Doctor

Pennsylvania health official's "concern over the illegal use of LSD by children" apparently motivated him to invent a story that six Pennsylvania college students were blinded by the sun after taking the drug, Gov Raymond P. Shafer says. Shafer said Thursday he could offer no other reason why Dr. Norman Yoder, 53, state commissioner for the blind since 1959, fabricated the story. Yoder, suspended from his job by Shafer, collapsed after revealing the hoax, a state official said, and was sent to a psychiatric hospital in Philadelphia The governor revealed the hoax to a news conference just

a day after telling reporters he was convinced the incident occurred, based on information from Yoder's superior, Public Welfare Secretary Thomas V

Sennett said certain inconsistencies and inadequacies in the case records apparently doctored to fit the story-prompted the questioning of Yoder until he admitted the incident was false. Shafer added that a secretary in Yoder's office read the records to Yoder and he told what alterations, insertions and deletions were necessary. The story was first disclosed Jan. 12 in an Associated Press dispatch from Washington. It

quoted Yoder as reporting the ucation and Welfare official last November. The AP obtained the letter, then contacted Yoder. the hallucinatory drug together some 18 months ago, then lay DOROTHY Meadors was outnumbered force of some 200 the second stage."
