Over in Ocals the other day

New Political Alignments

It may come as somewhat of a blow to dyed-in-the wool Southerners to learn that "the Democratic party is as dead as a doornail." Nevertheless that is what is being said these days by many political observers; and not alone by Republicans either, but by former Democrats and inde-pendents, many of whom also assert with equal fervor that "the Republican party is as dead as a doornall."

pendents, many of whom also assert with equal fervor that
"the Republican party is as dead as a doornall."

Nicholas Murray Butler, president of Columbia University, and sometimes a Republican and sametimes a
Democrat, says that "both the historic American parties
are completely wrecked by reason of the fact that the commanding industrial problem cannot be fitted into either of
their traditional programs, and, as a matter of fact, it divides their membership from top to bottom."

He recommends that there should be two new parties
formed since the great majority of people do not agree
with the policies of either of the existing parties. "The
one party which might be called Constitutional Liberal."
Dr. Butler says, "would aim to deal with economic questions and to solve economic problems as they arise in a
spirit of liberal, forward-facing statesmanship, but within
the limits of the principles underlying the Constitution of
the United States and its classic Bill of Rights."

"The opposition party," he continues, "which would
probably wish to be called Progressive, should proparty be
designated as reactionary radical, since it would on the
other hand, proceed to deal with the sconomic questions of
the time without any restriction whatever arising from the
other hand, proceed to deal with the sconomic questions of

other hand, proceed to deal with the sconomic questions of
the time without any restriction whatever arising from the
other hand, proceed to deal with the sconomic questions of
the time without any restriction whatever arising from the
other hand, proceed to deal with the sconomic questions of
the time without any restriction whatever arising from the
other hand, proceed to deal with the sconomic questions of
the time without any restriction whatever
and the public would soon come to understand the fundamental differences o

ter Glass Democrat. In classifying one's political inclinations it is more important to know whether he is a New Dealer or an anti-New Dealer than to know whether he is Democrat or a Republican.

An elephant ridden by a LaFollette or a Norris looks far more like a donkey than the donkey itself ridden by a Copeland or a Byrd.

Advertising For Tourists

Seminole County is preparing to spend, through Chamber of Commerce, between \$750 and \$1,000 for vertising during the coming year. How does this sum compare with the advertising appropriations of cities and ounties in other sections?

From the Griffith Advertising Agency of St. Peters burg comes a partial list of advertisers appealing particularly for the tourist business with the sums which will be spent by them for advertising this year, as follows:

The state of the s	- 27
Phoenix, Arizona	4 4
Tucson. Arizona	1.5
The All-Year Club of Southern California	40
Californians, Inc.	. 13
Californians, Inc.	. 7
Miami(approx.)	20
Miami Beach	9
St. Petersburg	4
The State of Louisiana	10
The State of Maine	7
The State of Michigan	. 15
The State of Mississippi	10
The New England Council	15
Minnesota Tourist Bureau	4
The New Mexico State Tourist Bureau	6
The New York Bureau of State Publicity	. 15
Pinehurst, North Carolina	6
The State of North Carolina	12
The State of Pennsylvania	25
The State of Pennsylvania The State of Rhode Island	2
The State of Tennessee	10
The Washington Progress Commission	25
Seattle	3
The State of Wisconsin	
The Hawaiian Tourist Bureau	20
Damenda (enprov.)	10
Bermuda (approx.)	50
	4
Jamaica	
Mexico \$350,000 to	20
Dorto Bico	40.1

Every one of the places appearing on this list is a competitor of Sanford's for the tourist business. And although Florida's greatest commercial interest lies to entertaining tourists, not one cent for advertising is contributed by the State of Florida.

"Florida, the greatest playground in America." writes the Griffith Agency, "should be one of its greatest adver-tisers, and each of its cities which hopes to get tourist business should do all the advertising it can afford to do."

GAS BOMBS AND DEATH are no respecters of sex, hence Japanese girls and women are taught the use of gas masks in event the present condict with China brings air attacks at home. Zokyo school girls are shown parading through streets to make the nation aware of danger.

Army's antidate for flying fortresses is this twin-motored multi-scatter righting plane which passed its initial test right with flying colors. A pusher plane with propellers behind the wings to less we the frontal ares clear for machine gun fire, this sky raider carries more powerful armament than any fighter ever built. A crew of five has six guns at its disposal and a supply of light bombs. With the tremendous speed of a racing ship, the craft is believed easily capable of overhauling the "Flying Fortresses" which themselves fly more than 250 miles an hour.

ROAD CLOSED was the figurative sign posted by Massa-chusetts Governor Barley when Georgia officials sought return of a chaingang fugitive.

Storms Lay Low As Government Tries To Trap 'Em

WASHINGTON Sept., 9. -(P) Government scientists are lying in wait to obtain new information about hurricanes but the tropical storme have avoided their "trape" for nearly two years.

The weather bureau has established in southern states stations where meteorologists have planted balloons to which new instruments have been attached.

It is the bureau's intention to send the balloons up when a tropical disturbance heads towards the stations So far, no storms have noved near them Officials explained that the deli-

cate instruments automatically record temperature, humidity, and The balloons are designed to burst after climbing 10 to 20 miles, permitting the instruments

to drop to the ground with their recorded information. notices that finders will be paid

The stations are, located at Vickaturg, Miss; near Montgomery, Ala., Macon, Ga., and Raeigh. N. C.

There have been only three tropical disturbances this year in the guarded region. All were minor and none came near the stations Last year there were 17 storms. five of hurricane strength. However, none touched the sta-

Records of half a century show an average of seven tropical varies from year to year, however In 1890, for instance, there was but one storm, while to 1933 there

Officials said information they hope to obtain from the instra-ments will improve the bureau's harricane warning service.

Atthough the service is more then 100 years old, officials said it steged to biggest sport with perfection of radio communication. Now every ship in the hurricane area serves as an observing sta-
