Stuttering Cured LETTERS TO SANTA CLAUS

Stuttering is curable. That at least is the conclusion that has been reached by Dr. Bernard Sachs, president of the New York Academy of Medicine, who has recently been conducting numerous experiments in conjunction with Dr. James Sonnett Greene at the National Hospital for Speech Please bring me a doll carriage and some beads, a mesh pocket book. Disorders. According to both of these eminent authorities, shell with doll clothes, and anything there is no reason why anyone so afflicted cannot be else that would be nice for me. permanently cured.

Speaking before the New York Neurological Society last week, Dr. Sach's statement brought re-newed hope to P. S. hundreds of thousands of stutterers throughout the United Santa Claus 1 will leave you n be tired. States. "I am happy to say," Dr. Sachs declared, "that I plece of cake on the dining table States. "I am happy to say," Dr. Sachs declared, "that I am now convinced that stuttering is an absolutely curable condition and I see no reason whatsoever why every person who stutters cannot be cured." am now convinced that stuttering is an absolutely curable hungry. son who stutters cannot be cured."

Insisting that stuttering is purely an emotional personality problem, somewhat akin to an inferiority complex. both Dr. Sachs and Dr. Greene scoffed at the idea that and I want you to bring me a tristuttering is either an organic or physical defect. The Na-cycle, a cow boy suit, a tractor, a To Bereit to a member of the tional Hospital, for Speech Disorders has cared for some little train, and lots of nuts and tod From which to produce 15,000 stutterers since its organization. Most of these candy.

"The stutter-type personality," says Dr. Greene, "is born with a highly emotionalized organic structure. Only an oppositional environment to which he becomes conditloned may evoke stuttering. The stutterer's problem is primarily one of psychological reconstruction, emotional The press of North America , er the public buys your goods or control and integration. The vast number of stutterers stands in a unique position today, those of your competitor depends in world-wide markets of trade, requires special group treatment in a specially created en- With so many natural an human vironment wherein they acquire a spiritual tranquility. Your garden right now is calling for food, food, FOOD. After the long summer's pull your trees, shrubs, and lawn are as hungry as a nest of young fledglings. Most old time fertilizers spend themselves quickly. They seep away in the soil soon after application, for want of STAYING POWERS.

SOILADE The Longer Lasting Plant Food

does not spend itself wastefully. It clings around the roots of the plant, feeds its nutrition gradually and always has a RESERVE of food for the hungry plants to draw on.

And food of THE RIGHT KIND—rich, nourishing, estisfying, to the ordinary Nitrogen, Phosphorous and Potach, SOILADE adds Manganese, Calcium, Sniphur, I s. Sodium and other rare minerals essential less, long-lasting nutriment.
