

IN SANFORD—Life Is Worth Living

VOLUME VII

SANFORD, FLORIDA, TUESDAY, AUGUST 24, 1915

NO. 1

SEMINOLE COUNTY TRADE BODY TO BE FORMED

THIS COUNTY NEEDS A BOARD OF TRADE EMBRACING ALL SECTIONS

When the county of Seminole was in process of formation, the Herald advocated giving the people of the entire county a square deal, got out in public offices but in all that pertained to their interests.

The Herald believes in a close corporation in this small and compact county, and in making the people of Seminole one large family. Whatever is good for Sanford should be good for the county and whatever is good for the county should be good for the city of Sanford.

This paper still stands on this platform and in order to come to a more complete understanding on all matters for the public welfare, the formation of a County Board of Trade would do more for the people of Seminole than any other that could be broached. Other counties in Florida have tried this plan and many of them are much larger counties in which the people live forty or fifty miles from the county seat and yet the meetings are well attended and many of them occurring in the afternoon during the summer months have become almost a farmer's union, broadening out upon those that embrace everything for the good of the community. It is taken up and pushed to completion and the counties that have tried the plan have only words of praise for the county board of trade.

Sanford has a Commercial Club that is indifferently supported, indifferently attended and yet, hand-lepped as it is it accomplishes much for the whole county. Ovidio has a local board of trade and Geneva has a board of trade. None of them are getting the results that should be obtained and yet all of them have progressive people of Seminole in their midst. It is thought that if brought together and amalgamated into a good working body could pull together and get results far exceeding anything that has yet been attempted. The local boards should still exist if it is thought to be practical and work out strictly local matters that would require quick action and that pertained only to a certain section but the big enterprises would require the action of the united county and there is no doubt of the good results that would accrue from the county board of trade.

There are many enterprises in common in this new and great little county of Seminole, and the interests of the entire county are bound together.

Let us all come together in a grand working body that will place Seminole county on the map and let the world know what we have here in the finest section of the finest state in the union.

The Herald asks for the cooperation of the people of Seminole on this proposition and expressions from the different sections of the county. If it meets with the approval of the county a meeting can be arranged either in Sanford or in some other point in the county and the organization perfected in time to get ready for the big influx of visitors to Florida this winter.

Woodland Park Notes

Among the Thursday visitors were Mr. R. V. Hanna and two girls out for a good time and they had it too; Mrs. Henry Wright and four children; Mr. and Mrs. W. H. Herndon, daughter Norma; and friend; Mr. and Mrs. Winterman and friend from Enterprise Junction; Mrs. Allan Jones, daughter Le Clair; Miss Adams and Captain Spencer; Mrs. Bertha Aherly; Mr. and Mrs. Lyons, H. Miles and H. R. Locke from Monroe, and Sam Young.

Some of the Sunday visitors to Woodland Park were Mr. and Mrs. Boley and children; Mr. C. B. Tyler and Mr. and Mrs. Tyler Jr.; Mr. and Mrs. E. E. Dowling, Mr. McCully and several

friends from Ovidio; Mr. E. A. Osteen, Misses Bertha and Ida Ahearn and Grace Hawkins from Monroe; St. Clair White and Mr. Branigan from the West Side; On the Blue line car, leaving through the woods at a great speed were Messrs. Robinson, Remus, Barton, Teratus and three other men, which shows that the roads are passable.

Commodore Howard does not care to risk his cruiser in the lake owing to too much water, but finds it more pleasant to travel by motorcycle, and speaks highly of the conditions of the roads. Other visitors were Brody Williams, Carl Bugger, Robt. Priester, Victor and Edgar Hawkins.

The weather was fine both days and everybody greatly enjoyed the pool and amusements. The coaster, and toboggan were used a good deal and getting drunk without a drink, by means of the whirl caused lots of fun.

WOODS MARK

Whispering Bill is Dead

Mr. Wm. Spier, the well known nursery salesman, whose home was in Orlando, but who was a familiar figure throughout the greater portion of Florida, died at the Brown House, on North Kentucky avenue, at 12:20 o'clock this afternoon.

Death was very sudden, as he was on the streets conversing with a friend when he suddenly collapsed. He had been suffering some time from Bright's disease, and about a week ago was taken seriously ill here and has to return home. Apparently he got touch better, but last night was stricken with a renewed and more violent attack, and steadily grew worse until the end came.

Mr. Spier had been making frequent visits to the city, as he did to every community throughout South Florida, for probably a quarter of a century. Few men in the state were so popular and he was popular in every district. He was honorable in his dealings, and possessed a genial, kindly manner that made friends with all in whom he came in contact.

Deceased leaves one daughter, who resides in Orlando, and the remains will be taken to that city for interment at Lakeland Telegram.

Wineat Co., Makes Record

Chas. E. Henry, who lives here and is the popular representative of Wm. Wineat & Co., has just returned from a trip to Philadelphia and other points in the East and states that his firm has just made a record on Valencia as follows: Valencia from the Fruit Trade Journal indicates.

"The chief topic of conversation in fruit circles this week was the high prices obtained by William Wineat & Co. for Valencia oranges, which the firm is selling at auction for the account of the Grower's Fruit Co., of Los Angeles, Cal. A car of this fruit, sold on Aug 11 grossed \$1,907.45, the largest amount realized in any market in the United States and Canada, according to a letter from the Grower's Fruit Co."

The Mount Olive brand, which represents first choice fruit, sold at \$8.10 per box for 195 and 190, and averaged \$5.92 per box. The Olive Heights brand averaged \$5.27 per box, and the Angeles brand \$4.87 per box. The Big Four brand, which is fourth grade fruit, averaged \$4.61 per box.

The firm sold another car last Monday night by the same company, which contained only second and third grade fruit, for \$1,871.15 gross, which was another fine sale. At this sale, Olive Heights brand averaged \$4.81 and Angeles brand, \$4.60 per box.

D. A. Gaddas, general manager of the Grower's Fruit Company, in a letter to William Wineat & Co., commending them on the fine prices realized, said: "This sale not only shows that William Wineat & Co. have a full and complete knowledge of market conditions, but are leaders in getting top prices."

LAND DEAL IN SEMINOLE CATTLE LANDS

GILES TRACT OF 15,000 ACRES SOLD ABOVE \$100,000 MARK

Concerning the purchase of the Giles tract of land recently to Sanford man the Orlando Sentinel has the following:

Banking as one of the largest deals in real estate which have been put through in this section of Florida during the present year was the transfer made yesterday by which James L. Giles of this city closed out his 15,000 acres of prairie lands in the eastern part of Seminole county to the Lockhatchee Cattle company, which is composed of several of the leading citizens of Seminole county.

This tract contains some of the best prairie land to be found in the state and will be used by the Lockhatchee company for developing an immense ranch. Cattle, hogs and horses will be raised in large numbers.

Just to the south of the property which was transferred yesterday is a cattle ranch of 25,000 acres, which is owned and operated by a number of the members of the firm which purchased the Giles tract.

Mr. Giles has been the owner of the Seminole property for some six or seven years. It was understood that the sale price was above the \$100,000 mark, a figure which probably was another high water mark for the transfer of Florida realty in large blocks.

The Lockhatchee company is composed of the following prominent residents of Sanford: W. S. Hand,

president; J. N. Whitner, sec. and treasurer; T. I. Hawkins, Chas. M. Hand, L. A. Bramley, and S. Pulcston. These gentlemen are already rated among the heaviest cattle dealers in the state and the addition of this big tract of land will enable them to considerably increase their holdings in live stock.

Mr. Giles is one of the largest real estate operators in Orange county, if not in the state. In addition to the Seminole property which he sold yesterday he is the largest owner in the famous Black Hammock, which is also located in Seminole county. His tract is located on the south side of Lake Jessup and will be subdivided into ten acre plots and placed on the market this coming winter.

The owners of the Black Hammock, which contains about 6,000 acres, have just sold \$50,000 in drainage and canal tapping. The entire tract is a network of canals and ditches, which means control of the water level. The property, which was sold in small tracts and divided in an up-to-date and scientific manner, is adapted to form one of the most productive garden spots in the state.

A canal connects the tract with Lake Jessup and the St. Johns river, thus making it possible for the large Jacksonville boats, which will give direct shipping facilities at reasonable rates.

Reparation For False Imprisonment

Sanford Lady Will Frame Bill For The Unfortunate Victims OF THE LAW

BY R. L. HOLLY

It has been my duty as a newspaper man to witness the trial and the conviction of many men and some women in various parts of the country at various times. While hard upon some extent by the work of a newspaper man that takes him everywhere and into all kinds of trials and tribulations, my heart goes out always to the unfortunate human being that in a moment of passion, or desperation or while under the influence of whisky commits a crime and is either hung, sentenced to life imprisonment, which is worse or given a year in the convict camp. My sympathy is with the convicted but they innocent or guilty and some day even, the guilty will be made to feel that the prison stain can be wiped off and by better treatment the criminal will be brought to a higher degree of usefulness and freed from the prison he led to a higher plane of citizenship.

Then what about the more unfortunate being who is falsely accused and by the mechanical manipulations of the so-called laws of the land railroad to prison for life or to a long term that absolutely under the present system, makes the unfortunate being who is falsely accused, a right place among men?

I have often pondered upon this great subject, often wondered why the learned judges, lawyers, statesmen never gave this question more than a passing thought, why there could not be a law framed to make reparation to the man or woman who is sent to prison for the crime committed by another and after serving part of the sentence the mistake is discovered and the victim of the law is freed.

He goes forth with the prison stain upon him, with years of his life absolutely wasted with the eyes of his neighbors turned aside, with his family perhaps dead or scattered to the four corners of the earth. There is no law that gives him anything in return for the blame in getting top prices.

That would give the innocent one of the few almost worthless, but also serve to make the overburdened lists of the law more careful, that would make the court machinery less apt to grind some victim for the crime that the law could be made to punish. Such a law would mitigate the harsh justice law of an eye for an eye and a tooth for a tooth. Such a law would tend to count each individual thought before the bar of justice as absolutely innocent until proven guilty beyond any reasonable doubt. Such a law would make the jury system better, would obtain better juries, would make this matter of sending a victim to the pens or to the noose so serious a matter that more calm thought, better judgment, mature deliberation would be practiced in our courts.

I have discussed this matter with eminent jurists, with statesmen, with the people generally and while they all agree with me in the matter of relieving this blot upon our nation none have as yet come forward with any definite plan for that relief.

It remained for a Sanford lady to evolve the plan of relief and while her ideas are yet in the embryo they will soon take definite form and a bill will be presented to the next legislature for this relief to the afflicted, innocent victims of the inhuman desire of the courts to convict somebody for a "stated crime."

This lady is Mrs. Fanny Strembridge Munson of this city and I shall her as the Florida Joan of Arc who will lead us out of the dark depths of ignorance into the victory for humanity in general.

Mrs. Munson is the well known in Sanford and this section to need any introduction having resided here for many years and gained a wide reputation as a musician and teacher, and for her many other good traits of character. The Munson bill should give her undying fame and that of the innocent victims that

CLYDE LINE SUMMER TRIPS TO FLORIDA

PROVING TO NORTHERN PEOPLE BEAUTIES OF FLORIDA IN THE SUMMER

In putting on a thirty-five dollar round trip rate from New York to Jacksonville and on up the river to Sanford, the Clyde Line has done a good thing for Florida and we believe, for its own interests.

It pays any transportation line to have a balanced travel at all times about as many going one way as the other. Travel by steamer has heretofore been heavy northward in the summer and light southward, while in the winter it has been heavy southbound and light northbound. Of course it costs nearly as much for the ship to go without passengers as for them so as far as the passenger service is concerned, coastwise vessels have run one way at a loss. The passenger business is not as important as the freight traffic, but it counts considerably in the profits and whatever brings in a boat at all times at all times brings it to the place of highest possible profit.

Tourists who were interviewed expressed themselves in yesterday's Times Union as being well pleased with the visit and many are arranging to come. It has been generally supposed that Florida was hot and unattractive in the summer, but much greater extent that states further north. This is not true, but few except the people of this state know it is not. Some of the tourists may come here in the midst of a hot spell and if they do not understand it is unusual they will have their impressions of the state confirmed. Others may come when the weather is comparatively pleasant and they will see the beauties of Florida's summer climate to a greater degree than it deserves. But they will never find weather in Florida better than the hottest in New York, and will not find any cooler and less hot in New York. If they learn the truth they will know that there is less change here than in the North. While we have none of these exceptional summer days that are so common in the North when the air feels almost winterish we also have none when the sun bakes down so fiercely as to take its toll in human life. We don't have the extremes here. Warm weather lasts longer here than in the North, but it does not reach as great intensity at the extreme.

In the summer the further north one goes the longer are the days and the shorter the nights. Of course this means the further north one goes in the summer the longer is the earth in heating and the shorter is the cooling. One may go so far north that the sun's rays strike the earth so obliquely as to store up with little heat, but that would be beyond the limits of the States.

Another thing about Florida is its peninsular situation. This gives sea breezes in almost all parts of the state—in fact there is probably no part of the state that is out of the reach of the breezes either from the Atlantic or from the Gulf. We understand this makes no difference with the thermometer, but it makes a vast difference in the comfort of the individual. A thermometer in front of an electric fan might show the same temperature as after the fan was stopped, but the man in front of the fan would feel a great difference. Nature has provided for Florida two fanning bodies of water without the colds or the neuralgia that electric fans sometimes cause.

When it becomes known thousands of people will take sea trips to Florida in the summer and the Clyde Line, even from a selfish standpoint, was wise in putting on a rate that will help the truth to become known. But the people of Jacksonville have had enough dealings with the Clyde Line to know that it is not actuated by selfishness alone. It has always been one of Florida's best friends and it is a good thing for Florida and we believe, for its own interests.

For people who wish to put Florida in the summer and many thousands who now hesitate because of their ignorance of the truth to make their homes in this state will learn that its climate is pleasant all the year, and knowing this will give them the attraction that the state holds out and become permanent citizens.—Times Union

Great Industry in South

The Industrial Index, of Columbus Ga., says in its issue for this week:

"With the near approach of the opening of the fall business season, there is already constructive activity and in some sections notable expansion in industrial payrolls. War orders and contracts are becoming a much more important factor in the Southeast, but aside from this there has been general resumption of operation of plants which had been idle that but few inactive ones remain, and in a great many instances establishments are operating overtime."

"The belief that the Fall business season will be satisfactory, if no more, has been fixed. There is no longer a dread that because of the war in Europe something still more demoralizing is to enter into the industrial and general business conditions of this country. On the contrary, there is a widespread feeling of substantial hopefulness if not of confidence."

"The awarding of contracts for the erection of school buildings and the building of new roads—two distinctive features of the constructive work of the week, which reflects a wide range of activities."

"Among the items of construction work to be done, as reported this week are:

- "Apartment houses, Birmingham, Ala.; clubhouse, Selby, Ala.; culvert, \$75,000, Macon, Ga.; bridges, Charleston county, South Carolina, and Montgomery, Ala.; dormitory, Yaxco City, Miss.; church building, Tyler, Ala.; garage building, Anniston, Ala.; paving, Birmingham, Ala.; road construction, Wilcox county, Ala.; and West Palm Beach county, Florida; school buildings, Blaney and Bethune, S. C. and Parrish, Fla. school building, Hannesville, Ala.

Construction contracts have been awarded as follows:

- "Bank building, Charleston, S. C.; docks and warehouses, Sanford, Fla.; dredging and rock removal in St. Johns River, Florida, \$179,045; bridges, Coosa county, Ala.; and Clearwater, Fla.; one and one-half miles of brick road, district of DeSoto county, Fla.; and Bladwin and Marengo counties, Alabama; school buildings, Griffin, Ga.; and Fort Meade and New Smyrna, Fla.; warehouse, Augusta, Ga.

"Industrial plants will be established as follows:

- "Bottling plants, Calera, Ala.; Milledgeville, Fla.; and Sparta, Ga.; flour and grist mills, Bonifay, Fla.; and Greenville, S. C.; gineries, Sparta and Tallapoosa, Ga.; ice factory, Oklawaha, Fla.; fruit packing house, Ocala, Fla.; lumber plant, Kuthia, Ala.; woodworking plant, Mobile, Ala.

"Even corporations were formed with minimum capital stocks aggregating \$572,000.

"Improvement bonds were voted by Cartersville, Ga., and Passaic, N. J.

Per Sale
Farm, 20 acres, good 5 room house, barn 40 x 40, on Lake Ada, 3 miles south of Sanford, 2 1/2 acres in grove in full bearing. 80 peach trees. A lovely home and a good investment.

Peerless, Pruneless Pineapples never did a better thing than carrying that bond issue last week for good roads.

A municipal swimming pool would be a good thing for the kids these warm days, and a few of the older people would also patronize such a place.

A Sanford citizen paid \$22.00 for a quail and \$7.00 for a squirrel last week. He didn't buy them. He killed them out of season.

No more will the troublesome flies trail Dixie highways over Bob Holly's bald pate.

The President of the Policeman's Union in Chicago condemns Georgia for allowing the lynching of Frank That's nothing.

The Sanford Herald proudly proclaims that there is not a vacant house in town.

There is no news from Ed Lam bright regarding his possible candidacy for the position of Congressman from the first district.

Well, what are you going to do about it? Neutral Germany has bumped off another neutral steamer in neutral waters.

No vacant houses in Sanford. Perhaps the rental is reasonable and that has much to do with what her a residence is a vacant or occupied.

Nope. Guess again. The rents in Sanford are as high as they are in any city in the state.

Well, we find it rather difficult on the first of every month to stay at home. There are so many people that want to come in and see us and the mail is unusually heavy.

We do not know whether Bro. Jordan of the Punta Gorda Herald resigned his job as pure food inspector or not but the announcement is made of the appointment of Dr. McKinnon to that position.

We do not know whether Bro. Jordan of the Punta Gorda Herald resigned his job as pure food inspector or not but the announcement is made of the appointment of Dr. McKinnon to that position.

The rest of us poor mortals ought to place a ban on Hetherington of the Lakeland Telegram and Harris of the Ocala Banner.

Holly is crowing about 6,700 population for Sanford, directory count. How many hundreds did they count Bob?—Tampa Tribune.

Well, according to the figures they must have counted sixty hundreds and seven hundreds.

While there is a lingering doubt in the minds of many that the editor of the Herald is really bald headed, there is not a scintilla of evidence to show that the East Coast does not exist.

LIQUOR ADVERTISING
E. E. Lamb, of Richmond, Ind., asks the following pertinent questions.

"If my schoolteacher, after teaching my children when they can get a certain brand of whiskey, and at the same time dilates upon the supposed virtues of said whiskey, and if I do not wish my children to drink whiskey, would I not be justified in discharging my teacher?"

"If my preacher, in his church, where the preacher tells his hearers where they can get the best whiskey for the least money, and I am justified in the radical step of taking my children to some other church to worship?"

"If my newspaper persists in flaunting several columns of liquor ads in the face of my boys, and I do not want my boys to drink whiskey, shall I stop the paper from coming into my home just as I would stop a whiskey drummer from coming to my home?"

"Every man who takes a paper that advertises whiskey is helping to sell whiskey."—Zolfo Truth.

GOOD ROADS AN INVESTMENT
Maryland, which has been the only state on the motor route from Boston to Washington whose roads have maintained the worth of the motorist, is working wonders with her highways, says a Washington letter in the Boston Transcript.

Maryland is building 1285 miles of state highways, all at the expense of the state, even to maintenance. These have cost more than \$10,000,000 already, and will have cost a total of \$18,000,000 when finished.

Maryland is building 1285 miles of state highways, all at the expense of the state, even to maintenance. These have cost more than \$10,000,000 already, and will have cost a total of \$18,000,000 when finished.

FLORIDA WATERWAYS
A water route across Florida that would shorten the sailing distance between Europe, the Atlantic seaboard and the ports on the Gulf has been a dream for ages. Now it is near realization.

In the draining of the Everglades that region of swamp and mystery, work upon which was begun about eight years ago, so much progress has been made that the end is in sight.

Oksechobee menace. A big canal is to be dug from the lake to the Atlantic.

When this canal is finished it will form, with Lake Oksechobee and the Caloosahatchee Canal and River, a navigable waterway across the State.

The Florida canals were designed to reclaim about five million acres of land. Little was thought of the possibilities of their use by the carriers of the commerce of the sea, yet today it is considered possible they will serve more in that way if they are deepened and broadened than in the opening of the swamp lands to agricultural development.

And if the government will cut that canal from the St. Johns river in to the Indian river, the large vessels can take the inland water route from Jacksonville to Ft. Myers without leaving the safe passage of the canal.

THE ONE PAPER IDEA
The directory census of Sanford gives a population of 6,700, and Bob Holly of the Herald is crowing about it.

Since you have asked for information, Bro. Jordan, we will breathe into your sunset tinted and shell-like ear a deep secret.

Other cities there are in Florida that have several daily papers, but they are not supported as they should be for the reason that the merchants cannot carry such a heavy burden.

In closing, Bro. Jordan, we wish to say that Sanford is like Punta Gorda in the way of newspapers. Both places seem to like the one they have on the principle that one good one is better than several poor ones.

For Sale
Two good horses; thoroughly safe, sound and reliable—one an all-round farm horse, also good riding and driving horse.

Miss Ruth Stewart, entertained very pleasantly last Saturday morning at one of the Stewart cottages on the ocean beach in honor of the Misses Anna McLaughlin and Margaret Wight of Sanford.

ERADICATING THE CATTLE TICK
"DIP THE TICK" IS THE SLOGAN OF THE CATTLE-MEN OF THE SOUTH

Washington, D. C., Aug. 23
"Dip the Tick" is the slogan which the department of agriculture has adopted for the special campaign against the cattle tick in the South.

The Department of Agriculture since 1906 has succeeded in clearing one-third of the tick-infested area of the South, a region as large as the German empire, from this pest and has helped the farmer in the cleared regions to inaugurate profitable stock raising and dairying.

Is your best friend Bank's business to take good care of your standing and reputation?

PEOPLE
H. R. STEVENS, President
C. M. VICE-PRESIDENT

This poster is one of the several novel features which the department is to employ to push its work for the eradication of the pest that costs the South \$50,000,000 a year.

Commenting upon this new departure in the tick campaign, Assistant Secretary Carl Vrooman says it is merely an endeavor to accomplish by a special effort what would take a long time to accomplish through the regular channels of department publication.

"The cotton crisis and the high price of meat," he says, "have made it of vital importance that we push to the utmost our endeavors to foster diversification of crops in the South."

We are going to drive home the fact that ticks reduce the home price of meat animals from 1/2 to 1 cent a pound, that they prevent the introduction of high grade beef animals and of dairy strains that increase the milk and butter fat yield.

"To drive these facts home we are going to follow up the poster with a large 4-page circular printed in two colors, which starts with the question 'Are you feeding cattle or ticks?'"

"Supplementing these circulars, which will be mailed broadcast to farmers in the South, and which we hope will be posted on bulletin boards by interested merchants, we shall supply the Southern newspapers with a series of articles, making clear the South's loss through the tick, and the easy escape from this pest through the dipping vat."

IN AND ABOUT THE CITY

Little Happenings—Mention of Matters in Brief—Personal Items of Interest

Summary of the Floating Small—Talks Succinctly Arranged for Hurried Readers

5 or 6 doses 666 will break any case of Fever or Chills. Price 25 cents. 71-526c

Don't miss Mr. (?) Bob at the Imperial tonight. Box office open at 6.30, or get your tickets at Bowers Drug Store. Admission twenty-five cents all over the house, no seats reserved.

Major A. K. Powers spent Sunday with Mrs. Powers at Daytona Beach.

I carry a nice line of laces, embroideries, hose, hair goods etc. Mrs. Grace Earl Williams. 104-21c

You will miss a treat if you miss Mr. (?) Bob at the Imperial tonight. Curtain will rise at 8.15 prompt. Admission twenty-five cents No seats reserved.

Osborne Herndon the moving picture king, is spending a few days at Daytona Beach.

Take a ride on the Jitney Bus in the evening. Special summer rate 20c, round trip Cameron City and Montee. 96-11

Don't miss Mr. (?) Bob at the Imperial tonight. Box office open at 6.30, or get your tickets at Bowers Drug Store. Admission twenty-five cents all over the house, no seats reserved.

Mrs. R. C. Shafer left yesterday for Camden, Ohio, where she will spend the remainder of the summer.

Travel over concrete Bridge to Daytona Beach Safety First. Reduced rates for summer months. 89-191c

You will miss a treat if you miss Mr. (?) Bob at the Imperial tonight. Curtain will rise at 8.15 prompt. Admission twenty-five cent No seats reserved.

Mr. and Mrs. Howard Lyman and daughter Charlotte were in the city on Sunday Mrs. Lyman coming to have her ear treated.

Do not forget that I am selling trimmed and untrimmed hats at a greatly reduced price. Mrs. Grace Earl Williams, 106 East First St. 104-21c

Don't miss Mr. (?) Bob at the Imperial tonight. Box office open at 6.30, or get your tickets at Bowers Drug Store. Admission twenty-five cents all over the house, no seats reserved.

Among the visitors to the city from Altamonte Sunday were Mr. and Mrs. Kingsley and Mr. and Mrs. Herbert Lyman.

Drink Elder Springs Water, the purest and best water to be had. Delivered to your door in five gallon bottles. Phone 1017-3. 85-11

You will miss a treat if you miss Mr. (?) Bob at the Imperial tonight. Curtain will rise at 8.15 prompt. Admission twenty-five cent No seats reserved.

Ed Giles leaves today for Cincinnati and other points in Ohio, where he will sojourn for several weeks. He will also take in Niagara Falls before returning home.

When at Daytona Beach make your home at the Nautilus Casino. Largest indoor swimming pool on the coast. 89-191c.

Don't miss Mr. (?) Bob at the Imperial tonight. Box office open at 6.30, or get your tickets at Bowers Drug Store. Admission twenty-five cents all over the house, no seats reserved.

Come to Woodland Park Sundays and Thursdays. A real family play ground close by. The only place with amusements and a real sanitary pool. 101-11

Mr. and Mrs. Edouard D'Oize and Mr. DeForest are in the city and will be here a week or more, putting on David Garrick for the benefit of the Sanford lodge of Elks.

Packages delivered on the Jitney Bus Line for 5c per 25 lbs. Cars run from Chappell's on East Side to Monroe on West Side. For further information phone 331, Sanford Transfer Co. 86-11

You will miss a treat if you miss Mr. (?) Bob at the Imperial tonight. Curtain will rise at 8.15 prompt. Admission twenty-five cent No seats reserved.

Elmer Rogers, the live representative of the Metropolitan Life Insurance Co., believes in printers ink and will take liberal space in The Sanford Herald demonstrating the strong points of his company. Be sure and read the advertisements as they contain much of interest. The first of a series will be found elsewhere in this issue.

Don't miss Mr. (?) Bob at the Imperial tonight. Box office open at 6.30, or get your tickets at Bowers Drug Store. Admission twenty-five cents all over the house. No seats reserved.

Hon. J. F. Clark of the Board of County Commissioners who resides at Lake Howell was in the city yesterday. Mr. Clark and A. T. Rosseter expect to take a week visiting Eau Gallie and other points on the East Coast, fishing and will leave here in a few days.

It would be a grave mistake these hot days for you to bake; Try instead a Stone's Wrapped Cake. 10 cents at McCullers. 1-11c

Chas. Henry returned home Sunday night after an absence of several weeks in Philadelphia and other points. Mr. and Mrs. Henry and the children are now in Sanford to remain the year round as Mr. Henry had the furniture shipped here from their Philadelphia home.

Spencer's Bakery is being remodelled with an entire new front that will give him two large show windows when finished. The front has been inadequate to display the bread and baked goods and Mr. Spencer wanted an up-to-date show window that would give him a better show window for the bakery and confectionery.

Sunday School Institute Beginning at 9.30 next Tuesday morning August 31st, a Sunday school institute will be held in the Congregational church, closing with an inspirational service at night. In the afternoon a helpful conference will be conducted by Dr. Witherspoon of Kissimmee. All S. S. teachers, officers, and workers of the city are urged to plan to be present and get the benefit of the splendid things that are to be offered for the progressive S. S. believers. All are welcome. 1-21p

Special Offer to Scouts The Hill Hardware Company is very much interested in the war on sparrows and has made the following offer

A Stevens "Crack Shot Rifle" will be given to the Scout killing the most sparrows over 200, provided the Troop of Scouts kill by September 1st one thousand. This offer is made to supplement the offer made by Mayor Thrasher. Let the boys show their worth to the community in this matter. Call at Hill Hardware Store and see the rifle in the window. GEORGE HYMAN, Scout Master, Troop One, Sanford, Florida.

Notice Notice is hereby given that examinations for State, Special and Primary Certificate will be held again in these sections of the State beginning Tuesday, September 14th, at 8.30 a. m. at Du Funak Springs, Titusville, and Lakeland. D. L. Thrasher, County Superintendent Public Instruction. 1-41c

David Garrick at Imperial Mr. and Mrs. Edouard D'Oize are in town and have made arrangements to present a play, assisted by home talent under the auspices of the Elks Lodge

The D'Oizes are too well known in Sanford to need an introduction and the excellence of their performance on past occasions is sufficient guarantee for the present occasion. They are assisted by a clever young professional, Mr. Edward Desforges, who was a member of the D'Oize's company two years ago when he presented "The Merchant of Venice."

The play selected for this occasion is "The Refreshing Old English Comedy." "David Garrick, which never fails to please, and will be given at the Imperial next Tuesday the 31st.

Russians Claim Victory Petrograd, Aug. 24.—(via London)—The naval battle in the Gulf of Riga is described as follows in a dispatch "The German fleet on August 15 renewed with large forces its attacks on our position at the entrance to the Gulf of Riga. Our ships, during the attacks of the enemy, whose secret preparations for entering the gulf had been favored singularly by misty weather.

"Taking advantage of the thick fog, hostile forces of considerable size entered the Gulf on the 18th.

"On the 19th and 20th enemy reconnoitered in different directions at the same time keeping up a fight with our ships, in which our torpedo flotilla suffered material damage. We lost the gunboat Sivutich which was gloriously in an unequal fight with an enemy cruiser which was escorting a flotilla of torpedo boats. The Sivutich, enveloped in flames, continued to reply shot for shot until she sank, having previously sunk enemy torpedo boats.

"In view of the losses suffered and the fruitfulness of his efforts, the enemy appears to have evacuated the Gulf of Riga on the 21st.

"Between the 16th and 21st, two enemy cruisers and no fewer than eight torpedo boats were either sunk or placed in hors du combat. Simultaneously our gallant allies succeeded in torpedoing in the Baltic one of the most powerful dreadnoughts of the German fleet.

Mr. Bob Here, Tonight Tonight is the night when that clever little comedy, Mr. Bob, will be given at the Imperial Theatre. The small audience who saw the dress rehearsal last night were warm in their praise in the way the play was performed and the snap and ginger put into the parts by the characters. The members of the play can not help it, as they are imbued with their parts. Unlike most farcical pieces, this little play has a plot and some real human interest interspersed with laughs, but the laughs are predominant.

The cast is as follows. Phillip Royson, Miss Luke's Neighbor. Kent Rosaiter Robt. Brown, Clerk Benson and Benson. Elton J. Moughton Jenkins, Miss Luke's Butler. Miss Rebecca Luke. H. J. Minton. Miss Virginia Smith Katherine Rogers, her niece. Miss Annie Lee Caldwell Marion Bryant, Katherine's friend. Miss Lury Whitnet Patty, Miss Luke's maid. Miss Annie Whitner

There is every indication of a full house tonight. The Presbyterian Christian Endeavor always draws the audience with their entertainments the reason why these entertainments are always successful. The money is going to be used to help complete the Presbyterian Church.

The curtain will rise at 8:15 prompt. Between the acts Miss Charlie Seay will sing some raggy ragongs. Tickets are on sale at Bowers Drug Store or may be gotten at the box office of the Imperial Theatre after 6.30 this evening. Tickets twenty-five cents all over the house, no seats reserved.

Rather Costly Chickens A bunch of young white boys raided the chicken yard of E. Stafford near Monroe last Saturday night and made away with several chickens. Mr. Stafford caught them with the goods, or rather after they had taken the chickens, and saw them plain enough to start Deputy Sheriff Lee after them and they were rounded up in time to eat breakfast in the county jail on Sunday morning. "There were just nine of them, three of whom put up a cash bond of fifteen dollars. Six of them faced Judge Strong on Monday morning and received a fine of \$2.50 each, making it five apiece. The three who had the cash bond forfeited it by not appearing in court, being very bashful fellows, and the county treasury is richer by something like \$135.

The three who had the cash bond forfeited it by not appearing in court, being very bashful fellows, and the county treasury is richer by something like \$135.

The owner of the chickens ought to be paid out of this fund for his chickens as they seem to have disappeared in the excitement of the moment.

Special Session Wanted St. Petersburg, Aug. 24.—If there is any town or village that can be reached by automobile that Representative F. A. Wood does not intend to visit in his tour through the State advocating legislation that he believes to be essential to the welfare of the tax payers, it is because it is not on the map.

Mendenhall First St. Petersburg, Aug. 23.—The first investigation which the grand jury will make when it goes into session on September 14, will be the murder of Mrs. C. W. Elliot and her daughter, Susan, of Tampa on the night of July 2. John J. Mendenhall, one of the most prominent men of Pinellas county, was arrested and charged with the crime and only once has he broken his silence. That was when he issued a statement for publication, declaring that he was innocent of the crime.

The grand jury will give its attention to this case first. Another case which will be investigated, and which is said to be second on the list, is that of Jud Kennedy, charged with complicity in the murder of William J. Boone in this city a year and a half ago.

Sanitary Bottling Plant The Herald man being advised that the Coca Cola Company had finished the installing of its system of modern sanitary machinery, made an inspection of their plant, while in operation, and left thoroughly satisfied that an improvement on putting up clean and sanitary goods could hardly be made.

The empty bottles are first placed in a Soaking Machine, which auto-

matically gives each individual bottle a thorough soaking for ten minutes in a 78 per cent solution of Caustic Soda, killing every germ or microbe and eating out any possible dirt and impurity. After being drained of this solution, the bottles are automatically discharged into a tank of running, clean water, which removes every trace of the solution. They are then put on a strong bristle brush, which, running over a thousand revolutions per minute, scrubs out the bottle, removing anything that might have been left after the first two cleaning operations.

After a thorough brushing, the bottles go on an automatic conveyor, which brings them to the filling machines, but on the way there, they again pass through a rinsing apparatus which gives every single bottle four separate rinsings inside and outside with a strong stream of clear water. Having been drained of this last bath, the bottles reach the filling machines without being touched by hand or being turned up to be in danger of becoming contaminated. The filling machines are gauged on one side so as to discharge an absolutely equal amount of syrup into each bottle, while the other side of the machine fills the bottle with the carbonated water and before the gas can escape, closes the bottle with the crown and cork.

The water used for bottling is first driven by high pressure through a filtering plant, then chemically softened and settled again in a large storage tank, from where it is pumped into the Carbonator after passing through a cooling system to insure better mixture of gas and water. The Carbonator transforms the water into a fine spray which is mixed with the Carbon Gas under high pressure and then delivers the mixture to the filling machines.

The Carbonic water in Soda Water is a strong germ killer and also has a most salutary effect on the human system. The free use of carbonated water, natural and artificial has been recognized as of greatest benefit to the health since the time of the old Egyptians and the artificial addition of sugar by the syrup in modern Soda Water preparations gives these drinks an added value as a food for muscle.

All Coca Cola Syrup is used exactly as put up by the Coca Cola Company and all Soda Water Syrup in the plant are prepared in a sanitary fly screened room in porcelain lined vessels, with plenty of running water close at hand, so as to keep all containers spotlessly clean at all times.

Anyone inspecting the Coca Cola Bottling Company's plant is most highly satisfied that everything possible is being done to maintain not only the highest grade goods in the most possible sanitary manner, and anyone wanting to be sure to get such goods should always make it a point to examine the bottle for their Trade Mark.

When you wish to buy anything, you generally expect to get what you are paying for, but in order to be sure to get what you want, you should always be sure to call it by its right name. There are always cheap imitations on the market, which will make the dealer more money but do not give you the quality you want. Still if you are not using the true specific name in calling for a drink of Coca Cola for anything else, you give the dealer a chance to palm off something inferior on you, which means a higher profit for him, but not a greater satisfaction to you.

The management of the Coca-Cola Bottling Co., invite the public to come in and inspect their plant and are always pleased to explain and show every detail of it, knowing, that anyone doing so will leave with full confidence, that their goods are prepared with the greatest care possible.

Rollins College The Rollins College School of Music has been very fortunate in securing, for the coming year, several teachers of unquestioned ability and reputation, who will maintain the high standard for which Rollins is so well known throughout the state.

Miss Julia C. Allen, Mus. Bac.; Mus. Doc.; graduate of New England Conservatory of Music, pupil of Ovide Musin, Gaston Bley, Yvonne Camilla Urso, and Adamowski, will accept a limited number of violin pupils from January 1st to May 1st.

Dr. Allen has concertized extensively in this country and in Europe, and is a wonderful performer upon her chosen instrument. She has had fifteen years' experience as teacher and director.

to the young people of the state the rare opportunity of receiving instruction from one of the foremost violinists of the country.

Mrs. Elizabeth K. Krauss will have the violin work in charge for the school throughout the year. Mrs. Krauss has been a student in Rollins for five years, is a pupil of Marcosson and of Dr. Allen.

Mrs. Helen O'Neil Palmer, who before her marriage to Prof. Palmer, was at the head of the piano department in Rollins, will also be connected with the Music Department. Mrs. Palmer is a graduate of Rollins and of New England Conservatory of Music, and has a state wide reputation as a brilliant concert pianist. She is a highly successful and experienced teacher.

Mr. Homer Stanley Pope, director of the Rollins College School of Music, has been at Rollins for six years, and his work and worth as teacher and director has been well proven.

The Rollins School of Music, under the leadership of such a talented corps of teachers will be second to none in the South. Enthusiastic plans are being made that insure the success of a better year than ever before in the history of the school.

More Flood Damage St. Louis, Aug. 24.—St. Louis county was recovering today from its third flood in as many days, a flood that cost twelve lives, destroyed more than a million dollars worth of property and made 2,000 families homeless.

Almost a hundred persons are missing. River men fear the falling of the Meramec river may disclose many more deaths. They also said probably many more bodies would be washed into the Mississippi and be washed down stream.

Spanish Potash The recent interest taken in the deposits of potash salts in Cataluna, Spain, which promises to be of extraordinary importance, has given rise to some discussion as to the best method to pursue in their exploitation, according to Consul General C. B. Hurst, Barcelona. Spain wishes to safeguard the domestic supply of potash by embodying in the mining concessions the necessary guarantee for the protection of Spanish agriculture. With this object in view, the royal decrees of June 30 and October 1 were issued and a bill presented to the Cortes and approved by the senate, which, when it becomes law, will regulate concessions to potash mines and permit the intervention of the State to protect the supply and its consumption. Pending the re-opening of the Cortes, work on the potash deposits has been practically suspended, and as the demand for potash is augmented by the present European situation, the Spanish Government realizes that it might be prejudicial to national interests to hinder in any way the development of mining for this material.

Accordingly a royal decree has been issued, in harmony with the general provisions of the bill now pending. It provides that the concessionaire of mines of potassic salts, as well as any potash producing minerals, shall uninterruptedly work the mines to which rights may have been conceded, whether for carrying on experimental boring

or for actual mining. In the latter case it will be understood that the obligation to exploit the mine will be enforced only when the value of the production covers the expense incurred. The concessionaire is obliged to reserve for national consumption such part of the salts produced as the Government shall deem advisable. All beds of potash shall be registered at the Civil Governor's office of the province in which they are found, and the Government will inspect the work on these concessions in order to enforce compliance with its regulations.

It is understood that large American users of potash are greatly interested in the Cataluna deposits. Florida Growers News.

On High Cost of Living New York, Tuesday. The "World" says. "New York women are lazy housekeepers.

"All experiments with public markets, co-operative food stores and direct-from-farm-to-kitchen projects come sooner or later bang up against the fact that housewives hereabouts will not take the thirteenth means of getting food supplies.

"After investigating retail prices of fruit and vegetables in the city and the various ways in which these commodities are handled and sold, The World is forced to conclude that 'The great consuming public is not eager to get food at the least possible cost.

Every now and then municipal markets start off with a flourish. But in a short time it is found that they are doing mainly a wholesale business. The housewives they are supposed to benefit are buying their food from the corner store and paying the same old prices, however high they go. How long could even a \$100,000 market system pay for its upkeep unless the public made use of it?

"New York women are too proud to go to market as do the women of Paris and Berlin. Neither the instinct nor the habit of thrift is in them. On the odds and ends the average New York household wastes in a week the French housekeeper could get a four-day supply of tempting ragouts and pot-au-feu.

"Women in this city talk the cost of living. It is the fashion to groan about it. But it is not the fashion to fall to and help reduce it. —Florida Growers News.

Public Opinion in Russia Parsigny once said to Napoleon III: "You can do almost anything with bayonets except sit on them." So you can do almost anything with public opinion in Russia except wholly suppress it by sitting on it.—George Kennan in the Outlook

CURBSTONE GLEANINGS

BUDGET OF OPINION "JUST BETWEEN YOU AND ME."

EVEN THE GATE POST NOT IN IT

A CHIEF IS AMONG YE TAKING NOTES AND FAITH. "HE'LL PRENT 'EM"—SO SAYS SAUNTERER.

I have no interest in the Herald especially but sometimes do a little missionary work among the ladies regarding circulation and it is the surprise of my life to find so many of our brightest ladies who have not yet convinced their husbands that they should subscribe to their home paper. They buy it at the news stands sometime and borrow their neighbors paper all the time and these same people have plenty of money and are well able to take the paper. Funny world, isn't it. Deah me.

There are many things that are worse than dancing and card playing and one of them is the art of gossiping and telling tales about your neighbor. When you are dancing or playing cards you have no time to gossip. There are some people in this town that will go straight down to the other place that is considerably warmer than this when they die. Not because they have danced or played cards, O, no. But because they have deliberately ruined a woman's character in gossiping, broke up a family in gossiping, ruined a man's business, perhaps in gossiping. And yet their tongues wag and there is no way to stop it, more's the pity.

I have not seen the census enumerator since he started his work in the city but I glean it from good authority that about seventy five per cent of the ladies of Sanford refused to give him their ages. Most of them were married ladies, too, which is one phase of the question that I cannot understand. Now if they were young and piddy old maids of the vintage of 1849 it would be different because the old maids always have a ferlorn hope of marriage and a fighting chance to make good by slipping by the handiwork of the age limit. But the married ladies with sound healthy

husbands surely have no thought of marriage and the question of their age would make no particular difference. Funny old world isn't it? Deah me.

There seems to be other places where the sparrow is getting next to them and for the benefit of a few old sissies who have censured me for a crusade on the English sparrow I reproduce the following:

"Just when we thought we'd made peace between the English sparrow and the world the Lakeland Star comes out with an editorial which says, 'The English sparrow—kill him. And just to think a preacher-editor is trying to prevent us from bringing about peace by killing 'our friends, the enemy.' Tampa Times.

The Lakeland Star is right. We came from a section where the English sparrow abounds. Coming to South Florida some years ago, we thought we had gotten rid of him, and for many years saw nothing of him, but within the past few seasons he has made his advent in Lee County, presumably in empty grain cars, and is increasing rapidly, much to our disgust.

The English sparrow is a dirty little pest. He builds his nest around the door and window casings, awnings, eaves, anywhere he can find a crevice, and as a result, one's porches, doorways and sidewalks are continually littered with the ever-falling rubbish from his nest. His chief feeding ground is the street, and he is never so happy as when scratching away in manure and other filth, but he also frequently plays havoc in the garden and orchard as well. He has not even the gift of song, but converses continually in a shrill and unmusical "squeek, squeek" that is decidedly grating to the ear, and very monotonous. He is most quarrelsome and aggressive, and in time

will drive practically every song bird from the country. If he has any redeeming traits, such as the eating of noxious weed seeds, or the killing of harmful insects, we have yet to learn of it.

Therefore, we say with the Lakeland Star, Swat the English Sparrow, and swat him hard, for there never was a greater pest. He is the worst little pirate bird in all creation, and should be shot on sight wherever found.—Waterlo Eagle.

I have no brief to defend editors or proof readers about the errors that appear in the papers. Sometimes my stuff comes out in the Herald in such funny shape that I cannot recognize the child of my brain and I feel like cursing out the entire Herald gang. But when I take a walk through a printing office and note the many different things that the boys have to contend with in the day work I generally compromise by setting up the cold drinks all around. However there are many readers in Sanford and elsewhere that love to get back at the newspapers for errors when in truth there are as many errors in the general make-up of every individual to more than offset any in the paper. My old friend Kelly of the Kansas pop pushers sums it up as follows:

Every week the paper—this paper or any other—has typographical errors; and there is always someone ready to laugh mirthlessly over it and hold the paper up to scorn and say a blacksmith could do a better job with both hands tied, and proceed to bowl out the editor publicly. And the editor, being meek in spirit and lowly, grieves a sun-grin as if he liked it, because he knows the utter futility of explaining. Then he goes back to the shop and bites a nail in two or cuts a woolly worm to relieve his feelings; and finally wonders how his tormentors would feel, should he turn critic and point out the typographical errors, so to speak, in the make-up of the hilarious ones.

For instance, Hon. John Junkin shaves himself, and last Sunday appeared in church with a patch of unshaven whiskers under the angle of his jaw the size of a grown man's thumb; Sis Stegins had her hat crooked and the shoestring on her watch showed through what little hair she had left. The undershirt of the help of the village hung on one side a full inch below the bottom of her dress, and Ami Toots one of our best known city gents,

walked down the aisle with a long raveling hanging to his coat tail; old Ebenezer Stone had blacked the front compartment of his shoes until he could see his reflection in them while his shoe heels had not had a treatment since he bought them last summer a year ago, and they bore traces and the odor of a barnyard; Billy B. Damm, who ordinarily doesn't give three whoops for anything and doesn't care who knows it blushed a rosy red when, walking with his best girl, he produced a washrag from his pocket instead of his handkerchief; Miss Peachie Peacherino, who is risin thirty-five and near-sighted, waited a kiss to a travelling man getting on the train under the impression that it was her brother who departed from our midst on the same common carrier. As the poet remarks, we are all poor critters and prone to errors of make-up even as the sparks fly upward; and all good and true editors, instead of impaling the kit and bundle on his harpoon to get good and even once for all, will again next week smile his feeble sun-grin when he is publicly roasted and let it go at that. An editor hasn't much sense anyway. That's why he is an editor.

Boy Scouts and Sparrows
The City Council of Sanford has authorized the Mayor to declare war on the sparrows. He has called out Troop One of the Boy Scouts of America and entered into agreement with them that they are to kill 500 sparrows by Sept. 1 and receive a camping outing.

The Scouts under the leadership of Mr. Geo. Hyman, Scoutmaster, and Mr. Moughtin, assistant Scoutmaster have entered heartily into this work. The standing of the boys Saturday night, Aug. 21st, is as follows:

Those killing five or more: Edwin Millen, 64; Issie Kanner, 39; Jno. T. Brady, 34; Reginald Holly 29; Edmond Meisch, 11; Leslie Hill, 10; Lee Peck, 9; Owen Higgins 8; Frank Purdon, 8; Robt. Holly, 6; Ernest Brotherson, 6; Ralph Barlow 6; Sol Rochmore, 5; Other small numbers 15. Total 250.

In Friday's paper the standing of those killing 10 or more will be given. The boys have decided not to be satisfied with less than 1000 killed. Give all assistance possible to the boys.

Notice
Regular semi-annual teachers examination will be held at Sanford, beginning Tuesday, September 7th, at 8.00 a. m.

Examinations for white teachers will be held in Sanford High School Building. Examination for colored teachers will be held in Hooper's Academy.

Pen paper and ink will be furnished by County Superintendent. No paper, pencils, unbricils or other unnecessary articles will be allowed in the examination hall.

Regular examination fee of \$1.00 must be paid in advance.
D. F. Trasher,
County Superintendent Public Instruction. 1-4c.

Notice of Election
Whereas, a petition was submitted to the County Board of Public Instruction of Seminole County, Florida, on the 7th day of July, A. D. 1915, by county clerk, by a majority of the qualified electors who pay taxes on either real or personal property and who are residents of that portion of Seminole County, Florida, described as follows, to wit:

Beginning on the South side of Lake Monroe at a point one-quarter mile East of the West line of Section 22, Township 19 South, Range 30 East, thence South to the Southeast corner of the Southeast quarter of Section 22, Township 19 South, Range 30 East, thence South to the Southeast corner of Section 9, thence North 55 degrees West along said Grant line to the East line of said Section 9, thence West to Southeast corner of Section 9, Township 20, Range 30 East, thence South one-half mile, thence West one-half mile to the East line of Section 15, Township 20, Range 30 East, thence North 25 chains to East line of Section 15, Township 20, Range 30 East, thence North to the St. Johns River, thence easterly up the St. Johns River and through Lake Monroe, to the point of beginning, and to be known as Monroe Special Tax School District No. 4.

Second: To determine who shall be the school Trustees of said District.
Third: To determine the number of miles of district tax to be levied and collected, annually, for the two succeeding years.
All qualified voters, residing within the territory above described, sought to be made a special tax school district, who pay taxes on either real or personal property, shall be entitled to vote in said election.
The following named persons are appointed inspectors of said election, to wit: Monroe Precinct, John Hill, D. H. C. Rabbin, A. S. Hawkins, Inspectors. J. C. Moore, Clerk; Geo. Smith, C. D. Pearson, A. A. Hiler, Inspectors. Oscar Pearson, Clerk.

The said election shall be held in compliance with the general election laws of the State of Florida.
Inspectors and clerks holding said election shall immediately make return to the County Board of Public Instruction of Seminole County, after said election is held, according to this call.

Done and ordered in open Board, this 2nd day of August, A. D. 1915.

Whereas a petition has been presented to this Board, signed by more than twenty-five per cent of the duly qualified electors residing within Special Tax School District No. 1, Seminole County, Florida, asking that an election be held, to determine the question as to the issuance of bonds, in the amount of \$75,000.00, to be used for the purpose of acquiring, enlarging, furnishing and otherwise improving schools and school buildings in said Special Tax School District No. 1, Seminole County, Florida, and that an election be held, to determine whether or not the bonds in the amount of \$75,000.00, to be used for the purpose of acquiring, enlarging, furnishing and otherwise improving schools and school buildings in said Special Tax School District No. 1, and to amend the charter of said district, the proceeds of said bond issue to be expended and disbursed in the following manner, to wit:

\$35,000.00, to be used in refunding and paying to the City of Sanford, monies due it, with interest thereon, heretofore advanced to the said Special Tax School District No. 1 of Seminole County, Florida, by the City of Sanford and used by said Special Tax School District No. 1 in the purchase of a high school building, which said sum is now past due and owing to the City of Sanford, by said Special Tax School District.
\$10,000.00, to be used in refunding and paying to the City of Sanford, monies due it, with interest thereon, heretofore advanced to the said Special Tax School District No. 1 of Seminole County, Florida, by the City of Sanford and used by said Special Tax School District No. 1 in the purchase of a high school building, which said sum is now past due and owing to the City of Sanford, by said Special Tax School District.
\$10,000.00, to be used in refunding and paying to the City of Sanford, monies due it, with interest thereon, heretofore advanced to the said Special Tax School District No. 1 of Seminole County, Florida, by the City of Sanford and used by said Special Tax School District No. 1 in the purchase of a high school building, which said sum is now past due and owing to the City of Sanford, by said Special Tax School District.
\$10,000.00, to be used for improving and enlarging the Pammar school.
\$5,000.00, to be used in purchasing lot and building and constructing a primary school in the Western part of the City of Sanford, said primary school to be located on the West side of the city.
\$5,000.00 to be used in improving and enlarging the present primary school, located on Fairmont Avenue, in the City of Sanford, Florida.
\$5,000.00, to be used for improving and enlarging the colored schools in said Special Tax School District.
\$10,000.00, to be used for the purchase of furniture and furnishings for all schools in said Special Tax School District No. 1 of Seminole County, Florida, and—

It is the intent of this board that it would be to the best interest of Special Tax School District No. 1 of Seminole County, Florida, to issue bonds in the sum of \$75,000.00, to be used for the purposes above used and expended in the manner and for the objects and purposes as hereinabove set forth, and to amend the said charter of said district, to be amended as follows:

Therefore be it resolved, that it is the determination of this Board that the amount of bonds required for the purposes set forth herein, shall be issued, and that said bond shall bear interest at the rate of not exceeding 6 per cent per annum, the said bonds to be paid semi-annually, said bonds to mature thirty years after issuance thereof, and—
It is further resolved, that a special election be held in the County of Seminole, District No. 1 of Seminole County, in accordance with Chapter 6542 of the Laws of Florida, 1912, to determine whether or not there shall be issued by said Special Tax School District No. 1 of Seminole County, Florida, the bonds provided for in this resolution.

It is further resolved, that this resolution be published in the Sanford Herald, a newspaper published in Seminole County, Florida, once a week for three successive weeks.
Adopted in regular session on this 2nd day of August, A. D. 1915.

Your Company!

The Metropolitan Life Insurance Company is now a MUTUAL COMPANY, YOUR Company more than ever before. It is owned by YOU and twelve million other policy holders in the United States and Canada. Now as never before this Company is a Company OF THE PEOPLE, FOR THE PEOPLE, AND BY THE PEOPLE. Such bonuses as you may receive on your policies will be YOURS as a matter of RIGHT because the Company is YOUR Company. YOU OWN IT and YOU manage it. You have a right to vote for Directors because the Metropolitan Life Insurance Company is YOUR Company it will be able to help you EVEN MORE than it has in the past. Think of bonuses or earnings of the Company returned to you. Think of the freedom to go into any occupation without forfeiting your rights to protection. Think of the fact that you are entitled to paid-up Insurance to borrow money, to surrender your policy and get cash money; to continued insurance without cost. These are only a FEW things that have been done in 25 years to give you cheap and good insurance. There are many others. And now GREATEST OF ALL, THIS Company is NO LONGER OWNED BY A FEW STOCKHOLDERS, but it BELONGS TO YOU THE POLICY HOLDERS.

The Company Belongs to You!!!

YOU, the policy holders constitute the BIGGEST and BEST Life Insurance Company in the world today. With your help and the help of YOUR friends it will continue to hold FIRST PLACE among ALL the Companies in the WORLD.

YOU have Four Hundred and Fifty Million Dollars reserved under the very stringent laws of the state of New York for YOUR selves the policy holders and in addition thereto you have over thirty-One Millions of Capital and Surplus.

You pay a claim every 42 seconds during business hours.

You issue or revive 8,040 policies per day which amounts to \$1,708,728.00 and you are increasing your assets \$161,826.87 per day.

You have over 15,000,000 policies in effect and your income last year was over \$127,000,000.

Remember the Metropolitan Life Insurance Company is YOUR Company. Invite your friends to join YOU.

EAST COAST CANAL ROUTE PROPOSITION

DATA BEING COLLECTED NOW FOR THE CONSIDERATION OF THE BOARD

Among the Rivers and Harbors enactments of the last National Congress, was the authorization of a Board, whose duty it should be to investigate and make report upon the feasibility and practicability of Government purchase of the East Coast Canal, for the purpose of Intra-Coastal Waterway construction through Florida. This Board is now busy collecting data, for consideration, and our friends of the said canal project are actively supplying same. It would seem that we who know the supreme advantages, natural, economical and otherwise, of the St. Johns, should not be asleep and permit only the canal side of the question to be presented. While the instructions of the Board cover, primarily, the canal route investigation, we cannot construe the resolution authorizing same, to be intended to confine the deliberations to this alone, inasmuch as the phrasing employs the words, "or any parallel route," although Major Ladue of the Corps of Engineers appears to incline to that interpretation of the Congressional act. Below we give the Resolution, precisely as it was enacted and recorded.

"The Secretary of War is authorized to appoint a Board of three officers of the Engineer Corps of the United States Army to examine and appraise the value of the work and franchises of the East Coast Canal from the St. Johns River to Key West, Florida, with reference to the desirability of purchasing said canal by the United States and the construction over the route of the said canal of a free and open waterway, having a depth and capacity sufficient for inland navigation. Said Board, to the extent that the same can be done, from surveys heretofore made under the direction of the War Department, shall also examine and investigate the feasibility for the purpose of such a Waterway, of any parallel route between said points. The said Board shall make a report of its work, together with its conclusions upon the probable cost and commercial advantages and military and naval uses of said route or routes, to the Secretary of War, who shall transmit the same to Congress as soon as practicable."

In an interview with Major Ladue, this gentleman in his always polite and courteous manner, stated to the writer that the Board has not as yet decided upon a public hearing, that the data now in process of collecting will first be carefully studied, and then, if such a public hearing is deemed advisable, "all persons interested will be welcome" and doubtless given an opportunity to submit to the Board their views and arguments. The Major, farther, gave it as his sense of the Resolution that the primary question before the Board is the advisability of the purchase of the existing East Coast Canal, or the construction of a parallel route, and added, "I am not sure that the Board will feel justified in going into the general question of an Intra-Coastal Waterway on any other route, but if your people desire to submit to the Board any facts or statements in favor of the alternative route by way of the St. Johns River, I shall be glad to receive them and lay them before the Board."

The situation being as it is, we again urge the highly sensible and safe plan, of passing resolutions by all the Commercial Organizations, Civic, Municipal, and Country Clubs, Trades, Merchants and Agricultural Unions, and the writing of personal letters, universally throughout this vitally interested district, setting forth the incontrovertible facts and arguments that convincingly point to the St. Johns River as the reasonable and logical Intra-Coastal Deeper Waterway route from Jacksonville southward. These letters and resolutions if prepared and delivered to either the Secretary of the Sanford Commercial Club, or the Secretary or Chairman of the

Waterways Committee of said Club, will be made best possible use of when the proper time arrives. Do not delay this important matter. It is none too early to begin the telling work that certainly must be done if we are in any degree going to match the enthusiasm and unremitting activity of our East Coast Canal friends.—PROMOVER.

Married at Baptist Temple
On Wednesday morning last at eleven o'clock, Mrs. Ivis Pell of Lake County was married to Mr. C. F. Lee of Jacksonville. The ceremony was performed by Rev. Geo. Hyman of the Baptist Church, in the office of the Temple. Mr. and Mrs. Lee left for a trip down the East Coast. They will in about ten days return to Jacksonville where they will reside. Mr. Lee is an employee of the Atlantic Coast Line Railway Company.

Congregational Church
Regular services on next Sunday both morning and evening. The evening subject will be "Practical Living," the fourth in the series, "Jesus Life Principles." All members and friends are cordially invited to these services. Come and enjoy a refreshing service and fellowship with others, even though you might prefer to stay at home.

DAVID GARRICK AT IMPERIAL TUESDAY EDUARD D'OIZE ASSISTED BY LOCAL TALENT FOR ELKS LODGE

The famous old English Comedy "David Garrick" has always been a great favorite with both the profession and theatre going public, and justly so. It tells a story of absorbing heart interest and has none of the features of the stereotyped blood and thunder melodrama. There is no deep dyed villain; no weeping persecuted heroine; no stolen will; no slap stick buffoonery,—but a sweet, pretty, wholesome romance with a strong vein of refreshing and refined comedy.

"David Garrick" will be presented at the Imperial Theatre next Tuesday evening the first under the auspices of the Sanford Lodge of Elks, under the direction of Eduard D'Oize, who will appear in the title role, a part he has played over 500 times in the principal cities of the United States and Canada.

Edward Desloges, a young professional actor of exceptional ability, will play the part of blustering old Simon Ingot, a retired East India merchant, and Mrs. D'Oize will be seen as simpering Araminta Brown, of doubtful age and literary aspirations.

A specially selected cast of local talent will take the other parts. Miss Gretchen Schultz will be seen in the leading role, Ada Ingot, for which she is admirably suited to every requirement of the part. Miss Olga Schultz will have the character comedy role of Miss Smith.

The part of Dick Chivy, a disolute young nobleman with sporting propensities will be in the hands of Clarence Mahoney. The celebrated trio of comedy characters, Mr. Smith, the wine merchant, the deaf Mr. Brown, the silk merchant and the bashful, stuttering Mr. Jones will be played respectively by Chas. Dinger, Sam Yontz and Reginald Holly.

The reserved seats will be on sale at Phillips Drug Store on Saturday morning.

BOND ISSUE FOR GOOD ROADS IS SURE TO CARRY

PEOPLE ALL OVER SEMINOLE COUNTY ARE MOST HEARTILY IN FAVOR OF THE ISSUE

The bonds for the good roads in the county of Seminole to finish out the brick roads already built and connect with the national highways, will carry by a good majority. Every citizen of the county coming to Sanford brings in the glad tidings that the people in the county are standing up squarely for bonds for good roads. They realize that anything less than hard roads will be money wasted and the bond issue is the only way to obtain good roads now and pay for them as you go.

There will be slight opposition from some people of Sanford where the taxes are high, or supposed to be high, and some of the people are afraid to vote, but these same people when the proposition is put up to them in the proper light will favor the bond issue for the slight raise will be offset by the decrease in the road tax.

Many citizens of Seminole who are away from home are writing letters to the Herald urging the

bond issue, and realizing that without these roads, Seminole will never be able to take her rightful position in the progressive ranks of the counties of Florida.

As to the matter of just who will be allowed to vote at the bond election on the 28th of September, it might be well to state that every registered voter who has paid his poll tax for 1913 and 1914 will be allowed to cast a ballot on that day. This according to County Attorney, Geo. A. DeCotte is the law governing such election.

In the bond election for school purposes on Sept. 7th, only free holders can vote, according to the election call as published elsewhere.

It is to be hoped that the school board election is on the day following.

Helping out in this matter leave a contribution at the Herald Office.

The offer from Mayor Thrasher is a cooking outfit for the boys' camps. The offer from Hill Hardware is a Stevens "Crack Shot" Rifle to boys killing the most sparrows.

Musson's Cooling Pool
Sweltering humanity is finding a welcome these days in the Musson swimming pool, recently built on Pine street, two blocks east of Sanford avenue. The pool is the most popular place in the city and is well patronized day and night by old and young alike.

NEWSPAPERS WANT THEIR DUES

THEY HAVE BEEN LEGISLATED OUT OF WHAT IS COMING TO THEM

Punta Gorda, Fla., Aug. 27.—The committee on legislation of the South Florida Press association has finished the work assigned to it at the recent meeting in Plant City and is ready to make its report to the joint meeting of the South Florida Press association and the East Coast Press association to be held in Jacksonville in October. The members of the committee were Messrs. A. P. Jordan of the Punta Gorda Herald and R. O. Meek of the Fort Meade Leader. Their investigations were directed particularly toward revision of the libel laws but they have taken up several other matters in which the newspaper men of the state are vitally interested. The report follows.

"The injustice of the present libel law arises from the wording of section 13 of the bill of rights of the state constitution. The words 'good motives should be stricken out, and to this end a constitutional amendment should be submitted.

"A law should be passed to permit newspapers to publish any matters contained in the public records of town, city, county or state, and forbidding the taking of any legal action, civil or criminal, against editors or owners of newspapers publishing such records—unless it can be clearly shown that the publication thereof was prompted by malice.

"There should be a law to prohibit the publication of legal notices of any kind in newspapers that have not been established at least three years; also, a law requiring that all legal notices by individuals be paid for in advance.

panies from exchanging transportation for newspaper advertising should be repealed. The merchant is permitted to swap groceries for advertising, and the farmer can pay his subscriptions with eggs or potatoes; why, therefore, should there be any discrimination in such matters? The fact that there is such discrimination in the case of railroads is based upon contemptible inference, that all editors can be bought with railroad tickets, but not with food and clothing.

"The Bryan primary law should be so amended as to give the newspapers fair returns for political advertising. Every candidate for office should be allowed to spend for advertising in newspapers as much as \$100 in each daily and \$25 in each weekly.

"If the association approves of these suggestions, we recommend that \$25 be appropriated out of its treasury to pay Judge William A. Hocker, or any other capable lawyer whom the association may select, to prepare and write out in legislative form the laws and changes in laws which we herein indicate that we want and send them to our secretary, T. M. Callahan, Fort Myers; that the secretary be instructed to have 200 copies of each printed and mail one copy of each to each newspaper in the state, and that every newspaper editor and publisher in Florida sign a pledge not to support for election to the legislature any man who will not promise to use his best efforts to secure the legislation which we desire.

"We recommend that the proposed pledge be drawn up here and now and that every editor and publisher here present as well as others now in Jacksonville come forward and sign the pledge and that copies of the pledge be sent to all newspaper in Florida which are not now represented in this city.

Governor Fires Board
Jacksonville, Fla., Aug. 27.—Now that Governor Trammell has removed four members of the Duval board of county commissioners and accepted the resignation of the fifth, citizens of Duval county are today looking forward to the announcement of the names of their successors.

The order removing Commissioners E. A. Ricker, G. H. Brown, J. J. Lord and J. H. Patterson, and that accepting the resignation forwarded by Commissioner P. S. Bowden last Friday night was the last official act of the chief executive yesterday.

All four commissioners removed are charged with failure to protest against alleged illegal expenditures and for drawing a per diem for considerable part of each month for road inspection work.

A list of twenty-five names, five from each district in the county were selected at the meeting of 52 accredited delegates of eighteen commercial and civic organizations in the rooms of the Jacksonville chamber of commerce last night, and dispatched at once to Governor Park Trammell with request that he consider the appointment of the new board of county commissioners from among the men on that list, word of his removal of the county commissioners having been received during the session.

CHEAP RATES TO TAMPA WILL GET LARGE CROWDS FROM CITIES OF THE NORTH

Even at this early date, the railroads included in the Southeastern Passenger Association have granted rates of practically one fare for the round trip from Tampa from Washington, Evansville, Louisville, St. Louis and other Ohio and Mississippi river points in honor of the South Florida Fair and Gasparilla Carnival to be held late in January or early in February. Later on connecting lines will offer low rates from New York, Chicago, Kansas City and other distant points, and the Atlantic Coast Line, Seaboard Air Line and Southern are preparing to operate farmers special trains in order to attract agriculturists from other states to this section.

The Gasparilla Carnival, which is to be made simply an advertising and crowd-drawing adjunct to the fair, will be advertised in the north as never before by the Fair Association, railroads, hotels and other agencies, and in view of the fact that the European war will prevent thousands from getting abroad and the exposition in San Francisco and San Diego will be closed, the attendance is certain to be of record-breaking order. Railroad men predict that between 600,000 and 700,000 people will visit Florida during the winter months, and this is responsible for the decision of the South Florida Chamber of Commerce and Tampa Board of Trade in favor of holding an agricultural fair in Tampa. County and individual exhibits are expected from all sections, and several counties have already arranged to have exhibits.

The business men of Tampa want it distinctly understood that not one penny that is invested in the South Florida Fair will be expended in behalf of the Gasparilla Carnival, which will be used wholly for the purpose of advertising and drawing crowds to South Florida from other states, as it receives more free advertising from northern newspapers than either the New Orleans or Mobile Mardi Gras celebrations.

Sunday at Baptist Temple Aug. 29.
Large audiences are attending the Temple services this summer. All the comforts possible have been arranged. Sunday School at 9:30 a. m.; Preaching 11:00 a. m. "The last in series on 'The Revisions of the Bible.' B. Y. P. U. at 6:45, Miss Minnie Stewart, President. Jr. B. Y. P. U. at 6:45, Mrs. Forrest Gatchel, Leader. Preaching at 7:45, "Saving Accounts" will be the subject of the address. The chorus choir will be in charge of Mrs. Ernest Beita. The 12 piece orchestra in charge of Miss Margaret Davis.

Electric fans, hand fans, ice water. Always welcome at Baptist Temple.

GOOD ROADS BOOSTERS OF VOLUSIA HERE

A LARGE PARTY OF DE-LAND PEOPLE INSPECTED THE BRICK ROADS

Volusia County people are in favor of good roads, and having voted bonds by districts for the greater part of the work are now engaged in investigating the best kind of material for the roads. Since brick seems to be the only permanent paving, a party of DeLand folks made an automobile tour to Orlando yesterday via Sanford and inspected the brick roads of Seminole county and Orange county.

Led by that indomitable scout, Chris. O. Codrington, editor of the DeLand News and one of the greatest good roads boosters in the state, the party left DeLand early in the morning and arrived in this city about nine o'clock. After resting a few minutes they left for Orlando, where they expected to have a lunch and spend the remainder of the day.

In the party were J. H. Tatum, R. E. Godman, I. T. Blaine, C. T. Kruse, Mr. and Mrs. R. P. Walter, A. C. Klingman and Klingman Jr., C. T. Williamson, V. W. Gould, Harry Phillips, W. D. Hynes, W. C. Watts, H. S. Thomas, B. W. Brown, Robert Brown, G. H. A. Fish, V. H. Voorhis, S. D. Jorday, Mayor McDiarmond, E. L. Powe, Raymond Jordan, W. C. Jackson, Chris. O. Codrington, J. F. Aldis, E. L. Rowland, J. S. Smith, Rev. C. L. Collins, J. S. May, J. S. Rogers, C. O. O'Neill, J. F. Allen, M. W. Woodward, John O'Neill.

Florida Conference Federation
The eyes of the Southern Methodist Church are upon the Wesley Bible Classes of Florida just now. Florida is to take an advance step in Sunday School work and federate all her organized Wesley classes. This will place Florida third in the line of conferences taking this advanced step. The first conference to federate its classes was South Carolina, the next to fall in line was the Central Texas conference.

The Wesley Bible Class Federation of the Florida Conference will be formed at Orlando, Florida, Oct. 26 and 27, 1915.

There is at the present time 237 organized adult Wesley Bible Classes in Florida, and it is hoped that the number will be increased to 300 by the end of the year.

In addition to a fine corps of Florida speakers and workers, and they rank amongst the very best, there are to be a number of speakers from outside the state. Some of these are: Bishop James Atkins, known as the Sunday School Bishop; Dr. C. D. Bulla, superintendent of the Adult Wesley Class Movement, Nashville, Tenn.; Miss Elizabeth Kilpatrick, a noted Sunday School specialist of Corinth, Miss.; Mr. J. M. Way, secretary of the Atlantic Division, extending from Maryland to Florida.

Membership in the class federation will include all presiding elders, pastors, superintendents, officers and teachers of organized classes and members of Wesley Bible Classes, adult, senior and intermediate.

Preliminary to the great meeting in Orlando, Miss May Kilpatrick and Mr. Way will make an itinerary of Florida in the interest of the work. Miss Kilpatrick will be at the following places: Gainesville, Oct. 17, Ocala, 18th; Lakeland 19th; Sarasota, 20th; Manatee, Palmetto and Bradenton, at Bradenton, 21st; Plant City 22nd; Tampa, 23 and 24th. Mr. Way will visit these places: Jacksonville, Oct. 17th; DeLand, 18th; Palatka, 19th; Bartow, 20th; Arcadia, 21st; Punta Gorda, 22nd; Fort Myers, 24th.

Field secretary, A. M. Cole, of Dade City, is busy with arrangements for the federation and expects it to be a great success.

Mrs. Joseph La Roche returned to her home in Tampa yesterday, after a few days visit to her niece, Mrs. L. M. Lehigh.

EAST COAST CANAL ROUTE PROPOSITION

DATA BEING COLLECTED NOW FOR THE CONSIDERATION OF THE BOARD

Among the Rivers and Harbors enactments of the last National Congress, was the authorization of a Board, whose duty it should be to investigate and make report upon the feasibility and practicability of Government purchase of the East Coast Canal, for the purpose of Intra-Coastal Waterway construction through Florida. This Board is now busy collecting data, for consideration, and our friends of the said canal project are actively supplying same. It would seem that we who know the supreme advantages, natural, economical and otherwise, of the St. Johns, should not be asleep and permit only the canal side of the question to be presented. While the instructions of the Board cover, primarily, the canal route investigation, we cannot construe the resolution authorizing same, to be intended to confine the deliberations to this alone, inasmuch as the phrasing employs the words, "or any parallel route," although Major Ladue of the Corps of Engineers appears to incline to that interpretation of the Congressional act. Below we give the Resolution, precisely as it was enacted and recorded.

"The Secretary of War is authorized to appoint a Board of three officers of the Engineer Corps of the United States Army to examine and appraise the value of the work and franchises of the East Coast Canal from the St. Johns River to Key West, Florida, with reference to the desirability of purchasing said canal by the United States and the construction over the route of the said canal of a free and open waterway, having a depth and capacity sufficient for inland navigation. Said Board, to the extent that the same can be done, from surveys heretofore made under the direction of the War Department, shall also examine and investigate the feasibility for the purpose of such a Waterway, of any parallel route between said points. The said Board shall make a report of its work, together with its conclusions upon the probable cost and commercial advantages and military and naval uses of said route or routes, to the Secretary of War, who shall transmit the same to Congress as soon as practicable."

In an interview with Major Ladue, this gentleman in his always polite and courteous manner, stated to the writer that the Board has not as yet decided upon a public hearing, that the data now in process of collecting will first be carefully studied, and then, if such a public hearing is deemed advisable, "all persons interested will be welcome" and doubtless given an opportunity to submit to the Board their views and arguments. The Major, farther, gave it as his sense of the Resolution that the primary question before the Board is the advisability of the purchase of the existing East Coast Canal, or the construction of a parallel route, and added, "I am not sure that the Board will feel justified in going into the general question of an Intra-Coastal Waterway on any other route, but if your people desire to submit to the Board any facts or statements in favor of the alternative route by way of the St. Johns River, I shall be glad to receive them and lay them before the Board."

The situation being as it is, we again urge the highly sensible and safe plan, of passing resolutions by all the Commercial Organizations, Civic, Municipal, and Country Clubs, Trades, Merchants and Agricultural Unions, and the writing of personal letters, universally throughout this vitally interested district, setting forth the incontrovertible facts and arguments that convincingly point to the St. Johns River as the reasonable and logical Intra-Coastal Deeper Waterway route from Jacksonville southward. These letters and resolutions if prepared and delivered to either the Secretary of the Sanford Commercial Club, or the Secretary or Chairman of the

Waterways Committee of said Club, will be made best possible use of when the proper time arrives. Do not delay this important matter. It is none too early to begin the telling work that certainly must be done if we are in any degree going to match the enthusiasm and unremitting activity of our East Coast Canal friends.—PROMOVER.

Married at Baptist Temple
On Wednesday morning last at eleven o'clock, Mrs. Ivis Pell of Lake County was married to Mr. C. F. Lee of Jacksonville. The ceremony was performed by Rev. Geo. Hyman of the Baptist Church, in the office of the Temple. Mr. and Mrs. Lee left for a trip down the East Coast. They will in about ten days return to Jacksonville where they will reside. Mr. Lee is an employee of the Atlantic Coast Line Railway Company.

Congregational Church
Regular services on next Sunday both morning and evening. The evening subject will be "Practical Living," the fourth in the series, "Jesus Life Principles." All members and friends are cordially invited to these services. Come and enjoy a refreshing service and fellowship with others, even though you might prefer to stay at home.

DAVID GARRICK AT IMPERIAL TUESDAY EDUARD D'OIZE ASSISTED BY LOCAL TALENT FOR ELKS LODGE

The famous old English Comedy "David Garrick" has always been a great favorite with both the profession and theatre going public, and justly so. It tells a story of absorbing heart interest and has none of the features of the stereotyped blood and thunder melodrama. There is no deep dyed villain; no weeping persecuted heroine; no stolen will; no slap stick buffoonery,—but a sweet, pretty, wholesome romance with a strong vein of refreshing and refined comedy.

"David Garrick" will be presented at the Imperial Theatre next Tuesday evening the first under the auspices of the Sanford Lodge of Elks, under the direction of Edouard D'Oize, who will appear in the title role, a part he has played over 500 times in the principal cities of the United States and Canada.

Edward Desloges, a young professional actor of exceptional ability, will play the part of blustering old Simon Ingot, a retired East India merchant, and Mrs. D'Oize will be seen as simpering Araminta Brown, of doubtful age and literary aspirations.

A specially selected cast of local talent will take the other parts. Miss Gretchen Schultz will be seen in the leading role, Ada Ingot, for which she is admirably suited to every requirement of the part. Miss Olga Schultz will have the character comedy role of Miss Smith.

The part of Dick Chivy, a disolute young nobleman with sporting propensities will be in the hands of Clarence Mahoney. The celebrated trio of comedy characters, Mr. Smith, the wine merchant, the deaf Mr. Brown, the silk merchant and the bashful, stuttering Mr. Jones will be played respectively by Chas. Dinger, Sam Yontz and Reginald Holly.

BOND ISSUE FOR GOOD ROADS IS SURE TO CARRY

PEOPLE ALL OVER SEMINOLE COUNTY ARE MOST HEARTILY IN FAVOR OF THE ISSUE

The bonds for the good roads in the county of Seminole to finish out the brick roads already built and connect with the national highways, will carry by a good majority. Every citizen of the county coming to Sanford brings in the glad tidings that the people in the county are standing up squarely for bonds for good roads. They realize that anything less than hard roads will be money wasted and the bond issue is the only way to obtain good roads now and pay for them as you go.

There will be slight opposition from some people of Sanford where the taxes are high, or supposed to be high, and some of the people are afraid to vote, but these same people when the proposition is put up to them in the proper light will favor the bond issue for the slight raise will be offset by the decrease in the road tax.

Many citizens of Seminole who are away from home are writing letters to the Herald urging the

bond issue, and realizing that without these roads, Seminole will never be able to take her rightful position in the progressive ranks of the counties of Florida.

As to the matter of just who will be allowed to vote at the bond election on the 28th of September, it might be well to state that every registered voter who has paid his poll tax for 1913 and 1914 will be allowed to cast a ballot on that day. This according to County Attorney, Geo. A. DeCotte is the law governing such election.

In the bond election for school purposes on Sept. 7th, only free holders can vote, according to the election call as published elsewhere.

It is to be hoped that the school board election is on the day following.

helping out in this matter leave a contribution at the Herald Office.

The offer from Mayor Thrasher is a cooking outfit for the boys' camps. The offer from Hill Hardware is a Stevens "Crack Shot" Rifle to boys killing the most sparrows.

Musson's Cooling Pool
Sweltering humanity is finding a welcome these days in the Musson swimming pool, recently built on Pine street, two blocks east of Sanford avenue. The pool is the most popular place in the city and is well patronized day and night by old and young alike.

NEWSPAPERS WANT THEIR DUES THEY HAVE BEEN LEGISLATED OUT OF WHAT IS COMING TO THEM

Punta Gorda, Fla., Aug. 27.—The committee on legislation of the South Florida Press association has finished the work assigned to it at the recent meeting in Plant City and is ready to make its report to the joint meeting of the South Florida Press association and the East Coast Press association to be held in Jacksonville in October. The members of the committee were Messrs. A. P. Jordan of the Punta Gorda Herald and R. O. Meek of the Fort Meade Leader. Their investigations were directed particularly toward revision of the libel laws but they have taken up several other matters in which the newspaper men of the state are vitally interested. The report follows.

"The injustice of the present libel law arises from the wording of section 13 of the bill of rights of the state constitution. The words 'good motives should be stricken out, and to this end a constitutional amendment should be submitted.

"A law should be passed to permit newspapers to publish any matters contained in the public records of town, city, county or state, and forbidding the taking of any legal action, civil or criminal, against editors or owners of newspapers publishing such records—unless it can be clearly shown that the publication thereof was prompted by malice.

"There should be a law to prohibit the publication of legal notices of any kind in newspapers that have not been established at least three years; also, a law requiring that all legal notices by individuals be paid for in advance.

"All town, city, county and state officials should be required by law to buy all their blank books and printed stationery for their offices from Florida printing concerns. If such supplies can be furnished by Florida printers.

"The law prohibiting railroad com-

panies from exchanging transportation for newspaper advertising should be repealed. The merchant is permitted to swap groceries for advertising, and the farmer can pay his subscriptions with eggs or potatoes; why, therefore, should there be any discrimination in such matters? The fact that there is such discrimination in the case of railroads is based upon contemptible inference, that all editors can be bought with railroad tickets, but not with food and clothing.

"The Bryan primary law should be so amended as to give the newspapers fair returns for political advertising. Every candidate for office should be allowed to spend for advertising in newspapers as much as \$100 in each daily and \$25 in each weekly.

"If the association approves of these suggestions, we recommend that \$25 be appropriated out of its treasury to pay Judge William A. Hocker, or any other capable lawyer whom the association may select, to prepare and write out in legislative form the laws and changes in laws which we herein indicate that we want and send them to our secretary, T. M. Callahan, Fort Myers; that the secretary be instructed to have 200 copies of each printed and mail one copy of each to each newspaper in the state, and that every newspaper editor and publisher in Florida sign a pledge not to support for election to the legislature any man who will not promise to use his best efforts to secure the legislation which we desire.

"We recommend that the proposed pledge be drawn up here and now and that every editor and publisher here present as well as others now in Jacksonville come forward and sign the pledge and that copies of the pledge be sent to all newspaper in Florida which are not now represented in this city.

Governor Fires Board
Jacksonville, Fla., Aug. 27.—Now that Governor Trammell has removed four members of the Duval board of county commissioners and accepted the resignation of the fifth, citizens of Duval county are today looking forward to the announcement of the names of their successors.

The order removing Commissioners E. A. Ricker, G. H. Brown, J. J. Lord and J. H. Patterson, and that accepting the resignation forwarded by Commissioner P. S. Bowden last Friday night was the last official act of the chief executive yesterday.

All four commissioners removed are charged with failure to protest against alleged illegal expenditures and for drawing a per diem for considerable part of each month for road inspection work.

A list of twenty-five names, five from each district in the county were selected at the meeting of 52 accredited delegates of eighteen commercial and civic organizations in the rooms of the Jacksonville chamber of commerce last night, and dispatched at once to Governor Park Trammell with request that he consider the appointment of the new board of county commissioners from among the men on that list, word of his removal of the county commissioners having been received during the session.

CHEAP RATES TO FROM ALL POINTS

TAMPA WILL GET LARGE CROWDS FROM CITIES OF THE NORTH

Even at this early date, the railroads included in the Southeastern Passenger Association have granted rates of practically one fare for the round trip from Tampa from Washington, Evansville, Louisville, St. Louis and other Ohio and Mississippi river points in honor of the South Florida Fair and Gasparilla Carnival to be held late in January or early in February. Later on connecting lines will offer low rates from New York, Chicago, Kansas City and other distant points, and the Atlantic Coast Line, Seaboard Air Line and Southern are preparing to operate farmers special trains in order to attract agriculturists from other states to this section.

The Gasparilla Carnival, which is to be made simply an advertising and crowd-drawing adjunct to the fair, will be advertised in the north as never before by the Fair Association, railroads, hotels and other agencies, and in view of the fact that the European war will prevent thousands from getting abroad and the exposition in San Francisco and San Diego will be closed, the attendance is certain to be of record-breaking order. Railroad men predict that between 600,000 and 700,000 people will visit Florida during the winter months, and this is responsible for the decision of the South Florida Chamber of Commerce and Tampa Board of Trade in favor of holding an agricultural fair in Tampa. County and individual exhibits are expected from all sections, and several counties have already arranged to have exhibits.

The business men of Tampa want it distinctly understood that not one penny that is invested in the South Florida Fair will be expended in behalf of the Gasparilla Carnival, which will be used wholly for the purpose of advertising and drawing crowds to South Florida from other states, as it receives more free advertising from northern newspapers than either the New Orleans or Mobile Mardi Gras celebrations.

Sunday at Baptist Temple Aug. 29.
Large audiences are attending the Temple services this summer. All the comforts possible have been arranged. Sunday School at 9:30 a. m.; Preaching 11:00 a. m. "The last in series on 'The Revisions of the Bible.' B. Y. P. U. at 6:45, Miss Minnie Stewart, President. Jr. B. Y. P. U. at 6:45, Mrs. Forrest Gatchel, Leader. Preaching at 7:45, "Saving Accounts" will be the subject of the address. The chorus choir will be in charge of Mrs. Ernest Beita. The 12 piece orchestra in charge of Miss Margaret Davis.

Electric fans, hand fans, ice water. Always welcome at Baptist Temple.

"Davis Garrick Imperial Theatre next Tuesday.

GOOD ROADS BOOSTERS OF VOLUSIA HERE

A LARGE PARTY OF DE-LAND PEOPLE INSPECTED THE BRICK ROADS

Volusia County people are in favor of good roads, and having voted bonds by districts for the greater part of the work are now engaged in investigating the best kind of material for the roads. Since brick seems to be the only permanent paving, a party of DeLand folks made an automobile tour to Orlando yesterday via Sanford and inspected the brick roads of Seminole county and Orange county.

Led by that indomitable scout, Chris. O. Codrington, editor of the DeLand News and one of the greatest good roads boosters in the state, the party left DeLand early in the morning and arrived in this city about nine o'clock. After resting a few minutes they left for Orlando, where they expected to have a lunch and spend the remainder of the day.

In the party were J. H. Tatum, R. E. Godman, I. T. Blaine, C. T. Kruse, Mr. and Mrs. R. P. Walter, A. C. Klingman and Klingman Jr., C. T. Williamson, V. W. Gould, Harry Phillips, W. D. Hynes, W. C. Watts, H. S. Thomas, B. W. Brown, Robert Brown, G. H. A. Fish, V. H. Voorhis, S. D. Jorday, Mayor McDiarmond, E. L. Powe, Raymond Jordan, W. C. Jackson, Chris. O. Codrington, J. F. Aldis, E. L. Rowland, J. S. Smith, Rev. C. L. Collins, J. S. May, J. S. Rogers, C. O. O'Neill, J. F. Allen, M. W. Woodward, John O'Neill.

Florida Conference Federation
The eyes of the Southern Methodist Church are upon the Wesley Bible Classes of Florida just now. Florida is to take an advance step in Sunday School work and federate all her organized Wesley classes. This will place Florida third in the line of conferences taking this advanced step. The first conference to federate its classes was South Carolina, the next to fall in line was the Central Texas conference.

The Wesley Bible Class Federation of the Florida Conference will be formed at Orlando, Florida, Oct. 26 and 27, 1915.

There is at the present time 237 organized adult Wesley Bible Classes in Florida, and it is hoped that the number will be increased to 300 by the end of the year.

In addition to a fine corps of Florida speakers and workers, and they rank amongst the very best, there are to be a number of speakers from outside the state. Some of these are: Bishop James Atkins, known as the Sunday School Bishop; Dr. C. D. Bulla, superintendent of the Adult Wesley Class Movement, Nashville, Tenn.; Miss Elizabeth Kilpatrick, a noted Sunday School specialist of Corinth, Miss.; Mr. J. M. Way, secretary of the Atlantic Division, extending from Maryland to Florida.
