

### Graham Picks Cincinnati Reds and New York Yanks to Win Pennants

By **DELLION GRAHAM**  
Sports Editor, Wide World Features

**NEW YORK, Apr. 14, (WW)**—After four weeks of hopping around Florida's palm and palmetto to baseball belt, squinting at rookies and veterans coveting on scorched infield, this sun-burned, foot-weary correspondent has expected with the answers to the upcoming pennant races.

Ready for the exclusive, inside authoritative report? It's the Yanks and the Reds.

That's my personal estimate and I've double-checked it against the crystal ball and the ouija board, so I can't be wrong. (Notice: This information carries no guarantee!)

The Boston Red Sox or the Chicago White Sox have an outside chance of giving the Yanks trouble and the Cleveland Indians and Detroit Tigers may possibly turn out well enough to make it a four-way battle with the Red Sox and White Sox for second place.

Brooklyn has the power. St. Louis boasts the best balance and Cincinnati has the super-pitching. Any one of the three is a good bet to have a hunch it will be the Reds. No rival can touch their hurling (and pitching will be more important than ever this year). Gerald Walker should strengthen the outfield and Third Baseman Bert Haas' bat should help.

The Reds were feeble hitters last year and yet were contenders most of the way. They can't be any worse at bat and Boss Will McKechnie looks for considerable improvement.

There's good case for Brooklyn, last year's winner. The Dodgers have a better club, with Arky Vaughan at third, Augie Galan and John Higo as outfielders, and with experienced Billy Sullivan to spell Mickey Owen with the catching.

They have the league's most valuable player, run-batted-in and home run king, Pete Reiser. It's hard to vote against them but their pitching doesn't appear too certain. What may not be the sensation he was last year, Leo Duracher may not get the results he's anticipating from such oldsters as Fred Fitzsimons, Johnny Allen, Curt Davis and Larry French and his rookies can't be counted on.

This corner believes the Cards will miss John Mize's long-distance wallops and that they can't again hope for all the pitching breaks they got last year. They'll field the same team, with either Johnny Hopp or Ray Sanders replacing Mize at first and with a touted recruit, Stan Musial, in left field. Given consistently good pitching, they'll be hard to stop.

The Pirates and the Giants should battle it out for fourth place, with the Cubs, Braves and Phillies bringing up the rear.

The Yankees are not as strong but seem to have enough punch, pitching and defense to stall off all rivals. Joe McCarthy is none too pleased with Gerald Friday at third and Buddy Hassett at first. Neither Red Huffer nor Lefty Gomez may win the 16 games they did last season. The White Sox, with excellent pitching, might make a race of it if their hitting improves. Boston has the power, although not as much as last year, what with Joe Cronin planning to warm the bench, Jimmy Foss a year older and Ted Williams trying to live up to that .300 average. Cronin says his pitching will be better.

### Necessity Is Called Mother of Invention

By **GEORGE TUCKER**  
NEW YORK, Apr. 14, (WW)

A man I knew called in a couple of chemists and said: "Listen. The government's got two million yards of cotton duck cloth. This material is going to be made into tents. It's got to be treated with something that'll make it flame proof as well as water proof. What do you say?"

The chemist said, "Okay, this is Friday, we'll be back on Monday and see what we can show you."

I happened to be there when the chemists came back. They had a piece of the ducking with them, with the treatment on it. One of the specifications of this order is that the flame must die within two seconds after the duck has been held in fire for twelve seconds. The chemist handed the treated cloth to my friend. He struck a match, held the cloth to the flame for 12 seconds. The cloth began to grow red and curl about the edges. When he removed it, the flame disappeared as if by magic.

It takes a pound of "cure" for every square yard of cloth. The samples have been given to the government agents, and they're waiting for the answer. If the government says okay, this chemical concern is going to have an order for two million pounds of his anti-flame treatment. Nice little order, two million pounds, even in dirt.

The man who showed me this "ant-proofing" said showed me something else. It was a little thing that proves how much necessity really is the mother of invention. What he did was bring out a number of fabrics from which men's clothes are made and asked me to identify them.

"This one," I said, "is flannel." "I picked up another and fingered it rough, woolen surface. "This is pure wool." I told him. I gave what I thought were good guesses for all the others. He broke into a laugh.

"This makes me very happy," he told me. "There isn't a thread of wool or flannel or anything else here—except rayon. All this cloth is pure rayon. We've been working on it for years. It looks like wool, it feels like wool, but it's rayon. It's light and summery as a river breeze. That's what we call it, Riverwool. It won't be until '43. You'll find lots of rayon material for suiting on the market—but not like this, not the 'fished' goods that make you think you're looking at imported shetlands and flannels. The time may come when everything on wear will be made out of rayon and glass. What do things like that do to you without your own knowing?"

I reached for my new \$10 felt haps and got out of there before my friend could plant it on me. "Why, this looks like rayon too."

There is a town named New Hampshire in Ohio.

Do it themselves, without hints from the management.

### MANHATTAN

By **GEORGE TUCKER**

**NEW YORK, Apr. 14.**—By, resolute Betty Davis came to the Stage Door Canteen in West 44th street to entertain the soldiers. She stood in front of the microphone twisting a pale blue lace handkerchief in her hands. The place was full of men in uniform, sailors, soldiers, marines. . . . Just before her a comedian had been telling 'fast-cracking' gags. Before this a Broadway torch singer had wailed a melancholy lament.

"I can't sing or tell stories," Miss Davis said, "but I'll be glad to dance with anyone who cares to dance with me."

The men arose en masse and advanced on Miss Davis. For the next half hour she was torn from the arms of man after man in the fighting forces of Uncle Sam. Privates from Pennsylvania, gobs from the Great Lakes, Marines from Maryland waited with Miss Davis while the fiddlers fiddled and the onlookers clapped hands.

This Stage Door Canteen has become one of the bright havens for men in uniform on leave. It is a contribution of the acting fraternity. Eddie Sobel, the producer and theatrical manager, is its director. A man in uniform can't spend a nickel in the canteen. Sandwiches, coffee, salads, all is free. The orchestras come in by assignment, and donate their services. The actors and actresses from the New York theater and the Hollywood studios come in and donate their services. Five hundred New York show girls have weekly assignments to come in and play hostesses to the soldiers. They dance when the soldiers want to dance. They talk when they want to talk.

When the canteen was opened a couple of months ago there was a sort of preview put on by the entertainment committee. Everyone donated food. There were cans of coffee, baskets of fruit, cakes, hams, a roast turkey, and strangest of all, some very expensive Russian caviar.

"It's a strange thing," Eddie Sobel said last night, "that caviar is priceless, you can't get it any more because you can't import it from Russia. But it's still here. The soldiers won't touch it. They like solid food. . . . There's not more than two teaspoons of the caviar gone, and I think I ate that."

The Stage Door Canteen opens at 5:30 in the evening and remains open until midnight. You can't get in unless you have on a uniform. Strangely enough, the men "police" the place themselves. They don't want anything to happen to a good thing. If they see anybody getting loud, one of them will tap him on the shoulder and say, "Come on, pal, it's time to get outa here." They

do it themselves, without hints from the management.

There is a town named New Hampshire in Ohio.

Do it themselves, without hints from the management.

### Tennessee "Cave People" Do Not Know War Is On

By **CHARLES L. FONTENAY**  
MEMPHISVILLE, Tenn.,

**Apr. 14, (WW)**—They never heard of Hitler and they think Mussolini is just another "fur riner" . . . they don't have any mailboxes because they never get any mail . . . And not a single member of any of the families has ever seen the inside of a school-room.

"They are the Adams family," the cave people," Sumner Countians call them, although they do not live in caves any more—who live in the Tennessee hills about 10 miles north of here.

There are six or eight families, whose members range from two to nearly 70, living in rudimentary huts about a mile and a half from the nearest country road. One or two of them have been to Nashville, and a few of them have occasionally visited Hendersonville and nearby Gallatin and Goodlettsville, but some of the youngsters have never been out side their little colony.

With crude implements and a ratty horse, the only work animal in the colony, they eke out a living by cultivating small patches of corn and potatoes. They occasionally tour the back roads selling shoe strings they make from groundhog skins.

"Old Tom" Adams is probably the oldest member of the colony, but he doesn't know how old he is.

"I just can't say exactly," he said. "I misplaced my papers somewhere, but I reckon I must be between 60 and 65."

"What do you think about Hitler?" Old Tom was asked. He looked sharply from face to face, then replied tentatively. "Well, I don't rightly know. What do you think about him?"

"Oh, he's doing all right," was the answer, with a view to testing Tom's knowledge. "He's probably exactly right about everything, don't you reckon?"

"Wal, he might be," was Tom's careful retort. "But if he ain't right, he arta be!"

According to B. E. Westgate, Sumner County farmer and fox hunter, and County Health Officer W. M. Deadman, the Adams family wandered down into the county a decade ago from some place in the Upper Cumberland country.

### Sanford Market Has Much Citrus, Celery

**JACKSONVILLE, Apr. 14.**—The state's Farmers' Market got a splendid start last week with sales of 175,221 pounds bringing a total of \$19,252.33 during the first five days. From 1,000 to 2,000 crates are expected to move daily this week with the peak production being reached during the week ending April 15. State market director, said in his market forecast for the week. Starks will also have liberal supplies of sweet potatoes and Irish potatoes of English peas. Red Bliss potatoes should be coming in about April 20.

While unfavorable March weather did some damage and delayed maturity of early cucumbers at Bushnell, a continuation of present good weather may bring the yield up to normal. Tomatoes and beans in this area are looking good and beans should start moving about April 15. Peppers and tomatoes are expected to come in about May 1. Some squash, radishes and other truck crops are being planted but the average yield is comparatively small.

Sanford has plenty of citrus, celery, cabbage, new Red Bliss potatoes and most all other types of crops.

Harvest of Spring crops of cucumbers, beans yellow squash and potatoes has started at Bushnell. The weather's right and the best crop recently enjoyed. Potatoes expects one of the best spring tomato crops it has had in years with a bumper crop of excellent quality.

Altman Appears In Follies At College

**MURRAY, Ky., Apr. 14.**—(AP)—The "Big Guy" Altman, a 6-foot-4-inch, 250-pound, 25-year-old, 1941 College Football All-Star, appeared in the role of "The Big Guy" in the production of "The Follies" at the College.

The United States Military Academy at West Point was opened July 18, 1876, and has since that time been a leading military post since then.

## U. S. And French Relations Verge On Open Break

### Sailing Of Supply Ships Is Halted; Hard-Hitting RAF Continues Raids

WASHINGTON, Apr. 15 (AP)—The United States is withholding shipments of non-military supplies to French North Africa pending the clarification of the Vichy situation, Acting Secretary of State Sumner Welles said today. He said that in accordance with the agreement last week, were held up. Arrangements to send a Red Cross shipload of milk and children's supplies to occupied France also were held up.

## "Old Ironpants", Hugh S. Johnson, Dies This Morning

### Pneumonia Is Fatal To Columnist And Organizer Of NRA

WASHINGTON, Apr. 15 (AP)—General Hugh S. Johnson, the outspoken newspaper columnist and hard-driving "iron pants" of the first World War, died of pneumonia at 4:45 A. M. (EWT) today in Washington hotel.

## W. C. Hill Urges Donations For Relief Society

In the first two weeks after Pearl Harbor, the Relief Society paid out through its activities more than \$50,000, Mayor W. C. Hill, chairman of the Seminole County Committee in the drive to raise funds for this society, stated today as he urged local citizens to contribute to this cause.

### Japs in Burma

On a hill on the Burma-India border, massed Japanese troops present arms in salute to the rising sun prior to push into Burma. This photograph came to America by way of Britain.

## U. S. Pilots Successfully Raid Jap Philippine Bases

### Invaders Press Forward Against Burma Defenders

#### Japs Say 15 British Merchantmen Are Sunk From Convoy

The Japanese invasion of Burma pressed further ground today, as one column stormed beyond Mogaung, only 20 miles south of the vital Burma oil fields, and another pushed back Chinese lines 20 miles from Louge in a drive toward Mandalay. The British claimed Dwaing.

### First Buddy Poppy for F.D.R.

Geraldine Reynolds presents the first Buddy Poppy to President Roosevelt in the White House today. The girl, a member of the Little Flower Guild, Washington, D. C., is the daughter of a World War I veteran.

### Planes, Transports Are Struck, Docks And Hangars Hit In Cebu And Manila

Gen. MacArthur's headquarters today announced the United States Air Force made a smashing attack on Japanese-occupied air bases at Manila, Cebu and Davao in the Philippines.

## Class In Store Arrangement Is To Be Held Here

About 25 members of the Sanford Merchants Association are to be held in a class in store arrangement at the City Hall, but the establishment of a course in store arrangement was accomplished Saturday. Mr. Williams stated the meeting.

## Man Dressed As Soldier Passes Second Bad Check

Russell Runyan, the name of a man dressed in soldier's apparel, who flashed the credentials of the Orlando Air Base and succeeded in cashing a \$100 check at the Sanford Fifth Market Saturday, made an additional "haul" on the same day, police revealed today.

## \$140,000 In Fines Meted Out By Court

NEW YORK, Apr. 15 (AP)—The Aluminum Company of America, the Magnesium Development Company and three other corporations and six individuals were fined a total of \$140,000 in Federal Court today on a plea of not guilty in a series of anti-trust indictments.

## Chinese Pilot Dies In Crash Of Plane

TALLAHASSEE, Apr. 15 (AP)—Lieutenant Wu Kang, member of the Chinese Air Force detachment in training at Dale Mabey Field here, was killed yesterday when his pursuit plane crashed 14 miles east of Panama City during a training flight.

## LONG RAP RAID

LONDON, Apr. 15 (AP)—British fighters were engaged over northern France with comparative freedom for 4-5 hours Tuesday in their longest day-long offensive of the year.

"Old Iron Pants"

About a week ago General Hugh Johnson who died
last night wrote a syndicated article which we clipped
and laid aside with the intention of using it. In view of his
untimely death, the article is of particular significance
today. Advocating the exemption of hospital and doctor
bills from income taxes, he wrote as follows:
"An one who never before has needed much doctors'
care, and who, until recently, had even taken care of,
as part of an army officer's compensation, by the very
competent army medical corps, this subject is one which
the present writer has completely overlooked.
" It never rains but it pours, and of late your corres-
pondent has needed the most expensive kind of civilian
medical care, both for himself and his family. It has been
an eye-opener which the doctors frankly recognize as a
kind of curse.
"Much of this kind of treatment is just too expensive
to be paid for by many taxpayers. If they unhappily get
in the line of fire, they either just die, or suffer whatever
other terrible consequences happen to be part of the
ailment. The treasury seeks to relieve a part of this hard-
ship.
" This is due to no greed in the medical profession.
Most good doctors give an astonishing proportion of their
time to free clinics, but in all too many instances the mere
items of medical supply and hospitalization just have to
be paid for by somebody, and the facilities for this are
grossly inadequate.
" The charitable institutions, supported by endowment
and other gifts, are languishing by reason of lowered in-
terest rates on principal and the overwhelming burden on
individual incomes now being borne or soon to be suffered.
" There are darker days ahead. Many of our best
medicos already have been called to service by the war and
we are on the verge of calling to war duty tens of thou-
sands of both doctors and nurses, and the government
properly always takes the best in these professional fields.
" The truth is that we are in a hard way in this regard
and are rapidly approaching a much worse crisis. In all
this talk about noncombatants, especially women, seeking
a place to serve, there is no more recession field than in
the care of our ailing civilian population.
" With a very little training, women who are willing
to accept the burdens can do more here than in any other
field of which I know. But it is hard, gruelling, disagree-
able and demanding work, and there is no great rush
to seek it.
" The proposed action of the treasury will help only a
little way, and in a very limited field, but it may save
many a useful life, or at least, relieve considerable pain
and suffering. It promises no ultimate gain to the taxpayer,
except that he will have a little more than the irreducible
minimum with which to care for and relieve his depend-
ents.

General Johnson, a retired cavalry officer, was one of
the most colorful figures which the New Deal brought to
Washington. In the heyday of his career as a public official,
he was chief executive of the NRA and originator of the
Blue Eagle. So vigorous was he in the conduct of his
office, so obviously sincere in his threat to crackdown on
business, that he earned the nickname of "Old Iron Pants".

Since the Supreme Court ruled against the constitu-
tionality of his entire program, he retired from the govern-
ment and became a newspaper columnist where freedom
of the press protected him in his rights as one of the
severest critics of the New Deal.

Florida's Newspapers

Florida's newspapers on the whole give their readers
more to read, and their readers conversely must be better
read, than in most other states in the union. The Ameri-
can Newspaper Association has compiled a table showing
newspaper consumption in each state in the country and
Florida ranks eighteenth in the entire forty-eight. Its
daily newspapers consumed more newspaper last year than
those in thirty other states, many of which have much
larger populations.

In the Southeast, only Georgia's dailies used more
newspaper than Florida's the difference being 1,110 tons,"
it is reported. Florida's daily newspapers serve only half
the population Georgia's dailies have accessible, yet used
almost as much print paper. North Carolina has almost
twice the population of Florida, but used 7,500 tons less
of newspaper than Florida. All other states of the South-
east, including Virginia, used less newspaper than Florida.

"In other sections of the country dailies in these states
used less newspaper than Florida's dailies: Arizona, Kan-
sas, Colorado, Delaware, Idaho, Kansas, Kentucky, Loui-
siana, Maine, Maryland, Mississippi, Montana, Nebraska,
New Hampshire, New Mexico, North Dakota, Oklahoma,
Oregon, Rhode Island, South Dakota, Utah, Vermont, West
Virginia, Wyoming.

"All daily papers in the United States used 3,179,011
tons of newspaper."

Anticipation

"Oh, mama," exclaimed little Elizabeth, when the desert
was served, "how I wish you had told me this morning
that you were going to have ice cream for dinner!"

"Why, dear, what difference would it have made?"
asked mother.

"Oh, lots!" replied the youngster, with a sigh. "I
could have expected it all day, then!"—Christian Science
Monitor.

another, Mr. Williams added.

Pepper To Introduce Bill On Use Of Canal

FORT MYERS, Apr. 15.—(AP)—
Senator Claude Pepper (D Fla)
said here Tuesday that when Con-
gress reconvenes he will intro-
duce a bill providing for use of
the Fort Myers-Stuart Cross
State Canal in transporting oil
and other war cargoes from the
Gulf to points in the North via
the inland waterway.

Facts On Japs Air Power Are Now Disclosed

By LUCRECE HUGHINS
Wife World Features Writer
WASHINGTON—Here are some
facts about Japan's air power
reprinted from Seemacht, a Ger-
man magazine published in Ber-
lin, and recently released by the
U. S. Army Air force:
1. In 1919 Japan began sys-
tematically building up her air
service by calling in foreign in-
structors.
2. An English commission of
40 men arrived to organize the
naval flying service and a French
commission of 60 men arrived to
organize the army air service.
3. Japan has no separate air
force. All planes are divided be-
tween army and navy.
4. The highest estimate of the
total number of Japanese planes
is 4,500, with a total of 23,000
men.

### Boston Braves Take Opener From Lobert's Phils, 2-1

PHILADELPHIA, Apr. 15. (AP)—Sixty-year-old Hans Lobert's debut as a full-pledged major league manager was auspicious Tuesday although his Phils dropped the season opener 2-1 to the Boston Braves before 10,150 fans.

Lobert's boys committed only one error afield while playing heads-up ball and a potent rookie lived up to advance expectations by blasting in the team's marker—and the first of the game—with a scorching double. In all they got eight hits to Boston's 10.

The rookie was Ronald Northey, up from Williamsport of the Eastern League, who sent Danny Murtaugh across the plate. Murtaugh had singled.

Boston came back in the third with a trio of singles off veteran Al Johnson which produced a run when First Baseman John Cooney came home. In the seventh, Cooney rapped two-bagger and scampered in with the winner on Friolayn Fernandez's single to center. Righthander Al Lavery quelled a ninth-inning Phil rally. He gave up eight hits, two of them in the last frame, but was tight in the pinches.

### Yanks Win, Ruffing Outpitches Hudson

WASHINGTON, Apr. 15. (AP)—Red Ruffing turned in a three-hit hurling performance as the world-champion New York Yankees opened the wartime baseball season in the nation's capital yesterday with a 7-0 victory over Washington before Vice President Wallace and 31,000 other fans.

Ruffing was in complete command throughout. Only one Senator advanced beyond first base. The veteran right-hander struck out five batters and issued only one walk.

The Yankees pounded young Sid Hudson for 10 blows and showed their customary ability to cluster the hits, scoring three runs each in the second and ninth innings. The other tally came in the sixth.

Hudson started flashily on the mound for the Senators by fan-

ning three of the first four Yanks he faced. But after Charley Keller singled in the second he walked Joe Gordon and Bill Dickey to load the bases, and boom went the ball game. One run trickled across on a slow grounder by Ed Levy and Ruffing rifled a single into dead center to score two more.

### Defense Shop News

We have had word from the United States Civil Service Commission requesting that we accept applications for mechanics learners at 50 cents per hour or from \$900 to \$1080 per yearly salary.

These appointments will be on the basis of non-war service appointments and will not require a certified Civil Service status.

The places of employment will be in the Southern States and the duties will be in a learner capacity to assist journeymen mechanics in the performance of their work.

A written test will be required and the ages range from 18 to 50. Any person who is interested in this type of work please contact this office and arrangements will be made for the examination.

# Court Decides IN FAVOR OF Royal Crown Cola

**DISMISSED!**  
That was the Court's answer, just a few days ago, to each and every charge made against Royal Crown Cola by our largest competitor, who claimed the sole right to use the word "cola" as part of the name of a drink.

The Court recognized that cola has been used in various ways for many generations, and that the word "cola" is the generic term for a type of beverages known as "cola drinks," of which there are many.

For 35 years, we have been making cola drinks. In 1934 we introduced Royal Crown Cola in a bottle that gave not one, but two full glasses for 5¢. Folks liked getting more for their money.

And even more important—people said it was the best-tasting cola. Impartial group taste-tests of the nation's best-known colas have been continuously conducted throughout the country. Royal Crown Cola has won 5 out of 6 of these tests.

ROYAL CROWN COLA IS TRULY "BEST BY TASTE-TEST."

To you, the Court's decision means you can continue to buy whichever cola your taste prefers and, if you choose, you can get not one, but two full glasses for your nickel.

To us, the decision means adjudication of our fair dealing, clean competition, and the fact that Royal Crown Cola is sold on merit alone.

**QUALITY THAT'S "BEST BY TASTE-TEST"!**  
The highest grades of sugar are required in making Royal Crown Cola. Our Government has found it necessary to control the distribution and use of sugar. With this and all other conservation measures we are happy to cooperate.

AND WE PROMISE TO KEEP THE QUALITY OF ROYAL CROWN COLA "BEST BY TASTE-TEST."

### From where I sit...

by Joe Marsh

Remaining through my desk the other day, I came across some snapshots of friends of mine made back in 1933.

If you don't think time flies... if you don't think this world ever changes... you ought to look at the wigs, hats and dresses in those pictures taken 9 years ago!

I gave me quite a start... and then it set me to thinking... and remembering! Lots of things sure happened in 1933. A new administration in Washington... the turning point of the depression... and the coming of Repeal.

I remember the re-legalization of beer. It came before Repeal, when Congress amended the old Volstead Act to allow legal sale of "L.P." beer.

What talk and arguments they had in those days! One argument I remember well... was that beer would do a lot to help bring back prosperity. I wondered at the time whether that argument would be proved.

I thought about that again, the other day. I decided to check up and find out.

Well, I found out plenty. I found out that legal beer has paid more than 3 billion dollars in taxes since 1933. It has made more than a million new jobs.

According to one of the reports I've seen, beer has put more than 15 billion dollars into general business circulation. Goodness me, that's a lot of money.

Beer is sold today in every state in the Union. Every state benefits from beer's jobs and taxes. And I guess there's no denying that beer did do its share in bringing back better times.

I'm glad it did, too, because beer is such a pleasant, appetizing beverage. And it stands for moderation and moderate people... it's not likely to get you in trouble.

Joe Marsh

## Reds Crack Nazi Line, Smash Ahead

### Incessant RAF Raids Inflict Damage On Germany, France; Lose But 4 Planes

(By Associated Press) RAF bombers continued their incessant raids over Germany's vital Ruhr valley today and attacked St. Nazaire, the docks at Le Havre and airdromes in the low countries. Four planes were missing from the now forays.

Russian forces smashed forward today after knifing through the first line of German fortifications in the vital Bryansk sector, southwest of Moscow. Soviet dispatches announced the occupation of a dozen settlements abandoned by the Germans.

Fighting in the slash of a more definite mass battle-line, the Red Army was reported last night to have achieved a breakthrough in the first lines of the important Bryansk sector of the central front while preparing its counterattacks for the shock of the heralded German Spring offensive.

Although authorities made it clear that no decisive battles were in progress, front dispatches said the Red Army force which broke the first defenses of the Bryansk salient—now reputedly under the command of the former Nazi commander-in-chief, Field Marshal Walter von Brauchitsch—was approaching the second line in fierce fighting.

The Moscow radio reported that one Soviet plane was shot down in four months of fighting on the central front killed more than 20,000 Germans, captured 200 prisoners, including 100 officers, and destroyed about 100 tanks and armored cars.

Meantime swarms of RAF fighters plied some of their planes against the Luftwaffe yesterday again, inflicting the most sustained daylight offensive of the war, after a string of bombers had blasted at Ruhr war industries again Tuesday night.

## The Babe Feels Better

Recovering from a pneumonia attack in Hollywood, Babe Ruth gets a light from his wife, Claire, on his first day out of bed. The Babe also made a few baseball predictions, picking the Yankees and the Pirates as his choices in the 1942 pennant race.

## Allies Are Awaiting Result Of Laval-Petain Conference

(By Associated Press) Pierre Laval, Nazi collaborator and France's most powerful figure, returned to Vichy today from a conference with German leaders in Paris. The Allies are awaiting the result of Laval's scheduled meeting with Marshal Petain at the Vichy headquarters of the Vichy government.

All American residents of occupied France were asked last night by U. S. Consulates to leave for the United States at the earliest possible moment.

The U. S. consulates at Lyon and Marseille issued circulars requesting to all American citizens having urgent business in France to leave immediately.

"There are a number of Americans on the Riviera and elsewhere in Southern France," stated the circulars, "who have stayed there throughout the war. The letters did not connect the request directly with Pierre Laval's return to power in the Vichy government.

Foreign diplomats said yesterday that thousands of German soldiers and a considerable Nazi air force may be released from France for use against the Russians as a result of the Vichy government shake-up. They feared that eventually Hitler will get the French fleet.

News of Laval's return to power in France has not been published in Russia but foreign quarters were informed and their attention was centered on Washington's reaction.

In addition, the greatest repercussions of the Vichy charges would be felt on the Russian front as based on the insistence of Marshal De Gaulle, collaborationist editor and close friend of Laval, that the French air force "dominate the French skies" and that the French army become active.

The French air force is estimated at 1000 modern and obsolete planes.

## Recap Material Consists Mostly Of Used Rubber

Camelback being received here for the recapitulation of eligible passenger-type tires is of a very poor quality and cannot hold up under excessive speed, W. C. Sherman, State Defense Council administrator, advised Co-ordinator A. B. Hester, day, and the local Rationing Board, this morning.

"I wish you would take steps to advise the public of this fact," Mr. Sherman said in his bulletin to Mr. Peterson. The camelback you are now receiving consists of only two percent rubber and 98 percent of recovered rubber, and it is of very inferior quality.

"It will not stand speeds of more than 35 miles per hour and is not calculated to give long service."

The \$25,000 USO Club in the town of Starke, eight miles from Camp Blanding, was the first in the nation to have its corrugated metal roof replaced.

## Freedom Of Press Is Said To Be On Trial

NEW YORK, Apr. 16 (AP)—Asserting the freedom of the press is on trial through war-time voluntary censorship, Director of the Community Service for the United States, John Edgar Hoover, today said the nation's newspaper editors will be an unhappy day for all of us if it is found that the censorship is not being used as it should be.

"I personally do not believe such a day will come whether it is now or later," Hoover said in an address at the annual meeting of the American Society of Newspaper Editors.

## New Gas Reduction Goes Into Effect

WASHINGTON, Apr. 16 (AP)—New, severe rationing in gasoline consumption is effective today in the east and Pacific northwest. Petroleum products will be reduced by 20 to 30 percent, less gasoline than normal. The overall curtailment is raised to one-third, or 33 to 35 percent over the 1941 level.

## Ship Is Towed After Hurricane Sub

NEW YORK, Apr. 16 (AP)—A merchant ship was towed to safety after being driven ashore by a hurricane.

# Corregidor Scores Hits On Jap Troop Concentrations On Bataan

## Mrs. R. A. Smith Will Be Elected State President

### Local Member Faces No Opposition At Woman's Club Meet

JACKSONVILLE, Apr. 16 (AP)—Mrs. Ralph A. Smith of Sanford received the unopposed nomination for president of the Florida Federation of Women's Clubs at the annual convention here today. Her name alone with others on the state of nominees will be presented to delegates for election tomorrow.

Mrs. Smith will succeed Mrs. Thurston Roberts of Jacksonville as president.

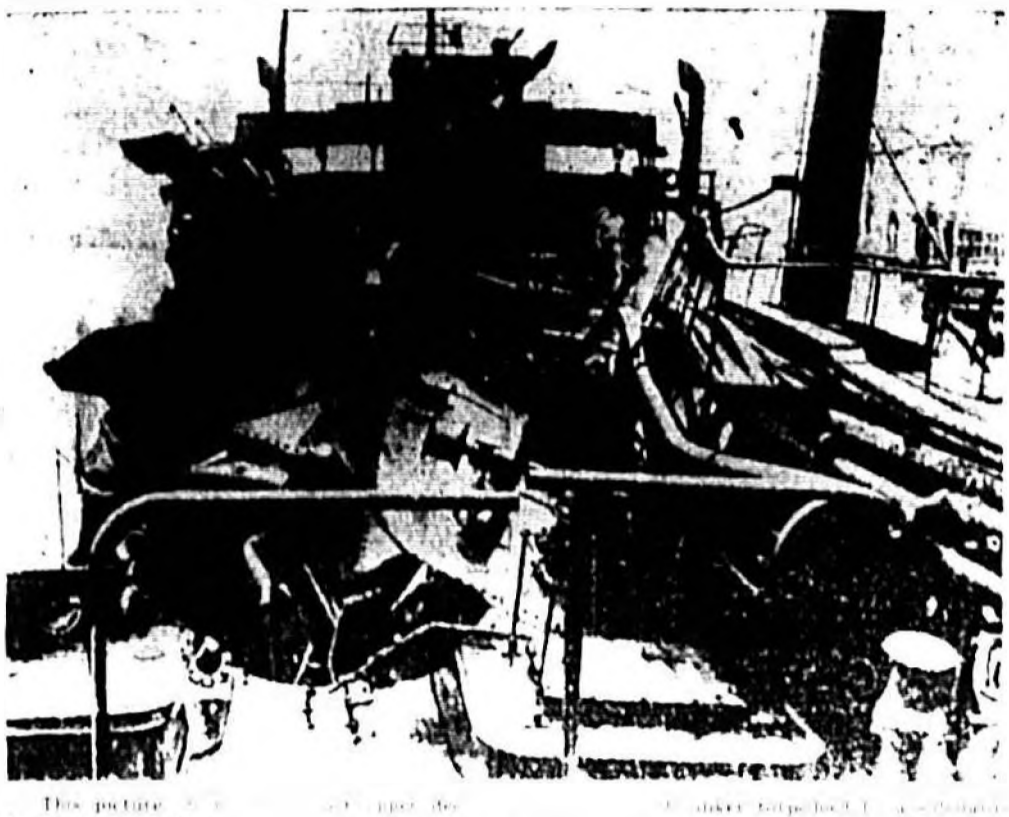

The first business session of the Florida Federation of Women's Clubs' forty-eighth convention which opened in Jacksonville on Tuesday evening with a formal reception, was held over yesterday morning by Mrs. Thurston Roberts, president of the federation, assisted by Mrs. Ralph A. Smith, Sanford, first vice president, and president-elect.

The session featured reports of the business committees, officers and directors. Bills were open all a term for the nominating ballot with Mrs. Robert Newhall, chairman of the nominating committee, in charge.

The first speaker on the afternoon's program in the Roosevelt Hotel was Robert R. Milam, president of the Florida State Bar Association. Other speakers included James A. M. Marjorie, Banks, His Britannic Majesty's consul for Florida, Georgia, and South Carolina, W. S. Newhall, judge of the juvenile court of Duval County, and Francis H. Bridges, chief clerk of the Florida Parole Commission.

Mr. Housie C. Avery of Jacksonville, president of the Woman's Club, the convention business was the presiding officer at the formal opening meeting of the convention on Tuesday evening. Mrs. Avery introduced Mrs. Roberts, who in turn introduced Mrs. Smith, who in turn introduced Mrs. Avery, past president and guest, after which the meeting was adjourned for a formal reception.

## Torpedoed Tanker Limp To Atlantic Port

The picture shows the tanker being towed to a port in the Atlantic Ocean. The ship is heavily damaged and is being pulled by a tugboat.

## Truck Columns Also Are Struck With Many Casualties; Cebu Fight Rages

(By Associated Press) The War Department today reported Corregidor's guns scored direct hits on Jap troop concentrations and truck columns in the Bataan peninsula. Enemy ammunition dumps were hit and blown up.

The communications and Japanese casualties are believed to be heavy. The Japanese are continuing their fight on Cebu where the Japanese last week landed an amphibious force and overtook the American garrison.

Victims of enemy planes were reported by the War Department to include a transport ship, a cargo ship, a tugboat, and a minesweeper. The Japanese are reported to have captured a number of ships and planes.

The War Department also reported that the Japanese are continuing their fight on Cebu where the Japanese last week landed an amphibious force and overtook the American garrison.

## Students Should Stay In Schools During Air Raid

### Emergency Orders For Children Are Listed By Lawton

During an air raid, children should be kept in schools, said a bulletin issued by the War Relocation Authority. The bulletin is a guide for school officials in developing measures to insure maximum protection during an air raid. It lists the following instructions:

1. Children should be kept in schools during an air raid.

2. Children should be kept in schools during an air raid.

3. Children should be kept in schools during an air raid.

4. Children should be kept in schools during an air raid.

5. Children should be kept in schools during an air raid.

## Specialist Will Discuss Wartime Clothing Changes

### Official State Sugar Rationing To Be Held Soon

Washington, Apr. 16 (AP)—The government announced today that the nation's first ration allowance will be a half pound per week per person. The quota will be applied only to the first two weeks of the rationing schedule to begin sometime in the week of May 17 during which civilians must register and obtain books of ration stamps. The ration allowance will be changed each week depending upon the availability of supplies.

Mr. Lawton has received a page bulletin that is offered as a guide for school officials in developing measures to insure maximum protection during an air raid. It lists the following instructions:

1. Children should be kept in schools during an air raid.

2. Children should be kept in schools during an air raid.

3. Children should be kept in schools during an air raid.

4. Children should be kept in schools during an air raid.

5. Children should be kept in schools during an air raid.

## Officials State Sugar Rationing To Be Held Soon

### Peterson Is Informed Dates Of Program From May 1 To 7

Washington, Apr. 16 (AP)—The government announced today that the nation's first ration allowance will be a half pound per week per person. The quota will be applied only to the first two weeks of the rationing schedule to begin sometime in the week of May 17 during which civilians must register and obtain books of ration stamps. The ration allowance will be changed each week depending upon the availability of supplies.

The rationing program will be held from May 1 to 7. The rationing program will be held from May 1 to 7.

## Local Member Faces No Opposition At Woman's Club Meet

### Mrs. R. A. Smith Will Be Elected State President

JACKSONVILLE, Apr. 16 (AP)—Mrs. Ralph A. Smith of Sanford received the unopposed nomination for president of the Florida Federation of Women's Clubs at the annual convention here today. Her name alone with others on the state of nominees will be presented to delegates for election tomorrow.

Mrs. Smith will succeed Mrs. Thurston Roberts of Jacksonville as president.

## American Legion Post Will Elect 1942-43 Officers

### Members Of The Campbell Lodging Post Of The American Legion Will Elect Officers For 1942-43 At Their Regular Meeting Monday Night

Members of the Campbell Lodging Post of the American Legion will elect officers for 1942-43 at their regular meeting Monday night at 8:00 o'clock, Commander Joseph S. Field announced this morning. The installation of the officers selected will occur May 18.

In addition, legionnaires will vote on the acceptance of several new applicants to the post, it was announced. Eight more members are needed to give the local organization a voting strength of five when the Legion's convention is held at Orlando next month.

An amendment to the post's by-laws will be voted upon. An attempt will be made to change the laws to allow the post to hold official meetings at any place in the county. The dinner will be prepared by the Women's Auxiliary, under the chairmanship of Mrs. W. E. Smith.

## Thousands Throng Orlando For Parade

### ORLANDO, Apr. 16 (AP)—Thousands of Central Floridians thronged Orlando yesterday to witness a mile long centennial parade featuring costumed marchers of a century ago, covered wagons, antiquated horse-drawn vehicles of many kinds.

Pioneer citizens, those who had lived in Central Florida for 40 or more years, were the honor guests of the celebration, many of them dressing in clothes retrieved from musty trunks.

A costume ball, old fiddlers contest and square dance last night were the closing events of the celebration.

NAVY SUPERVISORS WORK

WASHINGTON, Apr. 16 (AP)—The Navy Department announced yesterday that its bureau of yards and docks hereafter would supervise civil works construction contracts for the Navy throughout the country.

WEATHER

FLORIDA—Continued mild with light scattered showers.

ALABAMA—Little temperature change today.

## Bill Introduced To Confiscate Autos

### WASHINGTON, Apr. 16 (AP)—Senator Downey (D-Calif.) today introduced a bill giving the Federal power to seize any or all privately owned automobiles.

The bill also recommended the taking of immediate steps to "relocate" some 10,000,000 cars from the roads and place them in a vast pool to meet a serious transportation crisis we can expect within a year or so," he said.

He is convinced that there "simply will not be any tires for 30,000,000 civilian automobiles for four or five years even if we get all the synthetic rubber hoped for."

## 10 Million More Will Do War Work

### CLEVELAND, Apr. 16 (AP)—Ten million more workers will be absorbed into our war industries this year, Brig. Gen. F. J. McSherry of WPB's labor division declared yesterday.

Thus by Jan. 1 the United States will have about seventeen and a half million people doing such work, the general told an interviewer.

"We had 20 million people engaged in non-essential work last Jan. 1 and only about seven and a half million working on war production," he said. "By the end of this year we shall need an additional 10 million workers in war production. Get that straight—an additional 10 million."

## Pepper Wants Water Link Across Florida

### JACKSONVILLE, Apr. 16 (AP)—Senator Claude Pepper declared yesterday that a water link across Florida to connect the Gulf and Atlantic inland waterway systems is the only way our national security can be maintained, and that he would seek early action to bring about such a connection.

Senator Pepper said if the two systems, running close to shore and in many cases inside offshore islands and keys, were connected it would provide a badly needed route for transportation of petroleum and other vital war supplies out of range of Axis submarines which have been striking heavily at shipping along the Atlantic Coast.

AUSSIE MINISTER PICKED

CANBERRA, Apr. 16 (AP)—Prime Minister Curtin announced yesterday the Australian Cabinet had selected a new Australian Minister to Washington but his name would not be announced until United States approval had been given.

## Goodyear Tests Rubber-less Tire

AKRON, O., April 16 (AP)—The Goodyear Tire and Rubber Company today announced the testing of automobile tires that are made without rubber. Officials said no rubber, natural or synthetic, or reclaimed is being used and refused any hint of the materials contained.
