NEVER has there been such a demand for any improve-ment as there is now for the du Pont Duco finish for automobiles.

Think of it - Duco will remain beautiful indefinitely; it jeers at sand and alkali; it laughs at snow and rain, mud, sun or ice; it is easier, quicker and cheaper to keep clean.

This may sound too good to be true but 1,000,000 cars have been finished with Duco and the number is doubling. We can refinish your car under the Duco System and turn it out in a very short time with that "new" look which will last indefinitely.

VALENTING

The party reached Asheville at 8 o'clock in the morning and during the forenoon they saw the city. Mrs. French became wildly enthusiastic over the beauties of the mountains: the ever-changing panorama of sky, -towering peaks and green valleys, with beautiful homes nestling in the green slopes. French, ever the banker, with the banker's point of view, saw a busy city, busy industries, active commercial life, and the unmistakable evidences of sound growth. Two pieces of property seemed to be particularly good values and French bought one of them.

They left at 2 o'clock the same afternoon. Seven days later a telegram, reading something like this, reached Mr. French:

A chart is usually an uninteresting thing but this is what Mr. French discovered about Asheville, and if you are looking for opportunities for investment, for business advancement, or for a happy place to live, you can spend thirty seconds to good advantage by taking a good look at this. Write for specific information and illustrated booklets to Asheville Chamber of Commerce, Asheville, N. C.

FIFTEEN HUNDRED DOLLARSPROFIT.

French replied on this order: SELL. BUY OTHER PROPERTY WE DISCUSSED.

Before the Kentucky banker had returned to his home, an attractive offer had been received for a part of his second purchase. This offer was declined because French wished to study more thoroughly this active real estate market.

A few months later, in company with his business partner, who had enormous holdings in Florida, he returned to Asheville and made a careful survey of the entire section. The outcome was so inspiring that the two men purchased business property to the extent of \$175,000.00.

French is now building a beautiful home on the mountainside and expects to spend the rest of his days in "The Land of the Sky."

NEVER has there been such a demand for any improve-ment as there is now for the du Pont Duco finish for automobiles.

Think of it - Duco will remain beautiful indefinitely; it jeers at sand and alkali; it laughs at snow and rain, mud, sun or ice; it is easier, quicker and cheaper to keep clean.

This may sound too good to be true but 1,000,000 cars have been finished with Duco and the number is doubling. We can refinish your car under the Duco System and turn it out in a very short time with that "new" look which will last indefinitely.

ou 1 ave "made money," as moneyr aking goes in your town. You are comfortable, enjoying the pleasures that have come with your success. But somehow you are not-entirely satisfied. There's something somewhere in your mind that doesn't quite measure up to the dreams you had a few years ago.

You are the man we want in Coral Gables-Miami's miracle suburb.

For here in this land of everlasting sunshine, men are making money in emazing fashion - not only in real estate, but in the trades--in the building of apartments, hotels; business blocks-wholesale and retail establishments, and places of amusement.

There'll be a Million in Miami

Mr. S. Davies Warfield, president of the Seaboard Air Line, has said that Miami will be a city of a million people within ten years! Think what it will take to house, feed, clothe and keep happy this multitude of population. . .

Other men whose names represent the very essence of foresight and business judgment - Ford, Firestone, Edison, Deering, Dupont and Ingersoll-have come to Miami or southern Florida and invested millions. These men have faith in the future of Florida. They know a "good thing" when they see it, as their records prove.

Your Security in Coral Gables

Coral Gables is a city of homes-a permanent development. Already more than thirty millions of dollars have been spent in improving the city. Over a hundred miles of paved streets and sidewalks, street lighting and water mains, hundreds of acres in parks and golf courses, schools, churches, plazas, entrances—these have been built and are now in use. And more millions are being added every year to the city's projects. Coral Gables is an assured success, the chance of a lifetime.

If you would satisfy the longing in your heart for the better things of life

-for something more than what is already yours-lose no time-come to Coral Gables.

PREACHERS

The subject that I want to elucidate now is the question which seems to be perplexing a great many preachers-"Is it immoral for a preacher to smoke?"

one entirely different

The first brief glimpse of Loch Arbor fills one with delightful surprise. There is that intangible feeling that here is something entirely different. A wonderful picture of sunshine and shadow, tropical beauty and

I read a whole page on this very important subject in a Sunday paper the other day, having some time hanging heavily on my hands and wanting to kill it and not be-ing in a mood to care how horribly

This was a discussion of preach-ers, by preachers and, evid.ntly, for preachers. The gist of it was that the preachers who smoked thought smoking was all right, and the preachers' who didn't smoke thought smoking was all wrong. l'ersenally, I would say that if a preacher neither lied, stole or talkd about his neighbors, if he were the to live on the small salary that most of them are paid, and if a never preached longer than 20 minutes, it would be perfectly all right to smoke a cigar, a cigarette, or, if he were out in the open, a pipe. I do not think it would be wise, however, for a preacher to smoke opium, unless he were one of these long-winded fellows and wanted to try it once just to get some idea of the effects of a full hour's sermon on his congregation. It's all in the way you look at things. Once a preacher was fill-ing out an application blank for some life insurance in a mutual company that specialized in insur-ance for men of the cloth. One of the questions to be answered was, "Do you ever dissipate?" He wrote his answer with great and search-ing conscientiousness..."I occasionilly chew a piece of gum." Scme preachers seem to think that all pleasure is sin, and the

COMMUNITY BULLDER

No one citizen in a community contributes more to its deve-lopment and growth than the Realtor. He is by natural instinct a builder with an optimistic vision of the future and with a steadfast faith in the city in which he lives, is ever-ready to lend his enthusiastic support to any forward movement which means a greater better and more stable city. Realtors are organized for the protection of the buyers and sellers of real estate, the greatest of all commodities on which our govern-ment and all wealth is founded, and, as President Coolidge stated in his address at the National Real Estate Convention in Washington, "He has sold it so well that it is recognized. as the best buy in the world today."

Home ownership is the basis of good government and any city which is blessed with a large percentage of home owners, need have no fear of radicalism or bolshevism.

The Code of Ethics of the Realtor has stood the test for 2,000 years (The Golden Bule). When your affairs are intrusted in a Realtor you may feel assured that you will receive fair and square treatment.

The TINKER SYSTEM announces the opening of the SECOND SECTION

of LONGWOOD "The Old Town With a Young Spirit" THURSDAY, JAN. 7, at 9:00 A. M.

First Section Sold Out!

The First Section of LONGWOOD was put on the market Monday, December 7, 1925. During the first three hours, \$77,400 in sales were recorded. The entire section was sold out in three weeks. This unprecedented demand for this property, established definitely the fact that LONGWOOD was recognized by the public as an investment of safety and future profit.

AND ARTHOR ALMOSTORY OF

Progress at Longwood

Since the First Section was announced, wonderful strides have been made in the progress and "rejuvenation" of the town of LONGWOOD. Thousands of dollars are now being spent in building stores, apartments, and homes. The organization and chartering of the Longwood Bank and Trust Company has been effected and the contract for the construction of a modern bank building has already been let. Buy Early!

We advise our clientele, visitors, and friends to buy early in the Second Section of LONGWOOD. Lots in this section are subject to a 50% advance any day. This is something over which our company has no control, Mr. E. W. Henck, Esq., known as one of Florida's pioneers, reserved the right in our selling contract to advance prices on 24 hours' notice. Take advantage of this information and make your purchases early.

Opportunities!

That is what you ask? We recommend LONG-WOOD as a place that is certain of a great future expansion. LONGWOOD is an old town but it has young ideas and those ideas are pushing it forward so rapidly that within a year a wonderful change will have come over that community.

LONGWOOD has the substantial foundation of honest and hardworking, pioneering people.

It has wonderful LOCATION, on the Dixie Highway and the Atlantic Coast Line Railroad,

It has a rich back country that is just now being developed. The largest poultry raising project in the world is being developed with unqualified success just without the limits of LONGWOOD.

Several industries have already signified intentions of locating factories at LONGWOOD. Industries bring workers and workers are the backbone of a community.

LONGWOOD has everything—and it has just begun to wake up. Follow the lead of those who know and buy today.
