TUESDAY, MARCH 7, 1939

WEEKLY NEWS COLUMN
 By JOE NEWSBOCKS

BROADCAST POSTPONED— Chemistry & Soils, Department of Agriculture Associate Aeronautical Inspector, \$3,100, Assistant Aeronautical Inspector, \$3,100. Further information call at nearest first or second class Post Office.

WPA PROJECTS— The following projects have been approved. Grab and clear land for farm and pasture purposes at the State School for Deaf and Blind near St. Augustine, \$11,625; erect second unit of expedition building in Kaiti, \$23,000; operate a production to make quilts, etc. for free distribution to tax supported institutions in Lake County, \$4,375.

Hot And Cold

Pointing out that the heat is more deadly in the United States than the cold and accounts for nearly six times as many deaths, the Metropolitan Life Insurance Company says that nevertheless an average of 433 persons a year, or three out of every 1,000,000, actually freeze to death or die of exposure to cold.

In the unusually hot summer of 1936, a total of 4,678 deaths were caused by heat exposure, and in the winter of that year 579 persons died of the effects of cold. These facts resulted from a study of the general population for the four-year period, 1933-1937, which also shows, according to the Metropolitan, that four times as many males as females succumb to extreme cold or actually freeze to death in this country, and of these, two-thirds were men 50 years of age or older.

Also, a study of the mortality experience of the Metropolitan's industrial policyholders for the years, 1933-1937, is reported as showing that one-fourth of the victims of extreme cold or freezing were said to be under the influence of liquor. "These persons," the Metropolitan says, "were found in vacant lots, in fields, in dumps, in roadside ditches, under bridges, and in ravines."

The rate per 1,000,000 population for deaths from cold and freezing is about twice as high in Canada as in the United States. Of 11 states in eleven of our States are higher than the average for Canada. These States are: Nevada and Wyoming, each with a rate of 18 per 1,000,000; Montana, 17; Delaware, 10; Virginia, 8; North Dakota, 8; Maine, 8; New Mexico, 8; South Dakota, 7; Minnesota, 7, and Rhode Island, 7.

Though the statistics are not given for Florida, the fact remains that no one ever died from the cold in this state, and so far as we know no one ever died from the heat either.

WINGS OVER DAYTONA— The citizens of Daytona Beach can well be happy that they didn't realize what was happening until their fair city about 6:15 Monday, February 27th. I am sure they would have been frightened out of their wits had they known that their Congressman was sitting at the controls of a large Sikorsky amphibian plane owned by the Navy Department. May I assure you that I too, was frightened out of my wits every time the plane leaned, dived, or rose. If the pilot had left the cockpit I assure you that I would have left also. I was accompanying this plane to Miami and the Banana River where the Naval Affairs Committee was examining the site offered for the proposed Naval Air Base. We had planned to land at Daytona and spend the night but the pilot discovered they had no hangar to accommodate the plane. Therefore, I missed visiting my friends.

DISTINCTION— On Saturday, March 4th, the Congress of the United States celebrated its 150th anniversary. This body has the distinction of being the oldest continuously elected legislative body in the world. This should speak well for our form of government and its continuation. There naturally comes a time for change in everything and we hope the Congress of the United States will change to meet the demands of changing conditions, but will stick to our fundamental principles of government. Chief Justice Hughes spoke at the celebration on this occasion, which is a precedent.

DAYTONA BEACH THE FIRST— The United States Housing Authority is more than a year old at this time. Even though there were many millions appropriated for the construction of slum clearance projects in cooperation with State and local governments, there have not been many cities in the State to take advantage of the opportunity offered. Orlando was the first city in my District to make application for a half million dollar project. However, Daytona is the first city to have their project approved. The President signed the \$500,000 project while observing the war games in the Caribbean area. This project is divided so as to provide improved housing conditions for negroes and whites, which of course is very much needed in Daytona Beach.

CIVIL SERVICE EXAMINATIONS— Announcements of the following exams have been received. Senior pharmacologist, \$4,600 a year, pharmacologist, \$3,800, Associate pharmacologist, \$3,200, Assistant pharmacologist, \$2,600, to fill positions, Bureau of

Vayo to France and the flight of communist leaders by plane to Algeria.)

The Sanford Forum
 Woodville, Ill., Feb. 28, 1939.

To The Editor:
 Sanford, Florida.

Dear Sir:
 The May, 1938 issue of the Illinois Municipal Review had on the front page, "Ten Commandments For My Home Town", and credited same to your paper. I have read and re-read them by heart, and each time I read them, I believe I really learn more. All my friends say it reminds them of the "10" we had in the army and they get a great kick from them.

Would you be kind enough to give me permission to have a few hundred copies mimeographed for distribution throughout our community?

They are much too good to keep to ourselves. Please excuse writing but two weeks of the "flu" has left me very shaky.

Hoping to hear from you I remain,

Sincerely yours,
 A. L. WELTON,
 Woodville, Ill.
 R. 1 Bensenville, Ill.

THE LONG VIEW PROVES THIS: But the liberal devilish things shall be stand.—Isa. 52:18.

FOR AMELIA EARHART
 (From The Ladies' Home Journal)
 We shall never think of you with wings,
 And courage quite indomitable,
 And gay,
 We may forget such dear and intimate things,
 As tumbled hair, and laughter,
 And the way
 You waved from cockpits, and the times we said
 "You so resemble Lindbergh—or he you—"
 And even this: with what concern we read
 That you were lost somewhere beyond the blue,
 And that there will be the thought of wings above
 Both land and water when your name is spoken
 (Spoken with kindly reverence and love)
 And there will be this heritage:
 An unbroken
 And beautiful courageousness you gave
 Us who have much to learn of being brave."
 —ELAINE V. EMANS.

State Highway No. 44, long promised but even longer delayed, now seems destined for early completion. It will provide a new short route to the coast.

"The Strange Death of Adolf Hitler" is being published. The idea seems to be whether Germany is now ruled by Adolf Hitler, or by another man named Adolf Hitler.

The idea seems to be that the more state canal won't have any adverse effect on Seminole County agriculture, providing the Weather Bureau succeeds in changing our rainy season from summer to winter.

Arthur Hayes Sulzberger, publisher of the New York Times, says every newspaper has a right to be as partisan as it wants to be. We were glad to hear that coming from such an outstanding authority because we have always been in favor of or against everything in which we have ever been interested; and we like other people who know which side of the fence they are on.

Discussing the possibility of Senator Parrish's running for governor, the Titusville Star-Advocate says, "Mr. Parrish has not said that he will be a candidate; neither has he denied it. The probability is that he has not made up his mind." If the Senator decides to run, he will make a formidable opponent; and if he is elected, he will make an honest, capable, and efficient governor.

W. G. Sewell, owner of Miami's Sunnyside store, brother of the late John Sewell, who built the Palm Hotel, Miami's first hotel, has been elected mayor of Miami following a recall election in which the old administration suffered a stinging defeat. This is the first time Sewell's first venture into politics. He has been mayor twice before, was for a number of years a member of the commission.

The voters will be interested in the following story. In Dallas, Texas, a woman caught on fire in her home. She was wearing a nightgown and a hat, and she was trying to get out of the house. She was rescued by a neighbor who threw a bucket of water on her. She was taken to the hospital and died. The cause of the fire was a candle that had tipped over.

The Democratic Way

Contrasting the dictatorial way in which the authoritarian states of Germany and Italy operate, wherein the people either like it "or else", Miami has just had a recall election in which its mayor and two city commissioners were ousted. This was a manifest example of how evils in civic administration can be corrected by the simple manner of the ballot box, instead of by bullets, which would seem to be the only way out in dictatorships.

However, as the Tampa Times reveals: "It wasn't easy in Miami." According to the Tampa editorial, "The recall movement was started a year ago. Many times during that period recall leaders, beset on every side with delay and indifference, must have had that familiar thought, 'Oh, what's the use?' The recall was fought in every way possible, including some legal ways available in the courts. Even the United States Supreme Court was asked—but refused to act on—a petition bearing the name of former Chief Justice Ellis of the State Supreme Court who assailed in representing the opponents of the recall.

"So all the rights of the recalled city officials were fully protected and the right of the citizens of Miami to express their will through the ballot box was also fully upheld, with the result that the mayor and two city commissioners were recalled by an average of four votes to one and new commissioners elected to take their places. The election was held under Circuit Court supervision."

What a pity the world can't have a recall election against Hitler and Mussolini and change the ruthless and war-like spirit which these two leaders are stirring up in all parts of the globe.

NEWSPAPER SUPPORT
 PALM BEACH POST

"The sanest newspaper in the United States does more for its community than the finest community in the United States does for its newspaper."

Thus spoke Karl Lehmann, secretary of the Lake County Chamber of Commerce and well-known Floridian, before a Sanford civic club the other day.

Organizations for community betterment, said Mr. Lehmann, whether religious, educational or civic, require cooperation of the newspaper before they can hope for any measure of success. He suggested "that since the editor gives so much of his merchandise, which is space, to the community, it is only fair for the community to return this service in the only way it can, by purchasing advertising space and subscriptions from the editor."

Newspapers, quite naturally, will welcome Mr. Lehmann's words as an expression which modestly prevented them from originating. But they should be taken as a wall of loneliness, a cry that newspapers are misunderstood and under-privileged. (Though often enough they are both.)

For newspapers want to perform these community services. They want to help the community progress. They want to publicize Kiwanis benefits, Good Samaritan drives, Salvation Army campaigns, Convalescent House construction, to mention only a few out of more than a hundred locally.

It should be remembered, however, that the newspaper must be a commercial success before it can perform its community service functions. A newspaper which is losing money cannot afford to give away large amounts of its costly merchandise—space—and a newspaper which is struggling to make ends meet can't carry a staff large enough to do both the job of getting the news and the job of handling the publicity, hence, some of those who

Howell Appeals To Pardon Board In Jarrell Case

(Continued From Page One)
 should either resign that office or be impeached.

A second indictment, composed of five counts, has been found against Joe Jarrell in connection with all this Cuba investigation, and I consider that I have good reason to believe this second indictment was found at this particular time for the sole and expressed purpose of confounding your honorable body and defeating the petition for pardon of Jarrell. Apparently, they wish to throw a vast cloud of alleged further transgressions by Joe Jarrell before your eyes, so that instead of seeing the case as it really is you will instead see him as an individual criminal.

"As to the Cuba game, it has been played over the greater part of Florida, in nearly every city and town for 20 years. Cuba is not crooked, this having been proven time and time again, and the numbers are not even thrown in Florida, being drawn in Havana, Cuba every Wednesday, by the Cuban Government. And the profits thereof go toward the supporting of an orphan's home, Jitting Cuba, or holding the winning number, is not at all uncommon, in fact it is a matter of common knowledge that the backers of the game in Sanford are nearly broke. True, many lose nickels and dimes every week, but it is also equally true that many win dollars every week and these same dollars are spent right here in Sanford among the business men.

"I am informed that during the past year or two a sum of around \$5,000 has been collected in fines from the backers and settlers of Cuba here in Sanford. After the paying of which fines these so fined were permitted to go free, and naturally in many instances they continued to back or sell Cuba. From the start, it has been apparent that somebody had it in for Joe Jarrell, for he was but one of many who were accused of being active in this game, yet to date he is the only one brought to trial and convicted. It was not enough to drag this boy into court and force him to stand trial for something which others have done for many years previous and which many others were engaging in at that identical time. Joe Jarrell was not only prosecuted but persecuted as well. Time and again, his name was dragged from page to page of the local newspaper in many different places, all of which didn't help his matter a bit. His, with hair turned gray, as of a broken heart, now faces the extremely bitter torment of the possibility of his boy going to prison.

"Much has been said and written about the fact that John Howell is a member of the Sanford High School Athletic Club, which is a fact which is well known to all.

CITY BRIEFS

(Continued From Page One)
 an announcement Tuesday by County Agent C. R. Dawson.

The regular meeting of the Sanford Lodge F. and A. M. will be held in the Masonic Temple tonight at 8:00 o'clock, according to an announcement today by Worshipful Master J. K. Smith.

The part of athletics in the high school curricula will be outlined by Coach Leonard McClellan, Seminole High School mentor, at the weekly luncheon of the Kiwanis Club in the Valdez Hotel Wednesday at noon.

Major Baker of the U. S. Army was a visitor to the Army last night when he inspected the work and personnel of the three local National Guard companies, an inspection preparatory to the annual Federal inspection to be held next month.

An important meeting of the Junior Chamber of Commerce will be held in the Valdez Hotel tonight at 7:00 o'clock, according to President James E. Rowland, Jr. who urged a full attendance of members. The nominating committee will make its report.

The freshmen girls at Seminole High School will stage a first aid demonstration at the high school chapel tomorrow morning at 9:45 o'clock, according to Mrs. Dorothy Lamb, instructor. The girls have been given 15 hours of training in this work under the auspices of the local Red Cross Chapter.

remind all and sundry that he was elected Mayor of the largest city in Florida, Jacksonville, on four consecutive occasions, also that he was elected Governor of the great State of Florida, which in itself is sufficient proof of the high regard felt for this man by thousands and thousands of Florida citizens.

"As you know, no man has ever served one day in prison for backing or selling Cuba. Gentlemen, I believe your honorable body will treat Joe Jarrell's case with the kindly consideration it so richly deserves. I would point out to you that Joe is a member of what is perhaps the greatest labor organization in all the world, The Brotherhood of Locomotive Engineers, and if you in your mercy will turn this boy loose and send him home to his wife and his mother, I can assure you that every last member of the 25,000 men comprising this vast organization, throughout the length and breadth of the greatest country on earth, will reverse you in almost every respect, and hence you become just as men who have no money in your hands, not valiantly take and

New Revolt Is Reported In Madrid's Army

(Continued From Page One)
 ward direct peace negotiations. Lull settled over the fronts but insurgent bombing planes continued to batter Mediterranean coastal towns, apparently in a belief that the rebellion still was going on at Cartagena.

Reports abroad of further fighting in Cartagena and a revolt at Murcia brought an official announcement that "perfect order" prevailed at those towns as well as Valencia, Madrid, Real Jaen and other loyalist centers.

Everywhere there seemed to be buoyant hope of an early end of the war, providing Franco was willing to offer a peace with honor and assurances. Otherwise, it would be a fight to the finish, the new leaders said.

Insurgent officials at Burgos said that the Loyalists had thrown off the "Yoke of Moscow" as represented by Negrin and his communist supporters and that there were hopes of "an immediate pacification of Spain without further fighting."

Canada, like Julien Besteiro, second in rank on the new airman's land around Madrid where Franco was massing 800,000 troops for the biggest blow of the entire conflict unless the new army regime surrendered, paved the way for direct negotiations with the triumphant Insurgents.

The moderate Canada, whose first act after wresting power from Negrin was to oust all communists from government positions, announced that the new national defense council had pledged the support of the entire loyalist military and naval forces as well as the nine republican provinces of the Madrid-Valencia zone.

(Frontier reports said the Canada junta had initiated a crusade of reprisals against the communists, arresting hundreds of them and compelling others to leave Madrid, after learning of the escape of Negrin and Def

Labor League Is Called Political CIO Organization

(Continued From Page One)
 are getting better, labor is better organized and understands things better," he asserted.

Governor Coss, who was introduced by Mr. Hill as a "pioneer in labor legislation," recalled the enactment of the first Child Labor Law in Florida in 1907 when he was a member of the Florida Legislature. He commended the work of organized labor, declaring that working conditions have improved all over the United States.

"I hope your efforts are successful because they are for the benefit of the people of the country. My sympathies are with organized labor," he asserted.

A similar legislative was introduced in 1913, which was passed in 1914.

Scott's Nose Out St. Johns Ten 6-5 In Extra Session

Power Crew, Planters Meet Tonight After Colery Hearts, NYA Girls' Play Opener

By BUD FORD

Scott's Services needed an extra session to finish their power-crew and planters job on the St. Johns Trucker 6-5 when they played the softball park on the night of last night.

Things got under way for the power crew in the last half of the fifth when Higgins second was pulled out a double. Cole and Altman were safe on first's check. Dyer scored in swinging and drove in a long double to left center. Higgins and Altman; and Scott scored later after two runner errors had prolonged the game.

The Trucker came back in the first half of the second to utilize a game tossed to Atkinson. He pulled on his very on an error and later took home for the only runner run of the inning.

Things went along peacefully through with the score 3-1 against the Trucker until the first of the fourth when Mattox, Scott scored, slugged out a pass to Cole and the Trucker left fielder, and then MacMillan slugged out a double scoring Cole, ending on a pass with the tying run on a batters' error.

The proceedings were again enough until the start of the fifth when, with two down, Scott scored on a pass to Higgins. He later stole home on a wild pitch.

The pump machine tied things up again in the last half of the fifth when Mattox was safe on an error, advanced to second on a wild pitch and then scored on Higgins' long single to left.

The Trucker retaliated in the last of the sixth when Mattox slugged out another pass to Higgins who promptly stole second and then scored standing on Dodson's double.

The Services bounced back in the last half of the seventh to reach the same position when Scott was safe on an error on third advanced to second and then tied up the game when he scored on White's double.

Another scored in the eighth. The Trucker failed to hit the first of the eighth to do anything conclusive.

In the last of the eighth Altman slugged out a pass to Higgins who came on in with the long double run on Altman's long double run on the left field line.

Both pitchers went the full game, Mattox doing the mound work for the winners while Altman did the hurling for the losers.

Tonight the Colery Hearts and the NYA girls scramble it up in a friendly fashion in the first game of the evening (started for 8 P. M.).

Second game at 8:30 o'clock when the Florida Power and Light crew into executive session.

Americans Spend Four Billion On Sports Annually

Caddy Bill Is More Than Payroll For U. S. Professors

NEW YORK, Mar. 7.—(AP)—America's caddy bill is more than the payroll for professor.

It is \$70,000,000—exclusive of tips.

There are 3,500,000 golfers in the U. S. They spend \$500,000,000 a year on the game, or an average cost to the group of \$140.

Americans spend \$4,000,000,000 a year on sports.

Angling tops the list with \$1,200,000,000. Other sports bills in order are:

Firearms (hunting)—\$650,000,000.

Motor boating—\$600,000,000.

Golf—\$500,000,000.

Bowling—\$450,000,000.

Skiing—\$150,000,000.

Attendance group—\$260,000,000. (This includes admission fee and all normal costs for attending all forms of athletic contests.)

Miscellaneous—\$190,000,000. (This includes cost of equipment and expenses involved in such sports as billiards, tennis, table tennis, rowing, court tennis, racquet, squash, handball, fencing, etc.)

These are a few items gleaned from the recently published Encyclopedia of Sports by Frank G. Menke, 225 East 45th Street, New York City. In the book's more than 300 pages, Menke gives the history of almost every sport together with interesting and unusual information about each.

Other Menke data:

Softball outruns baseball and basketball outruns 'em both. There were 90,000,000 paid admissions to basketball last year. Softball drew 72,000,000 and baseball 60,000,000. Football attracted 45,000,000 and boxing 22,000,000. Tennis drew only 900,000.

Biggest single day's attendance: Auto racing, 165,000 at Indianapolis on Decoration Day, 1933. Baseball, 84,555 at Yankee Stadium, New York vs. Boston, Decoration Day, 1933. Basketball, 23,000 at Peiping, China, tournament in 1931. Boxing, 125,787, Dempsey-Tenney, Philadelphia, September 22, 1926. Corn husking, 130,000, 1933 championship, Newton, Ind. Football, 112,912, at

Denny Gog Stages Surprise Win Over Big Ick At Oval

race in easy fashion and paying \$29.60 to do it.

Denny Gog surprised the crowd at the Sanford-Orlando Kennel Club last night when he came from behind Big Ick to win the feature futurity event.

My Valentine Jr. who undoubtedly would have been co-favorite with Big Ick, was scratched.

Denny and Ick broke out on top of the pack, taking advantage of the empty two box where Junior would have been had he been running.

Ick turned on the heat and went to the top rounding the final curve. Then on the last lengths of the backstretch, Gog made a determined bid only to check as they approached the cut-off.

He was second rounding the final turn for home and then went on to win by several lengths. Gay Hop gave Ick a tussle for second midway.

The daily double was won by the 4-4 combine—Helen Giddy and Dixie Star. The purse paid \$120.

Parmak ran himself back into the hotbox by taking the eighth.

Soldier Field, Chicago, Notre Dame-Southern California, November 16, 1929. Horse racing, 100,000, last year's Kentucky Derby.

Field hockey is the sire of all ball-and-stick games.

Next to field hockey, lawn bowling is the oldest game.

There are 104 breeds of dogs, all belonging to one of the six major groups: Greyhounds, wolfhounds, hounds, spaniels, terriers and mastiffs.

Handball was invented by the Irish in the 10th century.

One billion dollars is bet annually on horse races in the U. S. and \$100,000,000 is deducted in breakage and state and track fees, at mutual tracks.

Joe Louis's punch travels 127 miles an hour. Jack Dempsey's had a speed of 135 m.p.h.

Jal-alai was invented in the 10th century by the Basques.

A combination of running and hurling was man's first competitive sport. Throwing was second and wrestling was third.

And baseball is all wrong celebrating its Centennial this year, For, Menke says, (1) baseball was played long before 1839; (2) it probably never was played in Cooperstown, N. Y.; that year; and (3) Abner Doubleday neither created the game's rules nor laid out the first diamond.

Annual Orlando Horse Show To Be Held Mar. 10-12

Entries From Nation's Finest Stables To Take Part In Events

The third annual Orlando Horse Show will start Friday, Mar. 10 for a three-day session studded with entries from some of the nation's finest show horse stables. Fully 100 horses from out-of-State are expected for the show which will be held at the Orange Blossom Stables on Tampa Avenue.

Night and matinee performances will be held Friday and Saturday with the grand championship \$200 five-gaited and three-gaited stakes scheduled to be the highlights of Sunday afternoon's closing performance.

Despite the calibre of outside competition, the major threats to win the major stakes are R. D. Keena's Orlando pair, Night Flower and Royal Entertainer. Both have registered victories in the Jacksonville show, opening stop of the four-show Sunshine Circuit. Night Flower topped the five-gaited division while Royal Entertainer headed the three-gaited class.

It is expected, however, that another Orlando exhibitor, Roy McCormick, will furnish Keena with all he can handle in the five-gaited class. McCormick has entered Menard Beauty, chestnut mare which finished third in the novice class at the Jacksonville show. She is a wonderfully fronted mare has smart ears and a lot of lick. One slip for Night Flower and McCormick's horse might be the winner.

Another one of the favored five-gaited entries is Mountain Melody, mare, owned by Mr. and Mrs. T. B. Stanley of Stanleytown, Va. She is a beautiful horse, six years old and goes well under the capable supervision of E. G. Gilmore, trainer for the Stanley's.

Competition for Royal Entertainer will be provided by Mountain Molly, runner-up to the Keena horse at Jacksonville. The mare is owned by Mr. and Mrs. J. V. Robinson of Greenville, S. C. She is entered in the \$250 three-gaited championship; three-gaited class under 16.2 and the combination three-gaited class. It's worth the price of admission to watch her step.

GREYHOUND ENTRIES

FIRST RACE—Futurity:
 Gladys Scott, Attempt
 Stella Grove, 1st Engine
 Yuccaville, Arrow Star
 Uradoupe, Cashward
SECOND RACE—Futurity:
 (First Heat of Daily Double)
 Bobby Brown, Hasty Flash
 Harry Jim, Sam Jackson
 Sam Jackson, Prince Fox
 Harry's Tiger, Hani Hart
 (Last Heat of Daily Double)
 Harry Day Again, Sahara Shook
 W. L. W., Knotted King
 Fisherman's Lk, Fisherman's Lk
 Jerry Gitt, Verna's Babe
THIRD RACE—Futurity:
 Mike Parrish, Just Life
 Charlie D, Lady Lou
 Letta Lad, Ducky Lad
 Leta P, Leta P
FOURTH RACE—Futurity:
 Krupp's Pet, Silver Friend
 Quack Puss, Shaded Boy
 Quack's Pal, Teddy Carl
 Denny, Rabbigator
FIFTH RACE—Futurity:
 Jack The Ripper, Kippy
 Mary Granna, Silver Hero
 Eddie Ray, Wild Chum
 Stella, Bold Venture
SIXTH RACE—Futurity:
 3-16 mile:
 Caliber, Mack's Princess
 Wilbur Springs, Looked Gold
 Lucky Purples, Fast King
 Nifty Nuts, Chief Pilot
SEVENTH RACE—Futurity:
 Running W. W., Lizzie Tactician
 Nifty Nuts, Just Forgotten
 Northern Spy, Buster Boy
 Cow Cop, Silver Blade
EIGHTH RACE—Futurity:
 3-16 mile:
 King Ruddy, King Ruddy
 Black Molly, Gay Dan
 Yalveston's Boy, Rita's Pride
 Snowy China Boy, Duddy Star
NINTH RACE—Futurity:
 3-16 mile:
 Check Back, Somers Hornham
 Railway Day, Fortune
 Fawcett, Burr Guz
TENTH RACE—Futurity:
 3-16 mile:
 Perfect Sparks, Father's Gift
 Cotton Daily, Andy Mills
 'Oa Deer, Weary Sky
 Slim, Don Doland

Bob Pitman Is Named Recreational Director

BARTOW, Mar. 7.—The City Commission in special session here appointed Coach Bob Pitman as recreational director for the city of Bartow for the four summer months from May 11 to Sept. 11 at \$200 per month. The program for the Summer will be arranged by the civic center committee.

Pitman is known throughout South Florida as the coach of Summerlin's football and basketball teams which have won 100 per cent of the games played the past season.

Advocates Of Ship Canal Ask Its Completion

Buckman Attempts To Show Public Is Demanding Waterway Across Peninsula

Opponents To Be Heard On Friday

Defense Value Of Project To Be Discussed By House Group

WASHINGTON, Mar. 8.—(AP)—Friends of the Florida ship canal urged the House Rivers and Harbors Committee today to recommend the completion of the \$200,000,000 waterway.

H. H. Buckman, consulting engineer for the Florida Ship Canal Authority, read into the record a letter in which President Roosevelt asked for the revival of the project.

Informal railroad spokesmen wanted to be heard, to which Hankin replied "All right but want to serve notice I'll expect them to put somebody on the stand who can answer my questions about discriminatory freight rates."

Chairman Mansfield said the railroads were taxpayers and entitled to be heard, to which Hankin replied "All right but want to serve notice I'll expect them to put somebody on the stand who can answer my questions about discriminatory freight rates."

Sam Byrd Seeks Negro Cast For Broadway Play

Sam Byrd, Sanford boy who made a successful migration to Broadway, is in Tampa after a 4,000-mile trip through the deep south in search of a hand-picked negro cast for Roark Bradford's play, "John Henry," which Sam will produce this fall.

Sam spent the last month in New Orleans with Bradford, famous author of negro stories and creator of old man Adam and his "chillun," and is now on his way back to New York.

He is stopping in Tampa for a brief visit with his sister, Mrs. Ruth St. Johns.

During his southern circuit the former University of Florida boy "discovered" nine negroes, all sure enough southern blacks, whom he will take back to Broadway to appear in his "play with music."

He found them at negro revival meetings, among negro serenaders and in the negro sections of the southern country through which he has traveled in quest of a "John Henry."

To date no "John Henry," who must be a powerful black equal to the role of the legendary cotton loader and pile driver, has been located.

He will, however, be chosen before August, when the play goes into rehearsal.

"John Henry," as it was written by Bradford and as it will be produced by Sam in October, sets a precedent for theatrical production. Its dramatic action, shifting from rhythmic scene to scene, will be accompanied by orchestration and the voices of an all negro cast. All scenes must be a powerful black equal to the role of the legendary cotton loader and pile driver, has been located.

He will, however, be chosen before August, when the play goes into rehearsal.

Boyle Says State Ready To Try Jarrell Case At Once

By GLENN GOVOCEK "I am ready to go to trial with the new case against Jarrell tomorrow morning. Are you ready?" Assistant State Attorney Lloyd F. Boyle asked George A. DeCottes, attorney for Joseph W. Jarrell, convicted "Cuba" operator, in my presence at the Court House this morning. Mr. DeCottes was leaving the Court House after filing a plea in abatement, seeking to throw out the second indictment against Jarrell on the grounds that the Grand Jury for this term of court was improperly drawn by Circuit Judge Millard B. Smith. It was not indicated when a ruling would be made on the plea.

"I understand your client is seeking an early trial," Mr. Boyle told the attorney for Jarrell, who was indicted several days ago by the Grand Jury for conducting a lottery in Seminole County from November 1938 to February 1939. Mr. Boyle added that a plea of guilty is "already drawn" and the State has everything in readiness to prosecute its case "if you are ready."

"I have just filed a plea in abatement," Mr. DeCottes replied, adding that he would await a ruling of the court before taking any further action.

"After the Judge rules on the plea in abatement will you be ready to go to trial?" Mr. Boyle asked, adding that he would seek an early ruling or immediately file information in the case if the attorney for the defendant so desired.

"When will you be able to go to trial?" asked Mr. Boyle. "About Monday," was the reply.

"But your client must leave Monday for his hearing before the Board of Pardons and Paroles," Mr. Boyle said.

McLucas Outlines High School Sport Program At Lunch

Kiwanians Told Of Problems In Financing Athletics

Coach L. L. McLucas today briefly summarized the results for the year of the athletic program of Seminole High School in an address before the members of the Kiwanis Club at their regular Wednesday noon luncheon at the Valley Hotel.

Starting with football, Coach McLucas went on to explain how football must carry financially the other sports of the school which do not draw the gates this Fall sports does.

He mentioned the expense involved in placing a football team on the field. It costs \$48.40 per man just to get suits and proper protection for each man, and the cost per game averages \$170 for the seven home games played last season.

Added to this was the cost of various "incidental" tackling dummies, transportation costs and other items which when subtracted from the \$2,700 grossed at the gate last year left approximately \$300 to the financing of the remainder of the athletic program of the school.

Other sports, including basketball, tennis, and track, although not as expensive as football, do not draw the crowds and therefore must be supported by football.

Coach McLucas reminded the members of the club, "That in the last nine years we have not asked the merchants or business men of Sanford for one cent of donations, or solicited advertising from them for the support of Seminole High School." (Continued on Page Two)

BOTH DIE AT 90 CLEARWATER, Fla. —(AP)—D. Grundy and his wife, Mrs. Elizabeth Grundy, were born on the same day at Bolton, Lancashire, England. Mrs. Grundy died here at the age of 90. The next day her husband died.

JUST SOUND EFFECT OXFORD, England. —(AP)—Bullets smashed several college windows here but police decided the missiles were fired from a catapult while a noise-maker was employed to fake the explosion.

Gov. Cone Urges Law Enforcement Officers To Rid State Of Gambling

TALLAHASSEE, Mar. 8.—(AP)—Governor Cone and Attorney General Gibbs started a drive today to close up and keep closed all gambling places in Florida. The governor wrote the sheriffs to arrest operators and gamblers, including all types of gambling, such as roulette, blackjack, crap games, marble betting, pin table machines, slot machines, billie and all other types of gambling.

Business Gets Positive Action

Hopkins Is Seeking To Back Up Statements With Immediate Co-Operation

Secretary of Commerce Hopkins promised business today a positive action to back up promises of co-operation in recent statements of administration leaders.

He said he was conferring daily with officials in various agencies of government on means of helping business but did not want to talk about details until something actually was done.

House Democrats rallied their forces today in an attempt to give the government re-organization bill through a barrage of Republican amendments. They demanded a quorum call to bring absent members into the chamber.

Meanwhile, the House Appropriations Committee submitted a recommendation for a \$160,578,905 appropriation for the Interior Department for the next fiscal year.

Labor peace conference committee, representing the CIO and AFL, recessed for the present, to meet again in New York City, March 10. At that time they will consider proposals made yesterday by the CIO and any new suggestions offered.

Labor Federation Opposes Labor Law

JACKSONVILLE, Mar. 8.—(AP)—The Florida Federation of Labor, in a convention here, voiced opposition today to the enactment of any form of sales tax by the State Legislature during the session starting next month.

The delegates representing all classes of workers in the state declared they were opposed to the restoration of poll taxes as a voting prerequisite.

The convention also passed resolutions calling upon the Legislature to make the Florida Unemployment Insurance Law cover each single working man and not be restricted to those who work in groups of eight or more.

Mrs. Eckles Thanks Firemen For Aiding

Mrs. T. A. Eckles today expressed her appreciation to the Sanford Fire Department for their "quick and efficient" response to her call yesterday when her barn caught fire.

Mrs. Eckles, who lives approximately five miles south of Sanford, called the Department yesterday when it appeared that the fire might ignite other buildings on the premises.

The Fire Department with the spread of the fire, thus limiting the loss to the barn.

RELIEF SUPPLIES BURN FORREST CITY, Ark. —(AP)—Fire yesterday destroyed a warehouse, approximately \$4,000 worth of relief commodities and 18 mules. Total damage was estimated at \$11,000. Cause of the blaze was not known.

MARTIN HEADS UAW DETROIT —(AP)—Homer Martin's convention of the strike-divided United Automobile Workers elected him president last night and demonstrating delegates, rushing to the platform, seized him and carried him around the convention hall on their shoulders.

South Louisiana oil production averaged around 184,000 barrels daily during 1938.

Mrs. E. D. Mobley Gets Welfare Job

TALLAHASSEE —(AP)—Gov. Cone today appointed Mrs. Edgar D. Mobley of Sanford to District No. 12 Welfare Board for Seminole County. She succeeds Mrs. A. C. Wagner, who resigned.

John Martin Comes To Aid Of Jarrell

In Letter To Herald Former Governor Explains Kinship, Defending Operator

John Martin, former Governor of Florida and later a candidate for United States Senate, today came to the aid of Joseph W. Jarrell, convicted "Cuba" salesman, and explained his kinship with Jarrell in a letter to the editor of The Sanford Herald.

Former Governor Martin revealed that he had asked Gov. Cone to grant Jarrell a 60-day reprieve in order to give him a chance to go before the Pardons Board before beginning his one year sentence and declared that "those who know him (Jarrell) know he is not vicious or mean, and nothing can be gained by sending him to the penitentiary for one year, when other punishment could be had that would teach him to obey the laws of the State and give him an opportunity of going straight in the future."

Martin's letter in full is as follows: "Jacksonville, Fla., March 7, 1939.

"Mr. Roland Dean, Editor, The Sanford Herald, Sanford, Florida.

"My Dear Mr. Dean: "Since the indictment of Joseph W. Jarrell in your County some year and a half ago, you very excellent paper and other papers in your locality have stated repeatedly that Joseph W. Jarrell and myself are vicious and unduly degenerate."

The writer desires that you may have the correct information on this subject, and has no idea of disclaiming any kinship with Joseph W. Jarrell. His Grandmother and the writer's Mother were sisters. The writer to set at rest the degree of relationship between Joseph W. Jarrell and John W. Martin, which he is in no wise disclaiming or has any desire to conceal from the people of your splendid County.

"Had Joseph W. Jarrell done something meritorious, the writer is sure that you never would have mentioned the degree of relationship. You could have said, 'That he is a descendant of Daniel Boone, and that he is a Great-Grandson of James B. Owens, who organized the Pineapple Orange of Florida, and I think he was distinctly related to George Washington's wife. However, this genealogy of Mr. Jarrell would not have interested you, because these others are dead and I feel sure that you really wanted to do was to reflect on the living."

"The writer must state that he feels very sorry for the young man, and regrets extremely that he should have violated any laws of the State of Florida, particularly the gambling laws. The writer is not an advocate of gambling, and must say, just by way of explanation, that he has never played a game of Poker in his life, bet on a horse race, or swam near a dog race, and in no way had anything to do with gambling and holds no brief for gambling whatsoever.

"You also state in your column that powerful political influence will be used to cheat the State and County of its just demands in keeping Mr. Jarrell from going to the Penitentiary. This is not correct, insofar as the writer is concerned. The writer had never laid eyes on Joseph W. Jarrell but twice before he got in this trouble. At the request of his widowed Mother, he interested himself in the matter. Jarrell cannot be altogether bad; when he was nothing but a boy, he went to work on a railroad locomotive as Fireman and earned enough to support his Mother and his younger brothers.

"The writer did ask Governor Cone to give this young man a sixty day reprieve, in order that he might make provision to take care of the nice little lady he has married, if he has to go to Sanford, and to possibly give him the opportunity of asking the Pardons Board to reduce a most severe sentence given a young man for a first offense. And I am happy to say that Florida's big-hearted, big-handed, 'No' Governor had manhood enough to do it.

"In connection with the present case, I am sure that the people of Florida will be glad to know that the writer is not a gambler, and that he is not a supporter of gambling."

ANDREWS SEEKS OKEY OF FLORIDA AIR BASE WASHINGTON, Mar. 8.—(AP)—Senator Andrews, of Florida, said today he would make a determined effort to include in the naval air base bill a proposed base for the southeastern United States, at Jacksonville, Fla. Authorization for this base was not included in the bill passed by the House.

"The southeastern United States is four or five times as likely to be attacked as the North Atlantic coast," Andrews told reporters. "Democracies of Europe stand between the northern coast and possible opponents. The Caribbean sea will be in the battleground if an attempt ever is made to overthrow the Monroe doctrine."

ANDREWS SAID HE FAVORED THE \$5,000,000 GUAM HARBOR IMPROVEMENTS REJECTED BY THE HOUSE BECAUSE HE THOUGHT IT WOULD BE WORTHWHILE AS AN AID TO COMMERCIAL AVIATION AND TRADE.

AUSTRALIAN PAPER BURME, Tasmania.—(AP)—A pulp and paper plant here has turned out what are said to be the first papers in the world to be completely manufactured from eucalyptus wood pulp.

Jarrell Issues Statement To Public On "Cuba" Case

In a signed statement given The Herald for publication today, Joseph W. Jarrell thanked all those who have signed his petition to the Pardons Board and denied that he is guilty of the recent indictments filed against him by the present Grand Jury for continued violations of the State's lottery laws.

Mr. Jarrell's statement in full is as follows: "I desire to thank the people of Seminole County, who have so kindly signed my Petition to the Pardons Board of the State, where I propose to ask the Pardoning Board to reduce or commute the very severe sentence given me last Fall.

"I would not take this means of thinking them, but it is impossible for me to see them all in person, and since the Grand Jury of the County has indicted me again, alleging other offenses, I particularly want to assure them that I am in no wise guilty of these recent indictments, and that I have had nothing whatever to do with any gambling in Seminole County since November, 1937.

"These recent indictments by the Grand Jury allege that I have been guilty of promoting gambling in Seminole County in November and December, of last year, and January, of this year, which is absolutely untrue, and I most positively deny that I have done any such thing. Had I been guilty, I would not ask anybody to sign my Petition to the Pardoning Board.

The facts are that the Assistant State's Attorney, immediately after I published in the paper that I would apply to the Pardoning Board to see if I could not get them to reduce the severe sentence given me, recalled the Grand Jury on the last day of the Term and had them reconsider me. The Grand Jury considering no other case, the Court adjourned, and now I won't have (Continued on Page Three)

George Rollins Will Head Salvation Army Fund Drive

George E. Rollins, City Commissioner and traffic superintendent for this division of the Atlantic Coast Line Railroad, has accepted the chairmanship of the annual Salvation Army fund campaign, according to an announcement today by Capt. H. E. Rose, commanding officer of the local Citadel.

Mr. Rollins, a man who is well known in this county and well liked by all who know him, Capt. Rose said, adding that "in addition to being a member of the City Commission and a railroad superintendent, Mr. Rollins is president of the Rotary Club and in general is interested in all worthwhile civic and philanthropic enterprises."

Following a previous announcement that Charles E. Broadshaw, of Altamont Springs, would be chairman of the annual drive, Mr. Broadshaw declined to serve because his business required his being out of town much of the time and he said that he would be unable to give the campaign as much of his personal attention as he desired.

He expressed an interest in the work of the Salvation Army, however, and assumed Capt. Rose that he will assist in any way possible to make the annual campaign a success, according to Army officials at the campaign headquarters on Magnolia Avenue between East and Second Streets.

Mr. Rollins announced that J. W. Hall, manager of the Sanford Gas Company, had been appointed vice chairman of the drive and that plans are under way for the appointment of a corps of workers to assist in the county-wide campaign for funds to carry on the activities of the Salvation Army during the ensuing year.

Those desiring to get in contact with campaign workers may do so by visiting the campaign headquarters on Magnolia Avenue or calling telephone No. 644.

THE TOWNSEND CLUB WILL MEET Thursday night at the Court House on its regular session instead of Sunday night as was erroneously reported in Tuesday's paper.

VOTE TIED UP FORT MYERS.—(AP)—A race between John Egan and H. C. Case for the city council post from the fifth ward ended in a tie yesterday. The candidates, both citrus growers, each received 161 votes.

Economists calculate that industrial production the first of 1939 would have to be 156 percent of the 1928-29 average to give full employment to all available workers.

Judge Smith Denies Motion Filed By Mayo

Circuit Judge Holds Eckerson Contracts Do Not Preclude 32-Cent Payment

Supreme Court Will Get Case

Grimes Says Commission Anxious For High Court Ruling

On the grounds that the grower contracts of the Eckerson Fruit Canners, Inc. do not preclude the grower from obtaining the cost of production for his grapefruit, Circuit Judge Millard B. Smith, in a ruling filed this morning, denied the motion to dissolve and the motion to dismiss the temporary injunction granted to C. H. Eckerson, president, last week, restraining Mayo from interfering with the operations of the local plant.

The local suit is the first actual test of the legality of the law which permits the Citrus Commission to set the cost of production as the minimum price for Florida grapefruit.

Given 15 days in which to answer, Glen Grimes of Bradenton, attorney for the Citrus Commission, said defense attorneys planned to appeal Judge Smith's ruling to the State Supreme Court immediately "unless there was something in the decision that prevented it."

"We are anxious to get a Supreme Court ruling on the constitutionality of the grower cost guarantee law one way or the other so we can go to work," Grimes said.

The coming plant proposed by Eckerson to growers in the area in coming then grapefruit. The grower then would have 90 days to dispose of the fruit and if it remained unsold at the end of this period the grower would sell the fruit and give the proceeds to the grower after deducting the processing cost and a commission.

George A. DeCottes, Eckerson's attorney who obtained the temporary injunction, told the court here last week the growers cost guarantee law was unconstitutional.

He said the statute impaired the right of producers to make contracts.

Glen Grimes joined former Governor Boyle E. Carlton and William Pierce, both of Tampa, and Assistant Attorney General H. E. Carter in asking Judge Smith to dismiss the suit.

When Eckerson and the growers were notified of the court decision, they were given a plan to circumvent the minimum price program. They asserted that an advance by the cannot prior to the sale of the cannot product would be, in effect, all the producer would get.

The ruling is as follows: "Accepting as true, as on the pleadings here involved we must, the allegations of the bill of complaint, it does not seem to me that there is anything in the contract involved which would warrant a finding that it is a contract, plan, scheme or device whereby it shall be attempted to preclude the grower from recovering the cost of production." The only kind of a contract the Growers Cost Guarantee Act declares void is one attempting to preclude the grower from recovering cost.

"It was suggested in argument that in any event a contract whereby grapefruit is handled by a dealer, after the price has been 'pegged,' such a dealer must guarantee the grower the 'pegged' price. I do not so construe it."

The contract involved in an executory one. The price which the fruit might ultimately bring, cannot be determined until after the contract has been executed (Continued on Page Three)

LOCAL WEATHER

Partly cloudy tonight and Thursday; little change in temperature.

CITY NEWS BRIEFS

Joseph Huggins 365 Park Avenue left today for Miami where he will spend a few days visiting friends.

The Townsend Club will meet Thursday night at the Court House on its regular session instead of Sunday night as was erroneously reported in Tuesday's paper.

VOTE TIED UP FORT MYERS.—(AP)—A race between John Egan and H. C. Case for the city council post from the fifth ward ended in a tie yesterday. The candidates, both citrus growers, each received 161 votes.

Economists calculate that industrial production the first of 1939 would have to be 156 percent of the 1928-29 average to give full employment to all available workers.
