, Don Andiano, who also doubles as a running back, and the only freshman Charles Pault.

The offensive unit will have six players from the defensive unit, or as Ruby stated, "it's a matter of necessity."

Tim Dale, Tony Caccapiotti, John Brandriff, Tom Birchett, and Paul Hines comprise the interior line positions.

John Brombaugh is the tight end and Steve Foster is slated for the split end position.

Lake Howell coaching staff, from left kneeling Ed Zaremba, Birto Benjamin, Fran Schwatz. From left standing, Tom Murphy, Tom Ruby, Curtis Keen

DEAR ABBY Doc's Bedside Manners Rough

DEAR ABBY: I took my little girl to the doctor for her annual checkup. We were called into the examination room, and as soon as she saw the doctor coming toward her in his white coat, she began to cry. When he touched her, she started to squirm on the table and cry even harder because she was frightened.

The doctor very gruffly said, "Who needs this," and stomped out of the room. A few minutes later, he came back and in a very nasty tone, said to me, "Take her home, and don't bring her back unless she is really sick!"

I thought doctors were supposed to be patient. What can I do about him?

A MOTHER DEAR MOTHER: Most doctors try their best to calm and reassure frightened children. Perhaps your doctor was having a bad day, but it's his usual manner, he is guilty of unprofessional conduct and deserves a reprimand from his county medical society. Mail this column to him, I think it will help him. DEAR ABBY: I am 19, going to college and work part-time in a department store. There is a guy who works here who is very good-looking. He's 31 and married. He has made advances to me in the stockroom in the back of the store. I really am attracted to him, but the fact that he is married stops me from going out with him. (He's asked me.) Please advise me. I'm weakening.

KNOWS THE SCORE DEAR KNOWS: Tell good-looking to get lost. So far, the score is no hits, no runs, no errors. And if you're smart you'll keep it that way.

DEAR ABBY: I have had a reasonably happy marriage to a man who has come up from the ranks to become an executive with a large company. Now, after 26 years, he told me recently that I have never learned how to be an executive's wife.

He is nearly 60 and has been an executive with this company for over 20 years.

My creed has always been to be myself, and as long as I acted like a lady, which I am, I thought that should be sufficient. According to my husband, it was not enough. Where have I failed?

WORSE HALF DEAR HALF: In addition to being a lady, have you always reciprocated social invitations promptly? Have you graciously initiated a social contact at your husband's suggestion? After having been entertained, do you promptly send a written note of thanks? Do you refrain from gossiping about people whether they're associated with your husband in business or not? If you have had time to devote to your church and/or community activities, have you done so?

If you can answer yes to all these questions, you qualify as an asset to your husband, whether he's an executive or not.

CONFIDENTIAL TO MRS. K. IN OKLAHOMA CITY: I do not recommend scolding out the mouths of youngsters as a punishment for "talking dirty." Some youngsters grow to like soap.

CONFIDENTIAL TO CLEVELAND: A sailor who has a mother in Alaska and a brother in Oklahoma, and are one-half Cherokee Indian, please write to me if you want to hear from Jayn, that girl you met in Greece. She is looking for you.

DR. L. E. LAMB Tuberculosis Cures Itself

DEAR DR. LAMB - Will you please answer some questions for me about tuberculosis? My doctor will not explain to me, so I hope you will. I have inactive T.B. and have had for two years or more. What does that mean? Will it likely become active? Was it active once? Can it become cured? My husband coughs a lot but was not X-rayed. Why? I have never had anything done for my T.B., so I guess if it was active once it just became inactive on its own. I'm a senior citizen with emphysema and chronic bronchitis.

DEAR READER - The most important thing is what your doctor means by inactive tuberculosis. Usually it means that you were once infected with tuberculosis, but there is no evidence of any live T.B. germs or continuing tuberculosis process. In about 99 per cent of people who are infected with tuberculosis germs, the body develops immunity to the infection, contains it, and there is no further difficulty. There may be some old scars where the infection was, that represent healed tuberculosis. The healing occurs on its own.

In other instances the infection is activated or there is some breakdown in the body's immunity, and the bacteria start to increase in number, causing cavities in the lung and other changes from active tuberculosis.

There is still some argument about whether an old infection which appears cured can become active and cause problems later. Some doctors believe this happens, and others believe when older people develop active tuberculosis it is from a reinfection. There is an increase in frequency of tuberculosis in later years. In any case, because of the high rate in older people I do think that a chest X-ray every year in this age group as part of the

Smoke Gets In Schoolgirls' Eyes

It's difficult to estimate whether as many Seminole County schoolgirls smoke cigarettes as boys, but certainly more students of both sexes are smoking cigarettes in school than school officials like to see. Nationwide, the percentage of teenage girls who smoke

reaches teenagers, particularly girls, is 15.3 per cent, according to new government figures. In 1968 the proportion of girls smoking was just over half that of boys. The new figures for 1974 have spurred the National Clearinghouse for Smoking and Health to intensify its efforts to

reach teenagers, particularly girls, is 15.3 per cent. The 1968 figures were 14.7 per cent for boys, 8.4 per cent for girls. The 1974 survey also showed that 74.5 per cent of the boys and 78.2 per cent of the girls reported that they never had smoked a cigarette or had experimented only. It also showed that 9.2 per cent of the boys and 7.3 per cent of the girls reported they were ex-smokers and five-tenths of one per cent of the boys and six-tenths of one per cent of the girls were occasional smokers, meaning less than one cigarette a week.

Bank Gals Convention Set

Mrs. Pennie M. Oliff, vice president of The Citizens Bank of Oviedo, will be one of the delegates attending the 52nd annual convention of the National Association of Bank Women (NABW) in Orlando Sept. 22-23.

Mrs. Oliff is serving as chairman of the special events committee, and Mrs. Marie S. Burch, also vice president at the Oviedo bank, will serve on the hospitality committee.

A progress report on the NABW's new degree-granting education program for on-the-job bank women will also be a major feature of the program.

Club Notes German-American Weinfest

The fourth annual Weinfest of the German-American Society will be held Saturday at 8:30 p.m. in the German-American Society Clubhouse, 381 Orange Lane, Casselberry. A small band donation will be charged members and the public who attend.

The convention, to be held at the Contemporary Hotel, Walt Disney World, is expected to bring at least 1,500 women bank executives to Orlando for a program that will be focused on current issues in the banking industry.

Included on the convention schedule will be an in-depth look at the growing role of the consumer in commercial banking, a study of the banking profit picture, and a seminar on career advancement for women in the industry.

Judge Hall Guest Speaker

Seminole County Judge Wallace H. Hall was guest speaker at a recent meeting of the Sallie Harrison Chapter, National Society, Daughters of the American Revolution, at the home of Mrs. F.E. Roumillat, 910 Washington Ave., Sanford, with Miss Irene Hinton as co-hostess.

Judge Hall spoke on the U.S. Constitution, which week he celebrated annually Sept. 17-23.

After routing business, a social hour was held. Those attending were: Judge Wallace H. Hall, Mrs. A.W. Lee, Mrs. R.E. True, Mrs. T.K. Wiley, Mrs. M.J. Bram, Mrs. W.L. Carter, Mrs. S.B. Pierce, Mrs. E.M. Hoke, Mrs. W.C. Wilburn, Mrs. Leon Fellows, Mrs. C.E. Butler, Miss Irene Hinton and Mrs. L.E. Roumillat.

POLLY'S POINTERS Hubby Wants All Oil Out--Now!

By POLLY CRAMER

DEAR POLLY - My husband always complains about my not being able to remove clear oil stains and, most important, the oil odor from his work uniforms. I do hope someone can give me some helpful ideas. - DARLYN

DEAR POLLY - I am a teacher married to a man who keeps asking for a teacher's certificate as we move from state to state. My Pet Peeve is that there is not a national standardized teaching certificate to eliminate the costly state-by-state process now in effect. - MRS. H.W.

DEAR POLLY - My suggestion for Mrs. H.P.R. who wants to remove mortar from some old bricks is to use a small iron bar, about 10 or 12 inches long, and chop away the mortar. I did that when cleaning bricks for fireplace walls and other uses while a P.O.W. in Germany. - DON

DEAR POLLY - and Mrs. H.P.R. - I used a hammer and chisel to remove mortar from old bricks. I inserted the chisel blade where the mortar and brick joined and hit hard with a hammer. This is tedious work. The bricks should be dry but the mortar will come off in chunks if hit in the right spots. A piece of canvas underneath the place you are working will certainly help the cleanup job. Since new bricks are so expensive old ones are certainly worth salvaging. - BARBARA

DEAR POLLY - We have an automatic garage door opener so my husband hung a SOFT PLASTIC ring on a string from the rafters. When the ring touches my windshield I know it is safe to let the door down without having to check to see if I am in far enough for the door to close. - GERRITT

DEAR POLLY - I have had to report more than one motorist who has gone into a restaurant and left a dog in the car with the windows down only one inch and the temperature was 94 to 100 degrees. Once, before I could get the police, two big dogs died of heatstroke. The other day I was pleased to see a car sitting on the back seat calmly looking alive. I went to see why he had not jumped out and found there was a fine but strong wire grating from the back of the front seat to the roof of the car and across the entire width of the front seat. If more drivers would copy this idea for leaving dogs in cars it would be a blessing. - ELWOOD

FAIRWAY LAUNDROMAT Dry cleaning at budget prices and coin laundry service in a pleasant atmosphere. Open 7 a.m. daily. Located at... FAIRWAY PLAZA On Hwy. 17-92 at 27th St. 322-9739 Try if you'll like it!

Good Grooming Tips

Coordination is the key to smartness, and there's an attractive small purse with wooden handles now out that is a real boon. It comes with interchangeable covers so you can color coordinate it to match every outfit.

And for the poolside beauties, always rinse salt or chlorine out of your hair after swimming. The chemicals in these substances can dry out hair and scalp.

COOKING IS FUN Main-dish chowder cinch to make with fish fillets. By CECILY BROWNSTONE Associated Press Food Editor AFTERNOON COFFEE Carrot Pineapple Cake. WHOLESALE COFFEE. CABBOT PINEAPPLE CAKE. Repeated by request. 1 1/4 cups flour, fork-stir well to aerate before measuring. 2 1/2 teaspoons baking powder. 1 teaspoon cinnamon. 1/4 teaspoon salt. 1/4 cup sugar. 1/4 cup corn oil. 2 eggs. 8-ounce can crushed pineapple, drained. 1 cup finely grated pared carrot, not packed (2 medium). 1/2 cup chopped (medium-fine) onions. Stir together flour, baking powder, cinnamon and oil; beat together sugar and oil; beat in eggs, one at a time. Stir in pineapple; stir in flour mixture, alternately with carrot, in 3 additions just until batter is smooth each time; stir in nuts. Turn into an 8-inch-square cake pan that has been lined with wax paper and the paper greased. Bake in a preheated 350-degree oven until a cake tester inserted in center comes out clean - 40 minutes. Cool on wire rack for 3 minutes; turn out on rack and remove paper; cool completely. If desired, cover top with a vanilla-flavored glaze.

This Chowder Is A Main Course

One of the best main dishes for a light supper is a one-pot chowder in which the fish is left in large portions. crosswise and cut in strips. 1 green pepper, cut in strips. 2 stalks celery, cut in strips. 1/2 slice bacon, diced. 1/4 cup chopped onion. 3 cups water. 15-ounce can and 8-ounce can tomato sauce. 15-ounce package frozen diced (southern-style) hash-brown potatoes or about 3 cups from a larger package. Mince parsley. Throw fish if frozen. If necessary, cut fillets into 4 or 5 serving-size portions; sprinkle with salt and pepper. In center of each, place carrot, green pepper and celery strips. Roll up, securing ends with toothpicks. In a saucepot cook bacon until crisp; with a slotted spoon remove bacon and set aside. Add onion to bacon fat in saucepot and cook until golden; add water, tomato sauce, 1 teaspoon salt and 1/4 teaspoon pepper; heat to boiling. Add fish rollups; simmer, covered, for 20 minutes. Add frozen potatoes; continue simmering, covered, until potatoes are tender - about 15 minutes. On serving, sprinkle with bacon (reheated if necessary) and parsley. Makes 4 or 5 servings.

Gelatin Colorful And Tasty. By AILEEN CLAIRE The Herald Services. No matter the season, molded gelatin salads add color to the table and refresh the palate. Cranberry juice and fresh or frozen cranberries add a luscious zest to a salad that makes it a good companion to meats, poultry, game and fish. This is a salad that will keep and some will enjoy it as a separate dish, especially those who are dieting. Add boiling water to gelatin. Stir until dissolved. Add cranberry juice, lemon juice and salt. Chill until slightly thickened. Fold in cranberries and remaining ingredients. Pour mixture into 3-quart mold. Chill until firm. Unmold and garnish with crisp salad greens and serve with mayonnaise, if desired. Makes one 3-quart mold. CHANBERRY-VEGETABLE RELISH MOLD. 2 cups boiling water. 4 packages (3 ounces each) pineapple-orange gelatin. 4 cups cranberry juice cocktail. 1/2 cup lemon juice. 1 teaspoon salt. 3 cups fresh cranberries, ground. 1 cup diced drained water chestnuts. 3 cups cooked or canned sliced carrots. 2 cups minced onion, finely chopped.

Sal Purpura checks dough lion's mane, readies turtle

Purpura Dough Draws Interest

NEW YORK (AP) — It looks more like a city street scene than a bakery display window: busty, smiling women, kewpie-doll girls, moms with kids, ball-players, loving couples — and even a horse — parade behind the glass.
 Realistic though they look, the figures are not of flesh, but of dough.
 Bakery owners Sal Purpura and his son, Tony, specialize in the creation of elaborate bread sculptures and claim they can fashion any design up to six feet tall in bread dough.
 They have often had to support their claim by making to order such wheaten wonders as trains and trolley cars, Adam and Eve in the Garden of Eden, sesame seed lions and tigers, horse-drawn carriages, turtles, and clowns with circus dogs.

For 20 years the elder Purpura's customers have happily carried away turkeys, Santas, Yule trees, Easter bunnies, shamrocks and ballet dancers, all made of bread.
 Sal wandered into the world of commercial bread art by chance. When he immigrated here from his native Sicily in 1953 he went to work for a Queens baker. He had never baked before. To commemorate his first Thanksgiving in the United States, he designed bread turkeys for his boss as a gift. Customers saw the unusual birds, wanted their own, and the orders flooded in.
 Sal's fortunes rose with his dough. After two years he and a couple of partners opened a bakery in midtown Manhattan, where he developed his craft. Then in 1966, he moved back to Queens to open the store he presently owns.

Tony, now 27, was 21 when he came to work with his father, beginning what they hope will become a family tradition.
 "Our busiest time for bread figures is the holidays," Tony said, interpreting for his 62-year-old father who speaks little English. "That's when people have the most parties."

and bread figures are a decorating novelty. The rest of the year we usually make three or four figures a week."
 Dressed in baker's white and with his father's dark good looks and congenial manner, Tony explained that the figures are fashioned by hand. No molds are used.
 "The standard items" like dolls, which are our most popular request, and baseball players take four hours from scratch to finish. It takes only about 10 minutes to shape a figure, an hour to bake it and a couple of hours to cool it to get the moisture out.
 "If we've made the figure before, we know just about how much dough to use in different places to get the right proportion. But when we're asked to do something new it may take us two or three tries to get it right."
 A standard-size chef d'oeuvre, measuring from one to four feet, costs \$4 to \$6. Life-size sculptures can be had for \$12.
 The bread figures come alive in a huge rotating oven. Thirty can be baked at once on the oven's six shelves, but no more than 10 are made at a time. "If you try to make 20, by the time all of them are baked, the first few will be way out of proportion because of overheating," Tony said. "With only 10 figures, each one will bake evenly."
 Baking bread designs is not as easy as pie; Tony admits that many monstrosities have sprung from the Purpuras' hands.
 "The toughest thing about baking bread figures is hot weather," he said. "The dough loses its strength and firmness. A lot of bakeries use ice in hot weather to preserve the dough, but we don't because ice makes the dough too firm. So when it's hot we have to work twice as fast to compete with the heat."
 The business does have its leisurely moments, however. "The easiest part of baking is waiting for the bread to cook, and then eating it," added Tony with the sly look of a kid who'd just snatched forbidden cookies.

Purpura's bread sculpture of Adam, Eve and serpent

The Apple Commemorated

By TOM HOGE
AP Newsfeatures Writer

September marks the bicentennial of the birth of an American folk hero who spent some 40 years journeying through Ohio, Indiana and Illinois, pressing applesauce — anyone who's heading West.

Johnny Appleseed — his real name was John Chapman — was largely responsible for propagating apples across America, although he never made it to Washington or California where the great orchards are located today.

For four decades, this bearded figure in shabby attire traveled by horse and wagon and sometimes canoe, handing out little bags of seeds. And wherever he found a likely spot, Chapman himself would plant and see the trees grow.

Folk tales that have circulated over the years portray Chapman as a man on a spiritual mission, preparing the wilderness for the great movement Westward. Eventually he became known as the patron saint of the American orchard industry.

At one time there was said to have been more than a thousand varieties of apples grown in this country, including such quaint names as the Bellflower and Chapman's own favorite, the Hambro, which is rarely seen these days. Farm wives used the fruit to make a variety of things from crisp fritters to Lamb's Wool, a spicy hot drink made of baked apples, herbs and cider.

Today the Delicious apple, with its firm, sweet flesh, accounts for 20 per cent of the huge U.S. commercial crop, followed by the McIntosh, with 10 per cent.

One of the most popular dishes, of course, is apple pie, which has long been linked to New England. For years, many New Englanders would take a slab of apple pie for breakfast, along with a little sharp cheese.

Here's a recipe for apple pie that's a bit different.

MOLASSES-TOP APPLE PIE
8 large apples
1 unbaked, 9-inch pastry shell
1/4 cup sugar
3/4 cup ginger cookie crumbs
1 tablespoon flour
1/2 teaspoon cinnamon
Pinch of salt
1/4 cup chopped mixed nuts
1-3/4 cup melted butter or margarine
1-3/4 cup molasses
Wash, core and pare apples; slice thin and spread over pastry shell. Combine all remaining ingredients except molasses; mix well and spread over apples. Bake in 350-degree oven about 30 minutes. Heat molasses, pour over top of pie and bake 15 minutes longer. When cool, can be garnished with whipped cream. Serves 8.

Stuffed Peppers

CLIP 'N' COOK
Copy News Service

- 4 medium green peppers
- 1 pound ground beef-hydrated textured vegetable protein mixture
- 1 cup chopped onion
- 1 cup cooked rice
- 2 teaspoons Worcestershire sauce
- 1 teaspoon salt
- Generous dash pepper
- 2 slices (2 oz.) mild process cheese, cut in strips

Remove tops and seeds from peppers; cook in boiling salted water about five minutes then drain. In skillet brown beef and cook onion until tender (using shortening if necessary). Stir to separate meat; pour off fat. Stir in 1 cup soup, rice and seasonings. Spoon meat mixture into peppers; arrange in 1 1/2 quart casserole. Bake in 375 degree oven for 25 minutes. Top with remaining soup and cheese. Bake five minutes more. Serves four.

COOKING IS FUN

By CECILY BROWNSTONE
Associated Press Food Editor

FAMILY SUPPER
Green Pea Soup with Mary Greene's Dumplings Sliced Ham Salad Fruit Beverage

MARY GREENE'S DUMPLINGS
May be used with stew as well as in soup.
1/4 cup water
2 tablespoons butter or margarine
7 tablespoons flour
Pinch of salt
Large egg

In a small saucepan bring water to boiling point; add butter and melt. Over low heat add flour and stir until mixture leaves sides of pan. Remove from heat. Add egg and with a spoon beat until smooth and velvety. Have 1 quart water and 1 teaspoon salt simmering; drop mixture, by level teaspoonfuls into water; cover and simmer until cooked through — 10 to 15 minutes. Drain and add to hot soup. Makes 24 miniature dumplings — 4 to 6 servings.

LIGHT SUPPER
Peasant Soup Crusty Bread Fresh Fruit Cheese

PEASANT SOUP
Substitute 5 cups homemade beef broth, if you like, for the canned bouillon.
2 tablespoons peanut oil
1/4 cup chopped onion
2 tablespoons minced parsley
6 cups shredded cabbage, about 1 pound
2 medium potatoes, pared and cubed

Two 10 1/2-ounce cans beef broth (bouillon) diluted with 2 soup cans water
1 teaspoon salt
1/4 teaspoon pepper
1/2 cup commercial sour cream mixed with 1/2 teaspoon caraway seed

In a large saucepan heat oil; add onion and parsley and cook over moderate heat about 5 minutes. Stir in cabbage, potatoes, broth, salt and pepper. Bring to a boil; simmer until vegetables are tender — about 30 minutes. Top bowls of soup with dollops of sour cream. Makes 6 servings.

RANGTOP DINNER
Panned Lamb Chops Skillet Vegetables Salad Peas Helene Beverage

SKILLET VEGETABLES
1/2 cup butter or margarine
2 cups diced (1/2 inch) unpeeled eggplant
1 cup thinly sliced scallion, green tops included
1 large green pepper, cut in thin strips
1 large tomato, diced
1/4 cup water
1/2 teaspoon salt
1/4 teaspoon ground allspice
1 teaspoon sugar

In a 10-inch skillet melt the butter; sprinkle with the seasonings; mix well. Simmer, covered and adding water as needed — 2 tablespoons at a time — until eggplant is tender — 20 to 30 minutes. Makes 4 servings.

DINNER FOR TWO
Pork Chops Rice-Franco Snap Beans Salad Cupcakes Beverage

RICE FRANCO
Fine way to perk up rice.
1/2 cup converted-style rice
1 tablespoon dried currants
1 tablespoon butter or margarine
2 tablespoons coarsely broken walnuts

Cook rice according to package directions. Meanwhile rinse currants in hot water and drain; in a small skillet heat butter and brown walnuts in it. Shortly before rice is cooked, stir in currants. Just before serving, stir in walnuts. Use a fork for the stirring. Makes 2 large servings.

Humberts Blend Great Wine Traditions

By ALLEEN CLAIRE
The Herald Services

NEW YORK (NEA) — In Spain, there is a saying that three things start on a church service, but fight and a meal with rice.

Since an interview is none of these, everyone related while awaiting the appearance of one of the major participants. For example, Mina Gonzalez Humbert was carrying on beautifully while waiting for her husband to arrive. Schooled in the old tradition of Spanish women, her patience and graciousness held sway, but with a 1970s difference. This was obvious when as Thur Humbert, 43rd chairman of the board of Williams & Humbert, Ld., arrived. For example, there was an exchange of warmth and give-and-take Spanish couples.

Humbert's family in 1877 founded one of the leading Sherry shipping firms with its base in the historic Jerez de la Frontera region, near where Columbus set sail for what we now call America. She is from one of the older Spanish families in the Sherry region. Their marriage was as smooth a blending of English and Spanish Sherry families who rule the area as that of the wine in the bodegas.

Humbert lived and worked in Jerez for four years, he explained, as part of his training in the family business. During this time he met his future wife and they now have a son, William Gordon, born in 1972. His birth was just one of several changes Mina experienced in her life in recent years.

Mrs. Humbert explained that she had been trained "as a perfect hostess" in Spain where the running of several homes was expected, but meant that "just pushing a button for a servant." Since her marriage to an Englishman, she has become more active in the housekeeping role on their 200-acre estate called Manor Farm in Kimbridge, Hampshire, England, and at their villa on the Williams & Humbert El Bizarro vineyard in Jerez.

Their house on a hilltop is called Four Winds. Built on the site of Roman remains, it almost brought Humbert down with exasperation. He said in mock despair every home-builder understands, "Don't ask me about the difficulties."

Meanwhile, Mrs. Humbert smiled and mentioned changes in her life. An accomplished horsewoman, she, however, does not share her husband's full enthusiasm about shooting or his falconry. She enjoys hunting with dogs and took up fish fishing, an especially fine sport in Scotland. There is some sport fishing in the mountains of Spain but she found "matching wits against fish in fresh water, exciting, especially the salmon, after I graduated from brown trout."

Fish and game always have been popular dishes in England and Spain so Mrs. Humbert felt quite at home when planning menus around them. Among her favorites is pheasant in red wine. In deference to Humbert's ancestry she also sees that kidneys in Sherry are served often. Her own favorites for guests and family in Spain is gazpacho (chilled tomato soup) and paella for short lunches. Another favorite is a tortilla.

It must be done just right, slightly crunchy and not mushy. In Spain everything is still "mamma" except when the rice is at its perfect serving time. Then, it is everyone sit down and eat "pronto."

Heat peanut oil in heavy saucepan over medium-low heat. Add garlic and saute until softened but not browned, about 3 minutes. Discard garlic. Increase heat to medium. Add bread crumbs; saute until golden brown. Remove saucepan from heat. Add water, salt, paprika and cayenne pepper. Bring mixture to a boil. Reduce heat, simmer 30 minutes. Proceed according to directions below for desired variation. Serve garnished with chopped parsley if desired. Makes 3 cups.

Whole Egg Garlic Soup: Divide hot soup evenly among 5 individual oven-proof serving bowls. Break 1 raw egg into each serving. Place in oven at 350 degrees for about 15 minutes, or until egg is cooked.

Egg Drop Garlic Soup: Lightly beat 1 egg and while stirring briskly with fork, pour slowly into soup at the end of the simmering time. Immediately remove from heat and serve.

Place tomatoes, green pepper, onion, cucumber and garlic in blender (or put through sieve). Cover and whirl until mixture is liquified. Add vinegar, peanut oil, salt and bread. Cover and whirl until mixture is thoroughly blended. Force mixture through a sieve. Chill thoroughly. If desired, serve diced tomato, green pepper, onion and or crustions on the side. Makes 5 servings.

Heat peanut oil in a skillet; add onion and saute until golden. Add lamb kidneys and saute until browned. Add Dry Sack Sherry, salt and pepper; stir to combine. Cook about 4 minutes or until tender; stir occasionally. Makes 8 servings.

Place pears in saucepan. Add sugar and enough Dry Sack Sherry to cover pears. Simmer until pears are fork tender, about 30 minutes. Serve warm or chilled with some of the cooking liquid and cream, if desired. Makes 4 servings.

COMPANY DINNER
Roast Chicken with stuffing
Potatoes Broccoli Apple
Chicken Breast Tray
Caramel Pudding
APPLE CHUTNEY

Because Worcestershire sauce contains tamarind, used in the best India chutneys, it's worth adding to this relish.

2 pounds tart apples
2 cups chopped onion
15-ounce package seedless raisins
1 1/2 cups firmly packed dark brown sugar
3 cups cider vinegar
3 tablespoons Worcestershire sauce
2 tablespoons lemon juice
2 teaspoons salt
2 teaspoons ground ginger
Pare, quarter, core and dice apples — there should be about 2 quarts. Turn into a large saucepot, with remaining ingredients and mix well. Bring to boiling point; simmer, uncovered, stirring often until thick — about 45 minutes. Ladle into hot sterilized canning jars, leaving 1/2-inch headspace; add caps and screwbands according to jar manufacturer's directions. Process in boiling water bath for 10 minutes. Makes three one-pint jars.

400 recipes are given in "Cecily Brownstone's Associated Press Cookbook" available by sending \$4.95 (check or money order made payable to "The Associated Press") to this newspaper in care of AP COOKBOOK, Box G, Teaneck, N.J. 07666.

HOROSCOPE

For Thursday, September 19, 1974

By CARROLL RICHTER

GENERAL TENDENCIES: An excellent time to go straight to the most powerful and experienced bigwigs with whom you have any contact. Ask them to release information you require to better the problems facing you. Others are willing to help you now.

ARIES (Mar. 21 to Apr. 19) Keep promises to others in a kind and efficient way. Once your work is done, devote yourself to the romantic side of life.

TAURUS (Apr. 20 to May 20) Plan time for conferring with associates about future plans. You will benefit by engaging in civic work. Show courtesy to bigwig.

GEMINI (May 21 to June 21) Be cheerful in handling important duties. Spare time should be spent looking for clothing that will improve your appearance.

MOON CHILDREN (June 22 to July 21) Being with people you really like can make this a productive and pleasurable day. Elevate your level of consciousness now.

LEO (July 22 to Aug. 21) A new project you have in mind can be worked out on paper very successfully now. Home is where you should center your attention.

VIRGO (Aug. 22 to Sept. 22) Make the appointments with those who can further your career. Find the right appliances that make your work easier and more productive.

LIBRA (Sept. 23 to Oct. 22) Consult with one who has fine experience where financial matters are concerned and who understands your position. Be more practical.

SCORPIO (Oct. 23 to Nov. 21) The planets are favorable for whatever you have in mind to put across that will help your position in life. Avoid a spendthrift.

SAGITTARIUS (Nov. 22 to Dec. 21) Make sure you don't confide in others the information you get that is important to your future. Show that you are sensible.

CAPRICORN (Dec. 22 to Jan. 20) Put your fine organization ability to work and get much accomplished. Find out exactly what you want to accomplish in the future.

AQUARIUS (Jan. 21 to Feb. 19) You have to take the initiative now with a higher-up if you want to achieve your cherished goals. Show that you are wise.

PISCES (Feb. 20 to Mar. 20) Obtain all the information you can that is pertinent to your way of life and be prepared for new projects ahead. Take it easy tonight.

IF YOUR CHILD IS BORN TODAY... ...he or she will be full of talent, will love to do research work, be inventive, and will be able to help the masses. Be sure to give the finest education you can to your promising progeny. This is a mind that cannot easily be changed, so give spiritual training early in life. A fine person here.

"The Stars impel, they do not compel." What you make of your life is largely up to YOU!

Mini On Last Legs

LONDON (AP) — The mini is finally.

Britain's gift to the world of women's fashions, the mini-skirt, is finally gone — after hovering near hip-level heights for the past ten years.

The last ditch in this hemline-dropping event was seen by one of the biggest firms of chain stores in the country, C & A.

A spokesman for the company, which four years ago sold thousands of minis each day, said: "There will be no more minis when present stocks have gone. They just don't sell now."

The firm was just about the last of the major holdouts. Most of the other big department stores and fashion chains had dropped the mini for longer lengths within the past two years, or more.

Pear Shapes Go Far

LONDON (AP) — If you have a shape like a pear, don't let it bother you too much. You are more likely to succeed in life than most people.

At least, that is the noncaloric observation set forth in an article in "The Director" magazine, a journal of the British Institute of Directors.

Some of the pear-shaped people who have reached the top, says the article, are Napoleon, Gen. Charles de Gaulle, and British Prime Minister Harold Wilson, also Wilson's predecessor as prime minister and now British opposition leader, Edward Heath.

The article was written by John Byrne, managing director of a glass manufacturing firm, who noted that many pear-shaped people showed the qualities of intelligence and leadership.

The successful type, says the article, has the rather narrow shoulders and elongated limbs of the lean type, and the wide hips and somewhat pudgy chest and belly of the fat type.

In exaggerated form, the successful shape "is like a pear on an inverted top," says the magazine. It is also known as the "Burgundy bottle" look.

General de Gaulle was a good example of man so clearly pear-shaped that even a military cloak did not hide it, the article says.

And, I went on, Napoleon was very small and clearly pear-shaped.

Harold Wilson falls into the category also, says Byrne, adding that cartoonists always capture his pear-shape when they draw him.

As for Edward Heath, Byrne says he conceals his figure nicely when wearing conventional suits but illustrates the pear type pretty well when in his sailing outfit.

Evening Herald

67th Year, No. 25—Thursday, September 19, 1974 Sanford, Florida 32771—Price 10 Cents

VANDALS RUIN LOCAL HOUSES

Three houses under construction in Academy Manor subdivision in Sanford were hit by vandals Tuesday causing approximately \$20,000 in damage to the three buildings. Sanford patrolman Joe Dillard said an electric range was completely destroyed, windows were torn out from the walls, and inside room separators were knocked down. Most severely damaged house is located at 223 Yale Avenue with estimates of the damage totaling \$10,000. The houses are owned by Kingswood Estates of Casselberry. Sanford police are continuing the investigation.

Gas Price Cut Possible If Big Suppliers Agree

By CHRIS NELSON Herald Staff Writer

Hopes for reductions in today's gasoline prices remain squarely in the hands of the major oil company home offices, a poll of Seminole County area gas stations indicates. Only a couple of stations in Sanford are presently selling regular gas for less than 50 cents a gallon — and they are the independent variety to begin with.

The others called this morning unanimously said price cuts would be up to the home office — because none of the local owners are willing to sacrifice profits.

"I've had plans to lower my prices for some time, but they (the parent company) won't lower their prices to me," said one station owner.

Another station manager, whose sentiments echoed those of his colleagues, said, "If I lower my prices without my company lowering theirs, I'm just taking money out of my own pocket."

The local managers might change their minds if they began losing business because of the present high rates, but only one station reported a slight drop, while the others said business remained at usual levels.

However, that customer-pleasing but management nightmare possibility — a "price war" — was hinted at by at least one independent dealer, who said he today dropped regular gas to 48.9 cents per gallon, "and am thinking about 45 cents a gallon."

But even he said the anticipated dip would depend on the major oil company supplier — in this case Standard Oil — out of Tampa.

For the record, 11 stations were called today, including Standard, Texaco, Spur, Phillips 66, Amoco, Shell, Gulf, Tenneco, Waco, and Bay in Sanford, Chulusta, Lake Mary and Deltona.

Prices ranged from a present per gallon of 49.9 cents for regular and 49.9 cents for premium at an independent station, to a major oil company outlet charging 56.9 cents for regular and 61.9 for premium.

Independent gasoline stations are dropping pump prices as much as 13 cents a gallon, cutting into sales of many higher-priced, major brand dealers, an Associated Press survey shows.

Gasoline prices fluctuate in local area

Many dealers say the increased supply of gasoline has come from conservation by motorists.

The city has no money to pay for the truck this year and none budgeted for payment in the new year beginning Oct. 1.

Labossiere said the company refuses to wait for its money past Friday. "If they want to be hardnosed about it, let them pick up the truck and forget it," Davis replied.

Council noted the city does not have the high growth rate it did when the truck was ordered and plans for many large scale developments have fallen through, making the purchase of a new fire truck no longer a major necessity.

Seller May Repossess Longwood's Fire Truck

LONGWOOD — The city's new fire truck, delivered last week, may be repossessed and elected officials are not unhappy over the prospect.

Fire Chief Roy LaBossiere told councilmen Wednesday night that Jack Cooke and Sons Inc. of Orlando is demanding immediate payment of \$37,355 for the vehicle and is threatening repossession if payment is not made by Friday.

LaBossiere added that the firm has given no time schedule on when a proper generator will be installed in the vehicle.

The fire truck, ordered 18 months ago, was to be paid in part with federal revenue sharing funds, according to the former city council's plan.

Council earlier this week agreed to use \$10,000 in federal money for a down payment and to finance the balance with a three year loan from Combank Casselberry at six per cent interest.

City Atty. Joe Davis said, however, the city under state law, can finance the vehicle for only one year. He recommended the city execute a loan Oct. 2, in the new fiscal year, with a due date of Oct. 2, 1975, giving the city, two fiscal years to complete payment.

School Board OK's Building Contracts

By SEAN CODE Herald Staff Writer

Bids totalling \$1,568,360 were approved by the Seminole County School Board Wednesday evening for construction of the Lake Oriata Elementary School and the addition to the Lake Brantley High School.

Fennell and Associates, Inc. of Orlando received the contract for the elementary school project on a bid of \$948,491, subject to review by the architect. The low bidder for the high school addition was Allen Trevillion, Inc. of Winter Park, \$719,869. The two separate contracts totalled less than the 10 contractors, which was also tendered by Fennell of \$1,673,665.

The contractors were reminded bidding is now open on the Sterling Park Elementary School, which is identical in its specifications to the Lake Oriata school.

On other action, the board: Was informed of a grant from the federal government of \$54,334 for the education of multiple handicapped students. The first quarter of the grant, \$13,550, has already been received.

Directed its maintenance staff to put the contractor of the Woodlands school project, Building Movers Inc. of Winter Park, on notice that it is to finish all the work on the contract before Oct. 14, the scheduled opening of the school.

The school board last night, citing the good cooperation of the commission noted all the

recommendation of the architect as to whether it should be completed by the contractor, or undertaken by another firm in the interest of expediency.

—Was informed by its attorney, Douglas Stenstrom, of the implications of the Administrative Procedures Act, passed by the state legislature during the last session, and effective Jan. 1, 1975.

Stenstrom explained the law as a further step toward opening up government on every level "from Lake Mary to the state capital."

The law requires the notification of all action to be taken at the meeting of every political subdivision, and allows challenges by any member of the public before a state officer, with appeals by either party to the challenge. Stenstrom said such a system could necessitate 10 weeks from the first publicity of an intended action until it is acted on, barring any lengthy appeals.

Stenstrom explained the law as a further step toward opening up government on every level "from Lake Mary to the state capital."

No Communication Caused Problem

Last week's looming 'shoot-out' involving the Seminole County Board of Commissioners and the Seminole County School Board turned out to be more of a love feast Wednesday night.

The Seminole County School Board was not informed of the work completed by the county, and the county commissioners were not aware of the safety work requested by the board.

This resulted from a lack of communication, not an absence of cooperation according to the school board officials, commenting at Wednesday's meeting.

County Commissioner Greg Drummond answered a letter to the commission last week in which the school board requested sidewalks construction on Palm Springs Road. He stated such work had been approved two weeks before the letter was sent. He further charged in his response the board failed to anticipate their needs in time for the coming year.

The school board last night, citing the good cooperation of the commission noted all the

Kirkpatrick stated the county engineer William Bush, along with other county agencies, was notified of these plans and the consequent needs as required by law in November 1973. He said he has been working personally with county employees of which the commissioner may not be aware.

"Normally, the commissioners have not wanted to become involved in these areas, and so nobody told them," Kirkpatrick explained.

Asked about the state of affairs, Woodland School said he regards the involvement of Kirkpatrick said, "It should be ready; we've been working on it since June."

The school is slated to open Oct. 14.

7 County Pupils Compete For Merit Scholarships

Seven students from Seminole County high schools have been named semi-finalists in the National Merit Scholarship program.

They are among the 15,000 semi-finalists who form the top half of one percent of the nation's academically talented young people and will compete for \$1,000 scholarships. Merit finalists will be announced in April.

Janet Lee Bowers, 16-year-old daughter of Mrs. Nancy Bowers of 6315 Linnaea Beach Dr., Bear Lake, and Dr. John Bowers of Maitland, was chosen from Lake Brantley High School. Janet is already attending Rollins College in Winter Park under the Early Admissions Program and is considering a mathematics major. She would like to be a physical scientist.

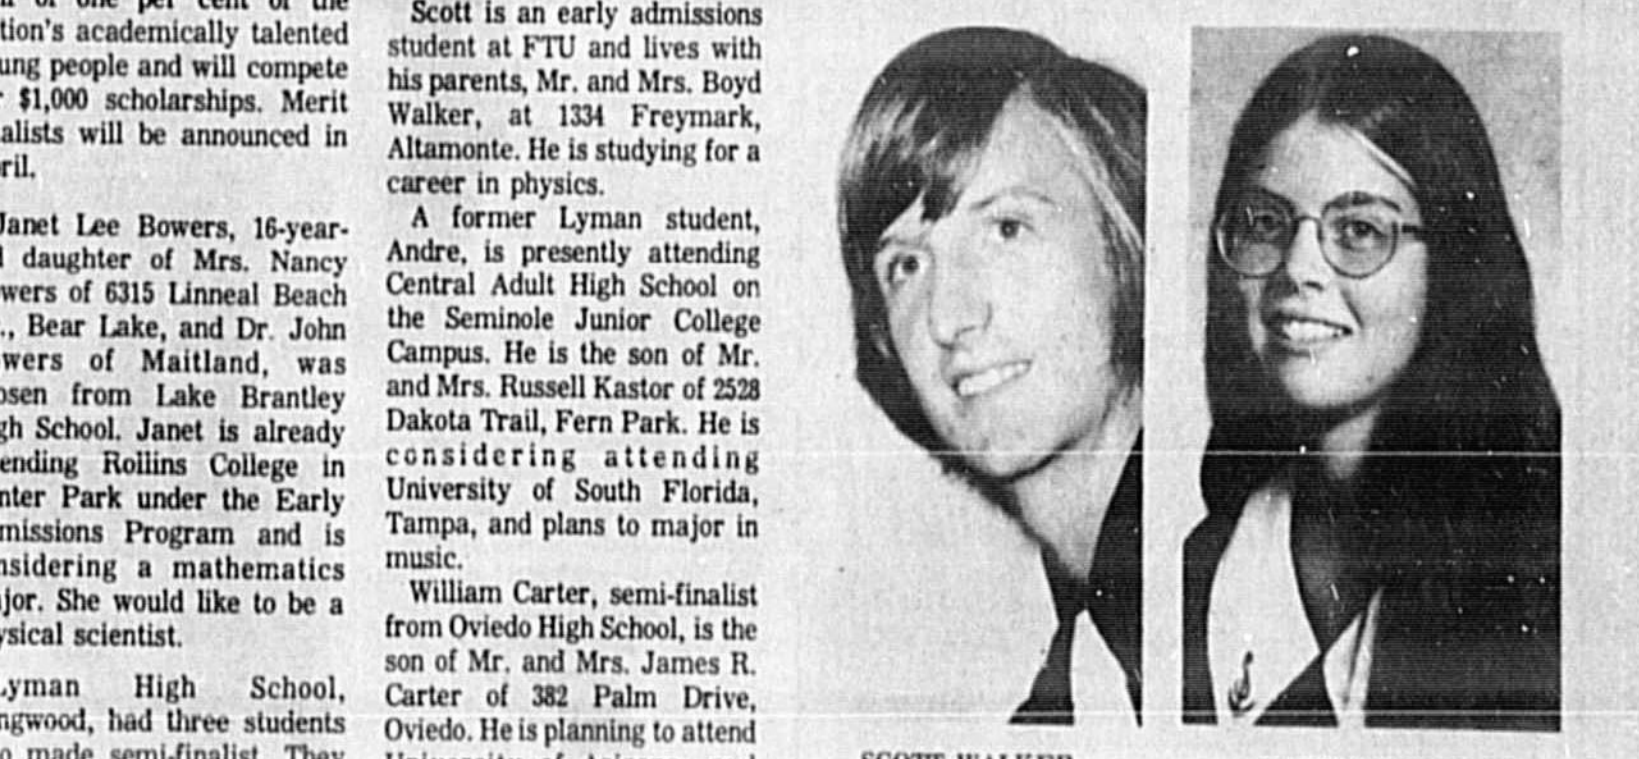

Lyman High School, Longwood, had three students who made semi-finalist. They include Nancy Hudson, Scott Walker and Andre Kastor.

The daughter of Mr. and Mrs. Paul Hudson of 1510 Glastonbury, Maitland, Nancy plans to attend Florida Technological University next year and major in Biology.

Scott is an early admissions student at FTU and lives with his parents, Mr. and Mrs. Boyd Walker, at 1334 Freymark, Altamonte. He is studying for a career in physics.

A former Lyman student, Andre, is presently attending Central Adult High School on the Seminole Junior College Campus. He is the son of Mr. and Mrs. Russell Kastor of 2538 Dakota Trail, Fern Park. He is considering attending University of South Florida, Tampa, and plans to major in music.

William Carter, semi-finalist from Oviedo High School, is the son of Mr. and Mrs. James R. Carter of 382 Palm Drive, Oviedo. He is planning to attend University of Arizona, and
